Public interest still continues to cenre around the deliberations of this ection, which is under the chairman nip of Dr. Helen McMurchy. At this norning's session a most interesting paper on "The Control of the Municipal Milk Supply" by Dr. G. G. Naismit f Toronto.

As milk is the only uncooked anima ood we eat, it was most important that should be properly handled, particlarly in the hot weather. The diffiulty in the larger cities, such as Toonto, was much greater than in cities there the supply was gathered within radius of ten miles or so. In the arger cities the milk was shipped in rains, and was frequently a day old efore it reached the consumer. he temperature of the milk was owed to rise during this time, multiolication of bacteria immediately began, and the milk was quickly made unfit for consumption.

Should Be Pasteurized. The only way of rendering it absolutely safe was to pasteurize it, and he strongly advocated the adoption of methods in handling a city's milk sup-ply which would lead to a preference being given to milk which had been

thus treated. A great deal of good could be acomplished, he asserted, in educating the farmer as to the proper handling papal secretary of state. # TROUBLED WITH KIDNEYS COULD NOT SWEEP FLOOR.

her household duties when she is suffering from a weak and aching back, for no woman can be strong and well when the kidneys are out of order.

The weak, lame and aching back comes from sick kidneys and should be attended to at once so as to avoid years of suffering from the kidney trouble which is sure to follow if the back is neglected.

They go right to the seat of the trouble Mrs. Joseph Throop, Upper Point De Butte, N.B., writes:-"I cannot speak too well of Doan's Kidney Pills. two years I was so tired, life was a burden and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so and to-day I don't know what it is to be tired and my lame back is all gone. I can recommend them to any person suftired feeling."

### STRICKEN SUDDENLY

John Galbraith Resided in St. Marys for Many Years.

[Special to The Advertiser.] St. Marys, June 25. — Word was received Monday of the sudden death by a stroke of apoplexy of John Galbraith, at East Buffalo. Deceased was formerly an operator at the G. T. R.

some time with the New York Central at Buffalo, and was in his 58th year. Mr. Galbraith will be remembered by some of the older residents of town. He was a son of the late Adam Galbraith, formerly St. Marys market clerk. There survive a widow, two brothers and a sister, William at Buffalo, James with a Canadian survey party, and Mrs. John Taylor, King street, St. Marys. Interment takes place at Buf-

LONDON, WEDNESDAY, JUNE 25 AN ANXIOUS FRIEND, BUT NON-

SUPPORTER. As a hydro-barker the Free Press Is a winner; as a hydro-user, it is nowhere. Actions speak louder than words, but in regard to hydro our local contemporary is mightier with the pen than with the purse.

It again calls this paper "the enemy of the public plant," a speech that it stamps in quite regularly as a sort of permanent synonym for "Advertiser." one of the phrases that are over-ripe for the cannery. Why, the very name Advertiser stands for publicity and enthusiastic promotion of public welfare. But the Free Press has some son that recalls "We are seven," or a cuckoo clock. Still it answers as before, "the people's enemy." You alyou open the paper.

And after our admitting that in its own way our contemporary is a friend of hydro! It is not common courtesy to make the old surly reply, "enemy of the public plant,' and blame The 'Advertiser for wishing hydro well. Perhaps it is jealousy that will not bear another lover around the premises. But if the Free Press were seribus in its attentions, it would do more than talk, it would put up. The extent of its regards seems to be measured by a small bouquet per month, pretty, but not substantial.

There is a pleasure in having after 'long ages drawn a retraction of a misstatement from our frowning critic. It must have been a wrench to take back anything. Did the Free Press ever do this before? In answer to a characteristic assertion that every other Liberal newspaper in the Province was expressing "sympathetic patience" with the workings of the hydro-electric system, we instanced the Hamilton statement that the Hamilton Times nothing else. Of them all things are

It is indeed delightful to get one ever so small retraction from a journal like the Free Press. Just to give it a chance wears, in spite of the almost daily opportunities. Finally, a valuable quotation from the Stratford Beacon, on this you used it, you wouldn't be so complacent and sweetly resigned to its Faults. It is not too bright and good for human nature's daily food.

### ISAACS AND HANNA.

The charges against Sir Rufus Isaacs and Mr. Lloyd George, mem bers of the British Government, for their transactions in Marconi stock have been thoroughly investigated acknowledged on both sides that there was nothing wrong, but that "it was indiscreet'.'

The facts are briefly these. The Government entered into a contract with the English Marconi Company. Before this fact became public property two members of the Government and the Liberal Whip purchased stock in the American Marconi Company-a different organization, though there were some parties interested in both. Someone brought the matter up in Parliament last fall, and the answer cabinet had purchased any stock in the English Marconi Company, which paper charged Sir Rufus and his colleague with corruption. It was prompt-Iv sued for libel, and the whole mat-Both judge and jury agreed that the was absolutely unfounded. there had been any corrupt dealings, but that a contract with the English Marconi Company would tend to boom help the American Company, and that in purchasing stock in the latter Sir Rufus and his friends were taking adsessed for their own benefit. Be it understood, the stock was not a contribution to the party funds; it was idmitted that the purchase did not

The Montreal Gazette gravely assures its readers that "no cabinet minister hould take a favor or an advantage from a man contracting with the Government, or should become interested in a company the profits of which depended upon the conclusion of contract with the Government." That sounds well. But the English ministers did not take a favor from centractor; they purchased at the narket price stock in a compan which might have been benefitted (but was not), by a contract which the nother. In Ontario, a contractor had claim against the Government which vas disputed; and before the dispute \$500 to the Government's campaign fund. It has been suggested that this

Government had entered into with was settled he made a contribution of was only part of what he was asked to contribute. The Gazette's censure applies fully to Mr. Hanna; it scarcetouches Sir Rufus Isaacs.

The Montreal Star, the paper o Sir Hugh Graham, the ardent imperialist, who is said to have financed the anti-imperialist Nationalists in the last general election, is very mild. It admits that there is no charge against the English ministers except "a violation of parliamentary traditions. And the greatest mistake which they made, it is said, was in not being perfectly frank when rumors first began to circulate. Well, they retrieved that mistake as quickly as possible. The man who libelled there was promptly brought to court, and everything explained. Mr. Hanna also admitted that he made a mistake when he took money from a contractor whose claim he was disputing. when an investigation took place Mr Hanna's counsel, and his friends, who constituted the large majority of the court, promptly blocked proceedings the witnesses for the prosecution were not allowed to answer questions and nobody today knows the partic-

The Star goes on to say that the chief effect on the British Government will be the opportunity given its opponents to insinuate that "where so CARRIED ON BOTH ENDS much was kept hidden until brought to light by chance discovery, may there not be still much more left under cover, of which we have clue, and so no confession?"

But everything has been brought nothing more to be learned about Mr. lights. Hanna? That is the question yet un-

# BRUCHESI BANS G. DESAULNIER'S PERFORMANCE

Bilingualists Had To Cancel Part of Program Owing to Prelates Action.

Claims Lawyer Is Not in Good Standing in the Catholic Church.

[Canadian Press.]

Montreal, June 25. - After the organizers of the St. Jean Baptiste Association Soiree, which concluded the tag day for money to carry on the campaign in favor of bilingual schools in Ontario, and which was given last evening in convocation hall, Laval Uni ersity had secured Gonzalve Desaul niers. K. C., one of the best-Known French-Canadian advocates in the province, as an attraction, they were compelled late vesterday to ask him to cancel the engagement because objections raised by Archbishop Bruchesi, of the Roman Catholic Church, Mr. Desaulniers was to have recited a patrioic piece of his own composition entitled "In the Gulf."

Not in Good Standing. His grace warned the organizers of he soiree that if Mr. Desaulniers was ermitted to recite use of the hall ould be forbidden. The position taken by Mgr. Bruchesi

said to be as follows: Mr. Gonzalve Desaulniers, not beng in good standing with the Catholic hurch, his grace does not consider that it would be proper for that gentleman to appear at an entertainment given in a Catholic university, although it is stated that his grace has never questioned anyone's right to entertain any religious views he may see fit. Keenly Discussed.

The incident created a great deal of talk at the concert and especially among professional men. Mr. Desaulniers is said to have been a directing spirit in Godfroi Laglier's paper, Le Pays, which had been threatened with an ecclesiastical bann by the arch bishop. It is also affirmed that Mr. Desaulniers was at one time a member of the famous Emancipation Lodge which was affiliated with the Grand Orient of France, and disbanded some The statement has also been made that Sir Wilfrid Laurier President Poincaire

Strong Opposition to Drastic Measures at Democratic Senate Caucus.

One Proposition Is To Prohibit Products Made by Children Under 14.

[Canadian Press.]

Washington June 25. - Two farreaching amendments to the administrative provisions of the tariff bill aroused opposition in the Democratic Senate caucus today. One was that prohibiting importation of any goods, except immediate products of agriculture, forests and fisheries, wholly or in part manufactured by children un-der 14 years of age. That provision was declared by many senators to be the most drastic protective measure any manufacturer could ask for greater as a protection against foreign

competition than high tariff rates. The amendment to grant to the United States court of appeals concurrent jurisdiction in customs cases involving more than \$100, with the customs court, also aroused attention. Some Democrats thought the proposal an entering wedge toward elimination

of the customs court. Senator Ransdell resumed the debate against free sugar, when the caucus opened, while Senator James was ready to support the schedule. Discussion of both the wool and sugar schedules was to end at 4 p.m., when vote was to be taken. With these questions settled, administration leaders expect the bill to be reported

# "How in the World Can Any Woman Get Along on Less than \$213.70 a Day?"

ASKS MRS. HEYE, WHO FELT LIKE A PAUPER ON A MERE \$40 A DAY, AND BEGGED THE COURT TO RAISE HER ALIMONY TO \$213.70 A DAY.

Staff Correspondence.

New York, June 25.-The cost of living nowadays is certainly something

For example, there's poor Mrs. Geo. G. Heye, the banker's wife, who is awfully provoked because the judge who is hearing her divorce sult wants her to eke out a miserable existence on only

\$40 a day of temporary alimony.

Mrs. Heye figures that \$213.70 a day. is the very least she and her two children can worry along on. Here's the way she figures it out:

For rent she needs \$213.70 a year. That's what her modest quarters in the Hotel Langdon, at Fifth avenue and Fifty-sixth street are costing her. She only has a few rooms, too, with her own dining-room, of course,

She has her own waiting-maid, chambermaid and personal maid, and the English nurse for little Lawrence, aged 4, and the French maid for 8year-old Mildred.

"That's really a small number of servants," she says. "If I were living in a house of my own, like many women in my set, I'd need a dozen or Besides the bagatelle she pays for

rent, Mrs. Heye estimates that food and service for herself and two children amount to \$80 a day.

There's the item of education, too. Little Lawrence's instruction alone will cost \$5,000 this year.

Now, don't raise your eyebrows. Just to show how little you know about it, Mrs. Heye explains that besides the regular schools-private, of courseher boy and girl must have riding lessons, dancing lessons, swimming lessons, French lessons and many other

"Their little friends all have them," And what American family can get

along without an automobile? Mrs. Heye has two. One might be out of commission, you know, and then she couldn't have the chauffeur drive Lawrence and Mildred back and forth to the dancing master, music master, etc.

The autos cost her \$10,000 a year. In buying clothes Mrs. Heye is very,

VERY economical. "I don't spend as much as \$25,000 a year for all the clothes for myself and children," she boasts. "I seldom pay as high as \$500 for a dress. By careful buying, I get them for \$375 apiece." There are the doctors and dentists and florists, too, and all sorts of incidentals, and trips out of town—the children can't stay in the city dur-

ing the hot weather, you know.

And she must keep her home comfortably furnished.

MRS. GEORGE G. HEYE AND HER TWO CHILDREN, LAWRENCE AND MILDRED.

So you can easily see that \$213.70 at a wife has a perfect right to spend all day for a family of three is a pitiful that her husband is able to give her,

ifle for an allowance.

"I believe," Mrs. Heye declares, "that children before everything else."

Deneau Loses His Second Game Inside of Week in the Final Session-Game Was Tied Right Up To Last

Inning—Score 5 to 4.

[BY JINX.]
St. Thomas, June 24.—Rube Deneau lost in the ninth inning for the second time in less than a week, when the Saints beat him out in the final stanzapf an interesting game at Pinafore Park today by the score of 5 to 4. Previous to the closing session, the game had been tied at the end of every inning. Two men were out in the ninth ning. Two men were out in the ninth process. In all the St. Thomas outfield had 10 putouts, so that the London players were locating Howick's benders. Bierbauer vious to the closing session, the game had been tied at the end of every in-ning. Two men were out in the ninth and Wright was on third base when Powers came to bat. He hit the first ball Deneau pitched for a grounder through the pitching box, the ball rollng out to Reidy in centre field. Wright rotted home, and the Saints had

Score Tied Until Ninth, It was a nicely-played game from the beginning, and it was anybody's the beginning, and it was anybody's victory up to the ninth inning. London got to Howick in the first inning after two men were out, and sent two runs across the pan. In the Saints' half Deneau was also touched up after two men were out and two runs were scored. In the third inning, London went out and added another run, but the Saints came right back in their half and tied it up again. In the seventh London took the lead again when Dunlop hit a homer, but the Saints were right on the job again, and in their half they tallied one and evened the count for the third time. It looked just as if St. Thomas was teasing the

their half they tallied one and evened the count for the third time. It looked just as if St. Thomas was teasing the London bunch along, and waiting for the ninth inning so as to effect a grand climax. And sure enough, the ninth inning brought the grand climax. Couldn't Hit Them Safe.

The London club had no trouble in locating Howlek, but the greatest difficulty was in placing the hits just where the fielders could not reach them. 'Midge' Craven, the Saints' trouble-maker, had a birthday in the field, getting no less than six putouts, the majority of his catches being of the sensational variety. In the seventh he tried to pull a trick that gave Dunlop a home run. Dunny was first up in that inning, and he poled the pill to deep right-centre. Both Craven and Kustus started to run for it, and Craven appeared to be getting under it. Just as the ball was coming down he stretched out his mit and apparently caught it. He kept on running and Dunlop reached first and siarted for the bench. Craven made no effort to throw the ball into the infield again, however, and one of the London players, smelling a "at, yelled for Dunlop to get back on first. The big London shortstop scampered back to the bag and started for second, Craven, meanwhile,

putouts, so that the London players were locating Howick's benders. Bierbauer and Linneborn were the chief swattists of the Tecumsehs, while Kopp and Wright were most effective for the Saints, To these gents and Manager Ort the Saints' runs were due. Kopp scored two runs and Wright three, Ort driving them in a couple of times. Kopp got a triple and a double, while Wright contented himself with two doubles, one of them coming in the minth and paving the way for the winning run.

GUELPH AND HAMILTON DIVIDED DOUBLE BILL

KOLTS TOOK THE FIRST GAME BY Jackson and Cobb Were Both SCORE OF 6 TO 3-LEAFS HAMMER NEW RECRUIT.

Hamilton, June 24. - Guelph and Hamilton split even in the double bill this afternoon. In the first game Donahue, star heaver on Lee's payroll, twirled the Kolts to a victory, his coolness in the pinches being the feature of the fray. Leclair also twirled good ball for the visitors, but the Kolts fell on his offerings in the initial inning for three hits and as many runs. The final score of the first game was 6

In the second game Lee shoved Donnelly, a recruit from the disbanded Empire State League, into the box. The kid had nothing but a soiled shirt and condence, and in the first inning the Guelph swatsmiths walloped him for

The third of the great series of "Saturday Short Stories for Summer" being printed in this newspaper, will be published Saturday.

It will be one of the very BEST short stories EVER written!

The title is "Captain Englar 1," and the famous writer, Gouverneur Morris, is the author of it. It is a story wherein adventure and romance meet-wherein Captain England, scuttling pirate, comes to love the guileless beauty, Lady Pelham, madly!

And the illustration does ABSOLUTE JUSTICE to the tale—a thing not often accomplished.

This picture, showing "The Lady and the Pirate" at their moment of tender parting, has been drawn especially for this paper by James Montgomery Flagg, who is called by far the greatest of all pen-and-ink artists.

Wait till you see it!

YOU'LL NOT BLAME US FOR WAVING THE FLAGG.

During the succeeding few seconds none of the occupants of the limousine spoke. Devar was kneeling on one of the front seats, and the roundsman, who had removed his uniform hat to avoid attracting notice where learned the state of the seather and the seather all the state of the seather all the seathers. moved his uniform hat to avoid attracting notice when a lamp shone directly into the interior, quietly took stock of the men who had so unceremoniously called him off his tour of inspection. Evidently he satisfied himself that he was not being dragged into a wild-goose chase. Their tense manner could hardly have been assumed: they were in desperate and deadly earnest; so he thanked the stars which sumed: they were in desperate and deadly earnest; so he thanked the stars which had brought him into active connection with an important crime, and gave his mind strictly to the business in hand. Several knotty points demanded careful if speedy decision. The chased automobile might prove to be an innocent vehicle, driven by a chauffeur above suspicion driven by a chauffeur above suspicion and if its owner appeared in the guise of some highly influential person he, the roundsman, might be called to sharp account for exceeding his duty in making an arrest, or, if he stopped short of that extreme course, in conducting an offensive inquire.

Brodie took his instructions literally, and the distance between the two cars was diminishing sensibly. It seemed, too, as though the driver of the gray car slackened pace after passing 27th street, although Fifth avenue was fairly clear of traffic, which such at it was, consisted mainly of maters going untown—that is to mainly of motors going uptown—that is to say, in the same direction as pursued and

"Unless the Hungarian assassins of New York are bang up-to-date, our car will make good in the next two blocks," said Devar, over his shoulder.

And, indeed, it almost appeared that Brodle had heard what was said. He bent forward slightly, touched a few taps with skilled fingers, squared his shoulders, and set about the race with the air of a man who thought it had lasted long enough.

Nearing 42nd street, he had reduced the gap to little more than twice the length of the car, and the three men saw the number plate clearly. Not only did the number differ, but it was of another That's a New Jersey car," announced

"That's a New Jersey car," announced the policeman.

"It may be a New Jersey number," Curtis corrected him, "but I still retain my belief that we are following the right man and the right car."

Just then no less than four cross-town cleetric cars loomed into sight, and completely blocked the avenue at its intersection with 42nd street. The gray automobile had to pull up very quickly, and Brodie was compelled to execute a neat half-turn to clear the rear wheels. In the result, both cars halted side by side, but Curtis found himself just short of a position whence he could obtain a second look tion whence he could obtain a second lool at the suspected man. t the suspected man. The policeman had bent low in his seat, lest his uniform should be seen, but he, like his companions, gave a sharp glance into the interior of the other car. It was

He was seated on the near side, however, and he noticed that the lower panel behind the door had been cleaned since the remainder of the paint-work was touched, and the step bore signs of a recent washing.

Devar lowered one of the front sashes

'Don't look round a low tone, "and don't take any notice of the chauffeur, but creep forward a foo or two, and then let him go ahead again." "Oh, I feel ready to start the night all over again."
The street cars went on, and the gray automobile darted through the first posautomobile darted through the first possible opening.

"You see, it is this way," explained the official. "I am prepared to arrest the man on Mr. Curtis's evidence, because I couldn't have better testimony than that of the chief witness. But I've been chewing on this thing for the past few minutes, and it strikes me that we gain nothing by acting in a hurry. # HUSBAND TIRED OF SEEING HER SUFFER

Procured Lydia E. Pinkham's Vegetable Compound, which made His Wife a Well Woman.

Middletown, Pa.-"I had headache, backache and such awful bearing down pains that I could not be on my feet at times and I had organic inflammation so badly that I was not able to do my work. I could not get a good meal for my husband and one child. My neighbors said they thought my suffering was terrible.

"My husband got tired of seeing me suffer and one night went to the drug store and got me a bottle of Lydia E. Pinkham's Vegetable Compound and told me I must take it. I can't tell you all I suffered and I can't tell you all that your medicine has done for me. I was greatly benefited from the first and it has made me a well woman. I can do all my housework and even helped some of my friends as well. I think it is a wonderful help to all suffering women. I have got several to take it after seeing what it has done for me."-Mrs. EMMA ESPENSHADE, 219 East Main St., Middletown, Pa.

The Pinkham record is a proud and honorable one. It is a record of constant victory over the obstinate ills of woman -ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

or collecting facts which would support the theory that he was the chauffeur con-nected with the crime. Now, if we let him go on, we shall certainly have a better hold over him. We'll find out his destination—perhaps secure a very useful address, or, with real luck, discover that he is keeping a fivure with some other he is keeping a fixture with some other individual."
"In a word, we must watch and pray," said Devar.

"In a word, we must watch and pray," said Devar.

"Well, we can wait and see, anyhow," said the practical minded McCulloch. His counsel sounded good, and the others agreed with him, thereby letting themselves and the patient Brodie in for some remarkable developments in a pursuit which began by a simple coincidence and was destined to end in a manner which none of them dreamed of.

Devar opened the window again.

"Arthur," he said, 'did you happen to notice whether or not that fellow is carrying a reflector?"

"Yes, sir. He has one. I saw him looking into it when I drew alongside."

"Ah, that puts a different complexion on the affair, as the young man said when he kissed his best girl and tasted Somebody's Beauty Powder. Don't press, Arthur. Just keep him in sight till I consult the law."

As the outcome of a hurried discussion, Brodie received a fresh mandate, During the straightaway run he was not to

During the straightaway run he was not to approach the gray car nearer than sixty yards of thereabouts—in effect, remaining yards of thereabouts—in effect, remaining within the same block if possible, but, if the gray car stopped in front of any dwelling, he was to slacken speed and pass it, taking the middle of the road, and holding himself in instant readiness to halt or turn as directed.

"By the way, how are you fixed for petrol?" added Devar.

"I filled the tanks, sir, before leaving the garage. We're good for the trip to Albany and back."

Brodle's tone was quite cheerful. He, too had been reviewing the situation, and

too, had been reviewing the situation, and the presence of a uniformed policeman had dispelled the last shred of suspicion that some stupid joke had been worked off outside the Police Headquarters when

to him as the Chief of the New York Detective Bureau.

Devar was about to congratulate the roundsman on the prospect of an all-night journey if Brodie's chance phrase were fated to come true, when he glanced at Curtis, and elected to remain silent. They were passing the Plaza Hotel, and his friend was peering up at its square white bulk. Obviously, he was striving to locate Herminone's room. [Canadian Press.] St. Pefersburg, June 25 .- The deelopment of the aerial armament of Russia is making immense progress, ccording to the chief of the army taff who today during a debate in the Duma, related some interesting details of what had been done in this direction. He said the Russian ministry of war would not rest until a flying squad had been established in every army corps. The Government, be continued, had doubled the number of dirigibles recently. It had acquired airships known as aerial Dreadnoughts which were provided with machine guns, bomb throwers and wireless telegraphy. It was true, he concluded, that the German army possessed eleven dirigibles, but only eight these came up to the standard of six Russian army dirigibles.

## Swells From Boats Delays Builders

All Steamers Will Be Notified to Go Slowly at Recor's Point.

[Special to The Advertiser.] Sarnia, June 25 .- Vessels bounds up and down the St. Clair River must check their speed when passing Recor's Point. A light station is being built there by the United States Government, and the swells from passing beats is interfering with the construction work. Passenger steamers naturally cause the most trouble, and proper notification will be given to the various boats to pass the point under check.

The gas buoy on the middle ground n St. Clair River, opposite Sarnia, which was struck and partly demolish ed by a downbound vessel, has been replaced by the United States Gov ernment tender. The Government boat torked for an hour or two this afernoon, getting the buoy in position.

# Woman Suspected of Despoiling Gardens

Police Have Received Many Com plaints From Property Owners. [Special to The Advertiser.]

Sarnia, June 25 .- Flower thieves are again busy in Sarnia, and even the gardens of the churches are not safe from their depredations. Every year about this time numerous complaints come in to the police from angry property owners whose

flower beds and bushes have been despoiled. Hanging baskets are in great favor with the depredators, and the authorities are of the opinion that one of the guilty parties at least, is a woman An effort will be made to arrest the perpetrators and secure a conviction. The authorities intend to put a stop

# WOMEN'S INSTITUTES

FLORENCE.

The annual summer meeting of the Woman's Institute, Florence, was held in the Baptist Church on Monday evening. Mrs. A. D. Adams, president of the institute, occupied the chair in her able manner, and introduced to the audience Miss Mabel Govenlock, of Seaforth, graduate of domestic ence, who gave a most interesting lecture on institute work.

During the evening the choir sang, and Miss H. Smith rendered a solo in fine style. Miss Peters was reader for the evening and delighted all, especially in her selection, "The Courtship of Widow McGee." A question drawer was also added to the evening's program, when many useful hints were given, The program was closed by a vote of thanks being tendered Miss Govenlock. The National Anthem was sung, and Rev. Mr. Black closed the

amazing quantity of peanuts, popcorn, candy and ice cream. Most of their ambitions exceeded their capacity. An interesting program was provided in the afternoon by the Adelaide Band, London Lady Harpers, the Jones children, the Mack musicians, and others. Mr. E. T. Essery, of London, was chair man in the afternoon. Many of the picnickers listened attentively to the program, and were generous in the encores. A ball game in the afternoon Greysteads and Strathroy drew as large a crowd as a league game in London. The game was fast, and, Wagstaff, Vincent Haymaker and Nelat times, exciting. Greysteads won by a score of 16 to 5, but had to use three pitchers to accomplish it. The

lineup was: Strathroy-Newton, 3b.; Hunter, s.s. Calcutt, r.f.; E. McCandless, 1b.; Collins, 2b.; Davis, l.f.; McCandless, c.;

put on by the following artists: The Forest City Male Quartette, the Jones children, London Lady Harpers, Eddie Piggott, Adelaide Brass Band, Miss McLean, Miss Myrtle MacIntosh and Miss Margaret Pringle, Sergeant Macdonald was there in full Highland costume, and the skirl of the bagpipes was heard in the afternoon and evening, and gladdened the hearts of the Scotsmen present. Eddie Piggott put on some of his famous impersonations of Harry Lauder, and had the audience in a continual roar.

## STRAWBERRIES DROPPED; TEN CENTS A BOX

Strawberries dropped from 18c to 10c a box on the market Tuesday. The reason for the sudden drop was the heavy supply brought in and the buyers being unprepared for such an occurrence.

Hay was scarce this morning at the

market was unusually small, scarcely anything being done.

# COL. HODGINS HAS HEARD NOTHING OF PERMANENT CAMP

Does Not Know of Any Move To Secure Land For the Purpose.

Says Ideal Ground Would Be Eight or Nine Miles of Rolling Country With Bush.

Col. Hodgins, D.O.C., has heard nothing of a move to secure land for a permanent camp in or about London, tached. or at Muncey, which was reported in a local paper Tuesday night.

Asked for his idea of an ideal camping grounds the colonel was retirent, but admitted that land eight or nine miles square of rolling country containing bush land, hills, a smooth plain and if possible a river running through it was necessary. He also said that plain of 1,000 acres of level ground for drilling purposes was also neces-sary. He estimated that such a camp grounds would cost in the neighbor good of \$350,000. It would also have t be contiguous to the Grand Trunk and C. P. R., not too far from a goodsized town, preferably London, with good water, and where supplies both for man and best could be secured. Lieut.-Col. Macdonell was of the same opinion, but thought that a tract of land 20 miles square would be more practical. It was suggested that a camping ground sufficiently large enough to accommodate the first and second division camps of Western Ontario, where artillery practice and practical manoeuvres o na large scale could be carried on, should be secured, but both officers were noncommittal when asked to express an opinion on the feasibility of such a thing. He admitted, however, that if he had had more signallers the work have been handled more expeditiously and that a saving of the horses would have been made. The scheme worked upon by the

mounted forces on their trek was an imaginary army having landed at Goderich was holding the position at Exeter, as headquarters of the mounted brigade of the blue force. The headquarters of the red force was at Toronto, where two divisions were situated, with a third division at London, including a mounted brigade.

The mounted brigade had orders to check the advance of the enemy until the first division at London could be reinforced by the two divisions from Toronto, and to ascertain whether the dvance of the blue party, which was then supposed to be in the vicinity of Stratford and Milverton, was upon Toronto or London.

Patrols were sent out through the country to secure information at places along the line, and this information was submitted to Lieut.-Col. Gregory. It was left to the ingenuity of the patrol leader to pick up this information and to make his own deductions from it. Monday night the First Hus gals, under the command of Lieut. Col. Hyman Hall was gaily decorated with flowers this morning, the occa-sion being the annual flower show of London Horticultural Society. There were flowers of every variety in great profusion. Many of the exhibitors have not yet brought in their prize beauties, but by this evening every-thing will be in order. One of the finest exhibits was that of Mr. Mal-colm Westland. He is showing a fine array of variegated colored such as yellow gaillards, Japanese peonies, iris, coral bells, single and louble pyrethreum, and other varieties too numerous to mention; also some of the famous Sarah Bernhardt

Mr. W. E. Sanders is showing fine buttonhole ten feet high, called ereminus robustus, which has grown ten feet in the past five weeks.

Mr. Sanders is also showing some other varieties of rare flowers, among hem being a plant called goats' beard. Mr. C. J. Fox, one of the oldest memers of the society, has a large hibit of foxglove, both English and Spanish, in many colors; fine specimens of iris, larkspur and others. Dr. E. Seaborn has many dif-ferent kinds of peonies in his exhibit and had a hard time keeping them for

Mr. W. H. F. Bartlett is superintendng the show, but is not exhibiting anything himself. He is decorating the windows with his flowers. The officers of the society are: Directors, W. W. Gammage, J. Since then the statutes had een changed, and the London board would probably go back to this method in the near future.

School Inspection.

A continuation of the discussion regarding medical inspection in public schools, which was a feature of yes-terday's meeting, occurred this morning, when the report of the committee which was appointed was brought in. It recommended that for the present the health inspector should be the appointee of the school board, but should work in conjunction with the board of health. A number of the physicians thought that the medical inspector should work entirely under the direction of the board of health. Dr. J. W. S. McCullough, of Toronto, was especially strong in supporting this view. A ten-minute discussion took place The funeral of Mrs. Rebecca Smart during which Dr. McCullough moved was held on Tuesday afternoon to an amendment that the whole ques-Services were tion be sent on to the next general amendment was carried and the question will probably occupy a large place on the program for next year.

Register Diseases. Prof. Frazer Harris, of Winnipeg, brought in the report of the committee on venereal diseases. It advocated, owing to the prevalence of these diseases, that a system of registration, such as has been adopted regarding tuberculosis, be also adopted in gard to these diseases, and that physicians be asked to report all cases coming under their notice. A brief discussion took place in regard to the advisability of this scheme, some of the physicians opposing it. Others pointed out that it was almost impossible until a few years ago to get re ports of cases of tuberculosis, while now the great majority were recorded. It was a matter of education, and the same would apply in a few years to the reporting of venereal diseases. Dr. Helen McMurchy laid stress on the importance of finding adequate means of dealing with the problem. "This is going to be the next great advance in

the science of medicine," she said. Dr. H. W. Hill read a paper giving some useful statistics regarding the observation of infectious diseases in 8,000 children, following which physicians from every province brief synopsis of the public health legislation in the various provinces. If Cross, Feverish, Bilious, Give Delicious "Syrup of Figs" to Cleanse Its Little Bowels.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's insides, the stomach, liver and of bowels are clogged up putrefying waste matter and need a gentle, thorough cleansing at once. When your child is listless, drooping,

pale, doesn't sleep soundly or eat heartily or is cross, irritable, feverish, stomach sour, breath bad; has stomach-ache, diarrhoea, sore throat, or is full of cold, give a teaspoonful of Syrup of Figs, and in a few hours all the foul, constipated waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you surely will have a well, happy and amiling child again shortly.

With Syrup of Figs you are not drugging your children; being composed entirely of luscious figs, senna to do their duty in this life, and with-and aromatics it cannot be harmful, hold nothing that is in their power to besides they dearly love its delicious aid in the building up, both morally Mothers should always keep Syrup

### Founds Chair To Study Tuberculosis

Mr. J. A. Richards Gives Ten Thousands For Fight With White Plague.

Laval University has unanimously acepted the offer of Mr. J. Auguste Richrd, president of the Fashion Craft Comany, and well known in local business circles, of \$10,000 for the establishment at the French seat of learning of a chair of phtisiotherapy. Dr. J. E. Dube, of Montreal, who for many years has been a close student of tuberculosis symptoms, has been appointed the first incumbent, and he enters upon his duties immediately. Speaking of the founding the newest chair at Laval Medicale, an important French medical publication, says:

"Thanks to Mr Richard's generosity broad-mindedness, to his wise thought and supple mind, which realized the importance and the necessity of a strong fight against the dire enemy. tuberculosis, a new start has been taken, which its rapid growth may be checked and its terrible consequences warded off from many otherwise innocent victims, who, through lack knowledge, or proper care, would be ravaged by this dread disease. The thanks of our city are, and should be, unanimously tendered to such men as this, who wisely and willingly endeavor and mentally, and physically, of those who go side by side through the battle of life with them, towards the commor goal.

"The donor in this case is known to many as a philanthropist of the highes standing, his name being connected with many charitable and beneficial organizations throughout Canada, whilst in Mont real he is best known as president o the Bruchesi Institute and governor o Notre Dame Hospital. He is known as an active, energetic co-operator, whose level-headed knowledge of business affairs renders his advice of the greatest value to his fellow-workers for the welfare of humanity.

There is no doubt that a public disensary, such as that of the Institute Bruchesi, fills a very important want, as it is there that the doctor comes in contact with the sick, teaches them and gives them intelligent and assiduous care, and draws their attention to the est means to prevent contagion and the spreading of the disease. But this was not sufficient. It was necessary to place the seal of "officialism" on the teaching 'against tuberculosis," so that it would become perpetual and give a real start to the fight which is being pursued everywhere else and which has already provoked here such beautiful devotion and such noble aspirations."
