Mrs. Fry Got a Ticket for Toronto From Inspector Sanders, Sold It and Bought the Hat.

Because she could not withstand the temptation to buy a pretty Easter Mrs. Mary Fry finds herself in jail on a charge of fraud laid against her by Inspector Sanders, of the Children's Aid Society.

When she appeared before Magistrate Love this morning she was remanded until April 9 for trial.

Mrs. Fry is the woman who for some weeks successfully sheltered Stanley Shaw, when he deserted from Wolseley Barracks. Since his capture by the police she

has been roaming the streets. On Saturday Inspector Sanders gave the woman a ticket to go to Toronto, and she promised to go right away and stay with some friends there. On her way to the station, however, Mrs. Fry happened to look in a store window, and there, trimmed with gorgeous red flowers, lay a new Easter hat, which aroused in her soul

the most intense longing.
"Oh, You Chanticleer!" "Oh, you Easter bat!" said Mrs. Fry, and immediately began to think out ways and means of procuring it.

She was brought to the station and charged with fraud, and will stand trial next Saturday.

AWKWARD BALLROOM EXPERI-ENCES.

Quite unpleasant contretemps can occur in a London ballroom, as witness the adventures of two ladies one evening not long ago. The cotillon was being danced, and in one figure the object was to jump through a paper hoop. This a well-known lady succeeded in doing, only to come violently into collision with another who was prepared to precipitate herself through the hoop from the other side. At least one black eye and other disagreeable results have followed this inopportune meeting betsween two fair, but over-hasty, leaders of fash-ion. Apparently the ballroom is becoming second only to the athletic field. It was during the season just closed that no less a personage than Mrs. George Keppel, a favorite with King Edward, came to grief in dancing the cotillon. One of the figures entire right to receive or not receive demanded that the lady jump the rope, and in essaying this return to her somewhat distant girlhood Mrs. Keppel had what was described as "a nasty fall," which laid her up for some time.—The Gentlewoman.

Had Weak Kidneys For Two Years.

Doctor Failed to Help. Doan's Kidney Pills Cured Him.

Mr. Edmund Assels, New Carlisle, Que. writes:—"I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. I was troubled with my kidneys for two years. I tried a doctor, but he failed to help me. I read in the B.B.B. Almanac about Dona's Kidney Pills, and began using them, and after the first box began to feel better. I only used four boxes and they completely cured me. I am very thankful to have found so speedy a cure, and would advise everyone suffering from kidney disease to try them."

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some kind of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backache, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposit in the urine, highly colored, scanty or cloudy urine, bladder pains, frequent or suppressed urination, burning sensation when urinating, etc.

Do not neglect any of these symptoms for, if neglected they will eventually lead to Bright's Disease, Dropey and Diabetes. Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or The T. Milburn Cos, Limited, Toronto. In ordering specify "Doan's."

It is expected that Governor Draper will indorse the proposition, and active steps will be

DIPLOMATS DECLARE CHINA IS NO LAMB

Anglo-Russian Treaty at Washington.

Washington, D. C., April 4.-Great Britain's present far eastern policy as outlined by Sir Edward Grey in his reply to Sir William Bull, remind foreign diplomats here of the fable of the wolf and the lamb. China,

they say, is the lamb.
When the question of the Chin-Chow-Fu Railway, to be owned by China, and to be an aid to her devel-opment, was put before the world by Secretary Knox, the Chinese Govern ment naturally hoped for Great Brit-Lin's support. When England saw this she placed herself in the way of bringing the proposed railway to mpletion. China naturally felt that the British diplomats would recognize the validity of 'the treaty of Portsmouth, and the principle of equal opportunity in China, and also abide by protestations of their continued pr friendship for China.

There was no doubt in the minds of diplomats that China had right on her side, and the treaty of Portsmouth shattered the British contention that the Government could not indorse the building of the railroad because of an old abrogated agreement with Russia.

Pittsburg, April 3.—Grieved and "sore at heart" because of the reflection cast upon his home city by the recent graft disclosures, Andrew Carnegie, with lips trembling from emotion, today struck out boldly against graft and grafters.

"From Los Angeles to Pittsburg I have been confronted with flaring head-lines telling of Pittsburg's graft. The question now is whether Pittsburg will come through this trial gloriously or disgracefully, and I have indulged in the hope that she will stand the test. The graft exposure is a splendid sign. HOSPITAL REFORM BY CO-OPERATION

England Accused of Resurrecting Grieves Because of the Prevalence Scheme Proposed to Alter the Priest Gives Some Good Advice Present System in Britain.

London, April 2.-It is likely that in the near future a scheme to alter the

whole of the present hospital system in this country will be definitely tackled by those best qualified to do so, and with the assistance of the Government. Sir Henry Burdett, the well-known authority on hospitals, is definitely of opinion that the problem of hospital provision for all classes-the point which is most lesirable—can only be effectively solved by the co-operation of all the authorities hospitals, dispensaries, nursing associations, poor law and other agencies which have to do with the relief and care of the sick, so as to provide a complete medical hospital and nursing service. Voluntary hospitals, he said, are most anxious to reduce their number of out patients and to prevent any abuse of both their in and out-patient departments. They cannot institute the necessary reforms because no organized system

Sir Henry went on to say that the cooperation scheme would set up a perfectly up-to-date, exhaustive and complete medical hospital and nursing service, providing for all classes. Rev. Dr. Manning at Dundas Centre Church: "The Holy Scriptures were in the world long before the time of Christ. Abraham and Moses had a revelation of God. Abraham was the friend of God.
