

THE UNION ADVOCATE.

VOL. 36.

NEWCASTLE, N. B. WEDNESDAY MORNING, JULY 26, 1893.

No. 42

Cash or Credit?

The credit system in housekeeping offers the specious inducement that you may buy when you wish in the great city and still be able to pay when it is convenient. Unfortunately, it is not always either easy or convenient to pay a bill that has been rolling up week by week, month by month, till the aggregate is a formidable sum. The merchant who grants long credit practically owns a dictatorial customer, who cannot go elsewhere and pay cash while he is bound to the store in which he has an account. Sleepless nights and shamed days, and income anticipated to the last dollar, are the heavy price paid for credit by people of limited means.

When one pays as one goes, or settles every household account weekly, one enjoys a delightful independence. Then, one's purse exercises a very salutary check on one's desires. Fancy groceries, daintily packed biscuits, confections, and delicacies, all sorts of little table luxuries that are nice but may be done without, are freely purchased when one is to pay on some distant and accommodating tomorrow, but are not so lavishly bought when it is a question of paying at once.

The woman who keeps her household expenses well within a comfortable margin, is usually the woman who runs up no bill, but pays her grocery, butcher, milk man, vegetable man and tradesman in general, as soon as she has left his store on her kitchen table. One who compares the two systems in her own experience, if she belongs to the great host of people who must be economical if they would be honest, will never adopt credit in preference to cash in her domestic management.—*Christian Herald*, July 24, 1893.

NEW PRINTS.

During the past week we have added a large number of the above to our stock. They are heavy and strong and new in light and dark colors, are 32 to 36 inches in width.

PRICE 10c the yd.

OSTRICH'S HEAD IN SHARK

Extraordinary Contents
of the Leviathan's Stomach.

A huge man-eating shark was captured recently at Palm Beach, Fla. It was one of the biggest sharks ever caught in Florida waters and was evidently a sailor of many years. The animal measured over 18 feet in length, had a sword attachment that was as long as an arm, and was of the leopard variety, stamping it as one of the man-eating variety, a dangerous beast.

The shark was caught by a shark fisherman. He used a large rope for a line, and had a windlass as a reel. At the end of the line was a huge fish hook, and this was baited with a large light tin can. It was the interior of the fish, however, that excited the greatest interest. When he was cut open a whole porpoise was found in the stomach. There was also a large piece of partly digested shark and the head of an ostrich. The piece of shark inside the monster was out of the back, and contained the back bone of the dead animal.

A careful examination showed that the backbones were larger than the backbones of the captured shark. A number of scars on his body showed that he had been in conflict with another shark, and the finding of a piece of the adversary showed that the conflict ended in the death of the opponent; that the victor had then swallowed a juicy portion of his adversary. The presence of the ostrich head in the stomach of the man-eater was regarded as undoubted proof that the shark had probably just arrived in Florida waters from Africa, and that he had made the trip in two or three days. The head was not digested, and the process of digestion had only just begun. There is only one ostrich farm in Florida, and when that institution was communicated with the owners said that they had not lost an ostrich in a year. The ability of a shark to pass a fast steamer in one minute's time is well known to travellers, and there is no doubt that the shark had been in African waters and had captured a stray ostrich, or the head of one that had been killed, and then started across the Atlantic, reaching the Florida waters before the ostrich head had begun to digest.

Rev Mr Barr Talks.

He has a Claim against
the Government.

OTTAWA, July 14.—Rev. J. M. Barr is in the city to interview the Immigration Department in reference to his claims to a bonus of seven shillings per head for bringing in settlers to the number of over 2,000.

Skin was on Fire with Eczema

For twelve years a dreadful sufferer, but now entirely cured by Dr. Chase's Ointment.

Eczema's itchy torture, the skin seems on fire with the burning, stinging humors; at times it becomes almost unbearable, and in desperation you could tear the skin to pieces. You dare not exercise for fear of aggravating the itching, neither can you sleep, for no one does the body become warm than the skin begins, and instead of restful refreshing sleep it is scratch, scratch, scratch all night.

ALEX. McDONALD, postmaster, Cove Marsh, N.S., writes:—"For twelve years I was a great sufferer from eczema on the inside of the leg. There was a raw patch of flesh about three inches square, and the itching was something fearful. Dr. Chase's Ointment completely cured me, took away the itching and healed up the sore. I have no hesitation in recommending it as a wonderful cure for itching skin disease."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmundson, Bates and Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

Speaking of the financial end of the transaction Mr. Barr said: My commissions on the steamship tickets were all I got and they amounted to \$13,000. I charged no direct fee to the colonists, although I might have done so. Of the amount I received, over \$5,000 was spent in my London office, in clerk hire, postage, printing, rent, and other expenses, and incidental and unforeseen expenses have more than used up the \$5,000 left. I was not in this work out of feelings of pure philanthropy, and think it would only be fair that I should have my services appreciated.

While there was more or less overcrowding on the boat, it was the fault of the Elder-Dempster Company in not properly distributing the passengers, and in confusing the hand baggage so that many passengers could not get a change of linen during the whole trip across. Then the crew was short and we had to engage some of the colonists as waiters and servants, but we might have been worse crowded, as there were 500 people wanting to come on the same boat. I am satisfied with the work, however, as over 1,800 of those who came over are today settled on the land, and the other four or five hundred are scattered around the country, working for others, as they intended to do.

WON'T BE CONVINCED

Miners Refuse to go to
Work Because an Ex-
plosion Has Been
"Predicted"

GLACE BAY, C. B. July 16.—A large number of miners did not go to work to-day in Dominion No. 2 mine owing to the report that a prediction had been made that there would be an explosion. The man who started the report will be legally dealt with. Women have refused to fill the dinner kettles for their husbands and have in other ways sought to prevent the men from going to work. Many of the miners are superstitious and will not go to work. Some of the women have become hysterical over the alleged prediction. Your correspondent went down into the mine and noticed in some instances after shots had been fired men trembling at their shovels. The indications are that very few miners will line up for work on Saturday. The manager is endeavoring to prove to the men that the story that the prediction had been made was concocted by a man who will be proceeded against at once.

LATER.

GLACE BAY, July 16.—The man suspected of circulating the prediction has admitted that he made the story out of whole cloth. He did not think it would have been attended with serious results.

VENEZUELA'S CIVIL WAR

City of Ciudad Bolivar to
be Besieged.

SOLEDAD, Venezuela, July 15.—The situation is unchanged. The attack on Ciudad Bolivar by the Venezuelan government troops, which appeared imminent yesterday morning, as cabled at the time, has been deferred at the request of the American and German consuls and the bishop, who transmitted to President Castro, through General Gomez, the commander-in-chief of the government forces, a long telegram asking him to be magnanimous and to show mercy to all the revolutionists surrender. It is known that the President answered

Fibroid Tumors Cured

Note the result of Mrs. Pinkham's advice and medicine.

"Some time ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman."

"The use of Lydia E. Pinkham's Vegetable Compound entirely expelled the tumor and strengthened my whole system. I can walk miles now."

"Lydia E. Pinkham's Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial." (Signed) Mrs. E. F. HAYES, 232 Dudley St., (Roxbury) Boston, Mass.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration; falling and displacement of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt in the minds of fair people.

as follows: "Yes, for everyone except the traitor Ferrer, the author of so many tears and the cause of making so many orphans." The final period of delay given by General Gomez for a definite answer to his request for the surrender of General Rolando and his followers expires to-day, but the correspondent of the Associated Press is informed that at the last minute President Castro, wishing to save the lives of the inhabitants of Ciudad Bolivar and to avoid the horrors which must follow the storming of the city, ordered General Gomez not to open fire if he is not attacked, but to simply besiege the city. The revolutionists, having no provisions, cannot resist more than ten days. The Venezuelan man of war Bolivar has left for the Island of Trinidad to fetch provisions for the government troops.

ANOTHER BOND BETWEEN CAN- ADA AND NEW ZEALAND.

New Zealand has advised Sir William Mulock that she will accept Canada's newspapers and periodicals at Canadian domestic rates.

New Zealand is one of the most progressive colonies of the Empire. Her people were one of the first of the over seas countries to appreciate Ogilvie's Flour which has since become the prescribed flour of the Royal Household. The New Zealand people recognized in Ogilvie's those qualities which have made it famous in every bread making country on the globe. They understand why H. R. H. the Prince of Wales will have no other.

MANY CHILDREN SUFFER from Worms through loss of appetite, fits, sleeplessness and pains. Give McLean's Vegetable Worm Syrup, the original and genuine. Always Safe, Pleasant and Effective; many years in use; always satisfactory. Get the genuine McLean's Vegetable Worm Syrup.

On The Rounds Again

A Russian Who Claims
Two Hundred years of
Life.

St. PETERSBURG, June 22.—Leading Russian journals are now proudly drawing attention to the fact that there has been for some time in the hospital at Tomsk a man who has lived for more than 200 years. Knowing well that the public would be loath to believe such a story unless ample evidence of its truth were forthcoming, they further point out that they have carefully examined his birth and marriage certificates and can testify that his married life lasted forty-seven years and that he has been a widower 125 years.

PIMPLES SPOILED HER BEAUTY.

A Society Belle of Kingston Cured
of Pimples and Blisters by
Using.

FERROZONE.

Miss Evelyn M. Gierz of Kingston, writes: "I had an attack of blood disorder which broke out in horrid looking pimples. They were ugly red disfiguring blotches that ruined the appearance of my face. I tried all sorts of medicine, but the pimples didn't leave. I was recommended Ferrozone and gave it a trial. I noticed an improvement after the second box, and kept up the treatment which finally cleared my skin. As the result of Ferrozone I have a clear healthy complexion and can recommend it to all other young women similarly affected."

Another young lady well known in society circles of Springfield, who derived exceptional benefit from Ferrozone, says: "I feel it my duty to make known the value of Ferrozone. My trouble was poor, weak blood, and as a consequence my lips were pallid, and my cheeks had no color. I wasn't at all strong and required a bracing tonic. Ferrozone soon brought color to my cheeks, improved my appetite and made me stronger than I have been in years. I favor Ferrozone because it is so simple to take and works so quickly."

Just one Ferrozone tablet at meals—that's all. Easy to take, sure to cure, and not expensive. Better use Ferrozone and be beautiful and strong like others that employ this splendid tonic. Price 50c. per box or six boxes for \$2.50, at all druggists or by mail from The Ferrozone Company, Kingston, Ont. Don't fail to get a supply of Ferrozone to-day.

This wonderful old man has been bedridden for some time, but his brain is as clear as ever it was and nothing pleases him more than to tell visitors how he once had the good fortune to see Peter the Great and Queen Catherine.

A GUARANTEED CURE For All Forms of Kidney Disease.

We the undersigned Druggists, are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettinelli's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys:—

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three or six bottles effect astonishing and permanent cures. If not relieved and cured, you waste no money."—F. R. Dalton, Newcastle, N. E.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for such and every form of itching, bleeding, protruding piles, hemorrhoids, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys:—

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three or six bottles effect astonishing and permanent cures. If not relieved and cured, you waste no money."—F. R. Dalton, Newcastle, N. E.

Minard's Liniment Cures Garget in Cows.

Is your employer out? Inquired

the caller.

Yes sir replied the office boy.

How do you know without look-

ing into his private office?

Because I just heard him growl

about the cards he was getting and

call for another stack of blues.

Minard's Liniment Cures Distemper.

Teacher—Which letter is the

next one to the letter H?

Foy—Dunno, ma'ma.

Teacher—What have I on both

side of my nose?

Boy—Freckles, ma'ma.

Pride goes before destruction

and so does everything else if it

has any sense.

Minard's Liniment Cures Diphtheria.

But we—we shall not begin our

married life with a secret, shall we

dearest.

No, dearest he murmured.

There's plenty of time.

Minard's Liniment Cures Colds, etc.

I'm sorry, but I really can't let

you see my wife if you wear that

beautiful new hat. She's quite

sick, and the doctor has expressly

stated that nothing must be allowed

to excite her.

PEOPLE OF THIS PLACE

There are people in every town and

village of this country who have been

cured of itching, bleeding and protruding

piles by the use of Dr. Chase's Ointment.

Ask your friends about this great prepa-

ration, they can tell you of its great

soothing, healing and antiseptic powers.

More reputable people have endorsed Dr.

Chase's Ointment than any preparation

you can mention.

Custom (entered poultry shop)

should like to see a nice fat goose.

Small Boy—Yes, sir; mother

will be in directly.

You see, said Farmer Cornstossie,

a phrenologist once told us that our

boy Josh had a remarkable head.

So you sent him to college?

Yes Now we're waiting to see

whether his head is goin' to turn

out to be a congenial residence for

brains or jes' a garden fur football

hair.

Oh! But It's Nice.

Ker-Toomey Wedding.

One of the few church weddings of the year was marriage last evening in the parlors of the Baptist church of Miss Alice Toomey, daughter of Mr. and Mrs. John Toomey of Houghton street, and J. Eastburn Baker of East Walpole. The parlors were attractively decorated with flowers and evergreen and there was a fair sized company of present. Rev. J. H. Spencer performed the marriage ceremony at 7.30 o'clock. The best man was Richard Baker, brother of the groom, and Miss Toomey was attended by her sister Miss Edith Toomey.

After the wedding a reception was held at the home on Houghton street at which a large number of local friends with a few out of town guests attended. A collation was served and music by the Misses Toomey was enjoyed in the evening.

The groom before going to East Walpole lived in this city for about a year and a half, his family coming here from Fitchburg and making their home on school street. Mr. Baker was employed in Johnson-Duntar mill for a time and then entered Bliss Business college, from which he graduated recently and obtained the position of assistant shipper for F. W. Bird & Son, a paper making firm of East Walpole. He was prominent in the Methodist S. S. while here and holds an office in the large young men's class which Rev. J. A. Hamilton conducts.

Miss Toomey has lived in this city for a number of years and has taken part in the social activities of the Baptist church with which she has been favorably identified. The couple will not go on a wedding trip of any length but after a few days in this city will go to East Walpole where they will begin housekeeping.

Potatomo Plant.

An anomaly in grafting, being a plant which is growing first class potatoes at the roots and bearing fully developed tomatoes at the stalk was brought about by Prof. Green of the Minnesota state school of Agriculture, when he cut off the young shoots of a potato vine, making a V-shaped slit in the top, into which he inserted a freshly clipped young tomato plant bound the joints with straw and supported it by long rods. Nature did the rest. The tomato drew sustenance from the earth through the roots of the potato, and in return furnished what was required in the way of the action of light and air upon its own leaves to its adopted roots.

The plant is now three months old. On pushing aside the earth several fairly developed potatoes are shown, each a trifle larger than a large hen's egg. From the vines a half dozen tomatoes are hanging, in different stages of maturity. Several have ripened and the

others promise to do so as well. The tomato vine loses its identity at the place where the graft was made. There are no leaves at all suggestive of the potato. The vine is fully three feet high—New York Herald.

SCRAWNY PEOPLE

People grow thin, scrawny, pale and weak when the blood is thin and watery. What is needed is food that will build up the blood, is not fat but healthy muscular tissue. By enriching the blood and increasing its nourishing qualities Dr. Cass's Nerve Food adds new flesh and tissue to the body as well as new vigor and energy. You can prove this by noting your increase in weight while using this great food cure.

JANEVILLE.

We are having beautiful weather now. Some very hot days, but the crops are growing well after the rain we had last week.

We notice several of O'Brien's mill men around again on their wheels, and we hear that there has been a strike.

Mr. and Mrs. Charles Smith of Tetagouche spent several days of last week in Janeville.

Miss Agnes O'Brien is spending a few weeks with friends here.

We were sorry to hear that one of Clifton's leading merchants was taken with a sudden fit at the Wednesday night. He was outside when he was stricken and had to be assisted to the house by William O'Brien and several ladies. We were glad that in a few hours he recovered and is enjoying his usual health at present.

SWORDFISH WOUNDS MAN

Ran its sword through boat and opened the Fisherman's Leg

BLOCK ISLAND, July 12.—Christopher Norwaugh, one of the best known fishermen of the fleet which hails from the island, was hurt in a battle Saturday with a swordfish weighing 500 pounds, and is having his injuries attended to at a hospital in Providence.

Norwaugh was one of the crew of the catboat Lindsey, commanded by captain Edwin Dodge. When six miles south of the island, the man at the masthead saw the swordfish and the boat was headed for it.

When the boat neared the fish Capt. Dodge sighting the monster about three feet below the surface, harpooned it, and Norwaugh went off in a small boat to finish it.

The fish dived deep, and, turning quickly, came up directly under the stern of the boat. Norwaugh was standing in the stern.

The sword struck the bottom of the boat, penetrated it, entered the fisherman's left leg, and it was forced through the fleshy part of the leg. The point of the sword was pushed entirely through the flesh, coming out at the hip.

The weapon with which the fighting fish cut the man was over three feet long, and the wound it made was a jagged one nearly thirty inches long. The flesh of Norwaugh's leg was torn from the bone.

The struggle between man and fish was observed by those in the fishing boat, and the crew of the Lindsey went to the rescue as soon as possible. She arrived here shortly after noon. Drs. Husted and Champin attended Norwaugh who was removed to a hospital.

LIFE A BURDEN

Period of Torrid Drought in England Suddenly ended by Hailstones Which Smash Plato Glass—Plague of Mosquitoes.

LONDON, July 12.—Some startling contrasts have been alluded to today's weather record.

The hot wave has suffered an interruption, thus restoring an

temperature to below normal for the time of the year.

In the South Midlands, with exceptions here and there, Saturday was abnormally hot, although in London one degree less was registered than on Friday with 84 degrees as against 85 degrees.

Today witnessed a great change. London's absolute drought of twenty-two days was broken in the morning by a shower of thunder type, which however, yielded only a hundredth of an inch in the gauge at the Brixton meteorological station.

In remarkable contrast to London and the South, the Northern Midlands and eastern counties experienced a remarkable storm. In Matlock and the neighborhood a thunderstorm was followed by blinding showers of large hailstones. The ground was covered as though with snow. The rainfall rushed from the hills into the valley literally making a river of both Parole, flooding the shops and house.

A large part of Lincolnshire felt the effects of the storm to an extraordinary extent. Hailstones broke the lamps and house windows, to say nothing of the thick glass windows of a train from Newark, which reached Lincoln in a deplorable state.

The wreckage at Newark itself, where the storm extended over an area of four miles, included the smashing through of the glass roof of the railway station, and much damage was done to growing crops throughout the storm area.

Life is becoming a burden hard to be borne in the suburbs of London bordering upon the lower Thames by reason of a plague of mosquitoes.

All inhabited places adjacent to the docks and the wide Thames march ground of Woolwich and Greenwich, and even high and wholesome land toward Blackheath, are groaning under a common incubus.

To sit in a garden in the cool evening is to invite an attack.

An evening walk in Bostal Wood is a torment. A stroll across the soft grass of Greenwich Park at twilight falls results in swollen ankles from the stings of mosquitoes brushed from their resting places.

They can sting through thick cycling stockings.

After dusk the streets are positively unsafe because of the infesting mosquito bands.

In East Ham Hospital they are obliged to cover the beds with muslin curtains, a thing hitherto unknown here. During the long, hot night little children toss their arms outside the curtain, and before morning they are suffering torments. Their hair is swollen and inflamed, and with the scratching of the ten for skin look as if upon the verge of eczema. Some of the nurses' hands are swollen like puddings.

How was E. Helina's graduation essay?

Beautiful, answered the proud mother, wept no expense in ribbons to bind it, and I have no hesitation in saying it was the most becoming essay in the class.

So Woody is very rich now. When I knew him he was poor. His only treasure in those days was the musket his great-grandfather carried in the revolution.

Oh, his great-grandfather has been promoted since. Woody exhibits his sword now.

Miss DeAuberan (ma'am) said: Have you ever been d n in oil Mr. Marks—Well I guess yes.

Miss DeAuberan—And who was the artist?

Mr. Marks—A artist nothing! It was a promoter that did me.

She—I heard that you were hurt in a football game recently. He Oh, not of any account. I was only two days in the hospital.

in preference to all other teas Baird and Peters (St. John, N. B.)

The WHIRL of the TOWN

SUBSCRIBERS will kindly watch the date opposite their names on the **ADVOCATE** each week, for two reasons—to note when they are in arrears, and help the Publishers by paying up promptly, and when paid up to see that the date is changed.

The salmon fishing down river has been very poor for the past week.

Don't forget the Board of Trade meeting to night.

Messrs. R. N. Wyse and O. N. Brown started for the Big Hole Monday afternoon for a few days' fishing.

Rev. T. H. Cuthbert will preach in St. Peter's church, Lerby, Sunday the 26th at 4.30.

The rain of the past week has raised the waters on the Main Northwest and Sevege rivers at least 24 inches.

Messrs. Wm. Crawford, Wm. Hill, Jas. McCormick of New York and R. H. Armstrong left Monday morning for camp Adams.

One of the men employed on the L. C. R. bridge construction work had a very narrow escape Sunday evening, falling from the wooden trestle into one of the scows.

Mr. L. B. McMurdo has placed a new combination billiard and pool table in his room. The table is one of the latest models, up-to-date in all respects.

A runaway horse attached to a sloven caused a little commotion in the upper end of the town Monday but was stopped before any damage was done.

St. Andrew's church—Commencement of the third year's pastoral—11 o'clock. "The object of the True Ministry"—7 "How to Hear."

A large number of young people were disappointed yesterday morning. They had planned to spend the day at the seashore but the rain prevented them from going.

The carcass of a large bull moose was floating about the river during the past week. Those who examined it failed to find any wound to cause death.

Mr. Geo. W. Nash returned from a two weeks fishing trip at Cal's pool. Salmon and grise have been scarce in that locality.

The August Canadian Magazine will be of special interest to New Brunswick readers, since it will contain two stories by New Brunswick writers, Theodore Roberts and Elizabeth Rober Macdonald.

Lynch's mill of Nelson has been doing big work making an average of over 70,000 feet for the past 15 days seems to be the largest on record on the river.

George Major sawyer, Patrick Gorman edgeman, William Doolan, Jr. sawyer William Doolan Sr., Mana'er.

An important meeting of the Newcastle Board of Trade will be held in the Town Hall to night Wednesday at 8.30 o'clock. As important business is to be discussed a full attendance of members is requested.

The tea and sale by the members of St. Margaret's guild on St. Andrew's S. S. grounds last Friday, was a very pleasant affair and the young ladies are to be complimented on the success of their undertaking. The proceeds amounted to nearly \$60.

Dr. Cates Dentist will visit his Newcastle office this month at noon on the 29th inst. and will remain until Saturday evening. On account of work at home cannot visit Newcastle again until September unless for a short special trip.

The Chatham Stars and the Newcastle Vectors will play two games of ball on Thursday July 30 one at 3 o'clock and other at 6.45. They will be good lively games and should attract a crowd of ball lovers.

Mr. J. Dayton Williams, representing the Mason Risch Piano Co. Toronto, arrived in Newcastle Saturday with a piano which he is exhibiting at the Lounsbury Co's piano ware rooms. A great many were in and enjoyed the good music produced by this instrument on the Mason Risch Piano. The Lounsbury Co. carry in stock the above piano.

Two attempts were made to place the first new span in the South-west bridge. On Sunday the old span was successfully floated out but the water did not rise sufficiently high to float in the new span and the old one had to be replaced. Another attempt was made on Monday but the wind was blowing too hard. It was successfully placed Tuesday.

We clip the following from a Chicago paper.

Mrs. Anslow Brexton's millinery float was by far the prettiest, daintiest and most effective creation of artistic display in the parade. Two fair maids in beautiful costume of 1800 and 1900, were busily engaged in trimming a child's hat, while the entire ensembles were a triumph of decoration. For a figurehead was a grandly dressed doll, from whose hands fell rain of red and blue ribbons. It was a leading factor for the prize for artistic float.

Reception to Dr. and Mrs. Duffy.

On Monday 13th inst. the members of Branch 272 of the C. M. B. A. tendered a reception to their medical examiner, Dr. P. F. Duffy and his fair consort. The reception was held in Thanksgiving Hall, Wellington, and was the first affair of the kind organized by this branch and needless to say was very successful. Besides the members and their wives, the members of the Heckman band and the Wellington choir were present, besides all the doctor's neighbors at Richmond. After the ceremony of introducing the present, a programme was carried out consisting of selections by the Misconche orchestra, the Heckman band and a violin duet by Mr. McElliott and Miss Call. The chorus by Mr. D. A. Cameron and the Wellington choir was well balanced and Mr. E. F. Gaudet sang in fine voice and responded to an encore. James McKinnon, Summerside's favorite cornetist played his solo very artistically. At the conclusion of the programme Mr. J. F. Arsenault, M. L. A., chancellor of the branch read an address of congratulation to the genial doctor and of welcome to his bride, and presented on behalf of the branch an elegant quartered oak sideboard. A sumptuous repast was served to all, and when Alphonsus Gaudet took the violin there was a general tripping of the light fantastic for a couple of hours, then all retired to their homes well pleased with the pleasant event.—Examiner, Charlottetown.

HAIL STORM.

Does Much Damage to Growing Crops.

IN SOME LOCALITIES.

Was Very Violent at Chatham Junction and Nelson

It is seldom that the Miramichi valley crops suffer from hail storms but on the exception proved the rule on Thursday last violent hail storm raged over this section of the country.

Not much damage was done on the North shore of the river but on the South shore much damage was done. The centre of the storm seems to have been about Chatham Junction when immense pieces of ice fell, completely destroying the gardens and crops of the few residents of that place, also breaking window glass in some of the residences and station.

Through Nelson and the back settlements the storm was also heavy but crops were not so severely damaged. We learn that in Nelson upwards of twenty panes of glass were broken. In Newcastle the hail was large and outside of a few windows being broken and shrubs beaten down no great damage was done.

The Chatham World says—This part of the country was favored with a combination of wind, rain and hail on Thursday last breaking some glass and doing a good deal of damage to crops.

The rain squall of Sunday evening was accompanied at Tabusiatac by hail of so large a variety as to be destructive in its effect. Mr. Whistler's residence at the Point suffered most, thirty-two panes of glass were broken. At other houses five or six panes were smashed. One householder had to board up his windows next day. Six panes were broken in the Methodist church. Crops were considerably damaged.

VOTES OF THANKS.

The members of No Surrender L. O. L. No. 47 wish to extend their thanks to the members of Empire Lodge No. 128 for so kindly aiding by their presence the success of the march to church on Sunday July 12th.

The members of No Surrender L. O. L. No. 47 wish to extend their thanks to the members of Chatham Lodge No. 90 for so kindly aiding by their presence the success of the march to church on Sunday July 12th.
