British Give Up Bailleul Under Great Pressure

Fresh Picked German Troops Used In Desperate Effort

Trying to Drive British From Messines Ridge and Succeed in Compelling Slight Retirement; Heavy Fighting Looked for in Defence of Wytshaete

Tremendous pressure exerted by picked fresh troops in the desperate German effort to drive the British from Messines Ridge has compelled a slight retirement of the British line on the northern side of the Lys battlefield. The town of Bailleul has been evacuated and the British front withdrawn to a line running from north of that town to the north of Wulverghem, and thence to Wytshaete.

Wytshaete occupies the highest point of the easterly ridge system and the British have been firmly established here since the early days of the offensive. The Germans brought their push into the southwest and are now apparently in a more advantageous position to attack it and their expected drive upon it was reported developing this morning. As it forms the pivot of the British lines which lead to the north, an extremely determined defence of it is looked for from Field Marshal Haig's forces.

SOME HIGH GROUND LOST

Although the loss of Bailleul and some of the comparatively high ground around it such as Mount De Lille and Revelberg, represents a decided setback for the defence, the British line, as it has been withdrawn, is still on ground much higher than the German occupy. The British artillery thus possesses numerous vantage points from which it can continue to pour in a devastating fire upon the attacking columns.

Chief among these high spots is Mount Kemmel, which towers up more than 400 feet from the low ground about Wulverghem, two miles to the south-east. Apparently Field Marshal Haig's forces still have a firm hold on all this high ground.

AN IMPORTANT FEATURE

What may be called the frontal attacks of the Germans upon the ridge system back of Messines, Wytshaete and Holsbeke furnish the spectacular feature of the operations as reflected in today's news.

One brief paragraph in Field Marshal Haig's report, however, has an importance attached to it that should not be overlooked. It records the repulse of heavy German attacks southwest of Vieux Berquin.

The German line here runs along the easterly border of Nieppe Wood, and it is by a push to the northwest in this region that the enemy hopes to reach Holsbeke, some thirty-five miles distant, and take this highly important railway station. Well nigh vital rail communications to the Messines and Ypres regions would thus be cut. The British line is being strongly held in this region, however, and the fighting at shows no signs of making progress, as the report of the Vieux Berquin engagement shows.

GOES DOWN WITH COTTON MARKET

Further Slump Today and Prominent Broker is Crushed

New York, April 16—Upon the opening of the New York cotton market today at another severe decline in prices, the failure of Gay L. Schiffer, one of the best known floor brokers on the exchange, was announced. It was said his liabilities were not large. Schiffer came a member of the exchange in 1893.

Initial prices today showed breaks of from 45 to 110 points. May opened at \$29.50, July \$27.75 and October at \$26.80. Although the market continues extremely nervous, a quick recovery followed, selling up to \$29.90. Orders here, the market there recording the maximum decline permitted in one day.

UNIVERSITIES ASKED FOR MEN FOR TANK UNIT

Quebec, April 16—Major Theo Paquet called today on the students of Laval and asked for volunteers to form a tank unit. The proposal by one sister, Miss Mary B. Lawrence, was given consideration, although no one stepped up to enlist immediately. All universities in Canada will be asked to do likewise.

MISS MARY B. LAWRENCE DEAD

Miss Mary B. Lawrence, daughter of the late Joseph W. and Ella B. Lawrence, died this morning at her residence, 91 King street. The news of her death will be learned with general regret, as she was a well-known resident who took an active part in those things which make for the betterment of a community. She was a member of St. John's (Stone) church, and was for more than twenty-seven years connected with various church societies. It will be remembered that when the movement was on foot for the building of the Free Public Library, Miss Lawrence was one of the most prominent workers, and for a considerable time acted as secretary.

A. J. Balfour Speaks of German Effort to Crush British and French Before American Force is Effective

London, April 16—Germany stands today as a predatory nation and is trying to destroy the British and French armies before the American forces can be brought into the field, said Arthur J. Balfour, minister for foreign affairs, in responding to a toast at a luncheon to the American labor delegation yesterday.

FOR MILLION DRESSINGS

More Than Enough N. H. S. Juniors Volunteer To Gather Sphagnum Moss

William McIntosh, curator of the Natural History Society, yesterday afternoon addressed a gathering of the junior members of that organization for the purpose of getting volunteers for collecting moss for sphagnum dressings this summer. Fifty youths were needed and more than that number have offered their services. Many girls from outside have asked to be allowed to go, but, if possible, it is the desire of Mr. McIntosh to keep the work wholly inside the N. H. S. junior society.

C. W. MITCHELL DEAD

Newcastle Man Who Had Part in C. P. R. Survey in Far West

BRITISH SWEEP CATTEGAT AND SINK TEN TRAWLERS

London, April 16—The admiralty announces ten German trawlers have been sunk by gun-fire in the Cattegat (between Sweden and Denmark). Their crews were saved by British ships. There were no British casualties.

The operations were undertaken by the commander-in-chief of the grand fleet. The statement follows: "The commander-in-chief of the grand fleet reports having undertaken to sweep the Cattegat on April 15. Ten German trawlers were sunk by gun-fire, their crews being saved by British ships. There were no British casualties."

In view of the recent rumors of possible naval activities by the Germans to accompany their land offensive, the news from London today shows that British naval forces have been operating in the Cattegat, the strait between Sweden and Denmark, and have sunk ten German trawlers there, is significant.

Still more significant seems the form of the British announcement, which comes in a report from Vice Admiral Sir David Beatty, commander-in-chief of the grand fleet. This would appear to indicate that the grand fleet is out, and possibly presages most important naval developments.

The operation was undertaken yesterday for the purpose of sweeping the Cattegat of mines, the report shows, and may still be in progress. What further British effort, if any, the operation implies, cannot well be forecast. It is indicative of intensified British naval activities, at any rate, if not preliminary to far more important operations on the part of the British naval forces.

THE 'PHONE CABLE The cable of the New Brunswick Telephone Company across the harbor is still out of order, although men worked all last night in a fruitless attempt to locate the trouble. They were hampered by the tides, as work can be done only at certain times. They stopped work this morning for rest, but will continue this afternoon and it is hoped that the cable will be repaired in a day or so. One smaller cable is still in commission and the West Side service will continue, although it will not be a full one.

ANTIS GAIN IN BRITISH HOUSE

Opponents of Irish Conscriptation More Numerous

Some Concessions in The Bill—Statements by Carson and Asquith—Nationalist Cheers As Growing Opposition to Bill is Shown

London, April 16—Sir George Cave, home secretary, having repudiated Joseph Devlin's suggestion that the government wanted to provoke civil war in Ireland, said that the government wished to treat England and Ireland alike in the matter of tribunals. The only object of proposing a limit to the right of appeal, he said, was to diminish delay. More time was needed before tribunals could be set up in Ireland, but he had no doubt they would be appointed on recommendations from the local Irish government board.

Herbert Asquith, former premier, welcomed former concessions announced by Sir George, but still urged the government to go cautiously. Only a careful, sympathetic consideration of the special conditions of Irish life, he said, could surmount the almost insuperable difficulty. He still considered the government's decision as ill-timed and unnecessary.

Sir George, in behalf of the government, announced that conscription would not be conscripted. He also accepted an amendment providing that regulation of recruiting and tribunals would be controlled by local government boards instead of, as proposed in the bill, by royal proclamation.

After these concessions had been announced the clause under discussion was carried by a vote of 276 to 134, the announcement of the figures showing an increasing minority. The governing opposition to the bill was loudly cheered by the Nationalists.

A rather unexpected attack on the government by Sir Edward Carson arose during the discussion of a clause giving the government power by proclamation to override military exemptions already granted by tribunals. The government had already made some concessions to meet the adverse sentiment of the public over the proposed diminution of the power of tribunals, but many members demand still further safeguards.

Sir Edward, amid applause from both the Nationalists and Ulsterites, declared he distrusted the government and said they were keeping Ireland dangerously in the dark.

The government is playing with the right honorable gentlemen, he said, and is playing with us. Whatever they intend to apply to Ireland they ought not to be asked for. He appealed to the government to deal frankly with all the Irish members in the house and tell them plainly what kind of machinery they are proposing to put in place. FOOD THINGS COMING TO THEATRES OF ST. JOHN EMPRESS SHOWS

State Right Production at Popular Prices

Lillian Walker in "Lust of the Ages"; Ogden Picture Corp drama, seven parts, state rights.

Lillian Walker has done nothing so good as her portrayal of Lois Craig in "Lust of the Ages"; nor has any screen actress been allotted a more delightful character to portray.

Edmund Craig, excellently portrayed by Harry Revier, through his obsession for greater wealth, appends the life of his wife and daughter, suddenly dying from a stroke of apoplexy as he argues with his board of directors for control of the food market.

In many places the story trends on old ground, but is so cleverly handled as to avoid the commonplace. Its episodes are tremendously gripping, particularly the "Temple of Mammon," which is an unusually strong spectacle.

Terrible Hand to Hand Work in Neuve Eglise

But One Thought on Either Side, Fight To The Finish—Germans Pay Heavily; 250 Trains of Wounded Nightly in Aix-la-Chapelle

With the British Army in France, April 15—(By the Associated Press)—The Germans occupied Ashables when they took Neuve Eglise. The contending forces had been asking and giving no quarter. Several times the night town village changed hands. On each occasion it was a struggle to the death with bayonets.

The British and Germans alike had but one thought—to fight to a finish. After the British recaptured the place on Saturday morning they continued to hold it with a hollow square of troops thrown around it. The massed Germans kept flinging themselves against this thin but determined line. The bayonet went on until late last night, when the pressure from overwhelming forces became too great, and the weary square of British soldiers, to reform in new positions a little northwest of the town. Even then the Germans found themselves in a nasty situation, for the British artillery immediately opened a tremendous bombardment and began piling up German dead with those who had gone before.

Balleul, eight and a half miles east of Hazebrouck, in Flanders, was captured and occupied by the Germans last evening when the enemy also seized Le Reveberg Ridge, east of the town. Washington, April 16—The heavy price the Germans are paying was today in despatches to the state department, saying that 800 train loads of wounded are passing through Aix La Chapelle every night.

ANTIS GAIN IN THE BRITISH HOUSE

(Continued from page 1.) he found great difficulty in understanding where they were under the bill and was beginning to have grave doubts whether the government really meant to put it into effect or not.

The government, he said, made a vital mistake in its manner of introducing the measure and would make the situation in Ireland tenfold worse if it kept the house-lounger in the dark.

Sir Edward's speech was punctuated by ironic remarks by John Dillon and Louie Chamerlain, the Nationalists. Joseph Devlin, following, said that Sir Edward's attack was one of the strangest and most unbecoming things he had seen Sir Edward do. Sir Edward, he said, was an Irishman and had discovered that he could trust nobody in the government.

"In order to cover up their mistakes," he said, "the government are raising the anti-Irish cry to create civil war in Ireland. Conscription is not a national necessity. It is a dirty trick and Carson has exposed it."

Hundred Protesting Meetings

London, April 16—Meetings to protest against conscription were held on Monday in 100 parishes in Ireland, all classes of the population participating, says a despatch from Dublin to the Times. The clergy took a prominent part in all meetings. Resolutions of protest are pouring in from public bodies and Sinn Fein clubs are very active.

"Unquestionably" the despatch adds, "the present temper of Nationalist Ireland is very deplorable. The country has lost all sense of proportion and has most welcome things as can be devised. It is a country of contradictions, however, for in Dublin and some other towns voluntary recruiting has been remarkably good in the last few days."

Urges Home Rule at Once

London, April 16—The committee which is in charge of the drafting of an Irish home rule bill, says the Times, includes J. Austen Chamberlain, former secretary for India. This, it adds, is a "fact which suggests that he already is, or is about to become a member of the war cabinet."

The same paper prints an appeal from Unionist members of parliament urging the immediate introduction of a measure of home rule. Conscription is not a national necessity, it says, and in harmony with the ultimate goal of federal devolution.

The appeal is signed by Laurence Hardy, J. F. Mason, Arthur Shirley Benn, George R. Lane-Fox, Leslie O. Wilson and George Lloyd.

THE POWER BILL IS UP AGAIN TODAY

(Continued from page 1.) the gross earnings for 1918 being \$64,000 greater than for 1916.

Reading extracts from the Waterman and Sloan reports, Dr. Wallace argued that the experts were in favor of an investigation of all the company's affairs by experts before any increase in rates should be approved. They did not consider that their own reports should be made the ground for increasing rates without supplementary examination of other features of the company's business.

Asks for Commission

After reference to the depreciation accounts and the large sums charged in that way, Dr. Wallace asked, on behalf of the citizens of St. John, that a commission be appointed. If anything were put on the statute books permitting increased rates without full investigation of the citizens would have the right to feel deeply aggrieved.

Pointing out that the report recently prepared has cost \$8,000 and saying that there should be no need to duplicate this expense, Dr. Baxter suggested that the proposed commission be empowered to use the Sloan and Waterman reports to aid in their work.

Dr. Wallace had no objection to this. Mr. Taylor.

For the power company, Mr. Taylor went at some length into the increased cost of fuel and supplies to show the need for more revenue. Regarding the appraised value of the property, he said that the total was \$2,606,000 taking into consideration the additional thirteen per cent for engineering and five per cent for contingencies. This, he said, merely represented the cost investment of the original builders and not the present value. To this sum should be added also the value of the water powers and the assets of the Eastern Electric Company.

In answer to the chairman, Mr. Taylor said that the assets of the Eastern Electric Company are included in the bonds of the New Brunswick Power Company. The value of the assets is \$124,000 and the earnings were \$24,000 a year.

Continuing, Mr. Taylor said that the gas plant had cost \$200,000 and not \$300,000, as Dr. Wallace had said. Dealing with the present value of the water power rights and the Eastern Electric Company, Mr. Taylor declares that the total value represented was \$4,000,000.

Costs of operating were increasing, he said. While the company was receiving an average of four and one-third cents for street car fares, it cost the company five and a quarter cents to carry each passenger.

Dr. Baxter said that it would be necessary for Mr. Taylor to show that the need was extremely urgent before he could ask for increased rates to go into effect before the report of the proposed commission was received.

Mr. Taylor commented on Mr. MacIntyre's report, saying that it was not satisfactory even to the city.

Mayor Hayes retorted that it was because the auditor was not allowed to go fully into all the books of the company.

The charge that Mr. MacIntyre's report was a fishing expedition or muck-raking was made with some heat by Mr. Taylor and at this point the premier intervened, asking that the discussion be confined to the points at issue.

The people of St. John, Dr. Baxter remarked, did not wish to drive the company into bankruptcy, but were willing to see a fair return on the actual investment.

F. L. Potts wanted to know if the company could cut out the lights and reduce the car service if their request was refused?

No answer to this question was given, said Mr. Taylor, saying that it was the effects of conscription on the street car revenues.

"Conscription is a good thing, but you can leave it out of this," remarked Mr. Potts.

Mr. Taylor told Dr. Baxter that the company would use more coal this year than last, as it was of poorer quality. An increased price was in effect and they expected further increases. They would need to see a return on the actual investment.

"Gas coal costs more," Mr. Hopper explained.

Mr. Taylor told the committee that the company's statement had been prepared accurately and carefully. They knew that it would be scrutinized minutely.

Mr. Potts—"Is that the only reason you are honest?"

Mr. Taylor—"We are naturally honest. A statement of operating expenses for 1917 was submitted on the premier's request by Mr. Hopper, as follows: Electrical, \$115,504; railway, \$201,281; gas, \$18,584.

Mr. Taylor said that wages were in-

The High Interest Charges

The chairman asked for the company's answer to the city's charge that the interest charges are unduly high.

Mr. Taylor replied that the question was whether the company could secure an adequate return to the investment value of \$2,606,000 as shown by the appraisers' reports, and he figured that the reports showed justification for increased returns.

Mr. Campbell remarked that the company asks for returns on \$3,100,000. Dr. Baxter asked if the company's position would not be shown to be better if the depreciation charges were taken into account, and Mr. Taylor replied that for 1918 the company would have net earnings of \$68,000 to meet bond interest of \$7,000.

NEWS OF OUR SOLDIERS

Mrs. Louise Lawlor of Newcastle has been advised that her son, Lieut. Frank Lawlor, who crossed overseas with the 102nd battalion, died on April 7 as the result of being gassed.

Pte. Thomas Titus, yesterday reported wounded, is a son of Mrs. Peter Titus, 180 Hawthorne avenue.

Chatham has received word of the death of Private Hubert Hawkes in action. He went overseas with the New Brunswick battalion. He is survived by his widowed mother and several brothers and sisters. Among the former is Father Hawkes, priest of Bartibogue.

Lewis Millett of Winslow has been advised that his son, Lieut. Noble Millett, was killed in an air raid in France. He was a flight lieutenant and was twenty-two years old. He had been reported missing since March 18.

Corporal H. D. Wetmore, son of the late Captain H. D. Wetmore of Clifton, in a letter to his mother recounts some of his experiences at the various parts of the battle line. He went overseas with Major Allen's battery and after a few weeks in the firing line he was wounded but returned to the front just prior to the battle of Vimy Ridge. He is now in England on leave. He says that four of the battery signallers were awarded the military medal and that he was one of them.

London, Mar. 18.—(Correspondence Associated Press)—Large contracts will soon be placed in England for supplies of boots to the American army in France. In anticipation of these requirements, leather supplies to manufacturers of civilian shoes have been curtailed and stringent restrictions will come into force early next month.

HALIFAX Y.W.C.A. WANTS A \$200,000 BUILDING

That there should be in Halifax a building costing \$200,000, where the work of the Y. W. C. A. could be conducted on something the same lines for girls as the Y. M. C. A. does for young men and soldiers, was the point of an address by Miss Glass, delivered at Government House last week before a meeting of men and women interested in the work. Miss Glass is the secretary of the Halifax Y. W. C. A. and began by telling of the establishing of the first Y. W. C. A. in London in 1855. The splendid work being done by the English Y. W. C. A. in the camp and on the battlefield was emphasized by Miss Glass. The women were behind the men who were behind the guns. Then she spoke of what the Y. W. C. A. is doing in Canada, in war work and in other directions.

Finally the operations of the association in Halifax were considered, the need there is for expansion and the pressing call from those young women who have only the room they board in, with no means for recreation outside—the urgent call from such as those for a place of innocent recreation and where leisure may be spent.

The present quarters are utterly inadequate in every way. A building properly equipped to meet the social, physical, spiritual and mental requirements, must be provided. It must be on a prominent street and would cost \$200,000.

Herbert Stairs of Wolfville pointed out that while such a building is a necessity for Halifax, it also is a necessity for the province—it would serve as a provincial headquarters as well as a city factor for good.

FOUR MILLION ACRES MORE IN CROP IN 1918

Half in Western Provinces and Nearly a Billion Acres in Ontario.

Victoria, April 16.—Prof. W. J. Black, Commissioner administering the Agricultural Instruction Act, estimates there will be an addition of 4,000,000 acres under crop in Canada this year, as compared with 1917. Half will be in the provinces east of the Great Lakes—probably nearly a million acres in Ontario, 600,000 in Quebec, where many of the grass lands are being broken up, and 400,000 in the maritime provinces. Of the 2,000,000 acres in the western provinces about half will be in Saskatchewan.

THE CAUSE OF SICKNESS

Apart from accident or illness due to infection almost all ill-health arises from one of two reasons. The great mistake that people make is in not realizing that both of these have the same cause at the root of them, namely poor and impure blood. Either bloodlessness or some trouble of the nerves will be found to be the reason for almost every ailment. If you are pale, suffer from headaches or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always bloodlessness. If you have nervous headaches, neuritis, sciatica and other nerve pains, the cause is run down, exhausted nerves. But run down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

This accounts for the great number of people, once in indifferent health, pale, nervous and dyspeptic, who have been made well and hearty by Dr. Williams' Pink Pills; for no medicine ever discovered is so valuable for increasing the supply of red blood cells and giving strength to worn out nerves. Men and women alike greatly benefit from a course of the splendid blood builder and nerve tonic.

If your dealer does not keep these pills you can get them by mail at 30 cents a box or six boxes for \$2.00 from Dr. Williams' Medicine Co., Brockville, Ont.

When Long Breaths Hurt Your Side
Rub Soreness Away With "Nerviline"

Prompt Action Often Prevents Pleurisy or Pneumonia

Do long breaths hurt you? Try it, and see. If you notice a wheeze or a catch in your side, then be sure trouble exists. Proper action consists in a vigorous rubbing of the back, chest and sore side with "Nerviline." This wonderful liniment sinks into the tissues where the pain is seated—gives instant relief. That catch disappears, all sense of soreness goes, and you then know that Nerviline has probably saved you from pleurisy.

Just try Nerviline for chest tightness, coughs, aches and soreness—it's a wonderful liniment and when kept in the home saves the family from lots of ills and suffering. A large bottle on hand makes the doctor's bill mighty small, and can be depended on as a reliable and mighty prompt cure for rheumatism, sciatica, lumbago, pleurisy, stiff neck, sore muscles, and enlarged joints.

Get the large 25c. family size bottle. Sold by dealers everywhere, or direct from the Catarhazone Co., Kingston, Canada.

A Mother's Endorsement
"With the children Nujol has done wonders"

Mothers! Assure the lasting, robust health of your children—health founded on regular bowel habits—by relieving their constipation with Nujol, the safe, effective remedy recommended in the following letters:—

Dixondale, Va., Jan. 1, 1917.

NUJOL LABORATORIES,
STANDARD OIL CO. (New Jersey),
BAYONNE, N. J.

Dear Sirs:—

I have given Nujol to my two year old daughter with very beneficial effect. She had always been constipated, and I think the regular use of Nujol was what cured her and caused her to form regular habits.

Very sincerely,
SELINA L. (MRS. N. S.) HOPKINS.

Now read this extract from a mother in Winslow, Arizona:—
"With the children Nujol has done wonders. A dose or two when they begin to fret results in their being as bright and happy as possible the day following."

Regular as Clockwork

EVERY mother knows how insidiously constipation saps vitality. The moment your children's bowels fail to act, their bodies become easy prey to many serious ailments. By all means keep their bowels—and your own—naturally regular by the use of Nujol—the pure, safe, drugless remedy which cannot harm the smallest child, and which thousands now use instead of harmful pills and physics. Remember that repeated dosing with strong laxative drugs dangerously weakens the natural bowel-vitality. Nujol relieves gently and thoroughly, without stimulation, griping or injurious reaction. Nujol is palatable, healing and reliable. Be "regular as clockwork"—use Nujol.

ABSOLUTELY HARMLESS

SOME MEN PAY INCOME TAX OF \$30,000,000

Chicago, April 16.—Some men are paying as high as \$30,000,000 income tax in the United States, according to Charles E. Eaton, head of the national service society of the United States shipping board and emergency fleet corporation.

The statement was made in the course of an address here before the shipping society of the annual meeting of the Chamber of Commerce of the City of Winnipeg at Chicago. The stenographic report quotes him on the subject as follows:

There are men in the nation today paying five millions, ten millions and some as high as thirty millions of dollars in income taxes to the government, and I have yet to hear from these men the first objection, the first squeal. They are patriotic. They walk up and give their money in service to the nation."

WOMEN'S COUNCIL

To discuss War Gardens a special meeting of the Local Council of Women was held yesterday afternoon in the King's Daughters' Guild. In the absence of Mrs. E. A. Smith, Mrs. Hooper, second vice-president, occupied the chair.

T. H. Estabrooks gave a talk upon the War Gardens' Association. The ladies of the West Side are organizing under the patronage of Mrs. W. I. Fenton, regent of the Brunswick Chapter, I. O. D. E., and East St. John will be looked after by a committee with Mrs. H. B. Peck as convener.

Mr. Estabrooks asked the help of the Women's Council in arranging, through their affiliated societies a house-to-house canvass to interest the people of St. John in the matter of the War Garden Association, and to try to find out how many will become members and thus help in the greater production campaign.

Mrs. Peck, Miss Haley and Mrs. Hooper spoke in the matter.

It was moved by Mrs. E. A. Young, seconded by Mrs. J. H. Doody, that while the members present were in hearty accord with the aims of the War Gardens' Association, it was deemed advisable to postpone action until the next meeting of the Local Council, when it is hoped all representatives of affiliated societies will be present. This was unanimously passed.

Y. W. C. A. MEETING

The meeting of the board of directors of the Y. W. C. A. was held in the transient home yesterday afternoon. Reports of the increased membership of the League of Honor were very encouraging. Reports of the excellent progress that the association has been making in this past few months were also received.

The following report was presented to the board: Transient visitors, 288; persons at trains, 24; persons helped at boats, 20; employment found for, 5; persons sent to hotels, 25; persons taken to Catholic Girls' Guild, 2; special cases dealt with, 5.

Plans were also discussed for an industrial camp and arrangements made for the annual meeting which is to be held in May, after which the association is planning to extend its work and have a general Y. W. C. A. secretary employed, who will take charge of all the activities of the association.

Call to Prayer.

The following letter was received from the Dominion Council of the Y. W. C. A.:

"Dear Mrs. McAvity,—The following is the copy of a message sent to us by the corresponding secretary of the National Council of Women. In view of the fact that the expected great offensive is now apparently taking place and that the results of the world's conflict may thereby be decided, the National Council of Women issues a call to the local council for intercession and prayer.

"As a similar request has likely gone to the local councils and other organizations it has been suggested that where no arrangements have been made the Young Women's Christian Association should take the initiative and set aside April 22—the anniversary of the Battle of St. Julien—and call to prayer and intercession their own members and those of other women's organizations. Believe me,

"Yours sincerely,
"N. S. ROWELL, Y.P."

MULTIPLICATION OF DELIVERIES

At a meeting of the Ontario Women Citizens' Association, held in Cobourg, the following resolution was passed:

"Whereas in many places the wasteful multiplication of deliveries by merchants are being eliminated; be it resolved that we, the Ontario Women Citizens' Association of Cobourg, heartily endorse the action of the Cobourg merchants in attempting the same economy of labor during the time of the war, and promise them our hearty support. Be it also resolved that we should strongly urge as a training in thrift for

FIND WHEAT SUBSTITUTES.

Toronto Restaurants Overcome Regulations By Introducing Corn and Rye Products.

(Toronto Star.)

Toronto restaurant managers have quickly solved the difficulties that arose through the recent wheat regulations. An example of what can be accomplished without the use of wheat one Yonge street restaurant has a most attractive window display, which drew considerable attention at noon today. Most tempting rye cakes, corn biscuits, also corn cakes, soda biscuits and pastry were in evidence. Hundreds passing the window were attracted by the unusual sign "Absolutely no wheat in these products."

Rye flour has practically supplanted wheat for the time being. "It is a shame that it was not brought into force long ago," declared the manager. "Restaurant patrons have taken to the rye flour readily and it has only taken a little experimenting on the part of our cooks to turn out very successful paste also biscuits and cake."

"The great difficulty is that rye flour is more expensive than the wheat. Where we paid about \$19 a barrel for the best wheat, rye costs us anywhere from \$15 to \$17 per barrel.

"We use the pure rye flour in the pie paste also in sweet cakes. Corn biscuits, which had a delicious flavor something similar to nuts, were made out of a mixture of corn, oatmeal, buckwheat, rye and rice. Even the soda biscuits have been experimented on, and have turned out most successfully.

"The only wheat product used in this establishment is white bread."

Even the meat regulations have proved no hardship to the majority as many new dishes which have been eaten rarely by the general public are being played up. One of the most popular dishes today is calves liver with onions, kidney saute and braised sweet breads, also boiled tongue and carrots. These dishes are served at practically the same prices and are as equally inviting and nutritious.

The city of Schoenberg, Germany, which adjoins Berlin, announced that it was planned to continue municipal feeding of the population after the war. This evoked numerous protests from mercantile associations.

ST. PHILLIP'S CHURCH

The second quarterly conference of St. Phillip's A. M. E. church has passed into history. Rev. C. A. Stewart of Amherst, presiding elder, delivered two helpful and inspiring sermons on Sunday to very appreciative audiences and at the quarterly conference on Monday spoke on the Halifax disaster. At the morning service which was full of spirit one individual went forward to join the church. The evening service was very well attended. The St. Phillip's choir is attaining a higher point of efficiency and plays no small part in the attractions of the services.

Rev. R. H. W. Pinkett, the pastor of the church, is to be complimented for the large measure of success that prevails. A spirit of harmony unexcelled in the parish exists and St. Phillip's under his leadership is moving onward to her rightful place in the community.

Under the able leadership of R. McIntyre and an interested staff of officers the Sunday school continues to improve and is playing a prominent part in the life of the church.

St. Phillip's church also has church auxiliaries working steadily and successfully, an evidence of the efficient leadership of the pastor.

USE THE WANT AD WAY

The Advantages of buying "Listed" Securities.

There are many advantages to the investor in buying Securities that are listed on the Stock Exchange.

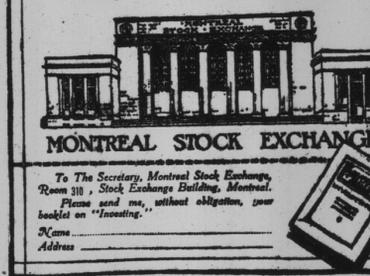

First: Careful and minute investigation is made into the affairs of a Company. Then certain regulations are made which assure the public of securing an equality of information on the issue of financial statements, dividend notices and other matters of interest.

Prices on listed securities are established, not by a group of dealers, but by the public at large.

Then there is the advantage of obtaining a daily record of all transactions. Quotations are published in most Newspapers, or can be secured almost instantly by telephone or telegraph no matter where you live.

Any member of the Montreal Stock Exchange can buy or sell for you any Listed or Unlisted Securities, which have a market anywhere in the world.

Write today to the Secretary for valuable Booklet on Investing. Use the form below provided for the purpose.

Canada's War Parliament

Ottawa, April 15—Sir Thomas White's mission to Washington marks his assumption of his public duties as Canada's financial comptroller, as announced in the commons by Sir Robert Borden today.

The enormous extent of the financial task ahead of the dominion for the current fiscal year may be realized by the fact that the total obligations which have to be provided for, not covered by revenue, approximate \$1,250,000,000.

The agreement reached by Sir Robert Borden and Hon. A. K. MacLean with the British and American representatives at Washington, during the mission of the Canadian envoys to the United States capital some weeks ago was that a part of the United States loan to Great Britain for purchases in this continent should be applied on Canadian account.

000 and \$500,000,000 according to the absolute Canadian shortage in meeting British credit requirements. Sir Thomas White and Mr. MacLean will doubtless discuss details further at Washington next week.

A further subject of conference at Washington will be the methods to be adopted for solving the exchange situation and meeting payments on Canada's present adverse trade balance with the states of some \$400,000,000 per year.

J. B. Armstrong, of Lambton, proposed a resolution urging that deposits of bituminous and anthracite coal in Canada, located in the extreme eastern and western portions of the dominion, be more thoroughly utilized, that peat and lignite deposits be developed, and

VETERANS GET THE ELKS' HOME

Announcement at Meeting Last Night—N. F. R. Knight, Dominion Secretary, Resigns

The Great War Veterans Association has secured the building at present occupied by the Elks Club, for their organization, was made public at the regular meeting of the association last evening in their room, Union street.

The president, Major Gordon Johnston, was in the chair. There was a good number present. Twenty-one new members were received into the organization. Charles Robinson said that he had a number of positions offered to him as open to members of the organization and said that any members who wished to secure the same should go to him and he would be able to accommodate a limited number.

HARVARD PROFESSOR GIVES ADDRESS HERE

Dr. Benjamin Rand Says German Submarine Can Never Win War

The changes that have taken place in warfare since the beginning of the great conflict, in all its different branches, with all of which he has had direct personal experience, and the things that he has seen in connection with the war both in England and France, formed the subject of a most interesting address last evening in the Seaman's Institute by Dr. Benjamin Rand, of Harvard University, before the Canadian Club and the Women's Canadian Club.

IN THE LEGISLATURE

Fred. Magee Continues Speech on The Budget

The Bill for Woman Suffrage Withdrawn—Audit Bill Read Third Time and Passed

Fredericton, N. B., April 15—One of the most telling speeches in the budget debate was delivered this evening by Fred Magee, of Port Elgin.

The speaker's defence of the government was based on the sound principle of common sense and he was given an attentive hearing by the members present, his remarks at times drawing expressions of approval from the opposition as well as from government members.

Mr. Magee congratulated the government on the large amount of advanced legislation brought down this year and commented on several important bills.

Commenting on Dr. Baxter's previous remarks regarding the employment of returned soldiers, he told briefly something of what has been done by the government and gave assurance that the claims of the soldiers would not be overlooked.

If the Bolshevik methods referred to by the former attorney-general meant giving the people control of the roads, the right to elect supervisors and examine the accounts, the speaker said, then he was a Bolshevik with regard to the purity of elections.

A strong appeal for the new public health act was made by the speaker. He could see no grounds for opposition to this advanced legislation except political partisanship, and he asked the opposition to deal with this measure on its merits and in the interests of the welfare of the people of the province.

Mr. Finner preceded Mr. Magee and in his usual style dwelt on details of the administration which he felt called upon to criticize. Laughter punctuated his remarks at times, as even his colleagues failed to suppress their merriment over some of his more ridiculous statements.

By referring to the Southampton railway, Hon. Mr. Veniot brought Mr. Finner up short at one point in his address. Again, when challenged by Mr. Veniot to substantiate a charge, he took refuge in the statement that he would be back again next year and would deal with it then.

At the opening of the session the speaker presented a ruling on the motion of Mr. Murray, of Kings, to refer back the bill providing for the assessment for patriotic purposes with instructions that it should be reduced. After some argument the ruling was held over until tomorrow.

The speaker tonight ruled Mr. Murray's motion to extend the suffrage to women in order, but as the premier announced that the bill would not receive the royal assent at this session, the bill was withdrawn.

The legislature resumed after the week-end recess with a fair attendance of members, but it was nearly 9 o'clock when the house came to order and another hour was taken up with routine and prolonged arguments by opposition leaders on the speaker's ruling.

The bill providing for the auditing of the public accounts of the province was read a third time and passed.

Mr. Crockett gave notice of inquiry as to whether the public health bill had been submitted to the ministerial association and as to whether Rev. J. G. Shearer had appeared before the legislature in support of said bill on the invitation of the government; also as to whether the bill had been submitted to the New Brunswick medical society or other organizations affected by it.

Hon. Mr. Foster said that when a bill to grant the franchise to women had been before the house a year ago, he had been one of those who had voted for it. In regard to the bill introduced by the honorable leader of the opposition he felt that it interfered with the rights and prerogatives of the crown and had already advised his honor the lieutenant-governor to refuse his assent to it, in case it should pass the house. He would ask that the bill be withdrawn.

Mr. Murray (Kings) said that the bill did not involve the expenditure of any public money.

Hon. Mr. Speaker said that in view of the fact the bill would not receive royal assent and would interfere with the prerogatives of the crown, he felt that it should be withdrawn. He quoted Bourinot as his authority.

Mr. Murray (Kings) said that inasmuch as the government had advised the lieutenant-governor to withhold assent to the bill no course was left open to him (Murray) but to withdraw it.

party he would say that anything that could be done to keep elections pure should and would be done.

Praises Bond Issue.

The recent bond issue was fully justified by Mr. Magee, who said that after close examination, and with some knowledge of securities, he was convinced that the premier had made the best possible arrangement for the province.

The amount was made by Mr. Magee that he hoped to introduce at this session a bill to provide for vocational training and he asked for its non-partisan consideration in the interests of the youth of the province.

Reaching some of the many demands upon the government for patriotic purposes, he showed that the \$500,000 assessment was not only justified but necessary.

Analyzing the figures, Mr. Magee showed how the much talked of deficit sprung under proper comparison and that the increase left was due to no fault of the government, but to causes beyond their control. He said he believed the revenue for the current year would be larger than estimated.

Pointing to the need of still larger revenue to improve the public services, he made some interesting comparisons of the amounts paid to the various provinces, and urged that the adjustment of this province should be further impressed on the federal government. He suggested this as a matter which would still uphold interest in maritime union.

The Water Powers.

One of the most striking features of his address was his pronouncement upon the subject of hydro-electric power. He put forward as his own attitude on this subject his conviction that the province should control the water powers and should go still further and exploit them for the benefit of the people.

He also urged an amendment to the federal prisons act to permit the use of convict labor on the roads.

A strong appeal for the new public health act was made by the speaker. He could see no grounds for opposition to this advanced legislation except political partisanship, and he asked the opposition to deal with this measure on its merits and in the interests of the welfare of the people of the province.

Mr. Finner preceded Mr. Magee and in his usual style dwelt on details of the administration which he felt called upon to criticize. Laughter punctuated his remarks at times, as even his colleagues failed to suppress their merriment over some of his more ridiculous statements.

How Canada's Greatest Shoe House Supplies the Nation's Footwear

CONSIDER the amount of time and the infinite care you take when buying footwear to suit your own taste in regard to style, size, etc. Multiply your own individual needs by millions and you will get an idea of the immense task which confronts the makers of Canada's footwear, and the size of the organization it is necessary to maintain for that purpose.

The buying of a single pair of shoes is an event that occupies a person but a few moments two or three times a year—but to meet the accumulated demand of a nation's individuals, it requires the whole resources of a gigantic industry.

It may be a revelation to many Canadians to know that to supply them with proper footwear, this firm maintains huge factories each with many acres of floor space, and hundreds of intricate, almost human, machines—facilities and equipment sufficient to turn out 8,000 pairs of shoes every working day.

It requires a small army of work-people, clerks and warehousemen, in addition to executives, buyers and travellers.

It requires much study and thought to plan styles and models of Men's, Women's and Children's shoes in their various grades and styles.

In order to secure the best results in the production of various kinds and grades, it is also necessary to specialize.

For example: Ames Holden McCready factories are separated into three distinct factory units, each a complete factory in itself.

One unit of our factories is devoted entirely to the manufacture of high grade footwear for Women and Children. Consider the great variety of styles in women's footwear, including high-top boots, oxfords and pumps.

Consider the many different patterns and lasts, the varieties and shades of leather and finish—then you will see what a great number of models are required to meet the widely different needs of Canadian women in the cities and towns and also in the country districts.

Another factory unit is devoted to making only the better grades and styles of Men's Shoes—shoes for professional men, lawyers, doctors, and all business men, whose occupations permit the use of fine leathers such as calf and kid.

The third unit specializes in sturdier types of shoes for heavy wear and rough usage. Shoes for farmers, lumbermen, miners, trainmen, and workpeople who require a heavier and more solidly-constructed boot.

In addition to the work of manufacture—the requirements of distribution are also tremendous. A manufacturer must not only make his goods economically and well—but he must deliver them—DISTRIBUTE them. Therefore, in addition to a force of 60 travellers constantly visiting the retail trade from coast to coast, Ames Holden McCready maintain, in the centres of population throughout Canada, immense stocks of boots and shoes ready for immediate shipment to the retailers in each section.

These warehouses are located in the following cities: St. John, Toronto, Montreal, Winnipeg, Edmonton, Vancouver.

Years of experience has taught us the kind and styles of boots which are required in each locality. No matter in what part of Canada you reside, no matter what particular kind of shoe you require, your retail dealer can procure it for you without loss of time.

And that is the reason why you will find, even in the outlying districts, that dealers selling Ames Holden McCready goods are up-to-date with stocks that are fresh and new, and which reflect the latest shapes and styles.

When you see the A. H. M. trade mark on a shoe, you know that not only is that mark an endorsement by the largest shoe concern in Canada, but that being the product of a highly organized industry, the shoe you are buying represents the utmost in value, style and wearing qualities which can be obtained at the price.

"TIZ" FOR SORE, TIRED FEET—AH!

"Tiz" is Grand for Aching, Swollen, Tender, Calloused Feet or Corns

What relief. No more tired feet, no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, calloused toes. No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or drag up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, calloused or bunions.

WHY I BELIEVE IN NUXATED IRON

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is conservatively estimated that over three million people annually are taking it in this country alone. It has been highly endorsed and used by former United States Senators and Members of Congress; Physicians who have been connected with well-known hospitals have prescribed and recommended it. Monsiegnor Nannini, a prominent Clergyman, recommends it to all. For Health Commissioner Wm. R. Kerry says it ought to be used in hospital and prescribed by every physician.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.) New York, and the Westchester County Hospital says there are thousands of men and women who need a strength and blood builder but do not know what to take. In his opinion there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to increase the strength and endurance of men and women who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how long you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Notes—Nuxated Iron, which has been used by former members of the U.S. Senate and House of Representatives, and other prominent people with such surprising results, and which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron salts, it is easily assimilated, does not injure the teeth, make them black or upset the stomach. The manufacturer guarantees successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by Watsons Drug Store and all good druggists.

VERY HEAVY LOSS IN TORONTO FIRE

Blaze at Harris Abattoir Plant Extinguished This Morning

Toronto, April 16.—With half a million dollars worth of packing house food-stuffs destroyed or seriously damaged, and another quarter million of destruction among plant and buildings, a fire which burned fiercely at the Harris abattoir plant here last night, was finally got under control and practically extinguished this morning. Several hundred men and women were temporarily thrown out of employment by the fire, but some of the buildings of the plant were saved, and will be in operation again immediately.

The police are investigating reports that mysterious explosion preceded the outbreak of the fire, which apparently started in the St. Ann's Laundry.

Seven men convicted of liquor swindles in New York State, are alleged to have victimized liquor dealers to the tune of \$500,000.

Had Bronchitis FOR THREE YEARS COULD GET NO RELIEF

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, and thereby prevent it becoming chronic and perhaps turning into some serious lung trouble.

Mr. Theodore P. Boers, Upper Main River, N. B., writes: "I was troubled with bronchitis for three years and could get no relief. I was always worse when I got wet. I tried lots of different medicines, but none did me good until a friend told me to try Dr. Wood's Norway Pine Syrup. I got three bottles and before I had them half used I was better."

"My mother is now using it for asthma. It is a great medicine and we never want to be without it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25c. and 50c.; manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

RATTLING GOOD BILL AT GEM ENJOYED

Verdi Trio Sing Way to Hearts of All — Other Excellent Vaudeville and Big Picture

One of the most enjoyable vaudeville acts presented here in a long time is that of the Verdi Trio, woman and two men, who are singing and playing their way into the hearts of all Gem patrons this week. The woman has a rich soprano voice, heard to advantage in such numbers as "The Last Rose of Summer." One of the men, a baritone, sings with excellent taste and in good voice and the other a tenor, is blessed with a surpassingly pleasing voice and sings artistically. The numbers include popular airs as well as operatic gems in solo and trio and accompanied by mandolin and guitar. The stage picture is very pretty and an element of comedy rounds out the act. It has been scoring a big hit.

Wilbur and Dollis provide another good turn. The man is an exceptionally good ventriloquist and his act is different from any ever seen here. He plays a policeman and is brimful of comedy. The close of his act is a striking surprise.

Ben Dorhan, in an excellent comedy monologue, has been pleasing the Gem audiences. He has a good style, is an excellent story teller and has a good variety.

Gerfield and Smith are a chipper pair, man and woman, in a rapidly double act full of bright quips.

The picture is "Man's Woman," in which that sterling actress, Ethel Clayton, is starred. It has to do with a wife who was pampered and petted and whose household was ruled by her husband's maiden aunt. But she asserts herself and as she does so makes a very bright picture story. It is of five reels.

The Gem will carry this programme until including Thursday night, with all changed on Friday afternoon.

Six Machine Guns Fired by Single Operator

To increase the deadliness of the machine gun, an American inventor has come to the fore with an apparatus that enables from two to six of the weapons to be handled by one operator and two assistants. The rifles can be fired separately, in groups, or simultaneously, as conditions dictate. They are mounted in a rack and controlled by different devices that regulate their respective elevations, ranges, and rates of fire. With the convenience it is possible for one gunner to sweep six targets of varying ranges at the same time, or concentrate the whole fury of the battery upon one of them. The mechanism is shown in detail in the April Popular Mechanics Magazine.

GALLANT WORK OF FIFTY-FIFTH

West Lancashire Territorials Won Glory at Givenchy

BELITTLED BY GERMANS

Enemy Order Described Them as Second Class Troops but Found Out Mistake in Series of Attacks

London, April 15.—(By Reuter's Ottawa Agency)—The following official supplementary despatch has been received from Reuter's correspondent at general headquarters, enant the work of the 55th Division at Givenchy, April 9 to 14:

"On the morning of the German attack on April 9 the 55th West Lancashire Division of Territorials was holding a front of about 800 yards, extending from La Bassee Canal to just south of Richebourg-Laveue, where the line joined that held by the Portuguese.

"The enemy's attack on a portion of this front was delivered by all three battalions of the fourth Ersatz division, which was well up to strength. A captured divisional order issued by the general staff of this German division, dated April 6, shows that the objectives were the ground and British positions in the triangle formed by Givenchy, Festubert and Gerre.

"The following passages in the captured order are of special interest: 'In the attack our three regiments will be opposed by at the most six companies in front and at the most two reserve battalions in Festubert and Givenchy. One battalion in divisional reserve is south of La Bassee Canal in Lepreol. It will be prevented by our powerful artillery fire from taking part in the fighting for Festubert and Givenchy. These troops are elements of the English 55th Division, which, after being engaged on the Somme, suffered heavy losses in Flanders and at Cambrai and is described by prisoners of March 1918, as a division fit to hold a quiet sector that is below average quality.'

"The order was distributed among all officers and under officers of the fourth Ersatz division down to the platoon commanders, presumably with a view to encourage the troops prior to their attack and in the belief that the opposition would not be very serious. If this was his expectation the enemy was most signally disappointed. Throughout the early part of the morning of April 9 the 55th division beat off all attacks in the forward zone and maintained the line intact. Later, when the German infantry had broken through the Portuguese positions on its left, the division formed a defensive flank, facing northeast on the

Is Proud of Her Fine Little Girls

WHY MADAME PEPIN IS GRATEFUL TO DODD'S KIDNEY PILLS.

Quebec Lady Tells How Her Children Were Cured of Childish Weakness and Made Strong and Well.

St. Honoré, Chicoutimi Co., Que., April 15.—(Special)—"I have two fine little girls, thanks to Dodd's Kidney Pills, and I can't tell how grateful I am."

It was out of a full heart that Madame Pierre Pepin, a well-known resident of this place, uttered these words, "I have given Dodd's Kidney Pills to my two little girls," she added, "and now they sleep well and do not wet the bed. They are perfectly cured."

Whether or not kidney disease is hereditary, the fact remains that many children suffer from weak kidneys that are unable to do their full work of straining all the impurities out of the blood. The result is that many parents whip their children, when what they really need is a remedy for their kidneys. Dodd's Kidney Pills have been used in Canada for over twenty-five years as a kidney remedy and have proved to be the best of their work they are doing, ask your neighbors.

line of Givenchy-Festubert to the neighborhood of Lenoquet. This line it maintained practically unchanged until, through six days of almost continual fighting, beating off repeated German attacks with the heaviest enemy losses and taking nearly 1,000 prisoners.

"During the first day if the attack the enemy forced his way into Givenchy and Festubert. Both lines were soon afterwards regained by the 55th division as a result of a highly successful counter-attack in which several hundred Germans were captured. All further attempts of the enemy to regain the positions broke down before the resolute defence of the 55th. Though he succeeded on the 11th in entering a post north of Festubert, he was thrown out again by a counter-attack on the night of the 12th and the 55th improved its position in this

Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary multifold coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two spoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifold coconut oil at any pharmacy; it's very cheap, and a few ounces will supply every member of the family for months.

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single scurf and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

To Quickly Remove Ugly Hairs From Face

(Beauty Notes.)

Beauty-destroying hairs are soon banished from the skin with the aid of a delicate paste, made by mixing some water with a little plain powdered delatone. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delatone you buy.

POULTRY PAYS HIM.
Bowmanville, Ont., April 16.—Farmers in Durham county are raising more poultry than ever before, and at the same time going more into dairying, as Toronto affords an excellent market for the product of both lines of farm industry. Records are common of how poultry

pays well the farmer who breeds the more profitable kinds. The latest to claim attention is this: W. J. Stark of Starville, Clarke township, sold a crate of twelve hens for Toronto Easter market at an average of \$2.50 each bird; they were from a flock of 125, which laid 1,450 dozen eggs in ten months last year. Mr. Stark's financial returns from the eggs and poultry sold last year netted him \$876.72.

FELL IN STREET.

A young woman, falling in a faint in Germain street this morning, struck her head and was considerably bruised. She was assisted into the W. P. Bonner's office and, after treatment, recovered sufficiently to proceed home.

A SOLDIER'S CHILD.

The funeral of little Margaret W. Nodwell was held this afternoon at half past one from the residence of her grandmother, Mrs. Susan Nodwell, 276 Waterloo street. A bright, cheerful child of sunny disposition, she was a general favorite with all with whom she came in contact. The floral tributes were many and testified to the esteem in which the child and her parents are held. Much sympathy will be extended to the mother, as her husband is overseas with No. 5 Army Service Corps. He has never seen his daughter, as she was born soon after his departure. Her parents the little one leaves one sister.

DEVELOPMENTS

IN LIQUOR CASE

Charge Of Having Stolen Goods in Possession

Had Been Missed Some Time Ago by W. H. Thorne & Co.—Search of House Told Of and Some Articles Identified

A charge against Morris Witzman, having liquor in his store in Union street, was given further hearing before Magistrate Ritchie in the police court, which was held in the afternoon. It was found that the liquor was only used for Passover.

A case against Max Webber, recently found with liquor on arrival by the Digby boat, also was up. There is also a charge in each case that stolen goods, which belonged to W. H. Thorne & Co. had been missed for some time.

Inspectors Crawford and Ross gave testimony of visiting the Digby boat and finding liquor in Webber's valise as well as some other articles believed to be Thorne's property. The inspectors, according to their testimony, then went to Witzman's store on Union street and found more suspected goods there, as well as liquor. William Moors, private detective working for W. H. Thorne & Co. was sworn. He had accompanied the inspectors to the Digby boat and afterwards to the store in Union street. He corroborated their testimony. A. E. Day, employe of W. H. Thorne & Co., Ltd., identified some of the goods by private marks.

The case was continued this morning in the police court, G. H. V. Belyea appearing for the prosecution and B. L. Gerow for the defence. Detective Duncan testified that with Detectives Briggs and Biddiscombe and Mr. Harrison, secretary of W. H. Thorne & Co., Ltd., he searched on April 11, 1918, at 106 Dorchester street. They found razors, knives, spoons and other articles, which were seized and brought to court. Witzman and his wife denied that they had any stolen goods and did not want them to search.

James E. Harrison, secretary of W. H. Thorne & Co., Ltd., testified that he was with the search party in order to identify suspicious looking goods. Most of the goods, he said, were found in a cabinet. Mrs. Witzman said that there was nothing in this when questioned and said that the key had been lost. The key, however, was found on the top of the cabinet and the goods were found. A silver card case was also found and this Mr. Harrison produced in court. He said that a silver cigarette case worth \$81.50 had been missed about Christmas. The wrapping on the card case found he could identify by private marks as belonging to the missing cigarette case. The card case was similar to those sold by his firm. Mr. Harrison then went through the list of articles and identified several by private marks.

Mr. Belyea—in searching through your books later did you find any sales of the goods found in Witzman's?

A—No.

Mr. Belyea—if they had been sold the items would have been in the books, would they not?

A—Yes.

The case was here postponed until this afternoon at 2 o'clock.

In connection with the liquor charge against Webber, he was called to the stand and made his statement. He said he bought twenty-six bottles of whiskey and brandy for \$14.50 in Montreal. He used none of it and kept it all until he reached St. John, where he stored it for five weeks in the house of his uncle, Mr. Witzman. He went to his home in Digby, he said, and returned here for the liquor which he arranged to take back on April 11. He took a steamer on the boat the night before and it was there that he was found by Inspectors Crawford and Ross the next morning. The question of his knowledge of the law came up and his honor said that he must have known that New Brunswick had a strict law, since Nova Scotia had a strict law as well.

"You honor," he said, "the law in Nova Scotia isn't as strict as here. You can often see men carrying around bottles in Digby."

"Yes," said the magistrate with a smile, "we are trying to make St. John as dry as possible, but they tell me that it's pretty wet in Digby."

"Oh, there's lots of water there," was the reply.

B. L. Gerow, appearing for Webber, argued as to the effect of section 114 of the act, by which a bona fide transaction between a party in this province and a party in another was made legal. To this the magistrate replied that he thought the section did not fit the circumstances of the case. After some argument the prisoner was sent below again.

A soldier was brought before the magistrate charged with being absent from a local military unit without leave. He was handed over to the military authorities on suspended sentence.

Two sailors, charged with deserting their ship, were warned and sent back to duty.

Two prisoners, charged with drunkenness, were fined \$8 or two months each and sent below.

ATTRACTION SIGHT AT

FALLS AS ICE-CAKES

ARE WHIRLED ABOUT

For the last few days the ice in the river has been running out quite freely. Yesterday several very large cakes came through the narrow into the basin above the falls, and while parts dropped off here and there on the journey, the ice held together pretty well, sailing along quietly until, answering the influence of a persistent current, the mass lodged against a boom of logs, where it rested until the tide changed. Then it answered the mighty call of the rushing water through the falls.

Gradually the big pieces crumble up as they hurry along, though some very good sized ice cakes successfully negotiate the falls. Just before the pitch is reached, the water is smooth as glass, but very swift. Here the ice sails rapidly, maintaining perfect poise until it comes the dip into the swirling troubled falls, or sometimes a toss almost out of the water, while some ice cakes take the pitch on end and then for a full minute are lost to view, reappearing at a considerable distance below where some of them was lost.

And next comes the tossing and turning and twisting through the gorge under the bridges, now drawn irresistibly into an eddy to become a prey for the time being, then out again and on sometimes on one side and then on another, buffeted and washed over and under, the ice finally works its hazardous passage into the steamer water below the bridges and from thence by more gentle urging of the river is conducted into the harbor.

The sight of the ice cakes in their journey through the falls is one of most absorbing interest, and when the falls are "rough" as the saying is, many a pedestrian crossing the bridge finds he cannot leave until he sees how that particular cake he has been watching, makes out in its final struggle with the turbulent water.

PROTEST AGAINST REMOVING

DEPOT BATTALION TO SUSSEX

There is a vigorous protest against the proposal to remove the Depot Battalion to Sussex for the summer. It is pointed out that St. John is better fitted for the quick despatch of troops for the front, and this is only a receiving depot, the real training of the men to be given in England. It is also contended that St. John, with its cooler climate, would be healthier for the men, who have every facility here for the squad drill that is really all that is required before going to England, as the sooner they go there for real training the better. It is further pointed out that most of the officers have their homes in St. John. Local business men are backing up the protest and urging that the battalion remain in St. John.

MIRAMICHI SOLDIER

PASSES AWAY HERE

The death of Pte. McLeod McFarlane of the Depot Battalion occurred this morning in the Military Hospital here. He was a young man of fine physique, in his 21st year, and succumbed to pneumonia, following a severe attack of measles. His comrades and the friends made since coming to the city several months ago will deeply sympathize with the bereaved family. Pte. McFarlane was a son of the late John McFarlane of Chatham, N. B. He is survived by his mother, who is now in the city, and one brother, Arthur, of Nelson. Edgar Lyman, an uncle, is also in the city. It has been decided to bury the young man's body in the soldier's lot at Fernhill, and the funeral will take place tomorrow afternoon at half-past two o'clock.

HER DAUGHTER ILL.

Mrs. A. Alcorn of 147 Queen street, arrived home yesterday from Halifax, where she was called two weeks ago on account of the severe illness of her daughter, Mrs. A. Audette. Mrs. Audette's many friends in St. John will join in wishing her a very speedy recovery.

It Requires Study

The proper furnishing of a home requires careful study. Many people have realized when it was too late, that a little advice with knowledge behind it might have enabled them to furnish their homes properly without additional expense.

We have the knowledge, and our advice is yours for the asking. It would be a good plan to come in right now while our stocks are new and fresh and see with your own eyes what is best for each room.

Unusual Hats For \$3.

We say "Unusual" because we fully believe these Hats are very exceptional quality for the price asked. The styles are in our usual good taste—the lively shapes for the young chap, together with the more conservative shapes for the older business man, but all modish.
