Twelfth of July Celebrations

The Brethren of Several Lodges Attended Church Here on the Fifteenth

On the 12th of July this year there was no celebration under the auspices of the National Grand Lodge or Provincial Grand Lodges, but the day was celebrated locally in all parts of the country by excursions and parades on that day or by special church services on the 8th or 15th instant.

At a large meeting of St. John city and Kings and Queens county brethren at Gagetown on the 12th, the following resolution was adopted and telegraphed to Sir Robert Borden:

Resolved, that the Orangemen assembled at Gagetown, N. B., today from different parts of New Brunswick heartily endorse your conscription bill and its principles and will stand by you.

At Newcastle

Over 100 Orangemen, from the Royal Black Preceptory, Loggieville; and the Lodges at Loggieville, Chatham, Douglastown, Newcastle, Redbank, Whitney and Chelmsford, attended service in the Methodist church at Newcastle, Sunday morning at eleven o'clock, making the largest and most creditable Orange demonstration here since the Grand Lodge celebration several years ago. The brethren lined up under the direction of Director of Ceremonies, W. A. Touchie, assisted by Grand Director of Ceremonies, D. C. Smallwood, at the Orange Hall about 10.30 and marched to the church headed by the band of the 73rd regiment. The church was filled to its utmost capacity and an eloquent address was given by the pastor, Rev. Dr. C. W. Squires from Phillips II-5—"Let this mind be in you which was also in Christ Jesus."

After tracing the growth of religious conceptions from the earliest sources, Rev. Dr. Squires said that religion was always a free man craves for freedom to express his higher feelings without danger of interference. Religiously he cries, as did Patrick Henry, politically, "Give me liberty or give me death!" The Orange Order stands for this freedom. The Bible is full of the account of the struggle for freedom, as are also the pages of profane history, including our own from Magna Charta to the present time. The Orange Order carried on the principles endorsed by the Magna Charta—a freedom according to law—a freedom giving equal rights to all. Christ taught, continued the speaker, that freedom must be won by love and suffering. Germany had been warring by bare force of the spirit; all eyes had been upon her; but the Prussians, in order to grasp everything quickly, drew the sword and are now perishing by the sword. So it was with France under Napoleon. Dr. Squires reviewed the humble origin of the Orange Order. Starting on Sept. 21st, 1795, in the house of James Sloan in County Armagh, it had grown in power and influence, and today occupied an important and responsible position, standing for Loyalty, Freedom, Equality, and Unity.

At least 60,000 members of the Order in Canada were today fighting overseas for the maintenance of those principles. He urged the members to stand true to their high standard in all walks of life.

Music was furnished by the organist choir of the church, led by Miss Crocker.

On the return of the brethren to hall, they were called to order by the Worshipful Master of No. 47, who gave a short address and later thanked the visiting brethren for their attendance and assistance, on behalf of Newcastle lodge. Short addresses were also given by Past Provincial Grand Master E. H. Clarkson of Stanley and Co. Master R. A. Walls of Chatham.

NORTH SHORE CASUALTY LIST

Killed in action:

H. Sutherland, Blissett

R. E. Murphy, Bass River, Kent Co.

Dead of wounds:

Hugh Major A. Watling, Chatham

F. J. Vautour, Burnsville

Missing:

A. E. Bass, Douglastown

Prisoner of war:

W. M. Mann, Chatham Head

Missing from Shell Shells:

W. E. Ryan, Newcastle

Missing from Camp Belknap:

F. H. Hays, Shell Creek

A. Hays, Cogan

Two Miramichi Young Men Drowned

Terrible Accident Between Chatham And Ferry Road Sunday Morning When Boat Carrying Four Men was Swamped

A very sad drowning accident occurred in the Miramichi off Douglastown about one o'clock Sunday morning, when Abraham Patrick of Lower Neguac and Burton Snare, eldest son of Mr. and Mrs. Wm. Snare of Ferry Road, lost their lives. Along with Andrew and Walter McEwen, of Ferry Road, the young men, both aged about 23, had gone to Chatham to spend the evening. They crossed the river in Messrs. McEwen's boat. Returning about midnight, they were unable to find their boat. The only other boat available was an old row-boat, hauled up on the shore near the M. S. N. Co.'s wharf. The upper board of this boat was loose, and when the men were over half way across, water came in. Gradually the boat became unmanageable and began to settle. In the excitement it was overturned and all four found themselves struggling in the water.

Messrs. Snare and Patrick appeared to have sunk immediately. Patrick rose once but finally sank without a word. Walter McEwen swam until he gained hold of the boat and managed to hold on to its bottom until rescued. Andrew McEwen

swam towards shore and finally caught a block of the Miramichi Lumber Co.'s boom and climbed up on it and encouraged his brother to hold on to the boat. A neighbor hearing cries from the river, arose, and as soon as he had located the cries, rushed to the next house where there was a boat and alarmed the occupants, Alexander and Robert Hutchison took their boat, hauled it over the logs, and rescued Walter McEwen and then his brother.

Dragging the river near the scene of the accident all Sunday and Monday failed to locate the bodies of Patrick and Snare.

Each of the deceased was about 23 years of age. Mr. Patrick leaves a young widow. He was employed for the last few years with McEwen Bros., and Mr. Snare worked with the Dominion Pulp Co. He leaves his parents and one brother. Much sympathy is felt for the bereaved families.

The bodies were found this morning, that of Mr. Snare at Morrisson's Cove, across the river, and of Mr. Patrick at McEwen's Mill, Ferry Road.

Two Thousand Dollars A Month

Patriotic Fund Adds Two Beneficiaries.—Advice to Applicants

The West Northumberland Patriotic Fund met Tuesday night, Mayor Morris in the chair, others present: E. P. Williston, sec.; R. C. Clark, Treas.; R. W. J. Bate, P. W. Dixon and S. Gray; and H. H. Stuart and J. R. Lawlor.

Following were added to the list of beneficiaries, which for May last numbered 122 drawing \$1982.50. Mrs. Katie Vernon Ritchie, wife of Mr. Ritchie of McGivney Jct. member of No. 2 N. B. Forestry Co., \$15 a month from June 1st.

Mrs. Rose Mattatal, Newcastle, wife of John S. Mattatal, of No. 2 N. B. Forestry Co., \$17.50 per month from June 1st.

Another application was sent back for the amount of assigned pay to be filled in and certificate of enlistment, without which no grant is made. Rev. Father Dixon complaining that the officers in charge were sometimes negligent in giving the certificate when asked by the soldier. He instanced one case in which a soldier was kept waiting 3 weeks by his officer before he got his certificate he had asked for.

The case of a deserter but had since rejoined his own battalion and had been reinstated after being given 14 days C. B. and having 46 days pay deducted, was considered. It was claimed by some that the rule that a deserter who joins another unit is not entitled to patriotic money until actually overseas applied to this case. By others it was claimed the case of a man who rejoins his own regiment and is forgiven therefor is different. The point was referred to Ottawa.

It was emphasized that no application should be made for patriotic fund assistance without an officer's certificate of the soldier having enlisted and without a statement of amount of soldier's pay assigned to dependants.

Agricultural Society No. 122

Standing Field Crop Competitions For 1917

Standing Field Crop Competitions will be held in Northumberland County this year.

Provision is made for contests in the growing of oats two acres, wheat one acre, turnips one-half acre, buck wheat one acre, potatoes one half acre.

Copies of prize lists and entry forms will be furnished by the secretary, G. O. Stothart, Newcastle, on application.

Pretty Wedding At Fredericton Yesterday

Miss Mary C. Ivory of That City Becomes the Bride of P. L. Flanagan, of Chatham

St. Dunstan's Church, Fredericton, was the scene of one of the prettiest weddings of the season yesterday morning when at seven o'clock Rev. Father Carney performed the nuptial ceremony which united in marriage Miss Mary Cecilia Ivory, daughter of Mr. and Mrs. Patrick J. Ivory, of Fredericton, and Mr. Patrick Lawrence Flanagan, son of Mr. and Mrs. Martin Flanagan, of Chatham.

Promptly at seven o'clock the bride entered the church leaning on the arm of her father and was becomingly gowned in a suit of grey silk poplin, with white hat and carried a prayer book with floral hangings. She was attended by her cousin, Miss Nellie Power, of Nelson, who looked very winsome in a suit of royal blue silk with hat to match, and carried a bouquet of pink sweet peas. Mr. Jas. Dunn, of Blackville, now operator at Gibson station, ably supported the groom. As the bridal party entered the church, Miss Gertrude Barry, the organist, played Lohengrin's Wedding March, and during the nuptial mass rendered very sweetly the Ave Maria and the Rosary, and as the party left the church Mendelssohn's Wedding March was played.

The bride, who is one of Fredericton's most popular young ladies, was for some time on the business staff of The Gleaner and was the recipient of many beautiful gifts, including silver, cut glass, furniture, linen and several cheques, including one for a hundred dollars. The office of The Gleaner gave the bride Community Silver. The groom's gift to the bride was a beautiful pendant, to the bridesmaid a jet rosary and to the groomsmen a stick pin. Mr. and Mrs. Flanagan left on the nine o'clock train for St. John, where they will spend a day or two and then go to Chatham, where they will reside.

There was a large crowd at the station to wish the young couple bon voyage and they were showered with rice and confetti. Among the out-of-town guests here for the wedding were Miss Power, Miss Doucette, Mr. and Mrs. Mark Flanagan, Miss Flanagan, Misses Woods, Harry Power, and Miss Redmond, who were the guests of Mr. and Mrs. Ivory while in the city.

Any member may make entries in one or more of the competitions. A farmer who is not a member of an Agricultural Society may participate by joining the Society to which he should geographically belong.

Entries will be received to July 25th. The prizes offered are well worth going after. Start now. Look over the crop and let the secretary hear from you. Entry fee 25 cents.

Tag Day A Great Success

Red Cross Young Ladies on July 14th Collected \$304.45 for Wounded French Soldiers

The "Tag Day" Committee of the Red Cross Society wish to thank all those who helped to make the day such a success. Particularly the young ladies who tagged, the band, and those who loaned automobiles or teams.

The following is the list of the young ladies together with the amounts collected:

Misses Florence Hickson and Jean Robinson	\$33.89
Misses Florence Ferguson and Annie Armstrong	24.42
Misses Nan Creghan and Louise Maney	8.52
Misses Mona Lindon, Hazel McMaster and Evelyn Price	10.30
Misses Pearl and May Wright	21.58
Misses Laura Aitken and Caldwell	8.05
Misses Margaret Sullivan and May Morrison	14.20
Misses Margaret Callahan and Lottie McWilliam	8.45
Misses Elizabeth Nicholson and Marjorie Kennedy	4.59
Mrs. Arthur Barry and Miss Jennie M. Fellows	4.80
Miss Jennie Greenley and the Misses Creamer	44.69
Misses Mildred Blaine and Lillian Coughlan	8.89
Misses Muriel Bate, Beale Crocker and Leslie Wilson	4.55
Miss Alma LaBillio	10.00
Misses Janie Irving and Bertha London	20.00
Douglastown:	
Misses Helen Stables, Annie Bell, Kathleen Moore, Marion MacArthur and Elva McCurdy	10.25
Derby and Millerton:	
Misses Maud Atkinson and Ella O'Donnell	12.67
Nelson:	
Misses Annie McCombs and Bertha Crocker	50.10
Total amount collected	\$304.45

Serious Accident At Chatham Mill

Clifford Lobban was Caught Between Wood Chute and Cart and Badly Injured

Clifford Lobban, the sixteen year old son of Mr. and Mrs. Earl Lobban, met with a serious accident while at work in Snowball's mill, at Chatham, on Monday, and as a result he now lies in a critical condition at the Hotel Dieu Hospital.

Young Lobban was employed in attending the chutes that carry the cut-wood to the carts. For some cause the fastening that keeps the cart-box in a horizontal position became unfastened and the wood struck it the tail-end of the cart causing it to tip backward, Lobban being caught between the top of the cart and the side of the chute, his head being severely injured. He was removed to the hospital in an unconscious condition, but is now on the road to recovery.

TERRIFIC STORMS

The present summer has been noted for storms. The worst of the season struck Miramichi Tuesday afternoon, when the rain fell in torrents, almost in a sheet. There was also a little hail here. Up river, in Strathadam, Chelmsford, etc. but no so far as Blackville, hail fell heavily, beating strawberries into the ground, and seriously damaging other crops. Several houses in Strathadam and Millerton had windows broken by the hail. Throughout York county the present summer has been noted beyond others for years past for the severity of the electrical storms and heavy rains. Monday's storm was accompanied by cloudbursts in certain sections and on Sunday a section of the parish of Queensbury was visited by a similar phenomenon.

Monday afternoon, during a heavy electrical storm, lightning struck the home of Orland Hawkins, Douglas. Fire was set but was extinguished before much damage was done. During the same storm lightning struck the dwelling of Amasa Dunphy, Springhill. The telephone was torn from the wall and in the house of Coup. Tabor Everett the same shock following the telephone line tore the instrument from the wall. During the preceding week the house of Mr. Dunphy had been struck but the damage was slight. On the Nashwaak three head of cattle were killed by lightning.

Haying Tools

The Haying Season is Here Again

Look over the list below, there may be something you will need for Haying.

SCYTHES	HAY FORKS
SCYTHE SNATHS	HAND RAKES

D. W. STOTHART'S

Hon. L. J. Tweedie Died on Sunday Evening

Was Leading Lawyer, Ex-Premier and Ex-Governor

Hon. L. J. Tweedie passed away suddenly at his home in Chatham on Sunday evening, 15th instant. He had been in failing health for some years, having repeatedly gone away to consult specialists, but had, nevertheless, been able to move about until very recently, and his early death was unexpected. He was in his 68th year, having been born, of Scotch-Irish parentage, at Chatham, on Nov. 30, 1849. He retained all his faculties till the last, and never lost that keen interest in public affairs which had marked his whole life, up to within a few hours of his death.

He was looked upon as Chatham's most distinguished citizen and the whole town turned out to the funeral on Wednesday afternoon to pay their last tribute to his memory.

Since he retired from the government in 1912, Hon. Mr. Tweedie devoted more attention to his law practice and it had been frequently rumored that he would re-enter political life.

His Career

The late Mr. Tweedie was educated at the Chatham Grammar School and at the Presbyterian Academy. His rich fund of scriptural quotations which lasted him through his life, was, no doubt, based on his attendance at the famous church institution of the old days. He took naturally to the law and was called to the bar in 1871.

Since that time he had been prominently identified with public life in his own constituency and in the province. He was first elected to the provincial legislature at the age of twenty-five, in 1874, representing his home county. Four years later he suffered defeat but he came back in 1888, and in 1890 he became surveyor-general in the Blair administration, holding office in the Government from that time continuously up to his retirement in March, 1907, to accept the Lieutenant-Governorship of the Emerson administration and succeeded to the premiership in 1906. He was invariably successful in elections and was regarded as an able and skilled political leader.

In 1902 he was, along with Mrs. Tweedie, presented to King Edward and Queen Alexandra at St. James' Palace, London, and in 1906 he was one of the outstanding figures at the Inter-Provincial Conference at Ottawa, which resulted eventually in more favorable treatment of the province by the federal administration.

For five years Hon. Mr. Tweedie graced the governorship and was one of the most popular incumbents of the office New Brunswick has known. He has served as a senator of the University of New Brunswick, and of Mount Allison, as a director of the Halifax School for the blind, and has been president of the Miramichi Agricultural and Exhibition Association, and of the North American Fish and Game Protective Association. He always took a deep interest in education and often addressed the Chatham schools on closing day.

To encourage the consolidation of schools he offered prizes for competition when the first consolidated school of the province was founded at Kingston, N. B.

Hon. Mr. Tweedie was a generous supporter of St. Andrew's Presbyterian church, of Chatham, and an honored member.

He always took a keen interest in the volunteer militia, was a member for many years and was awarded the long service medal by the late King Edward VII in 1903.

Important cases on the North Shore. In debating in the legislature he was a force to be reckoned with and his opponents were ready to admit that he invariably made a good impression in the House. Although he entered the Blair government as a Conservative, he did not care much for party ties and gradually came to be regarded as a supporter of the Federal Liberal party as well as a tower of strength to the local administration.

Commanding in presence, with a deep, powerful and compelling voice, he found it was easy to hold his audiences and he was a most entertaining speaker on any subject. He was particularly successful as an after dinner speaker, possessing, as he did, a rare vein of humor and a rich fund of anecdotes. At all times he was a most pleasant companion and was a much travelled and well read man. His services to Chatham and to the county of Northumberland in the last forty years were great while his contribution to the life of the province in an era of expansion was also a most considerable one. Always of happy disposition, thoroughly democratic in manner, he was popular with his townspeople and others and there are many who mourn his loss.

Hon. Mr. Tweedie married in December, 1876, Miss Agnes Loudon, daughter of the late Alexander Loudon, of Chatham, who by her tact and ability was a great aid to him in his career and proved a gracious hostess at government house. She survives her husband. There are also four sons and two daughters. The sons are Fred M., manager of the Miramichi Foundry and Machine Works, Chatham and former Mayor; Murray and Joseph L., at home, and Lieut. Arthur H., now in England with the 104th Battalion.

The daughters are Mrs. J. Stuart Benson of Chatham, and Mrs. D. McEwen of Rochester, N. Y. There is much heartfelt sympathy for the bereaved.

The funeral was very largely attended. Services at the house and grave were conducted by Rev. Dr. Wylie, assisted by Rev. John Harris and D. Henderson and Rev. S. J. MacArthur of Newcastle.

In the absence of Worshipful Master R. A. Loggie of Miramichi Lodge No. 18, A. & F. Masonic services were conducted at the grave by Deputy Grand Master Col. J. D. B. McKenzie.

The Mayor and Town Council of Chatham attended in a body; also the Barristers of the county, with Hon. Judge McLatchy of Campbellton; Lt-Governor Ganong, Premier Foster and members of the Provincial Government; and Northumberland Lodge of Masons No. 17, Newcastle; besides a vast concourse of townsman and people from various places all over the county.

Interment was in Riverside cemetery. The pallbearers were R. A. Lawlor, George Watt and J. V. Brankley, Chatham; High Sheriff John O'Brien, Nelson; W. A. Park, Newcastle; and James Robinson, Millerton.

TWO YEARS FOR THEFT

Alex. Robichaud, stableman at the Depot Hotel, Chatham, who was arrested last week charged with removing goods to the value of about fifty dollars, from a wagon belonging to Abraham Asouff, was on Saturday sentenced to two years in the penitentiary but the sentence was allowed to stand pending future good behavior.

REDBANK COUPLE WERE MARRIED YESTERDAY

The marriage of Miles A. MacAllister of Little South West Miramichi and Miss Eva S. Macalister of Redbank was solemnized in the Baptist Parsonage, Wednesday afternoon, Rev. S. Gray officiating clergyman. The witnesses were Mr. and Mrs. John J. Somers.

Loggieville Loses Aged Resident

George McIntyre, Well Known Stevedore Has Passed Away

Mr. George McIntyre, one of the most respected and best known citizens of Loggieville, passed away at the home of his son, David McIntyre at twelve o'clock on Tuesday. The deceased was born at Bay du Vin, seventy-nine years ago and was married and settled in Loggieville in the early sixties. He followed the occupation of stevedore, and at his death was the oldest of the men who followed that business on the river. Always honest and upright in his dealings with his fellowmen, he will be much missed in the community. He leaves to mourn his loss four sons and one daughter. They are John and David of Loggieville; George of Rumford Me., Philip J., of Chatham, and Mrs. J. O'Brien, of Loggieville. Mrs. McIntyre died about twenty-four years ago.

The funeral took place from his late residence at nine o'clock this morning.

Obituary

MRS. WM. CLARKE

The death of Mrs. Wm. Clarke of Stillwater, Minn., whose husband formerly belonged to Upper Nelson, N. B., occurred on June 30th. She leaves her husband and four children Wm., George and the Misses Blanche and Myrtle. The bereaved husband is a brother of T. J. A. Clarke of Newcastle, Geo. Clarke of Upper Nelson, Abram E. Clarke of Woodstock and Mrs. E. Maxwell of St. Stephen.

LT. J. C. HANSON

Lieut. John C. Hanson, B. A., only child of Inspector R. D. Hanson, of York County, late Principal of Chatham Grammar School, has been killed in France. Lt. Hanson was in the Royal Flying Corps and met death in an airplane accident. He was, before going overseas, Principal of Riverside Consolidated School.

MRS. GEORGE CADY

The death of Mrs. George Cady occurred at her home in Chatham on Sunday, after a long illness. Deceased is survived by three sons—George of St. John, Joseph in the firing line in France, Robert at home, also two daughters, Mrs. Henry Kelly of St. John and Mrs. John Clancy of Chatham. The funeral took place on Tuesday morning at St. Michael's cathedral where requiem mass was celebrated by Mgr. M. A. O'Keefe. Interment was made in St. Michael's cemetery. The pallbearers were Messrs. Isaac Copp ing, Patrick Quinn, Jas. Barry, Thomas Whitty, Wm. Maher, Edward Haines.

MRS. ANGUS MACDONALD

The death of Mrs. Christina Macdonald, widow of the late Angus Macdonald of Silliker, occurred at the home of her son Henry, at Silliker, on Sunday last. Deceased, a highly respected member of St. Stephen's church, was in her 92nd year. The funeral took place on Monday afternoon, interment in St. Stephen's cemetery, Redbank. Services were conducted at the house and at the grave by the pastor, Rev. J. F. McDunn, Wm. Hare, John Matchett, Isaac Blackmore, James Johnston and Albert Murphy. Deceased leaves six children: Martha (Mrs. Allan Matchett), Silliker; Lucinda (Mrs. John Matthews), Silliker; Margaret (Mrs. John Hastings), Port Elgin; Joseph, U. S. A.; and Henry and John of Silliker. Deceased also leaves 33 grandchildren and 79 great grandchildren.

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my old girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCERAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Must Not Oppose Conscription

No Agitation Against it to be Allowed After the Bill Becomes Law

Ottawa, July 12.—After the House of Commons had finished the preliminary discussion of all the sections in the militia bill last night the Solicitor-General gave notice of a most important new section designed to put a drastic ban on all agitations against the enforcement of the bill once it becomes law.

Clause one provides that any person who by means of any written or oral communication, or by any public speech or utterance, advises, urges or advocates that the men, or any of the men mentioned or included in any of the classes liable to conscription, shall contravene, disobey, neglect or fail to comply with

all or any of the requirements imposed upon them by the act, or by regulations made thereunder, or who wilfully resists, obstructs, hinders or impedes or attempts wilfully to resist, obstruct, hinder or impede, or who persuades, induces or influences or attempts to persuade, induce or influence any person, or anybody or class of persons to resist, obstruct, hinder or impede due execution of this act in any respect according to the provisions of the act, shall be guilty of an offence and shall be liable upon indictment or upon summary conviction to imprisonment for a term not less than one year nor more than five years.

Prussia To Have Manhood Suffrage

Worst Voting System in the World to be at Last Done Away With

Berlin, July 11, via London, July 13.—Emperor William has directed the following decree to the president of the state ministry:—Upon the report of my state ministry, made to me in obedience to my decree of April 7 of the current year, I hereby decide to order a supplement to the same, that the draft of the bill dealing with the alteration of the electoral law for the house of deputies, which is to be submitted to the diet of the monarchy for decision is to be drawn upon the basis of equal franchise. The bill is to be submitted in any case early enough that the next elections may take place according to the new franchise. I charge you to make all necessary arrangements for this purpose.

(Signed) WILLIAM. (Counter-signed) Bethmann-Hollweg

Suffrage in Prussia. In Prussia the voters are divided into three classes, according to the amount of taxes they pay. In each electoral district the total amount of taxes paid is divided into three equal parts. Those citizens whose combined taxes represent one-third of the whole choose one-third of the electors. Those who pay the next one third choose a third, and the next who make up the mass of the population, choose the remaining third. In one district in Berlin, three citizens pay one-third of the taxes, eight citizens pay another third, and 294 pay the remaining third. Thus the three men in the first class choose as many electors as the 294 in the third.

The election of 1903, when the Social Democrats first contested seats in the Prussian lower house, concretely illustrates how this system works. They cast 314,149 votes and the Conservatives cast 324,157. The Social Democrats did not elect a single representative, while their opponents elected 143 in the last election preceding the war, the Social Democrats cast 24 per cent. of the vote and elected seven members in a house of 420.

Practically this same system, with certain modifications, prevails in Saxony and minor states, while the Mecklenburgs have no representative chambers at all, their present system being a clear survival of medieval institutions.

Following Russia. Germany is moving toward revolution. The present German crisis is not the result of the failure of the submarine campaign or of internal conditions. It is the beginning of the great awakening of the German people.

Germany is living through the political developments experienced by Russia before the revolution. The tide of democracy is rising to the danger point, and Prussianism is in despair. The Reichstag is undergoing exactly the same process of transformation as the Duma, and Kaiserism is headed the same way as was Czarism.

At the outbreak of the war the Duma was a reactionary body. So was the Reichstag. The Duma full co-operated with the Czar's government in the prosecution of the war, asking for no reforms just as the Reichstag did up to a short time ago.

But when military disaster overtook Russia and internal chaos developed, pernicious activities of Czarism grew and the Duma became gradually the champion of democracy.

The Reichstag is passing through the same stages, similar to the Duma's "progressive bloc." It is evolving a majority opposition to the government. The "bloc" in Russia forced the fall of two cabinets before the revolution overthrew Czarism. The

disinfectant and the lime wash is by means of a strong spray pump, such as is used by orchardists. This method is efficient in disinfection against most of the contagious and infectious diseases of animals, and should be applied immediately following any outbreak, and as a matter of precaution it may be used once or twice yearly.—Maritime Farmer.

WHY IS IT?

A correspondent writes to the Moncton Times:—Why has baseball dropped so soon in the city? The M. A. A grounds have been vacated for some time. Nothing doing in baseball circles whatever. Why is it? Boys wake up, and start something. It seems as though baseball had been forgotten by the traffic bylaw. Just a few years ago, it was nothing, but Baseball. Now nobody says a word about it. The editor replies:—Probably the fact that there is a bigger game going forward in France and that young men of military age do not care to attract undue attention by engaging in public athletic contests has more to do than anything else with the falling off in baseball complained of by the correspondent.

St. John has decided that August 4th shall be a civic holiday.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

CHEAPER POULTRY FEED

On account of the scarcity and high price of feed the Poultry Industry of this country is threatened by the prospect of the wholesale slaughter of laying stock and a serious falling off in the number of pullets to be matured.

The federal Department of Agriculture has requested millers throughout Canada to put on the market the cracked and shrunken wheat removed from grain before it is milled. In addition to small and broken wheat these cleanings consist chiefly of the seeds of wild buckwheat. The Poultry Division of the Central Experimental Farm has successfully used wild buckwheat as poultry feed and has ordered two cars of buckwheat screenings for the Experimental Farms. Fowls used to good grain do not take to it at first but when they become accustomed to it they eat it readily and do well on it. The mill cleanings from local flour mills also contain traces of many other weed seeds, including several kinds of mustards. This material is specially recommended for backyard, suburban and professional poultrymen. On farms the cleanings from yards and poultry houses where it had been fed would have to be disposed of so as not to disseminate noxious weeds in grain fields. Those interested in obtaining this class of feed should immediately arrange with local mills or feed dealers to keep a supply for them.

EAST CLARE FOR

FOR INDEPENDENCE. In East Clare, Ireland, last week, Prof. Edward de Valera, the Sinn Fein, Republican independence candidate, won over the Irish Nationalist candidate by 5010 votes to 2,035. There are now three Sinn Fein M. P.'s and Lawrence Ginnell, Nationalist member of parliament for the North Division of West Meath, has announced the resignation of his seat in parliament and says he will join the Sinn Feiners. There is a parliamentary vacancy also in Kilkenny.

LARGE LIFE INSURANCE

The largest life insurance paid in the Maritime Provinces in 1916 was that of the late Bowman B. Law, M. P. of Yarmouth, who lost his life in the Parliament Buildings fire at Ottawa. The amount was \$91,500.

When Your Color Fades

When a girl—or a woman—finds her color fading, when her cheeks and lips grow pale, and she gets short of breath easily and her heart palpitates after slight exertion, or under the least excitement, it means that she is suffering from anaemia—thin, watery blood. Headache and backache frequently accompany this condition, and nervousness is often present.

The remedy for this condition is to build up the blood, and for this purpose there is no medicine can equal Dr. Williams' Pink Pills. They build up and renew the blood, bring brightness to the eyes, color to the cheeks, and a general feeling of renewed health and energy. The only other treatment needed is plenty of sunlight, moderate exercise and good, plain food. The girl or woman who gives this treatment a fair trial will soon find herself enjoying perfect health.

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

DINISFECT AND CLEAN YOUR BARN

Farmers are constantly advised to disinfect their stables, hen-houses, calf pens, etc., but some do not know how to proceed to do it effectively in all cases. The following explicit directions will be found useful and might well be filed for future reference.

Chemical disinfectants are used to good advantage in controlling disease and the following directions for their use are given.

- 1—Sweep ceilings, side walls, stall partitions, floors and other surfaces until free from cobwebs and dust.
- 2—Remove all accumulations of filth by scraping; and if woodwork has become decayed porous or absorbent, it should be removed, burned and replaced with new material.
- 3—If floor is of earth, remove four inches from the surface; and in places where it shows staining with urine, a sufficient depth should be removed to expose fresh earth. All earth removed should be replaced with earth from an uncontaminated source, or a new floor of concrete may be laid, which is very durable and easily cleaned.
- 4—The entire interior of the stable, especially the feeding troughs and drains, as well as milking stools and all other implements, should be saturated with a disinfectant, as cresol compound or carbolic acid, six ounces to every gallon of water in each case. After this has dried, the stalls, walls and ceilings may be covered with white-wash (lime wash), to each gallon of chloride of lime.
- 5—All refuse and material from stable and barnyard should be removed to a place not accessible to cattle or hogs. The manure should be spread on fields and turned under. In addition, the yards should be disinfected by sprinkling liberally with a solution of copper sulphate, five ounces to a gallon of water. The best method of applying the

The Greatest Roofing Development of the 20th Century

NEPONSET Twin Shingles protect your home when fire is raging in the neighborhood, because burning brands falling on such a roof die out harmlessly. Dotted all over Canada you will find these roofs, destined for long years of service and making the most attractive finish possible to the home. The crushed slate finish, Red or Green, is permanent coloring and sheds rain water clean. Such a roof offers every imaginable attraction at a cost little higher than for good wooden shingles.

The Studebaker Car Economy—a Reason for Its Leadership

THE Studebaker Car is economical to buy because its first cost is comparatively low.

The Studebaker Car is economical to operate because its splendid quality reduces maintenance costs to a minimum.

In ratio to power it is one of the most economical cars on the market in consumption of gasoline.

It is not only light in weight, but so perfectly balanced that Studebaker owners frequently get from 8,000 to 10,000 miles on a single set of tires.

Repair parts may always be conveniently obtained at relatively low prices.

The Studebaker Car is economical to own because in ratio to first cost, a

Studebaker has an unusually high second hand value.

On the coast and in the great Western Provinces, where people test and prove their cars on the longest, hardest, hilliest drives in the entire Dominion, Studebaker cars stand up and give the service at a minimum cost for upkeep and repairs.

If economy is a consideration with you, follow the example of thousands of others—buy a Studebaker car.

Let us demonstrate to you the quality and economy of a real Canadian-built car.

Let us show you its splendid power and easy riding comfort.

Call or telephone today for a Studebaker demonstration.

Doaktown Girl Honored

Miss Murray, Who Has Been Matron of the Fredericton Hospital, Resigns to go Overseas as Nurse

Miss M. Grace Murray, of Doaktown, who has been matron of Victoria Public Hospital, Fredericton, for some time past, left that institution Saturday. Her resignation was accepted as she had volunteered her services for overseas and will report at headquarters in Toronto, August 1st.

Miss Murray is in receipt of the following letter of appreciation from the Board of Trustees of the Hospital:

Fredericton, N. B., July 11, 1917

Miss M. Grace Murray,

Superintendent V. P. H.,

Dear Madam,—I beg leave to inform you that at a meeting of the Trustees held on the 9th instant, your resignation of the office of Superintendent was accepted, with much regret, the resignation to take place on the 14th instant.

At the meeting of the board held yesterday I was directed to convey to you the board's very warm appreciation of the valuable service you have rendered the hospital ever since you assumed the responsible duties of Superintendent, and now as you have most loyally offered your efficient professional services to King and country, the Trustees will follow your career with much interest.

May I assure you that you will carry with you the best wishes of every member of the board.

Very sincerely yours,
C. A. SAMPSON,
Secretary of Trustees.

TEACHERS' TAKING SPECIAL COURSES

Twenty-five teachers are in attendance at the course of physical training being given at the Provincial Normal School under the direction of A. S. McFarlane. There are large classes in attendance at the courses in elementary agriculture being given at Woodstock and Sussex.

Mary Pickford Starving in New Specials

World's Sweetheart of the Movies Will be Seen Here in Near Future

That Miss Mary Pickford, the world's sweetheart of the movies, is soon to make her appearance as a regular feature on the screen of the Happy Hour, is the pleasing announcement just made by Manager Richards.

Miss Pickford who has been seen here many times in the past and always has and will be an idol of picture fans, is now starring in the most costly and highest grade pictures yet produced, in fact it is said they are the last work in moving pictures, and the action of Mr. Richards in securing these features should receive every encouragement from the theatre going public, for it

MISS MARY PICKFORD

will be necessary to pack the house every night these pictures are shown to pay actual expense, and in order that Newcastle, (the smallest town in the Maritime Provinces to book these features) should enjoy the highest grade of picture shows yet produced, the public must show their appreciation of the management's efforts.

The Pickford Super-specials as they are called, will all be in six, seven and eight reels and the first picture released is entitled "The Poor Little Rich Girl." This picture was shown recently at the Imperial Theatre, St. John, and drew more favorable comments than any picture shown there in recent years, and it is likely that it will do the same here.

The ambition of the management of the Happy Hour has always been to show pictures of the same class as are shown at the large cities and the engagement of the "Pickford" specials is a crowning effort on their part.

The pictures will be shown here in every case within a few weeks after their release, while in a perfect condition, as are all the pictures shown at the Happy Hour, and not after months of handling, when all cut and torn by constant use.

Manager Richards knowing that the public will appreciate his efforts on their behalf, has decided to show the "Pickford" specials at the price of ten and twenty cents, and not twenty-five cents as is being charged elsewhere where they are being shown, and it must be taken into the consideration that these theatres are showing three and four shows each day—so that packed houses at the lower price will be necessary to ensure the continuation of these pictures.

The first production will be shown here on Friday and Saturday of next week, July 27th and 28th, and will be followed on Fridays and Saturdays thereafter at monthly intervals by picture releases.

Fox Dickens classic "The Tale of Two Cities" will be shown the following week.

For Greater Production

Thirty Lady Teachers Volunteer to Teach Girls How to Can and Preserve Fruit

The campaign for greater production carried on by the Education Department is progressing well throughout the province. Already fifty or more centres have organizations established among the girls, and each girl who has enlisted in this has promised to can or otherwise preserve at least twenty-five quarts of food materials during 1917. About 1000 girls have already enlisted and the enlistments are being added to every day.

The ladies of the women's institutes and other organizations through the province are rendering invaluable service in the encouragement they give to the girls in this movement, and the actual assistance they offer in the organizing and conducting of the work.

The thirty domestic science teachers who in the month of June volunteered to give a part of their vacation, without any remuneration, to help clubs in the methods of canning and preserving, met from July 12th to 14th at the Ladies' College, for the discussion of methods and to definitely outline their programme among the girls' clubs. They received very material help from Miss Nina Nixon of the Ontario Agricultural College at Guelph, Ontario, the representative of the Hon. W. J. Hanna, Food Controller for Canada. They carried on practical work in canning, drying, and other methods of preservation, and lectures and talks were given on methods of economy, proper food values and means of conserving the food supply in war time.

While in Sackville, the localities in the province where clubs are formed were portioned out to these teachers, and they will visit them, spending several days with each club, sometime during the next month. It is expected that they will be able to serve about 100 localities during the campaign. The names and addresses of the teachers who have thus volunteered for the service of the country are as follows:

Helen Jackson, 302 George St., Fredericton; Rose H. Hoffman, Chatham; Jean B. Peacock, Bayfield; Lila A. White, St. Martins; Laura B. Perley, Fredericton; Clarabel O'Brien, Moncton; Ethel E. Swanson, Douglastown; Dorrit McCully, Botford St., Moncton; Katharine R. Bartlett, St. John; Mabel K. Smith, Hampton Station, Elizabeth Nutter, Fredericton Junction; Eleanor M. Roach, Sussex; Mary L. McAllister, Sackville; Violet M. Knapp, Sackville; Mary Howard, Woodstock; Sue C. Prescott, Albert; Hazel L. Alward, 49 Princess St., Moncton; Emma Read, Sackville; Pearl Akerley, Norton; Ida Northrup, Kingston; Harriet Alward, Hampton; Nita Nixon, Guelph, Ont.; Carolyn A. Currie, Fredericton Jct.; M. Althea Wathen, Harcourt; Vera M. Wilson, Chatham; Marjorie F. Lewelling, Perry's Point; Margaret F. Burgess, Hampstead; Myrtle B. Gamong, St. Stephen; Kathleen Steeves, Hillsborough; Gladys Borden, Sackville.

DISMISSED FROM SERVICE

Prof. H. B. Durost, of the Agricultural Department of the local government returned last week from New York, where he was on business purchasing ingredients for next year's fertilizer for the Agricultural Societies United. A letter was awaiting him from Hon. J. F. Tweeddale, Minister of Agriculture, dated June 30th, stating that he was dismissed from office on that day. Prof. Durost was probably one of the hardest worked officials in the government service.

Mr. Fred Carrigan who has been clerk at the Miramichi Hotel for a number of years, has resigned his position, and after a vacation at his home in Nelson, will leave for Westport, Canada.

What Shall We Do For Our Crippled Soldiers

By J. S. DENNIS, of the C.P.R.

It is interesting and gratifying to note the application of thought and skill with which Canada is undertaking the great problem of caring for those of our soldiers who have received injuries in the battles against the Hun. Napoleon would change his opinion that "Republics are ungrateful" could the "Little Corporal" learn of the plans now being worked out for the care and re-training of our boys who are returning crippled and maimed from the trenches of Flanders and Belgium, so that they will be able again to take their places in the ranks of self-supporting soldiers of industry.

We have only to turn back to the history of the civil war to learn the reason for Napoleon's declaration. The maimed veterans of the Union Army were received as heroes, banqueted and feted, provided with artificial limbs, consigned to the class of public charity, and all too soon permitted to drift into the almost hopeless battle for a livelihood in a world that promptly forgot their heroic deeds. Little wonder that some homes under the name of these homes were soon found necessary in every section of the country.

Canada is going about this great problem in an entirely different manner. The Military Hospitals Commission has inaugurated the principle that it is as much the duty of the State to prepare the crippled soldier for the battles of agriculture as it is to provide him with the proper medical and surgical care for his injuries. Vocational training even during the period of convalescence in the hospitals, has already demonstrated the wisdom of this plan. Many men who have suffered such severe losses as that of an arm or a leg, or the sight of an eye, have been enabled through the training provided under the Commission's directions to earn a better living than before they were enlisted for overseas.

But so far Canada has only worked out the test, as efficiency men say. It has been demonstrated that vocational training of our crippled soldiers is an economic saving to the body politic—that their value to the state is greatly increased and that in place of being public charges they can be made independent and self-supporting. There is an insistent demand for a broadening of operations however. The Military Hospitals Commission and the Provincial Commissions have not as yet been able to handle all cases promptly. We cannot blind ourselves to the fact that we will have a much larger number of charges to care for. Were the maimed and crippled from the Canadian Army now in the hospitals in France and England to be suddenly transported to our shores we would be literally swamped with patients and could care for but a small percentage.

This enlargement of the scope of this work should not be undertaken upon a temporary basis. It will take time to properly train these men. Some will be more adept than others. But the initial investment required to build training schools and homes will bring a big return during the years to come.

At the present time the United States maintains nine National Homes for disabled soldiers, which were erected at a cost of \$6,771,427. The number cared for in these homes is upwards of 25,000 yearly—mostly disabled veterans of the Civil War, which was ended more than 50 years ago. In addition to these national homes, practically each one of the Northern States maintain state

SUNNY CORNER

Sunny Corner July 17—Miss Mary Doyle is spending a few weeks with friends here.
Mr. Henry Leach has gone to Nelson for the summer.
Mrs. William J. Murphy was a visitor to Bartibogue last week.
Misses Edith and Georgie Tozer were the guests of Mrs. J. Jardine, Napan, last Sunday.
Mrs. Charles Mullin spent Saturday in Redbank.
Mrs. George Leach visited her mother, Mrs. William H. Matchett, the early part of the week.
The Misses Kathleen and Bridget Mullin are in Chatham for a few weeks.
Mrs. Jane Dunnet, Whitney, is the guest of her mother at the Corner. Quite a large number of ladies took Mrs. Belle Matchett on surprise on the eleventh, it being her birthday. An enjoyable afternoon and evening was spent by all, supper being served at six o'clock.
Miss Ina Mullin, Boom Road, spent the weekend with her cousin, Mrs. David Mullin.
Miss Annie Dunnet was in Trout Brook Sunday.
Messrs. Fred Matchett, Daniel Cain and Alfred Leach attended the Orange march Sunday morning in Newcastle.
Miss Stella Esty is the guest of her sister, Mrs. Thomas O'Shea.

Summer Heat Hard on Baby

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PAPER FROM SEA WEED

A Danish inventor is said to have discovered a process for making newsprint paper from seaweed at half the cost of making it from wood pulp.

DOAKTOWN

Doaktown, July 17—A very heavy electrical storm passed over this vicinity last Saturday evening, and was accompanied by a heavy downpour of rain. The lightning was the most vivid seen in this section for years, excepting for the storm which we had here a week ago Wednesday. While this storm was not long in duration, the lightning struck the barn of Mr. John Mersereau, a well known farmer of South Road, while it did not set fire, it moved one end of the huge barn (100 feet in length) off the foundation, breaking down the foundation at one end. One of the large doors were found out on the interval.

Mrs. Thos. Chalmers and little son arrived home Saturday evening after visiting her sister, Mrs. Lebars of Cape Tormentine.

Messrs. James Dale and Robert Underhill of Blackville, arrived in town Monday en route for Cain's River on a fishing trip.

Mr. and Mrs. Henry Betts are rejoicing over the arrival of a baby girl at their home recently.

Miss Annie H. Doak is at present visiting her aunt Mrs. Thos. Flett of Nelson.

Miss Susie Smith who has spent a few weeks in this town left one day last week for Hillsboro where she will spend some time with Rev. and Mrs. Tully.

Mrs. Frank Russell and Mrs. Geo. Wathen have returned home after a pleasant visit to Chatham and Bay du Vin.

Mr. and Mrs. William Scott of Fredericton, spent Sunday with Mrs. Scott's mother, Mrs. Col. G. W. Mersereau.

Mrs. Beatrice Sims has accepted a position as clerk in Mr. William Bamford's store for a short period.

Mr. and Mrs. Arthur Matheson and two children, of Boston, are visiting Mr. Matheson's sisters, Mrs. B. F. Maltby, Newcastle, and Mrs. Charles Jarline, Nordin.

Among those taking special summer courses for teachers are Miss Ruth Benson of Newcastle, who is taking the science course at Woodstock, and Miss Ruth Thurber of Millerton, the physical training course at Fredericton.

Mr. and Mrs. James Holmes and daughter Miss Greta were visitors to Fredericton on Tuesday.

Misses Clara and Reta Clowater of South Road, were the guests of friends in Boiestown on Tuesday.

The Red Cross Supper last Saturday afternoon was a grand success, the sum realized was one hundred and four dollars. This amount was the appeal for the French wounded.

Mr. and Mrs. Adam Pozd and family are visiting friends and relatives in town this week.

Mrs. E. A. Logan and Miss Mary Logan who have been visiting Mr. and Mrs. Brad Ogilvie, returned on Saturday evening to their homes in Fredericton.

Mr. Geo. Hinton left on Tuesday morning for St. John, en route to Kingston Rectory where he will visit his daughter, Mrs. Henry Waterton. He was accompanied by his son Earle.

Miss Bessie Wathen and sister, Mrs. Karl Hildebrand spent a day last week with friends in Chatham. They were accompanied home by Miss Bessie McLean of Chatham.

Mr. Charles Arbeau had the misfortune to get his foot cut quite badly while peeling pulp near home.

In a letter received quite recently from Pt. Thomas Mersereau, who went overseas with the 132nd, he expressed much delight and pleasure in meeting his brother Perley on the battlefields in France. Pt. Perley Mersereau went overseas with the 132nd Battalion, but after the breaking up of that battalion he was one of the first to go over to France.

We Must Preserve The Forests

Seventy Per Cent of N. B. Unfit for Plowing Says Forestry Expert Robson Black

Speaking to a Doaktown audience which completely filled the public hall, July 3rd, Mr. Robson Black of the Dominion Forestry Association, spoke in part, as follows:

The foremost thrift campaign open to New Brunswick today is in the inauguration of pr-per forest management under the direction of a staff of technical foresters. While forward steps have been taken by individual companies, the present pace of forest deterioration can be overcome only by a central policy for the supervising of logging operations and the ousting of fires. This step is the obvious sequel to the wise scheme of the Forest Survey now being carried out by the Government.

This is a year of reorganization and the application of scientific methods all over the world. Factories and farms, railroads and banks mines and fisheries have had to get into battalion formation and serve the highest requirements of the State. What works during war will continue into peace? In the keen international contest for trade, only a prompt application by the provincial government of the policy of forest organization and economy can give this province the great advantages to which its wood supplies and water powers entitle it. Other countries have read the signs of the times and are harnessing their forests to progressive ideas of protection and operation. Competition

will compel action eventually. To act today is a matter of business strategy and self preservation. New Brunswick is essentially a great lumbering province, not only for today but for all time to come. Lumbering is not a way station to agriculture except where the trees grow on agricultural soils. Seventy per cent of New Brunswick is permanently unfitted for the plow. It will not pay the settler his salt. Obviously the awe of good provincial house keeping require that not only the tillable but the untillable areas shall render to the public every dollar of profit of which they are capable.

Mr. Black stated that two thirds of Ontario and a larger per centage of Quebec must always be withheld from agriculture because of soil, topographic conditions or climate. The problem facing all governments was how to keep out fire from the only crop these lands would produce and how to regulate logging operations so that the supply of trees would suffer no diminution through all time to come.

Eulogizing the progressive spirit which had led the province to undertake the Forest Survey, the speaker believed that there would logically follow a new provincial forestry department of technically trained foresters, entrusted with the task of supervising cutting operations in the forests and with authority over the fire ranging service. The latter ought to be placed on a permanent footing, so that one body of men could attend to fire ranging in summer and fall and to enforcing provincial cutting regulations in the winter months. The present methods of unsupervised cutting have brought about a deteriorating forest. From 20 to 30 per cent of the trees in a given area is left unused whereas the United States National Forests have reduced this waste to

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE
85 St. Rose St., Montreal, April 4th.
"For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lump in my stomach and the constipation was dreadful. I suffered from Pain in the Back and Kidney Disease. I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health."
MADAM ARTHUR LAPLANTE.
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

10 per cent. Except with very few companies in Canada reproduction is left more or less to chance and the chance plays continuously against us. With skilled supervision of the cutting, the present rapid deterioration of timber area can be arrested and the chief foundation of an enormous industry and of provincial revenues made secure for all time.

You can burn a candle at both ends but not for long. The forests of Canada are not more than one quarter as extensive as those of the United States, which in turn are out-classed by Russia. Forests cannot survive the double attack of ruthless axe and flame. If New Brunswick's network of forest industries is to be maintained and developed, the pillaging of the raw materials by fire and unregulated logging must be stopped at once.

Cost of Preserving Greatly Exaggerated

Women Now Determined To Save the Fruit

Present Price of Sugar Adds Only 1 1/2 Cents to the Cost of Putting up a Quart Jar of Preserves

Last summer, many women did not put up their regular supply of homemade preserves and bitterly they regretted it. They became scared at what they called the high price of sugar. When sugar reached 7 1/2 cents a pound, they let the strawberries and cherries go by. When sugar sold at 8 cents and 8 1/2 cents, they permitted the luscious peaches, pears, plums and apples to rot on the ground.

But never again. This summer will see a genuine, old time revival in homemade preserving; because the women of Canada now realize what a foolish extravagance it was to do without preserves; especially when the increased cost of putting them up is infinitesimal.

As a matter of fact, every woman can prove with her first lot of strawberries, that the increased cost of sugar is surprisingly small.

Turning back the files of papers publishing market prices, we find that in 1912, 1913 and 1914, up to the outbreak of war, the average price of granulated sugar was 5 1/2 cents a pound. Today, the best granulated sugar retails at 8 1/2 cents. This is an average of 3 1/2 cents a pound for the whole of the country.

A quart jar of preserved berries or fruit, requires but half a pound of sugar; so that the increased cost of preserving, due to the increased cost of the sugar, is only 1 1/2 cents a quart, compared with the cost of preserving before the war when sugar was unusually cheap.

Now is the time for the women of Canada to come gallantly to the aid of the country, and help to conserve our food supplies. The fruit crop this year, promises to be a record one, both in quality and quantity. Foreign markets being closed because of the shortage in transportation, it rests almost entirely with our homemakers as to whether this crop worth millions is to be a source of profit or a complete loss.

With the home pantries filled with delicious jams, preserves and jellies with these delicacies served for dessert instead of pies and cakes, enormous quantities of wheat will be released for the troops in France

How Girls Can Help Win War

Can Organize to Preserve the Food Being Grown in the Gardens and Orchards

CLUB LETTER, NO. 1

To the Girls of New Brunswick: What girl in this province has not felt herself consumed with a burning desire to put herself on the same plane of patriotic service with her brothers and friends in the army? Has not each one felt at times almost desperate over her very helplessness?

Until the present it has not occurred to any one to mobilize the girls of the country for war service of any kind, but now it is believed there is need and opportunity for a very special and valuable kind of service that no one in the province can do so well as our girls. The girls of New Brunswick can earn for themselves a place beside their brothers as saviors of their country by helping to conserve our native foodstuffs, and the girls must do it or it will not be done.

Every year in the United States alone there is a food wastage valued at \$700,000,000. We know that we in New Brunswick are to the same degree wasteful. Does any food go to waste in your home or in your garden? Every person who wastes, or permits waste of food of any sort, is helping the enemy. Every person who prevents waste—who uses to the last ounce the product of garden and farm and orchard—is rendering a valuable service to her country.

The boys under military age have given themselves wholeheartedly to the greater production campaign. Now it is up to the girls to help look after the increased crop of peas and beans and corn and tomatoes.

The question arises, how can the girls most efficiently do this? And the answer lies in Canning Clubs. The girls of the State of Mississippi in one year of organized effort canned fruit and vegetables to the value of \$35,000. Every girl in New Brunswick will have the opportunity to join a Canning Club and to receive expert instruction in methods of canning and preserving. You are asked for your own sake, and for your country's sake, to give your co-operation and your most earnest efforts toward the making a success of these clubs.

and for the starving children in Belgium.

A careful consideration of the above facts will show to the Canadian housewife that sugar is not too homemade preserves; and that the increased cost of sugar has not materially increased the cost of homemade preserves; and that preserving is both an economy and a patriotic action.

Will you not believe that with such harmless and womanly weapons as glass jars and green peas, ripe fruit and golden corn you may help very materially in the good fight our men began almost three years ago?

GIRLS CLUBS

In order that the girls of New Brunswick may have the opportunity and the training necessary to do "their bit" towards the winning of the war, it has been thought wise to have them organize into clubs. In this way they can give concerted effort to the movement for greater production. The design is specially to have better methods adopted in home canning and to utilize the waste products of farm, orchard and garden.

Definite Objects of Club

- 1—To lead the girls to co-operate in greater production and better preservation of foods
- 2—To teach economy and thrift
- 3—To teach definite methods of preserving foods, and the use of labor-saving devices.
- 4—To encourage the utilization of by-products, and the value of home-grown fruits and vegetables, and in the proper rationing of the family.
- 5—To help the girls to more practical and efficient citizenship.

Suggested Requirements

- 1—Centres or districts maintaining a single department school may form a girls' club, with only 10 members, others should have at least 15.
- 2—Club members should be at least 14 years of age or in Grade VIII, and must agree to follow directions carefully and conscientiously. Each one should grow all the materials possible for canning, or otherwise preserving.

Each girl must supply her own materials, containers and utensils for the practical work that will be taken up.

Each club will have its own president and other officers, who will keep careful records of the work done by the members and report to the Education Department of Forms will be provided.

Club meetings should be held monthly, at least. Programs will be suggested in the literature to be distributed.

Each member should keep careful accounts of the cost of materials, containers, time, etc., on forms provided.

Each club member should agree to take care of at least 25 quarts of food materials in 1917:

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS
THE sole head of a family, or any male over 18 years old may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres on certain conditions. A habitable house is required except where residence is performed in certain districts.

Live stock may be substituted for cultivation under certain conditions. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 80 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions. A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre.

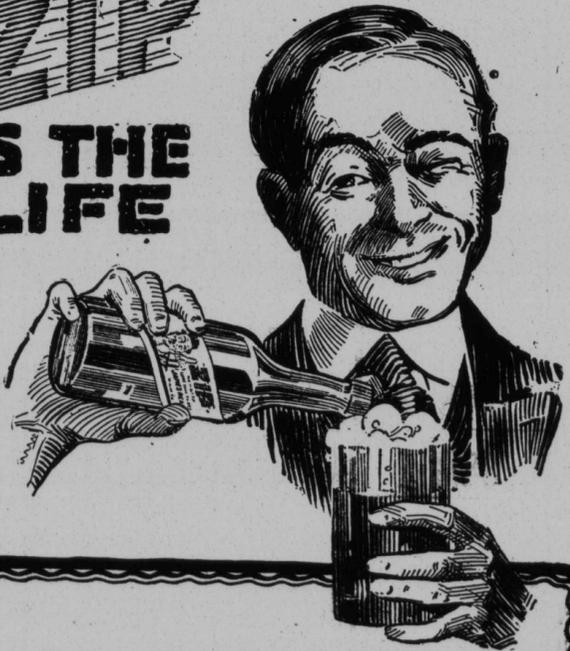

Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

A conference will be held in Moncton on the 27th inst., for the purpose of arranging for a Maritime Province teachers' institute in 1918.

A MARRIAGE RECORD
Horatio Nelson Blois of Truro, was married on July 12 in Halifax by Rev. Dr. John MacMillan, the same minister who had officiated at his first marriage forty-four years ago.

TO VOTE ON REPEAL OF SCOTT ACT
The Secretary of State, Ottawa, has set the dates for the holding of elections on the question of repeal in New Brunswick as follows: Charlotte County, August 13th; Sunbury Aug 15; Fredericton City, Aug. 16. The date for the election in Carleton Co. is not definitely fixed; it probably will be Thursday, Sept. 6.

ELEVEN YOUNG MEN TAKE THE TONSURE
Before a large congregation, July 11th, in the Church of the Holy Family at West Bathurst, eleven young men, among whom were Vincent Pittman of Douglastown, Fred Leger of Buctouche and Arthur Stanton of St. John, received the holy tonsure from His Lordship Bishop Barry.

PUBLISHERS MAY REJECT ADVERTISEMENTS
The Court of Review, composed of Justices Fortin, Greenshields and La moine, yesterday gave judgment unanimously upholding the principle that a newspaper, after contracting to give a firm a certain amount of advertising space during a given period, has a right, without incurring any liability in damages, to refuse the insertion of an advertisement if the advertiser submits objectionable advertising matter.

LONG SERVICE MEDAL FOR W. R. PAYNE
Three retired I. C. R. employees were on July 12th at Moncton presented with Long Service Medals. They are: Coun. C. B. Keith, of Berry's Mills, former station agent at that place; Mr. W. R. Payne, of Moncton, formerly station agent at Bathurst and Newcastle; and Con. T. C. Ayer of Moncton. The presentation was made by Mr. C. D. Bovard, Asst. Supt. of the North Shore Division, at the Moncton Depot.

ROD AND GUN
The July issue of Rod and Gun in Canada is a good number to tuck into the grip of the sportsman or tourist on vacation days. A glance at the lists of contents shows the following title: With the Maskmonge and The Shark; Two Opening Days, by Bonnycastle Dale; Tu-ho-o by Wm MacMillan; Trout Fishing in Northern Ontario by C W Young; The Beloved Vagabond by Edward M Towler; The Last Trip Ashore by F W Williams, etc, etc and in addition well maintained departments devoted to Guns and Ammunition, Fishing Notes, Kennel and Trap-shooting. W J Taylor, Ltd., Woodstock, Ont., are the publishers of this representative Canadian sportsman's magazine.

NURSES INCREASE CHARGES
At the annual meeting of the N. B. Association of Graduate nurses, held at St. Stephen last week, the fees to be charged for professional services and uniform fees for the provinces were established at \$18 per week for ordinary work, and \$21 for isolation cases.

Among the resolutions adopted was one favoring the franchise for women.

An invitation from Mrs. Richards, superintendent at the hospital at Newcastle, to hold the next convention there was accepted. Following officers were elected: Miss Gertrude Williams, of the military hospital at St. John, president; Misses Brophy, Corbett, Branscombe, Whyte and Hanson, vice-presidents; Miss Hétaillic, sec. sec.; Miss A. A. Burns, cor. sec.; Miss E. J. Mitchell, treasurer; Mrs. Richards, registrar.

A windmill constructed from a wagon wheel and barrel staves, a gas pipe for driving shaft, and two wooden pulleys with belts, has been attached by a South Dakota man to his wife's washing. With this contrivance wind mill he does not only wash the family washing but also runs the chicken-feed grinder, an empty wheel, an egg-beater and a churn.

MINARD'S KING OF PAIN LINIMENT

Extract from a letter of a Canadian soldier in France.
To Mrs. R. D. BAMBURCK:
The Rectory, Yarmouth, N.S.
Dear Mother:—
I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.
Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.
Your affectionate son,
Rob.
Manufactured by the **Minard's Liniment Co. Ltd.** Yarmouth, N.S.

KEEP THE POTATOES GREEN AND GROWING

(Experimental Farms Note)
Many are growing potatoes in Canada this year, for the first time, as a result of the greatly increased number of growers the crop will probably be greatly increased. But to insure a good crop there must be an abundance of moisture in the soil and the tops must be protected from insects and disease. Cultivation—The soil should be kept cultivated with the cultivator or hoe until the tops meet sufficiently to shade the ground. As most of the tubers develop in the three or four inches of soil nearest the surface, and as the tubers will not develop well in dry soil, quite shallow cultivation is desirable at this season of the year. In soil which is dry there may be good development of tops but there will be few tubers. The roots in such cases have gone down deep into the soil to obtain moisture but the tuber bearing stems, which are quite different from the root system, do not develop well. Where the soil is a loose, sandy loam hilling is not necessary and may be injurious, as the soil dries out more than if left on the level. In heavy soils it is desirable to hill the potatoes as it will loosen the soil and the tubers will be shapelier than when the ground is left level. When there is sufficient rainfall and moisture in the soil hilling is likely to give the best results in all kinds of soil as the soil will be looser and the tubers can push through it readily. As a great development of tubers takes place during the cooler and usually moister weather of the latter part of summer, it is very important to keep the plants growing well until then. In one experiment it was shown that during the month of September there was an increase of 119 bushels of potatoes per acre.

Protection of potato tops from insects—it is very important to prevent the tops of potatoes from being eaten by insects, particularly by the Colorado Potato Beetle. The Colorado bugs do not do much harm to the foliage, as a rule, and usually the plants are not sprayed to destroy these, although the fewer there are to lay eggs the less difficulty there will be in destroying the young ones. These begin to eat rapidly soon after hatching, and close watch should be kept so that the vines may be sprayed before much harm is done. Paris green kills more rapidly than arsenate of lead but does not adhere so well, and in rainy weather it is desirable to have something that will stay on the leaves so that they will be protected until it stops raining and thus prevent the tops being eaten. At the Central Experimental Farm a mixture of Paris green and arsenate of lead is used in the proportion of 8 ounces Paris Green, 1 1/2 lbs. paste arsenate of lead (or 12 1/2 ounces dry arsenate of lead) to 40 gallons of water in order to get the advantage of both poisons. It may be that it is not convenient to get both poisons when either 12 ounces of Paris green or 3 pounds paste arsenate of lead (or 1 1/2 pounds dry arsenate of lead) to 40 gallons water could be used, or in smaller quantities, say 1 ounce Paris Green to 3 gallons or 3 1/2 ounces paste arsenate of lead or half that quantity of dry to 3 gallons of water. An experiment conducted for six years at the Ontario Agricultural College, Guelph, showed that, on the average, where the tops were sprayed to kill bugs, the yield was 158.9 bushels per acre, while when the tops were not sprayed and allowed to be eaten, the yield was only 98.2 bushels per acre. It is desirable not to stop with one spraying which usually does not kill all the bugs but to spray several times, if necessary, so that as little foliage as possible is eaten.

Protection of the potato plants from late blight and rot—in some years the crop of potatoes is much lessened by the late blight disease and when rot follows little of the crop may be left. It is, therefore, very desirable to prevent this disease from spreading. This is done by keeping the plants covered with

Bordeaux mixture from about the first week of July, or before there is any sign of the disease, until September. Sometimes the first application of Bordeaux mixture is made before the potato beetles are all killed when the poison for them may be mixed with the Bordeaux. While the disease is not very bad every year it is well to be prepared. There was an average increase per acre of 94 bushels of potatoes from spraying with Bordeaux mixture in three years.

The formula for Bordeaux mixture for potatoes is 6 pounds copper sulphate or bluestone, 4 pounds freshly slaked lime to 40 gallons of water. While the bluestone will dissolve more quickly in hot water; if it is not convenient to get this, it may be suspended over night in a cotton bag in a wooden or earthen vessel containing four or five or more gallons of water. The lime should be slaked in another vessel and before mixing with the copper sulphate solution should be strained through coarse sacking or a fine sieve. The copper sulphate solution is now put into a barrel, if it has not already been dissolved in one, and enough water added to half fill barrel. The slaked lime should be diluted in another barrel with enough water to make half a barrel of the lime mixture. Now pour the diluted lime mixture into the diluted copper sulphate solution and stir thoroughly, when it is ready for use. The concentrated lime mixture should not be mixed with the concentrated copper sulphate solution, as, if this is done, an inferior mixture will result. If the barrels are kept covered so that there is no evaporation, stock solutions of the concentrated materials may be kept in separate barrels throughout the season. It is important to have the quantities of lime and copper sulphate as recommended, but, in order to be sure that enough lime has been used and there is no danger of burning the foliage, let a drop of ferrocyanide of potassium solution (which can be obtained from a druggist) fall into the mixture when ready. If the latter turns reddish-brown, add more lime mixture until no change of colour takes place.

SHE WAS A WORKER
A Pittsfield, Mass., woman arose at 5 o'clock, trimmed one hat and finished a dress for her daughter, canned 15 quarts of preserves, baked bread, did the washing, enamelled a bedstead, cleaned the parlor and repotted half a dozen plants, wrote two letters, prepared three meals and put up one dinner, cleaned the cellar and took care of the furnace, answered the telephone gave the store orders, raked the back lawn and then went up street to see a show.

WIDOW IS NOT NEXT OF KIN
That a widow is not the next of kin to her husband was settled on the 11th instant, by Chief Justice Mathers, in Winnipeg. By his will, Geo. Velle left a legacy to Fred Richardson, on condition that if the legatee died before the testator the money should go to the next of kin. Richardson died without children and the Chief Justice held that his widow is not the next of kin.

According to the latest figures 40 per cent. of the world's railway mileage is in the United States, there being practically 270,000 miles of railroads in this country. Russia is next with 50,000 and some of the others are Germany, with 40,000; India, 35,000; France, 32,000; Canada, 30,000; Austria-Hungary, 29,000.

Saves Shortening

One of the first things you notice, after "Beaver" Flour comes to your house, is that you are using less shortening than you used with western spring wheat flours.

You also notice that the Pie Crusts, Cookies and Doughnuts are lighter and flakier—that the Bread Rolls and Biscuits have a delicate flavour, a delightful, nut-like, homey flavour that is doubly welcome after the tough, almost tasteless bread you used to make with western spring wheat flour.

BEAVER FLOUR
Milled of Blended Wheat

is really two flours in one, for two kinds of wheat are used in blending. "Beaver" Flour contains the choicest Ontario winter wheat, strengthened with western spring wheat.

This gives you the finest pastry flour that can be milled—with the right strength to make a good size loaf of bread or a big pan of snowy Rolls.

More than that, everything made of "Beaver" Flour has a deliciously appetizing, nutlike flavour that is entirely lacking in the strong, western spring wheat flours.

Try it yourself—see how you save shortening—see how you come to depend on the even strength and quality of this famous flour—see how everything tastes so much better. Your dealer should have "Beaver" Flour—or will get it for you.

DEALERS—write for prices on Feed, Coarse Grains and Cereals.

DOUGLASTOWN SCHOOL REPORT
The Pass List of Douglastown Superior School, crowded out of this issue will appear next week.

IN MEMORIAM
In loving memory of our dear son, Graham Williston, who fell asleep July 16th, 1899. "Until the day break and the shadows flee away."
MR. AND MRS. D. WILLISTON,
Newcastle, N. B.

STRAWBERRY FESTIVAL AND FANCY SALE
The ladies of the W. M. S. of Strathadam and South Esk will hold a Strawberry Festival and Fancy Sale in the Union Hall, Whitney, July 25th, afternoon and evening, No. 20-1
By Order of Committee

BLEW ENDS OFF HIS FINGERS
While playing with dynamite cartridges Sunday evening, Harry Ryan son of Mr. and Mrs. Wm. Ryan of Nordin, accidentally exploded one and had his left hand so badly hurt that the ends of several fingers had to be amputated in the Miramichi Hospital.

HOSPITAL GROUNDS
The work of grading and beautifying the grounds in front of the Miramichi Hospital which has been described in these columns, and has been under the direction of Mr. Albert Hogbin for some weeks, is about completed. A marvellous change for the better has been effected.

STUMPAGE IS DOUBLED
The Provincial Government, at their last meeting, passed an order-in-council fixing the Crown Land stumpage rate at \$3 a thousand, and in certain areas in the province at \$4 a thousand, the new rate to become effective the first day of next month. This new rate, it is estimated, will give an annual increase in revenue from stumpage of upwards of \$300,000.

CARD OF THANKS
The Surgical Committee of the local Red Cross Society, who were in charge of the conservation of waste paper, wish to thank their friends for generous donations of paper, the officers and men of the Wireless Garrison for valuable assistance with the work, Mr. C. Sargeant for superintending the loading of the car, and to those who so kindly gave the use of their teams and automobiles for collection and shipment.

RETAIL MERCHANTS MEET
The meeting of the Retail Merchants Association of Newcastle, postponed from July 6th, was held on the 12th. Only a few were present, however and reorganization was not completed. Mr. T. R. S. Smith, secretary of the N. B. Retail Merchants' Association, addressed the meeting. Efforts to thoroughly organize the Retail interests here will be again made in the fall.

HOME EFFICIENCY CLUBS
The Douglastown Girls' Home Efficiency Club met on Monday afternoon, president Miss Annie Jessamin in the chair; Miss Florence Breen secretary. It was reported that all the membership cards on hand had been signed.

A large number of girls met in Harkins Academy, Newcastle, Monday evening, at the call of Miss Fellows, president of the Girls' Club. Eleven signed the membership cards and the four more needed to complete the club will, doubtless, be forthcoming. Miss Jennie MacMaster was elected vice-president and Miss Evelyn Price secretary-treasurer.

T. I. L. NEXT TUESDAY
The regular monthly meeting of the Newcastle T. I. L. will be held in the Police Court Room, next Tuesday evening at 8 o'clock.

GRAND DIVISION S. O. T.
The Grand Division of N. B. Sons of Temperance met at Corn Hill, Kings County, on July 13. A report will be given in our next issue.

BORN
At Newcastle, N. B., July 7th, to the wife of Sgt. John H. Doak of the 12th Field Battery, a son.

STENOGRAPHER WANTED
A good stenographer, with some experience in bookkeeping. Apply in writing to ALLAN J. FERGUSON, Newcastle, N. B., July 19, 1914. 30-1

ELECTED A TRUSTEE
At the annual meeting of the N. B. Medical Society held in Fredericton this week Dr. D. R. Moore of Newcastle was elected a trustee for the coming year.

HAROLD GRAY IN HOSPITAL
Harold Gray, son of Rev. and Mrs. S. Gray of Newcastle, is in No. 7 Hospital at Boulogne, suffering from gasing, etc., which he received at the front on June 5th. The last word from him is dated June 20th, at which time he was doing well.

MARRIED AT ST. MARY'S
Miss Hazel McLellan and Elmer Bamford, both of Boiestown, were married Wednesday evening of last week at the home of Mr. and Mrs. James D. Blair, St. Mary's, Rev. H. Ferguson performing the ceremony.

GIRL TO BE SENT HOME
The young girl who has been masquerading in boy's clothes, appeared in the police court, Fredericton, Monday morning, and was remanded to jail until arrangements are made for her return to her home, which is said to be at Barnett's Sidg, North. Co.

JOHN CURTIS IMPROVING
John Curtis, son of Mr. and Mrs. W. L. Curtis of Newcastle, who went to Boston a month ago to have the bone of his arm operated upon, is progressing favorably. Though it may be a long time before he recovers the use of his arm, yet his prospects for ultimate recovery are considered good.

Now that vacation days are here, you will need good cool clothing to enjoy life in the open, and before you take your vacation you should call and see Russell & Morrison's line of Summer Underwear, Sport Shirts, Invisible Braces, Straw and Panama Hats, etc., which they are selling at right prices.

ORANGE SOLDIERS
The committee of the New Brunswick Grand Lodge, L. O. A., appointed to take up the matter of a memorial for Orangemen killed in the present war met at Fredericton on Saturday and elected these officers: David Hipwell, P. G. M., President; J. W. S. Bakirk, P. C. M., Loggiewille, Vice-President; Ewart C. Atkinson, Secretary; W. M. Campbell, Treasurer.

R. S. BARKER AGAIN SEC. TO LIENT-GOVERNOR
It was announced at Fredericton on Tuesday that R. S. Barker had been appointed to the office of private secretary to His Honor the Lieut-Governor. The appointment was made by Hon. Mr. Ganong. Mr. Barker for some years was private secretary to successive lieutenant-governors.

Black River Boy Honored By King

Sergt-Major Wm. White Awarded Military Cross For Distinguished Service on Field

Word has been received at Black River, that a former resident of that place, Sergt-Major Wm. White, son of Andrew White, has been awarded the military cross for bravery at the front, the decoration being among those of the King's birthday honor list, issued for distinguished service and ability on the battlefield. The honored soldier went overseas as Sergt-Major of the 18th Batt., and previous to that was a Sergt-Major instructor at Wolseley Barracks, being a member of the Royal Canadian Regiment (permanent force). He has only recently recovered from a serious illness, having been confined to the hospital for about three months. He is now at Bramshott Camp awaiting the time when he will be sufficiently fit to return to France. Major Emmerton, who also went to France with the 18th batt., upon hearing of the honor conferred upon Sergt-Major White, expressed his high appreciation of him, stating that he was efficient in every respect and that the battalion owed a lot to his good work as its Sergt-Major.

TAUGHT BOYS TO STEAL

Old Woman Who Created Gang of Young Thieves

An extraordinary story of an organized gang of boy thieves, who made daily raids on grocers' shops and sold the proceeds of their thefts to a tradeswoman, was told at Mary-Jobson. Before the court was Mary O'Neill, an elderly woman, 60, who kept a general store at Princes St., Edgeware Road, and was charged with aiding and abetting several boys to steal. She was a portly woman, suffering from chronic rheumatism, and it was stated that the only time she had left her shop during 17 years was when she was arrested on the present charge and brought to court. A number of boys were concerned in the case, but only one—a lad of 18, named John Hodges, gave evidence. He said he made the acquaintance of the woman about a month previously when he went to her shop to buy candy. In the course of conversation she suggested that he should steal things from shops, and nearly every day, since then, up to the time when he was arrested for stealing a piece of ham, he had sold to her articles which he and several other boys had stolen from shops in the Edgeware Road. These articles included tins of salmon, milk, cocoa, treacle, and sardines, pots of jam and marmalade, and packets of candles. She paid him 4d. a pot for the jam, 4d. a tin for the salmon and sardines, 3d. a tin for the milk, 2d. for the cocoa, and 3d. a packet for the candles, and all the money he received he shared with the other boys. Mr. Paul Taylor remarked that prisoner had actually been creating young criminals wholesale, and in spite of her infirmity and her age he sentenced her to six weeks in the second division, in the hope that the effect of the charge and punishment would put an end to the existence of this gang of young thieves.

Schools That Differ
On this continent the idea of absolute uniformity in schools over a large area and amid many diverse interests has had its day. The school in a grading district must be different work from the school among orchardists or market gardeners or fishermen. They cannot be as "like as two peas," much less can they afford to make the same of schools on a small scale. The needs of their communities are different.

Languages Have Roundabout Ways of Saying Things

It is a strange peculiarity of almost every language that there are certain words which are entirely missing in it, so to speak, and which have to be indicated by roundabout methods. The French, for example, have no verb "to stand," nor can they speak of "kicking" anyone. They have to say that So-and-so "gives a blow with his foot." "Home, Sweet Home" is quite untranslatable into French, for they have no word for "home," or for "comfort" either, while the terms "upstairs" and "downstairs" are also unknown. The Italians are a proud race, and it is perhaps characteristic of them that they should have no word for "humility." But the Hindoos should not be judged by the fact that their language has no equivalent for "friend." As for the Germans, they employ some very comic, roundabout ways of expressing objects. A thimble they call a "finger hat," and a grasshopper a "hay horse." A glove is a "hand shoe," while they call poultry "feather cattle." Oxygen and hydrogen they refer to in very general terms as "sour stuff" and "waist stuff."

NEEDS OF WEST INDIES

British Colonies There Might Unite With Canada

Says a correspondent discussing the situation of the British West Indies: There is the duplication in each colony of paraphernalia of Government, Governors, Colonial Secretaries, chief justices, auditor-generals, commandants, attorney-generals, solicitor-generals are simply jostling one another in the West Indies. The only way out of this is some form of federation, either to form a British West Indies island province, a distinct entity within the Empire, as is New Zealand of South Africa, or to have such a federation attached to the Canadian Dominion administratively. It should reduce the cost of administration, and increase its efficiency. Another seed of the present and future in the British West Indies is the establishment within their borders of technical training centres so well equipped that they can turn out men and women too, fitted to work in moderate agriculture and industry. Commercial creation and up-growth is a slow thing, and a thine of science

Young Man Drowned At Black River

Alfred McDonald Took Weak Spell and Fell From Boat-Body was Recovered

Alfred McDonald, of Bayside, was drowned off the mouth of Black River about seven o'clock, last Tuesday evening, and his body was recovered on Monday morning about nine near the scene of the accident. Mr. McDonald had been working in the Reinsborough mill and had wheeled here. About seven o'clock he took his boat on the shore and started to cross to his brother's home on the other side of the Black River, and was seen about seven o'clock or shortly after in the boat. Some time later the boat was seen drifting ashore and while the bicycle was still in the boat, Mr. McDonald was missing and it is surmised that he had taken a weak turn and fallen overboard and been drowned. The finding of the body subsequently tends to corroborate this theory. The deceased was a son of the late John McDonald, and is survived by his mother, one sister married and living in Boston; and five brothers, Alexander, of Douglastown; James and Joseph, of Black River; and John and Bert, at home. The funeral took place at five o'clock on Monday afternoon, to the Church of England cemetery, Rev. Mr. Foyster conducting the services.

One Reason For Conscription

The part played by the province of Quebec in the war was astoundingly revealed in parliament a few days ago. An official return brought down by the Minister of Militia discloses the fact that out of the 1,605,339 French-Canadians in Quebec, less than seven thousand—6,979 to be exact—have gone overseas. The figures are from the beginning of the war up to May 1st, 1917. The return also shows that the number of French-Canadians who have enlisted outside of Quebec is 5,904 this including the Acadians of Nova Scotia and New Brunswick. The total French speaking enlistment from the whole Dominion is 14,100. The full significance to these figures has aroused deep resentment among English-speaking members, irrespective of party in parliament. To adequately realize the light in which this return places Quebec to the rest of Canada a few comparisons with enlistments in other provinces are necessary. For example, Nova Scotia, with only 87,667 men of military age, has enlisted over 20,000 men. Quebec, with 351,000 men of military age has enlisted, including English-speaking recruits only 29,000 men. Toronto with a population of 450,000 has enlisted 65,000 men, or nine times as many men as 1,605,339 French-Canadians in the province of Quebec. But the crowning disclosure is found in the comparison between the enlistments of the English and French sections of Quebec province. The total enlistment of the entire province is 29,000. Of this number the English-speaking section of the population, which is only 311,030, has given 22,000 men. The French population, which is 1,605,339, contributed only 7,000 men. In other words, one-sixth of the province's population sent seventy five per cent of the total enlistments and five-sixths sent only twenty-five per cent. Still another comparison may be used to expose the small contribution to the war of Quebec French-Canadians. The total number of French-Canadians outside the province of Quebec is estimated at less than 400,000. The total number of French-Canadians in Quebec is 1,605,319. Yet according to this official return the 400,000 French-Canadians outside of Quebec have sent more men to the front than the million and a half French-Canadians in the province of Quebec. The falsehood, copiously indulged in by Quebec apologists, that Quebec French-Canadian enlistments compared favorably with the enlistment among native-born English-Canadians, is irrefutably damned by the above figures which show that 125,000 native-born English-Canadians are actually overseas; while the British born whose number in Canada was infinitely smaller than that of Quebec French-Canadians, have sent to the firing line no less than 146,000 men. The growing volume of distrust and suspicion of Quebec has been greatly increased by the astonishing revelations of this official report.

ANNIVERSARY SERVICE

An anniversary service will be held in the Oak Point Presbyterian church on Sunday afternoon at 3 o'clock. Mr. W. S. Loggie, M. P., is expected to be one of the speakers.

ANNUAL PICNIC

The annual picnic of the Methodist Sunday School is being held at Bushville this afternoon.
