

LIMERICK IS REPORTED WON BY FREE STATERS

Ralph Chamberlain of Lynn, Mass., has purchased the Charles Brennan farm at Sussex Corner. Mr. Chamberlain intends engaging in market gardening and poultry raising.

CHANDLER IN FINAL STAGE

New Brunswick Marksman at Bisley — Somerset Man's Fine Work.

Bisley Camp, July 21.—Sergt. Major Green of the Somerset Light Infantry was the winner of the silver medal given in the second stage of the King's prize competition. 800 and 600 yard prize competition. 800 and 600 yard prize competition, for the highest aggregate score, ninety-seven out of a possible 100. He scored forty-eight at the first range and forty-nine at the second. He had not shot since the last Bisley meeting and in winning the silver medal at the present Bisley shoot he used a borrowed rifle.

AGAIN DISTRICT DEPUTY

E. J. Hennessey, grand knight of St. John council, Knights of Columbus, who was district deputy for the western section of New Brunswick, has received notice from B. A. Bourgeois, Moncton, state deputy for New Brunswick, of his appointment to that position for another term. His district includes councils at St. John, Fredericton, Woodstock, Grand Falls and Edmundston.

MUST DIM LIGHTS

Provincial Constable Robert Crawford said this morning that unless motorists paid more attention to the law regarding the dimming of lights and dimming them in time he would pay some attention to them. He said he had warned people continually and was on the road last night warning them, and unless the law was respected drastic action would be taken.

IS THERE A BOOZE FACTORY?

Is house being manufactured at Lower West Beach, about seventeen miles from the city? Motor boats with no particular object that is apparent are about there in the early morning hours. Lights are seen through the night. Lobster fishing is over. Strangers come and go in the hours of darkness. There are some persons always in the vicinity but with no visible means of support. The matter is said to be worth looking into by the authorities.

FOR THE BLIND

Miss Marceline Boudreau, home teacher for the marston provinces in connection with the work of the Canadian National Institute for the Blind, has arrived in the city and is staying at the King's Daughters Guild. She is making arrangements to assist the blind of the city in their homes. H. B. Campbell, of Halifax, in charge of all the blind in this section, is also in the city. He said today that some thirty-five blind or partially blind people, who had registered with the institute, were residing at distance, but that there were others who had not registered who were being helped.

TRAFFIC CASE

Edward S. Gibbon was charged in the police court this morning with leaving his car to stand at the corner of St. George and Watson streets, West Side, without lights and on the wrong side of the street a longer time than allowed by law. Sergeant O'Neill said there had been several complaints from neighbors about the length of time the car had stood there. Police Constable Blais said he had had complaints as well, and the place where the car had been allowed to stand was really the sidewalk, though little used. On the defendant agreeing to respect the law in future, and considering that the place was little used as a sidewalk, the matter dropped.

RAILWAY YARD CASE

The case against James Rossiter, C. N. E. section foreman, charged with assaulting Joseph Walsh, a sectionman, was to have been taken up again this morning in the police court, falling in agreement between the parties. Neither Rossiter or Walsh were present this morning. J. H. A. L. Fairweather appeared in the interests of Rossiter. He said the accused had been under his charge for three years overseas and he had found him a very exemplary man in every way. From what he could see the fault lay with Walsh. J. A. Barry for Walsh said that he would like to see an agreement reached, but could not see that the fault lay with Walsh. C. N. E. Special Agent Ryan was present in the interests of the railway and said he did not think the railway would do anything in the way of an investigation until court proceedings were finished. The magistrate said he did not think Mr. Rossiter need lose any sleep over the case, as Mr. Fairweather had said Rossiter was worried about it. The case was adjourned until next Friday at ten o'clock.

RUMORS ABOUT GOVERNMENT AND RAILWAYS

Ottawa, July 21.—It is not thought likely here that announcement of the new board of management of the Canadian National Railways will be made before the first of August.

LOCAL NEWS

WILL FARM AT SUSSEX. Ralph Chamberlain of Lynn, Mass., has purchased the Charles Brennan farm at Sussex Corner. Mr. Chamberlain intends engaging in market gardening and poultry raising.

LIQUOR CASE

Rex McClure of Prince of Wales was before Magistrate Allingham this morning in the Fairville court one motorist was fined \$10 for speeding in the Loch Lomond road and two others were fined \$5 each for speeding in Roddaway avenue. The reports were made by provincial Constable Robert Crawford.

FINED FOR SPEEDING

Before Magistrate Allingham this morning in the Fairville court one motorist was fined \$10 for speeding in the Loch Lomond road and two others were fined \$5 each for speeding in Roddaway avenue. The reports were made by provincial Constable Robert Crawford.

FUNERAL

The body of Mrs. Elizabeth Fleming was taken to Gagetown this morning on the steamer D. J. Purdy for interment there. Relatives and friends accompanied there. Services were conducted at eight o'clock last night at the home of Charles Fleming, 75 Adelaide street, by Rev. E. O. Gallagher.

BASEBALL

The Fairville Canucks, leaders in the west side junior league, will play two games tomorrow at Fredericton Junction with the Sumbury county grammar school team. The Fairville team has won nine out of twelve games in the junior league. Nelson and Phillips probably be on the mound with Soodgrass and Coughle behind the bat.

AGAIN DISTRICT DEPUTY

E. J. Hennessey, grand knight of St. John council, Knights of Columbus, who was district deputy for the western section of New Brunswick, has received notice from B. A. Bourgeois, Moncton, state deputy for New Brunswick, of his appointment to that position for another term. AMLAND BROS., LTD., - 19 Waterloo Street

PROHIBITION ACT CASES DISMISSED

On Thursday a case having to do with an alleged violation of the Prohibition Act came up at McAdam Junction before Magistrate Murray of Harvey, York county. Thomas Evans, a grocer, was charged with selling liquor to Carl Zeltman of Fredericton, who purchased from Evans a bottle of Romanian named Slenowitz, both of whom said they were in the employ of the prohibition authorities, sworn that they purchased from Evans a bottle of so-called pure alcohol, which they termed "moonshine".

The defendant and a man named Charles said that they were in the store when the informants entered, and that they bought cigarettes and punched a hole in the tin of beer. The defendant and Charles were charged with selling liquor to Carl Zeltman of Fredericton, who purchased from Evans a bottle of so-called pure alcohol, which they termed "moonshine".

After hearing the representatives of the parties and Inspector Saunders, the magistrate dismissed the case. F. Hawkins of Fredericton appeared for the prosecution, and John A. Barry of St. John for Evans, the defendant.

Cases against L. M. White, a druggist at McAdam, for selling wine, and J. W. Little for selling liquor were also dismissed. The same parties were interested in the Little case as the prosecution offered no evidence as it was admitted a mistake had been made.

JACQUET RIVER FIRE IS OUT

Fredericton, N. B., July 21.—L. A. Gagnon, chief fire and game warden, has returned from Resigouche, Gloucester and Northumberland. He reports conditions as excellent in regard to forest fires, and game very plentiful. Agriculture in that section has had a favorable season except that Colorado beetles were more numerous than usual and damaged the potato fields.

Chief Forester G. H. Prince has reported word from Jacquet River, Restigouche county, that the fire reported in that section a few days ago was extinguished.

Although no reports of "rust" in the potato fields have been received, it is feared the disease has made its appearance.

TROOPS ON HAND AS MINES OPEN

Parisburg, Pa., July 21.—Cavalry and machine gunners are moving into several counties of the state to prevent disorders when bituminous mines are reported.

Quebec Candidate. Papineauville, Que., July 21.—Desire Lahaye, merchant and mayor of Buckingham was chosen as candidate for Liberalism at a Liberal convention here yesterday. Hon. J. L. Perron, minister of roads, declined to run.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE RUTHERFORD REPORT.

The case for a vocational high school in St. John is so unambiguously made by the Rutherford report submitted to the vocational committee that the latter can do no less than provide such a school as soon as possible, and not be niggardly about it.

To be frank, the conditions set forth in the report are a disgrace to St. John. Out of 9,067 pupils in the schools the grading record shows that 8,814 are retarded, that is to say, they are below the grade in which their age would warrant them in being classed; but still more significant is the estimate that 2,089 children between twelve and seventeen years are not in school at all.

Why are so many pupils retarded? The chief reason is that after they reach the age of twelve the present curriculum is not suited to the needs and ability of a large number. They should have pre-vocational training for two years to be followed by a vocational course. Not only would that course help them, but it would keep in school the great majority of the more than two thousand between twelve and seventeen years who are not there now.

Mr. Lewin's fear that the government would not back any large expenditure is unfounded. The government pays 25 per cent of the cost of buildings, 50 per cent of cost of equipment and 60 per cent of salaries. There should be no hesitation in this matter. St. John does not want to be told presently that it has less enterprise and faith in itself than Moncton and other cities and towns in the province.

Whether St. John is to get cheap power, and the industrial expansion it brings, depends upon the attitude maintained toward the New Brunswick Power Company. In no spirit of revenge, but with a resolve to get the full benefit of the Musquash development, the city must get on with the business of distributing the current at cost.

In other words—a vocational school. There is the greater need of such a school because the present schools are full to overflowing. The only possible ground of protest against the erection of this school would be that of expense, but the government pays twenty-five per cent of the cost of the building, fifty per cent of the cost of equipment, and sixty per cent of the salaries after the school is opened.

The report of Mr. Rutherford is too exhaustive to be covered in one or many articles. It quotes great numbers of expressions by business men and manufacturers strongly endorsing vocational training, presents charts, conclusions and recommendations, and gives a detailed account of the requirements of a building and outline of courses for both day and evening classes. It gives much valuable information that every citizen should absorb.

The City Council, Board of Trade, Commercial Club, Rotary Club, Gyo Club and other organizations desiring to see St. John make a great forward step should at once assure the vocational committee of their hearty approval and support of action along the lines indicated in this report which of course will be printed and widely circulated.

Of hydro progress in Ontario the Toronto Globe says—"F. A. Gaby, Chief Engineer of the Hydro-electric Power Commission, states that the installation of No. 3 generator at the Queenston power house, Chippawa, is about completed, and this unit will be put on commercial load about the first of August. With three units operating the plant will be producing 180,000 horsepower, bringing in a revenue of approximately \$5,000,000 a year. This is one of the total number of units to be added on commercial load, the tenth unit to be kept for utility purposes."

Toronto Telegram—"Breakdown of private ownership of the coal mining industry and its consequences is a reminder that private ownership of public utilities is a licensing system and that the government, in the last resort, stands between the public and private ownership inefficiency."

WE MUST FACE THE ISSUE

Industrial expansion in St. John is conditioned on two things, cheap power and skilled labor. We are assured of the former. To get the latter we need a vocational high school, built on generous lines and thoroughly equipped. We must have more school accommodation. Dr. Bridges very forcibly dwelt on this fact at yesterday's meeting of the vocational committee, and also made it clear that vocational training cannot be carried on in the present school buildings. Not only would a vocational high school relieve, as he says, the present overcrowding in the cultural schools but it would lessen the number of retarded pupils in these schools and also keep in school most of the twelve hundred between the ages of twelve and seventeen who are not there now.

Alex. Wilson's plea for a new vocational high school was partly based on what he heard at the meeting of the Manufacturers' Association of what is being done in Ontario towns and cities. Industry needs trained help and the vocational school provides it. St. John is most favorably located to become a centre of manufacturing for export. A vocational school to train workers is a first essential. Dr. Bridges estimates the cost of a building at about \$250,000. That would not be excessive for a city like St. John. We know that Ontario cities much smaller than St. John do not balk at half a million, and the benefit reaped justifies the outlay. Our present school buildings will not meet the need. They are in the first place designed for another class of work, and in the second place they are overcrowded.

Mr. Lewin's fear that the government would not back any large expenditure is unfounded. The government pays 25 per cent of the cost of buildings, 50 per cent of cost of equipment and 60 per cent of salaries. There should be no hesitation in this matter. St. John does not want to be told presently that it has less enterprise and faith in itself than Moncton and other cities and towns in the province. Let everybody unite to get into school that twelve hundred who are out, and to advance the 8,814 retarded pupils who are so retarded chiefly because the curriculum is not fitted to their needs. St. John cannot face the Rutherford report and remain passive without losing caste as a city of intelligent and progressive people.

WATCHFUL WAITING

Whether St. John is to get cheap power, and the industrial expansion it brings, depends upon the attitude maintained toward the New Brunswick Power Company. In no spirit of revenge, but with a resolve to get the full benefit of the Musquash development, the city must get on with the business of distributing the current at cost. To do otherwise would be to betray the public interest. If the power company chooses to compete for a time, that is its privilege, and it knows in advance what the end will be. If it wishes to sell out, it can only do so on terms satisfactory to the people, and if it nurses the delusion that the people are eager to buy at an inflated valuation it has only to wait and see. The development of Musquash was not undertaken in the interests of a private corporation, but of the people. The only change in public sentiment since the civic elections is a deeper conviction that Musquash can deliver the goods, and that a civic distribution system will cost less—if it must be erected—than was originally estimated. It is not in any spirit of hostility to the company, although even that might be excused in view of past experience, but with a determination to change an intolerable situation that the people call upon their representatives to get on with the task for which they were elected. It would exactly suit the purpose of the company to have the impression go abroad that many people had changed their minds, or were opposed to competition, or to municipal ownership, or would refuse to take the new power when offered; but no such change has come about. The people are waiting—that is all—and they do not want to wait too long. The summer is passing. If while private conferences are prolonged they grow a bit restive, it is not unnatural. They will be glad if the outcome shows their interests to have been advanced.

The following paragraph explains why few men care to enter the teaching profession and remain in it—"Recently Princeton University authorities published figures showing the earning capacity of the class of 1912. This class had had just ten years to find its feet, and in response to a college questionnaire, the class reported an average income last year of \$8,750. The largest income reported was \$50,000, by a manufacturer; and the lowest income was \$3,225, which was earned by a teacher."

Toronto Telegram—"Breakdown of private ownership of the coal mining industry and its consequences is a reminder that private ownership of public utilities is a licensing system and that the government, in the last resort, stands between the public and private ownership inefficiency."

Chicago, July 21—"No wonder the immigrant gets the wrong impression of America when he meets the worst kind of Americans in charge at Ellis Island," said Miss Esther Nordstrom, Miss Nordstrom, the author of five books, came here from Sweden in the steerage of the ship, and is on her way to Minnesota to study Swedish immigrants there. "The treatment the immigrants receive at Ellis Island," said Miss Nordstrom, "is not at all typical of America. The officials treat the incoming foreigners as if they were animals, shove them around and swear at them."

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

THE AUDIO FREQUENCY AMPLIFIER.

(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.) The audio frequency amplifier derives its name from the fact that it is employed to increase the strength of the radio signal in a receiving system after the signal has been converted from a radio frequency into an audio frequency by the action of the detector tube. In its simplest form the audio frequency amplifier consists of an audio frequency amplifying transformer, and an audio frequency amplifier designed for this purpose. A standard audio frequency amplifier consists of a combination of apparatus which makes use of two such units is said to contain a two step audio frequency amplifier. It is impractical to use more than two or three steps or stages of audio frequency amplification due to the tendency of additional stages to over-amplify noises developed in the tube itself and disturbances caused by induction from local lighting circuits. When it is desired to receive louder signals or signals from stations which cannot be heard with a detector and one or two stages of audio frequency amplification, it is necessary to resort to radio frequency amplification.

The audio frequency amplifying transformer consists of a small transformer usually of the shell type, having a laminated core of the best grade of silicon steel. The ratio of secondary turns to primary turns varies with the different manufacturers, but is usually about nine to one. The primary of the transformer is connected to the plate circuit of the detector tube while the secondary is connected to the grid circuit of the next tube, the amplifier tube. The frequency range of the signals passing through the windings of the audio frequency amplifying transformer is very small compared to the frequency range of the signals which flow through the windings of radio frequency amplifying transformers. Unlike radio frequency amplifying transformers which must be designed for the particular frequency on which they are used, a standard audio frequency amplifying transformer may be used which covers the entire range of audio frequencies. A horn may be attached to the telephone receiver to throw the amplified signal out into the room, such a device being referred to as a loud speaker. Such a device may be employed satisfactorily where one or two stages of amplification are used, the energy in the plate circuit of a single detector tube being too small for this purpose. It is possible with a single stage of audio frequency to obtain an energy amplification of several hundred times which means that the signal will sound about twenty times as loud in the telephone receiver. Two stages of audio frequency amplification gives an energy amplification of several hundred times, rendering the audible signal about four hundred times as loud. The filament current supply and the plate current supply for the vacuum tubes used in multi-stage amplifiers of the radio frequency type are obtained from the same source which furnishes current for the detector tubes.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

Opera tickets by mail order. The Imperial Theatre is offering a special feature picture "The Bride's Play" which proved a strong magnet for many last evening. There were numerous counter attractions including a band concert in King square. The scenic beauty of the feature and the sweet Irish romances made it stand out prominently as one of the novelty pictures of the summer season and a most worthy member of the Imperial's summer suite of star programmes. After their first performance last evening the Imperial's telephones rang for fully half an hour with messages of congratulatory congratulations which desired to express their appreciation of the entertainment they received in the screening of the elaborate feature and the delightful way in which it was played by the Imperial's orchestra—a medley of haunting Irish melodies and folk-songs.

IRISH ROMANCE HIT AT IMPERIAL

The Imperial's feature picture "The Bride's Play" proved a strong magnet for many last evening. There were numerous counter attractions including a band concert in King square. The scenic beauty of the feature and the sweet Irish romances made it stand out prominently as one of the novelty pictures of the summer season and a most worthy member of the Imperial's summer suite of star programmes. After their first performance last evening the Imperial's telephones rang for fully half an hour with messages of congratulatory congratulations which desired to express their appreciation of the entertainment they received in the screening of the elaborate feature and the delightful way in which it was played by the Imperial's orchestra—a medley of haunting Irish melodies and folk-songs.

FIRST TIME IN ST. JOHN.

We have by a streak of good luck been able to make arrangements with Lieut. Edwin Smith, R. N. V. R., F. R. A. S., who has been appointed officer-in-charge of the great Admiralty picture, "The Empress Theatre on Friday and Saturday, July 21 and 22. This is the official picture of the British Navy, which shows the large and small, doing their work, and more airships, sea-planes, flying boats and dirigibles than ever seen in one place before. There are no fake pictures, and the photography is perfect. The whole Grand Fleet in action. Lieut. Smith, who has had a distinguished career in the British Navy during the war, will give a short introductory address on "The Navy's" during the War."

LOCAL NEWS

A concert by the City Cornet Band and refreshments of ice cream and cake were the main events of a concert which was put on through the kindness of Commissioner Walsh at the Municipal Home last night.

The W. M. S. of Victoria street Baptist church held a very successful luncheon yesterday afternoon on the grounds of Mrs. McLaughlin, in Millidge avenue. Miss Alberta Stockford was the general convener.

Tenders for repairing and painting the two schools in Morris street, Fairville, were opened at a special meeting of the Fairville school board last night. The contract for repairs was awarded to William J. Linton of Fairville, and contract for painting was set aside for a time.

It has been announced that Rev. Dr. Campbell Morgan, formerly minister of the Westminster chapel in London and a famous divine, will be in St. John for five days in October. Congregations responsible for bringing him here are those of St. Andrew's, St. David's, German street Baptist and Centenary Methodist churches. Rev. F. S. Dowling has been elected chairman, and W. C. Cross secretary of a committee to make arrangements for a series of meetings to be held afternoon and evening.

D. MAGEE'S SONS, Limited St. John, N. B. SINCE 1859

FINDS CHILD AFTER 4 YEARS

Torrington, Conn., July 21—After a four year's search, Grace Curtis, nine years old, daughter of Mr. and Mrs. E. W. Curtis, has been found by her mother.

The child disappeared after the Connecticut superior court had awarded custody of her to her mother, with her father charged of contempt. He retaliated by issuing a pamphlet, which attacked Judge Lucien F. Burpee, and was again arrested and sentenced to jail. During his trial he became violent in court and was finally committed to an insane hospital.

The girl was discovered Saturday by her mother in the Grand Central Station, New York City. Her brother Irving was with her. Mrs. Curtis started proceedings to have her son arrested on the charge of kidnapping, but dropped the case when he gave up the girl.

Mrs. Curtis received a divorce in December on the ground of cruelty.

MURDER VERDICT IN TRIFTS INQUEST

The final session of the coroner's inquest into the death of Frederick H. Trifts, on Thursday, July 6, met last night in the court rooms, with Coroner H. A. Porter presiding.

Detective Biddecombe told of being called at seven o'clock and going to the scene with Detective-Sergeant Power. He described the condition of the car and the steps taken by the detectives to trace the origin of the phone call which had taken the murdered man to the avenue.

The juror, in his charge, reviewed the evidence and said he thought the jury could exclude all ideas of suicide from their debate.

The juror, in his charge, reviewed the evidence and said he thought the jury could exclude all ideas of suicide from their debate.

RECENT DEATHS

Dr. Peter White Cody. W. S. Cody, 18 Harvey street, has received word that his brother, Dr. Peter White Cody of Lawrence, Mass., has passed away and that his body was

taken to Centerville and buried on Tuesday. He was a native of Cody's, Queens county, N. B., and has several relatives living in the province.

THE LATE MRS. ALBERT SEAR. Carrie S. Sear, wife of Albert Sear of Penobscis, passed away at her home on Friday last, the 14th inst. She had been around about her home on Friday as usual, when she was stricken with heart failure and her death came suddenly and unexpected.

The sudden passing of Mrs. Sear came as a great shock to her relatives and friends, and when the news of her death became general it cast a deep gloom over the entire community.

The Propyl-lactic really cleans between the teeth. YOU can make any tooth brush reach the inside surfaces of the teeth, if you try hard enough. But the curved handle of the Propyl-lactic Tooth Brush makes it easy to brush the hard-to-reach places. The tufted bristles reach between the teeth and into depressions made by crooked teeth without any special effort on your part. This brush gives you all the help in the world and makes every brushing a thorough one. Propyl-lactic Tooth Brushes are made in three sizes—adults', youths', and children's; and in three textures of bristle—hard, medium, and soft. Each brush is sterilized after being enclosed in the yellow box. Buy them at any store where tooth brushes are sold. If you buy one that does not give you satisfactory service, return it to us and we will replace it. Send for interesting booklet on the Care of the Teeth. **MORNING NEWS
OVER THE WIRES**

Grand Trunk railwaymen to the number of about 3,000 have declined to accept a cut in wages. The cut is from two to five cents an hour and went into effect at midnight Wednesday night.

Premier King has expressed the opinion that employees of the C. N. R. should be as free to participate in politics as employees of the C. P. R. This developed in the course of an appeal on behalf of two men who had been dismissed from

the C. N. R. under the Hanna "no politics" order. It remains to be seen what action the railway board will take.

It is reported that in order to facilitate the reorganization of the C. N. R. the railway board has resigned from D. B. Hanna down. It is not known whether the resignations were asked for or not. Dr. A. P. Barnhill, K. C., of this city is one of the directors.

A case against Arthur Ellis, official hangman of Canada, charging him with aggravated assault was withdrawn by the complainant, his wife in Montreal yesterday. An arrangement was made

for her support and Ellis offered to give his wife half of what he made.

POKING HIM UP.

(Toronto Telegram.)
No rest is in prospect for Hon. Manning Doherty, minister of agriculture. He removes a British reflection on the health of Canada's cattle, and at once up pops a new reflection on Canada's cheese.

To save travelling expenses it may yet be necessary to establish Mr. Doherty in an office in London, where he can respond to these constant alarms like a fireman going to a fire.

**DEFER ACTION ON
VOCATIONAL REPORT**

Those Going Into Industry Have Had Right to Training Along Lines of Life-work, Said Mr. Wilson—Another Session Next Week.

A meeting of the St. John vocational committee was held in the school trustees' office yesterday afternoon with Hon. H. A. McKeown presiding. The report of the vocational educational survey of the city, made by F. S. Rutherford, was received but action on it deferred.

J. P. Hauessey agreed with a statement in the report that an up-to-date plant for training along industrial lines was needed.

Alexander Wilson advocated an effort being made to obtain a trade school where vocational training could be given. It should not be hard to raise the money, he said. Those going into industry had as much right to training along the lines of their lifework as those going into professions.

Dr. H. S. Bridges said that a suitable building for vocational needs would cost about \$250,000, and the community would derive great benefit from the establishment of a vocational school. He did not consider it would be difficult to interest the public in the matter, and felt it would not be wise to try to get along without a building.

Mr. Peacock explained that one-fourth of the expenses of building, one-half of the expenses of equipment, and sixty per cent of the salaries in connection with vocational training would be paid by the government, provided the buildings were erected before the close of 1923. One-half of this government grant would come from the province and one-half from the federal government. Already the province of New Brunswick had lost \$25,000 of the federal grant because it had failed to push its programme of vocational training. The maximum of the federal grant for the year would be \$50,000.

J. D. P. Lewin remarked that the government appropriation of only about \$30,000 looked as if no extensive building programme would be financed.

Fletcher Peacock, director of vocational training, explained that the figure had been fixed at the probable expenditure. He told of the building of a school in Edmundston on a twenty-year bond issue. The government, he said, were committed by legislation and precedent to support any vocational training established in St. John.

Judge McKeown said he thought there should be some way of working in the vocational instruction under the school system on account of the large expenditure necessary for Mr. Rutherford's plan. Mr. Peacock said he thought his honor's suggestion could not be carried out on account of the present crowding of schools. He said that the idea was not to take pupils away from the schools but to reach the number who now did not attend school. His honor said he felt it was a pity that school buildings which were now idle could not be used for some purpose. Dr. Bridges said there would be provision for manual training and domestic science in the new school but that an annex would be necessary for vocational training and this would have to be duplicated in all the schools. A adjournment was made until next week for the members of the committee to become more familiar with the report.

flavour

—the essence of the tea leaf is its FLAVOUR and it is to enjoy this nectar that we use tea.

To be assured of the finest tea-flavour of unequalled richness and refreshing quality, use only the genuine "Salada" as blended for the Canadian Public since 1892.

Every Maritime grocer sells this delicious tea.

Metal foil packets only 1 lb, ½ lb and ¼ lb sizes

For Flavour use

"SALADA"

You should know that fabrics washed with the wonderful LUX suds are always dainty and fresh. The thinness of the LUX wafers, our exclusive process, makes them dissolve completely in hot water. No free soap remains to spot the garments or make them yellow. LUX will not harm anything that pure water itself will not injure.

Sold only in sealed packets—dust-proof!

**That Delicious Bread
—of Energy and Iron**

SERVE raisin bread twice weekly on your table for three reasons:

1. Flavor; 2. Energy; 3. Iron
- You remember how good a generously filled, full-fruited raisin bread can be. Your grocer can supply a loaf like this.
- Insist—if he hasn't one he can get it for you.
- Full-fruited bread is full of luscious seeded Sun-Maid raisins—rich in energizing nutriment in practically digested form.
- Raisins also furnish fatigue-resisting iron for the blood. Serve plain raisin bread at dinner or as a tasty fruited breakfast toast with coffee.
- Make delicious bread pudding with left-over slices. No need to waste a crumb of raisin bread.
- Begin this week the habit of raisin bread twice weekly in your home, for raisin bread is both good and good for you.

**SUN-MAID
Seeded RAISINS**

Make delicious bread, pies, puddings, cakes, etc. Ask your grocer for them. Send for free book of tested recipes.

**FAIRVILLE HIGH
ENTRANCE RESULTS**

The results of the high school entrance examinations held at the Fairville Superior school in June were announced last night by J. A. Edmonds, principal of the school and chairman of board of examiners. Following are the names of the successful candidates arranged in order of merit:

- Division 1—John E. Gunter, Lee Aston Purdy, Doris L. Moore.
- Division 2—Eugene Lillian Schofield, Barry Quigg, Harry Phillips, Ruth Rose, Albert Lawson, Florence Belts, Pauline Patterson, Mabel McCaughan, Donald Gillies, Muriel Kirkpatrick, Doris Davis, Joseph Reid.

**TROUBLES AT
BROWN'S FLATS**

Trouble has developed in the vicinity of Brown's Flats, Oak Point and surrounding country over an unpleasant incident which is said to have occurred there recently. Rev. George Fincombe, pastor of the Baptist circuit is said to have been staying at the home of Deacon William Hamilton on the night of May 19, and as a result of some trouble involving the deacon's daughter-in-law, C. S. H. M. and A. Hamilton, it is alleged, prevented the minister from holding divine service on the following Sunday. Information was laid against the Hamiltons and the preliminary hearing was begun at Brown's Flats before Magistrate Gorman and Morrissey. G. H. V. Belyea, K. C. and Francis Kerr represented the defendants and Col. W. H. Harrison the complainant. The hearing will be continued and B. L. Gerow will represent the complainant. It is said that there is hope of an amicable settlement. The charge against the Hamiltons is that of preventing the carrying out of a religious service.

EAST ST. JOHN PROBLEMS.

To the Editor of The Times:
Sir,—Mr. J. A. Sheehan says in his letter of the 18th that I am a member of a committee that is negotiating with the commissioners regarding union with the city and East St. John. I am not a member of this committee, but I attended as part of a delegation with the committee when their proposals were laid before the city commissioners for consideration. The late mayor promised to take the matter up as soon as convenient. What does Mr. Sheehan expect this committee to do? Does he expect them to worry the commissioners with letters, and force them to lay aside the business of the city, which is of great importance at the present time. Mr. Sheehan's proposal that the city take in East St. John for five years free of taxation is a big joke to any business man. All the pulmotor work of Mr. Sheehan has accomplished very little. I pointed out in my first letter, individual grumbling is of no use, but co-operation of all the ratepayers is necessary to get the best results.

Yours very truly,
ALICK TAYLOR
East St. John

PICNIC PRIZE WINNERS

A very successful picnic was held by the Sunday school of the First Presbyterian church, west side, yesterday at Grand Bay, under the direction of J. S. Williamson, chairman of the trustee's board of the church. The prize list for the sports follows:—Excelsior—Burtis

Fullerton and Miss Hawkins; Ladies bean toss—Mrs. Brown and Mrs. Fitzpatrick; Men's bean toss—R. Turnbull; Ring toss—W. B. Brown; Old Kirk Bell—Walter Allingham; Babies on the block—Hedley Northrup; Ten pins—Mr. Stinson; Air gun—Mrs. Edward Wilson; 100 yards dash for seniors—F. W. Campbell; Hop, step and jump—M. McLain.

A very enjoyable band concert was given in King square last evening by the St. Mary's band, the members of which introduced a slight variety into the programme by singing some of the popular airs. The Carleton Cornet band was scheduled to play last night, but as some of their players are away at camp, the place was taken by the St. Mary's band.

**So extra delicious
With fresh fruits on a hot day**

No other food has such an appeal on a hot day as Kellogg's "WAXTITE" Corn Flakes! They win fickle appetites, they satisfy hungry folks! As an extra-summer taste thrill, eat Kellogg's "WAXTITE" with the luscious fresh fruit now in season. Such a diet is not only ideal from a health standpoint, but it is refreshing—cooling and enjoyable beyond words.

Eat Kellogg's "WAXTITE" Corn Flakes liberally because they digest easily. Let the children have all they want. All will be better for a lighter diet—and free from headaches and sluggish drowsiness.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JULY 21, 1922

St. John's Crying Need For A Vocational School

Nearly 4,000 Pupils Retarded From One to Six Years—More Than 1,200 Between Ages of Twelve and Seventeen Not in School at All—Rutherford Report an Eye-Opener.

The report of the vocational education survey of the city which was made by F. S. Rutherford has been compiled and yesterday copies were presented to the members of the St. John vocational committee. A summary of the report is given below.

The vocational survey was made in the city of St. John and the suburbs of Fairville, Randolph, East St. John, Fokok, etc., which form part of the industrial area. Its purpose was to secure information regarding the industrial and commercial classification of employes, the classification of pupils now in the schools, and to secure the opinions of employers and employes as to the need of vocational education.

The occupational distribution of the 8,802 employed persons were found to be as follows: Commercial and mercantile, 2,476; metal working, 1,280; textiles, 49; lumber and woodworking, 469; printing and binding, 11; building trades, 241; hotels and restaurants, 162; millers, bakers, candy and dairies, 175; electrical trades, 170; leather working, 68; laborers, 1,644; longshoremen, 300; fishermen, 200; miscellaneous, 897.

The occupational distribution of workers in the commercial and industrial group showed a large number employed in salesmanship, although only the larger wholesale and retail business houses were visited for the purposes of the survey. Of the 2,476 people employed in mercantile and commercial callings, 634 were clerks, 551 salespeople; 288 managers and executives and 242 stenographers, 151 bookkeepers, 189 packers, 92 travelers, 73 warehousemen and 74 accountants, 68 milliners and 65 shippers, the remainder being divided between ledgerkeepers, tellers, messengers, advertising agents, purchasing agents and miscellaneous.

The 1,717 women employed were distributed as follows: Textile workers, 276; stenographers, 243; salespeople, 199; hotels, etc., 189; telephone operators, 143; clerical work (o.c.), 142; the remainder divided between confectionery and ice cream, woodworking and brushes, bookkeepers, milliners, tea and coffee packers, printing and book-binding, laun-

the greater number of retardations were due to the first cause, an unsuitable curriculum.

The falling off of attendance in the higher grades was particularly marked. While there were 1,616 in grade one and 1,143 in grade five, the falling off was rapid after that grade. In grade six there were 895; grade seven, 749; grade eight, 551; grade nine, 319; grade ten, 158; grade eleven, 101 and grade twelve, 18.

By using accepted standards of population ratio, the number of pupils not attending school was arrived at and it was believed that a total of 2,059 between the ages of twelve and seventeen were not attending school as compared with the 3,711 who were attending. This number of those not attending fell into the different age groups as follows: Twelve years, fifty-nine; thirteen years, sixty-three; fourteen years, 145; fifteen years, 389; sixteen years, 608, and seventeen years, 818. Those attending school at the age of sixteen and seventeen were far fewer than those not attending school at those ages. While it was believed that 2,059 were not attending school between the ages of twelve and seventeen it was found that the number of adolescents employed between the ages of fourteen and eighteen was only 144 and it was evident that all of those not attending school were not away from school because they were compelled to seek employment. An allowance of 300 was made for persons attending private schools and colleges outside the city, bringing the total of those not attending school and not employed to 1,215.

A Reasonable Method.

With the 1,215 not attending school between the ages of twelve and seventeen the retarded pupils in the schools at those ages number 1,880 making the total of those adolescents either receiving no schooling or retarded, 3,115. The vocational course for those twelve to fourteen years of age and vocational courses for those fourteen years of age and over would appear to be the most reasonable method of correcting this retardation and elimination.

Having presented the facts of the case, Mr. Rutherford in his report set out on the following conclusions and recommendations which are summarized in the following paragraphs.

For conclusions it was found the great mass of the people were engaged in commercial, industrial, technical and home-making activities. St. John was felt to present a good field of opportunity for those trained along industrial and commercial lines and home-making was found the field in which the majority of women and girls ultimately found a place. There was a marked retardation and elimination of pupils in the common schools and high schools, a remarkably small number of pupils attended high schools, and a great waste of time to young employes and to their employers due to the absence of vocational counseling and a satisfactory apprenticeship system.

The need of vocational education in St. John was shown to be sufficient to justify the establishment of a day vocational school under the vocational education act and provision should be made for evening industrial, technical and home-making classes, the aim of the school being to encourage boys and girls to remain at school at least two years longer than the age required by law in order that they might receive some preparation toward their future vocation. The courses in the vocational school should be provided as follows: 1. Pre-vocational course; 2. commercial course; 3. industrial course for boys; 4. home economics course for girls. It was felt that any provision for day vocational pupils evening classes should be borne in mind as experience had shown that evening classes were stimulated and larger numbers enrolled when satisfactory accommodation was provided.

While it was not in the province of the report to recommend a site, it was felt the school should be located as near the centre of population as possible, within a block or two of the car line.

Study and Equipment.

The report entered into detail in regard to the courses of study and the equipment necessary.

The pre-vocational course was designed to catch the restless pupil and retain him in the school instead of losing him after the fifth grade. This course was to begin at the end of the sixth grade and continue until the end of the eighth grade and in weekly time allotment 300 minutes would be given to English, 210 to mathematics, ninety-five minutes to geography, 180 minutes to physical culture and varying periods to history, citizenship, civics and economics and science, while mechanical drawing would occupy 120 minutes and 360 minutes would be devoted to practical work in either woodworking, forging, printing, cooking or sewing.

The commercial course should be a three year one, which would take the pupils who had completed the eighth grade either in the academic or the pre-vocational course. The three years spent in this work would allow time for a specialized training for business life, as well as a good general education. The time should be evenly divided between academic and commercial subjects and the commercial subjects should include English, arithmetic, history, geography, economics, bookkeeping, business laws and papers, stenography and typewriting, physical training and as a possibility, French or art and design.

The industrial course for boys was designed to meet the needs of the boy going into industry and enable him to choose wisely the type of work which he wished to follow. The students should have a good understanding of the fundamental principles of mechanical operations and a "shop sense." The

Club luncheon yesterday by Dr. Hugh A. Farris, superintendent of the St. John county hospital at East St. John, when explaining matters in connection with the hospital. The dispensary, he said, was out of a home at present and its appropriation had been cut by \$1,500 for the present year. Now, there was a plan on foot to develop a health centre in the V. O. N. home and thus consolidate health preservation and disease prevention systems. By the first of August some decision must be arrived at, and he urged the Commercial Club members and all citizens to unit behind this forward movement.

Major Ronald A. McAvity, president of the club, was in the chair, and on the conclusion of Dr. Farris' address, thanked him most heartily for his very practical remarks. He declared that Dr. Farris was doing a great work, quietly and assiduously, and deserved the support of all citizens interested in the welfare of their city.

Reflections

Deterioration of ability is inevitably reflected in the earnings, whether master or employe, or muscular or mental his occupation.

We cannot "lose grip" without losing money—business nowadays is too fierce for that. We must retain our hold, we cannot afford to let slip the advantage which a lifetime's labor has brought us. And the first step is to improve our vision. Much can be done if you will see an optometrist.

For Safety's Sake

When the Lights Go Out. What do You do?

STRIKE a match? Light a candle or dangerous oil lamps? Open flame lights are unsatisfactory and dangerous. There is an Eveready Flashlight that will fit your particular needs and provide a safe, portable, and convenient light, always ready to give a flood of light on dark paths outdoors and in dark corners indoors.

Go to any electrical, hardware, drug, or sporting goods store and pick out an Eveready today. Buy Eveready Batteries too—they give brighter lights and last longer.

course should cover three years and the time be evenly divided between shop work and book work. The instruction should be along the following lines: Mathematics, blue print reading, mechanical drawing, machine shop practice and tool making, electrical work, industrial studies of raw materials, woodworking, automobile mechanics and welding, applied mechanics, physics and chemistry, pattern-making, and the principles of moulding, stationary steam engineering, sheet metal working, printing and also include physical training, hygiene, English literature and composition, history, civics and elementary economics, arithmetic, geography and elementary physics.

Home Economics for Girls.

The home economics class for girls should contain the following subjects: English, arithmetic, science, history and geography, art and design, hygiene and sanitation, cookery, home management, sewing, home nursing and the study of materials. The course should cover three years and be open to girls who had completed the eighth grade or the pre-vocational course.

The survey had shown a wide field of opportunity for evening classes in St. John and the report recommended the vocational committee to endeavor to provide the accommodation and equipment for these classes and to develop and encourage them as much as possible. They should be opened in October of this year, the report said, and the following subjects should be offered: Home-making, subjects, cooking, dressmaking, millinery and home nursing; industrial and technical subjects, blue print reading, mechanical drawing, automobile operation and auto mechanics, shop mathematics, cabinet-making and carpentry; commercial subjects, shorthand, typewriting, bookkeeping, show card writing and salesmanship.

The report recommended that arrangements be made through the Trades and Labor Council, the Building Trades Association and industrial employers to enroll all apprentices for regular studies in evening classes. This arrangement had produced excellent results elsewhere.

The accommodation and equipment of the building were dealt with at some length in the last pages of the report.

**SCOTLAND WINS
MACKINNON CUP**

**Canadian Bisley Team in 8rd
Place, but Major Crowe
Has Best Aggregate.**

Bisley Camp, July 21—Scotland, with a score of 947 yesterday won the Kinon challenge cup, England was second with 938, Canada third with 855, Ireland fourth with 848, Guernsey fifth with 843, and Wales sixth with 794. Major C. R. Crowe, of the Canadian team, made best aggregate score of the match, 48-42-90. Lieut. Chandler, of Woodstock, N. B., made 31-35-66. Lieut. A. M. Blackburn of Winnipeg and Pie. J. Lonsdale of Toronto were successful in the shoot off yesterday for vacant places in the second stage of the King's prize match, making ten Canadians in the largest proportion, considering the numbers in the team and the attached marksmen, ever to reach this stage. The shoot-off of the tie to decide possession of a bronze medal awarded in connection with the first stage of the King's prize competition resulted in victory for Dr. Kelly, a noted North London rifleman. Major C. R. Crowe, with a score of 225, and Lieut. E. D. Francis, with 519 in the grand aggregate, won special prizes donated by the Canada Club of London and the Canadian High Commissioner.

**TEMPLETON TEAM
UNABLE TO COMPETE**

**English Polo Four Abandons
Plans to Play in U. S.**

London, July 21—(Associated Press)—The plan of the Templeton polo team representative of the best in English polo, to visit the United States this summer has been abandoned, it has been announced.

No official reason has been assigned for the withdrawal of the Templeton team, but it is understood that it is owing to the inability of the Hon. Frederick E. Guest to absent himself from his Parliamentary duties. As secretary in the Air Ministry it is deemed that his presence is necessary in England because the air defence was recently subjected to severe newspaper criticism for alleged unpreparedness.

Major F. W. Barrett, who was to have gone on the team broke several ribs in a polo game recently. He was not yet fully recovered. However, Major Vivian Lockett and Major F. B. Hurdall are sailing Wednesday on the steamer Majestic with S. Sanford and Earl W. Hopping to participate in various tournaments throughout the United States. Major Barrett said that he had been dissuaded from making the trip on the advice of his doctor. His ribs had knitted, but his muscles still were very

sore and the doctor did not consider that he was fit to make the trip. Endeavors were made to secure another good player to cross the sea. Lord Wodehouse, Lord Rocksavage and Walter S. Buckmaster were approached, but none of them were able to go, so the trip had to be abandoned. Despite his condition, Barrett played today in the semi-final of the Rochester cup. He scored two of the three goals made by the Templeton team.

Hon. Fred Magee Wins Cup.

Hon. Fred Magee of Port Elgin, N. B., with 140 breaks out of a possible 150

won the Commercial Travellers cup at the Maritime Province trapshooting meet held at Dartmouth yesterday. Oscar Killam of Yarmouth, with 189 breaks, carried off the Magee sterling cup. He also won the St. Regis cup, breaking twenty-three out of twenty-five birds.

Canadian Rifle League Match.

The third Canadian Rifle League match was shot yesterday afternoon by the Permanent Force Rifle Association at 200, 500 and 600 yards. The weekly spoon competition was held in conjunction and the winners were: Class A, Sergt. G. L. Landry; Class B, Pte. R. Wines; and class C, Pte. C. A. Price.

**'BIG BILL' AND 'LITTLE
BILL' TO REPRESENT
U. S. IN SINGLES**

Although no official announcement concerning the composition of the American Davis Cup team, which will defend the trophy at Forest Hills Sept. 1, 2 and 4, has been made, it was learned unofficially that play in the singles will be entrusted to W. T. Tilden second and W. M. Johnson, with E. N. Williams second, to serve only in an emergency. Williams will surely be a member of the team, however. The fourth member is doubtful, but Vincent Richards has an outside chance of making it and Watson Washburn may be included for the

doubles if his play, up to and including the Seabright tournament, justifies it. There is a suggestion that Williams may pair with Tilden in the doubles. Tilden and Johnston would make a wonderful combination, as they have proved in the past, but it is not believed that it would be fair to Johnston to ask him to play on all three days of the challenge round. The chance that Tilden and Richards, national champions, will defend in the doubles is at present somewhat remote, in the belief of those close to headquarters.

Quincy All-Stars Coming.

The Quincy (Mass.) All-Stars will be here tomorrow for two games with the St. Peter's, one in the afternoon and the other in the evening. The Quincy team is being managed by "Lefty" Ford, who is well known to the local baseball followers as he used to be the star twirler on the St. Johns in the New Brunswick and Maine Baseball League more than ten years ago. He claims that he has a faster aggregation than his brother Joe's outfit, the Newburyport team, which made such a hit with the fans a few weeks ago. The fact games are expected as the St. Peter's have won every series played with a team from the United States this season and they are out to keep up their record.

TO TRAIN LIFE SAVERS.

**Harvard Adds New Course to Summer
School Curriculum.**

Cambridge, Mass., July 21—A course in life saving for swimmers has been added to the curriculum in the Harvard Summer School, and the first instruction in the subject will be given tomorrow at the Harvard boat-house on the Charles River. The course will be under the charge of Miss Sophia Eaton of Detroit.

**DIRECTORS OF THE
HOME FOR INCURABLES**

At the annual meeting of the directors of the Home for Incurables held yesterday afternoon in the home of the president, Dr. Thomas Walker, in the chair among other business transacted the election of directors took place.

The directors elected were as follows: Dr. Thomas Walker, E. H. Turnbull, S. D. Scott, F. P. Starr, W. R. Turnbull and Hon. R. J. Ritchie, all of whom are charter members and life members, and those elected yesterday: F. B. Schofield, Thomas Bell, John Sealy, James S. Gregory, G. Fred Fisher, L. R. Ross, F. B. Ellis, G. E. Barbour, Mrs. Silas Alward, Mrs. Thomas Walker, Mrs. James F. Robertson, Mrs. Struan Robertson, Mrs. George M. Robertson, Mrs. R. O'Brien, Mrs. H. S. Bridges, Mrs. H. A. Powell, Mrs. W. D. Forster, Mrs. James U. Thomas, Mrs. E. C. Elkin.

CANTEN DANCE

The canteen dance held last evening in the recreation hut of the Lancaester military hospital was very successful. A pleasing feature of the evening was interpretative dancing of Miss Angevine Gregory during the intervals. The proceeds of the dance will be divided between the relief work of the local Red Cross and the furnishing fund for the recreation hut. Mrs. Frank S. White, the president was the general convenor, assisted by Mrs. John A. McAvity, the

honorary president. Conveners for committees were as follows: Miss Alice Walker, Mrs. A. U. Adams, Mrs. James Robertson, Mrs. G. K. McLeod, Mrs. J. H. Doody, Mrs. Harold Lawrence, Miss Ethel Jarvis and Mrs. Beard.

**Sweet Sandwiches
They're Luscious**

No cake for the picnic! You're all right if you have plenty of Butternut in the house. For here are sandwiches that will agreeably surprise your sweet tooth.

The fillings: Chocolate filling with nuts; figs scooped and rubbed to a paste; raisins with peanut butter; honey and nuts; bananas and mayonnaise—any jelly or preserves you happen to have handy. You're ready for almost any emergency with Butternut in your bread box. Baked in a sandwich shape if you like.

AND THEN BROTHER BEAR—???

NIX! MAKE IT OUT TO US.

AH, WELL!

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JULY 21, 1922

SPORT NEWS OF
A DAY; HOME
AND ABROAD

BASEBALL

Fusslers Win.
The St. John Fusslers won a close battle from the Permanent Force on the Barrack green last evening on what proved to be one of the best games of the season. Kern's running catch in left field and Munroe's circling clout in the fifth inning were the outstanding features of the game. The batteries were: For the Fusslers, Grant and Munroe, Sterling; for the Permanent Force, Potter, Bell and Bell, McGorman.

Rothsay Won.
Another exciting game was staged on the Rothsay Consolidated school diamond last evening between the Fairvale and Rothsay teams, resulting in a win for Rothsay, 5 to 4. This is the sixth game that has been played between these two teams this season and each has won three games. The next game will be played in Rothsay on Tuesday evening. The batteries last night were: For Rothsay, Graves and Short; for Fair Vale, Higgins and Higgins.

The Game.
The St. Johns played a tie game last evening with the Moncton aggregation on St. Peter's Park, the score ending 5 to 5. The locals did not have their regular line-up present and were forced to start McGowan, a new recruit, and he was driven from the box in the second inning under a fusillade of hits. Johnny McGowan replaced him and pitched a good game considering that he has not had any practice in the box. Dickie, who twirled for Moncton, was hit hard and several sensational catches by his outfielders saved him from dangerous situations.

St. Rose's and St. Peter's Tie.

St. Rose's and St. Peter's Tie.
St. Rose's and St. Peter's played a tie game in St. Peter's Y. M. C. A. House last evening. The score ending 3-3. Hannah and Howard formed the battery for St. Peter's and Murphy and Fitzgerald for the St. Rose's.

North End Nationals Win.
The North End Nationals defeated St. Luke's 9 to 8 in the final game of the eastern division of the city junior league. The winners did not lose a game so far this season.

St. Stephen and Milltown Tied.
St. Stephen defeated Lubec, 11 to 4 yesterday and incidentally tied Milltown for the leadership in the border league. Paul pitched for the winners, and Gill, Leighton and Wixley formed the battery for the losers.

An Exhibition Game.
On the Rockwood diamond last evening the Civic defeated the Water Department team by a score of 7 to 3. Broolins and Alchorn formed the battery for the winners, and Wigmore and Arbores for the losers.

Royals Lose First.
The St. David's defeated the Royals in the South End league last evening 5 to 3. It was the first defeat the champions have had this season. Kerr was on the mound for the winners and Diggs for the losers.

Garrison League Results.
In the Garrison league last evening the St. John Fusslers defeated the Permanent Force 7 to 6. Grant Munroe and Sterling formed the battery for the winners and Patten, Bell and McGorman for the losers.

Junior Baseball.
The East End All-Stars defeated the Wanderers 10 to 3 last evening. The batteries were: For the winners, Wannaker and Goldsworthy; for the losers, Carlgren, Dean and Bone.

The North End Indians defeated the Millidge avenue Braves last evening on the Indians' diamond, 6 to 4. The batteries were: For the losers, Ballard and Lunney; for the winners, Logan and Jayton.

A fast game of baseball was played last evening on the King George school grounds when the Panics were defeated by the Red Wings 20-1. Osborne twirled for the losers and was hard hit, while Paton pitched a good game for the winners. The score by innings:

Game Tonight.
The Post Office and Water Department teams of the Civic and Civil Service Baseball League will meet tonight at seven o'clock on the Rockwood Park diamond, Gilbert's name, in a full nine inning game. The batteries will be:

BREAK EVEN IN FREDERICTON

St. Peter's Lose Afternoon

Poor Exhibition and Win Snappy Evening Game.

St. Peter's broke even in Fredericton yesterday, losing the afternoon game by a score of 8 to 7 and winning the evening contest 4 to 2. In the afternoon the St. Peter's boys had some difficulty getting used to the grounds and made eight errors. It was not a good exhibition by either team. The St. Peter's staged a four-run rally in the ninth, helped along by a succession of Fredericton errors, and came within one of tying the score.

WANTS LUSITANIA DELAY.
German Paper Voices Suspicion of Salvage Operation.
Berlin, July 21—(Associated Press)—Commenting on a report that the American salvage steamer Blakely is engaged in raising the treasure chest of the Lusitania, the Tagliche Rundschau asks why this operation cannot wait until the ship is brought up shortly, and also why nitroglycerine is to be used in the operation when the Lusitania could otherwise soon be raised intact, except for the damage which she sustained when she was sunk.
The newspaper says that the quick sinking of the Lusitania, which made the rescue of the passengers impossible, was due to a number of explosions among the munitions aboard, rather than to the torpedo of a submarine, which at best would have caused only two compartments in the forepart of the ship to fill with water.
It remains to be seen, the Tagliche Rundschau continues, whether the German Government, in view of the importance to Germany of the evidence gathered from the investigation, takes the proper

LOCAL NEWS
AGED MAN HAS LEG CUT OFF BY ELEVATOR
 Matthew O'Connell, About 70 Years, Victim of Shocking Accident and Critically Ill in Hospital.
 Matthew O'Connell, aged about seventy, of Prince Edward street, is in a critical condition in the General Public Hospital as a result of an accident sustained in the wholesale warehouse of Waterbury & Rising, Ltd., this morning about eight o'clock, when his left leg was severed near the hip by part of the machinery of the freight elevator there. He was found at a few minutes past eight by Horace Emery, who is in charge of the warehouse, lying near the elevator with his leg cut off and with blood on the floor near. The ambulance was called and took him to the hospital, where he is being attended by Dr. L. M. Curren.
 Mr. Emery went to work this morning at about five minutes to eight o'clock, and went down on the elevator from the main floor, leaving the elevator at the foot of the shaft. On returning a minute or two later he found that the elevator had been raised, and he heard groaning from the floor above. Fearing that someone had been caught in the machinery and that he would make matters worse by touching the control ropes, he ran across to a small coal window on the second floor, where he saw the injured man lying near the shaft of the elevator, fully conscious and able to tell him what was the trouble. Mr. Emery telephoned for the ambulance, while another of the warehouse employees dressed the injured man's leg as well as he could to stop bleeding until he could be taken to the hospital, which was reached about 8:40 o'clock. It was reported from there this morning that he was suffering a great deal from the pain and shock, and it was said that very little hope was held out for his recovery, although he seemed to be bearing up well for so old a man.
 Mr. O'Connell had been engaged yesterday afternoon by the Consumers' Coal Company to trim coal at the Waterbury & Rising warehouse, and had been taken down in the elevator yesterday. This elevator is said to be as safe as any in the city, because although the shaft is not boxed in, there are safety platforms on each floor, opening only when the carriage passes through and operated by the electric current in its passage. It is thought that Mr. O'Connell, who was not seen near the elevator by any of the employees of the warehouse, had stepped on the platform, thinking it was the elevator, and pulled the cord which raises the lever. He apparently stood there waiting for it to drop with him until the elevator came up, opened the platform and threw him in such a way that his left leg caught between the lever that operates the platform and the runway along which are carriage moves, and the force of the machinery forced the lever through his leg.
 This theory is borne out by the way in which he had apparently fallen and the fact that blood was found on the lever and the post.
 Mr. O'Connell's post with the Consumers' Coal Company was obtained for him yesterday by Harold Rising, to whom he had gone looking for work, and saying that both he and his wife had been in the municipal home. Mr. Rising sent him to the coal company yesterday afternoon, only to be so badly disabled on his second day on the job. Mr. Rising said this morning that there was a stringent rule in that only warehouse employees were to handle the elevator in any way and that the injured man would probably have been stopped if he had been seen. It is considered fortunate that Mr. Emery returned to the elevator so soon after going down in it, as there were not very many in the building at that early hour.

BASEBALL CHALLENGE
 The Junior All-Stars challenge St. Rose's to a game on the South End diamond on Saturday afternoon at half-past two.
PITCHER PAUL HERE
 Charles Paul, star pitcher for the St. Stephen's baseball club, passed through the city today en route to his home in Springhill where he will spend a few days.
CIRCUIT COURT

Katherine McBeth was appointed administratrix of the estate of James A. McBeth, personally \$1,700. K. A. Wilson was proctor.
DEATH OF EDWARD CONLEY
 Edward Conley, whose death at Portland, Me., has been announced, was for many years in the employ of J. & A. McMillan as a bookbinder and was a splendid type mechanic. Since his removal to Portland, Me., he has been employed in one of the largest establishments in that city and his many old friends in this city will hear of his death with sincere regret. Relatives here are Mrs. John Salmon and David Conley. Interment will be at Portland, Me.
KELLY-DONOVAN
 A very pretty wedding was solemnized in St. Ignace Church, Peterborough, on Tuesday morning, July 18, when Miss Annie Eleanor Donovan, youngest daughter of Mr. and Mrs. Patrick Donovan of Banfield, was united in marriage with nuptial mass, to Herbert Patrick Kelly, youngest son of Mrs. Mary and the late Joseph Kelly of Petersville. The ceremony was performed by Rev. A. P. Allen. The bride was becomingly attired in a tailored suit of navy blue broadcloth, with navy blue hat to match, and was attended by her sister, Miss Katie M. Donovan, who was also attired in a navy blue suit, with hat of silver and blue. The groom was attended by his brother, James J. Kelly of Petersville. The groom's gift to the bride was a substantial check; to the bridesmaid a pearl pin, and the groom presented the bride with a pair of diamond earrings. The many and useful presents received, including checks, silver, cut glass and china, testified to the popularity of both bride and groom by their friends, who then a happy and prosperous journey through life. Mr. and Mrs. Kelly will make their home in Petersville.

BRIGHT FUTURE FOR ST. JOHN
 (Contributed by Hardware Clerks Association.)
 The announcement that Hydro rates have been materially cut at Pictou, Ont., is of special interest to the citizens and light consumers of St. John. Although the light rates for domestic users are only six cents per k. w. h., and the rates for cooking were only three cents per k. w. h., they have been reduced to three cents for lighting and two cents for cooking. This is what the citizens of Pictou are getting under municipal distribution of Hydro current, and what they would most certainly not get from any power company. St. John has voted for municipal ownership of the Hydro power offered by the New Brunswick Electric Power Commission, and citizens can see that our city will without any doubt follow the example of all other Ontario municipalities, and under civic ownership reduce each year the cost of light and power to consumers. There is a bright and prosperous future ahead of St. John with cheap power rates. By offering manufacturers lower power rates our industries will be increased. By increasing our population; by increasing our population owing the will expand. Houses will have to be built. The merchants of St. John will benefit by increased business due to increased population. The city will be a place of no place it can call home, but a building fund has been started and confidence is expressed that by next summer they will be in possession of a fine club house. Already many donations of much of the material for the building have been received. Dr. C. F. Gorham has donated a lot of land for this purpose. A special meeting of the members and friends will be held tonight to hear an address on Canadian subjects by Walter MacRae. The McEachern male quartette has also volunteered its services. Until the community club has a place of its own, the use of the Church of England hall at Quispamsis has been loaned for meeting and social purposes. Residents of Brookville and Torriburn have organized a community club and have elected the following officers for the ensuing year: President, E. A. Whitebone; 1st vice-president, A. Harding; 2nd vice-president, Mrs. Harry Hayes; treasurer, Leslie McLean; secretary, H. F. Hopkins. Among other activities of the club will be the opening of a tennis court tomorrow afternoon at Brookville, when a series of games will be played following which tea will be served to members and their friends at the club house.

TWO MORE RURAL COMMUNITY CLUBS
 For an infant organization, the Quispamsis Community Club is showing the way to some of its predecessors. The members have adopted a progressive policy and are meeting with fine success in following it out. The club has as yet no place it can call home, but a building fund has been started and confidence is expressed that by next summer they will be in possession of a fine club house. Already many donations of much of the material for the building have been received. Dr. C. F. Gorham has donated a lot of land for this purpose. A special meeting of the members and friends will be held tonight to hear an address on Canadian subjects by Walter MacRae. The McEachern male quartette has also volunteered its services. Until the community club has a place of its own, the use of the Church of England hall at Quispamsis has been loaned for meeting and social purposes. Residents of Brookville and Torriburn have organized a community club and have elected the following officers for the ensuing year: President, E. A. Whitebone; 1st vice-president, A. Harding; 2nd vice-president, Mrs. Harry Hayes; treasurer, Leslie McLean; secretary, H. F. Hopkins. Among other activities of the club will be the opening of a tennis court tomorrow afternoon at Brookville, when a series of games will be played following which tea will be served to members and their friends at the club house.

HYDRO REPORT SURE NEXT WEEK
 Assurance Given by Mayor McLellan Today—Reports Rearding Power Company Proposals and Sale of Common Stock.
 Before the end of next week, a report on the matter of the distribution of hydro electric energy in the city will be made, the mayor, H. R. McLellan, assured a Times reporter this morning. He said that the reports of Messrs. Phillips and Kribs, engineers who are working with the civic hydro commission would be ready about the end of this week or the first of next week. Messrs. Bedell and Sanderson, who represent American shareholders in the New Brunswick Power Co., left the city last night. They had been here for a conference and also in connection with the acquisition of the common stock of the company on which they had taken a position. It was said in the street this morning that they had taken some of this stock at a figure said to be in the vicinity of \$15.
 It was reported today that the proposals made by the New Brunswick Power Company in connection with the matter of the distribution of hydro electric current from the Musquash development were that the city should lease the company's plant or buy it outright.

THE CARLETON FERRY
 The ferry steamer Governor Carleton, which was laid up about two weeks ago after ramming the west side ferry boats, was put into commission again at night. It was reported today that both the life belts on the ferries, Commissioner Bullock today said that both the ferries and equipment were regularly inspected by an official of the marine department and there was no complaint from that source.
