RENEW FIGHT FOR

EQUAL PRIVILEGE FOR BRAMPTON TRAVELERS COMMUTERS' RATES

Chairman Mabee of Dominion Railway Commission Rather Inclined to Protest at Hearing Argument.

G.T.R. TRAFFIC AGENT QUIZZED BY MR. DRAYTON

Brampton's application for an order to compel the Grand Trunk Railway to provide commutation rates to daily passengers to and from Toronto was passengers to and from Toronto was not received with very good grace by Chairman Mabee of the DominionBoard of Railway Commissioners yesterday afternoon. His lordship jumped on r. W. Wegenast, who represents the town, right off the bat, with the suggestion that the case had virtually been disposed of in the former application charging discrimination against Brantford as compared with Oakville. "Our operating department found then that there was no unjust discrimination in favor of Oakville," he asserted, "and our secretary advised you that no beneat could be derived by reopening the case. In view of what the supreme court did, how does it stand? Under section 341 or the act, we found that the railway had the right to make these rates and to use its own discretion. They have already its own discretion. They have already satisfied the board that the merchants of the town had requested the low rates to be abolished when they were in Promises to Safeguard Liberties of

vogue before."
Corporation Counsel Drayton, who is presenting a similar application on be-behalf of Toronto, at the request of sevpenal of Toronto, at the request of several nearby municipalities, interposed that Mr./Wegenast's old application charging discrimination had been dropped and this was a new one. He requested that the Toronto and Brampton cases be heard jointly.

"I think the Toronto application is the only one that should be on the list," replied Justice Mabee. "If the city should succeed, it will include Brampton, won't it?"

"I think the Toronto application is messages to the colonies and India, somewhat similar in style to the message which he addressed yesterday to the nation.

NORTH TORONTO, May 23.—(Special).—The following will represent the Bedford Park cricket cfub in an all-day match against St. David's at Leslie Park to-morrow, 24th: D. Gunn, T. Thorne, W. Charles, K. Ellis, H. Hesp, C. Ballard, R. Clear, R. Gunn, A. Jupp, J. Watts, G. Thompson, R. Young, C. Clarke, E. Hunt.

The club will meet to-morrow at the Bedford Park P. O. at 8.45 sharp. The club play their first league match on their home grounds Saturday afternoon. Interest in the new club is growing apace, and all the games will be watched with interest.

The annual financial meeting of the Davisville Methodist Church, held to-night, the last preparatory to the district meeting, showed a most prosperous year. Davisville Methodist Church has this year cleared off the mortgage and a meeting will be held on Wednesday night to decide as to the date of burning of the same. No less than 41 new members have allied themselves with the church, leaving a net gain of 16. R. E. Shorey will be the delegate to the district meeting. Fully \$400 has been raised, all paid toward redecorating the church, and altogether inder the ministry of Rev. Mr. Robinson, the church has made great progress.

If the reports regarding to night's meeting of the North Toronto Town Council, as submitted to The World, arg correct, the proposal to increase the rate of 7 cents per line to 10 cents re the bylaw to acquire the Stibbard property, the action of Councillors Lawrence and Murphy is unparalleled. That any proposed change would receive their support is inconceivable, but this is said to be supported by the facts of the case. THE BEST LOCATION IN AN IDEAL SUBURB

"ON THE HIGHLANDS OF TORONTO"

ALEXANDRA GARDENS

North Toronto is recognized as Toronto's high-class residential district, and Alexandra Gardens is acknowledged to be the choicest location in that section. The certain promise of a profitable investment in property in Alexandra Gardens is evidenced in the number of fine homes that are already located to the north and south of the Gardens-in the activity in real estate throughout the section, in the amount of interest that is being exhibited by prospective home builders in Alexandra Gardens, and by the many handsome buildings designed for erection thereon, and upon which building operations will be begun in a few days' time.

So sure are the owners of Alexandra Gardens that this property will increase in value that they are prepared to extend very liberal terms to a limited number of purchasers of lots who desire advances to enable them to build homes. The building restrictions are such as will ensure the erection of fire-proof dwellings of neat architectural design.

O.J.C.'s Spring Meeting of Seven Days Opens To-day

Note and Comment

The first plate of 52 guineas donated by His Majesty King George V. will be run for this afternoon at Woodbine Park in conjunction with six other races, the lot to comprise the opening card of the Ontario Jockey Club's spring meeting of seven days.

Late reports from the Woodbine would seem to indicate an open contest, tho the best informed are still sanguine that Mr. Seagram's Tollendal, or Jane Shore, will earn the brackets, regardless of the good reports of the Valley Farm Platers, Sandy Kirkwood, Nick Smiley's Cormorant gelding, is allowed to be a good mudder, tho a fine morning should leave the track at 4.30 no worse than fair.

The betting will be open with fifty sixty bookies on stools on the lawn, re winners being paid off at boxes in e old shed.

Serge Suiting SPECIAL

Regular \$20, Reduced to

ON Wednesday morning we start a ONE DAY Sale of Serge Suitings that should interest every man in this city. Think of it. At the very begin-

ning of the season we have reduced the price from \$20 to \$15-a clear saving of a five dollar bill. And remember we are emphatic in saying that while \$20 is our price, other good tailors would get \$25 for similar fabrics.

The reason of this special offering is that we have an immense stock of these blue and black serges. To bring our stock to normal conditions we have decided upon this step. The fabrics are both Irish and English Serges, in blue and black, fine weaves, and rough finish—as you prefer. When we made this same offer two weeks ago—there were hundreds of dollars' worth sold. The values are extraordinary indeed. This will likely be the only "Special" in Serges this season and we want you TO COME in and get the benefit of it.

"Davis' Perfection" 10c Cigar

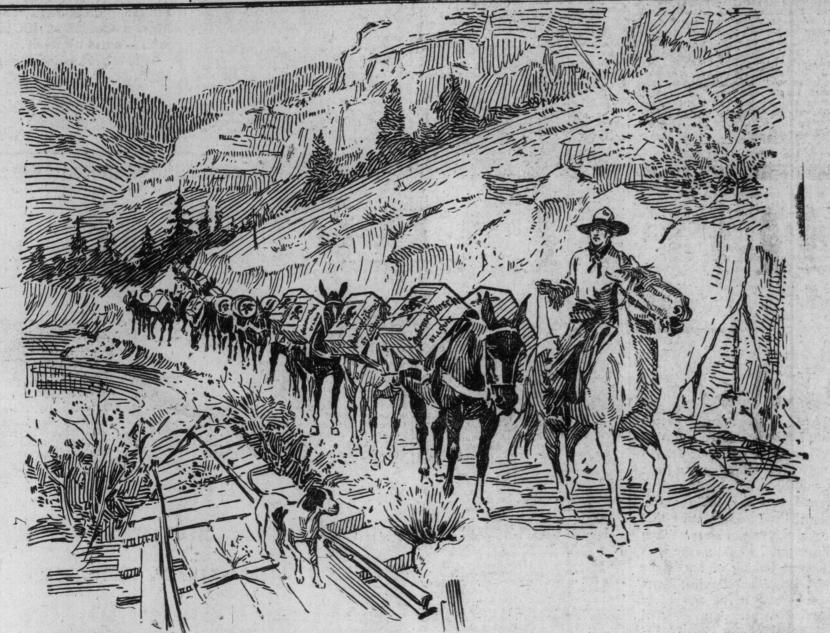

With Song and Story

an evening around the camp fire passes pleasantly, especially if there is a box of "Davis' Perfection" Cigars. It certainly makes an early fishing trip more enjoyable if you take along a goodly supply of this popular brand. As mild as a domestic cigar, it has the full, rich taste generally found only in pure Havanas,

our experts have produced in "Davis' Perfecnd that will appeal to discriminating smokers. Do not forget, when going away, to lay in an ample stock of this splendid brand. And if you stay in town, "Davis' Perfection" Cigars will help you to stand it.

A NEW POLICY FOR ONTARIO AND THE DOMINION. Both Ontario and the Dominion need each to adopt a still more progressive policy in regard to our North Shore country, the region between Sudbury and Port Arthur, or to make it wider, between Georgian Bay and Lake Nipissing on one side and Manitoba on the other.

It is in part the country of Sir William Van Horne's spout to the western hopper; it is Mr. Mann's handle of the dumbbell, the balls of which are Ontario and the east and Manitoba and the west. Some of us call it New Ontario. Others Silverland, the country west of Ottawa.

But by whatever name it is a great country, notwithstanding that it is rocky, dreary cold in winter, inhospitable. But it is a country of rivers and lakes; of game and fish and a tourist land; it is rich in gold, silver, iron, nickel, copper; it has cheap ports for coal all along its lake shores; it is no hard thing to canalize the French River from Georgian Bay to North Bay so as to put cheap coal up near the silver mines; it has farming lands to be opened up by the progressive settler, and there are still lots of settlers who'd sooner go to a wood country than a prairie; there are limits of pine and pulp; enough water power to run all kinds of industries, even electric iron smelting, when it arrives, as it must arrive. And it has many more things.

Our mistake is in thinking of it as a strip. It is at least 250 miles wide-from the lake shore to the new Trancontinental line. It can go hundreds of miles back and will. It is no strip, it is no hopper, it is no handle of a dumbbell. It is a great kingdom, maryelously wealthy. But for climatic and rock-ribbed reasons it is hard to open up. We believe it will be the seat of ports, towns, cities, industries, farmers, the resort of tourists, contain railways to Hudson's Bay, many other

But it is slow in opening up, and it must be opened up so as to make Canada a connected, undivided country from the Atlantic to the We cannot afford to have the east and the west joined by a We must have continuous trade and industries. Our lines of trade must be east and west and that, in the last resort, will be our main reason for continuing the national policy of protection. Not that agricultural implements for our western farmers should cost more if made in Ontario than in Iowa or Chicago. We believe it is possible to have a tariff and yet be able to sell automobiles and reapers to Canadians at British and American prices. But we must never let the Dominion be split in two at Lake Superior! It must be a bond, not a

Let us keep our eyes on the new proposal of reciprocity of trade with the United States. Keep our eyes on the Canadians who are tripping across the line to praise Taft, say we're for closer trade, etc. That means helping to break Canada in two at the Big Lake.

The first thing is to keep our trade lines east and west by national policy and by a railway policy. We have the Canadian Pacific Railway and the Grand Trunk Pacific. We want the Dominion to uphold the trade policy and to help build the missing link of the Canadian Northern from near Sudbury to Port Arthur and midway between the two other lines. Both of the old lines were subsidized by the Dominion; why not the new line that hopes to make its headquarters in Toronto? So also must the province help the middle road. But Ontario must do much more to develop this great land which is hers more than the Dominion's. The wealth will be ours. The trade will be for Ontario. Ontario manufacturing towns will control the markets of the west if we have railway competition, and development of the Lone Mid-Land. There can be immense ore mines, smelters, rolling mills at Port Arthur or along the north shore. Thousands and thousands of men can be employed, markets found for local farmers. But we've got to get it going and now is the time to start it. Just another, pack on your back, Sir James, but you will find the people with you in the work. And so also must the federal chiefs do their part.

The richest land in all Canada is to be in that same Shore country. But we must open it up ourselves. No one else will, and it is a government proposition, a proposition for the two govern-

EDITORS IN THE NORTH.

One hundred and thirty, "able editors," as Thomas Carlyle was fond of denominating them, touring around in the north country, is a sufficiently Ontario is concerned, of very much greater immediate or perhaps even ultimate importance than the visit of space, the editor, who is born to blush unseen when he blushes at all, will not mind, for he knows that he can fill space in his paper when the comet is reveling in space of another color. And this is just what the editor is expected to do, and if he tells his readers all he saw in Silverland and Cochrane town and the regions round about, he will do much to stop the deplorable migration westwards. Ontario must keep her sons, and she possible to build up the vast territory of the clay belt. The editors saw all things in a favorable light, and perhardships involved in subduing a new land, but pioneers have a giant optimism which difficulties will not dispel, and to hear of the good things that are to be had will inspire many to go in spite of the disadvantages that may be encountered. Meanwhile the able editors will diffuse knowledge of Northern Ontario to their readers and | court the effect upon the cersus will appear | set at \$1000. in due season.

William R. Evans.

The death occurred yesterday, after a lingering illness, of William Robert Evane, a resident of Toronto for forty years. He was a native of this city, but for some years was in the hardware business in Montreal. He returned to the city to identify himself with the Copland Brewery. His father, J. J. Evans, was a partner in the old Rice Lewis firm. Deceased was a veteran of the Fenian Raid as a member of the Victoria Rifles, Montreal. He is survived by one son. Copland W. Evans, mining broker, 170, Wilton avenue, his wife having predeceased him seven years age. The funeral takes place to-morrow afternoon at 3 o'clock from W. H. Stone's undertaking parlors.

The death occurred yesterday, after a lingering illness, of William Robert Evane, a training the highest praise. Taken generally the artistic ability of this company is exceptionally good and deserves a full share of public patronage. Carmen will be given this afternoon and in the evening the everpopular Il Trovatore.

The average physician is helpless in the presence of skin diseases such as eczema and salt rheum. Some make the mistake of treating eczema as a blood disease and advise internal treatment. Others think only relief is possible and recommend a lotion to afford relief from the itching.

FUTURE OF THE EMPIRE DEPENDS ON THE BOYS

Gen. French's Stirring Reminder to Toronto's School Boy Cadets-Inspiring Scene in the Park.

"You are at that time of life when lessons are easily learned and when character is formed. Recently you have had the opportunity of seeing wonderful evidences of grief and mourning. These have been worldwide and have been witnessed on every continent of the globe.

"Remember, boys, that we belong a great empire, which has a mighty influence, and remember that the future of that empire depends on you. The destinies of that empire will be yours to shape, after we are all dead and gone. Maintain the greatness of that empire and continue its mighty in-fluence for good."

In these words General Sir John French addressed the public and high school cadets yesterday morning on University campus, just as rain began Thirty-two hundred strong, the ca-

dets, in scarlet tunics, left the armories and marched to the parliament buildings, accompanied by bands of flower girls, bearing floral tributes from the different schools with which they decorated the monuments in Queen's Park. In front of the buildings were Gen.

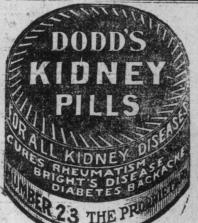

French, several of the cabinet ministers, members of the board of education, General Lake, Gen. Cotton, Col. Galloway, Col. Heward, Col. Sam. Hughes, Col. Sir Henry Pellatt, Col. Lessard, Col. Williams, Col. Denison, Col. Delamere and Col. Merritt. After the march past, the various

tattalions were presented with colors several members of the Daughters of the Empire, who were introduced to Gen. French by Mrs. Nordheimer, supreme regent of the Canadian Order.
The scene in the march past was most spectacular, special applause being earned by the cadet bugle band, formed during the past year. The Victoria Industrial School Boys were also there, with their band. Earl Grey's Reget.

Earl Grey, who, owing to King Edward's death, cancelled all his engagements, and so was not present yesterday, sent a letter to Inspector Hughes, saving:

"It is a great personal disappointment to me that I cannot enjoy the sight of the March past. I had been looking forward continually during the past year to the march past of your 3000 uniformed boys on next Empire Day. I can honestly say that every Empire Day which I have spent in Toronto has been one of the happiest days of my year, for the way in which it has been celebrated has enabled me to realize, and with the greatest satisfaction, the steady growth in the recognition in Toronto of the importance of this imperial

"I trust the Empire Day celebrations may prove every year a more and more otent influence in stimulating the crowth of a spirit of duty and of patriotism, not only among the ris-ing, but also among the risen generation, including all to subordinate,

Oakville has been attracting public attention as a suitable location for summer homes, and certainly it has many claims to consideration in this respect, chief among which perhaps is its proximity to the city. Riverview Park, Oakville, is one of the properties now on the market, which com-mends itself to the investor, on account of its natural advantages as re gards location and beauty of surround ings. On another page you will find further description of the property. Read it, it will interest you.

ROYALTIES AT LARGE Half-a-Dozen Kings Took Informa Stroll/In the Park.

LONDON, May 23.-Defying anar chists and disregarding their advisors' protests, the kaiser and half a dozen other royalties, including King Pand other royalties, including King Frederick of Denmark and King George of Greece, to-day strolled like private citizens in the park at Buckingham. The group of rulers walking leisurely thru the crowded paths, doing their share of gazing at places of interest attracted the passers-by, who, how-ever, were compelled by etiquet to pretend to take no especial notice. King Manuel of Portugal, however, remained in seclusion, as he has sinc his arrival. On account of the assassination of his father, King Carlos and of his brother, the boy has a wholesome fear of a similar fate.

of Dr. Amyot as officer."

This is the statement made by one who is closely in touch with the situation. Whether the assertion is well based or not, will not be determined until the return of Mayor Geary, who is not expected back from England for Office, 12 Beverley. Main 1070. Warehouse, 126 John.

in the meantime.

It is said that the canvass for the position is without a parallel in civic history. Letters by the score in behalf of Dr. Amyot, Dr. Acheson, Dr. Good-child, Dr. Noble and Dr. McCullough are being circulated by friends, and telephone calls at any and all hours are the order. An elaborate booklet setting forth Dr. Goodchild's qualifications is another evidence of the strengel in which lodge uosity of the struggle, in which lodge influence is prominent.

An anonymous circular letter urging that Dr. Amyot be made M. H. O. be-fore the mayor's return caused a flut-

ter at yesterday's council meeting, when Ald. Phelan called attention to a newspaper reference to it. Whether the mysterious communication was inspired by friend or foe is unknown.

The letter, which encloses a memory of arguments for and against Dr. Amyot, "which should be of the greatest assistance to you in coming to a right conclusion," says in part: "If you take advantage of the opportunity presented, and bring forward his name. presented, and bring forward his name, you will place yourself right with all sections of the community whose influence you wish to retain. You will make a reputation for yourself as a farsighted and keen politician. There are one or two matters requiring immediate attention of one well qualified If the public generally become aware of these conditions, there will be an outburst which no member can withstand. Neither the public nor the press stand. Neither the public nor the press will tolerate the appointment of an in-ferior man. If you adopt the other course and fail to take advantage of the chance of making yourself solid, you will be slated to almost certain de-feat by nearly all the elements who have now pronounced themselves in favor of Dr. Amyot. The writer is aware that this course has been determined on by not only the Knights of Columbus, but also by the medical profession and the university people generally, and most university people generally, and most of whom, by the way, are Conservatives. You will also remember that if you do not make the move before Mayor Geary returns, that he will find Brokerage Company, 154 Bay-street, 613562 a way to try and switch you into a position which will make your vote then come too late. The statement has already been whispered to almost every Catholic in the city that he has com mitted himself to some Orange Lodge. It is to be hoped you will see the advantage there is for yourself in taking a reasonable course."

Toronto Market Has a Flurry in Mining Stocks.

World Office,
Monday Evening, May 23.

Most of the business transacted on the Toronto Stock Exchange to-day consisted of operations in Nipissing and La Rose, two of the listed mining shares which came into considerable prominence on the afternoon board.

Brokers were nonplussed at the movement without participating in the fluctuations for traders. In the balance of the market there was little business and changes with the exception of Winnipeg Electric, which was advanced to 3187, were unimportant. In the face of the holiday nothing more was expected of the market to-day than what transpired, especially as a reaction in prices occurred on the New York Exchange.

Erickson Perkins & Co. (J. G. Beaty), Vest King-street, report, the following fuctuations in the New York market: Open High Low Cl. Sales.

J. P. Bickell & Co. say at close: Failure of the bankers to make any official announcements of bond sales in Europe caused the market to he heavy thruout the day. Actual losses were not important, but the buying power was nothing. We believe that the market will do nothing of importance until the bond issues are officially announced. Should they fail to be as good as the most optimistic forecasts, stocks will be a sale, but with these, bonds well placed and nothing worse from the crops, the market should work higher and reactions should be taken advantage of for purchases.

Charles Head & Co. to R. R. Bongard: The placing of the Chicago Railways Co. in the hands of a receiver to-day had a depressing effect on the general list and the securities of the company dropped suddenly, 50 per cent of the market value of the common disappearing. A stronger tone to sterling exchange in Paris leads to the belief that the large bond sales there are nearing completion. The outlook is uncertain, professionalism rules the market, and we would buy it only on a good break for a sale on rally.

World Office

Monday Evening, May 23.

The Toronto market has now entered the holiday stage, and today's operations were just exactly what might have been expected at a period like this. Business was small, and the changes in the market were of an insignificant character. Quotations were held at about closing prices of last week, and, in the absence of any special incentive to buy stocks, the movements were necessarily narrow. If anything, sentiment the last few days has tended to improve, but any important advances will have to come from a much larger influx of buyers than is at present in sight. HERBERT H. BALL.

Died in Fireman's Arms.

NEW YORK, May 22.—Sensational rescues by firemen prevented more than one death by fire in a blazing tenement on East 70th-street to-day. As it was Mrs. Mary Miller died in a fireman's arms, after she had been dragged to the roof, while her husband, dutching the seven months' old son of the couple, unconscious, was rescued just in time.

S. S. Delegates Drew the Color Line.

WASHINGTON, May 23.—Discussion was not to-day in the world's sixth Sunday school convention over the criticisms which some of the British delegates publicly heaped upon the Washington committee in the churches yesterday for barring the negro delegates of the District of Columbia from the mammoth parade last Friday. With two exceptions the criticisms were made by white men

Victoria County Old Boys.
The Victoria County Old Boys of Feronto with their families and friends will hold a plenic at Centre Island this afternoon. Games and sports for both adults and children will be fol-lowed by luncheon.

A Sale of Sample Queen Quality Oxfords and Queen Quality Pump Slippers

COME time ago we purchased the travelers' samples of our favorite brand of Ladies' Footwear, namely "Queen Quality," the Shoe that "Fits where others fail." At that time, although we held a sale of boots, we deemed it better to reserve the low shoes until such time as the season has advanced sufficiently. We judge that time has come. Accordingly we put them on sale Wednesday morning at 8 o'clock at

2 Dollars a Pair
