number since the beginning of the  
season. The licenses were issued  
for a period of six months, and the  
rush was very keen.

### Battle Between Desperados and Pursuers and one Prisoner Killed.

Placerville, Cal., July 28.—Of the 13 convicts who escaped from the prison at Folsom yesterday, 12 are at large. Joe Murphy, who was serving a 14-year sentence for robbery, was shot dead tonight at Pilot Hill, Gordon, the reported leader of the gang, who had been sentenced to 45 years for robbery, deserted his fellow-convicts after they left the prison. It is not known where he went. The outlaws who remain together are making for the Sierra Nevada mountains. This is doubtless the basis of the report.

### Evidence of Foul Crime

Capt. Howard Was Afraid That a Trap Was Being Laid By Dawson Gambler.

Note Found Which May Explain the Visit to Sausalito.

The Dead Man Will Be Laid to Rest Near Scene of Tragedy.

Sausalito, July 29.—Friends of Capt. Thomas Howard cling to the theory that he was murdered. His nephew, R.W. Turner of Victoria, scouted the idea of suicide, and gives good reasons why such should not be the case. Additional facts have come to light that further substantiate the idea of murder, namely, that Capt. Howard stated that he was afraid of being killed. He said he knew parties were plotting to get his claims away. Among the men he feared was the keeper of a Dawson gambling house whom he met in this city, "Capt." Norwood by name. He invited Howard to a resort on Kearney street to talk over plans for raising money to develop the property. Howard did not meet him, as he was frightened that a trap might be laid for him, as he so told his friend, Mr. Treanor. "Capt." Norwood has returned to Alameda and is now in the possession of a mining property in Sausalito. J. P. Treanor of this city, who was associated with the dead man, said that he was introduced to Capt. Howard in the Occidental hotel about three months ago by Capt. Palmer, a mutual friend. He said that he had seen Capt. Howard and he told me all about his business affairs. He brought his traps and plans to me and asked me to do my best to interest money in the mining property he owned about 35 miles from Dawson. Later he left the Occidental and went to my country home near Encinitas, where he remained for some time as my guest.

Keepers of the Sliding Doors Ordered to Report For Duty Tomorrow.

Curious Coincidence As to the Number of Rampolla's Apartment.

Rome, July 29.—With the arrival here of Cardinal Prisco, archbishop of Naples, the number of cardinals who will participate in the conclave is complete. Prince Chigi, master of the conclave, visited Cardinal Gibbons today and had a long and cordial conversation with the American prelate. All the diplomats accredited to the Vatican have left their cards at Cardinal Gibbons' house, and he has been visited by the big, Italian and chiefs of the religious orders. Cardinal Logozzo, archbishop of Armbrase, had an interview today with Cardinal Gibbons, when asked what he thought of the objections frequently mentioned against Cardinal Goti being elected pope on the ground that he was a member of a religious order would prevent him from dealing in a broad spirit with the conclave. Cardinal Logozzo is a member of the Society of Jesus, and he has been visited by the big, Italian and chiefs of the religious orders. Premier Laurier to Unfold the Grand Trunk Scheme Today.

Rumored Postponement But Expectations of Crowded House.

From Our Own Correspondent.

Ottawa, July 29.—Sir Wilfrid Laurier told Mr. Monk this afternoon that the government had made no arrangements for the transfer of the Canadian Northern charter to the Grand Trunk Pacific. The house was in supply all day, discussing mail contracts to the Mount Country and later on the "out of storage" of Canadian produce shipped to the Mount Country. Premier Laurier and other ministers, and about 50 senators and members of parliament, attended the session at the Basilica this morning for the purpose of the vote of the late Pontif. The session was held at 10 o'clock. Mr. Treanor is here, heading for Dawson, to watch his interests before the conclave. There is every prospect of a crowded House tomorrow when the Premier rises to explain the trans-continental railway project. Mr. Hays returned to Montreal this afternoon, but will be up tomorrow to hear Sir Wilfrid's speech. Representatives of the government and the Grand Trunk solicitors had a meeting today, at which some agreements were modified. It is reported late tonight that there is a possibility of an announcement that the measure is postponed over tomorrow.

### Bridging the Fraser River

#### Rapid Progress Now Being Made on the Great Structure.

#### Workman on Superstructure Has a Narrow Escape From Drowning.

#### Lacrosse the All Absorbing Topic of Conversation At Royal City.

From Our Own Correspondent.

New Westminster, July 29.—Saturday evening, just before the men at work on the superstructure of the New Westminster bridge quit work, one of their number came very near losing the number of his mess. In some way he missed his footing and fell down through the false work, striking on several of the timbers and finally disappeared in the river. At this point, especially since the Fraser passes between the stone piers, and it was the very force of the stream which, in this instance, was his enemy, he carried him against a pier while he was below the surface, and he clung to it and was so forced up, fortunately the steam tug, the *Harriet*, was near by with Messrs. Briggs, Bush and Brown aboard, and proceeded to rescue the workman. The man was rescued and taken to the hospital, where he was treated for his injuries. When he came to, the man explained that he could not swim, and had quite made up his mind that he was a goner. Moreover, his left arm had been fractured by the fall, and there were cuts on his face and bruises on his body, so chances are he would have drowned had help not arrived so promptly. Apparently there were no life-saving appliances at hand for such emergencies, but the bridge contractors have so far been very fortunate, only having lost one of half a dozen men who have fallen in, from the hundreds employed on these works.

Work commenced yesterday on laying the steel girders of the superstructure of the Fraser river bridge. The work is completing the stone piers on the city end has been resumed, having been delayed by the frost. In the meantime, the south side railway approach has been completed, and false work erected on the finished stone piers to facilitate the placing in position of the steel girders, etc. An immense traveling crane has been erected, and now towers above the water to a great height. The approach, of course, crosses 22 feet above the Great Northern railway track, the connection being made by concrete trestle with a one per cent grade compensated.

Corpl. McLellan and Ptes. Smith, Wallace and Burke, of the Northwest Mounted Police, arrived from Dawson last night with four patients for the Hospital for the Insane. The corporal returns North immediately, the others going East.

Lacrosse continues to be an absorbing topic of conversation in the Royal City, and public confidence in the game has materially shaken in the ability of the champions to again make good their claim to the title. On the other hand, they have to win every match, including two with Vancouver, and having done so, they will be only one game away from the "Barbarian." But by kicking into shape a couple of good players who were decidedly off-colour, a success against them should be as strong as ever. With this in view, they will soon commence a course of systematic training. But there is another motive. The Shamrocks of Montreal are again coming to the city to retrieve themselves, and the British Columbia champions will be expected to be caught napping. The executive of the provincial exhibition have had the removal of the Shamrocks for some weeks, but it was only on Thursday night that an agreement was arrived at with the Westminster team, which was ratified yesterday. Manager Kerry of the R. A. and I. S. team, has written down immediately the Shamrocks this time, and no trouble is anticipated. A series of three games will be played, the first yet to be played. It is stated if their opponents on each occasion will be the New Westminster team, in any case, the Shamrocks will be Westmaster exhibition will see some one increase, and they won't be able to lose the Shamrocks of Vancouver, or Victoria. The only other place they will play in are Winnipeg, Nelson and Seattle, and the Shamrocks will bring a bunch of 14 players; their last year's captain, O'Connell, a manager, and the president of the Shamrocks. It is not so much a money-making trip this time for the Shamrocks, as a free trip for the players, by way of a bonus; besides, they have a vested interest to remove since their defeat last year.

The Souris, Man., lacrosse team, which will play in Nelson in August, has written for a date in New Westminster, and will be accompanied any time they come, and be given 60 per cent. of the gross "gate." The Shamrocks of Whangape have also written, asking for an engagement here during exhibition week, but this had to be declined this year. The home team will also have to forego the contemplated pleasure of a trip to Rossland, as they must attend strictly to the business of preparing for the exhibition, and have assurances of heavy co-operation from the Vancouver Komet Club and private parties in other Coast cities. It is expected to be the largest show yet held in British Columbia, and the sports of the Gun Club hope Victorian owners and fans will also help them out.

As has already been noted, the exhibition executive have accepted the offer of H. B. V. Victoria, to supply portable displays on two evenings and one afternoon. Everything points to the exhibition being a greater success than ever. For the first time the P. R. has granted cheap rates from all interior points and thousands will take advantage of it.

Feared He Would Be Shot

Death of Capt. Howard of This City Reveals Conspiracy Against Him.

He Was the Victim of a Fraud on Part of New York Speculators.

Feared That He Would Be Shot By Agents—His Mining Ventures.

R. W. Turner, of this city, who went to Berkeley in connection with the finding of the body of the late Capt. Howard, has positively identified the speculators as those of Howard, and after viewing the circumstances he is convinced that murder has been done.

"I write this merely to show you what a jackass I have had with me. Now I have found him out. I want you to know that I have had a long conversation with Mr. Turner, and I do not intend to give him a chance of drawing his gun on me again."

"I am worried, as you can understand, but I won't be swindled out of a property that is of immense value."

"His suspicions supported." That Captain Howard's opinion of the fraud being practiced on him was shared by others is shown by the following letter from F. Congdon, an attorney of Dawson:

"From what you state and from the conversation of Mr. Taylor at the home of Mr. Lithgow, I am quite satisfied that no such examination of your property has been made by Mr. Taylor as would entitle Mr. Colohan to exercise the power contained in your agreement."

"I would notify the Minister of the Interior and endeavor to stop ratification by him of any sale made under the power which has been granted to Mr. Taylor."

An Evening Of Routine

Nothing of Particular Importance Before Council at Regular Meeting.

Substantial Donation to Old Men's Home as Result of Amateur Theatricals.

Little beyond routine business engaged the attention of the council at its regular meeting. No allusion was made to the matter of the hotel contract, the draft agreement not yet being in shape for final passage by the council.

Miss Eleanor Dunsmuir forwarded a check for \$115, the proceeds of the performance of the comedy "The Charming Fate," which was given in aid of the Old Men's Home. The letter was read and the sum was accepted.

The secretary of the Board of Trade asked for the usual appropriation for the health department for the year ending on the 31st of March next. The sum of \$10,000 was granted.

The Board of Trade also received a report from the committee on the proposed extension of the waterfront. The committee recommended that the extension be carried out.

George Weeks Formerly of This City Deliberately Commits Suicide.

Leaves a Letter Making Serious Charges Against Several Persons.

George Weeks, formerly of this city, committed suicide in Dawson on July 15, by taking a phial of laudanum, and leaving a letter in which he charges several persons with having conspired to defraud him of his property.

Weeks was 53 years of age, and was a native of Cumberland, England. He had been in Dawson for some time, and was engaged in mining.

His letter, which was found in his room, was a long and detailed account of the charges he made against several persons, including Mr. Colohan, Mr. Taylor, and Mr. Howard.

He stated that he had been defrauded of a large sum of money, and that he had been treated with great cruelty and injustice by the persons named.

He also stated that he had been threatened with death, and that he had been forced to flee from Dawson in a hurry.

His letter was a very bitter and angry one, and it was clear that he had been through a great deal of trouble and distress.

The charges he made were very serious, and they were of a nature to cause a great deal of trouble and distress to the persons named.
