SENATE REJECTED BILL TO AID DEPOSITORS OF FARMERS' BANK PARTY LINES WERE SHATTERED

Proposal To Give Measure Six Months' Hoist Was Carried by 32 to 25—Fourteen Liberals Opposed Motion of Senator Power, and Eleven Conservatives Voted in Its Support.

By Staff Representative.
OTTAWA, June 8.—The bill to reimburse the depositors in the defunct Farmers' Bank was rejected in the senate this evening by 32 to 25. The defeat of the measure was not unexpected, but it was anticipated that the division would be on party lines. The reverse was the case. The vote of the Conservatives was evenly divided, while fourteen Liberals voted for the measure.

The following was the complexion of the division:
Conservatives against—Lougheed, Baird, Mason, Gordon, McLaren, Taylor, Pope, Smith, Donnelly, McCaul, DeBoucherville—11.
Liberals for six months' hoist—Beique, Fiset, Legris, Thibodeau, Godbout, Kerr, Dandurand, Power, Thompson, Forget, Jaffray, Tessier, Roche, Farrell, Dessaulles, Choquette, Yeo, Beith, Gillmer, Cloran and Lavergne—21.

Stood by Depositors.
Conservatives against—Lougheed, Baird, Mason, Gordon, McLaren, Taylor, Pope, Smith, Donnelly, McCaul, DeBoucherville—11.

Liberals against—Mitchell, Divet, McHugh, Domville, Casgrain, Bostock, Derbyshire, Deveber, Young, Watson, Ross (Moose Jaw), Raiz, Boyer and Talbot—14.

The two party leaders, Messrs. Lougheed and Bostock, both voted for the bill, while Sir Mackenzie Bowell, the old Conservative premier, voted against.

Several Liberal senators alleged that the purpose of the bill was merely to fulfil election promises and blacken the character of the former finance minister, Hon. W. S. Fielding.

Senator Bostock declared that notwithstanding the information which was said to have reached Mr. Henderson of Halifax, that member had not taken the trouble to go across the floor of the house and tell Mr. Fielding.

OPPONENTS OF CHURCH UNION STIRRED UP STORMY DEBATE MINORITY REPORT HELD OVER

Determined Effort Will Be Made Today to Have Assembly Defer Decided Action, Altho Majority Favor Advancing Negotiations—Finances Not on Sound Basis.

By a Staff Reporter.
WOODSTOCK, June 8.—The expected clash between church unionists and anti-unionists took place at today's session of the general assembly of the Presbyterian Church. Dr. W. T. Clark of Westmount, Quebec, presented the report for the committee, and during his address spoke in criticism of the stand taken by opponents.

Dr. D. D. McLeod (Barrie) took exception to several of Dr. Clark's statements, and gave a vigorous address in support of the minority report. Dr. Clark moved the adoption of his report and it was seconded by Principal McKay of Vancouver.

The minority report will be presented by Dr. Scott of Montreal tomorrow morning, along with an overture suggested by 32 commissioners. The latter will probably be presented by Sir Thomas Taylor of Hamilton.

Both the minority report and the overture ask that negotiations with the Methodist and Congregationalists be shelved for some years. However, it is thought that the union committee will be reappointed and negotiations will be continued for another year.

A Vague Pledge.
Dr. W. T. Clark, when opening the discussion on church union this morning, said the amendments offered were the result of a large number of suggestions the committee had received from time to time. He read the opening chapter of a booklet issued by opponents which pointed out that the organization they had formed was for the "careful watching and preservation of the church."

"Why I could sign that myself," he said. "I have been trying to do that since I joined the church, and I was then 17 years of age."

Opponents Won Over.
At this point he called the attention of the assembly to the change of opinion going on in their ranks. "At least six members of the committee who, when they joined, were strictly opposed to church union, have now come to think the same as I," he said. Judge Swanson who, he said, had preached against union, stating that he had changed his mind on this subject.

The speaker urged the commissioners to forget the pride they have in

SENATOR COFFEY DEAD AT LONDON

Editor of Catholic Record Was Known Thruout Canada as Stalwart of Church.

Canadian Press Despatch.
LONDON, Ont., June 8.—Senator Thomas Coffey died here tonight at his home, 504 Wellington street. Heart disease was responsible for the death of the senator, who had been confined to his bed for three weeks.

Senator Coffey, who was in his 72nd year, was well-known throughout the Dominion as the editor and proprietor of The Catholic Record of this city, which he founded in 1878 and conducted up to the last.

He was born at Castle Connell, Limerick County, Ireland, coming to Canada with his parents when a child. He was educated in Montreal, and in this city, entering the newspaper business as a journeyman printer. He deceased had held high offices in the Catholic Mutual Benefit Association, and was one of the stalwarts of the Roman Catholic Church in Canada. He was honored by Ottawa University with the degree of LL.D. in 1907, and was called to the senate by Lord Minto, in 1903. His name had frequently been mentioned in connection with a cabinet position under Sir Wilfrid Laurier, who was an intimate friend.

FIRST VICTIM OF EXCESSIVE HEAT
While working on the construction of a row of houses on Shaw street yesterday afternoon, John Petres, laborer 387 West King street, collapsed as the result of a sun stroke. He was conveyed to the General Hospital and died at 11:30 last night. The body was removed to the morgue but an inquest is unlikely.

William Hop, an engineer on the G.T.R., was overcome by heat in his engine cab in the freight yards yesterday afternoon, and had to be conveyed to Grace Hospital in the police ambulance. It is expected he will recover.

SCORE INJURED IN CAR SMASH

Three Persons Are in Serious Condition as Results of Trolley Collision at Guelph

GUELPH, June 8.—About a score of people were injured, half a dozen seriously, in a head-on collision of two trolleys on Woolwich street about 9 o'clock tonight. Both were almost filled with passengers, and when the cars collided, were traveling about 12 miles an hour. Half the passengers were hurled to the pavement. Those who were able to cling to their seats were thrown in a heap among the wreckage of the front vestibules of both trolleys.

Among the most seriously injured are: Conductor Croble and Motorman James Bernie, and W. E. Smith. Mrs. Donald McLeod, who sat at the end of one of the seats, alighted on her head on the pavement, and may have a fractured skull.

Altho equipped with but a single track, the trolley service was being run at its utmost capacity, owing to the crowds attending the circus tomorrow. According to the stories told by both motormen last night the heavy loadlight on the cars was mainly responsible for the accident, in that each motorman mistook the other's light for a motor car. A mistake in the signal service is thought to have allowed one of the cars to pass a switch.

LIBERALS ENDORSE LABORITE NOMINEE
Special to The Toronto World.
ST. CATHARINES, June 8.—At the Liberal convention for the riding of St. Catharines tonight it was decided to not place a candidate in the field against A. J. James A. Wiley, the nominee of the Labor party, the convention declaring that "the principles on which the Labor candidate is appealing to the electors are closely allied to those of the Liberal party," and a committee was appointed "to work in the interests of the party."

DIGNITY GREED TO SUPPORT ROWELL

But Riverdale Liberals Did Not Like Agreement Made by Committee With Conservative Candidate and Demanded Their Resignations, Which Were Given.

A Liberal committee meeting in Armstrong's Hall, preliminary to the selection of a candidate for the Riverdale riding, was the scene of a curious mixup last night. At 10:30, after a long wait, Dr. C. G. Chapin, H. Passmore and F. G. Thomas, the three members entrusted with the task of placing names before the meeting, appeared, and to the astonishment of everybody, submitted a signed statement from C. J. Doughty, Conservative candidate and president of Ward One Conservative Association, offering his support for the Rowell platform regarding the abolition of the bar, tax reform and women's suffrage in return for the endorsement of the Liberals of the riding. Upon the reading of the statement, which was witnessed by H. E. Bond, there was an outburst of indignation from the Liberals present, and President J. Carter, who was in the chair, had some difficulty in preserving order. After a wordy and bitter discussion, in which personalities were indulged in, the meeting demanded the resignations of Dr. Chapin, Messrs. Passmore and Thomas, and they were forced to withdraw from the meeting in company with a minority of their sympathizers.

In consequence of what the Riverdale Liberals regard as a betrayal of their interests, the nomination convention billed for Thursday night in Armstrong's Hall has had to be postponed, but the committee is to meet again this week to formulate new plans.

C. J. Doughty was nominated in the Conservative interest at a meeting in Oddfellows' Hall about two days ago. He defeated former Controller Thomas Foster and ex-Ald. Sanderson for the place.

PROMPT ACTION AVERTS WRECK

Woodstock Man Found Tracks Washed Away in Night and Stopped Train in Time.

Special to The Toronto World.
WOODSTOCK, June 8.—By taking off his coat, tying it to a sun, waving it, lighting matches, and shouting, Edward Dutton of this town succeeded in stopping a C.P.R. freight train and thereby preventing it from being wrecked thru running on a section where the tracks had been washed away by the rains about 3 o'clock this morning.

Dutton was returning from a hunting-trip, and he came across the wash-out at Pine Pond, 12 miles east of Woodstock. He and several companions began to hurry to a point where a warning might be given to the railway officials, but they had proceeded only 200 yards when they saw a freight train coming thundering along. After it was stopped and the crew had examined the condition of the roadbed, he backed up to Woodstock, and his auxiliary was sent to make the repairs.

HON. W. H. HEARST AGAIN CANDIDATE AT THE SOO

Special to The Toronto World.
SAULT STE. MARIE, Ont., June 8.—"So long as the electors consider that I have served them well, I shall neither seek, ask, or accept a nomination from any other constituency," thus spoke Hon. W. H. Hearst when he was nominated for this afternoon in Columbia Hall in this city.

Mr. Hearst, Albert Grigg, the member for East Algoma and Hon. Frank Cochrane, minister of railways and canals, addressed a large meeting tonight.

"We have put our hands to the plough for the development of Northern Ontario and we are not going to turn back," Mr. Hearst said. He had secured from the government five million dollars for this work and if he is returned during the next four years five millions more will be spent.

HURETA HOLD BLOCKADE ORDER

Situation at Tampico is Relieved, Temporarily at Least, and Washington Breathes More Freely.

Canadian Press Despatch.
WASHINGTON, June 8.—General Hureta's order today suspending the order to blockade Tampico against the delivery of ammunition by the steamer Antilla to the constitutionalists served to dispel apprehension over a new crisis between the United States and the Huerta Government which had threatened mediation of Mexican affairs.

The Washington officials expressed satisfaction over Hureta's action. It was persistently suggested outside of official circles that the blockade had been suspended only conditionally as a result of conferences between the South American mediators and the Mexican and American delegates at Niagara Falls, and that the Antilla's cargo of arms might not be delivered at Tampico at this time. It was said that the Antilla might be diverted in her course thru an agreement with officials of the Ward line, her owners, an American corporation.

ELECTION HAS BEEN CALLED TO AID POLITICAL FORTUNES SAYS ROWELL IN MANIFESTO

Peace in Mexico Draws Near Protocol Soon To Be Drafted

Canadian Press Despatch.
NIAGARA FALLS, Ont., June 8.—President Wilson's representatives today presented to the three South American mediators a complete plan for the pacification of Mexico.
It is the same in principle as that already agreed to by the Huerta Government. It contemplates establishment of a new provisional government in Mexico City which would conduct general elections for a permanent government.
The plan written by the American delegates includes several counter-propositions of which the Huerta delegates will be advised tomorrow. The differences in the two plans are slight. A full conference of all delegates and mediators is planned for tomorrow or Wednesday. This is for the formal consideration and final drafting of the protocol.

Government Prefers to Take Chance Now Rather Than a Year and Half Hence When Public Would Understand Situation Better.

L. N. W. Rowell, K.C., leader of the Liberal party in the Province of Ontario, has issued the following manifesto:

"To the electors of Ontario:
"The legislature has been prematurely dissolved, and the province has been put to the trouble and expense of a general election, not to serve any public interest, but to promote the political fortunes of the present administration. The signs of disintegration and disintegration are everywhere manifest, and the government prefers to take its chances now rather than a year and a half hence, when the public would understand the situation better. The important measures referred to by the prime minister in his manifesto are not controversial issues in the present contest.

Workmen's Compensation.
"The Workmen's Compensation Act, after years of delay, has at last been passed, but not yet brought into operation; passed largely thru the pressure brought to bear upon the government by the Liberal members of the legislature and the labor interests of the province.

"The only question before the electors in reference to workmen's compensation is whether this act shall be put into operation by the men who believe in a moderate workmen's compensation law and have worked for it for years, or by a government which has been forced to move every inch of the way it has traveled, and whether there shall be added to the provisions of the act an amendment to make provision for prompt medical attendance to all injured persons, commonly called 'first aid'.

Good Roads Movement.
"The good roads movement was initiated by the former Liberal administration, and the demand for a general province-wide measure was one of the planks in the Liberal platform at the last election.

"We are glad to note the government is moving in the same direction. The only question is, shall this advanced movement be planned and carried out by the men who have been years advocating it, or by the government which has been all too slow to move?

Hydro-Radial Proposals.
"The hydro-radial proposals were first introduced into the legislature by the Liberal opposition, who have been arousing the government to take action. Hon. Adam Beck has always been a strong and enthusiastic advocate of hydro-radials; but that he has difficulty in persuading his colleagues to move is known to everybody. We welcomed the government's proposals, tho' tardily brought down; we supported the Hon. Adam Beck's Bill in the legislature, and we pledge ourselves to promote the development of hydro-radials thruout the province.

Settling the Country.
"In New Ontario we have a territory larger by half than either of the provinces of Saskatchewan or Alberta, and rich in natural resources. Its development and settlement constitute one of the greatest opportunities and gravest responsibilities. It is our duty to bind together the east and the west, providing markets for the manufacturers and business men of our cities and towns, and increased employment for our workmen and the food supply for the consumers of the province. While we are importing food products we are importing millions of acres yet untilled. We have spent and are spending millions of dollars on railways and new roads to open up the country. The only way we can maintain these great public works and get a return on our investments, the interest on which now constitutes a serious charge upon our revenues, is by settling the country. As it is, the department of

MILITANTS MAY BE ALLOWED TO STARVE

Understood Intention of Government to Enact Legislation to Protect Prison Authorities Meets Unqualified Approval of Representative Clergymen of Britain.

Canadian Press Despatch.
LONDON, June 8.—"Let them die," is becoming a rather popular slogan in connection with the "hunger striking" suffragettes, since the public has become so profoundly resentful of the actions of the militant women.

It is reported today that the government had decided to take a step in this direction by introducing legislation to indemnify the prison authorities against the consequences of allowing suffragettes to starve themselves to death while in prison.

The Evening Standard today interviewed a number of prominent people, including clergymen, on the subject, and all of the latter who are quoted by the newspaper, express themselves in favor of the proposal.

Approved by Clergymen.
Father Bernard Vaughan, brother of the late Cardinal Vaughan, replied: "There would be nothing ethically wrong in letting them die. Let them start at once and make up for lost time."

Rev. Arthur Waldron, vicar of St. Matthew's, Brixton, said: "If the women refuse food they should be allowed to die."

Rev. Richard Free, vicar of St. Clement's, Fulham, replied: "I think the suggestion very good. I have advocated it for many months."

Several of those interviewed denounced impartially both forcible feeding and the "hunger strike," while Willoughby Dickinson, a Liberal member of parliament; Lady Cowdry and Lady Muir-Mackenzie disavowed the suggestion as preposterous.

HURETA HOLD BLOCKADE ORDER

Situation at Tampico is Relieved, Temporarily at Least, and Washington Breathes More Freely.

Canadian Press Despatch.
WASHINGTON, June 8.—General Hureta's order today suspending the order to blockade Tampico against the delivery of ammunition by the steamer Antilla to the constitutionalists served to dispel apprehension over a new crisis between the United States and the Huerta Government which had threatened mediation of Mexican affairs.

The Washington officials expressed satisfaction over Hureta's action. It was said that the Antilla might be diverted in her course thru an agreement with officials of the Ward line, her owners, an American corporation.

Several aldermen assured the members of the disposal plant in the city would be just as keen as from residents in Toronto of the road whatever district it was proposed to set the plant in.

POLITICAL INTELLIGENCE

The result of the provincial elections will depend to a greater extent than usual upon the personality of the candidates and local conditions in the various ridings. Were the people to vote directly for prime minister there could be little doubt as to where their choice would fall as between Sir James Whitney and anyone who could be pitted against him. But, judging from the press reports, conditions exist in some districts heretofore loyal to Sir James and the Conservative party, which give encouragement to the opposition. We read of stormy conventions, of delegates withdrawing before a ballot was taken, of irregular contests at the polls in which two of the three candidates will divide the Conservative vote. In one district we have a minister of the crown virtually running as an independent candidate.

These indications of strife within the party lines may not be correlated or be traceable to any one man's ambition or personal influence. If that be the case many differences may be composed between now and nomination day. They may merely voice a general protest against our present convention system.

To The Walkerville Herald and Standard we are indebted for what appears to be a fair and full report of the recent Conservative convention in the new Essex riding, consisting of Windsor, Walkerville and Sandwich, at which O. E. Fleming was nominated and Hon. Dr. J. O. Reame was turned down. The Reame delegates, with one exception, did not participate in the ballot, altho the minister himself addressed the convention, as did many of his supporters. The majority of the delegates were evidently anti-Reame, and were unmoved by a telegram from Sir James Whitney stating that he was most anxious that his colleague should be nominated. Perhaps the telegram may have made the convention more determined as saving any rate, it placed Mr. Fleming in the field and Dr. Reame will contest the election, claiming to be the regular Conservative candidate.

Neither in Dr. Reame's speech before the convention, nor in his some-

what fiery announcement of his candidacy after the convention, do we find stated the specific charges upon which the validity of the convention is to be assailed. We have merely the general statements of the minister that the convention was unfair, that he had been given a raw deal, and that meetings had been called organizing the new riding of which he had not been notified.

In East Ottawa a situation has developed which shows that party discipline is being disregarded by the candidates of both parties. The bilingual issue is there supreme, and each candidate seeks to outbid the other for the French vote. Mr. Champagne, the sitting member and Conservative candidate, is telling electors that he will support a want of confidence resolution moved by Mr. Beaulieu if the Whitney government does not change its present policy. On the other hand, Mr. Pinard, the Liberal candidate, not only makes the same declaration, but declares that if elected, he will use his own judgment in supporting or refusing to support the banish the bar policy. There is some talk of an English-speaking Protestant running as an independent Conservative candidate, on the theory that he would be supported by the Irish Catholics, who are at daggers-drawn with their French coreligionists. No one so far has volunteered to essay the feat of slipping in between Mr. Pinard and Mr. Champagne, probably make the latter's election almost certain, and in the end do little more than give the Conservative vote. Mr. Champagne's chances, it may be observed in passing, have not been improved by the defeat of Dr. Reame.

The Fort Arthur Daily News gives some interesting figures respecting the progress of temperance reform since the Whitney government came into power. According to The News there were in 1905 no less than 2314 liquor licenses in Ontario, of which 2316 were tavern and 288 were shop licenses. Since then the number has steadily decreased, until at present there are only 1699 licenses left. To what extent the temperance issue will affect the general result is problematical. The Conservatives believe there will be no serious break in the party lines and the extremely short campaign will be a factor in favor of the prediction.

After Stormy Meeting Decide Not to Join Hands With Trades Council.

PLATFORM ANNOUNCED

Joint Committee of Workers Enumerate Reforms They Are Seeking.

Local Social Democrats will not join hands with the Independent Labor Party and Trades Council in the coming campaign, but while adopting the joint platform have selected five candidates for Toronto constituencies in run as straight Socialists. The candidates selected were Rev. W. E. S. Jamieson, T. E. Black, Mr. Pratt, M. D. Armstrong, and J. C. Colombo. A special committee was appointed to attend to the work of the campaign.

The joint committee appointed by the Social Democrats, Independent Laborites and Trades Council drew up a platform at the Labor Temple on Saturday night, which in brief is as follows:

Objective—Working class to capture parliamentary power.
Immediate demands—An eight-hour work-day throughout the province.

Age at which children shall leave school to be raised to 15 years.
Minimum wage, for women workers of Ontario, sufficiently high to give women economic independence.
Fair wage clause in government contracts.
Equal adult suffrage and proportional representation.
Public ownership of provincial and municipal utilities, such as water, light, heat, power, storage warehouses, natural resources, etc.
Inauguration of a labor department, with power to investigate working conditions in factories, etc.

FAIRBANK PUBLIC SCHOOL, AS IT WILL APPEAR WHEN ADDITIONS ARE BUILT.

TYPHOID REPORTS WERE INACCURATE

Mount Dennis Residents Are Indignant Because of Statements Regarding Wells.

CLAIM WATER IS PURE

Neglect of Notice on Part of Health Authorities Absolutely Criminal.

Strong indignation is felt and expressed by the residents of Mount Dennis over what they term the erroneous reports regarding typhoid and well contamination which appeared in the public press. It is reported that Mr. Mills, the manager of the Bank of B. N. A., who was stated to have been struck down by typhoid fever, and while it is supposed to be his, he is about his ordinary duties as usual. Mr. Blackburn, who rented quarters over the bank premises, and who is now wrestling with the disease, had gone to reside in this town a month before the typhoid scare began. As is stated by Mr. Marshall of Goddard and Co., the only other patient, a clerk in the bank, resides in Weston, and is under the care of Dr. E. E. Irwin, and it is considered quite as likely that the clerk received infection from some source other than from drinking the water of the well on the bank premises. The residents of the bank and the firm of T. J. Goddard and Co., next door, are still using the well, and if there is infection in the water, Mr. Marshall considers the lack of notice not only negligent on the part of the health authorities, but absolutely criminal.

No Notification. Some three weeks ago a sample of water was taken from a sample of water. No notification has been received from the health authorities. The sanitary inspector for West York, by the people concerned. In a matter of so grave a nature, it is not sufficient to accept a newspaper report that the well has been contaminated, and that all wells within a certain radius should be closed. It is necessary to have a favorable report from a competent authority, and that such should be based on a scientific analysis, according to the standard of the health authorities, and be brought forcibly to the attention of the health authorities.

The natural inference from the lack of notification, and that upon which the people are acting in using the well, is that the water is free from infection, and it is the contention of E. Lannon, the secretary of the Mount Dennis Ratepayers' Association, that the wells of the neighborhood provide exactly the same water which is filtered by the sand and gravel which is used in the wells of Mount Dennis. Lannon states that no well in Mount Dennis is less than 30 feet deep. He himself has seven wells, and one of these is about 80 feet deep. The average depth, he states, is about 45 feet. He considers that the wells are safe, and that the water is pure. He is of the opinion that the wells are safe, and that the water is pure. He is of the opinion that the wells are safe, and that the water is pure.

These concerned are willing to bear the brunt if there is anything in the reports which have been circulated, but that the reports are grossly exaggerated in their conviction, and they are indignant that what they consider erroneous statements should be liable to affect the status and the growth of the community.

SCARBORO COUNCIL WANTS NEW BRIDGE

G. T. R. Structure in Concession B Declared Unsafe for Traffic.

ASSESSMENT APPEALS

Work of Assessors, However, Was Upheld — Complaint Received of Bad Roads.

Complaints about bad roads were received at the meeting of the Scarborough Township Council yesterday afternoon. The C.P.R. bridge in concession B was found to be in a dangerous condition, and also the railway promised to make repairs, the council decided that the bridge is unsafe, and that it is inadequate for the traffic. On the advice of their solicitors the township will ask the railway company to remove the bridge built in order that traffic may not be impeded. Appeals for a reduction in the assessment were received from several taxpayers, but in none of the cases was the appeal upheld. Frank Weil of concession A complained that his assessment was filed at \$3300, while his neighbor, who had the same amount of property, was assessed at only \$2000. The council upholds the work of the assessors. The appeals of Andrew S. Hiley and of the St. Augustin Seminary were also denied. William O'Connor made a petition against being forced to pay public school taxes, being a supporter of the separate school. This appeal was dismissed on the ground that there is no separate school within the limits of the Township of Scarborough, and that Mr. O'Connor was, therefore, liable to the regular school rates. The award of the regular school rates, whereby the C.P.R. Railway was to contribute up at the city hall the week has been postponed, by the action of the railway withdrawing their application. The petition of ratepayers that the dump of garbage be discontinued in the Park avenue, between the Kingston and Gerrard streets, was dealt with by the council, and their request was referred to the board of health. Divisions in Eastwood Park, Sanderson Avenue and Watson Heights were presented for approval by Cecil White, and the council gave the affirmation necessary before they are filed for approval at the city hall.

BUILDING OPERATIONS ACTIVE IN MT. DENNIS

Real estate transfers in Mount Dennis during the last few weeks have not been few. Houses are being sold as erected and building operations are the rule rather than the exception, and it is stated that several prominent city firms, which have as yet reserved their names, have been making large quantities of brick, and indicating a large program of construction. The new firm, the J. Marsh & Co., with the assistance of hydro commission, and recently installed, are making bricks in a day, and expect to begin shipping in a week or two. The township is being leveled, has the work in hand of placing the streets, the titles of which were cleared at the meeting of the Ratepayers' Association.

Previous to Dr. Grant's address the moderator informed him it is the unanimous wish of the assembly that he resign his office. This announcement was followed by prolonged applause. During his address, Dr. Grant stated that he had proposed to resign his office, but that he had not done so. A special committee was appointed by the moderator today to confer with Dr. Grant, in an endeavor to persuade him to withdraw his resignation. colonization, under the ministry of agriculture, has failed to grasp the importance or urgency of the problem. We propose to enter upon this policy of development and settlement as a business and patriotic enterprise, put the department of colonization under a minister who will devote the necessary time and ability to this great task, and if the creation of a new department should prove necessary we will not hesitate to create it. "We disapprove of the present government of 3,000,000 acres of our best land by way of land grants to the railways, and we propose to put a stop to this policy, and to conserve our resources for the people—our lands for the settlers." "We protest against the financial waste of the present government, which government house serves but as an illustration, while the government last year cut down the grants to our rural public schools twenty-eight per cent."

Rural Life.

"The departments of agriculture and education are the most important departments of our government, but they have been treated as second-rate departments by the present government. In a province unsurpassed in natural advantages for stock raising, and with a consuming population demanding more than we are producing our rural population, and a declining production. With the decline in rural population has come a decline in the strength and vitality of the rural schools and the rural church in many sections of the province. The whole question of rural life presents a problem of great magnitude and importance, of which the present government does not appear to be cognizant, but which we must face and solve if we are to preserve our national strength and vitality."

Education Department.

"The present government of education, under the confidence of the people. A Conservative newspaper has pointed out that the minister has his feet in the ballot box rather than on the schools of the province. If our educational problems are not to be solved, if our educational progress is not to be continued, we must have a minister of education with modern educational ideas, and to improve existing conditions, with a capacity to cooperate with agricultural interests of the province in progressive movements to remedy the present situation. We must have a man at the head of the department the best man to be found in the Province of Ontario, whether elected at this general election or not."

Growth of Cities.

"While our rural population has been steadily declining in the older counties of the province, our urban population has been continuously and rapidly increasing. With the growth of our cities we are compelled to face problems of the modern city, the industrial communities, the poor, growing richer and the poor poorer; a rapid rise in real estate values, making it exceedingly difficult for the workman to own his home, and imposing a great additional burden upon the businessman; the inflation of the labor and industry of the future, which will weigh most heavily upon those least able to bear it; insufficient provision for housing accommodation; congested streets and tenements; thousands of women and girls who are to be the mothers of the next generation, employed in shops and factories, many of them under unsatisfactory conditions of employment, both as to hours of labor and wages; sickness and death among the resources to meet the latter; blighting and destructive influences of the open bar, which tends to thwart every effort at improvement, and the social and moral degeneracy which inevitably follows these conditions."

The Liberal Program.

"Should we not be sane and just legislation and administrative action seek to remedy the conditions which now exist and to prevent the further development in the cities and towns of Ontario of those social and industrial conditions which stepmen and social reformers in other lands are so heroically endeavoring to solve? To this great task we must devote our energies, believing that the highest duty of public men is to seek to promote the health, to enlarge the opportunities and to increase the comfort and happiness of the masses of the people. We have presented to the legislature and the people during the past three sessions important and far-reaching proposals, indicating the first steps to be taken along this line of progress. I shall not attempt to even to enumerate them all here. They deal with the settlement of New Ontario and the improvement of our

Is it Primitive and Brutal for Boys to Wish to Enlist?

By Winifred Black

Copyright, 1914, by Newspaper Feature Service, Inc.

I MET my friend at the club the other day. My friend was not quite herself, and she soon told me the reason why.

"This war," she said "and the talk of war—it is all so hideous, so brutal, so crude; I thought we were all through with that sort of thing long ago.

"And day before yesterday my own son wanted to enlist.

"I thought he was joking at first. I couldn't believe it of him. Why, I took him to a peace congress with me when he was only 7 years old, and I never would let him drill when he was at high school.

"I couldn't bear to have him talk the gentle-art of murder.

"And I thought he understood—but he didn't. He didn't understand at all. He is just as primitive today as—his grandfather, for instance.

"He talked about his grandfather and said he was proud of him for fighting in the civil war, and asked me why I kept his grandfather's sword in the wall.

"He said he should think I would be ashamed to do such a thing—and I really feared that I was wrong; I didn't realize the power of the suggestion of it.

"Oh, he talked terribly. He said he was sick of teas and tangos and automobiles and polo.

"He said he was tired of sitting in an iron cage at the bank and watching old misers grin when he told them what their balance was. He said he wanted to be a man—for once—just a plain man, like some of the fellows who died for their country's flag down there in Cuba.

The Boy's Handicaps.

"His father thought it was awfully funny; he almost died laughing at the boy and his heroes. But I didn't laugh. I couldn't. After all I've done to civilize that boy. Why, he's a member of the Brotherhood of Man Society, and he wears an Audubon badge. Isn't it terrible?"

"My dear," said the woman across the table, "it's worse than terrible. There's my boy, too—such a splendid, broad-minded, free-thinking fellow as he thought we'd brought him up to be.

"He's talked all the old rubbish about his country and honor and courage and duty, it was shocking. I'm completely discouraged.

"They were all talking about it—the terrible effect of this old-fashioned war talk on the young men. It brutalized them, they thought, and it made them so 'primitive' and so 'unadvanced.'

"I thought of the boy who wanted to enlist. I happened to know him. I never thought very much of him; he seemed an effeminate sort of creature some way—always helping his mother head around the tea, or teaching somebody's sister a new tango step. I'm going to look at that boy the next time I see him. Somehow I want to see what he really looks like, when he's not bowing or smirking or handing tea.

"The other chap—I saw him coming out of a pool room, when I was on my way home from the tea. It seems to me I'm always meeting him in the vicinity of that pool room.

"I wonder what he'd make of himself if he went out and was hungry once or twice a week and cold a night or two and slept on a marsh or in an open field a few times.

"He's always been petted and spoiled and sheltered. How would it be with him to be a man among men? I suppose it would brutalize him terribly.

A Day to Remember.

Of course, it is all very primitive and very brutal and very old-fashioned, all this business of soldiering, and I know I ought to be ashamed of myself for the lump that rises in my throat when I see the old flag that my father fought for snapping in the free wind of my father's country—but when I get home from the tea I found a telegram waiting for me and there was news in the telegram.

"Dear boy," the boy I have held in the core of my heart so long that I don't see how I ever lived before he dwelt there had enlisted. Enlisted—he, who has been ill and ailing so long; he, whom I have tried so hard to guard from every wind that blows! And all at once his hour strikes, and he is a boy no longer.

"Perhaps the boy I love would be better trying to make somebody buy a piece of land that isn't worth the selling, or learning how to beat some trusting client out of a perfectly good case in court.

"Maybe it will brutalize him to keep regular hours and lift up his feet and throw back his shoulders and keep step and take orders. But, somehow, I can't feel that way about it.

"The boy I love will probably never get his chance to do what he wanted to do, go out and fight for his country's flag; but he tried to do it.

"And if I live to be an old, old woman, I shall never think of the day when that boy was primitive and brutal enough to enlist but my heart will sing, and I shall lift my white head and walk with something as near to a proud and martial step as I can manage!

What a shame it is to be so hopelessly old-fashioned!

Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie: I am 19 years of age, though I am younger in actual experience. I have never been much alone in the company of men, and have never allowed them to hug and kiss me. Most of the boys I know are gentlemen, though some of them often ask me to allow them to kiss me. I have asked the advice of a few nice girls I know, and they laugh at me and tell me it is no harm if you know the young man well enough. Will you please advise me?

ELIZABETH.

WHAT makes you think the girls are "nice," Elizabeth? And do you think they are wise as well as "nice"?

For my part, I do not think them nice or wise. They take a decidedly coarse point of view, and you know it.

Where they live, and who their fathers are, and whether they have money enough to buy an ice cream soda now and then? That isn't enough, it isn't even half enough.

Keep your kisses for some one who's worthy of them, little Elizabeth. Do you remember the story of your name saint—Elizabeth of Hungary? She gave bread to the poor, and when her miser husband came and caught her with her arms full of loaves, the bread was changed by a miracle to roses.

Kisses are not so easily changed, little Elizabeth, and if they do turn to roses they are apt to be roses with sharp and cruel thorns.

THE VALUE OF HUMOR IN LIFE

"Wit May Be Cultivated," Says Actress

By ELEANOR AMES

HUMOR can be cultivated. If it seems to have been left out of your make-up, don't despair. Learn how to appreciate humor even if you can't be actively and actually humorous. Some of the best judges of humor, some of the most inspiring friends of humorists are those who never do or say anything humorous, but who have a keen and discriminating idea of what constitutes humor, and are able to open the doors of opportunity to those rarely blessed with humor.

The dictionary gives "wit" and "merit" as synonyms for humor. It defines it as "a disposition of mind or feeling."

Ann Murdock, who is responsible for the statement that it can be cultivated, says there is no use in defining it, for genuine humor is not a thing, and Ann Murdock herself combines the genius of the humorist with a discerning appreciation of humor.

Over a cup of tea, slipped between a hesitation and the tango at a dancing tea, Miss Murdock, with a mischievous light in the corners of her otherwise demure eyes and an optimistic grin to her mouth, held forth on the subject of humor.

"There is really no excuse for the normally intelligent human being having to acknowledge to a lack of the sense of humor," she declared. "Humor can be learned as well as languages and art. The reason that it has not been rated a learnable thing is because the world at large has long maintained a most stupid and rigid idea of what humor is. To me the most humorous thing about humor is that it can't be defined. It simply is, and it can be learned, but it can't be taught.

"It has to be puzzled out by the individual. But it is worth puzzling about for it is the most delightful and valuable possession, and lightens and brightens life more than anything I know of except money; and it even makes up for a lack of money.

"The man or woman with a genuine sense of humor will find comfort in misfortune. They should be able to laugh at their own misfortune. It is the backbone of courage. I have always declared that all wonderfully heroic and courageous persons have a fundamental supply of humor, even if they don't know it.

"A sense of humor is the sunshine of life. Any time you can laugh in your heart the battle is won.

"The best humorist is the unconscious one. The humorist who is convinced of it loses some of his reality. Better no humor at all than the made to order, displayed-for-a-purpose brand!

"How can one gain the sense of humor? Ah, there's the proof of what I have been saying. One can't give a rule for laying in a supply of humorous sense—but one can do it.

"Looking beneath the surface of life is the only way in which I can express what I mean. There is the obvious and what I see. And there is the underlying current—and we don't all see it. And there is the humor of life—in the underlying current, in what does not appear on the surface, in the subtlety of understanding.

"We all are apt to drift through the world with our mental and physical eyes half-closed. The humorously-sensed person has his alert. He sees what is there and what might be there."

Peter's Adventures in Matrimony

The truth about "the girl in the case" distinguishes this new series by Miss Dalrymple. Her character studies will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with interest.

No. 91. Monotonous Suburbanism.

W HEN Mary and I were first married we had some notion of living in the bustling little town in which mother and dad and Mary's people have lived all their lives. There was, however, a little suburban settlement springing up on the outskirts of town and there we eventually went, partly because rents were cheaper, partly because we found an idyllic little house, that just suited our pre-nuptial notions of what a house should be.

With the beautiful idealism of honeymooning we quite ignored the daily trolley trip into business or shopping. Now I must confess the desolate suburbanism of the place is getting on my nerves. I firmly believe this little settlement in which I live is the most suburban spot on the globe. The houses all look alike; the people all think alike; we all fuss over trivial and unnecessary things, and I've begun to believe we all look alike, stamped with a certain suburban mark that not one of us has escaped. And we all carry bundles home. Lately I've begun to catalogue the things we bring home, and I've begun to indulge as we fare forth in the early morning to catch trains and trolleys.

"Hello," sings out one man, "started your furnace yet, Peter? We're having a devil of a time with ours. Had to have it cleaned out and something or other mended."

"I've rigged up a dandy stunt for my furnace," enthuses another householder, who is somewhat inventive. "It's a system of ropes and pulleys, and in the morning I merely set my alarm for a certain time, lean out of bed, push the lever and go to sleep again. The lever operates the pulleys and turns on the fire. Then when I get up the house is as warm as toast."

Now this sort of conversation is all very well, provided we use it in occasional wedges, but for a daily diet it is deadly.

Each morning without fail a half-dozen of us who take the same car dismount our furnaces and wood, the cost of coal and various other domestic things. We seem to have certain channels worn in our brains and the sight of a neighbor starts us immediately to thinking of firewood and coal, lawns and lawnmowers, furnaces and various other householding interests. There is one man who always makes me think of trees. He cleared his lawn of a dozen or so and takes daily of a lifetime supply of firewood. Our topics vary only with the seasons.

The women are no better—and incidentally, no worse. They have sewing clubs and card clubs and a few other fussy clubs. They talk children and husbands and houses and furnaces, and few of them know what is going on beyond the limits of Suburbanville.

Now I realize that children and husbands and furnaces and houses are essential to the well-being of society, but just why we must have and repeat them over and over in a mental circle is one too many for me.

The whole truth about the matter is that we're so suburban we're beginning to gossip. Suburbanism seems to have sapped all our mental resources. Most of us have either built houses or bought them and we're setting sail on a new sea, with the result that whether or not a man has glass doorknobs put in his new house is important enough to merit an hour's exhaustive discussion.

But the thing is getting more and more on my nerves. I don't like the spirit of a new and small community like old houses, old towns, old streets, even if they do harbor a bit of gossiping. There's a more picturesque flavor to an old town than to a desperately new suburban village. All of our houses have cost about the same amount. I don't like that Uniformity that spells lack of individualism. I'd rather live where the life varies from a hovel to a mansion. It's more interesting. We all know just what salary everybody else is making and we know who is happily married and who isn't. I begin to feel the need of a change.

Secrets of Health and Happiness

Why Bad Home Habits Cause You to Lose Hair

By Dr. LEONARD KEENE HIRSHBERG
A. B. M. A., M. D. (Johns Hopkins)

SOME men are so proficient and full of health that they can distinguish and divide a hair 'twixt the south and south-southwest of the left eyebrow. On the other hand, there are many more persons who do not realize that their bad household habits of today are the sources of falling locks, baldness and gray hairs of the grown-up.

The hair of your head, like the quills of the fretful porcupine, differ from the scalp and the skin. Like rare jewels, swords and guns, they are useful and decorative, but lack red-blood nerves and lymph channels.

The only difference between the beautiful, dark, curly locks of Genevieve and the thick, coarsely textured hairs of cats, swine and certain animals is that the former are soft, smooth and elastic and called tresses, while the latter are rough, stiff and thick and termed bristles.

Of the many and various origins of falling hair, gray shades and baldness already mentioned to you, too little emphasis has been laid upon the disregard of individual combs and brushes for children, as well as all other members of the family.

Common Brush Used.

It is truly amazing and simultaneously a powerful indictment against universal, free education to find that in nine hundred and ninety-nine homes of every thousand there are to be found only one comb and brush.

That is to say, from five to ten persons use the same comb and brush and own it in common in these days of newspapers, widely disseminated information on hygiene and preventive medicine, and a race in youth is also shown in the biblical command to "larry at Jericho until your beards be grown."

Answers to Health Questions

J. E.—My eyes do not seem to grow, although everything else seems to.

Your eyes do not need to grow. If you will arrange your hair in the latest fashionable mode, you will observe the same effect as if you had larger eyes. Just as blue dresses, collars and neckties make the eyes blue and gray costumes make gray eyes a deeper gray, so a proper arrangement of the face and hair will make the eyes seem larger.

E. E.—Am 35 years old and thin. What shall I do to make my face fatter? Also what shall I do for receding gums?

1. Massage it. Keep in the sun. Sleep late and retire early. Eat lots of sweet, oily, buttery, creamy, fatty foods. Devour an extra heavy meal at night before bedtime.

2. Hydrogen peroxide, milk of magnesia and a dentist's care of your teeth should fix the receding gums.

Useful Hints for the Housewife

By Ann Marie Lloyd

WHEN it is said of a young housekeeper that "she can't even boil potatoes" it is generally supposed that she has fallen by the supreme test of culinary ignorance. Yet there are many more or less experienced cooks who are unable to boil potatoes without, as one witty person has said, "insulting the most useful and honorable of all staples of the kitchen."

It requires quite a bit of knowledge to boil a potato as a potato deserves boiling.

To begin with, there is one absolute rule to be remembered in cooking all green vegetables. They should be washed in cold water and cooked in boiling water. Salt should be added in the proportion of one teaspoonful to each quart of water. But whether at the beginning of the process of cooking or after the vegetables are partially cooked it will take half an hour to boil potatoes. It may take longer. Potatoes should be boiled in a covered pot, but they should be treated to continuous and gentle boiling.

Old potatoes should be soaked in cold water for at least an hour after being pared before they are boiled. As soon as they are tender they should be drained thoroughly, allowed to dry by shaking them in the saucepan and setting them on the back of the range, where they are covered with a coarse towel until serving time. Then they must be served in an open dish. Never put a cover over any potatoes when they are sent to the table.

Beating is the secret of good mashed potatoes. After they are boiled, drain and shake loose in the saucepan, and then mash them with a wire masher. Add plenty of butter, a dash of pepper and salt to taste, and have the milk hot and enough of it to make the potato mixture creamy. After it is added beat with a silver fork and then beat it lightly in the dish. Never pat or smooth it.

If you want a change from the regular mashed potatoes, try potato balls. To each pint of hot mashed potatoes add an eighth of a teaspoonful of salt and some chopped parsley and form into round smooth balls and fry in a basket in deep fat, or bake in butter in the oven.

Italian potatoes are delicious and add much to a dinner where there are no other vegetables.

Take two cups of the hot mashed potatoes and add a teaspoonful of onion juice, a tablespoonful of finely chopped parsley, the well beaten whites of four eggs, half a cup of grated cheese, a dash of paprika and salt to taste, beat thoroughly, heap in a buttered baking dish and bake till light brown.

Potato puff is a similar dish without the onion.

Everyday Heroes

THE bugle calls to action, and the sound of martial music thrills the soldier's heart.

Are living things in which he bears a part.

And so he marches on at duty's call, Unheeding scars the foe or danger near.

So thrilled he with the panoply of war His heart, though craven, knoweth not a fear.

But in the common, quiet walks of life, No drum or bugle sounds the earnest call;

No cheer awaits the victor if he rises, No marble keeps his memory if he falls.

The plodding, grinding work from day to day To gain the needful bread by which we live, And furnish sinews strong for daily toil, Doth merit better heed than what we give.

Not only on the crimson battlefield Is mainly courage, manly virtue shown. To build is grander than to destroy, And braver far to smile or pain than groan.

Not many lives receive the merit due, For none can know a brother's pain than groan.

Save as the rippling of the current shows, What far below in silence hideth there.

The afternoon was made up of making and cooking, done by the girls under the direction of Miss Parsons, was even more creditable than last year, which is saying a great deal, as it was wonderfully dainty then. An orchestra played in the garden during the afternoon.

NEWS FROM THE CITY HALL. ANNEXATION REFERRED BACK BY A VOTE OF TEN TO NINE. Bigger Toronto Scheme Must Now Await Report of Corporation Counsel and Result of Conference With Todmorden Residents—One-Man Opposition, Says Mayor.

The whole policy of annexation came up for more than two hours' discussion by council yesterday. The recommendation of the board of control, that Upper Canada College district, Russell Hill and Todmorden be annexed. Before the debate ended this much was patent by statements of members: That annexation is for the good of the workingman; That annexation of small pieces is often a concession that brings financial benefit to one man, but that comprehensive and broad annexation lowers real estate prices throughout the whole city.

Twenty-five thousand dollars was voted by council yesterday for relief of Emigrants of Ireland wreck sufferers. The mayor and city treasurer proposed a comprehensive treatment of the annexation question. The city departments were taxed to their limits now providing for previous annexations. The city's financial position did not merit them. These were Ald. McGillivray's oft-repeated arguments. There were now too many irons in the fire; some might get cold others there first be a comprehensive system.

Retrenchment—Ald. D. Spence. Then, after much useless talk by council, representatives of the anti-annexation factions were heard. Their arguments were much similar to the above. What was of most interest was said by Adam Ballantyne, K.C., appearing for Robert Davies. Views of Council. Ultimately Toronto would be saved want money if the districts were annexed, for streets would not have to be widened, extended, etc., at great cost.

There are three classes of people to be considered: The bona-fide residents, the home-seeker in that locality, and the large owner of vacant land. These should be considered in the order named. Trunk sewers, Bloor street viaduct, Danforth car lines are all to the benefit of Todmorden. Todmorden should justify share the expense. After almost putting through the Ontario Legislature a bill compelling Toronto to extend its services into the county this part of the county could not rightly oppose annexation. It was his belief that 80 per cent of Todmorden's residents favored annexation if free to take an independent stand.

All these were Controller McCarthy's arguments; some were reiterated by speakers following. Robert Davies' Opposition. The most influential person in opposition to Todmorden's annexation was Robert Davies, who owns hundreds of acres in the Don Valley, and many residents there, employed by him were induced to his view. He urged that to keep their property outside until they had derived all possible unearned increment, then come in and sell to the citizens for big profit.

Injury to Capt. Cheape the Cause—Record of All International Matches.

HEMPSTEAD, N.Y., June 8.—The first game of the International Polo Cup series has been postponed from Tuesday until next Saturday at 4 p.m. The postponement was due to the injury received by Capt. Leslie Cheape of the English team.

The initiative in the postponement was taken by the polo committee after that body had received a report regarding the injury to Captain Cheape, the star of the English challenge.

The polo committee prepared the following statement, which was issued by Chairman H. L. Herbert:

"Owing to the fact that Captain Cheape of the English team injured his eyes very badly it has been decided to postpone the game scheduled for tomorrow—until Saturday, June 13, when the first game of the series will be played at 4 o'clock."

The international polo contest will be decided by the best two out of three games, and the teams will line up as follows:

England: No. 1, Capt. H. A. Tomkinson; No. 2, Capt. L. & G. Cheape (doubtful); No. 3, Major F. W. Barrett; back, Capt. Vivian Lockett.

Substitutes: Lord Limberne, John A. Trull.

America: No. 1, Rene La Montague; No. 2, J. M. Waterbury; No. 3, Devereux-Milburn; back, Lawrence Waterbury.

Substitutes: C. C. Rumsey, Malcolm Stevenson, H. C. Phillips.

Referee: Louis E. Stoddard.

Umpires: England, Keith B. Maraham; America, Joshua Crane.

The following is the record of the international matches:

1888, at Newport, R.I.: England won both matches, 10 to 4 and 14 to 2.

1890, at Hurlingham, England: England won only match, 8 to 2.

1892, at Hurlingham, England: America won, 2 to 1; England won, 8 to 1; England won, 7 to 1.

1898, at Hurlingham, America won, 9 to 5; America won, 2 to 0.

1911, at Meadowbrook, L.I.: America won, 4½ to 3 and 4½ to 2½.

1912, at Meadowbrook, L.I.: America won, 5½ goals to 3 and 4½ to 4½.

ENGLISH POLO PLAYERS

Left to right: Captain Vivian N. Lockett, Captain Leslie Cheape, Major F. W. Barrett, Mr. John Trull and Captain H. A. Tomkinson. They are the best that could be sent out to meet the Americans, and they practised faithfully at Hempstead, L. I., for the international match. Four of the above will constitute the English team for the first game, postponed from today until Saturday, owing to Capt. Cheape's injury.

The next most successful players in order were Mr. Stanley Banks 75, Mr. J. D. Lawrence 76, Dr. Wilson and Mr. Torry Hayes, each 78. The T. and D. held a special meeting last evening at Occident Hall to discuss the insurance benevolent fund scheme, and the council were authorized to go ahead and perfect all details and report to another special meeting, to be held in two weeks.

The protest of Runnymede and Russell Motor was held over until next week. When this case is finally settled there will be many sins to repent of. The suspension of Spence of Hearts was raised, while Martin of Hiawatha was suspended until he appears before the council. Dunscombe was severely censured for rough play, while Tunnel of Mount Dennis will be an ardent spectator for a month because of his persistence in hitting. The game between Earlscourt and Jarvis was ordered to be played on a future date on Earlscourt's grounds.

LACROSSE GOSSIP

Next Saturday Toronto will get its first doubleheader of professional lacrosse that it has seen for many moons. Quebec will be here to meet the Indians at the Island, while the Rosedales will make their debut with Montreal as their opponents.

The new team has well lived up to its press notices in producing the best talent available, and they have a real good team. They are the equals of any Big Four squad right now.

With the two attractions drawing against each other the fans will wait anxiously to see which is the best drawn quantity in the Quebecites.

Rosedales on the other hand are considered favorites, but they are tackling an unknown quantity in the Quebecites.

The youngsters on the Tecumseh line-up are making good with a vengeance and, although they may not make a show of this year they should have a wonderful speedy bunch next year.

The Nationals have got that short passing game down fine, and will take some beating this season with their fast and elusive home working right.

Beaches will practice again on Wednesday night and everybody is expected to be ready for the trip to Stourville for their first game on Saturday.

Twenty-two teams entered the Connaught Cup series, and the draw for the first round, which will be played on June 20, is as follows:

TWO MAD WOMEN DECLARE FOR JAIL

Refused to Give Bonds for Good Conduct When Arraigned.

Canadian Press Despatch. LONDON, June 8.—"We have no King, but thank God, we have Mrs. Fankhurst," was the defiant snout of Miss Napier, one of yesterday's brawlers in Westminster Roman Catholic Cathedral, when she was led away to the cells after refusing to give a bond for her good behavior which brought up the police court today.

Mrs. May Fousten, the American woman arrested with several others after a disturbance at the Brompton oratory yesterday, was arraigned today at the Westminster Police Court. The magistrate told her she would have to give a bond of \$50 that she would be of good behavior for six months, and as an alternative would rather go to jail, and she announced her intention of at once beginning a "hunger strike."

A Big Revival in Bicycling this Year All the signs point to a greater demand for bicycles, likewise for tires. But no matter whether bicycling was up or down, Dunlop Tires were always "there." In other words, Dunlop Tires have always enjoyed the biggest portion of the patronage that was going. So this likely-looking increase in this year's bicycle business means more friends added to the Dunlop calling list of twenty-six years.

TODAY MANY CHANCES TO WIN, BUT MANY FAILED TO PRODUCE THE HIT

Rochester Played Out Every String and Nosed Out the Leafs in the Opening Fixture of the Series.

It was the usual blue Monday performance. Ladies' Day and the rest over Sunday found the Leafs lacking the final punch, and after breaking in front were nosed out at the wire by the fast game entry of the Red Sox.

There was no hard luck to it, for the Leafs had a grand chance to run up a commanding lead in the first, but the old base hit was missing. It was the same story in the eighth, with a corking chance to tie it up.

It looked all over but the cheering in the very first round, for the Leafs were on to Southdier Hoff in telling fashion, but failed to produce the hit the round was over.

BEAVER PITCHERS IN LIBERAL MOOD

Bases on Ball Had a Lot to Do With the Peterboro Victory—Schneider Quits.

PETERBORO, Ont., June 8.—A pass to King, Wilcox's sacrifice, Ort's boot and Kelly's poke over third ended a ten-inning struggle here this afternoon with the score 4 to 1 in favor of the Petes. The game was a good exhibition considering that the sudden rise in temperature had a tendency to slow the players up.

Beaver pitchers were in a liberal mood today, and the visiting sluggers fanned six passes, while the local hurlers only passed one.

CHICKEN CAUSED NEIGHBORS' QUARREL.

Following the hugging match between Edward Loan and W. Newington of 5 and 7 Reid street respectively, came a maimed optic for Mr. Newington and a summons for Mr. Loan. The contestants and their wives told magistrate Jacob Cohen yesterday how it happened, and why the Newington had been cooped in the Loan shed, in the hope of checking its tendency to purloin seeds from the Loan garden. Four separate and distinct versions of the cause, fray and ensuing breach were demolished by the magistrate, who urged the parties to take their sorrows to the minister.

HIS TWENTIETH APPEARANCE.

For the twentieth time this year, Hector McDonald appeared in the police court yesterday, charged with being drunk. "I thought I told you that I didn't want to see you here again," said the magistrate. "I told the policeman that, but he arrested me just the same," retorted the bibulous one, who was sent down for 60 days if he fails to find \$20, the amount of the fine imposed.

CHARGED WITH MANSLAUGHTER

KING HARANGUED BY SUFFRAGETTE

Young Woman Created Disturbance at Horse Show Olympia.

LONDON, June 8.—Another demonstration by a militant suffragette, in the presence of King George and Queen Mary, was carried out at the International Horse Show at Olympia this afternoon. Their majesties had hardly taken their seats when a young woman rose in the stalls opposite and in a shrill voice screamed denunciations for the forcible feeding of suffragette prisoners. The police pounced upon her immediately, but the woman fought wildly and her ejection from the building was effected only after a fierce struggle. "No peace for King George or Queen Mary" is the latest order given out by the headquarters staff of the militant suffragettes and their followers now allow few appearances of their majesties in public to pass without some kind of demonstration. Later in the day two women at opposite ends of the arena harangued the royal box and made appeals to the King to stop forcible feeding. Angry shouts were raised by the crowd as the suffragettes were ejected.

Canadian Press Despatch.

LONDON, June 8.—The drugs conveyed into Holloway jail to Grace Roe were to be used as an antidote," said Miss Barbara Wylie at the meeting of the Women's Social and Political Union today. She referred to the summons issued at the instance of the public prosecutor against Arthur Barnett, clerk to the attorney for the Women's Social and Political Union, who was accused of providing the imprisoned suffragettes with drugs to make them violently ill after they had been forcibly fed, so that they might be discharged from prison under the "Cat and Mouse Act." Miss Wylie declared that the authorities deliberately poisoned the women's food with drugs with the object of making them into physical and mental wrecks, and in her opinion the women certainly were justified in procuring an antidote.

FINED FIFTY DOLLARS.

A fine of \$50 was imposed by Magistrate Cohen upon T. A. Crowe, charged with driving an auto without a license. The accused stated that he was driving the auto from his factory to the customer.

RINGLING SHOWS
HERE TWO DAYS

More Than Seven Hundred Horses Are Carried This Year.

BEST RIDERS EVER HERE

Miss Josephine Clarke the Youngest Equestrienne in the World.

Beautiful girls, beautiful horses and daring riding feats make a combination that about every lover of amusement in the world likes to gaze upon, and next Monday and Tuesday, when Ringling Brothers circus comes to Toronto for a two-day engagement, the amusement lovers of this city will have an opportunity to feast their eyes on the prettiest, girly riders and the finest specimens of horse flesh that have ever appeared in a circus ring.

More than 700 horses are carried by the famous brother showmen this season, and this cavalcade includes every class from the heavy percheron of the baggage stock to the agile Arabian stud, and the sure-footed dapples that carry the pretty ladies in spangles thru the "hopp" of the ring.

When the Ringling show opens its engagement on the Dufferin Park show grounds Monday afternoon it will exhibit a greater variety of bareback riders than have ever before been assembled under a "big top." Among the girl riders is Miss Josephine Clarke, a beautiful English girl, who is the youngest equestrienne in the performing world. Although only eighteen she has already made an enviable reputation for herself in the sawdust ring. She has been riding since she was ten, and while being taught by her father and brother, she was also given a thorough education in dancing by a noted French master, and Miss Clarke practices in order that he or she may have grace and poise, and that she has been unanimously proclaimed the most graceful rider in America.

Other famous riders who will be seen here with the Ringling circus are Miss Lulu Davenport, of Hodgkin, the Balkan troupe of four Lloyds, Charles Augustus Clarke, and Reno McCree, Jr.

A Big Special for the Man Who Pays \$15.00 for His Suit

We have a large custom among men who insist on good quality in clothing, yet who are unwilling to pay fancy prices for unusual tailoring. Still to this class an added touch of elegance in cut or material is entirely welcome.

The suits we are offering Wednesday have this greater merit in materials, linings and general finish that make them sell regularly for \$18.00, \$20.00 and \$22.50, and yet they will be priced for Wednesday \$15.00. They are all from regular stock, but in broken size ranges, so that while every size is represented the variety is great.
