6 MISS MARY ANN STEWARD'S  
PREPARATORY SCHOOL,  
FOR YOUNG LADIES,

Carfrae Place, Bay-street, City of Toronto.

THE ROYAL FLOATING BATHS,  
*City of Toronto.*

THESE BATHS have been erected by Mr. Cull, of this City. They are one hundred and ten feet in length, and twenty one feet in width, and contain ten warm and ten cold Baths, with Vapour and Shower Baths. The Baths for young people are less deep than those for adults. One end is *exclusively* appropriated to Ladies, with a private entrance from a gallery outside and leading to an elegant drawing-room adjoining a promenade deck eighty feet long, with a dome roof and trellis-work guards all round. It is capable of accommodating two hundred persons, and so constructed that the additional weight of three hundred will not depress the Bath one inch. There are reading and refreshment rooms for both ladies and gentlemen, fitted up in the best possible style.

These Baths are highly creditable to the City in point of appearance, and not less so as to their utility.

THE PRINCIPAL HOTELS IN THE CITY OF  
TORONTO, ARE—

John Cotter's New British Coffee-House, corner of King and York-street, at the west end of the City.

James Hutcheson's City Hotel, Front-street.

## MERCANTILE ALMANACK.

This Almanac (or Table) will be found useful in calculating the time when notes become due. For instance—if a note is dated February 11th, at 90 days, that date, as will be seen, is the 42d day of the year, being in a line with 11 in the index, or left-hand column, to which add 93 days (which includes 3 days grace) and the table shows the 135th day of the year to be May 15th, and falling on Friday.

OF THE CHANGES OF THE MOON.

Many persons, understanding that the mean time between one new  
Moon and another is 29 days, 12 hours, 44 minutes and a fraction, ima-  
gine that, to find the full or quarters of the Moon, they have only to add  
a half or fourth part of that time; and when they do not find the changes  
marked in the Calendar to correspond with this method, they impute it  
to mistake in the calculation of those changes. It is therefore necessary  
to put them in mind, that the great inequality of the Moon's motions  
renders the above rule extremely inaccurate, so that nineteen times in  
twenty it must fail in giving the true conjunction or change.

THE FOUR QUARTERS.

Spring Quarter begins March 20, at 1h 14m morning.  
Summer Quarter begins June 22, at 4h 38m morning.  
Autumn Quarter begins Sept. 23, at 5h 7m afternoon.  
Winter Quarter begins Dec. 22, at 2h 3m afternoon.

The number of church members is sixteen thousand & forty-four.

 PRIMITIVE METHODISTS.

*Chapel situated in Bay-street, City of Toronto.*

In the year 1829, Mr William Lawson, a Primitive Methodist Local Preacher, from London, settled in York, and immediately commenced preaching in the market square, formed a Society, and wrote to the P M Conference in England, for a missionary. One was sent who arrived in August 1830, and took the society thus formed into the connexion of the said conference.

Connected with this station are 4 travelling preachers, 30 local preachers, 330 members, and 42 distinct congregations.

NOTE.—The doctrines and rules of the Primitive Methodists, for private members, are the same as the Wesleyans, from whom they differ in some points of church government, viz. their district and annual conference, being composed of two parts laymen, and one part travelling preachers; this was intended to preserve a just equipoise of power, and unite all the intelligence and experience of their society, in their church government.

Stationed preacher in the City of Toronto, Rev Wm Summersides
