Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured covers/
Couverture de couleur
- ☐ Covers damaged/
Couverture endommagée
- ☐ Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- ☐ Cover title missing/
Le titre de couverture manque
- ☐ Coloured maps/
Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- ☒ Bound with other material/
Relié avec d'autres documents
- ☒ Tight binding may cause shadows or distortion
along interior margin/
La reliure serrée peut causer de l'ombre ou de la
distorsion le long de la marge intérieure
- ☐ Blank leaves added during restoration may
appear within the text. Whenever possible, these
have been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.
- ☒ Additional comments:/
Commentaires supplémentaires:

Wrinkled pages may film slightly out of focus.

- ☐ Coloured pages/
Pages de couleur
- ☐ Pages damaged/
Pages endommagées
- ☐ Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- ☐ Pages detached/
Pages détachées
- ☒ Showthrough/
Transparence
- ☒ Quality of print varies/
Qualité inégale de l'impression
- ☐ Includes supplementary material/
Comprend du matériel supplémentaire
- ☐ Only edition available/
Seule édition disponible
- ☐ Pages wholly or partially obscured by errata
slips, tissues, etc., have been refilmed to
ensure the best possible image/
Les pages totalement ou partiellement
obscurcies par un feuillet d'errata, une pelure,
etc., ont été filmées à nouveau de façon à
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

					☒						

The copy filmed here has been reproduced thanks to the generosity of:

Nova Scotia Public Archives

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Nova Scotia Public Archives

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TO THE PUBLIC.

THE ALMANAC for 1854 is the fourth annual issue of the work which the Compiler has had the privilege of submitting to the public of Newfoundland. The utmost care has been taken in its compilation, and much time has been devoted and close attention paid to the collection of information which it is hoped will be found generally useful; the Legislature having considerably continued the usual grant for the support of its publication, the Compiler is still enabled to offer it to the public at the low price of *One Shilling* per copy.

The Compiler is indebted to W. C. Sr. John, Esq., the talented Editor of the *Harbor Grace Herald*, for the astronomical calculations, &c., and he is also indebted to the Heads of Departments, and other gentlemen, for their kind attention in supplying such information as was requested of them.

29-30	Outline for the Year 1854
31	Ships Built in the Colony
32	Ships Owned and Registered in the Colony
33	Local Family of England
34	Population, &c. of the Several Electoral Districts

41	Minutes of the Executive Council of the Colony
42	Population of Colonies in Europe and America
43-44	Advertisements

ASTRONOMICAL PHENOMENA FOR THE YEAR 1854.

ECLIPSES.

There will be Four Eclipses in 1854—two of the Sun, and two of the Moon.

I.—A partial Eclipse of the Moon, Friday May 12; invisible in Newfoundland, Western Coast America, and England; visible in China, Australia, and Eastern Hemisphere generally.

Middle of Eclipse 14 min. past noon.

Duration of contact with shadow . . 1 h. 46 min.

Magnitude—one fourth, on the Southern limb.

II.—Annular Eclipse of the Sun, Friday May 26, invisible at Greenwich; visible in Newfoundland, Continent North America, North Pacific Ocean. It will not be an annular but a partial Eclipse in this Island, the line of Central and Annular Eclipse falling 12° South of St. John's. The Eclipse will terminate, on the East coast of Newfoundland, at sunset (3 past 7), and be noticeable to a common observer at a few minutes past 6 p. m. Extent of obscuration—1/10 of the Sun's disc, on the lower limb, as shown in the annexed diagram.

Apparent semi-diameter of Sun . . . 15 min. 49 sec.

Ditto ditto of Moon . . . 14 min. 53 sec.

Moon's Horizontal Parallax 54 min. 34 sec.

Moon Apogee 29 d. 12h.

III.—A partial Eclipse of the Moon, November 4, visible in Newfoundland.

First contact with shadow 5 h. 14 m. evening

Middle Eclipse 5 h. 41 m. evening

Last contact with shadow 6 h. 8 m. evening

Magnitude of the Eclipse Diameter=1 (0.054)

Owing to the position of the Moon in the Eastern horizon and the small amount of the obscuration, this Eclipse will be barely observed here.

IV.—A total Eclipse of the Sun, November 20, invisible in Newfoundland.

Begins on the Earth generally, Nov. 20, 3h. 47m. (mean time St. John's) in Longitude 24° 2' W., Latitude 0° 49' S.

Central Eclipse begins generally, Nov. 20, at 4h. 54m. in Longitude 44° 5' W. and Latitude 11° 51' S.

Ends on the Earth generally, Nov. 20, at 9 a. m., in Longitude 93° 24' E. Latitude 35° 48' S.

The above is given in St. John's mean time (civil).

Principal Articles of the Calendar.

Golden Number 12	Dominical Letter A
Epect. 1	Roman Indiction 12
Solar Cycle 15	Julian Period 6567

The year 5615 of the Jewish Era commences on September 23rd.
 Ramadan (month of Abstinence observed by the Turks) commences
 on May 28th.

The Year 1271 of the Mohammedan Era commences on Sept. 24th.

Approximate (Mean) Time

Of Meridian Passage of the Planets *Venus, Mars, Jupiter* and
Saturn, on the 1st day of each alternate month, in the year 1854.

VENUS.

JANUARY MARCH MAY JULY SEPT. NOV.
 3h 15m. 23h 47m. 21h 56m. 21h 14m. 22h 21m. 23h 6m.

MARS.

16h 27m. 12h 9m. 7h 37m. 0h 9m. 3h 21m. 2h 15m.

JUPITER.

23h 44m. 20h 46m. 17h 18m. 13h 6m. 8h 35m. 4h 49m.

SATURN.

8h 49m. 4h 59m. 1h 24m. 21h 53m. 18h 12m. 14h 10m.

St. John's.

Latitude .. 47° 33' 22" North
 Longitude (Meridian of Halifax) .. 16° 52' 31" East
 Ditto (Meridian of Greenwich) .. 52° 45' 29" West
 Magnetic Variation (1828) .. 28° 44' 0" Westerly.

Variation of the Compass.

From the Records of Her Majesty's Magnetic Observatory.

The mean variation at Toronto, for the year 1847, was 1° 36' West (nearly); it increases about 3' every year. The variation undergoes a daily change, being least from 7 to 8 A.M., and greatest from 1 to 2 P.M. The variation is least liable to fluctuations in the afternoon; it is near its mean value at 10 A.M., and 6 to 7 P.M.

Principal Articles of the Calendar.

Statement of the Assets and Liabilities, 31st December, 1852.

Assets	£89,940 8 5
Liabilities due to Depositors	79,909 5 2
Surplus of Assets	£10,031 3 3

E. MORRIS, Clerk.

All deposits of not less than One Shilling made by any person, shall, as soon as they amount to Twenty Shillings, be considered as a Deposit to the amount of the aggregate sum deposited, from the period when the last sum constituting such aggregate was deposited. The interest due on deposits on the first day of January, in each year, to be carried to the credit of the Depositor, and the balance carried to a new account, and to be regarded as a Deposit made on that day. The Bank is at liberty to return or reject the deposits of any person or persons, and to decline receiving any deposit exceeding One Hundred and Fifty Pounds, subject to the payment of Interest thereon, when it shall be deemed expedient so to do. And no sum exceeding One Hundred Pounds shall be received from any depositor but on condition that the same shall not be withdrawn except upon a notice ending in two months from the date thereof, or upon forfeiture of two months' interest thereon, if at the request of such Depositor the Superintending Committee consent to pay the same without requiring such notice.—*Third Rule of Newfoundland Savings Bank.*

Board of Health.—Health Officer of Quarantine—Samuel Carson, M. D. Superintendent of Quarantine—John Saunders.

Commissioners of Light Houses.—Chairman—Nicholas Stabb; Hon. James J. Grieve, George T. Brooking, John Muun, and Eugenius Harvey.

Keepers of Lights.—Cape Bonvista—Jeremiah White. Harbor Grace Island—Edward Oke. Cape Spear—James Cantwell. Fort Amherst—John Sheppard. Cape Pine—Henry Hoarder.

Light Dues.—Six pence per ton on all vessels entering any Port or Harbor of the Colony, except Coasting, Sealing or Fishing vessels; but not to be levied more than once in any one year.

Coasting and Sealing Vessels.—Three pence per ton on registered vessels over 40 tons; ten shillings per annum on all vessels less than 40 tons.

Description of the Lights.—Fort Amherst—This is a Stationary Light, on the Southern head of the entrance of St John's Harbour. Cape Spear—This is a powerful Revolving Light burning at an elevation of 275 feet above the level of the sea, and showing a brilliant flash at intervals of one minute; in clear weather it may be seen from sea, in any direction, at the distance of 30 miles. Harbor Grace—This is a powerful Fixed Light situate on Harbor Grace Island, in Conception Bay, extending Eastwardly or seaward

in a direction by Compass from North-east to South-west. Bonavista—This Light revolves every two minutes, showing a red and white flash, alternately; and is elevated 180 feet above the level of the sea. St Peter's—A light house has been erected by the French Government on Gallantry Head, near Cape Noir; the light is a fixed one, it burns at an elevation of about 210 feet above the level of the sea; it may be seen (in passing by the S) from WNW to NNE, at the distance of 18 or 20 miles in clear weather; in passing by the N, it is shut in by high land from NNE to WNW. Cape Pine—The character of this Light is that of a Brilliant Revolving Light, of which the greatest intensity will be apparent in every direction seaward twice in a minute; it will burn at an elevation of 302 feet above the level of the sea, and will be visible in clear weather at a distance of 30 miles; the erection is a Round Tower 50 feet high, painted with bands of Red and White (horizontal) alternately. Cape Race Beacon—The total height of this Beacon is 65 feet; it stands on the rising ground 140 feet high, immediately behind Cape Race Rock, so that the top of the Beacon is at an elevation of 205 feet above the sea level; it is of hexagonal shape, 22 feet in diameter at the base, and 11 feet on each face; it tapers upwards to a height of 56 feet, where its diameter is but 2 feet 9 inches, and is then surmounted by a Skeleton Ball 9 feet in diameter—making the total height 65 feet; it is constructed of timber framework with exterior clap-boarding, and its faces are painted alternately White and Red (vertical) and the Ball at the top Red.

CONCEPTION BAY.

Stipendiary Magistrates.—Harbour Grace—Thomas Danson, Robert J. Pilsent. Carbonear—Joseph Ryan. Brigus—Charles Cozens.

Population of Cities in Europe and America.

From Hunt's Merchants' Magazine.

WISSEN'S *Volks-Kalender* (People's Almanac) for 1853, published annually at Leipzig, furnishes the following table of the population of the principal cities of Europe and North America. Of European cities, London stands first, Paris second, and Constantinople third. New York stands fourth on the list—no other city having so large a population except the above named cities of Europe; Philadelphia, ninth; Baltimore, twenty-first; and Boston the twenty-eighth. As a matter of curiosity and reference, the table may be worth preserving in the pages of the *Merchants' Magazine*.

We may remark that there are several cities in India, China, and Japan, which are reported to contain a larger population than that of Paris, but not being in Europe or North America, they are of course excluded from the above list, in which also is omitted the city of Mexico, (which should not have been omitted,) containing a population of about 200,000.

London	2,363,141	Pesth	125,000
Paris	1,053,262	Prague	124,181
Constantinople	783,990	Barcelona	120,000

THE PHOENIX OFFICE

Was established by a numerous Proprietary, in January, 1782; upon principles of public utility.

The experience of nearly three-quarters of a century has manifested to the public the promptitude and liberality with which all losses have been adjusted by the *Phoenix Assurance Company*, to the extent of upwards of *Six Millions Sterling*.

Persons insured by this Company do not depend upon restricted funds for the payment of their claims, nor are they liable to make good the losses of others as is the case in many Offices.

The Security afforded to the Public by the *Phoenix Office* is unlimited, comprising, in addition to the large invested Capital of the Company, the whole fortunes of a numerous Proprietary, comprised of some of the most opulent gentlemen and merchants in the Kingdom.

Rates of Premium, which have lately been considerably reduced; and all particulars of Insurance, may be had on ap-

plication to the undersigned, who also issue Policies on the spot (by which a saving of the Stamp Duty, chargeable on all Policies issued in England, is effected) free of any charge; and any orders or communications addressed to them will be as punctually attended to as at the Company's Office in London.

THE COLONIAL LIFE ASSURANCE COMPANY

Has been established for the purpose of extending to the Colonies of Great Britain and to India, the full benefit of Life Assurance; and for the purpose of giving increased facilities to persons visiting or residing in Foreign Countries. The Company is Registered and Empowered under the Act of Parliament 7 and 8 Vict. cap. 110.

The general management of the Company is under the direction of persons who have been long practically acquainted with, and connected with the working of Life Assurance Institutions; and it has been the study of the Directors to afford all those advantages to their Policy-holders abroad which are commanded by assurers in this country.

For the purpose of giving increased facilities also in the Company's transactions, the Directors have formed Local Boards of Management, and Branch Offices, where Assurances may be effected and Premiums paid, in the different places to which they have extended their business.

THE CAPITAL of the Company is £500,000. All the Directors in Great Britain are Shareholders of the Company, and those appointed in the Colonies are found to take a similar interest in the Institution.

THE RATES which the Company have adopted, have been formed on the most correct observations which exist as to the value of life in those countries to which the Company have extended their business.

THE PROFITS of the Company will be ascertained and divided at certain intervals; the First Investigation and Division being to be in 1854, when each Policy, having a right to participate in the Profits, will share in the fund to be allocated for Division among the Assured, according to the Profits which the Company may calculate to have arisen on the particular class of Risks to which such Policy may belong.

Every information can be obtained at the Offices of the Company.

By order of the Directors.

WILLIAM THOS. THOMSON, *Actuary.*

HENRY J. WILLIAMS, *Secretary.*

Established March, 1824.

Persons effecting Insurances with the *Alliance Company* enjoy the following important advantages ;—

I.—*Perfect Security.*—The large Capital and nearly One Thousand Shareholders composing the Company, render the Security presented to the public undoubted.

II.—*Moderate Premiums of Assurance.*—The Rates of the Premiums of Assurance for the greater part of *Life*, will be found lower than those in use in many of the older and most respectable offices.

The Premiums of Assurance on *Fire*, are the same as those which are demanded by the first class of Assurance Companies.

III.—*Participation of Profits by the assured both in Life and Fire.*—The profits of the Life Department, appropriated every Five Years, are applied either to the reduction of the rate of the future Premium to be paid on the policy, or to

the increase of assured on the Life, as is most agreeable to the Assured; the party to make his choice at the time the proposition for Assurance is made.

The *Profits* of the *Fire Department* appropriated to the Assured, are distributed at the close of each successive period of Five Years, in the form of a per centage on the Premiums which have been paid.

IV.—Parties who obtain a settlement of losses by Fire are not thereby deprived of their right to participate in the profits of the Company.

V.—Losses by lightning are made good.

The undersigned beg leave to announce, that having been appointed Agents for Newfoundland to the above Company, they are prepared to receive proposals for FIRE and LIFE INSURANCE, and to issue Policies on the spot, by which means a saving of the stamp duty on Policies will be effected.

St. John's, Newfoundland Agency,

Messrs. BROCKLEBANK & ANTHONY, Agents.

The Agents to the Royal Insurance Company, for St. John's, Newfoundland, beg leave to inform their Friends and the Public, that they continue to receive orders for Assurance, and to issue Policies free of charge. They desire to draw their attention to the remarkable proofs of the sound principles of the Establishment for which they act, and of its ample resources.

The amount of the Capital of this Company, viz:—Two Millions Sterling, which would be immediately available to meet any unforeseen calamity—the well known character of its Directors—the high respectability of its Proprietors—and

the standing which it takes among the large Insurance establishments of the British Empire, enable it to rank with the most eligible Offices now in existence either in Europe or America with respect to the advantages offered to the Public.

FIRE DEPARTMENT.

FIRE INSURANCES will be effected at moderate rates of Premium.

The Company, from its large experience of Fire Insurance business, is able to form a just estimate of the risks which may be offered for its acceptance, and the Directors will always be amongst the first to give up Premiums which shall be found to be excessive.

They will likewise be ready to give such persons as may have introduced valuable and cautionary regulations for the safety of their premises, the full advantage of those improvements.

The Company will ever distinguish itself by its *promptness in the settlement of claims.*

The liberal settlement of losses incurred by the great fire at Montreal in 1852, irrespective of the claims paid here, has practically shown to the inhabitants of British America the character which this Company has ever maintained throughout the whole world under this head. It will only be necessary to add here that the Agents at **St. John's, NEWFOUNDLAND**, can, with confidence, announce to their fellow-citizens that they may feel assured that every legitimate claim will be immediately settled.

LIFE DEPARTMENT.

The important advantages afforded by the Company in this Branch will include the following, viz :—

Guarantee of an Ample Capital, Moderate Premiums, Large Participation of Profits by the Assured, amounting to **TWO THIRDS** of its NET AMOUNT, SMALL CHARGE FOR MANAGEMENT, the expenses of the Office being borne in due proportions by the two Branches, and *Exemption of the Assured from the Liability of Partnership.*

These are more elaborately referred to in the Almanac of the Company, which may be had on application.

A portion of the **LIFE PREMIUMS** may remain on Credit.
