NINTH CONGRESS TO BE HELD IN ROME

Mrs. Catt's Call to International Woman Suffrage Alliance in May Next.

The following is the call of Mrs. Carrie Chapman Catt to the women to send delegates to the ninth congress of the International Woman Suffrage Alliance, in Rome, May 12 to 19.

"The International Woman Suffrage Alliance calls upon its twenty-eight National Auxiliaries, and upon the twenty new societies either provisionally affiliated or applying for affiliation, to send to its ninth congress, to be held in Rome, May 12 to 19, 1923, their full quota of duly accredited delegates, and to send official delegates. The alliance will equally welcome fraternal delegates from the governments of all nations to send official delegates. The alliance will equally welcome fraternal delegates from women's international associations as from national associations which support the object of the alliance, together with personal supporters of the movement.

"At the Geneva Congress in 1920, twenty-two new suffrage victories were announced. At Rome the alliance will celebrate the establishment of equal suffrage for women throughout the United States of America; in Ireland and in Bombay, Madras, Transvaal, and in the first of the first eastern countries to give votes to women.

"We shall also rejoice with the women of Denmark on their new right to equal pay and equal work in government service; with the women of Australia that they can now return women to certain state parliaments; with the women of Japan on having received the right to attend political meetings; with the women of Germany, Belgium, Austria, Spain, Portugal, Argentina and India on the recent admission of women to the legal profession; with the women of the United States of America, which has given the lead to other countries in giving to married women the right to their own nationality; with the women of Norway, Sweden, Denmark, Roumania, France, Great Britain, Uruguay, Australia and the governments of which have appointed women representatives to the assembly, the commissions or conferences of the League of Nations; and with the women of many countries on further steps taken towards our ultimate goal—the establishment of a real equality of liberties, status and opportunities between men and women.

"Women members of parliament will tell of their work in the legislatures of many nations; women from Eastern nations will set forth the great progress made in their countries. The congress will make practical plans for giving help internationally to the women of the unfranchised countries in their efforts to secure the political vote. Special sessions will deal with the question of equal pay and right to work, moral questions; nationality of married women; the economic position of the wife and the illegitimate child; the relation of enfranchised women to the political parties, and what enfranchised women can do to forward the programme of the alliance; and decisions will be taken to outline the future policy of the alliance.

"The vote is our first objective; but much remains to be done before, unhampered by shackling prejudice and sentimental taboos, women are really free to share equally with men in all spheres the responsibilities of building up a better world.

"Come, therefore, all who care for the honor and freedom of women, to lend your aid in the great campaign of the Latin women; and here, in the Eternal City which saw the dawn of European civilization, affirm your belief in the greatness of woman's contribution to the ideal of a civilization which shall be world-wide and founded on a justice and equality."

"The vote is our first objective; but much remains to be done before, unhampered by shackling prejudice and sentimental taboos, women are really free to share equally with men in all spheres the responsibilities of building up a better world.

Vehicle Tube Engineers Believe Invention Will Revolutionize Underwater Foundation Work—Cuts Silt Below Surface.

(New York Tribune)
Clifford M. Holland, chief engineer of the New York and New Jersey Vehicle Tunnel, announced yesterday that the engineers driving the 200-foot 24-inch hollow steel piles through the river mud to bedrock have achieved a notable triumph by the use of a new method.

On the New Jersey side bedrock is 250 feet below the surface of the river. In order to have foundations for a double ventilator shaft on the New Jersey side it has been necessary to build them under water. The engineers have succeeded in driving the 200-foot 24-inch hollow steel piles through the river mud to bedrock by a new scheme, which has worked successfully.

Three 20-foot sections were lowered into a single length and dropped down into the silt on the river bottom and allowed to go as far as they could by their own weight. Then, instead of hammering, the engineers have devised a bid, or sump, 2 1/2 inches wide by 5 feet in length, with a cutting end, attached to a jointed drill bar. This sump is revolved in the mud by steam power from the top of the pile. The mud is made to flow into the sump, and as fast as the packed silt or clay is made soluble the hollow pile drops of its own weight. As the hollow pipe goes deeper the drill shaft is lengthened by adding sections, the same as the hollow pile is added to the sump.

The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump.

The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump.

The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump.

The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump.

The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump. The sump is added to the sump, and the sump is added to the sump.

Important Business Announcement Worth Reading Carefully

On January 1st, we announced retiring from the wholesale department of our business, and put on a sale of winter goods.

We now give notice of the closing out of all the Men's and Boy's Lace Boots formerly carried in our wholesale. Our three stores are well stocked at exceptionally low prices, consisting of heavy boots suitable for hard wear and work of every description, also some medium fine goods.

During this sale we are adding from our regular retail stock an assortment of broken lines in Men's high grade Boots made by J. & T. Bell, Slater, Just Wright and Invictus.

We might add that we carried a very large stock in our wholesale department, therefore can only put on sale one department at a time. Rather than undertake the expense of selling wholesale by Travellers we have decided to sell the stock through our Retail, giving the people of the city and surrounding country the benefit of this sale.

We might add that we carried a very large stock in our wholesale department, therefore can only put on sale one department at a time. BILL TO MAKE WOMEN DO JURY DUTY KILLED BY THE VERMONT HOUSE

Montpelier, Vt., Feb. 6.—The Vermont House, by a vote of 110 to 98, went on record as opposed to requiring women to serve on juries. Women members disapproved the measure. A bill to forbid lobbying was killed by a vote of 106 to 103. One member said: "Let them come. If we could be wrongly influenced from outside, we could be just as easily influenced from inside. Vermont Legislature without lobbyism would be like county fair without hawks."

for full particulars, Waterbury & Rising, Limited, 61 King St., 212 Union St., and 677 Main St. 2-8

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, FEBRUARY 6, 1923

WOMEN SMOKERS ARE CARELESS

Tremendous Increase in Fire Losses Reported by Underwriters with Use of Tobacco by Women.

New York, Feb. 6.—Smoking by women is suggested as the cause of the tremendous increase in fire losses from "matches-smoking," as listed by the National Board of Fire Underwriters in its report for 1922. The losses for the year are put at the unusually large total of \$408,400,000, every group of losses having increased except those from electricity.

"Can the more general use of tobacco by women during the past few years be the reason for the startling advance in the fire losses from the twin hazard of 'matches-smoking,' which in 1921 amounted to \$28,992,093?" asks the report.

"Insurance men are asking themselves this question as they contemplate this record total, which compares with \$16,433,862 for the same cause in 1918. For the six years ended with 1921 the total for the cause amounted to \$116,268,367.

"The destruction resulting from the misuse of electricity amounted to \$12,728,209, as against \$20,780,307 in 1919, showing how the element has been forced out of first place by the other hazard. Electrical fires result from improper wiring and from defective and

carelessly used flat irons, toasters and other small heating devices.

"The aggregate destruction from all causes is startling enough in itself. It reached the huge sum of \$493,400,000 (\$4.24 per capita) in 1922, which was more than any other previous annual toll with the exception of that recorded during 1906, the year of the San Francisco earthquake and conflagration. Five years ago, in 1918, the corresponding sum was \$333,876,876.

"The Actuarial Bureau statistics show losses of \$386,324,810 actually recorded, 25 per cent. being added to allow for unreported fires and those involving uninsured property. This gives the national fire waste total.

"The six other leading causes of fire and their proportionate amounts during 1922 were as follows: Spontaneous combustion, \$20,196,392; defective chimneys and flues, \$14,801,681; stoves, furnaces, boilers and their pipes, \$18,910,831; electricity, \$12,728,209; lightning, \$12,843,222; sparks on roofs, \$11,448,220.

"All of these figures represent increases, except in the case of electricity which displayed an improvement of nearly \$8,000,000, which no doubt is attributable in part to the educational efforts of the electrical merchandising concerns."

RECENT WEDDINGS

Cantley-Gray.
In St. John's (Stone) church yesterday morning, Rev. A. L. Fleming officiated in marriage Miss Margaret Robertson Gray, daughter of Mr. and Mrs. Gordon Gray, of Keith, Scotland, to James Cantley, of Montreal. Miss Gray arrived in the city on the Montclair and was the guest of Mr. and Mrs. Fleming over the week-end. Mr. and Mrs. Cantley left for a wedding trip to Quebec and will reside in Montreal.

Hovey-Byton.
Yesterday morning at the Cathedral Rev. W. M. Duke united in marriage with nuptial mass Miss Bertha E. Byron, 28 Peters street, to Alva F. Hovey of Fairville. Miss Hazel Bagley was bridesmaid and Leo W. Byron supported the groom. Mr. and Mrs. Hovey left for a trip to Halifax. They will reside in West St. John.

RECENT DEATHS

Charles John Izard.
The death of Charles John Izard occurred yesterday in this city in his seventy-second year. Mr. Izard had retired from active life five years ago and for the last year had been in failing health. He is survived by his wife, three sons, William C., of Goshay, and James R. and Frederick R., of this city, and four daughters, Mrs. William Thompson and Mrs. Arthur London, of this city, Mrs. Benjamin Hicks, of Vancouver, B. C., and Mrs. Melvin Lawrence, of Revere, Mass. The funeral will take place on Wednesday afternoon from his son's residence, 142 Victoria street.

Joseph Hill.
Mrs. J. Golding, 55 St. James street, received the sad news yesterday from Newfoundland of the death of her aged father, Joseph Hill. He was in his eighty-sixth year and leaves a large family circle to mourn.

Mrs. Emma DeForest.
The death of Mrs. Emma DeForest, widow of George A. DeForest, occurred at Elizabeth, N. J., on Thursday at the age of eighty-six years. Mrs. DeForest was formerly a resident of St. John, being a daughter of the late

(Art Dept., Germain street entrance.)

Many Beautiful New Frocks at This Store

The different gaieties of carnival week will call for Frocks of various kinds. Our stocks are ready to supply your immediate needs.

Evening Dresses Are Supremely Attractive

A New Evening Dress will add much to your enjoyment of the dance. Here you will find a nice selection for your choosing. Dainty flower-embroidered affairs; bright striking colors; blacks, white, or soft subdued shades you will admire. Among the newest style features are: Draped skirts, beauteous waists, wide berthes, elaborate bodicings and distinctive touches added by the clever arrangement of dainty French bouquets or ribbon streamers. Many of these dresses are very moderately priced.

Fine Tricotine Dresses—A Brand New Assortment

Unusually Smart Styles. Only \$24.25 each. If you were told these dresses were double the price you might reasonably believe it. Some have the now fading skirts; others are in the popular straight line effect. The quality of material is exceptionally fine. Dresses are elaborately braided and some are embellished by vests and other touches of contrasting color. Practically all sizes in the assortment.

Afternoon Frocks of Unusual Charm

Plenty of misses' and juniors' sizes among them. One very charming dress of black crepe-backed satin has wide flaring sleeves opened on the side showing a bright lining of American beauty shade. The skirt has four narrow panels that fall below the regular hem. A beaded grille in bright Oriental colors lends just the wanted touch of originality. The price is \$47.50.

Another distinctive dress is fashioned from navy crepe backed satin. Bottom part of the sleeves is of Georgette in shade to match, trimmed with narrow rows of grey squirrel fur. A handkerchief drape on the left side of skirt is held in place by means of a stunning buckle made from metallic spire beads edged with squirrel. This dress is a copy of a French model. The price is \$48.50.

There are many more equally attractive styles. (Costume Dept., 2nd floor.)

MEN EXCEL WOMEN IN NIMBLE HANDED FEATS
Neatness of Touch Shown in Filling Pipe and Lighting Cigarette.
London, Jan. 15.—(By Mail)—E. V. Knox, writing in "The London Daily News," contradicts another popular notion. "I am happy to see that many honest persons are now coming forward to point out what I have all along contended to be the truth, namely, that men as a sex and on the whole are far more neat-fingered than women," he says.

"Here and there, of course, may be found a woman who by reason of exceptional ability, dexterity and fineness of touch, is superior to her class, but that is nothing. That is the exception which proves the rule.

"How many women, may I ask, in genuine fact, and putting aside the absurd imaginings of our novel writers, can accurately fill and pack a pipe? I do not know one. Nay, more there are ridiculously few women who are capable with a single swift motion of lighting a cigarette so that it burns evenly and not with a great black mark all down one side. Ridiculously few."

"A woman can tie up parcels? Very possibly. A mere matter of muscular force and mechanical routine. But can she tie a fishing fly? Rarely, think, if ever.

"Take cards, again. How many women shuffle and deal with the same precision as a man?"

DEATH VISIONS DRIVE HIM INSANE

Melchione, Awaiting Trial for Verotta Boy's Murder, Taken to Matteawan.

New York, Feb. 6.—John Melchione, one of five men indicted twenty months ago for the kidnaping and killing of 2-year-old Giuseppe Verotta in a "blackhand" ransom plot, was committed to the Matteawan State Asylum for the Criminal Insane when allentists reported to Judge McIntyre in General Sessions that he had become a raving maniac because of his fear of being put to death for the crime.

Melchione, who is 25, saw three of the men indicted with him for the murder of the boy, convicted and sent to the death house. He was expected to be called for trial on an indictment charging him with murder in the first degree. Dr. M. S. Gregory, head of the psychopathic ward at Bellevue Hospital, and Dr. Perry M. Lichtenstein, Tombs physician, reported to Judge McIntyre that their fear of conviction had brought about dementia praecox and it was necessary to remove him immediately to the asylum. Judge McIntyre thereupon signed an order and Melchione was taken to Matteawan yesterday afternoon.

Detectives seized Melchione on June 1, 1921, corroborated statements of the parents of the kidnaped boy that Melchione asked for \$500 of \$2,500 which the kidnapers had demanded in a letter received by the Verottas the day before, and which threatened that if the police were informed of his intended visit and arrest him the boy would be killed.

Giuseppe, kidnaped while playing with other children in front of his tenement home was strangled and the body thrown into the Hudson. It was found in the Hudson River, off Piermont, N. Y. The boy had been strangled.

Roberto Raffaele was convicted of murder in the first degree more than a year ago, and the Court of Appeals sustained the conviction, although he was in the Tombs when the boy was slain. He then conspired with Melchione in the kidnaping and murder plot, and, on his testimony in Judge Tully's part of General Sessions, Judge McIntyre that the head of the blackmailers, and Santo Cusumano, were convicted of first degree murder and sent to join Raffaele in the death house.

Raffaele testified that he told Melchione to go to the Verotta home of an estate. Melchione had repeatedly said that he had no hope of escaping the electric chair.

Assistant District Attorney Brothers announced, after Melchione had been committed to Matteawan, that he would ask Judge McIntyre today to discharge James Ruggieri, the one member of the hand in the Tombs. He explained that it would be impossible to convict Ruggieri as the testimony of Raffaele, an accomplice, was uncorroborated.

OPPOSE HIGHER TAX FOR MAINE HUNTERS

Augusta, Me., Feb. 6.—Strenuous objection by the farmers group of the Legislature against the proposed increase in the resident hunter license fee was made at a lively hearing before the committee on inland fisheries and game.

The present fee is 25 cents and the proposed act would increase it to \$1.10. Practically every one of the opponents of the measure declared that if Commissioner Parsons was in need of more money to protect the wild life of the state, it should be raised by taxation and not through license. Plans were made by one or two speakers to ignore the recommendations made by the budget committee for a further reduction in the fish and game appropriation and to give the department what it needed, but several representatives declared that they were emphatically against the license proposition.

Miss Cornelia T. Crosby (Fly Rod) a widely known woman guide, made an earnest plea in favor of the bill.

Those who took part in the programme were: Miss Audrey Hunter, Mr. and Mrs. P. M. Woodley and Miss Winnifred Woodley. Mrs. Harold Haman, Miss Florence Dunham, Miss Beale Wilfrin, Miss Pearce, Chester Bourne, Norman Betts, Lester Rowley.

The second half of the programme consisted of a comedy drama entitled "The First Day at School," under the direction of P. M. Woodley. Those who took part in the play were: Mrs. H. M. Haman, Miss Dorothy Hickson, Miss Winnifred Woodley and Miss Beale Wilfrin, Miss Grace Spiney, M. Vall, Mrs. P. M. Woodley, Harold Haman, Mrs. H. Roberts, Hugh Grosvenor, Miss Daisy London, Chester Bourne, Roy Bond, Henry Evans and Miss L. Stevenson. Percy Bourne was the pianist.

BRITISH TAX DODGERS HUNTED AMONG ISLANDS

London, Feb. 6.—The residents of the Channel Islands of Jersey and Guernsey, who hitherto paid only an infinitesimal income tax, have received a rude shock in the form of a letter from the Home Office suggesting that in the future they contribute to the imperial revenue to the extent of £28,000 annually for Jersey and £275,000 for Guernsey.

Since the war many English citizens have transferred their residence to these islands to escape the income tax, which last year was six shillings in the pound, and now is five shillings, or twenty-five per cent. of earnings.

RICH INDIAN TIES UP HIS FORTUNE

Has So Arranged His Will That His Money Will Be Kept Out of Designing Hands.

Washington, Feb. 6.—Disposal of the fortune of Jackson Barnett, reputed to be Oklahoma's wealthiest Indian, has been arranged at his request to keep it out of the hands of "designing persons" when he dies, Charles H. Barker, commissioner of Indian Affairs, announced. The plan, it is said, assured Barnett an income of about \$50,000 a year during his life and disposed of the bulk of his estate, comprised of his allotment in the Cushing oil pool of Oklahoma and liberty bonds and cash approximately \$1,500,000, through gifts and trust funds in such a way as to exclude the schemes of a "designing person" whose activities and ingenuity have added considerably to the work of the Indian Bureau.

Barnett, who has no relatives with legal or moral claims upon him, according to Mr. Barker's announcement, has been in the public eye more prominently perhaps than any other Indian, not only because of his great wealth, but because of his sensational marriage about three years ago, when his bride was alleged to have kidnaped him from his guardian in Oklahoma and taken him to Kansas, where they were married.

The disposal of the estate includes gifts of \$50,000 each to Barnett's wife and the Baptist Home Mission Society of New York. Out of the gift to Mrs. Barnett she establishes a trust fund of \$200,000, through a Washington bank, with the provision that Barnett is to receive \$7,500 of the annual income. The entire gift to the Mission Society is deposited with a New York trust company, which agrees to pay him \$20,000 a year from its proceeds as long as he lives. It is explained that the gift to the society, which will go to its permanent endowment fund, is not a denominational or church donation, but is made solely because the organization has administrative control over the Indian country in the heart of the Indian country in Oklahoma. Barnett thus assured to him from these two gifts, retained to his allotment in the Cushing oil field, which is bringing him more than \$18,000 annually, and is receiving about \$20,000 a year in interest on loans which have been made for him.

COLLEGE HEAD ATTACKS JAZZ

"Can't Develop American Life on Ragtime," Declares Mary E. Woolley.

Amherst, Feb. 6.—Mary E. Woolley, president of Mt. Holyoke College, in an address before the student body of the college, attacked the "Education and Adventure," declared that "we cannot develop the sort of American life we need on ragtime."

"Amusement determines character," she asserted. "You are on the stage and what we hear in the form of music does not tend to raise our character, but to lower it. Ragtime is a world of all is more of the Puritan character, more of the Christ-like in the soul." She said that the girls in China who are seeking an education are trying to educate themselves more eagerly and conscientiously than are the girls at Mt. Holyoke and St. Paul's.

"There is a law on our statute books," she said, "that many people who call themselves respectable citizens prefer to ignore. Every time a citizen of the United States ignores or violates a law, he is writing the word 'anarchy' across our national life."

ENTERTAINMENT AT SAINT PAUL'S

The St. Paul's Y. P. A. held an entertainment last evening in the club rooms in Winter street, in relation to the raising of a hardwood floor in the rooms. A substantial amount was realized. The success of the entertainment was largely due to the efforts of the committee composed of Harold Haman, P. M. Woodley and Chester Bourne.

The programme was divided into two parts, the first half being a musical and the second half consisted of a comedy drama. Several members of the crew of the summer Montcalm were guests of the club. During the evening \$20 was raised at a candy table which was conducted by the Misses Dorothy Ward, Hazel Peters and Edith Williams.

Those who took part in the programme were: Miss Audrey Hunter, Mr. and Mrs. P. M. Woodley and Miss Winnifred Woodley. Mrs. Harold Haman, Miss Florence Dunham, Miss Beale Wilfrin, Miss Pearce, Chester Bourne, Norman Betts, Lester Rowley.

London, Feb. 6.—The residents of the Channel Islands of Jersey and Guernsey, who hitherto paid only an infinitesimal income tax, have received a rude shock in the form of a letter from the Home Office suggesting that in the future they contribute to the imperial revenue to the extent of £28,000 annually for Jersey and £275,000 for Guernsey.

Since the war many English citizens have transferred their residence to these islands to escape the income tax, which last year was six shillings in the pound, and now is five shillings, or twenty-five per cent. of earnings.

YOUNG CANADIAN GETS IN TROUBLE

Arrested in New York and Charged With Swindling a Boston Firm Out of \$8,700.

New York, Feb. 6.—A dapper young Canadian, who gave his name as Robert M. Anderson, was arrested on a charge of having swindled the brokerage firm of Hornblower & Weeks of Boston out of \$8,700 in negotiable bonds by means of a worthless certified check. The check was signed "Robert Amerson" and was passed by a young man who under that name occupied a fashionable Brookline apartment with a young woman said to have been his bride.

Anderson at first denied that he had ever been in Boston. When a picture of "Amerson" and one of "Mrs. Amerson" were shown to him, he went readily to the East Fifty-first Street Police Station, where he was held on a Massachusetts warrant charging grand larceny.

"Amerson" was said by the detectives to have depended largely upon his prosperous appearance to pass the worthless check upon Hornblower & Weeks. He first purchased \$300 worth of Liberty bonds for cash and with

"Naturally— nothing will do but FRY'S"

For Health and Beauty—FRY'S

It is not the quantity of food you take but the quality that counts. In FRY'S you drink wonderfully concentrated nourishment—yet, happily, of such delicious and distinctive flavour as to make every cup a delight.

This SMP Enamelware Kettle Will Save Hours of Time Each Year

Try this simple test. Take an SMP Enamelware tea kettle, like the above, and an aluminum or other metal kettle of same size. Pour two quarts of cold water into each. Place over fire at same time. The SMP kettle will be singing and boiling merrily when the other is merely simmering.

The SMP Enamelware kettle heats all others for quick boiling. It will save you many minutes every time you use it. Think what this would mean in a year—in time and money saved in fuel bills!

With ordinary care, this SMP Enamelware Kettle will last as long as you. All SMP Enamelware is durable! And pure! Easy to clean! And inexpensive! Ask your local hardware merchant for

SMP Enamelware

Three finishes: Pearl Ware, two coats of pearly grey enamel, inside and out; Diamond Ware, three coats, light blue and white outside, white lining; Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

Remove the Film If you wish pearly teeth

You see prettier teeth now wherever you look. They glisten, they look clean. The reason lies in a new cleaning method. Millions now fight film. You want the attraction, the added protection that it brings. Then won't you make this simple test to prove that you can get them!

You must fight film. It is film that makes teeth cloudy. It is film that ruins teeth. If you want prettier teeth and safer teeth you must fight film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It becomes discolored, then forms dingy coats. Tartar is based on film. Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Under old methods, few escaped those troubles. And beautiful teeth were seen less often than now.

A new situation. Dental science has found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring.

Avoid Harmful Grit. Pepsodent credits the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a film comb which irritates and causes decay.

See what it does. In fairness to yourself, see and feel these Pepsodent effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-costs disappear. You will be amazed and delighted. And you will want those benefits continued to the people in your home. Cut out the coupon now.

Made in Canada CANADA Pepsodent THE NEW-DAY DENTIFRICE A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists to the world over.

You must fight film. It is film that makes teeth cloudy. It is film that ruins teeth. If you want prettier teeth and safer teeth you must fight film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It becomes discolored, then forms dingy coats. Tartar is based on film. Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Under old methods, few escaped those troubles. And beautiful teeth were seen less often than now.

A new situation. Dental science has found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring.

Avoid Harmful Grit. Pepsodent credits the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a film comb which irritates and causes decay.

See what it does. In fairness to yourself, see and feel these Pepsodent effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-costs disappear. You will be amazed and delighted. And you will want those benefits continued to the people in your home. Cut out the coupon now.

Made in Canada CANADA Pepsodent THE NEW-DAY DENTIFRICE A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists to the world over.

Remove the Film If you wish pearly teeth

You see prettier teeth now wherever you look. They glisten, they look clean. The reason lies in a new cleaning method. Millions now fight film. You want the attraction, the added protection that it brings. Then won't you make this simple test to prove that you can get them!

You must fight film. It is film that makes teeth cloudy. It is film that ruins teeth. If you want prettier teeth and safer teeth you must fight film. Film is that viscous coat

NEW PREMIER IS
DINNER GUEST

Banquet, Given at Bathurst
for Hon. P. J. Veniot, a
Successful Affair.

At the complimentary banquet tendered by the citizens of the town at Bathurst to Hon. Peter J. Veniot on his accession to the premiership of the province of New Brunswick at the Hotel Gloucester last evening...

When the Premier rose to respond to the toast proposed by Hon. Mr. Byrne, he was accorded a great ovation. After the applause had died down, he began by saying: "In replying to the toast, I do so with a feeling of profound gratitude..."

The proposer of the toast in his remarks referred to the Premier's ancestors, and stated that he was the first of the family to be elected Premier. Mr. Veniot said that this was so, and it was but evidence of the liberty and freedom of the Empire that citizens of every nationality and creed had access to its highest honors...

Throughout his long political career of twenty-nine years, he had taken part in many political battles, and he was led to say that while he had fought while the elections were in progress, and soon as the smoke of battle had cleared away, the differences were forgotten and they were the same old friends...

The Premier stated that the volume of the following is the Montreal Gazette report of some observations made by W. B. Snowball of Chatham at the annual convention in Montreal of the Canadian Lumbermen's Association...

MAGIC BAKING POWDER

Magic Baking Powder has been known all over Canada for more than 25 years. It has set the standard for goods of its class. Its use is increasing daily because of its strength, purity and universal satisfaction.

Pure food insures good health. Magic Baking Powder insures pure food.

of this province was greater than that of Nova Scotia by \$5,000,000, and that in the agricultural trade alone this province exceeded Nova Scotia by \$10,000,000. He made special reference to the iron mines near Bathurst, which had not been developed for eight years, and he considered it the duty of the government, if present owners refused to work and develop the mines, to hand them over to some one who would.

Want Power
At Grand Falls
Developed

Congratulating the Harland Observer on its advocacy of the development of Grand Falls, Secretary M. P. McCleary of the Grand Falls Board of Trade writes to that paper: "We note with considerable satisfaction the efforts of your paper to facilitate the development of the water power at Grand Falls, and would commend the public spiritedness of the Harland Observer to the other newspapers of the province."

THIS IS HARD ON
NEW BRUNSWICK

The following is the Montreal Gazette report of some observations made by W. B. Snowball of Chatham at the annual convention in Montreal of the Canadian Lumbermen's Association: "W. B. Snowball, Chatham, N. B., urged the value of the association to the industry. The transportation department alone had proven many times the cost of membership, and its work was continually increasing as members discovered its monetary value to them. Further, with the multiplication of laws by legislatures which seemed to impose greater taxation upon them, it was necessary to make continual representations to such legislatures, in order that they might not altogether kill the industrial goose which was laying the golden eggs. In this connection, Mr. Snowball paid a strong tribute to the Quebec Legislature, as one of the few sane legislatures in the country, which had always fostered industries in the province, instead of seeing how hard it could tax them and impose vexatious regulations. 'I like this province,' declared Mr. Snowball, amidst much applause, and if I were ever to start another industry this is the province I should come to start it.'"

JANUARY WAS BUSY
MONTH AT HOSPITAL

Reports presented yesterday afternoon at a meeting of the commissioners of the General Public Hospital showed that the month of January was the busiest in the history of the hospital. Mr. E. Agar presided. The renewal of the contract with the Martins and Fisheries Department was considered, but no action was taken, pending consultation with the local health authorities. Plans were made for throwing the epidemic hospital open to the public on Thursday. Some recommendations contained in the report of Mrs. J. V. McLellan as commissioner for the month were discussed. She presented figures given by the Office Specialty Company and the Estey Company for the cost of the hospital for the month of January, but the matter was ordered to lie on the table in view of the present state of finances. The fact that the hospital grant had been cut down by \$10,000 was referred to.

LOCAL NEWS

Edmund Wallace, of 76 High street, had his left hand crushed between two boxes yesterday afternoon while working at No. 8 shed. He was taken to the Emergency Hospital where he had his injury dressed, after which he was able to return to his work.

Monks Temple Pythian Sisters No. 14 met last night in the Pythian Club in Union street with the M. E. C. Miss Edith Hammon presiding. Plans were made for holding a bean supper and for providing relief in coal provisions for the needy families. The meeting was well attended.

The regular monthly meeting of the Longshoremen's Association, local 275, was held last evening in its room in Water street. The meeting was attended and Andrew Craig, president of the local, occupied the chair. Only matters of ordinary routine business were discussed.

'Bill' Lawrence Dies;
Human Directory,
Never Forget a Name

(New York Tribune)
'Bill' Lawrence is dead. The tall figure in the gray, gold-braided uniform in the entrance hall of the Mutual Life Building, at 22 Nassau street, is no more.

For forty years William Lawrence has been a living directory for the 7,500 tenants, typists and employees who toil in the offices of the great building which covers a block in the pulsing heart of New York's financial district. The Mutual Life Building has no directory board in its entrance.

The white-tiled entrance hall of the building was his domain, and he ruled it with infinite tact and wisdom. To him would be referred operators under his authority he was a martinet who tolerated no laxities and who kept the service brisk and efficient. Yet they loved him. Yesterday they sent a magnificent floral piece to his home at Richmond.

H. O. CLARK GETS CONTRACT FOR THE SUB-STATION

His Bid of \$14,784 Recommended to Council

Tenders for the Switching Equipment and Sub-Station Installations Opened—Grant for Publicity Purposes Again Before Meeting—Street Lighting.

Hydro matters occupied the attention of the City Council during the greater part of a special committee session this morning. In addition to recommending that the tender of H. O. Clark, of West St. John for the erection of the city sub-station at a cost of \$14,784 be accepted, the commissioners opened tenders for switching equipment and for the lighting, heating and power installations in the sub-station.

Equipment Tenders. Tenders for switching equipment were opened and referred to the civic hydro commission as follows:—

- Monarch Electric Co. Montreal real. \$11,500. Canadian Westinghouse Co. \$16,900. Canadian General Electric Co. \$5,263. The tenders for lighting, heating and power installations in the sub-station were also referred to the commission as follows:—

A. P. Saunders \$945. Driscoll & Muckle \$980. Webb Electric Co. \$798.21. Vaughan Electric Co. \$950.

Tender for Sub-Station. It was decided to recommend to the council the tender of \$14,784 put in by H. O. Clark, for the erection of a civic sub-station.

Street Lighting Matter. The recommendation of the Civic Hydro Commission for an improved system of street lighting was given further consideration. The mayor expressed the opinion that ornamental lighting from the station to King square would be of benefit to the city.

On motion it was decided to refer the matter to the committee of the whole on Thursday.

A lease of lot in Brooks ward at annual rental of \$2 to Mary Arsenault was ordered renewed for seven years from May 1, 1921.

P. H. Hunter of the Business Review and Maritime Retailer was heard in connection with a request for a grant of \$1,000 for the publication of a special St. John number.

The appeal of the Harris Abattour Co., from the assessment for income was considered. The company solicitor, B. C. Weyman, said they had no income. He asked for a copy of the reports of the chartered accountant and of the chairman of the board of assessors. The Mayor directed that the copies be furnished as requested.

POLICE CAR CRASHES INTO A BUILDING

Two St. Paul Policemen Killed, Four Other People Injured.

St. Paul, Minn., Feb. 6.—Two St. Paul policemen were killed and four other persons were injured, two of them fatally, when a speeding police car skidded on an icy street and crashed into a millinery shop.

The front of the building collapsed when the police car struck.

A very enthusiastic and well attended meeting of the Glen Falls Community Club was held last evening at the home of A. Clayton Gastmuntz.

His Honor the Lieutenant Governor Progress is held up now by the winter weather and meetings are held at the homes of members.

The club is one of the progressive kind and its aims and objects are to advance anything that will be for the benefit of the community as a whole.

A piano has been purchased as well as a flag and flag-pole for the school. It is proposed when the community hall is erected to have it contain everything that will encourage the younger as well as the older element to find enjoyment there.

LOCAL NEWS

NOT THE ST. JOHN HOTEL. An item in yesterday's Times said a boy had been arrested for stealing in the "St. John Hotel." This is incorrect. There is a St. John Hotel at Reed's Point, but the theft did not occur there, nor was any arrest made there.

SALE OF HAMPTON COMPLETED. The sale of the steamer Hampton to the Majestic Steamship Company has been completed. The steamer was built in Hampton about thirteen or fourteen years ago and was owned by the Kennebecasis Steamship Company.

BIRTHDAY PRESENTATION. About thirty friends of Kenneth Brown, 300 Paradise Row, made a surprise visit at his home last night on the occasion of his birthday.

COLD, BUT A GOOD TIME. Undeterred by the zero weather more than twenty members of the Last Car Club and invited guests enjoyed an old-fashioned sleigh drive last night.

BURIED TODAY. The funeral of John Steele took place in the morning at the real estate office, 94 Harrison street, at St. Peter's church where requiem high mass was celebrated by Rev. George Coffin C. S. R., assisted by Rev. James Cloran C. S. R. as deacon and Rev. Denis C. S. R. as sub-deacon.

A TRAFFIC MATTER. The fact that the city streets are covered with snow and that there are few motor vehicles abroad is regarded by the traffic laws.

REPORT OF BENEVOLENT COMMITTEE. The report of the benevolent committee of the St. John Branch of the G. W. V. A. as submitted at the association meeting last evening shows a rather extensive programme during the last three months.

POLICE COURT. Mrs. Ethel Dooley was before the magistrate this morning charged with attempted suicide. No evidence was taken and she was remanded until this afternoon.

LOCAL HOCKEY. One of the most important games in the City Amateur Hockey League for at least two teams will be played tomorrow evening when the Law School and the Gyro aggregation come together in the first game of a double header.

REAL ESTATE NEWS. The following real estate transfers have been recorded recently in St. John county:—

R. C. Brown to F. M. Brown, property in St. Martins.

Annie A. Brown and husband to Sara Swatsky, property in Adelaide street.

E. J. McKim to S. C. Matthews, property in Crown street, Kings County.

G. H. V. Belyea to J. R. Ross, property in Westfield.

James O'Brien to B. E. Smith, property in Hampton.

J. R. Ross to J. M. Ayles, property in Westfield.

Robert Rattray to R. N. Kierstead, property in Studholm.

Edward Higgins and William Garrick were charged this morning with being stowaways on the steamer Gracia which arrived in port yesterday from Glasgow.

It is probable that the men will be taken back on the steamer when she sails.

One man, charged with drunkenness, was remanded.

The retiring committee consisted of S. C. Tippet, chairman; J. G. Dryden, O. J. Lawson and the secretary of the United States, in which case the association service was called upon to assist in clearing away difficulties with the immigration department.

The committee wish to express sincere appreciation of the co-operation and assistance by various societies and individuals who so greatly helped in many cases.

WILL SEE FAST ONES NOT HERE AT LAST MEET

Speedy Skaters Galore for International Races

Announcement of Further Entries—Wm. Roughton, Capable Starter of Last Year, to Officiate Again—Some Carnival Announcements.

St. John people will have an opportunity of seeing some new faces among the skaters at Lily Lake a fortnight hence. The list of entries received by the secretary of the central committee contains the names of some well known skaters who did not attend the meet last year and their coming is regarded as another sign that there will be some new records hung up at this meet.

Among these names are Harry Kaskey, Alfred Nusser and Edward Corcoran of Johnson City; Herman Perleburg of Cleveland; Julian Steinmetz, Edward Reed and Robert Reed of Chicago; and A. J. Holland of Milwaukee.

The entry of Gladys Robinson has already been received and those of Rose Johnson and Elsie Muller, who have been at Johnson City, are expected. The entry of Edmund Webster of Toronto is in.

D. J. Corr, secretary, said this morning that he was now receiving a long list of applications from those willing to take boarders or roomers during carnival week. It is estimated that the housing facilities of the city will be taxed to the utmost and those who can take roomers or boarders are urged to send in their names to the secretary.

There cannot be too many on the list as the bureau headquarters, Wm. Roughton, of Montreal, who so efficiently acted as starter at the Lily Lake International meet last year will be the starter at the International meet this month.

It was announced last evening that the advance sale of grand stand and box seats was going fast and that more than one-half of the seats already were sold. D. J. Corr, secretary, said he had received letters from outside places asking for the reservation of seats.

There were good seats still available but he recommended that people lose no time in obtaining theirs. The matter of the sale of tags will be taken up this afternoon at a meeting of the Women's Council.

A meeting of officers was held last evening in the garbagemen in the assembly to further arrangements for the military ball to be held on Tuesday evening of the carnival week.

Col. H. McLean was to be in the city for a light procession, February 14, in which the G. W. V. A. have entered a float.

At a meeting of the G. W. V. A. last evening with S. C. Tippet in the chair, it was decided to enter a team in the bowling tournament in Carnival Week. All the members of the association were asked to join in the light procession, February 14, in which the G. W. V. A. have entered a float.

Attractive Coats That are Warm and Stylish Lowly Priced

As yet the winter is hardly half over. February and March winds are cold and penetrating—really the coldest part of winter—and you'll be glad to own one of the Coats that ideally combine warmth and style; especially when you see the very low February prices at which they are being offered, you are getting considerably more in coat value than you pay in money.

\$17.50, \$27, \$35 and Upwards

Taffeta Frocks

New arrivals that are ideal for the many events slated for February. You should see the charming new styles.

Women's Shop—3rd Floor.
