Someone Told Tales, So Convict Ended 25 Year Sentence With Talk Strike.

Boston, Oct. 27.—Patrick J. (Corky) Hanley ended a twenty-five year sentence in the State Prison today after a talk with the warden.

He took a vow of silence ten years ago after a fellow convict had retold something he said. Although parole was offered him several times if he would voice a request for it, he refused.

Hanley was committed to the prison as an habitual criminal from Lawrence in 1905, after he was found guilty of stealing \$54 worth of shoes.

BRITAIN WILL NOT HOLD ALL GERMAN GOODS

France is Informed She Renounces Right to Confiscate Property in United Kingdom

Paris, Oct. 27.—The French foreign office received official notification today that Great Britain renounces the right of confiscation of German property in the United Kingdom.

French officials emphasize the gravity of this move, as they fear Germany will make a similar request of France, which is declared not to be granted.

Some complaint is made because France is confronted with an accomplished fact, without having been given an opportunity to discuss the matter.

MOORS FOUND IN BOAT IN OCEAN

Twenty-Five Stowaways on Board, One of Whom Tried to Take Own Life.

New York, Oct. 27.—Hardships at sea that made the trip of the "ancient mariner" seem comparatively comfortable were told by the skipper of the Italian steamer President Wilson and his passengers who arrived today from Trieste and Naples.

Shortly after leaving Trieste a wireless warning that a "bad" of floating mines had broken loose caused a wide detour, then fire broke out in a room as Naples was reached. In the harbor the labor agitators harassed the crew to go on a strike, and at sea the next day two dozen stowaways were discovered, so the ship put back to Naples to debark them.

One Tried Suicide. One attempted suicide by pumping overboard and was arrested. Soon after leaving land again the ship came upon seven moors, exhausted in a small open boat. They made a severe storm washed away their sails and cargo of eggs when enroute from Gibraltar to Algiers. A severe storm, amounting almost to a typhoon, which splashed huge waves over the entire boat, leaving salty streaks on the pilot house was encountered off Gibraltar. For six days the vessel against head winds which the log of the trip describes as the most severe the ship has encountered.

AMES HOLDEN TO RE-OPEN SHOPS ON OPEN CONTRACTS

The company also refused to receive a visit from the general officers of the union declaring it would negotiate with the men direct from union headquarters in Montreal. The workers have been promised support in their determination to oppose reduction of wages or increase of hours.

Another shoe manufacturing firm has intimated cut of 15 per cent. in wages and an increase in hours from 50 to 55 per week effective November 1st.

HISTORY OF JUTLAND BATTLE PUBLISHED EARLY NEXT SUMMER

Unofficial German Story Sheds Much Light on Oft Debated Struggle.

London, Oct. 27.—In the House today it was stated that the proposal to publish an official account of the battle of Jutland had been abandoned. Information had been received from unofficial German sources throwing considerable light on the battle from a new angle. Any record based on British evidence, only therefore it was said, be a one-sided version and create a wrong impression of the battle. The whole of the matter as prepared by the Admiralty will be incorporated in Sir Julius Corbett's work under the authority of the committee of imperial defence which is to be published next year.

NEW DEMANDS OF MINERS AT LAST SESSION

Nothing Re New Terms Announced But They Alter Prospect of Settlement.

SPECIAL CABINET MEETING CALLED

Whole Situation in British Strike Takes Change to More Serious State.

London, Oct. 27.—A new difficulty has arisen, delaying the complete settlement of the coal strike, which this afternoon was believed to have been attained on the basis of an agreement in the miners' wages as set forth in the earlier announcement this afternoon. That the difficulty is serious is indicated by the fact that the cabinet has been summoned to meet early tomorrow before the conference of the miners and government officials resumes.

At the last moment the miners presented a new demand which compelled adjournment of the conference with the representatives of the government.

Nothing has as yet transpired as to the nature of the miners' new demand. The policy of secrecy regarding the agreement continued to be maintained, but apparently the objection of the miners was due to the fact that the agreement as drafted might have the effect of making permanent the application of the principle that wages are dependent upon output. It also is held that it might altogether preclude future nationalization.

Former Prisoner Tells Dramatic Story of Slaughter of Montreal Police Officer.

OWN DEATH WAS PLOTTED, HE SAYS

Confesses Sordid Story of Crime and Inigue Because He Would Go Straight.

Montreal, Oct. 27.—A sordid story of interwoven crime and intrigue was unfolded in the enquete court, here today by Francis Bernard Walter Collins, alias John Ainsley, alias Robert Mitchell, the man whose voluntary confession to a Salvation Army officer in Burwash penitentiary, Ontario, in connection with the murder of Constable Chicoine in this city on June 12 last is instrumental in bringing Allan Coleman to the bar here on a charge of murder.

Coleman was brought here from New Westminster, where he was serving a two-year sentence for forgery.

Met in Prison. Collins said he had met Coleman in Burwash penitentiary while both were serving terms of imprisonment, and had made an appointment to meet after release in Toronto. From there they came on to Montreal, where Coleman told Collins that he had committed the Chicoine murder and gave him various details concerning it, all which which the murder was committed.

Collins further claimed that Coleman had nearly succeeded in poisoning him with wine doctored with strychnine, and he had been treated in hospital. Further, he said he overheard a conversation in which Coleman and another member of the gang had plotted to get rid of him in Detroit.

Collins said he was confessing now because he was tired of being a crook and wanted to get back to honest citizenship. He had been convicted three times, the first at the age of sixteen.

Judge Cusson, of the enquete court, stated he was of opinion that the evidence was weak, but adjourned the case until next Tuesday.

MRS. MACSWINEY CHIEF WITNESS AT THE INQUEST

Describes Husband as An Officer in the Republican Army of Ireland.

LORD MAYOR WAS WARNED BY BRITAIN

Told Five Days Before His Death There Was No Hope of His Release.

London, Oct. 27.—A jury of ten men after twelve minutes deliberation this morning returned an open verdict at the inquest over the body of Lord Mayor MacSwiney of Cork, who died in Brixton prison early Monday from the results of his 73 day hunger strike. The verdict was that the deceased had died from heart failure, due to a dilated heart, and acute delirium, following scurvy, which was due to exhaustion from prolonged refusal to take food.

The widowed Lady Mayress, dressed in black and heavily veiled, was the only witness on behalf of the MacSwiney family, and was the dominant figure of the proceedings. Her composure was indicated by her quick and repeated replies.

Resists the Coroner.

Mrs. MacSwiney successfully resisted the continued attempts of the coroner to have her characterize her late husband's occupation otherwise than as a "volunteer officer of the Irish republican army."

The inquest, which was held in the office of the prison governor, was attended by 35 persons besides the coroner and jury. These included Mrs. MacSwiney, the dead lord mayor's brother Sean (John), his sisters Annie and Mary, his private chaplain, Father Dominic, the lord mayor's secretary, the town clerk and six members of Cork, representatives of Irish civic and political organizations and home office and other British government officials.

The inquest was held in the governor's room of the prison.

Coroner G. P. Wyatt suggested that the brother of the late lord mayor might desire to testify for the family. Solicitor MacDonald, representing the family, interposed, with reminder that the lady mayress had been summoned for that purpose.

The coroner asked Mrs. MacSwiney if she wished to testify.

The Widow's Evidence.

She replied: "Yes," laid her veil back over her hat, stepped to the table, and took the oath.

The lady mayress said her husband was 40 years of age.

"What was he asked the coroner. "An Irish volunteer," was the answer.

"Did he make a living by that?" "No," answered Mrs. MacSwiney. "Did he have any other occupation?" "He was a school teacher for a number of years," replied the lady mayress.

The coroner pressed the point, and Mrs. MacSwiney replied: "My husband did nothing for years, but work for his country."

Coroner Wyatt objected to the witness describing her husband as an Irish volunteer, to which she rejoined: "I don't see why Ireland has an army of its own; don't you call that an occupation in your army?"

"Yes," said the coroner, "but that is a different thing entirely."

"Quite," was the monosyllabic reply of the witness.

The Charge.

Solicitor MacDonald sought to question the lady mayress about the charges upon which her husband was arrested.

The coroner objected to this, saying he did not desire the inquiry to go beyond the cause of death.

Mr. MacDonald said the family regarded the death as the result of the lord mayor's arrest and court martial. "He went on a hunger strike the day he was arrested, as they had no right to arrest him, it was an offense against the laws of the Irish republic," replied Mrs. MacSwiney spitefully to another of Solicitor MacDonald's questions.

It was stated that there are at present time 100,000 troops in Mesopotamia.

RECOUNT BEGINS IN RESTIGOUCHE

Defeated Government Candidates Appeal for Scrutiny of Ballots.

Dalhousie, Oct. 26.—On the application of S. S. Harrison, defeated Government candidate, a recount of the ballots cast in this county on October 9th began here this morning in a court presided over by Judge McLatchey.

Peter Hughes, Fredericton, appears for Messrs. Harrison and LeBlanc, defeated Government candidates; Hughes Carr for D. A. Stewart (O.), and J. Allen LeBlanc for Henry Dotto (O.).

Judge McLatchey decided to count ballots marked with an X. D. A. Stewart (O.) has a commanding majority of 462 over Harrison (G.), so is beyond reach. Mr. Diotte is leading Harrison, by the face of returns, by 112. Two polls were counted today.

There is every reason to believe the recount will not change the situation any.

Sporting persons who are thinking of going out after deer should remember that killing of game is restricted to numbers. This is not Ireland, where there is no closed season for policemen.

merely replied he had been told that previously.

After the jury retired, Solicitor MacDonald suggested that a fourth verdict might be offered, namely, "as due to his protest against his arrest."

The jury returned in 12 minutes and a juror read the verdict: "Death was due to heart failure consequent on refusal of food."

The coroner suggested that the finding be amplified by the inclusion of Dr. Griffiths' testimony, to which the jurors assented.

The coroner then read the verdict, in which Mayor MacSwiney was mentioned as a "volunteer officer," not mentioning the Irish republican army.

The home office granted the burial permit without delay and the body of Lord Mayor MacSwiney was turned over to his relatives in time to permit the original plans to be carried out.

DUFF CALLING FOR A GENERAL ELECTION NOW

Mackenzie King Campaigner Assails Tour of the Premier to the West.

RESENT CHARGE LIBERALS FLED

Claims Hon. Mr. Meighen is Not Really Representing the People of Canada.

CLAIMS HON. MR. MEIGHEN IS NOT REALLY REPRESENTING THE PEOPLE OF CANADA.

Saskatoon, Sask., Oct. 27.—Speaking here tonight, William Duff, the member for Lunenburg, N. S., attacked what he called the government's desire to hold on to office, although from all parts of the country, he said, came a demand for an election. The Union Government had ceased to function, said Mr. Duff, and the people should be given a chance at the polls to express their desires.

"A few days ago," he continued, "in reply to a question as to why the Government did not dissolve parliament and appeal to the electors, Hon. Mr. Calder is reported to have said that the people were not in a fit frame of mind to make a proper decision; that they had not recovered from the nervous strain due to the war."

Mr. Duff's answer was that the people were safe and sane, but that the members of the government were suffering from political hysteria, due to the fact that they had been weighed in the balance and found wanting.

"Mr. Calder," also said in several places," said Mr. Duff, "that the Liberals do not want an election, and that several times last session when an important matter came up and it was thought that the votes might be close, they came to him and other Government members and arranged that rather than see the Government run any danger of being defeated, or have a close call, they would absent themselves from the chamber when the vote was taken."

"I have no hesitation in giving this statement of Mr. Calder the most unqualified denial," continued the speaker.

Mr. Duff denounced the present tour of the premier and Mr. Calder through the west.

"The business of the country demands," said the speaker, "that the premier should remain at his desk at Ottawa, if he knows his business, instead of gallivanting the country, like a distracted hen which has lost its chickens."

Half Way From The Equator To The Pole

Wrighton minutes' auto ride from Eastport, Me., erected on the side of the country road at North Perry, is this unique granite marker indicating the exact distance between Equator and North Pole, having been erected 22 years ago by a Government official who enjoyed summer vacations in this frontier section close to the banks of border river St. Croix and within a mile of the Dominion shores.

The wording, "This Stone Marks Latitude 45 North, Half Way From the Equator to the Pole, 1898," is carved across the front, but the stone would not be observed by many unless the spot was known.

In Position for Playing BRUNSWICK RECORDS

and now the FINAL ACHIEVEMENT

Here, at last, the "all-in-one" Phonograph that is absolute. The new BRUNSWICK method of Reproducing is the Final and Supreme Sensation.

This "ULTONA" reproducer revolutionizes ancient standards—it frees the phonograph and old style talking machine from all their admitted handicaps.

The ULTONA is an amazingly simple contrivance—and the wonder of it is that some manufacturer has not developed it before this.

But here it is for you to see—and hear—only on the BRUNSWICK, which has already met with such phenomenal success that the old style "standard" type talking machine people have their backs to the wall.

Always Ready—Nothing to Adjust

The ULTONA is a distinctly new creation. At the turn of the hand you adapt it to play any record. It is not an attachment—nothing to take off or put on. The real diamond for the Edison, the real aspirin for Brunswick or Pathé, the steel or silver needle for other records always there.

There is nothing like it in the Phonograph world today. We want owners of other phonographs to come in and hear the Brunswick play the records they use and are familiar with.

Remember, we claim that the BRUNSWICK plays all records better. All that you can have in any phonograph, all that you can possibly imagine that you want, is to be found in the pre-eminent Musical Instrument.

Acoustics of Every Style Record Solved

The ULTONA, coupled with the BRUNSWICK all-wood throat and sound chamber, solves the gravest problems of acoustics—All tone values are now given a naturalness hitherto unattained.

And it plays all and every record according to its exact requirements. The proper Diagram is presented, the exact needle, exact weight.

Find Out for Yourself—Investigate

Just what is it that makes everyone who hears the BRUNSWICK want one? Why have hundreds of owners of the old-style talking machines traded their instruments in for a BRUNSWICK? Is it the tone? Is it the appearance? Is it the price? Or is it "all-in-one"?

BULGARIA IS RULED TODAY BY FARMERS

Have Large Majority in Bulgarian House of Assembly.
NO CHANCE FOR BOLSHEVISM THERE.
 Are Giving the Country Same and Progressive Gov't — Labor Army Big Success.

Sofia, Bulgaria, Oct. 27.—Probably no other European country offers a more striking example of the rule of the peasants or farmers than Bulgaria. Politically and industrially they are today the most powerful factors in the life of the nation. They enjoy a majority representation in the government, and the whole future of the country may be said to rest in their hands. Of the present cabinet of seven members, six are peasants, including M. Stamboliski, the Prime Minister.

In the Bulgarian parliament there are 110 deputies who are "men of the soil." They call themselves the Agrarian Party. The next strongest political group comprises less than 40 members. Not only do the peasants control the government, but the whole economic structure of the country has its basis in their toil. For Bulgaria is an agricultural country. There is little manufacturing, mining or shipping. While the peasants are in power there is little danger of the ascendancy of bolshevism, for each inhabitant owns his own land and is content with what he has.

Professional Politician Gone.
 As the peasants have come into control, the professional politicians have passed out. The so-called intellectual classes had had their way, and the population is content to give the peasants a chance. They are doing well. They have taken hold of the country at the most critical economic and financial period in its history and are making wonderful strides toward bringing the kingdom back to normal. Old-time politicians and statesmen are viewing the scene with amazement if not with admiration.

Led by their powerful leader, M. Stamboliski, who is a man of great wisdom and practical common sense, the peasants are introducing many reforms and numerous innovations in the government. Perhaps the most novel scheme they have is the so-called Labor Army, whose ranks include every able-bodied inhabitant of the country. The underlying principle of it is that every man above 20 and every woman above 18 shall contribute his or her proportionate share of labor to the reconstruction, development and improvement of the country. One group of workers, for example, give a certain part of their time to the building of railways, bridges and roads, another to the drainage of lowlands or the development of irrigation, a third to improvement of the soil, a fourth to the study of governmental and administrative problems, and so on.

Another idea introduced by the peasants is the purchase and sale by the government, at minimum prices, of all things needed for the life of the people. This is intended as an emergency measure to relieve the present high prices and improve the rate of exchange. The purchasing is done largely in foreign markets and in such quantities as to insure the lowest prices. Distributing these goods direct to the consumer, the government eliminates the middle man, and the people get the goods at the lowest prices.

HOUSING PROBLEM IN ROME SERIOUS AT PRESENT TIME

Prospective Tenants Must Pay Big Premium to Get Flat—No Building Going on.

Rome, Oct. 26.—However bad housing conditions may be in New York or London, they cannot be worse than they are in Rome. During the war Rome has increased her population by over 50 per cent. Many wealthy people from all parts of the South have settled in Rome, and this has brought to Rome thousands of Italian and foreign officers, secretaries, etc., who find life so pleasant that they will not leave the Eternal City. Provincial officials transferred to Rome, simply re-

frain to come, being unwilling to share the lot of the homeless. For recent homes and flats a premium is demanded, papers report of a case where 100,000 lire (about \$20,000) were paid. Such premiums are called "bona uctia" (a "good move.") Building activity is almost stagnant, and at the present rate it will take decades to erect sufficient houses.

The inhabitants of a large tenement house in the Via Alcanti, following the example of the metal workers, have adopted a drastic plan of self-help. The house having just been sold, the new owner sold the flats on the "Premium System." The present tenants, however, did not fall in with this scheme; they refused to leave, established a kind of guard house in the porter's lodge, and whenever a "suspicious" person demands admission the well-organized inmates are "ready for battle." A big red flag has been hoisted. The authorities have not interfered and this kind of occupation may soon become the rule.

BRIDES NEED NO LONGER PROMISE TO "OBEY" HUSBANDS

London, Oct. 27.—Congregationalist brides here no longer need promise in the marriage service to obey their husbands.

A committee of the Congregational Union of England and Wales appointed to draw up a new form of service, has decided that modern ideas favor the omission of the word "obey" and this, notwithstanding the fact that no woman sat on the committee; neither were any requests received from women to omit the faithful word. "All the churches are becoming less strict in their insistence of the wording of the marriage service," said the secretary of the Women's Freedom League. "Even in Anglican churches the word 'obey' is sometimes omitted at the bride's desire, and a great number of leading non-conformist ministers have lately made a practice of cutting out the vow to obey."

New York, Oct. 27.—The fight between Jack Dempsey and Georges Carpentier for the heavyweight championship of the world will be in Havana, Cuba, it was announced tonight.

Manager Kearns Talks

Jack Kearns, manager of Dempsey, said today he would sign any agreement for Dempsey's fight with Carpentier, unless it was absolutely stipulated that the stakeholder be appointed the forfeits and the money to be the fighter's share. "I want to protect our man," said Kearns. "Some reputable bookies may be interested with the 40 forfeits of the promoters and a pretty half of which we will and the other half deposited in camps and Carpentier. Then I list on the promoters' planing amount of the money promised two contestants in the hands stakeholder twenty-four hours the deal are to meet in the ring. "I wanted to take forty per cent for Dempsey's end," said Kearns "but the promoters not agree to this. They made the offer of \$200,000 which I refused. I understand Carpentier is to receive \$40,000 sterling which in the neighborhood of \$160,000 according to the rate of exchange. "Of course, the question of having a referee will have to come out. It will greatly depend on reality in which the best will place, but I don't anticipate a scintilla to arise over the choice of third man in the ring."

The selection of Havana scene of the contest was made Richard, Charles B. Cochran and A. Brady, who stated they received an offer of such proportions as a graduate of Cuban capital it was finally decided the championship battle would be staged in Havana.

Gloucester Racer Reaches Halifax

Eperanto, Queen of American Fishing Fleet, Welcomed Yesterday

Halifax, N. S., Oct. 27.—The Eperanto, queen of the Gloucester fishing fleet, with the Union Jack flying at her fore peak and the Stars and Stripes at her main and with Captain Marty Welsh at her helm, pulled her nose through the base of Chedoke Head shortly before five o'clock this afternoon and headed up the harbor on the last leg of her three hundred and fifty mile run for the honor of carrying the colors of the United States in the great international fishermen's cup series which will be sailed off this port, commencing Saturday against the Canadian schooner Delawana, Captain Tom Himmelman, of Lunenburg.

Eperanto Docked

An hour later, when Captain Welsh was on the point of ordering his hook dropped for the night, she was picked up by a tug, sent out by R. A. Corbett, of the committee in charge of the race and brought into G. S. Campbell and Company's wharf, where she will berth. Mayor John S. Parker and members of the Halifax committee boarded the Eperanto before the lines had been made fast and proceeded to do everything in their power to make Captain Welsh and his company feel at home.

The American captain, a Nova Scotian himself by birth, is delighted with the behaviour of the Eperanto and the courtesy of the Gloucester, although he admits that some changes will have to be made in the sails and a certain amount of ballast shifted before the opening races. In spite of the fact that she proved herself a trifle down by the head and the added fact that her foremast did not altogether work to perfection, Captain Welsh said that she legged alive and a half knots yesterday, by the wind, in a comparatively light breeze.

Many Sight Seers

Halifax has already fallen in love with the Eperanto. Tonight the wharf at which she is lying was jammed with sightseers, and on all sides were heard expressions of delight at the beauty of her lines and general yachts-like appearance. Only the presence of a patrol of police stalwarts prevented the crowd from surging ashore and taking her to themselves. And whether she was or loses in the approaching series of races, her future activities will be followed with interest by the hundreds who lost their hearts to her as she grained at her lines like a thoroughbred tonight.

Tells of His Trip

"Oh, we had moderate weather coming down," said Captain Welsh to the Canadian Press this evening. "After we pulled out of Gloucester we had a fair wind that took us along all right. I laid my course direct for Cape Sable, with a following south-west wind. We ran 175 miles on this course until noon on Tuesday, when the wind hauled and headed us from the easterly. This made it a beat to Cape Sable, 45 miles away. At eight o'clock Tuesday night we sighted the cape. This morning at two o'clock the wind changed again to the southward, this time, and we had it to our quarter to Port aux Basques, which we carried all our sail all the way up."

Captain Welsh never sailed on the Eperanto before, but he has been on the Gloucester schooner Lascaris, and considers that thereby he has some idea of her sailing qualities. He said that he was quite satisfied with the Eperanto's showing on the trip to Halifax and he opines that his chances of defeating the Delawana in the international series, commencing Saturday are "good."

Of Digby Stock

Of Digby stock, Captain Welsh is a typical Nova Scotia fisherman of the old style "sail-driver" type, and left Digby when ten years of age. He has been a skipper for twenty-seven years. "I am satisfied with my boat," he said, "but I intend to take a spin on Friday and possibly will go over the course of the races."

Those on Board

On board the schooner, in addition to the crew of thirty, were several yachtsmen and a party of Boston newspapermen. The yachtsmen are: Lawrence F. Percival, commodore of the Corinthian Yacht Club; Ernest R. Hendry, owner of a "P" class boat at Marblehead, and Benjamin H. Colby, ex-commodore of the Gloucester Yacht Club, who is a sail-making specialist and will supervise any repairs that may be necessary to Eperanto's canvas.

Review of Season's Horse Racing

Frank J. Power Gives Interesting Article on Maritime and Maine Meetings

Frank J. Power, the veteran starter, writing for the Halifax Herald, gives an interesting review of the past season as follows: The harness racing season just closed has in addition to being without a doubt the most successful of seasons, offered some of the most sensational and spectacular features, accompanied by the most genuine sportsmanship.

Many Meetings

Besides the regular circuit racing, many meetings were held at different places in the provinces. Truro had a succession of weekly meetings, the Sydneys and Glace Bay tracks also held a number of meetings. Kentville, Middleton and Aylesford were in the line, besides which new tracks were opened at River Hoosier and Great Village.

At all of the tracks during the past season, the attendance has been larger and the racing of a higher order than ever before.

Records Lowered

The season's racing resulted in the lowering of all previous records. The Express, b.s., by The Exponent, owned by H. C. Jewett, Frederick, placing the trotting record at 2:48 1/2. Both records were made over the Chatham track.

The sensational performer of the season was the champion trotting stallion, Bill Sharon, by Captain Abrahamson of Peter the Great, who went thru the season without losing a race.

After filling his engagements on the Free-for-All at the Woodstock meeting, October 8, and proved his superiority by winning the Grand heats, over the "B" of fast pacers, which included Zom Q, 2:09 1/2; Fern Hal, 2:04 1/4; Ben Jay, 2:03 1/4; and Lady Gratian, 2:09 1/2.

Bill Sharon retired to winter quarters with a win record of 2:11 1/4. He is owned by Archie Alcorn, of Blackville, N. B. He is also the owner of the fast pacer mare Lady Gratian, 2:09 1/2, having purchased her during the past season from Arthur Faulkner, of Blackville.

Nova Scotia has closed and preparations are being already made for next season, horsemen everywhere are asking the question: "Is the Halifax track going to be in operation in 1921?"

It is understood that some of our leading business men are getting ready to make a move in that direction, and as soon as the excitement of the great schooner race is over, a meeting of business men and horsemen will be called to consider ways and means of placing Halifax again on the racing map.

Boxing Commission Suspend Licenses

State Officials Taking Vigorous Steps to Ensure Clean Sport in Massachusetts

Boston, Oct. 27.—The State Boxing Commission which recently took over control of all public boxing bouts in Massachusetts is taking vigorous steps to ensure clean sport. As a result of its investigation of recent bouts, the commission today suspended the licenses of one club and six boxers.

The commission announced that the license of the Bristol Athletic Club, Taunton, had been suspended because it had not paid a boxer who appeared at one of its recent bouts, and that it would not be restored until the club had made good its debt to the boxer. The boxer suspended for periods ranging from one to three months are Matty Herbert, of New York; Jack Curley, Nick McDonough and Joe O'Connell, all of Boston; John George, of Brockton, and Walter Butler, of Beverly. The reasons assigned varied from failing to fulfill his obligations to the scheduled bouts or to put forth proper efforts to win.

Recount Case Argued Before Justice Barry

Hon. J. B. M. Baxter Gives Legal Views Why Recount Should Not be Ordered

Hon. Justice Barry heard arguments presented for and against a recount of the St. John county ballots cast in the election of October 9th. Dr. J. B. M. Baxter argued the case in his own behalf, showing cause why, in his opinion, there should be no recount. W. P. Jones argued in the interests of A. F. Healey.

Outlines Case

Dr. Baxter outlined the three points on which he based his objection before Judge Armstrong. He said in election matters, as in any other matter, a man is entitled to stand on his rights, but before the result of an election can be attacked it must be shown that the people concerned have an interest in the matter. He said that the ground

Wilbert Robinson Signs Contract

Will Manage Brooklyn National League Club for Next Three Years

New York, Oct. 27.—That Wilbert Robinson has signed a contract to manage the Brooklyn National League baseball club for the next three years, on practically his own terms, was officially announced today by President Ebbets.

In addition, it was stated that Robinson received a handsome bonus for winning the league championship of 1920.

The Brooklyn club has been awarded by the waiver route, the services of Pitcher Sam Post, who was purchased by Pittsburgh last August from the Portsmouth, Va., club.

on which the county court judge decided that nobody but an elector or candidate can contest, although the statute is silent on the subject. If Mr. McKinnon was really the applicant, it would have been an easy matter for him to have shown what position he occupied in the matter. He stated he is the agent of one of the candidates; but that is not sufficient; he did not in point of fact establish that he was an elector.

Dr. Baxter referred to Judge Carleton's decision not to order a recount until he had a formal application as well as an affidavit. He questioned whether Mr. McKinnon was the real applicant, although he admitted that in his affidavit he said that he was desirous of having a recount and he was that paragraph can be construed as the application, Dr. Baxter argued that Mr. McKinnon was not the applicant.

"I don't think that candidates in elections should shelter themselves behind someone else," Mr. Baxter retorted. "Mr. Blair is shown as applicant and in every other county the applicant is definitely shown. 'Should I be successful in this recount, I cannot see that I could ask Mr. McKinnon to pay all the expenses in excess of \$100.'"

Dr. Baxter supposed the case of a man coming from Calais, Maine, to St. Stephen and asking for a recount in the Charlotte county election, and argued that he would not be legally entitled to do so. The judge said an alien had the same privilege of enforcing his rights before Canadian courts as had a native. He added: "The act seems to me to be very carelessly drawn. All that the legislature required in this case was an affidavit of a credible witness and a deposit of \$100."

Dr. Baxter referred to another point in which he said the affidavit was not according to act. The act stated that it must be established that there were irregularities in ballot papers, while in Mr. McKinnon's affidavit irregularity in only one ballot paper was claimed. Dr. Baxter submitted that Mr. McKinnon's affidavit was not an application. He also referred to the question of a man's rights to oppose the application brought before the county court judge. Asked by the judge if any one had questioned his right in this matter, Dr. Baxter replied, "Nobody but the St. John Globe."

ST. JOHN, N. B., THURS. DAY, OCTOBER 28, 1920.

THE ST. JOHN COUNTY RECOUNT.

For the benefit of The Globe, The Telegraph and The Times we repeat that the recount in the county is a "put-up job," the whole intent and object of it being to try to irritate and annoy Mr. Baxter. It has no shred of either excuse or justification.

Commenting on the Charlotte recount, The Globe says that it "righted an election day count mistake and gave a candidate who won a majority of the votes the seat to which he was entitled. The St. John county recount is asked to right just such another mistake."

The open suggestion by Right Hon. Winston Churchill that open civil war in Ireland would encourage British and Scotch support of Ulster, and United States Sinn Fein support of Nationalist Ireland, needs to be carefully considered. It is a powerful argument.

When "President" de Valera went to the United States, he gathered a great fund of many millions for the Irish Republic, and the financial support thus given is prolonging the campaign waged by Sinn Feiners in Ireland.

The only reason why the Sinn Feiners continue, so persistently, to carry on their scheme is the belief that ultimately sympathizers in the United States will force some settlement in their favor. No doubt, the Ulster Irish in the United States would be heard from, if the Ulstermen at home were in need of special protection.

But they are not, because they are going along quietly and contentedly, believing that British authority will see them through against the assaults of the disruptionists. A civil war in Ireland would not be confined to the Emerald Isle. It would excite conflicts in the Dominions, in the United States, and every place where Irishmen of the two groups gather.

The British Government must have by now fairly well convinced the world that it wants to deal fairly with the Irish, in the matter of self-government, and disinterested people are rapidly being rickened by the whole campaign of the Sinn Feiners.

Mr. Mackenzie King has, says the Quebec Chronicle, shown himself to be a pure opportunist, a reckless office-seeker, ready to promise anything or profess any principles likely to appeal to local prejudice or local interests.

Without the courage to come out openly as a free trader, he has suggested as strongly as he dared to free traders audiences that he stood for something "just as good"; nor is there reason to doubt that, if he was not aware that what he was saying in Calgary would be read within a few hours in Toronto and Montreal, he would have unblushingly gone "the whole hog."

In Prince Rupert, as elsewhere, he singled out local issues, in regard to which he has professed the most lively concern, and made the most lavish promises.

The Chatham Commercial is entirely in error in stating that the movement to increase the seasonal indemnity of members of the Legislature was engineered by the Opposition. The movement first took shape among supporters of the Government, but Premier Foster told his followers that he would not entertain any such proposal unless it was supported by both sides of the House.

We do not imagine that it required any very great amount of persuasion on the part of Government supporters to bring the members of the Opposition into line, but the fact remains that both parties were equally partisans in the matter.

Patience rewarded. After waiting between three and four years for the job Mr. C. M. Lyster, ex-M. P. P., of Memramcook, has now been appointed to the post of Registrar of Deeds for Westmorland. The fact that this office has been without a head for that length of time mastered nothing to the Foster Government, to which political expediency was the only question of any account.

The Massachusetts Women's Christian Temperance Union has accepted a crusade against the use of tobacco as strenuous as that waged against liquor. These meddlesome women will find they are up against a much stiffer proposition when they begin to handle the tobacco question than they had with the liquor.

Sir Hamar Greenwood says that the Sinn Fein army has been organized as part of a conspiracy to disrupt the British Empire. And that boy has only been Irish Secretary for a few months, too!

Gustavo Vandemedebrucche was run over and killed yesterday in Montreal. How could a man carrying such a load as that be expected to dodge a motor car?

Mrs. Aquila says that women are not growing more beautiful. Well, this is true of some of them, at least.

"FIVE YEARS' HELL IN A COUNTRY PARISH"

According to the expert testimony of the Rev. Canon Fitzgerald Synnott, M. A., the little parish of Ruspur, Sussex, is extremely hard-boiled. His experiences there he has recently set forth in his entitled "Five Years' Hell in a Country Parish." He has been at war with his parishioners for that length of time, and emerges victorious from the struggle, although it has practically bogged him. He had \$30,000 when he began his ministrations, his salary is \$900 a year and now he says he is worth sixpence. Nevertheless, he does not regret his bitter experiences, he says, for they may help the cause of England in the future.

The rector entered his charge with high hopes of usefulness, and with his mind filled with visions of rural peace and love, and assisted in farm work besides his duties. The squabbly treated him like a somewhat deficient butler and their ladies threatened to write to the bishop. He was accused of the following acts:

Let the children fall when he happened there. Pushed them to make them cry. Put the wedding ring on a lady's thumb. Married the wrong people. Left bread on the holy table and thus sinned. Drank the communion wine.

He was also suspected of pinching some of the church collections. The fact that he did not show any particular meekness under these charges. Not only did he officially deny all the charges, he preached right back at the people from the pulpit, and told them what he thought of them. Curiously urged them to go to the church, though they might have had their revenge by staying away. He also thrashed two of the horse coopers who had swindled him. He accused the ladies of the parish of being cats in the hat, and intimated that they were deficient not only in kindness of spirit, but in personal piety.

He declared that one stormy day he went to church in heavy boots and that this was described by them in their complaint to the bishop as preaching in "sporting dress." The men, he said, were worse than the women.

One of his parishioners told him that the previous incumbents were all fools, but that they had money, and on this account were tolerated. While the war was on the rector tried to do his bit like the rest, and the poultry; he worked besides his duties, and actually milked the cows before going to communion. The war finally concluded by the parishioners making grave charges against him before the consistory court. The trial resulted in his favor, the judge remarking that Ruspur was a hotbed of scandal.

He said that the frivolous charges against the rector had been withdrawn, and that he had every reason to believe that the campaign of calumny was at an end. The vindicated clergyman is now willing that byones should be bygones, and that he and his congregation should enter upon new paths to the glory of God.

"Five Years' Heaven in a Country Parish."

The Ruspur parishioners did not admire the rector for this. They accused him of being "on the make" in competing with laborers. They complained to the bishop because he wore farm clothes on the farm, and actually milked the cows before going to communion. Benny's Note Book

I started to go in yesterday to see if supper was anywiser near roddy, and some man was leaning up against the wall with his eyes closed and his hat on the back of his head, he thinking, 'Goah, he's sick against our house.' With jest then he opened his eyes and looked at me looking at him, saying, 'It's a cool world, and if I was your age, young fello, I wouldn't take the trouble to grow up.' Do you feel very sick? I sed, and he sed, 'Sick? If I felt any sicker I'd have 3 feet in the grave. With jest then I chawed of the bottle of wiskey in the medicine chest saying on it, 'For Medicinal Purposes Only, and I sed, 'Would wiskey do you any good, mister?'

Would it? Its the only thing that has the slightest chance of saving my life, sed the man, and I sed, 'I'll hurry up and run in and get it. With I did, and the man was still leaning against the house looking jest as sick, me saying, 'G, I ha'f to go back agen, I forgot a glass. Stay were you are, wats a glass between trends? I dispize glasses, the early Indians never used glasses and who am I to set myself above the early Indians? sed the man. And I handed him the bottle without any glass, and he sed, 'Young fello, you have saved my life, if I ever make a will I'll remember you in it and if I dont I'll remember I would of remembered you in it if I had.'

With jest as he was going to take another drink somebody grabbed the bottle out of his hand, being pop coming home, saying, 'Wats the meaning of this? How dare you interrupt a life saver in the performance of his duty? sed the man. Benny, go in the house, sed pop. With I did, pop coming in after me with the bottle, me saying, 'Well gosh, G, pop aint he sick? and pop saying, 'No but a we'll be. Yee gods, my last and only bottle. And he put it away agen but not in the medicine chest.

Distance May Lend Enchantment. Satisfaction with which some Toronto folk regard "wet" victory in B. C. is qualified by the sad realization that week-end joints to the coast can never be.

No Respite. The oil fields in the West will supply autos for the next five hundred years, says an expert. Pedestrians who have been hoping for a respite owing to shortage of gas, may sadly prepare for a prolonged period of dodging.

The vindicated clergyman is now willing that byones should be bygones, and that he and his congregation should enter upon new paths to the glory of God.

"Five Years' Heaven in a Country Parish."

The Ruspur parishioners did not admire the rector for this. They accused him of being "on the make" in competing with laborers. They complained to the bishop because he wore farm clothes on the farm, and actually milked the cows before going to communion.

The trial resulted in his favor, the judge remarking that Ruspur was a hotbed of scandal. He said that the frivolous charges against the rector had been withdrawn, and that he had every reason to believe that the campaign of calumny was at an end.

**Ontario Woman Says Since
Taking Tanlac She Has
Biggest Appetite She Ever
Had in Life.**

"Never before in all my life have I had such a good appetite or gotten so much pleasure out of eating as I do since I took Tanlac," declared Mrs. W. Milne, 305 Grey St., London, Ont., a few days ago. Mrs. Milne has lived in London for several years, and is highly esteemed by all who know her. "I had practically no appetite and for two years before I got Tanlac I just had to force myself to eat. I got in such a weak and run-down condition that I could scarcely take any interest in anything, and my housework was a burden.

"My nerves got in such a bad condition that I could hardly sleep at all, and every morning I seemed to feel worse than I did the day before. "But it didn't take Tanlac long to bring about a great change. I was astonished right after I started taking it to find that my appetite had improved so much, and my family were surprised to see me sit down and eat such hearty meals. Why, I can hardly eat enough now, and what I eat makes me feel wonderfully strong, and I have gained several pounds in weight. I sleep like a child every night, and when morning comes I get up feeling fine. Life is a pleasure now, and I certainly like to recommend Tanlac, for I believe it will help anybody who takes it."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv't.

"Goddess" corsets with their scientific cut and special French boning give absolute comfort. They yield to any change of position and gently hold the figure, assuring its greatest beauty, yet causing neither fatigue nor pain.

Many of the best dressed women in Canada are wearing "Goddess" laced in front corsets and share Anita Stewart's opinion: "Without undue compression they add to the grace of the figure."

IN THE EDITOR'S MAIL

The Editor of The Standard: In yesterday's issue of The Standard Commissioner Bullock is reported as commenting at a meeting of the common council on the "increasing expenditures for school purposes, and the desirability of letting the people know how much the public schools are costing. The commissioner was for many years a member of the school board and the chairman of its finance committee, so he should know whereof he speaks. But is he stating facts or "hearing himself talk?" From my tax bills I have not been able to discover that school expenditures are increasing more rapidly than those controlled by the commissioner and his colleagues in the council. On the contrary I find that from 1911 to 1915, when Commissioner Bullock was a member of the school board, the percentage of the city assessment devoted to schools was 28; while for the next five years from 1915 to 1920 when he was not a member, the percentage was 27 1-3. Again the expenditure for 1920, of which he particularly complained, was less proportionately than of 1914.

I append the following for examination:

Year	Tax rate	Schools for school	Percentage
1911	1.94	528	27.51
1912	1.96	547	27.94
1913	1.91	537	28.11
1914	1.92	574	29.89
1915	1.94	527	27.19
1916	1.95	546	28.00
1917	2.18	524	24.49
1918	2.27	638	28.10

LITTLE SELLING AND LOWER PRICES ON MONTREAL MARKET

Nearly Every Listed Stock Dropped in Day's Trading—Wayagmack Makes Gain.

Montreal, Oct. 27.—Increased selling of Brosspoo, Laurantie, Spanish River, and to a lesser degree the other issues of paper stocks, accounted for the increased dealings on the local stock exchange today as compared with other days this week. The whole list with a few exceptions showed signs of liquidation, with poor buying support.

The largest loss outside the paper group was in B. C. Fishing, inactive for about a month, which sold down 6 1/2 points to 42 1/2 on sales of only 55 shares.

The weakest issue in the papers was Roridon, which declined a further five points today after losing nine points yesterday. Final sales at 200. Spanish River common sold below par for the first time since June, registering a net loss of three points at 99 1/2. The preferred lost 3 1/2 points at 130 1/2. Laurantie opened firm, then sagged 2 1/2 points to 101 1/2. Abitibi declined 1 1/2 points to 69 1/2.

Wayagmack furnished the only net gain in the group, the stock finishing up a large fraction at 143.

Stronger exceptions to the general trend were Dominion, which moved up two points to 101 with 101 1/2 bid at the close and no stock offered under 115. Dominion Textile gained a point at 112. Brazilian gained a fraction at 25 1/4. Smelters a fraction at 23. Windsor Hotel two points at 72 and Bank of Commerce three points at 177.

Weaker issues included A-besos common, down two points at 92; Sagard, down two points at 37. Societship, down a point to 59, and Dominion Steel, down 1 3/4 to 50.

Total sales: listed, 11,349; bonds, \$14,710.

BEAR ATTACK ON MANY SECURITIES SMASHES PRICES

Lead Came from United States Steel Failure to Increase Common Dividend.

New York, Oct. 27.—The stock market was under constant pressure today, the extent of the impairment while comparatively moderate in seasoned shares, assuming wide dimensions among the more speculative issues.

From the very outset selling converged around the Steels, that group evidently being regarded as especially vulnerable because of the failure of the United States Steel directors to increase the common dividend at yesterday's quarterly meeting.

In all likelihood, however, heaviness of steels and affiliated stocks was directly due to advices from leading centres of the industry which further price unsettlement and reduced output seemed to be in progress.

Losses Are General. Equipments, motors and their subsidiaries, oils, tobaccos, sugars, chemicals and numerous unclassified specialties were swept into the reactionary movement at extreme losses of one to five points. Rails of the better type made only moderate concessions, but junior issues were sharply on small offerings. Total sales amounted to 475,000 shares.

Strength of exchange on London, foreshadowed early adjustment of difficulties between the British miners and the government. This was borne out by cables received by private banking interests, but the effect on the stock market was negligible. Call money pursued its recent course, opening at 9 per cent and advancing to ten per cent before the close, the bulk of the offerings coming from interior banks. Bonds were irregular on a relatively small turnover, popular issues, including Libertes, showing nominal gains and recessions. Total sales, par value, aggregated \$11,250,000.

Old United States bonds were unchanged on call.

SHARP SETBACK IN CHICAGO WHEAT

Chicago, Oct. 27.—Although new upturns in the price of wheat took place today, the market afterward underwent a sharp setback. Attention given to farm strike reports was the chief bullish influence. On the other hand export buying appeared to have come almost to a halt. The market closed weak 3/4 to 3/8 cents net lower. Corn lost 1/4 to 3/8 cents and oats 1/2 to 3/8. In provisions the outcome was unchanged to 40 cents lower.

Winnipeg, Man., Oct. 27.—The importance of scientific research with regard to the future development of Canada was emphasized by Dr. F. A. Fahernwald, of Cleveland, Ohio, at this morning's session of the Canadian Institute of Mining and Metallurgy convention in session here.

The day for the old-time type of pioneer—has passed for Canada and new pioneers are now required—men equipped with modern scientific tools and training, declared Dr. Fahernwald. The speaker spoke on industrial and scientific research and its relation to future development.

BUY BONDS

BABSON SAYS: "We believe the Bond Market affords the real investment or a remarkable opportunity for the next sixty days or so to fill his list with a choice of seasoned, long-term issues at a comparatively small reduction from the yield he could obtain at the turn of the market last summer. We advise steady purchases of good Bonds throughout this period."

INTEREST: The point has now been reached where it is evident one Bond cycle has been completed, and we have entered on a new cycle of advancing prices and lowering interest rates.

MONEY: The demand for new money is abating; the next development will be accumulation of money and a demand on part of money for employment in safe, well-secured investments. This coming demand will force the prices of Bonds upward.

OUR POSITION: Anticipating this, we have bought heavily good, well-seasoned, well-secured investments, so that we might have a carefully selected list to offer our customers. Don't let this opportunity pass, even if it entails some sacrifices on your part; put your money into good investments; commodities are coming down; a purchase of them can wait; Good Investments are going up; a deferred purchase will cost you more.

A word with reference to Orders:—You can rely on us by mail, wire or telephone, just as well and more easily than by personal interview. Why not do so? Our efficiency and dispatch is increased and our service to you strengthened by this method. We are at your service, and we want your business.

GERMAN MINERS TO GET RAISE IN THEIR P

Disastrous Coal Strike Averted by Arbitration.

DIGGERS WILL GET TEN PER CENT. RAISE Ruhr District Produces Bulk of Fuel Needed for Export Supplies.

By S. B. CONGER. (Copyright, 1920, by Public Ledger, Inc.) Berlin, Oct. 27.—A coal strike in the Ruhr district, which would have been as disastrous as the strike in the United States, has been averted by the arbitration commission which has handed down its recommendation of a substantial increase of approximately 10 per cent. in the price of coal, the present increase being a previous advance which had been made by the mine owners and the government and which did not affect the price of coal, the present increase being reflected correspondingly in the price to the consumers and in the cost of the coal.

The settlement of the Ruhr difficulties without a strike is almost important to Germany, the outside world, since this produces the great bulk of the fuel for the reparations supplies of a great part of the world. Through the efforts of the government and the mine owners, the price of coal had passed the low point and was on the mend. About 9000 more

A Woman Is As Old As She Looks
No woman wants to look old. Many in their effort to look youthful resort to the "Beauty Doctor." Their mistake is that they visit the wrong department in the drug store.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Dr. Pierce's Favorite Prescription.

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look younger but feel younger. It overcomes the weakness and builds you up.

Your druggist can supply you with liquid or tablets; or send ten one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a trial pkg. of the tablets will be mailed to you.

BOHUS, ALEX.—I am glad to be able to recommend Dr. Pierce's Favorite Prescription as I certainly think it is a splendid medicine. I have been run down and sickly for nearly two years. I have lately taken two bottles of "Prescription" and found it a wonderful help.
