PEOPLE SHRINK FROM WAR
ARE EXHAUSTED BY STRIFE

No Evidence of Expected Uprising
and Political Strike Still
Hangs Fire.

New York, July 25.—The Associated Press has received the following dispatch:
St. Petersburg, July 25.—Answering your telegram addressed to the prime minister, I am directed to say that the central press administration informs us that St. Petersburg reads the products received the news of the dissolution of the Douma calmly.
The emperor's final intention realizing the reforms proclaimed in his manifesto was indispensable as the first body of delegates pursued tendencies which threatened to prevent the peaceful development of the reforms in the empire. (Signed) Bellegarde.

STRIKE OFF.
St. Petersburg, July 25.—All indications point to the postponement of the threatened general strike until the government shall be less and the country more prepared for such an event, until the harvest is finished and the revolutionary movement develops spontaneously among the idle peasantry. News from the provinces to-day indicate that conditions in the famine districts scarcely are ripe for an upheaval. The strategists of the revolutionary councils are seeking to defer the call for a general strike until it can come as a supplement to the movement already under way. A definite decision will be reached within a day or two in the reorganized council of workmen.

"DOWN WITH THE JEWS."
Moscow, Russia, July 25.—Tens of thousands of copies of The Vechi, a "black hundred" paper, containing most provocative articles against the Jews and revolutionaries, are being distributed free in the streets. An editorial article glorifies the dispersal of the revolutionary "assembly" of Jews and Jewish sympathizers. The paper also found an echo in the heart of the emperor. Arise, orthodox Russians; take care that the next parliament is Continued on Page 5.

Canada and South Africa

Meeting Will Be Held To-Day—More Vigorous Nationality for Admixture by Fine Qualities of Two Races.
London, July 25.—Editorially discussing the proposed constitution of South Africa, The Post draws an analogy between Canada 70 years ago and Africa to-day, and says:
"Lower Canada contained an overwhelming majority of French, just as the Orange River Colony to-day is overwhelmingly Dutch. Upper Canada, British almost to a man, presents but a partial analogy to the Transvaal, where the margin in favor of the British is narrow at most. As the Transvaal is to-day, so was Canada 70 years ago, with the British divided into two camps."
"In Canada the bureaucrats, who claimed a monopoly of Canadian loyalty, favored the retention of merely representative government as a device for the maintenance of the British connection. These may be compared to the same position as that occupied by the progressive party in the Transvaal. On the other hand, the Reformers of Upper Canada may be assigned much the same position as that occupied by the responsible government party, in their determination to win the way to constitutional freedom. They were originally by no means averse to co-operation with the French of Lower Canada, just as the responsible party in the Transvaal today are prepared to face a coalition with the Dutch in order to gain the objects from which their party takes its name."
"The success of the late Lord Elgin's policy of equality between the races, The Post says that Canada has developed a nationality which is more vigorous for the admixture of the fine qualities of the French. May we not hope that Africa will develop a nationality of her own, no less rich and vigorous."

Coroner's Jury Indicts Bridant and Mrs. Miller

Evidence to Show That Woman Instructed Deceased—Questionable Advertising Denounced

We find that the deceased, Mrs. Agnes Bridant, came to her death on July 20 at room 201, Hotel Chambers, by an instrument used by her for the purpose of procuring an abortion which caused septic peritonitis, under instructions from Mrs. Miller, acting for Dr. De Vos Medicine Company, and aided by her husband, Mr. Bridant.
We deprecate the publicity of certain advertisements in the daily and other papers, which leads to these results.
The verdict reached was arrived at in a little over half an hour, after a hearing of evidence, which occupied three hours. The jury empanelled by Coroner Cotton was made up of the following:
Wm. Hyslop (foreman), 209 Yonge-street; Charles Devin, 233 Manning-avenue; Thomas Rowland, 180 East Bloor-street; Samuel Williams, 160 West Richmond-street; Harry Rutley, 125 Beaton-street; Richard Rose, 66 Shuter-street; R. J. Beatty, 206 S. McCosker-street; Thomas Knight, 287 Yonge-street; H. M. Foulton, 43 Agnes-street; George Buckham, 270 Wellesley-street; W. J. Sparrow, 298 Yonge-street; James Dickerson, 43 Agnes-street; Walter Taylor, 309 Yonge-street.
T. C. Robinette, K.C., appeared for Mrs. Miller and E. S. Neville for Bridant. Neither of the accused was called upon to give testimony.
Mrs. Joseph De Grey, who lives at the Bristol apartments, testified that, on the morning of Wednesday, July 18, between 1 and 2 o'clock, she heard a knocking in Mrs. Bridant's room, which was three doors away from her own apartment. Witness went to see what Mrs. Bridant was doing and was told by Mrs. Bridant that she had been trying to find a doctor, but being a stranger in the city, he had not been able to find one. Mrs. Bridant said that she had a terrible pain all over, and that her head was aching.
Dr. Rose happened to be attending Mrs. Bridant's little girl at the time, and witness called the doctor to aid Mrs. Bridant. Later, she saw Dr. Rose, who told her that Mrs. Bridant was sending labor pains.
On Thursday afternoon witness again saw Mrs. Bridant, who seemed better but could not get up. Witness asked her to phone Dr. Rose, as Mrs. Bridant had taken a relapse. As Dr. Rose could not be found, witness called on the doctor arriving about 10 p. m. The mother and sister of deceased had arrived from Kingston on Friday, the 21st, and about 11 o'clock, witness saw Mrs. Bridant appear to be sinking. Witness found deceased on her back, supported to the bed by the mother. Questioned by Mr. Drayton, Mrs. De Grey said that she had heard the woman say that she wanted her mother to have "little Maria."
The priest came, and witness again telephoned for Dr. Winnet shortly after.

STOLYPIN GIVES STATEMENT WHY DOUMA WAS DISSOLVED

From Very First Lower House Overstepped All Limits of the Law.

St. Petersburg, July 25.—Premier Stolypin to-night authorized the official St. Petersburg agency to issue this statement to the foreign press:
"From the very first days of its existence the lower house overstepped all the limits of the law. In its reply to the speech from the throne, a modification of the fundamental law was demanded in the shape of suppression of the council of the empire, and the creation of a responsible cabinet. By its agrarian program, based on the expropriation of the land, the house raised hopes that could not be realized and weakened the respect for the property of others, already enfeebled. In the speeches of its members the house consistently discredited the government, accusing it of organizing programs and disorders. By sending a deputation to Bialystok it openly aspired to usurp executive power."
"Fourteen deputies appealed to the people, inciting disorder, a step which called forth no expression of disapproval from the house. In the last moment of its existence the house acted in explaining to the population the nature of the agrarian project proposed by itself, and decided to address a manifesto to the people persuading them not to believe in the government regarding the question of the land, and to await its settlement by parliament. Several members also undertook journeys to the interior of Russia with the object of supporting agitation, and appearing before the people with renewed appearance, programs, and strikes. All these causes necessitated the decision to dissolve the house."

Another Gold "Strike."
Stamped is Now on and Great Things Expected.

Victoria, B. C., July 25.—(Special.)—Word is received in several messages from Dawson to-day of a great strike of free milling gold quartz half way between White Horse and Cariboo Crossing at a point distant only twenty miles to the west from the White Pass and Yukon Railway.

The ore is of the character of that found in the phenomenally rich Conrad Camp at Windy Arm, and Col. Conrad, the father of that camp, believes the new find will surpass in richness this district in which over fifty millions are now in sight.

Conrad is outfitting all those who wish to take the stampede and apply to him for a stake to do so. White Horse, Conrad and Cariboo Crossing, are threatened with virtual depopulation by the exodus of the stampede.

IT WASN'T QUITE HONEST MANAGER BROOK ADMITS

Re-Insurance of Dominion Safety Fund Life With the Great West.

Winnipeg, July 25.—(Special.)—The answers given by J. H. Brock, manager of the Great West Life to questions put by W. N. Tilley as to the agreement by which the business of the Dominion Safety Fund Life Association was taken over by the Great West and the manner in which its policyholders were being taken care of, occupied the insurance commission to-day. Mr. Brock admitted that a clause in the circular sent out by the Dominion Association at the time of the transfer stating that the rights of policyholders would be maintained violated the contract. It was taken in its broadest sense, but he disclaimed any responsibility on the Great West for the issuance of the circular.

The contract with Mr. Atkinson, when he became agent for the Great West for the territory of Vancouver Island, was produced. Mr. Brock said that Matton had been given an extra ten per cent. commission on business over usual provision in the company's contract.

Mr. Tilley read a circular issued in 1904 by the Great West Life in which Dominion Safety Fund policyholders were promised reinsurance from the Great West Life on just as favorable conditions as had existed between the Dominion Safety Fund Association and its policyholders. In this circular was a clause stating that the rights of Dominion Safety Fund policyholders would be maintained inviolate.

Mr. Brock admitted that a general sense that clause was a misstatement. "Would you sign it as Mr. Brock?" Mr. Tilley again inquired. The question was not answered.

Mr. Tilley went on to refer to the Safety Fund established for the benefit of Dominion Safety Fund Association shareholders.

"That fund disappeared, didn't it?" asked Mr. Tilley. "I don't know," Mr. Tilley brought up the matter of disputes between the head office and the Fort Arthur and Toronto agents.

The company had sent a circular to policyholders offering special terms if applications were sent direct to the head office. The Toronto and Fort Arthur agents had sent a circular to policyholders to the effect that "Was not the sending out of this circular an attempt to save the commission of agents?"

"No, it was not; it was beneficial to all the policyholders, to the company and to the agents."

Mr. Brock admitted that non-participating policies of \$5000 and over the company had special rates. The agents were allowed to quote a less rate for \$5000 than applied to rate book. "Isn't that a rebate?"

"Well, yes, I suppose it is a concession for \$5000 policies," replied Mr. Brock.

Guelph, July 25.—(Special.)—The scheme under consideration for some time of extending the Guelph Radial Railway line to Puslinch Lake and Hespeler now promises to be a reality, as the surveys are completed to-day. Puslinch Lake is nine miles from Guelph and the city owns a hotel and 50 acres of land on the lake shore. But the radial extension means much more. It will bring connection with Hespeler, thus completing a network of radial lines, connecting Guelph, Hespeler, Preston, Berlin, Waterloo, Paris, Brantford and other points.

Tax Greater Than Business Say Merchants of New Act

Incongruities of System, as Demonstrated These Days at the City Hall—How the Income Tax Works Out.

"Well, send your man out and take the stock. If it sells for enough to pay the tax all right, I will have to go out of business."

The door went to with a bang and another retail merchant left the outer office of the assessment commissioner.

The matty young man behind the counter made no comment. He patiently turned to the mild-mannered middle-aged man who had once or twice cautioned deferentially to attract his attention.

"This visitor, too, was suffering from the 'doom' of the subject of assessment."

The clerk inspected the notice that he had brought with him, glanced at a book, compared the figures, "The amount is correct; you're assessed for \$2000."

"But my whole stock is only worth \$2000."

"The amount of your stock has nothin' to do with it; you're assessed on the value of the land."

"But I haven't got any land."

"No, but your landlord has. That is a valuable corner, and the income derived from it is assessed on the value of the land."

"Yes, but you must pay 25 per cent. of the assessment, too."

"Certainly not. You must pay a tax on your business."

"I am willing to pay an every dollar my goods is worth."

"No, that is not the point. The law requires you to pay on what the land worth. The city does not care whether your goods is worth \$10 or \$100,000."

The mild man did not lose his temper. He promised to sell his stock, pay off the tax, and get out of business. And he also departed.

These interviews, heard by chance, touch on a condition that is exciting complaint throughout the city as the new assessment law is passing into practical effect. Two main features of the enactment are:

(1) Every person occupying land for the purpose of any business is assessed for a sum called a "business assessment," to be computed by reference to the assessed value of the land so occupied or used by him; and every person carrying on the business of a retail merchant in cities having a population of over \$5000 is to be assessed for an equal to 25 per cent of the said assessed value of the land so used or occupied by him.

(2) Every person is liable for a tax upon "annual income derived from personal earnings," subject to an exemption of \$400 (increased to \$700 at the last session of the legislature). Other sources of income are taxed, but not from rents or shares of stock in incorporated companies.

It favors the Rich.
In their practical workings, both of these features are unjust. Both are apt to be evaded. The business assessment is a tax on the value of the property, shifting the heavier burden upon those less able to bear it. The business assessment is a tax on the value of the property, shifting the heavier burden upon those less able to bear it.

Supposing a retail dealer in Toronto carries a stock of \$100,000. Is this concern assessed \$100,000? No, but without any fault or wrongdoing on its part, it is assessed not on the stock carried, but upon the value of the land used. It is there assessed at, say, \$100,000 to \$125,000?

Now, this concern had in its employ a journeyman tailor. He decides to open a little repair shop, and induces the owner to permit him to build a small shop upon the premises. He pays a nominal rent and is liable to be ordered off at any moment. He secured no lease; he became a mere tenant on sufferance or at will. In this shop placed a few rolls of cloth, but, as a rule, he sold a suit by sample. He also cleaned and pressed and scoured and repaired and managed to make ends meet. His whole outfit is worth, say, \$200.

Is he assessed for \$200? No. This corner lot, which he squatted on, is assessed at \$6000, and therefore the tailor is assessed as a "business assessment" 25 per cent. of the assessed value of the land, that is to say, \$1500.

In neither case does the merchant pay on his stock. The million-dollar store pays perhaps a seventh or eighth of what his stock amounts to; the scrub tailor pays on \$1500, or seven times more than what his outfit is worth. It is claimed that the system in this way works out all right so far as the city treasury is concerned.

In commenting upon the law the assessment commissioner notes that it was anticipated that it would lighten the tax of the wholesalers. And he adds:

"The larger retail establishments have not responded. It may be reasonably assumed, in these cases, that the business assessment is acceptable."

Thus it is to the small retailers he is Continued on Page 2.

JAMES BAY DEBENTURES GUARANTEED BY GOVERNMENT

Purchasers of Securities Must Pay to Approved Bank to Government Account.

The following statement was issued yesterday from the parliament buildings: "The execution by the government has been completed of the guarantee of principal and interest of debenture stock of the Canadian Northern Ontario Railway Company (formerly the James Bay Railway Company), at a rate not exceeding \$20,000 per mile of the company's line between Toronto and Sudbury, a distance of 268 miles, the total amount of the guarantee being \$5,360,000. This debenture stock was issued on July 10, 1895, and bears interest at the rate of 3 1/2 per cent. per annum. The company's line is almost completed between Toronto and Sudbury, and 70 per cent of the grading on the balance has been completed, in addition to bridge work, etc., etc. The guarantee was given under the authority of chapter 20, Ontario Statutes, 1904.

TO BE OR NOT TO BE?

That is the question as to Thaw and insanity plea.

New York, July 25.—The World says today: "Ex-Judge Oloott is contemplating an action, at Mrs. William Thaw's expense, that is almost unprecedented in the courts of this state, and one which, if it proves successful, will result in Harry Thaw's being sent to an insane asylum, irrespective of his own wishes, those of his counsel, and without the consent of District Attorney Jerome. Mr. Oloott, it is said, is preparing papers in a civil action, to have Harry Thaw declared insane. "As the representative of the prisoner's mother, Mr. Oloott proposes to go before the supreme court within the next few days, and apply for a commission to pass upon Harry Thaw's mental condition, and to have his case brought before the grand jury. Thaw, it is said, is a sane man, and has no intention of pleading insanity. He has been declared sane by a civil commission, which examined him into the prisoner's mental condition. "The Evening World today published an interview with Miss Anna Crane, a masseuse, who is about 50 years old, and who said she was sent to Paris by Stanford White in 1904 in response to appeals from Evelyn Nesbit's mother, to straighten out matters respecting Thaw, Nesbit and her mother, who were then in Paris. Miss Nesbit, she said, showed bruises on her back and arms, and said Thaw had in fact taken her to the Waldorf, where she saw Thaw choke and beat Miss Nesbit, and that he also struck her. Thaw was then sent to New York, and on the way back, Miss Nesbit said she would sue him for \$50,000 for breach of promise and assault. "Miss Nesbit's mother, it is said, is living here, and Mrs. Nesbit went to the office of White, and a few days later Miss Nesbit made a statement of facts to a conductor at H. Hummel, the lawyer.

WORK FOR GRAIN COMMISSION

All Matters Concerning Inspection Comia Within Scope.

Ottawa, Ont., July 25.—The grain trade commission has received this information: "The allowance of the chairman is \$15 per diem and each of the two commissioners. They are to be allowed no contingencies traveling and traveling expenses as the minister of trade and commerce may deem necessary. "The commission has been instructed to take into consideration all matters connected with the grain inspection, and the Manitoba grain act, and the given money to be expended on towers and elevators all over the wheat growing area to inquire into the methods of handling, distribution of cars, grading and handling at ports.

Never in all the history of transportation has there been a safer, than is today. Seated in perfect comfort in one of the half-mile minute trains of the Lake Shore Railway you are in less danger by far than was your grandfather in the half or three-quarters of a century ago. Trains over this line are protected and guarded in every respect, and in the world you are as safe here as in your own home. Combined with safety and high speed are luxurious comforts and conveniences to make a service unequalled in the world. See that your ticket reads "via Buffalo and Lake Shore" and insist that the conductor inform you to J. W. Daly, Chief Ass't G.P.A., Buffalo, N.Y.; A. J. Smith, G. P. A., Cleveland, Ohio; and H. J. Pasenger, Ticket Mgr., Chicago, Ill.

BEWARE OF PICKPOCKETS

BAD GANG PLYING TRADE

Over a Dozen of Them Have Been in Hands of Toronto Police.

Since last spring Canada has been overrun by a gang of expert pickpockets. They have been working from Montreal as far west as Calgary. They are known as "rail-dippers," and do most of their stealing when passenger trains and street cars. The headquarters of the gang is New York, and they are all working under the one management. If any of them are "pinned," money is quickly forthcoming, either to furnish cash bail or employ the best of legal talent for their defence.

BOY DROWNS IN CISTERN.

Removed Cover and It Tipped Him Into the Water.

Frank Brooks, aged 10, of Mimico, with a companion, aged 7, yesterday started out to gather firewood. Near the Toronto brass rolling mills they came across a covered cistern. The 10-year-old boy moved the cover and then stepped on it to peer into the vault. It tipped and he dropped into 10 feet of water. The 7-year-old boy hurried home and told his mother, but rescuers were too late. Two men recovered the body with a pole, into which it had been wedged. The boy's father is an employe of the Menzies wall paper factory.

LIGHTNING DESTROYS CHURCH

Bells Melted into Solid Mass—Cloud-burst Does Damage.

Chambéry, France, July 25.—A cloudburst, accompanied by lightning, today destroyed the Church of Les Chevenannes, about 35 miles from here, melting the church bells into a solid mass, injuring a number of persons and causing an enormous amount of damage along the railway line.

AT WHICH END IS THE TURN?

Milton, July 25.—A man, apparently about 25 years of age, giving the name of Robert Montgomery of Montreal, entered the city last night, and, after a short stay in the city, he was arrested by the police. He was found in possession of a large quantity of stolen goods, and was charged with receiving stolen property.

Baptist Ministerial Changes.

The stewardship of Woodstock College has fallen to the lot of Rev. J. W. Kirkpatrick of Perry Sound, after his resignation. The Rev. Mr. Kirkpatrick had held the position for several years on account of ill-health. His last pastorate was at Sparta, N. Y. A. W. Stone has resigned his position as pastor of the Baptist Church, Rev. P. C. Parker, M.A., has resigned the pastorate of Logan-avenue Baptist Church, and Rev. T. M. Fothergill, Ph.D., of Whittier, has resigned his charge there. He expects soon to reside in Toronto.

An Authority on Tuberculosis.

Among the speakers who will address the meetings in connection with the tuberculosis exhibition to be held in Toronto for two weeks, commencing Aug. 20, under the direction of the National Sanitarium Association of Canada, will be Dr. S. A. Knapp, entitled, "Tuberculosis as a Disease of the Masses, and How to Combat It." The speaker is clean shaven, auburn haired, and his nose is slightly turned to one side at the end.

The Wicked Flee—

Leopard Rankin didn't know Detective Wallace and Tipton by sight. He would still be a free man. But, seeing them, he ran, and they naturally pursued. At headquarters they found he is wanted for obtaining \$10 from Walter Carson by false pretences. He says he is not guilty.

Judgment Stands.

McWhinney & Company have received confirmation that the judgment obtained by Oster Wade, liquidator, in the supreme court for \$18,000 and costs stands against Roche. Forsyth and the privy council for leave to appeal therefrom.

Wants His Good Name.

Charles S. Warren of Woodstock has entered action to restrain the D. W. Kirby Co. from appropriating to their own homes and into society together with their daughters. Less, because the duties of the chaperon are becoming less with every season.

Some Things Worn.

Lace veils are more beautiful of than on. They're wearing white stockings with low black shoes. The blue bows that tie up elbow sleeves look very cute, and they're narrow stripes are much newer than the little checks. None the less, these last will be worn for some time. The black and white striped linen gowns are especially good. Don't wear high bows of colored ribbon under the waist. In fact, all colored lingerie ribbon is used sparingly just now. WOMAN'S WORLD.

Decline of Chaperon. There is no doubt that the chaperon, as an institution, is playing the part of a vanishing lady. More particularly is this the case in the upper middle class of society. The daughters of well-to-do professional men and others of a similar social stratum, such as country squires, large landowners, bankers and so on, were once on a time as carefully guarded as the young Lady Clara. EXTREMES OF HUMANITY.

Earth's Tallest and Smallest People Exhibited in Barnum & Bailey Circus.

According to all preliminary accounts, those who attend the Barnum & Bailey Greatest Show on Earth, when it exhibits here on Aug. 10, will not only see about all there is worth seeing in the line of up-to-date circus acts, but visitors will also be given an opportunity to inspect a large number of interesting incidents, features and exhibits seen with a traveling exhibition of this character.

With the Barnum & Bailey Show the manager, while touring, is utilized to exhibit many curious and interesting special features. One writer graphically says: "If you go to see a remarkable contrast between the tallest man and woman, and the smallest man and woman ever created, it can be found in the zoological department of the Barnum & Bailey circus. George August, the giant who is the personification of exaggerated humanity, stands 7 feet 11 inches tall, and weighs 300 pounds. He is a native of the Finnish giants, and each nearly eight feet tall, and beside them in straight contrast, the tiny Lilliputians, some of whom are but 24 inches high. One thus can see right before his eyes, the extremes of human nature, and of microscopic man and womanhood, for the troupe of Lilliputians comprise both males and females, and are remarkably still, they are all related. Tom-Thumb, were that dwarf alive to-day, would be head and shoulders above these little people, who are all perfectly and symmetrically formed, full of energy, bright, well educated, linguists and highly artistic as well, for in the circus, and vocal accomplishments are of an exceptionally high order of merit. They are clever comedians, too, and can entertain visitors with a varied exhibition that is both amusing and delightful. Two of them, Louis and Isabelle, are acrobats and high-wire artists of marked ability.

A troupe of Scandinavian gypsies who dance, sing and play sweet music upon the most curious instruments, and several other special features of particular interest to this part of the big show. The zoological collection, with its four giraffes and other animals, is notably complete, while the circus performance, which takes place in the great hippodrome pavilion, presents 300 performers, and a variety of ring arena performance; a new military spectacle, the latest Parisian automobile sensation "L'Auto-Eclair," in which two reckless bicyclists turn somersaults on their wheels in mid-air.

Throw Medicines to the Dogs!

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbe irritation. Catarrh is not only a disease, it is a germ. It does more, it heals disease and inflamed tissue. The germ is not only cured, but its return is forever prevented by using Catarrhose which is splendid also for colds, coughs and irritable throat. Remember you inhale Catarrhose. Nature's own cure—use no other but Catarrhose—it's the best catarrh cure made.

FINANCING THE "SEA WALL"
BOARD OF WORKS DISCUSS

Shall It Come Out of Parks Appropriation or Be Provided by Special Bylaw?

Controller Ward made considerable progress with the project to build a sea wall 200 feet from the lake shore from a point opposite the old fort property to a point opposite Spencer-avenue, at a full meeting of the board of works yesterday. According to the city solicitor the council had the power to expend a part of the special park fund under the Parks Act. The controller thought that the sea wall would come under the head of park improvement.

Controller Hubbard raised the question as to the right under the special act to expend money on that section of the sea wall opposite the Garrison commons property. He understands that that property had been purchased by another special act. The city solicitor agreed with Controller Hubbard.

Controller Ward thought that the government would amend the act so that the money could be taken from the special park funds. In this case the city engineer could immediately proceed to build the section and leave the east section until the act was amended.

His worship moved that the board recommend to the council that the building of the sea wall be adopted conditional upon the government amending the act, and that the work on the west section be proceeded with as at once.

Controller Hubbard rose to suggest that instead of taking it out of the special park fund a bylaw be submitted to the people in January next. He did not want to spend too much on the western part of the sea wall, as the water front park was needed in the eastern. Controller Ward informed the board that there would be plenty of money when the one mill park tax of 1905 and 1907 was added to the present amount.

"Nine out of ten citizens are in favor of the sea wall and I am sure it would be carried," said Controller Hubbard.

The mayor said that after \$150,000 had been paid to the government for the purchase of the property there would be little left in the park fund, but Controller Hubbard sprung the fact that the money for the commons did not come out of the special park fund.

After considerable discussion it was decided to recommend the adoption of the city engineer's plan. The committee composed of the mayor, Controller Hubbard and Ald. McGhee, wait on the government until the next session of the council to the amendment of the Parks Act.

Street Car Census.

To assist in the readjustment of the car routes when the new extensions and loops are made, a census of the passengers on Yonge-street, below Adelaide-street, will be taken by city engineers and reported to the board. The position of the residents on Farley-avenue that light asphalt be substituted for tar macadam was taken on an informal basis by Controller Hubbard. The engineer will negotiate with the Gadsden Company to have the change made.

The city engineer's recommendation that the asphalt pavement on Farley-avenue be adopted.

Ald. Vaughan's request for Kendall-avenue, Bathurst-street, that the property owners on that street be exempted from paying their taxes until the street is in proper repair, was accepted and the board authorized that the street be fixed up at once.

PROVINCIAL LOAN OF \$3,000,000

The Government of the Province of Ontario, under the authority of Chapter 4 of the Statutes of Ontario, 1904 (latest subscriptions from the public for a loan of \$3,000,000 on bonds of the Province of Ontario, dated 1st July, 1904, and payable \$1,500,000 on the 1st July, 1908, and \$1,500,000 on the 1st July, 1908).

With coupons attached for interest at the rate of 5 per cent per annum, payable half-yearly, on the 1st January and the 1st July in each year, at the office of the Provincial Treasurer, Toronto. Bonds will be of the denominations of \$200, \$500 and \$1000, and will be payable to bearer, but on request will be registered in the office of the Provincial Treasurer, and endorsed as payable only to the order of certain persons or corporations, and on request of holder may be exchanged for Ontario Government Stock, bearing the same rate of interest.

The issue price will be par, and after the 1st July, 1906, the issue price will be at and accrued interest on such distribution.

DUOVANCY MAINTAINED IN WALL ST. MARKET

And New High Prices Are Registered Here and There—Toronto Market Firmer.

World Cities. Wednesday Evening, July 26. The Toronto stock market showed more activity to-day, and with it, an increase in the strength of quotations. Firmness was general, but real advance was confined to a few issues. In looking for an incentive for higher prices traders were confronted only with the New York example and are awaiting inside operations to provide the necessary turn in the market. The strong stocks to-day were C.P.R., Northern and St. Lawrence Navigations and Colonial Loan. The movement in C.P.R., which started at New York yesterday, was more steadily pushed to-day and references are as an adjunct to the advance are being made to the undoubted splendid earnings of the road. Colonial Loan and Investment which was recently listed, was apparently easily advanced three points. The two Navigations mentioned were reported to have advanced in the market and purchases were only accomplished by an advance of two points in the bid price. With the rally the feeling of the market is naturally more buoyant, but it is not yet so numerous as to justify further improvement that more outside speculation must develop and that Wall Street must continue to display buoyancy.

Ennis & Stoppell, McKinnon Building, report the close on Granby, 11 to 11 1/2; Lake Superior, 2 1/2 to 3; do. bonds, 38 to 39; Nipissing, 2 1/2.

London fortnightly settlement began to-day. Good demand for stocks in the loan crowd.

San Francisco plans of railroads aggregate \$35,322,000.

Retirement of Pennsylvania officials from Norfolk and W. eastern does not mean abandoning its control of Eastern soft coal.

St. L. S.W. gross earnings for fiscal year about \$10,000,000.

Attorney General Moody has dropped criminal prosecution of Standard Oil and now seeks only to fine the officials.

Judge Gaylor presiding on B.R.T. double fare to Conroy Island.

Earnings of C.P.R. Corporation for July may exceed \$13,000,000. Corporation now has \$80,000,000 in cash.

Sub-treasury lost \$102,000 to the banks yesterday, but since Friday it has gained \$1,878,000 from the banks.

Expected United Pacific gross for the year ended June 30, 1906, will show an increase of about \$8,000,000 over previous year, with a gain of over \$3,000,000 in net.

No meeting of directors of the Erie Railroad Company was held to-day, because of the failure to secure a quorum. The next meeting will be made up of the meeting next week.

Joseph says A.C.F. will sell ex-dividend tomorrow. Buy some to-day for turn. If long of Pennsylvania, sell at once for Erie average. Erie dividend meeting to-day. Specialties: Bull Canadian Pacific and B. & O.

There has been a good deal of realizing in Amconda of this advance and some of the money has been going into Amalgamated, which is evidently being nursed for an extended time. Amalgamated still has an increased dividend as a bull card, while its immense earnings are being added to from month to month—Town Topics.

Pittsburg: The Westinghouse Electric Manufacturing Company has announced statement of its operations for the six years ended March 31, 1906. The company reports a surplus of \$1,500,000 on that date of \$1,540,033. This is the first statement of earnings ever issued by the company.

The conspicuous strength of American Sugar stock recently has been accompanied by some extravagant rumors, but in well-informed circles the circulation of these stories is not considered necessary to explain the advance. The Sugar refiners are now in their busy season and an enormous demand has developed for their product. It is said in the trade that the American Sugar Refining Company will this year do the best business in its history—New York News.

The statement is made positively again to-day that after to-morrow's meeting of the directors of the St. Paul Company, an announcement will be made of the plan for partially financing the Pacific Coast extension. It is now rumored that \$22,000,000 of the \$25,000,000 common stock of the company, which was authorized by the shareholders several years ago, will be offered to stockholders at par. On the basis of the amount of stock of the company now outstanding this would give both the common and preferred holders the right to subscribe to about 20 per cent of the amount of the stock they now own. At this rate it is figured that the rights on the new issue would be worth about 15.

Paris, July 25.—The tone on the bourse to-day was much improved. Russians steadily advancing, but a considerable amount of the purchases are understood to be the result of an agreement of the principal holders to sustain the market by active buying.

Be reflected in much higher prices.—Town Topics.

New York, July 25.—Continued irregularity may be expected in the stock market to-day. Strong information is received to buy United Pacific on this occasion. While the weakness of C.P. is unsettling, there are reasons for believing that it was manipulated and that technical points should be bought on this occasion when not according to the company's earnings. Sugar stock on the 180 level, but ought to be good for a long run, as well as a short run. It is handled by trading in the market. U.S. Steel preferred on this occasion for a turn at least. Reading is in the trading position, but should be bought when weak for a turn. Bear tips glare are noted on B.R.T. since the opening on Tuesday, but there are no numerous as to excite suspicion. A bull tip is noted on Canadian Pacific—Financial News.

Railroad Earnings. Increase. Mo. P. third week July 4300. D. & G. third week July 4000. Texas, third week July 45000. M.K.T., third week July 41500.

On Wall Street. Marshall, Spader & Co. wired J.G. Beatty (King Edward Hotel), at the close of the market to-day. The strength of the market was so placed to-day as to promote confidence without increased activity. U.S. Steel issues were advanced by good buying on the perfectly logical condition of the company's earnings account, and its relation to the value of the stock. The advance on St. Paul, to new high records since 1902 should point to its being placed on the dividend list, as it is certainly entitled to be by its earnings. London and Copper was evidently under special support, but was being bought on merit. London was a heavy buyer to-day, perhaps covering recent short trading in any event it caused a decline in sterling exchange, which is a healthy indication of an important meeting and the finance market. The tone of the stock market to-day is exceptionally good and while Russian stocks were not taken full face value it is undoubtedly restricting support of a certain kind. Some less favorable crop news from the United States was about the only adverse influence reported on American crops, and harvest reports are nearly all of a cheering nature. With the progress of events it seems merely sure that the Russian situation will not more seriously affect the world's agricultural markets in the future. We look to see the market sustained. During the afternoon the report that to-morrow's meeting of the St. Paul would be followed by an announcement of offer to stockholders of \$25,000,000 treasury stock at a price which explained the support to these shares.

Ennis & Stoppell wired to J. L. Mitchell, McKinnon Building. The market to-day has ruled extremely strong, with a better distribution of business than has been seen in some time. The buyer of some 30,000 shares and whatever may develop later in the Russian situation it is apparent that the market is world are breaking away from this influence, with a large short interest in American, Canadian and other departments. It is thought that the St. Paul extension plan will result in traffic agreements with United Pacific and Northern Pacific, and that in consequence less new St. Paul mileage will be required. Counsel for B.R.T. in a case heard to-day regarding the double fare matter stated that after to-morrow's meeting of the directors of the Erie Railroad Company was held to-day, because of the failure to secure a quorum. The next meeting will be made up of the meeting next week.

Joseph says A.C.F. will sell ex-dividend tomorrow. Buy some to-day for turn. If long of Pennsylvania, sell at once for Erie average. Erie dividend meeting to-day. Specialties: Bull Canadian Pacific and B. & O.

The Clear Bay correspondent of The Sydney, C.B., Daily Post says: "The Dominion Coal Company are not getting the output expected for this season. The hot weather, plenty, and the liquor traffic are all having their effect in keeping men from work, and there is also a great scarcity of unskilled labor."

Gross earnings for the first three weeks this month in Canadian Pacific show an increase of nearly 30 per cent. over those of the corresponding period last year, but this is only in line with the reports which have been made from time to time, by the company's rapidly appreciating value. There is no question but that the prosperity of the Canadian Pacific will soon

SAGE IN GHOUL-PROOF CASE FINANCIER IS LAID AWAY

Extraordinary Precautions to Prevent Stealing—Arrangements Cost Nearly \$25,000.

Troy, N. Y., July 25.—The body of Russell Sage, financier and multi-millionaire, was laid to rest in Oakwood Cemetery this afternoon. The same simplicity that characterized the deceased in life was apparent in the transfer of the body to its last resting place.

But two floral memorials were brought from New York to this city; one was an immense wreath of purple asters, with white roses and galley leaves, mounted on sage palm and Japanese lilies, sent by the dead banker's office staff.

The funeral cortege proceeded from the Union Station to Oakwood, where a large number of persons had gathered at the Sage family lot. After a brief service, read by Rev. Dr. Andrew G. McLean, the body was committed to the ghoulish-proof vault of chilled steel, ready for its reception.

The words which are to be engraved on the Sage monument are: "I have done the best that I could by the light of the day."

The body of Russell Sage was encased in a hermetically sealed copper envelope within a ghoulish-proof vault placed in a chilled steel case four inches thick, riveted with steel bolts and locked with a lock which can never be opened.

The steel case is of such hardness that it would take two expert safecrackers a full day to break the outer shell. There is no visible lock. Once the lid is closed down, a set of locking mechanism clamps it inside at 10 points and not the slightest opening is left for the insertion of a wedge.

Irresponsible! A witness at the Wilkesden police court said he had to turn a customer out of his shop because he persisted in paying an account he did not owe.

James Connae, M. P. of Port Arthur, and Jos. Seagram, M. P. of Waterloo, are at the King Edward.

NAVIGATION STOCKS WERE STRONG

World Office, Wednesday, July 25. The Toronto stock market has shown no real inclination to be drawn into a speculative upward movement in company with Wall-st. until today.

Wheat again ruled firmer, but there was a notable lack of buying interest. The strength of corn and oats where affected by dry weather in Illinois, other instances.

Chicago Cattle. Marshall, Spader & Co., G. J. G. Beatty, King Edward Hotel, at the close of the day reported the following quotations on the Chicago Board of Trade:
