ARNOLDI FAIRED AS I. O. D. E. HEAD

ELECTION OF TORONTO LADY IS ANTICIPATED

Mrs. Heber Vroom Unopposed As N. B. Councillor

PAPERS BANNED

Entry of Certain U. S. Publications Condemned; Committee to Meet Cabinet

BEFORE the annual election of officers of the National Chapter Imperial Order Daughters of the Empire, late this afternoon, the sentiment among the delegates pointed strongly to the choice for president of Miss Joan Arnoldi, of Toronto, first vice-president, and one of the most prominent officials of the organization. There was no opposition to the election of Mrs. H. Heber Vroom, of Rothesay, as national councillor for New Brunswick. Winnipeg will be the place of next year's convention.

Numerous resolutions were disposed of at the session this forenoon. The meeting was opened by the national president, Miss R. M. Church, of Toronto, but she surrendered the chair for the greater part of the morning to Mrs. A. F. Griffiths of Victoria, B. C., provincial president.

ARMISTICE DAY

The chapter favored a fitting observance of Armistice Day generally, the topic arising on the report that British royalty had decided against being given because of the desiring of the Prince of Wales to have the solemnity of the day recognized more fully. It was pointed out by several delegates that most of the balls given that evening were arranged by the military bodies and were the result of financially patriotic causes, such as soldiers' relief.

PAPERS NAMED

The subject came before the meeting through the reporting of a resolution from the Ontario provincial chapter. Certain United States magazines and the Calgary Eye Opener were reported have published matter unfit for circulation in Canada. Mrs. R. C. Marshall of Calgary, provincial president of Alberta, explained that the Calgary Eye Opener was now published in Minneapolis and she thought the Calgary Board of Trade should be asked to make the necessary representations to the Government.

REPORT ON ATHEISM

Miss Arnoldi told of the activities of the American Association for the Advancement of Atheism, which had circulated sacrilegious literature in Toronto. Toronto lawyers had said that no action could be taken at law or by the Government against such propaganda because of the religious freedom feature of the constitution.

CABLE TRANSFERS

MONTREAL, June 11—Cable transfers 486 3-16. Immigrants to naturalization courts just before an election.

FILMS DISCUSSED

A long discussion on United States films exhibited in Canada followed. It was the contention of most of the speakers that many of these films had a subtle influence on the minds of the young. On motion of Mrs. W. Pitt, seconded by Mrs. Whittier, it was voted to request the Canadian government to give a tariff preference to British films.

minutes after the sounding of the first alarm. It was said that there were about 16 employees at work in the building at the time of the fire, the origin of which was not definitely known. Two of the employees said that while at work the flames seemed suddenly to shoot out and the building was on fire before they knew it.

Several of the wires of the Civic Hydro Commission were burned off the poles and fell to the ground, some of the firemen having new ropes from being electrocuted. The power was shut off and Barry Wilson, the engineer of the commission, had men at work disconnecting the taps to Elm street, on completion of which service to the North End was resumed. A cable of the New Brunswick Telephone Company leading out Elm street and serving about 25 customers was destroyed.

TRAFFIC HELD UP

June 19, the crusaders will enter London and gather in Hyde Park. Women speakers from 20 platforms will demand peace. Saying they are tired of the talk of politicians and diplomats, British women of all classes have united in this anti-war demonstration.

PARIS GIRL THIEF

Awaits Trial on Charge of Entering
Rooms of Sleeping
Tourists

PARIS, June 11.—Séidou, the French police caught a female crook more genuinely impudent or more unblushingly proud of her crime than Odette Andrieu, a young woman of fashion, now in Saint Lazare prison awaiting trial on a charge of entering hotels and carrying off jewels valued at \$600,000.

Odette used to go about her trade in dark pyjamas and generally had a half-smoked cold cigarette.

At last night's meeting, but could not command enough votes to carry a nomination. The Dominion local now comprises miners employed at collieries number 1, A, and 1, B.

SHIP HAS BAD LUCK
ON THIRTEENTH TRIP

LONDON, June 11.—The thirteenth voyage of the Australian Commonwealth liner Moreton Bay (13,850 tons), which departed from Brisbane recently, was an unsuccess one. In response to a wireless message two ambulance cars were in attendance at the quayside, and seven children suffering from measles were carried down the gangway. Before the ship sailed, a number of 10 clerical men in the liner, and seamen regard clerical men as bringers of ill-luck on a voyage. After the vessel was three days out from port, a severe influenza spread among the crew, every member being affected. A number of passengers were also taken ill. Another incident during the voyage of the Moreton Bay was the mysterious disappearance of one of the passengers, named Kennedy, who was reported missing four days after embarking at Fremantle. A thorough search of the ship was made, but no trace of Kennedy was found.

PROSPERITY WOULD INCREASE UNITY

So Says Sir Thomas White in Address Before Manufacturers' Association

Canadian Press
TORONTO, Ont., June 11.—Canada's economic need is for more people. We need more producers and more consumers. The policies which give us both are the policies which produce prosperity and prosperity will give us national unity. If we can have widespread prosperity, we shall have little of the need for national unity or national harmony.

BERLIN, June 11.—A man claiming to be an Indian fakir, but who is in reality a German, recently offered to allow himself to be crucified for 19 hours daily for 30 days, and to prove that he could do it he was literally nailed to a cross in the presence of press witnesses.

RETRIEVER BURROWS

LONDON, June 11.—A black retriever, owned by a Durham man, has burrowed into a thorn-covered hillside, where she keeps savage guard over her puppies. Twice before the owners had dug her out, but she had burrowed again. Three weeks ago the retriever disappeared, but was later seen in an almost inaccessible part of the hill.

The Evening Times-Star

The Evening Times-Star printed at 25-27 Canterbury street every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

SAINT JOHN, N. B., JUNE 11, 1926.

DEVELOPING TOURIST TRAFFIC

New Brunswick is looking forward to a large tourist traffic this year. To date the weather, not only in this province but in many parts of the United States and Canada has not been of a variety that would induce people to start on a holiday, but with a change of the moon on June 10, warmer and fairer weather is predicted.

The total number of automobiles which entered Canada from the United States carrying tourist parties was 2,429,144, of which 1,521,277 visited Ontario. New Brunswick was visited by 488,430 cars and the most surprising thing in this connection is that this is nearly twice the number of cars which went to Quebec, the latter province having been visited by 255,914 automobiles.

Whatever the reason, we have just cause to be delighted that nearly half a million parties representing about one and a half to two million people from the United States visited our province last year. What this means in dollars and cents to the people of our province is tremendous and should make us realize that if so many have come with the minimum of effort that has been exerted to induce them, what an asset this tourist business could be made if we entered into the business of providing pleasures, attractions and suitable accommodations for them.

If each party that came here last year spent \$10 a day and only stayed in the province one day—which is admittedly very conservative—then approximately \$5,000,000 was left here by them.

If New Brunswickers would only realize that the tourist business presents opportunities to them far greater than any of our other industries, they would stop worrying about the slump in lumber, the high freight rates, the fur markets, and get busy developing as tourist playgrounds the wonderful assets that nature has given them in the Saint John, the Restigouche, and the Miramichi rivers, as well as the countless lakes and streams that make of this province one of the most beautiful and picturesque spots in the world.

We benefited to the extent of \$5,000,000 last year and this is only a small portion of what would be left here were we to provide the necessary inducements to keep tourists with us for a longer period.

THE SUPPRESSION OF NEWS. The English newspapers are all very much of the opinion that in the recent general strike a great mistake was made in preventing the newspapers from issuing. It is not remarkable that in this view the London dailies should for once be unanimous. They argue that even in the interests of the strike they should have been allowed to give the news and so keep the workers informed of the progress of events.

Just Fun

A MAN spends a third of his life wondering what he wants, a third in getting it, and a third in wondering what he's gonna do with it.

THE RAINY DAY.

The day is cold, and dark and dreary; It rains and the wind is never weary; The vine still clings to the moulder- ing wall, But at every gust the dead leaves fall, And the day is dark and dreary.

My life is cold, and dark, and dreary; It rains and the wind is never weary; My thoughts still cling to the moulder- ing Past, But the hopes of youth fall thick in the blast, And the days are dark and dreary.

Be still, sad heart! and cease repining; Behind the clouds is the sun still shining; Thy fate is the common fate of all, Into each life some rain must fall, Some days must be dark and dreary.

"Do you handle bread?" "Yes, sir." "Then give me some that you haven't handled."

A MOVEMENT is on foot to make French the universal language, because this is the only language in which "Please Heant" doesn't mean anything.

NURSE—Barbara, won't you give your little brother part of your apple? Barbara—No. Eye did that, and she's been criticized ever since.

Life is a mirror for king and for slave; 'Tis just like a drunkard reeling down a street, Then give to the world the best you have, And the best will come back to you.

DINNER STORIES

THE appetizing and grumpy old gentleman in the crowded restaurant was compelled to sit, mugged against his will, next to the orchestra. His seat at the leader as the jazz selection came to an end caused that worthy to bow before his table. The annoyed patron snorted, and then asked: "Would you be so kind as to play something requests?"

AN Englishman was talking to an American editor with whom he had become acquainted on the trip across the ocean. Englishman in answer to some disparaging remark, "you must admit that any man of letters, whether English or American, would be proud to be buried in Westminster Abbey."

"Not at all," replied the editor. "I am a man of letters and I would not consent to be buried there tomorrow, if I had the offer."

A HUMANE society had secured a downtown show window and filled it with attractive pictures of wild animals in their native haunts. A placard in the middle of the exhibit read: "We were skinned to provide women with fashionable furs."

A man paused before the window, and his harassed expression for a moment gave place to one of sympathy. "I know just how you feel, old tops," he muttered. "So do I."

Other Views

FRANCO-GERMAN RAPPROCHEMENT (Warsaw Messenger Polonais). It is not difficult to believe that a sentiment is growing in France in favor of a rapprochement with her eastern neighbor. There can be no question that the two countries, separated by a rivalry which is rather secular than material in character, would profit by coming to an understanding. Economically, France, which produces iron, and Germany, which produces coal, are independent politically, there is barely a single difficulty to separate them. Thus we are heartily in favor of a Franco-German reconciliation just as we look forward to a Germano-Polish entente.

FRANCE AND THE STRIKE (Paris Avenir). Great Britain will not recover her economic stability, she will not put an end to her unemployment, she will not escape future strikes provoked by the reduction of salaries except on the condition of strict collaboration with those countries which are not her direct competitors, which are consumers of her products and which are not animated with the spirit of commercial domination. But in order to have strict economic collaboration, there must be, in the same degree, collaboration in all fields, even and above all in the political field. And the latter course picking and choosing. Great Britain should be able to recognize her best interest and choose accordingly.

STILL ACTIVE (Buffalo Express). The national automobile chamber of commerce reports that 86 per cent. of stolen automobiles in 1925 were recovered. That is an improvement over 1920 and 1921, when only 71 per cent. were recovered. But 70,174 automobiles were stolen in 1925. There was an appalling increase from 1924, when 87,881 cars were stolen and from 1923, when 39,612 were stolen. The need for a great effort to prevent the stealing of cars is obvious. In the first instance, the owner needs to be more careful to lock his car as completely as it can be locked and not to leave it unnecessarily exposed to the convenience of thieves. Secondly, it appears as if the police were concerned more with the recovery of cars than with the prevention of theft. As the majority of the cars recovered have been damaged inwardly or outwardly, prevention is preferable to permanent loss. An inquiry into the circumstances of recovered cars, particularly with reference to the payment of rewards, might be fruitful.

PEACE OF MIND

WHEN I pass on, and say goodby—in plainer language, when I die—I wonder what the folk will say—that is, the folk I know today. We all, no doubt, have had that thought and, in the spirit of it, sought, have pondered over the honest worth to self and others, on this earth. It's nice to think—and then not mind, whatever fault you think they'll find. For if you've played the life game fair, you know, at least, you've done your share. And yet there is a peace of mind, in knowing thoughts of you are kind. The man who lives and spreads the smile, makes friends who make it all worth while.

POEMS-HOME

"Bessie Bottaill," by James Stephens. And said a thing was desperate. Her face was screwed and wrinkled tight. As left and right she swung her head, On either side she wagged her head. And said a thing; and what she said Was desperate as any word That ever yet a person heard.

Queer Quirks of Nature

THE SNAPPING TURTLE CAN HOLD TIGHTLY. mother has laid her two or three dozen round rubbery shelled eggs in a hole of her own digging, and after putting down the replaced soil over them, gone on about her leisurely business, leaving the rest to fate. The food of the baby snapper consists of anything in the animal or vegetable line that he can pick up and he himself passes as food in the eyes of many a bird and beast. If he escapes these in his early youth, however, he has few enemies to fear during the next hundred years or so. Fish and frog and duckling, and the leaves and fruit of many water plants form a part of his bill of fare.

Who's Who

JOHN A. LAPP. ONE of the foremost laymen in the Catholic church, John A. Lapp of Chicago, has been chosen to preside over the National Conference of Social Work for a year. He was born in Fillmore, N. Y., in 1880, was graduated from Alfred University and studied political science at the University of Wisconsin. With the late Charles McCarthy he developed the celebrated Wisconsin legislative library in 1906 and 1907, and later did similar work for Indiana. During the 1907 session of the Indiana legislature Lapp acted as legislative assistant for the legislative Veterans' League of Chicago. From 1908 to 1913 he was legislative reference librarian of Indiana. He was director of investigations for the Ohio health and old age industrial insurance commission in 1918-1919, and in 1920 director of the social actions department of the National Catholic Welfare Council. Lapp has had editorial experience as associate editor of the National Municipal Review and the American Political Science Review. Since 1921 he has been managing editor of Nation's Health. He is the author of several books. Among them are "Learning to Earn," "The Catholic Citizen," "Our America" and "The Elements of Civics."

PEACE OF MIND

WHEN I pass on, and say goodby—in plainer language, when I die—I wonder what the folk will say—that is, the folk I know today. We all, no doubt, have had that thought and, in the spirit of it, sought, have pondered over the honest worth to self and others, on this earth. It's nice to think—and then not mind, whatever fault you think they'll find. For if you've played the life game fair, you know, at least, you've done your share. And yet there is a peace of mind, in knowing thoughts of you are kind. The man who lives and spreads the smile, makes friends who make it all worth while.

The Folly of a Big Wedding for Those in Moderate Circumstances—The Young Girl Whose Parents Help to Entertain Her Men Callers—Will an American Girl be Happy Married to a Filipino?

DEAR MISS DIX—I am engaged to be married and my fiance wants us to have a big church wedding, while I prefer to be quietly married at home. Neither of us is rich, so don't you think it would be best to have a less expensive wedding and save up my money to put into a comfortable little home? LUCY.

DOROTHY DIX

ANSWER: Certainly do, Lucy. I think of all the foolish ways in which money can be spent, none is sillier than to throw it away on a show wedding, where for ten minutes you pay a price that frequently bankrupts the family for years.

Of course, the rich are a law unto themselves. If those who do not have to count the cost desire to spend their money on a display wedding, it is their own affair, though why any one should want to do so is a mystery past finding out. It would be more incongruous to invite strangers in to see you marry than to see you married.

In reality, the ideal marriage ceremony is where a man and a woman who are taking each other for better or worse as long as life shall last and who are going to take the most solemn oath that human lips can utter, go with only one or two of their nearest and dearest to the church, and there, with no fuss and feathers to distract them, no gazing, curious crowd looking on and criticizing, are married to each other.

Perhaps if there were more marriages celebrated in that way more of them would take.

You are certainly an unusually sensible girl, Lucy, to perceive that a show wedding is the height of folly for people in moderate circumstances. The average girl feels that life will be clouded, silted and dust if she doesn't have a wedding with white satin and orange blossoms and bridesmaids and ring bearers and all the balance of the flummery.

So, only too often, she works herself nearly to death and runs her poor old father into debt to pay for her splurge up an aisle and down again, while her dear 500 friends gossip in the pew and say, "My, but did you ever see her look so ugly? And is that little shrimp the bridegroom? Why do you suppose she picked him out? And how do you suppose they are ever going to pay for all of this grandeur? Everybody knows they can't afford it."

It is all over in ten minutes, except paying the bills. Figure it out and see if you think it is worth the money. For what the useless bridal costume cost, what the flowers cost, what the music and the motors and the presents and souvenirs to bridesmaids and ushers and ring bearers cost, would start a respectable account in a savings bank that might grow into a home or a little business of your own.

And tell your fiance, who wants the show wedding, that he is making a poor investment, for in a display wedding nobody ever notices the bridegroom. He is merely an excuse for the wedding. He doesn't even get a run for his money. DOROTHY DIX.

DEAR MISS DIX—Our home is small. We have only one sitting room, and when I entertain my gentlemen callers my family has to be with us. That is all right; but on other nights my father and mother retire early, but when I have company they sit up until my company goes and monopolize the conversation. The result is that few young men ever come back. What can I do about it? LETTY.

ANSWER: Why, if I were you I should have a perfectly frank talk with my parents and tell them that the young man came to see me and not to see them, and that they were queering my chances. Undoubtedly they are, for too much family is a handicap too heavy for any girl to carry in the race for popularity.

It is a hard thing for older people to realize how they bore young ones. Father never dreams that young Smith doesn't put an extra variance in spending an enthralling evening listening to him discourse about the state of the grocery trade or to his reminiscences of when he was a youngster or to his opinion about the political situation and how they ought to settle the League of Nations business. Nor does it dawn on mother that that nice Jones boy is yawning his head off while she babbles along about the price of butcher's meat and what happened to her second child when it had the measles.

Older people are crepe hangers in any assembly of young people. They take all of the pep out of the occasion. And it isn't because young people want to do anything or say anything that the severest chastisement would condemn. It is just because they feel constrained in father's and mother's presence, and they can't do and say the foolish little things that they would if they were alone.

And love's young dream has to have the proper environment in which to flourish. It has to have the solitude of two, with the certainty that nobody is within eyeshot or is listening in. It withers and dies in the family circle. At least, the American variety does.

If father and mother want their daughter to be an old maid, they can take no sure way of achieving that result than by sitting with her company. And that isn't marriage. DOROTHY DIX.

DEAR MISS DIX—I am a college-bred girl in love with a Filipino. He is highly educated, a man of splendid character and ideal from every standpoint. My parents object very much to the match, but they have found fault with every man I have ever liked, so I am not going to listen to them. What do you think of it? PERPLEXED.

ANSWER: They used to call the Filipinos our "little brown brothers." If I were you, I would let them say what they say at that, and not take one for a husband. For East is East and West is West, and never the twain should meet at the altar.

This man may be all that you say he is, but behind him and behind you lie centuries of difference in race, in breeding, in morals, in customs, in points of view, and it is utterly impossible for you to reconcile them. Goodness knows, there are enough things in matrimony for a husband and wife to spat over without them dragging in the whole issue of civilization and savagery.

I think that you will be miserably if you marry your Filipino, and I think that he will be utterly wretched if he marries you, for it is not possible for an Oriental man to regard a woman from anything but the Oriental point of view, nor is it possible for an American woman to submit herself to the Oriental view-point and to suffer being treated as Orientals treat their woman-kind. Midsummer Evening Clothes Dreams of Loveliness

By MME. LIBBETH
MIDSUMMER night's dream of loveliness are the frocks for formal summer wear. Dainty colors and exquisite fabrics. Simple designs many of them, but glistening and gleaming or gently shimmering like dewdrops on the grass or fireflies in the dark.

One lovely gown is illustrated above (left). It is fashioned of palest pink chiffon trimmed with gold spangled lace. Panels of the lace fall over the skirt and the bodice—which, by the way, is very simply made, and close fitting—entirely covered with lace.

A suitable wrap to wear with this dress is pictured (center). Silver gray chiffon velvet would harmonize beautifully with the pink and gold of the

frock. The wrap is made with a gathered ruffe at the bottom, and the entire coat is edged with marabou.

Delicate silk lace is posed over a color in the third model (right). Long sleeves on dance dresses are a little newer this season and this frock has the long, bell-shaped variety made of the transparent lace. An uneven waistline, placed rather high, full skirt, which also has a slightly uneven line, are the only unusual or distinguishing features of this pretty frock. And you will notice that midday is seldom divorced from a huge feather fan when dressed for the dance.

Four colors were noted in another charming dress, the foundation being of flesh georgette with two full bias bouffes of yellow and robin's egg blue, and a green rose placed at the waistline. The bodice was fashioned on bolero lines while the short full cape worn with the frock was of flesh georgette.

The trend of styles for the fall season as evidenced by the frocks recently noted at brilliant social affairs may be said to be two in number, one the evening cape, and the other sequined frocks in pastel colorings usually embroidered in silver or gold spangles.

Aside from these outstanding highlights, many of the details which promise to hold the spotlight in fall fashions are the blouse frock, for example, falling softly over a girle or one stimulated by bands of beading. Deep rich burgundy dresses were worn by at least four women, in one instance complemented by a matching cape of chiffon. It is frankly the favored material, in white, pale flesh and peach tints and some light green. Black is also important, often embellished by silver bead or paillette embroidery.

Fashion Fancies

THIS NAVY COAT FROCK IS IDEAL FOR SUMMER STREET WEAR

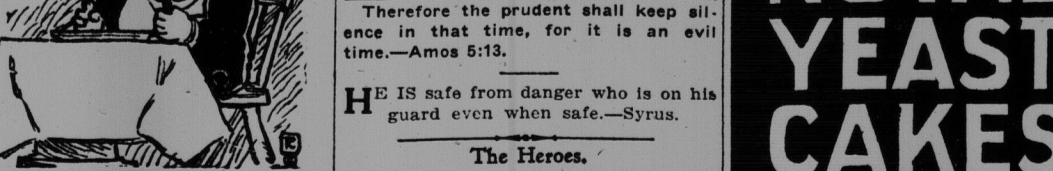

By Marie Belmont
The coat frock is a favored model, for it is becoming to all ages. The one shown in the sketch above would be smart for eighteen or forty.

Navy blue crepe is chosen for the material. The dress is made with a straight back which extends into a narrow belt that buttons across the front. The cleverly inserted pleats give ample width for walking. Narrow red crepe bands mark the collar and cuffs.

White crepe would also be smart in this model, with perhaps bright blue bands for the color touch.

ADVENTURES OF THE TWINS

THE WHIFFET FINDS HIS SHADOW
When the Twins and the Whiffet stepped onto the Zigzag Path that led to Hilly Go Land, the path started to jump and jerk and wiggle and shake so hard they could scarcely keep their feet. They might just as well have tried to walk on a hammock.

"Oh dear! I can't stand up!" cried Nancy, clutching at Nick.

"Neither can I!" said Nick reaching for the little rag-boy, who had been bounced clear off—and almost head over heels himself.

Suddenly they heard a voice say, "Highly tighty! This here's do! And you children with magic shoes'n everything, too."

There stood their old friend Mister Havaloob, with his laundry under his arm.

"You—don't see—em—to—have any trou—troub—trub," said Nancy, "How do—do you stick on?"

"It's a charm," said Mister Havaloob. "It's a knot in one corner of my handkerchief. If you have no handkerchief along, an end of your necktie will do, or the end of your apron-string. Just anything so you have a knot along."

Well, that worked all right, for in spite of their tumbling, the Twins got their knots tied. But the Whiffet had nothing to tie. And I don't know what would have happened if Mister Havaloob hadn't brought his laundry along. But he had it right there so he lent the Whiffet a sock and that fixed it.

"Now then, go right along until you come to a large silver maple tree with reddish blossoms," said Mister Havaloob. "Right behind it you will see an ivory door. That's the door of Mister Snoopy's cave. But listen here! I want to tell you a secret that I just learned the day before yesterday. It may help you out if the old rascal gets outspooked."

With that Mister Havaloob whiskered something to Nick, and picking up his bundle, he was gone.

COLLEGE PLAYERS

Mount Allison Cast Presents
"The Charm School,"
Those Taking Part

The Mount Allison players scored a decided triumph in "The Charm School" in Centenary Hall last evening. The play, which was directed by Miss Ida Leslie, was greatly enjoyed by a large audience. It dealt with the adventures of a young man who suddenly found himself the owner of a girls' school. He decided to experiment with the idea of teaching the students charm rather than confining their studies to the approved curriculum.

His subsequent adventures and discovery that his charges had charm without any instructions from their teachers provided an excellent evening's entertainment. Readings by Miss Muriel Curran were heartily applauded.

The cast: Austin Bevans, Ernest Huettig, David Mackenzie, Stan Chapman, George Boyd, Les Allanach, Jim Simpkins, Conrad Spangler; Homer Johns, Kenneth Parker; Elise Benedict, Laura Welton; Miss Hays, Miss Ross; Miss Curtis, Muriel Curran; Sally Boyd, Lucille Hodgson, and Muriel Doughty, Betty Ross.

STOMACH TROUBLES
ARE DUE TO ACIDITY

Tells of Pleasant Home Treatment to Bring Swift Relief

So-called stomach troubles—indigestion, dyspepsia, gas, sourness, etc.—are probably nine cases out of ten, evidence of "too much acid in the stomach," souring the food, causing the formation of gas and starting acid indigestion.

Gas distends the stomach and causes a dull, oppressive burning feeling known as "heartburn," while the acid irritates and inflames the delicate stomach lining. Get rid of acidity, and you get rid of indigestion.

To stop or prevent the sourness and gas, to neutralize the stomach acids and keep the stomach sweet and free from indigestion, a teaspoonful of four tablets of Bismarck Magnesia should be taken in a little water after eating.

Whenever gas, sourness, pain or acidity is felt, this quickly sweetens the stomach, neutralizes the acidity, stops the pain and is harmless and inexpensive to use.

Illustrated Magnesia powder or tablets only, can be obtained from any drug store and its daily use keeps the stomach in fine condition, enabling it to do its work without the aid of artificial stimulants.

ENTERTAINMENT,
SALE AT HAMPSTEAD

HAMPSTEAD, June 10—An entertainment and sale held in the Hampstead Parish Hall on Saturday evening by the C. G. I. T. was a great success. The two-act drama, "Good Creations," was well presented and demonstrated the efficiency of those taking part.

Miss Slipp, who played the leading role, showed marked ability. Between the acts, A. C. Thompson, assisted by G. C. Hansen and William Gramman, rendered a pleasing musical number, which was greatly enjoyed.

King and Queen Entertain
Nearly 900 Guests—Tradition Shattered

LONDON, June 10—Plumed, jewelled and groomed in gossamer court gowns of dazzling beauty, women of social and political prominence were presented to King George and Queen Mary at Buckingham Palace last night at the first of the season's Royal Courts. The King and Queen entertained nearly 900 guests, mostly drawn from official and diplomatic circles, at the custom for the first court. About a third of those attending were debutantes and older women who were ushered into the presence of Royalty for the first time.

TRADITION SHATTERED

The husbands and fathers of the presentees experienced a new thrill when another tradition was shattered. Permission having been granted to the men to accompany their wives and daughters. The men were not formally presented at court, but a number of them took advantage of the invitation to see the inside of Buckingham Palace and gain a view of the guests in all their finery.

Second Royal Court
Is Held in London

LONDON, June 11—The second court took place at Buckingham Palace last night. It was characterized by the same features as the first. The Queen wore a charming gown of white and silver, embroidered with crystal and diamonds. The train was of shimmering silver brocade and old lace. She was accompanied by a diadem, with diamond and pearl ornaments.

Social Notes
of Interest

Mrs. John A. Stewart, of Perth, Ont., entertained at dinner at the Admiral Beatty Hotel last evening. The table was centered with pink roses and snapdragons. Those present were Mrs. G. Heber Young, Miss Church, of Toronto; Mrs. W. S. Stewart, of Charlottetown; Mrs. Hamilton Burns, of Toronto; Mrs. Somers, Moncton; Miss Joan Arnold, Toronto, and Miss Charlotte Whitton, of Hamilton, Ont.

At the close of the business session of the National I. O. D. E. convention yesterday afternoon, the delegates were given a motor drive to Gondola Point and on their return were entertained at the Riverside Golf and Country Club at the tea hour by Mrs. George K. McLeod and Mrs. Sherwood Skinner. Upwards of 200 guests embraced the opportunity to spend a few hours in social intercourse and to enjoy the fresh spring air and the beautiful scenery which is afforded from the highway leading along the shores of the Kennebecas River to Gondola Point.

The club house, where tea was served, is beautifully situated overlooking the blue waters of the river and the hills beyond, stretching at the back as far as the eye can reach, and was decorated with wild cherry blossoms and clusters of yellow poppies for the occasion. The same fragrant blossoms adorned the tea table, over which Mrs. Frederick Caverhill Jones, Mrs. Busby and Mrs. J. Pope Barnes presided. Delicious refreshments were served and the visitors returned to the city mentally and physically refreshed and ready to wrestle with lengthy reports during the closing days of the convention.

The Saint John Municipal Chapter, I. O. D. E., entertained at a delightfully arranged dinner in the Georgian ball room of the Admiral Beatty Hotel on Wednesday evening at 8 o'clock, in honor of the delegates to the National I. O. D. E. convention.

Approximately 400 guests were present. A profusion of pink roses, tulips, snapdragons and other spring flowers were used in the adornment of the handsomely appointed tables. At the head table the Municipal regent, Mrs. C. Heber Vroom, presided and with her were seated Miss Church, president of the National Chapter; Mrs. Todd, wife of the Lieutenant-Governor; Mrs. Walter W. White, wife of His Worship the Mayor of Saint John; Mrs. Nicholson, Toronto; Mrs. Robert Fitz Randolph, Fredericton; Mrs. Powers, Toronto; Miss Arnold, Toronto; Mrs. Poussette, Los Angeles, representing the Daughters of the British Empire; Miss Gordon, Kingston, Ont.; and Mrs. R. M. Brotherton, Elkhorn, Man. The toast list included "The King," proposed by Mrs. Vroom; "The Empire," responded to by Miss Joan Arnold; "Our Guests" responded to by Mrs. Todd. Mrs. Poussette extended greetings from the Daughters of the British Empire in the United States. The greetings of the provinces were given by the provincial president and Mrs. Walter W. White welcomed the delegates. During the evening Mr. Earl Spicer contributed three songs which elicited much of the pleasure of the occasion. Mrs. Franklin J. Hodgson was Mr. Spicer's talented accompanist. An orchestra dispensed a program of patriotic and popular airs during dinner.

Mrs. Hare, of St. Andrews, is a visitor in the city attending the meetings of the National I. O. D. E., in session here.

Mrs. Frances Ayscough, of St. Andrews, motored to the city yesterday to attend the sessions of the National I. O. D. E. convention. She was accompanied by Miss Freda Wren, regent of the Passamaquoddy Chapter, I. O. D. E., St. Andrews, and Miss Helen Rigby. They returned home last evening.

Mrs. L. A. Somers, of Moncton, is a guest at the Admiral Beatty Hotel.

Mrs. W. A. MacLaughlan left last evening for Kentville, N. S., where she will be the guest of her son, Mr. Roderick P. MacLaughlan, and Mrs. MacLaughlan, for a month.

Mrs. William Pugsley is a guest at the Admiral Beatty Hotel.

Mrs. and Mrs. Herbert B. Schofield arrived in the city on Wednesday and will be the guests of Mr. Schofield's mother, Mrs. George A. Schofield, Coburg street, for the summer months.

Mrs. Carol Foss, of Middleton, N. S., is visiting her sister, Miss Louise Knight, Carmarthen street.

Mrs. and Mrs. Frank G. Wilson have taken up their residence in Rothesay Park for the summer.

Mrs. Harold E. Fowler, Carleton Place, West Saint John, left on Tuesday evening to visit her sister, Mrs. Frank W. Slaney, at Swampscott, Mass., for a few weeks.

Mrs. Howard P. Robinson, Mount Pleasant avenue, is spending a week in Gagetown, the guest of her mother, Mrs. Fox.

William Gramman and G. C. Hansen, of this city, were guests of Mr. and Mrs. A. C. Thompson, Hampstead, over the week-end.

Mrs. Charles Hall, of Fredericton, is visiting Mr. and Mrs. A. G. Edcombe, Princess street.

Mrs. F. J. Power, a delegate from the Saint John sub-division, and Miss Katherine Lawlor, diocesan delegate, left last evening for Ottawa to attend the annual convention of the Catholic Women's League of Canada, which will be held in the Chateau Laurier at Ottawa from June 10 to 16. Mrs. W. Harrington and Miss M. Durick, of the North End sub-division, left on Wednesday to attend the convention at Ottawa.

Mrs. George Vessey and daughter, Miss Nell Vessey, of Apohaqui, were guests of friends in the city yesterday.

Mr. and Mrs. A. McDonald left last evening for Boston on their return to England, after spending six weeks in Saint John.

Dr. Rogers will go on from Saint John to Montreal to attend the meeting of the General Council of the United Church, but Mrs. Rice and Mrs. Rogers will remain in Saint John as the guests of relatives. They will be joined there by Miss Rice, another daughter of Mrs. Rice, who is matron of a hospital in Alberta, and is coming east to spend her vacation.

Mrs. Thomas Bell and Miss Bell, who have been in Ottawa during the session of Parliament, will leave at the end of the week for their home in Saint John, N. B.

Fruit Commission
In Britain Asked

LONDON, June 10—Formation of a fruit commission which will have for its main object the increasing sale of Dominion-grown fruit in Britain is the chief recommendation made in the report of the Imperial economic committee on fruit. Consumption of fruit in Britain can be greatly increased, it is believed, and this increase should be provided by the dominions. A commission should be established to educate the British public to buying Empire fruit, and to organize producers

throughout the Empire so that they would be better able to meet competition from foreign countries, it is recommended.

In addition the committee recommends economic as well as scientific research into this problem, pointing out that the cost of distributing fruit throughout Britain is equal to the whole cost of growing, shipping and the primary sale of fruit in England.

NEW YORK, June 9—Patrolman John Gatti, of the West Thirtieth street station, saw John Hoy standing at Twenty third street and Sixth avenue recently, thrusting out first one hand and then the other, and singing lustily, "I Am Always Chasing Raindrops."

MAKES LONG TRIP TO SUCCOR LEPERS

Englishwoman Travels 16,000 Miles Across Siberia Wastes in Charity's Name

LONDON, June 11—A terrible journey of more than 16,000 miles by sleigh and horse-back across the frozen wastes to the far north of Siberia to help the outcast lepers—that is the wonderful story of Miss Kate Marsden, a quiet, elderly woman who now lives in seclusion in a rose-covered cottage in a tiny Middlesex village.

Miss Marsden is now working to try to start a leper fund all over the world, when every one will give a penny to help outcast lepers in all parts of the world.

TO PROBE MURDER

WASHINGTON, June 11—The State Department has requested the United States consul at Mazatlan, Mexico, to investigate the reported murder several days ago, of Richard Dawson, a United States citizen at Los Mochis, Mexico.

QUICK RELIEF FOR SORE, TIRED FEET

"I have been all over the world looking for lepers—but now I can go no more," she said recently, "I am crippled as a result of my journey across Siberia, and have decided to stay here out of the world to help the lepers with my prayers and with what organizing I can do."

From her tiny cottage, in which she is almost imprisoned by a paralytic stroke, she is helping the St. Francis Guild of Lepers, which she founded, and which is carrying on her work.

"My journey to Northern Siberia was one of the most terrible I have ever made in my life," she said, "but I had heard such horrible tales of the condition of the lepers in the Sredni Vilvick that I was determined to go. In the far north of Asia, the coldest place in the world, there are nine months of darkness and winter, with a temperature of over 60 degrees below zero. It is into this waste land that the leper is driven."

To prepare for her journey, Miss Marsden rubbed fat over her body, and then put on three thicknesses of furs and a down-stitching together as clothing. During all her journey she was unable to change or have a real wash.

WEDDING ON DEATH-BED

GENEVA, June 11—A race between marriage and death took place at the Meiringen hospital, when a young Alpinist, named Fluckiger, who had been seriously injured near the summit of the Grindel Pass, decided to be married on his death-bed. When the bride and the clergyman arrived the doctor told them to hurry, as it was a question of minutes. The ceremony was performed, and aided by

HEAVY DUTY

For Biggest Bus or Smallest Car

An extra-rugged Goodyear Cord Tire, for buses, trucks and passenger cars, built especially for punishing service

THIS is to tell you of a super-stout and burly tire—a tire of special design built to stand hard knocks.

It's a great tire for buses and trucks. Stands up under the roughest kind of going. The tougher the going the better investment it turns out to be.

It's a heavy, more massive tire. Its powerful, athletic body is made of SUPERTWIST, the celebrated Goodyear cord of superior endurance. It is made with a thick, deep-cut All-Weather Tread, with stout rubber ribs on the sidewalls to offset rut wear and curb rubbing.

For bus or truck which has to leave the pavements now and then—for

bus or truck which picks up a bigger load than usual now and then—this is the pneumatic tire *par excellence*.

For Automobiles also in High-Pressure and Balloon Sizes

Many automobiles should have Heavy Duty Goodyears. Some of the older models, which take tires of small cross-section. Some of the heavy, closed models, which take the same size tire as open models. And every car which travels on rough roads or in grueling taxi or delivery service. Heavy Duty Goodyears come in sizes from 3 1/2" to 6.75" for motor cars. And in all bus and truck sizes. They're sold by Goodyear Selected Dealers.

AT THEIR BEST With Freshly Mixed Mustard

Steaks, roasts, chops, bacon, sausages, cold meats, sandwiches — all are at their best when enjoyed with freshly mixed mustard.

The value of Mustard as a condiment lies in its volatile oil. This oil is released when Mustard is mixed with cold water, and reaches its height of strength and flavour a few minutes after cold water is added. It is the spicy, piquant flavour of mustard which develops the natural flavours in food, and serves to make them much more delicious and appetizing.

Besides the sheer pleasure which it adds to every meal, COLMAN'S MUSTARD is of real value to health. It is a blood purifier—its volatile oil containing one-third of its weight of sulphur in an extremely active form. Thus, eating Mustard helps to cleanse the blood as well as to aid the digestion.

\$2,792,000
IN BONDS ARE
SOLD AT 98.80

Total Issue Awarded to Big Syndicate on Ten Year Basis

PRICE RECEIVED IS CONSIDERED GOOD

Will be Payable in Both New York and Canadian Funds

FREDERICTON, June 10—The province of New Brunswick this afternoon accepted a bid of 98.80, 10-year period, payable in New York and Canada, for the bond issue to the amount of \$2,792,000, bearing interest at the rate of 4.34 per cent, which is made to meet floating indebtedness, road expenditure and bridge expenditure. The bid, which was the highest, is that of a syndicate composed of the Chase Securities Co., Equitable Trust Co., Royal Bank of Canada, Bank of Nova Scotia, Wood, Gundy & Co., Eastern Securities Co., Ltd., 98.80 10-year, 98.40 20-year, Canadian Bank of Commerce, Blair & Co., Kountz Bros., Continental Commercial Trust & Savings Bank, R. A. Daley & Co., Atlantic Corporation, 98.5499 10-year, 98.2131, 20-year.

The following bid was in Canada funds, the only one of its kind: Royal Bank of Canada, Wood, Gundy & Co., and Eastern Securities Co., Ltd., 98.20 10-year; 97.90, 20-year.

BIDS RAN CLOSE

It was noticeable that the bids ran close together and that the bond houses favored the 20-year term. The province selected the 10-year term as the most advantageous, the general impression being that interests are on a downward trend.

PRICE CONSIDERED GOOD

The price received by the province of New Brunswick today is considered excellent. The rate of interest payable at the price accepted is 4.80 per cent. The city of Winnipeg last month issued bonds to the amount of \$2,500,000 at a higher interest rate, 4.95 per cent. The interest rate payable on the issue of today is more advantageous to the province than that of the short term issue made in December last, when a price of 98.775 produced a rate of 4.97.

Hon. A. J. Leger, Provincial Secretary-Treasurer, in whose department finance lies, was here today.

The following bids were all in New York and Canada funds: Royal Securities Corporation, Saint

RESTORATION OF PARTY RULE URGED

Supports Opposition as Group That Stands for Prosperity

MONTREAL, June 10—"I am happy to hail with favor the declaration of Mr. Meighen and to align myself with him in his work for our country."

In these terms, the Hon. Etios Patenaude, in a statement today, definitely closed what was regarded as a wide breach separating him from the Rt. Hon. Arthur Meighen, federal leader of the Liberal-Conservative Party, and indicated that the differences which rent the oppositionists in Quebec throughout the course of the last election campaign have now been composed.

Patenaude's statement is as follows:

"I have read with much interest the speech delivered by Mr. Meighen at his meeting at the Forum. The important declarations made by the chief of the Liberal-Conservative party on those political questions which were the main subject of discussion during the past federal campaign attracted the attention of both the press and the public and have created everywhere a profound impression.

FAVORS PARTY RULE

"During those years of turmoil that we recently experienced, two great political parties of Canada had sallied forth from behind their respective boundaries and had shattered the equilibrium necessary to the ordinary conduct of business. I am of those who think that public affairs should be administered through the intermediary of definite political party.

"The experience which I have been able to acquire has convinced me that the well known main principles and doctrines of that party known as the Liberal-Conservative party applied in good faith and with understanding, are the only ones which make for the prosperity and the peace of this country. LIBERALS BLAMED

"This necessity becomes evident if one but looks as the Government at present in power, that so-called Liberal Government which, riding on the brink of a crisis, submits itself to the mastery of outsiders in order to weather the storm. It gives from day to day thanks to a blood transfusion which the Progressive party feeds it in small doses, exacting in return heavy compensations to the detriment of the prosperity of the country."

"The declarations which we have just heard coming from the mouth of our party chief on the question of autonomy, be it of Canada or of its provinces, of the rights of the minorities, of the French language and its influence throughout the country, brings the Conservative party back to its ancient traditions, and vindicates our campaign of last autumn. We presaged then what we believed to be the true Conservative doctrine and we are happy to find that doctrine again on the lips of the present chief of the Conservative party."

MEIGHEN FOR UNITY

"Remembering the past, and inspired by the thoughts and aspirations of the fathers of Confederation, Mr. Meighen is endeavoring to gain both unity within his own party and unity within the Dominion of Canada. Speaking in my own name, I desire to associate myself with these sentiments and I have confidence that all true Conservatives will do the same."

"It has happened that I have differed in opinion from my chiefs, and I have at the time expressed my reasons for so doing without hesitation, but with regret for the necessity of doing so. I am happy today to hail with favor the declarations of Mr. Meighen and to align myself with him in his work for our country."

REV. DR. ENDICOTT NAMED MODERATOR OF UNITED CHURCH

Winnipeg Pastor Elected by Second General Council at Montreal

DR. MOORE AGAIN IS CHOSEN SECRETARY

Rev. C. E. Crowell, Halifax, Appointed to Post of Assistant

MONTREAL, June 10.—Rev. Dr. James Endicott, of the Presbytery of Winnipeg, was this evening elected Moderator of the Second General Council of the United Church of Canada. Representing 700,000 members, the council commenced deliberations which will probably continue for two weeks and during which the completion of the coordination of the united bodies of Presbyterians, Methodists and Congregationalists of Canada will proceed.

The date is the anniversary of the accomplishment of union and the council is the first to meet with the experience of a year of union to guide their decisions.

ELECTION UNANIMOUS
The election of Dr. Endicott to succeed Rev. Dr. George C. Pidgeon, of Toronto, was unanimous, without other nominations. Rev. J. W. Woodside, of Ottawa, moved the nomination, seconded by Dr. E. H. Oliver, Saskatoon. Dr. T. Albert Moore, Toronto, was unanimously reappointed general secretary and the following were named assistant secretaries: J. W. Watts, Ottawa; Rev. C. E. Crowell, Halifax; Dr. J. A. Cormier, Norwood, Man.; and Rev. Dr. W. T. Gunn, Toronto.

DR. PIDGEON PREACHES
Preaching from Zachariah 2:15 on "The City Without Walls," Dr. Pidgeon

delivered his retiring moderator's sermon and pictured the United Church, not as an enclosed body, protected, and unable to expand because of that protection, but as a spiritual body safe from attack because of her spirit.

"There is but one danger," the speaker said, "that I see before the United Church of Canada—that it should be swamped into a sect instead of developing as a church."

Rev. James Endicott, B. A., D. D., who was elected moderator, was born in Devonshire, England, in 1865 and educated in English schools and at Wesley College, Winnipeg.

Received on trial for ministry in the old Gospel conference in 1887 he became home missionary at Cartwright in the Manitoba and Northwest conference in 1888 and served later at Lethbridge, Winnipeg and Keewatin.

In 1893 he was ordained to the ministry and was sent to the new mission in Sechwan province, China, where he served until 1911.

Now Science Can Make You Feel Younger

Every Man Over 50 Years Old Should Read This Article With Joy In His Heart.

Not a monkey gland hoax or a mythical fountain of youth—but a tried and proven principle of rejuvenation, based on special stimulation and the feeling of vital nerve forces.

Without the slightest inconvenience, in the privacy of your own home, at trifling cost, and in only 16 days' time you may feel the ambition, endurance and energy of 20 years ago awaiting your demands!

In some cases, more than the regular 16-day treatment may, for best results, be necessary—but, in most instances, the first package (containing 16 days' supply) of Double Strength Erbac may be depended upon to prove its unmistakable value to the most skeptical. For this reason, all druggists are now authorized to furnish even the first 16-day supply of Double Strength Erbac on a strict guarantee of money back if not satisfied.

So you see the value of this treatment is simply a question of "trying and proving." If you would like to regain a feeling of youthful vigor and appear at your best, you are invited to try Double Strength Erbac, without risk of cost unless pleased with results—and it is by results only that you are expected to praise or condemn the worth of this treatment among your friends. At all druggists.

MANITOBA SURPLUS REACHES \$600,000

Past Year Turns Out Almost \$1,000,000 Better Than Forecast in 1925

WINNIPEG, June 10.—A surplus of \$600,000, the largest in the history of the province with the exception of the year 1912, was announced today by Premier John Bracken, of Manitoba, in a report covering provincial revenues and expenditures for the fiscal year ending April 30, 1926.

The large surplus will be applied toward paying off accumulated deficits of the past, which now stand at a charge against the province of \$850,000. With revenue for the year of \$10,780,000, and expenditures of \$10,270,000, the final result of the administration of the affairs of the province for the year turned out almost \$1,000,000 better than was forecast in the premier's budget of 1925.

Many sources of revenue increased above the anticipated figures, particularly railway taxes, which following a settlement of a court action, amounted to \$232,000.

MINERS ASSAIL LEADERS

Group of Strikers Protest Trade Union Chiefs Who Place Politics First

LONDON, June 11.—While the British government continues its investigation of funds sent to striking English miners from Soviet Russia, a group of the strikers themselves has lodged a public protest against trade union leaders who, they claim, place "political ambition and revolutionary projects ahead of industrial welfare."

In a manifesto issued at Nottinghamshire Thursday, miners in the Mansfield district, one of the wealthiest of the miners' union branches, said: "Our trade union machinery is in the hands of men who place political ambition and revolutionary projects ahead of our industrial welfare. We don't want to go back to work on terms that degrade us, but we are certain that if reason could prevail we would get from the industry what it can afford to pay."

From Carolina To Hopewell By Motorcycle

HOPEWELL HILL, June 10.—Stanley Munson, of Waterside, Albert county, son of William Munson, arrived home the other day from North Carolina, where he spent the winter. He traveled all the way from Pinehurst, N.C., in the neighborhood of 2,000 miles, on a motorcycle, making the distance from the southern city as far as the State of Maine in three days. He found road conditions good and had no mishaps on the long trip.

SOME ROYAL CLOAK CO. BOOKS MISSING

\$6,344 Undervaluation, \$500 Smuggled Goods Are Indicated

OTTAWA, June 10.—Report on the affairs of the Royal Cloak Company, was tabled in the customs probe today. It finds that some of the books of the company are missing, having apparently been destroyed in a fire which occurred on the company's premises in 1924 or been lost during the transfer of the offices to new premises.

Comparison of the files of the company's purchasing agents in New York led the auditors to believe, says the report, that their goods were undervalued on the customs invoices from time to time. The total of these undervaluations, according to this comparison, was \$6,344. In addition goods valued at about \$500 appear to have been shipped but not passed through the customs.

Because of the missing records, the auditors were not able to establish if all the sales tax has been paid by the company. The company had two subsidiaries, the Continental Cloak Company, and the G. and S. Dress Company.

TO BUILD NEW ROAD IN RESTIGOUCHE CO.

Four Miles of McAdam Will Be Laid Near Campbellton

CAMPBELLTON, June 10.—Road engineers from the Provincial Department of Public Works are here today and the reconstruction of a portion of the main highway between Campbellton and a point near MacLeods Sliding will be commenced at once. The road to be built will be waterbound MacAdam highway and the portion to be done extending over a distance of about four miles, will replace the only poor part of the highway between here and Dalhousie, excepting a short piece within the western limits of the shiretown.

During the past winter a great quantity of stone has been hauled to the scene of the proposed road work. A cartload of tools and other equipment arrived here a few days ago and everything is now in readiness for the work to begin. This is a significant move toward the permanent improvement of highways in this district.

Baby Dragged From Tent By Lioness

LONDON, June 10.—The story of a lioness' attack on a missionary, and a child's lucky escape has just reached here from Rhodesia. The Rev. Nigel Arnot, one of the best-known missionaries in Northern Rhodesia, was in his sleeping tent when a lioness inserted a paw through the tent flap and mauled the missionary. The animal then seized the bed on which Mr. Arnot's baby son was sleeping, and dragged out the boy and the bed. The latter collided with an ant-hill, which in South Africa constitutes no mean obstacle, and the lioness bolted, leaving the baby uninjured.

MONTREAL, June 11.—Ap-

general council of the United
Church of Canada today, by the
report of the commission on pub-
lishing interests. For purposes
of close supervision of the large
operations under its purview, the
board would have an executive
and also an advisory committee
made up of persons residing con-
veniently to the publishing head-
quarters.

It was agreed that the ideal or-
ganization made it advisable to dis-
continue the Halifax book room, "at
such time as the board of publication
shall deem most opportune."

The commission would not recom-
mend any assumption of financial re-
sponsibility by the United Church for
the United Churchman, published at
Sackville, N. B.

MONTREAL, June 11.—German an-
thracite coal is being unloaded here
from the S. S. Weserling, which ar-

cargo of German hard coal that has
entered the Port of Montreal, accord-
ing to available information, and has
been imported to make up for the lack
of Welsh and Scotch anthracite, the ex-
portation of which has been stopped by
the British Government since the start
of the coal strike.

The Weserling brought nearly 4,000
tons of German anthracite and over
1,100 tons of coke, also from Germany.
Previous to the arrival of this ship
no anthracite coal had been landed on
the Montreal wharves since the arrival
of the Hallam on May 19. Between
May 5 and May 19, 19 ships brought in
101,028 tons of British hard coal.

Morning Stock Letter

NEW YORK, June 11—The stock market continues to show a profit-taking and to move ahead steadily by sections. General Motors yesterday taking the leadership from steel, advanced about 4 points. We think this stock is going considerably higher because of its clearly wonderful earnings, because prospects for the third quarter show no sign of a downward trend, and because of certain developments in the company that may result in a new high price beyond the present remarkable high rate. Steel showed signs of weakness and we no longer believe in its advance. We see no reason why N. Y. C. & N. E. S. R. Y. & O. & C. & O. will not go higher. In the industrial list we are still bullish on Radio, WAC, P. E. I. N. and SLS.

Brokers Opinions

NEW YORK, June 11—Hornblower & White would like to see the market advance in steel before taking a more active buying position. Under the conditions it will probably be just as well to wait a day or two for the market to indicate a more general recovery. The steel trade is still in a liquid position in order to take advantage of recessions.

Our Used Car Policy

We are not in the re-conditioned car business for profit, but rather to promote the sale of our new Nash Cars. We realize that it is exactly as important to satisfy thoroughly the owner of one of our re-conditioned cars as it is to have a satisfied Nash owner. For eventually we hope to sell the re-conditioned car owner a new Nash. And if we can earn his implicit confidence by giving him a dependable re-conditioned car, the chances are that he'll come back to us later on for a new Nash.

SAINT JOHN CITY WINS IN SUPREME COURT CASE OVER WATER SUPPLY TO POWER CO.

Judgment Declares Utilities Board Has No Jurisdiction Over Fixing of Amount City Charges for Water

BOARD HAD CLAIMED AUTHORITY

Matter Arose From Discrimination Allegation by Power Company and Request for Refund of Some \$11,000—
Judgment by Mr. Justice Grimmer.

THE Supreme Court of New Brunswick decided this morning, at Fredericton, that the City of Saint John was a law unto itself in so far as the making of rates for water supplied by it was concerned, and that the Board of Public Utilities had no jurisdiction over it as it was not a public utility under the meaning of the act.

The effect of this judgment will be that the application of the New Brunswick Power Company to the Board of Public Utilities to fix a manufacturer's rate for the water supplied by the city to the company and for a refund of money claimed to have been overpaid to the city since 1907, cannot be dealt with by that body.

When the application was made the city solicitor argued before the Utilities Commission that the board had no jurisdiction over the city and on the Board accepting the jurisdiction appealed to the Supreme Court. The case was argued at the last sitting of the Appeal Court and judgment delivered today. A Fredericton special despatch to the Times-Star says:
