Victorious Advance of Allies Sweeps Forward on Wide Front

General Retreat From The North Of Cambrai To Verdun

Victory In Cambrai Region Increases Daily In Magnitude

Rapid Advance of Franco-British Troops Makes Situation of German Centre Extremely Critical; Continued Progress Along Champagne Front; Evacuation of the Belgian Coast Hangs in Balance

Paris, Oct. 11.—(Havas Agency)—The victory in the Cambrai region increases daily in magnitude, producing indirect repercussions over the whole front. The wedge driven into the German lines to a depth of thirty kilometres in five days menaces the Douai-Laon massif. The Germans are in general retreat from north of Cambrai to Verdun. In consequence of the extremely rapid advance of the Franco-British troops, who have reached the open ground between the Oise and the Senese, the situation of the German centre becomes extremely critical, the more so because General Gouraud's continued progress west of the Argonne menaces the enemy's left wing. The enemy front on the Chemin Des Dames and the Aisne, under the assaults of General Mangin's forces and the army operating northwest of Rheims, was shaken despite energetic resistance, the enemy intending at all costs to protect the retreat of his forces delayed on the Aisne. The enemy was obliged to abandon enormous booty in the Argonne.

PROGRESS ON CHAMPAGNE FRONT

Paris, Oct. 12.—Continued progress was made last night by the French troops along the Champagne front, the war office announced today. The French have penetrated the important railway town of Vouziers. This morning the French were holding the general line of the Retourne and the road from Pavres to Vouziers.

The British Advance

London, Oct. 12.—British forces last night continued their advance north of the Senese River, Field Marshal Haig announced today. Their advance is in the direction of the villages of Hamel, Breillers, less than three miles from Douai, and Cuincy, less than two miles from Douai, have been captured.

Across the Sappe

With the French Army in France, Oct. 11, Friday—(By the Associated Press)—The enemy today began an attempt to slow up the Anglo-American advance on the main battlefield. All the bridges across the River Selle from Leclercq southward were blown up and the Germans seem to have been digging in furiously along the line of the high ground some two thousand to four thousand yards east of the river.

Villages On Fire

With the French Army in the Champagne, Oct. 12.—(Reuter's)—Youngsters of Guise as well as all of the villages in the whole region south of Laon are burning.

Across the Sappe

With the French Army in France, Oct. 11 (Reuter's)—General Gouraud's troops have crossed the Sappe River almost everywhere along the twenty mile front between Bertroucourt and Bethenville. The Germans still hold the bridgehead at Roull-Sur-Sappe. The enemy is retiring to his next zone of resistance on the Retourne, but there are unmistakable evidences that he is preparing for a still further retreat.

Cavalry in Pursuit

With the French Army in Champagne, Oct. 11.—(By the Associated Press, 11 p.m.)—Cavalry joined in the pursuit of the Germans by General Gouraud's army today, being the first to enter Lanleville. The advance on the eastern part of the battlefield was much accelerated, the French and American troops at some points gaining about seven miles. The Americans, notwithstanding a heavy bombardment of the region with mustard gas shells, took Machault. General Gouraud's troops advanced to the river Retourne over most of its length and took Sauvigny-Sur-Aisne, only two and a half miles south of Vouziers, which is in flames. Guise and all of the villages south of Laon are in flames.

Americans Closing In

Paris, Oct. 12.—The Americans are closing in on Duin-Sur-Meuse, while their left wing is within five miles of Busancy, says Marcel Hutin in the Echo de Paris. Continuing, he says important events which will change the entire face of things may be expected in this part of the Woerthe front.

Orders Found on Prisoners, Says M. Hutin

Orders found on prisoners, says M. Hutin, show that the enemy was instructed to resist on the Sappe River front until the thirteenth at least, in order to save all the material possible and to enable the adjacent armies to conduct an orderly retreat. General Gouraud's attack upset this plan. Although the Germans had twenty-five divisions in the Champagne sector twelve of which were fresh, the fear of being rushed across France in a hurry. The Crown Prince has moved his headquarters from Mesieres in hot haste.

GERMAN REPLY TO WILSON NOTE HAS BEEN SENT

Reports of Its Effect Differ Somewhat
ALLIES ARE AGREED

Facist and Opponent of Germany is Now 'Austrian Premier'—Looks Like Beginning of Revolution in Turkey

Paris, Oct. 11.—Semi-official summaries from comments in the German press, issued tonight, indicate that Germany, in answer to the demand for an evacuation of occupied territory, will ask as a offset the evacuation of German colonies and occupied Turkish territory, according to some newspaper comments published in Germany—Prince Maximilian will have no difficulty in announcing the adoption without restriction of President Wilson's programme.

Germany is apparently hurrying in view of the approaching armistice, to appear to be a despatchable note. Political amnesty will be announced and a new government will be appointed for Alsace-Lorraine, Marshal Joffe will be minister and a liberal minister of war will be named. The least hoped of health reports only four new cases this morning and the government bureau presided over by Dr. G. G. Melvin counts eleven. This makes forty-four cases definitely recorded on Secretary Burns' books.

Dr. Melvin thinks that sixty cases within city limits is all that his department is justified in citing. The disparity in figures between the reports of the local board and the government bureau can be explained this way: The local board accepts the specific reports of well-documented cases in connection with the time-honored system of listing all diseases, while the government officials treat this special campaign in the nature of a general survey—an approximation of cases discovered and reported through various channels.

It is very encouraging to learn from Dr. G. G. Melvin, chief provincial health officer that St. John is yet showing no signs of alarming increases in the number of cases and that the only fatality directly due to Spanish influenza is a colored recruit—a West Indian—brought here from the States the other day. However, the daily morning edition of the St. John News and its doubtless the drastic steps taken by the ministry of health and the wonderful efficient co-operation of the general public that are preventing a rapid spread of the malady.

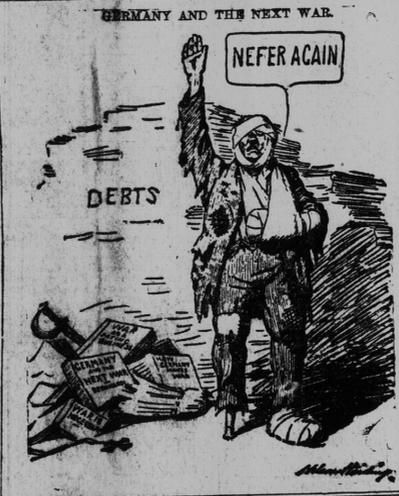

Hon. Dr. W. F. Roberts, M. D., minister of health, was busy this forenoon discussing the advisability and investigating the possibility of establishing an emergency hospital for influenza cases. Will there be at present some need of an institution, it is not because of the great number of cases but rather because of the peculiar position of some families afflicted with the malady and also because of the nursing problem. Outdoors contracting the disease here is another consideration.

There are some instances where the heads of the families, especially mothers, are prostrated with Spanish influenza.

Members of the household exposed to contagion and really nobody at home to attend to the nursing and the household duties, which in a case of this kind are manifold. Influenza gets in its deadly work in such cases as these, where the nursing is not of the best perhaps and the field for spreading of the trouble is wide.

Then there is a much-discussed matter of sending V. A. D. nursing help into these homes. Dr. Roberts thinks this is not a good plan as it does not have the tendency to check the disease that the removal of the patient to a hospital would have. If the V. A. D. workers were put on duty in a special hospital under professional nurses and doctors and helpless household cases taken to that hospital then two great objects would be well served—the lessening of the congestion risk and the surety of effective nursing.

The matter of securing temporary quarters for an influenza hospital would naturally be in the hands of the local board of health. It is quite probable board reached them.

ST. JOHN YET FAR FROM EXPERIENCING EPIDEMIC

Few New Cases of Spanish Influenza Reported; Matter of Special Hospital is Discussed; The Schools

St. John is yet far from being in a state of epidemic through Spanish influenza. The least hoped of health reports only four new cases this morning and the government bureau presided over by Dr. G. G. Melvin counts eleven. This makes forty-four cases definitely recorded on Secretary Burns' books.

Germany Nearer The Brink of Disaster

Ludendorff Reaping Results of Error in Estimate of Allied Offensives—Headquarters Dumbfounded and Vacillating—No Longer Guided by Purely Military Considerations—Meanwhile Enemy Loses Valuable Time

Paris, Oct. 12.—Today finds Germany a little nearer the brink of disaster. Marshal Foch's broom applied in the Champagne this time, has swept the enemy back from a wider section of the front than ever before. General Ludendorff is now reaping the results of the cardinal error, he made in thinking that the Allied offensives were bound to be spaced at wide intervals like his own. The continuity of the attacks of the Allies has literally dumbfounded the Germans and it is plain that there is vacillation at grand German headquarters.

For instance, the evacuation of the Belgian coast appears to have been ordered and then countermanded which justifies the inference that General Ludendorff is no longer guided by purely military considerations, either from fear of the demoralizing effect a retreat on a large scale would have in the laborer or the idea that the more territory remains the stronger will be Germany's positions in its conversations with Washington. In the meantime General Ludendorff is letting Prussia's time slip by for which he will regret sooner or later.

Marshal Foch in the preface to his celebrated book, On the Conduct of War, says: "The army at Mukden sought, not so much to crush the Russian right by a flank attack as to get on his rear and thus determine the retreat of all the enemy's forces."

The Allied commander-in-chief seems now to be applying that principle in France. The German front forms a vast salient from the Ecoust to the Meuse, the extreme point of it being at Anly. Marshal Foch is attacking it not alone on one flank but on both alternately, which he is pressing the centre in the section between La Fere and Berry-Aux-Bac to prevent the enemy's breaking contact and slipping away.

Where the Germans hope to hold the advancing Allies.

Amsterdam, Oct. 12.—General Von Liebert, writing in the Tagblatte Rensselaer, of Berlin, indicates the movement of the German armies to the line of Lille-Neubourg, Sedan, Montmedis, Metz and Diedenhofen. The writer says that here is laid the strategic chess board on which the German fatherland is to be defended outside its own frontiers.

Leading British Papers Uphold Project for League of Nations as Hope for Future Peace—Not a Substitute for Victory

London, Oct. 11.—Commenting on the speech made by Viscount Grey, former secretary of foreign affairs, at Westminster last night on the subject of a league of nations, the British press refers to criticisms that the Allied governments had not devoted much thought to a league of nations, a criticism which Lord Grey dissociated himself.

The minister is fully occupied with the war but the prime minister has most strongly declared himself a believer in the project and Lord Curzon has given a considered statement in the House of Lords on behalf of the government favouring the league, while Lord Robert Cecil has declared he would join no government opposed to the realization of this ideal.

"There have been many references by ministers and political leaders to the same effect and none in the opposite sense. The ideal of which President Wilson is the foremost advocate is already in the possession of the people and we believe its practical realization is assured."

The Daily Mail says—"Lord Grey supported President Wilson's views on every important point and he did well to emphasize that the league of nations is not a substitute for victory. In the meantime, we have in the present great alliance the germ of a league and there is no reason why its twenty-one members should not devise machinery for using their immense power against malefactors among the nations."

The Daily News says—"Viscount Grey voiced the unhesitating endorsement by every element of sober opinion in the country of President Wilson's historic definitions of the purposes of this war and the conditions of peace."

The Times says—"No public man not in office could have spoken more authoritatively or with a better right to interpret the national thought and feeling than Viscount Grey. His speech lifted the league of nations ideal to the level on which it is essential that it should be kept."

"We associate ourselves very heartily with Lord Grey's conclusion that the main hope for a peaceful development of mankind lies in an enhanced sense of international security which a well organized league of nations alone can give. With his treatment of the fiscal issue and the question of disarmament we fully agree."

NEARLY TWO MILLION AMERICANS ACROSS

Washington, Oct. 12.—American troops sent overseas have passed the 1,000,000 mark, said General March, chief of staff when coupling his statement with an urgent appeal to the country to support the fourth Liberty Loan.

The Stuff For The Troops
Men At The Front Are Getting What They Need and Their Comfort Has Done Away With "Grousing"

(By Lacey Amy, special correspondence of The Times.)
And since the most immediate needs are physical I set out yesterday to see what the fare of the boys is just back of the fighting line.
There is a brigade in what might be called a semi-rest camp. It is not a real rest camp far back of the lines, where barns and houses cover them, where the sound of the guns is a far-off noise (Continued on page 7, third column.)

A RIGHT PEACE NOT VERY EASY THING TO MAKE

A Change of Hearts in Germany a First Essential—"Brutes They Were and Brutes They Remain," Says Balfour

London, Oct. 11.—A. J. Balfour, the British foreign secretary, speaking at a luncheon given to a party of American editors today, said: "We have to make a right peace and I do not think that right peace is a very easy thing to make. Our enemies are attempting to change their constitution but appear to have no notion that what we call a change is not so much a change in the formal purpose of the government as a change of hearts whereby that government is to be directed and animated."

Mr. Balfour said the Germans had shown no material improvement in their disposition during the four years of the war. "Brutes they were when they began the war. As far as I can judge, brutes they remain at the present moment."

The foreign secretary said that perhaps he spoke with a warmth and indignation unbefitting his position, but with the news of the Leninster outrage he found it difficult to measure his epithet.

"One would have thought," continued Mr. Balfour, "that those who brought in America to their own undoing by crimes of this sort would have shrunk a little from repeating them at the moment when their fate is to be decided by America, perhaps even more than by any other of the co-belligerents."

OUTSIDE CUSTOMS MEN ASK SALARY REVISION

Ottawa, Oct. 11.—A committee representing 2,000 members of the outside customs service, who are members of the Dominion Customs Association, waited on Hon. A. L. Sifton, minister of customs, today, and presented a revised salary schedule for this class of government employees. The committee received a sympathetic reception and the minister promised earnest consideration of their requests. The committee also presented suggestions with regard to the reorganization and re-classification of the service which is now going on. The amendment to the civil service act was one of the matters taken up. The committee also had an interview with Hon. W. J. Roche of the civil service commission.

News of the Churches

Coburg Street Church of Christ

F. J. M. APPELMAN, Minister
While Church remains closed, we request every member, and all others who will, to set apart the regular meeting hours on Lord's Day and week nights, for the thoughtful reading of God's Word and for prayer. We also request that a brief season of reading and prayer be observed morning, noon, and evening of each day. Be calm, confident, trustful. God is the fountain source of all help. If at any time I can render you assistance, notify me at 51 Summer street—
F. J. M. Appelmann, Minister.

Centenary Methodist Church

REV. H. A. GOODWIN, Pastor
In accordance with the mandate of the Board of Health, this church will suspend its services until the ban is lifted. Our religion includes every effort for the public good. Therefore we commend the precautionary measures, though it means sacrifice to many people.
The loss of public worship may be met by private devotion. No less sacred to the day, nor should we lack our devotion through the church's being closed. To inspire confidence we would suggest reading the 91st Psalm. And to learn the secret of pleading prayer, read the 17th of John.

CHIEFLY BAD COLDS AND MILD INFLUENZA

At 2:30 this afternoon the Hon. (Dr.) W. F. Roberts, minister of health, informed the Times that after a careful survey of the local influenza situation, a survey which he was able to make with more deliberation than during the preceding rush days—he would pronounce St. John to be suffering from a quite general prevalence of bad colds and mild form of influenza or its grippe. There were some specific cases of the new type Spanish influenza, but these, he considered, had been the outcome of neglect or possibly thoughtlessness.
"If the people of St. John will observe just a few simple things we can reduce the risk from 100 to 200 per cent. For instance: When a person shows signs of chill or cold with the well-known symptoms of influenza, the patient should be at once isolated in a separate room with a special and exclusive attendant. A disinfecting sheet should be hung in the doorway and all other members of the household barred from the sick room. Even the simplest cases should be treated this way, for I am sure that the most of the present influenza cases which have resulted in town so far have been instances of thoughtlessness and neglect—thinking that a slight ordinary cold was not sufficient to keep the sufferer indoors."
Hon. Dr. Roberts says by next Friday he will have a definite census of the provincial situation and then he can tell by scientific means how soon the epidemic measures now in force will be continued. He is generally speaking in an optimistic frame of mind.

FOIL FRENCH PROFITEER.
American Soldiers Pay Exorbitant Prices, Then Report Greedy Grocer.
Paris, Sept. 26.—(Correspondence of the Associated Press)—"One tin of lobster, one tin of sardines, and a dozen eggs," said the grocer in a little town of the Mayenne department.
"How much?" said one of the four American soldiers who were making the purchase.
"Thirty francs," (about \$8) was the reply.
"Here's the money, will you please give us a bill."
"Certainly, gentlemen."
The four Americans had been long enough in the country to know a thing or two. They took the bill to the mayor and the mayor promptly closed that grocery store for a month, fining the proprietor 500 francs (or about \$100) in addition.

OFFICIAL NOTICE

To the Catholic People of St. John
In order to prevent the spread of influenza, the Provincial Board of Health has forbidden all public assemblies until further notice.
The ecclesiastical authorities will cheerfully comply with this regulation. Consequently there will be no public services held in any of our churches while the proclamation remains in force. On next Sunday morning, however, at 10 o'clock, and every Sunday thereafter until the regulation is withdrawn, a Mass will be offered in the Cathedral within closed doors. At that hour the faithful are earnestly requested to join in spirit with the priest offering the Holy Sacrifice on their behalf and to read in their own homes the usual prayers for Mass or to recite any other suitable prayers which their own faith and devotion may suggest.

LIFT OFF CORNS FREEZONE IS MAGIC

Costs few cents! Sore, touchy corns lift right off with fingers. No pain!
Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right off. It doesn't hurt you bit. Yes, Magic!
Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and painless, without soreness or irritation. Freezone is the much talked of ether discovery of a Cincinnati genius.

Well-Expanded Lungs Not Enough

Pure blood is indispensable to the health and strength of the lungs. The delicate structure of these organs makes it necessary. When the blood is impure the lungs lose their tone, and even if they are permitted to expand freely, they have not the power fully to perform their important work. The fact is, there is nothing more necessary to the physical economy than pure blood—the kind of blood that Hood's Sarsaparilla makes. This medicine is the good old reliable family remedy for diseases of the blood, scrofula, rheumatism, catarrh, and low or run-down conditions of the system. At this time, when coughs and colds are so prevalent, Hood's Sarsaparilla is an invaluable tonic. Get it today, and begin to take it at once. Accept no substitute.

LT. CREIGHTON IS WOUNDED AGAIN

Son of H. C. Creighton of this City in Casualty List for Second Time—W. G. Magee Died of Wounds
H. C. Creighton, superintendent of the Canadian Express Company, received word this morning from Ottawa stating that his son, Lieut. Kenneth Creighton had been officially reported seriously wounded, and had been admitted to No. 38 casualty clearing station suffering from gunshot wounds in his shoulder. Lieut. Creighton was wounded once before, a year ago last May. He was killed in the attack on Vimy Ridge. Prior to enlisting Lieut. Creighton was news editor of the Winnipeg Telegram. His wife and two children are residing in California with Mrs. Creighton's father.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spending a Few Cents! Dandruff Disappears and Hair Stops Coming Out
Try This! Hair Gets Beautiful, Wavy and Thick in Few Moments
If you care for heavy hair, that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair. It immediately dissolves every particle of dandruff you cannot have nice, healthy, black hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and it not only produces a few flycatchers and itching of the scalp, but the hair falls out fast.
If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.
We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff, itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

STRONG PEOPLE NEEDED

The need for people to be healthy is urgent. Those whom illness has put outside the ranks of robust men and women are handicapped in every walk of life and weak men and nerve-worn women need not only medicine but they need their health and become active and strong. Many who began "picking up" months ago are still now as on the day they began vainly tinkering with common drugs. Every ailing man and woman should remember that depression, debility, nerve exhaustion, indigestion, sleeplessness, neuritis, and depression come from a faulty blood supply. Worry, over-work or other causes have impoverished the blood and left the system impure. The nerves thereby are starving and the whole system is languid. It is the new rich blood Dr. Williams' Pink Pills actually makes. In a weak or bloodless condition it is not only a waste of time and money, but also a further menace to your health to tinker with common drugs. Follow the example of so many thousands by giving Dr. Williams' Pink Pills a fair trial, and they will transform you into healthy, active men and women. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WORK AT ROTHESEY

Fredericton, N. B., Oct. 12.—The provincial department of public works announces today that the contract for the construction of the Vincent Brook concrete arch culvert roadway and embankment in the parish of Rothesay has been awarded to Frank L. Boone, of Devon. The price is in the vicinity of \$2,900.
TEAMSTERS' UNION.
The Teamsters and Chauffeurs' Union held their regular meeting on Thursday evening in their rooms in the Odd-fellow's hall in Union street. A large number of the members were present and all spoke highly of the good work that is being done by this organization in bettering the conditions of the men regarding wages. A feature of the meeting was the presentation to James L. Williams, a handsome club bag and traveling set. Mr. Sugrue in thanking the organization for their kind remembrance spoke highly of their union, it having grown in a few months to a membership of nearly three hundred.
JAPANESE EMPEROR CABLES CONGRATULATIONS TO KING ALBERT.
Tokyo, Oct. 5.—(By the Associated Press)—Emperor Yoshihito has cabled King Albert of Belgium expressing his congratulations over the brilliant success of the Belgian army and highly praising the chivalry of the Belgian soldiers, who are under the personal command of King Albert.
FAIR POSTPONED
The Simonds-Loch Lomond fair which was to have taken place on Wednesday, October 16, has been postponed until further notice, owing to the influenza epidemic.

THANKFUL MOTHERS

Mrs. Willie Theriault, Paquetville, N. B., says: "I am extremely thankful that I tried Baby's Own Tablets for my baby. Through their use my baby thrived wonderfully and I feel as if I cannot recommend them too highly. Baby's Own Tablets break up colds and simple fevers; cure constipation, and indigestion and make teething easy. In fact they cure all the minor ills of little ones that are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."
FIGHTING MEN OF TWENTY-TWO NATIONS PARADE IN NEW YORK.
New York, Oct. 12.—New York's patriotic fervor, already thrilled with the knowledge of brilliant successes for the Allied arms against Germany, was quickened today, when the fighting men of twenty-two nations—from six continents and island in every sea—marched down flag-bedecked Fifth avenue in review before President Wilson in joint celebration of Liberty Day and Columbus Day.
A Sad Tragedy
It often happens—your sore corn is stepped on. Why not use Putnam's Corn Extractor. It cures in one day. Absolutely no pain with Putnam's. Use no other, 25c. at all dealers.

The Spanish Influenza Or a Cold; How To Tell

Symptoms of Spanish Influenza.

1. Onset—Sudden, without warning or previous hint. Strikes as by an unseen hand.

2. Chills and Fever—Definite chills and marked fever. More or less sudden appearance of both.

3. Prostration—Profound, sudden and continued, out of all proportion to the other symptoms.

4. Coryza—Watery discharge begins at once, little or no recognizable dry stage preceding its appearance.

5. Sore Throat—Not such a constant symptom, unless complicated by tonsillitis. General soreness or diffuse redness.

6. Headache—Usually severe, often in the eyes or at the back of the head; hard to control; often described as a "splitting headache."

7. Backache—Nearly always present; severe; characteristic.

8. Pain in the Legs—Usually marked and severe.

9. Pain in the Bones—A characteristic pain of influenza.

10. Temperature—Fever runs high for several days—from 100 up to 103 degrees, or even 106 degrees in severe cases.

11. Sputum—Usually a characteristic greenish yellow, containing many coliform germs.

12. Lung Complications—Lungs usually involved. Severe complications often make early appearance.

13. Nervous Symptoms—Very marked. Patient usually restless and sleepless. In severe cases, delirium.

14. Influenza—Travels more in epidemics, although it is ever present with us. It runs through a town or a nation.

15. Sequelae—Leaves its victims prostrate. It followed by lung, heart, kidney and nervous diseases. Results of a single attack may be lifelong. Patient remains weakened for two or three weeks.

Symptoms of a Common Cold.

1. Onset—Not so sudden; usually passes through a warning stage.

2. Chills and Fever—Chilliness rather than definite chills; fever not so marked or absent; so-called "larynx fever."

3. Prostration—Not so profound; merely a general weakness just a general "good-for-nothing feeling."

4. Coryza—Comes on gradually, preceded by a dry stage lasting from a few hours to several days.

5. Sore Throat—Usually an early symptom, especially if tonsils are diseased. May begin with slight tonsillar soreness.

6. Headache—Not so profound; eyes not so affected; usually in forehead or more to back of the nose. Not always present. May be general.

7. Backache—Not usually present only a feeling of weakness in the back.

8. Pain in the Legs—Not usually present.

9. Pain in the Bones—The bones do not especially ache in cold.

10. Temperature—Fever absent or runs low; usually comes on more gradually and runs from ninety-nine to 101 degrees.

11. Sputum—Not characteristic; may vary in color and form—yellow, white or mixed.

12. Lung Complications—Lungs often not involved. Lung complications appear

Weed Chains of Solid Gold

would not be worth as much as the Weed Chains of Steel you use on the tires of your passenger car and truck. Steel is worth more than gold now, for in these days we measure the real value of a metal by the work it does. Conserve your Weed Chains as you must conserve gasoline. Use your passenger cars in bad road weather only when necessity compels. Weed Chains must be saved for trucks and essential passenger cars, which should be kept going rain or shine. When you must use your car put on Weed Chains at the first drop of rain, and take them off the moment the road is safely dry. Waste through reckless, unnecessary use is now a crime. If you don't help save Weed Chains, as you are helping to save gasoline, there will be a national shortage. This means not only a tremendous loss, through injury to cars and trucks, but the checking and curtailing of essential industries to which these cars and trucks are essential. Weed Chains are real necessities. When the roads and pavements are wet or covered with ice and snow—no passenger car or truck can get along without them. They provide positive traction, insure protection to lives and property. Conserve Weed Chains as you must conserve gasoline. Dominion Chain Company, Limited Niagara Falls, Ontario, Canada

WAR AND PEACE.

All goes well for the Allies in the fighting. All goes badly for the Germans in their retreat. Not only that but the latest despatches indicate more strongly than before that Turkey and probably Austria-Hungary will ere long come on bended knee to the Allies and ask for cessation of warfare so far as they are concerned. Fools they were ever to be linked with the Kaiser in his scheme for world conquest, fools they were to stay by his side so long. They realize this now and have about reached the stage where his threats and entreaties have less weight than has the desire to be out of it all, no matter on what terms. The Austrian premier is reported to have resigned and it is significant that the one chosen by Emperor Charles as his successor is a pacifist and an opponent of an alliance with Germany.

There are striking notes in the cables today relative to Germany's answer to President Wilson. Several papers that are quoted agree in saying that the reply has been sent and one goes so far as to express a belief that the answer will make "for reaching advances" and a hope that there will follow a discussion that "will bring forth a durable peace for the whole world." The German writers, however, should not lose track of this fact, that Germany knows the Allies' terms and that the Allies hold to them. Meanwhile the enemy gives way all along the line of the western front and is fast nearing the time when his foot will leave French ground.

FREED FROM OPPRESSION.

As the Germans give way along the front, abandoning by compulsion towns and villages, a great change has come in the lives of the people living in territory which has been occupied by the enemy. For years they have been under the heel of the oppressor. At this distance we cannot realize all that has meant, but from cabled despatches, from letters, from the lips of returned men and from the knowledge of German character gleaned since the war began, we can in part at least picture the conditions. And now the tyrant is being driven forth and welcoming arms go out to as they restore to them the security of their homes and freedom from the iron rule of the heartless Hun. By the thousand the French civilian population is being freed, never again to know German oppression.

NEWFOUNDLAND

The story of what Newfoundland has done in the war is worth telling. It is a remarkable record, in simple language, unadorned by rhetoric, but with great cheeriness, Sir Patrick McGrath told the story last evening to the Canadian Club. Newfoundland naval men were in the North Sea within two months after war broke out. They were in all the great naval battles. The original 500 became 2,000. When the call for soldiers came, the Ancient Colony had no military force or establishment of any kind—only a few policemen. Her first 800 soldiers had no guns when they were overseas. There was soon a battalion, and when it went to France another was placed in reserve in England, and still another in St. John's. Newfoundland soldiers were at Gallipoli, and have since been in the western front. Fully 8,000 soldiers were called in all, in addition to the naval men and 500 foresters, and more will be raised if needed. From a colony of 200,000 people this is a noble record. The Newfoundland battalion has lost heavily. In one battle 888 men went in and 280 were killed. Only 68 were able to respond that night to the roll call. In every line of patriotic effort the people of Newfoundland have responded nobly, and theirs is indeed a proud record.

ONE OF THE PROBLEMS.

The "democratization of industry" is a phrase that has come into use in regard to the relations of capital and labor after the war. That a great change in these relations is coming no unprejudiced observer denies. If the settlement were left to extremists on both sides the result would be disaster, and that is why men of moderate views should consider the problem and endeavor to direct the change. The New York Nation lately said:

"The question confronting us is not whether the economic and social organization shall be democratized, but how it shall be democratized. The ruling and possessing classes, in our judgment, have nothing to say as to the first question; they have everything to say as to the second. Will they play the part of Canute, and thus choose the method of bloody and forcible change, with anxiety as to the possible outcome, or will they have the wisdom, the far-sightedness, the patriotism, and the courage to choose the method that will make democratization a blessing and not a curse? To work out the latter method is the supreme task of education." In other words, it is for leaders in the business world to devote their intelligence, knowledge and practical sense to the task of readjusting the relations be-

tween capital and labor along lines that will be broad and helpful, and avert the condition which would result from an unsympathetic clash of interests. The readjustment is not to be nation-wide but world-wide. Forces are at work which must be studied and understood and wisely directed. Class selfishness must give place to a common desire for a better social state, wrought out by peaceful means through wise and competent leadership.

"Brutes they were when they began the war. As far as I can judge, brutes they remain at the present moment. These strong words applied to the Germans are from Mr. Balfour, British Foreign Secretary. And recent Hun outrages fully justified him in what he said.

An order-in-council announced in Ottawa last night should prove an effective preventive of serious labor troubles in Canada during the period of the war.

Signs point to a continuance of daylight saving in the United States and Canada after October 27, the day set for changing the clock.

The Hindenburg line has been relegated to a place among the things that were.

A week or two more and the Americans will have sent two millions of sturdy fighting men to France.

The school boy, if of other, regards with complacency the order prohibiting all public assemblies.

The Crown Prince is on the run. He has moved his headquarters from Mezières in a hurry.

LOCAL NEWS

The attention of the board of trade has been drawn to the advisability of handling oats, feed and flour for points in the maritime provinces before the opening of navigation at Atlantic ports in Canada. There is a chance that the railways will be taxed with the handling of munitions.

The Natural History Museum is also closed during the epidemic quarantine, and this has proved a source of sorrow to many of the children who have called at the doors and been turned away. Nearly two hundred children tried to gain admittance yesterday and were greatly disappointed at not being able to do so.

Today the Red Cross Society sees two of its promises well and duly fulfilled. It promised to send 10,000 sphagnum moss dressings to the British Red Cross Society by October 12 and something will be shipped from the premises in Chipman Hill today. Its other promise was to send 3,500 Christmas stockings and 8,000 will have been sent by the end of today.

The actual transfer of the Bank of British North America to the Bank of Montreal is to be commenced this afternoon. The members of the staff of the latter bank have been given the opportunity of accepting positions in the larger bank as many have accepted. New checks of the same color as the Bank of Montreal checks will be issued on Tuesday.

SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported With Many Deaths
THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES" — The Wonderful Fruit Medicine — Gives the Power To Resist This Disease.

The epidemic of Spanish influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service has stated that "Spanish influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease. Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene." Plenty of exercise should be taken; the diet should be regulated, etc.

Spanish influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run-down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

What everyone needs now is a general tonic like "Fruit-a-tives." This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease. "Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 50c a box, 6 for \$2.50, trial size 25c or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

The Quick Way to Stop a Cough

This home-made syrup does the work in a hurry. Easily prepared, and saves about 5¢.

You might be surprised to know that the best thing you can use for a severe cough is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good. Pour 2½ ounces of Pinex (50 cents worth) in a 16-oz. bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup. And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, whooping cough, and bronchial asthma. Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes. To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Toronto, Ont.

GIVE THANKS!

Thanksgiving in Canada should most certainly not be limited to one day. We have only to think of the splendid record of our soldiers, of the sure defeat of Prussian militarism and of the assured welfare of the Dominion, and we will give thanks every day and all day.

As individuals, too, we should "count our blessings". Here in the midst of the most terrible struggle the world has witnessed, we are enjoying comforts unthought of 20 years ago.

No one, 20 years ago, even dreamed of a razor where you could replace in a few seconds an edge that had been slightly dulled by hard service with another edge of perfect keenness—

Gillette Safety Razor

Shaving is now a JOY, where it used to be a JOB. Gone are the days of honing and stropping, operations which sometimes improved the shaving edge, and sometimes failed, as your chin showed afterwards.

We have letters of Thanksgiving from the men in the trenches, full of the most cheery optimism—and there are days when the Gillette furnishes the only bright spot in the day's routine.

Any dealer will be glad to show you an assortment of Gillette Razor Sets. Decide today to purchase a Gillette for your own daily benefit, or that of a friend "over there".

A tale of two Trade Marks

For over 59 years Turnbills have been making good knitted underwear in Canada—and underwear exclusively—they came from the Old Country with the knowledge of how to make good underwear bred in them—they brought out expert workers from the Old Country from time to time as their business grew—thus have always kept their products up to the highest standard, being made with that thoroughness and care for which the Old Country workers are famous.

The reason for this tremendous growth and popularity can be summed up in one word "Quality" first and all the time—

You cannot get away from the fact that Canadians appreciate "Quality" more than anything else—

Turnbill's two brands are

Turnbill's and TURNBILL'S UNSHRINKABLE NATURAL WOOL

UNDERWEAR

This brand is on all Turnbill's ribbed underwear which is as trendy popular with ladies and children because of its great elasticity and comfortable fitting. Made in all sizes in separate garments and union suits with special closed ends.

This brand is on Turnbill's plain knitted underwear, all wool—finest and cleanest obtainable, made in separate garments and union suits with special crown that stays closed and is always comfortable.

Sold by good dealers everywhere.

Knit Socks and Dollars

Get away from slow hand knitting—use the fast, reliable, modern Auto Knitter. Profitable work in peace and war time.

The Auto Knitter is the most modern development of the knitting machine. It works very fast and turns out high grade socks, even better than hand knit, plain or ribbed, such as soldiers, sailors and civilians need in thousands. Weighs only about 20 pounds; may be fastened on any table. Sent guaranteed perfect with piece of work started, ready to continue. Can do the work of 20 hand knitters, using much less yarn.

Just Like Knitting Dollars

Making money? Yes, indeed—if you are willing we gladly arrange, without time limit, to take all the Auto Knitted socks you do not wish to dispose of otherwise, and pay you highly profitable prices for them. The demand is tremendous, our present workers cannot begin to meet it.

No yarn problem, we send replacement yarn FREE when working for us, and guarantee you liberal pay for your work.

The Auto Knitter works by turning a handle—thousands of stitches a minute. It is easily learnt, our instruction System is very clear and simple. It is a pleasant, permanent, money maker in thousands of homes—why not yours too?

War Relief Organizations throughout the Allied countries are using Auto Knitters with wonderful results. One or two of these fast, reliable machines in each district can do more work than fifty hand knitters.

More Socks the Urgent Call

It is your patriotic duty to answer it—now—and you provide yourself with a good income maker at home with the Auto Knitter, no matter where you live.

Write today for full particulars enclosing a stamp, and see what you and your family can now earn at home and do for Patriotic work.

NEW REGULATIONS WITH BEARING ON COST OF LIVING

Arranged on Recommendation of Labor Minister

They Find Sharp Criticism in the Ottawa City Council—W. F. O'Connor's Experience is Recalled

(Ottawa Journal-Press.)

New cost of living regulations have been laid down by the government on the recommendation of the minister of labor. Wider in their scope than the existing regulations, they provide for extended facilities of investigation; publication of fair prices; prosecution by municipality or the minister of labor, if deemed necessary, in addition to the present method of prosecution by provincial attorney-general; the inclusion of rental as a subject of investigation and power, under a general clause, to proceed against hotels and restaurants which sell necessaries of life at a price higher "than is reasonable and just."

Fair Price Committee.

The council of each municipality may name a committee of two or more of its officers to be known as the fair price committee. The names are to be submitted to the minister of labor, who will authorize it to investigate.

The amount of any necessary of life held for sale in the municipality at any time; the time when acquired; the cost within the municipality of such necessary of life, including all charges; the price at which the necessary is held for sale; the sale price which, in the opinion of the committee would be just and reasonable; amount of wastage or destruction and the reason for same; fair rental value of any dwellings held or offered for rental within the municipality.

May Hold Enquiries.

For such purposes, the committee is to have the powers of a commissioner appointed under the provisions of section 1 of the inquiries act.

The provision made for publication of fair prices reads: "Immediately upon the close of the investigation the fair price committee shall report their findings to the minister of labor and to the council by which they are appointed, and shall publish over their signatures in the paper or papers published in the municipality, or where there is no such paper in a paper published at the nearest point thereof, the list of prices of the necessities of life investigated."

When, in the opinion of the committee or of the council, there is evidence disclosing any offence against the cost of living regulations, either the committee or the council may take such proceedings as they may deem proper, or may remit the evidence to the attorney-general for prosecution.

It is further provided that, except in investigations had by a fair price committee, whenever in the opinion of the minister of labor, there is evidence disclosing any offence against the regulations, the minister shall take such proceedings as he may deem necessary or shall remit the evidence to the attorney-general of the province for prosecution as he may wish to institute.

"Every person" offers a new general clause, "who holds or offers for sale, or sells or provides or furnishes for consumption at a price, whether upon the

The "Sterling" Mark

When Edward I was King of England, some 600 years ago, the recognized standard of silver was fixed by Law. Just as it is now, Silver had to be 225/1000 fine before it could pass current as "sterling" or true silver, either as coinage or in the fine arts. Birks Silverware is manufactured under exactly the same standards today.

In addition to this legal assurance of quality, our own imprimatur upon every piece, throughout the world, is the hallmark of the very best silverware. You can buy all our patterns in single pieces if you like and add to them from time to time until your set is complete.

FEAR FOR 500 ON TRANSPORT OFF THE IRISH COAST

The Otranto, With American Troops, Is Rammed

WAVES 75 FEET HIGH

Stirring Story of Collision and Events Following—Plucky Work of Rescue by a British Destroyer

An Irish Port, Oct. 12.—(By the Associated Press)—Two hundred and ninety-five American soldiers from the transport Otranto and 288 of the crew have been accounted for, but the fate of nearly 500 more of the ship's company who were aboard the stricken transport when she drifted ashore is still unexplained.

A Collision. The Otranto was the flagship of a large convoy, including the Kashmir, which, as the result of a heavy gale, became unmanageable.

Although the Otranto's commander realized that the ship probably was fatally damaged, he ordered the vessels to proceed, including the Kashmir, which was able to continue under her own steam and eventually made port.

175 Bodies Recovered. A British Port, Oct. 12.—Up to 6 o'clock Wednesday evening 175 bodies had been recovered from the lost transport Otranto, which was sunk in a collision with the steamer Kashmir.

Admiralty Report. London, Oct. 12.—A British admiralty statement says that the transport Otranto collided on Sunday with the transport Kashmir. The statement follows: "At 11 o'clock on Sunday the armed mercantile cruiser Otranto, acting Captain Ernest Davidson in command, was in collision with the steamship Kashmir."

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;—for these purposes Canada must borrow hundreds of millions of dollars—And, this money must be borrowed from the people of Canada—Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

Be ready when the call comes to see your country through in its great war work.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

Died of Starvation. Many a Belgian mother could have these words engraved on her child's gravestone—"Died of Starvation." Perhaps the child has wasted away with Consumption, or has been twisted into a mockery of happy childhood by Rickets, but starvation is at the root of the tragedy. What else can be expected for a growing child whose daily ration is the bowl of soup and two pieces of bread provided by the United States loans to the Belgian Government? The only hope for the destitute children of Belgium is that we who can afford three meals a day will be moved to pity and send help immediately. STRIKERS CALLED TO COLORS UNDER NEW LAW PASSED

Ottawa, Oct. 11—Provision having been already made for the prompt and equitable settlement of all matters of dispute between employers and employees in industries affected by the industrial disputes investigation act, an order-in-council was passed today forbidding, for

the duration of the war, strikes or lock-outs and imposing severe penalties for violation of the law.

Any person violating any of the regulations is made liable upon summary conviction to a penalty not exceeding \$1,000 or to imprisonment for a period not exceeding six months, or to both fine and imprisonment.

Any male person, employee or employer, of military age, who violates any of the regulations, and any director of a company who, being of military age, acquiesces in violation by the company of any of the regulations, shall be deemed to be a soldier enlisted in the military forces of Canada and subject to military law for the duration of the war and of demobilization thereafter. He shall furthermore forfeit any exemption granted to him and any right to apply for, or obtain exemption from military service under the military service act.

No Unions For Them.

Ottawa, Oct. 11—Regulations passed by the government forbid the Northwest Mounted Police and the Dominion Police from joining labor unions. The regulations have been adopted under order-in-council.

BANK VS. CITY.

A dispute between the Bank of Montreal and the city over the increased rates charged for the space they occupy under the sidewalk in King street for coal, has come to a head yesterday. The hearing was commenced in the city court to be continued in the supreme court. H. A. Powell appeared for the Bank of Montreal and Dr. J. B. M. Baxter for the city. Commissioner Fisher gave evidence yesterday stating the proposed increase. The bank is declared willing to pay a nominal rate which they have been doing for the last twenty years. The whole question is to be threshed out in the supreme court.

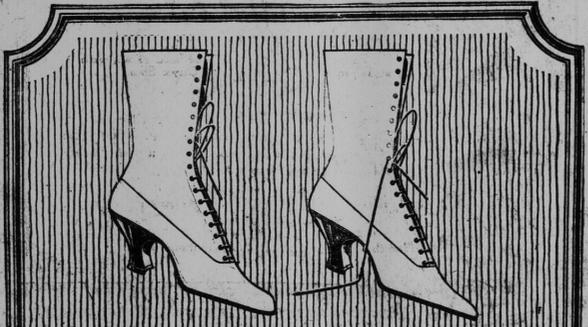

New Members Elected.

At a recent meeting of the executive of the Canadian Club the following new members were elected: Major S. S. Wetmore, Captain S. B. Stokes, Hon. J. R. Armstrong, John McAvity, C. W. deForest, Fred C. McNeill, H. B. Robinson, H. E. Stubbs, R. Cox, F. J. McInerney, D. W. Harper, G. A. Hilyard, A. E. Everett, J. B. Smith and J. A. Beavers. Owing to the epidemic of Spanish influenza the club has ceased activities indefinitely. It hopes, if possible, to be able to have the addresses for which it had arranged at some later date.

Avoid Price Extremes in Buying Shoes

THE measure of economy in buying shoes is the service you get per dollar of expenditure. It is waste to buy shoes which were made to sell at a very low price, and it is equally unwise to pay extremely high prices. Beyond a certain point it is not possible to increase the practical value of a shoe, and when you pay more than a fair average price you are probably paying for "frills."

So we say to you: "Keep in the middle of the road. Don't pay less than \$6 for a pair of shoes today, and expect to get good value. On the other hand, don't think it is necessary to pay more than \$10—or \$12 at the outside."

You probably can judge values for yourself if you will buy for service rather than appearance merely, and if you will be guided by the dealer's knowledge and experience. A quicker and easier way, however, is to look for the manufacturer's trade-mark on the shoes you buy. It is the best guarantee of good value, for the manufacturer's business reputation is behind it.

Fifty Dollars a Month

(Guaranteed to you by the Canada Life)

How Fifty Dollars a Month looks to the Average Man at Various Ages

Age 30—Happy on Fifty Dollars a month.

Age 41—Fifty Dollars a month is not enough.

Age 45—Thinks he can easily afford to "spend" Fifty Dollars a month.

Age 50—Things are not going as well as they were.

Age 55—He decides it will last another season. "Fifty Dollars is Fifty Dollars."

Age 60—Strange how these assets have depreciated! Fifty Dollars a month is good interest on \$10,000, and not to be despised.

Age 65—He finds Fifty Dollars a month pension, added to what income is left, brings happiness.

You know of men well up in years who are still drudging along. They cannot stop even if they would, but must go on to the end of their days working for a living.

When they were younger they did not have the chance now offered you. It was not then possible to secure such a convenient and absolutely certain provision as our Monthly Pension Plan, by means of which an average deposit of only a few dollars a month would now return them \$50 a month for the rest of their days.

Why Not Pension Yourself?

It is a good idea to "take stock" of your present financial position—to size up your personal affairs and decide on a plan for the future.

Our New Pension Policy

guarantees that upon your reaching a certain age in life, you will receive a monthly cheque for \$50.00 or more, as you may now decide—and this monthly payment cannot cease as long as you live.—it will go on for ten years in any event, either to you or your Beneficiary.

If You Become Disabled

Suppose some day before you reach age sixty you meet with a mishap and become totally and permanently disabled through accident, illness or any cause. Such a thing might happen the day after you secured this new Policy of the Canada Life. Immediately the payment of further premiums would be cancelled. The Canada Life would become responsible for sending you \$50.00 a month (or more, as you may have arranged) for the rest of your life.

It Is Worth Investigating

Think what it may mean to you to be certain of an income right up to the end of life, when you consider that 97% of people in their later years are partially or wholly dependent upon others for support.

The Cure for Rheumatism after Suffering Fifty Years!

Over 83 Years Old - Regains Strength and Laughs at 'URIC ACID'

Does Fishing; Back to Business, Feels Fine! How others may do it!

At an eighty-three years old and I do not feel for rheumatism ever since I came out of the army, over fifty years ago. Like any other, I spent money freely for so-called 'cures,' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write with comfort. Friends are surprised at the change!

HOW IT HAPPENED. Mr. Ashelman is only one of thousands who suffer for years, owing to the general belief in the old, false theory that 'Uric Acid' causes rheumatism. This erroneous belief induced him and legions of unfortunate men and women to take long treatments. You might just as well attempt to put out a fire with oil as to try and get rid of your rheumatism, urticaria and like complaints, by taking salicylates, supposed to drive Uric Acid out of your blood and body. Many physicians and scientists now know that Uric Acid never did, never can and never will cause rheumatism; that it is a normal and necessary constituent of the blood, that it is found in every newborn babe, and at without it we could not live!

HOW OTHERS MAY BENEFIT FROM A GENEROUS GIFT. These statements may seem strange to the folks, because nearly all sufferers have all along been led to believe the old 'Uric Acid' humbug. It took Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism, urticaria and recover his strength in 'The Inner Mysteries,' a remarkable book that is now being distributed by an authority who devoted over twenty years to the scientific study of a trouble. If any reader of The Evening Times-Star wishes a copy of this book it reveals startling facts overlooked by doctors and scientists for centuries. It simply sends a postcard or letter to P. Cleaveland, 285-B Street, Hallowell, Maine, and it will be sent by return without any charge whatever. Send it! You may never get this opportunity again. If not a sufferer yourself, send this good news to some afflicted friend.

THE NATION PROGRESSES

to the extent of the thriftiness of its citizens. A Policy in The Manufacturers Life is the easiest and most practical way to save. Our investments in Government and Municipal Bonds provide funds for development, and our farm mortgage investments enable the farmer to extend his holdings and increase production. All classes are benefited, as the greater the production and development, the larger the volume of trade. The fighting strength of the country is thus made more effective. YOUR CUP OF TEA

Your cup of Tea means much to you. It is more than an item in the daily fare. It is the one thing that "rounds off"—or spoils—an enjoyable repast. Tea is fortunately so cheap in this country that there are few who cannot afford Choice Tea. The cost per pound is only slightly higher than ordinary Tea, while the increased pleasure you get from every cup you make is worth many times the difference. It is true also, that a FLAVOR-FULL Tea like KING COLE Orange Pekoe will actually spend further—that is, make more cups to the pound. KING COLE Orange Pekoe is prepared particularly for lovers of Choice Tea.

INSPECTED ROADS
Hon. P. J. Venoit, minister of public works, W. A. Loudon, comptroller general, and P. J. Hughes, barrister-at-law, Fredericton, on Thursday afternoon accompanied E. S. Carter on an inspection trip of the new Marsh Road and Rothery avenue, as well as the Gondola Point Road, as far as it extends. They were very much interested in the splendid work that has developed in all this section.

F. G. Spencer has taken over the Opera House at Campbellton and the theatres at Dalhousie and Athol. S. C. Hurley of St. John, who has been the manager at Woodstock, will look after the new houses, which are all being renovated.

Music Lovers Amazed by Edison's Daring Test

All told, 2,000,000 music lovers in Canada and the United States, on more than 1,500 different occasions, have gone to one of their local theatres filled with curiosity regarding a startlingly novel musical recital to which they had been invited.

In each case they have come away amazed at the almost unbelievable demonstration which had taken place before their very eyes, and ears—the most daring test of a phonograph or talking machine ever made. They saw a noted Edison artist stand beside

The NEW EDISON
"The Phonograph with a Soul"

They heard the instrument sing in the artist's voice—in other words, re-create her voice. Presently the artist herself began to sing note for note with the instrument. Musically trained ears strove in vain to distinguish the faintest shade of difference between the actual voice and the Re-Creation. Then, suddenly and without warning, the artist ceased singing, leaving the instrument to continue the air alone. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard the instrument alone. This is the famous Edison Tone Test.

Only Edison makes this test. Only Edison can make this test, because only the New Edison actually re-creates the human voice and the music of human-played instruments with every tone quality and every shade of expression. Ordinary phonographs, and talking machines, merely reproduce.

If you have not been fortunate enough to witness an Edison Tone Test, you may at least hear Edison's wonderful new phonograph at our store. Make the time to suit your convenience.

The funeral of Private J. F. Rigby took place this afternoon. Services were conducted at the grave by Rev. F. E. Boothroy. Interment was made in the soldiers' and sailors' plot in Fernhill. A firing party and escort from the Depot Battalion accompanied the body to the grave.

PROBABLE THAT CANADA WILL CONTINUE DAYLIGHT SAVING IF U. S. DOES

Ottawa, Oct. 11—Should the bill passed by the United States senate providing for the continuance in force of the daylight saving law after Oct. 27 become law, it is practically certain that the dominion government will take similar action.

MORE BUTTER IN STORAGE IN SPITE OF BIG SHIPMENTS.

Ottawa, Oct. 11—The cost of living branch of the department of labor in its report to the minister on cold storage for the month of October states that there were even greater quantities of butter on hand on Oct. 1 than on Sept. 1. This in spite of the forced movement of butter to Great Britain from firms whose warehouses were most heavily unloaded.

GOLDEN GROVE SOLDIER WHO GAVE LIFE IN WAR

PTE. ERNEST WILLIS Killed in Action.

This is a picture of Private Ernest Willis, son of Mr. and Mrs. William Willis of Golden Grove. He made the supreme sacrifice in the war in the recent fighting. Enlisting when not more than seventeen years of age, he had followed a man's part in the great conflict, helping to save the freedom of the world. Of fine character and popular, his death has saddened the community in which he lived.

HISTORY OF THE 52ND

Writer Tells of Stay in St. John and Pays Tribute to Hospitality of Citizens

His Worship Mayor Hayes has received from the author a copy of the book published by Private W. C. Miller of Fort William on the 52nd Battalion, a battalion which, while quartered in St. John for a few months, was the favorite of the citizens. The book is entitled "From Thunder Bay Through Ypres With the Fighting 52nd". It is a book of 100 pages and carries the reader from the time the stakes of the tents of the battalion were pulled at Greasey Park Camp at Fort Arthur, Ont., with the battalion overseas and through the famous battle of Ypres. While at Ypres the author was wounded in the Seldentary Wood and he tells in interesting fashion of his hospital experiences afterwards, continuing the history of the battalion from reports received from other members of his unit.

FRED. WHELPLEY DEAD

Former Noted Skater Victim of Spanish Influenza

Fred Whelpley, once a famous skater, and whose father, the late J. A. Whelpley, was the original owner of the Long Reach skate, is one of the victims of Spanish influenza. He died at his home in Massachusetts. He is survived by his wife, one child, his mother and one sister.

ALONG THE RIVER

This was a perfect morning on the river. The surface of the stream was like glass, reflecting the trees and houses on the shore, showing with remarkable fidelity every tint and shade of the gorgeous autumn coloring. A low belt of fog covered part of Grand Bay. Above and below it all was sunshine. The Ottonie ran into the fog, sounding her whistle. An answering signal came from the Champlain, which presently loomed up on the port side, passed by and was lost in the fog. Before Green Head was reached the Ottonie was out again in sunshine.

There are some cases of Spanish influenza along the river, and it is the chief topic of discussion. The farmers have not yet got all their grain harvested. The season has been very bad for cutting the crops. One farmer said today he had lost sixty or more bushels of oats. Very little of the hay on the low-lying intervals has been gathered. There has been considerable loss of potatoes through rot. The Ottonie comes down only four times per week now. Today she had a considerable quantity of potatoes and other vegetables, apples and some pork. The green has gone for the most part from the hills along the river. Only the patches of evergreen here and there contrast with the rich yellow, browns and reds of the poplars, birches, elms and maples. The whole country-side is a riot of autumn coloring.
