# FACULTY.

- WALTER B. GEIKIE, M.D., C.M.; F.R.C.S.E.; L.R.C.P., Lond.; Dean of the Faculty; Member of the Council of the College of Physicians and Surgeons of Ont.; Member of the consulting staff of the Toronto General Hospital.—Holmwood Villa, 52 Maitland St.  
**Professor of Principles and Practice of Medicine, and of Clinical Medicine.**
- H. ROBERTSON, M.D., C.M., M.R.C.S., Eng.; N. E. corner Wilton Avenue and Mutual St.  
**Professor of Anatomy—General, Descriptive and Surgical, and Curator of the Museum.**
- J. ALGERNON TEMPLE, M.D., C.M., M.R.C.S., Eng.; Fell. Obstet. Soc., Lond.; Member of the Consulting Staff of the Toronto General Hospital; Physician to the Burnside Lying-in-Hospital.—191 Simcoe St.  
**Professor of Obstetrics, Gynæcology and Diseases of Children.**
- THOMAS KIRKLAND, M.A., Principal of the Normal School, Toronto.—402 Jarvis St.  
**Professor of General Chemistry and Botany.**
- C. W. COVERNTON, M.D., C.M., M.R.C.S., Eng.; Lic. Soc. Apoth., Lond.—47 Gould St.  
**Professor of Medical Jurisprudence and Toxicology.**
- FRED. Le M. GRASSETT, M.B., C.M., Edin. Univ.; F.R.C.S.E., M.R.C.S., Eng.; Fell. Obstet. Soc. Edin.; Member of the Acting Staff of the Toronto General Hospital; Physician to the Burnside Lying-in-Hospital; Member of the Consulting Staff of the Toronto Dispensary, 208 Simcoe St.  
**Professor of Principles and Practice of Surgery, and of Clinical Surgery.**
- W. T. STUART, M.D., C.M., Trin. Coll., and M.B., Univ., Toronto; Professor of Chemistry, Dental College, Toronto.—183 Spadina Ave.  
**Professor of Practical and Analytical Chemistry, and Assistant Professor of General Chemistry.**
- CHARLES SHEARD, M.D., C.M., M.R.C.S., Eng.—Member of the Acting Staff of the Toronto General Hospital.—320 Jarvis St.  
**Professor of Physiology and Histology.**
- G. STERLING RYERSON, M.D., C.M., L.R.C.P., L.R.C.S., Ed.; Mem. Ophthal. Soc., Gt. Brit.; Surgeon to the Eye, Ear, and Throat Depart., Toronto General Hospital, and Hospital for Sick Children.—60 College Ave.  
**Professor of Ophthalmology, Otology, and Laryngology, &c.**
- LUKE TESKEY, M.D., C.M., M.R.C.S., Eng.; Member of the Acting Staff of the Toronto General Hospital, and Professor of Oral Surgery, Dental College, Toronto.—185 Church St.  
**Demonstrator of Anatomy, and Professor of Pathology.**
- JOHN L. DAVISON, B.A., Univ., Tor., M.D., C.M., M.R.C.S., Eng.; Member of the acting staff of the Toronto General Hospital.—12 Charles St.  
**Professor of Materia Medica and Therapeutics—Theory and Art of Prescribing, etc.**
- G. A. BINGHAM, M.D., C.M., Trin. Coll., M.B., Tor. Univ.; Pathologist to the Toronto General Hospital.—62 Isabella St.  
**Assistant Demonstrator of Anatomy.**
- T. M. HARDIE, B.A., M.B., Toronto University.  
**Zoology, &c.**
- E. B. SHUTLEWORTH, Principal, and Professor of Chemistry and Pharmacy, Ontario College of Pharmacy.—220 Sherbourne St.  
**Practical Pharmacy, etc.**
- T. S. COVERNTON, M.D., L.R.C.P.E., S.S., Certificate, Cambridge, England, Lecturer on Sanitary Science.—College Avenue.
- NEWTON ALBERT POWELL, M.D., C.M., Trin. Coll., M.D., Bellevue Hosp., Med. Coll. N.Y.; Lecturer on Medical Jurisprudence and Toxicology, Women's Medical College, Toronto.—259 Simcoe St.  
**Lecturer on Surgical Appliances.**

# Trinity Medical College.

ESTABLISHED 1850.

## Toronto.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

IN AFFILIATION WITH

THE UNIVERSITY OF TRINITY COLLEGE, THE UNIVERSITY OF TORONTO, QUEEN'S  
UNIVERSITY, VICTORIA UNIVERSITY, AND THE UNIVERSITY OF MANITOBA,  
AND SPECIALLY RECOGNIZED BY THE ROYAL COLLEGE OF SURGEONS,  
ENGLAND, THE ROYAL COLLEGE OF PHYSICIANS, LONDON, THE  
ROYAL COLLEGE OF PHYSICIANS AND SURGEONS, OF EDIN-  
BURGH, THE FACULTY OF PHYSICIANS AND SURGEONS OF  
GLASGOW, AND THE KING'S AND QUEEN'S COLLEGE  
OF PHYSICIANS OF IRELAND,  
AND BY THE CONJOINT EXAMINING BOARDS IN LONDON AND EDINBURGH.

The Winter Session of 1888-9 will begin on Monday, the 1st day of October next, and will continue for six months. The opening lecture of the course will be delivered at 4 o'clock p.m., on that day, in the large Lecture Theatre of the College. The regular work of the College begins on the following day. It is hoped that, in view of their own interests, students will, as far as practicable, be present at the opening lecture, so as to lose none of the early teaching in the several branches.

The Faculty record with pleasure the constantly increasing prosperity of the Medical College; the past session having been the most successful in its history.

From its inception "STABILITY AND EFFICIENCY, with PRACTICAL TEACHING IN EVERY BRANCH," has been the motto and the basis on which this College has been, and will continue to be, conducted. No thing injures medical institutions more than the making of organic changes, which tend to weaken and paralyze the energies of teachers — to bewilder students, and to shake public confidence. Happily without

such changes, our progress heretofore has been all that the members of the Faculty and the friends of the College could wish, and has more than exceeded their most sanguine expectations.

The only modification made since the issue of the last calendar, which has to be announced, has been brought about by the Legislature at its last session passing an Act raising the "School" heretofore known as "Trinity Medical School" to the position and dignity of a "Medical College," a position well earned by many years of successful teaching:

TRINITY MEDICAL COLLEGE WILL GO ON IN THE FUTURE AS SHE ALWAYS HAS DONE, ADVANCING AND IMPROVING every session, so as to keep fully abreast of the advance of science, and of the requirements of the medical profession, as laid down from time to time by the Ontario Medical Council.

Thoroughness in the teaching which is PRACTICAL in every Department, and PUNCTUALITY in all College work will be steadily maintained, as it always has been, in view of the high position gained by continued strict attention to these fundamental essentials of a sound Medical education,

The lectures are delivered in the large College Building, situated in the immediate vicinity of the Toronto General Hospital, thus meeting, in the fullest manner, the desire of medical students, that the lecture rooms where they are taught the nature of disease, and ALL the BRANCHES of SCIENCE RELATED TO MEDICINE, should be as close as possible to the Institution which affords the fullest possible facilities for the acquisition of a practical knowledge of their profession. Very special attention has been paid to the fitting up of the Lecture and Dissecting Rooms, Laboratories, etc., which are of large size, and exceedingly well lighted.

Although it is only a few years since the erection of our commodious Medical College Buildings, the attendance of students has increased so greatly year by year, as from time to time to require more ample accommodation, and large additions have been built. Very recently, the buildings were still further enlarged, so as to meet all the requirements of a thoroughly equipped Medical College.

There are, since the completion of the recent extensive improvements, two equally spacious Lecture Theatres, and a new Histological Laboratory. The College has now, therefore, a laboratory for Practical Histology, one for Practical Chemistry and a new one for Pathology. There is a very fine room, one of the largest in the College, and lighted from the ceiling, set apart for the Museum; also a Reading Room which is well supplied with the leading journals and papers, and a waiting room for Students. The Faculty have made every improvement necessary for the

THE PROPER  
Trinity Medical College.

comfort and convenience of the large and constantly increasing number of students in attendance. To meet the requirements of the very large Anatomy classes, a new Dissecting Room—very spacious, also lighted from ceiling, and which, for SANITARY REASONS, is entirely separate from the rest of the College Building, has been recently built. It is furnished with every modern requisite of a Dissecting Room.

Trinity Medical College, as is now well known, is an independent Corporation, entirely separate and distinct from every other. Under its SPECIAL act of incorporation the College is empowered to enter into affiliation with any "University or Universities" with which it may be desirable, in the interests of the students, to have it connected. The College therefore rests on the broadest possible basis, and is in affiliation with

The University of Trinity College,  
The University of Toronto,  
Queen's University,  
Victoria University,  
The University of Manitoba.

Students attending Trinity Medical College have thus every advantage which University connections afford, under which they can, by conforming to the curriculum laid down by the several Universities named, go up for their degree, before any one, or more of these. And in addition, they can, if they desire to do so, present themselves for the "Trinity Medical College" Examinations, as laid down in this announcement (see pages 9, 18, 19), which are equivalent in every way to those required for University Degrees in Medicine, and if successful, obtain the "Fellowship by Examination" diploma. This qualification is fully recognized, separately and conjointly, by the several Examining Royal Colleges of Physicians and Surgeons in Great Britain. Under its special act, this College is represented on the College of Physicians and Surgeons of Ontario, and has therefore every privilege enjoyed by any medical teaching body in the Dominion.

The "Fellowship by Examination" Diploma entitles its holders to go up before the Royal Colleges of Surgeons and Physicians in Great Britain, with precisely the same exemptions from various parts of the examinations as are allowed to holders of University Degrees.

Full instruction is given in Trinity Medical College in all the subjects required for degrees in Medicine, by the University of Toronto, including Biology and Comparative Anatomy.

The Faculty has been greatly gratified with the high standing uniformly taken by the students of Trinity Medical College at the various examining boards before which they have presented themselves.

## THE SUMMER SESSION.

The Summer Session has been very useful, as the teaching is thoroughly practical. This course, lasting 10 weeks, embraced (1888),

### I.—CLINICAL INSTRUCTION.

Out-Patient Clinics—Daily by members of the Acting Staff. A Skin Clinic. Operations on Saturday.

There was also a Special Course of bed-side instruction, Medical and Surgical, Diagnosis and Treatment, commencing at 2:30 p.m., each day, by the Acting Staff of the Hospital.

### II. PRACTICAL COURSES.

Dr. Grasett.—Practical Surgery, with special reference to Diseases of the Genito-Urinary Organs. Dr. Sheard.—Practical Histology, taking up the preparation of material for Microscopic use, the Injecting, Section Cutting and Staining of Normal Tissues, in which course students had the opportunity of securing a very valuable collection of specimens. Dr. Teskey.—Practical Pathology, consisting of both Medical and Surgical Pathology other than that given during the Winter Session, with Special Demonstrations of Bacteria and Inoculations. Dr. Bingham.—A course of Operative Surgery on the Cadaver. In this course the students operated under the direction of the teacher. The course embraced certain Amputations and Excisions. Colotomy and other Abdominal Section. Trephining. Plastic Surgery. Minor Surgery, including Ligation of Arteries, Aspiration, Cupping, Treatment of Fistula, Hemorrhoids, Vaccination, etc.

## MATRICULATION.

ALL students who intend practising in Ontario are advised, before entering upon their medical studies, to pass the Matriculation Examination of the Medical Council of Ontario.

After July 1st, 1888, this will consist of the SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH THE LATIN OPTION, and is conducted annually, in every High School throughout the Province of Ontario.

I.  
ATION  
THE S

THE PROPER  
Trinity Medical College.

A copy of the printed regulations, giving fuller details, can be obtained on application to the Education Department, Toronto. This examination is accepted by Trinity Medical College, Trinity College, the University of Toronto, and by all other Canadian Universities.

Attention is called to the fact that the Medical Council dates the period of study, in every instance, from the time the student is registered on their official list as a matriculated medical student.

The Medical Council of Ontario requires that every one desirous of being registered as a matriculated student on its register, shall present to the Registrar of the Council the official certificate of his having passed the Examination above referred to.

Students who may previously have passed THE SECOND CLASS NON-PROFESSIONAL EXAMINATION ON ALL OTHER SUBJECTS, BUT WITHOUT THE LATIN OPTION, can complete the required examination by going up for the LATIN ONLY, to a subsequent High School examination. But the names of such students cannot be entered on the Medical Council's Register *till the Latin has been passed*. Where a certificate, complete in every subject but LATIN, is held, and where the candidate wishes to do so, he is permitted to take the LATIN alone, at the examinations held annually at the various High Schools. Such candidates should go up for the LATIN of the "Second Class Non-Professional," which is accepted by this Medical College and the Universities, as well as by the Medical Council. Where a candidate who requires to take LATIN ONLY (having a certificate for everything else), prefers to do so, and who does not intend to practice in Ontario, he can take his LATIN at the Matriculation Examination, held in October and March each year, in Trinity Medical College, which is accepted by Trinity College and Trinity Medical College. But candidates will bear in mind, that the Medical Council, after July, 1888, accepts only either the SECOND CLASS LATIN, or that required for the ARTS Matriculation in the several Universities.

**Graduates in Arts, or students who have matriculated in Arts** in any University in Her Majesty's dominions, **are exempt from any further matriculation examination**, and are entitled to register on payment to the Council of the usual fee, \$20.

From the foregoing students will see that there are but the following ways of being registered *with the Medical Council*, as a matriculated student :

I. By having passed the THIRD CLASS NON-PROFESSIONAL EXAMINATION, WITH LATIN, PRIOR TO JULY 1ST, 1888 ; OR, AFTER THAT DATE, THE SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH LATIN.

II. BY BEING EITHER A GRADUATE, OR A MATRICULATE IN ARTS, IN A BRITISH OR COLONIAL UNIVERSITY.

The University of Trinity College, the University of Toronto, Queen's University, Victoria University, and Trinity Medical College do not insist upon the matriculation examination being passed before attendance on medical lectures, but it is very strongly recommended that this should be passed as soon after entering as possible, where it has not been passed before—and in every case, where at all practicable, this should be attended to before the passing of the second year's, or PRIMARY professional examination.

A certificate of having passed the Matriculation Examination in Arts, or in Medicine, in any British or Colonial University, or of the Medical Council of Ontario, or that required by the various Colleges of Physicians or Surgeons in Great Britain and Ireland, or that of the College of Physicians and Surgeons of Quebec, or that of the Law Society of Ontario or Quebec, or having passed an examination, whether for a TEACHER'S CERTIFICATE in any of the PROVINCES of the DOMINION, or an examination EQUIVALENT to any of the above, is also accepted by Trinity Medical College, and by the University of Trinity College.

Non-matriculated students from the Maritime Provinces, Manitoba and the North-West, the West Indies, or other British Colonies, the United States, or from any quarter, and who, as non-residents of Ontario, do not require to take the Examinations of the Medical Council, may attend lectures in Trinity Medical College on payment of the fees. Should such students, however, desire to graduate at Trinity College, or at any of the other Universities with which Trinity Medical College is affiliated, or to go up for the "Fellowship Examination" Diploma of Trinity Medical College, they must either pass the Trinity College Medical Matriculation Examination (see page 9 of this announcement), or some other Matriculation Examination equivalent thereto in every respect.

The Matriculation Examination of either of the universities with which this Medical College is affiliated MAY BE PASSED AT ANY TIME BEFORE GRADUATION. But this is only required by those who have not previously matriculated otherwise, and who do not intend to practise in Ontario. Details as to these matriculation examinations are given in this announcement, under the proper headings.

Such students as have not otherwise matriculated, who desire to take the Fellowship Diploma of Trinity Medical College, or to graduate in the University of Trinity College, or Queen's University, or Victoria University, will be required to pass an examination on the following subjects :

(1) Writing and Dictation, (2) English Language, including Grammar and Composition, (3) Arithmetic, (4) Algebra, including simple Equations, (5) Euclid, Bks. I., II., (6) Latin, Cæsar, *Bellum Gallicum*, Bks. I., II., *or* Bks. V., VI., *or* *Bellum Britannicum*, *or* Cicero, *de Lege Manilia*, *or* Cato Major ; *or* Virgil, *Æneid*, Bk. II., (7) and *any one* of the following optional subjects, *which may be selected by the Candidate* (a) Scripture History ; and St. Matthews's Gospel, ch. i.-ix. incl., in Greek (b) Greek, Xenophon's *Anabasis*, Bk. I., (c) French, Voltaire's *Charles XII.*, Bks. VI.-VIII., (d) German, Schiller's *Thirty Years' War*, Bk. I., (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics. (Balfour Stewart's *Physics* is recommended.)

Where more than one TEXT-BOOK is named on any subject, as in Latin, the candidate may select the one upon which he may prefer to be examined.

THIS EXAMINATION, which is the same as that required by the Medical Council in Great Britain and Ireland, WILL BE HELD in Trinity Medical College ON THE SECOND FRIDAY AND SATURDAY IN MARCH, AND THE SECOND FRIDAY AND SATURDAY IN OCTOBER OF EACH YEAR. Applications may be made to the Dean of the Faculty of Trinity Medical College, till the evening of the day before the Examination.

All students going up for examination in Great Britain before the several Royal Colleges there, are required to present a certificate of having passed an examination in Elementary Mechanics. On this account, an examination on this subject will be held at the Medical College in November, of each year, at the same time as the Supplementary first year's Examination, when any students who intend going to Europe, whose matriculation examination may not have embraced it, may present themselves, without any additional fee being charged.

THE PROPERTY OF  
Trinity Medical College.  
LECTURES.

#### CLINICAL AND DIDACTIC.

The several Professors and Lecturers will illustrate their respective courses by plates, preparations, models and specimens—including the application of the Laryngoscope, Ophthalmoscope, Sphygmograph, Spectroscope, etc., and the various forms of Electrical apparatus used in medicine. It will, as heretofore, be the constant aim of the Faculty to make the entire teaching of the College as practical and thorough as

possible. In THIS COLLEGE, throughout the entire session, there are **five** Lectures given each week, on the subjects of Anatomy, Physiology, Chemistry, Materia Medica, Medicine, Surgery and Midwifery, thus fully meeting the requirements of the Ontario Medical Council, and the several examining Boards in Great Britain and Ireland, which require that each course on the main branches shall consist of not less than **one hundred** Lectures.

---

## CLINICAL TEACHING.

**Clinical Teaching** has always been carried out in every department of this College as fully as possible, and in view of its very great importance, special and increasing attention continues to be given by the Faculty to this essential department of the course. It includes **CLINICAL LECTURES**, and teaching the diagnosis of medical and surgical diseases at the bedside, nothing being of more value to those engaged in the study of medicine and surgery than a close and careful observation of the numerous cases in the Hospital wards. Arrangements were made years ago, and are now very perfect, which have largely increased the amount of clinical instruction given in the Toronto General Hospital, and afford to all students who attend it, as great facilities as are enjoyed in any part of Canada in this important part of their studies. Besides this, the number of Hospital patients is very large. The College being **CLOSE TO THE HOSPITAL** enables students to avail themselves fully of the many advantages for gaining the practical knowledge which it affords.

In connection with the treatment of the out-door patients applying **DAILY** for advice and treatment at the **TORONTO GENERAL HOSPITAL**, an **OUT-DOOR** patients' Clinic is given every day from 1 to 2.30 p.m. These patients are examined and prescribed for, in the presence of the students. An **IN-DOOR** patients' Clinic is also given daily, immediately after the other, from 2.30 to 3.30 p.m., the patients being brought before the students, and everything of importance pointed out by the Professors of Medicine and Surgery, as well as by the other members of the *Consulting* and *Acting Staff* of the Hospital. In addition to these, there is every day, making **THREE HOURS AT LEAST OF CLINICAL WORK**, a bedside clinic on medicine, and a bedside clinic on surgery, given by members of the Acting Hospital Staff. The students attend these bedside clinics in regular rotation.

THE PROPERTY OF  
Trinity Medical College.

All the CLINICAL Teachers on the Hospital Staff act conjointly, in giving daily instruction of the most practical kind to the students in the Hospital; and as there are no fewer than *twenty* such teachers, it is manifest that young men studying in Toronto receive an amount of practical instruction, not excelled anywhere on the Continent.

The giving of special daily Clinics at the bedside, as above referred to, by all the Hospital teachers in turn, is a special feature of the greatest value, in addition to the Out-door and In-door Clinics above mentioned. Much importance is attached to this work, and the greatest care is bestowed upon it to make it as profitable to the student as it can be made.

Special Clinical instruction will also be given by the Professor of Midwifery at the Burnside Hospital, and by other members of the Staff of the Hospital, on Diseases of Women and Children, and on Practical Midwifery, and special Practical instruction at the Eye and Ear Department of the Hospital is also regularly given, as well as on Dermatology. Trinity University and the Medical Council have added CLINICAL EXAMINATIONS in medicine and surgery, and now require them from ALL candidates for the FINAL examination, making careful clinical study a necessity.

PRINCIPLES AND PRACTICE OF MEDICINE.

PROFESSOR GEIKIE.

This course will consist of 100 Lectures, and will embrace the following:—

I. The General Principles of Medicine, the Nature and Causes of Disease, the Symptoms and Morbid Changes which arise in the course of disease, together with the principles governing the general treatment of disease, as well as the means to be used for its prevention.

II. The Classification of Diseases, and the Description of the affections of the different Organs, and Structures throughout the body.

The Lectures will be very fully illustrated by the most recent plates, as well as by models, and morbid specimens from the Museum, as well as by fresh specimens from the hospital post-mortem room, furnished by the Hospital Pathologists. Every care will be taken to show the students cases in the Hospital illustrative of the Lectures. The numerous Hospital Clinics delivered both in the theatre and at the bedside, afford very abundant facilities for this most useful and very practical study.

## PRINCIPLES AND PRACTICE OF SURGERY.

PROFESSOR GRASETT.

The Lectures on this branch, like all the other principal branches in this College will number One Hundred. Surgical Pathology will be fully dwelt upon, and illustrated by preparations from the Museum of the College, by specimens from recent cases at the Hospital, and by those which may be obtained in practice, as well as by the best models and plates.

The course will include the Practice of Surgery, and Surgical operations. These operations will be performed before the Class, on the fresh Cadaver. Surgical Apparatus and Instruments will also be exhibited, and their uses pointed out to the students. In the Department of Surgery the Hospital will be used as largely as possible to illustrate the didactic teaching, be cases of all kinds, in the theatre, and in the wards.

## MIDWIFERY, GYNÆCOLOGY, AND THE DISEASES OF CHILDREN.

PROFESSOR TEMPLE.

This Course will embrace the Principles and Practice of Obstetrics, and will be illustrated by Diagrams, by fresh and preserved Specimens, the Artificial Pelvis, etc. The Principal Diseases of Women and Children will form an important portion of the work taken up.

In teaching the Diseases of women, the Anatomy and Physiology of the Female Organs will be demonstrated, and the various methods of Examination will be fully described, the necessary instruments exhibited, and their uses explained. The diseases peculiar to the sex will be considered as fully as time will permit, as follows :—Disorders of Menstruation ; Leucorrhœa ; Pelvic Cellulitis and Peritonitis ; Lacerations of the Cervix Uteri and Perineum ; Urinary and Fæcal Fistulæ ; Inflammations of the Uterus ; Displacements of the Uterus ; Tumors of the Uterus ; Diseases of the Ovaries, etc.

The Lectures will be fully illustrated by plates, models and morbid specimens.

## ANATOMY, DESCRIPTIVE AND SURGICAL.

PROFESSOR ROBERTSON.

The Course on Anatomy, Descriptive and Surgical, is made very complete, as this subject is unquestionably the very foundation on which all professional knowledge is based. It will be taught in the most practical manner possible. The relations of Anatomy to Pathology, Medicine, Sur-

THE PROPERTY OF  
Trinity Medical College.

gery, etc., will be fully dwelt on, and in order to meet the increasingly stringent requirements of the various Medical Boards in these practical Departments of the subject, special instructions will be given by the professor. The Lectures will be illustrated by the fresh subject, moist and dry preparations, sections, models, plates and original drawings. The lectures of this course, on Medical and Surgical Anatomy, will be given at stated times, so that candidates for the Medical Council's FINAL Examination (which embraces this as a special and distinct subject), will have an opportunity of reviewing this part of their work in the Lecture Room.

The College has a large supply of Disarticulated Skeletons, as well as other preparations, and a large collection of the best models of various parts of the body, to aid in the study and teaching of this all important branch. This collection has recently been largely increased by models imported from Paris.

To facilitate their study of Osteology, students can procure a supply of finely prepared imported bones from the Professor.

**PRACTICAL ANATOMY.**

DR. TESKEY AND DR. G. A. BINGHAM.

To the department of Practical Anatomy, so closely connected with surgery, the greatest attention is paid, and both the Demonstrators, with their two assistants, give daily attendance in the Dissecting Room. This room is large, perfectly lighted and ventilated; and under the New Anatomy Act passed by the Ontario Legislature in 1885, an abundant supply of Anatomical material is secured. It is the desire of the Faculty that every student should acquire a thoroughly practical knowledge of Anatomy in the Dissecting Room, where alone it can be properly studied. Every student will be examined on the parts he dissects, and his standing in Practical Anatomy at the close of the first session, will be determined by his standing at the above examinations during the winter.

All Pathological Specimens or Abnormalities found in subjects in the Dissecting Room are the property of the College and are placed in the Museum for the benefit of all the students.

**PHYSIOLOGY, INCLUDING HISTOLOGY.**

PROFESSOR SHEARD.

This Course will embrace a description of the Elementary Tissues of the Body; the Structure of the various Organs and Glands; also the

functions of Respiration, Circulation, Digestion, and Nutrition, Secretion and Excretion. Special attention will be given to the nervous System, and to Embryology, and Development. The last will be fully illustrated in all its stages by specimens.

The Physiological Laboratory is, regardless of expense, furnished with all the best modern appliances necessary for the practical study of this subject. Amongst the apparatus imported for this Laboratory are a DuBois Raymond's Coils, DuBois Raymond's Keys, Foster's Moist Muscle Chamber, Revolving Drum Cylinders, Galvanometers and Scale, Electrodes, Exciters, Mercurial Keys, Stricker's Warming Stages, Hot Air Baths, etc., and further additions are being made from year to year.

**Microscopic Anatomy** will receive ample attention from the several Lecturers, upon the branches in which the microscope is employed; and in addition to this, very complete Courses of Instruction will be given upon Microscopy, and the use of the Microscope in connection with Normal and Pathological Histology, BOTH OF WHICH SUBJECTS ARE NOW REQUIRED BY THE MEDICAL COUNCIL. A large number of the best Microscopes from Europe have been provided. The various methods of injection, staining, mounting, etc., receive special attention.

#### GENERAL CHEMISTRY AND CHEMICAL PHYSICS.

PROFESSOR KIRKLAND.

In this course of 100 Lectures, the general principles of Chemistry will be fully discussed, and the laws and theories deduced from suitable experiments. Great pains will be taken to point out its relations and applications to Physiology and other departments of medical science. Physics, including Heats, Light and Electricity, will be discussed both theoretically and experimentally, as far as they bear upon, or are connected with Chemistry.

The lectures on both Inorganic and Organic Chemistry will deal more particularly with those substances and compounds of special interest to students in Medicine and Pharmacy. Towards the end of the course a number of lectures will be devoted to Medical Chemistry. The whole subject will be illustrated by numerous experiments, charts and drawings, every facility being offered students of acquiring a thorough knowledge of these branches. Professor Stuart will take up the Chemistry of the metals.

THE PROPERTY OF  
Trinity <sup>15</sup> Medical College.  
PRACTICAL AND ANALYTICAL CHEMISTRY.

PROFESSOR STUART.

Practical Chemistry is taught very thoroughly, under the personal supervision of the Professor. In view of its growing importance, great care has been bestowed on the fitting up of this Laboratory, and the Course will include experiments of various kinds, qualitative and quantitative analysis, etc., etc. In view of the many cases of poisoning coming before the courts of law, Toxicology will have much attention paid to it—no pains being spared to prepare students for the grave responsibilities which such cases impose upon them as practitioners. Each student will be supplied with the requisite re-agents and apparatus, and the course will be adapted to meet the demands of the physician in his daily practice. Special attention will be devoted to *Urinary Analysis*, also to the normal and abnormal constituents of the animal fluids—to Tests for blood, for Bile, for Albumen, etc.—as well as to the other departments of Medical Chemistry.

**MATERIA MEDICA AND THERAPEUTICS, WITH THE THEORY AND ART OF PRESCRIBING.**

PROFESSOR DAVISON.

All important drugs used in Medical, Surgical or Obstetrical Practice, will be described, and their properties, preparations and doses given. Special attention will be devoted to the therapeutic action of remedies in disease, and the course will be illustrated by specimens of the drugs described. The course of *Materia Medica* proper is very complete, and one of its special features will be the description and *modus operandi* of all valuable new remedies, as well as the THEORY and ART of prescribing.

**MEDICAL JURISPRUDENCE.**

PROFESSOR COVERNTON.

The Course includes : I. *Medical Evidence generally* : including Documentary and Oral Evidence, Identification, real and apparent death, exhumation, autopsies.

II. *Medical Evidence specially*, including—

(a) *Wounds* and other external injuries, blood stains, death by apnoea, as hanging, strangulation, suffocation, and death by drowning.

(b) *Offences against Chastity*. Rape and concealment of pregnancy, criminal abortion, infanticide.

(c) *Insanity*, feigned diseases, impotence and sterility, legitimacy, survivorship, life assurance, malpractice.

### SURGICAL APPLIANCES.

DR. N. A. POWELL.

The course on this subject will include a great deal of practical instruction in Minor Surgery of the utmost value, as bandaging, application of splints, plaster of paris apparatus as used in fractures and in spinal curvatures, the exhibition and uses of instruments, etc. The course is an optional one, but every final student should take it ONCE at least.

### SANITARY SCIENCE AND PUBLIC HEALTH.

DR. T. S. COVERNTON.

A course of Lectures will be delivered on this subject, attendance upon which is now compulsory. The course comprises lectures on Public Water supplies; conditions of Soil and Water as affecting health, including Drainage and the various methods for the removal of excreta; the Atmosphere; Heating and Ventilation; Individual Hygiene, comprising the subjects of Food, Drink, Exercise, healthful and excessive, Habitations, Hospitals, Ventilation, Hygiene of cities, Climatology, Etiology and Prophylaxis of preventible diseases, Heredity, Boards of Health, Statistics, Age, Sex, Temperaments, Idiosyncrasies, Habits, etc.

### PATHOLOGY.

PROFESSOR TESKEY.

The teaching upon this subject will include Pathology, and Pathological Histology, and Bacteriology, with methods of cultivation, and inoculations on the lower animals, and will be abundantly illustrated.

In addition to this, ample opportunities for the study of Pathology are afforded to the students of Post Mortem Examinations made to the Hospital by the member of the Faculty who is one of the Pathologists of that Institution, and also by other members of the Hospital Staff.

### OPHTHALMOLOGY AND OTOTOLOGY.

PROFESSOR RYERSON.

Special Lectures will be given at the General Hospital on Diseases of the Eye, Ear and Throat, with instruction in the use of the Ophthalmo-

scope,

**Trinity Medical College.**

scope, and other modern instruments employed in ophthalmic and aural practice. An entire wing of the Hospital recently built, is appropriated specially to Ophthalmic, Ear and Throat cases.

**PRACTICAL PHARMACY.**

E. B. SHUTLEWORTH.

This course has been established to meet the requirements of the Medical Council's Examination on Pharmacy, and it will be of much value in preparing the candidates for the Examination of the Council. The students will have every possible advantage in studying this subject. The teaching will have reference principally to the compounding and dispensing of Drugs. The making up (by the students themselves under the direction of the teacher) of prescriptions of all kinds—including powders, mixtures, ointments, plasters, pills, suppositories, etc. Incompatibles will also be pointed out, and the instruction in this Department will be of the most practical and useful character, and a certificate of having attended this course of practical Dispensing will be given to students who have attended it, who may desire to go before the Medical Council, or any of the Universities where such a certificate is required.

**MEDICAL PSYCHOLOGY.**

BY DR. DANIEL CLARKE, MEDICAL SUPERINTENDENT AT THE PROVINCIAL LUNATIC ASYLUM.

A course of Lectures, open to all who desire to take it, will also be delivered on Medical Psychology, at the ASYLUM, for the special benefit of gentlemen who desire to graduate in the University of Toronto, or wherever else this course is demanded.

**ZOOLOGY, ETC.**

T. M. HARDIE, M.A., M.B., TORONTO UNIVERSITY.

A course of Zoology is delivered IN THE COLLEGE, for the special benefit of gentlemen who desire to graduate in the University of Toronto, or wherever else this course may be required. The lectures embrace the morphology and classification of the various sub-kingdoms, classes, etc., of the Animal Kingdom, also the special practical study of several type-forms.

B

**BOTANY.**

PROFESSOR KIRKLAND.

In the course on Botany, the general principles of the science will be fully developed, and its relation to medicine constantly kept in view. The lectures will be illustrated by fresh specimens, diagrams and models. The aim will not only be to make it useful, in its application to medicine, but also to train the mind to that kind of research which is essential to successful medical study.

**TRINITY MEDICAL COLLEGE.****PROFESSIONAL EXAMINATIONS.**

Professional Examinations will be conducted at the close of the 1st, the 2nd, and the last session, to be known as the *first year's*, the *primary*, and the *final* Examinations, respectively.

**I. The First Year.**—**Anatomy** of the Bones, Ligaments, Muscles, also the Viscera of the Abdomen and Thorax. All candidates for this Examination must present a certificate of having dissected carefully an Upper and a Lower extremity, and **MUST PASS PRACTICAL EXAMINATIONS** on the parts dissected.

**The Physiology** of the elementary tissues, *e. g.*, Connective tissue, Protoplasm, and Cells; also of Respiration, Circulation, and Digestion.

**Elementary Materia Medica.**

**Chemistry**, Inorganic, including Chemical Theory.

**Physics**.—Heat, Light, and Electricity.

**Botany.**

A certificate of having passed this examination is required by Trinity University, Trinity Medical College, and the Medical Council.

**A Supplementary First Year's Examination** will be held on the **first Saturday** in November.

**II. The Primary.**—Descriptive Anatomy, Physiology, and Microscopical Anatomy, Chemistry, Theoretical and Practical, Toxicology, Botany (when not passed at the end of the first year), and Materia Medica.

The Primary Examination may be passed at the close of the second Winter Session. A certificate of having passed it in Trinity College, or in any recognized British or Canadian Medical College, School or Uni-

versity,

versity, or at the College of Physicians and Surgeons of Ontario, will be accepted by this College.

**III. The Final.**—Theory and Practice of Medicine, Clinical Medicine, Pathology, Principles and Practice of Surgery, Clinical Surgery and Surgical Anatomy, Midwifery, and diseases of Women and Children, Medical Jurisprudence and Sanitary Science.

Should a candidate desire it, he may undergo his entire Examination in all the branches, at the end of the last session.

**CERTIFICATES OF HONOUR.**

Certificates of Honour are awarded annually in all the Professional Examinations, to Candidates who obtain **not less than 75 per cent.** of the total number of marks.

**SCHOLARSHIPS.\***

There are **Five Scholarships** offered for competition in this College, as follows :

**First Year.**—**Three First Year's Scholarships**, known respectively as **FIRST, SECOND** and **THIRD**, will be competed for at the close of the **First Session**. The value of these Scholarships is \$50, \$30 and \$20 respectively.

**Second Year.**—**Two Second Year's Scholarships** are open to competition at the close of their second **Winter Session**, to all students who have taken out their entire Primary Course at this College. The value of these Scholarships is \$50 and \$30 respectively.

**Scholarships will be awarded only to the candidates who stand highest in the Honour lists of the First and Second years respectively.**

**MEDALS.\***

A **GOLD** and **TWO SILVER MEDALS**, known as the "**TRINITY MEDICAL COLLEGE MEDALS**," are open to competition annually at the close of their **FOURTH** winter session, by students undergoing examination in the College in the **FINAL BRANCHES**. They will be awarded to the gentlemen who stand **FIRST, SECOND** and **THIRD** respectively, on the Honour list. All students competing for them must have attended at least two full courses of lectures, out of the **FOUR** required, in this Medical College, and must have paid all fees for the same.

---

\* Breach of the regulations, page 26, will disqualify any candidate from receiving a medal, scholarship, or other honours in this school.

## SPECIAL PRIZES.

The "Dr. Fulton Memorial Prize in Surgery."

This prize will be given for the highest standing in SURGERY amongst students who have completed four Winter Sessions at this school. The successful Candidates must have taken at least 75 per cent. at the Final Examination for the "Fellowship" of TRINITY MEDICAL COLLEGE.

Professor Sheard's Special Prize is awarded for the Physiology of the First Year, to the Student who stands highest on this subject, who must have taken at least 75 per cent. of the marks given in it.

## FELLOWSHIP DIPLOMAS.

Under the authority of the Special Act of the Legislature, incorporating the College, Diplomas will be awarded at the close of the Final Examination, to candidates whose standing has been sufficiently high to merit them. These Diplomas constitute students who obtain them "FELLOWS BY EXAMINATION" of Trinity Medical College, *and such "FELLOWS" are allowed in Great Britain the same privileges as are there accorded to holders of Degrees in Medicine, from Colonial Universities, by the Royal College of Surgeons of England, the Royal College of Physicians of London, the Royal College of Surgeons, and the Royal College of Physicians of Edinburgh, and the King's and Queen's College of Physicians of Ireland; and also by the Conjoint Examining Boards in London and in Edinburgh.*

No candidate is allowed to present himself for examination for the SCHOOL FELLOWSHIP DIPLOMA, who has not passed a recognized Matriculation Examination, and spent FOUR entire years in pursuit of Medical Studies, and attended during that time TWO FULL COURSES OF PRIMARY, and TWO FULL COURSES OF FINAL LECTURES, during FOUR, or at the least, THREE, Winter Sessions. Attendance on not fewer than FOUR Sessions is very strongly recommended to every Candidate, as this is in ALL cases absolutely insisted on by the Medical Council.

A certificate of good moral character is required from each candidate.

The obtaining of this Diploma—*which is the Faculty's certificate of Qualification*,—or any of the other Honours granted by the school, is a guarantee of high professional attainments on the part of those who hold them. **In every case successful Candidates for the Fellowship Diploma must be present in person, to have it presented, and to enrol their names in the official list of Fellows.**

### THE FELLOWSHIP DECLARATION.

The following is the declaration made by all who receive the Diploma and are admitted, after examination, to the "FELLOWSHIP OF TRINITY MEDICAL COLLEGE":

"We, the undersigned, who now publicly receive the Diploma of Trinity Medical College, and are admitted '*Fellows by Examination*' of that Incorporated Medical Body, do solemnly and sincerely declare, that we will exercise the several duties of our profession in its various branches to the best of our knowledge and ability, for the good, safety, and welfare of all persons committing themselves, or who are committed to our care and direction; and that we will not, knowingly, or intentionally, do anything, or administer anything to their hurt, or prejudice, for any consideration or from any motive whatever.

"We further declare that we will not divulge anything we may have seen, or heard, while visiting the sick, which it would be improper to divulge. We shall, moreover, do everything in our power to uphold the honour, and to promote the welfare of the Medical College whose Diploma we now receive, and to the FELLOWSHIP of which, we are hereby admitted."

THE PROPERTY OF  
Trinity Medical College.  
HOSPITALS.

### THE TORONTO GENERAL HOSPITAL.

This institution which is, in every respect, under the best and most efficient management, is now so greatly enlarged, as to be capable of accommodating 300 patients in the various buildings on the grounds, and is visited daily by the medical officers in attendance. The patients—extern and intern—are examined and prescribed for, in presence of the students. The operating theatre is well lighted, having been recently greatly improved, and the seats are arranged so as to enable the students to see the successive steps of the numerous operations performed. The theatre is, also, through the courtesy of the Trustees, used daily as a lecture room, for the delivery of Clinical Lectures. It has been recently greatly enlarged and remodelled, and is the largest and finest hospital theatre in the Dominion, and is not surpassed anywhere for accommodation, light, and convenience. It is capable of seating 500 medical students. Under existing arrangements, the Clinical Course, both in Medicine and Surgery, is very full; and all the numerous Lec-

tures delivered in the Hospital, by the various members of the Hospital Staff, are open to every student who has taken out his Hospital and Clinical Lecture tickets. Toronto being the great railway and manufacturing centre of Ontario, accidents requiring operation, are of frequent occurrence. The attendance of outdoor patients daily is also very large and increasing, and abundant opportunities are enjoyed by students for acquiring a familiar knowledge of Practical Medicine and Surgery including not merely major operations, but minor Surgery of every kind—ordinary Medical Practice, the treatment of Venereal Diseases, Skin Diseases, and the Diseases of Women and Children.

**Fever Hospital.**—A large building has been erected in the Hospital grounds where the treatment of fevers can be practically and profitably seen and studied.

**The Eye and Ear Hospital** is now on the same grounds, giving unprecedented advantages to students desirous of making a special study of the diseases of these important organs. This institution is fully equipped with every modern appliance.

**Burnside Lying-in-Hospital.**—This Hospital is also on the Hospital grounds, making it very convenient for students attending its practice, and affording special and valuable facilities for the study of practical midwifery. One of the medical officers will be in daily attendance, for the purpose of giving instruction to students. Students who have attended one course of Lectures upon Midwifery, and who have taken out the ticket for this Hospital, are furnished with cases in rotation.

**Toronto Dispensary.**—From 5,000 to 6,000 patients are yearly treated at this institution. The cases are of great variety, comprising a large number of pulmonary affections and children's diseases. Minor operations are of daily occurrence and excellent practice is afforded in the application of splints and bandages. The hours of attendance are from twelve to one daily. This institution with all its advantages is open to students, and the attending Physicians furnish them with all possible facilities.

#### APPOINTMENTS OPEN TO STUDENTS.

**Hospital Assistantships.**—The Board of Trustees of the Toronto General Hospital annually appoint THREE students of this College as Hospital Assistants. These positions are of great practical value and the recommendation for them from the Faculty will be given to those students whose attainments and standing at the various examinations, and whose

moral character  
factorily

moral character are such as will render them capable of discharging satisfactorily the duties belonging to the appointment.

**Clinical Clerks and Dressers.**—The members of the Faculty who belong to the Acting Hospital Staff, will each appoint two or more students to act as Clinical Clerks and Dressers, whose duties are to take notes of the cases under treatment, and to carry out such directions as they may receive from the Professors. These positions are tenable for three months, and are of very great practical utility. Under the above arrangements, each of the Medical Officers who belong to the College, is able to appoint at least four students during each session. No student can act as Clinical Clerk for longer than ONE period of THREE months during the same session.

**Prosectors and Assistant Demonstrators of Anatomy and Physiology.**—There will be appointed annually two students who have distinguished themselves as Anatomists, as Prosectors, who will have the great advantage of preparing the material required for the Lectures on Anatomy. Also two students, Assistants, to aid the Demonstrators in such ways as may be required, and two Assistants to assist in Physiological Demonstrations.

THE PROPERTY OF  
Trinity Medical College.  
LECTURE FEES.

---

Anatomy, Surgery, Practice of Medicine, Obstetrics, Materia Medica, Physiology, General Chemistry, Clinical Medicine, and Clinical Surgery, \$12 each; Practical Anatomy, Practical Chemistry, Normal Histology, and Pathological Histology, \$8 each; Medical Jurisprudence, \$6; Botany and Sanitary Science, \$5 each; Registration, payable once only, \$5.

Optional Branches — Surgical Appliances, Pharmacy, Zoology, and Medical Psychology, \$5 each.

All students after having attended and paid the fees for two full courses of lectures in any branch, shall be entitled, without further charge, to a perpetual ticket for that branch, except the following: Practical Anatomy, Practical Histology (Normal, or Pathological), and Practical Chemistry, every course of which, if attended, must be paid for. Botany and Sanitary Science are charged for once only.

All fees to be paid strictly in advance.

The arrangements of the College are such, that gentlemen desiring to enter this School who may have attended one or more courses of Lectures in other recognized Colleges, Schools or Universities can do so. Dental and other casual students in Arts, Law, or Medicine, matriculated or non-matriculated, can attend any course or courses of Lectures, Primary or Final, they may desire in this institution, on paying the usual fees for the same.

#### TRINITY MEDICAL COLLEGE EXAMINATION FEES.

For the First Year's Examination .....	\$5 00
For the Primary " .....	5 00
For the Final, including Diploma.....	5 00
For the Final Examination (including Diploma in all cases where the previous Examinations have been passed in some Institution recognized by the College, 15 00	

**Hospital Fees.**—The Toronto General Hospital, \$20 for a perpetual ticket ; Lying-in Hospital, \$5 for six months.

#### LIBRARY.

The Library is large and is being added to every session. Last session many new and valuable books by the best authors were procured, and the intention is to have a copy of every standard work on Medicine, Surgery, Midwifery, etc.

#### MUSEUM.

Special care has been taken in regard to the Museum in order to make it useful, not only to the members of the Faculty in the teaching of their respective departments, but also, as far as is possible, to the Student himself in getting up his work. Great expense has been gone to by the College in procuring Skeletons, Preparations, Models, Apparatus, etc., and the collection is not surpassed by that of any Medical Institution in the Dominion. In fact, while, at whatever cost, nothing PRACTICALLY USEFUL has been omitted, the mere multiplying of specimens of no PRACTICAL value has been studiously avoided.

A large and constantly increasing number of specimens gathered from hospital and private practice has been collected during past years, which are used in illustrating the several lectures of the Course. A considerable number of the very finest models and preparations, from Paris, have recently been added to the Museum, which is growing rapidly in size and in practical value.

The Museum has been lately still further enriched by the addition of a

very large number of specimens of the drugs most commonly used in medicine, including the Alkaloids. The greatest care has been taken in the selection of these, and they are arranged in their **orders**, as required by the Examining boards in Great Britain and Ireland, so as to be readily studied by the students.

Students and friends of the College may greatly benefit it, and advance the interests of medical science, by sending to the Museum, as many have already done, any interesting specimens they may meet with, in practice. They may be sent by express addressed to Professor Robertson, curator of Museum, Trinity Medical College, 37 Spruce St., Toronto.

The Curator will be in attendance at stated times, to give all required information to students, regarding specimens and preparations.

**GENERAL MATTERS.**

The Faculty, in order to give intending students every information have appended to this announcement the latest requirements of the College of Physicians and Surgeons of Ontario, before the Board of which all who desire a license to practise in Ontario, whether graduates or not, must present themselves.

Gentlemen who hold Certificates of Registration as qualified practitioners in Great Britain, are entitled to registration by the Medical Council in Ontario, on payment of the same fees, and passing the same examinations before the Medical Council, as are required of all Canadian graduates.

All Ontario students who intend practising in their own Province, are required to take the Examinations of the Council, whether they intend going into practice immediately after graduating, or going to Europe for a time, to pursue their studies still further.

The requirements for graduation in each of the various Universities, with which this school is affiliated, will be found at the end of this Announcement. **IT IS THE PRIVILEGE OF THE STUDENTS OF THIS COLLEGE THAT THEY MAY PRESENT THEMSELVES FOR EXAMINATION FOR DEGREES IN MEDICINE, AT ANY ONE OR MORE OF THESE UNIVERSITIES.** Those who desire to proceed to Great Britain, after finishing their studies here, will find Trinity Medical College fully recognized by all the Medical Institutions, Hospitals and Examining Boards of the mother country.

The Treasurer or some other member of the Faculty will be in attendance at the College on Monday, September 24th, 1888, and the following days, up to the day of the opening of the session, from 10 a.m. till 12 noon, and from 2 till 4 p.m., to register the names of intending students,

and to give such information regarding Lectures, etc., as may be required.

For further information, or for copies of this Announcement, apply to W. B. GEIKIE, M.D., *Dean*, Holyrood Villa, 52 Maitland St., Toronto.

Board may be obtained in the vicinity of the School at rates varying from \$3 to \$4 or \$5 per week, according to the accommodation required.

### REGULATIONS FOR STUDENTS.

*(To which special attention is requested.)*

I. Students are expected to conduct themselves in an orderly manner in the Lecture rooms, AT ALL TIMES, not only DURING LECTURES, but also when neither Lectures nor Demonstrations are going on.

II. In the case of noisy, or other disorderly conduct, or of doing wilful injury to College property, any student may, at the discretion of the Professor or Lecturer, be required to leave the Class-room. Persistence in this, or in any other offence against discipline, after admonition by the Professor or Lecturer, shall be reported to the Dean of Faculty. The Dean, may at his discretion, reprimand the student, or refer the matter to the Faculty at its next meeting, and may in the interval suspend such student, or students, from attending the Classes. Such conduct absolutely disqualifies a student from competing for medals, scholarships, or for any honours.

III. While in any part of the College building, students are expected to conduct themselves in the same orderly manner as in the Class-rooms.

IV. When students are brought before the Faculty under these regulations, they may be (a) reprimanded, or (b) suspended from classes, or (c) summarily expelled, according to the circumstances of the case.

V. Regular and punctual attendance on all lectures taken, is expected from every student. Non-attendance to any considerable extent, unless from illness, or some other unavoidable cause, will prevent the tickets being certified at the end of the session.

VI. Damage done to College property must in every case be made good by the party who does the damage.

**PATRONS AND HONORARY MEMBERS—PROFESSORS AND  
LECTURERS OF TRINITY MEDICAL COLLEGE.**

The 1st Year's-men elect their representatives at the first meeting, to be held in October, 1888.

\* Graduates in ARTS or in SCIENCE of any recognized University, British or Colonial, may compete for the Trinity Gold and Silver Medals, under the regulations of the College.

This Society meets throughout the session, at regular intervals, for reading and discussing papers on Medical, Literary and Scientific subjects, and gives several public entertainments of a literary and musical character during the session. The meetings have in the past been exceedingly successful, and it is hoped that they will be even more so during the coming season.

---

## UNIVERSITY OF TRINITY COLLEGE.

INCORPORATED BY ROYAL CHARTER.

### RULES AND REQUISITES FOR GRADUATION.

DOCTOR OF MEDICINE AND MASTER OF SURGERY.

The candidates for this degree must have matriculated in one of the following ways :—

(a) By having passed the Matriculation Examination in Arts or Medicine of Trinity College, or of some other recognized University.

(b) By having passed the Matriculation Examination accepted by the College of Physicians and Surgeons of Ontario, or Quebec, or that of the Law Society of Upper Canada.

(c) By having passed an Examination recognized as equivalent to any of the above.

The subjects of the Medical Matriculation Examination are :

- (1) Writing and Dictation.
- (2) English Language, including Grammar and Composition.
- (3) Arithmetic.
- (4) Algebra including Simple Equations.
- (5) Euclid, Bks. I., II.
- (6) Latin, *Cæsar, Bellum Gallicum*, Bks. I., II., or Bks. V., VI. ; or *Bellum Britannicum* ; or *Cicero, de Lege Manilia* ; or *Virgil, Æneid*, Bk. II.
- (7) And any ONE of the following subjects, to be selected by the Candidate :
  - (a) Scripture History ; and *St. Matthew's Gospel*, chap. i.-ix incl. in Greek.

- (b) Greek, Xenophon's Anabasis, Bk. I.
- (c) French, Voltaire's Charles XII., Bks. VI., VIII.
- (d) German, Schiller's Thirty Years' War, Bk. I.
- (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics. (Balfour Stewart's Physics is recommended.)

The Candidate for Degrees in Medicine or Surgery must be of the full age of twenty-one years, and present a certificate of good moral character.

He must also produce certificates of having pursued his medical studies for a period of *four* years, and during that time, of having either attended Medical Lectures during *four winter sessions*, or of having studied for *one* year with a medical practitioner, and of having subsequently attended Lectures during at least *three full winter sessions*. Graduates in Arts or in Science will be only required to attend *three winter sessions*.

During the four years he must have attended two courses of Lectures of six months each, on Descriptive Anatomy, Practical Anatomy, General Chemistry, Materia Medica and Therapeutics, Physiology, including Histology, and *ONE* course of three months on each of the following subjects:—Botany, Practical Chemistry, including Toxicology.

The above Lectures must have been attended, and the First year's Examination must have been passed in a recognized Medical College or School, before the Candidate can be admitted to the Primary Examination in Medicine.

He must further have attended two courses of Lectures of six months each, on Theory and Practice of Medicine, including Pathology; Principles and Practice of Surgery; Midwifery and Diseases of Women and Children; and two courses of three months each on Medical Jurisprudence, and *ONE* course on Sanitary Science.

He must have attended for at least *eighteen* months the practice of some General Hospital, and during two Sessions, Clinical Lectures on Medicine and Surgery.

He must have attended for at least six months the practice of a Lying-in Hospital, or give satisfactory evidence of having otherwise enjoyed equivalent advantages of gaining obstetrical knowledge, with a certificate of attendance upon at least six cases of labour.

He must have passed two University Examinations, called the Primary, and the Final Examinations in Medicine.

THE PROPERTY OF

Trinity Medical College.

## EXAMINATIONS.

**The Primary Examination** may be passed at the end of the Second Year. The subjects are: Anatomy, Physiology, including Histology, Chemical Physics and General Chemistry, Practical Chemistry, Materia Medica and Therapeutics, Toxicology, and Botany, unless where this has been passed at the First Year's Examination, at the end of the First Winter's Session.

The Primary Examinations of other recognized Universities, and that of the College of Physicians and Surgeons for Ontario, Quebec, or Manitoba, will be accepted in lieu of the University Primary Examination, provided that the Candidate shall in all cases pay the full fee for the degree, but if any of the subjects of the Primary Examination do not form part of the Examination allowed, the Candidate shall be required to take such subjects together with his Final Examination.

**The Final Examination** takes place at the end of the Fourth Year. The subjects are:—Theory and Practice of Medicine, including Medical Pathology, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Medical Jurisprudence, Sanitary Science.

The Primary and Final Examination may be taken together at the end of the Fourth year.

Registered Practitioners, holding British or Colonial Diplomas, who shall furnish satisfactory evidence that they have passed an Examination equivalent to the Primary, shall be exempted from this Examination, and required to pass only the Final. They must pay the full fee for the degree.

The Examinations are held annually in the spring, and the time of holding them is so arranged as not to interfere with those of the Medical Council of Ontario, which are held annually in Toronto.

The Curriculum of this University being formally recognized by the several Royal Colleges of Physicians and Surgeons of Great Britain, all graduates of Trinity College are entitled to every privilege enjoyed by the holders of Degrees from any Colonial University.

**Conferring of Medical Degrees.**—These are conferred at a Special Convocation held annually, at the close of the Winter Session.

## MEDALS.

Two Medals, one gold and one silver, known as the "University Medals," are given by this University, annually, in Medicine to the two students who stand first and second respectively, in the FINAL subjects,

at the close of the Examination. Hereafter two additional silver Medals will be given by the University annually, known as the First and Second Primary Silver Medals, to the two students who stand first and second respectively in all the Primary subjects at the close of the Examination. Medals of any kind are only awarded to students whose standing is highest in the list of those reaching, or going above 75 per cent. of the maximum number of marks.

#### CERTIFICATES OF HONOUR.

Certificates of Honour require 75 per cent of the marks and are given in this University annually, to those students who reach this standing.

#### FEES.

For Matriculation examination, including Registration .....\$ 5 00  
 For Registration of a Candidate not Examined by Trinity College. 1 00  
 For Degree of M.D., C.M. .... 24 00

The fee for the Degree is distributed as follows :—\$10 before the Candidate presents himself for the Primary Examination, and \$14 before he presents himself for the Final Examination.

Candidates rejected in either the Primary or Final Examinations will have the fees for that examination returned to them, less \$5. Candidates required by the Examiners to take any of the subjects of the examination a second time, will not be required to pay any other fee for such examination.

THE PROPERTY OF

Trinity Medical College.  
 UNIVERSITY OF TORONTO.

#### AFFILIATION.

This University has by statute the power as heretofore with the approval of the Governor of Ontario and Council, to affiliate with itself independent incorporated Medical Colleges or Schools.

Trinity Medical College is, and always has been, fully affiliated with the Provincial University and is represented on the Senate. All the Degrees and other Honours of this University are as open to the Students of this College, who fulfil the requirements as laid down in the curriculum, and given in this announcement, as to those of any Medical College or School in the Province.

### Rules and requisites for Graduation—Degree of M.B.—

The following are the requisites for admission to the degree of Bachelor of Medicine, to which there are two ordinary modes of proceeding, viz. : (1) by taking a Pass Course ; or (2), by taking an Honour Course.

**Matriculation.**—Candidates must pass the Matriculation Examination, unless (1) they possess a Degree in Arts, not being an Honorary Degree, from any Dominion or British University, or (2) having already matriculated in the Faculty of Arts, or in the Faculty of Law in this University, or (3) present a Certificate of Registration as Students in the College of Physicians and Surgeons of Ontario. They must also produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The Annual Matriculation Examination (both Pass and Honours), will commence in the beginning of July. Supplemental examinations for Matriculation will be held in the latter part of September, at which those who were rejected at the July Examination, as well as new candidates, may offer themselves. The Fee for Matriculation is \$5.

Candidates may delay presenting themselves for the Matriculation Examination until any time before the Final Examination for the Degree of M.B. ; but no candidate will be allowed to compete for relative standing or prizes until he has passed the Matriculation Examination. Candidates are requested to signify whether they purpose taking the Pass or Honour Examination. The following groups of subjects must be passed by every Matriculant : Two, out of the four languages, Latin, Greek, French, and German, one of which must be Latin.

1888-9.—CICERO, in *Catilinam* ; *Bellum Britannicum*. Translation from English into Latin prose, involving a knowledge of the first forty exercises in Bradley's Arnold's composition.

**Greek.**—1888-9.—XENOPHON, *Anabasis*, Book I.

**French.**—A Paper on Grammar. Translation from English into French Prose. SOUVESTRE, *Un Philosophe sous les Toits*.

**German.**—A Paper on Grammar. GRIMM'S, *Kinder in Vund Hans-Marchen*. Schiller *Der Taucher*.

Translation of easy passages from English into German.

(2). Mathematics, including Arithmetic, Algebra to the end of Quadratics, and the first three books of Euclid. (3). English Grammar, Composition and Dictation, with the outlines of English History and the Geography of America and Europe. The following text-books indicate the scope of the examination in Grammar and History : Mason's English Grammar, Edith Thompson's History of England.

THE PROPERTY OF  
Trinity Medical College.

Candidates who proceed to the Degree of M.B., by taking the Honour Course, will be grouped in two classes according to their success in the Honour Examinations. Only those Candidates will receive their Degree with First Class Honours who have obtained First Class Honours in the Second, Third and Fourth Professional Examinations. Those Candidates will receive their Degree with Second Class Honours, who have been placed in the Honour List in the Second, Third and Fourth Professional Examinations.

Candidates who are taking the Honour Course will be entitled to First Class Honours in any of the Professional Examinations if they obtain seventy-five per cent. of the aggregate marks allowed to such Examination. Those who obtain sixty-six per cent. of the aggregate marks will be entitled to First Class Honours.

Extra papers on all the Pass subjects will be set for Honour Candidates, as well as papers on certain Extra Honour Subjects. The Extra Honour Subjects are: Comparative Anatomy of the Vertebrata (Huxley) and Practical Examination in Natural Philosophy for the First Year, and Physiology of Muscle, Nerve, Circulation, etc. (Brunton, Foster, etc., pp. 165-419.)

**Degree of M.D., Fees, etc.**—The following are the requisites for admission to the Degree of M.D., viz.: Having been admitted to the Degree of M.B., being of one year's standing from admission to the Degree of M.B., and having composed an approved Thesis on some Medical subject, or having been engaged in an active practice or in post-graduate work at any British, Foreign or Canadian University for at least three years since admission to the degree of M.B. in the University of Toronto. The fee for the Degree of M.B. is \$20; for the Degree of M.D., \$20; and for admission ad eundem graduum, \$20.

**Medals, Prizes and Certificates of Honour.**—A gold medal and three silver medals are offered annually for competition among the Undergraduates who have succeeded in obtaining the degree of M.B. with First Class Honours, and will be awarded according to the percentage of marks in the aggregate results of the Second, Third and Fourth Professional Examinations; but the gold medal will only be awarded on the special recommendation of the Examiners. Prizes, each of the value of Ten Dollars in books, may be awarded annually among Undergraduates in Law, Medicine and Arts, for the best Composition in Greek Verse, Greek Prose, Latin Verse, Latin Prose, English Verse, English Prose, French Prose or German Prose.

Certificates of Honour will be given to those students who, at any of

the Examinations, have been placed in the First Class in Honours in any Department.

**Starr Medals.**—The late Richard Noble Starr, M.D., devised certain property for the encouragement of the study of the subjects of Anatomy, Physiology, and Pathology. In fulfilment of this object the Senate has established one Gold and two Silver Medals, called the "Starr Medals." These medals are conferred upon the three Bachelors of Medicine who have attained, in the course of their Annual Professional Examinations, the highest marks in the following subjects:—Anatomy for the first and second years, and in Surgical Anatomy of the third year; Physiology for the first and second years, and Histology, Physiological Chemistry and Practical Physiology of the second year; General Pathology and Morbid Anatomy and Histology of the third year. Every recipient of the Medal must have attained the standing of First Class in each of the above-mentioned subjects, and must have been classed in Honours in the Fourth Professional Examination.

**Regulations for Undergraduates.**—Undergraduates are required to attend Lectures and receive practical instruction during each of four years, at ONE OR OTHER of the Schools of Medicine recognized for this purpose by the University. Each undergraduate, at the end of each of the four years of his Course, may present himself at the Annual Examination of that particular year, or if he prefer to do so, he may elect to take the Primary Examination, held at the end of the second, and the Final Examination held at the end of the Fourth year. The Annual Examinations are styled the First, Second, Third and Fourth Professional Examinations, and are to be passed in separate years in the order named, by all Candidates for the degree. Graduates in Arts of this University with Honours in the Department of Natural Sciences, will be exempted from the First Professional Examination, and from the fee for the same. They must, however, take the Anatomy of that examination along with the Second Professional Examination. The fee for each Professional Examination is Five Dollars, payable when the candidate notifies the Registrar of his intention to present himself. The following certificates are required for the different examinations:

**First Professional.**—(1) Of having attended Lectures on the following subjects: Anatomy, 100; Physiology, Inorganic Chemistry, each 60; Natural Philosophy, 20; Botany, Zoology, each 30. (2) Of practical instruction in Anatomy during six months.

**Second Professional.**—(1) Of having attended Lectures on the following subjects: Anatomy, Physiology, Materia Medica, and Thera-

peutics,

This certificate may be from a registered Practitioner, the Apothecary of a Public Hospital, or of a Public Dispensary ; or from a Member of the Pharmaceutical Societies of Ontario or Quebec, and must state that the candidate has been engaged for at least three months in such work.

**Third Professional.**—(1) Of having attended Lectures on the following subjects : Practice of Medicine, Surgery, Obstetrics, each 100. Clinical Surgery and Medicine, General Pathology, each 50. (2) Of having dissected the parts of the Human Body the second time. (3) Of Practical instruction in Pathological Histology, three months.

**Fourth Professional.**—(1) Of having attended Lectures on Clinical Medicine and Surgery, Forensic Medicine, each 50 ; Hygiene, 25 ; Medical Psychology, 12. (2) Of Practical instruction in Chemistry in its application to Hygiene and Forensic Medicine. (3) Of having attended at least six clinics in a public Lunatic Asylum. (4) Of having conducted at least six labours. (5) Of proficiency in Vaccination. (6) Of attendance in the Wards of a public Hospital, accommodating not less than 100 beds, during eighteen months. (7) Of attendance for six months on the Out-practice of a Hospital Dispensary or registered Practitioner. (8) Of having attended twelve Autopsies.

THE PROPERTY OF  
Trinity Medical College.  
QUEEN'S UNIVERSITY.

Candidates for the Degree of this University, with which TRINITY MEDICAL COLLEGE is affiliated, must be of the full age of twenty-one years, and must have completed a period of *four years' study*, and have passed the Matriculation Examination of Queen's College which is as follows :

English Language, Grammar and Composition.  
Arithmetic, with Vulgar and Decimal Fractions.  
Algebra, including Simple Equations.  
Geometry, first two books of Euclid.  
Latin Grammar, and translation (Cicero, Cato, Major, Virgil,  
Æneid, Bk. I., 1-304. Ovid, Fasti, Bk. I, 1-300.  
Natural Philosophy, as in Stewart's *Physics*.

Graduates in Arts and Matriculants in Arts or in Medicine, in a recognized British or Colonial University, and those who have passed the *Matriculation Examination of the Medical Council of Ontario*, or any Matriculation Examination recognized by that body as equivalent to its own, are not required to pass the above Matriculation Examination.

This examination must be passed before a student is admitted to any of the professional examinations, although lectures may be attended previous to passing this Matriculation Examination.

In the case of Graduates in Arts or in Science, a period of three years only will be required, but not fewer than THREE WINTER sessions attendance at lectures.

Every Candidate must have given regular attendance on Full Courses of Instruction in the following Departments for the periods stated, during four, or at least three, sessions. In the latter case a year's study with a registered practitioner must have been passed before attending Lectures.

Two full courses of Six Months each, on Principles and Practice of Medicine, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery and Diseases of Women and Children, Physiology, including Histology, Anatomy, Descriptive, Anatomy Practical, General Chemistry, Materia Medica and Therapeutics.

Also two courses of Medical Jurisprudence and Toxicology; and one each on Practical Chemistry and Botany, and not less than eighteen months' hospital attendance, and six midwifery cases, etc., and every candidate must present a certificate of having compounded medicines in an office of a medical man or in a hospital or dispensary for a period of not less than six months.

The above course of study may have been pursued either wholly at Trinity Medical College, or partly at some other Medical College or School recognized by Queen's University.

Candidates who have taken their Degree at Trinity University and desire to take the Degree of M.D., C.M. from Queen's University are admitted to the latter on presenting certificates of having passed all examinations for that Degree, and on payment in full of the Graduation fee. Payment of Graduation fees for Queen's University, is to be made for the University, to the Dean of Trinity Medical College.

The Examinations are (a) held at the end of the 1st year; (b) the PRIMARY, at the end of the 2nd; (c) the Final held at the end of the 4th year.

Candidates may undergo the examination on Sanitary Science and Medical Jurisprudence at the end of the 3rd year if they desire to do so,

or they  
year.

## VICTORIA UNIVERSITY.

*(With which Trinity Medical College is Affiliated.)*

### REGULATIONS AND ANNOUNCEMENTS.

#### DEGREE OF M.D.

1. Candidates for this degree must pass a Matriculation Examination as follows, viz. : Either (1) Matriculation in Arts of this University ; or (2) the non-professional examination of the Education Department for second or third-class teachers, with the Latin option ; or (3) Matriculation in Medicine of this University, which is the same as that of the College of Physicians and Surgeons, Ontario. The corresponding diplomas of the Province of Quebec are also accepted.

2. They must pass the Primary and Final Examinations prescribed by the curriculum of this University.

3. They must have spent four years in professional study before admission to the Final Examination. Graduates in Arts will be admitted after three years' professional study.

4. They must furnish evidence of attendance upon Medical Lectures for three sessions of six months each at some School of standing, recognized by the Senate. The Lectures required are as follows :

Descriptive Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice

of Surgery, Principles and Practice of Medicine, Midwifery and Diseases of Women and Children, Clinical Medicine, Clinical Surgery,—Two Courses of Six Months each.

Medical Jurisprudence,—Two Courses of Three Months each.

Practical Chemistry, Botany,—One Course of Three Months each.

Sanitary Science, Normal Histology, Pathological Histology,—One course of Three Months.

They must spend six months in the office of a regularly qualified medical practitioner.

They must attend the practice of a General Hospital for eighteen months.

They must attend six cases of Midwifery.

They must be twenty-one years of age.

Candidates may take the Matriculation Examination at Cobourg in June or in September, or at Toronto during the latter part of December.

The regular Professional Examination takes place in Toronto during the first week of April.

For further information apply to the Dean of Trinity Medical College, 52 Maitland Street, Toronto.

The Third Class non-Professional, with Latin, passed after July, 1888, will not be accepted.

Graduates in Arts, or Students having Matriculated in Arts in any University in her Majesty's dominions, are not required to pass this Examination, but may register their names with the Registrar of the College, upon giving satisfactory evidence of their qualifications, and upon paying the fee of twenty dollars.

Every Medical Student after Matriculating shall be registered in the manner prescribed by the Council, and this shall be held to be the beginning of his medical studies, which shall date from that registration.

THE PROPERTY OF  
Trinity Medical College.  
MEDICAL CURRICULUM.

Every student, after his Matriculation has been registered, must spend a period of FOUR years in actual professional study, except as hereinafter provided.

Graduates in Arts of any College or University recognized by the Council will only be required to pass three years after graduating in attendance upon Medical Lectures, before being admitted to the final examination.

Every STUDENT WHO HAS NOT ATTENDED ANY RECOGNIZED MEDICAL SCHOOL PRIOR TO JUNE, 1880, SHALL BE REQUIRED TO ATTEND MEDICAL LECTURES FOR AT LEAST FOUR SESSIONS OF SIX MONTHS EACH. THIS REGULATION IS HEREAFTER TO BE STRICTLY ENFORCED IN ALL CASES.

Each "Six Months' Course" shall consist of not less than one hundred Lectures.

Every Student must attend the undermentioned Course of Lectures, in a University, College, or School of Medicine, approved of by the Council, viz :

*Two Courses of Six Months* each upon Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice of Medicine, Principles and Practice of Surgery Midwifery, and Diseases of Woman and Children, Clinical Medicine and Clinical Surgery.

*Two Courses of Three Months* each upon Medical Jurisprudence, and *One Course of Three Months* upon Practical Chemistry, including Toxicology, and one on Botany.

*One course of Twenty-Five Demonstrations*, upon Normal Histology, and *One course of Twenty-five Demonstrations* upon Pathological Histology, and one course of twenty lectures on Sanitary Science.

Every candidate must prove his having carefully dissected the whole adult human body.

Every Student before being admitted to the Final Examination hereinafter mentioned, must have spent a period of six months in compounding medicines.

He must have attended the practice of a General Hospital for 24 months.

He must have attended six cases of Midwifery.

He must, before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all examinations hereinafter prescribed, and must have attained the full age of twenty-one years.

All persons from recognized Colleges outside the Provinces of Ontario and Quebec, who desire to qualify themselves for Registration in this Province, must pass the Matriculation Examination recognized by the Council, and must attend thereafter one or more full "Winter Courses" of Lectures, in one of the Ontario Medical Schools, so as to complete fully the Curriculum required by the Council, and shall pass, before the Board of Examiners appointed by the Council, all the examinations hereinafter prescribed.

---

---

## EXAMINATIONS.

1. The Professional Examinations are divided into *Primary* and *Final*.

2. The *Primary* Examination shall be undergone after the SECOND, and the *Final* after the FOURTH winter session.

3. The following branches are embraced in the Primary Examination, viz :

Descriptive Anatomy, Physiology and Histology, Theoretical Chemistry, Practical Chemistry, and Toxicology, Materia Medica and Pharmacy.

4. Each candidate for the Primary Examination will be requested to present with his Lecture tickets a certificate of having undergone an Examination at the school he has attended, at the close of his First Winter Session, on Anatomy, Physiology, Chemistry, Materia Medica, and Botany. Such Examination shall not, however, in any way affect the Primary Examination of the Council. Also a Certificate of ability to make and mount Microscopic specimens. Each candidate for Final Examination must present a Certificate of attendance at Six Post-Mortem Examinations, and a Certificate of ability to draw up a report of a Post-Mortem Examination; also, a Certificate of having reported satisfactorily on six Cases of Clinical Medicine, and six Cases of Clinical Surgery.

5. The following branches are embraced in the Final Examination :

Medical and Surgical Anatomy, Theory and Practice of Medicine and Therapeutics, Clinical Medicine, Sanitary Science. Surgery, other than Operative. Surgery Operative. Clinical Surgery. Medical and Surgical Pathology. Midwifery (other than Operative), and Diseases of Women and Children. Midwifery, Operative. Medical Jurisprudence.

6. Any Candidate who passes creditably in three or more Branches, but fails in the others, shall receive credit for the subjects so passed and be compelled to pass in the other branches *only*, at a subsequent Examination.

THE PROPERTY OF  
Trinity Medical College,  
FEES.

The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario :

Registration of Matriculation.....	\$20 00
Primary Examination.....	20 00
Final Examination.....	30 00

Candidates who are unsuccessful are entitled, at a subsequent time, to a second Examination, free of charge.

All fees to be paid to the Treasurer of the Medical Council prior to the several Examinations.

For Students not registered before July 1st, 1889, the Primary Fee will be \$30, and the Final Fee \$50.

## TEXT BOOKS.

Class books suitable for the examinations of the different Universities, the Medical Council, and Trinity Medical College.

Dunglison's Medical Dictionary. Gray's Anatomy. Kirke's Physiology. Roscoe's or Wilson's Chemistry, and Croft's Practical Chemistry. Garrod's *Materia Medica*. Farquharson's Therapeutics. J. Mitchell Bruce's *Materia Medica*. Bessy's *Essentials of Botany*. Husband's Forensic Medicine. Tanner on Poisons. Wilson's Sanitary Science. Playfair's or Leishman's Midwifery. Erichsen's or Holmes' Surgery. Flint's or Bristowe's Practice of Medicine. Quain's Medical Dictionary. Loomis' Practice. Strümpell's Medicine. McAllister's Annual Morphology. Packard's Zoology. Huxley and Martin Elementary Biology.
