PAYING FOR GOODS DEPRECIATES MARK, SAYS BERLIN BANKER

Germany Has No Great Amount of Merchandise to Export in Exchange

Special Cable to The Toronto World and New York Tribune. Berlin, Sept. 14.—Depreciation of the mark has further progress yesterday. Dutch exchange in particular scored a sensational advance of 25 marks on a hundred florins, while the Scandinavian rose 10, and Swiss 15. A hundred florins now cost 942 marks, Danish crowns 695, and Swiss francs 642 1-2.

In discussing German financial affairs yesterday, with one of the leading Berlin bankers the correspondent found a more hopeful spirit. Referring to Klotz's speech this banker said: "We do not believe it has influenced exchange rates. We know his indemnity figures are the product of fancy and do not take them seriously. The latest depreciation of the mark is due to heavier sales thereof thru the occupied territory in payment of imports, Germany having no considerable amounts of merchandise to export in exchange. Therefore, the cardinal evil of the situation is that our former enemies refuse to allow the German banks to draw upon their pre-war credits abroad."

"We regard this as shortsighted of countries like England and America, which at any rate should see that they are being injured by the continued depreciation of the mark, and should pursue a policy of making reparation possible. It is encouraging, however, to note that foreign countries are gaining confidence in Germany's economic soundness. This is shown by the steady and considerable purchases of mark exchange by the Americans, including South America, and especially Holland, also have been investing liberally, and latterly Switzerland has taken a hand. German stocks even have begun to attract foreign buyers. These are now purchased cheaply owing to depreciation of the German currency. Neighboring countries have been buying in good accounts, and we have reason to believe that England also is buying. This has caused an unusually high movement on the bourse for about a week.

"Negotiations for extending American credits are making progress. We find a helpful and friendly spirit among the American bankers who come here.

Are Fewer Strikes. Turning to the general situation, the banker pointed out several encouraging features. He said, "We have begun to work better and more steadily. They are less disposed to engage in political strikes, and political parties which hitherto have been fermenting strikes within their own ranks, and are, therefore, losing hold upon the workmen. Our prospects for resuming foreign trade are bright if we were able to obtain raw materials. Our manufacturers report many cablegrams of inquiry for goods, many of these coming from far away lands, like India and South America."

ONE MONKEY AND ELEVEN MEN HELD

One shifty-nosed monkey and a bottle of Florida water was the combination that led to a series of charges of being drunk. The party gathered on Chestnut street and a bottle of the water was opened and all but the monkey took a drink.

The monkey was being carried by a soldier, who had been known to have made a pet of him. Before the contents of the bottle had been consumed all eleven men, as well as the monkey, were, according to the police, "making monkeys of themselves" before a large gathering of foreigners.

When the patrol wagon was called Patrolman Frank Tripp of West Dundas street escorted the soldier carrying the monkey to the wagon.

The soldier did not approve of getting in, and when he attempted to step back Tripp took a tighter hold on his coat sleeve. Here the monkey played a part and bit Tripp on the arm.

This is the first time that the police have gathered in eleven drunks who were put away by one bottle of Florida water, and, incidentally, this is a record of drunks to be quartered in the division on a Sunday night since prohibition went into effect.

The monkey and his owner were given a separate cell in No. 2 station, and the ten others were put up later on in the evening they chatted and glimpsed in the cell door from the corridor, where John Brogan and his monkey were.

Brogan will appear in police court this morning charged with being drunk, and the police will have to send the monkey to court as well, as the Kumanu Society were unable to take care of it without an order from the court.

It is the intention of the police to have the magistrate decide as to whether the monkey will be allowed to travel around with his present owner or be ordered turned over to the Riverdale Zoo.

KING'S PROPOSAL TO SECURE UNEMPLOYED AND DISABLED WORK

Proposes League of Employers Who Will be Permitted to Use Official Device on Correspondence.

Canadian Press Cable. London, Sept. 14.—A new plan to secure the absorption of the 100,000 still unemployed or disabled army, navy and air force men into the industrial ranks appears today in the shape of a royal proclamation, in which the King, holding it a dear obligation upon all to acknowledge the sacrifices of these men in securing a victorious peace, charges all employers of labor to bind themselves in high and solemn obligation to find employment for as many as possible. The names of such employers shall be inscribed upon what shall be styled: "The King's national roll."

KEEPS FULL CONTROL OF MILITARY FORCE GRATUITY LEAGUE RECEIVES REDUFF

Doherty's Reply to Fielding Gives Canada's Status, Says The London Times.

London, Sept. 14.—The Times, commenting upon the Dominion's ratification of the peace treaty, says that Hon. C. J. Doherty, minister of justice, rose to the greatness and significance of the occasion in the life of the empire "as General Smuts did at Capetown." The Times continues: "His reply to Mr. Fielding represents, we are confident, not only the settled view of the overwhelming majority of Canadians on the position of Canada, but a view which the peoples of all the dominions hold as to the real status within the empire of their several countries."

"Mr. Doherty gave a conclusive answer to the argument that by giving her approbation to the league and to the covenant Canada is abandoning central by her parliament over her military forces. No self-governing community can be driven into war or ordered into war against its own will. In all such communities it is essential to make the conduct of war possible, and the mere apprehension that a legislature would refuse it or refuse supplies under the pressure of public opinion must effectively prevent any responsible government and still more, any democratic government from embarking upon a war which public conscience and public judgment do not heartily support."

STOP CANAL WORK IS OTTAWA ORDER

Special to The Toronto World. Catharines, Ont., Sept. 14.—Doherty, Quinlan and Robertson, contractors on section 3, Welland ship canal, for resuming work on the canal, were ordered to stop work on the canal at Ottawa order.

The order was issued by the assistant chief engineer that such might be expected unless the labor difficulties between the contractors and men are speedily settled. At a late hour tonight the men had not yet decided if they would return to work on sections 2 and 5. The men on No. 1 section are back.

INDUSTRIAL CONFERENCE OPENS TODAY IN OTTAWA

Nearly Two Hundred Delegates Present From All Parts of Dominion—Prominent Men Will Discuss Big Labor Questions.

Canadian Press Despatch. Ottawa, Sept. 14.—Upwards of 200 delegates are in the city for the national industrial conference, which opens in the senate chamber at 10 o'clock tomorrow morning, and the deliberations will be eagerly watched for by all classes in Canada, and also across the international border.

Special to The Toronto World. Ottawa, Sept. 14.—It is understood here that Sir Alfred Smith, chairman of the Grand Trunk Railway system, has signed a contract with the government to submit to arbitration terms for taking over the road. The road is to be leased for 99 years and there is a wide discrepancy between the annual rental offered by the government and the sum asked by the company. The arbitration will be binding on both parties.

GRAND TRUNK PRICE WILL BE ARBITRATED

Road to be Leased and Finding of Arbitrators Will Be Binding.

Special to The Toronto World. Ottawa, Sept. 14.—A determined effort will be made by the G.W.V.A. to place before the parliamentary committee on soldiers' re-establishment all the evidence possible relating to the needs of returned soldiers. A form of special questionnaire has been telegraphed to all provincial commands and will be printed and issued to all branches that each returned soldier may have the opportunity of presenting in detail his individual needs. These will be classified and tabled for presentation to the committee.

Telegrams are now being received at the national headquarters of the Great War Veterans' Association expressing satisfaction at the action taken by the government in announcing the formation of a select committee of the house of commons and submitting preliminary details of the problems encountered in each district.

RETURNING SOLDIERS. Troopships Ordruns and Minnekahda arrived in Halifax on Sunday, and the Saturnia with returned soldiers reached Quebec, Lists of names of the Toronto district men will be found on page 5.

MUST BUILD UP A NEW WORLD WITH JUST REWARD FOR LABOR

Premier Lloyd George Issues a Message to the People of Britain on the Future.

London, Sept. 14.—Premier Lloyd George has issued a message to the people of Great Britain in "The Future," which will be distributed free throughout the country on Monday. The premier says: "Millions of gallant young men have fought for the new world. Hundreds of thousands died to establish it. If we fail to honor the promise given them we dishonor ourselves."

"What does the new world mean? What was the old world like? It was a world where toil for myriads of honest workers, men and women, purchased nothing better than squalor, penury, anxiety, wretchedness; a world scarred by shame, disgraced by sweating, where unemployment, through the wastefulness of industry, brought despair to multitudes of humble homes; a world where, side by side with want there was waste of the inexhaustible riches of the earth, partly through ignorance and want of forethought, partly thru entrenched selfishness."

"If we renew the lease of that world we shall betray the heroic dead. We shall be guilty of the basest perfidy that ever blackened a people's fame."

ITALIAN VOLUNTEERS WILL BE PAID ON FUME

D'Annunzio Joins Forces and Troops Ordered to Disarm Them Refuse.

Rome, Sept. 14.—Gabriel D'Annunzio on Thursday night secretly joined a body of Italian volunteers, which entered and occupied Fiume on Friday. It is reported that General "Peppino" Garibaldi is among the volunteers.

Premier Nitti received news of the entry while the chamber of deputies was engaged in debate. He was extremely astounded and the majority of the deputies expressed their regret that such an incident had occurred.

Premier Nitti, in a statement regarding the raid, announced that the commander of the Sixth Army Corps had been ordered to intercept and disarm Gabriele D'Annunzio's troops, but that these troops refused to obey the commander's order.

The latest advice was to the effect that the situation arising from the coup was serious, and the premier declared he was determined to act in a manner to avoid grave conflicts. He deplored what had happened, because for the first time, besides the heroic idealists, had entered the Italian army.

The Epoca announced that General Badoglio, deputy chief of staff, has gone to Fiume armed with full powers. D'Annunzio, according to some reports, entered the city of Fiume at the head of from 8000 to 12,000 men.

HEROIC FIREMEN FIGHT HUGE FIRE IN LONG ISLAND

Damage May Amount to \$10,000,000—Entire Oil Plant Wiped Out—20 Acres of Building in Flames—Spectacular Deeds of Heroism.

New York, Sept. 14.—With more than 50 persons injured and the damage already done estimated at from \$5,000,000 to \$10,000,000, weary fire fighters tonight were still fighting a threat of further explosions of the oil tanks at the scene of the fire which practically wiped out the Stone & Fleming Oil Co.'s plant, Long Island City, yesterday.

Five tanks of crude oil were burning late today. Should they become sudden shift from north to northeast, many additional tanks in plants nearby would be threatened, as well as thousands of tons of coal.

The firemen were working in short shifts. So exhausted had they become, that when relieved for a brief rest they lay in the streets near the fire zone and went fast asleep. Twenty acres of fireswept territory looked like a scene in war-devastated France or Belgium. Tanks were crumpled up; huge steel girders lay in a tangled mass; few walls were left standing, and burning oil continued to flow along the surface of Newton creek.

The fire starting early Saturday afternoon from the explosion of an oil tank in the Stone and Fleming works, a subsidiary of the Standard Oil Co., Newton Creek, spread over virtually the entire area of the plant, which covers 20 acres, and spread to the Columbia Distilling Company's buildings on the same side of the creek, the Peter Cooper Glue Works and American Agricultural Company's plant across the water and the Green Point bridge. At the same time, flames, carried over the stream by blazing oil, threatened the Platt Works of the Standard Oil Co. on the opposite bank.

Stuck to Their Posts. Following a series of explosions the fire spread so rapidly that, in addition to a dozen fire boats and three score fire companies, a signal was sounded summoning back all members of the department who had gone off duty.

Despite the constant danger from explosions which they faced, the fire fighters stuck to their posts, retreating only when the heat became intolerable. In the front lines, the men worked on 20 minute shifts, refusing to relinquish the light in spite of severe burns.

In addition to several hundred thousand gallons of burning oil which darkened the city by day and illuminated it by night, hundreds of tons of coal at the plant caught on fire. When naphtha and gasoline explosions occurred, the flames were forced to fling themselves face downward in the mud and oily water. Turning their nozzles in the direction of the flames, the firemen solved a heavy water barrage to protect themselves from the sparks.

Inhabitants of the district retreated as the fire advanced. The fire department gave notice last week that he would move the adjournment of the house tomorrow for the purpose of discussing the question, and even if this is not done the subject is almost certain to be brought up in the debate on the address in reply to the speech from the throne, which is the first order of business in the house tomorrow afternoon.

On Tuesday the government will probably announce the appointment of a select committee to consider a bill dealing with the department of soldiers' civil re-establishment, and while the department has nothing to do with these gratuities, the house committee will undoubtedly afford the Returned Soldiers' Gratuity Association an opportunity to fully present its case.

Meanwhile the department is smarting under the report that the select committee was to be appointed for the purpose of investigating its work and personnel and has given out a semi-official statement which reads as follows: "No Question of Enquiry."

"Legislation affecting the department of soldiers' civil re-establishment will come before the house during the week and this will offer opportunity for a parliamentary discussion of various matters concerning the problems of citizens who having served in the forces have since been discharged.

"In the connection with the expression of opinion has been used, an expression liable to cause a misapprehension. There is no question of investigation regarding the activities of the department of soldiers' civil re-establishment. The bill which will be introduced is a formal but necessary one."

"While it is highly probable that the question of increased gratuities will be brought up on this occasion, the department does not deal with gratuities, because the men do not come under its jurisdiction until after discharge.

"Responsibility for the medical treatment, the supply of artificial limbs, vocational training of the disabled and the minor personal services to those undergoing treatment or training, and placement in touch with opportunities for employment.

"All of these services are placed at the disposal of the ex-members of the forces without charge. Those who require lengthy medical treatment, and those who are undergoing industrial retraining and provided with adequate pay and allowances while being treated or retained.

BATTLING THE GERMAN A GOOD IMPRESSION

Occupation of Rhineland Has Been a Blessing to the Germans.

Reuter Cable. Cologne, Germany, Sept. 14.—British forces on the Rhine are diminishing daily, and it is fair to say they will leave behind them an excellent impression. Isolated disturbances have occurred, but it would be wrong to form a general impression from these. A surprising feature indeed has been their ready view of the fact that we are occupying German territory, and that an intense feeling of disgust had been aroused among British soldiers by Germany's methods in waging war.

PROTEST ASSISTING ALIEN IMMIGRANTS

Meeting St. Catharines Veterans Against Bringing More Germans.

Special to The Toronto World. St. Catharines, Sept. 14.—A protest was formally voted by over 100 returned men in the Grand Opera House this afternoon against a statement by Sir George MacLaren Brown, that immigration from Germany would be favored, and the government will be memorialized to prevent immigration of alien enemies. A protest was also made against the discrimination made between the British reservist and the Canadian soldier or sailor in gratuity and pension allowances, and request made for the same gratuity and pensions for reservists and their dependents as to Canadians; also that the war gratuity be paid without regard to a man's former rank in the army.

YORK COUNTY AND SUBURBS

EARLSCOURT GREAT SUCCESS

Seventeen Thousand People Attend—Plans for Bigger Improvements.

The fourth and last day of the Earlscourt second annual fall fair on Saturday proved to be the best of all. Royce Park bent crowded from noon to midnight with a crowd of happy, smiling people running into the thousands. The splendid weather, typical Indian summer, a hot sun and a tempered breeze, and the fact that Saturday being a half-day holiday all combined to swell the attendance from morning to night. It was a happy thought on the part of the directors to erect the arch that had done duty for the reception of the Prince of Wales to Earlscourt at the entrance to the fair grounds. This arch, decorated with the red, white and blue and illuminated at night with brilliant lights of the same colors, was one of the biggest entrance attractions to St. Clair avenue, as the street cars emptied their loads on the corner of Lansdowne avenue from all parts of the city.

NEW ARMY CITADEL

A model of the proposed new Salvation Army citadel, just inside the entrance gates, interested local visitors, who are anxious to see a new building for the Earlscourt Salvationists erected in Earlscourt. The midway soon became a dense throng of smiling humanity, all bent on having a good time. Every booth done a roaring business for there was no lack of variety, from the popular nut and peanut stand. All the visitors seemed to be eating something. They wanted a change of diet and came to the Earlscourt fall fair to get it. The three main attractions in the exhibits were the big poultry tent, the vegetable and the pigpen, and rabbit. These tents being crowded from early morning to midnight. Chairman R. R. Harris and Secretary G. N. Brown of the Earlscourt fall fair, kept hard at work all day long showing visitors round the huge marquee, containing about 1000 of the finest birds of the Earlscourt fall fair in the Province of Ontario. Prizes in cash awarded to successful winners were paid out by Manager A. G. Clark of the Earlscourt fall fair, assisted by G. N. Brown.

THEY ALL TRAVEL AT REDUCED FARES

Patrons of Scarboro Radial Railway Find Way to Ride Cheaper.

Members of the Scarboro Junction Ratepayers' Association have apparently won an important victory over the Scarboro Radial Railway on the question of fares. Some time ago a Scarboro man who boards the car at stop 28 got a tip that the radial would charge only two cents a mile, or five cents for the first three miles. He got on the car and tendered the conductor five cents. This was a new idea to the conductor, and a lowering of fares followed. "When the car arrived at Birchcliff, the Scarboro man produced one of the six-for-a-quarter tickets. The conductor took his name and address. When this traveler returned home at night from the city, he put in a ticket to Birchcliff and five cents for the rest of the trip. His name was recorded in the conductor's little notebook. This man told his friends, and now they are all paying the reduced fare. Names were gravely recorded for several days, and the protesters have been expecting a legal battle with the company, but it was reported at Saturday night's meeting of the Ratepayers' Association that the railway hands had become tired of taking names, and that everybody was now traveling at the low fare, except timid women and strangers.

It was stated by W. Smith of the executive that the company have a ticket rates so arranged that they collect three fares between stops 24 and 26, which he figured was not over three miles and should be only a five-cent fare. It was the intention of the association, he said, to fight to a two-cents-a-mile rate all along the line from Birchcliff to West Hill.

DISAPPOINTMENT

Disappointment was expressed over the failure to get Hydro-Electric lighting for about fifty families south of the tracks at Scarboro Junction. A petition signed by forty-one persons for the service was refused. Deputy Reeve Stewart, who was present, said that the petition had been turned down by the provincial Hydro-Electric board on the ground that it would not pay. Mr. Stewart said he believed it would be put a short time before they would have the Hydro current all over the township. The work was getting too heavy for the council, he believed, and he believed a local Hydro-Electric board would shortly be appointed. Mr. Stewart also forecasted an early change in the system of road repairing. Several speakers had declared that the present commissioners were not giving a satisfactory service. Kennedy and Beare were said to be in a deplorable condition. Proper culverts on Kennedy road rendered parts of it impassable for school children at certain seasons of the year. Mr. Stewart said he believed it would be necessary to keep a road foreman steadily employed under the township engineer, and do away with the commissioners entirely.

VETERANS IN GALT WANT THE GRATUITY

Special to The Toronto World. Galt, Ont., Sept. 14.—A mass meeting of veterans was held this afternoon in Jackson Park in support of the G. W. V. A. agitation for \$2,000 gratuity. Over three hundred were in attendance and the men marched to the park in a body headed by the G. W. V. A. band. The chief address was given by Comrade Souleby of Guelph, who in criticism to outlining the gratuity demands criticized the present pensions as not sufficient. A resolution was passed asking the citizens to support the G. W. V. A. in demand and government to appoint commission to investigate.

G.W.V.A. IN BRANTFORD BACK UP SEC. TURLEY

Special to The Toronto World. Brantford, Sept. 14.—A special meeting of the G.W.V.A. Saturday night in the chamber of commerce rooms a resolution was passed endorsing the request as passed in the Dominion convention, requesting the appointment of a commission to enquire into the claims for additional gratuity. The association also endorsed the stand taken by Provincial Secretary Turley of Toronto and backed him up strongly in his attitude towards the new gratuity organization just formed.

HAS GREAT WAR RECORD

To enlist at the beginning of the war and participate in all the notable engagements on the western front without receiving a scratch, is the record of Jack Austin of Oakville. The young man, whose relatives reside in Toronto, enlisted in the Canadian artillery August 6, 1914—two days after war broke out—and underwent training at Valcartier and Salisbury Plains. While in England, he took out a commission with the imperial army at Woolwich and went to France in July, 1915. From that time until the signing of the armistice he saw service in France and Flanders and served in the army of occupation in Germany. At the time of the signing of the armistice he was serving in the capacity of acting captain.

Life in the army evidently holds a strong appeal for Capt. Austin, whose ability lies in that direction. Shortly after the end of hostilities he took a gunner's course in Shoreham and is to be shortly despatched to India in charge of a battery.

SOLDIERS' MASS MEETING.

After interviewing the cabinet at Ottawa, T. H. Flynn and V. Kearns, Bataclor of the Returned Soldiers' Gratuity League, returned to Toronto yesterday morning. They had once called a meeting of the chief organizers of the league and after a lengthy discussion they decided to arrange a mass meeting of returned men in Queen's Park for 7 o'clock tonight. The council of the league got in touch with Colonel John Currie, who is a great supporter of their demands, and a lengthy interview resulted. At tonight's meeting the result of the interview with the colonel will be made public and the details of what transpired when the deputation from the league met the federal cabinet will be given out.

CALLS ON LENNOX TO SUPPORT U.F.O.

Farmer Candidate Pokes Fun at North York's Provincial Member.

WOMAN RIDICULES Says Government's "Lady" Instructors Presume Far Too Much.

That the farmers' wives will stand shoulder to shoulder with their husbands in the industrial revolution now sweeping over agricultural Ontario, was the message delivered in the town hall, Newmarket, on Saturday night, to a crowded U. F. O. Labor meeting by Mrs. Webster of Lindsay, prominent among the women, who have lately been heard on the public platform.

That the female of the species is more outspoken than the male, was the impression given by S. P. Foote, the U. F. O. candidate, when his turn came to address the gathering. He made a lot of quiet fun of Col. Herb Lennox, M.L.A., and practically dismissed the colonel from service in the legislature.

Mr. Foote said: "I have nothing that is unkind to say of Colonel Lennox. I have always supported him since he first ran in this constituency. Seeing that I have done so, I think he will recognize now that it is his turn to support me. I think he should. But if he does not do so I will not criticize him. I cannot very well criticize my own man. I put him there. He knows that, of course. He knows that the farmers will put their own candidate in the legislature now for North York."

This way of handling the situation tickled the audience keenly, and they laughed and applauded the big quiet talker who was making fun of the colonel. The meeting was called for 8 o'clock, but the hall was packed long before the speaking began. The meeting was scheduled on "farmers' time," nine o'clock, and there was talking ability enough on the platform to keep the proceedings going to the "wee sma' hour" ayont the wall. The attendance of women was exceptionally large, and there was an enthusiastic spirit manifest both among the men and women.

Wesley Williams, president of the North York U. F. O., presided. Mrs. Webster was the first speaker. She held up to ridicule the government and its methods of dealing with agricultural affairs.

OVERSEAS TROOPS SEND PROTEST TO COMMONS

The following letter has been sent out to all the members of parliament: "I take this opportunity of writing to you regarding a matter which I consider is a gross injustice to the troops at present overseas. I refer to the order-in-council P. C. 809 of April 12, 1919, which granted increase of pay to the C. E. F., and which has not been made applicable to the troops of the O. M. F. C., thus discriminating against the troops overseas, who are being retained here through no desire of their own, and many of whom have been absent from home for four or five years. This is very difficult to understand and I think you will agree is most unjust.

"There is intense resentment against this treatment among all ranks here, and my personal opinion is that this grievance is most justifiable. I appeal to you to do everything you can to bring this state of affairs before the government of which you are a member, with the view to obtaining justice for all ranks overseas, who, from no fault of their own, are being so unjustly discriminated against."

RETURNED HERO BURIED

The funeral of the late Lieut. Evan Price, D. S. O., M. C. with bar, of the Royal Canadian Dragoons, took place on Saturday afternoon. After service at Grace Church the body was taken to Mount Pleasant Cemetery for burial. The Rev. J. S. Broughall officiated on both occasions. The pall bearers were Captain Grant, M.C., Lieut. Jack Price, Capt. S. Beck, Lieut. Eugene Smith, R. McMurrie and Col. Wood. Both the officers and N. C. O.'s of the R. C. D.'s sent floral remembrances and a beautiful wreath was received from the members of the governor-general's body guard.

AUSTRALIANS GOT MORE.

Editor World: With reference to your paragraph re Australian gratuities, it is a well known general knowledge that the Commonwealth troops received half a dollar per day more than the soldiers of Canada, the above amount being held in trust by the government until the soldiers' return. Therefore, a soldier who had served in the trenches for a year or more like \$1400 on his return, which I think is a fairly decent gratuity, including the money he receives on discharge. Hoping you will not expect some such statement, as it may help to benefit the Vets' cause.

UNIVERSITY'S OFFER.

The University of Toronto will commence on October 1 a special matriculation course for returned men. For admission to this course a student should have at least one or two years in high school. The object of the course is to enable such men to obtain matriculation standing without attending the regular matriculation course at the university in the following fall. Application forms for admission may be secured from the registrar, 100 Queen's Park, and the evidence of military service. This is the fourth matriculation course that the university has offered to returned men.

the verge of the precipice; but the advice is still persevered in: "Keep on rocking." The farmers' wives have come to the conclusion that they will not assist the government to rock the country into bankruptcy.

Mrs. Webster described with considerable acerbity the visit to her own kitchen at 444 Queen's Park, the day after yesterday. She brought in her washing. The dealer provided the hot water and the soap. The lady then said: "But my good woman, you don't expect me to wash, never did such a thing in my life."

Mrs. Webster did the washing and dried the lady's lingerie in the sunny outdoors. She brought it in off the line and said it with starch and the ironing board in front of the women's institute "lady," who again remarked: "But, my good woman, you don't expect to iron my clothes. Why, I never did such a thing in my life."

Mrs. Webster ironed the fine linen of the "lady," who meanwhile sat on the sofa and swung her feet fashionably. She had her legs round and about while she pressed upon the worker that she did deserve great credit. But that is up to rock her cradle, run her kitchen or look after the farm work.

"No more women's institute for me," said Mrs. Webster in conclusion, and the hall laughed their loudest at the "declaration of freedom from government patronage from government."

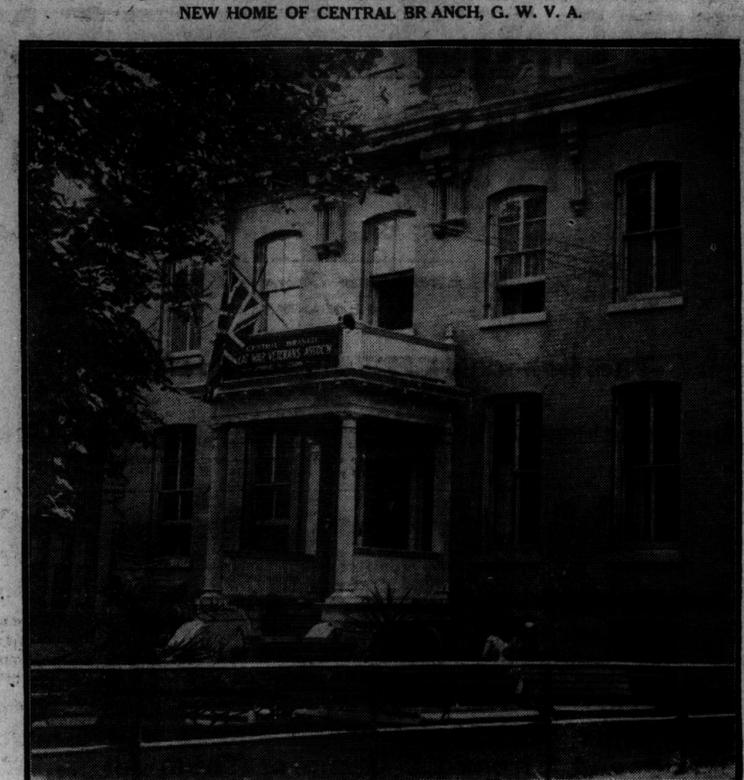

Mrs. Webster further said that the journal of the women's institute told farmers' wives they do not know the first thing about their own business. On children are the best class in the farmers' class and to declare that there is no shiftless class on the farms. The shiftless class belong to the city.

Mrs. Webster severely handled the education system and its effect upon farm life. She declared the emancipation of the farmers and their wives from the political leadership of men with minds and ambitions for the town.

"We would be the first ourselves," she said, to invest against high prices. But what is responsible for the cost of our living? It costs three times as much for a farmer's wife to buy a pair of boots as the farmer gets for a hide. The cost \$2.5 to produce a bushel of wheat, but the price of wheat to the farmer is at \$2.29.

PREDICT BACON PRICES WILL DROP IN KINGSTON

Special to The Toronto World. Kingston, Sept. 14.—Housewives were given a pleasant surprise Saturday, when dealers announced that bacon prices would drop from four to six cents a pound during the coming week. It looks as if the investigation into the high cost of living by the government is having its effect.

LABOR CONFERENCE IN OTTAWA TODAY

(Continued From Page 1)

labor law deemed necessary; recommendations of royal commissions on industrial relations respecting hours of labor; minimum wage laws; employees' right to organize; recognition of labor unions; right of employees to collective bargaining; recommendation of industrial relations commission in favor of establishment of a bureau to promote establishment and development of joint industrial councils and regarding establishment of joint plant industrial councils and other features which may be introduced bearing on the relations of employers and employees.

Borden Ill. Owing to the illness of Sir Robert Borden, it is not expected that he will attend the opening sessions and the statement on behalf of the government will be delivered by Senator Gideon Robertson, minister of labor, who is vice-chairman of the conference. Sir Robert Borden is chairman and expects to attend some of the later sessions.

Others who will speak tomorrow morning are: Hon. L. Mackenzie King, leader of the opposition; Col. David Carnegie, of London, England, formerly with the imperial munitions board here, and who, since last spring, has been following closely the development of the British industrial policy. Col. Carnegie will speak on the actual conditions in the British Isles and also on the plan of joint industrial councils inaugurated by the Whitley commission. Hon. A. L. Sifton, minister of public works, is expected to deliver a brief address and another speaker during the morning session will be W. Jett Lauck, former secretary of the United States war board, who will deal with conditions in the United States.

There will be three groups represented at the conference—the employees, employers (including the members of the public service of Canada), and a third group composed of the members of the royal commission on industrial relations, municipal representatives, representatives of various engineering societies, G.W.V.A. and other bodies. It is anticipated that the public interest will be looked after by this third group, and at the same time the session will all be open to the public. As the employers' and employees' groups were arranged on a fifty-fifty basis, it was found impossible to give the same representation in the first two groups to agriculture, and provision for that industry has been made in the third and largest group.

The representation has all been secured on the delegate basis, the selections being left entirely to representative bodies of the various groups. It is also expected that two or three big industrial organizations in the United States will be represented. These include the National Industrial Conference Board of the United States, representing the employers, and the United States Chamber of Commerce.

Premiers on Way. Several of the provincial premiers are either in the city or on their way here, the latter including Premier Norris of Manitoba, Premier Oliver, British Columbia, and Premier Murray of Nova Scotia, and all the provinces will have representatives here during the conference which is expected to last the entire week.

The league was wound up Saturday upon the organization of the District Military League, and all the provinces will be affiliated with the Ontario Football Association. These officers were elected: President, Sergeant Major T. Howers; president, A. T. M. Strouger; secretary, treasurer, George Young.

DISCUSSED MANDATE FOR GERMAN AFRICA

Debate in South African Parliament is Opened by Premier Smuts.

Capetown, South Africa, Sept. 10.—The debate on the assembly on the bill giving South Africa the mandate to administer German Southwest Africa was opened by Premier Smuts, who dwelt on the two great principles of the mandate, first, that there should be no military training of the natives, and second, that equal opportunities should be given members of the league of nations for trading in the mandated areas. Mr. Smuts also pointed out that safeguards would be introduced on behalf of the natives. He announced that the actual terms of the mandate had not yet been actually approved by the supreme council, but it would be necessary for the government to have provisional interim powers, pending the act to be passed by parliament.

LABOR NEWS

CONGRESS CHIEFS TO HELP I. L. P.?

Prominent Labor Men Are Asked to Address Meetings in Province.

Unparalleled enthusiasm all over the rural districts was the succinct way Joseph Marks, provincial secretary of the Independent Labor Party, described the feeling of the farmers of the province for the aims of labor as enunciated in the platforms of the labor party. Mr. Marks traced the recent history of the party thru the various sectors of the province, touching all the principal centres from Kenora to Toronto. It is the intention of the party, he said yesterday afternoon at the session held at the Labor Temple, to call upon such widely known labor men as P. H. Draper, William Riggs, Tom Moore and others to address constituencies while in session at the annual convention at the Trades Congress at Hamilton next week. The speaker pointed out that it would be quite easy for these men to address meetings at Woodstock, London, Brantford, Galt, Elmira, Prescott and all points near the Mountain City, and the influence of the address, he stated, would prove invaluable to the cause. He has requested Mr. Draper and Mr. Moore to consider the proposition, and the chances are that notabilities from the congress will carry out such a program.

Progress is being well maintained, said Mr. Marks, at Kenora, Sudbury, Barrie, Orillia, Timmins, Timiskaming, Cochrane, Sault Ste. Marie, St. Catharines and many other notable points in the province, where large numbers of returned soldiers and railwaymen are living. Altogether the party now has 21 candidates in the field, and there was no doubt that labor would be well represented at the close of the coming election.

WOULD GIVE THE BOYS THEIR WAR GRATUITY

Rev. Paul Charbonneau, pastor of the Canadian United Disciples, and also a well-known labor leader, expressed the opinion in his discourse at Brown's Hall, Bloor street, last night, that paralyzing the country by strikes and thus losing a large trade was getting Canada nowhere. "What we need in Canada," said Mr. Charbonneau, "is a good, sound Canadian labor government, making it thus unnecessary to strike, and to build up the Canadian trade by insisting upon the 'made-in-Canada' goods."

SLIGHT IMPROVEMENT.

Jack O'Connor, well-known member of the Painters' and Decorators' Union, who fell from the Salvation Army college building, at the corner of Queen street and Sherbourne, on Friday morning shows little improvement. He is nearly 70 years of age. The thigh is broken, and one side almost paralyzed.

GARMENT WORKERS STRIKE IS NOW OVER

S. Koldosky Says a Better Settlement Now Exists Between Two Bodies.

Toronto International Union of Cloakmakers and Ladies' Garment Workers, following a strike of many weeks' duration against the manufacturers of the city, finally concluded hostilities a few days ago when they won their fight for a 44-hour week for eight holidays in the year, and for various increases in wages. Sample makers were increased (minimum wages) to \$32 per week, busters to \$30 and those cutters and trimmers earning \$25 a week increased to \$30, those who were previously earning \$25 to \$30 a week were increased three dollars a week, and those earning more than \$30 a week were increased two dollars a week.

GIBBONS ASKS GUELPH TO ADJOURN MEETING

Guelph, Ont., Sept. 14.—A telegram was received in the city this morning from Joseph Gibbons, who will argue the men's side of the case before the conciliation board, appointed to determine the hours and wages of the employees of the street railway, and who is now in Chicago on convention business, asking that the sitting of the board be adjourned until Sept. 22. The initial meeting of the board has already been arranged for Tuesday. It is likely that only preliminary matters will be attended to, after which an adjournment will take place to the date suggested.

CIVIC EMPLOYEES DECIDE TO ACCEPT CITY'S RAISE

Largely attended, the meeting of civic employees held yesterday afternoon at the Labor Temple decided to accept the raise in wages decided upon by the city council upon the recommendation of Thomas Bradburn, finance commissioner. This raise will bring the wages of the men up to \$19 a week instead of \$17, previously given. The payments are to be made from September, and although many of the members of the union would have been glad to have their rates made retroactive to April this year, they were all pleased at the raise generally. Hope was strongly expressed that steps would be taken by the city council to do the right thing by the so-called temporary men, who were only temporary in name, many of them having been in the service 10 and 11 years. These so-called temporary men, said Tom Williams, president of the union, were under the present rules given no privileges, such as vacation with pay. There was need of revision in these matters, he said.

Life After Death

No series of articles printed in Canadian newspapers have aroused more interest than have those which

The Toronto Sunday World

is now running on the above subject.

Great thinkers and writers, men like Sir Arthur Conan Doyle and Sir Oliver Lodge, are giving Sunday World readers their experiences and the results of their experiments in probing the great unknown here after.

Next week's Sunday World will carry another of these important articles. Booth Tarkington is the author, and the fact that he does not altogether agree with those whose utterances have already been printed makes his story all the more interesting.

MONDAY MORNING, SEPT. 13.

The Moral of The Times.

There is a certain political significance about the collapse of The Toronto Times as a party organ which should not be overlooked at a time when the political world like every other world is in process of transformation. The direct conclusion to be drawn is the total futility of the extreme partisan position. The Times and its previous incarnation, The News, could see no spots on the sun. Moreover, it saw no difficulty in erecting a minor planet into a solar center. Under such conditions as a party organ, which ought to be a mentor, a guide, a philosopher and friend, it was valueless for its purpose.

But above and beyond this it is obvious that the directing spirit behind the policy which The Times represented, either failed to see this futility and so ran into hopeless distress, or else having discovered it, decided that the best plan was to abandon the whole business as being hopeless.

The public, especially in a city of half a million, can no longer be hoodwinked, bullied, or dictated to. A newspaper that lacks independence loses the respect of its readers, and when this is the case, it becomes a liability and not an asset. Partisan politicians rarely learn this lesson and they have sunk immense sums in the endeavor to prove the contrary. Straightforward public service is the only way to secure the loyalty of the people, and the rule holds good in any line of activity as well as in politics and newspaperdom.

The Times was slavishly subservient to the powers that appeared to be, and this chiefly resulted in a steady nobody but the High Self-Appointed. The situation in Ontario today has developed largely through following the fatuous advice of political idolaters, while the well-intended suggestions of friendly observers were ignored or treated as enemy propaganda.

Had The Times been faithful to its trust, cabinet ministers of Ontario would not now be running about the province in dread of the future. The future of the Conservative party in Ontario should have been self-determined in a properly called convention. It might not be too late to adopt this proper course even yet, but it is pretty late to save the train when the engine is going over the embankment.

Germany Still Plotting.

We are being favored with all kinds of German memoirs at present. The generals and the admirals of the Kultur barbarism are telling us quite plainly what they meant to do, and what they will do if ever they get the chance again. There is no suggestion among any of them that they are "wringing, a wrang, and a' wrang a' together." Wilhelm Hohenzollern himself, if we have been informed, has been exceedingly busy writing out his experiences, confessions, apologies, or whatever it is, and no doubt we shall have them in due course, and learn what we have missed in not submitting ourselves in all humility to the All-Highest.

Europe is still trembling from the shock of the great war. But the emissaries of Kultur are unsatisfied and are doing their best to make preparation for the next war, to establish such conditions as will make it inevitable, and to strengthen the Kultur craft so that successful may attend their machinations. Calculations have even been made that the next war will begin about 1924. Russia is to be organized by Germany. Dissension is to be sown in all the little nations. Jealousy is to be bred among the great ones. Japan is to be detached from its western friendships and bribed with as much of Siberia and China as Germany finds necessary.

Emissaries of this new crusade are at work all over the world from India to Ireland; in Canada and the United States, in Mexico and the Argentine. No field is neglected. Parliaments, political parties, newspapers, societies, even in Paris itself the enemy is busy.

Those who consider this to be a suspicious and unbrotherly attitude may have forgotten how often the white flag covered the treacherous and deadly volley, and the old wisdom that tells us the leopard does not change its spots. The tiger is still the tiger even when the cage is strong. If the cage should be broken down the danger is great as ever.

When the nations sat down and devised the league that was to maintain peace in the world they had all these facts before them, and as a measure of wisdom, a mere insurance precaution, they have attempted to organize the League of Nations to preserve a just and stable concord among the peoples of the earth. Tremendous efforts are being made to prevent the success of the plan. As a rule those who oppose it are American

are those who opposed participation in the war against Germany, who opposed conscription, who opposed all the measures necessary to defeat Germany.

There is still danger to democracy. Only in a union of the people of the whole earth against tyranny, militarism and autocracy can popular government survive. This is what makes German and anarchistic and Bolshevistic friends worth watching.

Labor Progress in Britain.

In the return of Arthur Henderson in the by-election at Widnes, a haystack has been swept off in a cyclone. His election cannot be regarded as a straw. Defeated at the general election, he is now returned by a vote which changes a great majority into almost as substantial a minority. The event vindicates him as a labor leader, and is a decided blow to the government.

To many minds the event heralds a revolution in Great Britain. How peacefully it may be accomplished depends on the tenacity with which the privileged classes hold on to their privileges. But the knell of privilege has been sounded, and the ending of titles in Canada has not been lost on many of the leaders in Britain. Admiral Boreford, who died a week ago, long ago said that Canada was destined to become the centre of the Empire. It is something to think about.

Labor represents the rising tide in Britain and labor is committed to public ownership. The only fear that besets some people is that labor will not realize that public ownership in itself will not create wealth. Wealth must still be produced and reproduced annually in the ancient way. If we all stop working for a year we shall starve to death. To the degree that we fall below a reasonable capacity in our work we must suffer individually and socially. Perhaps it requires more intelligence to operate a democracy than an autocracy. Perhaps it requires more intelligence to carry on public ownership than private ownership. But as self-interest educates the voter how to use his franchise, when the extension was granted to wider ranges of electors, a similar process will teach the people that public ownership means brains, intelligence, diligence, co-operation and all the virtues applied to public service equally with private.

There are doubters who fancy that the public service cannot attract the loyalty that private service does. But it is as easy to train men to patriotism in the coal mine or on the railway track, as in the drill hall. The trouble is that we have not regarded it as a matter of patriotism that there has grown up an idea that only people that owned property could be patriotic. Even so, let all the people own all the public utilities. In Ontario we are learning to appreciate a very high kind of patriotism with the Hydro-Electric power and light system, and the Dominion will learn the lesson thru the National Railways. There may be a more patriotic Britain thru proper public ownership and management of the coal mines and railways than ever there was before.

TEST THE GERMAN GOLD

Editor World: It is rumored that four and a half million pounds in gold has reached London from Germany and a portion of it is said to be already on its way to Canada in payment for foodstuffs.

For certain reasons I would suggest that the British or Canadian government should test German gold before it is accepted in payment for foodstuffs or anything else. The Germans have the great art of substituting the artificial for the real and getting away with it, and it would be a rich joke if Germans paid their debts due by assistance of nickel from the Reichsbank brought over on the Deutschland in 1915. Remember that a small per cent. of nickel added to artificial gold prevents it from rusting and makes it very hard for the mass of the people to distinguish it from the real gold, especially if it is coined in the government mint. "A word to the wise is sufficient."

The reprieve is for Oct. 17. The case became famous thruout the country because of the brutal nature of the crime and the fact that Carmel and St. Germain were drab evaders.

CANADA'S POLITICAL STATUS HAS IT CHANGED SINCE THE WAR?

People Must Have Voice in All Overseas Arrangements—High Cost of Living and Civil Re-establishment of Soldiers the Main Issues According to Speech of W. F. Maclean, M.P., in Commons Last Week.

Ottawa, Sept. 9.—In the debate on the ratification of the treaty of peace with the league of nations today, several speeches were made by Sir Robert Borden, E. Lapointe, M.P., Hon. Mr. Rowell, W. F. Maclean and others. Mr. Maclean spoke as follows, as reported in the Official Debates: I am going to speak only for a short time and I shall devote myself to certain questions that I think arise out of this debate. But on the first place, I wish to say that I am here to vote for the resolution before the house, because I think the treaty is a good treaty and we ought to ratify it in the interests of the world at large. In fact, this treaty is the greatest document that humanity has had up to the present. Uncle Wiggily and the Toddle Bug

BY HOWARD R. GARIS. Copyright, 1919, by McClure Newspaper Syndicate.

One day, when Uncle Wiggily was hopping along thru the woods not far from his hollow stump bungalow, thinking whether it was time to twinkle his pink nose, he heard some voices in the bushes.

"Go on now, jump! Jump right over his head!" cried on voice. "Yes, and if you can't jump over his head, jump on it!" spoke a second voice.

"Oh, my goodness me, sakes alive and some lollypop caramels!" thought Uncle Wiggily, looking around for a place to hide.

"Hello, Uncle Wiggily!" croaked Bully and Bawly. "Hello," answered the rabbit gentleman. "I thought you were some one else. What's going on, and who is your little frog friend?"

"That's our baby brother, named Croko," answered Bully. "Croko! What a nice, funny name!" laughed Uncle Wiggily. "Mother was going to call him Croquet, after the game we once played with you," said Bawly.

"I don't want to," he said. "Don't be afraid," softly said Uncle Wiggily. "Just now I heard your brothers saying something about jumping over someone's head."

GREAT ATTENDANCE AT LONDON SOCCER

Sixty Thousand See Goalless Draw Between Newcastle and Chelsea.

London, Sept. 14.—Several exciting tussles took place among the many attractive soccer games decided today. Londoners turned out in large numbers to witness the famous Newcastle United team, Chelsea having been opponents at Stamford Bridge before 60,000 people. A goalless draw resulted after a rousing game. The Arsenal traveled to Sunderland and gave a fine account of themselves by sharing the points, 1 to 1. Burnley picked up full points by defeating the famous Blackburn Rovers, 2 to 2, away from their home. Everton found West Bromwich Albion hard out to crack and lost by 4 to 3. Bolton Wanderers scored the big surprise of the day by going to Lancaster and trouncing the city team to the extent of 4 to 1. In the second division, the biggest surprise being the defeat of Fulham, all picked up points. Tottenham Hotspur beat South Shields by 2 to 1. Clapton Orient drew with Wolverhampton Wanderers, while West Ham United went to Rotherham and just got the better of their opponents by the one goal scored. London clubs fared badly in the Southern League competition, all losing. The biggest surprise being the defeat of Portsmouth, by 2 to 0, before their own supporters.

The interest of the spectators was at fever-heat when they returned to finish the match. Richards had the better of the play, but there were those who did not think that his light physique was sufficient to carry him thru another hard set or more.

Neither seemed the worse for the strenuous work they had done, and the speed of the play was terrific. After four games the score stood 3-1. Each man then had his own service for ten consecutive games, until, with the score at 7-1, Richards won Kumagai's service. The match was a real test of the popularity of both men, and the appreciation of their wonderful exhibition of speed, skill, sportsmanship and endurance. With his victory, Richards won the title of champion.

WINNERS OF SINGLES BEATEN BY LOSERS IN MIXED DOUBLES

Richards Wins From Kumagai, Miss Best Defeats Mrs. Bickle in the Singles, Then They Pair Up and Result is Reversed.

Saturday was final day in the Ontario championships, and an unprecedentedly large gathering saw a thrilling afternoon's sport. No more exciting closely-contested finals have ever been seen here. Incidentally, the day furnished several "getting" victories in both ladies' and men's singles events being decisively won. Miss Best, by sheer steadiness and "getting" ability, won her first contest, from Mrs. Bickle, while Vincent Richards, using his head and speed from the start to finish, beat Kumagai in three sets out of four. The losers, Kumagai and Mrs. Bickle, combined to beat Miss Best and Richards for the mixed doubles title, and each of the four went home with a championship.

The ladies' singles started off on very even terms, with the games two-all and three-sets, but when Miss Best had carried the score to 5-3, the spectators began to realize that Mrs. Bickle was unable to do the play as usual. Her strokes seemed to lack depth, which gave Miss Best the opportunity to bring in her low cross-court and long-passing shots, and which she excelled. These tactics took Mrs. Bickle out of position and produced the openings which her opponent never failed to profit. After a prolonged and exciting struggle, Miss Best took the match, at 10-8, 8-6, and with it the title of lady champion of Ontario.

Those who were questioning whether or not Richards could take a set from Mr. Kumagai were soon answered in the big event of the day. The first set went to Kumagai at seven games to five, but only after Richards had carried the score to one to five-all, and looked to have the edge, but he then lost his opponent's service, and Kumagai won the next game at love, and with it the set.

The youngster then began the tactics which finally brought him the next three sets in a row. He chopped his strokes from side to side, content to get them back deep, with something on every ball, until he had drawn Kumagai out of court, and then came up to the net for the kill. His overhead work was invincible, but above all, his patience in waiting for the opening for a dash to the net, elicited the admiration of the spectators.

Richards forced the play in the second set, losing only the third, fifth and sixth games, and with some of them won to deuce many times. The third set also went to Richards, by a score of 6-3, which gave him two sets to Kumagai's one, when the usual intermission of seven minutes was observed.

The interest of the spectators was at fever-heat when they returned to finish the match. Richards had the better of the play, but there were those who did not think that his light physique was sufficient to carry him thru another hard set or more. Neither seemed the worse for the strenuous work they had done, and the speed of the play was terrific. After four games the score stood 3-1. BICYCLE AND FOOT RACES AT WESTON

As Announced by the Victoria Bicycle Club—Alex. Ponton a Winner.

The two days cycling and athletic meetings at the Weston fair which came to a close on Saturday saw a revival of the good old days for which Weston is at one time famous, and it was evident from the large crowd present that sport in Canada is getting quite as much of a hold as it is in England at the present time. It was impossible for the officials to keep the large crowd off the track, and the fair executive will have to erect a grandstand if a meeting of Saturday's huge crowd gathers in the future. NEW SEMI-READY STORES SPRINGING UP ALL AROUND

Four New Semi-Ready Shops Open in October in Towns in Western Ontario—Young Men as Proponents.

It was Leo Watson, of Galt, who demonstrated that a successful Semi-ready Store could be conducted in the larger towns and smaller cities.

Some merchants insist that they must sell clothing that offers them an opportunity to make a profit.

Woodstock will have its first Semi-ready Store in October, and it is to be opened by two young men who were born and have lived all their lives in Woodstock.

Another Semi-ready Store is to be opened in Welland, whilst one of the leading firms of Tilsonburg is also arranged for a Semi-ready department.

It is the big turnover that makes the small profit possible, was his argument for the Semi-ready Store in Montreal.

BRITISH MAY LEAVE NORTHERN RUSSIA THRU BALTIC SEA

Sufficient Troops on Archangel Front to Walk Thru Petrograd.

London, Sept. 14.—The newspaper comment on the statement issued, Thursday by Winston Spencer Churchill, secretary for war, denying that there had been any change in the British government's policy to have the British troops evacuate north Russia, has produced a suggestion that it may be the government's intention to evacuate not thru the Arctic region, but thru the Baltic after an attack on Petrograd.

It is pointed out by some of the newspapers that the British government's policy to have the British troops evacuate north Russia, has produced a suggestion that it may be the government's intention to evacuate not thru the Arctic region, but thru the Baltic after an attack on Petrograd.

Colonel Churchill, in his statement, denied that British troops were employed, or that the British government had accepted any responsibility in operations against Petrograd.

KOLCHAK CAPTURES MANY BOLSHIEVICS Successful Counter-Offensive Proceeds from Omsk in Siberia.

Omsk, Sept. 14.—The following communication was issued by Kolchak's general headquarters: "Stubborn fighting is going on in the direction of Lalouevsk in the sector of the Chime Causeway. Our troops are now engaged in offensive operations in the direction of Kourgan. FURTHER REQUISITIONS BY RUMANIAN TROOPS

Paris, Sept. 14.—Advices of further requisitioning in Hungary by the Rumanian troops of occupation were received today by the supreme council of the peace conference. On Sept. 10, the reports stated, the Rumanians requisitioned 71,420 pairs of shoes from the orphan asylum in Budapest. Of these, the great bulk were shipped to Rumania, only 6,000 pairs being left in the orphanage. The Orphanage Society expressed the fear that these also would be taken under the guise of military requisitions, leaving the orphans homeless for the winter. Many other cases of alleged looting were reported to the supreme council.

Bolshevism Ended by Women—Mrs. Pankhurst

DECISIVE VICTORY OVER BOLSHIEVICS

Nine Thousand Prisoners Taken by General Denekine

London, Sept. 14.—The war office announces a decisive victory over the Bolshevik forces at Tsaritsyn by Gen. Denekine, in which 9,000 prisoners, 11 guns and 100 machine guns were taken. Three Bolshevik regiments surrendered and two others were destroyed.

The announcement says: "The right wing of Wrangel's volunteer army was engaged for the past week in a stubborn and successful defence of Tsaritsyn against repeated Bolshevik attacks from the northeast and south. The main attack was supported by an armed flotilla on the Volga and continued for three days. The enemy was finally repulsed, leaving 3,000 prisoners, 11 guns and 100 machine guns. Three Bolshevik regiments surrendered and two others were destroyed."

ORDER REDUCTION IN FLOUR PRICES

Wheat Board Orders Quick Action by the Toronto Retailers.

According to a statement issued today by the Canadian Wheat Board to the Canadian Press, retailers in Toronto should be able to sell flour under \$11 per barrel. The board warns retailers that unless prices are not reduced to this level immediately measures will be adopted to bring them down.

The statement follows: "At the time the board was created the wholesale price of winter wheat flour was \$10.50 per barrel, and while today's price is quoted in the newspapers, it is \$9.40. Notwithstanding a decline in the wholesale price of flour, we still find there is no apparent reduction to the consumer, as the average retail price quoted today are \$12 to \$12.20 per barrel in half-barrel sacks, and as high as \$14 in seven pound packages, or a spread between the wholesale and retail prices of from \$2.60 to \$4.60, which, in the latter case, includes the additional cost of providing smaller packages."

The maximum wholesale price now allowed by the board for winter wheat flour is \$9.95 in Toronto or \$10.10 in Montreal. It is the option of the consumer to be able to pay for flour in Toronto at \$9.95 and in Montreal at \$10.10, which would allow a reasonable profit to the retailer, and if the prices do not differ over this once to this level it is the intention of the board to take measures to bring them down, if necessary establishing flour-selling depots.

Paris, Sept. 14.—Joseph Caillaux, former premier, who has been in prison for more than a year, charged with having had treasonable dealings with the enemy, was transferred to a private hospital at Neuilly, a suburb of Paris yesterday morning. This follows a request by his counsel early in the week that he be removed from the prison on the ground that his health was so bad as to cause anxiety.

AUSTRIAN REPUBLIC TO ADOPT FEDERAL FREE CONSTITUTION

Dr. Karl Renner Declares Belief in League of Nations.

Paris, Sept. 14.—Dr. Karl Renner, who on Wednesday signed the peace treaty for Austria, before leaving Zurich for Vienna today, outlined the future policy of the Austrian republic and voiced the belief of Austria in the league of nations. He said: "Having taken the heroic decision to accept the peace treaty, we must now make various modifications in our policy. Henceforth our state shall be known as the Austrian republic. We shall do the utmost to subside by our own strength, but in order to do so, we count upon the assistance of the league of nations, which, if our isolation makes it impossible for us to live, will authorize us to unite with another state. We desire to agree with our neighbors without interfering in their internal affairs. We firmly believe in the league of nations, which constitutes an essential part of the treaty."

"The Austrian republic will immediately proceed with interior reorganization and ratification of the treaty. It will promptly adopt a federal democratic constitution to reconstitute our economic life, which was neglected by the imperial government for the past fifteen years. We will harness our waterpower and electrify our railroads."
