CAPTAIN PETER C. HAINS GOES TO STATE'S PRISON

Murderer of William E. Annis Receives an Indeterminate Sentence of From Eight to Sixteen Years—New Trial Asked for and Refused.

Flushing, N. Y., May 17.—Captain Peter C. Hains, Jr., who was convicted of manslaughter in the first degree for shooting W. E. Annis at the Bayside Yacht Club last August, comes up for sentence today before Justice Garretson, in the Supreme Court. The maximum penalty to impose upon the law is 20 years. It was also within the discretion of the court to suspend sentence. When the jury rendered verdict last Tuesday they made no recommendation to mercy. Since then his lawyers have asked the jurors to sign a petition for clemency, which was expected to be presented to the court today. John F. McIntyre, chief counsel for the defendant, has prepared the usual motions to set aside the verdict on the grounds that it was against the weight of evidence and contrary to law. If these motions were denied, he was expected to ask for postponement of sentence until an appeal could be taken on the ground that the jury was not properly instructed during the trial. Counsel was also expected to ask that Capt. Hains be released on bail pending the appeal. Mr. McIntyre said today that General Hains, the defendant's father, was ready to furnish bail in any amount. Since his sentence, Capt. Hains has evinced no interest in his fate, according to his keepers in the Queens county jail. Flushing, N. Y., May 17.—Captain Peter C. Hains, Jr., U. S. A., was sentenced today by Justice Garretson in the supreme court to an indeterminate sentence of not less than eight years nor more than sixteen years at hard labor in state's prison. Captain Hains was brought into court from the Queens county jail early and

there was considerable delay before Justice Garretson took his seat on the bench. John F. McIntyre, counsel for the defendant, made the usual motion for a new trial on the ground that the verdict was against the weight of evidence and contrary to law. Justice Garretson denied the motion. Mr. McIntyre then raised the point of jurisdiction of the supreme court over the defendant, contending that he had never been released from the jurisdiction of the federal government and therefore the case was not properly before the court. Mr. McIntyre also stated that Dr. Brush, who had been an expert witness for the defense had examined Captain Hains since he was convicted and found him insane. Justice Garretson said there was no evidence to that effect before the court and he declined to consider the motion in regard to jurisdiction. He then instructed Captain Hains to come to the bar and proceeded to take his pledge. The prisoner seemed dazed and replied with some difficulty. In passing sentence Justice Garretson said that the defendant had had a fair trial and had been defended by experienced lawyers and a jury had found a verdict commensurate with the requirements of the law. He said that he was not aware that any error of law had been committed during the trial. General Hains, the defendant's father, and Major John Powers Hains, who were in court displayed much emotion when the captain was sentenced. Immediately after sentence, the prisoner's lawyers asked for a stay of sentence for a few days in order to take an appeal. Justice Garretson said the case would take the usual course and gave the defendant 24 hours in which to file an appeal.

SIR W. VAN HORNE AND AMERICAN RAILWAYS

Ex-President of the Canadian Pacific Says the Railways of North America Do Not Charge Enough for the Services They Perform

London, May 17.—(Special)—Sir William Vanhorne, interviewed at the Savoy Hotel, where he is staying for a while before making trip to the continent, said one thing was certain about the railways of North America: Their charges were much too low. They were not earning as much as they should on the capital invested, and he did not feel hopeful of an increased percentage of earnings. The "Railways of America," said Sir William, "are doing more for less money than any others in the world." He did not think government ownership the solution of the railway problem. "No government ever ran railways as cheaply as a private management could do. Sir William said that business and financial situation looked most promising, but he did not think there would be a great deal of railway building in America during the next twelve months.

FIVE MEMBERS OF FAMILY MURDERED

Tragic History of a Family, Once Resident of Kingston, Ontario

ONE BOY SAVES ANOTHER

Gordon Haley Had a Narrow Escape from Drowning in the Carleton Mill Pond

A West Side lad, Gordon Haley, aged about seven years, had a narrow escape from drowning in the Carleton Mill Pond on Saturday, and a young companion of the same age, Frank McAffery, is credited with saving his life. The two boys were playing at the edge of the pond, when young Haley fell into the water, and was foundering about in a dazed condition when his companion dashed in and rescued him. Several men who saw the accident and rescue from some distance away, spoke very warmly of the pluck of the McAffery lad for his prompt action. He is a son of J. E. McAffery, of the West Side, and a grandson of Captain McAffery of the ferry service.

THE KING OF ITALY RECEIVES CARNegie

Rome, May 17.—Andrew Carnegie was received in audience by King Victor Emmanuel today. He was presented by Senator Cappellini of the University of Bologna, to which institution his majesty sent the model of a rare pre-historic animal recently presented him by Mr. Carnegie. In the course of his conversation the king expressed his appreciation of this gift and showed great interest in and knowledge of Mr. Carnegie's beneficence.

NEWS FROM FREDERICTON

An Andover Girl Wins the Douglas Gold Medal at the U. N. B.—The River Receding

Fredericton, May 17.—(Special)—Admiral Turley, a well known resident of Swan Creek, Sunbury, died last night. He was in the city last week and had a cancer removed from his hip, and while on his way home he contracted a cold and blood-poisoning caused by the cancer. He was about sixty years of age. Miss Beatrice Welling, of Andover, is announced as the winner of the Douglas gold medal at the University this year. The medal is awarded for the best English essay and the subject this year was "The Place of Women in English Literature." The water in the river here has fallen two feet since Saturday night and with continued fine weather it will continue to recede rapidly. It is also falling at Woodstock, Perth and Edmundston. The schr. Roskoff which has been here a week waiting for berth, commenced discharging her cargo of hard coal this morning. Dr. J. C. Jack of North Sydney will deliver a baccalaureate sermon to the students of the University at St. Paul's church next Sunday morning. John Endini, the Italian, who recently attempted to end his life in Oromoco jail is still in a serious condition and will be removed to the penitentiary for several days yet. Possibly he may have to be sent to the hospital for treatment.

PAPKE AND LANGFORD

Fight Promoter Coffroth Expects to Bring Them Together in Colma on July 5th

CZAR WILL TAKE A LENGTHY TOUR

Rome, May 17.—Although no official announcement yet has been made, there is reason to believe that the Emperor of Russia after calling at Great Britain will continue his voyage around Spain and Portugal through the straits of Gibraltar to the Mediterranean to an Italian Port to visit King Victor Emmanuel. It is said also that from Italy the Emperor will go to Constantinople and return home via the Black Sea.

THE KING OF ITALY RECEIVES CARNegie

Rome, May 17.—Andrew Carnegie was received in audience by King Victor Emmanuel today. He was presented by Senator Cappellini of the University of Bologna, to which institution his majesty sent the model of a rare pre-historic animal recently presented him by Mr. Carnegie. In the course of his conversation the king expressed his appreciation of this gift and showed great interest in and knowledge of Mr. Carnegie's beneficence.

A. J. Lingley, chief of the I. C. R. detective service, passed through the city today on his way to Moncton.

DR. JOHNSON WOULD OPEN CANADA TO ALL RACIONS

Montreal Clergyman Addressing Evangelical Alliance on Canada's Destiny, Says He Would Favor Throwing the Country Open to All and Would in Time Allow Chinese, Japanese and Hindus to Enter Without Restriction.

Rev. Dr. Robert Johnson, pastor of the American Presbyterian church, Montreal, addressed the Evangelical Alliance this morning, taking for his subject, "Canada's Destiny." There was a large attendance and the Montreal divine's eloquent discourse was listened to with rapt attention. The speaker dealt with the great problem of immigration, including the fusion or intermingling of the numerous elements, expressing it as his conviction that in the carrying on of the work of the Gospel, even the vexed question of Chinese, Japanese and Hindu immigration would be solved. Dr. Johnson based his remarks on Zechariah's vision, which was to enlarge the vision of the people that they might have a nobler conception of their duty to God. He drew from it the duty of Canada. Having travelled over the west, he was brought into touch with the conditions there and to see to recognize the gravity of the great problems for this country to solve, the relations between provinces, the question of immigration, all of immense importance. He asked the question if it might not be possible that God was working out greater ideals than in the past. We were to be the nation of the future, not confined by the narrow walls of selfish exclusion. We must leave behind narrow conceptions of the national life. There must be no selfish walls of exclusion, but rather he favored the ultimate throwing open of the doors to all, including Chinese, Japanese and Hindus. There was no reason why they were not within the saving power of the gospel of Christ, and if they could be won, why not citizens, taking for our keynote, the gospel.

This was necessary for a great national life to be realized. A nation was to be measured by the progress it made. Great Britain and the United States both, he contended, had done much to break down the prejudices existing between nations, and had living examples of the intermingling and fusion of races. Was it not possible for Canada to do this? He admitted both from Asia and Europe. There was, no possibility for a great country to be built up by the exclusion of the European countries of Germany or France, or Italy, or even a greater area than the United States. Therefore, he said, we should have a noble heart, a population of one hundred million. "I do not believe Canada should at once throw open her doors, but with the end in view," said Dr. Johnson. The religion of God was a better wall of protection than the tariff. He urged the necessity of prayer for the continuation of amicable relations, but that also a sincere respect and regard for each other.

AMERICAN ADMIRAL THROWS BOUQUETS

Admiral Harber, Visiting Tokio Hands a Choice Line of Fair Weather Talk to the Mikado

Tokio, May 17.—Rear Admiral Harber, commanding the U. S. Asiatic squadron of the Pacific fleet, and the captains of the ships composing the squadron, were granted an audience with the Emperor and Empress today. In an interview Admiral Harber says: "I came to Japan entirely on my own initiative and had no thought of any special reception at the court, but on my arrival found that preparations had already been made to give me a hearty and enthusiastic welcome. The Emperor and Empress were not to shut out but bring in, and

WHOLE CREW HAD MALARIAL FEVER

Crew of British Steamer Infected by Mosquito Bites While on Voyage From Para, Brazil

New York, May 17.—The British Steamer Veranon arrived here today from Kingston, J. B., with practically a new crew of 700 men, having left fifteen men in a hospital at Kingston suffering with pernicious malarial fever. The disease was contracted while the steamer lay in the Madeira River, about 200 miles from Para, where the crew, while engaged in shore treatment, although screened at night with mosquito netting, could not altogether escape the attacks of mosquitoes. When the steamer got to sea, after leaving Para, the crew were stricken until at one time only three deck officers were fit for duty, while the engine room force worked as they were able. One man died at sea, and another died after arrival at Kingston. The vessel was quarantined at the hospital, and their places filled with new men. The vessel was disinfected by the Port physician, and permitted to proceed.

NEW YORK STOCKS

New York, May 17.—Cotton futures opened steady. May sold 11.20 to 11.30; July, 10.80; Sept., 10.72; Oct., 10.74; Dec., 10.78; Jan., 10.75; March, 10.75.

FIVE MORE HANGINGS IN CONSTANTINOPLE TODAY

Victims Were All Men Who Had Been Convicted in Connection With the Recent Mutiny—Pitiable Conditions in Refugee Camps.

Constantinople, May 17.—Five more were hanged at half past three o'clock this morning in front of the building of parliament opposite the Mosque of St. Sophia in Stamboul. They had been found guilty by court martial, and were executed for the murder of April 13. One was a non-commissioned officer and the others were junior officers. The five men sang hymns while they were being conveyed from the war office, where they had been confined, to the place of execution. They continued their songs while the final preparations for the hanging were being completed and up to the very moment that the stocks on which they were standing with ropes around their necks were knocked from

PERSONALS

George Meredith very ill. London, May 17.—George Meredith, the English novelist is seriously ill and the grave anxiety is entertained regarding the condition of the octogenarian author. Mr. Meredith was taken ill on May 14 since which time he has gradually grown worse.

PROBATE COURT

In the estate of John Hunter, late of Stranraer, county Wigton, Scotland, bank clerk. Return of citation to pass the accounts of Fred R. Taylor, administrator with the will annexed of the estate within the Province of New Brunswick. The accounts are duly passed as presented and payment ordered of the balance found in the hands of the administrator to be paid to the Scottish executors to whom letters-testamentary were granted of the holograph will of the deceased under the seal of the commissariat of the county of Wigton. Cyrus F. Inches, proctor.

KENT CO. MAN DROWNED IN A LEOMNSTER POND

Leare Hebert Went Boating on Sunday He Was Drowned—Body Was Brought to Province for Burial

Boston, May 17.—(Special)—Leare Hebert, 38, who came here from Fredericton, N. B., was accidentally drowned at 3.15 yesterday afternoon at Whelan's Pond Leomnster, while boating with Napoleon Sidilian. Sidilian survived. According to the story he tells, Hebert was handling the boat as he did so. Neither of the men could swim but Sidilian managed to climb to the overturned boat. He says that his companion continued to flounder in the water at his side until he sank but that he could not help him. People on the shore hearing the cries

of the men rushed to their aid and the man on the boat though much exhausted was saved. The New Brunswick man sank before help came. The chief of police of Fredericton went to the scene of the drowning last night and after viewing the body pronounced death due to drowning. The body was found at 5.40. Undertaker Simard took charge of the body and removed it to the home of his brother, Frank Hebert, of Leomnster. A father of the dead man living in Kent County has been notified. The body will undoubtedly be taken to New Brunswick. Hebert is survived by a wife and three children. He has several brothers and sisters living in this section and several in the provinces.

THE LUMBER CUT IN MAINE

It is Estimated That it Will be Just About the Same as Last Year.

Bangor, Me., May 17.—With the season's lumber cutting operations practically at an end, it is estimated that the cut in Maine this year amounted to about 700,000,000 feet as compared with other seasons, these figures show no appreciable gain or loss, the anticipated heavy falling off from last season's cut being overcome to a considerable extent by the late spring. A considerable quantity of snow remained on the ground up to very recently, making it possible to pursue logging operations later than usual. Much of the lumber cut will be taken to the pulp mills to be converted into paper. The logging service is now on and thousands of men are gathered at the headquarters of the Penobscot and other rivers ready to start the logs down the waterways to the pulp and lumber mills. In addition to the logs cut this season a large quantity of lumber cut last year has been left in the woods on account of the hard market, will be brought down soon.

STATE TAXATION OF THE CORPORATIONS

Unique and Interesting Report Made Public by U. S. Commissioner of Corporations

Washington, May 17.—A unique and interesting report dealing with state taxation of manufacturing, mercantile, transportation and transmission corporations was made public today by Herbert Knox Smith, commissioner of corporations. The part of the report transmitted to President Taft concerns particularly the six New England states. It is expected that additional parts dealing with other groups of states will be published later. A careful investigation into the tax laws of each state was made by Commissioner Smith and the results of the inquiry presented in concise form. The report presents in a popular way a digest of the tax laws and the methods of their administration. While, in a sense, it is a legal publication, it was prepared for the general public rather than for lawyers. It contains much of information particularly interesting and important to legislators and all other students of taxation. Commissioner Smith points out that while the taxation of individuals throughout New England is on a substantially the same basis, there is a wide diversity among the several states in both the theory and practice of the taxation of corporations. He notes as particularly interesting the Massachusetts plan of taxation of "corporate excess" on the market value of stock less property otherwise taxed.

Major-Cummings

Rev. George Titus united in marriage on Wednesday of last week at the home of the bride's parents, Blanche Cummings and Albert Major of West end. The ceremony was performed at 64 Waterloo St. Miss Minnie Major, the groom's sister, was bridesmaid and William Dickson was groomsman. Among the presents received by the couple was a set of china from the L. O. B. A. No. 19, of which the bride was a member. They will be absent from the city for five months and on their return will reside in west end.

Ech Meek and his son Raymond were killed with a shot gun near Richmond, Indiana, today by Joseph Raiback in a quarrel over a line fence. Raiback was wounded in the leg. Fire at Fort Smith, Arkansas today destroyed a compress and five thousand bags of cotton, causing a loss of \$500,000. The harbor fishermen are getting large catches of gaspereaux, but up to the present very few had been taken. A small boy describes a snake as a direction when he follows his inclination.

KING DECORATES HIS HEROIC MOTHER

King Emanuel, of Portugal, Confers Three Orders of Bravery Upon His Mother Who Saved Him from an Assassin's Bullet.

Lisbon, May 17.—King Emanuel has bestowed upon Queen Maria, the widow of King Carlos, the decorations of three orders for the heroism displayed by her majesty on the occasion of the assassinations of her husband, and son in February, 1888. The decree recites that after King Carlos and Crown Prince Louis had been shot dead, the Queen with noble courage and maternal instinct, flung herself in front of her son Manuel and endeavored to thrust aside the weapon of Carlos, levelled at him. Her escape was remarkable. The bullet struck her forearm, was deflected, and grazed the forearm of the prince. The cabinet has given its unanimous approval to these decorations, never before conferred upon a woman.

MILES CARROLL WAS FINED \$20

Case of Selling Beer After Hours Decided in Police Court This Afternoon

Miles Carroll, reported for selling beer after hours in 171 saloon on Union street, on Saturday, May 8, was adjudged guilty by Police Magistrate Ritchie, in the police court this afternoon and fined \$20. The case will probably be appealed, as it is a test case of the new amendments to the liquor act.

A PITIFUL CASE

Police-men Looking for Un-licensed Dogs Discover Case of Destitution

The primary object of Patrolmen Marshall and Linton in visiting the domicile of Fred Lean on Duke street, Friday night was to ascertain if the family possessed any dogs. When the woman present herself at the door she was in such a pitiful state that the policemen hurriedly withdrew. The woman is merely a shadow and her countenance is literally covered with eruptions. Two dogs that they owned were unable to walk through starvation and the two children were in a pitiable condition. Secretary Wetmore of the S. P. C. A. and Police Sergeant Campbell are enquiring for evidence that will render possible the institution of proceedings against Lean who is in jail.

ROOSEVELT'S TROPHIES

Nairobi, British East Africa, May 17.—Edmund Heller, one of the zoologists of the Roosevelt expedition, came into Nairobi this morning with some fifty specimens of animals and bird life that are to be cured and preserved here. They include one rhinoceros, two giraffes, twenty smaller kinds of game and a variety of birds.

John J. McNulty The death of John J. McNulty took place at his home, Durham street, north end, today. He had his knee injured some time ago and it was found necessary to amputate the leg as a result and he never fully recovered from the effect. He is survived besides his wife and two children, boys aged 5 and 9, by his father, one brother and three sisters. The funeral will take place on Wednesday.

The body of Mrs. W. S. Richards arrived on today's Boston train from New Haven, Conn., and was taken to the home of Alex. Watson, Sydney street. It will be taken by steamer Victoria tomorrow, to Sheffield for interment.

MR. CHARLES A. EVERETT

The death of Mr. Charles A. Everett has removed a man who during a long life contributed in no small degree to the welfare of the city of St. John. For quite a number of years past he suffered much from ill-health, and took no part in public affairs, and to the younger generation he was not so well known, but there was a figure in the civic and political arena. He had received an excellent business training in one of the oldest and most reliable commercial houses, had received also the benefit derived from travel, and brought to the consideration of public matters a mind well stored with valuable information, and well equipped to deal in a practical and commercial interest of the city. Nearly all of those who were his contemporaries in the earlier years of his public activity have passed away. He was a good speaker, especially in dealing with trade matters, and always a vigorous champion of the claims of St. John as an industrial and commercial centre.

Mr. Everett was always a strong advocate of total abstinence, and was throughout the active years of his life one of the most prominent temperance workers in the province. He filled the highest office in the gift of the Sons of Temperance, and was in close touch with the active workers of the order in the city. Even in recent years it was his habit when his health permitted, to attend meetings of old Gurney Division, of which he had been a member for the more than sixty years of his existence.

BUILD UP NEW BRUNSWICK

Anyone who has journeyed through the state of Massachusetts, in various directions, appreciates more fully the force of Rev. Frank Bain's plea before the Canadian Club of Moncton for an increase of population and greater development of industry in New Brunswick. Whether one travels by train or by the trolley lines that everywhere intersect the state of Massachusetts, he finds large and small towns with well-established industries affording a fine market for the products of well cultivated farms. Water power is utilized wherever they exist, and there is everywhere evident a progressive spirit which makes for further development. Of which Massachusetts is an old state, and New Brunswick was a wilderness. There was a comparison of the two would be unfair. But it is nevertheless true that men from New Brunswick have done and are doing much to build up Massachusetts. A little over two weeks ago the writer went to Boston on the same steamer with three youths from St. John who went up in search of work. A week later he met one of them, who stated that they were all at work—one in a hotel, one in a bakery, and one on a railway. They went to Massachusetts because they could not get as good an opportunity to work in St. John. It was not their fault that the conditions here were not as favorable. The fault lies largely with those of our people who prefer to risk their money anywhere rather than in home investment. The resources of their province are capable of far greater development than is now taking place. There is room in St. John for better tenements and more industries. The city and province are not isolated. They are in touch with the world's markets. We talk of efforts to attract foreign capital, but do not utilize our own in local development. Neither federal nor provincial governments can do for a people that which they ought to do for themselves. This city and province are making progress, but there is still too much of pessimism. To him who looks about him with unprejudiced gaze, there are abundant evidences that practical faith in our

own resources and advantages is not unrewarded. Let us have more of this faith, that our villages, towns and cities may grow, and our farm lands become the home of prosperous and contented husbandmen.

DISTURBING RUMOR

A disturbing rumor is said to have reached police headquarters in this city. It is alleged that a gentleman who lately visited several American cities returned with the startling information that in those cities spitting on the sidewalks is prohibited, and respect for the law has been so enforced that violations are extremely rare.

Of course this story may not be true. The police authorities may not have heard about it at all. It is by no means certain that they would believe the story if they heard it. As already stated, the rumor is only said to have reached them. Perhaps no notice should be taken of the matter by the press. The publication of idle rumors frequently leads to undesirable results.

And yet, if such a rumor has reached police headquarters, and if this gentleman has actually returned with the information described, the public will be curious to know what the effect will be. Are our policemen to be called upon to arrest persons who enjoy the aesthetic pleasure of spitting on the sidewalks? Worse still, are our policemen themselves to be forbidden to spit on the sidewalks? Are we to see our American neighbors to the extent that our women-folk are not to be permitted to carry home on their skirts as much sputum as they desire?

The subject derives fresh interest from the fact that the warm weather has returned, and the popular pastime of standing at street corners and spitting on the sidewalk is once more in season. This agreeable and healthful exercise, though not mentioned in board of trade books or tourist guides, is one of the distinctive features of life in St. John. Mills may shut down, factories may go on short time, fog may obscure the natural beauties of the scenery, trout may refuse to rise to the fly—but extreme and industrious spitters are always to be found on the street corners. Sputum culture is a recognized and honored industry. There is more of it in St. John than in any city of equal size in North America. The police authorities treat it with the utmost respect and consideration. If now it is to be threatened by the advent of Yankee notions and the Anti-Tuberculosis Association, the perturbation in police circles may easily be understood and appreciated. Why should not a public spirited citizen be permitted to present to the city with a few germs if he wants to?

The statement issued by the City Cornet Band relative to the band stand on the square reflects credit upon that organization. The band stand has not detracted from the beauty of the square, nor have the band corners led to the destruction of grass or flower beds. On the other hand there is now an opportunity to have what was long desired—band music on the square. The City Cornet Band should have no difficulty in raising the small amount required to complete the stand yet to be made to clear the band stand of debt.

The wretched condition of the Lean family, due to the drunken habits of the husband and father has excited public attention only because it is more pitiful than many other cases, that might be cited. Conditions exist in many homes in St. John, as a result of the drink habit, that are a disgrace to the community. The greatest curse of St. John today is intemperance. What do the citizens propose to do about it?

The fact that five steamers have lately been damaged by ice off Newfoundland proves that the quantity of ice afloat in those waters this spring is much greater than usual. Happily no serious accident has occurred, but it is a time of anxious watching for the men responsible for the safety of vessels traversing that part of the ocean route.

The log-driving this spring appears to be attended with more success than usual, although rather slow at the start. Now in the British lumber market will improve as the summer wears on, the general result will be very beneficial to the province of New Brunswick. We have the material, and freights are low.

If the present law does not place better shops in the same class with liquor saloons, the law must be amended. The friends of temperance have a hard fight, and are constantly receiving reminders that it does not pay to leave loopholes in the law.

The opening of more rural mail delivery routes may be a disappointment to those Conservatives who said last year that it was an election dodge but it will be hailed with satisfaction by the people concerned.

Archbishop Bruchesi is noted for his determined attitude against intemperance. Now he has placed under the ban a theme which has long been a source of scandal in Montreal.

There is a city in Massachusetts which is described as "the city of homes." St. John is a city of dumps.

Suits for the 24th at The Harvey Stores

We have had a number of suits made up in a partly finished condition from some of the best cloths in our tailoring department. They can be fitted and finished up to your order with short notice. THE DOUBTER.

My friend delves in psychology—'twould rot— And yet he must admit that he knows a lot; He studies people in the street, And draws conclusions; that's a feat Psychologists all think a treat— But I do not.

We pass a man whose wrinkled brow My friend he whippers to me: "Now, A millionaire! He's worried! Say, I'll bet his wealth is swept away, But I ought to have a better day— He coming down."

We pass a sighing woman, dressed The maid is plainly much distressed: My friend observes, "It's plain to me She's been deserted; 'twould be just to see— But I, a skeptic, think that she Has lost her puff."

Then suddenly folks stand aghast— Thousands crane Their necks to see a man dash past: My friend, the student, grabs me: "See criminal! He tries to fool!" But I can't help but think that he Has missed his goal.

My friend has wasted years, you know, Of hearing things that aren't so; Yet a squint At a crowd that just goes just To tip him off in time to dust; From him I think I've surely must Be something in— —John D. Wells in Buffalo News.

SADLY. "I'm saddest when I stargaze," he wailed; "Her studies was all that he could do." —Philadelphia Bulletin.

FACT VS. FALLACY. "Money is not at the bottom of everything," sadly remarked the college man as he placed his hands deep down into his pockets. —Home Herald.

AN AGREEMENT. Parishoner (a little the worse for liquor): "I search you search 'em night." "Well, Minister—" "You don't bear much, I fancy." "Yes, what—me—I thought myself." —Leslie's Weekly.

PIROLOGY. "Premises like pie-crusts, are easily broken," said a philosopher. But he said it before the railway ticket inspector had visited. —Chicago News.

HORSE SENSE. "Why don't you go to the doctor?" "I don't have any pain in these modern physicians." —Cleveland Leader.

DEVELOPING WILLIE. They sent him on to college, For he was shy on knowledge, And his huge, heavy-lidded eyes, Four weeks' study many changes In his undeveloped style, When he was, in the college range, Pretty close on to a mile. —Anselmus's Alter Cases.

"I thought you said May Nagget had married a good-looking man?" "So she did." "Well, he's been married to May for nearly four months now, you know." —Catholic Standard and Times.

"NIX ON THE BUST." "Madam," said the medical man, gratefully, "I have a substantial increase over the usual rate of pure air." "I think I see myself." —Cleveland Leader.

PROVINCIAL NEWS

New Brunswick

A young man named Richard, living at Little Norway, about one and a half miles from Richibucto, died on Friday of the effects of being kicked by a horse after receiving the injury. Deceased was a son of Matthew Richards, who died about two months ago, and was about 30 years of age.

Says the Moncton Transcript—It will be a great regret that Everett Price, the well known local road runner, may be unable to participate in the five-mile road race at Amherst on Victoria Day. While doing some gymnastic work on a horizontal bar a few days ago, Price sustained a very severe strain to his stomach muscles, and on the advice of a physician had discontinued training. Price was looking upon to land pretty near the front in the Amherst race.

Nova Scotia

The Newfoundland fishing schooner Cora, Capt. Lee, which arrived in North Sydney on Thursday, reported the loss of two of her crew, Theodora Downey and George Cannon, both of Grand Bay, off Saterie, on Monday. The men left the schooner to take in the trawl, and shortly after setting out a dense fog came on. After searching for some time the men were unable to locate the trawl, and started out for Saterie, but encountering the ice they were unable to make any headway, and were forced to remain in their dory until the next day, when they were picked up by the French fishing schooner Dictator, which brought them to North Sydney. The Cora remained off Saterie for two days in the hope of finding the men, when Capt. Lee decided to run for North Sydney and report the loss.

During the past several weeks Dominion No. 12 has assumed a very busy appearance and is destined to be one of the busiest collieries in Cape Breton shortly. There are about 70 miners' houses now completed and it is the intention of the company to erect as many more this summer, some of which have already been started. There are several general stores in the place, besides a number of smaller ones. A school building and churches for the Catholic and Presbyterian congregations will likely be erected during the summer.

Samuel Williams, the Preston man, whom it was reported was shot on Monday last at Lake Williams, turned up in Halifax on Saturday. On Monday Mr. Williams and George Clayton went out fishing on Lake Williams. While Clayton was making dinner, Mr. Williams was left alone in the boat. He heard a single report of a revolver and then five shots in quick succession. He saw nobody, however, at first, and concluded that Williams was shot.

The largest cargo of sugar ever brought to Halifax is expected to arrive here about the first of June. It will be brought on the steamer Crown of Galicia, sister ship to the Crown of Aragon, which came here last year. About 6,000 or 7,000 tons of sugar will be the cargo, the equivalent of about 70,000 bags sugar.

A alo machine was seized at one of the hotels in Sydney. The case will be tried today.

The output at the collieries of the Dominion Coal Company for the present month will probably be one of the best

est for many months. The average amount raised to date at all collieries this month shows a substantial increase over the same period for last month, and as a result the output for May will be as large as in previous years.

The steamer Felix arrived for the first time this season at Hawkesbury and has made five trips to Sydney. The quarry presented a busy appearance last week. On Saturday night the new crusher was installed at the plant.

Plak have been very plentiful in East Bay for the past two weeks. Large hauls of herring were made but the fish were rather small. Codfish were plentiful, and several made good catches with hand-line and trawl.

On Saturday last the second saw load of lumber was shipped from East Bay, C. B., by Mr. Dryden to the D. I. & S. C. Mr. Dryden is to complete the Steel Company's contract first. His tug boat arrived here some time ago, and is now employed in towing lumber from Ben Eoijn.

During the past week the farmers are busily engaged with their planting and seeding operations. Many have already planted a considerable quantity of potatoes, and in the course of a few days all the potatoes will be placed in the ground. Seeding has not been general yet, as there is a danger of frost until the last of the month and even later.

The French steamer Ambrose, Capt. Hubert, arrived in North Sydney on Thursday from the Banks with 8,000 fish on board. The Paro is the first of the French trawlers to come to North Sydney this season. She left Peapack, France a month ago, and on reaching this city a sick man, from St. Pierre to land of the Atlantic put into St. John. She went to the Banks, where she fished for two days when her coal supply became so low that she was obliged to come to North Sydney to replenish her bunkers.

J. H. Brown, M. E. Montreal, is in Sydney looking over water front sites, with a view to purchasing a property whereon to erect a smelting plant for the purpose of refining precious metals. Mr. Brown has just finished building a similar plant in Ontario, which cost \$2,000,000. As a result of the breaking of a whiffletree of a dory to which he was hitched, a horse owned by LeMoine Bros. ran away at North Sydney on Thursday. Cluett LeMoine, the driver, was thrown violently from the dory, landing between the body and the wheel, and rendered unconscious. He was also badly cut about the head and neck. He was taken to the police station where he lay unconscious for some time. His wounds were dressed by Dr. McLean. The accident has not worse as a miracle, for had LeMoine's horse been caught between the spokes of the rapidly revolving wheel, his life would have been broken.

The marriage of Judge Patterson, of Amherst, to Miss Margaret Finck, of Lunenburg, will take place at Miss Finck's home on Wednesday, June second, in the presence of immediate relatives only.

Saturday's Halifax Recorder says:—"Official Insurance Adjuster Jarvis left Halifax this afternoon for St. John, after having completed his work in connection with the recent fire on Upper Water St. He this morning apprised the damage to the Gutta Percha Rubber Co.'s stock, for which company H. H. Fuller & Co. were agents, at \$1,190. The total loss by the fire, Mr. Jarvis said, was about \$100,000, and the insurance was about \$71,000.

R. J. Cowans, manager, Springfield, says that the employees at the mines in that town lost 11,393 days in January, February and March, chiefly after pay-days, involving a loss of \$30,000 to the men and \$20,000 to the company in three months.

A very pretty wedding took place at Bar River last week when William Ruggles, of Bar River, and H. Edwards, conductor on the R. and S. W. Railway, were married by Rev. Mr. Corbett, pastor of the Baptist church.

M. Neville, who shipped a carload of live lobsters from Sydney to Vancouver, received word on Wednesday that they had arrived in the condition.

William Doane, son of City Engineer F. W. Doane, of Halifax, was selected as one of two cadets to go to the English Bales but on investigation it was found that he was a few days too old, the regulation being that all candidates must be under 18 years of age on July 1.

The Yarmouth Times says—in Boston on Tuesday a body was found floating in Lewis' dock which was subsequently identified with difficulty as being that of Joseph Patrick Murphy, of Yarmouth. The unfortunate man had been employed as second steward on a steamer running between Boston and St. John. Some three or four weeks ago he disappeared and had not been seen since until his badly figured body was found in the dock. The unfortunate man was a son of the late John Murphy and was widely known in Yarmouth and elsewhere. He was 32 years of age and is survived by a wife and child who reside here. His remains will be interred in Boston.

THE EMPRESS'S LAUNDRESS. Anna Wermuth, a woman who was known for many years as the laundress to the Empress, died in the Home for the Aged in Vienna recently. She used to boast of the fact that she was a born washerwoman. In the revolution of 1848 she took part in the barricade fights, and acted as nurse for the wounded revolutionists. For her services she was decorated with the Order of the Iron Cross and for years, on occasions when the various guilds paraded, always led the women of her calling. "She died blind and in poverty," according to the published accounts, "but to the last day of her life she was a charitable woman, and in her time she had given more than her share towards widows and orphaned children."

The pessimist doesn't bore us with his alleged funny stories.

Saved From the Surgeon's Knife

When the system becomes so disordered that the wheels of health clog up, the usual result is acute constipation and piles. A good remedy must be used immediately, otherwise an operation may become imperative. Probably no remedy has proved more successful in curing piles than Dr. Hamilton's Pills. They give instant relief, restore natural conditions and prevent the hemorrhoids from returning. Nor is proof lacking. "I suffered below the limits of human endurance," writes Miss Luaders, of Cornwall, Ont. "I was employed in a factory here, but had to give up work till I got cured. I read about Dr. Hamilton's Pills and after using them two weeks was cured. I can highly recommend them as a perfect safeguard against piles." Every person is benefitted by Dr. Hamilton's Pills; they regulate the system, make you feel well and cheerful. Better try these good pills, 25c. per box, or one bottle for \$1.00. Dr. Hamilton's Pills are in medicine.

CHARLES A. EVERETT HAS PASSED TO HIS REWARD

Prominent Business Man, Politician and Staunch Temperance Worker, Died on Sunday in His 81st Year.

St. John yesterday morning suffered the loss of one of her best known citizens, when Charles Arthur Everett died at his residence, 11 Orange street. A man of sterling character and much ability, he was severely disabled in civil life in which he had not in his time borne a part. He had also served his constituents as a member of parliament, was a leader in temperance work and was probably the oldest member of the order of the Sons of Temperance in North America.

Mr. Everett had been ill for some months and his death was not unexpected. He was eighty-one years of age, having been born on March 24, 1828. His parents then lived in Dock street, which was at that time quite a residential section, although it has long since been given over to commercial purposes. His father was Charles Duncan Everett and his mother, Frances E. Peters. Mr. Everett was the grandson of George Everett, who came here from New York with the U. E. Loyalists. George Everett was a lieutenant in the 1st Regiment of the U. E. Loyalists, and was for some time stationed here, and in Fredericton was for years in charge of the commissariat department.

Charles A. Everett in his younger days learned the hat and fur trade with his father, who in 1824 founded the business now carried on by C. & E. Everett, in King street, and which is one of the oldest in the city. He was afterwards engaged for a time in the same line in Danbury (Conn.), but returned to St. John. In 1850, Mr. Everett married Elizabeth Ann Eagles. She died in 1891, the year after he had celebrated his golden wedding. He is survived by four children, eighteen grandchildren, and three great-grandchildren. The eldest son, William C., died about twenty years ago, at which time he was city editor of the Daily Telegraph. The surviving children are: Edward A. and Herbert D., of this city; Mrs. Emily E. Golding, who resided with her father, and Mrs. L. T. Burnham, of West Medford (Mass.).

Mr. Everett was one of a family of seven brothers, the eldest of whom, Rev. W. P. Everett, died some years ago. Rev. Mr. Everett was a prominent Baptist clergyman and was well known both in the maritime provinces and the United States. He was for a number of years stationed in St. John. Of the five survivors, George E., who resided in Ottawa, was for years a government official in charge of the money order office, but has been retired for some time. Edwin J., Thomas L. and Henry L. live in this city, and Frank A. in Quincy (Ill.). Besides these there are numerous relatives and family connections in all parts of the province. The late Sir Leonard Tilley and the late Judge Hinington were first cousins of Mr. Everett.

REV. DR. JOHNSTON HEARD IN OLD ST. ANDREW'S CHURCH

Montreal Pastor Spoke at Anniversary Services Three Times Yesterday—Will Conduct Service Twice a Day Until Wednesday.

The 125th anniversary of St. Andrew's Presbyterian church was celebrated yesterday with special services all day. Rev. Robert Johnston, D. D., pastor of the American Presbyterian church in Montreal, preached in the morning and evening, and in the afternoon at 4 o'clock he and other speakers addressed a mass meeting for men. Commencing this afternoon and evening special services will be held on Monday, Tuesday, Wednesday and Thursday. Rev. Dr. Johnston will address all these. In the afternoons there will be a series of talks on the personality and work of the Holy Ghost. This evening he will speak on the Permanence of Character. Dr. Johnston's first discourse, yesterday morning, fixed the attention of every grown person in the congregation from the opening sentence to the last. It was an address which went home to everybody—a fine example of clear thinking and effective delivery. It was nothing like the kind of thing heard in St. John for a long time. The auditors seemed to recognize the preacher at once as a man of power.

There was a good sized congregation in the morning when Dr. Johnston's subject was The Parable, his text being 2 Peter 1-9. "He that lacketh these things cannot see afar off," and Hebrews 11-27. "As seeing Him who is invisible." In his epistle, the Apostle Peter, the preacher, was exhorting the Christians to add to their faith certain virtues, such as knowledge, temperance and love, adding, "he that lacketh these things cannot see afar off." In contrast with this the writer of the epistle to the Hebrews, in describing the character of Moses, asserted that he had such clearness of vision that he even saw the invisible.

Vision, Dr. Johnston went on, was peculiarly the property of youth. The dream dreams and your young men shall see visions." A man who lived in the past, forever talking of the good old times, was old, although his hair be as black as the raven and there was no sign of a crow's foot on his brow. The man, however, who beholds today, but who enjoyed yesterday through the passage of seventy summers may have whitened his hair.

When Henry Clay was alive he, with a friend, climbed the slope of the Alleghenies to a point from which they could see the great unpeopled western plains. He bent his head in a listening attitude and his friends said: "What do you hear, senator?" He replied: "I hear the march of untold millions landing over these hills to possess this land." Men of his own generation called Clay a dreamer.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pain in my back and side, and was miserable in every way. I doctored and was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking a few bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YORKE, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing will do this so surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become a well woman.

The great volume of uncollected testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

recounted an incident of his experience as a pioneer missionary in the Northwest. He had been for some time in the conviction that what the world needed most of all was the eternal gospel. If it was desired to advance civilization and introduce new laws which should put down many forms of vice, the minds of the people must be directed towards the mind of Jesus.

Every settler in the building was occupied at the evening service, when Rev. Dr. Johnston preached a strongly evangelistic sermon on Pilate. Perpetrated. The text was Matt. xxvii:27. "What shall I do with this Jesus which thou callest the King of the Jews?"

There are large numbers of people all over the province who are United in their own day these men were styled dreamers, but they were how call prophets for a prophet was simply a man who had a vision of unseen things so vivid that he believed in them with his whole soul.

It was said that short sight was rapidly increasing and that men and women tried so much with their eyes short focused. This arose from modern conditions. Short sight was as a consequence of deprivation and peril to the individual. He was deprived of seeing the glory of the world about him and unable to see the danger that lay just beyond his horizon.

As it was in the physical world so it was in the spiritual world. Peter wrote his epistle to Christians who had stopped at the threshold of their spiritual life, as many have done today.

This was called a materialistic age and there were three reasons why it was so. The first was found in its intense commercialism, the second in its scientific teachings and the third in its religious teaching. In science the doctrine of secondary causes had moved God, as it were, further away from His handwork. Men still believed in God as the creator, but He was not now so imminent as in their fathers' time.

The materialism of the age had given rise to a spirit of despondency and even despair which was shared in to an extent even by the church. Writers in religious magazines were pessimistic over the future of the church. The cure for all this was to take their eyes from their work for a moment and endeavor to take the larger vision, the glorious sweep of lake and river. God was as ready to help and succor as in their fathers' days, but they forgot it sometimes.

The mass meeting in the afternoon was well attended. Rev. A. A. Graham, who took part in the devotion, introduced and Hon. J. G. Forbes, who introduced the speakers, occupied seats on the platform. The singing was led by the Pythian quartet.

Rev. W. Allan gave the first address. He dealt with the rise and progress of Laymen's missionary movement. All non-Christian countries at the present time, he said, were in the throes of a new birth and it was the scope of the movement to take advantage of this crisis. In Canada the problem of the church was to keep pace with the increase in population. He urged that no barriers be erected against any nation, but greater effort be made to Christianize them and make them good Canadians.

Rev. W. T. Stackhouse, of Winnipeg, "A sponge will absorb many times its own weight in water." "Then old Colonel Grainger is no sponge."

THEATRE ROYAL UNDER THE BAN

Archbishop Bruchesi Forbids His People Frequenting Montreal Burlesque Theatre

Montreal, May 16.—As a result of the recent police court exposure the Theatre Royal here was today formally placed under the ban by Archbishop Bruchesi in a pronouncement which was read at the city Roman Catholic churches today.

Archbishop Bruchesi states that for a long time past complaints have reached him regarding the performances at this theatre. His grace continues: "Its representations have been a source of temptation to all, but more especially for the crowds of inexperienced young people who attend that theatre. It is not within my authority to close up this theatre, but I have the power to forbid all who are within my spiritual jurisdiction from attending the same and in virtue of my episcopal authority I forbid Catholics of this archdiocese from attending the theatre."

His grace also reminds managers of newspapers that they have no right to give publication to the plays at this theatre, and expresses the hope that they will in future place principles of morality above monetary considerations.

FOREST FIRES UNDER CONTROL

Stretch of Timber Land, Five Miles Long, Destroyed at Annapolis.

Annapolis Royal, N. S., May 16.—(Special)—The forest fires which have been raging fiercely back of Annapolis since Thursday are at last thought to be under control. The fire ran in the heart of the timber district and the efforts of the rangers directed to keeping the fire in the young growth and brushland. At one time some of the most valuable timber lands in western Nova Scotia was threatened but the rangers succeeded in containing the fire. The burned district is between four and five miles in length, according to the best information obtainable, and the width of the fire was from quarter of a mile to over a mile. Some of the finest young timber in Annapolis county was destroyed.

Every available man and boy from the surrounding districts fought the fire. The burned areas are now being re-planted by Messrs. A. D. Mills & Sons and Rufus Jardwick will be among the heaviest losers.

Mother Gave Her Child Away

Had Given up all Hopes of Living. Heart Trouble was Cured by Milburn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Gratton, N. B., writes: "I was sick and did not think I could live any length of time. My trouble was with my heart and lungs. I could scarcely do any work for a week. I consulted the very best doctors but they could do me no good. For seven weeks I could scarcely cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my baby to my sister-in-law. One day a friend came to see me and calling me by name, said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have been so since then. 'I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would not have been alive now.' Price 50 cents per box, 3 boxes for \$1.25, as all dealers or mail order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MISSIONARY WORK TOLD OF YESTERDAY

City Pulpits Occupied By Speakers in Laymen's Missionary Movement

R. W. Allan, Anglican secretary of the Laymen's Missionary Movement, delivered an address in the interest of the movement in St. John's church, Carleton, on Sunday morning. He gave an interesting account of a trip to the northwest and laid stress on the duty of the congregation to assist in the missionary work among the large number of foreigners now in Canada.

He spoke also of the many advantages of the laymen's movement from an undenominational standpoint and of its value as an inspiration to missionary enterprise. There was a large congregation and Mr. Allan's earnest address was much appreciated.

In Queen square Methodist church last evening there was a good sized congregation at a special missionary service. Interesting addresses of the Laymen's missionary movement were given by Rev. Neil McLaughlin and J. N. Harvey, which made a good impression.

BOYS HAD ENJOYABLE OUTING TO DARK LAKE

The junior section of the Natural History Society held an enjoyable outing on Saturday afternoon, the first of the series which will be held on the Saturday afternoon during the summer except during the holidays. The boys, under the guidance of William McIntosh, went to Dark Lake, where they explored Howe's cave. J. M. Banks had placed his cottage, Pagnose, and his boat at their disposal.

Before leaving the neighborhood, lunch provided by some of the ladies of the society was served Miss M. Banks' cottage. Then, after a tramp through the woods to Killarney, the party returned home, all being of the opinion that their first outing had been a success.

After the foolish origin has figured in an eloquent she usually takes a course of instructions in the art of illumination.

By Our Formula

We produce in Hood's Sarsaparilla a medicine that has an unsurpassed record of cures of skin diseases, eruptions, eczema, rheumatism, anemias, nervousness, that tired feeling, loss of appetite, etc. The combination and proportions of the more than twenty different remedial agents contained in Hood's Sarsaparilla are known only to ourselves, so there can be no substitute. This medicine makes healthy and strong the "Ladies Soldiers" in your blood,—those corpuscles that fight the disease germs constantly attacking you.

A POLICEMAN TAKES NAMES OF R.K.Y.C MEN

They Were Painting Their Yachts at Millidgeville on Sunday But Have Not Yet Been Officially Reported

Some fifteen or twenty yachtsmen, members of the R. K. Y. C., who were engaged in painting their yachts at Millidgeville yesterday afternoon, had their names taken by Policeman Silas Perry, who made the journey to the little village on the Kennebec in consequence of complaints that the Lord's day act was being violated.

It is understood that if any reports are entered against the members of the club the cases will be defended on the ground that the occupation they were engaged in does not come within the meaning of the act.

Chief Clark, when asked last evening with regard to the incident, said he had not yet received any report from Policeman Perry, and he was not aware that the names of any of the yachtsmen had been taken. He sent Perry to Millidgeville in consequence of complaints which had been made to him that beer and wine had been sold there, and that the Sunday observance law was being violated. He had merely sent out to see whether there was any violation, and as he would send to any other part of the city from which a complaint was received.

Sergeant Kilpatrick also visited Millidgeville yesterday, but made his inspection trip in the morning. He is said to have noted that some painting had been going on, but everything was quiet when he arrived there, and he returned without taking steps to get the names of any of the yachtsmen.

A member of the legal profession who was at Millidgeville at the time of the occurrence, said that he believed the yachtsmen would have a perfectly good defence. To commit a violation of the act they were not yet painting their yachts, and their vacation on Sunday or would have to be hired to paint the yachts. In his view, there was nothing to be gained by going on, but from painting the outside of his own house on Sunday if he so desired.

FRESHET HIGHEST OF THIS SEASON

Record for 1908 is Also Broken—Wharf at Foot of Indiantown Covered

Yesterday the freshet at Indiantown was the highest it has been the season. At noon the water covered the Hampton's wharf at the foot of Indiantown, to a depth of six or eight inches. So far this season the highest water has been the freshet record of 1887, when the water was more than six feet deep on the same wharf. At present the water is about nine and a half feet above summer level. Whether or not it has risen as far as it will remain a matter of conjecture. Should heavy rains set in a much higher rise would naturally be expected.

HONORS FOR MISS BARLOW

She is First Canadian Woman Life Governor of the British and Foreign Bible Society

The honor of being the first Canadian woman to be made a life governor of the British and Foreign Bible Society has been conferred on Miss Jane Barlow, of this city. A certificate and letter expressing the high appreciation of the executive committee in England for Miss Barlow's efforts in the interests of the society for many years was presented to her by Hon. J. G. Forbes, one of the two Canadian vice-presidents, on Saturday.

For almost thirty years until its amalgamation with the St. John branch of the Bible society in 1904, Miss Barlow was president of the St. John Ladies' Bible Association and was one of its most active members and a large contributor to the funds. Since the amalgamation she has continued her membership and generous gifts.

In a letter to Judge Forbes, requesting him to present the certificate of life membership to Miss Barlow, Rev. John H. Milson, one of the secretaries of the society, adds: "We are delighted to honor such an excellent worker."

Miss Barlow was quite unaware of the honor intended for her and was much surprised and gratified when Judge Forbes, who was accompanied by W. B. Wallace, K. C., called upon her on Saturday and presented the certificate, which is worth that "at a meeting of the committee held on April 19, 1909, William Lamplough, Esq., in the chair, it was unanimously decided that Miss Jane Barlow, of St. John (N. B.), be elected an honorary governor of the society for life." The certificate is signed by the secretaries and is dated from Bible House, Queen Victoria street, London.

Among other ladies who have had the honor conferred upon them are the Countess of Harrowby, the Lady Alicia Blackwood, the Dowager Lady Buxton, the Countess of Portsmouth, and the Hon. Louisa Canning. The only other life governor in Canada are Rev. Dr. Stewart, of Seckville, and George Hay, of Ottawa.

The Drug Store, 100 King Street CHAS. R. WASSON THE RAID OF THE CATTLE KING Sydney Ridman, the "Cattle King" of Australia, has been making a raid upon the London bus-drivers, and has captured twenty-five of them. After a six months' holiday in the old country he has returned to the Commonwealth, where he owns hundreds of thousands of acres and countless flocks and herds. He told the interviewers that he had spent a good deal of his time in London riding about on the roofs of buses. He was very favorably impressed with the drivers, and it occurred to him that their knowledge of horses would be useful on some of the cattle stations. He offered a number of them lengthy engagements. Twenty-five of them had accepted, and he had made all arrangements for their passage and reception on arrival. The man who marries a garrulous woman for her money soon begins to realize the fact that money talks.

Good Clothing for All Ages

Not mere "kiddies" of course—we have never carried boys' clothing. But from young men of the "first long trouser" period to men of years and conservative taste, we sell suits that are suitable.

For instance, in this Spring's line we have smartly styled suits for young men who demand the very extreme of fashion. Prices, \$10 to \$25.

For business men, suits just as correct, but not so "radical," at \$15 to \$25.00.

And other suits, including blacks cut in Prince Albert, evening dress suits; fancy vests—any combination you desire, and PRICED RIGHT.

We call special attention to the line of washable vests, for men of all tastes and "diameters."
Exceptional values at \$1.00 to \$2.75.

A. GILMOUR - 68 King St.
Tailoring and Clothing.

Straw Hats and Linen Hats

BOSTON DENTAL PARLORS, 527 Main Street.

CIRCULATION

The following is the sworn average daily circulation of the Times for the last four months:—

January	6,712
February	6,979
March	7,167
April	7,194

The Times does not get its largest sale through newsgals. It is delivered at the homes. That is the kind of circulation which is of value to the advertisers.

THIS EVENING

Musical farce "The Husker," at the Opera House.

Moving pictures and illustrated songs at the Star, North End.

Young People's Society of Centenary church meets at 7:45 with a five-minute special anniversary service in St. Andrew's church at 7:45, address by Rev. Dr. Johnston.

LATE LOCALS

Battle line steamer Leuctra, Captain Hilton, sailed last Saturday from Hamburg for Norfolk via Tyne.

The liquidation proceedings before Judge McLeod in chambers, were resumed at noon in the case of the H. H. Dryden Co., Ltd., of Sussex.

In Fairville Methodist church on Tuesday evening at 7:30 the entertainment given last week by John Bullock will be repeated. A silver collection will be taken.

Rev. Dr. Archibald, of Acadia University, will address the Young People's Society of the Lealord Street Baptist Church this evening. The lecture will be illustrated with limelight views.

American schooner Ruth Robinson, sailed from St. George, N. B., on the 11th instant for New York, Conn., with 12,240 bundles ground wood pulp shipped by the St. George Pulp & Paper Co.

The Young People's Society of Centenary Church will close the season tonight with a concert in the church. A good programme has been arranged, and an invitation is extended to all.

Steamer Prince Rupert leaves Yarmouth today for Halifax to go into dry dock to have her hull painted. Since lying up at Yarmouth she has undergone a thorough overhauling and repainting. She will be here the last of this week.

An interesting and a very largely attended children's service was held last evening in the Fairville Methodist church. The singing was under the direction of John Bullock and a number of the boys and girls from the Queen Square Junior League sang special solos and duets.

The Fairville choir and Sabbath school assisted and Rev. T. J. Deinstadt delivered an address to the boys.

The anniversary services in St. Andrew's church will be continued this week. Commencing this afternoon at 3:30. Rev. D. Johnston will deliver a series of four addresses on "The Person and Work of the Holy Spirit." The evening services will commence at 7:45 with a fifteen-minute song service, followed by a sermon by Dr. Johnston. The subject tonight will be—"The Permanency of Character."

The shore line steamer Amelia, before reported damaged by being ashore on the Nova Scotia coast, has been placed on the dry dock at Halifax. It was found that the bottom of the vessel is badly damaged for quite a distance and that more than a dozen plates will have to be replaced. The bilge keel and part of the stern will have to be replaced. The steamer will probably lose a few trips.

The following entries have been received for the LaTour road race from Spruce Lake to Parson's corner, West End, tomorrow afternoon. Robt. Pendleton, A. D. Barrett, Harry Smith, E. Belding, Every Day Club; Harry McLeod, Charles Campbell, Roy Armstrong, Maple Leaf A. C.; Charles Cromwell, Y. M. C. A.; William Tutin and Stanley Humphrey, LaTour A. C. The race will start from the lake at 3:45 p.m.

Evidently there is one woman who believes that Detective Killen has a sin on his conscience. She telephoned to police headquarters this morning and communicated to Reserve Officer Gouline, her eagerness that Killen should patrol the Strait Shore road, and trail to earth a band of persons—male or female—who are pursuing a nefarious occupation along the stream. However, as the detective in view of his bulk has retired from the Marathon arena, he does not relish this proposition emanating from an unknown source.

SUNDAY VENDORS OF SOFT DRINKS

Night Detective Lucas Made an Inspection Trip Yesterday—Some Reports May Follow

Night Detective Fred Lucas toured the city proper and the east end last night on a visit of inspection to shops where he believed soft beer was sold on Sundays.

The grocery store of Mrs. James McNeill, at 30 Brussels street, was the first to be entered. The beer shop of William Flynn, at 4 Brussels street, was under surveillance also. The plain clothes man's peremptory entrance into the grocery store of James Fleming, at the corner of Brunswick and Brussels street, has led to a report against Fleming for selling beer on Sunday. It is said that the officer's debut was very opportune for himself, as he observed men drinking from glasses at the counter and the proprietor was emptying the contents of the bottles into glasses. Needless to state the night special was entirely unexpected. Lucas obtained the names of all who were in the store, and the quota will probably be subpoenaed as witnesses for the prosecution in the event of Fleming pleading not guilty.

When the night detective entered the store of Mrs. Eliza McGivern, at 252 Brussels street, the woman was untying the string of a bottle of hop beer, and she averted. Lucas gazed at the bottle on the counter, and as the proprietress poured the buttermilk into a glass he purchased some matches and departed. Visits to other shops in the neighborhood it is believed will lead to additional reports. It is understood that the beer shop of Martha Strong, at 77 Erin street, was also visited.

POLICE COURT

Two More Witnesses Heard in the Case Against Harry Akerley and Daniel Morrison—Other Cases.

The preliminary examination of Harry Akerley, aged 15, and Daniel Morrison, aged 18, accused of burglarizing the store of C. B. Pidgeon, on May 9, and the Star Line warehouse on May 8, at Indiantown, was resumed in the police court this morning.

D. B. Pidgeon was recalled and stated that since the opening of the hearing he had missed a coat of a two-piece boys' suit, identical with the coat exhibited in court by the police. He also missed a vest from another suit, and the trousers in the possession of the police resembled those in his stock. The trousers were of men's length, but had been abbreviated two inches. A box of ties had also vanished. He presumed that the thieves departed from the building through the cellar window, which would necessitate a foot climb.

Kendall Hall, the second witness, stated that he was in his store on King street at 1 o'clock on the morning of May 10, when Harry Akerley entered with a parcel under his arm. He asked and received permission to leave a bundle in the shop. He did not return for the parcel, and he turned it over to Detective Killen. As the magistrate is preparing judgment in the much mooted beer question the adding of the testimony of Detective Killen and Deputy Chief Jenkins was postponed until Thursday, when the accused youths will probably be committed for trial. They have in contemplation an election to be tried under the Speedy Trials Act.

Before the magistrate this morning, James McDonald, a Nova Scotian, claimed to have never purchased a "spoonful" of liquor in St. John in his life. He stated that he descended upon St. John on Saturday afternoon or evening. He was unable to determine which—from Chipman and in the depot he encountered the inevitable friend with a bottle of spirits. The consular brand permitted him to sample his firewater, after which, in seeking a spot whereon to rest his weary head, he fell, and in consequence he came in contact with the floor, adding a rainbow tint to his optic. However, he succeeded in locating a seat, but after scotching himself there, he was awakened by Patrolman Crawford, shortly prior to midnight, and removed to the police station. He had been 88 or thirty days the morning, but as he was in possession of only the required sum, the fine was remitted to \$4, providing the sum to be returned to the treasury. The necessity of refraining from casting refuse on the streets was again alluded to from the judicial chair.

Ernest Williams, who was reported by Sergeant Baxter for scattering portions of paper on Water street on Friday, claims that the scraps of paper were blown from his hands. He was fined \$2 or four days in the workhouse, the sum to be returned to the treasury. The necessity of refraining from casting refuse on the streets was again alluded to from the judicial chair.

MR. BURROWS WILL LOCATE IN HAVANA

Norman B. Burrows Takes Another Step Forward in the Service of the Royal Bank

N. R. Burrows, formerly manager of the Union Bank of Halifax here, but for the past two years assistant manager of the Royal Bank of Canada branch at Montreal, has been appointed manager of the Havana, Cuba, branch and will leave New York for his new post in about two or three days.

Mr. Burrows is well known here and the news of his promotion will be good news to his host of friends. He has been here when the Union Bank of Halifax opened their branch. Attracted by his ability the Royal Bank did not slow to take service for that big institution and he was offered and accepted the position of assistant manager at Montreal. We had but two years in the Royal bank's service he has so rapidly forged to the front that his is now placed in charge of one of the most important branches of the bank. Few of the younger banking men in Canada today have had a record of such brilliancy, and Mr. Burrows has a bright future before him.

"PEEPING TOM" ESCAPED

Negro Who Frightened Union Street Family Got Away Before Police Came.

With his face pressed against a window in the rear of the flat at 187 Union street a negro alarmed an elderly woman and her grand-daughter at a late hour on Saturday night. Early in the night the old lady and the little girl were left alone in the apartments by others of the family who were being entertained by friends on Prince William street. At eleven o'clock both were conversing when a sound from the rear window of the kitchen attracted the attention of the old lady. With his ugly features in contact with the glass was a negro and when he perceived that he was noticed he rattled at the sash in a futile attempt to open the window on which the spring was fastened. The girl was despatched through the street entrance to obtain the services of a policeman and Patrolman Ross and Linton followed her to the house. The gate on the alley adjoining the house was secured, but when they reached the rear their quarry had vanished. It is probable that he fled toward Union Alley and he had abundant time to evade capture.

FLOWERS FOR THE PLAYGROUND CHILDREN

Editor Times:
Sir—The playground committee wishes to suggest to those who are fortunate in having plots of ground about their homes in New Brunswick, to set aside some portions of their gardens for the growing of flowers for the playground children of St. John. All flowers will be gratefully received during the summer vacation by the flower committee.

MABEL PETERS,
Convener of Playground Committee.

MONTREAL STOCKS

W. F. HATHEWAY CO., LIMITED, ST. JOHN, N. B.

Glenwood E Will Do The Work

This cut of our Glenwood E. Range will give you an idea of the range we are selling mostly for family use. We have this range in two sizes, 8-18 and 8-20 with tea shelf, mantel shelf or hot c'over.

These Ranges need no introduction, they have been on the market for some time. Every one we sell another. Ask anyone that has one what they think about it, then come and see for yourselves. We have the goods that sell and give the satisfaction.

Made in St. John.
