

"DEADLY" INDEED.

Our venerable neighbor produces what it calls a "deadly parallel" in connection with the question of statute revision.

DISCRIMINATING TAXES.

Government organs affect to regard it as a small matter that men who work in gold and silver mines are compelled to pay a tax of \$5, while no other workmen in the province are subjected to any such special impost.

FLOUTING A CARDINAL.

It seems that papers in Quebec province are not at liberty to quote the utterances of high dignitaries in the Roman Catholic church, if these utterances happen to be at variance with the views of the Quebec bishop.

branches of the arts and natural sciences in the public schools controlled by the state.

"Therefore, if it is clear that in some given locality, thanks to the dispositions of the public authorities, or to the superintendence of the school commissioner, the professors and parents, these above mentioned dangers for the faith and morals disappear, it is permitted to Catholic parents to send their children to these schools, so that they may acquire instruction, provided the parents themselves do not neglect their most serious duties and their obligations as souls bend all their efforts towards inculcating to children all those things which compose Catholic life and customs.

"The approach, either in public or private, must be made to Catholic parents who send their children to private schools or academies, where a better education is imparted than in most of our public schools.

"It would be most desirable, it would be the most happy arrangement possible, that the bishop arrange with the civil authorities, or with the members of the school commission, for the joint supervision of the school, with due regard always of their respective rights."

"The first consists of an arrangement between the bishop and the school commissioners by which the latter, acting in a spirit of justice and good will, permit Catholic children to meet together during their free moments, to learn their catechism."

KIND SENATOR SHERMAN.

It would be well if Senator Sherman's kindly reassurances would remove the British bugaboo from Senator Morgan's disordered imagination, but we fear the Alabama gentleman's case is too severe for such mild treatment.

DECENT WAS PRACTISED.

It is quite useless for the Colonist to juggle with words and phrases in the hope of doing away with the fact that the government has not kept its word in the matter of statute revision.

KRUGER UNRELIABLE.

He Did not Keep His Promise to Introduce Reform in the Transvaal.

London, Jan. 29.—Mr. James McLean, Conservative, representing the district of Cardiff, to-day withdrew his amendment to Mr. Chamberlain's motion of yesterday on the re-appointment of a parliamentary committee to enquire into the administration of South Africa.

Mr. Chamberlain then remarked: "An inquiry into the origin of the raid would be a shame unless it carefully inquired into the grievances and the wrongs of the Transvaal."

LAW INTELLIGENCE.

Argument on a point of law raised by the defendant in Dunlop vs. Drake was heard this afternoon by Mr. Justice Drayton. The defendant is George H. Nausimo, sold under a fire on the house, but the purchaser of the term of lease, being unable to obtain possession, sued the sheriff. Defendant submitted that it is not his wife's responsibility to give possession. His lordship sustained the objection and the plaintiff, if he presses the costs in ten days, may amend his statement of claim, otherwise the action is dismissed.

to report favorably the arbitration treaty
with amendments. The committee
in session three hours, at the conclu-
sion of which they adjourned after hav-
ing agreed by almost a unanimous vote
to recommend the ratification of the
treaty with amendments. All but two
of these amendments are merely verbal
and of the two which is essential strikes
off the clause providing for the selection
of King Oscar of Sweden and Norway
as umpire, leaving it to the two powers
disputed to appoint an umpire who can
be considered to be necessary. The other
important amendment is an additional
to the treaty which reads as fol-
lows: "No question which affects the
rights of either country in either con-
tending parties or the relations of either
with another state or power by treaty
or otherwise shall be subject to arbitra-
tion under this treaty." This amendment
was agreed to by the unanimous vote of
the committee. The amendment elimi-
nating the umpire clause was agreed to
by a vote of nine to one.

JUDGE TURNER ELECTED.
Winnipeg, Wn., Jan. 30.—Judge George
Turner, of Spokane, was yesterday
elected United States senator for Wash-
ington in succession to Watson G.
C. receiving 68 of the 111 votes
of the electors. A slip of the tongue gave
the honor to Turner and deprived
of it. On Thursday the Turn-
er became greatly agitated over
rumor that the Republicans would
for Winsor. The scheme was dis-
missed by the balloting by Senator
voting for Winsor on the third
ballot. Hastily correcting himself, he
did to change his vote, saying he
ought it was the fourth ballot.
The result was announced a mo-
ment later and was carried by a margin
of 10 votes. The election of a senator
parliamentary emergency this could
be prevented and another bal-
lotting, when it is alleged, enough
votes could have been added to
elect forty-four Winsor votes to elect
Turner. A break on the fourth ballot
was made, and it would have resulted
in the election of Winsor. After ad-
vising the Turner men, a secret
council caucus and Turner being
elected his election was secured yester-
day. Judge Turner is one of the owners
of the famous Le Roi mine at Rose-
burg.
