THURSDAY MORNING JUNE 20 1918

VOL. XXXVIII.—No. 43,735 TWO CENTS

ITALIANS WITHSTAND BITTER ASSAULTS

40,000 Germans Cut to Pieces at Rheims---Peasants Revolt at Kiev

GERMANS MEET DISMAL DEFEAT BEFORE RHEIMS

At Every Point They Are Repulsed With Heavy Losses.

ONLY A FEW RETURN

French Troops Prevent the Enemy From Scoring Even Initial Success.

With the French Army in France, June 19.—Large units of German shock troops which had been concentrated on the western side of Rheims, between Vigny and Ornes, and which went over to assault last night, were met with such an awful fire from the French defence that they were unable to make the slightest progress. They suffered such losses after trying time after time to reach the French positions that only a few of the attackers were able to return to their own lines.

At every point they were repulsed with heavy losses. In a most gallant manner, the French troops prevented the enemy from scoring even an initial success. The artillery preparation lasted for several hours and was one of the most terrific yet carried out.

At the east of Rheims the Germans at first made some gains, but were soon thrown back to their original positions, and a considerable number of them were taken prisoner.

The second debouched near the artillery range eastward of Rheims, but it did not even reach the allied positions. The third column tried to reach the Constantine farm and proceeded in the direction of Haubette, west of Rheims, but was unsuccessful while the fourth operated between Vigny and Ornes, bearing chiefly toward the last-named village, but equally without result.

The Germans suffered severe casualties in the latter region. The admirable counter-battery work of the French gunners upset all the German plans, their shells doing great execution among the enemy. Enemy concentrations in the vicinity of Jambry were waiting to enter the combat in the event the first onslaught succeeded.

MAKE NO HEADWAY AGAINST BRITISH

Austrians Cannot Gain Any Ground Along Piave River.

FIGHTING STILL HEAVY

River is in Flood and Enemy's Bridges Are Washed Away.

London, June 19.—The Austrians have been able to make virtually no progress against the British forces along an important section of the line on the Italian front. The situation on the British front is unchanged, according to the official communications tonight describing these operations.

The statement says: "There has been heavy fighting on the Piave front, but the enemy made little if any progress Tuesday. The river is in flood and many of the enemy's bridges have been washed away."

"The situation on the British front is unchanged. Two additional mountain guns have been captured."

FRENCH OFFICIAL

Paris, June 19.—The war office announcement tonight says: "There was no event of importance during the course of the day."

"On June 18 our air squadrons brought down or put out of action six German airplanes and set fire to one captive balloon. Our bombing machines dropped ten tons of projectiles last night on railway stations, cantonments and bivouacs in the region of Villers Franqueux, Faverolles and Fismes."

"Eastern theatre, June 18: West of Lake Dolman and on the right bank of the Vardar there were artillery duels. North of Monastir our troops repulsed an enemy surprise attack. Our patrols penetrated several points of the enemy's lines and brought back Bulgarian and Austrian prisoners. Allied airplanes carried out numerous bombardments. British aviators brought down three enemy machines."

"Belgian communication: Several of our detachments effectively carried out raids on the enemy lines in the region of Merkem and Boesinghe and brought back about 20 prisoners."

"In the last 48 hours the artillery activity has been quite feeble along the whole front. Our artillery has done some shelling."

ENEMY STRATEGY IS NOT PROFOUND

Nervousness of Initial Failure Has Handicapped Austrians.

CHANGES FAVOR ALLIES

Germans Give No Active Help, But Are After Booty.

London, June 19.—The military correspondent of the British wireless service, describing the situation on the Italian front, says: "Such slight alterations as have taken place on the Italian front have been in favor of the allies. On the Montello the situation appears to be better than was at first imagined. The ground gained by the enemy in his initial attack is now seen to be less than the first estimate, while the high points remain in Italian hands."

"Up to the present the enemy has not exhibited anything very profound in the way of strategy, and the present situation suggests that the nervousness of his initial failure handicapped him and prevented him from developing his plans upon the line he had previously laid down."

"Apart from a certain amount of material and artillery he has received no active help from the Germans, although it is interesting to note that, if he did not supply infantry, the Germans have not failed to send a requisitioning battalion for the express purpose of securing for the Germans a definite share of whatever booty fell to the attacking forces."

MONTREAL TO TORONTO IN THREE AND HALF HOURS

Lieut. George Flachaire Flies Over Distance With Two Steps in Between.

Lieut. George Flachaire of the French Flying Service, yesterday afternoon flew from Montreal to Toronto. He ended his flight at Leaside aviation camp, incidentally swooping down, from a half-mile elevation, at such an angle, that the spectators held their breath, thinking he was falling. The last lap of his flight, Deseronto to Leaside, 110 miles, was accomplished in just 110 minutes. His times were: Left Montreal—11.30 a.m., arriving Brockville, 12.45 p.m. Left Brockville—2.45, arriving Deseronto, 3.45. Left Deseronto—4.10, arriving Leaside, 5.20.

"THERE'S LUCK IN LEISURE"

In some instances this old saying is true, but it does not apply in the matter of summer hats. These are the days when a man feels alert and jaunty, and a new straw or Panama helps materially. Get all the wear you can out of your new summer hat by selecting it now. Don't wait until the real hot days come and then find the best values and varieties gone. Visit Dineen's, Temperance and Yonge streets.

AUSTRIANS NOW ARE DESPERATE OVER FAILURE

Emperor is Determined to Make Another Attempt to Advance.

ITALIANS GAIN GROUND

Immense Losses Inflicted on the Enemy as Bitter Battle Continues.

London, June 19.—Reuter's Rome correspondent says that according to reports the Austrian Emperor, who is at the front, is disappointed at the results obtained in the present offensive, and, jealous of the excessive credit the Germans took for their share in last year's offensive, is determined to make another desperate attempt to overwhelm the Italians unaided, before asking German assistance."

"Italian Official Report. Rome, June 19.—The text of the Italian statement follows: "On the night of June 17-18 and in the course of yesterday the enemy did not renew his attack from the Asiago Plateau to the Montello. His partial actions were completely repulsed in the Grappa and Montello region."

"We carried out thrusts on the Asiago Plateau, the allied detachments capturing many scores of prisoners and two guns. "With unceasing pressure we shortened the front opened by enemy south of the Montebelluno Railway. Our artillery with deadly concentration of fire did not give truce to the enemy masses waiting along the front of the battle or in movement in the back areas."

"Yesterday morning was calm on the Piave River, but in the afternoon the battle again broke out furiously. Enemy's Impetus Broken. "New attempts made by the enemy to cross to the right bank from San Andrea to Candeli were repulsed. On the embankment of the river between Candeli and Fossalta the strenuous defence of our troops tried the enemy severely, and his impetus was broken by our infantry."

"Equally intense was the struggle which raged in the sector of Fossalta, southwest of Meolo and north of Capo Sile. "Every yard of ground was the theatre of epic struggles, in which our own and allied airplanes took part, bombarding with 15,000 kilograms of bombs and firing tens of thousands of machine gun rounds into the vulnerable targets offered by the enemy troops forced into the narrow space on the right bank of the river."

"The battle is continuing bitterly. The enemy, in order to preserve some of the initial advantages gained by him, takes no heed of the immense losses which our rifle fire and the guns of our army have been inflicting in the past few days. "Prisoners taken since the beginning of the battle amount to 9,011. Many guns and several hundred Austrian machine guns remain in our hands."

"The number of enemy airplanes brought down now amounts to fifty. Two of our own or allied machines are missing."

The City's Senior Member, at Least.

Ottawa Citizen: Toronto Globe says that the C.N.R. office will not be moved from Toronto and that "public ownership will dwell in the house of its friends." Does The Globe base its description of Toronto in this respect on the record of Toronto's representatives in the commonsense regard to public ownership in the past? What a tribute to Billy Maclean!

Upper Yonge Street.

Editor World: I fully agree with the writer in yesterday's World to the intolerable condition of upper Yonge street, and hope some attempt will be made to improve it. Loud complaints are made by the drivers of the ambulances who have to go to and from the Davill's military hospital. I am told that Controller McBride was mainly responsible for cutting Commissioner Harris' appropriation down to such a low figure that the commissario or finds it impossible to make even a reasonable attempt to keep the city's main highway in a safe and satisfactory condition for travel. One Who Uses Yonge Street.

STOCKS OF LIQUOR NEAR EXHAUSTION

Two Months' Supply Imported in Last Great Rush.

SALES BY VENDORS

Those in Toronto Yesterday.

Curiosity as to the amount of liquor shipped into Ontario during the big drive just prior to the prohibition of importation may be appeased by the statement of those who watched closely the traffic, that it was valued at \$5,000,000. This is regarded as a conservative figure. Under the old license system, Ontario's drink bill was about \$30,000,000 a year, so that the last-minute supply shipped in from Quebec would, under normal conditions only last two months. Of this, the same authority figures that half is now resting in the cellars of the rich, while the other half is or was available for bootlegging purposes.

But the bootleggers have had a pretty busy time of it of late, and most of their stock has been disposed of or confiscated in raids by the authorities. For what they have left they are asking anywhere up to \$5 a bottle, according to the brand. A standard brand of Scotch will bring this price, and there is no occasion to be afraid of a shortage. There are about 12,000,000 gallons of spirits in the country, and the stock of spirits is a potable liquor and drinkable. The balance is high wines. As nearly all the large distilleries are in Ontario it follows that the Dominion government, the only outlet under the law for this province with whiskey of a sort, is now in bond here under the supervision of the inland revenue department. The only outlet under the law for this province with whiskey of a sort, is now in bond here under the supervision of the inland revenue department.

"Nearing Exhaustion. "With the traffic well on the road to exhaustion, "moonshining" and smuggling in are the only ways to secure liquor, except thru the government vendor. This state of affairs has led to an agitation to have the government take over the whole business of the temperance forces, however, are united in opposing this. "It would be a huge mistake for them to do any such thing," said Ben Spence, secretary of the Ontario Temperance Society. "The drugists should be allowed to continue to sell liquor, but the government should be allowed to regulate the sale of liquor, and to prohibit the sale of liquor to anyone who is not qualified to drink it."

"It is recognized," Mr. Spence adds, "that there will always be some sale of liquor necessary. This is the fringe of the open traffic ticket. However, with prohibition conditions secure, the sale of liquor to anyone who is not qualified to drink it, should be cut down. The main selling of liquor which may be secured now is not a sale of liquor to anyone who is not qualified to drink it, but a sale of liquor to anyone who is not qualified to drink it."

"The proposal to increase the rates of the Canadian Order of Foresters was defeated yesterday. The convention which is meeting in Toronto spent most of the day debating the matter, and it was nearing midnight when the vote was taken. There was much support for the proposal to raise the rates, and the discussion was lively at times. Many amendments to the proposition were presented. Some time was spent on the choice of a place of meeting next year, but no decision was arrived at."

CANADIAN FORESTERS WILL NOT RAISE RATES

Long Discussion Ends in Vote Near Midnight Against the Proposal.

Prisoners and Machine Gun Are Taken by the British

London, June 19.—Field Marshal Haig reports tonight as follows from the British front: "In a successful raid we captured a few prisoners and a machine gun. Tuesday night northeast of Bethune. "On Wednesday morning a hostile raiding party was repulsed with loss of prisoners and a machine gun. The raiding party was somewhat more active Wednesday in the Albert sector, in the neighborhood of Locon and Dickebusch Lake."

STRIKES IN VIENNA.

Reduction in Bread Rations Causes Rioting in Streets.

London, June 19.—According to a despatch from Zurich to the Exchange Telegraph there have been considerable strikes in Vienna owing to a reduction in the bread rations. At one time the police had to disperse the strikers."

COMMITTEE ON HOME AFFAIRS TO BE CREATED IN ENGLAND

Will Deal With All Domestic Questions Requiring Cooperation of More Than One Department.

London, June 19.—Chancellor Bonar Law, in the house of commons, and Earl Curzon, in the house of lords, today gave explanations of a report that another cabinet for home affairs was to be created. Mr. Bonar Law said the report was an entire mistake. It was simply intended to appoint a committee to deal with definite sets of questions, and the ultimate authority would be the war cabinet. Earl Curzon was more explicit. He said that a committee on home affairs would be appointed. It would consist of members connected with the principal home departments and would meet under the presidency of the home secretary, at least once a week. All domestic questions requiring the cooperation of more than one department would be referred to the committee, which would be empowered to reach decisions on behalf of the cabinet. But the larger questions of policy, he added, would be referred, at the chairman's direction, to the war cabinet. During the course of the debate in the house of commons today, several members criticized the extravagance of the government finance, and the needless multiplying of official bodies. The chancellor, in reply, contended that in such a tremendous affair as the war some extravagance was inevitable, but he said, the government was doing everything possible to check the expenditure and had already, by taking control of commodities, saved the country many millions.

WITNESS IN SCANDAL CHARGED WITH BIGAMY

London, June 19.—Mrs. Villiers-Stewart, one of the chief witnesses at the trial of Noel Pemberton Billing, member of parliament, and publisher of the newspaper Vigilante, for having libeled Miss Maud Allen, was charged in the Marylebone police court today with bigamy. It is alleged that she married Stewart, her present husband, who is an army officer, while her first husband, Percival Bray, formerly a motor bus driver, was still alive. Mrs. Stewart caused a sensation at the Pemberton-Billing trial by testifying that Noel Primrose, who was killed while with the British forces in Palestine, had showed her a German "black book," which was alleged to have contained the names of 47,000 persons in England, including those of ex-Frank and Mrs. Asquith and Viscount Haldane. She was remanded for one week.

TRANSIT FACILITIES THE CHIEF PROBLEM

King Street Association is Considering Improvement of Thoroughfare.

ACCESS TO STATION

Opening of New Streets One of the Matters Being Thought Out.

West King street, from Bay to Simcoe, which has fallen from grace in a business sense, as the result of the northward trend, bids fair to come into its own again. The merchants, financial institutions and property owners who have recently formed an association with the object of restoring the street's lost prestige, met yesterday afternoon. The president, Julian Sale, presided. He had been out of town for a considerable time and was surprised to see that things had improved during his absence. Several new shops had opened up, the older ones looked brisker and brighter, and indicated what might be accomplished when a well considered campaign for the rejuvenation of the street was got under way. The association will probably develop into something more than a purely parochial organization. It is felt by some of the members that a general policy for the whole of the downtown section will have to be developed before they may expect to receive any benefits themselves. With this in view a transportation committee will be appointed to consider the improvement of the transit facilities not alone on King street but also on streets leading to it. The opening of new streets as a means of retaining its position as a fashionable shopping thoroughfare will be taken up and already plans to this end are being prepared to show the members what might be accomplished. A street in the middle of the long block extending from Bay to York so as to give access to the new union station is one of the first proposals to be considered, and also streets to the north. "Watch King street grow" is the association's motto. The executive committee, around which will centre the really active work of the association has been appointed as follows: R. T. Stanley, H. Taylor and Julian Sale. Wesley E. Barker is the publicity representative.

FIGHTING IN THE OPEN WITHOUT ANY TRENCHES

Italians and Austrians Continue the Struggle With No Protection—Airmen Are Active.

Italian Army Headquarters, June 19.—"Sincere fighting continued today around the Montello Plateau and on the bottom lands along the Piave near Sandona di Piave, both the Italians and Austrians concentrating their efforts at these points. Most of the battles are in the open without protecting trenches. There is great aerial activity, the opposing airplanes flying low over the fighting soldiers, doing much damage in the opposing ranks. "They almost take your hat off. It is how one officer described the low flying of the airmen. "With their machine guns the aviators pursue the troops along the fluctuating battle lines and even seek them out among the thick bushes which are characteristic of the country along the lower Piave."

ORGANIZED REVOLT HAS BEGUN AT KIEV

Forty Thousand Armed Peasants Expel Artillery Stores and Street Fighting is Continuous.

London, June 19.—A great revolt has broken out at Kiev, according to an intercepted wireless message transmitted from Moscow to the Exchange Telegraph Company. Artillery stores have been expelled and there is continuous street fighting. The revolt is spreading to the Poltava and Tchernigov districts. Forty thousand peasants, armed and organized, are participating in the revolt. "Prisoners and Machine Gun Are Taken by the British. London, June 19.—Field Marshal Haig reports tonight as follows from the British front: "In a successful raid we captured a few prisoners and a machine gun. Tuesday night northeast of Bethune. "On Wednesday morning a hostile raiding party was repulsed with loss of prisoners and a machine gun. The raiding party was somewhat more active Wednesday in the Albert sector, in the neighborhood of Locon and Dickebusch Lake."

CRISIS IN BULGARIA SINCE PEACE TREATY

Censorship Prevents Any Allusion to Conditions Existing Since Agreement Was Signed.

Amsterdam, June 19.—The Cologne Volks Zeitung declares that a crisis has existed in Bulgaria ever since the conclusion of the Bucharest peace, but that censorship prevented any allusion to it. The Bulgarian parties, it says, did not forgive Premier Radoslavoff that he failed to return from Bucharest with the entire Dobruja. This, together with the food situation, led to the defection of a large number of the premier's supporters. With Radoslavoff, the last of the leading statesmen active at the outbreak of the war lays down office."

PEACE ONLY BY LEAGUE OF ALL NATIONS

Two Principal Conditions for League Essential, Says Viscount Grey.

LEAD, NOT FOLLOW

Germany Must Experience Change of Heart and Abjure Her Militarism.

London, June 19.—The widest interest will be evinced in a pamphlet on "The League of Nations," written by Viscount Grey, who was secretary of foreign affairs in the cabinet of Herbert Asquith, at the beginning of the European war. "There is more at stake in the war than the existence of individual states or empires or the fate of a continent," says Viscount Grey. "The whole of modern civilization is at stake, and whether it will perish and be submerged, as has happened to previous civilizations of older type, or whether it will live and progress depends upon whether the nations engaged in this war, and even those that are onlookers, learn the lessons that experience of the war may teach them."

"It must be with nations, as with individuals in the great trial, if they are to survive and prosper, and give to greater heights, or else sink lower and drop eventually into the abyss. And this war is the greatest trial of which there is any record in history. If the nations do not learn the lessons that this war may teach, mankind new lessons that will so dominate the thoughts and feeling of those who survive and those who succeed the survivors, as to make things possible, then the war will be the greatest catastrophe, as well as the most grievous trial and suffering, of which the world has any record."

Two Conditions Essential. Viscount Grey lays down two principal conditions which he says must be fulfilled if the league of nations is to be effective. The first is: "The idea must be adopted with earnestness and conviction by the executive heads of states. It must become an essential part of their practical policy, one of the chief reasons for their being or continuing to be responsible for the policy of their states. They must not adopt it only to render such service to the persons whom it is convenient to please or ungracious to displease. They must lead and not follow; they must compel, if necessary, and not be compelled."

This condition Viscount Grey thinks is actually fulfilled as regards the executive head of the United States and may really be found present as regards the entire government, while Austria has publicly shown a disposition to accept the proposal and probably will do so. It is a safeguard for the future, not only against bold enemies, but against Prussian domination. As long, however, as military rule in Germany continues, Germany will oppose a league of nations, he says.

Germany Must Abjure Militarism. "Nothing will change this," Viscount Grey continues, "except conviction in the German people that the use of force causes at least as much suffering to themselves as to others, and that security based upon the law and a sense of mutual advantage is better than the risks, dangers and suffering of the exerting of supreme power and efforts to obtain it. And this conviction must so work upon them as to displace the military party and their policy and ideals from power in Germany."

"Germany has to be convinced that force does not pay, that the aims and policy of her military rulers inflict intolerable and also unnecessary suffering upon her, and that when the world is free from the menace of these military rulers with their sharp swords, shining armor and mailed fists, Germany will find peaceful development assured and preferable to expansion by war, and will realize that the condition of true security for one nation in absence of security on the part of all nations. "Till Germany feels this to be true, there can be no league of nations in the sense intended by President Wilson. A league such as he desires must include Germany and should include no nation that is not thoroughly convinced of the advantage and necessity of such a league and that therefore not prepared to make the efforts, and if need be the sacrifices, necessary to maintain it."

Will Impose Limitations. The second condition, says Viscount Grey, is that the governments and not the people of states willing to favor it, must understand clearly that it will impose some limitations upon the national action of each and may entail some inconvenient obligations. The smaller and weaker nations will

### TURKS HAVE SACKED TABRIZ HOSPITAL

Being an American Institution, Outrage May Be Regarded as Act of War.

Washington, June 19.—Sacking of the American hospital at Tabriz, Persia, and seizure of the American and British consulates there by invading Turkish troops was reported to the state department today by the American minister at Teheran.

If the report as it reached the minister is officially confirmed, the outrage may be considered an act of war, and settle the long-pending question of whether the Ottoman allies among America's enemies.

Turks according to today's despatch the protest of the hospital over the charges, as representative of American interests, in and defiance of the American flag flying over the building.

The hospital at Tabriz is a Presby-terian missionary institution estab-lished several years ago. Many American doctors and nurses have been stationed there, but for several months the situation has been so serious that the force has been greatly reduced, and a few days ago it was reported to the state department that the last one had gone.

According to the best information obtainable here, the Turkish force is very small, not exceeding a few thousand men. A British force is operating not far south of Tabriz. Fighting between Turks occurred at this city and the British force is expected to be there.

There have been vigorous demands in congress from time to time for declarations of a state of war between the United States and Turkey and

### Bulgaria. President Wilson and the state department, however, have not regarded this step as necessary or desirable, since these allies of Germany so far have not been brought into actual conflict with Americans.

**Sunday, June Thirtieth, Will Be Observed as Day of Prayer**

Sunday, June 30, will be observed throughout the province as a day of national prayer and humiliation in connection with the great war. A proclamation setting apart that day has been issued by the provincial government at the request of the federal authorities. The proclamation sets forth that it is fitting that the people of the Province of Ontario should be able to make a public and solemn avowal of duty to Almighty God and of need of guidance. The executive council of the Province of Ontario has therefore appointed Sunday, June 30, as a day of prayer and intercession throughout the whole of the Province of Ontario on behalf of the allies, and for the success of their arms and for a speedy and favorable peace.

**TO EFFECT CO-OPERATION.**

Conference on Vital Statistics is Opened in Ottawa.

Ottawa, June 19.—Sir George Foster, minister of trade and commerce, opened the conference on vital statistics here this morning. The conference will continue tomorrow and Friday. The object of the meeting, which is being attended by representatives from all parts of Canada, is to create a Dominion-wide scheme of vital statistics under Dominion and provincial co-operation.

R. H. Coates, Dominion statistician, presided.

**ODESA SOLDIER DIES.**

Kingston, June 19.—Lieut.-Col. Thomas Clyde, in poor health for some weeks, died today at his home in Odesa, aged sixty-seven.

### ZEEBRUGGE HARBOR THOROLY BLOCKED

Germans Working Night and Day to Clear Passage, But Aviators Undo Labors.

Amsterdam, June 19.—The entrance to the harbor of Zeebrugge is blocked, according to Lieutenants George Coward and John Read of the British Royal Air Force, who landed in the Province of Zeeland Monday and are to be interned at The Hague. In an interview published in The Telegraph, they say the Germans are working day and night to clear the passage, but each night British aviators demolish the Germans' progress.

The cement ships sunk in the harbor are still there, and the Germans are afraid to blow them up for fear they will also destroy the sluices. The lieutenants assert that no submarines can enter or leave Zeebrugge. The blockade of Ostend is not so complete, but the Germans are having great trouble there.

The motor of the seaplane carrying Coward and Read failed while they were bombing Zeebrugge. Ger- mans aviators attacked their machine, but they managed to reach Holland and escape capture by the Germans.

**Many Captives Penned In.**

London, June 19.—Twenty-one Ger- man destroyers, a large number of submarines and numerous auxiliary craft are penned up in the Bruges Canal docks as the result of the recent British naval operations at Zee- brugge, the German submarine base on the Belgian coast. Thomas J. Mc- Namara, financial secretary of the admiralty, made announcement in the house of commons to this effect to- day, and said that the operations were more successful than at first had been supposed. He added that the German craft were now the object of con- stant bombing.

### FRANCE IS STRUGGLING.

Something Which Canadians Are Asked to Remember on Registration Day.

Ottawa, June 19.—A bulletin issued by the Canada Food Board today reads as follows:

The population of France, our ally in this war, was about 39,000,000 when the war broke out. About 7,000,000 able-bodied men were conscripted, 1,000,000 more have since been killed and 1,000,000 more were put out of action. Agricultural production has dropped to nearly one-third. Women, children, old men and crippled soldiers are struggling to till the fields of France. Horses were also conscripted for military service, and French women hitched themselves to the plows and har- rows in place of draught animals. French men are fighting starvation. Deaths from starvation among the al- lies in Europe since the war are es- timated at 4,790,000.

Remember that on registration day, when you are asked to help with the harvest.

**U. S. Soldiers Stopped the Work On Munitions Plant at Niagara**

Niagara Falls, N.Y., June 19.—Work on the million dollar plant under con- struction north of this city for the manufacture of chemicals used exten- sively in the war ceased abruptly yes- terday. At 4 o'clock a company of soldiers from Fort Niagara marched on the grounds and the workmen were ordered to pick up their tools and leave.

The contract for the construction of the buildings is held by the J. C. White Engineering Corporation, J. J. McCallan, the concern's representative here, declared he had received no explanation. Army officers refused to tell why the work was stopped.

### CROSSED LAKE IN A ROW BOAT

Two Men, Presumably Deserters, Towed to Shore at Niagara.

Niagara Camp, June 19.—Four officers and 765 other ranks from the Railway Construction Battalion left camp this afternoon for the east and were given a hearty send-off. They left by train.

Two men, presumed to be military deserters who evidently had rowed across Lake Ontario in a boat from Hick's boat house at the mouth of the Humber and were almost exhausted, were towed to shore west of Niagara today by a fisherman. The pair did not wait for an introduction to the military authorities on this side of the lake, but immediately made off into the woods, while the fisherman was telephoning to authorities here about them. Captain Stehman, provost mar- shal, began a hunt for the pair as soon as notified.

The Niagara camp outdoor baseball league was formerly opened here to- night with the camp commandant, Col. McLaren, pitching first ball, Major A. C. Lewis at bat and Staff Captain MacDonald umpiring. The first game was between the Railway Construc- tion Battalion and the Polish camp, the construction winning after a close contest.

Sixty-three French Canadians who are being transferred from units in Niagara camp to a French Canadian Battalion in the Province of Quebec left here today.

**HALF HAVE REGISTERED.**

Kingston, June 19.—Lieut.-Col. W. G. Anglin, registrar, reports that half of Kingston's population has been registered.

### TOLL OF PEMBROKE FIRE.

Loss is \$600,000 Exclusive of Big Claim Put in for Winer Destroyed.

Pembroke, Ont., June 19.—A large section of commercial buildings on the main street of Pembroke and several fine dwellings are toll of last night's fire.

The property loss is estimated at \$600,000, exclusive of an extraordinary loss of \$500,000 which J. O'Kelly, cigar manufacturer, claims to have suffered in the destruction of an immense stock of wines stored in the basement of his building occupied by the F. W. Wool- worth Company.

Fortunately there was no loss of life and a fair percentage of the damage is covered by insurance.

The burned areas in the business section take in an entire block on the north side of Pembroke street, the main thoroughfare of the town, bounded by Prince, Lake and Alexander streets. On the south side of Pembroke street the central part of the block between Moffatt and Church streets and run- ning back to Renfrew street is com- pletely wiped out. In addition there were a number of dwellings burned two blocks farther south on what is known as "The Point."

Some thirty families were rendered homeless when the houses or little flats above the various stores were burned to the ground.

**DEGREE FOR JUDGE RIDDELL.**

New Haven, Conn., June 19.—At the commencement exercises of Yale University today the honorary degree of doctor of laws was conferred upon Earl Reading, British ambassador, and Wm. Renwick Ridgell, Justice of the supreme court of Ontario. John Mas- field, English poet, received the de- gree of doctor of letters.

**RENEWED FOR FIVE YEARS.**

Washington, June 19.—Renewal for five years of the general arbitration treaty between the United States and Great Britain was approved today in the senate foreign relations commit- tee.

### REPORT ON FOOD IN COLD STORAGE

Increase is Shown in Butter, Eggs, Pork, Mutton, Lamb and Fish.

Ottawa, Ont., June 19.—The cost of living branch reports to the Hon. T. W. Crothers, minister of labor, as follows, concerning food in cold storage.

Reports from the cold storage com- panies for June 1 indicate an increase in quantity in store of butter, eggs, pork, mutton, lamb and fish, and a decrease in the quantity of cheese, beef and fowl, compared with May 1 of this year.

As compared with June 1, 1917, we have more butter in store, more beef and more fish. We have less cheese, eggs, pork products and fowl than a year ago. The most striking comparison is in the case of beef, of which we have 11.72 per cent. more than on June 1, 1917. Since the purchasing commission of the allies is fully aware of this fact and we have the statement of these gentlemen to the effect that a large por- tion of this stock is already under contract to them, we find no grounds for any charge of hoarding.

Comparison of holdings of May 1, 1918, with June 1, 1918:

Commodity	May 1, 1918	June 1, 1918
Butter	1,182,211	2,251,673
Cheese	2,141,771	2,986,997
Eggs	2,765,997	8,422,183
Beef, fresh and pickled	21,592,408	15,233,470
Pork, fresh and pickled	27,235,490	31,218,914
From ham and spock-		
ed meats	13,279,961	14,721,221
Mutton and lamb	1,449,625	1,667,824
Fish, all varieties	15,237,228	16,154,305
Fowl, all varieties	1,640,150	994,075

**KINGSTON PIONEER DIES.**

Kingston, June 19.—Henry Moore, an eighty-four, one of the oldest native residents of this city and an ex-alderman, died today. He was in the grain business many years, being the founder of Moore's Elevator.

### BOARD OF CONTROL TO MEET EMPLOYEES

Controller McBride, However, Invites the Men to Strike.

### PAYMENT FOR TIME

Heads of Departments to Attend Conference This Morning.

The board of control yesterday decided to meet the civic employees who have demanded a conciliation board to settle their dispute with the city as to wages. Heads of civic departments will also be on hand and the conference will be held this morning at ten thirty o'clock.

It is a safe prediction that whatever remuneration the controllers fix following the conference, will be passed by council, a special meeting of which will probably be called for Friday to deal with the situation.

In agreeing to meet the men the controllers have raised complications with the heads of civic departments who take the ground that a conference with their subordinates is inimical to discipline.

The mayor's letter to the secretary of the civic employees' union agreeing to meet the men says the controllers have requested him "to notify you that the board will be glad to receive a deputation of your officers and any others you may appoint tomorrow morning (Thursday) at 10.30 at the city hall, for the purpose of going into any and all grievances between you and the city with a view to settling them amicably all concerned."

"I may say that the board of control has requested, and the heads of departments have consented, to your coming here without your losing pay for the day."

**Criticizes Government.** When the controllers met the mayor explained he was ready to conciliate but the city should not be interfered with by the Dominion Government which, by the way, was not any too friendly to public ownership. The city had been a generous employer, Controller McBride said, and he resented the men's attitude. If the

city gave in to them there was no assurance that there would not be further demands. He was willing to have them strike and if they did they would be presented in a sorry plight before the public.

The men were honorable and would stand by any agreement they made, said Controller Robbins, who also said the matter had now reached a serious crisis.

"Meet the men. We are not committing ourselves in doing that," thought Controller O'Neill.

"It would be avoided," said Controller Maguire, in these abnormal times.

The men were taking a mean, contemptible advantage of the abnormal times, retorted Controller McBride.

The payment of the men who would meet the controllers, for the time they were asked to come down, caused more than a passing ripple.

"If this sort of thing is going to continue I don't know where we will drift to," said Controller O'Neill.

**Conference With Heads.** "Why not have the men meet the heads of the department and have the latter report to us?" asked Controller McBride.

"It would take too long," answered the mayor. "They ask for an answer in forty-eight hours."

"If they are so unreasonable as to go on strike at the present critical time, I say let them go," said Controller McBride.

The controllers should not go over the heads of the civic departments, and he wanted their permission for the men to attend the conference, said Controller O'Neill.

"We do not think it is fair for the board of control or any other board to invite our men to a conference," said Street Commissioner Wilson.

The mayor: "I don't want a strike like the last one, which was caused by want of tact. I am giving to meet the men if I have to pay them their time myself."

"We should ask the heads of the departments to allow them to come," Controller Robbins said. A strike must be averted.

Controller McBride: "Oh, let them strike! They will be badly shown up."

After further discussion it was decided to have the men on hand this morning for a conference on the understanding that the heads of the departments would allow them to attend.

**CHARGED WITH THEFT.** Charged with the theft of a bicycle, Reginald Hudson, aged 16, who gives his address as West Dundas street, was arrested yesterday by Detective Bart Cronin. When apprehended the boy was endeavoring to sell the machine in a bicycle store.

### ODDFELLOWS OPPOSE SPECIAL WAR LEVY

Extra Assessment Was for Payment of Dues of Members Overseas.

### OFFICERS ELECTED

Substantial Surplus is Shown in Report on General Fund.

A special war assessment on all members of the Canadian Order of Oddfellows, \$2 for the year, to be paid in October and April, was discussed at length, and at times with a good deal of warmth, at the grand lodge meeting yesterday. The proposition was defeated, and it was left to the grand executive to say what course should be taken. The extra assessment was proposed for the one purpose only of paying the death claims of men who have lost their lives overseas.

A number of the subordinate lodges have been paying the dues of their members overseas, some lodges having more than 20 per cent. of their membership in France. It was proposed to reimburse these lodges, but the grand lodge delegates were of the opinion that the matter should be left entirely to the subordinate lodges, and the motion to reimburse was defeated.

By a majority of one vote the grand lodge decided upon Hamilton as the place for next meeting. Lindsay was the contending city.

The finance committee recommended that the per capita tax levied by the grand lodge be reduced by 50 cents a year. This recommendation was defeated, and the grand executive was authorized to use the extra money thus raised exclusively for purposes in connection with the members overseas. The report showed a surplus of over \$4000 in the general fund on last year's operations, and this was placed at the disposal of the grand executive for organizational purposes.

**Election of Officers.** The election of officers took place at the afternoon session. The present grand master, Thomas S. Henderson, was re-elected.

Montreal, was unanimously re-elected. Dr. Adam Thomson, Galt, who has been absent from the grand lodge on account of illness, was not re-elected, and Fred S. DeLoon, of Hamilton, was elected to succeed him. Grand Secretary E. Fleming of Toronto and Grand Treasurer W. H. Shaw of Toronto were re-elected, also Dr. H. S. Blenheim of Toronto as grand medical referee. James Barnes of Toronto, who is known as father of the grand lodge, and who has been grand chaplain for many years, was re-elected, and he was warmly complimented upon the completion of his eighty-first year. Grand auditor W. L. Young, Markdale, and W. R. Day, Toronto; grand representatives, Wm. Crellin, Kinmore; F. C. Fielding, Toronto; member on law, J. G. Corney, Toronto; James Allan, Montreal, and E. E. Morrison, Highgate, Committee on finance; Col. Davis, Hamilton; John Moore, Mount Albert; H. Bliss, St. Catharines.

Deputy grand masters: Toronto, S. J. Grant; Hamilton, J. T. McLeod; Belleville, R. A. Lewis; Chatham, R. Arnold; St. Thomas, H. Henderson; Lindsay, T. H. Davis; Galt, T. Neale.

**ALL-AMERICAN UNIT TO RECEIVE WELCOME**

Toronto and the province will extend a hearty official welcome to the all-American battalion which is to make a tour of Canada this month.

The boys from across the line will reach Toronto June 26 at 4 p.m., and will be received at the station by representatives of both the city and the provincial government. Both the city hall and the local parliament buildings will be suitably decorated with flags, flowers and bunting, and the American soldiers will be given an official reception both at the city hall and the parliament buildings. A special band and supper will be served to the officers and their men on the lawn in the rear of the parliament buildings.

**WILLS PROBATED**

Leonard William Manchoe, a manufacturer, who died in Toronto, May 15, left the whole of his estate to his wife, and directed that at her death it be equally divided among his children, Vincent, Winchell, Eleanor, Jean, Kathryn and Lind. The estate is valued at \$125,000. His inventory is as follows: 649 shares in the Rudd Paper Box Co., valued at \$14,885; 25 Monarch Knitting Co. shares, \$125; 20 Twiss City, \$250; \$17,000 in four life insurance policies, and a mortgage for \$500.

Charles T. Yoe, teacher of manual training at Elliot's school, who died June 1, left no will, so his widow, Janet Hamilton Yoe, and his children, Margaret Isabel and William James, will share equally. The estate is composed of \$3200 insurance payable to his widow, an equity of \$3500 in 12 Rainford road, \$348 cash and a Victory Bond.

Mrs. Frances Annie Blenkin, 109 Hiawatha road, has applied for the probate of the will made by her husband, P. J. James. The estate is valued at \$27,017, a carpenter, who went overseas with the Beaver Battalion and was killed in action on April 19. His estate amounts to \$2000 in the bank, \$1550 insurance, \$648 in the bank, and \$10 in personal effects.

**GRAND TRUNK RAILWAY SYSTEM TIME TABLE CHANGES.**

Commencing Saturday, June 22, train No. 55 to Muskoka Wharf will leave Toronto 10.00 a.m. This train will run through to Penetang, Midland and Scotia Junction, connection made at Muskoka Wharf. The train will run through to Muskoka Lakes at Huntsville Dock for points on the Lake of Bays, at Scotia Junction, for Algonquin Park, for Sound, and at Penetang for points on Georgian Bay.

Commencing Monday, June 24, train No. 58 will leave Scotia Junction 9.30 a.m., Huntsville Dock 10.45 a.m., Muskoka Wharf 12.45 p.m., arrive Toronto 4.45 p.m. daily except Sundays. The same connections southbound as No. 55 northbound.

Commencing Saturday, June 29, train No. 43 will leave Toronto 1.30 p.m. Tuesdays, Thursdays and Saturdays for Georgetown. On Saturdays the train will run through to Huntsville.

Commencing Sunday, June 30, train No. 44 will leave Huntsville Dock 8.30 p.m. on Sundays with connections from points on Lake of Bays, at Scotia Junction, Muskoka Wharf 7.30 p.m. Tuesdays, Thursdays and Sundays, with connections from points on Muskoka Lakes, arrive Toronto 11.15 p.m.

Commencing Tuesday, June 25, the Nations to Winnipeg will leave Toronto 8.35 p.m. Tuesdays, Thursdays and Saturdays, instead of 9.00 p.m.

Commencing Sunday, June 23, train No. 101 for Hamilton, Niagara Falls and Buffalo will leave Toronto 8.05 a.m. daily instead of 8.15 a.m. daily.

Commencing Sunday, June 23, train No. 104 will leave Toronto 9.00 a.m. daily instead of 9.00 a.m., arrive Hamilton 9.55 a.m., arrive Toronto 10.45 a.m.

Full particulars from any Grand Trunk Ticket Agent or C. E. Horning, District Passenger Agent, Toronto, Ont.

**DELIVERY OF RAILS FOR NEW VIADUCTS**

The first of the rails given by the Toronto street railway for the Bloor-Danforth viaduct and approaches were delivered to the city yesterday, being taken up on flat cars to the intersection of Broadview and Danforth avenues.

"I did intend bringing the viaduct rails in from Parliament street," said City Engineer Powell yesterday, "but at the moment our foremen thought it better to have them brought to the head of Broadview avenue where the work of laying them will commence. As we proceed we will probably have to work also from the other end. I will know better in a day or so. We were all ready for the rails the moment they were delivered on the job."

**ALLOWED FOOD TO SPOIL.**

Jake Schmitzer, a fruit dealer, of 54 Robinson street, was recently fined by Magistrate Cohen for allowing 20 bags of potatoes and a ton of turnips to spoil. Yesterday Justice Middleton, in upholding judgment of the magistrate, stated that an instance of gross carelessness had been established in the fact that the plaintiff had made no provision for the storage of these and other vegetables at his place. The man had been fined \$100.

## The Back to the Farm Movement

For Greater Food Production

Thousands are going from the cities to the farms, this summer. Boys and girls, as well as men and women, will "do their bit" for Canada and the Empire.

An army may "fight on its stomach", but it works on its feet. So does the farmer and his helpers. How is the volunteer from the city to prevent the feet from becoming cramped and over-tired, when working in the field or garden?

### FLEET FOOT IS THE ANSWER

They are cooler, and more comfortable than leather shoes,—support the ankles without binding—make steps light and buoyant as you plant, hoe, reap, pick fruit and berries and do your day's work with the least possible fatigue and trouble.

"WORKMAN" and "EVERY-DAY",—two staunch, serviceable shoes for such farm work—are made in sizes for men and boys,—while for women and girls, the "ATHLETE B. BAL." will give splendid service.

Be sure you take a pair or two with you when you go out to the farm.

Or—if you are working your own war garden in town, you will find "FLEET FOOT" the easiest and most comfortable shoes to wear.

The best shoe stores have "FLEET FOOT".

# Polarine

FRICITION REDUCING MOTOR OIL

"Makes a good car better"

## For Crankshaft Bearings

EFFECTIVE lubrication of the crankshaft and the connecting rod bearings keeps down vibration. Unless these bearings are protected against excessive wear by a film of oil of correct body and lubricating quality, "play" soon develops.

KEEP BEARING WEAR DOWN AND CAR VALUE UP

The actual value of your car, whether in daily use or in the market for sale or exchange, is mainly a question of engine value. A car is no better than its engine. And engine upkeep is largely a matter of proper lubrication.

has the right body to adequately lubricate every wearing part in your motor. It keeps your engine running smoothly with a wear-reducing film of oil that does not break down and run thin under the intense heat developed at high speed operation. It flows freely in low or high temperatures—insures full delivery of power the year round.

Polarine is made in two grades—Polarine and Polarine Heavy. It is supplied in one-half, one and four gallon sealed cans, also in 12½ gallon steel kegs, barrels and half-barrels. There are also Polarine oils and greases for effective transmission and differential lubrication.

Buy Polarine where you get Premier Gasoline—at the sign of the "Red Ball."

Write us at Room 704 Imperial Oil Bldg., Toronto, for interesting booklet on Polarine for Automobile Lubrication.

### IMPERIAL OIL LIMITED

BRANCHES THROUGHOUT CANADA

**POLARINE FOR CRANKSHAFT BEARINGS**

### VETERANS TO DISCUSS ASSOCIATE MEMBERS

The new dancing pavilion of the Parkdale branch of the G.W.V.A. is very popular with everyone in the South Parkdale district. The branch foresees a prosperous financial year from this source. This branch will meet on Tuesday evening next at the Khaki Club rooms at the corner of Queen and Dovercourt. Matters of interest to the coming federal convention, which is to be held in Toronto during the closing week of July, will be thrashed out at this meeting, and among these will be the status of the associate member. The opinion is gaining ground among the members that these men should be accorded voting and other important privileges now accorded to only those who have seen service in France. It is being more and more recognized that those who tried to do their bit, whether they got over to France or not, are entitled to strong consideration at the hands of the association, and the indications are that the coming convention will show its feeling in the matter with an overwhelming vote in favor of the associate members.

### DELAY IN INCREASE OF FERRY RATES

When the city solicitor asked the board of control yesterday for instructions in connection with the Toronto Ferry Company's application for an order-in-council permitting an increase of fares, there were drawbacks. "I want the proper department to close this matter up," said Controller McBride. "It has been settled as far as we are concerned."

"The mayor assured us," said Controller Robbins, "that it would not be disposed of until Mr. McBrien's motion favoring the repeal of the by-law to increase the rates, is dealt with."

The increase was only for the duration of the war, the mayor explained, and city officials had reported it was a company out for twenty-five cents on the dollar.

As a matter of courtesy to the council Controller O'Neill thought the order-in-council increasing the fares should be delayed and the board agreed.

### BALE WEEK-END TRAIN.

Via Canadian Pacific.

Commencing Saturday, June 22, Bala week-end train will leave Toronto 1.15 p.m. each Saturday. Returning will leave Bala 8.00 p.m. each Sunday. Making intermediate stops. Particulars from Canadian Pacific ticket agents, or W. E. Howard, district passenger agent.

### WORK-HORSE PARADE ON DOMINION DAY

The members of the Ontario Motor League, under arrangements made by Dr. Doollittle, have offered their motor cars on Dominion Day to bring wounded soldiers from the military hospitals to Queen's Park, where it is proposed to take up a position under the shade trees so that the men may witness the 14th annual work-horse parade. The committee in charge have arranged for the provision of cigars and the citizens are invited to contribute to this fund.

A large number of entries have been received from owners of ponies and a special section of the park will be set aside for the children and their pets.

For the route of the parade, it has been suggested that the whole affair be kept in Queen's Park and University avenue. After the horses are judged it was suggested that the parade down the east side of University avenue and return via the west side of the avenue to the reviewing stand, where the prizes will be distributed.

### SUING OIL COMPANY.

James McKee yesterday sued the High Grade Oil Company, Thomas Hamilton and W. S. Chilver, at the goods Hall to recover \$200 for shares wrongfully dismissed and \$4500 damages in respect to 30 shares of the company stock which he had pledged to the company as security and which he alleged to have been converted.

### BRISCOE DEPENDABILITY

Safe-guard of your Motor Car Investment

THE Car with the Half-Million Dollar Motor is so sturdily built, so staunch and true, that every owner of a Briscoe gets complete motoring satisfaction. Seek a Briscoe owner, let what he tells you be your guide when you invest in a car.

## THURSDAY MORNING, JUNE 20.

### Canada Must Take Care of Her Own Needs.

London, June 19.—Speaking in the house of commons this afternoon, Foreign Secretary Balfour said that Great Britain was quite willing to co-operate with the united States in assisting in the reconstruction of the Russian railroads. So far, however, he said that Britain had been able to do little, and for various reasons it was thought better to leave this question mainly in American hands.

Canadians will not make much of a mistake if they take this to mean that the United States is willing under reasonable conditions to undertake the reconstruction of the railways of Russia; and, that being the case, the whole of the equipment plants of our neighbors, next to filling home orders, will be devoted to Russia. In that case Canada will have to depend on her own iron mines, rolling mills, steel plants, engine and car equipment plants, railway engineers and operators, telegraph wire and instruments, and many other associated materials. The United States plants will be over-taxed; and she is practically committed to help out Belgium, France and Italy next.

The steel requirements of France alone will be enormous, and France will need railroads as much as Russia. Canada, therefore, must rely on her own iron, steel and coal; her own rolling mills, her own railway equipment plants. It will be absolutely necessary in the great work of reconstruction that we get busy forthwith in providing for ourselves. We may not be able to import much; we may not be able to get much, even if willing to pay the high prices that are sure to obtain.

Does it not follow, therefore, that our government and parliament, our own industries, must take still further steps to supply ourselves? As we said yesterday, the indications are that we will have to look to ourselves not only for agricultural implements and all kinds of building material, coal and electrical energy, but also for our chemicals and raw material generally. No one can stop American settlers coming into our west; we will be glad to have them. But we must be able to give them what they want in order to help produce the food requirements of ourselves and the empire. Our farmers may be suddenly faced with the most stupendous famine in the way of agricultural essentials, let alone transportation and other prime necessities.

### The City Hall Strikes.

A most important settlement is to be attained this morning between the board of control and a certain section of the civic employees. Some demagoguery and some arbitrary sentiment in the city council have somewhat confused the issue at stake, and it is necessary that the dispute should not be widened by misconceptions or by imprudent heat.

The men who are concerned in the matter are receiving \$18 a week, which before the war was a satisfactory wage. But every one knows that since 1914 the cost of living has made ordinary wages utterly inadequate. People who have had ample margins are not in a position to appreciate this situation, and the well-to-do must consider the condition of those who never have more than just enough to make ends meet, and who now by the war find themselves compelled to do what they previously were barely able to do, with wages whose purchasing power is only 60 cents in the dollar. The nation refused to fix food prices, and has a duty therefore to those who suffer. If prices go up wages must go up before the people starve. As it is \$18 is worth much less than \$12 was before the war.

The civic employees affected have asked for a war bonus of \$2 a week dating from January 1. Had this been granted early there probably would have been no trouble. But certain elements in the city council have delayed the matter and dilly-dallied with it, and some have filially opposed any increase. The result has been that the men have grown weary of the procrustian and threatened a strike when the city council refused to grant the board of conciliation bylaw provided for the settlement of disputes of this kind. This, of course, is where the city is wrong. Toronto, which professes to be a model of loyalty, which is simply law-abidingness, cannot afford to break the law in a matter of this kind. Whatever other moral appliances and provinces may do such a course is not open to Toronto. And yet the board of control refused a board of conciliation.

The men who really think more of a principle in their trade disputes, than of material advantage, have

### By Our Dear Companions and Our Loving Friends!

Our good neighbor The Globe often seeks inspiration from the western newspapers, and in its role as a national daily endeavor to acquaint the people of Ontario with the views of the west. Yesterday it devoted a good deal of space to the reproduction of an article it found in The Winnipeg Tribune and to comments thereon of a highly eulogistic character. The views therein set forth The Globe, with unerring accuracy, attributed to the pen of Mr. R. L. Richardson, M.P., and we are told:

These views, which are evidently the views of a considerable number of the private members and of the newspapers giving war support to the Union administration, should have the earnest consideration of the ministers in the preparation of their work for the next parliamentary session.

We have no quarrel with the views expressed in The Tribune and acclaimed by The Globe, but we fear they cannot be credited to R. L. Richardson, M.P. The Globe will find they appeared in The Winnipeg Tribune about June 8, and The Globe will also find that by some kind of prophetic plagiarism they appeared word for word, line for line, in The Toronto Sunday World on May 26, in the course of our weekly review from Ottawa under the caption "On Parliament Hill, by Tom King."

That in itself is a detail of small importance. Many times—we should say a hundred times in recent years—The Winnipeg Tribune has done us the compliment of reproducing editorials and news despatches from The World without seeking to cast upon us any responsibility for the same. And the curious thing is that on several occasions utterances of The World which attracted at the time no comment from The Globe were no sooner published in The Tribune than they were reprinted with laudatory commendations by our somewhat somnolent neighbor. Sunday is when he sleeps.

The World would be more than pleased to have The Winnipeg Tribune print as its own some of The World's views on nickel and other live subjects, which are no doubt also the views of many Unionist M.P.'s from the west. That will insure their being republished by The Globe. A wide field of influence opens before us if this admirable team work of The Tribune and The Globe continues.

In the meantime we reproach The Globe's editorial in its own style of type and display. Our readers may be pleased to re-read something from The World, and The Globe's eulogy thereon. Bouquets come sometimes from most unexpected quarters.

### INDEPENDENCE IN PARLIAMENT.

Editorial, The Globe, Toronto, Wednesday, June 19, 1918:

Unionism in Parliament, as exemplified during its first House of Commons session, is engaging considerable attention in the Press throughout Canada. The session is now sufficiently a thing of the past to enable its analysts to deal with it in perspective. Generally the war-time experiment is approved. It is recognized that several progressive and far-reaching reforms have been inaugurated which would have had little chance of consideration under the old-time political party regime. These with a vigorous prosecution of the most essential measures of war endeavor, are regarded as the achievements of the unionized Parliament.

But, even among Unionist supporters, there is evidence of some disappointment and some criticism. The criticism is not of a carping character and it would be well for the members of the Administration to consider it seriously. Most of it arises from the tendency of the Ministry to report the Union as the creation of new party system rather than as a coalition for war purposes. It is manifest that many of the new members came to the Capital prepared to give hearty and unwavering support to the Government upon all war measures, but anticipating a new-found freedom in expression; and registering their convictions and those of their constituents upon all legislation of a purely domestic character which properly claimed war-time attention. In this they were disappointed. "We were expected to sit in our places like Indian cigar signs," was the declaration of one Western Unionist, "and call out 'Carried' to anything and everything the Government wanted approved."

In an interesting review of the session appearing in The Winnipeg Tribune, evidently from the pen of its editor, Mr. R. L. Richardson, M.P., this situation is frankly dealt with. It says:

"While the session of Parliament just closed has to its credit much progressive legislation, it must be admitted that many members of the House, especially the new members from the West, have gone home somewhat puzzled and disappointed. The latter, at the session, when Parliament voted hundreds of items aggregating more than one hundred million dollars without discussion, consideration, or debate, has naturally challenged public attention. But it was symptomatic of a deep-seated evil which seems inseparable from party government. We have a Unionist party in power, but the party system and the party whip were never more in evidence. "The whole Parliamentary ma-

### PRICES OF PAPER ARE FIXED IN U.S.

Washington, June 19.—Maximum newspaper paper prices were fixed today by the federal trade commission, in accordance with an agreement between the attorney-general and manufacturers of the United States and Canada, as follows: Roll news in carlots, \$2.10 per 100 lbs.; roll news in less than carlots, \$3.22½; sheet news in carlots, \$4.50; sheet news in less than carlots, \$3.62½.

Under the agreement the prices, effective April 1, 1918, and stand until three months after the war ends. Ten companies participating in the agreement, three American and seven Canadian, produced 950,000 tons of newspaper, or nearly 80 per cent. of the output on the continent in 1917. One of the factors considered in fixing the price was an increase in wages for the pulpwood and paper workers, given in averting a threatened strike on May 1.

American manufacturers, parties to the agreement, are International Paper Co., Minnesota & Ontario Paper Co., and Gould Paper Company; and the Canadian corporations are the Spanish River Pulp & Paper Mills, Abitibi Paper & Paper Company, Laurentide Company, Beigo-Canadian Pulp & Paper Company, Erie Brothers & Co., Donmacoos Paper Co., and the Brompton Pulp & Paper Co. Commissions for Middlemen.

The agreement also fixed maximum commissions for jobbers and other middlemen at 15 cents per 100 lbs. for carload lots, 40 cents on less than carlots and 60 cents on less than ton lots.

Jobbers' commissions apply either on the net or on the cost of the paper at warehouses, when freight, cartage and other necessary expenses have been added. Customers paying jobbers' commissions are entitled under the agreement to a statement of these expenses.

In fixing the price for the Minnesota & Ontario Paper Co. the commission allowed that company to adjust its settlements for paper delivered during January, February and March of 1918 at a figure ten cents above those provided by the general agreement. It also directed changes in

### Other People's Opinions

#### Young Doctors.

Editor World: In reply to "a scarcity of doctors" in your issue of Saturday, June 15, I would say "if men are needed, let them be recruited." Our Canada has become depopulated thru this war. The cities of Toronto and Hamilton are overcrowded with doctors. Our government has power to scatter them, and it would be an opportunity for young doctors to gain experience if sent to the front, and no doubt but they would be a great help to their wounded fellowmen.

One of Your Readers.

#### CAPTURED RUNAWAY IN HUT.

Halleybury, June 19.—When the case of Clifford Hoolihan, a young man, was called in the local court today, it developed that the principal witness, a young girl, had slipped to the bush. The police secured, an automobile, took up the trail, and eventually located their quarry in an old log cabin in the deep scrub to the west of Lake Sasagana. They brought the runaway to town, but the case had been enlarged by the Judge meantime.

#### KILLED ON AVIATION FIELD.

Fort Worth, Texas, June 19.—Lieut. H. C. Kelly, an instructor in aviation, was killed this afternoon at Benbrook Field. The cadet flying with him was uninjured.

### Germany Will Keep a String On Taxable Emigrants After War

Washington, June 19.—Consideration in Germany of legislation to prevent emigration after the war to evade payment of the heavy taxes that must be levied, already is being considered, according to information reaching the state department. Enactment of a law requiring persons liable to personal taxes to leave 50 per cent. of their taxable property in Germany in event of emigration has been proposed. The bill as drafted, according to the Norddeutsche Allgemeine Zeitung, provides that persons who have naturally had their permanent residence in Germany shall be liable to payment of personal taxes and state and communal taxes for a period of five years after the conclusion of peace. The penalty for tax evasion thru emigration is fixed at deprivation of nationality, which, however, can be restored later by voluntary payment of the taxes.

### Germany Will Exact Reprisals For Deportations From China

Amsterdam, June 19.—When reports that 10,000 Germans have been expelled from China and interned in Australia are proved, says The Deutsches Tages Zeitung of Berlin, the German government will collect 10,000 inhabitants of French occupied districts and send them to prison until the Germans are returned to China and compensated for their losses.

#### DRANK WOOD ALCOHOL.

Capt. Gordon Carling of Ottawa Died as a Result.  
 Kingston, June 19.—A military inquiry found that Capt. Gordon Carling of Ottawa died at Deseronto as a result of drinking wood alcohol. It was ascertained that he got a quart of the wood alcohol at Napanee. He was attached to the local army service corps since returning from overseas last fall. He left last week without leave, and his intimate friends say he was not acting like himself. He served with the Princess Patricia's Canadian Infantry and won his commission on the field. He married the wife of his brother, Lieut. John Carling, who died in London, England, early in May of scarlet fever, after serving several months as an aviator.

#### MEDICAL CATEGORIES CHANGED.

Chatham, June 19.—The medical category of 17 of the 52 men re-examined by the medical review board now sitting was changed from "C" and "D" category to "A" and "B," as a result of the re-examination conducted yesterday by the headquarters staff. Out of 67 formerly in "B2" category 27 have been placed in "A" class during the two days the board has been examining.

## BEAT TAIL-ENDERS; REILLY ON THE JOB

### Grabs Off a Couple of Hits When Leafs Come to Life.

Jersey City, N.J., June 19.—The erratic pitching in the first innings by Gunner Maude, who held the mound at the start of today's game with Toronto, gave Dan Howley's Maple Leafs a winning lead in their first assault, with four runs developing from four bases on balls, a sacrifice hit and the infield outs. Maude settled down after his poor start, and pitched fairly good ball, but he was relieved after the seventh to give a new recruit, named "Reilly," a trial, but the latter immediately showed a head case of rattle, and, after filling up the corners on two bases on balls and a bunt by Lest which the new comer made no attempt to field, he was given the gate and Joe Labate finished up the work, but was no improvement as Howley's boys got after his shoots and battered them for three additional counts, which swelled the visitors' total to nine tallies, against two lone marks on the home crew's slate.

Peterson held the point of vantage for Toronto, and while he was touched up for ten safeties, he kept the Jersey City hits too widely scattered to be effective. Fielding honors were pretty evenly divided, the men in the trenches affording their runners excellent support. Reilly, Lest and Billy Furtell were the chief members of the batting column, with two wallops each. Whitehouse set the pace as run-getter, with three rounds of the bases for Toronto.

In his last start, against Syracuse, Maude held Downcast's boys to a single hit; therefore, his performance against Toronto proved the biggest kind of a disappointment today. He had been saved and primed for the beginning against Howley's boys, but showed little else but his glove in the opening round. Reilly was the first to face him, and Maude permitted him to stroll. Howley's attempt at bunting resulted in a slow roller towards short, which he beat out on the throw to first. Whitehouse worked his passage, and the bags were clogged. With Lest and Furtell next on deck, Maude was still unable to get his bearings, and he passed the pair on four wide ones each, forcing Reilly and Wagner over the top. Onslow hit into a double-play, but while it was being perfected Whitehouse rushed home and Lest shifted over to the hot corner.

A moment later a wild pitch by the local runner, Peterson, allowed Whitehouse to clean up. Thrasher retired the side on a long fly to Brock.

The third frame yielded another credit to the Toronto total. Wagner was tossed out by Butler. Whitehouse slammed a safe one to centre and lost no time in stealing second. Lest popped to McCarron, but Billy Furtell came in with the needed bingle, that sent Whitehouse home. Peterson took play on the skaters in their turn at bat, as King hit into a run without the aid of a hit. Carroll walked and reached second on Maude's grounder to Onslow. Brock walked, and Carroll slid into third on a steal. Butler's long fly scored Carroll.

Peterson led off in the fifth with a bunt towards the box, which he beat, because of the slow fielding of Maude. Reilly resorted to the same trick and beat the ball out on a bunt towards first. Wagner lifted his right, which Brock grabbed, and Peterson rushed over to third. Whitehouse forced Reilly at second, but Peterson tallied. Whitehouse was out stealing.

After the seventh Maude gave way to their applicant for a pitching job, but after putting Joe Wagner and Whitehouse on the route, and Lest hunted to a safe spot, Manager Tricoli had enough of the experiment and replaced him with Labate. Two hits in the eighth, which Reilly netted three runs in this round, completing Toronto's quota, enough for one afternoon.

With two out in the ninth, a two-bagger by Carroll, a steal, and a hit by Labate, tallied the second run for the Sketers. Tomorrow the rivals peel off a double-header.

## PHILLIES AND PIRATES SWAP RIGHT-HANDERS

Philadelphia, June 19.—The Philadelphia National League Baseball Club tonight announced that it had traded Pitcher Brockline Moyer to Pittsburgh in exchange for Pitcher Elmer Jacobs, who made his entrance into the major league some years ago with the Philadelphia club. Both are right-handers. No cash or other players are involved, says the announcement.

## RUDOLPH WINS HIS THIRD FOR BRAVES

Had a Tidy Battle to Down Phillies—Mitch's Cubs Are Winners.

At Philadelphia—Oeschger's base on balls to Wickland, after Boston had filled the bases on a single and two fumbles by McGaughan, sent over the winning run in the opening game of the series yesterday, score, 2 to 1. In seven of the nine innings only three men faced Rudolph, and in his ninth and final appearance he pitched the only run of the game in the opening inning on his hit by Plack and Hollister and Merkle's life. Harmon's throw to the plate being late to get Plack. Score: R. H. E. Chicago.....0 0 0 0 0 0 0 0—1 7 0 Pittsburgh.....0 0 0 0 0 0 0 0—3 2 2 Batteries—Douglas and Killifer; Harmon and Schmid.

## TEBRAW JUMPS THE GIANTS

New York, June 19.—Big Jeff Tebraw, who pitched winning ball for the Giants this spring, has jumped the club and followed a lot of other big leaguers into the plant of the Bethlehem Steel Co.

## Open Soldiers' Greens Tomorrow

The lawn bowlers of the City of Toronto are having the formal opening of the bowling greens for returned soldiers at the College Hospital tomorrow (Friday) at 2.30 p.m. This mayor, sidewalk and representative from every bowling club in the city will be present.

## THREE STRAIGHT NOW FOR HUGHEY'S TIGERS

At New York (American)—The New York Americans celebrated their homecoming by defeating Washington by a score of 3 to 2 yesterday. The New York team got off to a commanding lead in the first inning, scoring four runs on four hits, a base on balls and an error. Russell pitched a strong game for New York and was well supported. Score: R. H. E. Washington.....0 0 0 0 0 0 0 0—2 12 0 New York.....4 0 1 0 0 0 2 1—3 12 0 Batteries—Shaw, Buckeye and Ainsworth; Russell and Thomas.

At St. Louis—Detroit was more successful than St. Louis with its extra base hits and won yesterday's game, 7 to 5, making a clean sweep of the three-game series. A home run by Veach with Bush on base in the fifth clinched the game for the visitors. Rogers' hitting was accountable for four of the locals' five runs. Score: R. H. E. Detroit.....0 0 4 2 0 1 0 7—8 2 2 St. Louis.....0 2 0 2 0 1 0 6—5 8 2 Batteries—Kalle, Erickson and Yelle; Rogers and Numanaker.

At Chicago—Cleveland's batting rally in the ninth inning enabled them to defeat Chicago, 6 to 5. The locals had several chances, but threw them away on the base lines. Erratic fielding behind Shelbenbach aided the visitors in their scoring. Score: R. H. E. Cleveland.....0 3 0 0 0 0 0 2—9 3 3 Chicago.....1 1 0 0 0 1 0 2—5 3 3 Batteries—Bashy and Thomas; O'Neill; Shelbenbach and Jacobs.

At Boston—Philadelphia won its first game of the season in the city from Boston yesterday, 5 to 0. Geary held the home team to one hit, while Bush and hit hard. Three hits, two passes and two errors gave Philadelphia four runs in the sixth. Only one Bostoner reached third base. Clever fielding by Walker and Gardner featured. Two games will be played Thursday. Score: R. H. E. Philadelphia.....0 0 0 1 0 4 0 0—5 10 0 Boston.....0 0 0 0 0 0 0 0—1 7 0 Batteries—Geary and McAvoy; Bush and Agnew.

## TORONTO SCOTTISH DEFEAT THE R.A.F.

Ontario Cup Soccer Game Attracts Large Crowd to Varsity Stadium.

There was a large crowd present at Varsity Stadium last night to witness the Ontario Cup game, when Toronto Scottish beat Royal Air Force, 3 to 0. Teams: Scottish (G)—Smith, Campbell, Brown, Carroll, Pettie, Stuppard, Anderson, H. Fidler, Hunter, E. Fidler, Highest, R. A. Wallace. Royal Air Force: McCullough, Austin, Blatchford, Louis, Wilson, Simpkins, Lytle, MacSpornen.

Simpkins kicked off for the Flyers, Wilson and Lorie going down on the right. Brownie transferring play to the other end with a powerful kick. Wallace nearly beat Hunter, and passed the ball to Simpkins, who narrowly missed scoring with a fast shot. The Flyers were forcing the game, leaving the R.A.F. in Scottish territory. After Smith had effected a clever save from Blatchford, Wallace kicked the ball striking the crossbar and shot by Hunter rushed into the net.

Stung by this reverse, the Flyers played better than ever, Campbell and Brownie having to be on the alert to keep their goal tight, Smith saving finely from Lorie. Anderson tricked Wallace, and an close in on goal, but shot over the bar. The Scottish forwards, by pretty combination, worked their way thru the opposition, Horace Fidler finishing the effort by a shot which just went over the bar. Wallace was playing a sterling game at back for the Flyers, clearing his line in great style. Smith was cheered for a fine save of a fast drive from Simpkins. Ernie Fidler tricked several opponents and shot the ball striking the crossbar and rebounding into the net. Clever work by the Scottish inside forwards ended Ernie Fidler's scoring for the first time. Half-time: Scottish 3, R. A. Force 0.

On starting, the Flyers immediately attacked, Wilson heading over the bar. The Scottish were nervous keeping them out. The Flyers were awarded a free kick right on the 18-yard mark, Lorie striking the bar with the shot and the ball rebounding into play. Acourt cleared a minute later. Smith stretched himself full length to save a fast grounder from Wilson. Acourt had a nice solo effort, but the ball struck the crossbar. The Scottish forwards could not get going, so well were the Flyers' half-backs keeping them out.

At Baltimore—Pittcher Hagen was too much for the Orioles and Rochester shut out the sixth. In a twilight game by Provost Marshal-General Crowder's work-order order probably will be issued within a day or two. An opinion on the status of baseball players is awaiting the approval of the process of general and there are intimations that it classifies baseball as a sport, but has provisions to guard against interference with professional league schedules this year.

At Chicago—Bowling Analysis—The Bowling Analysis Association has announced success. Trinity won by 53 to 33, due to the splendid play of Tommy Dolson, who compiled 24 by sterling cricket without a chance. He has never lost to the boundary. There was a fine gallery of between two and three hundred at the Oakwood grounds. Trinity won the return game by 33 to 53. The players evinced great enthusiasm. Secretary Roberts and the association are to be congratulated on the initial success.

RETURNED HEROES NEED DIVERSION

Toronto Ball Club Could Fill a Great Gap in the Lives of All Soldiers.

By Ida L. Webster. There has been much talk as to whether the returned soldiers should be admitted to the ball parks free of charge or whether they should pay 50 cents the same as all other citizens.

Then another tells of the drabness of their lives while they are cooped up in the hospitals, and how the baseball game is the only pleasure which they have.

But this should not be the way to have it and it is impossible to allow the returned men in free each day, then one or two days a week should be set aside for their benefit.

It would not be fair to ask the Toronto Club to admit all returned soldiers, but simply those who are still in uniform.

It is also quite certain that the returned men are more than satisfied with one or two afternoons a week.

Charles Comiskey, who is known the country over as being one of the best sports in baseball, has made it a rule to allow all soldiers in uniform into his park free of charge.

It is not possible that any of the ball players would object to playing in so loyal a cause.

It is also equally certain that Capt. Lou Scholtes would make all the necessary arrangements as to transportation.

There really appears to be no reason on anybody's part to suggest that the game should be carried out, and the Canadian soldiers given at least some of the pleasure which Comiskey is so generously giving to the American fellows.

It is safe to say right now that any of the other clubs in the league will jealously fall in.

Chatham, June 19.—Altho 70,000 registration cards have been distributed in the riding of Kent by Registrar W. E. McKough, there is still possibility of a shortage of cards occurring on or before Saturday as a result of the fact that some of the deputies in the outlying districts registering parties from other municipalities.

As a result of the step which Comiskey is so generously giving to the American fellows, it is safe to say right now that any of the other clubs in the league will jealously fall in.

Factory Equipment on more than 1 1/2 million Fords.

The Ford car has been developed from the point of engine efficiency.

Every Ford owner who would preserve that efficiency should insist that his replacements be Champion "X" plugs.

The patented asbestos-lined copper gaskets, an exclusive feature in all Champions, protects the porcelain and gives long and dependable service.

It is proof against the destructive effect of exploding gases and extremes of temperature.

Look for the name "CHAMPION" on the porcelain. It guarantees "Absolute satisfaction to the user, or free repair or replacement will be made."

Sold by dealers everywhere. The following is quoted from the instruction book in each Ford car:

"There is nothing to be gained by experimenting with different makes of plugs. The make of plugs with which Ford engines are equipped when they leave the factory are best adapted to the requirements of our motor."

Action to Set Aside Will Is Dismissed at Woodstock

Woodstock, June 19.—James Dunn, who made an effort to break the will of his sister, Katherine Dunn, who bequeathed most of her belongings to different Roman Catholic organizations, has been unsuccessful.

Wallace today upheld the will. The brother claimed the sister was incapable of making an intelligent will at the time.

The brother received only a small interest as his share.

DIDN'T LIKE SUGAR FIELDS. So Seven Boys Spent Their Time in Robbing Houses.

Chatham, June 19.—Seven Millico youths, who were paroled from the reformatory in that town to come to this county for the summer to work in the sugar beet fields, are in the county jail awaiting transportation back to the reformatory, as a result of robberies they have perpetrated in the neighborhood during the few weeks they have been here.

Elson McLean, Fred Wilkins and James Wren, three of the offenders, entered the home of Francis Verajays in Harwich Township and stole \$70 in cash, in addition to a large quantity of jewelry, which was recovered when they were arrested.

VALUE OF FISH INCREASED. Ottawa, June 19.—The total value in first hands of fish landed in Canada during the month of May was \$2,258,828, as compared with \$2,151,771 for the same month last year, according to the monthly statement issued from the department of the naval service.

The statement says that fishing was carried on under the more easterly parts of Nova Scotia ice, which was slow in leaving the coast, interfered with operations.

STEAMSHIP TICKETS. ST. JOHN—LIVERPOOL. NEW YORK—LIVERPOOL. FREDERICK LINDSAY. Drafts, Money Orders and Travelers' Cheques. F. WEBSTER & SON, 53 Yonge Street.

Ship's Chronometer Taken From in Front of Store. Woodstock, June 19.—Ship's chronometers are scarce in Canada at present. One that was stowed in the entrance of a local jewelry store for the past 20 years and from which thousands secured the correct time, has been commandeered by a purchasing agent from the navy department, who states there are very few left in Canada suitable for battleships.

TRAINING AT BARRIEFIELD. Kingston, June 19.—There are one thousand five hundred men in training at Barriefield Camp.

DR. SOPER DR. WHITE. Specialists in the following Diseases: Piles, Hemorrhoids, Gonorrhoea, Syphilis, Rheumatism, Skin Diseases, Diabetes, Kidney Affections, Blood, Nerve and Bladder Diseases. Call or send history for free advice. Medicine furnished in tablet form. Hours—10 a.m. to 1 p.m. and 2 to 6 p.m. Sundays—10 a.m. to 1 p.m. Consultation Free. DR. SOPER & WHITE, 25 Toronto St., Toronto, Ont.

GRAND TRUNK RAILWAY SYSTEM. TIME TABLE CHANGES. A change of time will be made on JUNE 23rd, 1918. Information now in Agents' hands.

DR. STEVENSON'S CAPSULES. For the special ailments of men, Urinary and Bladder troubles. Guaranteed to cure in 5 to 8 days. Price \$3.00 per box. Agency, JOHNSTON'S DRUG STORE, 171 King Street East, Toronto.

RICORD'S SPECIFIC. For special ailments of men, Kidney and Bladder troubles, \$2 per bottle. SCHOFIELD'S DRUG STORE, 55 1/2 Elm Street, Toronto.

THOUSANDS OF MEN IN TRAINING AT BARRIEFIELD CAMP.

ONE OF THE WORST PUNS VERNON McNUTT EVER MADE

Cartoon by Vernon McNutt. A man in a suit is running towards a mailbox. A sign above the mailbox says "MAIL BOX". The man is shouting "HAW! HAW! THE 'MAILED FIST'". A sign above the man says "DRUGS". A sign above the mailbox says "FOX". Below the cartoon is the text: "WAS THE DAY BILL SMITH TRIED TO RETRIEVE A LETTER WHICH HE HAPPENED TO NOTICE HAD THE WRONG ADDRESS AND GOT HIS HAND CAUGHT FAST IN THE MAIL BOX."

OPEN NEW OFFICES AND HEAR SPEECHES

Neighborhood Workers' Association Meets New Secretary.

Marking an epoch in social service the opening yesterday afternoon of new offices which will be the headquarters of the Neighborhood Workers' Association...

Miss Steinhart is traveling for the purpose of observing things in relation to the work of child welfare in other states and countries outside her own...

New Secretary Presented. In introducing the new secretary, Rev. Peter Bryce spoke of him in high terms and as his friend of many years.

In introducing Rev. Father Bench, director of Catholic charities, Mr. Bryce stated that one of the happy things that had been brought about by the association of the Neighborhood Workers was that ministers of various denominations had found there were many things which they could do and discuss in common.

Miss Foster of the Memorial Institute told of a late visit to Boston where to her surprise she found that any church workers acting alone social service lines were doing so independently, having not yet got to the point where they could see to harmonious co-operation.

Mr. Stappford said that it was not founded merely to add one more society to its affiliation, but that its members might get together and grapple with the problems that presented themselves.

Mr. Bryce stated that one of the happy things that had been brought about by the association of the Neighborhood Workers was that ministers of various denominations had found there were many things which they could do and discuss in common.

Mr. Bryce stated that one of the happy things that had been brought about by the association of the Neighborhood Workers was that ministers of various denominations had found there were many things which they could do and discuss in common.

The Safest Matches in the World Also the Cheapest

ARE EDDY'S

"SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

THE E. B. EDDY COMPANY LIMITED HULL, CANADA

War Garden Bulletin

FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm.

KEEP AT IT. The prospects for an extremely high vegetable yield this year are of the brightest, provided the weather keeps right.

Remember that the peas need hilling when they are six inches high to prevent their being broken down in the wind.

Cut the weeds down in the morning so that they will wither during the day in the hot sun. Then you can rake them up in the evening.

SOCIETY

CONDUCTED BY MRS. EDMUND PHILLIPS

The annual Alexandra rose day will be celebrated today by the Imperial Order Daughters of the Empire, and the money collected thru the sale of roses will be divided among the children's homes of Toronto.

The infant son of Lord and Lady Brooke was christened at Burton, Ontario, on May 22. The sponsors were the Marchioness of Titchfield, General Sir Henry Wilson and Lord Beaverbrook.

Hon. T. W. McGarry, Mrs. McGarry and Master McGarry have arrived at the King Edward from Montreal.

Mr. and Mrs. E. A. Messer, Shanghai, China, have arrived at the King Edward, Col. and Mrs. Cressie meeting them there.

Mrs. Christopher Huther, Kitchener, gave a small tea yesterday afternoon at the home of Miss Rene Thompson, when those present included Mrs. George Watt, Miss Madge Grant (Detroit), Miss Helen Beamish, Miss Kitty (Winnipeg), Miss Mary (New York), Miss Helen Beamish, Miss Kitty (Winnipeg), Miss Mary (New York), Miss Helen Beamish, Miss Kitty (Winnipeg), Miss Mary (New York).

Mrs. Fred Watson is giving a tea today for Miss Thompson. A jolly and congenial party gathered on Prof. and Mrs. Mavor's lawn in the United States on Tuesday and will return to France at the end of the month.

Mr. and Mrs. E. A. Messer, Shanghai, China, have arrived at the King Edward, Col. and Mrs. Cressie meeting them there.

Mrs. Christopher Huther, Kitchener, gave a small tea yesterday afternoon at the home of Miss Rene Thompson, when those present included Mrs. George Watt, Miss Madge Grant (Detroit), Miss Helen Beamish, Miss Kitty (Winnipeg), Miss Mary (New York), Miss Helen Beamish, Miss Kitty (Winnipeg), Miss Mary (New York).

Mr. and Mrs. Rupert Bruce asked a few young people to dance last night. A cable has been received by Mr. Morrison, St. George street, announcing the safe arrival in England of Capt. Lon Morrison, who has been over two years in a German prison.

Rev. Canon Macomb will present a report from the committee of the U. E. Loyalists delegated to consider the presentation of an airplane to the imperial government.

Mr. and Mrs. Warren Darling have taken a cottage this side of Mimico for the summer, and moved out yesterday.

Mr. and Mrs. William Moncrieff have arrived at Niagara from Buffalo, and will spend the season in their house, The Gallop.

The engagement is announced of Lieut. Walter W. Proctor, Canadian infantry, youngest son of the late Mr. John A. Proctor and Mrs. Proctor, Beaverton, Ont., to Sheila Patricia, daughter of Col. H. L. Battersby, commanding war hospitals, Nottingham, and Mrs. Battersby, the Mill House, Sproughton, and grand-daughter of the late Rev. F. A. P. Lory, vicar of Bagshot, Surrey.

The engagement is announced, and the marriage will take place in June, of Captain Louis Fauquier Strickland, Canadian forces, only son of the late Mr. F. W. Strickland and Mrs. Strickland, Toronto, to Margaret Helen, only daughter of Mr. J. D. Inverarity, Rosemount, and of the late Mrs. Inverarity, Clermont, Ontario.

The 48th Highlanders will give a band concert in the armories on Friday, June 28, for the prisoners of war bread fund of the regiment.

The marriage of Ethel Louise (Pansy), eldest daughter of the late Captain W. H. Featherstonhaugh, Midland, Ont., to Mr. George Charles Ludlow, son of the late Mr. Richard Henry Ludlow, Greyton, County Wicklow, Ireland, took place very quietly at noon yesterday in the presence of the rector, Rev. Lawrence Skeay, vicar, Mr. J. Featherstonhaugh, uncle of the bride, groom, Mr. J. A. D. Vane, brother of the groom, and Mr. J. A. D. Vane, brother of the groom, and Mr. J. A. D. Vane, brother of the groom.

# NEWEST GOLD DISTRICT HAS UNIQUE FORMATION

### Staff Correspondent of The World Visits Field Near Goudreau in Lake Superior Region—Quartz Veins Are Well Defined and of Uniform Width.

Special to The Toronto World.

Goudreau, Ont., June 18.—This place is on the Algoma Central Railway, now completed from Sault Ste. Marie, Ont., to Hearst, on the Grand Trunk Pacific, a total distance of nearly 200 miles. We are here 17 miles south of Franz, on the Canadian Pacific Railway, and altogether 50 miles from the city of Toronto, on way of the C.P.R. and Algoma Central lines. Forcupine, Michipicoten Harbor, on Lake Superior, is 35 miles south, and is connected with the main line of the A.C.R. by a branch from Hawk Junction.

Mines of Asbestos and Iron.

Between here and Michipicoten Harbor are the Helen, Magpie and Josephine iron mines. The first named is the most productive iron mine as yet opened up in Ontario. It also yields very considerable quantities of iron pyrite, which, when pure, contains 63 per cent. of sulphur and 36 per cent. of iron. This mineral is used in the manufacture of sulphuric acid, now in great demand for purposes of war.

East of here, less than two miles, the Nichols Chemical Company have 200 men employed in mining iron pyrite. The deposits, however, are considerably scattered, and shipments are for the most part of ore, with under 35 per cent. of sulphur content.

Pyrite oxidizes very rapidly, and when pure and in large quantities it is usually found under water leaving nothing but "gossan" or a desulphurized iron ore on the surface, and the fact that the Nichols people are operating on high ground shows plainly that there is a large percentage of rock or waste mixed with the ore. They are now, however, engaged in draining a small sandy lake in which an outcrop of pyrite can be seen. They may here get a large body of high grade.

The Rand Consolidated are shipping pyrite from a mine close to the station, and Harry Drainie, of Toronto, is exploring for iron about four miles north of here. The ore is carbonate, a rather rare type in Ontario.

**New Gold Fields.**

But the sulphur is not the mere issues on the present trip. The journey here was entirely for the purpose of examining the very latest findings in gold fields. Were it not for the unusual application of a few settled principles one would be quite at a loss when from time to time confronted with the occurrence of a mineral in a different geological conditions in the various portions of New Ontario. This latest find is in several respects different from anything heretofore known. It owes its prominence today to the persistent and undimittable spirit of investigation of J. Webb, the veteran prospector of Sault Ste. Marie. In conjunction with D. McCarty, of the same place, he holds altogether seven claims which are now considered the most promising in the district. But the most interesting of all claims have been staked, and the auriferous belt is being investigated. The entire ground has been covered for a distance of about nine miles east of here.

The strike of the formation is a little north of east, and if prolonged it will come out a few miles north of Franz, on the C.P.R. From the latter point the distance of 22 miles westward, as the line runs up from the south. The gold belt forms the base of a triangle thus enclosed by the two railways.

There are two kinds of porphyry to be seen here. The first variety is the one known as the C.P.R. From the latter point the distance of 22 miles westward, as the line runs up from the south. The gold belt forms the base of a triangle thus enclosed by the two railways.

Other Occurrences.

On the Webb property we saw six or seven other faces of the porphyry, in some places intrusive in the granite and in one place cut by a dike of quartz. The veins and masses here were found, 12 of which carry visible gold.

The other stakings in the camp have not as yet been much prospected, and the only one left there were only nine additional showings of the precious metal. This spells very rapid progress, for practically all the other stakings, until J. H. Teare and J. P. Cline are also largely interested in the new district. They own a number of claims in the Algoma district, and are developing work on a very good start. It is an exceedingly interesting, and may yet prove to be a valuable find.

The transportation problem will not be difficult, and the mineralized zones in the porphyry may be better than any heavy expense or undue delay.

The small veins are remarkable in respect of their wide widths and the mass of the quartz with tourmaline are not likely to carry high values.

The tourmaline in the veins is quite distinct, and their regularity is quite unusual. They can provide the requisite tonnage for a very profitable mine.

S. R. Clarke.

tion for distances of from 150 to 400 feet and in places show gold. They have been the scene of very considerable alteration and silicification. They are fairly regular in width and plainly differentiated from the rest of the mass. On these the nature of the camp seems to depend. They appear to be worthy of very careful investigation.

Visible Gold and Sylvanite.

The first gold was found in the district on Oct. 17 last, and there are now seventeen properties on which the precious metal can be seen. The assay has been determined by the provincial assayer in ore from this district. When two cubic feet of ore were assayed, 13.4 ounces of gold and 1.4 ounces of silver.

Scheelite is the principal ore of that very rare mineral. It is a silicate of calcium and is found in Nova Scotia, and was lately identified in the eastern part of Manitoba near the quartz and scheelite occurs in the ore at the Hollinger and McIntyre Mines. Scheelite, the not often associated with gold.

R. J. Ennis, E.M., general manager of the McIntyre, says that the presence of scheelite in the ore at that mine means values over \$10 per ton in gold. The scheelite content of the ore is about 1 per cent. of the total weight of the ore. The specific gravity of scheelite is 4.6, and it is found in the ore at 2 1/2 times that of iron pyrite, or about 2 1/2 times that of scheelite which it otherwise resembles. When mentioning these facts to Mr. Webb, he recollected that a cream-colored mineral very like quartz had behaved in an unusual manner in the past, and difficult to separate it from the precious pyrite. While the quartz and even the iron pyrite were easily disposed of, the scheelite, for such it proved to be, hung back, and very close association with the gold itself.

When this discussion took place we were on the top of one of the typical ridges of quartz porphyry, on which the auriferous zones are found. On the south side of the ridge, the quartz is almost invariably for about 100 feet, but at the beginning of this descent a portion of the quartz is mineralized rock, which is of a different nature from the quartz porphyry. In order to determine whether scheelite is a mineral which is associated with the quartz porphyry, or whether it is a mineral which is associated with the quartz porphyry, we took the samples from a great bluff, one hundred feet high and 300 feet long, and about the same width. Across the top there was a well-defined quartz vein about 24 inches wide, and the quartz was fairly tale. We took the samples from the top of the bluff, and the quartz was fairly tale. We took the samples from the top of the bluff, and the quartz was fairly tale.

While the output of silver during 1917, as shown in the fourth annual report of the Mining Corporation of Canada, was not greatly in excess of that of the previous year, there was an increase of \$61,508 in net profits on account of the higher prices of silver.

A less cheering phase is the large decrease in ore reserves, amounting to close to 1,700,000 ounces of silver, and warning is given that new properties must be secured if the life of the company is to be prolonged beyond apparent limits set.

Mr. Henry Pellissier, the president, says: "The production for the year was 4,485,541.54 ounces of silver, as compared with 4,457,460 ounces for the year 1916; and the net profits for the year amounted to \$2,557,091.89, as compared with \$1,595,553.58 for the preceding year.

"The price realized during 1917 for our silver has averaged 88.03 cents per ounce, as against an average of 87.45 cents during 1916.

"The net profits for the year, after writing off the proper amounts for depreciation and special expenditures were \$2,557,091.89, as compared with \$1,595,553.58 for 1916; and, after paying dividends, the sum of \$1,000,795.92 was carried forward, making a total amount at credit of profit and loss of \$3,448,377.80.

"During the year the total amount expended on development work amounted to \$4,494 feet as compared with 14,780 feet for 1916.

"Mining has distinctly increased in efficiency. The total tonnage was 34,085 tons, as against 114,322 for 1916, the total ounces recovered being 4,485,541.54, of which 1,397,067.81 ounces were from high-grade ore. Construction of a plant for the treatment of the tailing beds, referred to in my report of last year, has been completed, and the treatment of these tailings should commence shortly.

"The percentage of recovery was 84.43 per cent. in 1917, as against 82.14 per cent. in 1916.

**Lessened Reserves.**

The net amount of ore left in reserve at Dec. 31, 1917, as shown in the report of C. E. Watson, is considerably less than at the beginning of the year, but it is stated that plans are now being completed by which it is hoped that the reserves will be increased. It is anticipated that the reserves may be increased by upwards of 1,000,000 ounces of recoverable silver.

The summary of ore reserves shows at the end of the year, 373 tons of high grade ore, and 20,991 milling tons, a total of 21,364 tons. At the end of 1916 there were 742.7 tons of high grade ore and 64,008 of milling ore, a total of 64,751.7 tons. The estimated number of ounces of silver in high grade ore at the end of 1917 is 690,600, and in milling ore 85,470, a total of 1,546,070 ounces of silver. At the end of 1916 there was estimated to be 1,729,000 ounces of silver in high grade ore, and 1,505,200 in milling ore, a total of 3,234,200 ounces of silver.

It will thus be seen that the increase in estimated ore reserves is 33,387 tons of ore and 1,689,530 ounces of silver.

It is pointed out that so long as there remain undeveloped areas there is a chance of making additions to ore reserves, but the report gives warning that preparation must be made for "that diminution in production which inevitably precedes the exhaustion of all big mines."

**New Properties.**

In its quest of new properties, 90 properties in Canada and the United States were considered in 1917. The statement is made that the Richard property under option shows well mineralized veins, but that its possibilities have not yet been fully tested. The company has also looked into properties in Russia and South America, but has taken no definite action.

The balance sheet of the company descriptive notes to these are quite consistent with a surmise that the conditions portrayed are due to blast operations. When there are unusual features in any of our gold fields these reports might point them out, and if Mr. Burrows would give us a little of his own impressions they would be very much appreciated. One would never suspect from Bulletin No. 34 that there is anything beyond the ordinary to be seen in the Matachewan gold area.

S. R. Clarke.

## MINING CORPORATION'S NET PROFITS INCREASE

### Annual Report Shows, However, Large Decrease in Ore Reserves, and Advisability of Extending Operations Into New Fields is Emphasized.

While the output of silver during 1917, as shown in the fourth annual report of the Mining Corporation of Canada, was not greatly in excess of that of the previous year, there was an increase of \$61,508 in net profits on account of the higher prices of silver.

A less cheering phase is the large decrease in ore reserves, amounting to close to 1,700,000 ounces of silver, and warning is given that new properties must be secured if the life of the company is to be prolonged beyond apparent limits set.

Mr. Henry Pellissier, the president, says: "The production for the year was 4,485,541.54 ounces of silver, as compared with 4,457,460 ounces for the year 1916; and the net profits for the year amounted to \$2,557,091.89, as compared with \$1,595,553.58 for the preceding year.

"The price realized during 1917 for our silver has averaged 88.03 cents per ounce, as against an average of 87.45 cents during 1916.

"The net profits for the year, after writing off the proper amounts for depreciation and special expenditures were \$2,557,091.89, as compared with \$1,595,553.58 for 1916; and, after paying dividends, the sum of \$1,000,795.92 was carried forward, making a total amount at credit of profit and loss of \$3,448,377.80.

"During the year the total amount expended on development work amounted to \$4,494 feet as compared with 14,780 feet for 1916.

"Mining has distinctly increased in efficiency. The total tonnage was 34,085 tons, as against 114,322 for 1916, the total ounces recovered being 4,485,541.54, of which 1,397,067.81 ounces were from high-grade ore. Construction of a plant for the treatment of the tailing beds, referred to in my report of last year, has been completed, and the treatment of these tailings should commence shortly.

"The percentage of recovery was 84.43 per cent. in 1917, as against 82.14 per cent. in 1916.

**Lessened Reserves.**

The net amount of ore left in reserve at Dec. 31, 1917, as shown in the report of C. E. Watson, is considerably less than at the beginning of the year, but it is stated that plans are now being completed by which it is hoped that the reserves will be increased. It is anticipated that the reserves may be increased by upwards of 1,000,000 ounces of recoverable silver.

The summary of ore reserves shows at the end of the year, 373 tons of high grade ore, and 20,991 milling tons, a total of 21,364 tons. At the end of 1916 there were 742.7 tons of high grade ore and 64,008 of milling ore, a total of 64,751.7 tons. The estimated number of ounces of silver in high grade ore at the end of 1917 is 690,600, and in milling ore 85,470, a total of 1,546,070 ounces of silver. At the end of 1916 there was estimated to be 1,729,000 ounces of silver in high grade ore, and 1,505,200 in milling ore, a total of 3,234,200 ounces of silver.

It will thus be seen that the increase in estimated ore reserves is 33,387 tons of ore and 1,689,530 ounces of silver.

It is pointed out that so long as there remain undeveloped areas there is a chance of making additions to ore reserves, but the report gives warning that preparation must be made for "that diminution in production which inevitably precedes the exhaustion of all big mines."

**New Properties.**

In its quest of new properties, 90 properties in Canada and the United States were considered in 1917. The statement is made that the Richard property under option shows well mineralized veins, but that its possibilities have not yet been fully tested. The company has also looked into properties in Russia and South America, but has taken no definite action.

The balance sheet of the company descriptive notes to these are quite consistent with a surmise that the conditions portrayed are due to blast operations. When there are unusual features in any of our gold fields these reports might point them out, and if Mr. Burrows would give us a little of his own impressions they would be very much appreciated. One would never suspect from Bulletin No. 34 that there is anything beyond the ordinary to be seen in the Matachewan gold area.

S. R. Clarke.

## BREAK IN DOME TO SIX DOLLARS

### Heavy Selling is of Somewhat Mysterious Origin—General List is Steady.

A sharp break in Dome Mines to 6.00, the lowest price on record since the stock sold at 5.75 in the early days of the war was the unsettling factor introduced into the local mining market yesterday, but the list showed surprisingly little effect apart from Dome Extension and Dome Lake, which were sympathetically influenced.

Selling of Dome was on the heaviest scale seen this year, 2500 shares being thrown upon the New York market and 1610 upon the Standard Exchange. The stock, which had closed at 7.00 in New York, on Tuesday, opened there yesterday at 6.75 and steadily declined until 6.00 was reached, when substantial support brought about a rally to 6.15. On the local exchange the initial trading was at 7.10, and the drop was arrested at 6.00 with 6.40 bid at the close and no stock offered.

Brokers were frankly puzzled to account for the sudden outbreak of selling. On the face of it, it bore the aspect of a bear raid of the kind which holders of Dome, since it reached the pinnacle of \$12 per share a few years ago, have become all too familiar. The heavy offerings seemed to point to short selling rather than to the liquidation of real stock, but on the other hand, it was pointed out that the recession was an orderly one.

The explanation given follows: "Also increase in the aggregate total cost at mine was not great, and the cost of silver was 35.15, as against 34.46c in 1916. The cost per ton of ore treated was, however, \$19.26 in 1917, as against only \$18.42 in 1916. In part, the explanation given follows: "Also increase in the aggregate total cost at mine was not great, and the cost of silver was 35.15, as against 34.46c in 1916. EARLY STRENGTH LOST BY STEELS

for Maple Leaf Drops Off Sharply—Activity in First War Loan.

Early strength in the steel stocks with a sagging tendency later provided the only outstanding incident in yesterday's quiet local market. Steel Canada's quiet opening at 67 3/8 showed an overnight advance of 5-8, the highest of the morning, the opening sale being at 67. There were no transactions in the stock at the afternoon session, but offerings were made at 66 3/4 with the bid half a point lower. Dominion Iron also exhibited firmness in the morning at 62, but was expected to weaken later in the day, and after selling off to 61 1/2, the price closed 61 1/2 with the bid half a point lower.

While Maple Leaf sold only 1-4 lower at 107, it was significantly growing stronger as to extra dividend proposed, but the bid later dropped to 106 1/4. Barcelona was slightly heavier at 11 1/2, which was not surprising in view of the announcement that the company would not be able to resume its normal cash interest payment on the 1917 year-end. Brazilian held steady at 41 1/4. Mackay was in demand at 75, and Steamships common and preferred each ruled 1-4 higher at 49-1-4 and 75-1-4 respectively. A number of Canadian General Electric shares were sold at 101-2. Twin City was sold at the low of 39-1-2.

Activity in the war loans centered around the first issue which yielded 1-8 at 94-1-2. The second issue was unchanged at 94-1-4 and the third 1-4 higher at 94-1-2.

Transactions: Shares 794; War Loans \$27,600.

BANKS WILL FINANCE GOVERNMENT'S NEEDS

Arrangements Made Pending Issue of War Loan in Fall. Montreal, June 19.—It is understood here that arrangements have been made between the Dominion Government and the banks whereby the government's requirements will be financed pending the issue of another war loan in the autumn.

The arrangement includes advances for the purchase of meats, cheese, and other provisions urgently needed by the Dominion Government, and presumably, too, for the financing of industrial orders placed through the imperial war board.

On vapor yesterday had it that \$11,000,000 was being advanced.

MORE GOLD FOR U. S.

New York, June 19.—The New York Federal Reserve Bank today authorized shipment of \$5,000,000 in gold from Ottawa, making a total of \$25,000,000 received on the movement.

CANADIAN SALT DIVIDEND.

A dividend has been declared on the Canadian Salt stock of 2 per cent, payable July 2 to shareholders of record June 21.

NEW YORK CURB.

Hamilton B. Wills received the following news from the close of the New York market yesterday: The general market was inclined to be irregular today, but modest buying was noticeable on many occasions which occurred in the more important issues. The three features were: (1) The war loans, (2) the steel and iron stocks, and (3) the slight advance in the oil market.

LIVERPOOL COTTON.

Liverpool, June 19.—Cotton futures closed irregular. New contracts—June, 20; July, 21 1/2; August, 22 1/2; September, 23 1/2; October, 24 1/2; October (old price)—June, 20 7/8; June and July, 21 1/2.

MONEY AND EXCHANGE.

London, June 19.—Money, 3 1/2 per cent. Discount rates, short bills, 3 1/2-3 3/4 per cent. One month bills, 3 1/2 per cent. Three months bills, 3 1/2 per cent. Cash, 3 1/2 per cent. Exchange on London, 27 francs 16 centimes.

NEW YORK REPORT.

J. P. Bickell & Co. report New York Exchange fluctuations as follows: Prev. Close, 107 1/4. Open, High, Low, Close, Close, 107 1/4. Open, High, Low, Close, Close, 107 1/4.

NEW YORK MARKET IN NARROW BOUNDS

Resumption of German Drive on Western Front Has Restraining Effect.

New York, June 19.—Trading in stocks today was again exceedingly superficial, the market showing no substantial changes from the previous session, except that prices eased more generally toward the end. Encouragement was felt at the beginning over the further check to the Austrian offensive, but this was tempered later by news of a resumption of the German drive along an important sector of the French front.

The only domestic happenings of note were the decision of the war finance corporation to render assistance to the Brooklyn Transit Company, and the meeting of the steel producers to fix new prices, effective July 1.

Brooklyn Transit and other utilities made only feeble responses to the action of the federal authorities, and steel, together with related industries and equipments, were uncertain at best, except a few issues which remained firm to strong for specific reasons.

United States Steel, rails and shipbuilding, especially the latter, fell back on the last hour, the reversal being in marked contrast to the strength of fertilizers and leathers at extreme gains of 1 1/2 to 3 points. Sales amounted to 410,000 shares.

Local banks offered call money freely, the rate falling to 4 1/2 after the mid-session. The placing of a large amount of time funds also eased the market, short-time loans being made on industrial collateral at 6 per cent.

Bonds—Anglo-French 92 1/2, 92 1/2, 92 1/2, 92 1/2. Industrial, Tractation, Etc. 40 1/2, 40 1/2, 40 1/2, 40 1/2. Am. Can. 41 1/2, 41 1/2, 41 1/2, 41 1/2.

COAL SHIPMENTS IN MAY.

Philadelphia, June 19.—Shipments of anthracite coal for May amounted to 6,887,266 tons, showing a falling off of 30,269 tons as compared with May, 1917. They were, however, 518,883 tons in excess of the April output. This statement was made today by the anthracite bureau of information.

TICONDEROGA CUTS MELON.

Montreal, June 19.—The directors of the Ticonderoga Pulp & Paper Company declared two quarterly dividends of 10 per cent. each today, putting the shares at a forty per cent. basis, and in addition declared a bonus of 120 per cent. Both are payable June 29-30. Stock record of June 27. The two additional quarterly payments of 10 per cent. will be paid September 30 and December 31. The Ticonderoga company is controlled by the Riondon Pulp & Paper Company.

DIRECT LOAN TO B. R. T.

Washington, June 19.—A direct loan not to exceed \$17,320,000 to the Brooklyn Rapid Transit Co. has been approved by the war finance corporation. Conditions under which the advance will be made have not been made public.

LONDON MARKET FIRM.

London, June 19.—Home funds had a good tone on the stock exchange today. Russian issues were better on Foreign Minister Balfour's remarks in the house of commons. Spanish and Italian bonds responded to the movements of exchange and Grand Trunks were buoyant features. Oil and industrial shares were well supported. Money and discount rates were quiet.

MINES ON CURB.

Closing prices yesterday in the Cobalt and Porcupine stocks on the New York Curb, as supplied by Hamilton B. Wills, in the Royal Bank Building, were as follows: Asks. Beaver, 23. 25. Buffalo, 85. 105. Crown Reserve, 20. 20. Dome Lake, 12. 14. Dome Extension, 10. 12. Hollinger, 45. 5.00. Kerr Lake, 5.75. 6.00. La Rose, 41. 43. McKinley-Darragh, 39. 41. Porcupine Crown, 1.26. 1.23. Newray, 18. 21. Nipissing, 1.85. 2.00. Peterson Lake, 9. 10. Provincial, 22. 23. Timiskaming, 10. 12. Vipond, 10. 12. West Dome Cons., 8. 10.

LAURENTIDE DIVIDEND.

Montreal, June 19.—Laurentide Company, Limited: A regular quarterly dividend of 2 1/2 per cent. has been declared, payable July 10 to holders of record June 25.

WEST KOOTENAY DIVIDENDS.

Montreal, June 19.—West Kootenay Power and Light Co. Quarterly dividends have been declared of 3 per cent. on the common stock and 1 1/2 per cent. on the preferred, both payable July 2 to holders of record June 15.

IRREGULARITY SHOWN IN MONTREAL MARKET

Steel of Canada Sells Off and Other Issues Also Weaken.

Montreal, July 19.—Canadian stocks were less active today, with price movements inclined to irregularity, although the general tone of the market was good. Steel of Canada, the strong feature of Tuesday's trading, sold at 67 1/2, against 67 1/4, the previous high quotation for the year. Profit-taking on the rise, with some reaction in the steel issues at New York, accounted for the weaker tone later in the day, and, after selling off to 66 1/2, the price closed 66 1/2 bid, or 1/2 down for the day.

PRACTICAL MEASURE TO CONSRIPT ALIENS

The Northern Miner says editorially: It has been suggested to The Northern Miner that it may be practical to conscript aliens to the extent of paying them a living allowance, the balance of their pay to go to the Canadian Government, to be paid back in war loans after the war. It sounds reasonable and has more good points than appear on the surface. An alien would be put on his good behavior under penalty of forfeiture of the war bonds due him after the war. He would only be receiving a living allowance so the incentive to work would be there.

LARGEST FLOUR MILL. Winnipeg, June 19.—According to reports from the west rapid progress is being made in the construction of the new flour mill which is being erected at Calgary, and which, when completed, will be the largest in Canada and one of the most up-to-date on the continent. The capacity will be between 6000 and 7000 barrels of flour daily.
