FUNERAL OF LATE L. S. BROWN

Services at Moncton on Friday
Attended by Large Con-
course of People

Moncton, April 11.—The body of Lafayette S. Brown, late General Manager of the Atlantic region of the Canadian National Railway, who died suddenly in Moncton on Wednesday, was brought to Moncton in a special train which arrived here last evening, and this afternoon was held to rest in Elmwood Cemetery.

A vast concourse of people, including railway officials, employees and others generally, assembled to pay their tribute of respect to the deceased.

Hundreds of persons were in the funeral cortege while thousands stood in the street as the body was borne from the late residence of the General Manager, 1111 Main Street, to the cemetery.

At 2:30 o'clock operations ceased in all shops and round houses in the Atlantic region of the railway system as a mark of respect to the late manager. All trains also stopped for one minute in the Atlantic region.

The general offices here were closed during the afternoon. While the shops were not entirely closed, leave of absence was granted to all who wished to attend the funeral and hundreds did so.

The obsequies, simple in character, were conducted at the home of the deceased at half past two o'clock by Rev. J. A. Ramsey, minister of St. John's Presbyterian Church, of this city.

Rev. Mr. Ramsey read portions of the 90th Psalm, the 141st chapter of Job and the 7th chapter of Revelations.

The choir of St. John's Presbyterian Church sang impressively "Amen With Me" and "Peace, Perfect Peace."

The male quartette of St. John's church sang "The Lord is My Shepherd."

Paid Tribute to Deceased
Rev. Mr. Ramsey spoke of the splendid qualities of the deceased, referring particularly to his industry, integrity and popularity, also his deep interest in and sympathy for the welfare of employees of the railway.

The reverend gentlemen in conclusion referred to the faith of the deceased, who had developed many of the graces of the Christian life.

At three o'clock the cortege left for Elmwood Cemetery, proceeding down Main street and along Church street.

The pall bearers were G. B. Willett, Rodney McDonald, W. U. Appleton, general superintendent of the C. N. R.; A. T. Weldon, Traffic Manager; J. T. Weldon, Traffic Manager; J. T. Halliday, Division Superintendent, Halifax; and B. W. Simpson, Assistant to the General Manager.

City Council Attends in Body
The city council of Moncton attended in a body.

A large group of railway officials from headquarters, Moncton, and various parts of the system occupied automobiles in the cortege.

The Department of Railways and Canals, Canadian Government, was represented by J. W. Pugsley, Secretary to the Department, Ottawa.

H. J. Logan, M. P., who arrived on the special train from Montreal last evening, represented the Minister of Railways, also the Minister of Militia and Defence.

S. J. Hungerford, vice-president of Operation, represented Sir Henry Thornton, president of the Canadian National Railway.

A. T. Weldon, Traffic Manager of the Atlantic region represented J. E. Dalrymple, vice-president of Traffic.

G. J. Milligan, Regional Council, represented G. G. Ross, vice-president and general counsel.

F. E. Whippley, Treasurer of the Atlantic region, represented J. A.

JUDGE LeBLANC AT ST. JOHN CIRCUIT

Hearty Greetings From Members of Legal Profession in St. John.

St. John, N. B., April 8.—Hearty greetings were extended to His Honor A. T. LeBlanc, recently elevated to the bench, when he opened his first Circuit Court session in St. John this morning. In reply, he expressed his appreciation of the greetings extended to him, and asked the co-operation of the members of the bar.

FIRE ALARM NEEDS ATTENTION

Failed to Ring in Box Number When Alarm Pulled in Tuesday

(Crowded out last week)

When the fire alarm rang in Tuesday evening there was something wrong with the signal system. When the alarm rang in the horn sounded three blasts and then immediately died. There must be something radically wrong with either the system or the manner in which it is taken care of in its present location or else some thing couldn't have happened twice in one week. We all know that no place of apparatus so sensitive as a fire alarm system can be absolutely foolproof, but there lies the reason why some persons should be held absolutely responsible for the different apparatus necessary for its maintenance.

There is no doubt but that the fire alarm is one of the pieces of apparatus belonging to the town in which it is necessary that the people place absolute confidence. Tuesday night there wasn't a tapper in the house of the firemen (not sounded a stroke). The sounder at the fire station didn't work either and the caretaker didn't hear the three blasts from the horn. It was fully twenty minutes from the time that the alarm first sounded until the fire alarm was again gained great headway.

This was no fault of Mr. Gagnier, the driver of the team however for it wasn't until he had been telephoned that he was aware that there was a fire ringing in town.

One means has been suggested whereby the responsibility for a great part of the maintenance of the fire alarm system would be placed upon the shoulders of one man and he would be held responsible.

If the horn was placed upon the tower of the fire station where it should be then Mr. Gagnier could give the apparatus which sounds the alarm box number attention. The battery charging outfit could also be placed in the fire station and Mr. Gagnier instructed in the art of charging the two sets of batteries. This whole system would of course be under the watchful eye of the manager of the Electric Light plant but Mr. Gagnier would be responsible for certain routine tasks which seem to be looked after in a half hasty fashion at present.

This charge might involve the expenditure of a few hundred dollars but the people would like to feel that they could put some faith in an apparatus which cost many thousands of dollars and which is so necessary for their safety. In future when a person rings in an alarm and the horn doesn't sound the right number, it would be advisable to immediately call chief A. E. O'Donnell or the fire station and tell them about the failure of the apparatus.

Yates, General Treasurer.

Among those in automobiles were: Gordon Brown, Louis W. H. Brown, Mr. McManis and Mr. C. S. Pabst.

FULL SLATE AT DALHOUSIE

Civic Election Causing Considerable Excitement—Two Full Tickets in the Fight

(Special to the Graphic)

As has been previously stated in the columns of the Graphic there is this year considerable interest being evinced in civic matters in Dalhousie. It is becoming increasingly evident with the approach of polling day on April 15th that public sentiment is overwhelmingly in favor of John H. Delaney and his ticket.

Indeed, considering the sincerity and intelligence of the average citizen it is difficult to conceive how the situation could be otherwise. One has but to glance, it would seem, at the history of the town since its incorporation to become convinced that John Delaney is the logical man for Mayor in the present contest.

He is a lifelong resident of the town, educated and intelligent, with an excellent record and otherwise well qualified for the office.

All should therefore unite in his support and do everything possible to secure his election. Of course there may be all manner of canvases used against him, so it is rumored including vague promises of new mills, hotels, etc., but the public is not likely readily to be swayed by propaganda of this nature. They will quickly realize that it is one thing to make exaggerated promises on the eve of an election and quite another to fulfill them.

And when it comes to new hotels, mills, etc., Mr. Delaney said his council can be relied upon to deal with the situation as it should be dealt with and to encourage and foster every activity calculated to benefit the community as a whole.

Indeed, tenure of office by a man of the type of John Delaney upon whom a true dependence can be placed, bound to attract whatever industries or other legitimate enterprises have the slightest notion of locating in the town for they know that they may come in with full assurance that the head which today beckons them to enter will not tomorrow be raised against them in an attitude such that it might easily drive courage and drive them out.

Mr. Delaney's full ticket is as follows:

For Mayor: JOHN B. DELANEY.
For Aldermen: G. S. GRIMMER, ARSENE ALLAIN, CALED MACLELLAN, CHAS. ELLODEAU, W. M. McEVY, T. M. McEVY, JOHN BARBOUR, JOHN VALDROUN.

FAVORS FORMATION OF CLUB HERE

Idea Seems to be "Catching On" Throughout these Provinces

Moncton, N. B., April 10.—I am quite in sympathy with your League, and would be glad to do anything within my power to assist in the much needed work," says Max M. Mowatt, of Campbellton, in forwarding his pledge and membership fee to the Maritime Safety League, which has inaugurated a Safe Drivers' Club with a view to reducing traffic accidents in the Maritime provinces.

The aim of the new club is to carry on an educational campaign. The promotion of safe practices among drivers and training of children to exercise care in the streets, thereby protecting life and limb, will be among the activities of the organization. It is intended that safety lectures will be given in the public schools and literature distributed.

Others in the northern part of the province who have joined the Safe Drivers' Club are W. F. Napier, Station Officer & Co., H. A. Carr of Campbellton, D. S. Harvey and D. G. Kitchen, of Grand Falls.

Mayor J. F. Edgett and R. P. Dickson, of Moncton, were among those who joined the club last week.

ADDRESSES SUNDAY ON ARMENIAN WORK

Mr. Joseph and Rev. A. E. Keohaly give series of Addresses Sunday and Make Plan For Fund to Carry on Relief Work

How many people were there who listened to the addresses in the different churches on Sunday and to the lecture in the Opera House on Sunday evening that did not feel glad over the fact that they lived in Canada a land of plenty? The addresses by Mr. Joseph and Rev. A. E. Keohaly in the Presbyterian and Baptist in which the theme was "Near East Relief" were really heart rending accounts of the privations suffered by the Christian Armenians.

After having been torn to pieces and thousands massacred by the Turks still they try to hang on to the last threads of life. The story of how they are suffering and dying for lack of food and clothing, shelter and protection from their enemies was placed before the people in a very frank and able manner.

Mr. A. A. Andrew was chairman of the meeting in the Opera House and introduced the speakers. Motion pictures showed the different phases of the constructive work which is being done but which is greatly hampered because of lack of funds.

The relief workers have done wonderful work with the children of this war and massacre ridden land and the pictures of the children forming the areas during their drills is an example of what harmonious work with much expenditure can do. Beyond the fact that so many of the children are orphans and that the people and parents have been killed by the Turks or driven into exile.

He was followed by the Secretary of the Board of Trade, H. B. Anslow, who went fully into what other towns were doing in the way of advertising for tourists.

His Worship again promised sympathetic consideration.

The regular order of business was returned.

The following communications were read:

F. L. Belyea offering to make a quarterly audit for \$225.00 and \$100 expenses. Laid on the table.

W. R. Fitzmaurice, Dist. Sub. C. N. R., enclosing lease for horse reel house lot in Ward 1—Mayor and Town Clerk authorized to sign same.

Town Solicitor enclosing solicitors account \$120.00 expenses in the injunction against town. Account ordered paid.

Alex. Angeliart, re land for street. Referred to Public Property and Streets Committee.

J. C. Berry, Sec-Treas. N. B. Auto Association, re Camp Site—Referred to education and Improvement Committee.

A. A. Andrew, Special Auditor, re F. A. O'Leary matter reported as follows:

(See another page for report)

The report was read and filed and account ordered paid.

Earle Lutes, application for position as truck driver—Placed on file.

F. E. Deane applied for position as building inspector. Laid on table.

Omner LeBlanc, asking for compensation because of the destruction of his house by fire. He claimed he had a sick wife and nine children so could not afford to pay rent. Wanted \$400 to build home. Referred to Fire Protection Committee.

A number of deeds for land along Walker Brook, required for the water extension were submitted and ordered to be placed on record.

The deed to land on Anson street from the Wm. Andrew estate was submitted. Order to be accepted and placed on record.

B. Larsen applied for a license to operate a motor truck—Referred to Police and License Committee.

Coun. Patterson from the Police and License Committee recommended that Chief Adams be granted \$5.00 per month increase in wages and Police Smith \$10 per month.

The fire department is negotiating for the purchase of a hose wagon and ladder truck. On motion of Coun. Armstrong the Fire Protection Committee was authorized to send a man to look over propositions, the company agreeing to pay one half of the expenses.—Carried.

The matter of the hydro contract with the Lower St. Lawrence Power Co. Ltd. was taken up. It was suggested that before the contract was entered into the town should be sure that the company could supply power in the province under their charter.

Coun. Armstrong moved that the town solicitor investigate thoroughly the financial standing of the Lower St. Lawrence Power Co. as to their ability to provide hydro current to Campbellton. Carried.

Charities Committee reported that a town employee had gone blind and his committee was obliged to keep the family. By an operation, his sight could be restored and he would be able to work.

On motion the Public Charities Committee were authorized to have operation performed.

Coun. Caldwell moved that the

WILL INVESTIGATE HYDRO MATTER

Electric Light Committee and Town Solicitor have Matter in Hand—Auditors Appointed

A meeting of the Town Council was held last Friday evening. His Worship Mayor McKay presiding. Couns. Armstrong, Cool, Patterson, McDonald, Savage and Caldwell were present.

The minutes of the previous meeting were read and confirmed.

His Worship said that there were two delegations present to interview the council and suggested that the regular order of business be suspended.

On motion the regular order of business was suspended to hear delegations.

Dr. L. G. Pinault, chairman of the Red Cross and Public Health Committee addressed the meeting, fully setting forth the work of the Public Health nurse, and asking for a grant of \$1000 towards carrying on of this work.

Dr. Pinault was followed by Dr. Murray, Mrs. D. A. Harquail and Rev. F. E. Bowdoy, and all eloquently set the needs of the committee before the Council.

His Worship stated that the present Council was pledged to economy, but promised consideration of the request for the appropriations for the year were being considered.

Dr. Murray extended the thanks of the delegation for the courteous treatment extended them.

Dr. Pinault as President of the Board of Trade brought up the matter of the town paying for the illustrations engraving necessary to illustrate an all Campbellton edition of The Busy East, amount not to exceed \$300.00.

He was followed by the Secretary of the Board of Trade, H. B. Anslow, who went fully into what other towns were doing in the way of advertising for tourists.

His Worship again promised sympathetic consideration.

The regular order of business was returned.

The following communications were read:

F. L. Belyea offering to make a quarterly audit for \$225.00 and \$100 expenses. Laid on the table.

Charities Committee reported that a town employee had gone blind and his committee was obliged to keep the family. By an operation, his sight could be restored and he would be able to work.

On motion the Public Charities Committee were authorized to have operation performed.

Coun. Caldwell moved that the

MEDERIC MARTIN LOSES ELECTION

Celebrated Mayor of Moncton Defeated by Chas. E. Duquette

Moncton, April 7.—Chas. E. Duquette, almost unknown to the great mass of the electorate of Moncton up to two weeks ago, met Mayor Mederic Martin in a sensational contest for the chief magistracy of this city today and defeated him by approximately 3,000 votes. The latter's career, which has been a dominating one in Moncton municipal affairs for 25 years, for ten of which since 1914 he had been Mayor, thus ended tonight.

The minutes of the previous meeting were read and confirmed.

His Worship said that there were two delegations present to interview the council and suggested that the regular order of business be suspended.

On motion the regular order of business was suspended to hear delegations.

Dr. L. G. Pinault, chairman of the Red Cross and Public Health Committee addressed the meeting, fully setting forth the work of the Public Health nurse, and asking for a grant of \$1000 towards carrying on of this work.

Dr. Pinault was followed by Dr. Murray, Mrs. D. A. Harquail and Rev. F. E. Bowdoy, and all eloquently set the needs of the committee before the Council.

On motion the Public Charities Committee were authorized to have operation performed.

Coun. Caldwell moved that the

AUDITOR MAKES HIS REPORT

Shows that Collector O'Leary Was \$865.90 Short in Payments to Treasurer

The auditor engaged to go fully in the reported shortages of Collector F. A. O'Leary, after spending considerable time on the accounts reports as follows:

Campbellton, N. B., March 24, 1924.

His Worship the Mayor and Members of the Town Council Gentlemen—

I beg to report that I have completed the audit of Mr. F. A. O'Leary's books and find that he collected an account of electric light the sum of \$787.65 in excess of the amount paid by him to the Town Treasurer. Of this \$210.85 is due to several customers as shown on attached statement, they having overpaid him to that effect. The difference, namely \$576.80 is to be applied towards reducing the balance of the various accounts affected.

I also find that he collected, an account of water and sewer rates, the sum of \$78.25 which he has not handed to the Town Treasurer. Included in this is an item of \$10.00 on account of J. A. Allard for which there is no receipt. This amount was included on the request of the Treasurer, who informed me that he not only saw receipt, but had Mr. O'Leary's acknowledgment of having received the amount and his authority to deduct it from any balance that might be due him on account of salary.

Mr. O'Leary therefore owes the town the sum of \$787.65 on account of electric light, and \$78.25 for water and sewerage rates, a total of \$865.90.

Should any further information be required in connection with the accounts mentioned in the attached statements, there will be found, in the hands of the Town Clerk, a summary showing amounts due. He also explained that legislation was needed to borrow to meet overdraft. A plebiscite was not considered satisfactory.

A. A. Armstrong was heard in support of the bill.

A. J. LeBlanc opposed the bill. He objected that no town should have borrowing powers to the extent of half its annual assessment. The town was carrying too great a burden of taxation as it was. As far as the hydro proposition was concerned there was no guarantee that the company could export current from the province of Quebec. The proposed price of \$37.50 was considered too great. Grand Falls current would be available at a comparatively early date and the existing plant could be repaired to bridge the gap. The opposition represented about one-fifth of the property valuation.

A. C. Belleisle also opposed the bill. He said Mr. LeBlanc and himself were appearing in the best interests of the ratepayers of Campbellton. The Lower St. Lawrence Company, he claimed, could deliver current at no lower rate than it could be delivered from development on the Upsalquiton, which had been investigated by the town. The town plant, he said, was in better condition than it was a year ago. By getting a larger generator at a cost of \$5,000 a margin of 125 horse-power would be provided. It would be better to wait for Grand Falls current rather than contract with the Lower St. Lawrence Company for fifteen years. The giving of borrowing powers, he said, would be practically for the purpose of protecting the Bank of Nova Scotia. It was decided to take the bill into private consideration.

matter of assessment of the J. & D. A. Harquail Co. Ltd. be left with the finance Committee with power to set the rate.—Carried.

Coun. Savage moved that the Town Engineer be building inspector without salary.—Carried.

Coun. Armstrong moved that Messrs Belyea & McNeil be appointed auditors of the town accounts for a year on terms specified.—Carried.

The Council then adjourned.

Yours truly,
A. A. ANDREW,
Auditor.

POPULATION OF N. B. COUNTIES

New Brunswick to Issue Them as Soon as Conditions are Believed Satisfactory.

CANADIAN PAVILION GUARDED BY R.C.M.P.

This Dominion's Exhibit Will
Easily Surpass That of
Any Other

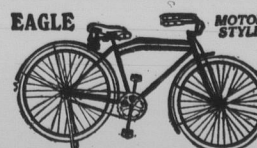

London, April 5.—The Canadian building at the British Empire Exhibition is guarded to-night by a detachment of Royal Canadian Mounted Police. True they are in plain clothes and have not yet been authorized by the London authorities to act as special constables, but for all that they are effective guardians of the peace. At the height of yesterday's disturbances, when thousands of strikers burst into the Canadian building by way of its cellar, and bricksbats in hand, called upon the workmen to join them, the Mounted Police were all for arming themselves with crowbars and clearing them out again. Commissioner Tolmie, however, regarding the bricksbats in conjunction with the beautiful but fragile decorations which make the Canadian building so distinctive, thought discretion the better part of valor, and the workmen were promptly called off the job. To-day, despite the London police, only a fraction of the workmen had returned to their labors on Canada's three pavilions, and Mr. Tolmie states that the delay will put the work back at least a fortnight. It had been planned to have every exhibit in place by April 10th, but this will be impossible, just as it will be impossible for the official opening of the whole exhibition on April 23rd. For one thing, Canada has stored outside the building \$20,000 worth of plate glass, for which no insurance can be obtained. The situation is reminiscent of the suffragette riots. Canada at Wembley, however, has reached a stage where it is amply evident that she will easily surpass every other Dominion. Compared with the Canadian building the Australian pavilion is a transformed skating rink. To the great Victoria and Albert exhibition of 1851 it is recorded that Canada sent machinery, fabrics, minerals, specimens of Indian work, barrels of grain and the first lacrosse team to cross the sea, captained by Jack Canadian, the Caughnawaga Indian. The Canadian exhibit 73 years later tells a very different tale. The Australian officials, after a tour of Canada's building, departed in grim silence and the only colonial exhibit which rivals it, though on a smaller scale, is that of Burma. India, however, is imposing in an Oriental fashion.

Civilization has been doomed to often that perhaps the sentence has lost somewhat of its power.—Boston Transcript

BRITAIN'S GREAT EXHIBITION

Is Called Britain's \$200,000,000
Shop Window—Will have
40,000,000 Visitors

Referring to the British Empire Exhibition which is to run from mid-April to October, the Literary Digest calls it "Britain's \$200,000,000 shop window" and says that a total attendance of 40,000,000 persons is predicted from estimates secured from hotel and transportation companies. Surprise is expressed—and admiration too—upon learning that the Duke of Devonshire has given a personal guarantee of \$2,000,000, in case it is needed, without which offer the enterprise might not have been launched. The Digest notes complaint by some Canadian newspapers that the exhibition has not been better advertised in Canada, and there is ground for that criticism. So great a show, of so much patriotic and business significance might well have been advertised much more generously in the Dominion had those directing the enterprise better recognized the value of organized publicity. The Digest expects the exhibition to surpass all those of the past "in size, scope, and grandeur," and it cites Sir James Stevenson, chairman of the Board of the Exposition, as saying that the project was conceived in 1913, shelved because of the war, and then taken up again with renewed enthusiasm because of the striking evidence revealed during the war of "the immense strides the Dominions had made in resources, finance, population and the sense of nationality."

Sir James goes on to say: "The fact that practically every part of the Empire is represented at Wembley testifies to the growing realization among all branches of the race of the need for closer co-operation and cohesion. The overseas people are turning out natural products in increasingly huge quantities. They realize that out huge industrial population can absorb all the wool, minerals, wheat and foodstuffs which they can send us. We, on our part, require that large sections of our teeming population be given an opportunity of seeking new and less restricted markets for their labor under the flag and among men of their own breed and tongue. We also realize that if this growing sense of interdependence helps Dominion development, it will inevitably help our manufacturers, for within the Empire today lie all those potentialities of production and trade which go to make up the complete and self-contained life of a nation."

"It is thrilling fact that this could not have been said about any nation or Commonwealth of Nations before the war in the history of the world."

PUBLIC NOTICE

In accordance with the provisions of an Act of the Legislature Assembly of the Province of New Brunswick, public notice is hereby given that the Assessment List of the Town of Campbellton for the current year is posted at each of the following places within the said Town:

Ward One—Jas. Alexander's Store, Water St.
Ward Two—A. E. Alexander & Son, Ltd., Store, Water St.
Ward Three—Thos. Ellsworth's Store, Roseberry St.

Any person thinking himself aggrieved by any assessment shall, WITHIN TWENTY DAYS AFTER SUCH COPIES ARE POSTED, as aforesaid, apply IN WRITING to the Chairman of the Board of Assessors for abatement or correction of his rating, which they are empowered to make, and he shall not maintain any appeal to the Town Council, unless he has first complied with the provisions herein specified.

Dated at Campbellton this 1st day of April, A. D. 1936.

D. A. KEAN, Chairman,
H. S. ALEXANDER,
HENRY MCINTYRE,
Assessors.

For the convenience of the ratepayers the Board of Assessors will be at the Mayor's Office in the Municipal building on every Monday and Friday evenings, from 7.30 p. m. to 9.00 p. m. Apr. 8 & 9.

HEIRS WANTED

Missing Heirs are being sought throughout the world. Many people who are really rich but do not know it. You may be one of them. Send for Index Book "Missing Heirs and Next of Kin," containing carefully authenticated lists of missing heirs and undivided estates which have been advertised for, here and abroad. The Index of Missing Heirs we offer for sale contains

Deaths in American, Canadian, English, Scotch, Irish, Welsh, German, French, Belgian, Swedish, Italian, Colonial, and other newspapers, inserted by lawyers, executors, administrators, and other parties. It is a valuable and unclaimed dividends list of Bank of England. Your name or your ancestor's may be in the list. Send \$1.00 (refundable) to

IS FIGHTING DEPORTATION

U. S. Federal Court Reviews
Order to Return Him to
New Brunswick.

Portland, Me., March 22.—Judge J. A. Morton of Massachusetts reversed decision at the close of a hearing in the United States District Court on appeal of Dr. Frederic H. Toser of this city, from a deportation order.

In doing so, Judge Morton said: "The question seems to be whether there is enough in the testimony of Dr. Frederic H. Toser at the trial of Fry and Ruth to show that he admitted the commission of a crime, and involves the construction of the statute."

Judge Morton promised an early report.

Dr. Toser was a government witness during this trial, which resulted in conviction of Ralph A. Fry. An immigration board ordered that Dr. Toser be returned to Canada because of certain alleged admissions on the witness stand. Deportation also was ordered on grounds that Dr. Toser, who operates a sanatorium here, was likely to become a public charge and that he illegally entered the United States early in 1923, after a visit to Canada.

Dr. Toser formerly resided in Kent county and is well known on the North Shore as well as elsewhere in New Brunswick.

Fredericton, N. B., April 5.—Two large caribou herds which were sighted last week by game wardens making a tour of the game areas on the headwaters of the Tobique, Nepigon and Miramichi rivers, have caused provincial officials to believe that these game animals have been returning to New Brunswick in greater numbers than had been supposed. In New Brunswick caribou are now protected by a closed season which is being continued by an amendment to the Game Act now before the Legislature.

The game wardens who reported having sighted the two herds of caribou, were engaged in a general survey of what is considered one of the province's best game areas, and also reported that from all indications the big game had wintered well in that section of the province. There was little indication of the presence of wild cats in the area traversed.

DOUCET FAILS TO GET C. N. R. REPLY

Ottawa, April 2.—Canadian National Railway officials are entitled to the same degree of privacy regarding their salaries as obtains in any other part of the business world, the board of management of the railway suggests in declining to submit a list to be tabled in the House of Commons of all its employees receiving \$4,000 a year or over in wages. The list was asked by A. J. Doucet (Conservative, Kent, N. B.), and the answer of the board was tabled today in the House.

FREE RIDE BACK; MEAL ON TRAIN

This was Not Result of Harvester's Hike to Ottawa.

Ottawa, April 6.—Accepting an offer of the Department of Immigration of free transportation, twenty-nine of the thirty-one British harvesters who hiked here from Toronto to present their grievances before the Federal Government boarded a train to the Quebec City last night. Two men who remained here have secured work.

Replying to a request of the hikers that as they were unable to secure employment, the Government maintain them, W. J. Egan, Deputy Minister of Immigration and Colonization offered them free transportation to Toronto, with breakfast on the train. The offer was accepted.

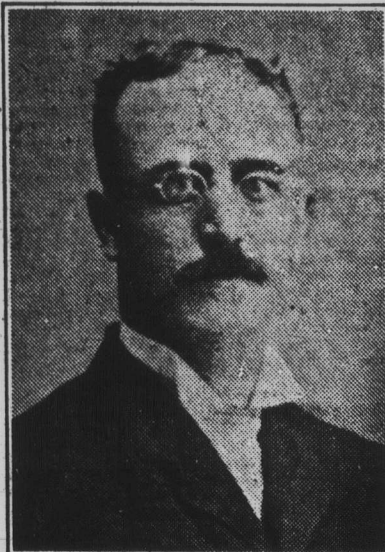

The men believe that they will be able to find work in Toronto, as they say the employment situation there has improved considerably. They agreed, however, to accept farm work if at the expiration of two months they had been unable to find work in their trades.

The truckers left Toronto nearly four weeks ago and were on the road for three weeks of the time. Although none of their requests to the Government were granted they appeared satisfied.

Premier Veniot Has Pledged New Brunswick's Willingness to Do Her Share in This Necessary Bridge Construction—Now up to Quebec to Take Definite Action.

The proposed building of an Interprovincial bridge between Campbellton and Cross Point has taken another step forward, and things look a little more promising.

In March on request of the President of the Board of Trade Hon. P. J. Veniot wrote to Hon. J. H. King, Minister of Public Works of the Dominion, pledging the New Brunswick Government's willingness to contribute its share towards the construction of this bridge and received a reply, a copy of which is contained in a letter to Mr. J. H. Currie, and is as follows:—

HON. P. J. VENIOT

Fredericton, N. B. April 4, 1924

Mr. H. J. Currie,
Campbellton, N. B.
My Dear Sir:

I am in receipt today of a letter from the Hon. J. H. King, Minister of Public Works, Ottawa, dated March 28 th, in reply to mine of the 22nd., advising him that the Government of New Brunswick was prepared to join the Quebec authorities in assuming one-half of the cost of constructing an Interprovincial Bridge between Campbellton and Cross Point, conditional on the Federal Government bearing the other half of the cost. In his reply, the Honourable Minister of Public Works says, "The usual policy in connection with the erection of bridges of an Interprovincial character, is for the two provinces concerned to agree to each bear one-third of the cost of construction and then approach the Federal Government to contribute the balance of one-third towards the cost. It is understood also, that the Provincial Governments assume the maintenance of structures of this kind. If the Governments of the Provinces of Quebec and New Brunswick are prepared to proceed on this basis, I shall be pleased to place the matter before the Government."

You will remember that in all my utterances, both private and public, touching this matter, that I always contended that the Province of Quebec should bear the greater proportion of whatever share was left to Quebec and New Brunswick to pay in connection with this bridge. I am still of the same opinion, because Quebec being the larger Province, better able financially than New Brunswick and will in my opinion get a greater benefit of the construction, should pay in proportion a larger sum than the Province of New Brunswick. Supposing that the bridge should cost \$600,000.00 and the Dominion Government paid one-third, this would leave \$400,000.00 to be divided between the Provinces of Quebec and New Brunswick. My conviction is, that in a case of this kind, Quebec should pay \$250,000.00 to New Brunswick's \$150,000.00, or at least \$225,000.00 to our \$175,000.00. It is a proportion something like this that I mean when I say that Quebec should pay the larger proportion. With this information in your possession, it might be well for you and those interested in the bridge in Campbellton, to take the matter up with those interested in this structure in the Province of Quebec.

Yours truly,
(Signed) P. J. VENIOT.

At a recent meeting of the Campbellton Board of Trade a committee was appointed to work in co-operation with a committee of the Bonaventure Municipal Council. This joint committee will meet shortly.

At present it is suggested that a joint meeting be held at which the Minister of Public Works for Quebec and Hon. Premier Veniot, when the matter could be much more rapidly advanced.

It is hoped that plans will be devised to present the matter to the Dominion Government in such a manner that a vote will be made at the present session for a sufficient amount to make a beginning upon this much needed bridge.

STORE ENTERED SUNDAY MORNING

Premises of Yeorgas Bros. Entered Sunday Morning and Sum of Money Stolen

The local police are busy investigating the robbery which took place early Sunday morning in the Pines Confectionery on Water Street. The police have several clues and are working hard to bring the guilty parties to court. The building which contains an ice cream parlor, restaurant and dance hall was entered from a window in the kitchen. This window is not ordinarily open but is fastened on the inside. All the other windows which open into the kitchen are provided with screens so the robber would have to enter by the window which is usually kept locked. This leads the authorities to believe that it was an "inside job". All the people who were in the kitchen Saturday night were questioned and it is felt that there will be some things brought to light which will lead to the apprehension of the guilty party. The robber after entering went to the desk and from a drawer extracted between fifty and sixty dollars in silver. There were a quantity of coppers there but the thief did not touch these.

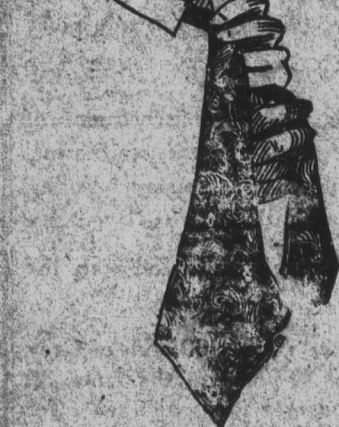

Robbery Discovered
When the proprietor George Yeorgas entered the building Sunday morning he noticed that the window was open and immediately made a search to ascertain what had been taken. The only thing missing was the money from the desk. There was a considerable sum of money in the cash register but evidently the robber was afraid the noise of the register in operation would wake the occupants of the flat above the store.

TWO HOUSES BURNED MONDAY EVENING

Houses at West End of Town Burned to Ground—Reflection of Fire Seen For Miles

With a terrific gale blowing two houses owned by Thomas Roberts and Adam Porter were burnt to the ground on Monday evening. The fire alarm was rung in about 9:25 from box 312 corner of Duncan St. and Christopher Avenue. The firemen were soon at the scene of the fire and quickly laid a length of hose about 1500 feet long. As the hose cart cannot carry this much it was necessary to go after the hose reel which is kept not far from the scene of the fire. The two houses were all ablaze before the water was turned on and the firemen could do nothing except put water on the fire. Adam Porter lost all his furniture as well as the house which was covered by \$1500 insurance. Mr. Roberts saved his furniture and the house had \$1200 insurance. Both houses are outside the town limits. The firemen worked hard despite the intense heat which came from the two buildings played a steady stream on the building to keep the flames from spreading. The reflection from the fire could be seen for miles and people from all parts of the town rushed to the scene of the fire. Some 1200 people stood and watched the two houses burn and although the wind was bitter cold few seemed to mind because of the heat coming from the flames. The firemen worked till about twelve o'clock before the fire was sufficiently extinguished to make it safe to leave.

THE HOME TOWN PAPER

I am the Home Town Newspaper. I am the friend of the family, the bringer of tidings from other friends. I speak to the home in the evening light of summer's vineyard perch on the glow of winter's lamp.

I help to make this evening hour: I record the great and the small, the varied acts of the days and weeks that go to make up life. I am for and of the home; I follow those who leave humble beginnings whether they go to greatness or to the gutter, I take them to the thrill of old days, with wholesome messages.

I speak the language of the common man; my words are fitted to his understanding. My congregation is larger than that of any church in my town; my readers are more than those in the school. Young and old alike find in me stimulation, instruction, entertainment, inspiration, solace, comfort. I am the chronicler of birth, and love and death—the great facts of man's existence.

I bring together buyer and seller, to the benefit of both, I am part of the market-places of the world. In the home I carry word of the goods which feed and clothe and shelter, and which minister to comfort, ease, health and happiness. I am the word of the week, the history of the year, the record of my community in the archives of state and nation.

I am the exponent of the lives of my readers.

I am the Home Town Newspaper. Send me to your absent friend or relative—\$2.00 per year in Canada, \$2.50 to United States.

MR. LAPOINTE IS RIGHT

Some opposition newspapers have been criticizing the Hon. Ernest Lapointe's claim that taxation in Canada is lower than in any other part of the Empire. Some of these criticisms fail to recognize the fact that provincial taxation in Canada is in many instances levied to pay for public services; that in England and elsewhere as for instance in New Zealand, are provided by municipal governments whose taxation is not taken into account in comparison with that of Dominion and Provincial governments in Canada. The per capita figures given by Mr. Lapointe are as follows:

| | |
|----------------|---------|
| United Kingdom | \$79.50 |
| Australia | 48.09 |
| New Zealand | 60.97 |
| Canada | 36.67 |

And it is worthy of note that these figures approximate to those furnished by the House of Commons in England by the Chancellor of the Exchequer which are: The United Kingdom, \$78.48; Australia, \$39.32; South Africa, \$19.75; New Zealand, \$50.63; Canada, \$36.80. Mr. Lapointe is therefore perfectly justified in his claim that Canada is the least heavily taxed country of the Empire—Quebec Telegraph.

HEALTH LEGISLATION.

The great amount of good being done in New Brunswick along health lines was pointed out on the floors of the Legislature on Thursday by Hon. Dr. W. F. Roberts, Minister of Public Health. Other speakers had in general terms expressed satisfaction with the health legislation, but it remained for Hon. Dr. Roberts to present the case for the Act in a clear, logical and convincing way. He detailed exactly what has been done and what it is hoped to do, and demonstrated that the cost of the Act, objected to in some quarters as an intolerable burden, is in reality very small compared with the vast amount of good that is being accomplished. Hon. Dr. Roberts' speech comes as a revelation to many who have not been keeping in health and will undoubtedly win the close touch with the programme of support of many who have hitherto not taken any great interest in development along lines of public hygiene. His statement that the cost of administration last year amounted to only slightly more than ten cents per capita is a pleasant surprise to his supporters, who, while recognizing the value of the services being rendered to the province, believed that the necessary expenses would be many times the sum expended. The death rate of the province has been materially lowered, the reduced infant mortality being particularly gratifying. New Brunswick was the first province to establish a ministry of public health. The credit for this must in a large degree go to Dr. Roberts, and under his progressive efforts New Brunswick has kept in the lead in a movement now world wide and certain to become one of the most important public departments. What a politician of the professional type, Dr. Roberts has shown a marked ability in getting legislation in furtherance of his far-seeing health policy. The fruits of his efforts are now being made manifest, and Dr. Roberts is justified in pointing with pride to the results so far obtained and making them the basis for widening the work of the opportunity of the future.—St. John Globe.

For instance
 The trend of modern life is raising the standard of living, and, says, How, for instance, can a man jump out of the frying pan into the fireless cooker?

BREWERY ON LINER
PUZZLED CUSTOMSGerman Ship Well Equipped
Entering U. S. Port

New York, April 9.—Customs officers searching ships along the water front for liquor, to-day boarded the Albert Ballin, of the Hamburg-American Line, and bumped into a problem in dry enforcement that put them in a quandary. In short, they discovered a brewery on the ship. Unable to answer the question, "When is a brewery wet?" the officers searched other parts of the ship and found 680 bottles of beer and a quantity of Scotch whiskey. They assessed a fine of \$251. Simultaneously the Cunard Line was fined \$250 for excessive liquor stores discovered on the Berengaria. The brewery problem remains. The chief brewer proudly conducted the officers through his stores of mash and hops, smiling benignly the while. The presence of the bottled beer he explained, was purely accidental. The American law demands that ships be dry in New York Harbor. That would mean nothing to wet the whistles of passengers on the eastward voyage. Therefore the brewery, the chief brewer said.

"When does the brewery work was asked.
 "Outside the twelve mile limit."
 "How much beer can you make?"
 "One thousand quarts a day. Is that illegal?"
 The dry agents tentatively solved the puzzle by declaring the floating brewery to be on an even status with American breweries. These latter are confiscated so long as they are inoperative. Therefore the officers locked up they had co-operated in the contraband found on the Berengaria was eleven cases of wine, one case of champagne, and thirty bottles of various liquors. The Cunard officials said they had co-operated in their full powers with the prohibition enforcement officers, and exhibited radiograms sent to the ship master advising that all excess stores be checked up and jettisoned before entering American ports.

Bellefleur

The many friends of Mr. Martin Doucette, will be sorry to learn that he has gone to Campbellton hospital with pneumonia, Saturday 5th.

The Misses Agatha and Cecilia Legacy spent the week-end in Bathurst and Pettit Rocher visiting their sisters Mrs. Dona Doucette and Mrs. Alex Roy.

Mr. and Mrs. Harold Gilmers spent Friday evening the guest of Mr. and Mrs. James Chalmers.

Miss Kathryn Duke of Pokemouche is visiting her sister Mrs. William Kilborn.

Mr. and Mrs. Ails Devereaux had dinner Wednesday with Mr. and Mrs. McKenna of Bathurst.

Mrs. Adolphus Guitard of Turgeon Settlement was visiting friends and old acquaintances in this town last week.

Messrs. Alfred Doucette, Patrick Grant, Leonard Legacy, Eddie Doucette, Dona Melanson, Theodore Legacy, Newell Devereaux and Orlan J. Guitard left Monday morning for Upper Restigouche to clear out the brooks for the drive.

Mr. Willie Chalmers who is working for the Bathurst Lumber Co., spent a few days with his parents Mr. and Mrs. James Chalmers.

Mr. Harry J. Guitard of Turgeon is seriously ill with an attack of "flu".

Mr. Albert Legacy was taking a motorcycle ride Friday evening for the good of his health.

Miss Nellie Beaudry spent Friday evening the guest of Mr. and Mrs. Alex Landry.

Miss Ruby Chalmers returned home from Campbellton last week.

Mr. Walter LaPointe who is working in Nash Creek for Thomas Landry spent Sunday with his parents Mr. and Mrs. Frank LaPointe.

Messrs. Willie McCray and Richie Moriarty were visiting friends in town last Friday evening.

Mr. Albert McCurdy is unloading two more car loads of fertilizer this week.

Miss Amanda Grant spent Sunday at her home here.

Mrs. Ben Beant and Mrs. Frank Landry have started a millinery store in Bathurst.

True, indeed.

Small Son—"Father, why is an after-dinner speech called a toast?"

Father—"Because it is so dry, my son."—Answers.

News Notes of Town and Country
Happenings Gathered by Graphic Reporters

THE CROWS ARE HERE

The crows are again with us in large numbers. There is a good deal of argument as to whether or not the crow is the worst of the birds.

ENGAGEMENT ANNOUNCED

Mrs. H. M. Rose of Campbellton, N. B. announces the engagement of her son, Allen H. Rose, to Miss Ruby Pearl Currie of St. John, N. B. The marriage is to take place early in June.

ENGAGEMENT ANNOUNCED

Mrs. and Mr. Alexander McLennan announce the engagement of their daughter, Mary Jean to Mr. Edwin Blair Westrup of Montreal, son of Mr. and Mrs. James Westrup, Belfast, Ireland. Marriage will take place the latter part of this month.

MRS. BRUCE HERE

Mrs. Ella Bruce, of Campbellton, president of the N. B. and P. E. I. branch of the Sea Women's Christian Temperance Union, is in Moncton, conferring with W. C. T. U. workers. While in the city, Mrs. Bruce is the guest of Dr. and Mrs. R. H. Coleman, Archdale street—Thursday's Transcript.

ADVERTISING BOARD

The New Brunswick Government is spending about \$50,000 to advertise the Province and its resources at the British Empire Exhibition, and the Dominion Government is contributing about \$200,000 in advertising Canada as a whole. This will undoubtedly prove to be a fine investment.

The result is that there will be on exhibition samples of our products, giving a comprehensive idea of our natural resources and our advantages generally.

MONCTON FIRM

GETS CONTRACT
Moncton, N. B., April 4.—(Special)—The contract for the erection of the nurses' home in connection with the Muench Hospital was on Saturday awarded to the Parsons Construction Co., of Moncton. The new building will be of concrete and brick and will be erected at the north of the present building. The contract price is understood to be in the vicinity of \$60,000. Work will be commenced just as soon as the weather permits.

OBITUARY

Mrs. Edward Giguere
Dalhousie, N. B., April 9.—The death of Mrs. Edward Giguere, which occurred suddenly on Monday morning at the home of her son, Ed. Alderman, R. B. Giguere, was a shock to her many friends, who sympathized deeply with her bereaved ones. For while Mrs. Giguere was nearly eighty-two years of age, yet she was as active as a young woman. She was born in the City of Quebec, and lived for many years in the Town of Campbellton. After the great fire, she moved to Dalhousie, where she was very much respected on account of her kind nature and her domestic skills. She leaves one son, Ed. R., one of the prominent merchants of Dalhousie; three daughters, Mrs. P. M. Shannon, Campbellton; Mrs. Dr. Martine Deschamps, Dalhousie, and Miss Emma, at home.

The funeral service was held in the Dalhousie R. C. Church this A. M., where a large gathering paid their last tribute to the deceased, who for many years had made the Giguere home one of cheer and hospitality. The pontifical Requiem High Mass was celebrated by Rev. Father J. A. Hart, with Rev. Father P. M. Lacombe, Theobald, and Rev. Father Trudelle, Sub-Deacon. There was special singing during the service.

The pall bearers were Doctor Narcisse Deschamps, Alex. J. LeBlanc, John E. Delaney, P. M. Shannon, George Vermette, and Alfred Hamandou. Interment was made in the R. C. Cemetery, in the family lot, near the grave of her late husband, Philippe Edward Giguere, also near the grave of her late daughter, Marie Adeline Latetia Giguere.

The chief mourners who attended the funeral service were: Ed. R. Giguere, P. M. Shannon, Alfred Hamandou, Emilie Cantin, Joseph Cantin, Ferdinand Boudreau, Edgar Shannon, Peter Shannon, Jr., Stephen Shannon, Mr. and Mrs. George Vermette, Mrs. Leon Cantin, Mrs. Napoleon LeBlanc, Mrs. Auguste LeBlanc, The Misses Alice and Rena Hamandou of Campbellton; Jean Paul Dore and Francis Dore, Dalhousie.

Cause of Early Old Age

The celebrated Dr. Michener, an authority on early old age, says that it is "caused by poisons generated in the intestine."

When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

"The Least Noise or Excitement Made Me Tremble," says Mrs. Beaulieu

Never before in the world's history have there been so many cases of nervous collapse, with "jumpy" nerves, accompanied by fits of depression, as since the Great War. This condition applies not only to men and women but to children. These run-down conditions affect every part of the human system, bringing indigestion, headaches, weakness, insomnia, and finally, if not checked, the most insidious and dreaded disease, consumption. To protect the system there is only one thing to do, and that is to build up the body with Carniol.

Mrs. Beaulieu knows how to express my gratitude to you for all that Carniol has done for me. I was terribly depressed. The slightest noise or excitement made me tremble. My nerves failed. I consulted my doctor and he told me that I was completely run down and I needed a tonic. The best tonic for your case, said he, is Carniol. I took Carniol for a month and I feel so well today that it is hard to realize that six weeks ago I was in such poor health. —Mrs. F. Beaulieu.

Carniol is sold by all good druggists everywhere.

Of Interest to Women

Simple Things You May Do To Give Your Hands Beauty

Nowadays when women have become more capable and less ornamental. They are likely to pay the price of their increased freedom by losing some of the clinging-vine beauty of other days, that is, unless they take extra precautions.

We know that fifty years ago the mid-Victorian novelists boasted of the lily-white hands and tapering fingers of their heroines. We also know that modern heroines use their hands to accomplish so many other things besides sewing fine seams, that they must take extra precautions to keep them beautiful. For no matter how proud a woman may be of her work, she never likes to have her hands look as if she used them very much! So much feminine vanity, which after all is a very charming quality.

It is very true that the hands require special care if they are always to appear in the pink of perfection. This is true no matter what the work the hands in question do, but it is especially true if their task is housework.

If you have as your daily task the usual jobs that must be done about the house—dishes, cleaning and dusting—there is one thing you must practice always, and this is the wearing of gloves.

When you sweep, put on thick gloves to protect your hands. It doesn't matter how many sizes too big they are. In fact they should be several sizes larger than gloves you'd wear on the street, for you need plenty of freedom of movement.

It's a very good plan to find some discarded thick kid gloves of a male member of the family, for they are likely to be soft and heavy. For dusting and light housework, light weight chamois gloves are preferable to kid. And you should never fail to wear rubber gloves when doing the dishes. For hot, greasy water is devastating to beauty of hands.

While this may sound rather troublesome, having three separate pairs of gloves, for different household activities, it really is little or no trouble at all, and it means everything to the beauty of your hands. Simply keep your gloves handy and slip on the pair needed for the activity at hand. Then when you want to do some delicate work on a fine seam you will have dainty, attractive hands of which you can well be proud.

Now I'm going to tell you an excellent method of preserving and enhancing the beauty of your hands at the same time that you clean house.

When you are ready to don your heavy sweeping gloves or your lighter-weight dusting gloves, rub a little grease cream into the palms of your hands, also touching the cuticle of each nail lightly with the grease cream.

Then draw your finger-nails down a cake of good soap, as if you were scrubbing it. This will fill your nails with the soap, which is cleansing and beautifying if it stays in long enough. You can now pull on your gloves and go merrily about your housework.

When it is finished remove your gloves and wash your hands in water with a good soap. Scrub your nails with a camel's hair nail brush. When the soap suds have been between the tip of your finger and nail is removed, you'll find your nails whiter than they were before.

Oatmeal, made into a paste by adding water, is an excellent cleanser. If your hands are very dry and inclined to chapping, clean them with a grease cream before you use the oatmeal cleanser.

If you follow these instructions faithfully you can have beautiful, dainty hands, though you do your own housework.

How Talcum Powder is Made

Of all the millions of people who use talcum powder, there are very few, indeed, who know just what talc is and how talcum powder is made. But talc has other uses besides facial toilet. For example, more talc, according to the scientific American is used in filling the pores of print paper. Talc is also used for a filler for paint. Its discovery for that use was hardly accidental, yet it was not originally added with the intention of improving the paint, but for adulterating it. Later on, strange to say, paint chemists found it improved the paint for some purposes. Guilty consciences had been aching in vain, but now ached because a higher price had not been charged for the improved paint.

Talc is not at all rare. It occurs in many places, and the chief item that goes to make up the sales of the paper industry that talc from other regions cannot compete.

Found in its natural state it is a rock. Its chief physical characteristic is its soapy feeling, like graphite. The mineralogist calls it steatite, and it is a hydrous magnesium silicate. About 65 per cent of the world's talc is produced in the United States, the largest supply being in Vermont, which is so close to the centers of the paper industry that talc from other regions cannot compete.

The best grade of talc is used for talcum powder, which must be white—except in the case of talcum for men, which has a flesh color. There is nothing in talcum powder that is directly harmful. If earth is comminuted rock, and if talc is a kind of rock, then talcum is only a kind of clean earth, to which boron acid is usually added to give soothing effect. It is interesting to note how many kinds of rock, when broken up and crushed to the finest kind of powder, have the general semblance of talcum powder, although not the actual characteristics which are necessary.

Not more than a generation ago, when the use of talcum powders became very general, it was said that the skins of the growing generation would be ruined by its use. Yet the evidences of the eye say otherwise. The processes the natural product go through before it is passed over the drugist's counter insure that it is the cleanest of all dirt.

FISH CUTLETS

Take two cupfuls of flaked, cold boiled fish and add a small cupful of fine crumbs, a grated onion, pepper, salt, a tablespoonful of curry powder, a lump of soft butter, the stiffly beaten white of an egg, and a tablespoonful of chopped celery leaves and parsley. Add also a teaspoonful of cream. Mix these together well. Shape the mixture into cutlets a half inch thick, dip them into beaten egg, dust with fine crumbs and fry them carefully in hot fat. When done drain the cutlets and serve on hot dishes garnished with lemon quarters dipped in chopped parsley. Make the tartar sauce of heavy mayonnaise with a tablespoonful of chopped capers, a tablespoonful of chopped gherkins, and a few drops of onion juice.

meal cleanser.

If you follow these instructions faithfully you can have beautiful, dainty hands, though you do your own housework.

AMONG HIS FLOWERS

First among Rockefeller's diversions is golf. Next is flowers and plant life. He spends many of his spare moments in the greenhouses on his various estates. Here is an excellent picture of him in his greenhouse at "The Chase." This winter home at Ormond Beach, Fla.

PECULIAR STORY FROM NEWCASTLE

Prisoner in Jail is Implicated in Recent Break at Miramichi Town

Newcastle, April 2.—Was a prisoner in the County Jail, awaiting transportation to Dorchester, responsible for the bold robbery of the Stohart store here about a week ago? Such is the question troubling the Newcastle police and goes to the heart of the case. On Sunday night, March 23rd the store of Stohart Mercantile Company was robbed. A brick had been hurled through the glass in the door and the thieves had gained admission by turning the latch on the inside. A large quantity of goods was stolen, including a violin, knives, razors, etc. On Tuesday last Abraham Doiron, (better known as Abe O'Brien) was taken to Dorchester Penitentiary by Deputy Sheriff Doran to serve a term of two years for robbery of the Lounsbury Garage last fall.

In cleaning up Doiron's cell, on his return, the deputy was surprised to find articles from the store of Stohart concealed in the cell, while closer examination revealed one of the bars in the cell had been saved off. Acting upon this information, Deputy Sheriff Doran proceeded to Dorchester and interviewed Doiron, with a result that Thomas Gallib, aged sixteen, was arrested as being an accomplice. Allan was associated with Doiron in the Lounsbury break, and was allowed to go on suspended sentence.

Doiron is about sixteen. It is expected that there will be some startling revelation when the case comes up for hearing.

W. C. T. U.

Courtesy of Union Signal.

On Sunday morning, August 5th, 1923, Deborah Knox Livingston, brilliant W. C. T. U. leader, silver-tongued orator and comrade beloved, fell asleep to awaken in "the kingdom of the blessed."

In the city of Glasgow, Scotland, about forty years ago, a bonnie lassie of six years joined a Band of Hope, and with the whole-heartedness that was always to characterize her, began to "sing songs" and "speak pieces," extolling temperance and sobriety. At the age of ten, with her narrow, she crossed the Atlantic to make her home in America. In the heyday of her youth, at eighteen, she joined the Women's Christian Temperance Union. It was indeed a happy day for our organization when such a rare spirit became a member! The next year, at nineteen, she accepted the position of president of her local Union, and glorified the office by throwing into it all the enthusiasm of her young womanhood. Those who recall her at the first national convention she attended, say her radiant personality and her talent as a speaker won for her the hearts of White Ribboners of Frances Willard. A little later she was elected president of the First District W. C. T. U. of Rhode Island. At the age of twenty-two she was married to one to whom she always referred as "the best man in the world," Rev. R. P. Livingston, a minister of the Baptist denomination, now the general secretary of the New England Evangelistic Association. During their residence in Boston, for nearly three years, Mrs. Livingston was the very active secretary of the famous Boston W. C. T. U. Upon the removal of the family to Rhode Island, this ever alert young woman found time, in addition to her duties as a mother and a busy pastor's wife, to mount still higher—the W. C. T. U. ladder and accept the presidency of the Rhode Island W. C. T. U., where her tireless zeal and marked ability for leadership in organization and legislation were so apparent as to make them worthy of a chapter by themselves.

Doiron is the National W. C. T. U. called her to the superintendency of the Department of Franchise. Those were history-making days, and Deborah Livingston's messages were heard over the United States. A gracious attractive young matron, womanly but fearless, she pleaded from platform and in legislative hall, on street corners and in parlor

meetings, that her sex be given the full privileges of the ballot and prejudice and hardened was the audience unconvinced by her sweet reasonableness and clear incisive logic. She played no small part in creating the sentiment that wrote into the Federal Constitution the Nineteenth Amendment just as she had a large share in carrying to vic-

tory the movement that resulted in the Eighteenth Amendment.—The Union Signal.

RAISIN CUP CAKES

1-3 cup butter or shortening, 2 teaspoons of baking powder, 1 1/2 cups of flour, 2 eggs, 3/4 teaspoon salt, 1 cup of sugar, 1/4 teaspoon nutmeg, 1/4 cup of milk and 1/4 cup 20 to 30 minutes.

Women you envy have only this secret

You, too, may enjoy it so keep the radiance and bloom of youthful skin

Radiant with the charm of youth still thick, millions of clever women are admired—and envied—today.

Yet they have no difficult, hidden secret—no great gift.

Only this simple method—which is for you, too. To give you, as well, the charm you envy in them.

For one week do this

Cleanse the skin regularly, as

PALMOLIVE

MADE IN CANADA

Volume and efficiency produce 25 quality for 10c

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive, so that thousands now use Palmolive for the bath.

Make sure that you get Palmolive—which is never sold unwrapped. All dealers have it. Get it, and try for one week this simplest of all treatments. See how delightfully and how quickly it benefits your skin.

L. S. BROWN'S GREAT RAILWAY FEAT

Prompt Work at Time of Halifax Explosion—Was Injured There.

Montreal, April 8.—In its account of the sudden death here yesterday of L. S. Brown, general manager of the Atlantic Region of the Canadian National Railway, the Gazette refers to "great railway feat" of Mr. Brown at the time of the Halifax explosion in 1917. It says:

"At the time of the Halifax explosion, Mr. Brown gave a performance of railroad and executive ability that is outstanding. He hurried from Moncton to Halifax immediately on receipt of the news of the explosion and on his arrival found that not only had the main railway terminals been badly damaged, almost two miles of main track completely demolished and the engine house partly wrecked, fifty-eight of the employees of the railway were killed and the remainder were off duty attending to the members of their family who had been injured or killed. It was imperative that railway communication with Halifax be restored immediately. Mr. Brown took charge of the situation, and for more than forty-eight hours he never left the job. He practically rebuilt two miles of wrecked track, put the main terminals into working condition and in less than three days succeeded in running trains over the main lines into the city, thus providing the vital facilities for bringing in of supplies and medical assistance."

It was during this trying time that Mr. Brown fell and hurt his hip, from the effects of which he suffered up until the time of his death.

SENATOR ROSS HAS RIGHT IDEA

Would Cut Parliament Expenses, Judges Salaries and Save Millions.

Ottawa, April 4.—During discussion of the budget in the Senate yesterday, Senator Ross suggested that Parliament should be called at a fixed date and business put through rapidly. This would permit the reduction of seasonal indemnities to \$5,000. If the Government did this, they could save out of their salaries.

He would make a cut in all the judges' salaries of twenty per cent., which would make a saving of \$400,000. All other Government salaries should be cut proportionately. He would reduce expenditures on experimental farms by \$400,000. He believed that good business men could take the Government expenditure and reduce it at least \$400,000,000 a year.

Tenders For Driving

The undersigned company call for tenders for driving all logs in the Upperquitch river drive from the railway bridge to the mouth and including also the keeping of the Big Falls and Railway Bridge clear of logs during the driving season spring of 1924.

Particulars of same may be had at the Company's office from F. E. Blackhall. The lowest or any tender not necessarily accepted. Tenders marked "Tenders for Driving" will be received up to and including Monday, April 15th, 1924, at 12 o'clock noon at the office of STEVENSON, CUTLER, CO., LTD., Campbellton, N. B. Apr. 3 3 w

In 1918 Babean was sentenced to 14 days for attempting to switch the Ocean Limited at Campbellton. In 1919 he was sent up for a month for trying the same act with a train at St. John. In 1921 he was sentenced to two years at Dalhousie, N. B., for theft and was released on ticket of leave in 1923.

Geisler was sent up for two years in 1921 at Dalhousie for theft, but was released on ticket of leave in 1922.

ORDER PLANS FOR GRAND FALLS WORK

N. B. Power Commission Instructed to go Ahead With Specifications.

St. John, April 4.—Official instructions to the N. B. Electric Power Commission to prepare full plans and specifications for the development of Grand Falls were received at the office of the commission here this morning. A start on the work will be made at once, it is expected. It will take at least six months to complete the work and it may possibly be a year before tenders can be called for erection of the plant.

Before construction can be started it will be necessary to secure permission from the International Joint Waterways Commission to build on international waters, and from the Quebec Government to build dam on lakes in that province, tributary to the St. John river. It is estimated it would take years before Grand Falls power would be available.

Formation has also been granted the commission to serve the River Glade Sanatorium and the villages of Petticoat and Salisbury, provided enough customers can be secured to pay the cost of the installation.

Played Safe.

"And you allowed that young man to kiss you? How indiscreet." Not at all. I had looked up his financial standing."

Wall Paper Showing

Here's the Happy Paperhanger!

He's taping off the selvage from a roll of STANTON SEMI-TRIMMED WALLPAPER and the reason he's happy is that he will do his work in far less time and his customer will be completely satisfied with the room when it is finished.

The patterns of these papers are all in the newest vogue and the colorings are superb. Whether your fancy lights on a wallpaper that is the very self of an embroidered brocade, a hand-wrought tapestry, or a gay chequer, across the room, you will not be able to tell if it is really wallpaper, so perfect, so valuable is the likeness to the fabric it simulates.

Let us show you our New Samples.

MOTHER OF LARGE FAMILY

Recommends Lydia E. Pinkham's Vegetable Compound to Other Mothers

Hemford, N. B.—"I am the mother of four children and it was so weak after my last baby came that I could not do my work and suffered for months until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. Since taking the Vegetable Compound my weakness has left me and the pain in my back has gone. I tell all my friends who are troubled with female weakness to take Lydia E. Pinkham's Vegetable Compound, for I think it is the best medicine ever sold. You may advertise my letter."—Mrs. GEORGE I. CHODAS, Hemford, N. B.

My First Child

Glen Allen, Alabama.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial letter."—Mrs. IDA RYZ, Glen Allen, Alabama.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Affections Peculiar to Women."

What Experts Here and Abroad Say About It:

"Hudson has produced a super Essex . . . It looks like the proverbial knock-out."—From Automobile Topics.

"The New Essex is a revelation of performance, ease of riding and of smoothness."—From Motor Age.

"Steers easily, even on loose gravel at 50 miles per hour."—From Motor World.

"A wonderful value—a car of which Hudson engineers have a right to be proud."—From Motor Life.

"Possesses qualities I didn't believe could be incorporated in a closed car at so low a price."—H. A. Tarantous, in Motor (U.S.A.)

and "MOTOR" of London, England Says:

"For a very considerable time the Essex car has been one of the most popular American productions marketed in this country, and has won an enviable name for reliability and road performance. Good as the four-cylinder model has proved to be in service, however, the manufacturers have superseded it in favour of a six-cylinder model. It represents a very great advance in design on the old car, and is one of the most interesting American vehicles that has ever been imported here, chiefly on account of the fact that the engine is only just over two litres capacity."

"Outstanding features are the unit the acceleration on second is terrific; in fact, it is one of the most lively cars in which we have ridden. Thirty miles an hour or over seems but 10 or 12, so smooth is the engine, while ordinary main-road gradients can be surmounted in excess of 45 miles per hour."

"The steering is particularly light for an American production, very accurate, and an ample lock is provided. The brakes, both hand and foot, could not be better, for they are very smooth, progressive and powerful in action. The transmission is noiseless, and in every way the new Essex six-cylinder can be put down as a real delight to drive."

"Even better than my former ESSEX" say Thousands of Owners

It is the most talked of car ever brought out by Essex. Old owners say it duplicates the pep and dash of the former Essex up to 50 miles an hour, while far surpassing it in smoothness and riding ease.

Thousands who examine and ride in it daily are proclaiming qualities never expected in a car of its price. They call it the easiest riding car they ever knew. Safe, comfortable and steady on all roads at all speeds. A special

design that will interest you accounts for that. It starts instantly in any weather. Steers easily as a bicycle. Gears shift noiselessly at a touch. Even those who keep but casual track of gasoline and oil mileage, are astonished at its economy in those respects. And the minimum service cost policy, continues these economies in inexpensive maintenance throughout all the years it serves you. Ask your dealer for the parts price list.

And take a 30 minute ride to learn the facts.

The Value of a Guarantee

Not so much in its protective penalty as in its satisfying assurance. No firm selling goods with a guarantee attached, expects to be called upon to pay the penalty. For it is naturally the intention to so carefully make the quality that dissatisfaction will be impossible.

Throughout its many years of service "King Cole" Tea has consistently been sold with a guarantee—a guarantee definite and substantial. It is printed on every "King Cole" package.

It carries to the buyer an evidence of good faith—a confidence in ability to serve—a determination to serve well.

"You'll Like the Flavor."

EXCEPTIONAL RIDING COMFORT

Owners continue to comment on the marked riding comfort of Dodge Brothers Motor Car.

Increased chassis length, low-sprung body and generous seat depth have much to do with this.

Primarily, however, it must be accredited to the greater buoyancy of the new spring equipment. The rear springs are ten inches longer, and underslung.

DEMOSKI PRISONERS

BACK IN CITY JAIL

Quebec, March 28—Three of the men charged with the murder of Joseph Bonaparte were transferred

from Rimouski to the Quebec Jail this morning on orders of the Attorney-General. Their trial will be delayed until Emmanuel Michel, the sixth man wanted in the case, has

been arrested. Very Mean Indeed A woman's idea of mean temperature is one that postpones the wearing of her new spring suit.

GREAT MUTINY IN FRENCH ARMY

Demoralization Might Have Tempted Germans into Smashing Drive.

London, March 21—Under the heading of "The Daily News" writes editorially:

"Our recent comments on the great mutiny which took place in the French army in the early months of 1917 appear to have aroused a good deal of interest. Many people declare they never heard of this extraordinary event, which was so nearly disastrous to the Allied cause, but a few correspondents who were in the British army during the war have written to point out inaccuracies, rumors of the affair subsequently reached their ears in gossip of the camp."

"The fact undoubtedly remains that the British army as a whole were in complete ignorance of the mutiny until long after the crisis was past, and that even after armistice very few British soldiers who were not staff officers had any knowledge at all of what actually had taken place."

"Mr. Buchanan, who gives in his 'History of the War' the only precise and detailed account of the mutiny that we have seen in print, rightly describes the concealment of this grave danger both from the Allies and the enemy as one of the most remarkable achievements of the war."

"As the matter of fact, the Germans heard of the rumor and published it as truth in an official communiqué, but it is quite clear that the German high command did not believe it to be true, or was quite unaware of the extent of the movement. Otherwise it is inconceivable that everything would not have been risked at a great attempt to break through the demoralized French forces."

"How great that demoralization was may be indicated by a reminder that General Petain, who was appointed to the command of the French army after Nivelle's dismissal, occupied himself for months afterwards in the task of addressing personally over 100 army divisions and recalling them to a sense of honor and duty."

ISLAND IS MARKED BY POISON GASES

Gypsum and Sulphur Are Gathered In Face of Danger.

One of the strangest islands in the world is situated about forty miles off the North Island of New Zealand. This is a precipitous rock nearly 1,000 feet in height and about three miles in circumference. White Island, as it is called, has immense deposits of gypsum and sulphur, otherwise one would never want to go near it. In fact, a trip to the island is something like a visit to the infernal regions, writes S. Leonard Bagin in "St. Nicholas."

Right in the centre of White Island there is a strange lake sixty acres in extent and fifteen feet deep. This is really a gigantic chemical retort. Dark green in color, the water is heavily charged with sulphuric acid and hydrochloric acid and it is practically always at boiling point.

From the great body of water thick clouds of poisonous fumes are constantly rising. On one side of the island there are numerous craters and blowholes, many of which give an opening into the molten interior of the earth. From the lake and the craters an incredible cloud of sulphuric and hydrochloric acid is sent up.

This hangs over the island like a great cap of white vapor, and it is for that reason the rock was given its name. During the blowing of a strong wind the acid smell can be detected at a distance of seventy miles.

It is only during certain months of the year, from November to March, that White Island can be safely visited. At that time the wind is blowing steadily in one direction and the harmful fumes are carried away. Then busy workers come to the island and load ships with the gypsum and sulphur.

The task is not wholly without danger, for now and then the sea will find its way through cracks into the semimolten regions below the surface and violent explosions are always a likelihood.

NEW "BLUEBEARD" French Police Get Word of Mysterious Disappearance of Attractive Widow (British United Press) Lyons, France, April 5—Police here are investigating the mysterious disappearance of an attractive young widow under circumstances recalling the notorious "Bluebeard" murders. As in the case of Landri's victims, she answered an advertisement to visit a man who said he handled valuable jewels, diamonds, and pearls. She thought a "Bluebeard" may be responsible.

The N. B. Hydro Commission has authorized the New Brunswick Electric Power Commission to carry out investigations into the St. John River, in

KING GEORGE WILL SPEAK TO WORLD BY WIRELESS

His Majesty will Talk by Radio From the Wembley Exhibition.

London, April 2—King George will deliver an address that is expected to be heard around the world at 11.30 a. m. Greenwich time, April 23, when he will formally open the British Empire Exhibition at Wembley. For the first time in English history the actual voice of a monarch will be broadcasted and heard simultaneously in the homes of hundreds of thousands of his subjects who have seen him in public but have never heard him speak, and by hundreds of thousands of others who have never even viewed His Royal person. The King's actual speech may not carry to the ends of the Empire by wireless but, undressed cables will take his message where the air waves fail. As soon as the words leave his mouth they will be flashed from a special station in the exposition grounds around the all British cable route across Canada to New Zealand and Australia, thence to India and South Africa and back to Wembley, thus encircling the world, the Imperial cable stations completing the circuit within five minutes.

However, the speed with which the cable message will circle the globe will be nothing compared to the swiftness with which the actual royal voice will travel to the farthest corners of the Empire, or as even the veriest amateur, radio fan knows, radio waves travel with the speed of light. Consequently listeners in Northern Scotland or Canada will hear the King's voice before it penetrates the air to the outermost edges of the crowds around the speakers platform at Wembley.

To the few Canadians who have heard King George read his speech from the throne at a state opening of parliament, his voice is one of the most pleasing things about him.

His tones are deep and rich and each word is clear cut and perfectly enunciated.

BULL MOOSE DANGEROUS PLAYTHING

The Halifax Chronicle recently published the following communication:

Sir—I read an article on Mooseback riding in the Evening Echo, dated March 21st and as this is a new sport in Nova Scotia perhaps Messrs. Bird and Carter will be good enough to furnish us with a more detailed account of their novel experience.

Did the obliging moose wait for the two gentlemen to remove their snowshoes, perhaps they did. I would like to know if they expect us to believe this "yarn" or will we take it for what it is worth.

Would any of the Chronicle Staff care for a bareback ride on a bull moose. I advise you to make your will before you try it.

We all know that the bull moose is not a plaything and any person who dares to walk up to a live moose is flirting with the undertaker.

They cut the tip from one ear too well they did. Would he (Haw and Gee) like a good yard horse.

H. L. WOODWORTH, Greenville Sta., N. S., March 26, 1924 connection with the proposed Grand Falls development.

Hint to the Lover. They say that kissing like bathing is utterly unknown among the Eskimos. Here's a tip to the Eskimo belles: Take a bath now and then, and see if it doesn't your battling

WEDDINGS

BECKINGHAM-MILLER

Mr. and Mrs. Oscar Johnson announce the marriage of their youngest daughter Margaret Beckingham to Mr. Thomas John Miller, son of Dr. and Mrs. J. S. Miller of St. Saviour, London, England.

The ceremony was performed by Rev. A. Brock Humphreys on April 1st.

DUNCAN-SILLARS

A very happy event took place at St. Andrew's on Saturday evening April 5th when Miss Margaret Gordon Duncan was given in marriage to Mr. James Graham Sillars.

The bride was attended by Miss Florence de Corvont, the ceremony was performed by Rev. W. W. McNair, assisted by Rev. Frances Yates.

After a trip to Upper Canadian cities the happy couple will reside in Sellaerville.

A wide circle of friends extend hearty congratulations and best wishes for a long and happy wedded life.

Mrs. J. L. Comeau

Miss Bertha Richard
MacDonald Building Water Street

Douglstown, Que.

Mr. Gerald S. Rall, formerly assistant manager of the W. H. Miller Lumber Co., Campbellton, N. B. but who now conducts a lumber business of his own in that town met a hearty welcome when he visited Douglstown some time ago. During his stay here he was the guest of his mother Mrs. Luke Rall and sister Miss Alice Rall.

Mr. Allan Baird has returned home after undergoing treatment at the Royal Victoria Hospital, Montreal.

We are very sorry to hear of the death of Mrs. Percy Harbour (nee May Thompson of Haldimand) who died at her home in Douglstown some few days ago after a long illness. Besides her husband she leaves to mourn her early death her mother Mrs. John Thompson and one brother Mr. Wilson Thompson both of Moncton, N. B. The funeral took place to the Anglican Church in Sandy Beach where the final rites of that church were conducted by the Rev. Mr. Robbins.

Mr. and Mrs. Albert Kennedy of Haldimand are receiving the congratulations of their friends here on the arrival at their home some time ago of a young daughter, baptized Cecilia Rita, sponsors Mr. Cyril Rall and Miss Eva Kennedy.

Miss Annie Morris has returned to Montreal to resume her work there after spending a two months vacation at her home here.

Mr. Laviole of the Gaspe and Bonaventure Telephone Co., Gaspe Basin, was a business visitor in Douglstown last week-end.

Mrs. Thomas Pye of Sandy Beach was the guest of Miss Edith Baird on account of their serious illness of her daughter who is married to a doctor in that city.

Miss Edith Donavan of Haldimand was the guest of Miss Edith Baird last week, during the absence of the latter's mother who has been spending a few weeks in Montreal.

Mr. Allan Rooney of Lake St. John, P. Q., and Mr. Herbert Rooney of Port Arthur, Ont., who were called here on account of the illness and death of their late father, Mr. Lawrence Rooney have returned to resume their work at their respective places. We are pleased to hear that the latter was married a few weeks before coming here.

Miss Florence Briand of Gaspe Basin was visiting her parents Mr. and Mrs. Richard Briand during the week-end.

Messrs John and Clarence Gaul are expected here from Turquis Falls, Ont., to visit their parents Mr. and Mrs. Ambrose Gaul.

Miss Nora Malone, daughter of Mr. and Mrs. Thomas Malone of this place who was teaching this term at St. Simon's, Bonaventure Co. P. Q., has resigned her school to enter the novitiate of the Convent of Our Lady of the Snows, Campbellton, N. B. She was for a few years with the Sisters of the Holy Rosary at Rimouski but lately has been teaching in different parts on the coast. Her friends here join with her friends in the counties in Gaspe to wish her every happiness in the sacred calling which she has chosen for her life's work.

Spring arrived on schedule last week with seasonable temperatures prevailing. Winter is officially over but most of us will hesitate about parking the snow shovel for a few weeks yet.

Mr. Smith E. Baird after spending the winter with his family here has returned to L'Anse aux Cousins to take up his work as shingle saw filer with the Shepherd & Morse Lumber Co.

Miss Elizabeth Ryan, teacher of Brilliant Cove spent Sunday here among her Douglstown friends.

Expressions of regret were universal when it became known that Mrs. Cameron Patterson had died at her home in Gaspe Bay South. The late Mrs. Patterson who was known here had been taking treatment for the past few months at the Montreal General Hospital and arrived home only a few days before her demise. Her funeral was held to the St. James Church in that village and was conducted by the Rev. J. Weyman, Rector of St. Paul's Church, Gaspe Basin.

Miss Rita Leggo, Miss Grace Gerard and Mr. Reginald Leggo all of Brilliant Cove were visitors here over the week-end the guests of Mr. and Mrs. Robert Baird.

Mr. Horace Gaul after spending the winter months with his parents Mr. and Mrs. Ambrose Gaul intends to leave in the near future for Quebec, where he will resume his work on board "H. M. S. C. Margaret".

Mrs. James Baird of this place who has been at the Royal Victoria Hospital, Montreal for treatment has left that institution and is spending a few days in the city prior to returning home.

Mr. Michael Carberry of Grand River spent a few days here some time ago as the guest of his sister Mrs. Xavier Kennedy.

Mr. J. W. Macdonald and her sister Mrs. H. A. Cummings, have returned to their homes in Moncton, N. B., being called to Haldimand on account of the death of their brother Mr. W. Thompson.

Mr. J. W. Thompson and their niece Mrs. Percy Harbour of Douglas West. On returning they were accompanied by their sister Mrs. John Thompson and her young son Master Wilson Thompson.
