DEATH COMES SUD- DENLY TO MANY

Many Well Known People of This
Vicinity Pass Away

C. H. TAYLOR

The people of Hartland received a very great shock when it was learned that Charles Humphrey Taylor passed away last evening about 8 o'clock, at his home here. He had been ill only since Thursday and very few knew of his indisposition. He had not been closely confined to his bed but was up and down. On Saturday he went down stairs to his office which is in his home and did some business writing. He was suffering an attack of what seemed like acute gastritis and at times suffered intense pain. Dr. MacIntosh was called in Saturday morning and seemed undecided in his diagnosis. Dr. Chestnut was also called in Monday. Last night he got up and went to the bath room assisted by his wife, when another severe attack of pain seized him and death came at once. He also had been suffering from diabetes for two years or more. Mr. Taylor came to Hartland from his home at Florenceville 35 years ago, and has always been a well known business man of this town. During the years he has lived here he was always much interested in anything pertaining to the welfare of the town. He was at the time of his demise proprietor of the Central Meat Market, and was a buyer of produce and live stock. He occupied a prominent position in the Infantry and has always taken a great interest in anything in that line. He was 57 years of age, and is survived by his wife, who was Miss Maud Hunter of Florenceville; two sons, Burton of Hartland and Harry of Portland, Ore., and an adopted daughter, Miss Reta, who is a niece of Mrs. Taylor. He leaves one brother, Arthur Taylor of Westfield, Me.

The funeral will be held tomorrow (Thursday) afternoon at the home at 2:30 p.m., conducted by Rev. Thos. Pierce, Methodist clergyman, and interment will take place in Greenwood cemetery. A large circle of friends and relatives extend to the bereaved family most sincere sympathy.

DEATH OF GEORGE H. CAMPBELL

The people of Hartland were shocked and saddened when the news was received early this week that George H. Campbell, son of Aaron Campbell of this place, had passed away on Sunday. Mr. Campbell received a telegram Sunday evening to that effect, and on Monday he left for Toronto, where the body was being brought from Winnipeg for burial.

George H. Campbell was the eldest son of Aaron Campbell and was 48 years old. He is survived by his widow, who formerly was Miss Susie Pass, who was very well known here, having at one time taught school in Hartland; one son, Murray, and a daughter, Ella. He also leaves besides his father, one brother, Frank, of Winnipeg, and a sister, Mrs. C. N. Barton. His mother died about three years ago.

Last winter his health broke down and his physicians recommended a change and he and his family removed to Toronto where they had lived a number of years previously to going to Winnipeg. He seemingly recovered his health and they had gone back to Winnipeg. It is presumed that they were at their summer cottage at Minaki, when death came suddenly from heart failure.

He was well and favorably known and the sympathy of all go out to the bereaved family.

MRS. ARCHIE EBBETT

Mrs. Archie Ebbett passed away early Monday morning at her home in Lansdowne. She had been only a few days ill with pneumonia. She is survived by one daughter, Miss Gertrude Ebbett, who was living at home with her mother while she was teaching the school at Lansdowne. The husband of the deceased died quite a number of years ago, and a son died in the West a few years ago. Another son died of pneumonia last spring. She also leaves two sisters. The funeral was held Tuesday at the U. B. church at Peel, Rev. G. F. Bolter conducting the service. Interment took place at Simonds. The sympathy of the surrounding country-side goes out to the lonely daughter in her bereavement.

DORIAN GRAY

This morning Mr. Geo. G. Gray received a telegram announcing the sudden death of his son Dorian, which occurred last night at his home in Lowell, Mass. Mr. Gray had been here very recently to visit his aged father and seemed in the best of health and was very happy while visiting his native home and renewing old acquaint-

MEETING OF TOWN COUNCIL

The October meeting of the Hartland Town Council was held in the town hall Monday evening with Mayor McFarland in the chair and all the aldermen being present. The usual opening proceedings were carried out. The treasurer's report showed the collections for September to be \$146.75 and the expenditure \$325.53. Report was received.

The Town Marshal reported considerable drunkenness on the streets since October came in and required much attention.

Committee on street lighting reported the work of changing several of the lights was well underway and that four new lights were to be installed.

It was reported that nothing definite had yet been done in regard to the cost of pumping but hoped to arrive at something soon.

Street Committee reported considerable graveling having been done and the Water Committee stated that all the hydrants had been cleaned out and that connections were being made with the sewer on Hillcrest.

Poor Committee reported in the case of the three young Shaw girls, that the situation in St. John which was taking them in charge, wanted \$5 per month from the town toward their support. It was decided to have a contract drawn up with the institution.

A notice of a new by-law in regard to naming the streets was given to be introduced at the next meeting.

An application from George Burt for water for domestic purposes was presented which by motion was granted.

A petition from the citizens on Hillcrest was presented asking to have a certain piece of road taken over by the town. On motion this petition was granted.

On motion the Lock-up Committee was requested to make an estimate of the cost of a lock-up and report at next meeting.

GIRLS SENT HOME FROM WOODSTOCK

The last act in the famous automobile bandits' disastrous trip into New Brunswick was played Thursday afternoon when immigration officers escorted Annie and Elizabeth Christian into United States territory.

Sheriff Foster received money Wednesday from their relatives in Leonist, Mass., to pay their fares from Houlton, Maine, to their homes. They were happy girls when told they were to start on the trip back.

The one pleasant feature of the wild expedition was the capture and sentence of the four men whom they blamed for all their troubles. During their stay in Woodstock they gave no trouble to the jail officials and were grateful for kindness and consideration shown them under the trying circumstances in which they were placed.

ances. He is survived by his widow and one daughter, his father and a sister in the West.

MRS. HENRY HALL

The news reached here Monday of the death of Mrs. Henry Hall which took place at her home in Houlton, that morning. She was a native of Lower Wakefield and was a sister of Frank R. Shaw. She had many friends in this vicinity who regret her demise.

DEATH OF JOHN M. NEVERS

At Upper Brighton on September 20, the death occurred of John M. Nevers, aged 44 years. He leaves to mourn, a wife, formerly Miss Bertie Grant, also a widowed mother, and one sister, Mrs. Scot Hallett, and a large circle of friends. Funeral services were conducted by Rev. H. V. Bragdon. (Signed) Mrs. John M. Nevers.

GRAND FALLS CHILD NEARLY KIDNAPPED

A Child's Narrow Escape—A Timely Warning—Interesting Notes of People Coming and Going

On Sunday afternoon about four o'clock, as the little 8 year old daughter of Mr. and Mrs. Morrill was returning home from Sunday School, along a rather lonely part of the road near her home where a growth of bushes and small shrubs obscure the view of the road from the house, a Massachusetts car bearing the number plate 425528 stopped and one of the three men who were in the car, said to her, "Come little girl, get in and have a ride to Fort Fairfield." The child did not want to say yes and did not like to say no, so she ran as fast as she could to the nearest house which was Joe Beaulieu's, and found the door locked and no one home. The car followed her and one of the men jumped out and caught her and threw her under a near-by barn. She being small crawled into a place of safety where he could not follow. He used very bad language and when he could not get her he left. When she heard the car start and was sure it had gone she came out and ran to her home and told her mother what had happened. The car in the meanwhile could not make the hill above the Morrill home so Mrs. Morrill and a neighbor boy, Peter Beaulieu, who came along on his bike went to the car and Mrs. Morrill told the men she would send the police after them. They were very abusive and impudent to her and turned their car and started down the Portage Road. Young Beaulieu followed until he saw which direction they took and then returned and directed the officers, McLaughlin and Melanson, which way to go to get them. They were caught somewhere near the boundary line, brought back and put in the lock-up until Monday morning. An investigation was held Monday at 10 o'clock, one of the men is held until Wednesday when a further hearing will be given him. The other two were let go. Much credit is due young Beaulieu who materially helped in the arrest of the men. Mrs. Morrill, mother of the little girl, gave this statement to our correspondent and wishes it made known as a warning to parents to be very watchful of little children who have to travel over lonely roads, such as this place was, where her little girl got such a fright although it was right in the town limits in the day time.

Mr. and Mrs. J. R. Price were in Limestone visiting their daughter, Mrs. Leighton, Sunday.

Mr. and Mrs. G. A. McMillan visited friends in St. Andre Sunday.

Mr. Huntress and child of Fort Fairfield were guests of Mrs. Hennigar and Mrs. Wilson this week.

Sherman Crouse of Presque Isle is a guest of Mr. and Mrs. O. B. Davis.

Mr. and Mrs. Fred Hennigar and son Emmerson are home from Green River where they spent the summer. They expect to go to Juniper for the winter.

“Worth \$100 to Me Relieved Eczema and Piles”

Mrs. Peter A. Palmer, Saltburn, Sask., writes: “Dr. Chase’s Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase’s Ointment has been worth a hundred dollars to me,—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase’s other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl.”

STORY OF GLOBE ENCIRCLING FLIGHT IN A NUTSHELL

Among the salient features of the United States Army globe-encircling flight that ended September 28 were: The flight was started officially by four planes from Seattle, Wash., 8:30 a.m. Saturday, April 6, under command of Major Frederick L. Martin in the machine Seattle, and was completed Sept. 28th, five months and twenty-two days, by two of the original machines and the Boston II, a spare airplane sent to Britain Harbor, Nova Scotia, for Lieutenant Leigh Wade, whose machine was wrecked near Faro Island, August 16. The fliers originally left Santa Monica, Cal., March 17, but because of delays in substituting pontoons for landing gear here, the official hop was made from Seattle, cutting 19 days off the journey. The route of the aviators traversed or touched 21 foreign countries and 25 states and one territory of the Union. A total of fifty-seven hops was made, an average of 483 miles each.

WONDERFUL FLYING FEATS.

Speed and Endurance of Pigeons Are Remarkable.

The pigeon racing season is in full swing. Thousands of birds have been released on the continent to fly home to England.

Pigeons ranging used to be confined to Belgium, but during the last thirty years has increased prodigiously in the British Isles, though it is still essentially a North of England sport.

The pace and distance these birds can accomplish are remarkable. Three years ago the race which was held between Nantes and Lancashire showed that the winning bird could cover a distance of 177 miles at a rate of 1,600 yards a minute. The winner of the Marennes race flew 517 miles at the rate of 1,467 yards a minute.

The courage of these birds has been proved over and over again. Perhaps the most illuminating example was given on the occasion of the Yorkshire Federation’s race from Arras.

Two thousand birds were liberated at six o’clock on a July morning to fly 300 miles or more home. In mid-Channel they were enveloped in a fearful storm; in the South of England a worse storm was encountered, while in the Midlands the weather was no better. Yet at 3:30 p.m. the birds were arriving home.

But the journey left its mark on them. Their breast feathers were gone as a result of the head wind, while some of them were so exhausted that, having alighted in the yard, they were unable to fly up to the loft. The winner actually managed to fly at a pace of 900 yards a minute.

Naturally, only “old stagers” are allowed to take part in these long-distance races. Nevertheless, many of the pigeons that can be seen at St. Paul’s and other famous places are recruited from the ranks of racing homers who have from time to time failed to return.

Indeed, often as many as 30,000, and sometimes 100,000, are lost every year, which means heavy financial loss to the owners, in view of the fact that homing pigeons are worth from 45 to 250 each.

Bishop on Seances.

The Bishop of Salisbury, England, after he had consecrated a new churchyard, said it was the hungering to be sure that those who had passed away still lived which encouraged people in these days to look more and more deeply into the mysterious and dangerous, psychological theory called spiritualism, and led people to attend seances.

He, for one, was prepared to encourage scientific investigation into the borderland between the seen and the unseen, because God had given them their reason to find out things. If there was something to find out, let them try to find it.

“But,” added Dr. Donaldson, “let us try to find it out merely as a matter of knowledge, in God’s name, I charge you, do not expect to get in touch with, or to know, loved ones through these channels. Don’t look for it. Don’t attempt it.”

“God has given you enough to comfort you in your sorrow. Follow His teaching. To go beyond that is to go into danger, and to tread forbidden ground which may lead you into trouble.”

“I know Christian people who have found great joy in such things, but they have also found great dangers, and have had to choose between the Christian faith and spiritualism. I ask you not to begin to make these investigations unless you make them in connection with scientific societies.”

Ample Reason.

The old Scottish minister was tireless in looking up members of his flock, and was never so happy as when he was visiting them in their houses.

He had noticed that for some time past one hitherto regular churchgoer had not very slack in his attendance at the services, and he resolved to go and find out the reason for this neglect.

“Donald,” he said, as soon as he was seated in the parlor, “I havena seen ye at the kirk for some time.”

“No, sir,” replied the man.

“And I wad like to know the reason.”

“Weel, sir,” replied Donald, “I hao three decided objections. Firstly, I dinna believe in sae muckle singin’; secondly, I dinna believe in bein’ whaur ye dae a’ the talkin’; an’, thirdly, an’, in conclusion, ‘twas there I got me wife.”

Angel Brains.

Here are some bright answers from school examinations: Epidemias is what keeps your skin on.

The days are shorter in winter because the cold contracts. Etiquet teaches us how to be polite without trying to remember to be.

Poise is the way a Dutchman says boys. Gold was discovered in California before anyone knew it was there.

Not Now, But Then.

From the Hampshire Advertiser, 1830. Our handsome and far-famed High street presented last week the spectacle (the very opposite of beautiful)—a man in the stocks. We learn from the gentleman upon whom devolved the disagreeable, but necessary duty, of watching this man during the four hours he remained exposed to the public gaze, that his crime was one which is much complained of in our neighborhood—the desecration of the Sabbath.

Banks and Bottles.

Competition between United States banks took this form in an advertisement in an Oklahoma paper:

Call at This Bank and Get a Combination Ice Pick and Bottle Opener.

The Capital National Bank. Would this draw depositors or scare them? And what do they need bottle-openers for in Oklahoma?

NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham’s Vegetable Compound

Sarnia, Ontario.—“After my girlie was born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pains. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, ‘Why don’t you try Lydia E. Pinkham’s Vegetable Compound?’ I am sure it will do you good and will save those doctor’s bills. So I was advised by my husband to try it after I told him about it. I am very thankful to say that I was soon able to take a few boarders for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me.”—Mrs. ROBERT G. MACGREGOR, R. R. No. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound report 98 out of 100 received beneficial results. This is a remarkable proof of its merit. C

PROSPECTS FOR VOCATIONAL SCHOOL BRIGHT

The Carleton County Vocational School, entering upon its sixth year and the prospect for a large attendance was more bright than they have seen in the past.

The community status in the school is a factor in the intelligence of its students. The knowledge, efficiency and business training of the students in turn depends very largely on the educational facilities which the community affords.

In an effort to create a greater interest in the school, and with the view of assisting those who seek further training, but who, perhaps, find themselves financially unable to do so, scholarships are to be awarded in each department of our school.

The Commercial Course, which opened on September 2nd, has an enrollment of twenty-nine students, gathered from all parts of the county.

The course in Agriculture and Farm Mechanics, which commences on November 4, 1924, is a very practical course and one well worth pursuing by young men whose intention is to remain on the farm for a livelihood.

Young men are urged to make early application in order that suitable

lodging and accommodation at reasonable rates can be arranged. Address all communication to, Director Vocational School, Woodstock, N. B.

DROWNING ACCIDENT AT PLASTER ROCK

Mr. Smith was employed by a large bank which had many foreign branches. He was gazetted to a town in South America, close to which was a volcano which had a nasty habit of waking up occasionally.

One morning soon after the arrival of the Smith family there were low rumblings heard, and before very long the volcano had thrown in its lot with an earthquake to stir up the peace-loving inhabitants of the town.

Two days later the parents received a telegram from uncle which read:

"Am returning your boy. Send the earthquake." A social worker with more enthusiasm than tact went to call upon Terence Shea, night watchman, at his home.

"I hope, Mr. Shea," she said, "that you do not squander your money in liquor and riotous living. I'm trying to interest the people of the neighborhood in the new savings bank which has just been started. May I ask where you deposit your wages?"

Teacher was holding forth with reference to the circulation of the blood. Trying to make the matter clearer, he said:

"Now, boys, if I stood on my head, the blood as you know, would run into it and I should turn red in the face."

Whereupon one of the youngsters shouted: "Why, sir, because your feet ain't empty."

Lord Balfour praises the waiters that he met in Washington at the Conference on Limitation of Armaments, and tells the following story:

"I was at a hotel where all the waiters were colored men. On the first evening I pushed away the menu and gave the waiter a coin.

"Just bring me a good dinner, Uncle," I said. He brought me an excellent dinner. I continued this plan for a fortnight. When I left, my waiter said to me, "Good-bye, sah, an' good luck; and when you or any of yoh frien's come here what can't read the menu, jes ax foh ole Calhoun Clay."

All cowards are despicable, but probably the worst kind is the one who uses a woman to protect himself. Such a cad appears in "The Old Fool," the Hodgkinson picture playing at the Neighborhood Theatre Thursday. A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother Seigel's Syrup will correct faulty digestion and afford relief.

"WORK" IS THE REMEDY

The parents of Richard Leob, one of the murders of Robert Franks, the young Chicago boy, have come to the wise conclusion that one of the great troubles with their murderous son was that he was not required to do sufficient work. A brother of Richard, aged 12 years, has been put to work on his father's 1,500-acre farm, while an elder brother has been given the management of the farm, being required to spend all day at his duties. Work is one of the greatest of helpers, developers and safeguards, but "Satan finds some mischief still for idle hands to do."—Exchange.

A heavy earthquake shock was felt here about 4:55 a.m. on Tuesday.

Miss Naida Clark is visiting her aunt, Mrs. Gen. Larlee of Edmundston.

Several sports from Philadelphia passed through town on Monday on their way to Tobique hunting grounds.

Mrs. Mina Armstrong of this town was a weekend guest of Mrs. E. W. Cox of Killbuck.

Mrs. A. C. Gantner was visiting relatives in Fort Fairfield over Sunday.

Herbert Dionne of Gladwyn, was doing business here on Tuesday.

Keeper: "Didn't you see that notice, 'No fishing here'?" Fisherman: "Yes, but it's wrong. I have caught half-a-dozen already."

Old Lady: "Is it dangerous to go up in an aeroplane?"
Aviator: "Not at all, ma'am. The danger is all in the coming down."

Maid: "My mistress is not at home, ma'am."
Visitor: "I'm glad to hear it. When I saw her peeping through the window just now I feared she might be!"

Reception Clerk: "The hotel is so crowded, sir, that the best we can do is to put you in the same room with the proprietor."

Visitor: "That will be all right; just put my valuables in the safe."
First Schoolboy: "I say, Ralph, who on earth was Nere? Wasn't he the chap who was always cold?"
Second Schoolboy: "No; that was Zoro—another man altogether."

She: "I am sorry I can't accept you, Bill, but circumstances over which I have no control prevent me."
He: "And what are those circumstances?"
She: "Your circumstances."

The conversation in the village hotel had turned to war, when one of the company asked:
"Which is the most warlike nation?"
"Vacillation," replied the local doctor. "It's nearly always in arms."

"I'm sure that's not a ton of coal," said Mrs. Brown, as she surveyed the coal the merchant had just left. "That coal man is a highway robber."
"My dear," said her husband gently, "don't you mean a low-walch robber?"

Visitor: "What was it that brought you to this?"
Prisoner: "It was spring cleaning."
Visitor: "What spring cleaning?"
Prisoner: "Yes, sir. The woman had been spring cleaning, the stair carpet was up, and the folks heard me!"

The prisoner was accused of forgery.
"But, my Lord, this is ridiculous, I can't even sign my own name."
"Don't worry," said the judge, "you are not charged with that!"

Did you hear that Mrs. Jones won a vacuum cleaner in a competition?"
"No; did she?" "Yes, but she says it ain't no good to her. She ain't got no vacuum."
Watchman: "Didn't you see that notice which says, 'Road closed'?"
Cyclist (who has fallen down a hole in the road): "Yes, confound it, and I found it wide open."

Kerrigan: "Do you believe in dreams, Riley?"
Riley: "Oh do."
Kerrigan: "What's it a sign of if a married man dreams he's a bachelor?"
Riley: "It's a sign he's going to mate with a great disappointment when he wakes up."

Herlock Sholmes entered the room and critically examined his surroundings. Then suddenly his eye lighted on the clue for which he sought.
"Aha!" he exclaimed, "it was from a hole somewhere in this room that the mouse emerged."

Here and There

The Earl of Leitrim, Irish peer, who has been touring Canada, was much struck with the resemblance between north-west Ireland and the maritime provinces, with their wooded hills, sandy beaches and penitence of fish and game, as playgrounds for the tourist.

What is believed to be the largest salmon ever caught by hook and line in waters adjacent to Vancouver, B.C., was landed at Horseshoe Bay, Howe Sound, recently by A. C. Cohen. The fish measured four feet, one inch in length and weighed 64 pounds. It took 35 minutes to land it.

Irwin S. Cobb, the famous American humorist, has been hunting in the St. Maurice valley, served by Canadian Pacific lines. This is by no means his first trip to Canadian hunting and fishing centres, as he is a keen sportsman and has visited the wilds in Ontario, Quebec, Nova Scotia and New Brunswick.

Among the passengers landing at Quebec from the Canadian Pacific liner "Empress of Scotland," recently was Miss Margaret Bondfield, M.P., a member of the Cabinet of the Macdonald Government of Great Britain. Miss Bondfield is in Canada to study conditions as they affect female immigrants.

Some interesting facts were made public by E. J. Belleisle, superintendent of the fish and game department of the Province of Quebec, when in Montreal recently. The province is now teeming with wild life, he says, mainly because of its conservation policy, whereby preserves are rented to fish and game clubs on the understanding that they appoint wardens. There are 500 such clubs employing a total of over 1,000 wardens.

The Trans-Canada Limited, crack transcontinental express of the Canadian Pacific Railway, completed its last run of the season on September 17th, and will not be operated again until next May. The train, which is the fastest long-distance express in North America, covered 758,748 miles in the season, or three times the distance between the earth and the moon, in its 238 runs, and carried the equivalent of 95,000 passengers for varying distances.

The new wing of the Chateau Lake Louise, the Canadian Pacific Railway's hotel at Lake Louise, one of the choicest beauty spots in the Rockies, is now under construction to replace that portion destroyed by fire some months ago. It will be a nine-storey, fire-proof, steel-frame structure of stucco, brick and stone, richly furnished in the best style of a mountain hotel, and will contain 280 bedrooms, bringing the total in the hotel up to 390.

The hunt for fur is extending northward each year, according to officials of the Hudson's Bay Company and Revillon Freres. They have already despatched their steamers on their annual tour of the northern posts which each season are being located farther and farther north as the field of the new hunt is extended into the Arctic. Hudson's Bay Company posts are a numerous chain of posts in the highland and other areas north of the Arctic.

EARTHQUAKE

(Edmundston Observer) On Tuesday morning at about five o'clock the people of Edmundston were startled by an earthquake which old residents say is the worst experienced for many years. Beds rocked to and fro, crockery and glass setting close together played a merry tune. Furniture in houses swayed back and forth and a great many people were under the impression for a moment that all animate and inanimate things had paid a visit to the vendors. Mr. McQuaid, the Automobile License Inspector of Fredericton, who was at St. Leonards for the night, said that he was never so frightened in his life, and could get no sleep after. The bed in his room swayed back and forth and the water

pitcher in the room acted in an entirely uncalculated way. A pile of wood in J. F. Rice's yard toppled over. A veranda was moved from the house several inches in the district where Mr. Jessome, the popular barber, resides, so he reports. The shock was felt by the workmen at the mill.

YOU'LL LIKE THIS DESERT

A dainty tasty dessert is the final touch to any meal, but meals have the habit of occurring so frequently that one runs out of ideas for dishes that will please everybody and yet be simple and healthful. One of the most delicious we have run across in some time is this one:

ORANGE FRITTERS 1/2 cupful Borden's Evaporated Milk, 1/2 cupful flour, 1/2 teaspoonful salt, 1 teaspoonful baking powder, 1 teaspoonful sugar, 1 teaspoonful butter, melted, 1 large orange, seedless, powdered sugar.

Add the dry ingredients, stirred together, to the milk, and then add the shortening. Divide the orange into sections. Heat fat - Dip the sections of the orange one at a time into the batter, slip them into the fat and cook till they are golden brown. Drain on crumpled paper, brush with powdered sugar, and serve with fruit sauce as a dessert.

This recipe comes from the Borden recipe book, which contains a wonderful variety of recipes, from soup to nuts, as the saying is, many of them illustrated in natural colors so beautifully as to make one want to try the dish instantly. A copy of the booklet may be obtained without cost from the Borden Company in Montreal on mentioning this paper.

SOCIAL EVENT AT RILEY BROOK

On the eve of the departure of Lieut. H. A. and Mrs. Sipprell of Riley Brook, kind friends to the number of about 35 met at their home on Sunday evening last, to show the respect and appreciation they had for the young minister, his aged mother and family. The evening was spent happily and in such a manner as would not cause remorse and regret in a dying hour.

After refreshments, which had been supplied by kind friends had been served, Mr. Amos Gance in a few well chosen words reviewed the work of Lieut. Sipprell and wife in both church and social life, particularly emphasizing how the latter would be missed in the Sunday school. After these kind words were spoken, a purse containing \$35 was presented on behalf of appreciative friends. Both pastor and wife replied in thanking the people in their kindness and thought for them.

Mr. Sipprell is moving to Arthurette this week, having accepted a call to the Arthurette group of U. B. churches, taking up the work there on Oct. 1. While Mr. and Mrs. Sipprell will be greatly missed to the Riley Brook group of U. B. churches for their faithfulness of upwards of two years, yet, we know that the best

THE TRUTH ABOUT THE EXODUS Driven to find some material to offset the figures showing the exodus to the United States, the King Government, though it says it cannot count those who leave the country, has, since April, been announcing figures for those who have returned. It says that during the four months ending July, 18,870 Canadians have come back. Everyone is glad to know that Canadians are returning, for Canada cannot become the country she should be unless she retains her native born. The inference drawn from these figures is that the movement of population from north to south has been completely stopped and that a movement from south to north has begun. It has never been contended by those who have criticized the Government on this matter that there was not a movement of population from the United States into Canada, but they have said that the King Tariff policy is crippling the industry of the country to such an extent that our people have to go south to get work.

Since the Government will not supply the figures showing the emigration from Canada, we have to rely on Washington. And what does it say? The figures for July are not available, but it says that during the months of April, May and June, when the King Government says that 13,700 Canadians returned, actually 54,000 persons

THIS SEASON'S TRANS-CANADA MILEAGE EQUALLED THREE TRIPS TO THE MOON

There are only 150 people in this crowd. Imagine a crowd six hundred and sixty-six times as large and you will visualize the number of passengers carried last season by the Trans-Canada, Limited.

The Trans-Canada Limited, the crack transcontinental express of the Canadian Pacific Railway, operated from May to September, completed its 1924 schedule on September 13th, when its last train started and on September 17th these trains steamed into the terminal at Montreal and Vancouver, bringing to a close one of the service's most successful seasons. The train covers the 2,856 miles of its run between the two cities in 90 hours and its Toronto-Vancouver run of 2,707 miles in 86 hours.

Mr. C. B. Foster, Passenger Traffic Manager, summing up the season's performance, gave out some remarkably interesting figures which afford a partial insight into the magnitude of the task of maintaining such a service. The Trans-Canada Limited began its runs this year on May 18th, and before being discontinued made 119 trips in each direction, or 238 in all. The equipment of the train is limited to one baggage car, one dining car, four standard sleepers, one 10-compartment car Vancouver to Montreal, and one 10-compartment observation sleeper Montreal to Vancouver, plus a local sleeper on the west-bound movement only from Fort William to Winnipeg. Thus the maximum accommodation available in each direction between the East and Winnipeg is forty-eight sections, thirteen compartments and five drawing rooms, while between Winnipeg and the Coast there are forty-eight sections, thirteen compartments and five drawing rooms. The average number of passengers on the train at night varies from seventy-five to 110 on different sections of the line, but for the 119 days the train was in service the last season there was a one-night use of approximately 100,000 berths. The east-bound and west-bound trains together covered 6,292 miles every day, which includes the distance between Montreal and Vancouver, 2,856 miles, and between Toronto and Sudbury, 260 miles, covered by each train and its Toronto-Sudbury connection. Thus the season's mileage was 758,748 for the 238 trips, or three times the distance from the earth to the moon. Each day four Trans-Canada trains were in motion over the Company's lines in each direction. At 8 A.M. each day, one was west-bound between Cartier and Chapleau, one between Kenora and Winnipeg, one between Medicine Hat and Calgary, one between North Bend and Vancouver, while at one hour east-bound was approaching Glacier, one approaching Regina, one east of Fort William and one between Chalk River and Ottawa. Ten complete sets of equipment, of which four were in motion each way every day and one was being cleaned, refitted and turned round at each end of the run, were required to maintain the service.

Powerful locomotives are changed forty-eight times daily in the movement of the Trans-Canada trains and ten sets of equipment are in constant operation.

The year's schedule called for 22 changes of engine on every Trans-Canada run from Montreal to Vancouver and two engines for the Toronto-Sudbury connection made by each train. There were 48 engine runs daily for the service. Including these engine-stops, the trains made only 26 stops on their whole run. It is on this steady movement at a uniform speed over long distances and not on high speed that the trains maintained their fast schedules over the transcontinental journey and the elimination of all but essential stops resulted in the smooth running for which it is noted. Owing to the necessity of changing trains crews on such a long run, about 14 crews, or about 84 men, were required for one trip on each train, while 48 sleeping and dining-car employees were required for each trip on one train or nearly 400 men for this branch of the Trans-Canada service. None of the hundreds of employees whose duties also associate them with the Trans-Canada Limited, but who do not travel with it, is included in these figures.

New School Apparently Too Small—
Other Newsy Items from This Section

Early Monday morning fire destroyed the farm house and household effects of George O. DeMerchant of Mineral, about 8 miles from here. The loss is partly covered by insurance.

The new school erected here a few years ago is now too small it appears, for the number of children who desire to attend. Classes up to Grade 7 are under the direction of Miss Dora Barber, and up to Grade IX under that of Mr. Patrick McFarlane, the principal. Those boys and girls who have passed the eighth grade, and who desire to pursue the High School course, have been forced to "take up the course privately. Mrs. Stanley Barker is now in charge of this class of students.
