# GREAT DAMAGE BY SUDDEN FLOODS

## Port Hope Stores Wrecked by Water and Ice—Belleville Streets Inundated—Near Fatalities at St. Thomas.

**PORT HOPE, Feb. 24.**—The usually picturesque little Ganeraska River, swollen by the recent rains, overflowed its banks this afternoon and caused damage that will run up close to \$25,000.

A slight rise toward noon gave little indication of serious flood, but between 2 and 3 o'clock the river had changed to a torrent and had torn out the Canton bridge, to the north; Helmsdam, the electric light plant footbridge, the Barrett's Mill bridge and the G.T.R. foot bridge, besides ripping away the north side of the cement bridge on Walton-street, Port Hope's main thoroughfare.

The Ontario House was swamped, part of the barn torn away and several cutters lost; the Royal Hotel had its new balcony destroyed, and Walton, Queen, Mill, and Main streets were flooded two feet deep.

Thousands of heavy blocks of ice swept down the streets and presented an awe-inspiring sight. On the east side of Walton-street bridge the ice filled The Times office, Tom Lee's laundry, Putnam's shoe store, Smith's barber-shop, Wells' bakery, Shaw's store, Moore's restaurant and two empty stores. The laundry, shoe store, barber-shop, bakery and the empty stores were almost wrecked, the windows breaking in.

The Toronto Bank and McLean's piano store were flooded, but not damaged. Hayden's foundry, Chalk's carriage works and G. N. Pattison's lumber yards were also suffering, the latter losing \$1500 worth of timber.

The girls in the Ideal Clothing Factory had to escape by ladders, and Ken Runnels, insurance agent, had a narrow escape from drowning, his rig and horse falling with the G.T.R. bridge.

It was said that a Canton man lost his life, but telephonic communication fails to confirm.

Large gangs of men are at work tonight removing the ice blocks from the streets.

## Wm. Boyle Missed Bridge and Drove Into Swollen Creek—Team Were Drowned—Son Escapes.

**HAGERSVILLE, Feb. 24.**—A fatality occurred to-day about two miles from Hagersville.

William Boyle and his son were returning home from Hagersville about noon. They had to pass over the Spring Creek on the reserve, where they found the road for nearly a quarter of a mile under water. They attempted to cross, but missed the bridge, went over the embankment into deep water and sank.

The team was drowned and Boyle is supposed to have been seized with cramps. He was unable to get out of the water. His son reached land and called for help and two men succeeded in getting Boyle out, but he died at almost immediately.

Dr. Playfair decided that Boyle died from exposure, having been in the water for nearly two hours.

## Situation in the Balkans Again Assumes a Serious Phase—Russian Policy is Under Suspicion.

**ST. PETERSBURG, Feb. 24.**—The pessimism with regard to the Balkan crisis is steadily deepening in diplomatic circles, where it is believed that Austrian action against Serbia may be expected within a fortnight, unless a solution to the present grave problem is soon arranged.

Foreign office officials state that Russia is not disposed to consider an invasion of Serbia alone as a *casus belli*, but there is fear that the government's hand may be forced under such circumstances by popular feeling. The beginning of hostilities would throw thousands of Russian volunteers into the Serbian ranks.

The Duma leaders, who visited the foreign office to-day, expressed themselves as convinced that war is inevitable. Information received from Kiev to-day indicates that no military measures have yet been undertaken on the southwestern frontier, but all applications of officers for leave of absence have been refused, and the Kiev department is ready for instant mobilization.

# NOTABLE WOMEN MARTYRS IN THE CAUSE

## Suffragettes Make Three Valiant Attempts to Reach Parliament and Social Leaders Are Among Those Arrested.

**LONDON, Feb. 24.**—Every effort of the suffragettes to force the hand of the government becomes more determined, and it is increasingly difficult to predict how their demands may be successfully met.

The situation has taken on an embarrassing aspect for the government, owing to the high social position of many among some 20 or more women arrested this evening, these including Mrs. Pethick Lawrence, Lady Constance Lytton, sister of Lord Lytton, and daughter of the former viceroy of India; Miss Stratford Dugdale, daughter of Commander Dugdale, and cousin of the Hon. William R. Peel, who was elected yesterday by-election as member of the house of commons for Hanton; Miss Daisy Solomon, daughter of the ex-premier of Cape Colony, and Mrs. Catherine Elizabeth Corbett, an aristocratic supporter of suffrage movement.

Both sides were well prepared for tonight's attempt, the part of the suffragettes to force themselves on Premier Asquith, who yesterday had declined by letter to receive the deputations. The women had "paraded" at Caxton Hall, and a number of them started on "danger duty" in a solid phalanx, led by Mrs. Lawrence.

The police, abandoning former tactics of barring the approaches to the house of commons, adopted the new plan of breaking up the procession close to Caxton Hall. They permitted the suffragettes to proceed simply by force, escorted by small parties of police.

The women were this time given much more freedom than on previous occasions, but the leaders of the movement declared their intention to adopt still more forcible methods.

Life's Not Worth Living. The speakers at the "parliament" were most earnest. Mrs. Pethick Lawrence, during the course of a speech, said: "When I speak of stronger measures, I speak in my own name. I value neither our liberty nor our lives unless the women of this country get a vote."

Mrs. Solomon, returning from the first expedition, apologized to the meeting for her failure to get arrested. She said she had been arrested by the police and another attempt. All the expeditions were given musical honors when they set forth, the band playing the Marseillaise.

The women who were arrested were locked up for the night and will be arraigned in the Bow-street court tomorrow.

# NOW U.S. GOVERNMENT WILL REGULATE POWER

## Planning to Take Over Full Control of the Water Supply at Sault Ste. Marie.

**WASHINGTON, Feb. 24.**—(Special.)—In an amendment proposed to the river and harbor bill, which is likely to be adopted by the senate committee on commerce, the government is to take over full control of all the water supply at Sault Ste. Marie, put all power companies on the same basis, and make them pay for water used, vested rights to be compensated for thru condemnation proceedings.

This affects the Michigan and Lake Superior Power Company and the Union Carbide Company, both of which are said to be owned by those controlling the People's Gas Company of Chicago.

Steps looking to this end have been pending in congress for some years. Little doubt is expressed in circles usually well informed but that the amendment will be adopted by the committee and the matter will then go to the senate, where it will be fought out.

Opposition exists, and an effort will be made to keep the government's hands off.

## George Flint of St. Thomas Had Said He Was Going to England, But Instead Went to Erindale

Six months ago Thomas George Flint, an Englishman, left his wife and two little ones at their home in St. Thomas, saying he was going back to England and would return. Two months later two boys were born, but neither support nor even word came from the departed husband.

He did not go to England, but to Erindale, where he met Maggie Elliott, a former sweetheart, and together they went to Bolton and were married.

Yesterday Flint was arrested by County Constable Gould of Bolton and taken to Toronto, where he was turned over to Chief William Armstrong of St. Thomas. He is charged with non-support, but as he admits his second marriage he will be charged with bigamy.

# C.P.R. PUTS UP A FENCE CLOSING A NECESSARY ROAD

## Railway Commission Will Be Asked to Decide on the Justice of a Rosedale Crossing Affair.

"Insolent," is the word used by Wm. McLeish to describe the action of the C.P.R. in closing a grade crossing at Rosedale, leading from Summerhill avenue, immediately north of St. Andrew's College, to eight Hill-avenue, a road put thru and graded at considerable expense to give access to his property, which comprises lands on both sides of this road, running up over the hill. McLeish has also built another road at right angles to this, known as Ridge-avenue, this crossing is now being boarded up on both sides of the right of way; the grade up to the tracks has been destroyed, the hoarding taken up, and a man is on guard, presumably to see that no venturesome soul climbs the fence.

John McKim, teamster, is the tenant of the only house at present on the property, a neat two-story brick building, with extensive stabling in rear. The sequel to his activity yesterday was a letter sent by John Kyle, solicitor for York Township, to the C.P.R., Mr. Kyle intends to vigorously follow the matter up. The C.P.R. tracks form at this point the boundary between the city and the township.

Angus MacMurphy, solicitor for the C.P.R., declined to express any opinion on the matter, but said that the crossing is boarded up on both sides of the right of way; the grade up to the tracks has been destroyed, the hoarding taken up, and a man is on guard, presumably to see that no venturesome soul climbs the fence.

AN ARBITER TOO MANY Ottawa Labor Department Asked Two Men to Fill One Vacancy.

WINNIPEG, Man., Feb. 24.—(Special.)—Half the town this morning was gossiping about a story of a peculiar mix-up for which, apparently the Ottawa labor department is responsible. The situation arose in connection with the request of the locked-out employees of the Manitoba Carriage Co. for an investigation under the Levesque Act, their nominating P. J. Murray, counsel for labor interests in west, and the other party, J. S. Murray, a contractor, and so the duty fell on the department of labor. Thru some blunder, both Professor Cochrane of Manitoba University and Rev. Chas. W. Gordon, better known as "Ralph Connor," received wires last night asking each to act, and both accepted, the mix-up developing when the two names came to be published.

## Jury, Out Two Hours, Return Verdict of Guilty—No Evidence Submitted by Defense—Prisoner Asks Time to Provide for Wife.

**SHIMCOE, Feb. 24.**—(Special.)—Imprisonment for life in Kingston Penitentiary was the sentence imposed to-night by Chief Justice Mulock in Archibald W. Malone, found guilty by a Norfolk County jury of attempting to murder his fellow constable, William Wilkins, on the morning of Dec. 2 last.

The jury were out 2 hours and 10 minutes, and returned to the courtroom about 7.35.

"Have you agreed upon a verdict?" asked the clerk.

"We have," said the foreman.

W. E. Kelly, K.C., counsel for defendant, asked that the jury be polled. Every man of the twelve said "Guilty" in a clear voice.

"What have you to say, Malone, why the sentence of this court should not be passed on you?" said his lordship.

"My counsel will speak for me, my lord," said the prisoner.

## OF INTEREST TO WOMEN

"This is the first time I have been here in eight years," said Miss Mabel Taliaferro, the young star of the "Polly of the Circus" Company, last night. A very busy little woman she was, too. It was just previous to the rise of the curtain for the first act, and she and her Japanese maid, Kima Yehina, was rushing here and there arranging various things for the second scene. "I think the people of this city are very nice, and I am very sorry I have not had the opportunity of having played here between the long interval, but I just managed to miss this town on each tour," said Miss "Polly."

When questioned regarding the modern drama, Miss Taliaferro seemed reluctant to give any information as to her opinion, but finally answered: "I think the drama is deteriorating at the present time. The modern, so-called society plays seem to give more attention to the triumph of vice and unhappiness of the good than is well for any audience, especially for the younger element."

"No person going to a play and departing with the impression that these dramas usually convey is being benefited. But I believe there is a way sweeping over the country now that will once more restore the good old plays we used to have, the sentimental drama, that contains all that is beautiful and good, and is based on the old, old theme of 'love one another'."

Miss Taliaferro is known in private life as Mrs. Frederick Thompson, wife of the great theatrical magnate, and although only 27 years of age has been on the boards ever since she was three years old.

Worried to Death. Indigestion—Loss of Sleep—Heart Palpitation. A Case That Proves Prompt Action is Wise When Health is Poor.

"At night I would wake up with vague feelings of fear and numbness in my hands and other parts of the body," writes Mr. E. X. Smeaton of St. John's. "I had grown thin and pale, and at night it was very difficult to get enough warmth in my feet to get asleep. My digestion was poor, and my appetite very uncertain. The form of nervousness that worried me most was starting at every little thing, which resulted in such violent heart action as sometimes frightened me. Finally I had to give up my work, which was inside office work, so languid, nervous and week had I become. Through the intervention of a friend I was induced to use Ferrozone. My appetite improved at once, circulation also improved, and Ferrozone accomplished the renewal of my blood, and natural warmth seemed to come back to my limbs. At the same time Ferrozone built up my constitution. I became quite strong and resumed my occupation. In brief, I am well."

Ferrozone is the only remedy of its kind in the world—it makes you feel better at once when you are tired, dull, dispirited; when you feel there is nothing in life for you, that's the time to take Ferrozone. What a change Ferrozone makes! Your blood sings through your veins, carrying nourishment to every nook and corner of the body; you feel the exultant thrill of abundant nerve force; you learn the luxury and delight of being at your best—in perfect good health; you just try Ferrozone and see how much better you feel; it's the one remedy in all the world that will get you bracing health at once. Sold everywhere, 50 cents per box or six boxes for \$2.50 at all dealers.

## Public Amusements

Following upon the marked impression made by George Fawcett in the role of John Ganton, the leading character in the play of "Ganton & Co.," presented at the Royal Alexandra Theatre, the World interviewed him yesterday. The part is a strong one and is Mr. Fawcett's own creation. It is successful because it is a tribute to his capacity to conceive as well as to interpret.

In the course of an interesting and discursive conversation Mr. Fawcett commented with incisive acumen on present-day stage conditions. At an earlier period in his career he found himself compelled to an apparently endless repetition of the one role and he realized its injurious influence on his artistic development. "So," said Mr. Fawcett, "I looked out for a theatre of my own. It was difficult to get, and I had to go for it far away from the theatrical centres—indeed to the woods. There I stayed for three years, playing many roles, including the principal Shakespearean. It was splendid training. This in turn led to his recent professional visit to London and the British provinces, about which Mr. Fawcett talked very entertainingly.

Asked regarding the comparative merits of Britain and America in matters theatrical, he spoke very highly of British conditions. "We place too much stress here on the dollar," he said. "Men are valued by how much they are worth in money. Over there a man who can do anything is valued on his merits. I found the professional standing here in Britain and have nothing but praise for the manner in which it was received and the assistance given me."

Mr. Fawcett expressed appreciation of the critical ability of London audiences and the readiness with which they acknowledge genuinely good bits of stage business. Edinburgh, too, appealed to him.

W. McClure will receive on the first Friday of every month. Miss Alma Lewis will receive for the first time since her marriage at her home, 82 Rusholme-road, this afternoon, from 4 to 6.

Mrs. H. C. and Miss Tomlin will not receive this Thursday, but on the 11th and not the 10th in the afternoon. The wedding of Miss Dottie Black to Mr. Frederick J. Thomas will be solemnized to-night at eight o'clock, at the house of the bride's sister, 151 Gorevale-avenue. The Rev. Francis Perry will officiate.

## An Advertising Offer

# New Mendelssohn Pianos for \$210

## Regularly Priced at \$275

Though various premium offers are frequently made for advertising purposes, we believe that the very best premium a piano-buyer can secure is a direct saving in the price of the instrument purchased. For advertising, therefore, and for increased business in the usually quiet season, we offer a limited number (25) of new Mendelssohn pianos of the regular \$275 style (as per illustration and description) at the reduced price of \$210.

## TERMS OF OFFER

This special price, \$210.00, is the cash price and unusually good value. For those who prefer paying in instalments, we have arranged a plan of regular payments on either monthly, quarterly, or half-yearly system. This plan offers the instalment buyer the privilege of buying at the cash price, \$210.00, plus just simple interest at the rate of six per cent. per annum upon the exact amount owing from time to time. As an illustration of just what this interest totals, we have selected two favorite plans of payment, and give herewith the figures:

Plan A.—Payment of \$10.00 cash and \$6.00 monthly:	
Purchase price .....	\$210.00
Total amount of interest .....	17.15
Total cost .....	\$227.15

Plan B.—Payment of \$25.00 cash and \$25.00 quarterly:	
Purchase price .....	\$210.00
Total amount of interest .....	11.70
Total cost .....	\$221.70

## DESCRIPTION

The pianos are manufactured by The Mendelssohn Piano Co., Toronto. They are small and compact in size, and of a simple, though very attractive design. They possess a rich, musical tone, an easy, responsive action, and are substantially built and durable. Nearly 7,000 Mendelssohn pianos are to-day in use, and the enthusiastic satisfaction of their owners is their best recommendation.

The cases are in walnut or mahogany, double veneered on both sides throughout and handsomely finished. The panels are full length, with flat mouldings. The keyboard is 7 octaves, and the piano is fitted with muffler or practice attachment operated by the third pedal. In place of this a mandolin attachment may be substituted without extra cost when so ordered.

Height, 4 feet 3 inches  
Depth, 2 feet 2 1/2 inches  
Width, 5 feet 1 1/2 inches  
Weight, boxed, 800 pounds

## WE SHIP ON APPROVAL

That out-of-town buyers may enjoy the same opportunity as city residents, we agree to carefully select a choice piano and ship on approval to any point in Canada. If not entirely satisfactory upon arrival, it may be returned to us, and we will pay the return freight.

A handsome new stool is supplied free, and piano will be safely packed for shipment without extra charge.

## OUR GUARANTEE

Every piano is fully guaranteed for five years by the Mendelssohn Piano Co. In addition, the guarantee carries our endorsement, which provides an option of exchange, wherein we agree to receive the Mendelssohn piano at any time in part payment for a new Mendelssohn or Courlay piano, said new piano to be supplied at the then current net cash rate, and the Mendelssohn piano to be taken back at the present cash price, \$210.00, less small annual charge of \$10.00 per year for the number of years that have elapsed since its purchase.

A Few Pianos of a Larger Style—Also Underpriced. We are also offering half a dozen larger Mendelssohn pianos at a big cut under regular cash prices. If you are interested we will be glad to send full particulars.

# GOURLAY, WINTER & LEEMING

Dutch in Egypt." The Yamamoto Bros. and cinematograph complete the bill.

"The Girls of Gottenberg," the latest musical comedy importation—that has been made by Charles Frohman for this country, is now announced for local contemplation at the Princess Theatre next week. Nearly a hundred people are said to be in the company—beautiful women, witty comedians, competent choruses and nimble dancers.

Following the example of the Eclair Choir of Hamilton last year, a choir from London has arranged with Jarvis-street Baptist Church to give a popular sacred recital on March 9 here. The chorus has 80-odd voices and sings a program of selections from "Elijah," many a capella number, and brings a solo organist as well.

In "Brown of Harvard," the Shubert offering at the Royal Alexandra Theatre next week, the permanent success of dramatized collegiate sports bids fair to come to that class of entertainment what "The Cyclone" has done for rural plays. It still holds a record in Chicago and New York for length of run and size of receipts, and the latter has been a boat race on the Charles River between the Harvard eight and an English crew.

Ward and Vokes, the famous vocal experts, who set the example for big musical productions at less than dollar-fifty prices, are together again, and will present their musical success, "The Promoters," at the Grand next week, opening their season on Monday. The music and songs have been written especially for Ward and Vokes, and famous aubade songs will be worn by the girls. They have been made from Parisian models and are absolutely correct.

Burlesque in all its brilliancy will be seen next week at the Gaiety, when "The Dainty Duchesse" comes to the stage. Features are made up of Leavitt and Campbell, the actor and the maid; Potter-Hartwell's Trio, comedy acrobats; Mildred Stoller, impersonations of celebrated actresses and marvellously quick changes before the audience, assisted by her two maids. The Dance of the Devils is led by dashing Lily Lenora, assisted by eight young women. Dawson and Whitfield will amuse with fifteen minutes of fun and vocalism.

The third act of "A Child of the Regiment," Clas. E. Blaney's new military drama, which will open a week's engagement at the Majestic next Monday, represents a mountainous mass in North Ontario in midwinter, with the lofty mountains towering overhead. Here the hero and the maiden, who has just returned from a terrific struggle take place.

There are twenty-one numbers played by the augmented orchestra during the progress of "Peer Gynt." Louis James, latest and greatest artist in North Ontario, purchased the original Richard Mansfield production at a price that staggered New York City. It comes to the Princess next month.

At Shea's Theatre next week, Manager Shea has arranged one of the biggest bills of the season. William H. Thomas, the distinguished actor will head the list in Coan Doyle's one-act play, "What-ifs." The play was presented here by the late Sir Henry Irving. Other special features are: "Griff," the singing juggler; health at once. Sold everywhere, 50 cents per box or six boxes for \$2.50 at all dealers.

Simpson Runs 10 Miles in 52.30 Being a New Canadian Record

Tom Eck's Indian Makes Remarkable Trial on Riverdale Track, Finishing Fresh and Strong.

It took Fred Simpson, the Peterboro Indian, just 52 minutes and 30 seconds to run ten miles, or 120 laps, at the Riverdale Arena last night.

Contrary to the common belief, Simpson is still a young Indian, being just 27 years of age. His manager says a bright career before him, and Tom Eck feels assured that his man can not only get matches with Dorando, but also that he is confident that he can defeat them all at any distance from 10 to 25 miles 35 days.

**FOR POWER DELIVERY**

Fine Display of Commercial Vehicles at the Auto Show.

The commercial vehicle exhibit at the Automobile Show has proved to be one of this year's most successful features. Representatives from well-known busi-ness houses have been giving the ma-chines a thorough study, and, as a re-sult, it is reported, many additions will be made this season to the list of com-panies using power delivery.

The commercial cars shown are Rus-sels, manufactured by the Canada Cycle & Motor Co., Limited. They include a three-ton and one-ton truck and a delivery wagon of the latest type.

The three-ton truck is a massive af-fair, with tremendous power, intended for the heaviest class of work. The one-ton truck is built for the rapid hand-ling of merchandise which does not in-volve much weight.

These two machines share interest with a delivery wagon which is un-doubtedly the most advanced in the type yet seen here. As all claims for power delivery rest upon the argu-ment of greater economy and speed, the performance of this wagon is especial-ly interesting. Thorough tests on vari-ous kinds of delivery work have shown that it invariably does the work at two, or a great saving in cost.

It was the general opinion at the show that the Russell machines were sure to give power delivery in Canada a great impetus.

The display of pleasure cars of this company continues to be the leading attraction. Heavy sales are reported on all the models.

Headquarters for Lenton Specialties, St. Charles, of course.

**THE STEEL SITUATION.**

NEW YORK, Feb. 24.—The Iron Age will say to-morrow. The complete re-verse of the selling policy of the steel corporation has thrown the entire trade into confusion, and buyers and sellers have been groping in the dark. Each interest is endeavoring to find its bearings and seeking to deter-mine what prices must be paid and whether it is wise to take a part in the struggle. Small mills are even now withdrawing completely.

Each constituent company of the steel corporation appears to adopt such courses as the special circumstances surrounding it justify.

There are no facts on which to base any opinion concerning the effect of the price reductions in stimulating busi-ness. There have been no sales of consequence. Enquiries are being put out as feelers, or as a means of secur-ing data for means for readjustment on recent contracts. A preliminary step in a number of instances has been the demand for cancellation of such contracts. It may take some weeks before the skirmishing among buyers and sellers is over, and round tables are placed. It is tonnage that is wanted by the mills, and the prices will be made to bring it out.

There are some indications of a friendly spirit among some of the leading interests, so that the term "price war" should not be indiscriminately used.

It is only in a few lines of mill prod-ucts that prices have been openly made. New discounts show discounts ranging from 6 to 10 per cent.

Share of Toronto Organs in Govern-ment's Advertising.

OTTAWA, Feb. 24.—(Special).—The last volume of the audit—generally re-ferred to as the "audit"—paid for printing and advertising in the fiscal year ended March 31, 1908.

For advertising, \$287,167 was paid, and for printing and lithographs, \$300,413. The Toronto Globe got \$49,843 for ad-vertising, and The Star \$47,771.

**OBITUARY.**

General Robert Sandham, who was attached to the permanent forces of the Canadian militia, died yesterday at Folkestone, Eng., General Sandham, who was born in England, was about 72 years of age and when in Canada was stationed in Halifax and Toronto.

He was a member of the Toronto Club and an honor-ary member of the Royal Canadian Mounted Police. He is survived by his wife, Maria Sandham, a daughter of the late Sir Casimir Gzowski of Tor-onto.

The funeral of the late Mrs. Zeag-man, wife of Charles Zeagman, took place yesterday morning from 41 Staf-ford-street to St. Mary's Church, thence to St. Michael's Cemetery. The de-ceased, who had been ill for nearly a year, was highly respected by a large circle of friends and acquaintances, as was attested by the very large number that accompanied the funeral cortege to the cemetery.

Mrs. Zeagman leaves a family of seven to mourn her loss—three sons and four daughters. The husband and sons are all engaged in the live stock trade.

A cable announces the death of Edin-burgh of Admiral Sir Charles George Paine, K.C.B., formerly commander of the Newfoundland station, and A.D.C. of the late Queen Victoria. Sir Charles retired in 1902. He had Crutcher Turkish medals. He married in Halifax in 1875 the youngest daughter of Sir Edward Kenny, sister of the late Thomas Kenny. Lady Paine and five children survive him.

At Vankleek Hill, John Northcott, retired merchant, aged 43.

At St. John, N.S., W. J. Cordock, superintendent of dredging for the Maritime Provinces, aged 78.

At New York, Eugene Tomkins, the-atrial manager, aged 59; first produc-tive of "The Black Crook."

Kelly Evans, secretary of the Ont-ario Fish and Game Protective As-sociation, was tendered a luncheon by the Canadian Club yesterday afternoon. The subject of his address was "Conservation of some of the Nat-ional Resources of Nova Scotia." Dr. J. P. Fosberg, president of the Cana-dian Club, presided. Members of the lo-cal game protective association were also present. Among the prem-ier men present were Premier Murray and members of local house-hold in session and many business men. The speaker was tendered a vote of thanks.

**STATE DIGS UP SCANDAL**  
**MOTIVE FOR THE MURDER**

Attempt to Show That Col. Cooper Was a Defaulter While an Official of County.

NASHVILLE, Tenn., Feb. 24.—After a day replete with exciting incidents and interesting developments to-day's session of the trial of Colonel Duncan B. Cooper, Robin Cooper and John D. Sharp for the murder of former Senator E. W. Carmack closed with the aged, defendant, Col. Cooper, still on the stand.

The direct examination of the colonel, which began early yesterday, lasted until nearly noon to-day. Almost the first thing the state did was to cross-examine him to show that he was a defaulter to the extent of more than \$100,000, while clerk and master of chancery of Maury County.

The state sprung another surprise. It resurrected some old legislative records concerning an investigation into the defalcation of State Treasurer Polk in the early 80's. It offered to prove that thousands of dollars of the state's money were invested by Polk with Colonel Cooper and others in a Mexican silver mine scheme, a walnut log scheme in North Carolina, and a scheme to buy the Nashville Ameri-can.

Colonel Cooper admitted that there were irregularities in his office of clerk and master-in-chancery, but said they were due to bad management and poor bookkeeping and that every dollar was made good. He admitted that Polk was first partner in the ventures named, but declared that he himself never handled a dollar of the money and had no knowledge that it was taken from the state's strong box.

attitude appropriate to the circum-stances. It is not considered likely that Great Britain and Italy would object to intervene at Belgrade in conjunction with France in order to preserve peace. The real key to the situation is, for the moment, Russia's, whose de-cision is eagerly awaited.

**TORONTO STILL SIDE-TRACKED**

C. P. R. Finally Decide Not to Put Us on Thru Line.

MONTREAL, Feb. 24.—(Special).—Of-ficials of the Canadian Pacific Railway have decided not to route their trans-continental trains via Toronto, instead of by way of Ottawa and North Bay, as at present.

The matter has been under serious consideration for some time, and the train service officials have looked into the pros and cons of the case very thor-oughly. It has finally been decided, how-ever, that the change would not be in the best interests of the company, and the transcontinental trains will follow their old route for the coming summer at least. The change would have meant practically cutting off Ottawa and North Bay from the transcontinental railway map.

If, however, Toronto, does not get on the main line, the new summer ar-rangements of the C.P.R. will offer great advantages to the Queen City. Very close connection will be made be-tween Toronto and Minneapolis via the Soo line at Sudbury, which will be a vast improvement over the present ser-vice.

**READY TO APPROVE TREATY IF CANADA IS SATISFIED**

LONDON, Feb. 24.—(C.A.P. Cable).—The British Government has been given to understand that the United States Senate is prepared to approve the waterways treaty subject to a declara-tion of the exact nature of the rights conceded to each side. The text of the declaration has been communicated to Ottawa. It is really only an explana-tion of what the treaty means. If Canada signifies approval of the mean-ing of the treaty as defined by the declaration, the imperial government is not likely to object.

**BRITISH CAPITAL IN CANADA.**

LONDON, Feb. 24.—(C. A. P.).—The Chronicle says that in 1908 exclusive of conversion loans nearly 430,000,000 of British capital went to Canada, and re-marks it is odd that tariff reformers who affect so much keenness upon col-onial preference, should shed tears at the investment of British capital in colonial development.

**APPROVES BILINGUAL PLAN.**

**record Sales**

It will please businessmen generally to know that we have already sold more Automobiles this season than any previous record, which is striking evidence of good times and gives promise of an unusually successful year. We never were more enthusiastic of styles and values both of

and are satisfied we are on the right side of every comparison. Reports from the Detroit Show this week state that more "Cadillacs" are being sold than ever before, and anyone wanting the best high-grade car for the money should place the order early to make sure of delivery.

All we ask is a chance to demonstrate to your entire sat-isfaction what "Cadillac" quality and value really means.

failure of his own political experiences of late, is now inspired with a spirit of vindictive rage to make trouble for all those opposed to him. In this wave of anti-Russian sentiment M. Izwolsky is held up as having supported Serbia.

This situation naturally cannot con-tinue long without a crisis. Intervention by one or several powers is warm-ly resented here. Such a procedure is professed to be anathema to the Austrian attitude is reflected in the official or-der. Samouprava, which boldly states that Serbia is well within her rights in carrying out her policy and re-sists Russian or any other country in-terfering. That about sums up the situation.

Rifaat Pacha, new Turkish minister of foreign affairs, is announced to ar-rive here Thursday. Germany stands fast and close with Austria whatever happens, while Austria will insist on an explanation from Serbia of her hos-tile attitude.

**BRITISH GOVERNMENT, HOWEVER, NOT AS APPREHENSIVE AS SOME OTHERS.**

LONDON, Feb. 24.—The British gov-ernment is not so apprehensive regard-ing the situation in the Balkans as are some of the other governments in Europe, judging from the indications in despatches received here from var-ious continental capitals.

The foreign office of course recog-nizes that an undue prolongation of the tension between Austria-Hungary and Serbia is dangerous, but it is hopeful of an early relaxation in the situation.

So far as is known officially here Germany has not declined to partici-pate in a joint action and negotiations still are going on with the view of a proffer of good offices.

**Berlin Not Excited.**

BERLIN, Feb. 24.—There is no rea-son to believe that an outbreak of war between Austria and Serbia is im-minent, according to the view held in the most authoritative semi-official circles.

The alarmist reports are regarded as being much exaggerated. It is ad-mitted, however, that the situation is not clear and will remain clouded unless those powers which like France are striving to maintain peace, make their voices heard at St. Petersburg and induce Russia to notify Belgrade in the event of war Serbia can-not rely upon either direct or indirect Russian support.

Whether Russia and the other pow-ers will use their influence in peaceful support of Serbia, it is believed, de-pends to a great extent on their suc-cess in bringing the Servians to a calm

TARIFF OF THE COLONIES

Principles of the Tariff Reform Movement in Britain.

LONDON, Feb. 24.—In view of Balfour's evident adherence to principles of tariff reform policy as enunciated by the tariff commission and his possible return to power at an early date, importance is attached to a statement at Hawick by Hewins, secretary of the tariff commission.

Hewins added that tariff reform had two great principles in view, first to safeguard the self-governing powers of the different states of the British Empire, the other was that all the states of the empire should minister to each other's development by closer reciprocal connections.

REAL PRIZE FLOWERS AT CARNATION SHOW

Beautiful Exhibits Displayed in St. George's Hall Including Six Absolutely New Varieties

Six varieties of carnations that have never been exhibited in Toronto before, and that have not as yet been placed on the market, were brought to the attention of local horticulturists yesterday at the Flower Show in St. George's Hall, conducted under the auspices of the Toronto Horticultural Society of the Gardeners and Florists' Clubs.

The exhibition was free and brought out society folk in throngs. The new varieties came from Oakland, Md.; Richmond and Indianapolis, Ind.; and Northport, Long Island; as well as from the Dale Nurseries at Brampton, and from local florists.

A particularly notable specimen of carnation bearing bloom 3-1-2 to 4 inches broad, was the "Mrs. Chas. Knopf," a development on the "Encore" brought about thru hybridizing.

Possibly the showiest and most interesting vase was the carnation exhibit of Wabson & Sons Company of Oakland, Md., the "Toreador," which was awarded the gold medal. It displayed unusually large corolla blooms with white standards and bearing the old "pink" serrated petals with the old clove scent.

Big Shed Collapsed.

PRESTON, Feb. 24.—A large shed, 80 by 150, in course of erection, adjoining the Preston Car and Coach Co. works, collapsed to-day. A number of men were at work, but all escaped. The damage will be about \$200, the loss of the men's time to the work that had been done.

THE RUSSELL automobile is made in Canada

—made to meet the conditions on our Canadian roads by men who know what those conditions are.

The Russell factory is here, in the midst of its field, not a thousand miles hence; here to stand back of the car it builds—here to maintain its reputation—here to make good its guarantee.

The Russell branches are at the important centres—the Russell agencies throughout the country.

What does all this mean to you? It means that when you buy a Russell you buy a car that is built to last—not merely to sell.

It means that every dollar you put into that car pays for quality, not importing expense.

It means that no matter where you tour you will get intelligent care for your car.

And if you meet with an accident and need a new part, you can get it at once—no waiting for weeks with your car out of commission—no customs delay or duty charges.

When you study the Russell proposition—when you study the Russell car—you will know why the Russell is "The Car of the Year."

WAS GRANTED.

Two cases of non-support were opened in police court yesterday morning. Mrs. William Robertson, whose husband was arrested Tuesday night because he failed to turn up earlier in the day, swore that he had not supported her during the last three months. The case was adjourned to the 26th. Mrs. Thomas Hale complained that her husband had sent her a letter with 100 kisses, but no money. An order of protection, separation, etc., was granted.

LEGISLATURE WILL HELP HAMILTON ON POWER

Bill to Permit Citizens to Vote on the Bylaw When Ready—Membership of Committees.

Yesterday was another busy day in the legislature, which sat assiduously all afternoon, passing fourteen bills through committee. These were some of the revised statutes already reported.

TO THE POLICYHOLDERS OF THE

Canada Life Assurance Company

While the year 1908 has been in some respects an uneventful one in life insurance generally, the Report and Balance Sheet shows that in all that goes to make for stability, strength and permanent progress, the Company has enjoyed a large measure of prosperity.

The three outstanding features of the Report for the year have been a decrease in the rate of expenses, a decrease in the rate of mortality, and an increase in the rate of interest, all combining to bring about a very gratifying gain in surplus.

THE YEAR'S BUSINESS.

The number of applications received during the year was 5,445 for new assurances, amounting to \$11,875,883. The policies issued (including revivals) were for \$11,226,040.

It is very gratifying that the Canadian new business paid for exceeded that of the previous year. The amount obtained in 1907. Owing to the disturbed financial conditions prevailing throughout the United States during the Presidential election year, and also to the fact that the Company had less territory under agency contract, the new business from the United States was somewhat less than in the previous year.

The business in force upon the Company's books at the close of the year was \$120,629,360.50, upon 56,937 policies. It may be of interest to point out that this amount includes over \$3,400,000 which has been added from time to time by the Company to the sums assured of those policyholders who elected to apply their profits to increase the face of their policies.

RECEIPTS AND PAYMENTS.

A survey of the income and disbursements shows that the cash received for premiums and annuity considerations was \$3,745,541.44, while the income from interest, rents, etc., amounted to the very satisfactory sum of \$1,689,501.10, making a total income of \$5,435,042.54.

THE EXPENSES.

A substantial reduction in the amount of expenses of management has again been effected.

THE ASSETS.

During the year the ledger assets increased by \$2,410,193.66, exclusive of the appreciation in market values, and the total assets, as shown by the balance sheet, now stand at \$36,713,115.24. In view of the large payments made to policyholders, the Directors consider this increase very satisfactory.

THE ACTUARIAL VALUATION.

A detailed valuation of the assurance and annuity contracts of the Company has been made as at 31st December last, the basis of valuation being as follows: For all participating assurances issued after 31st December, 1899, the H.M. 3 per cent basis; for all other assurances, H.M. 3 1/2 per cent, and for the annuity contracts the British Government Annuity Experience Table, with interest at 3 per cent.

GROWTH OF THE CANADA LIFE

The table hereunder shows the steady, solid progress that has been made in building up one of the strongest, soundest and most useful institutions in Canada:

WANT SUNDAY CARS

But Premier is Not Encouraging—A Three-Fifths Clause Asked For.

Nothing could illustrate the inconsistency of the Lord's Day Alliance better than its request that Sunday cars should not be permitted without a three-fifths vote of the people, while at the same time the government is requested by its associate organization, the Ontario Alliance, to abolish the three-fifths vote in the local option contests.

HURON OLD BOYS

The Huron Old Boys' executive met at the Rossin House on Saturday evening and completed final arrangements for the annual at home on May evening, March 7, at the Temple Building.

A deputation from London, Port Stanley and St. Thomas, including F. G. Rumball, president of the Southwestern Railway Co., Capt. Robson, City Clerk George Doherty and Mayor Geddes, St. Thomas, waited on Premier Whitney and other ministers yesterday afternoon at the Ontario Hotel.

What's the Matter With the Blood?

It is thin and watery, the lips and gums run and raw. The food fails to supply the necessary nutrition and to get well you must use such treatment as Dr. Chase's Nerve Food.

CANADA'S COFFEE SUPPLY

Will Not Be Affected by Any Duty U.S. May Impose.

"Fearing a tariff on coffee, four million bags have been rushed here and stored. Canadian warehouses are also filled up," says a New York despatch.

HOW OLD IS YOUR BABY?

Any baby under three years of age is eligible to enter for one of the 46 beautiful prizes being competed for in the Borden's Baby Contest.

PROHIBITION IN NOVA SCOTIA

Temperance Delegation Wait on Premier—Told to Adopt Scott Act.

HALIFAX, N.S., Feb. 24.—One hundred delegates of the Nova Scotia Temperance Alliance waited upon the provincial government and presented a petition for the enactment of a provincial prohibition bill.

GRANTS FOR HOSPITALS

Insufficient Deputation Waits on the Provincial Secretary. Increased demands made on the hospitals was the main reason for the request for a larger grant from the province, urged on the provincial secretary yesterday by a deputation from the Hospital Association.

SINGLE TAXERS DINE

And Are Addressed by J. Z. White of Chicago.

Three times the anticipated number turned up at the Single Tax Association banquet at Williams' Cafe last evening, the ladies and gentlemen present numbering 120.

## Mining Markets Shade Easier Otisse and Hargrave Steady

### Silver Leaf Loses Half of Yesterday's Gain—Temiskaming Weakest Issue—Buying Power Limited

World Office.  
Wednesday Evening, Feb. 24.  
Less activity occurred at the local mining exchanges to-day, and in connection with a decline of the two leading stocks, Nipissing and La Rose of the New York market, there was a general weakness throughout practically the whole list.

The losses in any one issue were not of any great consequence, but the buying power was exceedingly limited, and forced sales, when such took place, had to be made at reductions. The quick movement in Silver Leaf, which came into effect yesterday, was of short duration, the shares selling off again to-day with the final result that half of yesterday's gain was lost.

One of the weakest issues in the market was Temiskaming, which sold down to as low as \$1.51. Most of the trading to-day was concentrated in Silver Leaf, which early sold up to 16 and at the close was at 14. Considering the weakness in Silver Leaf, the heaviness of the higher-priced shares, the market on the whole acted well. The newer stocks, such as Otisse and Hargrave, were practically nothing in the day's business, and Hargrave at the close was bid up as high as \$2. To-day's irregularity in all the market was made to a certain extent by a more active condition in the United States, which is not likely that any material advances will be witnessed.

### SILVER FIELDS ATTRACT

Commission From New York City Will Investigate.  
Interest in the silver fields of Ontario is broadening and the press of the United States is commencing to take cognizance.

The Buffalo Times has been devoting some attention to the camp and is producing an illustrated New York Cobalt and Gowganda early in March. Yesterday a commission representing the New York Morning Telegraph arrived in the city and made a close study of Canadian mining conditions. On the commission are A. F. Matthews, manager of the New York Wall Street bureau; Edward Cope, G. C. Taylor and Albert Blum.

Mr. Taylor states that interest in Cobalt and Gowganda and the silver fields of Ontario is spreading in New York City.

### CONTROL IS SOUGHT

Removed Offer for Control of Badger Company.  
There was a well-founded rumor in mining circles yesterday that control of the Badger property was being sought by a party of New York people. A company of New York financiers were on the Badger property and inspected it last week, and this no doubt accounted partly for the rumor. It is also asserted that the price suggested for control of the property is 75 cents a share. This is above the price at which the stock is selling at present, but control of course would have to be paid for at a higher figure than the bidding price. At the office of the Badger Company here the rumor was neither denied nor confirmed.

### BLOCK OF 50,000 SHARES

Hargrave Stock in Exceptional Demand at Firm Prices.  
Hargrave opened at 60-1-2 this morning, in sympathy with the generally weak market. The next sale was at 61, after which there was a gradual rise to 62 to 63. The close was a large demand for it at the close, there being buying orders for probably \$100,000 of Hargrave. New York bought again, this time taking a block of 50,000 shares. Bids at the close were probably to cover the sale to New York. The source of a single order of such a size as 50,000 shares can only be guessed at, but it is generally felt that it could come from only one quarter, and that quarter evidently knowing as much or more of the Hargrave than the Hargrave people themselves.

The proposal to take Hargrave ore out through the Kerr Lake workings has, it is understood, taken definite form, and it looks as if it would be satisfactorily worked out.

### QUEBEC SILVER FIELDS

Are Said to Have Equal Possibilities With the Ontario Camp.  
"On the Quebec side, in the Township of Fabre, across the Montreal River, opposite 'Silver Leaf,' are Messrs. Murray and Thorburn, of the 'World,' who you find silver veins the equal of any found in Ontario." Mr. Murray has just returned from the Jesse Fabre mine in Fabre Township and reports the finding on the property by T. M. Mitchell, M.E., the resident engineer, of twelve veins of silver and cobalt indicating great values.

Mr. Thorburn showed The World a bit of silver ore assaying 500 ounces to the ton, which was picked up on the Greenshield, an adjoining property from the Copland, which is as like the Chambers-Perland ore as two peas.

Mr. Murray says that he and his associates have resolved to work the property with renewed energy. For ten years they have been getting out copper ore, but these latest discoveries prove the property to be highly mineralized also in silver and silver will be their new quest from now on.

"There is a complete mining plant on the Greenshield," Mr. Murray reports. "From surface indications I have every reason to believe they will develop into great silver veins."

## NO LIQUOR LEGALLY IN THE NEW SILVER CAMPS

### Speculators Said to Be Taking Chances and Selling Sealed Goods.

Probably no law passed by the provincial government in relation to the mining fields of Ontario has met with more general approval among employers of labor than the law with relation to the sale of liquor in the camps. Men who have been connected with the mining fields of the western states, British Columbia, Alaska and the Yukon claim that a great deal of the trouble between employer and employee has been brought into being by the liquor which was brought into the camps and sold freely among the mining men.

As in the western mining camps, a number of men have appeared on the scene at Gowganda who find that they can make money easily by bringing liquor into the camp. Any man who has been in Gowganda for more than a day, and has had his eyes open must have been aware that a certain amount of liquor is being quietly sent to people who desire to purchase it. It is said that the liquor is brought in in sealed bottles which cost wholesale about 80c each and are retailed at \$3.00 a bottle. As nothing else than bottled goods is sold to be sold, this at least eliminates the injury which would be accomplished thru selling adulterated whiskey by the glass.

The ability of workmen and miners to secure liquor in Gowganda City has been noted by the management of the Bartlett Mines and other properties in the camp, and an order was issued recently by the foreman that no liquor should be brought into any of the ten Bartlett properties on penalty of instant dismissal.

At Elk City, there is no doubt a certain amount of liquor is being smuggled thru from time to time, but the recorder, Mr. Torrance, has made several seizures, and may be said to have traffic fairly well under control.

## NEW YORK CAPITALIST IMPRESSED WITH OTISSE

S. W. Ehrlich of New York Classes Otisse With Kerr Lake and Crown Reserve.  
S. W. Ehrlich, a capitalist, of New York, who is heavily interested in Kerr Lake and Crown Reserve, and who was mainly responsible for demonstrating the big values of these properties to other American capitalists, was in Toronto yesterday.

He is a great enthusiast on Cobalt and the other northern silver camps, and recently has taken a strong liking for Otisse.

"Yes," Mr. Ehrlich said, "there is a future ahead of many of the Ontario silver companies. From the first time I took an interest in the Cobalt properties my confidence in the silver district has grown. My financial friends have all made money in the Cobalt camp, and I am not directing their attention to the Montreal River district."

"Since my people got into Otisse, from all the information they have received about the property, they are more than pleased with their investment. Mr. Ernest Witsee, who is now in Mexico for a few days with Mr. Marcus Daly, whose father owned the Bartlett mine in Butte, is so enthusiastic about the Otisse that after the examination another inspection of the property, which he believes will prove to be amongst the first rank of the mines of Upper Canada."

Strange to say, the fame of the Otisse has extended in directions I did not dream of, as there are investors now not alone from all parts of Canada, but from all over the United States, who seem to feel that a property with the showing that the Otisse has with so little development, backed by the judgment of such men as Messrs. Loring and Witsee, is sure to make a record, and will do as much

## "MY CORNER"

A SQUARE DEAL IN MINING MEANS: INCREASE OF PROFITS AND REDUCTION OF RISKS.

INCREASE OF PROFITS is based on capitalization—it must be low enough to permit the investor sharing in the gradually increasing value of the properties as development progresses.

REDUCTION OF RISKS is based on the earnest desire to give a "square deal" to all, have solved the problem in the following manner:

NEUMANN & COMPANY control eight claims in GOWGANDA, of which three of the best located claims were put into

## GOWGANDA APEX UNDERWRITERS

Judging from rock formation, location and surface showings, they will make shipping mines with further development, which has been started and is now in progress.

IF nature, on the other hand, displaced at depth the veins that show on the surface, then NEUMANN & COMPANY, in order to reduce the risk taken by the investor, will cause the transfer to GOWGANDA APEX UNDERWRITERS, free of further cost to its members, of property after property from the remaining five claims, four of which comprise the famous Jack Munro, Hammell and Hackett locations on the north ridge of Gowganda and east of Spawning Lake, until GOWGANDA APEX UNDERWRITERS and its members become the owners of at least one valuable shipping property in said district.

## AS TO THE REDUCTION OF RISK:

In a new camp like GOWGANDA it is impossible to entirely eliminate the element of chance—it prevails, and will prevail, no matter what anyone says, until development has advanced sufficiently to expose to view measurable ore of a defined value. It is impossible to look into the bowels of the earth—hence no man can guarantee the permanency of mineralization at depth. The risk, therefore, incurred at the present time by an investor in Gowganda properties—all of which, remember, are still "prospects"—is beyond the remedial power of any one individual.

However, "where there is a will there's a way."

RAILWAYS NEED OF THE SILVER FIELDS

Deputation From Sudbury to See Minister of Mines—Want Policy Revealed.

The whole question of transportation into the silver fields of Ontario is about to be laid before the minister of lands and mines, Hon. Frank Cochrane, by a deputation from Sudbury, consisting of Mr. O'Connor, president of the board of trade, and Mayor McLeod, who arrived in the city yesterday.

"The five weeks of the winter roads in the country will be broken up and thousands of people will be locked up in a country which will be inaccessible for weeks, and then only by pack trail or canoe. Unless wagon roads are constructed the development of the mines will be retarded for a whole year," said Mr. O'Connor to The World yesterday.

Chancellor Meredith's Judgment in Recent Test Case—What Must Be Done to Make Things Legal.

The judgment of Chief Justice Sir William Meredith in the cases re Garvin and re Cobalt Mines, is herewith given in full. Being the first decision, in test cases, under the Ontario Companies Act, since its amendment, it will be of great interest and value not only to the legal profession but to all who have business propositions coming under the provisions of the act.

PROSPECTOR A GOOD ASSET

His Labors Swell Revenues of the Province. Prospector writes to The Daily Northerner as follows: "There seems to be a feeling in some sections that it is the special aim of the prospector to destroy the forests, that his work is made easier by burning of the moss and shrub to expose the surface. While that may be true in some cases I know from experience that his work is done with perfect safety, and nine-tenths of the prospector know that a bush fire is the worst thing that can happen to them."

WELL DEFINED VEINS ON GAVIN-HAMILTON

Thirteen Veins Uncovered on Property, Four of Which Carry Native Silver. ELK LAKE, Feb. 19.—(From the Man up There.)—The shaft at the Gavin-Hamilton property, which consists of 79 acres, being the east half of the south half of lot No. 1, con. three, in the Township of James, situated about three and a half miles in a southeasterly direction from Elk Lake, is now down about 25 feet. This shaft has been sunk on what is known as vein No. 5, which is a calcite vein about 14 inches wide, and vein matter carrying native silver has already been taken out. The work is at present being done by hand, but a complete compressor plant has been ordered and will be delivered to the property before the winter roads break up.

MAKE YUKON KNOWN

Who can say that the foregoing caption should not be a slogan of Yukon? The live Yukoners appreciate the great future of this sub-Arctic province of the Dominion, and know that with the proper amount of capital and men applying themselves this country will come to its own. The application of mind as well as muscle is much needed to hasten the development of this region. That there are numerous beneficiaries should buckle to the task of making known this region, and hastening its great destiny, cannot be gainsaid. The press of Dawson always has been a strong advocate of the development of this country, but there are others who should participate and assist. Over 100 tube mills are now running, and the statistics for September was 6.4 tons. Some of the heaviest stamps are: Cinders, Deep, Jupiter, and Knight Central, each 160 lbs.; Bantjes, Consolidated, Geduld Proprietary, and Volsteads Cons., Deep, 1650 lbs. each. The installation of even heavier stamps is contemplated. The South African Open Syndicate has located four new diamond areas in the Bemba district of an aggregate extent of 13 square miles.—Dawson Weekly News.

Share Gowganda's Silver Wealth

EVERY man may not become a millionaire, but all may be in comfortable circumstances, if they will accept the opportunities when presented. To-day opportunity is knocking at the door of the man of moderate means, the individual who desires to share the wealth of the vast treasure vaults in the famous silver fields of new Ontario. These are presented on a ground floor basis—the only safe and sane basis in which to invest your money in this or any other mining field. You become an owner—not of a few shares of stock in an over-capitalized company—but an owner of the real property and all the silver and valuable mineral it contains. You direct the expenditure of your own savings—the money goes into development of properties—the returns are paid to those men only who have invested real money.

Ground Floor Proposition

One-half interest in three mining claims in diabase formation can be had for \$600 and doing the statutory work. The prospectors who staked these properties prefer retaining a 1/2 interest. They were among the first to enter this territory and believe the claims are valuable. Two splendid properties in Shining Tree Lake where big discoveries have been made can be had on the following terms. The prospectors will accept \$1500 for half interest (after inspection of property), providing the purchasers will provide \$4000 for work on properties. These claims have only recently been staked, and show many veins with large quantities of Cobalt bloom, calcite, etc. Owners state they are as good as anything was in Gowganda at same stage of development.

Gowganda Silver Claims For Sale

Two splendid silver properties adjoining the famous O'Kelly claims, with the rich veins of the latter located on them. These properties were the first staked in that locality and are the choice of the district. A splendid company proposition on fair terms. One forty-acre claim adjoining Mann property. High silver values and excellent location. One of the good ones that is still in original owner's hands. Three claims in Lost Lake section, with native silver vein traced 500 feet. These properties at \$75,000 are very cheap and will be snapped up quickly. One forty-acre silver claim in Bushkong Lake section, with big silver discoveries. This is reported to be a first-class proposition and we have requested our own engineer to report on same.

Silver Lake District

In the section which is proven we offer a silver property considered equal to any in the district. Buyers know the value of Orlise, Orlise-Curry and other mines in this locality, and understand what is meant when we say good as the best. Write or wire for particulars of any property. COBALT-GOWGANDA

There are no safer investments in the mining market than HARGRAVE and SILVERS, Limited. In a weak market these stocks are advancing. They will go higher. Many Cobalt stocks can be sold and replaced with HARGRAVE and SILVERS, Limited, to good advantage. A. J. BARR & CO., 43 Scott St. TORONTO Phones Main 5492 and 7748. Members Standard Stock Exchange.

GOWGANDA

In view of the recent developments upon the property no further interests will be sold in Archie Close claim, M. R. 239. Particulars of my next offering will be published Saturday, February 27. JOHN F. MILLS, King Edward Hotel, Toronto

LECTURE ON ANNUITIES

Dr. Samson Will Explain Government Scheme This Evening. Dr. Samson, chief of the Dominion Government lecture staff, will speak in the University Hall this evening on the new scheme of government old age annuities. The object of the plan is to encourage thrift among those who most generally need to make provision for their old age. Dr. Samson's lecture will be under Government House patronage. An orchestra will be present, and the gallery will be reserved for ladies and their escorts. The lecture is entirely free. Chicago Live Stock. of fact, where there is a dispute, but the question of fact should be determined by the magistrate and the question should be stated in this form: Assuming the facts to be, stating then just as they are put in the case which has been stated, is the conviction properly made. There will be no costs, I suppose, of this appeal. Signing of Advertisements. Mr. Ferguson: Will you lordship, for our information, state in the first case, Mr. Mulvey, I understand, in practice contends that where a prospectus is filed and signed, as required by the act, our advertisements need not be signed, so long as they comply with the act. I understand that each advertisement must be signed and filed. His Lordship: I think not; and I intended to mention that. That makes against the contention of Mr. Poussette. "When any such prospectus as is mentioned in this section is published as a newspaper advertisement, it shall not be necessary to specify the names of the original incorporators and number of shares subscribed by them." That, I think, clearly dispenses with the necessity for publishing the names of the subscribers, and that is what then upon the prospectus filed with the provincial secretary. Mr. Ferguson: The question is whether the directors for the time being have to sign the advertisement. His Lordship: As I have said, I do not think that it would not; but I think you had better be on the safe side. You see the words are "every advertisement"—it includes circulars or advertisements of any kind, and I am afraid it is within the act. Suppose it says "Company A. B. offers for sale 100,000 shares of \$1 each. Apply to so-and-so," that certainly would be a prospectus within the meaning of the act, and the subscribers "Every prospectus issued" shall state so. Mr. Mulvey: This wording of the act is from the English act, and it was thought advisable not to vary from the wording of that act, excepting where the procedure in Ontario was different from that in England. His Lordship: Then in the Garvin case the answer is in the affirmative, and there will be no costs. ENGLEHART BENEFITED Gets Some of Business of the Mining Rush. ALTHO the sleigh road from Sudbury to Gowganda has been completed and considerable traffic is reported going that way yet the number of passengers going thru here does not seem to diminish, but is getting greater every day, says the Englehart News. On Monday afternoon the waiting room at the station was filled to overflowing with passengers waiting for the train to leave for the north and so heavy lately that the T. and N. O. have had to put an extra coach to that train and are taking great pains to keep the road clear now. Some business comes to Englehart from this traffic as we heard some men discussing certain purchases made here. Passengers have also to be fed either at the restaurant at the station or at those about town. We expect that there will be a big rush at about the last of the sleighing as numbers will want to be there when the snow leaves. It is to be hoped that enough supplies will be got in before then as the roads will be almost impassable in the spring. ONTARIO HAS EVERY MINERAL It Also Supplies More Lumber Than Any State in the North. At the Central Y.M.C.A. Thomas W. Gibson, deputy minister of mines, gave a lecture on the mining camps of Ontario. The southern part of Ontario produced petroleum, natural gas and salt, and the central and northern parts produced copper, sulphur, gold, lead, zinc and nickel are to be found, and few people in Ontario realized how rich the country was in minerals. Iron is found near Lake Temagami, and is mined and shipped to the west at present to work at a profit, but north of Sudbury iron ore is found which is more easily handled, and it is hoped that some shipment will take place. Iron has also been discovered on the east shore of Lake Nipigon, in both magnetite and hematite form. In 1883, when the C.P.R. built their road thru Sudbury, Ontario's first nickel mines were discovered. They contained copper as well, and for the most part in large quantities. Now Eczema, Salt Rheum. Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed. The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable. The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties. No other remedy has done, or can do, as much for the sufferer as Burdock. It is the great number of testimonials, as our thousands of signed testimonials, can testify to. Mrs. John O'Connor, Burlington, N.S. writes:—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine." For sale by all druggists and dealers.

AFTER SLUMP A RECOVERY MARKETS ENJOY A RALLY

Wall Street Has a Sharp Rise After the Break—Toronto Market Dull, But Steadier.

World Office, Wednesday Evening, Feb. 24. The rally in New York stocks today was a timely assistance to the speculating end of the Toronto Stock Exchange. Yesterday's decline in the home market did not force much liquidation this morning, but more would have occurred had the New York securities not shown a steady undertone early in the day.

THE DOMINION BANK

NOTICE is hereby given that a Dividend of Three Per Cent. upon the Capital Stock of this Institution has been declared for the quarter ending 31st March, 1909, being at the rate of Twelve Per Cent. on the amount of the share, and that the same will be payable at the Banking House in this city on and after Thursday, the first day of April next.

NERVOUSNESS PERVADES THE MARKET.

World Office, Wednesday Evening, Feb. 24. Nervousness pervaded the Toronto Stock Exchange to-day. Many outside operators came to the city this morning with the idea of selling out. A species of steadiness in the speculative stocks brought about a revision of this idea, and there was not, therefore, any liquidation of moment.

GARBAGE REMOVAL PLAN UP AGAINST OBSTACLE

C. P. R. Asks Right to Enter Ashbridge's Bay as Condition of Co-Operation

The C. P. R. will not consent to enter into any scheme of co-operation with the city and Grand Trunk regarding the removal of city garbage, unless an arrangement is made whereby the former railway can have rights over the spur-line into Ashbridge's Bay.

A very serious obstacle now seems to be in the way of the realization of Mr. Rist's plan of having the garbage of that section of the city north of Carlton and College-streets conveyed by steam railway from the proposed ground in Ashbridge's Bay.

The matter came before the board in considering Controller Geary's idea of creating such a fund for the street cleaning department. It was agreed that any such fund should be founded mainly on contributions of the men.

Secretary-Treasurer: E. A. MUMFORD, Montreal

The Montreal and St. Lambert Terminal Developing Co. owns some Eight Million (8,000,000) square feet of land, to be improved for residential lots in St. Lambert, which is a growing town situated on the St. Lawrence River directly opposite to and connected with the City of Montreal by the Victoria Jubilee Bridge of the Grand Trunk Railway.

The terminal yards of the Grand Trunk Railway, plans of which have been fully approved by the Board of Railway Commissioners, will occupy about 100 acres of land, which is practically surrounded by the property of this Company. This makes the property a most desirable locality for home sites for the shop and terminal workmen employed by the four railways, viz.: THE GRAND TRUNK RY., THE INTERCOLONIAL RY., THE CENTRAL VERMONT RY. and DELAWARE & HUDSON RY.

The Delaware & Hudson Ry. is also contemplating constructing at St. Lambert a large terminal yard for its Quebec extensions.

All of this means a large influx of railway employes of the better class, such as skilled mechanics and clerks holding permanent positions and requiring dwellings in St. Lambert.

The Southern Counties Electric Ry., now under construction from St. Lambert to Montreal via the Victoria Bridge, will pass through the Company's property, and will give easy and rapid access to the centre of the City of Montreal. This should make this property considerably more attractive as the estimated run from St. Lambert to the centre of the City of Montreal will be about 15 minutes, and the rates will be as low as they are to and from other suburban sections around Montreal.

Manufacturers will also locate at St. Lambert, as every facility they would require is right at their door, such as light, power, transportation, street railway service and freight rates similar to Montreal.

The eight million square feet of land owned by the Company will be divided into about two thousand three hundred (2300) lots of two thousand five hundred (2500) square feet, and should sell at from 8c to 20c per foot, or approximately \$712,500.

#### APPROXIMATE ESTIMATE OF EARNINGS

Judging from results of similar companies, and estimating conservatively the earnings on sales of cottage sites, etc., would bring approximately the following:—

500 lots of 2500 square feet, at 8c.....	\$100,000
500 lots of 2500 square feet, at 10c.....	125,000
500 lots of 2500 square feet, at 12c.....	187,500
500 lots of 2500 square feet, at 15c.....	150,000
300 lots of 2500 square feet, at 20c.....	150,000

Total.....\$712,500

Taking the above as the minimum value of the Company's property, these Bonds are amply secured as to principal and interest, together with a large surplus to apply towards dividends on stock.

Applications for these Bonds must be made to the Bank of Toronto, Board of Trade Branch, Montreal, Que., or the undersigned, who will furnish copies of prospectus and forms of subscription on application. No fractional shares of stock can be issued, so where an odd amount of Bonds is subscribed for, the subscriber will be entitled to the bonus of fifty per cent. of the next lower even amount.

#### Subscription List Opens March 1st, and Closes March 6th, 1909

All applications for Bonds must be accompanied by a deposit of Ten per cent. (10 per cent.), and the balance will be payable 15 per cent. on allotment, 25 per cent. in 30 days, 25 per cent. in 60 days and 25 per cent. in 90 days after allotment. Where a smaller number of Bonds is allotted than is applied for, the surplus paid on application will be credited in reduction of the balance due, and in cases where no allotment is made, the amount deposited on application will be returned.

**Chicago Cattle.**  
Wheat—Higher foreign cables and excellent cash enquiry served to create further short covering. July was the leader with shorts eager buyers at advancing prices; trade has at last the possibility of the long side of July. Principal holders of the May are inactive at the moment, but express confidence in material by higher level for the future. On all breaks buy July.  
J. R. Heintz & Co. wired R. B. Holden: Wheat—The wheat market is becoming broader every day. We have advised for some time past to keep off the short side of both July and September. The short interest is extremely large and the shorts will undoubtedly receive the same punishment that the bears in May have had to contend with. It looks as though prices would be forced higher and the shorts made to cover.  
Corn—Firm. Shorts have been good buyers. The strength in wheat has helped them, but should we get a fair set-back we advise purchases.  
Oats—The May longs are very confident of higher values. We advise against selling this market.

**New York Dairy Market.**

**Train Topples Over Cliff.**  
Fall of 100 Feet Demolishes Cars and Kills 25 Passengers.  
GUAYAQUIL, Ecuador, Feb. 24.—A passenger train on the main line bound north was to-day thrown over a cliff 100 feet high, at a point near Rio Bambuco, and crashed to the bottom of the ravine. All the cars were practically demolished. Twenty-five persons were killed and 40 were wounded.  
The accident was caused by a displaced rail.

**Anglican College for British Columbia.**  
LONDON, Feb. 24.—(C.A.P. Cable.)—A big Mansion House meeting was held to-day to commemorate the Jubilee of church work in British Columbia, and a further appeal was made to establish St. Mark's College for the purpose of training the clergy, to be attached to the provincial university and to be under the control of representatives of each diocese in British Columbia. The cost would likely be \$20,000.

**Tobacco Habit.**  
Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires touching the tongue with it occasionally. Price \$2.00.

**Liquor Habit.**  
Marvelous results from taking his remedy for the liquor habit. Sake and inexpensive home treatment; no hypodermic injections; no public house time from business, and a cure guaranteed.
