Lurid Stories About the British  
Army Contracts Told by the  
Associated Press.

LONDON, Feb. 8.—The apparent in-  
competence, and it is claimed, possible  
dishonesty which permeate the pur-  
chasing departments of the British  
army, as revealed this week in parlia-  
ment, have caused a public agitation  
the nature of which has not been  
judging from recent and promised  
disclosures, scarcely any of the sup-  
plies for the army in South Africa were  
secured on business principles. Specu-  
lating contractors are now known to  
have made hundreds of thousands of  
pounds by re-selling contracts.  
The opposition vainly endeavored to  
get details regarding the new contract  
for the supply of meat announced by  
the government in the house of com-  
mons, with the view of ascertaining if  
a saving over the former methods will  
really be effected.

The government successfully avoid-  
ed answers, but the Associated Press  
understands that the contract in ques-  
tion was first re-sold at £10,000 pre-  
mium and then at £40,000, while Cecil  
Rhodes and the DeBeers group hand-  
led over £200,000 and thus finally se-  
cured the privilege of supplying the  
troops in South Africa with fresh meat.  
These figures are likely to be shortly  
published here, and when known will  
doubtless add fuel to the fire of public  
indignation, which threatens to centre  
around the secretary for war, Mr.  
Brodrick, as viciously as it did around  
Lord Lansdowne when the latter was  
sponsor for the early blunders of the  
war.

LONDON, Feb. 8.—A dozen or more  
committees of investigation are now  
sitting or are in process of formation.  
But, as the Saturday Review says,  
"These are only too often synonyms of  
oblivion."

"The facts remain," adds the Satur-  
day Review, "that we have been swin-  
dled on a very large scale."  
While these stringent criticisms of  
the war office are being publicly aired,  
there is proceeding beneath the sur-  
face a revolt which threatens to be of  
even greater importance. The leading  
authorities of the volunteers, including  
many of the commanders of the best  
known regiments, several of them be-  
ing titled persons and nearly all  
wealthy, are holding frequent meet-  
ings to decide on the best method of  
defeating Mr. Brodrick's new volun-  
teer regulations. The committee which  
Mr. Brodrick appointed to hear the  
objections only referred to Gov-  
ernment.

The commanders of the leading regi-  
ments had previously formed them-  
selves into a deputation to wait on  
Mr. Brodrick, and he temporarily de-  
clined to see them, but the secretary  
for war stole a march on the members  
of the deputation by announcing in  
the house of commons that he had ap-  
pointed a committee of his own, in  
which not one of the deputation was  
included. His action created intense  
feeling among the members of the or-  
iginal deputation, who privately de-  
clare that the new volunteer regula-  
tions and the "Dead Head" committee  
were introduced for the sole purpose  
of making conscription possible.

### INTERNATIONAL SCRAPE.

DENVER, Colo., Feb. 8.—The News  
today says that a demand has been  
made upon Governor Orman, by Sec-  
retary of State Hay, at Washington,  
for an investigation of the destruction  
last summer of the buildings of Wil-  
liam Radcliffe, an Englishman, located  
at Grand Mesalakes, in this state, by  
a mob. Radcliffe appealed to British  
Ambassador Pauncefoot for redress,  
demanding \$55,000 damages of the State  
of Colorado. The trouble grew out of  
a dispute between ranchmen and Rad-  
cliffe over fishing privileges, and cul-  
minated in the killing of a ranchman  
named Womack by one of Radcliffe's  
guards. A few days later the build-  
ings on the lakes were destroyed by  
fire, started, it is claimed by friends  
of Womack, in revenge of his death. The  
matter was originally referred to Gov-  
ernor Orman early in January, and ac-  
cording to the News communication  
from Secretary Hay has just been re-  
ceived asking what had become of it.

### CANADA ATLANTIC EARNINGS.

(Special to Star.)

OTTAWA, Feb. 8.—According to the  
official returns supplied to the de-  
partment of railways and canals the  
total share of capital and subscribed  
bonds issued of Canada Atlantic Rail-  
way Co. is \$1,142,470. In the building  
of the road Mr. Both received domina-  
tion, provincial and municipal subsid-  
ies to the extent of \$2,400,000. The to-  
tal mileage of system is 458. For the  
year ending 30th June, the total re-  
ceipts amounted to \$1,786,338, of which  
the passenger traffic yielded \$283,659  
and the freight \$1,390,197. The operat-  
ing expenses for the year amounted to  
\$1,411,482, leaving the net earnings  
\$374,955. During the year the railway  
carried 679,589 barrels of flour, 19,301-  
281 bushels of grain and 318,690,000 feet  
of lumber. Total weight of freight  
carried was 1,592,957 tons.

### SOUTH AFRICA.

LONDON, Feb. 7.—The answering of  
questions in the house of commons to-  
day by government officials disclosed  
the fact that the government had no  
reason to believe that the note of the  
government of the Netherlands on the  
subject of peace in South Africa was  
formulated in consultation with an-  
other European power.  
The war secretary, Mr. Brodrick,  
said that the number of horses pur-  
chased during the war totalled 446,988,  
of which 77,191 came from the United  
States and 11,364 from Canada. In ad-  
dition about 89,705 horses had been  
captured in South Africa.

### A COLOSSAL COMBINE.

CHICAGO, Feb. 8.—The consolida-  
tion of the principal traction interests  
of Chicago and possibly the elevated  
roads is the object of negotiations now  
in progress here and in New York,  
says the Inter-Ocean.

Furthermore, it is probable, it is  
said, that this is but a preliminary  
step in the merging of the principal  
lines of five or more of the principal  
cities in the country into one great  
combine, probably the corporation  
reported to be in process of formation  
in New York. The local combine and  
the great national concern are being  
planned, says the Inter-Ocean, by the  
Whitney-Elkins-Widner-Ryan syndi-  
cate of New York and Philadelphia  
capitalists, with the aid of J. P. Mor-  
gan, E. H. Gary, who is now in Chi-  
cago, is believed to have charge of the  
local deal. Pres. John M. Roache of  
the Chicago Union Traction Co., Gen-  
eral Counsel W. W. Gurley and James  
H. Eckels, a director, all have been in  
New York recently, it is said, in con-  
sultation with the heads of the Whit-  
ney-Widner-Elkins syndicate regard-  
ing the state of local traction affairs.  
There has been a mutual interchange of  
stock between New York and Chicago  
banking interests, it is said, that  
would be relied on by Mr. Morgan in  
financing the colossal deal.

### EXPENSIVE COLONISTS.

BERLIN, Feb. 7.—Herr Richter, the  
Radical leader in the Reichstag, analyz-  
ing the most recent government report  
concerning the colonies, finds that there  
are only 3,702 Germans in all the col-  
onies, including officials, officers, mis-  
sionaries, women and children. He  
proves from the budget of 1902 that  
every German colonist costs the empire  
6,000 marks a year. While the total  
colonial trade has increased during the  
last five years from 11,000,000 marks to  
25,000,000 marks, the colonial appropria-  
tions during the same length of time  
have increased from slightly more than  
seven millions to nineteen million  
marks. The increase in exports to the  
colonies is chiefly due to government  
goods, military supplies, etc.

The full returns from the census of  
1900 show that 17,845 citizens of the U.  
S. were then residing in Germany, an  
increase in five years of 2,000.

### SUGAR SPECULATIONS.

NEW YORK, Feb. 8.—The board of  
trade returns for January says a Lon-  
don despatch to the Tribune confirm  
recent rumors that large stocks of sug-  
ar have been imported in anticipation  
of the forthcoming budget. Imports  
of sugar for the month amounted to  
5,540,431 hundred-weight, or about dou-  
ble the quantity imported in January,  
1901.

### ALL FOR LOVE.

NEW YORK, Feb. 8.—It is rumored  
that Miss Helena Gorham Wild, an  
American resident in Paris, says a  
Paris correspondent of the Herald, is  
about to marry Prince Eugene of Swe-  
den, if he gains his father's consent and  
arranges to resign his right of success-  
ion to the throne of the Bernadottes, as  
his eldest brother, Oscar, did when he  
made a Morgantian alliance. Prince  
Eugene is a painter and has lived in the  
Latin quarter for many years.

### A COMBINATION PLAY.

OLIVETTE, Minn., Feb. 8.—There is  
a concerted movement on foot among  
Michigan colleges to do away with foot-  
ball. At a meeting of the college  
branch of the State Teachers' Associa-  
tion it was voted to recommend that  
all colleges unite in prohibiting the  
game. The faculties of nearly all col-  
leges in the state are now considering  
the recommendation. Its opponents re-  
gard the game as physically injurious,  
and say that it has not performed the  
offices which its friends claim for it,  
namely, that of increasing the attend-  
ance.

### IN WITH THE FARMERS.

BERLIN, Feb. 7.—At a banquet to-  
night of the German Council of Agri-  
culture, Count Von Buelow, the imper-  
ial chancellor, in a long speech declar-  
ed that he had espoused the cause of  
agriculture, not merely from a feeling  
of duty, but with his whole heart.  
"A chancellor without sympathy for  
agriculture would be a strange fellow,"  
said Count Von Buelow, "and he would  
soon trip up."

### DREYFUS NOT WANTED.

PARIS, Feb. 8.—The Matin says that  
M. Dreyfus recently wanted to rent an  
apartment in a house belonging to Ed-  
mond Rothschild. The agent of the  
house cable to M. Rothschild, who is in  
Australia, on the matter. The latter's  
reply to this message was: "I abso-  
lutely refuse to accept that tenant.  
Break off negotiations at any price."

### GALLOW'S FRUIT.

TOPEKA, Feb. 7.—Because she was  
about to secure a divorce from him  
John Kay, employed in a flour mill,  
beat his wife to death with a flat iron  
and then attempted to hang himself  
from a bridge near his home. He was  
cut down before life was extinct and  
revived.

### IN WESTMINSTER ABBEY.

LONDON, Feb. 8.—A bronze medal-  
ion memorial of the late John Ruskin  
was unveiled today in Westminster  
Abbey in the presence of a distinguis-  
hed gathering. The memorial is in the  
poets' corner, above the Sir Walter  
Scott memorial, and beside the Oliver  
Goldsmith medallion.

### MRS. SOFFEL

Who Aided Murderers to Escape  
Appears to be Recovering.

PITTSBURG, Pa., Feb. 8.—Mrs. Sof-  
fel, who aided in the escape of the  
Biddies and was shot during the bat-  
tle which resulted in their recapture  
and death, shows considerable im-  
provement in her condition today. She  
is suffering more from mental distress  
than from the wound, and it may be  
a week or more before she can be re-  
moved from the Butler hospital to the  
Pittsburg jail. Her husband, ex-War-  
den Soffel, has retained counsel for her  
defense, but says he does not want  
to see her or have any communication  
with her in the future. Mrs. Soffel is  
receiving letters from all over the  
country. Most of them contain tracts  
and advice of a religious nature. When  
she opens a letter and discovers that  
it is one of this character, she turns it  
over to some of the nurses without  
reading. Many letters are also from  
the attorneys, proffering their services  
free in her defence.

### CHINESE EXCLUSION BILL.

NEW YORK, Feb. 8.—Former Gov-  
ernor Bird, of California, is in this city,  
after having testified in Washington  
before the committee in charge of the  
Chinese exclusion bill. The failure of  
the Kahn-Mitchell Chinese exclusion  
bill to pass before the end of the ses-  
sion, he says, in an interview, will mean  
the extinction of the present treasury  
regulations for the transit of Chinese  
across this country, and will mean a  
great influx of Chinese before the op-  
portunity to enact restrictive legisla-  
tion occurs again.

"The Kahn-Mitchell bill now before  
both houses is so framed," continued  
Governor Bird, "as to provide for the  
most humane treatment of those Chin-  
ese permitted entry to this country, and  
it excludes perfectly all Chinese coolies  
and laborers of all sorts. It is a bill  
against which nothing can be said, and  
there is no other bill under considera-  
tion which can in any way compare  
with it for effectiveness. If enacted in  
to law it will fulfill the purposes for  
which it was drawn and will prevent  
the entrance into this country of the  
undesirable element among the Chin-  
ese. It makes adequate provision for  
the transit of Chinese across the coun-  
try under treasury regulations now in  
force, and which have been considered  
effective heretofore."

### A SAD CASE.

DECATUR, Ill., Feb. 8.—Because  
he did not know how to deposit money  
in a bank and had committed a for-  
gery, John Kohler, aged 17, son of a  
farmer living near Decatur, killed him-  
self. Kohler had earned \$20 and came  
to the city to deposit it. When he  
stepped up to the teller's window he  
presented a check bearing his father's  
name. It was a forgery and an officer  
was called. He took the boy home for  
an investigation. Arriving there the  
officer stepped in one of the rooms to  
talk with the boy's mother about the  
matter.

Young Kohler, thoroughly frighten-  
ed and evidently believing that he was  
going to be sent to the penitentiary,  
stepped into the next room, picked up  
a shotgun, placed the muzzle against  
his forehead and pulled the trigger.  
The top of his head was blown off.

### BRIEFS BY WIRE.

PORTLAND, Ore., Feb. 8.—The fire  
on the steamship Indavell has been  
practically extinguished, and it is ex-  
pected the hatches could be removed  
today without danger of an outbreak.

NEW YORK, Feb. 8.—A waterspout  
has wrecked a station on the Jeroni-  
mo Mezzuia Central railroad, causing  
many deaths and great damage on  
plantations according to a Herald de-  
spatch from Rio Janeiro, Brazil.

NEW YORK, Feb. 8.—Thomas Man-  
ning, the well known yachtsman and  
yacht broker, is dead in this city from  
heart disease.

### RAISED CHECKS.

NEW YORK, Feb. 8.—Arapad Von  
Kubinyi, formerly a first lieutenant in  
the Austrian army, then a banker, and  
last a journalist, is locked up in the  
tomb, because of the allegations of a  
German hotel keeper of this city,  
who charges him with having raised  
two of his checks from \$50 each to  
\$500. He says his father is president  
of the Bar Association of the northern  
district of Hungary, and that his un-  
cle is an equerry to Emperor Francis  
Joseph.

### TEDDY'S CONDITION UNCHANGED.

GROTON, Mass., Feb. 8.—There was  
no change noted in the condition in  
the son of President Roosevelt during the  
night, and Dr. Warren, the Groton  
school physician, on his visit to the  
patient early this morning found him  
as on last evening, as comfortable as  
could be expected.  
Mrs. Roosevelt, accompanied by her  
maid, reached here just after 10 o'clock  
today.

### RECORD BREAKING WEATHER.

LONDON, Feb. 8.—Snow storms and  
fog envelope practically the entire  
United Kingdom. The weather is the  
most severe known in 30 years. For a  
time this morning London was plunged  
in darkness, traffic was interrupted and  
navigation on the Thames and Mersey  
was very dangerous. The unpre-  
cedented snow fall necessitated the sus-  
pension of out-door work in many dis-  
tricts, and vehicular and train traffic  
was carried on with the greatest diffi-  
culty. In parts of Scotland and Wales  
communications were entirely blocked.

ST. JOHN STAR.

ST. JOHN, N. B., FEBRUARY 8, 1902.

WORKMEN'S COMPENSATION ACT.

In view of the discussion to take place before the Fabian League, and of the effort to secure the passage of a Workman's Compensation Act at the coming session of the legislature, there will be some interest for Star readers in a recent case in the English courts. An employe of a firm of timber merchants in Sunderland had his leg fractured on May 9, 1896. He had been earning £1 4s. 6d. per week, and under the Workmen's Compensation Act was awarded half that amount, or 12s. 3d. per week. Last month the employers applied to a judge to have the award reduced. They said they were willing to give the man such work as he could do, and pay him 18s. per week. This would be 6s. 6d. less than he had been earning before he was hurt. They contended that this loss should be equally divided between them and him, and they asked the judge to rule that the award be reduced to 3s. 3d. per week. The man would thus receive 18s. in wages and 3s. 3d. under the Compensation Act, or within 3s. 3d. per week of his former wages. After arguments by counsel, in which the lawyer for the firm cited cases where county court judges had adopted the principle of awarding half the loss only, his honor reduced the award to 5s. 3d. He said that there was no doubt the act of parliament established a maximum liability on the employer, whatever might be the loss incurred by the employe. In this case the man had earned £1 4s. 6d. per week, and was now able to earn 18s.; he therefore lost 6s. 6d. per week, and he thought it would be fair at any rate to divide the loss between the employer and employe, and in the exercise of what he must call his own discretion he would reduce the award to 3s. 3d. per week.

A USEFUL ORGANIZATION.

There is in the United States what is called the American League for Civic Improvement. Its purpose is to develop a love of the orderly and beautiful in material things in town and country. During the present year a large amount of literature will be distributed, and steps are being taken to have league lecturers appear before women's clubs, farmers' institutes and other similar assemblies. Delegates will go to St. Louis to endeavor to get the officials of the great exposition to make a model city a feature of the fair. A bureau of publicity is to be organized to supply magazines and periodicals with information concerning the work of the league. Model farm as well as model city life comes within the scope of its work, which has chiefly to do with the outdoor surroundings of the people. The home beautiful, the farm beautiful, the city beautiful, lead up naturally to the question: And why not the life beautiful? And that of course is the ideal to which this league seeks to give expression in one direction and in material form.

A western paper says that a quarantine is likely to be established by Chicago against Iowa, Wisconsin and Indiana on account of the smallpox epidemic raging in those states. There are 500 cases in Des Moines, Iowa, and the Chicago health commissioner has been informed that the authorities are exceedingly lax in their work of prevention. In a score of other Iowa towns there is smallpox. Wisconsin and Indiana cities and towns are also hard hit.

At the board of trade dinner in Toronto this week the Hon. Geo. W. Ross intimated that the provincial government is prepared to give \$5,000 a year towards the expense of establishing in London, England, a sort of sample room, to promote the sale of Ontario goods in the old country. The other provinces could profitably join with Ontario in such an enterprise.

An Ottawa despatch to the Montreal Witness says that notice has been or will be given of over one hundred and twenty-five private bills to come before parliament at the coming session.

The Street Railway company appear to be desirous to extend their line along Douglas avenue. If they would also extend it to the park there would be less cause for complaint at their lack of enterprise.

A letter to the Winnipeg Free Press says that a delegate is in Utah looking for immigrants for Alberta, N. W. T., and that over a thousand are expected in the spring.

KINGS CAMPAIGN.

Rousing Meetings Addressed by the Opposition Candidate.

A public meeting in the interests of Fred M. Sproul was held at the Public Hall, Titusville, on Wednesday evening. Notwithstanding bad roads and worse weather, a large number attended. Alex. S. Campbell, who was chosen

chairman, in a few carefully selected words introduced the candidate. Mr. Sproul was received with hearty applause, and for an hour and three-quarters continued to delight his hearers. As point after point was scored against the government and its candidate, the audience showed its hearty approval by most liberal applause.

Many prominent men who have before been sturdy supporters of the local administration, openly expressed their determination to give Mr. Sproul a helping hand in the present contest. This part of the county will give "the people's Fred" a rousing majority. A meeting in the interests of Mr. Sproul was held at Barnesville on Thursday evening. Dr. Allen, who was elected chairman, in a graceful and dignified manner presided over the meeting. The candidate in a lengthy and exhaustive speech, presented his claims upon the people for support. Many warm remarks were made and he scored point after point against his political opponent, whose wobbles were most unmercifully depicted. The financial record of the present government was thoroughly gone into and the recklessness of expanding expenditure. Special reference was made to the expenditure of the \$275,000 received from an unusual source the past year, and the fact of its being swallowed up in the year.

The reception accorded Mr. Sproul was all that his most enthusiastic friends could desire, and at the conclusion of an able address the entire audience rose and gave him three hearty cheers.

LECTURE ON TRINIDAD.

At the regular meeting of the St. Stephen's church auxiliary of the W. P. M. S. last evening an interesting and excellent address on Trinidad was given by Mrs. Sheffield. The speaker described the scenery of the island, told of the natives' customs and industries, illustrating her remarks by photographs and collections of curios. The progress of Christianity on the island was spoken of and an earnest tribute paid to the faithful and fruitful work of the Presbyterian missionaries there. At the close a hearty vote of thanks was tendered her by the president, Mrs. Struan Robertson. A solo by Mrs. Milligan was a delightful addition to the programme.

DRY DOCK DINNER AT UNION CLUB.

A dinner was given at the Union Club last evening by George Robertson, M. P., president of the Imperial Dry Dock Co., to M. Louis Coste and W. E. Simpson, the latter gentleman being a member of the Simpson Dry Dock Co., to whose kindly services the recent civic delegation was indebted for many courtesies during their trip. Geo. Robertson occupied the chair and Thos. McAvity the vice chair. Besides the gentlemen named there were present Lt. Col. Tucker, M. P., Lt. Col. McLean, Lt. Col. Armstrong and Ald. Baxter, Recorder Skinner, City Engineer Peters and Director Cushing. The evening passed very pleasantly.

SLAUGHTER HOUSE COMMISSIONERS.

The regular monthly meeting of the Slaughter House Commission was held yesterday. Those present were: Chairman, H. H. Commissioners, Frank Drake, Shaw, Secretary Shaw and Inspector Simon. The Inspector's report was read and approved. The summary of the month's killing was as follows:

Table with 2 columns: Animal, Quantity. Cattle, Sheep, Calves, Hogs, etc.

The Inspector reported that the condition of the houses during the month has not been satisfactory. During the cold weather the water and blood freezes very fast and it is almost impossible to give the houses any kind of a cleaning, except on a very mild day.

A letter was received from Mr. Kane of Kane & McGrath, complaining that the twelve hour limit for killing was a detriment to their business. The matter was laid over until next meeting, when the whole business will be settled.

OTTAWA NEWS.

OTTAWA, Feb. 7.—Hon. David Mills has attended his last cabinet meeting. He was not present at the gathering of ministers this afternoon, and taking advantage of his absence a minute of council was recorded appointing the minister of justice a member of the supreme court of Canada in the place of the late Mr. Justice Gwynne.

Hon. Mr. Fitzpatrick takes the portfolio of justice. The position of solicitor general goes to Mr. Carroll, M. P. for Kamouraska. The names of Gorman and Cowan, M. P.s, were mentioned, but as Hon. Mr. Sutherland has got the marine portfolio it has been considered advisable to restore the proportion as between Ontario and Quebec.

LANCIEFIELD A DEFAULTER.

HAMILTON, Feb. 7.—R. T. Lancelfield, librarian of the public library and secretary treasurer of the library board, has skipped out for parts unknown. He is known to be a defaulter to a large amount, but the extent of his deficit cannot be named until his books are audited. As treasurer of the library board, Lancelfield received the city's appropriation of \$13,000, besides the government grant, rents, etc. There has been no audit of the books during 1901, and the greater portion of the year's receipts is unaccounted for. Lancelfield was under heavy bonds in a guarantee company, but his defaulters will far exceed the amount of his bond. Lancelfield was genial, clever and very popular, but brought about his ruin by playing races, poolroom and too free indulgence in the wine cup.

FREDERICTON.

FREDERICTON, Feb. 7.—The supreme court delivered the following judgments today: The King v. D. R. Jack—Rule absolute to quash conviction of appellant for refusing to submit to vaccination, Chief Justice and Judge McLeod dissenting. The court held that regulation 2, made by the governor-in-council under the Public Health Act, does not apply to St. John.

In re Colwell Candy Co., James R. Woodburn, petitioned under winding up act, held per Hanington, Landry, Barker and McLeod, Chief Justice and Judge Gregory dissenting, that petitioner has a lien for \$1,150 rent by virtue of a distress made two days before granting of the wind-up order. Question turned on construction of section 17 of wind-up act. Ralph B. White v. Solomon D. Hamm—O. S. Crockett moves for rule absolute for attachment for non-payment of costs.—Rule absolute. R. S. Barker, formerly secretary to Lieut. Governor McClean, has been appointed private secretary to Governor Snowball. The salary attached is about \$500 a year. It is understood that Lieut. Colonel Call of Newcastle and Lieut. Col. McLean, 62nd Regt., St. John, will be appointed aides de camp to his honor, with either Lieut. Col. McDougall or Captain Lister of the Royal Regiment (this city, as the third aide de camp. Governor Snowball this afternoon called upon Senator Wark and Alex. Gibson, both old friends. He expects to leave for his home at Chatham tomorrow afternoon.

**STREET RAILWAY EXTENSION.**  
Out Douglas Avenue Referred to the Board of Safety.

At an adjourned meeting of the common council yesterday a lengthy report from the bills and by-laws committee was considered.

They had considered the advisability of the by-law relating to the granting of business licenses, but did not think it advisable to make any changes at the present time. They recommended that the commission of ten per cent. ordered by the council to be paid to members of the police force for collecting laborers' licenses be extended so as to cover all licenses collected under the business by-law. They recommended that a bill be prepared and submitted to the dominion parliament authorizing the city of St. John to erect a draw bridge across the harbor at Navy Island. They asked for authority to advertise bills. The committee submitted a by-law for the regulation of the public wharves and warehouses in the city and harbor owned or controlled by the city.

The section relating to business licenses was referred back while the remaining sections were adopted.

The communications published yesterday and the dry dock report of Louis Coste were referred to the board. There was considerable discussion over the letter from the St. John Street Railway Co. concerning the proposed extension of the line out Douglas Avenue to the Suspension bridge.

Ald. Hilyard said three boilers weighing over 25,000 pounds each were hauled over the Suspension bridge this week. This showed that the bridge was sufficiently strong to permit of street cars passing over it. The government should put an iron platform under the present bridge and raise it in the centre. The city should join with the street railway people in an effort to get an extension across the bridge to Fairville.

Ald. Baxter thought steps should be taken to regulate the charges of the street railway.

Ald. Armstrong suggested a different style of rail for use by the street railway on Douglas avenue.

Ald. Maxwell wanted a centre rail run out the avenue. This would do away with the poles and the overhead wires. He favored the location of the rails on one side of the road.

This communication was referred to the board of works to report back.

The bills and by-laws committee was instructed to prepare a bill asking the necessary legislation to purchase a site for the Carnegie library, and assess \$5,000 a year for maintenance of the institution.

Ald. Armstrong wanted the bill to do away with the north end library, but Ald. Macrae and Ald. Hilyard objected to this and the latter suggested that when the city was becoming so liberal it should give \$1,000 for a reading room at Carleton.

Ald. Baxter suggested that the new library be provided with a large installation of pro-Boer literature and with Mr. Carnegie's utterances on this question.

Ald. Millidge was willing in addition to the \$5,000 to tax the people \$500 for the north end library. Carleton was entitled to a branch of the library too.

Ald. Macrae concurred in this view as regards Carleton being entitled to a library, but there must be a limit somewhere.

It was decided to ask Hon. A. G. Blair and Col. Tucker to oppose any legislation looking towards giving the telephone people the right to further dig up streets, etc., in Canada. The board of works will do this.

The matter of changes in the harbor line was referred to the bills and by-laws committee.

The council decided to ask the board of portwardens to submit regulations to help in securing the lives of laborers upon which the city could pass a by-law.

The council voted to become a constituent member of the Union of Canadian Municipalities, the fee for which is \$10.

**KING RICHARD'S ROBE.**

Old Document Tells How It Was Made and How Much Fabric It Took.

While men's minds as well as women's, are turned on coronation robes and kindred splendors, it is interesting to compare the old with the new fashions, says the Philadelphia Press.

The description of the costume worn by Richard III. at his crowning and ordered by himself, was, according to a list still extant, composed of "a doublet made of two yards and a quarter and a half of blue cloth of gold, wrought with nets and pine apples, with a stomacher of the same, lined with all of Holland cloth, and on ell of silk, instead of green cloth of gold, and a longe gown for to ryde in, made of eight yards of p'pul velvet forged with tymbres and a half, and thirteen bakkes of ermyns, and 4 tymbres, 17 combes of ermyns powdered with 3, 300 of powderings made of boggy shans, and a payre of short spurs with gilt."

To give the exact meaning of the old wording would make a pretty task for scholars the day before King Edward VII's anointing. But the "longe gown for to ryde in" is an obvious hint for today.

**MR. CARNEGIE'S EPITAPH.**

NEW YORK, Feb. 7.—At his address at the opening of Stevens Institute of Technology in Hoboken, Andrew Carnegie, in accepting a basket containing a piece of the first "T" rail rolled, said: "To think that my name should figure on the same basket with Robert T. Stevens, is an honor beyond all expectation for among men none was more valued than his. In the list of geniuses that you count on the fingers of two hands no list is complete without the name of Stevens.

"I had no inventive mind, simply a mind to use the inventions of others, I think a fit epitaph for me would be 'here lies a man who knew how to get around him men much cleverer than himself.'"

**TORONTO, Feb. 7.—**

The Evening Telegram's London cable says: Lord Strathcona addressed an informal meeting of those interested in raising a corps of the King's Colonials. Recruiting for the regiment is rather slow. All applicants are desirous of being made officers. It has been suggested that the bodyguard of the King on coronation day be composed of colonial troops.

**SAVED FROM SINKING.**

Crew of the Annie Rickerson Rescued By the Ralph Russell.

**GLoucester, Mass., Feb. 7.**—With a crew of the six of the schooner Annie E. Rickerson of New York, which had been rescued from their sinking vessel, the schooner Ralph Russell reached this port from a fishing trip Friday. The Rickerson sprung a leak while on her way from St. John, N. B., to New Haven, Conn., with a cargo of lumber, Wednesday night. The Russell was sighted Thursday morning and the Rickerson attracted her attention by signals of distress. A volunteer crew put off from the Russell in spite of the gale which prevailed and with considerable difficulty took off the Rickerson's men who had found that there was no hope that their vessel would survive. Captain Nelson Atkinson was in command of the Rickerson and before he left the vessel he ordered her set on fire so that she might not become an obstruction to navigation.

The Annie E. Rickerson sailed from St. John, N. B., last Wednesday and made good progress until she reached a point about five miles off Matinicus when she was found to be leaking. When it was found that the pumps could not cope with the water, the deck load of lumber was jettisoned and an attempt was made to reach some convenient shore. The vessel settled rapidly and soon was practically unmanageable, so she was permitted to drive for Cape Cod. Still the water gained and early Thursday morning hope of saving the vessel was given up. Signals of distress were set, seeing which the Russell, which was on her way to Gloucester, came to the schooner's assistance.

**WHY BRITAIN IS HATED.**

Interesting Statement From a Former Boer Leader.

**LONDON, Feb. 6.**—The Times prints a letter from Count Adelbert Sternberg, who took part in the Boer campaign, and who declares that the treatment he has received from the British press and official and non-official Englishmen leaves him no cause to be anything but an Anglophile.

Count Sternberg says that, while Great Britain is hated, the hatred is respected and loved. The hatred, which arises from a sense of moral and mental injury, and to this extent the continent has a right to hate Britain, because her policy is at all times directed to promoting continental complications. The continent does not understand the Boer war, and attacks Britain's political principle which Britain represents, the principle which made Britain's greatness—political egotism. The British recognize only two factors in the world, namely, God and Britain.

The economic advantage to be derived from the goldfields, says Count Sternberg, was merely a contributory cause of the South African war. The real cause making action imperative was the British principle, the essence of which is free trade and straightforward competition. On the continent this feeling is not understood, because the continent does not enjoy the blessings of a civilization and a government based on the word 'straight.'

Count Sternberg says he always thought Great Britain was the enemy of the continent until he visited the United States and studied the economic conditions there. He now believes that the continent's hatred of Britain is ungrateful, and that the continent ought to awake and recognize that its true enemy is arising in the west, like a great sun of gold whose first rays have already been projected across the Atlantic. America's only principle, he says, is the worship of mammon. Germany and all Europe should join with Great Britain.

HE GOES TO MONTREAL.

St. John loses today another of its young newspaper men, who goes to a wider field. John Scott, who for some time past has been a valued member of the Star's reporting staff, and who had previously done excellent work on the Telegraph and Gazette, has accepted a position on the staff of the Montreal Gazette. He goes west this afternoon, with the best wishes of all his fellow-workers in this city and of a wide circle of personal friends. He will be especially missed in sporting circles, having been intimately associated with base ball and generally well informed on matters relating to legitimate sport. He was manager of the Alerts base ball team last year, and for a number of years has done much to stimulate interest in the game. His newspaper work has been characterized by intelligence and industry, and he has the faculty of winning friends. Last evening members of the staff of the Globe, Telegraph, Gazette, Sun and Star called upon Mr. Scott at the Park hotel, and in their behalf and that of two or three close personal friends, A. M. Belding presented Mr. Scott with a dress suit case and a silver mounted ebony toilet set, expressing at the same time the feelings of warm friendship with which they all regarded him, and their confidence that he would do credit to his St. John training in the journalistic field of Montreal. Mr. Scott feelingly thanked his comrades for their gifts and good wishes.

This afternoon Mr. Scott's fellow boarders at the Park Hotel presented him with a beautiful gold mounted fountain pen. The presentation was made by the proprietor, Charles Dantery and Mr. Scott fittingly responded.

THE C. P. R.

E. N. Bender of Montreal has been appointed general purchasing agent of the C. P. R. in place of A. C. Henry, recently deceased. Mr. Bender entered the railway service in the stores department of the M. O. & G. now the Quebec section of the C. P. R., in 1873, and on the transfer of that road to the C. P. R. was appointed chief clerk of the purchasing department, which was then in charge of T. G. Shaughnessey—now the president of the road. He was appointed assistant purchasing agent two years ago, and now on the death of Mr. Henry, succeeds to his position.

This evening the C. P. R. berths at Sand Point will be unable to accommodate all the vessels in port, and one of them will have to be turned away. At the C. P. R. berth the Montenegro is loading hay for Africa, the Manchester Commerce is at No. 1, the Numidian at No. 2, the Lake Ontario at No. 3 and the Alder at No. 4. The Numidian will move out this afternoon and give place to the Ionian. Thus all the berths will be filled and the clearance, due here today with a general cargo from Europe, and which will load hay will be compelled to lie in the stream. A new steam crane for service in the auxiliary train has just arrived at Brownville Junction. The crane will be used for the service on the main line of the C. P. R. The crane which is modern in every respect, weighs 100,000 lbs., and is of sufficient capacity to pick up a large car or locomotive and place them on the track.

Tenders are being received from a number of St. John firms for the construction of twelve engine tenders and three boilers for the C. P. R. The tender tanks will have a capacity of 6,000 gals., which is about the largest size made.

PECULIAR CASE.

Boston Lady's Unsuccessful Search for St. John Property Given to Her.

On Wednesday there arrived in the city from Boston, a fine looking middle aged woman, who registered at one of the King Square hotels as Mrs. Bayliss. Her mission to St. John was to discover a number of valuable properties supposed to be owned by Robert Nixon, formerly a conspicuous figure and well-known sporting man here. Mrs. Bayliss was not very communicative, but it was learned that Nixon had received from her sums of money aggregating to between four and five thousand dollars, the last amount given him being twenty-four hundred dollars. He was supposed to be interested in mining property at Musquash, owned several pieces of land and buildings in St. John, was engaged in shipping mules to South Africa from New Orleans, had built a number of warships for the Mexican government and was an important official in the United States government. On Thursday Mrs. Bayliss received by mail from Boston a telegram, supposed to be sent to her from Washington by Nixon. It was signed, as all his letters have been, Darrell. This telegraphic form was supposed to have been issued from a Boston office—Washington. Yesterday Mrs. Bayliss applied at the recording office for information concerning Nixon's property, but failed to find the title deeds to any of it. She was particularly interested in a plot of land and building on St. Patrick street, which Nixon had presented to her. She also made enquiries in the office at Fredericton, but was equally unsuccessful. Then she applied to the police for assistance, but they were unable to do anything for her. Mrs. Bayliss went to Montreal last night to look for some other property supposed to belong to Nixon.

A WEEK'S DEATHS.

Seven deaths were reported at the board of health this week. The causes were: Old age, 2; Consumption, 1; Typhoid fever, 1; Albuminuria, 1; Bright's disease, 1; Strangulated Hernia, 1.

They are Unsurpassed—A man, no matter how particular he may be, if he wants a colored shirt, can't afford to overlook our stock; they are unsurpassed anywhere. Our shirts are not the ordinary kind—they are the best that's made—the only difference is that they don't cost you as much. Wm. A. Wetmore, 158 Mill street.

THAT VACCINATION CASE. And the Relation Between Health and Legal Opinions.

The decision of the supreme court in the D. R. Jack vaccination case is rather remarkable, not so much with regard to the individual case, but as an example of the uncertainty of legal opinion. When the board of health first considered the necessity of compulsory vaccination they very properly took the machinery of the Public Health Act to the course to be pursued and his report was that the regulations of the local government were not applicable to this health district in that respect. As a matter of such great public importance Mr. Armstrong advised that the attorney general should be consulted, and this was accordingly done. That gentleman, whose legal talent is acknowledged to be of the highest order, at first concurred with the adviser of the board of health, but upon consideration of the matter by the government, the premier expressed a very decided opinion to the contrary, and the attorney general, in concurring with his leader, discovered that his previous opinion had been given while his health was somewhat impaired. Acting on the change of view the board of health proceeded to set in motion the very clause of the Act, which the Public Health Act, Some strongly expressed opinions of legal gentlemen, whose offices are in Ritchie's building, decided the board to commence legal proceedings against Dr. Allen O. Earle and Thos. P. Regan, while Mr. Jack and Mr. Fish were selected as representatives of the city. Mr. Regan graciously yielded to the law and produced a certificate of vaccination and Mr. Fish promised to submit to the operation on the assurance of the police magistrate that it would be better for him to do so. Mr. Jack refused to consent to the case and Dr. Earle awaited the result of the proceedings against that gentleman, giving the benefit of his advice to the defendant. Now that the court has decided it appears that Mr. Armstrong was right in his opinion when he first advised the board of health, and in error when he conducted the prosecution, that the attorney general was correct when he was sick and wrong when he was well, and that Premier Tweedie was wrong all through. From the standpoint of the public welfare it would have seemed that the prudent thing for the local government to have done when the question was first raised, would have been to instantly amend the regulations so that there could be no doubt of their applicability to the City and County of St. John. That no serious consequences have resulted from the error of the government, due, not to any efforts on their part, but to the diligent work of the board of health in stamping out the epidemic of small-pox. The fact remains that they have had no assistance from the government.

MECHANICS WANTED.

Engineers, millwrights, tinmiths, moulders, machinists, brass-finishers and other mechanics are wanted in the mechanical department of the Currie Business University, Berryman's Hall, to take practical instruction under a competent teacher in the technical branches of the different trades. Department is now equipped and ready for business. Office will be open tonight for enrolment of mechanics and others. Six months instruction for \$30, payable in monthly instalments of \$5.00. Instruction will be given at night only. The management offer one week's instruction free of charge.

BARGAINS IN FURNITURE.

Chas. S. Everett, furniture dealer, expects to occupy his new building about April 1st, and rather than remove his large stock is offering goods at genuine Bargain prices. All housekeepers or others intending to furnish a home in the near future should take a look into his warehouses on Charlotte street, as he has started a grand clearance sale in all lines of furniture. Besides the regular cut prices he is making a special sale each week, as you will notice in his ad. on the fourth page of this paper. This week he has sold a large number of lounges and couches, and the leaders for next week are spring beds and mattresses.

BOARD OF TRADE ACTS.

W. M. Jarvis, president of the board of trade, sent a message to Sir Thomas Shaughnessey in support of Mayor Daniel's despatch regarding the new C. P. R. car works. He has received in reply a letter containing practically the same statements as in the message to the mayor. Sir Thomas repeats his statements that for many reasons Montreal is the most suitable place for the car works, but that if satisfactory arrangements cannot be made with the property owners there, St. John will be considered among other places.

YORK THEATRE MONDAY EVENING.

VANCOUVER, Feb. 7.—The provincial liberal convention opened today with a big split. Trouble arose over seating the delegates. There was a warm debate, which was followed by a vote leaving out of the convention the friends of Senator Templeman, provincial chairman, who thereupon left the chair and the meeting, followed by his supporters. This left Joe Martin in command, and he made a speech declaring himself in accord with the Ottawa government. Mr. Maxwell, M. P., was then elected president of the liberal association of the province.

MONTREAL, Feb. 7.—The executive committee of the Strathcona memorial reported today that it had received sufficient funds for its purpose and that the monument would be erected inside of a year.

MONTREAL, Feb. 7.—F. N. Bender was today appointed general purchasing agent of the Canadian Pacific Railway, replacing the late A. C. Henry.
