Truth for the Million.

The great number of parties, (including the mateninent physicians of the Pravince.) who have testified to the efficacy of these waters, whish it has placed them high in the estimation of the palot, has induced some other proprietors of scaled mineral springs, to try to put their waters as the same footing with the Plantagenet. Nothing can be more absurd than this. These other insure Springs have been known to the public in some instances for fifty years, and in that time what have they done? Have they anything to show for the patronage they have received from the patronage they have received from the public How have they around since the Plantagenet Waters were insuduced to the Public, and in that short-space of the what has become of other Springs, which were known before them? Can any amount of puties gaine the public believe that they deserve to be sentoned in the same breath with the Plantagenet Water with an once used the Plantagenet Water with the north of the public have declared that they would some pay twen, y other has been present with the Plantagenet water. Their inferiority is an arrie, and they are comparatively so worthless, that infered have declared that they would some pay twen, y other has been been for them. Yet

One great cause of this preference is the distinct that cause of this preference is the distinct that cause of the preference is the distinct that cause of the plantagenet Water, and more specially its solidity of body, and the glatinous quality it possesses, which distinguishes it in a remarkable degree from all other waters, which appear poor and thin in comparison with it. It may be truly said to have done more for the public has ever performed in fifty, and some of the waters in thas effected are truly mineraloue. Many of these facts are already before the public, and other can be ascertained at Plantagenet, where the public are invited to judge for the public, and other can be ascertained at Plantagenet, where the public are invited to judge for the public, and other can be ascertained at Plantagenet, where the public are invited for one of the limbs have been restored to health and rigor by the use of it. The public are invited fin confirmation of this fact) to peruse the numerous lesimonals of medical men and others, and particularly that of Dr. Nelson, who speaks of effects voluced on members of his own family. Such ing the case, it cannot be wondered. It has the water of th

BRITANNIA LIFE ASSURANCE COMPANY,

CAPITAL-ONE MILLION STERLING. Empowered by Special Act of Parliame Vict., Chap. 9. REDUCED RATES OF PREMIUM. HALI CREDIT RATES OF PREMIUM.

No. 1, Princess Street, Bank, London.

CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to HEDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much loser Rates of Premium than those of any other Assurance Company & ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of FREMIUM which have been so highly approved, and are so by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured-in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
