General Intelligence A REMARKABLE CASE.

THE STRANGE POSITION IN WHICH A
BRANTFORD MAN FOUND HIMSELF.

From the Brantford Expositor.

Some months ago the Expositor gave the particulars of the remarkable cure wrought upon Mrs. Avery, who lives at Pleasant Ridge, a few miles out of the city, and the case created much interest among the people of the city and vicinity. We are now in a position to give the particulars of another wonderful cure that has occurred in the city since the first of January. The theu unfortunate but now happy and healthy man, is William G. Woodcock, who resides at 189 Murray street. He is an Englishman and has been out from Kent, England, about eleven years. A baker by trade, he accepted a position with Mr. Donaldson, and came to this city about two years ago and interviewed him with reference to the cure which has been spoken of, and the following story was told by him:

'I came to the city two years ago and worked at health with the state of the advision.

The bill for the admission of Utah has passed the United States Senate without a division.

The Maine State commissioners who investigated the cause of the late terrible accident on the C P. R., are of the opinion that the train was deliberately wirestled by sleepers at the western end trestle, throwing the engine from the trestle, throwing the engine from the trestle. The railway company has offered a reward of \$4000 for information that will lead to the arrest and conviction of the perpetrators. It is thought that the State authorities of Maine will also offer a reward.

'I came to the city two years ago and worked at Donaldson's bakery. For nearly a year previous to the first of January I had been troubled with some Jinuary I had been troubled with some disease or sickness, but was able to continue my work, but about the month of Siptember last I was completely used up and had to quit work. The trouble seemed to be an excessive weakness; at first from my knees to my feet, but afterwards from my hips to my feet. I obtained advice and treatment from several medical men, some of whom said the trouble was caused by a bodily strain, others that I was run down so that I was Newcastle, July 24, 1894. others that I was run down so that I was Newcastle, July 24, 1894.

others that I was run down so that I was very weak and open to take almost any disease. Although they did not agree as to the cause, all advised me to tightly bandage my limbs from the knees down. I did so, but this was of no avail, and I became so weak that I was not able to move even around the house. The pains I suffered were terrible, and the only way I could relieve myself at all was to lift one foot off the floor and extend it straight out from me. In November I was in the hospital fourteen days, and was breated for typhoid fever, and although I cannot say for certain, yet I do not think that I say for certain, yet I do not think that I had the fever at all. When I was taken Pills. I sent to Mr. Bactelor's drug store on New Year's Day and bought six boxes of pills. At this time I could not stand at all, but in about a week I threw away the bandages which I had been wearing on my limbs, and in two weeks I could walk first rate. By the time the six boxes were finished I was fit for work and in the best of health. I did the hardest day's work on Saturday last that I had ever done in this country and

thar I had ever done in this country and I lt none the worse for it. When I was weighed a week ago I tipped the scales at 163 pounds and when I came out of the hospital in November I did not weigh over 100 pounds, so you can easily see what Pink Pills have done for me in that way. Every statement of Mr. Woodcock's was corroborated by his wife who was present at the interview, and if appearances are correct Mr. Woodcock is enjoying the best of health and can do many hard days' work yet. He is also very positive that Dr. Williams' Pink Pills and nothing but them relieved him of his terrible disease and probable saved his life.
