### MORE ILLITERATES IN NEW BRUNSWICK THAN ANY PROVINCE

(Montreal Star)  
Ottawa, Dec. 9.—The illiteracy of Canadian people, native born and immigrants, is an interesting feature of the census statistics recently published in more detailed form.

Of the whole population, including immigrants, New Brunswick has the highest illiteracy with 14.5 per thousand of population; Saskatchewan comes second with 13.81, and Alberta fourth with 12.72.

The other provinces follow in this order: Quebec, 12.66; British Columbia, 11.61; Nova Scotia, 10.54; Prince Edward Island, 7.61; while Ontario with the best showing of all, has 6.51 per thousand.

Montreal has 40,000 illiterates or 9.71 per cent; Toronto 31.2 per cent; Fredericton, N. B., 10—James, his wife, child and hired man, who reside on the outskirts of Minto, narrowly escaping being killed by the Minot train running from Norton to Fredericton this afternoon. The train struck with the team, smashed it, dashed the horse, but the occupants with the exception of Mr. Sullivan escaped with a shaking up.

Train Struck Carriage.

Fredrikton, N. B., Dec. 10.—James, his wife, child and hired man, who reside on the outskirts of Minto, narrowly escaping being killed by the Minot train running from Norton to Fredericton this afternoon. The train struck with the team, smashed it, dashed the horse, but the occupants with the exception of Mr. Sullivan escaped with a shaking up.

Of the native born population the

number per thousand in the different provinces who are able to read and write is as follows: British Columbia, 868 males, 844 females; Alberta, 811 males, 797 females; Saskatchewan, 874 males, 822 females; Manitoba, 688 males and 675 females; Ontario, 926 males, and 938 females; Quebec, 845 males, 861 females; New Brunswick, 898 males, 861 females; Nova Scotia, 887 males, 890 females; and Prince Edward Island 912 males and 914 females.

The high percentage of illiterates in certain cities is attributable almost solely to the large foreign element in the population.

The Hon. G. E. Foster represents the best educated constituency in Canada, North Toronto's illiterates are only 1.50 per cent of the population.

### THE MAIIS

The postmaster general has discovered that he ought to do something with regard to the Trans-Canada mail through the port of St. John. He has issued a circular to effect that if there is first-class mail on the Royal George for points west of the maritime provinces it must be sent forward by special train over the Canadian Pacific. This, however, does not settle the whole question. If there is no first-class mail on the Royal George, why is that the case? Is St. John only to receive such mails as may properly be sent forward by freight train? Why discriminate against this port? There are not certain days when people in the old country write letters and certain other days when they send newspapers and parcels. The ordinary English mail brings all kinds of small matter, indeed, all kinds of mail. It is not true that somebody has decided that no first-class mails for the west shall come by the St. John route, it is high time St. John's representative in the government had something to say on the subject. The board of trade is trying to do what ought to be done by the city's representative in the government.

The Standard says regarding the mail service that "Mr. Pelletier's telegrams are most reassuring and must be considered as satisfactory by all reasonable men." But in the very same article the Standard also says—

"It is not necessary that British newspapers and packing mail should be carried by the direct routes from one Canadian port to another, why should it be necessary for any government to pay heavy subsidies to high class, fast steamers to carry that sort of mail across the ocean? If there is no objection to delay on land, why should there be objection to delay at sea? The ships of the Canadian Northern Steamships Limited, the Royal Edward and Royal George, are the fastest in the Canadian service. If they are to carry but newspaper and package mails, which are not regarded as sufficiently important to warrant special mail trains, it would appear that slower steamers at smaller subsidies might well be utilized."

The Standard's hindsight in this article is better than its foresight.

### WHAT IS THE ROUTE?

The Standard is highly excited because the Times yesterday invited Hon. H. F. McLeod to tell us by what route the St. John Valley Railway will come from Gagetown to St. John. The Standard says Mr. McLeod answered this question, and quotes his statement to the effect that the line will cross the St. John and Kennebecasis and come into the city by the Rothesay route over the Intercolonial. He is also quoted as saying that the line will cross the St. John at The Mistake or Oak Point. But he also says that the government now has an engineer looking over the line for the bridges and will be guided by his recommendation. Suppose he repeats against both The Mistake and Oak Point?

Mr. McLeod, like Mr. Flemming, lacks definiteness in his statements. This question has been before the government a long time. It is not yet settled. What has caused the delay, and why have the contracts for the bridges not been given out long since? The Grand Trunk Pacific Railway will be completed to Moncton next year. The St. John Valley Railway should also be completed, and connected with the Grand Trunk Pacific at Napadogan, and the main line should be put in at St. John to handle Grand Trunk Pacific traffic. Of course, some more time will be required.

This question has been entirely too long delayed. There should not, however, be any further delay, and the route from Gagetown to St. John should not only be known, but the contracts for the construction of the road-bed and the bridges should be awarded, and action taken with regard to a connecting link between the Valley Railway and the Grand Trunk Pacific.

No amount of abuse by the Standard of the Telegraph and Times will divert public attention from the facts of the case, in a matter so vital to the welfare of the port of St. John.

### BORDEN WILL DO NOTHING

Hon. Mr. Crothers had an opportunity last night to tell the representatives of the newspapers what the Borden government proposes to do in face of the rapidly increasing cost of living, and of the fact that it will be further increased as a result of the drain upon Canadian food products as a result of the reduction of the United States tariff. Nothing that Mr. Crothers could say at this time would be heard with more interest than a statement of government policy in this regard. "Why don't you try it?" his wife asked. "That would leave me with only the children to provide for."

## A LENGTHY PROGRAMME AT THE GEM THEATRE

A very lengthy programme of pictures was presented yesterday at the Gem Theatre. A two part feature entitled "The Penalty" was the leading subject, a story of the remorse of one who could not bear to witness his love scenes and exciting adventure. Henry Walthall, Walter Miller and Blanche Sweet were seen to charming advantage in "Blood and Sand," a picture of the wilderness with stirring love scenes, entitled "Two Men of the Desert." "Carnegie's Gift to the World" was well bought out in the same company, "While Father Telephoned," which John Brennan and Ruth Roland had led roles, completed the bill, and was followed by E. A. Albee in his farwell week, and with the next week, Miss Burton has brought the Gem orchestra to a high standard of efficiency and last night their programme was received with the usual degree of pleasure. This bill will be repeated this evening.

### STUDENTS BUILT IT

Chaplin Huron College Campus Their Own Work

London, Dec. 11.—The fifth anniversary of the establishment of Huron College for Anglo-Saxon theological students, was celebrated yesterday by the dedication of a chapel erected on the college campus. Funds for the construction of material were collected by the students and under the direction and with the assistance of Rev. Principal Waller and the faculty, the young men built the chapels themselves without employing outside help.

The edifice is one of splendid appearance and the interior work is a matter of pride to those who took part in the work.

### SPENT \$600 ON A TREE

St. Andrew's Beacon—Now that the foliage has gone, a better idea can be had of the piece of tree surgery that was performed on the tree which was grafted on the original approach to Fort Garry. In front of Sir Thomas Shaughnessy's summer home. This tree is probably one of the oldest and most highly popular trees here, the admiration of visitors for years. Its massive trunk has become so secondarily scarred by age that there is no trace of its original bark remaining. Last season, Sir Thomas Shaughnessy called in tree specialists, and they did a remarkable job of work on it. The saplings at the main trunk were cut off with cement and other filling, and the great limbs are strengthened with massive chains and iron bands and brackets. THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, DECEMBER 11, 1913

*Listen!*

Have you heard about Pep's? Pep is a new scientific preparation put up into tabloid or small form which provides an entirely new and effective treatment for coughs, colds and lung and throat trouble.

There is no connection between the lungs and the stomach.

Suppose something were wrong with your stomach—say indigestion, or ulceration—wouldn't you want some medicines which won't do harm to your stomach, but to your lungs? Certainly not!

Why then, when your lungs and chest are affected, should you dose your stomach—and absolutely separate organ—with medicine? Is it not far better to treat the ailing organ directly?

Pep provides a direct treatment for coughs, colds, lung trouble, and all lung, chest and throat troubles. Pep's contain highly medicinal and aromatic essences and pin extracts condensed into a small form. You put a Pep on your tongue, it dissolves, these essences turn into vapor. You SNEEZE the remedy—the remedy that cures all lung trouble direct—not available to your stomach, which is not the case.

(See diagram.) The healing fumes thus sent down, bathe the delicate, inflamed membranes of the lungs, liver, kidneys and pancreas right on the tiny passage of the lung, so there is no liquid waste.

Pep fumes are healing and antiseptic. They heal sore tissue and kill disease germs. Pep brings pine-forest air to you, instead of you going to the pine forest!

For that cold, that night cough, that bad headache, don't dose your stomach! The trouble lies in your lungs. Pep goes to the lungs directly and cures you. All you have to do is take one tablet a day, and you'll be well again.

Question Whether "O Canada, or Maple Leaf" is Best.

Vancouver, Dec. 10.—Whether the "Maple Leaf" or "O Canada" should be sung at the Canadian Club luncheon in this city was a point discussed at the annual meeting of the club. It was pointed out that there were words in "O Canada" which offend certain Canadians and that it is not applicable to present day conditions.

A compromise was effected by including the two sides of the national programs. The club had also under consideration the matter of eliminating all political matters in the speeches of visitors.

### LEAPS TO FREIGHT TRAIN

### AND MAKES ESCAPE

Chain Gang Prisoner's Spectacular Get-Away After a Hard Chase

Among the passengers from the city on one of the freight trains going out over the C. R. on Tuesday was a man who had been tired of working for the city without compensation and decided to leave for parts unknown.

William Delaney, who was arrested about two weeks ago on a charge of beggarism on the train, was sentenced to serve six months in jail with hard labor. On last Tuesday night he escaped from the workhouse in the city and, after a long walk down King street in the dark, reached the station and took the first train to Fredericton. He was captured by the guards.

Delaney, watching his chance, and when he saw his way clear, bolted from the train. He was soon overtaken and captured again, this time by the police. The horse rolled down the bank and sustained a deep gash on the side of his head.

The horse was then coming in the road and met the street car on the new line going out about half way between Kane's corner and Eighth street, where the horse ran into the car and was thrown to the ground, breaking the policeman's nose.

He was then picked up and thrown to the ground again, this time by the policeman, who then ran over him, breaking his leg.

He was then picked up again and the policeman's nose was broken again.
