MISCELLANEOUS

EXPERIENCE vs. EXPERIMENT

Learning office work is like learning any other
kind of work or trade or profession.
Machinists are trained by practical machinists,
doctors by doctors, dentists by dentists.
The secret of success of the Graduates of Willis
College is that they are the only ones trained by
expert, experienced office workers for expert
work.

For Stenographer, Secretary or Accountant, we
have the best courses available anywhere.
Last year our increase was 45%. This year, year
to date is even better. Still Employers Demand
Exceed the Number of Willis Graduates.

N. I. HARRISON, Principal

WILLIS COLLEGE

139 1/2 Sparks Street, Ottawa, entrance
between Ketchum's & Sims.

"A Position for Every Willis Graduate."

A BIG DRIVE

for stenographers. For the past year the
Civil Service Commission has been scouring
the Country for competent stenographers.
On Feb. 16 every Branch of the Service was
placed under the Commission which means
that the demands are now doubled.

COWLING BUSINESS COLLEGE

OTTAWA

makes a specialty of preparing candidates for
these examinations. Start NOW and be
ready for the Fall Round Up. Our School
is open all summer.

W. E. GOWLING, H. G. W. BRAITHWAITE,
President. Principal.

LELAND HOTEL

THE Leading Farmer's Hotel. Cheap rates.
Meals 50 cents.

Traveller's Rate, \$2.00 per day.

Sheds Free. FRED HUGHES, Manager.

Everything in Harness.

We carry in stock at all times

Light and Heavy Harness and all

kinds of Horse Clothing and re-
quisites.

In Trunks and Valises, Hand

Bags and Travelling perquisites we

have a very complete line.

Leather goods our specialty.

Ferguson & Smythe

Taylor's Block.

The township of Beckwith is adver-
tising for a tax collector.

Miss Ruby Hamilton left last week
for British Columbia, on an extended
holiday trip.

Mrs. H. Ruhl, of Albany N.Y., is
visiting here at present with her parents,
Mr. and Mrs. Wm. McDiarmid.

The Town Council will meet to-night,
being postponed from last night on
account of the meeting at Ottawa.

The officers of Stella lodge, I.O.O.F.,
will be installed to-morrow (Wednesday)
evening, at an adjourned meeting.

Adj. Gen. C. F. Winter, of the Head-
quarters Staff, Ottawa, visited at the
home of Mr. and Mrs. T. E. Armstrong
last week.

Special services are being held in the
Baptist Church at Tennyson last week
and this. Rev. Mr. Curry, the pastor,
is being assisted by Rev. J. F. Forsyth.

An unusual ceremony was witnessed
on Sunday afternoon on the banks of
the river, when three candidates to the
ranks of the Brethren were immersed.
The ceremony was most impressive.

Carleton Place is to have a high-class
entertainment the coming season, a
Chautauqua Festival having been billed
for this town by Miss M. Ethel Nixon.
The date will be announced in due
course.

On Friday next the annual county
Orange demonstration will take place at
Smiths Falls. Owing to the absence of
so many men and the advanced railway
rates the gathering is not likely to be as
large as in former years.

Pte. William Patterson, who has been
in France for nearly two years, arrived
home a day or two ago, released on
account of rheumatism. "Billy" has
done his bit, and no one could do more.
We welcome him home.

Mr. H. Barnes, an experienced horse
shoer and farrier, has leased the shop
of Messrs. H. Brown and Sons on Beck-
with street, and purposes conducting a
blacksmith business therein. His
announcement appears in another
column.

The Orangemen and associate societies
attended service in the Methodist
church last Sunday evening, when there
was a large turn out, several members
coming from Almonte. Rev. Mr. Law-
son delivered a strong sermon appro-
priate to the occasion.

Dr. J. M. Sinclair had a successful
auction sale on Saturday last, and pur-
poses leaving to-morrow for Toronto,
where his daughter, Mrs. Blanchard,
resides. The Dr. has been prominent
in our citizenship since his residence
here, and we are loath to part with him,
but wish him the best of this world's
good things in his new home.

HOLLINGER'S SHIPPING DAY

Will ship Cattle, Hogs and Calves on
Saturday, July 13th, 1918. Good fat Calves
will be a good price.

Treas., W. H. Allen

J.W., A. McDonald

G. A. W. Horton

I.G., D. G. Thompson

1st W., J. A. McIntosh

2nd W., W. J. Porter

3rd W., W. Morris

4th W., J. W. Brokenshire

1st G.T., Jos. Symington

2nd G. T., W. H. Honeborne.

During the closing hours of the
Athens high school for the long vacation
an interesting event took place in the
assembly room when all the classes met
together to do honor to three of the
teachers who have resigned from the
staff and are leaving Athens. Mr. D.
M. Halpeny was presented with an ad-
dress and safety razor from the cadets
and an address and gold mounted set of
military brushes from the school, Miss
Lillian Allen was the recipient of a
silver flower basket filled with roses and
an address, and Miss Finch was presented
with an address and gold mounted pen.

Master Willie Burnie is spending a
few weeks with friends in North Bay.

The corner-stone of a new Masonic
hall was laid at Richmond a week ago
Saturday with becoming ceremony.

Mrs. Wm. Kirk and daughter Doreen,
of Utica, N.Y., are visiting Mrs. Kirk's
parents, Mr. and Mrs. J. F. Campbell.

Mr. Gordon McCallum, son of Mr.
N. D. McCallum, arrived from the west
a few days ago en route to the seaboard.

Nursing Sister M. Klem, of Kingston,
with her sister, Mrs. N. J. Leamen, and
little son, of North Bay, are visiting
with friends in Saginaw, Mich.

George Reeves, recently of Renfrew,
an experienced newspaper man, has
accepted a responsible position with the
Organization of Resources Committee
at Toronto.

The weather man seems to have
become very eccentric this season and is
mixing the season most awfully. Cold
and dampness do not feel like July and
haying time.

Mr. and Mrs. J. H. Davison and son,
and Mrs. Creighton, of Ottawa, motored
out one day last week, and spent a few
hours with Carleton Place friends.
Harry drives a Maxwell.

The Presbyterian Sunday Schools
picnic on Saturday afternoon proved a
very successful outing. The weather
was fine, the attendance was large, and
all went merry as a marriage bell.

Contagious diseases were much more
frequent in Ontario during June than a
year ago, according to the report of the
Provincial Department of Health, but a
decrease is shown from the preceding
month of this year.

Experiments by a Food Board official
in two Ottawa factories have demon-
strated the satisfactory nature of the bread
made with 20 per cent. of wheat
substitutes and the rest standard wheat
flour.

SHIPPING DAY.

Will ship Cattle, Hogs, Sheep and Veal
Calves from Carleton Place on Saturday,
July 13th, 1918. Stock must be delivered
early in forenoon.

J. M. QUINN,

Phone 199, Carleton Place.

During the storm a week ago Sunday
evening the lightning struck the barn of
Mr. Patrick Ryan, 8th line Huntley.
The two barns, hen house, cow barn and
granary were destroyed, also three calves,
all the fowl, a mow of hay and a
quantity of grain and machinery. The
house was saved.

The lawn social given by the members
of the Carleton Place Women's Institute
last Thursday afternoon on the grounds
opposite the post office drew a large
crowd and the ladies gave

\$300 in money, out of which of course
the expenses must be met, but still there
will be a nice pot out of which comforts
for our soldiers will be provided. The
grounds were attractively decorated and
lighted. Music was supplied by the
Almonte Band.

LOCAL NAMES IN LIST

Of those Lost by the Sinking of the Hospital Ship Llandovery Castle

The loss of life seems to have been
very heavy in the last German achieve-
ment, when the Canadian Hospital
Ship Llandovery Castle was torpedoed,
and Carleton Place and vicinity con-
tributed to the death roll.

Pte. John Rogers, whose father is
given as Peter Rogers, is reported among
the lost.

Nursing Sister Miss A. McDiarmid,
lost, is a daughter of the late John Mc-
Diarmid, Beckwith, and a brother and
two sisters reside near Ashton.

Capt. Rev. D. G. McPhail, Kingston,
is a cousin of Mr. P. N. Frizell, town.
Two Ottawa nurses—Misses Callahan
and Templeman—are also in the list.

Wins Grocer's Prize

Some time ago the Canadian Grocer
offered prizes for the best answer to the
question "What is the Selling Power of
the Clerks." The contest was open to
grocery clerks in all Canada. We are
pleased to learn that the second prize
came to Carleton Place, Mr. Robt. R.
Powell, with Mr. Thos. Stevens, being
the winner. The first prize went to a
clerk at Stellarton, Nova Scotia. We
congratulate Mr. Powell upon his
success.

Good Roads Convention

The Eastern Ontario Good Roads
Association was organized at Ottawa
yesterday, and takes in eleven counties,
all of which were well represented at
the meeting. It is proposed to build a
highway from Ottawa to Petawawa,
from Ottawa to Point Fortune, Que.,
and from Ottawa to Morrisburg. Lanark
County, with its present system, may be
connected with these trunk lines. Carle-
ton Place was well represented at the
meeting.

Pretty Heavy Fines

Fines totalling \$910 and \$22.50 costs
were levied by Magistrate Sparham for
infractions of the Ontario Temperance
Act on Tuesday morning. There were
five charges of drunkenness, for which
the usual fine of \$40 and costs was
levied, all pleading guilty, and one
charge of selling liquor on which the
accused was found guilty on the evidence
of one of the men fined for being
intoxicated, and fined \$500 with the
option of six months in jail. There
were three charges against a Toronto
man, of being drunk in town, of
having liquor in his possession and of
being drunk while on duty. The last
charge was laid by a representative of
the C.P.R., and the magistrate said he
considered it the most serious, but as
the accused had been already fined to
the extent of \$240 and \$5.00 costs, and
apparently had not been seriously
intoxicated, he would be very lenient
and levy a nominal fine of \$10 or one
month in jail.—Smiths Falls News.

A Huntley Boy Honored

At a recent meeting of the Edmonton
Law Students' Association it was
unanimously decided by way of an
indication of esteem, to make a presen-
tation to the president of the organization
for the current year, M. J. O'Brien, who
is at present overseas with the recently
formed university tank battalion. It
was felt that in thus making Mr. O'Brien
the recipient of a gift from the associ-
ation, not only would the feeling
amongst the members be given outward
expression, but appreciation of the
peculiar facts connected with his
incumbency of the office of president
would be signalled in a becoming
manner. It is probable that Mr.
O'Brien's record is unique amongst
Alberta law students. He was born in
1897, at Huntley, Ontario, and received
the major portion of his education at
the High school, Ottawa. On coming
west he became articled as a law student,
and worked in that capacity in the office
of Messrs. Short, Cross & Company, and
later that of Parlee, Freeman, Abbott &
McKay. He had passed all but one of
his examinations when he decided to
obey the call of duty, and on the eve of
departure for overseas service he took
the final test and emerged triumphant,
thereby becoming fully qualified to
practice law at the very early age of
twenty-one years. The gift of the Law
Students' association to their soldier
president was in the form of a very
handsome gold cigarette case, suitably
engraved, which will be sent overseas by
registered mail, and which will
undoubtedly bear with it the good
wishes of all who knew or were in any
way connected with Mr. O'Brien.—
Edmonton Journal.

Viscount Rhondda (David Alfred
Thomas), British food controller, died
Wednesday of pleurisy, aged sixty-three
years.

Some twenty-five or more teaching
Sisters from Roman Catholic convents
in Western Ontario are taking the
special course in agriculture at Guelph,
for the first time.

Toronto celebrated Independence Day
for the first time in its history, and Mr.
James C. O'Brien, an old Toronto boy,
now assistant attorney for Illinois, made
the principal address at the meeting in
front of the City Hall.

Men and Boys Wear.

SUMMER CLOTHING

If you are considering the
purchase of a light-weight
Suit for Summer, let us
show you what we have in
this line.

We can fit you from stock
or take your measure and
have the suit tailored by the
20th Century Company.
This brand of clothing has
been on the market for years
and is too well known to
need any comment. If you
have never worn a 20th
Century Suit, try it for your
next one, and find out what
Clothing satisfaction really
is. These suits are guaran-
teed in every respect.

We have a very nice range
of Samples from which you
may make your selection.

F.C. McDIARMID

HOME CIRCLE COLUMN

Pleasant Evening Reveries dedicated to tired Mothers as they Join the Home Circle at Evening Tide.

SOMETHING TO LIVE FOR.

Channoy M. Depew observed his eighty-fourth birthday anniversary recently. One of our exchanges says that the Montauk club of Brooklyn, as has been its custom for 27 years, tendered Mr. Depew a banquet.

In his address at the banquet Mr. Depew said, among other things: "There is nothing that prolongs life more than having an object to live for. This affects the will, and it is the common experience of doctors that the will is the greatest enemy of death. The mother is pronounced hopeless, but she says, 'I will live until my son returns.' Against the predictions of her medical advisers, that son circles the globe and arrives in time to receive the blessing. The proof that it was the will power that sustained this mother is that she rarely lives an hour after the purpose for which she made this tremendous exertion has been accomplished."

The sentiment of the New York statesman and orator is as true as gospel. The man or woman who has a well-defined object in life passes over little obstacles without even seeing them. The man who keeps his eyes set on one big aim cannot see little bumps and ruts. He who has ambitions that are great, and has them constantly in mind, makes his appetites and pleasures and exercises and eating and drinking subservient to these ambitions—and the busy man with an ambition will outlive by many months or years the lazy being who has no object in life except to exist by following the course of least resistance.

Have an object in life. You will not only enjoy life more as you are living it, but you will have more years added in which to enjoy the good things.

Scolding and nagging never mended anything. They have ruined the peace of unnumbered families.

There are a thousand ways of making other people happy, and you have only to look about to find them.

If a man dares to live within his means, and is resolute in his purpose not to appear more than he really is, let him be applauded. There is something fresh and rare in such an example.

People who make mistakes are those who quarrel with one another before their children; or who allow the latter to grow up in idleness; those who talk about their troubles before strangers; the father who tells his children to go the way he does not go himself, and the young woman who does not make a habit of her mother.

Girls, listen to your mothers; you will never regret it. No matter what

FOOD PRODUCTION IN FRANCE

More than 1,000,000 Frenchmen have been killed in war and 1,500,000 are physically unfitted by their injuries to carry on their farm work. The women are managing the farms and doing most of the farm work. In battle zones, such as the Champagne district, women did not forsake their work in the fields even when German shells were bursting around them. When the cannonading was heavy they lay flat on the ground and as soon as there was a lull they would be up attending to their grape-vines. The wives of French farmers have always helped their husbands in the fields. They now do double duty, rising earlier and working later. Horses were conscripted for the army and French women have taken their place to draw the plows and harrows. Food production in France despite the efforts of women, children, old men and cripples has dropped to one-third.

DISPOSE OF OLD HENS

As soon as the breeding season is over, get rid of all male birds used in the breeding pens. When the egg yield drops in the early summer, or when the egg yield does not pay for the feed, sell off all hens over two years old and even the year-olds cut pretty well. Poultry at this time of the year will bring a better price than later and feed and space will be saved for the best of the year-olds and the growing chicks. Old hens as a rule, especially of the heavier varieties do not pay for their feed in late summer eggs.

Sell the young cockerels whenever they are ready throughout the summer. Don't keep everything till the fall. Whenever the price is good, sell the cockerels as broilers or as small roasters. In an experiment carried on at the Experimental Farm in the spring of 1917 with Leghorn chickens, the sale of the cockerels paid all expenses for incubation, brooding and feed for themselves and pullets up until the first of September. When the pullets went into winter quarters on November 1st, they had cost over and above what had been paid by the sale of the cockerels just 3.9 cents each. This experiment showed not only that it paid to sell the cockerels early, but it also demonstrated that pullets could be raised much cheaper than they could be bought in the fall.

Arthur Leavoy, sixteen years old, of Valleyfield, Que., was drowned off a wharf at Kingston while chasing a rat.

**Children Cry
FOR FLETCHER'S
CASTORIA**

your advantages are above what hers were, you are no better. You can rest assured that it is no book learning or knowledge of fashion that will keep your feet away from the many pitfalls that she can warn you from, in a tender, loving fashion, that you would do well to heed. No matter how mothers may speak, you may rest assured their hearts are in the right place, and that they want their daughters to be innocent and good, rather than fashionable.

Be neighborly, be obliging, be kind and courteous, and then when sorrow and sickness come you will have sympathy and help.

Let a child feel you are displeased not at him, but at the sin he commits. Can an angry parent do this?

If you would gather up all tender memories, all the lights and shades of the heart, all banquetings and reunions, all filial fraternal, paternal and conjugal affections and you had only just four letters with which to spell out that height and depth and length and breadth and magnitude and eternity of meaning, you would, with streaming eyes, and trembling voice, and agitated hand, write it out in those four living capitals, H-O-M-E.

Let us take time to be pleasant. The small courtesies, which we often omit because they are small, will some day look larger to us than the wealth which we covet, or the fame for which we struggled.

Don't forget mother when picnics and good times are in order. Don't let her do all the hard work. And boys treat her to some fresh air every day behind that newly-broken colt.

The best way to keep the boys at home is to make it an object for them not to go out to seek amusements, for these they will have. Every farm house to be made a very heaven on earth to its inmates.

If all the members of a family were as courteous and kind to each other as they are to strangers what a difference it would make in the home atmosphere.

A cheerful countenance is a duty we owe to our neighbors and how much more is it necessary in the home! Our friends can get out of our way if we are not good companions, but our family cannot. They are helpless victims, shut up in the same house with us. For the sake of the children, for the sake of the elders, for the sake of the future, let us cultivate a pleasant smile, a hearty laugh and a habit of cheerfulness.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

He'd Learn Them

Bishop Paul Jones, of Utah, was asked by a committee the other day to support a rather extreme Sunday ordinance. "Gentlemen," said the Bishop, "the wife of one of my ministers saw her little boy last Sunday morning chasing the hens all over the farmyard with a club. 'I'll learn you,' he was shouting, 'I'll learn you to lay eggs on the Sabbath!'"

Inland revenue for June showed an increase of nearly fifty per cent, compared with that in June last year.

C.N.R. Tourist Sleeping Cars mean Comfort to the Traveller

The interior is somewhat more modest in appointment than the standard or first-class sleeping car. Of solid steel underframe, and with highly polished dark green finish, the Canadian Northern's tourist cars present a very pleasing appearance. The interior is finished in mahogany, with aile carpet to match and cork composition flooring to deaden sound and lessen vibration. Commodious smoking room and toilet-kitchenette with appliances for light cooking, running water, etc., are greatly appreciated. Roomy berths, accommodating two persons if desired, are just one-half the first-class rate. Second-class ticket holders may also occupy these cars, and the Dining Car is always available at meal time. Trains leave Toronto Union Station 10 p.m. Mondays, Wednesdays and Fridays for Winnipeg and points west.

For Tickets, Reservations, Literature and Information, apply to F. A. J. Davis, Publisher, Carleton Place, or write R. L. Fairbairn, G.P.A., 68 King Street East, Toronto.

CANADIAN NORTHERN

CLOTHES ECONOMY FASHION PROBLEM

Style Changes Convince American Women Careful Study Is Necessary.

PROVES AN ABSORBING TOPIC

Short Sleeves, Narrow Skirts and Wrapped Fabrics, Are Among the Numerous Interesting Features of Dress.

New York.—Women are of many minds concerning clothes. Some insist that they will have everything made in the house, giving the seamstresses a chance to live; that they will study the best fashions for inspirational work in their own sewing rooms.

Others insist that they will spend this spring altering clothes that are at most as good as new, while others say that it is patriotic to spend.

It is quite well, observes a prominent fashion writer, that there are segments of differing thought. The continent is so full of women that they can group themselves into thousands of units, each with but a single purpose, and everybody will be benefited.

The Trick of Altering Clothes.

Every woman does not see economy in the same way. It would be foolish therefore, to preach the same sermon to the mass. There is no doubt that several thousands of women are debating, with intelligence and with a stimulating effort at sacrifice, this question of spring costumery; but, as far as the prophet can see into the future, business will not suffer by this discussion.

There will be hundreds of gowns remodeled in the sewing rooms of homes; there will be thousands of gowns bought for less than \$50 by women who once paid over \$100 for them; there will be a revival of individual work on clothes, and less will be left to the shops and the dress-makers; but there is enough money in this country and sufficient need and desire for spending to have everyone made easy and comfortable.

As for the business of altering clothes at home, words of wisdom and kindness should be said in favor of it. Much can be done to augment a wardrobe in this manner; but there will always remain the necessity for one new costume, no matter how earnest a worker the sewing woman may be.

It will not be an easy season for her who contemplates transforming her old clothes into new ones. At first

remained much as they were, but as the season advances she will find that the changes have been drastic.

The French have subtly inserted into every garment, and every detail of the garment, sufficient change from what has been to upset the calculations of thousands who wanted to wear the clothes they possessed.

Skirts Very Narrow.

Skirts, for instance: The slightest flare at any seam makes even a conservative woman wearing such a garment wish she had stayed at home or remodeled her gown before she went out. Fortunately, the alteration from a wide to a narrow silhouette is mastered even by those who do not claim to be experts. The seams of a tailored skirt, for instance, are merely

Surplice bodice for evening. It belongs to an oriental gown, which has a tunic caught at one side and embroidered in gold. The satin skirt is edged with monkey-fur fringe. The scarf is of surrunt-colored tulle.

ripped upward from the bottom and taken in as a continuation of the straight line from the hips.

The hem of frocks cannot be handled in so simple a way; but, fortunately for the economical woman, or the one whose patriotism has made her think that she should be economical in this question of apparel, the French have handed us out in a generous manner two of three very clever tricks that will turn the old into the new.

One of them is the holding in of a slightly full skirt by a loose band below the knees, finishing in a bow at the side.

Another trick is the gathering in of the fullness at the side of a skirt to a straight, embroidered band, which is strongly reminiscent of the first hobble skirts.

The women in the sewing room find delight in the fact that fullness is not taboo. She realizes that she can have whatever material she desires in a skirt if it does not flare away from the hips or the knees.

What the French call the "jupe tonneau" has a certain popularity, and the woman who owns a skirt of this kind (with its pannier effect at the

Monastic frock of silk jersey. It is the color of a banana and embroidered in a heavy design of white wool, with a thick cord around the waist. The vest and collar are of white organdie.

sides, achieved through umbrella folds, and its close, narrow hem) may leave it as it is. It satisfies the appetite of fashion today.

Short Sleeves; Low Necks.

The advent of the short sleeve in frocks, blouses, jackets and even top coats is startling to the American mind. We invented the elbow sleeve and forced it upon Paris. The word "invent" is, of course, a bad one to use in fashions, because everything has been, and therefore, everything is merely "revived."

When the elbow sleeve was considered by Paris as an American fashion projected through the demand for convenience, it was looked upon by the ultra-smart French designer as part and parcel of that work-a-day costumery which the Americans demanded and with which the European elegant would have nothing to do. We were called a working people.

After a while Europe as well as America adopted the short sleeve, and those in this country who were fastidious began to side with the French in their belief that the fashion was in elegant. For three years we witnessed streets filled with girls who wore elbow sleeves, in separate white blouses, with Dutch necks, no collars, no gloves, and separate skirts. That was an ugly day in costumery. Let us hope that it will not be revived, although there is every evidence that the seeds of this evil have already been sown.

But these short sleeves, which were worn in the Directoire with every kind of gown and which were practically covered by rare old cashmere shawls, are not the only short ones that this spring has produced. We are evidently in for a reign of abbreviated arm coverings, inspiration for which has been gotten from all the centuries.

The Surplice Movement Wins. Another change in the direction of fabrics across the body has been made by the French, and to follow it will require ingenious alterations on the part of the American woman. Evidently there is an idea that the fewer the buttons the better the frock. We have gone back to the time when strings held fabrics together and the cloth was cut in such a way that it remained where it was placed on the body.

Possibly it would be more comprehensive to put the whole thing into the statement that the more we are wrapped across the body the better dressed we are today.

This movement of fabric finds its most commonplace exploitation in the surplice bodice or jacket. Afternoon frocks and the most elaborate evening gowns have bodices that are merely elongated scarfs with armholes. They wrap around the figure at the waist-line and the back, front or sides.

Separate surplice bodices are not considered too ignoble to be attached to a brilliant evening skirt. When the latter is of diaphanous and frivolous fabric the bodice may be of satin, brocade or tissue, and when it finishes its bias movement about the figure it is held at the side with a great gold rose. (Copyright, 1918, by the McClure Newspaper Syndicate.)

PUBLICITY KNOWS NO SEASONS

ADVERTISING, in spite of all the hard knocks it has received, continues to grow each year. It is essential. It is the power behind the selling organization. Take away the element of advertising and the business world would lie stagnant and at a standstill.

AND advertising knows no seasons—it just keeps everlastingly at it; the most efficient and persistent salesman on your payroll.

AFTER advertising all through your "regular season" you are losing slightly valuable publicity by discontinuing your "AD." People have now become accustomed to your store news and the time is coming when they are going to need something exactly in your line.

YOUR Ad. is a constant reminder if it appears regularly. The sign above your door is seen only by the people who pass your store—an advertisement in THE HERALD—the paper that goes home, is seen and read by thousands each week. So don't make the mistake of advertising just in your particular "season"—keep your name before the public the year round.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-tives" Point the Way to Quick Relief

VERONA, Ont.
"I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting."

When I had given up hope of ever being well again, a friend recommended "Fruit-a-tives" to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine."

W. M. LAMPSON.
"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid by Fruit-a-tives Limited, Ottawa.

VICTORY BREAD NOW

That Canada is at war will be brought home to every man, woman and child now that all bread made from standard wheat flour must be labeled "Victory Bread" and mixed with a percentage of substitutes for wheat flour. This is the effect of a recent Order issued by the Canada Food Board in a vigorous effort to save the existing wheat supplies so as to make them last out until the wheat of the coming harvest reaches the flour mills and the new flour is distributed for consumption.

The new Order defines substitutes for wheat as corn, oats, barley, rice, rye, buckwheat, tapioca and any mixture of same; potato flour, bran shorts, oatmeal, rolled oats, corn meal, corn starch, hominy, corn grits, rice meal and potato meal.

On and after July 1st one pound of wheat substitute must be used by all bakers, confectioners and public eating places with every nine pounds of standard wheat flour in making any bakers products, and the same rule shall apply to every person in Canada who bakes bread, rolls or pastry for private consumption. On and after July 15th, in all Canada east of Port Arthur the proportion is to be increased to one pound with every four. In Port Arthur and the West this increase is still in abeyance, preceding the report on the quantities of substitutes available.

It is provided in this Order that on and after July 15th no licensed dealer shall sell for private consumption east of, but not including Port Arthur, white wheat flour in any quantity.

Does not mean that one must purchase from him substitutes in the proportion of not less than one pound of standard flour, West of Port Arthur the proportion is kept at one pound substitute to four pounds wheat flour. The brand "Victory Bread" is to be affixed to every loaf as a guarantee that the prescribed amounts of substitutes for standard wheat flour are being included therein. Bread not bearing this label may be seized and any person violating the regulation is liable on conviction to a penalty not exceeding \$1000 and not less than \$100, or imprisonment for a period not exceeding three months or both fine and imprisonment. Fines are to be paid to the municipality if the municipal officer secures the conviction or to the Provincial Treasurer where a Provincial Officer secures the conviction.

THE AMERICAN WHEAT CROP

Reports from the United States wheat belt are encouraging. This year's crop is estimated to be 50% larger than last year. The greatest acreage ever sown to wheat is officially reported and by the June estimates the crop will reach 950,000,000 bushels as compared with the record of 1,025,000,000 bushels in 1915. The total wheat area to be harvested this year is 58,881,000 acres, an increase of 12,000,000 over the preceding year, compared to the average for the five-year period preceding the war of 48,053,000. The other grains also show a big increase. Despite the big harvest, the Food Administration of the United States is urging conservation to the greatest possible degree as every bushel will be needed to save Allied Europe from famine.

20 MINUTES

That's all. Twenty minutes after taking a ZUTOO tablet your headache will be gone. One of these little tablets—safe, reliable and harmless as soda—will cure any headache in 20 minutes. Or, better still, taken when you feel the headache coming on, a ZUTOO tablet will ward it off—nip it in the bud.

No Headache

What He Suspected

Jones—"What is Newlywed Bigg hedd looking so glum about?"
Smith—"Why, the gipsy fortune-teller just told his wife that she would have two husbands, and that the second one would be a very fine sort of a man."
Jones—"Ha, ha! And Bigg hedd thinks that is a reflection on him, I suppose?"
Smith—"Oh, no! He thinks his wife must have been married before, and never told him."

Children Cry FOR FLETCHER'S CASTORIA

BOARD OF EDUCATION

The regular monthly meeting of the Board of Education was held on Tuesday evening, all the members being present except Mr. A. E. Cram, with Mr. Colin McIntosh in the chair. The minutes of last regular meeting were read and confirmed.

The report of Mr. E. J. Wethey for the high school was read showing 106 pupils on the roll for June with an average attendance of 100. He reported that there were 27 students who tried the entrance. About \$50.00 may be expected from fees from pupils trying for entrance to Normal and the lower school exams.

Mr. Robertson reported the public school as having 620 enrolled with an average attendance of 564. The caretaking, he reported, was well performed. He suggested that arrangements should be made for the care of the window boxes as well as the border of flowers along the south side of the central school grounds during the summer vacation.

Mr. W. C. Froats, inspector, presented his report. It was left over until next meeting for further consideration.

The following accounts were read and on motion of Messrs. Fulton and Nichols were ordered paid:

High School
Taylor Bros., coal \$189.25
White & Co., repairs 8.15
W. A. Nichols, desk tops 3.00
Taylor Bros., supplies 9.98
Central Canadian, printing and advt. 6.25

Public School
White & Co., repairs, furnace \$ 5.40
White & Co., repairs, pump 2.50
J. Baird, window shades, etc. 23.25
W. A. Nichols, rent Leach school 50.00
W. A. Nichols, repairs 13.05
Taylor Bros., coal 50.48
W. McGonegal, wood 6.50

\$181.13
The following reports were presented:

Carleton Place, July 2, 1918
Board of Education,
Carleton Place, Ont.
Gentlemen:—The Contingent Committee for the high and town hall schools beg to report as follows:

We find the high school in very bad condition. School desks are very badly defaced, also walls defaced and covered with writing, also plaster off in several places.
We recommend as follows: That the walls and hallways be tinted and woodwork be given one coat of paint also that front door be painted. That all wood blackboards be repainted and that 110 feet of Hylo plate be procured for Forms Nos. 2 and 4. That the other rooms be painted and tinted in several places. We consider the west furnace will do for another year.

We find the town hall school in a great deal better shape, very little dust, due the caretaker says to floor oil. We recommend the painting of all wood blackboards.
GEO. M. WARREN,
W. J. MUIRHEAD,
G. A. CORNELL.

Carleton Place, July 2, 1918.
Board of Education,

We, the Contingent Committee of the south side would be pleased if you would include in your estimates the following sums:—\$300 for Hyloplate blackboards, \$75 for repairs to furnace, \$15 for supplies for caretaker, \$50 for sundry expenses, \$10 for repairs to plaster, making a total of \$450.
Respectfully submitted,
JAS. RICHARDS,
J. W. PATTERSON.

Mr. Wethey addressed the Board recommending that a request be made to the Department of Education to have the cost of examining farm labor candidates papers charged pro rata to the county. The town at present has to bear all the cost although there are very few town pupils.

Chairman McIntosh volunteered to take the matter up with the Department.

Moved by W. J. Muirhead, seconded by Geo. M. Warren, that Mr. Henry's salary as caretaker of the high school, be increased to \$250 per annum commencing July 1st. Carried.

Moved by T. B. Caswell, seconded by Dr. M. H. Steele, that the salary of Miss Morton be placed at \$1000 per annum. Carried.

The Board then went into committee of the whole with Mr. McIntosh in the chair to consider the question of the estimates. After conferring the committee reported as follows:

That the sum of \$16,512.00 be asked from the town Council to be applied as follows:

High School
Salaries \$5,100.00
Caretaking 250.00
Sick Allowance 50.00
Fuel 425.00
Scientific apparatus, art and library 50.00
Secretary's salary 100.00
Printing and stationery 100.00
Repairs 190.00

\$6,265.00
Less Govt. and Co. grant, \$1,400.00, and fees from pupils \$300.00 1,700.00

\$4,565.00

Public Schools
Salaries \$9,487.00
Caretaking 835.00
Sick Allowance 200.00
Rent 240.00
Fuel 950.00
Treas. Salary 75.00
Cleaning and repairs 500.00

\$12,287.00
Less Govt. Grant 340.00

\$11,947.00

Total expenditure \$16,512.00
The report was adopted on motion of Messrs. Fulton and Nichols.
The Board then adjourned.

The number of motor cars reported stolen in Toronto during the first six months of 1918 is 365.

Thos. F. Warren, G.T.R. engineer, was crushed to death near Stamford when his engine, leaving the track, fell over upon him.

A PRESENTATION

The pupils of Hilston, S. S. No. 8, Goulbourn, took the occasion of the departure of their teacher, Miss Mary Alexander, of Stittsville, to express their appreciation of her work in connection with their school where she has been engaged for the past two years, by presenting her with a beautiful gold pendant set with pearls and amethysts, accompanied by the following address:

Ashton, Ont., June 28, 1918
Dear Teacher:—We, who have been your pupils for the past two years, desire to take this opportunity to express to you, our appreciation of all your faithful services. You have always tried to make our school work as pleasant as possible, and if we have failed at any time we know the fault was all our own.

We ask you to accept this little gift from us as a token of the esteem in which we hold you and as a memento of the many happy days we have spent together.

You will make new friends wherever you go, but we would like to know that we are still remembered by you, as we can assure you, your memory will always be dear to us. Again thanking you for your many kindnesses, we all join in wishing you the very best of success in your new school.

Signed on behalf of the pupils,
ETHEL HOBBS,
MARY LAUGHLIN.

Miss Alexander replied in a few favorable words.

Despite shortage of tonnage, Canadian factories have increased their shipments of goods to South Africa.

DAIRY THE DAIRY

TREATMENT FOR MILK FEVER

All Dairymen Should Be Prepared to Administer Simple and Successful Remedy to Cows.

In view of the fact that milk fever is a very common disease affecting cows, particularly the heaviest milkers in the large dairy district, it is of great importance that dairymen acquaint themselves with the present extremely successful methods of treatment.

The disease more frequently attacks well-nourished, fleshy, heavy-milking cows. It occurs during the most active period of life (fourth to sixth calf), and is characterized by a sudden onset and complete paralysis. One attack does not render the animal immune. It generally follows closely the act of calving and terminates in a short time (usually from 18 to 72 hours) either in recovery or death. While the disease may occur at any time during the year, it is seen principally during the warm summer season. It is rarely, if ever, met with in pure bred breeds.

At the commencement of an attack there is usually excitement, the specialists say. The cow is restless, trends with the hind feet, switches the tail, and walks about uneasily. These symptoms are followed within a few hours by partial paralysis, indicated by a staggering gait, especially in the hind legs. The animal then becomes quieter, more weak, and finally falls down, unable to rise. While down the animal assumes a very characteristic position, which is a great aid in diagnosis. The head is turned around to the side (usually the left) and rests on the chest. On the day following the onset of the disease, and in some cases even within a few hours, the animal may be up eating and drinking in a normal manner. In fatal cases the animal may remain perfectly quiet, being completely paralyzed, until death.

The treatment consists of injecting air through sterile absorbent cotton, preferably impregnated with carbolic acid, into the teats by means of a specially designed syringe. Soap and water should first be applied to the teats and udder, after which they should be carefully disinfected with a five per cent solution of carbolic acid (three tablespoonfuls to one quart of water). Then insert the syringe in the teats and force air in each quarter udder. After one-fourth of a pint of air is inserted with filtered air a broad piece of tape should be tied about the teat to prevent the air from escaping. In case the air becomes absorbed and no improvement is noted within five hours, a repetition of this treatment should be made under the same antiseptic precautions as the first, each quarter of the udder being filled. The air should be left in the udder for 24 hours, and when the recovery is assured it should be gradually milked out. It is best to secure the services of a veterinarian for this treatment, but this is not necessary if the dairymen or farmer has proper equipment and takes due precautions.

GUERNSEY BREED IS POPULAR

Has Maintained Steady Growth and Found in Large Numbers in Eastern and Central States.

The Guernsey breed developed on the Channel Islands of Guernsey and Alderney, although probably the parent stock, came from Normandy.

Purebred Guernsey With a High Record.

France. This breed has maintained a steady growth in numbers and popularity in the country, and its largest numbers are found in the Eastern and middle Western states.

The characteristic colors of Guernseys are some shade of fawn and white. Cows average about 1,050 pounds and bulls about 1,400 pounds in weight. Guernsey milk is noted for its extremely yellow color and high percentage of butterfat.

In the Guernsey breed the average of 4,200 cows that have completed a year's record for advanced registry is 8,934.44 pounds of milk, testing 4.90 per cent, amounting to 446.01 pounds of butterfat. The ten highest producers of this breed range from 24,008 to 17,297.51 pounds of milk, with an average for these ten, of 19,897.9 pounds of milk. The ten highest Guernsey butterfat producers range from 1,098.18 to 916.97 pounds, an average, for these ten, of 976.75 pounds of butterfat.

Beware of Drafts.
A thermometer should be hung in every stable. Beware of drafts on a sensitive cow.

You may be deceived some day by an imitation of

"SALADA"

and possibly you will not detect this imitation until the tea-pot reveals it. Demand always the genuine "Salada" in the sealed aluminum packet, and see that you get it, if you want that unique flavour of fresh, clean leaves properly prepared and packed.

Lightly Valued

Representative Rainy was condemning a neutral nation that had submitted to odious oppression on the part of Germany.

"This neutral nation," he said, "values its honor no more highly than Gobsa Golde values his domestic happiness."

As Gobsa in his picture gallery sipped his after-dinner liqueur and puffed on his great black Havana, the butler rushed in, spluttering:
"Oh, Mr. Golde, poor Mr. Golde, I'm so sorry! Your lovely girl wife has eloped with the chauffeur."

Gobsa blew a fragrant cloud toward the frescoed ceiling.
"Oh, well," he said, "he wasn't much of a chauffeur."

Comfort Lye

Rheumatism, Kidney or Stomach Trouble and Asthma Promptly Cured.

For Rheumatism, Kidney Trouble, Indigestion, Dyspepsia, Biliousness, Sick or Sour Stomach, Bitter taste in the mouth, Loss of Appetite, and Asthma, this medicine has no equal. Two to five doses will cure Sore Back or Sluggish Kidneys.

Mr. H. M. Baxter, of Smiths Falls, Ont., writes: "I suffered much from rheumatism effected a permanent cure. It also toned up my whole system, and I have not felt better for months."

Mr. A. M. Shepherd, of Smiths Falls, writes: "My stomach was in such bad condition that I could not eat anything without suffering. Before I had taken half a dozen doses of your remedy I felt fine, and could eat anything without being effected. I strongly recommend it for stomach trouble."

Mr. D. M. Robertson, Renfrew, writes: "I have not had an attack of Asthma or coughing since I took the fourth dose of your remedy."

For sale by W. P. Pattie, Carleton Place; M. R. McFarlane, Almonte; L. A. Wilson, Smiths Falls; J. L. Rochester, Ltd., Rideau St., Ottawa; or direct from the manufacturer, W. F. Ritchie, box 296, Renfrew, Ont.

Price, 75c per Bottle.

In remitting for mail orders add sufficient to cover postage.

Carleton Place Herald

(Established 1880).

W. R. ALLEN, Proprietor.

All money letters should be registered, and all correspondence addressed to

THE HERALD,
Carleton Place, Ont.

TUESDAY, JULY 9TH, 1918.

The Dominion Railway Board has authorized an increase in transcontinental westbound commodity rates.

Dr. Magill, Chairman of the Board of Grain Supervisors, denies that Canadian wheat is to be raised to \$2.26, parallel to the new price in the United States.

"It is obviously an elementary precaution to build up as large a reserve of food as possible in an island which is menaced by submarine blockade. No such reserve is yet in sight and there should be no slackening in Canadian efforts to provide foodstuffs for the Mother Country."—Late Viscount Rhonda.

"Even if the greatest expectations of the 1918 harvest are realized, the fact remains that the world's reserves of wheat are exhausted, and it will be absolutely necessary to continue conservation and substitution until the 1919 crop situation is known. Canada is daily increasing the manufacture of substitutes for wheat, and consumers are urgently requested to make use of these substitutes to the limit of their ability."

—Henry B. Thompson, Chairman of the Canada Food Board.

HIGH SCHOOL PROMOTIONS

Form I to Form II

A—Without further examinations:—Hazel Baker, Alberta Brown, Eddie Box, Annie Campbell, Helene Campbell, Lillian Chapman, Boyd Cram, Kathleen Hamilton, Marguerite Hawkins, Alma McNeely, Mary McNeely, Arnold Muirhead, Maudie McCallum, Eddie O'Brien, Ellen Patterson, Mary Phillips, (without Science), Meedie Purdy, Dorothy Rothwell, Cecil Ruttle, Hazel Schwerdtfeger, Arthur Sutherland, Dorothy Shaw, Desmond Smythe, Marjorie Steele, Lottie Smith, Alvin Wilson, E. Young.

A—Marion Chapman, Laura Evoy, Mildred Foley, Helen Hemphill, Elizabeth Houston, Marjorie McDiarmid, Olive Robertson, Cecil Rothwell, Harold Rothwell, Russell Steele, Marion Walton, Sadie Williams.

B—Elsie Cameron, (Literature, Geom., Latin, French), Bessie Deachman, (Geom.), Eadie McFadden, (Latin), Annie McFadden, (Latin), Marjorie Timmons, (Geom.).

E. J. WATNEY, Prin.

Haileybury Council has bought 37 acres of property for a park.

Reports reaching London from Dutch sources are to the effect that the late Sultan of Turkey was assassinated.

Now fewer than fourteen leading German airmen who were credited with a total of 385 victories, have been killed or captured recently, including Baron Richthofen, eighty-four victories; Lieut. Max Mueller, thirty-four victories; Lieut. von Buelow, twenty-eight victories.

NOT A LIFE WAS LOST

Canadian Troopship Ran Ashore on Dangerous Rock.

Heavy Fog Caused the Wreck of the City of Vienna With 1,400 Soldiers on Board — Men Behaved Splendidly and All of Them Were Rescued.

A Canadian Atlantic Port, July 8.—When the Haul liner City of Vienna, with 1,400 Canadian troops, consisting of various drafts and details, on board, ran ashore on a dangerous rock near here in a thick fog, it was at first feared that there might be a considerable loss of life.

There was a heavy on-shore swell, and the steamer, exposed to the full force of every wave, was in danger, it was thought, of speedily breaking up. But the troops and men have all been safely landed, and the ship herself still holds together, so that there is still a hope of saving her.

According to the story told by the rescued men, it was about seven o'clock in the morning that the City of Vienna, endeavoring to make harbor, struck the ledge. The engines were reversed, although without avail, and S.O.S. calls were sent out. Guns, too, were fired, and could be heard on shore, a mile or more from the rock. Fishermen soon located the ship and returned to shore to report her exact location.

Orders were given by the port authorities for the boats from nearby life-saving stations to proceed to the City of Vienna and take off as many men as the boats would accommodate, and other craft was despatched from the harbor to the scene. So rough was the sea that one harbor tug was forced to return to port with water almost up to the fires in her engine-room.

But the lifeboats and fishing craft, manned by crews well acquainted with the numerous reefs in those waters, were able to go alongside the stranded ship, and by 11 o'clock that morning had landed a large number of soldiers on the rocky shore. The sea was still running high, and the work of rescue was carried out with great difficulty.

A steamer, which was not many miles away when the City of Vienna struck, had responded to her S.O.S. signals, but, on account of the thick fog, had been unable to come close to the stranded ship. This steamer's lifeboats were accordingly lowered, and the sailors transferred seven hundred of the soldiers from the City of Vienna to their own ship.

The steamer could accommodate no more, and therefore brought these seven hundred to port. Meanwhile, despite the increasing sea the fishermen and life-saving crews had been landing boat load after boat load of men and brought them to port. Other ships harbored, collecting numbers of the soldiers rescued from the ship and landing them here. The remainder of the men landed on the shore marched along the country roads to this port.

"We thought the City of Vienna had been torpedoed," said one of the rescued soldiers, interviewed yesterday. "Of course, we had not the faintest notion where the ship was, and our first thought, when the sudden rain and crash came, was that we were in the war zone and that a U-boat had got us. We were soon undeceived, however, when, looking over the bow we could see a big rock within a few yards of the ship."

One of the ship's officers told the Canadian Press that the discipline of the troops when the steamer struck was splendid. There was no sign of excitement or confusion, he said, and the men formed up and obeyed orders as precisely as if they were on parade.

COASTAL ZONE RECAPTURED

Italians Take Delta of the Prave From Austrians.

ROME, July 8.—After five days of uninterrupted struggle, says a late official communication, "the enemy was completely driven on to the left bank of the New Piave Saturday afternoon."

"The recapture of all the coastal zone between Capo Sile and the Piave, which the enemy had occupied and held since November, brilliantly crowns the victory gained by us in the first great battle of our recovery and enlarges the zone of protection for Venice."

"Altogether, since June 15, 523 officers and 23,911 other ranks have been made prisoner. We also captured 63 guns, 65 trench mortars, 1,234 machine guns, 3,700 rifles, two airplanes, 5,000,000 rifle cartridges, many thousands of shells of all kinds, and a large quantity of telephone instruments, and recovered our artillery and material which in the advanced zone had to be abandoned during the first phase of the struggle."

The Italian troops on the southern end of the Piave line, having driven the Austrians across the New Piave, are establishing themselves in the extensive region between the new and old river beds, which the Austrians were compelled to evacuate. Sunday's War Office statement shows. The statement highly praises the valor of the troops which won the pronounced success that has been achieved.

Mohammed VI. New Sultan.

AMSTERDAM, July 8.—Mohammed VI. was proclaimed Sultan of Turkey in the throne-room of the Top Kapu Palace Friday morning, according to a Constantinople despatch received here. The burial of Mohammed V. occurred later, the coffin being transported from the palace to the Mosque of Ejjub by motor-boat. The new Sultan followed the burial party in his steam yacht.

Fourteen destroyers will be launched from American shipyards on July 4. These, with a number of battle boats will represent the navy's share of tonnage to take the water in celebration of Independence Day.

GERMAN IS MURDERED

Gen. Count von Mirbach Killed by a Bomb.

Two Unknown Men Attacked Him In His Moscow Office—First Signs of the Awakening of Russia Against German Tyranny, and Sequel of Act Is Awaited With Interest.

PARIS, July 8.—Gen. Count von Mirbach, German Ambassador to Russia, was assassinated on Saturday at Moscow, according to a despatch received here.

Obtaining admittance under false pretences, two unknown men entered the private office of Count von Mirbach yesterday morning. A short distance was covered, followed by explosions of hand grenades.

The ambassador died almost instantaneously. The assassins escaped, and have not yet been arrested. Nikolai Lenin, Bolshevik Premier, has sent the following to M. Joffe, Russian Minister at Berlin, regarding the assassination of Count von Mirbach, the German Ambassador at Moscow:

"Two unknown men entered the German Embassy at two o'clock this (Saturday) afternoon, having documents from a special committee. They threw a bomb in Count von Mirbach's office, wounding him so severely that he died."

"Representatives of the Government immediately visited the embassy and expressed indignation at the act, which they considered as a political manoeuvre to provoke trouble. The Government is taking every measure to discover the murderers and bring them before a special revolutionary tribunal."

"Extra measures have been taken to protect the German embassy and citizens. The Government requests you to express to the German Government the Russian Government's indignation and convey its sympathy to the family of the late count."

The whole quarter in Moscow where the German Embassy is situated was immediately surrounded by troops after the assassination of Count von Mirbach, according to a Russian Government message received here by wireless. Severe control has been established over all persons arriving and leaving the city.

An envoy extraordinary will be despatched to Berlin to express to the German Government the indignation of Russia over the criminal act. The identity of the assassins has not been established nor have they been arrested, the message states.

It appears, according to these advices, that with Count von Mirbach when he was attacked were Herr Ritzler, the counsellor of the embassy, and a German officer. Neither was injured.

Mr. P. Kerensky, former Premier of Russia, when informed by the Associated Press of the assassination of Gen. Count von Mirbach declared that while he could not "feel elated at the death of a human being," he could not help saying, "It is a good thing for Russia."

M. Kerensky seemed reluctant to believe the news, asking repeatedly, "Are you sure?" When informed that the news seemed perfectly reliable as it originated in Berlin, he said: "This may be the beginning of the renaissance of Russia."

"But now the Germans will surely go to Moscow," he added, sadly. It was only a few days ago that Kerensky, in a talk with the correspondent expressed his opinion that the only reason German troops had not yet appeared in Moscow was because von Mirbach had not required their presence there.

"Should circumstances demand the appearance of German troops," said the former Premier on this occasion, "von Mirbach, the real ruler of Russia, will surely call upon them. His ability to govern without the help of German bayonets has alone prevented the appearance of German spiked helmets in the ancient capital of the Muscovite Empire."

When asked about the prospects of a revolution breaking out in Moscow, the former Premier was non-committal. "One never knows what the Russian mind will conceive or what the Russian will execute," he said. "But from Moscow will come the initiative for a movement against Germany."

German Tells the Truth.

PARIS, July 8.—"A Second Lichowsky," Le Temps calls Gen. Count Max Bontegles for his article in the Berliner Tageblatt, protesting against practices of war of which he has been an indignant witness.

Count Montgelas commanded on the French front at the beginning of the war, and was disgusted by the excesses committed by the German armies in Belgium and the invaded French departments. He sought to treat the civilian population with justice and humanity, and was retired for this cause. He took refuge in Switzerland, where he studied the origin of the war and the violation of Belgium, reaching the same conclusion as Dr. Wilhelm Muehlen, former director of the Krupp works, and Prof. Friedrich Foerster, of the University of Munich, both of whom have strongly criticised the German Government.

Count Montgelas' article in the Tageblatt was extremely outspoken for a German general, its charges against militarism, supporting the allegation of Viscount Grey and President Wilson.

Le Temps adds that it is interesting to find a professional soldier confirming the German Foreign Secretary, von Kuehlmann, on the impossibility of a solution exclusively by arms.

German Ration Is Out.

AMSTERDAM, July 8.—Owing to the lateness of the new potato crop, the Berlin authorities, according to the Tageblatt, announce the reduction of the potato ration next week from three to one pound, and the distribution of an extra 200 grammes of beans and peas per head.

A visit to the United States by the Prince of Wales is suggested.

BIRTHS.

McDOUGALL.—In Carleton Place, July 9th, the wife of Mr. Wm. McDougall, of a son.

NEW ADVERTISEMENTS.

COLLECTOR WANTED.

APPLICATIONS for the office of Collector of Taxes for the Township of Beckwith will be received by the Clerk any time prior to the next meeting of Council on August 17th, 1918. Address J. W. ROBERTSON, Township Clerk, R.R. No. 2 Carleton Place.

DISTRICT NEWS.

APPLETON

Special to THE HERALD.

Mrs. Fraser and Harold, who has
been spending a week in Ottawa with
friends, returned home on Saturday
evening.

Nurse Syme is at present nursing in
Almonte.

Mrs. Garvin has her niece and nephew,
Miss Hill of Munster, and Mr. Hill of
Ottawa, visiting her at present.

Mr. and Mrs. Barr, of Almonte, spent
Sunday with Mr. and Mrs. James Paul.
Quite a number went out to the Red
Cross picnic at McArthur's school and
had a fine time.

The Caldwell Woolen mill is very
busy at present making puttees. They
send out about fifteen hundred a day to
the women of the village to finish.

Reports say that some of our village
property is about to change hands.

Rev. A. Arthur, of Toronto, called on
friends here on Monday.

Mrs. R. M. Baird, who was visiting
her brother, Mr. James Guthrie, at
Kinburn, returned home on Thursday.

Mr. and Mrs. Gladish and baby, of
Toronto, are visiting with Mr. and Mrs.
George Turner at present.

At the close of the school term, the
Entrance Class presented Miss Paul
with a pair of beautiful vases in sterling
silver and rose.

LANARK

From the Era.

Rev. R. J. Drysdale, of Rochester, N.
Y., is visiting his parents, Mr. and Mrs.
William Drysdale.

Mr. and Mrs. James Watt returned to
Toronto last week to spend a few days
with their sons, Russell and Cecil.

Mrs. Wm. Calhoun has arrived in
Lanark from Elkhart, Indiana, to spend
the summer months at the home of her
parents, Mr. and Mrs. R. J. Stead.

Mr. Howard McIntyre, who has been
with the Boyd Caldwell & Co. Ltd. firm
for a number of years, has accepted a
position with Bates & Innes, Carleton
Place, and leaves this week to take up
his duties.

An interesting wedding took place at
the home of Mr. John Ferguson, Elphinstone,
on Wednesday, June 19th, when his
second daughter became the bride of
Adam Geddes, son of Mr. and Mrs.
Daniel Geddes. The ceremony was
conducted by Rev. A. M. Little, and
took place on the lawn, the bridal party
standing under an arch of evergreens
and pink flowers.

ALMONTE

From the Gazette.

Mrs. J. Kirk and little sons spent the
week-end with Carleton Place friends.

Misses Dorothy and Mary Oliver left
Friday on a visit to friends in Toronto
and Newmarket.

Miss Evelyn Lowry and M. Gibson
of Perth were guests of Miss Ethel
Brown for the holiday.

Miss Lizzie Stanley of Carleton Place
spent the week-end at her home in
town.

Mr. F. G. Millar, principal of the
High school, left for Toronto this week
where he will take up a commercial
specialist course during the holidays.

Miss Jennie Boyle left for Toronto
this Thursday morning, having been
transferred to the head office of the
Sterling Bank.

The members of L.O.L. No. 378,
accompanied by visiting brethren from
Carleton Place and other points,
attended service in the Methodist church
on Sunday morning last.

Mr. and Mrs. Earnshaw left this week
to take up residence in Toronto, that
being a more central point for Mr.
Earnshaw while in the discharge of his
duties.

Word was received in town last week
of the death of Mr. Sam Walker of
Weston, Toronto. Particulars as to his
illness and death are not yet to hand.

The late Mr. Walker came to Canada
from Ireland about fifteen years ago.
During his stay in Almonte he was
employed as a moulder with the Kir-Ben
Co. He was well known amongst
Oddfellows and although he did not be-
long to the local lodge, he being a
charter member of one of the Toronto
lodges, he was closely associated with
Alpha Lodge and its members.

Several more Ontario nurses and
medical men identified among those who
perished when the Llandovery Castle
was torpedoed.

July to December.

A message of personal greeting from
President Wilson was delivered by the
American Red Cross to every American
soldier and sailor in hospital in Great
Britain on July 4th.

All British subjects in France, who
had been hitherto granted exemption
from military service, are to-day called
on to undergo fresh medical examination
in view of the pressing need for men for
the army. Men found fit will be
immediately passed for general service,
unless found indispensable for reason of
their present work in connection with
national service. Others unless with
similarly excuses, will be enrolled
immediately for garrison work at home
or abroad, in order to release fit men
employed in such work, while a third
grade of men will be allowed to continue
their usual employment, provided they
devote at least six hours daily to Red
Cross or canteen or other work of
national importance.

One hundred thousand dollars
damage was done by a fire at the St.
Lawrence Starch Company plant at Port
Credit.

Mrs. Thomas McCallum of Blenheim
was fatally burned while using gasoline
for cleaning, suffering injuries for six
hours.

Percy Innis, a former Havelock boy,
has been recalled from his post in the
navy to London to receive a decoration
for sinking a submarine.

A virtual reciprocity in conscription
between the United States and Canada
will come into force shortly whereby
Americans in Canada eligible for service
will be secured, and vice versa.

Further restrictions on the importa-
tion of manganese ore were announced
by the U.S. War Trade Board. Flax
seed and linseed have also been placed
on the list of restricted imports.

It is estimated that 400,000,000
people in Europe are short of food. In
Poland, Finland, Serbia, Armenia and
Russia, millions are actually dying of
starvation and other millions are
suffering from under nutrition, while
still others are living on the barest
possible margin.

TO SAVE THE HAY CROP

Efficient Machinery and Careful Cutting Required.

Spraying for Potato Blight Begins—
By Using Bordeaux Mixture and Paris Green Increased Potato Crop Will Be Harvested.

(Contributed by Ontario Department of Agriculture, Toronto.)

IN a season of labor scarcity hay is a problem on the average farm. It is necessary to make use of all the modern machinery available in order to expedite the saving of this important crop. First, then, we must emphasize the use of machinery in curing and storing. Men are not to be had in plentiful supply, but, in most cases some form of co-operation may be resorted to in order to obtain the use of tedders, hay loaders and horse forks to handle the bulk of the crop. By all means plan to use machinery in place of men this year or otherwise considerable of the crop will not be harvested in the best possible condition.

It is usually safe to cut after a rain when the weather appears to have cleared. Red clover should be cut when about one-third of the heads have turned brown. The tedder should then be used until the crop is dry enough to rake—a period which will vary according to the weight of the cutting, the weather and the amount of sap in the stalk. While it is possible to make slightly better hay by raking up, this will be a practice of doubtful value this year in view of the labor shortage. Gather with a side-delivery rake if possible, or in small windrows with an ordinary dump rake. The hay loader works best with a small windrow. By all means use a loader if possible and to facilitate matters a sliding rack may be used so that when one-half the rack is loaded it may be pulled ahead and the remainder loaded.

We mention red clover because it is the commonest and most satisfactory hay crop and is used in all general farming hay mixtures.

Timothy should be cut either after it is out of the first blossom or after the second blossom has fallen—generally the latter. It will require less tedding than clover, is more easily cured and needs less drying after cutting. Do not let it get too ripe and woody.

Alfalfa should be cut when the young shoots are noticed starting out from the axils of the lower leaves on the stalks, and should be handled much like red clover, only greater care is necessary to preserve the leaves, a very valuable portion of the plants. Prof. Wade Toole, Ontario Agricultural College.

Spray for Potato Rot.
Late blight and rot is the most destructive disease of potatoes in Ontario. In wet seasons it frequently destroys a very large proportion of the crop and causes a loss of many thousands of dollars to the farmers of the province. This is to a large extent a needless loss, for "late blight" and "rot" can be prevented by timely, thorough and intelligent spraying with Bordeaux mixture.

Directions for Spraying.
Spray with Bordeaux mixture, strength 4 to 6 pounds of copper sulphate (bluestone) and 4 pounds of lime to 40 gallons (imperial) of water. Commence spraying when the plants are from five to eight inches high, and keep the foliage covered with Bordeaux throughout the season. Forty to 100 gallons of the Bordeaux mixture will be required for each application, the amount to be used depending upon the size of the plants. Take special care to see that the spraying is very thoroughly done if the weather is at all damp about the 15th of July, as blight often begins at this time. Add a poison when necessary for potato beetles—arsenate of lead paste, 3 1/2 lbs. to each 40 gallons of the liquid spray, or Paris green 2 lbs. to 40 gallons or a mixture of 2 lbs. of arsenate of lead paste and 1 lb. of Paris green to 40 gallons. From three to seven applications should be made, depending upon the season, the weather the larger the number. Do not put off spraying because it looks like rain. If the spray is on the plants half an hour before the rain comes it will be dry and sufficient of it will stick to prevent infection, which takes place during or soon after rain. Spraying as described above should prevent not only late blight and rot but also early blight and potato beetles. For late blight and rot only, it is not necessary to commence spraying until about the 10th of July, but in Ontario it is usually advisable to spray for all three.

A hand pump barrel sprayer can be used for small lots of potatoes. Most men who grow any considerable acreage of potatoes consider that a power potato sprayer is a good investment. The best results from spraying are obtained with machines fitted with T-joint attachments so as to insure covering both surfaces of the leaves at each spraying.

Precautions Necessary to Insure Success.

1. Start spraying before the blight appears. Spraying is done to prevent, not to cure.
2. Spray thoroughly, which can be done only when the mixture is applied with a good pressure so as to insure covering every portion of the plants.
3. Do not hesitate to spray because it looks like rain. If the spray is on the plants half an hour before the rain comes sufficient of it will stick to prevent infection, which takes place during or soon after rain. If the spraying is left until after a prolonged rain it is very likely to be too late to do much good.
4. Careless spraying never pays. Spray thoroughly or not at all. Prof. E. Hewitt, Ontario Agricultural College.

ALL BROTHER HAD NOTICED

Father Need Not Have Worried Over Possible Bad Effect of Movies on Little Son.

After all, it's hard to figure out correctly the effect of the movies on the child mind. It happened that mother and sister had gone to a concert and it was up to father to entertain little brother, age seven. Father likes the movies—some of them—so he thought that would serve the purpose. Of course you can not tell much about a film by the name or by the pictures out in front either for that matter. But father likes pictures of western life and he thought the horses and mountains might please brother. So when he saw the poster of a cowboy, in they went.

It wasn't a very good sort of picture as to theme, for it presented a ruthless outlaw and his gang of robbers. When a wagon train of gold seekers came across the desert he not only refused to give them water, but drove them off to perish of thirst on the desert. And there also was a dance hall scene in the West. Father had some misgivings as to his choice of movie and wondered whether, at its close, his son would elect to be the bold, bad bandit or the vice-enmeshed owner of the dance hall and gambling hell. He said nothing but anxiously awaited the verdict.

When "The End" came, brother whispered: "Daddy, do you know who the cowboy looks like?" "No, brother. Who?" "Our milkman," was the reply.

GOT RIGHT POINT OF VIEW

Autoist, When He Cooled Down, Was Able to See Where Traffic Policeman Was Correct.

The autoist was waiting for the corner traffic man to give the signal to make the turn at the corner. When he thought he had been there long enough he began tooting his horn impatiently. The traffic man kept on taking care of traffic. The autoist became more impatient with his horn.

"You won't help matters that way, my friend," said the traffic man, as he waved him on.

"Aw, take me to jail, but don't bawl me out!" exclaimed the driver.

The policeman motioned him over toward the curb. "I could take your suggestion, but I won't. You are angry now, but when you cool off you will understand that the corner man has many problems to contend with," said the policeman. "We do not usually make explanations, but I am doing so because you are in the wrong."

The autoist drove on, mumbling. A few days later he stopped in the same place. "Say," he said to the policeman, "I made a fool out of myself the other day. I had no right to be angry. You fellows have enough vexations without some one who goes across your corner once a day adding to them by smart remarks."

The policeman smiled and waved him on. That autoist today probably would fight for the corner man if necessary.—Indianapolis News.

Only One Hog Had Dollar.

A fat hog at the Omaha stock yards coughed up a dollar when "Snuff" Smith, an employee of a commission company, kicked it in the head. The hog was trying to run past him when he wanted it to go the other way. He gave it a vigorous kick. It coughed, sputtered a moment and then spat up the dollar.

Stockyard men throughout the rest of the day had a lot of fun about the incident. The commission company claimed the dollar. Smith claimed it. The owner of the hog claimed it, and as a result Smith spent it for cigars for the crowd.

A lot of the employees in the yards began to kick hogs right and left in the hope of shaking out another dollar. One employee said he had kicked 612 hogs during the day and hadn't got even a jitney.

Another Triumph for Woman Farmer.

Once again the adaptability and skill of women have confounded the critics—those incredulous critics, the farmers. They admit that in the recent efficiency tests at Maidstone, England, a very high standard has been reached. In the milking competition more than one-fourth gained over 90 marks. Two women thatchers, who had only been at the work for five weeks, secured the highest possible rating. The competitions were arranged by the Kent women's agricultural committee. Mrs. F. Heron-Maxwell, chairman of the organizing committee, said there were 9,000 women registered as land women in Kent, also 300,400 members of the "woman's land army."

Tunnel Would Pay for Itself.

It has been proposed to construct a railway tunnel under the Firth of Forth, Scotland, paralleling the famous bridge now spanning that body of water, and to pay for the tunnel by making it largely a coal mining proposition. Mining engineers point out that coal is now being mined on both sides of the firth from the same seams and that much of this excavating is done under water. At this point the estuary is only about two miles wide and it is contended that a continuous passage could be made beneath it by properly co-ordinating the mining operations. In this way what would otherwise probably prove to be too costly an improvement could be made with profit.

IN DUEL TO DEATH

Brave Old Buck Proved Himself True Knight.

Exhibition of Woodland Chivalry That Impressed Hunters in the Florida Everglades So Much They Spared the Victor's Life.

A couple of hunters on the border of the Florida Everglades were surprised to hear the wild snorts and whistles of a buck in fight, mingled with the plaintive bleats of a doe in distress—a combination of sounds that was unaccountable. The men crept cautiously up, and in five minutes reached the edge of an open glade.

In the center crouched a doe, wild with terror. By her side was a fawn only a few hours old, still too weak to follow its mother, while the old buck, with bristling hair, and antlers lowered, stood by, snorting in rage and defiance. His eyes, green with rage, followed some object moving in the palmetto scrub on the border of the glade.

Looking carefully, the hunters saw a young panther passing backward and forward in an effort to turn the flank of the doe and get at the fawn. A wiser beast would have abandoned the attack as soon as such a defender went on guard, but this panther was evidently in the full flush of his first strength, and without experience of the prowess of an old buck at bay.

Forward and back he crawled, spitting and snarling, only to find the buck always between him and the doe. At last he crouched for the spring. The buck, snorting grimly, braced all his muscles for the coming crash; he appreciated his danger, but dared the worst. The doe whimpered and closed her eyes, but did not desert her fawn.

The panther rose in the air and came down within ten feet of the buck. Then the buck went into the air, and falling with his feet together on the struggling cat, seemed to stab him through and through. Immediately the buck rose again and landed a dozen feet away. Then he lowered his head and plunged at the panther.

There was a confusion of flying dirt and grass, and again the deer sprang away. There were now deep cuts on his head and neck, and his antlers were splashed with red.

The panther now tried to creep away, but again the buck leaped, stabbed with his feet together and sprang away. The cat now lay gasping, while the buck watched him with his hair stiffened into a mane and eyes that nearly bulged from his head. Then the hunters walked forward.

When the buck saw them he must have realized that he was completely in their power. His proud crest fell, and he lost all the swelling part of the victory; but still he showed no intention of deserting the doe, but moved off and stood beside her. She crouched down again with the fawn.

The hunters walked over quietly and examined the panther. He was very badly cut up. Both shoulders were broken, and the antlers had passed repeatedly through his body. During the examination the buck stood quietly in plain view, and no gladiator saluting Caesar and conscious of being about to die ever showed more dignity.

Without a word the hunters walked off the field and left the old knight alone in his glory. Had he not shown knightly qualities—the chivalry that protects the weak, the courage that braves all odds in a good cause, and finally a dignified submission to what seemed the inevitable?

Praised for Devotion to Duty.

When the city of Norfolk, Va., was threatened with the complete destruction by fire of its thriving business section early in January, every available fire-fighting force at hand and from nearby towns was called into the battle. At the height of the fire the enlisted men of the United States navy on duty at the navy yard and in the harbor were called on to help not only in subduing the flames but controlling the crowds. To a man they gave a splendid account of themselves. Among these men was John Joseph McLoughlin, a chief boatswain's mate. Although he had worked all night, had narrow escapes and was drenched to the skin with ice-cold water, McLoughlin declined a relief when it was offered and remained on duty continuously until the danger was passed. For this conspicuous service he has been commended by Secretary of the Navy Daniels. McLoughlin enlisted in the navy in 1908 at New York.

Had Enough Eggs.

First Barber—I bet that fellow is a bum actor.
Second Barber—Why?
First Barber—When I asked him if he wanted an egg shampoo he put on his hat and walked right out.

Immense Export of Oil.

More mineral oils were exported from the United States during the fiscal year 1917 than ever before, the total amounting to 2,749,438,434 gallons.

Either One.

He—He's got an awfully red nose, but he swears he never touched a drop in his life.
She—Maybe it's water color.

No Danger.

"Don't take me out in the breakers. I feel so daisy."
"Then it's all right, if your head's swimming."

GOOD HEALTH IN WAR TIME

Algonquin Hotel, St. Andrews, N.B.

St. Andrews-by-the-Sea on Pamaquoddy Bay! Strange combination of old Scotland with the America of the Redskins! To the initiated this hyphenated cognomen spells "Joyful Living." Bountiful Nature, supplemented by inventive man, provides pleasures in varied abundance for those who seek rest or amusement in Canada's most popular Atlantic resort.

In war time we all owe to our country the duty of making the greatest effort to enable her to emerge triumphant from the struggle. So now one of our first duties to Canada is to keep ourselves in the best possible physical and mental condition, for without healthy vigor we are unable to aid to the fullest in the prosecution of the war. Working throughout the year every day, and often at night, periodic people are liable to find themselves under considerable nervous strain, and thinking the matter over they say: "I am too busy to take a holiday, though I know that is what I need." They continue to work, but with dwindling results. But if, instead of deciding on having no holidays they took a rest for a week, their health would undoubtedly be so improved that they would soon be able to make up for the time they were absent from work. Even engines made of steel cannot be kept incessantly on the run, and what steel cannot do, flesh and blood cannot do. A healthy holiday in war time helps to win the war.

Canada is fortunate above all other countries in possessing bracing health resorts by the seashore or in the lakes and forests inland, or in

Golf links at St. Andrews by the Sea.

the stupendous ranges of the Rockies. The Americans of the United States know this, and come here every summer in ever increasing numbers. Summer resorts, however, like propheta, are not always sufficiently recognized in their own country, and there are not a few who wonder why so many Philadelphians, and New Yorkers, and Bostonians should be so passionately devoted, for instance, to St. Andrews-by-the-Sea, in New Brunswick. Yet there is good reason for this. The blue waters of Pamaquoddy Bay offer splendid bathing and sea bathing, two sports indulged in to the full by many of the visitors. The country about St. Andrews-by-the-Sea is ribboned by charming walks and drives. A delightful bathing beach welcomes the swimmer at Katie's Cove, and there is fishing and boating for all who have a mind for such.

One of the popular attractions is a Bowling Green. Enthusiastic bowlers, and interested spectators

may be found upon it at all hours of the day or night. Being electrically lighted, the sport need not cease with the waning of the daylight.

Golf, however, is without doubt the game at St. Andrews-by-the-Sea. The links are famous far and wide. Hither at one time or another, come all golf celebrities, for St. Andrews does not draw clientele from Canada alone. Every expert in golf knows that the Royal and Ancient Game can be enjoyed to perfection only on a seaside course, and the course at St. Andrews has this great advantage. It also has the advantage of a famous professional, John Peacock, who has so laid out the links that they are the most sporting of their kind in North America. Fortunate are they who have the opportunity to follow the little white ball over that wondrous course laid out on Joe's Point overlooking the sparkling waters that lap these western sands, and then slip back into the great sea to some day wash the sands of far-away France.

SHIPPING AND SHIP BUILDING IN FULL SWING IN CANADA

Who would think of finding a busy seaport one thousand miles from the sea? Canada, that land of marvelous development, has one—it is Montreal, its metropolis. Built on the island of Montreal that lifts Mount Royal where the waters of the great St. Lawrence and Ottawa Rivers mingle, its site is admirable. This makes the head of ocean navigation and here the great ocean-crossing ships meet the lake and river boats.

The cargoes brought from the west by boat and rail are transferred to ocean carriers and start on their way to faraway ports by an initial voyage down the mighty St. Lawrence, thirty feet deep at this point.

During 1917 Montreal witnessed the sailing away from her wharves of more than sixty-five million bushels of grain. Over two-thirds of this grain came into Montreal by rail, chiefly on the tracks of the Canadian Pacific Railway and was handled with little or no congestion. This was accomplished through a co-operative arrangement. The representatives of all transportation lines met in conference with Montreal's Harbour Commission and

after discussion decided that 650 cars of export freight should be delivered daily by the Hnes, the Commissioners undertaking to handle that amount without congestion. This they have done successfully.

Because of secrecy entailed by the war, little has been heard concerning movements of vessels and it will surprise many to learn that 647 ocean vessels came into Montreal harbour during 1917. Naturally passenger travel has been greatly curtailed. The war demands nearly all available ship space for the transport of supplies. These have been going forward in immense quantities and landed on the other side with comparatively few losses—thanks to the efficient convey system maintained by England. In addition to the great grain shipments, other products of the fruitful Prairie Provinces—meats, fresh and cured, butter and cheese—are going forward in a steady stream to feed the hungry millions of Europe and our armies overseas.

This volume of shipping means unceasing activity in the elevators, warehouses and along Montreal's

waterfront. It has given an added stimulus to shipbuilding, the 1917 output of one firm being 9 steel trawler hulls, and installed supplied hulls and machinery; 8 steel trawler hulls complete with boilers and machinery; 26 wooden trawler hulls; installed machinery and boilers in 16 drifters; built and launched one 7,000-ton cargo boat; docked and repaired 80 vessels—a creditable showing. There are many more yards and they have all been correspondingly busy. Recently a new departure in shipbuilding was initiated when a concrete vessel was launched. If developments justify the use of this sort of craft, Montreal shipyards are ready to embark in the new industry. Such an event would call for more laborers and the installation of new machinery, all adding to Montreal's prosperity. There have been no labor troubles and work goes on week days, holidays and Sundays, without interruption. Not one of the 214 days—May to November, inclusive—was an idle day in the shipyards. These busy, well-paid workers spell good business for Montreal's merchants.

JULY 9, 1918

THE CARLETON PLACE

7

Copyright, 1916, by Little, Brown & Co.

For to prepare three times daily food for a dozen hungry men is no mean undertaking. One cannot have in a logging camp the conveniences of a hotel kitchen. The water must be carried in buckets from the creek near by and wood brought in armfuls from the pile of sawn blocks outside. The low roofed kitchen shanty was always like an oven. The flies swarmed in their tens of thousands. As the men sweated with ax and saw in the woods, so she sweated in the kitchen. And her work began two hours before their day's labor and continued two hours after they were done. She slept like one exhausted and rose full of sleep heaviness, full of bodily soreness and spiritual protest when the alarm clock raised its din in the cool morning.

For a week thereafter Benton developed moods of sourness, periods of scowling thought. He tried to speed up his gang, and, having all spring driven them at top speed, the added straw broke the back of their patience, and Stella heard some sharp interchanges of words. He quelled one incipient mutiny through sheer dominance, but it left him more short of temper, more crabbedly moody than ever. Eventually his ill nature broke out against Stella over some trifle, and she, being herself an aggrieved party to his transactions, surprised her own sense of the fitness of things by retorting in kind.

"I'm slaving away in your old camp from daylight till dark at work I despise, and you can't even speak decently to me," she flared up. "You act like a perfect brute lately. What's the matter with you?"

Benton gnawed at a finger nail in silence.

"Hang it, I guess you're right," he admitted at last. "But I can't help having a grudge. I'm going to fall behind on this contract, the best I can do."

"Well," she replied tartly, "I'm not to blame for that. I'm not responsible for your failure. Why take it out on me?"

"I don't particularly," he answered. "Only—can't you see? A man gets on edge when he works and sweats for months and sees it all about to come to nothing."

"So does a woman," she made pointed reply.

Benton chose to ignore the inference. He sat a minute or two longer, again preoccupied with his problems.

"Well," he said at last, "I've got to get action somehow. If I could get about thirty men and another donkey for three weeks I'd make it."

He went outside. Up in the near woods the whine of the saws and the sounds of chopping kept measured beat. It was late in the forenoon, and Stella was hard about her dinner preparations. Contract or no contract, money or no money, men must eat. That fact loomed biggest on her daily schedule, left her no room to think overlong of other things. Her huff over, she felt rather sorry for Charlie, a feeling accentuated by sight of him humped on a log in the sun, too engrossed in his perplexities to be where he normally was at that hour, in the thick of the logging, working harder than any of his men.

A little later she saw him put off from the float in the Chickamin's dinghy. When the crew came to dinner he had not returned. Nor was he back when they went out again at 1.

Near mid-afternoon, however, he strode into the kitchen, wearing the look of a conqueror.

"I've got it fixed," he announced. Stella looked up from a frothy mass of yellow stuff that she was stirring in a pan.

"Got what fixed?" she asked.

"Why, this log business," he said. "Jack Fyfe is going to put in a crew and a donkey, and we're going to everlastingly rip the innards out of these woods. I'll make delivery after all."

"That's good," she remarked, but noticeably without enthusiasm. The heat of that low roofed shanty had taken all possible enthusiasm for anything out of her for the time being. Always toward the close of each day she was gripped by that feeling of deadly fatigue, in the face of which nothing much mattered but to get through the last hours somehow and drag herself wearily to bed.

Noon of the next day brought the Panther coughing into the bay, flanked on the port side by a scow upon which rested a twin to the iron monster that

jerked logs into her brother's chute. To starboard was made fast a like scow. That was housed over, a smoking stovepipe stuck through the roof, and a capped and aproned cook rested his arms on the window sill as they floated in. Men to the number of twenty or more clustered about both scows and the Panther's deck, busy with pipe and cigarette and rude jest. The clatter of their voices uprose through the noon meal. But when the donkey scow thrust its blunt nose against the beach the chaff and laughter died into silent, capable action.

"A Seattle yarder properly handled can do anything but climb a tree," Charlie had once boasted to her in reference to his own machine.

It seemed quite possible to Stella, watching Jack Fyfe's crew at work. Steam was up in the donkey. They carried a line from its drum through a match block ashore and jerked half a dozen logs crosswise before the scow in a matter of minutes. Then the same cable was made fast to a sturdy fir, the engineer stood by, and the ponderous machine slid forward on its own skids, like an up-ended barrel on a sled, down off the scow, up the bank, smashing brush, branches, dead roots, all that stood in its path, drawing steadily up to the anchor tree as the cable spooled up on the drum.

A dozen men tailed on to the inch and a quarter cable and bore the loose end away up the path. Presently one stood clear, waving a signal. Again the donkey began to puff and quiver, the line began to roll up on the drum, and the big yarder walked up the slope under its own power, a locomotive tinneful of rails, making its own right of way. Upon the platform built over

the skids were piled the tools of the crew, sawed blocks for the fire box, axes, saws, grindstones, all that was necessary in their task. At 1 o'clock they made their first move. At 2 the donkey had vanished into that region where the chute head lay, and the great first stood waiting the slaughter.

By mid-afternoon Stella noticed an acceleration of numbers in the logs that came hurtling lakeward. Now at shorter intervals arose the grinding sound of their arrival, the ponderous splash as each leaped to the water. It was a good thing, she surmised, for Charlie Benton. She could not see where it made much difference to her whether ten logs a day or a hundred came down to the boomsticks.

A shadow darkened the door, and Stella looked around to see Jack Fyfe. "How'd do," he greeted.

He had seemed a short man. Now, standing within four feet of her, she perceived that this was an illusion created by the proportion and thickness of his body. He was, in fact, half a head taller than she, and Stella stood five feet five. His gray eyes met hers squarely, with a cool, impersonal quality of gaze. There was neither smirk nor embarrassment in his straightforward glance. He was, in effect, "sizing her up" just as he would have looked casually over a logger asking him for a job. Stella sensed that and, resenting it momentarily, failed to match his manner. She flushed. Fyfe smiled, a broad, friendly grin, in which a wide

of his men.

He went outside. Up in the near woods the whine of the saws and the sounds of chopping kept measured beat. It was late in the forenoon, and Stella was hard about her dinner preparations. Contract or no contract, money or no money, men must eat. That fact loomed biggest on her daily schedule, left her no room to think overlong of other things. Her huff over, she felt rather sorry for Charlie, a feeling accentuated by sight of him humped on a log in the sun, too engrossed in his perplexities to be where he normally was at that hour, in the thick of the logging, working harder than any of his men.

A little later she saw him put off from the float in the Chickamin's dinghy. When the crew came to dinner he had not returned. Nor was he back when they went out again at 1.

Near mid-afternoon, however, he strode into the kitchen, wearing the look of a conqueror.

"I've got it fixed," he announced. Stella looked up from a frothy mass of yellow stuff that she was stirring in a pan.

"Got what fixed?" she asked.

"Why, this log business," he said. "Jack Fyfe is going to put in a crew and a donkey, and we're going to everlastingly rip the innards out of these woods. I'll make delivery after all."

"That's good," she remarked, but noticeably without enthusiasm. The heat of that low roofed shanty had taken all possible enthusiasm for anything out of her for the time being. Always toward the close of each day she was gripped by that feeling of deadly fatigue, in the face of which nothing much mattered but to get through the last hours somehow and drag herself wearily to bed.

Noon of the next day brought the Panther coughing into the bay, flanked on the port side by a scow upon which rested a twin to the iron monster that

jerked logs into her brother's chute. To starboard was made fast a like scow. That was housed over, a smoking stovepipe stuck through the roof, and a capped and aproned cook rested his arms on the window sill as they floated in. Men to the number of twenty or more clustered about both scows and the Panther's deck, busy with pipe and cigarette and rude jest. The clatter of their voices uprose through the noon meal. But when the donkey scow thrust its blunt nose against the beach the chaff and laughter died into silent, capable action.

"A Seattle yarder properly handled can do anything but climb a tree," Charlie had once boasted to her in reference to his own machine.

It seemed quite possible to Stella, watching Jack Fyfe's crew at work. Steam was up in the donkey. They carried a line from its drum through a match block ashore and jerked half a dozen logs crosswise before the scow in a matter of minutes. Then the same cable was made fast to a sturdy fir, the engineer stood by, and the ponderous machine slid forward on its own skids, like an up-ended barrel on a sled, down off the scow, up the bank, smashing brush, branches, dead roots, all that stood in its path, drawing steadily up to the anchor tree as the cable spooled up on the drum.

A dozen men tailed on to the inch and a quarter cable and bore the loose end away up the path. Presently one stood clear, waving a signal. Again the donkey began to puff and quiver, the line began to roll up on the drum, and the big yarder walked up the slope under its own power, a locomotive tinneful of rails, making its own right of way. Upon the platform built over

the skids were piled the tools of the crew, sawed blocks for the fire box, axes, saws, grindstones, all that was necessary in their task. At 1 o'clock they made their first move. At 2 the donkey had vanished into that region where the chute head lay, and the great first stood waiting the slaughter.

By mid-afternoon Stella noticed an acceleration of numbers in the logs that came hurtling lakeward. Now at shorter intervals arose the grinding sound of their arrival, the ponderous splash as each leaped to the water. It was a good thing, she surmised, for Charlie Benton. She could not see where it made much difference to her whether ten logs a day or a hundred came down to the boomsticks.

A shadow darkened the door, and Stella looked around to see Jack Fyfe. "How'd do," he greeted.

He had seemed a short man. Now, standing within four feet of her, she perceived that this was an illusion created by the proportion and thickness of his body. He was, in fact, half a head taller than she, and Stella stood five feet five. His gray eyes met hers squarely, with a cool, impersonal quality of gaze. There was neither smirk nor embarrassment in his straightforward glance. He was, in effect, "sizing her up" just as he would have looked casually over a logger asking him for a job. Stella sensed that and, resenting it momentarily, failed to match his manner. She flushed. Fyfe smiled, a broad, friendly grin, in which a wide

of his men.

month's work to show for it, even teeth.

"Say," he asked easily, "how do you like life in a logging camp by this time? This is sure one hot job you've got."

"Literally or slangily?" she asked in a pleasant tone. Fyfe's reputation, rather than colored, had reached her from various sources. She was not quite sure whether she cared to countenance him or not. There was a disturbing quality in his glance, a subtle suggestion of force about him that she felt without being able to define in understandable terms. In any case she felt more than equal to the task of squelching any effort at familiarity, even if Jack Fyfe were, in a sense, the

convenient god in her brother's machine. Fyfe chuckled at her answer.

"Both," he replied shortly, and went out.

Lying in her bed that night, in the short interval that came between undressing and wearied sleep, she found herself wondering with a good deal more interest about Jack Fyfe than she had ever bestowed upon—well, Paul Abbey, for instance.

She was quite positive that she was going to dislike Jack Fyfe if he were thrown much in her way. There was something about him that she resented. The difference between him and the rest of the rude crew among which she must, perforce, live was a question of degree, not of kind. There was certainly some compelling magnetism about the man. But along with it went what she considered an almost brutal directness of speech and action. Part of this conclusion came from hearsay, part from observation, limited though her opportunities had been for the latter.

Miss Stella Benton, for all her poise, was not above jumping at conclusions. There was something about Jack Fyfe that she resented. She irritably dismissed it as a foolish impression, but the fact remained that the mere physical nearness of him seemed to put her on the defensive as if he were in reality a hunter and she the hunted.

Fyfe joined Charlie Benton about the time she finished work. The three of them sat on the grass before Benton's quarters, and every time Jack Fyfe's eyes rested on her she stole herself to resist—what, she did not know. Something intangible, something that disturbed her. She had never experienced anything like that before; it tantalized her, roused her curiosity. There was nothing cool about the man. He was nowise fascinating, either in face or manner. He made no bid for her attention. Yet during the half hour he sat there Stella's mind revolved constantly about him. She recalled all that she had heard of him, much of it, from her point of view, highly discreditable. Inevitably she fell to comparing him with other men she knew.

She had, in a way, unconsciously been prepared for just such a measure of concentration upon Jack Fyfe. For he was a power on Roaring Lake and powerful—physical, intellectual or financial—exacts its own tribute of consideration. He was a fighter, a dominant, hard bitten woodsman, so the tale ran. He had gathered about him the toughest crew on the lake, himself, upon occasion, the most turbulent of all. He controlled many square miles of big timber, and he had got it all by his own effort in the eight years since he came to Roaring lake as a hand logger. He was slow of speech, chain lightning in action, respected generally, feared a lot. All these things her brother and Katy John had sketched for Stella with much verbal embellishment.

(To be Continued)

Sartorial Discard.

Field Marshal Sir Evelyn Wood was greatly attached to a regiment of highlanders when the latter were stationed at Portsmouth. Sir Evelyn, then a captain, one day returned from London and with great hurry proceeded to array himself for parade. When he at last emerged he observed that his men were evidently at great pains to conceal their laughter, and he quietly questioned his subaltern as to the probable reason.

"Well, sir," replied the latter, "you are dressed correctly as to kilt, sporran and all the rest of it, but you have forgotten to remove your tall hat!"—London Standard.

IMPROVED UNIVERSAL INTERNATIONAL

SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)

LESSON FOR JULY 14
READING GOD'S WORD.

LESSON TEXT—Psalms 19:7-11; Acts 8:26-29.

GOLDEN TEXT—Ye shall know the truth, and the truth shall make you free.—John 8:32.

ADDITIONAL MATERIAL FOR TEACHERS—Psalms 37:31; 119:9-16; Proverbs 18:12; Isaiah 65:9-11; John 5:39-46-47; Romans 1:4.

DEVOTIONAL READING—Psalms 119:9-16, 97-106.

1. Characteristics of God's Word (Ps. 19:7-11).

The Psalmist here sets forth six descriptive titles of God's Word, six outstanding qualities, and six resultant effects.

FIRST GROUP—1. Title: "The Law of the Lord" (v. 7).

By this is meant the fundamental principles which God as a moral being reveals to the consciences of men as binding upon the soul.

2. Quality: "Perfect" (v. 7). It is free from omissions and redundancies. It is perfect as a moral code, and it perfectly accomplishes man's salvation.

3. Effect: "Converting the Soul" (v. 7). The practical effect of the law of God is to turn men to God himself, righteousness and holiness.

SECOND GROUP—1. Title: "The Testimony of the Lord" (v. 7).

It is the witness which God bears as to his attributes, and against man's sins.

2. Quality: "Sure" (v. 7). It is plain and infallible. We can repose in it our interests for time and eternity.

3. Effect: "Making Wise the Simple" (v. 7). The simple are those who have humble, open and teachable minds.

THIRD GROUP—1. Title: "The Statutes of the Lord" (v. 8).

These are the principles or charges which the Lord gives to us all, to fit us to rightly perform the duties which the different relations of life make obligatory upon us.

2. Quality: "Right" (v. 8). They are from the righteous God and are absolutely just and equitable.

3. Effect: "Rejoicing the Heart" (v. 8). The true heart rejoices in justice and equity.

FOURTH GROUP—1. Title: "The Commandment of the Lord" (v. 8).

This brings into view the personal God who stands back of his law to enforce its demands—to require obedience to its precepts.

2. Quality: "Pure" (v. 8). It is free from deceit and error.

3. Effect: "Enlightening the Eyes" (v. 8). The effect of God's law is to give man ability, not only to understand his love and salvation, but to be wise as to the things about him.

FIFTH GROUP—1. Title: "The Fear of the Lord" (v. 9).

Reading the Word of God produces reverential fear in the heart of the reader.

2. Quality: "Clean" (v. 9). It is not only clean in itself, but sanctifies the heart of those who receive it.

3. Effect: "Enduring Forever" (v. 9). The life and relationship founded upon his law abide forever.

SIXTH GROUP—1. Title: "The Judgments of the Lord" (v. 9).

By this is meant the sentences pronounced by God's Word.

2. Quality: "True and Righteous" (v. 9). The penalties prescribed by God are true, conformable to the intuitive moral sense of man.

3. Effect: "Serve as Warnings and Bring Reward" (v. 11). If the warnings be heeded, shipwrecks upon life's sea will be prevented. Besides God pays a wage for obedience to his laws. Godliness is profitable unto all, having the promise of the life that now is, and that which is to come.

II. A Notable Example of Bible Study (Acts 8:26-29).

1. Who It Was (v. 27). The Ethiopian eunuch, a man of great authority. He was the secretary of the treasury of the Ethiopian queen. The wisest and best men and women of the earth have been reverent students of the Bible and have testified to its beauty and power.

2. The Circumstances of (v. 28). It was while traveling that this great man was studying the Bible. This is a most excellent way to improve moments while on a journey.

3. Doing Personal Work (vv. 29-37). Philip was taken from his great evangelistic work in Samaria and directed to go to the desert. The Spirit directed Philip to join himself to the chariot in which the Ethiopian was traveling. Philip ran in obedience to the Spirit's command. One should be alert for the Spirit's direction as for the individual with whom to do personal work. The eunuch was inquiring after the way of life. But still he needed the help of a Spirit-taught man.

THE CENTAUR COMPANY, NEW YORK CITY.

HOSPITAL WILL BENEFIT.

Generous Gifts In Will of the Late John Ross Robertson.

TORONTO, July 1.—After providing for a number of personal and public bequests, the will of the late John Ross Robertson, founded of the Evening Telegram, which is now being prepared for probate, directs that his estate, together with its increase during the lifetime of his wife and son, shall pass after their death to the Hospital for Sick Children in the City of Toronto. In the meantime the support of the hospital, in which the late publisher was so deeply interested, is dependent, as in the past, upon the voluntary contributions of the public. Mr. Robertson's executors being directed to contribute from the estate for that purpose, the sum of \$10,000 annually. The bequests to the hospital become null and void unless it is maintained exclusively as a hospital for sick children, and not affiliated in any way with the Toronto General Hospital, or any other hospital or infirmary. He requests that his son, Irving E. Robertson, or some other executor, shall have a place on the hospital board.

The testator further directs that subject to the editorial control of John R. Robertson, the Evening Telegram shall continue to be published as "a daily journal, independent and unbiased in municipal, provincial, Dominion and Imperial politics."

The executors who are to carry out the terms of this will are: Mr. Robertson's wife, Jessie Elizabeth Robertson; his son, Irving Earle Robertson; his nephew, Douglas Sinclair Robertson; Mr. John Robinson, editor of the Evening Telegram, and Alfred Taylor Chadwick, business manager of the same. In the conduct of the Evening Telegram these trustees are to have "absolute control and management of the same, free from the interference of any other person or persons, firm or corporation, directly or indirectly."

It is further stipulated that "if the Hospital for Sick Children shall in any year make any attempt to investigate or audit the accounts, either by process of law or otherwise, all payments to it shall thereupon cease."

It is characteristic of Mr. Robertson's business methods that he left not a share of stock. Mr. Robertson's last will and testament was drawn on February 7, 1918, in Toronto, by E. Douglas Armour, K.C. The principal items in the estate are: Building and property publishing plant and supplies and accounts receivable of the Evening Telegram, valued at \$736,000; house properties, assessed value, \$41,375; Victory Bonds and cash, \$390,000; life insurance, \$22,350.

RHEUMATISM ARRESTED

Many people suffer with lame muscles and stiffened joints because blood impurities have invaded the system and caused rheumatism.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Try it.

R. J. ROBERTSON, Principal.

WAR TIME BREAD

CORN FLOUR BREAD.

2½ pounds standard flour
¾ pound corn flour
1 tablespoon brown sugar
2 tablespoons salt
½ oz. yeast
1 tablespoon fat
3 cups of water
This should produce 4½ pounds of bread.

BARLEY FLOUR BREAD.

5 2/3 cups wheat flour
1 1/3 cups barley flour
2 cups milk and water
1 cake of compressed yeast
2 tablespoons sugar
2 tablespoons fat
2 teaspoons salt
This should make two loaves.

RICE YEAST BREAD.

8 cups standard flour
7 cups boiled rice
½ cup milk and water
½ cup warm water (for yeast)
½ cake compressed yeast
4 teaspoons sugar
4 teaspoons fat
1½ teaspoons salt.

When ready for the pans will look like a stiff drop batter. The quantities mentioned make two loaves.

Carleton Place to Help Y.M.C.A.

The new "Hub," the Y.M.C.A. building at Petawawa camp is a popular resort with the men. A reading and game room is one of the features of the institution. Robert Hannah, the Social Director of the Y.M.C.A. there, is in need of popular and current magazines, books, reviews and papers of recent date. Recently a parcel containing magazines as ancient as 1908 issue, and none more recent than 1912 was received. This parcel was practically useless. It is not complimentary to the intelligence of our soldiers to send them anything but the best and most recent reading material. What is wanted is good snappy, up-to-date reading matter such as the Sphere, Graphic, reviews of current events as Literary Digest, humorous papers, etc. People in the vicinity of Petawawa Camp can help materially by handing in magazines and papers as soon as they are read by themselves. Rev. W. A. Dobson has been authorized to receive and forward magazines and papers to Petawawa camp from Carleton Place and vicinity. These may be left at the offices of the Herald or Central Canadian or at Zion manse.

Promotion Results of S.S. No. 8.

Sr. Primer—Marguerite McKae, Jr. Primer B—Gordon Lowe, Frank Lowe, Jr. Primer A—Bessie McLaren, Bessie Whyte, Willie Lowe.

Ninety per cent of the disabled soldiers returning to Canada are making good, some of them in new trades, according to an address at the Engineers Club.

How is Your Appetite?

Loss of appetite during the summer months is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people—especially women—go too long without food, or eat sparingly because food seems to distress them, and it is no wonder that they complain that they are constantly tired and unable to stand the hot weather. This simply means that the digestive system is not doing its proper work, and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words the blood is growing thin and watery.

You need a summer tonic, and in all the realm of medicine there is no tonic can equal Dr. Williams' Pink Pills. Take a short treatment with these pills now and notice how promptly your appetite returns and your power to digest food improves. Your food will then do you good, your strength will return and you will no longer complain that the hot weather tires you out.

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Rod and Gun for July is a special fishing number, most of the stories relating to the pursuit of the finny tribe, with just enough variety to make the number of interest to those whose allegiance to the piscatorial art is divided among other outdoor sports. The usual departments are well maintained, the Trap department containing an illustrated write-up of the recent tournament of the Dominion Trap Shooting Association at Hamilton, and the Kennel department the list of awards at the London and Montreal Shows. "Snooping in France," by a professional Sniper is only one of the fine articles appearing in the Guns and Ammunition section. Rod and Gun is published by W. J. Taylor, Limited at Woodstock, Ont.

Have You Applied for Help FOR Haying, Hoeing & Harvesting?

If you have not yet done so, and you need help—send in your application at once. Otherwise you may lose your choice of the experienced men.

We have worked hard to get this labour for you—and we have succeeded.

We have lined up hundreds of men willing to go (and they are all more or less experienced in summer farm work).

These men will be sent only to farmers in the following counties: Carleton, Dundas, Glengarry, Grenville, Lanark, Leeds, Prescott, Renfrew, Russell and Stormont.

Many first-class men are giving up their holidays, as they did last year, and some are even sacrificing good city wages to be of assistance to you.

But don't delay—the best men are always picked up first.

If you want help apply for it NOW. Fill out the form below or get your local banker to do it for you.

We will give your wants prompt attention.

Ottawa Branch, Organization of Resources Committee

J. R. REID, Chairman

T. D. MCFARLANE, Chairman of Labor

R. B. FAITH, Secretary, Journal Building

Fill out and mail this Coupon NOW or ask your Local Banker to do it for you.

R. B. FAITH, Secretary Ottawa Branch, Organization of Resources Committee, Ottawa, Ontario.

Dear Sir:

I expect to need men for months, commencing about
I am willing to pay wages per month. I prefer men who can do
(State kind of work you want men to do.)
