The council met pursuant to adjourn-ment, the warden in the chair, all the members were present. The minutes of yesterday were read and approved.

Six tenders for wood were referred to the gaol and courthouse committee. THE REPORT OF MR. ELLIOTT,

road commissioner, was read :-

I have the honor to report as follows: I have the honor to report as follows. In accordance with the instructions of the council in June last, I had the fol-lawing bridges repaired: Bridge known as gully bridge, on 1st con. Goderich township, with new floor, and south ap-proach fenced, and north approach proach fenced, and north approach proach fenced, and north approach gravelled, at a cast of \$66. Also Hall's bridge, same township, repaired with new flooring, and south approach, which was sliding away, and bridge tightened, at a cost of \$24. Bayfield bridge repaired with some new flooring, also tightened up, and approaches repaired, at cost of \$23. I had Turner's bridge repaired, the centre bent being washed out very much, I had it filled with stone, wash out at north abutment ropaired, bridge tightened, all at a cost of \$10. I also tightened, all at a cost of \$10. I also had Summer Hill bridge, on base line, repaired at a cost of \$15. I had Craig's bridge, on Bayfield river, repaired, by putting new bent in centre, and raising 18 inches, and some new flooring, at a 18 inches, and some new flooring, at a expenditure in school monies by this cost of \$84. Also some slight repairs to council, the clerk do prepare and lay Ball's bridge, at a cost of \$14. This bridge is much decayed, and not safe for public travel. I would recommend that a new bridge be built. The warden, Mr. Girvin, Mr. McMillan and myself examined Londesboro bridge, and found it unsafe for public travel, and had three false bents placed under it, at a cost of \$71, and recommend that a new bridge be built as soon as possible I had the Clinton bridge, on Bayfield river, repaired with new rock elm floor, and cedar joists for floor to rest on, also six new angle blocks, and bridge tightened. I would recommend that the commissioners examine this bridge, as the stringers, are much decayed, cost of repairs, \$135.55. The bridge known as Rathwell's bridge, on Bayfield river was completed about September 20, at contract price of \$580, with an extra cost of \$30 for raising abutments one foot higher than called for in specification, and filling up at bottom of abutments, and approaches built at a cost of \$84. The minutes of yesterday were read proaches built at a cost of \$84. The and approved. statement of AMOUNTS PAID ROAD COMpleted about October first at contract price of \$2190, with an additional span of 50 feet at a cost of \$300; also approachof 50 feet at a cost of \$300; also approach-es built at a cost of \$313, total cost, 1882, 1883, and 1884: \$2807. Grieve's bridge, McKillop, has also been completed. I may say here that there has been some difficulty and delay, and no doubt some extra expense in getting the approaches to this bridge The plan at first adopted, made up. as I considered, would be a saving in the cost, but unfortunately when it was about finished the one at the east end of Mr. Mason succeeded Mr. Shepperd in
