THE STEVENSON BOILER, MACHINE SHOP AND FOUNDRY WORKS AT PETROLIA, ONT. (now of twenty year's standing), continues to make Marine, Stationary and Portable Boilers of all kinds. The Canadian Oil Wells and Refiners and Mills in this section are nearly entirely supplied with Boilers and other Plate Work from this shop; while for well-drilling purposes it has sent many boilers to Germany, Austria, India and Australia. It also makes Oil Stills, Tanks, Bleachers and Agitators, Salt Pans, Steam Boxes for Stave and Hoop Mills, and any desired work in Plate or Sheet Steel or Iron. as well as all productions of Machine Shops, including Steam Engines and Castings in Iron and Brass.

Having a full outfit of machinery and tools including Steam Riveter, and men of long experience, it invites comparison of the quality of its work, with any shop in Canada.

Its Circulation—extending to all parts of the Dominion renders it the best advertising medium in Canada—equal to all others combined, while its rates do not include heavy commissions.

#### COMMERCIAL SUMMARY.

-The man who gets the best results is the one who goes after them himself.

—In one year the British General Post-Office dealt with 3,047,000,000 letters.

There is an electric light for every inhabitant of the Manhattan section of New York city.

-The opening and closing of some of the gates of the Panama Canal is done by a massive arm weighing five tons.

—A lemon that is heated will remove more juice than one that is cold. When cold, place the lemon in a heated oven until it is warm through.

—Wealth is more evenly distributed in Bulgaria than in any other European State. Poverty, according to Edward Dicey, "does not exist among the Bulgarians."

—Canada's precautions since 1902 against the admission of undesirable persons has had the effect of rejecting 8.500, and, in addition, 5,626 were deported after admission. Last year the deported numbered 959, 500 being British and 256 c'tizens of the United States.

—There has been a remarkable increase of motor vehicles in France. In 1900 there were only 2,354 private automobiles in use. By 1907 the number had risen to 31,295, and the returns for 1910 gives the figures as 53,669. A great part of this total belongs to the City of Paris, where there are no less than 9,995 private automobiles, as compared with only 1,438 eleven years previously. In that city there were last year over 4,600 "auto taxis," 1,225 automobiles for hire, etc.

- -St. Boniface, Man., has voted with practical unanimity to issue \$40,000 Red River bridge construction debentures.
- -The ratepayers of Petrolea, Ont., are to vote before long on a proposal to issue 4½ per cent drainage debentures.
- -North Vancouver, B.C., has withdrawn its offer to sell an issue of \$21,000 5 per cent 50-year school debentures.
- —The Mon'teur Vinicole announces that the French crop at present shows an increase of 25 per cent over last year's vintage.
- The Montreal Light, Heat and Power Co. have, for the six months ended October 31st, showed an increase in surplus of \$171,000.
- News is given out from Washington that the 10c per 1b. tax on artificial butter is to be replaced by a 2c tax as soon as practicable.
- The thrifty railway centre of Wainwright, Alta., is to vote upon a proposition to issue \$10,000 rink, fire station and sidewalk debentures.
- No satisfactory offer was received by the town of Hanley, Sask., for its profferred issue of \$10,000 4½ per cent 20-year building debentures.
- —The \$35,000 4½ per cent 40-year coupon debentures, offered for sale recently at Lachine, by La Salle, P.Q., were not sold, we are informed.
- The Swedish Government has given a contract to the Carnegie Steel Co. for armour plates for a new battleship. The order will amount to \$400,000.
- $-\Lambda$  local financier was awarded the \$15.000 5 per cent 20-installment debentures offered by the municipality of Penetanguishene, Out., at pur and interest.
- J. S. Hamilton and Co., the well known wine firm of Brantford and Pelee Island, Ont., have bought out the Girardot Wine Co., Ltd., of Windsor, Ont.
- Canadian General Electric has declared a bonus of 1 per cent for the year ended December 31st, along with the regular squarterly dividend of  $1_{c1}^{\alpha}$  per cent.
- The German importation of iron ore in the first nine months of 1912 amounted to 9.149.017 tons, against 8.372.200 tons in the corresponding period of 1911.
- -The copper and nickel mines of Sudbury Ont., during 1911 yielded aims st \$5,000,000 and nearly \$2,000,000 w s paid in wages for that year to those employed.
- It is officially stated that the large diamond of 1,649 carats, which was discovered at the foot of the Premier Mine, South Africa, is of inferior quality, and its value is speculative.
- -Nore English capital is likely to be expended in Northern Ontario through the purchase by W. F. Campbell, of London, of several properties in the recently opened portion of Gillies Limits.
- The Iron Age, in its weekly review of the steel and, iron trade, reported new orders still coming in faster than older orders can be filled and the Steel Trust operating 96 per cent of its mill capacity.

- —According to latest estimates, the world's gold production in 1912 will reach approximately 23,500,000 fine ounces, the value of which would be \$485,000.000, against 22,650,000 ounces in 1911, valued at \$467.600,000.
- -Austria has let Russia and Italy know that she has no intention of forcing a customs union on Servia in her own trade interests, and hopes to dispose of their opposition to her plans in that manner.
- The Agent-General for Victoria, Australia, has received a cable from his Government advising him that the yield of gold in the State for the last ten months amounted to 416-100 ounces, of the value of £1.643.400.
- The New Haven R.R. struck a bad time for floating their new issue of \$60,000,000, which will cost the company 61% per cent. The G.T.R. could hardly be blamed for holding back from such extravagant financing.
- Next month the ratepayers of Kildonan. Man., will vote upon the question of issuing \$126,000 school debentures.

  —Calgary, Alta., has not yet decided upon the date of issue of the \$378,000 water debentures voted recently.
- A new hotel company with a capital of \$900,000 divided into 9,000 shares of which half shall be preference stock, has been organized in Hamilton, Out., and given a charter under the name. "The Hamilton Hotel Company, Limited."
- It is said that O. G. Laberce has sold his control of the Alaska Northern Railway for \$1,250,000, to a Canadian syndicate. Mr. Laberce has resigned his position as President, being succeeded by A. H. Wheatley, of Spokane, Wash.
- The board of the Suez Canal Company have fixed—the coupons falling due on January 1st as follows: Capital shares gross 75f, net 67.942f; actions de Jouissance, gross 62.50f net 56.514f; Founders' shares, gross 35.211f, net 32.206f.
- —In Paris it is r ported that the £1.600.000 payable by Italy to the Turkish Government will have to be used for mortgaging that port of the public debt for which, thus far, we Tripolitanian district revenue had served as security.
- -According to information cabled by the Federated Malay States Government, the exports of tin from the Federated Malay States for October amounted to 3,906 tons, as compared with 1,093 tons for the corresponding month last year.
- October emigration from the United Kingdom totalled 40.329, of whom 26.519 went to other parts of the Empire. Canada received 12.361. Australia 9.229, and the United States 11.694. England sent 28.000. Wales 878. Scotland 5.416, and Ireland 5.359.
- The foreign commerce of the United States made a new bigh record in October, both as to imports and exports. Imports last month were \$177.995.830 against \$122.605.731 in the same month last year, and \$162.571.159 in the former high record month of imports. April, 1912.
- It is declared in Vienna that the Rothschild group has now agreed to undertake a Hungarian  $4\frac{1}{2}$  per cent loan of about 70.000,000 kronen, and the issue by the Ministry of Finance in dre consideration of future money developments, will be made in different parts corresponding to requirements.
- A courteons and shoughful correspondent calls our attention to the fact that an item in last week's number of the "Journal of Commerce" should have read: "United States track spike manufacturers have advanced their price \$2.00 per ton. to \$1.90 per 100 lbs." The Canadian price is \$2.60 per 100 lbs.

—The Dominion Bank has declared a bonus of 2 per cent. in addition to the regular quarterly dividend of 3 per cent, payable January 2nd to shareholders of record December 20th. Bonuses are now the fashion with our banks, Montreal, Commerce, and Toronto had previously distributed profits by this method.

—A recent gas discovery in Haldimand County, Ontario, has led to marked activity in drilling in the neighbourhood. The well is giving 1.500,000 feet of gas per day from a depth of about 900 feet—a large yield for this part of Canada. Six companies are already in the field, and have secured among them over 15.000 acres.

—It is stated that under the receiver the Allis-Chalmers Company of the U.S. carned a small balance of \$30,000 above operating costs and maintenance charges in October. In September the company croke about even. In August it showed a profit of \$48,471, and \$66,984 in July. For the first six months of 1912 there was a deficit of about \$66,600.

The Canadian Light and Power Company expect to have all the water required in the near future at their plant at St. Timothy. Mr. E. A. Robert announces that the Beauharnois Canal cut from St. Timothy to Valleyfield will be completed to a depth of 25 feet by the time the hard weather sets in, and that no further trouble was anticipated in the full water supply.

—After being held up for nearly three years by the town of Pembroke, the engineers of the Canadian Northern Railway have received permission to locate the last link of the Montreal-Port Arthur line. Lines will be built through sections of the province five miles on east side of the town of Pembroke, and plans are now being drawn for the approval of the Railway Commission.

—An extra dividend of  $2\frac{1}{2}$  per cent has been declared by the Sherwin Williams Co., of Cleyeland, U.S., on the \$5.930, 900 common stock in addition to the regular quarterly  $2\frac{1}{2}$  per cent dividend, both payable forthwith, making a total of  $12\frac{1}{2}$  per cent for the year. In 1911, in addition to the regular 10 per cent payments, 33 1-3 per cent was disbursed (in Nov.) in common stock.

The Bank of England's last weekly report shows that the ratio of reserve to liabilities was 50.67, as compared with a ten-year average of 46.87 for corresponding weeks, the ratio raising above 50 per cent for the first time since wegust. Gold holdings increased \$4.000.000 and reserve \$4.300.000, and the supply of gold in the bank is now as large as at about any time in the past.

A cable from Johannesburg advises that the total gold output of the mines of the Transvaal for October amounted to 738,082 ourses for the Witwatersrand district, value 63,125,172; 20,509 ourses for the outside districts, value 6129,978; total, 768,681 ourses of fine gold, value 63,265,150 being an increase of 20,788 ourses in weight and 688,304 in value, as connered with Sentember.

Pond houses, it is said. and it practically impossible to sell bards at the present time, although one or two issues have zone particularly well during the past couple of weeks. The head of a local bond house remarked that several of the life insurance commanies, who are usually very large buyers of bands, are alsolutely out of the market at the present time, as they are placing their funds either out on call loans or investing them in western mortgages.

- The Grand Trunk Pacific Branch Lines Co. has filed a new first mortgage to the National Trust Co.. Ltd., as trustice, securing an issue of £238,600 4 per cent first mortgage (Alberta Fues) sterling goods, dated July 31, 1912, and due February 15, 1942; guaranteed principal and interest by the Province of Alberta... This is a securate issue on the Alberta Ceal branch, 58 miles, at \$20,000 per mile.

-Bank clearings last week again make favourable comparison with both preceding years, the total at all leading cities in the United States, as compiled for Dun's Review, aggregating \$3,259,091 435, an increase of 15.0 per cent compared with the same week last year and of 37.0 per cent compared with the corresponding week in 1910, the latter gain in part, however, being due to the fact that the week two years ago contained one less business day.

—It has recently been pointed out that whereas the consumption of Californian of swell over 200,000 barrels a day, and constantly growing, the surplus production beyond that consumption is a small one. This goes into storage, and is added to the large accumulation of oil above ground, which amounts to 45,000,000 or 50,000,000 barrels, but taking the production of the entire State of California at 80,000,000 barrels (last year it was 81,000,000), the oil in storage is not much more than half a year's production.

The appointment of Mr. Norman J. Dawes to succeed Mr. E. C. Fratt as managing director of the National Brew eries. Ltd., marks the rise to an important position of another younger member of a prominent Montreal family. Mr. Dawes is a son of the late Mr. James P. Dawes, and represents the fourth generation of this family in the brewing business. Mr. Dawes takes the position vacated by Mr. E. C. Fratt, who is returning to the staff of the Molsons Bank. The new managing director is identified with several important lusiness enterprises as a member of the various directorates. Before his clevation to his present position. Mr. Dawes was manager of the brewery business so well known under his own family name.

The interest and dividend disbursements in Canada w'll be fairly large next month. Some of the more important disbursements are as follows: Banks: Commerce. 2½ and 1 per cent dividend and bonus for the quarter: Hamilton. 2¾ per cent: Hochelaga. 2¼ per cent: Home. 1¾ per cent; Merchants, 2½ per cent: Montreal, 2½ per cent. and 1 per cent dividend and bonus: Northern Crown. 3 per cent for half year; Ottawa, 3 per cent for quarter: Quebec, 1¾ per cent for quarter; Poyal, 3 per cent for quarter; Toronto, 2¾ and 1 per cent dividend and bonus for quarter; Union. 2 per cent for quarter.—Miscellaneous: Detroit United Railway, 1¼ per cent for quarter: Canada Car and Foundry. 2 per cent for Smart Bag Co., 1— per cent on common and preferred for cmat Bag Co., 1¾ per cent on common and preferred for quarter.

THE CANADIAN JOURNAL OF COMMERCE.

MONTREAL, FRIDAY, NOVEMBER 29, 1912.

#### THE OCTOBER BANK STATEMENT.

We have been looking forward to the October Bank Statement as likely to furnish the highest figures for the current year, and the result is about as expected, reflecting the crop movement and the course of trade. The small increase in Paid-up Capital and Reserve Funds needs no special notice. Circulation, which is usually at its highest point in October, shows an increase of \$6.326,000, eleven banks having taken advantage of the emergency circulation privileges as against 17 last year. The available Paid-up Capital and Circulation are now about on a parity, but it is interesting to notice that the Government announce an issue of the new \$5 bills of over \$10,000,000, which is an evidence that some banks have used Dominion notes instead of their own. Demand Deposits are \$9,446,000 higher than last month, while those payable after notice show no increase, as has been the case for a few months past. The large amount of securities offered, coupled with investments in real estate,

probably account in some measure for this. The next few items on the list show some drawing in of available resources, and when we come to the call loans, this is still more emphasized, as those in Canada are lower by \$1,246,000, and those abroad lower by \$11,-580,000, and this, notwithstanding the strong demand for money in this market, where 7 per cent was offered for new loans, and in New York, where, at last advices, as high as 12 per cent has been paid. far as this market is concerned, the reason for this is evidenced by the large increase in Discounts, which are \$20,335,000 higher than in September, the total being now \$879,000,000. The increase is fairly general among the banks, with one or two exceptions. When we compare the totals of discounts and deposits with those of 1911, we find, in each case, an increase of over \$100,000,000, a quite remarkable evidence of growth of business. An increase of \$633,000 in Overdue Debts, probably a mere temporary hanging up of payments, completes the changes of figures to be noticed. Going behind the mere figures, it is appropriate, at this period, to consider what these figures indicate, coming, as they do, when the requirements for harvest moving are at their maximum. We have the detailed reports of the Ontario crops, while those from the Western Provinces are not yet complete. It is gratifying to note, after the period of wet and

## Metropolitan Life Insurance

ce for \$27,189,000 It has deposited with the Dominion

There are over 446,000 Canadians insured in the **METROPOLITAN**.

stormy weather since the spring, that the Ontario crops, except those of Fall sown grains, are reported as being above the average. It is more or less customary merely to compare the wheat areas and crops of Ontario with those of Manitoba and Saskatchewan without taking into consideration the large crops of oats, barley, corn, hay and, especially fruit, grown in the older Province, which represent a large proportion of its solid wealth, and are the foundation of much good business. The proposed or suggested additions to the Bank Act, include giving the banks greater facilities for acquiring rights over crops still in farmers' hands, which may be of great use, but which may possibly not mean to the farmers all that they expect. However, time will show what the results of experience will be. By the end of the current month the detailed balance sheets and reports of more of the banks than the Bank of Montreal will have appeared, so that it will be convenient to review them, as a whole, later on. We may be sure, in the meantime, that the profit results will be fairly satisfactory to shareholders.

We subjoin the usual comparative table; the statement of each Bank respectively and comparatively will be found on subsequent pages of this number:—

#### CITY NOISES.

It appears to be impossible for our city fathers to rise above the level of village councillors. The big factory whistle which notifies the villagers of the beginning, middle and ending of the working day, as well as of the outbreak of fire, or the birthday or death of local magnates, is still permitted to reverberate through the miles of our densely populated streets. That it has multiplied itself a few hundred times, and that clocks and watches are in common use, suggests nothing to our Aldermen. Much of the business done, which supports the city depends upon the condition of the nerves of our business men. Brain, nerve, and heart troubles are caused directly by noise and startling disturbances, to the confusion of trade. The money loss caused by street noises, automobile and street car traffic is beyond practical estimation, while the actual loss of life, in the case of invalids or nervously constituted people, is certainly enormous.

We would suggest that one of our Controllers might make a specialty of this subject. Evidently the water service, and the care of streets is beyond their capacity, but one of them might be able to grapple with so simple, and yet not unimportant, a matter as that of street noise, and provide remedies against it The abominable cracklings and roaring of automobiles on the hills, often accompanied with loathsome odours, should be stopped at all hazards. Luxury and indolence should be prevented from degrading and befouling the city. We notice that the principle of the Maxim gun silencer is being applied to motor boats, where its good offices are greatly needed. It can certainly be applied also to motor venicles, and its use should forthwith be insisted upon. Street pavements already suffer too much from the traffic of these heavy machines, for which the rest of us have to pay.

We have some right on our side, in insisting that the machines in so many ways trying to ordinary nerves, be made as unobjectionable as possible. The Maxims are said to be at work on a silencer for noisy street cars. If they can stop the grating of flanges on curves they will well deserve the thanks of outraged humanity. Probably Montreal will be, as usual, among the last of the cities of the universe to benefit by these humane devices, unless some pressure is brought to bear upon our well-fed governors. Noise is one of the chief of the nuiances of life, and it is time that there was a general rebellion against that greater part of it, which is totally unnecessary.

#### SIR EDWARD CLOUSTON, BART.

This has been a peculiarly fatal year among our leading men of affairs. Few, if any, banks, or other directorates, will complete the annual term without being compelled to fill gaps caused by the sickle of the grim reaper. In many instances, the summons has reached men in the sudden form, probably most merciful to them, but certainly most appalling to their associates and relatives.

Those who best knew how strenuous his life had ever been, and the real condition of his health, affected no surprise at the terrible suddenness with which death snatched away Sir Edward Clouston, Bart., ex-General Manager of the Bank of Montreal. The ordinary people, who saw only the stalwart form, and upright carriage of the well known banker, could not believe that the seizure which came to him in a downtown business office about noon last Saturday, was likely to have any serious termination. However, so it was, that just before three o'clock the same afternoon at the Royal Victoria Hospital, which commemorates the loyal generosity of his old patron and friend. Lord Strathcona, and of which he was himself one of the governors, he slipped away into the unknown

The sad event marked the closing of an epoch in the story of the Bank of Montreal, even though he had some months ago severed his official connection with it. Financial men had not had time to become accustomed to considering Sir Edward as disconnected with the big institution which received him as a junior clerk in 1865, and employed his undoubtedly fine talents practically throughout his whole life. Nor had the impress of his personality faded from the active business of the bank. His assistants still direct affairs. The Dominion and Provincial and civic business he had especially interested himself in procuring or retaining for the Premier Bank of the country, is yet transacted there. The widespread

international transactions which his genius had won over for it. still carries the name of the Bank of Montreal high among the great fiduciary institutions of the world. Its enlarged capital, its fine earnings last year, its standing in London and elsewhere, as managing the underwriting of large loans, all speak of his ability. His handsome and virile countenance was familiar to millions from its appearance upon the paper currency of the Bank.

Only a few days before, he had been replaced, owing to his resignation, as President of the Canadian Bankers' Association. In that capacity he had probably done his last important work for Canadian banking, in connection with the revison of the Bank Act, of which generally belauded bit of legislation he is believed to have been to some extent the originator. He had shown the way to a wider application of bank funds, through his connection with the Royal Trust, the Royal Securities Corporation, and other cognate incorporations. Naturally, his name was sought for upon directorates, but was always carefully associated with well founded concerns.

Probably he came by his native caution, as he certainly derived his reserved, but real geniality, from his Scotch ancestory, his father, Mr. James Clouston, having occupied the position of factor at Moose Fort, one of the Hudsons Bay Company posts on James' Bay, when Sir Edward first saw the light.

Though the funeral was private, on Monday last, a highly distinguished body of representative business and social leaders were in attendance, their presence serving to illustrate the public sense of the grave loss the financial and commercial world had sustained, in the removal of one of the foremost banking authoraties in the whole Dominion.

To Lady Clouston and her only surviving daughter the heartfelt sympathy of a large community will go out, with which we, who have so often had occasion to refer to Sir Edward's activities, desire sincerely to associate ourselves.

#### NATIONAL INSURANCE FOR WORKMEN.

Naturally, life insurance underwriters are deeply interested in the actual working of the British Workmen's Compensation Act. How thoroughly these professionals figure the matter out is well shown in a prize essay which has appeared in some of the insurance papers, by Herbert Rowntree, of the Alliance Assurance Co.. of London, Eng. As everyone who knows the lower class workingman—often of foreign origin—of England expected would be the case, the essayist found himself at the very outset confronted with circumstantial evidence of malingering.

He found, for instance, that the amount of compensation paid in these cases was just short of £2.275,000. But the home office statistics apply only to the industrics named, and do not include such others as agriculture, the building trade, shop keepers, etc. The total number of industrial workers in the country is estimated at about 15,000,000, so that the actual number of persons benefitting by the Workmen's Compensation Act in the year 1909 would probably be more than 700,000, and the amount of compensation

received by them over £4,500,000 (\$22,500,000!). These figures are mentioned in order that we may realize the extent to which the working class population benefits by the Act. They show that approximately one in every eighteen persons within the definition of "workman," according to the act, received compensation in the year, the average amount received being £5 6s. How the actual defects of the Llovd-George Act declare themselves in this regard he details as follows:-

"In the first place, we all realize the unsatisfactory nature of the regulation as regards the time from which compensation under the act is payable, under which a disabled workman who has been earning, say, 30s per week, can claim that amount (30s.) if his disablement continues for fourteen days, but only 12s 11d if his incapacity is at an end by the thirteenth day. We cannot blame a man, with perhaps a wife and several children, who may be owing his rent and club money for a week or two, for spinning out the period of disability. This part of the law constitutes an unrecessary temptation to malinger placed in the way of workmen, and, although this alone may appear a trivial matter, it is only reasonable to suppose that the man who has found it to his advantage to malinger for a couple of days in one case (and possibly has found that he is almost expected to do so) is just the man who at another time will malinger for a few weeks or months, if possible, when perhaps his compensation and club money make him about as well off as if he were at work."

"Another part of the law which is having a serious effect upon the employes affected thereby is that providing for the payment to minors earning 10s per week or less of compensation equivalent to the full amount of their weekly wage. Young people having no one but themselves to think about are, as a rule, more difficult to deal with than are adult persons having dependents to consider, and, perhaps, have a more indistinct appreciation of right and wrong. To place such young people in the position of being as well off (regardless of clubs) away from work as when at work is a very serious thing. One may admit the equity of the general provisions of the workmen's compensation act. 1906, as regards minors, e.g., section 16 of the first schedule providing for the revision of the weekly payment in permanent disability cases; but it is surely a mistake, socially and economically, for young lads and girls unaccustomed to sober thought to be placed in the position of being as well off idling or playing as if at work. Child labour is undoubtedly underpaid. It is not, however, the amount of compensation received by injured minors with which we are concerned, but the ratio which the amount of compensation bears to the ordinary wages. The former should be less than the latter, even if by only 25 per cent or less. To adopt this proportion would, in the writer's opinion, be a reasonable compromise between the present conditions and those under the 1897 act.

The natural development of the Compensation Act will be to lend the workmen away from the insurance ideal altogether. It will certainly lead to their being considered portions of the industrial plants, as are

the lates, punches, cupolas, reaping machines, or coffee grinders. They will have to be kept in order, or repaired when damaged, as are other portions of the plant. And they will have to face the probabilities of the scrap heap, as do the other machines when their usefulness has departed. Every trade will have to carry all its own burdens. The legislation has still to be invented, however, which can compel an employer to retain in his service any human portion of the plant it has no use for, or any objection against. The Old-Age Pension scheme, and a Disabilities Act are natural corollaries to the Compensation Act. In chort, complete Parentalism, a nationalizing of all industries, would appear to be indicated. The socialists have got "the camel's nose" safely into the tent, and "the whole animal" appears to be likely to follow.

It is direct opposition to insurance on its co-operative foundation. The old ideas of paying a man suffiesent wages to enable him to preserve his individuality and his humanity, by providing for himself against sickness or death has become unpopular. The mod. ern socialist aims at securing an annual wage, work or no work, with the State taking care of the workers in sickness or infirmity. What the end of it all is to be does not appear as yet. Certainly protection of industries by the State against inroads from other nations would appear to be a necessary part of the big scheme. Independent manliness is evidently not to be considered a valuable asset.

Our essayist figures it out that the Compensation Act. adds, at the outside only 1 1-2d (3 cents) to the price of a ton of coal in Great Britain. This addition to other charges added to manufacturing production by the Act, will certainly cut into percentage profits pretty heavily, in the case of a nominally free trade country. There must be added also the cost of the "blanket" or other insurance provided against Compensation, Old-Age or Disabilities by manufacturers. Insurance men have not suffered, we believe so far, from the operations of the new legislation. The principle of insurance is in fact fundamentalhowever its application may vary. But the profession works out to best advantage when it assists humanity to a higher independence rather than when it degrades him to the level of a bit of machinery.

#### U.S. TARIFF REVISION.

"I shall call Congress together in extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the Party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as pos-

With this proclamation. President-Elect Wilson "throws the fat into the fire," before starting for a holiday trip to Bermuda. The industries of the United States probably need nothing less than this. After their long period of depression, a bountiful barvest, and a native rebound have brought prosperity along once more. Uncertainty about the future of

the Customs protection they have grown up under, is just what is not needed, during the coming six months' productive period. To us who remember the annual recovery of business when Congress adjourned, and there was no more danger of tariff tinkering for the year, the premature entry of the newly-elected President into the actual trade politics of the country appears to be somewhat ominious. Evidently the defeated party will have "to take its medicine." Majority rule as known across the border believes in "Root and Branch" Acts. A large number of the people of the United States will as usual have neither representation nor consideration at Washington. The operations of the restless and eternally ambitious Col. Roosevelt have factitiously opened the way for the Democratic assumption of authority, and the country must take the consequences.

Aside from its previously unsettling effects, no one can divine precisely what the results of a partially free trade tariff will be. In Canada we shall probably have to be on our guard against the automatically reciprocal feature of our customs arrangements. We cannot afford to sacrifice our wool and cotton industries, because our neighbours have built plants beyoud their present needs, for instance. A few faddists, or opportunists among us, must not be allowed to obscure the fact, that in actual industrial development, Canada still requires the absolute protection, under which the present conditions of trade in the States have been brought about. We are in our infancy, with our present puny population, as compared with the United States. In our staple industries the production of food, steel, wool, cotton, liquors, and pottery, we must not permit ourselves to be sacrificed to the exigencies of our neighbours. Our indebtedness to the Motherland, for one thing, makes it to be practically essential that our commodity exchange should be as largely as possible with that country.

The Dominion has gone on record, as splendidly opposed to anything like reciprocal trade with the United States. Until it as deliberately reverses this opinion, we have a right to expect that whatever tariff changes the Democrats may think it to their advantage to make in their own tariff, there shall be no corresponding change made on our side of the boundary.

#### BI-METALLIC SYSTEM IN FRANCE.

On this side of the water, it sounded curiously to ears unaccustomed to dictation in such matters, that the French Government had ordered railway and other semi-official employees to be paid in notes or silver, instead of gold. In that country, however, the administration from assuming domination over foreign loans, has gone on to the exercise of parentalism over all banking and financial matters. Possibly in the final analysis, this generally really implies nothing more than that the big bankers are able to avail themselves, official sanction in carrying out their designs. But, in the present state of international affairs, the country itself, and its neighbours also, will recognize the determination of the national executive and the financiers to keep the supply of gold where it can easi-

ly become by in case peace should be ruptured. As a matter of prudence, such a course will, no doubt, be popular. The drop in securities quotations also exhibits the need of the steadying power of really available gold. Years of experience has shown how useful to British commerce and finance, has been the automatic control of gold by the Bank of England.

Our advices from Paris show that it has been apparent for some time that gold is becoming scarce in Paris as it did last year during the Morocco crisis. Debtors, whenever possible, seek to discharge their debts in 5-franc pieces, while cashiers at the banks refuse to pay gold intead of silver over the counter exsept in return for a kind of premium or commission, amounting to nearly 6 francs per 1,000 francs. The inconvenience which attaches to this bi-metallic system has recently been insisted on by M. Yves Guyot. In consequence of this more or less secret commission, he points out, there are, in practice, two rates of discount-the official rate, which is factitious, and the real rate, which includes the premium on gold. He adds that, although the Bank of England, owing to its legal position, is obliged to change its rate more often than the Bank of France, and to raise it to a higher level than is perhaps strictly necessary, yet there is certainty that payment will be made in gold. is a great advantage. M. Guyot also considers that while a sound banking system economizes gold, at the same time enormous gold reserves, such as exist in the Bank of France are no security against the dangers and the losses of a bad banking system, since these big gold reserves cannot immediately enter into circulation, and are, therefore, dead weight. important thing is not to conserve or hoard gold, but to be able to get it when it is needed. In other words, it is not the amount of previous metal owned in the country, but that which is in circulation, which enriches a people. At the same time, the active circulation must not absorb all the metal. There must be reserves large enough to meet extraordinary needs, upon which it will be possible to depend in emergencies. It is a vicious sort of a system which balances one currency metal against another, and conveys the bad impression to foreigners, that the country imposing a premium on gold, for instance, has sold itself out of its proper supply of that metal. Either that, or an actual war measure has declared itself to be necessary.

#### THE PROVINCIAL BUDGET.

The Hon. P. S. G. Mackenzie, Treasurer of the Province of Quebec, has the unusual faculty of making financial statements clear enough to be understood by the ordinary man in the street. There is no reason why others in similar positions should not do the same, but it is a fact that they do not as a general rule. Perhaps, however, the cause for this is the excellent report the Treasurer has always had to make, which affords no necessity for anything but its simplest presentation, to win for it praise.

In order to get the position of the Province upon record in our pages we quote Mr. Mackenzie on the operations for the year ending June 30 as follows:—

"Ordinary receipts, \$8.070,109; ordinary expenditure \$7,022,796 surplus, \$1,047,312. From this amount should be deducted, however, the extraordinary expenditure for the year, paid out of revenue, amounting to \$363,883, making a surplus of ordinary receipts over ordinary and extraordinary expenditure of \$683,428. The actual ordinary receipts exceeded the estimated ordinary receipts by \$1,597,457, and the actual ordinary and extraordinary expenditures exceeded the estimate by \$1,078,255! As would be seen, the actual ordinary receipts had exceeded the estimates by \$1,-597,457. With the exception of certain minor services, three in number, in which there was a total under-estimate of \$7,899, every other service of the revenue yielded a return in many cases considerably in contributed to this large excess of revenue over the estimates were:-Dominion of Canada; subsidy on population, \$285,125; lands and forests, \$248,457; law stamps, \$22,405; registration stamps (including fees of salaried registrars), \$81.803; taxes on commercial corporations, \$116,542; duties on successions, \$586,678; licenses, \$43,737; motor vehicle law, \$39,-026; casual revenue. \$54,016.

In keeping with the increase in the estimated receipts, there had also been an increase of estimated expenditure to the extent of \$1.078,255, made up as follows:-Legislation. \$115,231; .civil government, \$60.321: administration of justice, \$104,098; public instruction, \$111,282; colonization and immigration, \$60,322; -public works (extraordinary), \$25,833; labour, \$19.045; agriculture, \$346,114; lands and forests, \$69,985; charges on revenue, \$45,170; miscellaneous services, \$88,243. These increases had been necessitated by the expenses of the general election, increases in salaries, extra compensation to jurors under the legislation of last session, schools for poor municipalities, special grants for new academies for boys, French-speaking congress, technical schools, employment bureaus, toll-bridges and toll-gates, organization of forestry service, extra surveys, commission for the consolidation of the general statutes, running waters commission, aid to sufferers by Chicoutimi fire, and in rebuilding public edifices destroyed in Farnham fire, etc.

Respecting the cash operations of the Government in 1911-12, the treasurer stated that on 1st July, 1911, the province had to its credit in various banks a sum of \$2,532,186, against which the outstanding warrants at the same date amounted to \$260.809. which left the real balance on hand at that date \$2,-271.376. The total receipts from all sources during 1911-12. including ordinary revenue, trust deposits, Dominion of Canada (Lower Canada Superior Education Fund and refund of subsidy to Quebec Bridge Company), etc., aggregated \$8,797,337, while the total payments amounted to \$8,503,497, making the excess of receipts over payments \$293,840. The cash on hand at 30th June, 1912, was \$3,000,619, against which the outstanding warrants at the same date amounted to \$436,402, leaving a real balance of \$2,565, 216."

"On the 30th June, 1911, the funded debt outstanding was \$25.545.992. On the 30th June, 1912, the

funded debt outstanding was \$25,341,157. tion of funded debt during the year 1911-12 was \$204,-834, accounted for as follows: Bonds of loan of 1880 redeemed, \$122,834; bonds of loan of 1882 redeemed, \$82,000, making a total of \$204,834. The funded debt at 30th June, 1912, consisting of the bonds and stock outstanding of the various loans of the province was \$25,341,157, against which the sinking fund invested amounted to \$1,171,376, leaving a balance of funded debt unprovided for of \$24,169,781. balance of funded debt unprovided for at 30th June, 1912, showed a decrease from the balance of funded debt unprovided for at 30th June, 1911, of \$239,573. This decrease was caused by the redemption of \$122,-834 of the loan of 1880, \$82,000 of the loan of 1882, and the purchase of \$34,738 of 3 per cent inscribed stock on account of sinking fund."

It has created an excellent impression abroad that the Province of Quebec is able out of ordinary revenue to pay up its funded debts, as no other province of Canada has done. While not large, the payment made in the last fiscal year was significant of a desire to walk economically, which we may hope will long be continued by Provincial Governments. There is really no excuse for running behind with a debt of over twenty-four millions already overhanging, and no great development of new resources expected from the authorities.

Mr. Mackenzie appears to have found a real grievance concerning which he quoted the words of a high financial authority in Great Britain:—"It is regretable that our provincial stocks are not trustee securities; if they were it would at once make a difference of several points in their price. Even as it is, Ontario and Quebec stocks are on the same par with Newfoundland, although the last mentioned is on the Trustee List."

We should have been glad to welcome signs of relieving the burdens under which Montreal business men suffer at present, notably the stamp nuisance, corporation taxes and death duties, but the Government is evidently inclined to regard past prosperity as an invitation to make enlarged expenditures. So long as the present happy state of affairs prevails in the business world, there will probably be no complaints but for how long will these conditions endure no one can blame the present Treasurer for not swaying the whole Cabinet. His part is always well done, and we believe his sympathies are with Montreal in these matters, and that we owe many things to his good offices. His last Budget was a credit to him, and we congratulate him heartily upon it, and upon his position in the present. in many respects, admirable Cabinet of Provincial Ministers.

New Zealand is selling more and more butter to Canada according to the weekly report of the Trade Commerce Department, and in return is ordering increased quantities of Canadian apples. Space has been reserved on steamships for upwards of 125,000 boxes of butter for this season. The Trade Commissioner states that he is constantly in receipt of communications from places as far east as Toronto, asking for the names of butter shippers. A recent consignment of Canadian apples proved very satisfactory, being described as the best received this season from anywhere. Additional orders have been cabled to Canada.

# FINANCIAL QUESTIONS IN THE BALKAN WAR SETTLEMENT.

The probability of the partition of European Turkey as a result of the successes of the Balkan Allies raises several important financial questions quite apart from the political problems that will have to be faced.

The Turkish debt at the end of 1911 amounted to over £115 000,000. The bulk of this, says advices from London, is represented in bonds held by English. French and German investors. The chief factor in the question problem is the nature of the security pledged by Turkey for the service of the debt. In the case of the Imperial Ottoman 4 per cent loan of 1890, for example, the service of the loan was secured on the tithes on grain in the districts of Broussa, Karashissar, Karassi, Kir-Chehir, Caesaria and Yozgat. Certain supplementary payments from the customs were also allocated.

In several other cases the service of loans is secured on the tribute payable by Egypt to the Sultan of Turkey. In another instance, the 5 per cent 1896 loan, the service of the loan is secured by the assignments of annual sums out of the sheep tax of the vilayets of Aidin, Hudavendighiar and Salonica and out of the tithes on valonia opium and olive oil in certain other districts. To take one more example out of many that can be given, the service of the 4 per cent loan of 1908 is partly secured on an annual payment from the general revenues of the customs and indirect taxes payable (a) by the general customs administration of Constantinople and (b) out of the customs receipts of Smyrna, Salonica. Beyrout, Adrianople and Broussa.

The probability is now becoming obvious that the security offered by Turkey for the service of many of the loans will no longer be under the control of Turkey. Strictly speak ing, the security has been for many years under the administration of an international board of control known as the Administration of the Ottoman Public Debt, but Turkey has always been the sovereign power. The problem that arises is: If European Turkey is to be divided among the Balkan States by right of conquest, will those States be prepared to become responsible for the Ottoman public debt so far as it is secured upon the revenues of European Turkey? Obviously it will be the duty of the governments of England, France. Germany and the other countries interested to safeguard the rights of the investing public; and terms of peace cannot be finally agreed upon until this problem has been solved satisfactorily for all parties.

#### TIMBER EXPORTS.

Importations of Canadian timber to London, England, up to October 31 were as follows:

#### From St. Lawrence Ports.

	1912.	1911.
	Pieces.	Pieces.
Pine deals	457,000	397,000
Spruce	685,000	693,000
Birch planks	296,000	266.000

#### From New Brunswick, etc., Ports

Pine deals	50,000	46,000
Spruce	355,000	397,000
Birch planks	334,000	223.000

A blue book tabled in the Commons Tuesday giving a list of unclaimed balances in Canadian banks, shows that some thousands of depositors throughout Canada have for some reason or another left with the banks a total of \$676, 147, to which no one has laid claim to for years.

#### BUSINESS DIFFICULTIES.

Our list of failures is again longer than we have been accustomed to of late, though happily the liabilities are not very serious. A large retail firm in this city which was in difficulties last week found temporary relief which may tide it over the hard money season. The end of the difficult season for obtaining accommodation is not yet in sight, but every effort is being made to abridge it. Naturally, wholesalers are anxious to dispose of old accounts before shipping for the coming season begins, and this is rather complicating matters. Last week's failures numbered 32, of which 12 were for amounts exceeding \$5.000. The same week last year the number was also 32 with 10 for more than \$5,000.

In Ontario the following have assigned:—Alexander and Co., tailors, Brantford; J. T. Holmes, merchant, Kinloss; Jas. Laughton, flour and feed, Port Arthur; Paul Bennevitz, manufacturer, Stratford; Walter Gwynne, contractor, Toronto; A. Pellerin, confectioner, etc., Ottawa; John Cuthbertson, restaurant, Toronto.

N. C. Sparks Co., brokers, Ottawa, are winding-up business

Vandeleur and Nichols, electrical supplies, Toronto, have applied for a winding-up order.

In Quebec, the following have also assigned:—Hermel Perron, general store, Baie St. Paul and St. Irene; H. E. Parent and Co., sawmill, etc., Picardie; J. A. Goulet, general store, St. David d'Yamaska; Moses Herschenbein, clothing, etc., St. Johns; Miss May Gadbois, millinery, Hull; C. A. Boisjoli and Co., dry goods, Joliette; Henri Dufresne, grocer, Montreal; J. B. St. Pierre, shoes, Montreal; Joseph Gouge, joiner, Quebec; C. Roberge and Son, general store, Scotstown; J. B. Danjou, grocer, etc., St. Luce Station (judicial); Payette and Lussier, general store, Hudson; Adolphe Bertrand, grocer, Montreal.

La Fabrique de Cigares, Puravana, manufacturers of cigars, Montreal, are in voluntary liquidation.

 $\Lambda$  winding up order has been granted La Medecin Limited, drugs. Montreal,

Bilodeau and Rivard, tanors, Sherbrooke, have made a voluntary assignment. Assets are understood to amount to about \$500, with liabilities of \$2.500.

In Man'toba: Jas. Stuart Electrical Company, Limited, Winnipeg, has assigned.

In Alberta: Jones and Munro, tailors and men's furnishings, Claresholm, has assigned.

In British Columbia: L. A. Lanthier, livery, Hosmer, has assigned.

In Nova Scotia: Sydney Paving and Construction' Co., Limited, Sydney; J. L. McAuley, Florence; The Glace Bay Jewellery Co., Ltd., Glace Bay; E. B. Snow, Halifax; A. J. Morton, Sydney, and John McLeod and Sons (D. B. McLeod only partner), Sydney Mines, have assigned.

In Newfoundland:—The Woollen Mills, Limited, St. Johns, are winding up their business, and a meeting of members has been called for December 2nd, by John Browning, liquidator.

#### DISTRIBUTION OF NEW C.P.R. STOCK.

The distribution of the new Canadian Pacific Railway stock will be mainly in England and the continent of Europe, so that the advantages of the favourable price will be mainly in those countries. The stock is now held approximately as follows:—Great Britain, 65 per cent; Europe, 15 per cent; Canada, 10 per cent; United States, 10 per cent. The new stock issue will be participated in as follows:—

		Lotai
	New stock.	Payments.
United Kingdom	\$39.000,000	\$68,250.000
Continent of Europe	9,000,000	5,750.000
United States	6.000.000	10,500,000
Canada	6.000.000	10,500,000
	\$60,000,000	\$105,000,000

#### INSURANCE NOTES.

-The Prudential has just written its 33,000,000th industrial policy!

-What is the use of a showy up-to-date fire brigade in a city where the water supply is as likely as not to break out in fountains in the streets, instead of making a stream at the neggie?

—The Mount Royal Assurance Company has received its license for the transaction of fire and plate glass insurance throughout Canada. J. E. Clements is chief agent, with head office in Montreal.

—At a recent conference of the superintendents of the Canadian Division of the Prudential, held at the Chateau Laur'er, Ottawa, Ont., the home office was represented by F. A. C. Baker, assistant secretary; E. J. MacIver. division manager, and J. P. Mackin, assistant division manager.

—The, London Guarantee and Accident Company announces the appointment of H. C. Thiseleon as general manager. He was formerly secretary of the Hand-in-Hand Insurance Company and is at present manager and actuary of the life department of the Commercial Union Assurance Company of London.

—District leaders of the London Life in industrial for the first nine months of the year: J. G. Stephenson, Winnipeg; N. N. Montray, Hamilton; J. J. McSweeney, Toronto-East; R. P. Pearce, London; W. B. McEwan, Toronto-West; F. L. Cex, Hal'fax; J. W. Mowbray, Ottawa; W. B. Scutcliff, St. John; W. P. Evans, Fort William.

—We learn that the American Surety Co. was responsible for the arrest on November 13 of Fred. W. Orchard, an agent of the Metropolitan in Montreal, who was bonded by the surety company. Orchard retired from the services of the Metropolitan on September 15, and was later found to be short in his accounts about \$150. His bail was set at \$800.

—A. B. Powell, formerly underwriting secretary and for some months in charge of the branch office. Montreal, has been appointed Superintendent of the Equity Fire Insurance Company of Canada. H. R. Van Norman will perform the duties of an assistant manager of the company. A substantial addition has been made to the capital of the company.

The executive committee of the Canadian Life Insurance Officers' Association for the current year recently elected are; Colonel W. C. Macdonald, secretary and actuary, Confederation Life Association; G. A. Somerville, manager, Manafacturers' Life Insurance Company; J. E. Kayanagh, superintendent of Agencies, Metropolitan Life Insurance Company, New York; A. R. Howell, manager for Canada, Gresman Life Assorance Society, Ltd., Montreal.

It is reported from Vancouver, B.C., that the Western Union Fire Insurance Company, incorporated under a Washington charter, with an authorized capital of \$1.000,000, is being formed by merging existing companies. The Western Union Fire of Canada and North Coast Fire of Seattle will, it is said, consolidate to form the nucleus of the new organization which is to include others being arranged for. The entire capital is expected to be taken up through mergers by January 1.

#### THE ADVANTAGE OF A HOBBY.

Writing on the advantage and enjoyment that a busy man will derive from a hobby. Arnold Bennett says in the December Metropolitan:—

"In choosing a distraction—that is to say, in choosing a rival to his business—he should select some pursuit whose nature differs as much as possible from the nature of his business, and which will bring into activity another side of his character. If his business is monotonous, demanding care and solicitude rather than irregular, intense efforts of the brain, then let his distraction be such as will make a powerful call upon his brain. But if on the other hand the course of his business runs in crises that string up the brain

to its tightest strain, then let his distraction be a foolish and merry one. Many men fall into the error of assuming that the r hobbies must be as dignified and serious as their vocations, though surely the example of the greatest philosophers ought to have taught them better! They seem to imagine that they should continually be improving themselves, in either body or mind. If they take up a sport, it is because the sport may improve their health. And if the hobby is intellectual it must needs be employed to improve their brain. The fact is that their conception of self-improvement possibly don't need improving, they possibly are already improved to the point of being a nuisance to their fellowcreatures: possibly what they need is worsening. In the broad sense of the phrase self-government, a course of selfworsening might improve them. I have known men-and everybody has known them-who would approach nearer to perfection if they could only require a little carelessness, a little absentmindedness, a little illogicalness, a little irrational and infantile galety, a little unscrupulousness in the matter of the time of day. These considerations should be weighed before certain hobbies are dismissed as being unworthy of a plain man's notice."

# SAVINGS DEPOSITED IN TRUSTEE SAVINGS BANKS OF UNITED KINGDOM.

Savings deposited in the 215 trustee savings banks of the United Kingdom on November 20, 1911, amounted to £53, 032,595 18s 2d. according to a White Paper issued last week. The number of accounts open was 1.849.043, and the amounts to the credit of depositors in each of the different parts of the Kingdom were:—

England and W	ales		 	 £30,105,696 1	9 3
Scotland			 	 19.411.155	
Ireland			 	 2,590,067 1	0 6
Islands in the	British	Isles	 	627 408	g 1

An interesting point in the return is the number of annuities in course of payment by trustee savings banks.

Scotland has the most, 841, amounting to £25,964, and Ireland the least, only seven, of a total value of £166. England has 485 annuities of a value of £15,999 10s 8d n course of payment, and the islands in the British Seas, 50, amounting to £1.865.

#### RAILROAD EARNINGS.

A further increase in railroad activity is indicated by the returns of all United States roads reporting gross earnings for the first two weeks of November, the total, according to figures compiled by Dun's Review, amounting to \$15,822,490, an increase as compared with the earnings of the same roads for the corresponding period a year ago of 6.5 per cent. These reads reported a gain of 4.4 per cent for the first week of the month and 4.1 and 4.9 per cent, respectively, for the first two weeks of October and September. The improvement is now quite uniformly distributed, any loss reported being very exceptional and extremely small. In the following table are given the gross earnings of all United States railroads reporting to date for the first two weeks of November, and the gain as compared with the earnings of the same roads for the corresponding period a year ago: also for practically the same roads in the two preceding months, together with the percentages of gains over last year:-

					Por
			1019		ent.
ovember.	2 weeks	 	 \$15,822,490	Gain	
			17.552.184		
			17 672 784		

Grand Trunk Ry. traffic earnings from Nov. 15 to 21 1912, \$1.053.798; 1911. \$951.384; increase, \$102.414.—Canadian Pacific Ry. return of traffic earnings for the week ending Nov. 22, 1912, \$2.704,000; 1911, \$2.226.000; increase, \$478.000.

Bank of Vancouver. The figures for the Fort George and Hazelon Branches have been taken from the latest statement to hand, viz:—Oct. 24, 1912, Dominion Cank. The figures for the London, England, branch have been taken from the latest statement to hand, viz: 19 Oct., 1912.

# GROWTH OF BRITISH SHIPPING.—TRADE WITH FOREIGN COUNTRIES.

According to the annual statement of the navigation and shipping of the United Kingdom for 1911 (which has just been issued by the Board of Trade), the total number of vessels engaged in the foreign trade which entered British ports during that period was 70.725, with a net tonnage of 69.164,515, those entered with cargoes 41.946,461, the remainder being returned as being in ballast, these including those carrying only passengers with baggage. Ships cleared with cargoes numbered 60,395, totalling 59,263.314 tons, and those cleared with cargoes and in ballast numbered 69.204, with a tonnage of 69,774,826. Taking the net tonnage the vessels entered during 1911 showed an advance of 2,504,066 tons on 1910, while these cleared showed a rise of 2,374,961 tons. In numbers the vessels entered increased 128 and those cleared decreased 363.

The tourage figures for British and foreign vessels using British ports, are as follows:—

#### Entered.

	Tons.	l'ons.
	1910.	1911.
British	39,641,620	40.777,476
Swedish	$2.542\ 304$	2,657,368
Norwegian	4,369,251	4,750,938
Danish	2.778.132	2.786,728
German	6.919.862	7.012.391
Dutch	2,635,510	2,860,899
French	1,586,553	1.733.436
Spanish	$1.403\ 182$	1,426,197
Other nationalities	4,784,035	5,159.082

#### Cleared.

Cleared,		
	Tons.	Tons.
	1910.	1911.
British	40.173,466	41,107,978
Swedish	2.550.689	2.672.672
Norwegian	4.389.880	4,842,031
Danish	2.783.544	7.790.102
Ge man	$6.921\ 425$	7.005,072
Dutch	2.644.723	2.853.485
French	1.571,889	1.716,195
Spanish	1.422.289	1.441.037
Other nationalities	4,911,960	5,316,251

The vessels plying between Great Brita'n and Germany aggre ated 9.614.302 and 7.931.109 tons respectively. France and the United States came next. The German vessels that called at British ports also far outnumbered those of any other foreign country.

In the list of British ports Lendon stands at the head with 10.548 vessels and a tonnage of 13.163.101, Liverpool coming second with 4.389 vessels and 11.389.017 tons, the next in order being Newcastle (including North and South Shields). Cardiff, Southampton and Hull. Vessels which entered coastwise in 1911 amounted to 61.508.897 tons, and those which cleaved to (2.696.225 tons.

The number of vessels on the register in the United Kingdem is returned as 21.672. Those registered in other parts of the Empire numbered 18,082 against 17.838 in 1910. The 12.242 steam vessels registered in the United Kingdom have a net tonnage of 10.717,511, while the 8,830 sailing vessels only aggregated 980,997 tors.

The total number of nersons annioyed in British shipping trade of all descriptions, however, is steadily increasing, the figure—being: -1909, 274-307; 1910, 276,306; 1911, 281,200.

Of the last figure 205,065 were British, 30.783 foreign, and 45,452 Lasears.

#### FIRE RECORD,

Heaver losses from fires have been suffered in Canada during the past few years, in proportion to the population, than any other country in the world, is the statement made by Chief Tremblay, of the Montreal Fire Department. Canada's losses from fires, according to the statistics of the Montreal chief, average about \$3.40 per person, while the United States average nearly \$3 per person.

In last week's issue page 729, bottom line of Fire Record, "loss \$40.000" should read "loss \$4,000."

The C.P.R. freight sheds at Prescott Ont.. the largest west of Montreal, were destroyed by fire Nov. 21. with a large quantity of freight 200 tons of coal, nine loaded cars, customs offices, and the freight offices. Total loss estimated at \$250,000.

The warehouse of the Superior O'l Co.. Sault Ste. Marie. Ont., was burned Nov. 20, with contents, including \$800 worth of goods belonging to the Northern Building Material and Iron Co.: the Superior Oil Co.'s stock \$12.000, partially insured, and \$10.000 worth of patterns belonging to the Algoma Iron Works, which is partly insured. Total loss about \$23.000.

The frame house of W. R. Sexton, 103 Bowood Ave., North Toronto, was gutted by fire Nov. 21. Loss \$900.

Fire Nov. 22 took place at the farm of John Burns on the Addison-Greenbush Road, Elizabeth township. Ont. Thrashing operations were in progress at the time, and a spark from the engine in use at the work is thought to have been the cause. The burned buildings were all large ones, and included a grain barn, cow byre, and a hay barn. They were all destroyed, with the season's crops. The cattle were in a field nearby and escaped.

The Brooklands Hospital, Sydney, N.S., was partially destroyed by fire Nov. 22. The Hospital is owned by the Steel Co., and used chiefly for their employees injured at the plant. Loss \$1.000.

The home of Mr. Brauley, Battleford, Sask., was destroyed by fire Monday. His wife was burned to death.

The barn of J. Tobin, Chapel Hill. Kentville, N.S., was destroyed by fire Sunday with contents including fifty tons of hay and seven horses. Loss partially insured.

The factory of Martin Freres, manufacturers of packing cases, corner of St. Patrick and Shearer Streets, Point St. Charles, was damaged by fire Tuesday. Loss \$7,000, covered by insurance.

The factory of the Sarnia Hub and Spoke Co., Front St., Sarnia, Ont., was gutted by fire Tuesday. Loss \$40,000.

The Alberta Grain Co.'s elevator, at Bremmer, Alta., was gutted by fire Wednesday together with 11.000 bushels, of grain

The office building of W. P. McNeil, Ltd., New Glaser N.S., structural steel manufacturers, was destroyed by fire Wednesday, but the works were saved. Loss \$2,000 insured. Fire Tuesday did \$500 damage to wholesale fancy goods store of F. and E. W. Kelk, York Street, Toronto.

Toronto, Wednesday, Mr. J. L. Englehart, chairman of the Temiskaming and Northern Railway Commission, was elected a director. Mr. Englehart takes the place of the late Mr. W. H. Beatty.

#### FINANCIAL REVIEW.

Montreal, Thursday Afternoon, November 28, 1912.

Call money is still hard to come by for any but the choicest gilt-edged securities. Six per cent is demand at the banks, but there are few complaints, though grumbling is frequent. For ordinary brokerage purposes there is no accommodation money, and it is rather surprising that trading does not decline to smaller limits. Still there have been few

liquidations, which shows a strong foundation behind the market. The gold coming in from New York will be useful to the banks, especially as a late harvest will delay returns from the West. The returns coming to holders of C.P.R., within a few weeks, are so excellent, that it begins to look as though there is more stock to be assimilated than had been expected, when it sticks at what is, all things considered, a low figure for it. With the rights off, things will be different, of course.

As we have previously stated would be the case, the union of the Internationale and Home Banks will be effected soon. The French stock having been pretty well gathered in at \$5 a share, and dispatched to this side. Naturally, there is not much jubilation in Paris over the merger.

The sale of the Bank of Nova Scotia to the Bank of New Brunswick will probably be completed soon. Many will regreat the passing of the last of the emphatically Nova Scotian banks, but the amagamation will certainly make a strong institution out of these two fine banks.

It has already leaked out in Parliament that the new Bank Act is to allow bank loans to be effected on farm produce and stock, and probably some arrangement will be possible under it for land banks, of a co-operative nature

The calling away by death of Mr. W. H. Beatty, of Toconto, will make as great a gap in financial circles in that city as has Sir Fdward Clouston's death in Montreal. Beatty was for years a power in the banking world, and his loss will be severely felt by the elder business men of the Queen City.

Evidently, the new \$7.000,000 Atlantic Refineries, Ltd., is to be vigorously opposed. It is not often that new issues are deliberately advertised against, and some good reason should be manifested for establishing the precedent

At Toronto, bank quotations: Commerce, 2211/2: Dominion. 235; Royal, 222; Standard, 220.

In New York: Money on call 3 to 9 per cent. Time loans strong; 60 days, 6 to 7 per cent; 90 days, 6 to  $6 \ensuremath{\mathcal{V}}_2$  per cent; six months 51/2 to 53/4 per cent. Prime mercantile paper, 6 per cent. Sterling exchange, easy at 4.80.75 for 60 day bills, and at 4.84.60 for demand. Commercial bills, 4.80%Bar silver, 63. Mexican dollars, 483/4. Amal. Copper, 84½; N.Y.C. & H.R.R., 114; U.S. Steel, com., 74¾; pfd., 11111/4. - In London: Bar silver, 291/8d per ounce. Money, 31/9 to 33% per cent. The rate of discount in the open market for short bills is 4 13.16 to 4% per cent, and for three months' bills is 4 11-16 to 4% per cent. Paris exchange on London, 25 francs 22 centimes. Berlin exc., 20 marks 47 pfennigs.

The proportion of the Bank of England's reserve to liability this week, 50.81 per cent; last week, 50.67 per cent. Consols for Money 751/8; for account 751/8.

The following is a comparative table of stock prices for the week ending November 28, 1912, as compiled from sheets furnished by Messrs. C. Meredith and Co., stockbrokers, Montreal:-

STOCKS:		High-	Low-	Last	Year

-Montreal bank clearings for week ending Nov. 28, 1912, \$51,321,071; 1911, \$51,811,654; 1910, \$38,924,314.

#### THE NEW YORK MARKET.

(Special to "The Canadian Journal of Commerce," from N.Y.)

Trading in investment securities is still at a low point of activity but the buying of new investments continues on a liberal scale. Although mercantile business throughout the country is good, there is a growing belief in some sections of the country. New England especially, that revision of the tariff will have an unsettling effect. Theoretically, this should redound to the benefit of certain classes of securities. It mercantile business should become less active, it must be expected that merchants will have more free capital for investment. They are not likely to put it in securities that would be adversely affected by tariff changes, but their buying would probably be of well secured bonds yielding good returns, as of public utility bonds and stocks, which as a class are regarded as beyond the influence of the tariff.

Best Selling Scenrities. An one the newy brought out securities to find favour have been several issues of railway conjument bends. An important example of this is the New York Central-Boston and Albany issue of \$5,225,000, which was sold on a basis to yield the investor 4,58 per cent.

Important public ctility issues were the \$4.481,000 Ten Year Notes of the Central States Electric Corporation, operating in Cleveland, Ohio, which were sold to net buyers 5.75 per cent and \$2.133.000 Southwestern Gas and Electric 5s., which were sold on a 5½ per cent basis. New stock issues have been fewer than heretofore of late months and somewhat less important. New industrial issues, especially have been scarcer.

Two Public Utility Proporties.—The Northern Ontario Power Company has declared a full year's dividend on its issue of preferred stock. The dividend became cumulative at the first of January lest, but no action was taken on the parment until this time. This company operates a hydraulic air compressor than and hydro electric plants on the Montreal River, selling power in Cobalt and Porcupine mining districts. It recently acquired control of the British Canadian Power Co. This stock, selling in the vicinity of 65, has been a favourite for investment purposes since the commencement of dividends became known.

The recent rise in American Light and Traction common stock which carried it close to 450 is explained by the statement of the company for the year ended with September last. Although this company pays 10 per cent cash and 10 per cent per year in common stock, and it has charged the entire stock dividend against earnings, there remains a surplus of about \$846,000, or about 7 per cent on the common stock over and above the dividend payments.

Attention has been attracted anew to the Standard Oil group by the recent advance of several hundred points in the stock of the Continental Oil Company, one of the former subsidiaries of the Standard.

H. L. B.

#### WORLD'S COAL SUPPLIES.

A British Plue Book just issued contains colonial and foreign statistics for, 1910 relating to mines and quarries, as prepared by R. A. S. Redmayne, his Majesty's Chief Inspector of Mines. It shows that the number of persons engaged in mining and quarrying at home and abroad in that year exceeded 6.250,000. More than half of the total number were employed in getting coal. Great Britain has nearly 1.033,000, the United States over 725,000, Germany upwards of 634,000. France nearly 197,000, Russin (1908) over 174,000, Belgium nearly 144,000, Austria over 191,000, and India nearly 146,000

The total amount of coal produced in 1910 was 1.164 000.000 metric tons, the value of which was estimated at nearly £420.000.000 sterling. The quantity and value, compared with the previous year, exhibited an increase of nearly 50.750.000 tons in output and of £20.000.000 sterling in value.

—The Department of Trade and Commerce has received official advice from London that the Suez Canal Company have decided to make a reduction in the Suez Canal transit dues by 50 centimes per ton from January 1, 1913. The dues will thus be reduced to 6 francs 25 centimes per ton for loaded ships, and 3 francs 75 centimes per ton for ships in ballast.

—A statement issued by the department of trade and commerce shows that for the week ending November 15, 14.411,558 bushels of wheat were in store at terminal and eastern elevators, as compared with 12,358.694 for the week ending Nov. 17, 1911. Of other grains, there was in store 19.875,938 bushels, as against 17,700.812 last year.

It is the intention, it is said, of the Quebec government to test the practicality of winter navigation the coming season on the lower St. Lawrence. One of the ice-breakers is to form a regularly monthly service between Quebec and St. John's (Nfld.) The steamer will call, en route, at Anticosti and Seven Islands.

#### MONTREAL WHOLESALE MARKETS

Montreal, Thursday, November 28, 1912.

Bad country roads, the congested condition of business upon the milroads, and the practical closing of inland navigation, have somewhat disarranged the progress of trade this week. There is, however, not the least sign of any cessation in the intense activity which has characterized all

## Canadian Pacific Railway Company

TISSUE OF NEW ORDINARY STOCK

NOTICE is hereby given that pursuant to Resolution passed at the Special General Meeting of Snarcholders on 2nd October, 1912, an issue of \$60,000.600, additional Ordinary Capital Stock of the Company, or 600,000 Shares of \$100 each, has been ordered by the board of Directors.

The said Stock will be onered to the Ordinary Shareholders of record at 3 p.m. on Thursday, the 2nd day of January, 1913, at the price of one hundred and seventy-five dodars per share, being at a premium of seventy-five per cent over and above the par value thereof, on the basis of thirty per cent or three shares in ten of their respective holdings.

The right to subscribe will expire at 3 p.m. on Thursday, 13th February, 1913.

Payments will be received at the Bank of Montreal, London, New York or Montreal, as follows:—

- $20~{\rm per}$  cent or  $\$35~{\rm per}$  share on subscription on or before  $13{\rm th}$  February, 1913 .
  - 20 per cent or \$35 per snare on 14th April, 1913.
  - 20 per cent or \$35 per share on 16th June, 1913.
  - 20 per cent or \$35 per share on 18th August, 1913. 20 per cent or \$35 per share on 20th October, 1913.

Interest at the rate of 7 per cent per annum will be paid in October, 1913, from the due date of each instalment to September 30th, \*1913, on instalments up to and including that of 18th August, 1913, which have been paid on or before due dates.

All shares of the issue on which instalments have been paid in full on the due dates will rank with the existing stock for the full dividend accruing for the quarter ending 31st December, 1913.

A circular containing the terms of subscription and payment and enclosing warrants of subscription will be mailed to the Shareholders on or about the 15th day of January, 1913.

By order of the Board,

W. R. BAKER,

Secretary.

Dated at Montreal. 18th November, 1912.

the markets for many months past. The great grain crop of the West, which is overburdening the railroads, means the circulation of very large sums of money in remote parts. Returns may be somewhat low, but the banks and wholesale establishments stand to benefit greatly by the return of the funds, the lack of which has been worrying speculators in the cities. The lack of accommodation owing to the distribution of funds among the grain men, has pinched some of the retail men of small capital, but we have not heard of serious anx eties among the wholesalers.

Leathers have taken a decided step upwards, and we shall have to pay all the more for our footwear and harness. No doubt the deficiency in the supplies of cattle, which keep beef at extravagant prices, may be held accountable, though the enlarged use of this material about the increasingly popular automobiles is said to deserve part of the blame. Rubbers are all dearer also, because of the always growing demand for the gum in its manifold manufactured forms. Hides are unchanged at present.

Canadian mills have not put on the prices of heavy contron goods, as have the United States manufacturers this week. But all are loaded down with orders, and we should not wonder, with wages and living rates at their present level, if they did likewise before long. Spring goods began to be shipped out this week, the town being full of country retailers, looking over the goods now arriving for themselves, instead of trusting to patterns.

Grocers are receiving large shipments of goods both from domestic factories and foreign producers. They also are filling large orders from retailers, and under the present discount system receive remittances satisfactorily. Sugar is still scarce in country parts, and refiners seem to have difficulty in satisfying demands. We shall be put upon Californian cry fruit instead of European th's year, not because of the war, so much as from the reason that the damp summer, was unfavourable to raisin making along the Mediterranean littoral.

The Metal business is busy as ever. The bright goods, and shelf hardware trades usually have a rest in the last few weeks of the year. Apparently wructural steel workers will be kept at full employment all winter, as will certainly be the case with bug tool, locomotive and car builders.

APPLES.—The apple market continues to improve, prices becoming stronger after each sale. We quote:—Russetts, No. 1, \$4.00; No. 2, \$3.25; Fall apples, \$2.50; Spys, No. 1, \$5.00; No. 2, \$4.50. Fameuse No. 1 hand picked, very fancy, \$4.50 to \$5.50; No. 2, \$4.00. Greenings, No. 1, \$3.75 to \$4.00; No. 2, \$3.25. Baldwins, No. 1, \$3.75 to \$4.00; No. 2, \$3.35. Kings No. 1, \$4.00; No. 2, \$3.25 per barrel. McIntosh Red Fancy, No. 1, \$6.50; No. 2, \$5.00.

BACON AND HAMS.—A fair trade is reported in bacon and hams, with prices for all lines generally firm. Our quotations are as follows: — Hams, extra large, size. 28 to 40 lbs., 13½c; large sizes, 20 to 28 lbs., 15c; medium sizes, selected weights, 15 to 19 lbs., 17c; extra small sizes, 10 to 14 lbs., 17c; hams, bone out, rolled large, 16 to 25 lbs., 17c; hams, bone out, rolled, small, 9 to 12 lbs., 19c; breakfast bacon, English boneless, 10 to 15 lbs., (selected). 19c; english breakfast bacon, 14 to 20 lbs. (boneless, thick), 18c; Windsor bacon, skinned (backs), 21c, spiced roll bacon, boneless, 16c; picnic hams, 6 to 12 lbs., 14c; Wiltshire bacon (50 bs. side). 11½c; cottage rolls, small, about 4 lbs. each, 17½c.

BEANS.—Canadian beans are still very scarce, and very much behind in delivery, and it is feared that they will be replaced by Australian and Indian stock, unless producers are prepared to accept lower prices. We quote: \$3.00 to \$3.25 per bushel for three-pound pickers.

BRAN AND FEED GRAIN.—Bran and shorts have declined \$1.00 per ton during the past week, but all other lines are steady, and demand from outside points has been very good of late. We quote as follows:—Bran, per ton, \$21.00;

shorts, per ton, \$25.00 to \$26.00; middlings, per ton, \$28.00 to \$30.00; pure grain moullie \$34.00 to \$36.00; mixed moullie \$34.00 to \$35.00.

BUTTER.—The butter market rules steady, prices being firmly maintained under a strong demand, but it is expected that owing to the fact that stocks in store are being gradually reduced, prices will be advanced later on. We quote as follows:—Finest creamery, 30½c to 30½c; fine creamery, 29¾c to 30c; seconds, 28¾c to 29c; dairy 26c to 26½c.

CHEESE.—In Liverpool, Canadian cheese was stronger, and prices advanced 6d with finest white quoted at 63s 6d, and coloured at 64s 6d. The local market rules firm with prices steady and an improved demand, especially from the English buyers. We quote:—Finest western, coloured, at 12½c to 12¾c; finest western, white, 12½c to 12¾c; Quebec's at 11¾c to 12c; and Townships at 12c to 12½c.

-Exports for last week were 35,188 boxes, compared with 46.524 for the corresponding week of last year.

-Total shipments since May 1st were 1,706.385 boxes, as against 1.794.288 for the same period a year ago.

COOKED MEATS.—A seasonable trade is passing in cooked meats at unchanged prices. We quote:—Boiled ham, small, skinned, boneless. 26c; New England pressed ham, 14c; head cheese, per lb., 10c; English brawn, per lb., 12½c; jellied hocks. 6 lbs. tins, per tin, 75c; cooked pickled pigs feet in vinegar, kits. 20 lbs., per lb., 7c.

DRY GOODS.—Advices received by the wholesale trade in this city from the United States correspondence record an advance in printed drills and ducks of about 21/2 to 5 per Present prices of staples are about as follows:--Cotton. mid. uplands. spot. N.Y., 12.80c; print cloths, 28-inch, 64x64s, 4 1-16e; do., 64x60s, 37/se; gray goods, 381/s-inch, standard, 5%c; do. 39-inch, 68x72s, 5%c to 6c; brown sheetings. South. stand. Sc; brown sheetings, 4-yard. 56x60s, 63%c to 61%c; do., 3-yard, 71%c; denims, 9 ounces, 14c to 17c; tickings, 9 ounces, 13c; standard prints. 5½c; standard staple ginghams, 61/4c; dress ginghams. 7c to 91/4c; kid-finished cambrics. 41/2c to 43/4c; brown drills, standard, 8c. Canadian mills have not followed suit as yet, though the cost of raw material and production will probably furnish an excuse for a similar advance here later on. Returning buyers from Europe say that the activity in textile product on has probably never been excelled. Prices are all stiffening and British linens, and also all carpets, are distinctly higher. The effect of the war upon British commerce is not at all apparent in this industry. Out of town customers are thronging the wholesalers' sales rooms this week, the spring dating having begun on Monday the 25th. Orders are generally large, comprising full lines of goods. Country retailers are cheerful about the financial prospects for the coming season's business. Our enquiries show that recent failures in retail dry goods business had been well guarded against by the trade, whose losses do not promise to be serious in any

EGGS.—Owing to strong demands both from local and outside sources, and the fact that supplies are falling off with the colder weather, a stronger feeling has developed in the egg market and higher prices are expected soon. We quote as follows:—Selected stock, round lots, 30c to 30½c; selected stock, single cases, 30½c to 31c; straight receipts in round lots at 27c and in single cases at 27½c per doz.; seconds, round lots, 21c; seconds, single cases, 22c.

FISH.—A good seasonable trade is passing in all lines of fish at firm prices. We quote as follows: Fresh: Halibut, 10c to 11c per pound; salmon, 22c to 23c per pound; haddock, 4½c to 5c per pound; stake cod, 5c to 6c per pound; whitefish, 12c; lake trout. 12c; pike, 6c to 7c; sword fish, 10c to 11c; lobsters, 38c to 40c; eels, 7c to 8c; Canadian soles, 6c to 7c; large herrings, 3½c to 4c.—Pickled: New Labrador salmon,

large, barrels, \$17 to \$18 per barrel; new Labrador salmon, medium and small, \$16 to \$17.—New crop, No. 1 Nova Scotia herrings, per barrel, \$6.00; half-barrel, \$3.50; new crop No. 1, Scotia herrings, per barrel, \$5.25; half barrel, \$2.75; new crop No. 1 mackerel, barrels, \$16; half barrels, \$8.50; No. 1 green cod, Nova Scotia cured, brls., \$9.00; No. 1 green cod, Gaspe cured, \$7 to \$8; skinless cod fish, \$6 to \$7.50, or 6½c to 7c per lb.; boneless cod, Ivory brand, 9c per lb.; boneless cod, Dreadnought brand, 8c per lb.; Finnan haddies, 16's and 30's, \$8 to \$9, or 9c per lb.; large kippers, per box, \$1.25 to \$1.50; bloaters, \$1.00 to \$1.25 per box; smoked herrings, medium, 15½c to 17c per box; shell oysters, per barrel, Capes, \$8.00 to \$9.00. Quahangs, per barrel, \$5.00 to \$6.00. Bulk oysters, per gal., \$tandard, \$1.40; selects, per gal., \$1.60.

FLOUR.—An active business is passing in both Spring wheat flour and Winter wheat grades, with prices firmly held, and supplies none too large. Manitoba spring wheat patents, firsts, per barrel, in wood. \$5.70; do. per barrel, in jute, \$5.40. Manitoba spring wheat patents, seconds, per barrel, in wood, \$5.20; do., per barrel, in jute, \$4.90. Manitoba strong bakers, per bbl., in wood, \$5.00; do. in jute, \$4.70. Winter wheat, straight rollers, per bbl., in wood, \$4.95 to \$5.00; do., per bag, in jute, \$2.35 to \$2.40. Spring Wheat, choice patents, per bbl., in wood, \$5.25 to \$5.35; Winter wheat, extras, per bag, in jute, \$1.85 to \$2.00.

GRAIN.- The probability of peace prevailing in Europe is sending down grain prices with a run. Some business is being done for export at present quotations. pears to be able to answer the question as to how far prices will decline if articles of peace should be signed. The ment of Canadian grain progresses fairly well, though the complaint is general with the railroads that their cars are being used for storage purposes, owing to customers having no storage available. Locally we quote prices in car lots, ex-store, as follows: Oats, No. Canadian western, 431/2c to 44c; oats, extra No. 1 feed, 43c to 431/2c; barley, Ontario malting, 80c to 82c; buckwheat, No. 2, 56c to 57c; corn, No. 3 yellow, 69c to 70c; peas, choice, \$2.25 to \$2.30. Closing eash prices for wheat in the Winnipeg market were: -No. 1 northern, 81%c; No. 2 northern, 78%c; No. 3 northern, 🦠 76% . The fluctuations in the Winnipeg wheat market resulted about as follows: - Opening, Nov. 821/2e, Dec. 793/4e. May 841/4e; highest, Nov. 825/3c, Dec. 793/3c, May 841/4e; lowest. Nov. 813/1c, Dec. 781/2c, May 731/2c; closing, Nov. 813/1c. Dec. 781/ge, May 831/ge.

- Late cables were: London: Wheat on passage dull; corneasier on larger Plate offers; cargo Plate yellow corn, in bulk, due, 22s 3d; do. in bags, due, 23s; cargo Bahia Blanca wheat, February-March, 34s 3d; do. March-April, 34s; parcels No. 1 Northern Manitoba spring wheat, December-January, 35s 6d and 35s 4½d; No. 2 northern, December-January, 34s 6d; January-February, 34s 3d. GREEN AND DRIED FRUITS. Dealers report—business in fruits very dull at present. California oranges are all finished. Valercias are very high in price, and poor in quality, and navals will not be in for two weeks or 10 days. We quote: Finest Florida oranges, 126, 200 and 216 size, \$3.70; Mexican 150, 210 and 250 size, \$2.25; Jamaica, 126, 150-200 and 216 size, \$3.50 per box. Valencia lates, 250, 280 size, per pox, \$4.00; Valentia, 714 size, \$5.25; 420 size, \$4.50. Lemons, New Verdelli, 300's, \$4.50. Bananas, Jamaicas, packed, \$1.75 to \$2.50 per bunch. Prunes, Cal., new crop. in 254b, boxes, 50-60, per lb., 74% to 12c; 30-40, lb., 10c. Dates; Hallowees, lb., Sc; Dromedary package stock.

pkg.. 10c. Evaporated apples in 50 lb. boxes, per lb., 11½6 Grapes, Fancy Tokays, \$2.75 per crate. New figs, finest camel brand, 7 crown, 14c to 16c; 6 crown, 12c; 5 crown, 15c; 4 crown, 11c to 14c. Mat figs, 28 lbs., per mat, \$1.25. Cape Cod cranberries, \$2.75 per box, \$9.50 per bbl. Finest Nova Scotia cranberries, \$7.50 per barrel. Citrons, \$1.50 to \$2.00 per dozen. Winter Nellis pears. \$3.50 per box. Grapefruit. Chase and Co.'s finest Florida stock. 54, 64 and 80 size, \$4.00. Jamaica grapefruit. 64-80 and 96 size. \$3.50. Almeria grapes, finest heavy weights, \$6.50 per bag, good heavy weights, \$6.00, and choice heavy weights, \$5.25 per keg. Malaga grapes, heavyweight, \$5.50 per barrel; Fancy, \$5.00, and choice, \$4.75 per barrel.

GROCERIES.-The canners have promptly taken the hint regarding short supplies at th's point, and are forwarding their goods on a large scale. The sugar market continues to be unchanged, though the prices of raw sugar continue to It is believed here that country grocers are caroscillate rying very light stocks of refined, and the knowledge of this fact may have some slight influence upon first hand prices. California is shipping large quantities of dried fruits, purchased easier for November delivery. Our wholesalers have generally speaking purchased on far better terms than they could make to-day, owing to the shortage of the Mediterranean supply. The gamble in futures has not turned out in the producers' favour this time. A generally conservative dealer in this city expresses the opinion that there are not over 25 car loads of goods boiling peas in Canada to-day. Remittances from the country keep up well, considering the bad condition of the country roads, and the freight congestion on the railroads.

HAY.—Hay continues in good local demand, and prices for second grades are stronger, but the export trade is very dull. Our quotations are as follows:—\$14.50 to \$15.00 for No. 1 hay: \$13.50 to \$14.00 for No. 2 extra good: \$12.00 to \$13.00 for No. 2 good: \$11.00 to \$11.50 No. 3 hay: \$10.00 to \$10.50 for clover mixed.

HIDES.—There is nothing of importance to report. The market rules very firm and a moderate amount of trading is being done. Uninspected. 10½c: inspected. No. 1, 15c; No. 2, 14c; No. 3, 13c. Calfskins. No. 1, 17c; No. 2, 16c. Sheepskins are \$1.20 each: lambskins, \$5c each. Horse hides. \$2.50 each. Tallow, 1½c to 3½c. for rough, and 6c to 6½c for refined.

HONEY. The local honey market remains steady, and moderately active. The English honey harvest is estimated at about only half what it was a year ago. The shortage is put down to the cold wet weather which marked last summer. We quote as follows:—Clover, white honey, 16½c to 17c: dark grades, 14c to 14½c: white extracted, 12c to 12½c: buckwheat, 8½c to 9½c.

IRON AND HARDWARE. -- No mention appears in the Speech from the Throne of any relief for the steel men, but the rumour has gone out that a Commission is to be appointed to look thoroughly into the matter. Prices remain strong throughout the 1st, and the trade is exceedingly Enamelware makers say that at present there is a slight lull in their trade. Copper is being bought for European markets at full price list. Lead is cheaper, but the demand is considered likely to increase soon again. We expect to note a few changes with prices current some time next week. To-day's metal prices are:-New York copper, firm: standard, spot. \$17.10 bid; November to February, \$17.10 to \$17.40. Electrolytic, \$17.62 to \$17.87; lake, \$17.62 to \$17.87; castings, \$17.25 to \$17.37. London, copper. steady; spot. £76 17s; futures. €77 12s 6d.—Tin dull; spot to January, \$49.50 to \$49.90. London, quiet: spot, £226 15s; futures. £226 15s.—Lead steady. \$4.45 to \$4.55. London, £17 17s 6d. Spelter steady, \$7.35 to \$7.50. London. £26.-Iron steady and unchanged. Cleveland warrants in London, 67s 9d.

LEATHER.—The leather market continues very strong in tone, and prices for sole leather show a further increase. There is also a better movement in splits at advanced prices. We quote:—No. 1, 30c; No. 2, 29c; jobbing leather, No. 1, 32c; No. 2, 31c. Oak, 34c to 39c, according to quality. Splits, 24c to 26c; pebble grain, 15c to 17c; russets, No. 2, and medium, 20c to 23c; Dongola, ordinary, 10c to 16c. Dongola, good, 20c to 30c.

LIVE STOCK.-The local market remained firm in tone. although the supply of cattle was large and of only medium quality. The gathering of butchers and packers was large and trading was brisk, only a few being left unsold at the finish. A few picked lots of choice steers brought as much as \$6.25 and full loads of good cattle sold as high as \$5.75 to \$5.90 per 100 lbs. Canners' stock sold fairly well at prices ranging from \$2.60 to \$2.50 for cows, and \$2.75 to \$3.15 for bulls per 100 lbs. The market for sheep and lambs was unchanged, but owing to the continued good demand for the same, and the falling off in receipts, a stronger feeling developed, and higher prices are expected in the near Calves were in good supply, and sold freely at unchanged prices. Hogs were stronger in tone, and prices showed an advance of 25c per 100 lbs., sales of selected lots being made at \$9.00 per 100 lbs., weighed off cars.

—Chicago quotes:—Cattle market strong, 10c to 15c higher; beeves, \$5.35 to \$11.00; Texas steers, \$4.30 to \$5.70; western steers, \$5.50 to \$9.10; stockers and feeders, \$4.25 to \$7.50; cows and heifers, \$2.70 to \$7.50; calves, \$6.50 to \$10.

—Hogs: Market opened 5c higher; closed weak; light, \$7.35 to \$7.80; mixed, \$7.40 to \$7.85; heavy, \$7.35 to \$7.85; pigs, \$5.75 to \$7.65; bulk of sales, \$7.65 to \$7.85.—Sheep: Market steady to a shade lower; native, \$3.35 to \$4.50; western, \$3.60 to 4.35; yearlings, \$4.60 to \$5.90; lambs, native, \$5.40 to \$7.25; western, \$5.50 to \$7.25.

MAPLE PRODUCTS.—There is no new development in this market. Our quotations are unchanged as follows: Maple syrup. Se to 8½c per pound in tins, and in wood. 6½c to 7c per pound. Mpale sugar at 8½c to 9½c per pound, as to quality.

NUTS.—Demand shows a slight improvement, as retailers are beginning to think about getting in their Christmas supplies. Our quotations are as follows:—Peanuts, Jumbos, roasted, 12c: French roasted, 9c; Bon Ton. 12c: Dia. G. 9c: Coons. 8c: almonds, shelled, 33c to 34c: Tarra, 17c; walnuts, shelled, per lb., 26c: do. Gren., per lb., 15c to 17c: filberts, per 10., 13c to 14c: pecans, per lb., 18c to 20c. Brazils, new stock, per lb., 16c to 17c. Kent cobnuts, just, in, 21c.

OIL AND NAVAL STORES.—Prices for linseed oil continue to weaken, but all other lines are unchanged, and the market is very quiet. Our quotations are as follows:—Linseed, boiled, 62c to 63c; raw. 59c to 60c; cod oil, car load lots, 55c to 57½c. Cod oil, single barrels, 42½c to 47c. Turpentine, 56c to 58c per barrel. Steam refined seal oil, 62½c. Whale oil, 55c to 60c. Cod liver oil, Newfoundland. \$1.50 to \$1.65; do., Norway process, \$1.60 to \$1.75; do. Norwegian, \$1.60 to \$1.75. Straw seal, 52½e to 55c.

—Liverpool quotes:—Turpentine, spirits, 29s 3d. Rosin, common. 15s 7½d. Petroleum, refined, 9%d. Linseed oil. 31s 6d.

--London: Calcutta linseed, November December, 50s. Linseed oil, 27s 3d. Sperm oil, £30. Petroleum, American refined, 8¼d; do. sp'rits, 9¼d. Turpentine, spirits, 27s 10½d. Rosin, American strained, 15s 6d; do. fine, 19s 3d.

—Savannah, Ga.:—Turpentine. steady, 34½c to 35c. Sales. 923: receipts. 1.321: shipments. 145: stocks. 36.617. Rosin, firm; sales. 2.330: receipts. 4.281; shipments. 1.264: stock. 143.106. Ouote: A. B. C. \$5.67½: D. \$5.70; E. \$5.75½: F. \$5.75; C. \$5.80; H. I. \$5.85; K. \$6.60; M. \$7.00; N. \$7.40; WG. \$7.50; WW. \$7.60.

POTATOES.—A firm feeling prevails in the local market with choice stock in especially strong demand. We quote: Green Mountains in car lots at 80c to 85c, and Quebec grades at 70c to 80c per bag. In a jobbing way Green Mountains are selling at \$1.00 per bag.

POULTIRY.—Business in this market continues to improve with the cold weather, there being a good demand for all lines at strong prices. Our quotations are as follows:—Turkeys, 18c to 19c per lb. Live chickens, 11c to 13c per lb., dressed chickens, 14c to 16c per lb. Fowls, 10c to 12c per lb. Ducks, 15c to 16c per lb. Geese, 12c to 14c per lb. Choice partridge, 70c to 80c per brace. Venison is in fair demand at 7c per lb., by the carcasses.

PROVISIONS.-Although prices show no change, a stronger feeling has developed in this market in sympathy with the advance in live stock, and dressed stock were in good demand, sales of abattoir fresh-killed being made at \$12.25 to \$12.50 per 100 lbs. We quote as follows: Barrelled pork: Canada short cut back pork, barrels, 33 to 45 pieces, \$29.50 han-barrels, short cut back pork. brls., 45 to 55 pieces, \$15.00; flank fat pork, \$28.00; pickled rolls, bris., \$28.00; brown brand, neavy, boneless pork, all fat, brls., 40 to 50 pieces, \$28.00; heavy clear fat backs, very heavy, all fat, brls., 40 to 50 pieces, \$29.50.—Lard compound: Tierces, 3/5 lbs., 91/2c; boxes 50 lbs., net (parchment lined). 95/8c; tubs, 50 lbs. net, grained (2 handles), 93/4c; pails, wood, 20 lbs., net, 10c; tin pails. 20 lbs. gross, 94c; cases. 10 lbs. tins, 60 lbs. in case, 10c; cases, 5 lbs. tins, 60 lbs. in case, 101/sc; cases, 3 lbs. tins, 60 lbs. in case, 101/4c; brick compound lard, 1-lb. packets. 60 lbs. in case. 103/4c. - Extra pure lard: Tierces, 375 lbs., 151/2c; boxes, 50 lbs., net (parchment lined), 15%c; tubs, 50 ms., net grained (2 handles), 15%c; pails, wood. 20 lbs.. net (parchment lined). 16c; tin pails, 20 lbs., gross (parchment lined), 151/4c; cases, 10 lb. tins, 60 lbs. in case. 16c; cases. 5 lbs. tins. 60 lbs.. in case. 161/sc; cases. 3-lbs. tins, 60 lbs. in case, 161/4c; brick lard, 1-lb. package, 60 lbs. in case. 161/2c.

--Liverpool reports: Hams, short cut. 14 to 16 lbs.. 66s. becon. Cumberland cut, 26 to 30 lbs., 69s; clear bellies, 14 to 16 lbs.. 65s 6d; long clear middles, light, 28 to 34 lbs., 72s; 6d; long clear middles, heavy, 35 to 40 lbs.. 71s 6'; short clear backs, 16 to 20 lbs.. 67s. Shoulders, square, 11 to 13 lbs., 65s 6d. Lard, prime western, in tierces, 59s 34; do. American, refined, 59s 6d.

VEGETABLES.-Celery is very low at present, the supply of Canadian good being so large and of such fine quality that dealers find it impossible to sell California stock at all. Canadian onions are also very plentiful. Spanish onions, \$2.50 per large case. Boston hot house curumbers, \$1.00 per dozen. American green peppers, 50c per basket, \$4.00 per barrel. Montreal celery- 25c to \$1.00 per dezen. Furly Golden Heart celery, 6, 61/2, 7, 8 doz. to case, \$4.25 per seec. Leeks, \$1.50 per doz. Boston lettuce, 75c per doz. Montreal lettuce, per doz., 35c to 50c. Hot-house tomatoes 35c to 50c per lb.. Watercress,  $50\varsigma$  per dozen. Cauliflower, 50cto \$1.50 doz. New cabbage, 50c to 60c doz. Carrots 90c bag. Red onions, in bags, about 100 lbs., \$2 per bag, 13/4c per lb. Sweet potatoes, fancy kiln dried, \$2.00 to \$2.25 per basket. Parsley, 10c to 15c per dozen. Beets, 75c to \$1.00 per bag. Turnips, 75c to \$1.00 per bag. Red cabbage, 75c per doz. Hubbard squash, \$1.75 per doz. Vegetable marrows, 50c to \$1.00 per dozen.

WOOL.—Urusuel interest is attached to the fifth series of the London wool auction sales, which epened last Tresday, and was attended by a large number of buyers from all parts of the world. Owing to the small selection offered, prices sold 5 to 12 ver cent higher. Scoured sold at wisca ranging from 1s to 2s 41/3d, and greasy from 7d to 1: 111/3d. During the first week of the sales, 51 800 bules will be offered.

THE CHIEF DIFFICULTY

that confronts the new man entering the Life Insurance Field is the securing of GOOD
PROSPECTS. This difficulty is eliminated when you write for an INDUSTRIAL COMPANY,
the debits of which are an inexhaustible mine for both ordinary and industrial business.

#### AUTUMN IN ALGONOUIN PARK

In the Algonquin National Park of Ontario, reached only by the Grand Trunk Railway, the autumn is one of the most beautiful seasons of the year. The "Highland Inn" on Cache Lake, 2,-000 feet above sea level offers all comforts at reasonable rates. The region is a natural playground of over 2,000,-000 acres, and those who love nature and the wild things that live in her confines can enjoy themselves to their hearts content. Algonquin Park Station where the "Highland Inn" is situated 's only 168 miles west of Ottawa and 200 miles north of Toronto. For anyone whose nerves are troublesome, or through overwork need a rest. or whose health is run down, there is not a more delightful place in America. Write to Mr. Wm. Gall, Manager, the "Highland Inn," Algonquin Park, Ont., for 'all particulars and illustrated booklet.

#### THE CAUSE OF THE DESTRUCTION OF THE CANADIAN TAMARACK.

The almost total destruction of the tamarack, or larch, which took place throughout eastern Canada almost thir- CO-OPERATIVE SALES IN ENGLAND. ty years ago was caused by an insect. the Larch Sawfly. It appeared again about eight years ago, and in it's spread westward tit is repeating its former devastation on the younger tamaricks.

To all who are interested in our forests the appearance of a comprehensive account of this insect entitled. "The Large Larch Sawfly, with an account of its Parasites, other Natural Enemies, and Means of Control," by the Dominion Entomologist, Dr. C. Gordon Hewitt. This has been pubwill be welcome. lished by the Dominion Department of Agriculture as Entomological Bulletin No. 5 and Bulletin No. 10 of the Second Series of the Experimental Farms Bulletins, and may be had free on application to the Publications Branch, Department of Agriculture, Ottawa.

Dr. Hewitt has studied the life-history, habits and means of control of this injurious sawfly, both in England and North America. In England, it §

was found that the natural enemies, as pecially parasitic insects, effectually gained control of outbreaks of the in Other natural enemies were sect. mice and birds and a system of bird encouragement was started on a large scale. The devastating spread of the sawfly in North America was due to the comparative absence of the natural means of control. Several important species of parasites new to science were discovered and have been studied and described. To increase the number of natural enemies of the sawfly, attempts are being made to introduce and establish in Canada parasites which were discovered in England and which appeared to control the pest there. An account of these interesting experiments and of the methods devised to encourage the birds and other means of control are described in this bulletin, which consists of ferty-two pages, and contains twentysix figures, including a coloured plate. The publication of this bulletin is indieative of the attention which the Diviion of Entomology is now devoting to the insect pests of our ferests which are responsible for incalculable loss each

One of the features of the wholesale co-operative movement in England is the annual sale of dried and green fruits, cheese, bacon, tea, coffee, drysalteries (salted and preserved foodstuffs), flour, etc. It is at these sales that the retail co-operative societies obtain their stools of goods.

The latest sales of this kind in Neweastle occurred October 24, when some 600 representatives from retail co-operative societies in northern England were present to bid for the goods offered. The following was the result of the sale:-

\rticles-	Amount.
Pried fruit	 \$261.481
Creen fruit	 28,007
Cheese	 71.454
Pacon, lard, etc	98.497
Flour	68 461
Soap

SIZES OF BROWN PAI	PERS.
Casing	46 x 36
Double Imperial	45 x 29
Elephant	34 x 24
Double four pound	31 x 21
Imperial cap	29 x 22
Haven cap	26 x 21
Bag cap	26 x 191/6
Kent Cap	21 x 18

Tea, coffee, cocoa	 	35,257
Sundries	 	125.552
Drysalteries	 	38,371
Biscuits, sweets and jam	 	14,599
Paper		4,233
Tobacco	 	8,190
Total :	 	\$766,010

How important these sales of the wholesale co-operative societies have become and the rapid growth in the amcunt of business done can be seen from the following table, which gives the total amount of the sales for each year since they were begun:

Year		Amount.	Yea	ľ	Amount.
1893		 \$53,531	1903		\$337.890
1894		 77,864	1904		321.539
1895		 136,675	1905		335.204
1896		 167,066	1906		407,184
1897		 246.128	1907		556,552
1898		 302,097	1908		512.890
1899		 315.947	1909		587.693
1900		 348.066	1910		527.742
1901		 310.365	1911		677,859
1902		 358,436			

#### NEW INVENTIONS

-Consular Report.

The following patents have been recently secured through the agency of Marion and Marion, Patent Attorn ys, Montreal, Canada, and Washington, D.C.

Any information on the subject will be supplied free of charge by applying to the above name,' fim.

Canada: Frederick Beck, France, rotary engine; Jeffray X. Cossette, St. Narcisse, Que. ditch ng machine; Marcel M. G. Maloor, Ariana, Tunis, apparatus for digging the ground; Cyrins Thibarlt, Victoriaville, Que., milk can; Benjamin J. Forrest, Montreal, Que., rack-drive mechanism for monorail systems; White and Patterson, London, Eng., manufacture of white lead: Heinrich Beck, Meiningen, Germany, electric arc-lemp for search-light, projectors and the like; Alfonzo Charpaize, Dayton. U.S.A., garden tool; Patrick H. Gleeson, Montreal, Que.,

bottle locker: Lothar von Koppen, Pots- record one, has been surpassed in 1911dam, Germany, blades for skates, sleighs. 12. The Indian season is reckoned from skis and the like.

Montreal, Que., straight edge guide.

#### TEA PRODUCTION AND CONSUMP-TION.

In view of the increase in investments in tea companies' shares which has taken place since the rubber boom attracted attention to the plantations in the Middle East, the annual report on the ter trade in 1911-12, published by Brooke, Bend and Co., is of interest. The Indian crop of 1910-11, although a

June 1 to May 31, and for 1910-11 the United States: Allen B. Darbyson, total exports for India amounted to 258, 381,800 pounds, an increase of over 6. 000.000 pounds on the previous season's This year's exports, however, figures. have reached 264.143.800 pounds; the increase, it is stated, is due to intensive cultivation rather than to extension of area, which has been rendered almost impossible by the shortage of labour, due to the rapid development of the rubber plantation industry. Exports from India to the United Kingdom increased by 9.500,000 pounds, to America by 1. 500 000 pounds and to Australia by 500.

000 pounds, but direct trade to Russia was naily 9,000,000 pounds less. During the year 1911 Ceylon produced nearly 6,000,000 pounds more than in 1910, but during the first six months' of the present year her exports were over 300,-000 jounds less than in the corresponding period of last year. The quality of the crop, moreover, has not been quite up to average, a large amount of poor tea having been turned out in order to take advantage of the favourable markets. Much attention is being paid in Ceylon to the production of green tea, large quantities of which are sent to the United States. Canada and Russia .- London Economist.

Formerly known as Lothbiniere Point.

On the line of the Grand Trunk and Canadian Pacific; fronting on the St. Lawrence; clear stream of one side with shelter for Boats above and below the Ralls. Also one island adjoining. Area in all about 44 acres.

Apply to-

P. N. FOLEY, Manager, "Journal of Commerce," Montreal.

gage is frequently received for checking. A check, on being delivered to the passenger, will be perforated to show whether the piece of baggage is a trunk, suit case or valise, fiver case or tool chest. Another perforation will show the condition in which the baggage was received at the office. In this way the duplicate check will contain a full description of the baggage when it was brought to the company for shipment.

The number on the tag portion on the check is placed at the bottom, while on the duplicate portion it is printed at the top, so that the two can be easily matched when the baggage is delivered. It is expected that the new check will minimize the matching of numbers wrongly and will greatly reduce the number of claims.—Trade and Transpor

### The Bank of Montreal.

NOTICE is hereby given that a DIVI-DEND of TWO-AND-ONE-HALF PER CENT upon the paid up Capital Stock of this Institution has been declared for tne three months ending 31st October, 1912, also a Bonus of One Per Cent, and that the same will be PAYABLE at its Banking . House in this City, and at its Brancaes, on and after MONDAY, the SECOND DAY of DECEMBER next, to Shareholders of record of 31st October, 1912.

The Annual General Meeting of the Shareholders will be held at the Banking House of the Institution on MON-DAY, the SECOND DAY OF DECEM-BER. next.

The Chair to be taken at Noon. By order of the Board.

H. V. MEREDITH,

Ceneral Manager.

Montreal, 25th October, 1912.

#### TH

# London Directory

(Published Annually)

ENABLES traders throughout the World to communicate direct with English

#### MANUFACTURERS & DEALERS

in each class of goods. Besides being a complete commercial guide to London and its suburbs the Directory contains lists of

#### EXPORT MERCHANTS.

with the goods they ship, and the Colonial and Foreign Markets they supply;

#### STEAMSHIP LINES

arranged under the Ports to which they sail, and indicating the approximate sailings;

#### PROVINCIAL TRADE NOTICES

of leading Manufacturers, Merchants, etc., in the principal provincial towns and industrial centres of the United Kingdom.

A copy of the current edit on will be forwarded, freight paid, on receipt of Postal Order for 20s.

Dealers seeking Agencies can advertise their trade cards for £1, or larger advertisements from £3.

# The London Directory Co., Ltd. 25 ABCHURCH LANE, London. E.C., Eng.

### STERILIZING WITH LIGHT.

Water is being sterilized on a large scale in France with the use of ultraviolet rays. The apparatus utilizes the copious emission of these short waves from a mercury vapor lamp having a quartz tube. More than three-quarters of the rays coming from the special lamp are utilized, and sterilization to the point of leaving one germ to the cubic centimetre is accomplished by causing the water to traverse a zigzag path close to the lamp, thereby exposing it to the repeated action of the waves.

The test showed, says an exchange, that the process was only efficient for municipal purposes. It is low in cost and simple in operation, occupies little space, uses a very small amount of electric current and remains fresh, since it retains its dissolved air and has not been treated in any manner. For municipal water service the apparatus may be applied to the outside of the ordinary main, the radiation being transmitted through quartz windows in the main.

#### SYNOPSIS OF CANADIAN NORTH-WEST.

#### HOMESTEAD REGULATIONS.

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan, and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency, on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

DUTIES:—(1) At least six menths' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80 acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to per form his residence duties in accordance with the above while living with a coron farming land owned by himself

or on farming land owned by nimself must notify the Agent for the district of such intention.

Gen. Agent, French Department.

#### PROPERTY FOR SALE

The property at the junction of the Ottawa and the St. Lawrence Rivers, some 25 miles west of Montreal, within easy reach by two railroads (general and suburban service, at frequent intervals day and night in 40 minutes); also by water.

The current between the mainland and one of the islands is caused by a fall of several feet from the Lake of Two Mountains into the River St. Lawrence.

The mainland portion contains nearly four acres; the island nearly one fourth of an acre. The land slopes from a height of about ten or twelve feet to the lake and river. .

The spot is quite picturesque, and as it is more or less preserved by the owner, there is scarcely any better fishing within double the distance of Montreal. There are excellent boating and shelter for yachts and small boats on the property.

The place was anciently known as "Lotbiniere Pointe," but has been re-named by the owner "Roslevan," from its peninsular shape and the ancestral elms growing upon it.

The mainland portion and one island are now offered for sale on application to-

P. N. FOLEY,
