According to neighbors of John Norman Bogue, farmer, at Lambeth, Mr. Bogue stated that the night be-fore the jail delivery, "Pat," accom-panied by two other men, drove up to the farmhouse after he had retired or the night. Leaving the car at the gate, the men walked into the house and made themselves at home. Nor-ton walked up the stairs to the door of Bogue's room and pushed open the door. With a gun in his hand, he told the farmer that if he knew what was good for him he would not move of bed until the morning. out of bed until the morning. He then closed and locked the door. Going downstairs again, the men rummaged around for something to eat, but did not find anything.

'Pat' again went upstairs, this time to the room of his wife, Mrs. May Norton, whom he awakened, and ordered her to get up and dress. She did so, and he next forced her downstairs, emphasizing his commands with a revolver. She was made to set a meal ready for the three men, who ate heartily. After a few minutes they left the house, "Pat" taking with him a locked case, containing tools, which he had left there on a previous visit. They were heard to get into the car and drive away to-wards the main road.

This morning, Mr. Bogue told The dvertiser that while it was a fact hat Norton had visited his farm beeen the time of the bank robbery and the escape from jail of the Mur reals, nothing untoward had occurred.

Conservatives and Liberals Are United in Criticism of the Act's Administration.

Canadian Press Despatch. Toronto, May 30 .- With the excepion of the usual general charges by the "outs" of government mismanagement, and the arguments of the "ins" in defence thereto, the paramount issue in the present campaign for the Ontario provincial elections on June 25 is in regard to the administration of the Ontario temperance act. This is indicated by the attention paid to the subject by the political speakers at party nomination meetings, as well as by the leaders in their various speaking

There is no suggestion, officially by any of the responsible leaders of the parties that there should be any modification in the prohibition applied to the province by the Ontario temperance act, which broadly speaking makes illegal the selling of in toxicating liquor (of an alcoholic content of more than two and one half per cent) to any person without a doctor's prescription. All of the parties advocate the rigid enforce-ment of the measure, unless and until the people of the province, by plebiscite or referendum, ask for something different. Toronto, May 30.-In a statemen given out by the provincial police commissioner's office at noon today it was disclosed that Rogers was seen his morning about 6 o'clock (standard time), when he crossed Lake Nipissing in a skiff. He had been wounded in the face either by broken place when he fired through the door knowing whether friend or foe, I a farmer who saw him land on the farmer and asked him if he had a gun had not. The fugitive then entered the bush without further questions. After making his escape from the house, Rogers rushed through main section of the town and broke into a store, presumably with the in-tention of obtaining ammunition, but he was disturbed before he could equip himself. He next entered a garage and endeavored to start motor car, but the engine was not in working condition, and he fled to the lake front, where he stole the with which he crossed the lake. Rogers is dressed in a blue suit and is wearing a dark felt hat and leggings.

Net Slowly Closing. The police net is believed to be slowly closing around the fugitive. He s known to have a Winchester rifle and a few cartridges. The police do

He was greeted by Mr. and Mrs. Ross and a few members of the immediate family, having a few words with all of them in a most informal way. He then took Mr. Ross off by himself, and they went to look at the farm and the large flock of pure-bred sheep. While inspecting the animals he remarked to Mr. Ross that it was too bad that there were not more sheep raised in Canada. After a few minutes they once more returned to the party and were all photographed.

Acts Like Member.

At tea, which was served in the house, Baron Byng joined in the general conversation as though he were one of the family. Mr. Baldwin is hailed today by the newspapers as an extremely popular prime minister, all shades of opinion prime infinister, an shades of opinion accepting him as a great unifying force to domestic, as well as foreign politics. He has not attained a complete reunion of the Conservative party, but he has given promises that the differences should be healed soon. On the surface his reception by the party members and by the House of Commons is practically understable many animous, but underneath lie many bitter disappointments. At the party conclave, the old peers waved their top hats in saluting him, but they also waved farewell to any chance of a peer becoming prime minister.

A Complete Line-Backed by an Unequaled Service Organization

The profits of any business are closely related to the effectiveness of the hauling and delivery equipment used. Many lines of business demand a truck combining the sturdiness and endurance of the heavy-duty truck with the flexibility and speed of the touring car. Such a truck may be the exact equipment needed for your business.

The Model S INTERNATIONAL SPEED TRUCK meets this demand. It is designed and built from the ground up to serve as a truckto operate at high speed with capacity loads and give low-cost service over a long period of years. The power plant is a sturdy four-cylinder engine, with the necessary margin of power to overcome difficult hauling conditions. The internal gear final drive and all other units measure up to the standard of quality set by International engineers. The Model S is equipped regularly with heavy pneumatic cord truck tires, power tire pump, electric lighting and starting system and speedometer. Best of all it is a "Made in Canada Product."

The INTERNATIONAL SPEED TRUCK and the entire International line of trucks stand on a foundation of more than ninety years of successful manufacturing experience. Their daily performance is backed by the unequaled International after-sale service, with free inspections at regular intervals. There are eleven sizes of INTERNATIONAL MOTOR TRUCKS, from the 2000-pound speed truck to the 10,000-pound truck for heavy-duty service. Bodies can be supplied for every hauling purpose.

Father of Lorene Langford Sues G. T. R. and County Following Son's Death.

MADE COMPLAINT

Vernon Brooks Testifies He Warned Engineer of Weakness of Structure.

Tuesday afternoon's session of the supreme court was taken up with hearing evidence in the case of Lang-ford versus the County of Middlesex. Lorene Langford, who lived in the county, was killed at 4 p.m. on the afternoon of January 10, 1922, when the car he was driving fell through a G. T. R. bridge west of the city to the tracks 25 feet below. His exicutors in this action are suing the and the railroad for unstated dam-

Mr. J. M. McEvoy, K.C., is appearing for the plaintiff: J. C. Elliott, the county solicitor, for the County of Middlesex, and Mr. Gillanders of Toronto for the G. T. R. At 6:30 Mr. McEvoy ran out of witnesses, and at 6:40 the court adjourned until 8 this

Mr. Langford, the father of the dead man, in his evidence stated that in his opinion the railroad bridge had been in a dangerous condition, and that the railings at the side were flimsy and held in place by wire strands. Some of the uprights of the railing were rotten, he asserted, and he thought there was no resisting power in them. He admitted to Mr. Gillanders that he had failed to notify the county authorities before the time of the accident. He stated that there were several patches made of 3 by 10 inch planking, whose edges were not beveled, and which he considered a danger to drivers of cars on the

Vernon C. Brooks, living in the vicinity of the fatality, said the bridge had always seemed to him to be in bad condition, and that he had on several occasions complained of it to the county engineer, Mr. Talbot. John R. Brooks, son of the last witness, declared that he was driving a team over the bridge for some months previous to the smash. He said it had appeared to him as an unsafe affair, and that he had complained to a Mr. Ayres, who worked on the railway, about the bridge, and after the accident had found one of the railing uprights lying on the tracks and it was rotten.

Thomas Foster, another resident of the district near the bridge, who stated that he had traveled over it the railing at the side of the bridge "Why, it would fall over was rotten. a man leaned against it," he de-

Ottawa, May 30 .- The conference between Manitoba representatives and members of the Federal Government regarding the Lake of the Woods situation fell short of reaching an agreement, although it is intimated that Premier King and his colleagues have now a more sympathetic view point with respect to the Manitobs case than they had hitherto.

There were present at the confer-ence Premier King; Sir Lomer Gouin, minister of justice; Hon. Charles Stewart, minister of interior; J. B. Stewart, minister or interior; J. B. Challis, head of the federal water powers branch, representing the government; Mayor Farmer of Winnipeg; J. Prudhomme, city solicitor; J. W. Sanger, chief engineer of the Winnipeg Hydro-Electric; R. vides for the repeal of the legislation passed by the Meighen government in 1921, under which all works on the waters are regarded as for the benefit of the Dominion, and against which the Drury government of Ontario has consistently protested as being an infringement upon provincial rights. In November last, representatives of the three governments affected met in camera, and an agreement was reached whereby the repeal of the legislation should be made conditional upon certain important safeguards to Manitoba interests being provided. Conditions.

These conditions were as follows: One—That investigation be made to ascertain whether or not a sub-stitute dam could be secured for that at Norman, now held by the Backus interests and controlling the Winnipeg River flow, or as an alternative, that steps be taken by either the federal or provincial authorities to ex-propriate the Norman dam.

Two-That the Province of Ontario reserve storage rights for Winnipeg on the English River, with regulation facilities at the outlet of Lac Seul.

Three—That the board to be created under concurrent legislation shall have its powers defined and methods of regulation as between the govern-

ments clearly set forth.

These conditions were framed last November, but the Ontario Govern-ment so far has done nothing to implement them. Premier Drury has stubbornly insisted that the Dominion Government withdraw from his domain and that the Meighen act be repealed.

Change of Ownership Sale

For 10 DAYS of Ladies' SUITS, COATS, DRESSES SKIRTS, WAISTS and MILLINERY

Twenty years ago this store made its first bow to the buying public, with the golden rule as a business creed, and not once in those twenty years has it been violated. After these years of pleasant associations in business, Mr. Rose, the founder of this business, now retires from it, and Mr. Max Zankan of the Fashion Cloak and Fur Company of St. Catharines takes over the ownership with this announcement: Mr. Zankan has been for fifteen years in the ready-to-wear business, and now buying for two stores enables him to purchase at the closest market price, which means that you can save money when you buy at the Metropolitan. The same honest, straightforward business principles that have made so many friends for this store in the past will be adhered to. "High-Grade Ladies' Wearing Apparel and Millinery at the Lowest Prices" will be our motto. In making his bow to the citizens of London, Mr. Zankan offers startling bargains in a whirlwind ten-day sale.

Sale Begins THURSDAY at 9 a.m.

The fact that a Liberal candidate is liable to lose in a certain riding is not sufficient reason for keeping him out. One of the best fights of the last Dominion cam- undone. paign was put up by a man who had practically no organization at all to start out with. Major Duncan C. warrant an increase of 30 per cent in government Ross in East Middlesex was an unknown quantity when officials. he entered the campaign. He had practically no funds. and no one knew him in many sections. Yet he went at it, worked all the time, canvassed, spoke at meetings, and never quit until the last vote was polled. He failed, but it was no disgrace to him.

It is not good business to stand around too long to get in and become accustomed to it. People have spots been known to become very vigorous swimmers in cold water. They had to swim in order to keep from freezing on the one hand or sinking on the other.

Liberalism in Ontario has a good chance to come back strong in this election. If our brand of Liberalism is not broad enough and genuine enough to appeal to Labor men and Farmers as well as Liberals, then there is something wrong with the brand of Liberalism we are

Liberals are not called upon to stand to one side: they have no apologies to make for the platform they are presenting to the people.

Let Us Tackle This Question.

A circular has been sent out from Montreal calling attention to the fact that 14,060 individuals have left certain sections of Quebec in the last year, most of them going to United States.

In this we are making a serious mistake, because the problem of Ontario and the problem of Quebec is primarily to stop emigration rather than encourage station and the undertaker.

Every town and city has some organization that could get to work. Manufacturers will find it to their interests to look carefully to their system of treating employees, and making a special effort to go ahead as far as possible in their production campaigns.

Municipal councils can seriously lay their hands to the work of making certain that there is the least possible amount taken from the pockets of the men who want to live in these places and own their own

Legislators at Ottawa and in provincial centers should be zealous to see that they do not take from the people one bit more than is necessary to meet the positive needs of government.

Reduced to a sentence—the problem we have to costs within reach of that decent wage.

We do not believe conditions in United States are fundamentally better than they are in Canada, nor do we believe that the present business boom there will last. While that may be admitted, we must today face facts, regardless of theories about fundamentals.

one of us can long escape the necessity for such service as the hospital certain, it is so filled with dangers and pitfalls, and it is so menacing in its hazards that no one of us can scorn the protection that these institutions of healing afford.

Hospitals are not money-making concerns. They are not intended to supply employment or to enhance reputations. They do both these things, but their primary objects are to lessen human suffering and to prolong human life.

No citizen has performed a duty he owes his community until he has contributed to the local hospital. Unless he is a stockholder or a supporter, he has no right to expect favors when his turn arrives. best thing about it, however, is that the hospital, its doctors and nurses, and all its staff, will turn out to the last person to render aid to the meanest man in the neighborhood. If he i sick or injured, no questions are asked and no accounting demanded because of the lifetime of neglected

He may have cursed or laughed at the hospital, he may have treated its solicitors with scorn, he may have sneered at its needs. In spite of all this, the hospital will be there to strain its every facility to serve him when he is brought in as a patient. Look about you. Where is your nearest hospital? Is there one maintained by your church, by your nationality, by your community? No matter whether you have any special tie, that hospital is your hospital. It will help you when you need help. Help it when it needs your help.

The hospital is one of the noblest human institutions. Let us p the hospitals to enlarge vice. By so doing we are laying up

TO THE EDITOR.

MRS. EDDY AND THE KEY TO THE SCRIPTURES.

To the Editor of The Advertiser: Sir,-May I, through your valuable paper, ask Christian Scientists a couple of questions, just for information, re Mrs. Eddy and "The Key to the Scriptures?" When John was in the isle that is called Patmos, for the word of God, and for the testimony of Jesus Christ, things which must shortly come to pass, he was in the spirit on the Lord's day, and heard behind him a great voice as of a trumpet saying "I am Alpha and Omega, the first and the last, and what thou seest write in a book, and send it on to the seven churches which are in Asia (Rev. ch. i., 9-11). And unto the angel of the church in Thyatira write; I know thy works and charity and service, and faith, and thy patience, and thy works; and the last to be more than the first. Notwithstanding I have a few things against thee, because thou sufferest that woman Jezebel, which calleth erself a prophetess, to teach and to educe my servants to commit fornion the banks of the stream. They body caught in a snag and seduce my servants to commit fornication, and to eat things sacrificed unto idols; and I gave her space to repent of her fornication, and she repented not, but unto you I say, and unto the rest in Thyatira as many as have not this doctrine, and which as they speak; I will put upon you none other burden but that which ye have already; hold fast till I come. "And he that overcometh and keepeth my works unto the end, to him will I give power over the nations. And I will give him the morning star." Rev. ii., 18-28. Rev. xxii. 16), And to the angel of the church in Philadelphia write: "These things saith he that is holy, he that is true, he that hath the key of David, he that openeth, and no man shutteth, and shutteth, and no man openeth; I know thy works; behold I have set before thee an open door, and no man can shut it; for thou hast a little strength, and hast kept my word, and

hast not denied my name. "Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come der a handicap as compared with the upon all the world, to try them that dwell upon the earth." Hold that fast which thou hast, that no man take thy crown." (Rev. 11., 7-12.) And turers of Ontario appeared before the government this morning asking that the right hand of him government this morning asking that within and on the back side, sealed changed to remove what they claimed with seven seals. And John wept was a discrimination as between much because no man was found worthy to open and to read the book (the Bible), neither to look thereon. 'And one of the elders saith unto John, weep not; behold, the lie the tribe of Juda, the book of David, hath prevailed to open the book (Bible), and to loose the seven seals thereof." (Rev. v., 1-5). "And he that sat upon the throne said to John.
"Behold, I make all things new," and
he said unto John, "It is done." I am Alpha and Omega, the beginning and the end. He that overcometh shall inherit all things; and I will be his God, and he shall be my son." (Rev. xxi., 5-7). Hence, I ask Christian Scientists, just for information, is Mrs. Eddy that promised seed of the tribe of Juda, having the key of David, to the Scriptures that openeth and no man shutteth, and shutteth and no man shuttern, and someteen and no man openeth, or are we to look for another? If Mrs. Eddy is, that promised seed having the key to the Scriptures, then I ask how is it in all the quotations that I have cited concerning that promised seed and many others too numerous to mention here, stead of the feminine gender

CRONYN STATES BRITISH CAPITAL FEARS LABOR

STATES LABOR ACTIVITY **SOURCE OF GREAT WORRY** TO BRITISH CAPITALISTS

Hume Cronyn Returns From Business Trip to England — Declares Large Sums of Money Being Sent Out of Country-Has Little Effect on Industries-Unemployment Is Abating.

PEOPLE SETTLING DOWN TO HARD WORK

trembling in the shadow of the Labor party, according to Hume Cronyn, who returned yesterday from an extensive business trip in Great Bri-

Belief prevails throughout Britain, Mr. Cronyn informed The Advertiser, that the Labor party will gain control of the government in the near future, and feeling certain that a levy on capital will follow, men of wealth are sending huge sums of money out of the country.

This money, he said, was being invested in foreign securities, chiefly in the United States. Many were seeking to purchase American raiload stock, much of which was held

by Britishers before the war.

Mr. Cronyn places some of the blame for this near panic on the low rates for money prevailing in England. The banks he said were pay ing practically nothing for in the way interest on savings accounts. The rate in some cases was as low as one per cent.

Causes Demand.

In addition to sending money out of the country the low rates for money had caused an abnormal demand for government securities, both domestic and foreigr, The value of these securities were rising in an astounding way.

"Has this drain on the circulation of money within the nation had any serious effect on industry?" Mr. Cronyn was asked.

"Very little," he replied. "The men who stand behind the industries of the country are not sending money out of the country, but only wealthy individuals, whose riches are negotiable and who depend on speculations and investments for returns."

The uneasiness of this particular class was not typical of the whole of England, Mr. Cronyn stated.

"England, Mr. Cronyn stated.
"England has her house in order.
This was my first trip since 1920, and I found a distinct change in the mental attitude of the people. They have settled down to hard work and much of their oldtime confidence has

"The practical healing of the old e caused by the Irish trouble, and the settlement of the American debt has contributed much to the peace of mind of the nation, and the people have turned to industry with a

"Does that mean that there has been a great revival in business?"
"No, not exactly that. Business is reviving, but slowly. The people have settled down to a long hard srind, which will surely carry them tarough to better times."

tarough to better times."

"Is there much unemployment?"

"England is over some of her labor trouble; but there is still much unemployment. The number of unemployed has been decreased sensibly but the dole paid out by the government still makes a heavy drain on the resources of the country. It is claimed in some sources that the dole is having a demoralizing effect. It is claimed, chiefly by capitalists of course, that the 'unemployed are the 'unemployed'.

Crushed By Taxes. Crushed By Taxes.

The people, he said, were curshed by heavytaxation but they were bearing the burden with little complaint. Some happiness was caused recently by a reduction of the tax on incomes and on beer.

"I was amused the day after the I was amused the day after the tax was lifted to see signs flashing before all the pubs, announcing to the public that beer was a half penny a pint cheaper. While the nation was bearing up While the nation was bearing up well under the strain there was some feeling of disappointment manifested because the United States had not volunteered to cancel the war debt. It was half expected that she would, Mr. Cronyn stated, but he explained the average Britisher has little conception of the problem confronting the United States. Despite this feeling there were no signs of hostility towards Americans.

Blames United States.

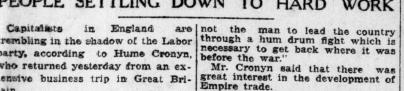

Britain was inclined to blame the United States to some extent for

the Ruhr tangle.
"The public in England is inclined to criticize France for the attitude she is taking toward Germany. But England sympathizes with France in her predicament. It is felt generally that if the United States had carried out promises made by Wilson that France would not have had to take steps to insure her national security against aggression by Germany."
England he said seemed content

for the most part under the leader ship of the present government. Sonar Law was held in high esteem because of his evident honesty and unselfishness. His resignation caused little surprise in England. Mr. Cronyn felt sure, because generally known that the ex-premier was in ill health.

Mr. Cronyn was also sure that the English people would take kindly to Mr. Baldwin as premier. Like Bonar Law he was respected for his hon-esty and sincerity, he said. Out Of Sight.

"Lloyd George has dropped out of t. I am quoting his opponents n I say that he was the man of hour when he lead England

Empire trade. Britishers are taking great interest in the coming Empire fair and elaborate plans are being laid to re-veal to the world the resources of the Empire."

New York, May 29.—Conditions look mighty favorable today for Prank Frisch of the Giants to gallop home is takes. He is likely to establish a record as one of the best all around men in the National League, for the senior the National League, for the senior baseball organization has not many men who can specialize along that line.

Frisch is not leading his league with the bat, but he is doing well enough with it to be called a mighty fine ball player if he can hold the pace he has struck. If the remainder of his work is up to the standard he has set so far, for he is going strong in base-running and in fielding.

It has been difficult since the war to dig up players in the big leagues who stood high all around. There has been home run smashers, sluggers, fair base-runners and occasional fielders of superskill, but those who tried to see all these qualities in one man looked until they thought they had astigmatism.

In the second of the series because the stop which he made of Baker's hit was only the sensational beginning to a climax that was even more sensational was not always sky in this cit.

of a climax that was even more sensational.

When Rawlings was with Boston and later with Philadelphia he proved his worth as a defensive ballplayer, and he was not always shy in hits either. He is far too good to languish on the bench in a league that needs ballplayers as the National does, and the Pittsburg Club now is better off in its weakest point than it has been since 1920. Get a man who can plug the holes around second base, and see how the clouds of care lift from the brows of the pitchers. When a pitcher thinks "They are not getting 'em for him," he is about as useful as a cold pancake.

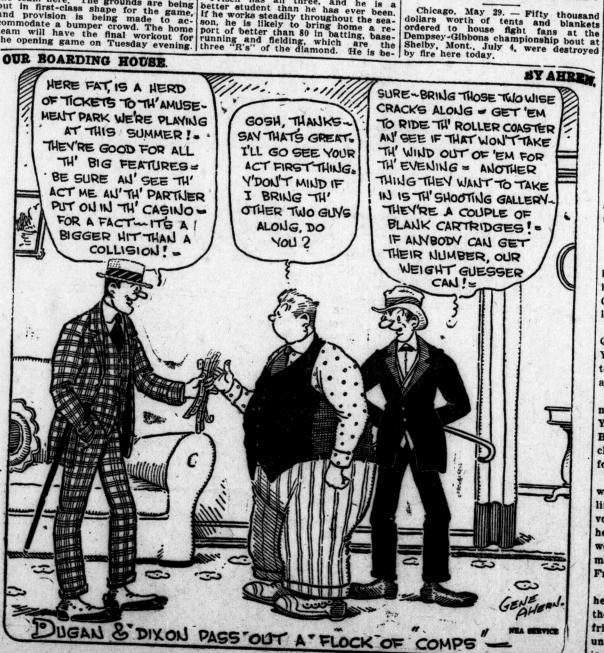

Hanay is continuing his run as a body losing, is questionable on the face of it, though junior, intermediat body losing, is questionable on the face of it, though junior, intermediat When a pitcher thinks "They are not getting 'em for him," he is about as useful as a cold pancake.

Haney is continuing his run as a wonderful defensive player for Detroit, and bids fair to establish one of the finest defensive totals a shortstop has hung up in the American League this long time. long tip in the American League this long time.

And look who is crowding him. With Gerber spearing them for St. Louis, with Scott playing better for the Yanks than last year, with Galloway keeping the Athletics in the limelight all the time, and Peckinpaugh better than a season ago, the American League for the moment is splashed all over with brilliant shortstopping that verges constantly on the sensational.

Quite the contrary. He bought the Red Sox at a bargain. He sold to the Yankees alone over half a million dollars' worth of players. He is believed to have been paid a million and a quarter for the club, which will give him

a profit upon his investment, which was not a heavy one.

Frazee was anything the Bostonians please but a hypocrite.

Mr. Frazee does not come out of the deal impoverished to any extent.

The baseball fans of Boston have been foaming at the mouth at the mere mention of Mr. Frazee's name ever since he sold Babe Ruth to the

Yankees and then proceeded to sell to the same club Schang, Mays, Scott,

Bush, Jones, Pennock and Dugan. As a matter of fact, Frazee sold the ball club by its individual players for a big sum, and then sold the remnants for a bigger price than he had originally paid for the entire property.

In his brief career as a baseball magnate, Mr. Frazee showed that he was one of the most astute businessmen among the businessmen in that line. While the Bostonians were demanding that he be declared null and

void, I must confess that I always liked Mr. Frazee as a magnate, because he frankly admitted that he was a speculator in baseball, and he never wept crocodile tears over the "good of the game" or pretended that he was a magnate for the sheer disinterested love of the national pastime. Mr.

Frazee was one of the consistent opponents of Ban Johnson, and

ME EVERY TIME" PITCHED NINE SHATOUTS :N 1919 AS WILD AS ANY CARRIED THE PHILS TO WHEN HE STARTED

When Grover Alexander's proud parents selected Cleveland as his middle name they made a mistake. They should have called him Grover Control Alexander.

For this master of batters has just stood the pitching records on end again with the most remarkable exhibition of accurate hurling in the game's history. When this was typed Alex the Great had hurled fifty-one consecutive innings without issuing a single base on balls. Consider that, mates. For five and two-thirds games this steady armed veteran had failed to issue four balls to one batsman. He had tamed the elusive horsehide to such an extent that not even the most exacting umpire could call four balls, high, low or wide, while one batsman pitted his skill against Alex's cunning.

And this achievement does not take. They should have called him Grover Control and the most remarkable feat of Alec's mindle many of the restriction of his pressibilition of his baseball was to one batsman pitted his skill playing Strath-roy on the latter's ground. Watford in your on the star pitchers, made a much beneated him Grover has been that had won two and lost one find your in the game's history. Alex's cunning.

And this achievement does not take the cake by an inning or two. Babe Adams held the previous record—a mere thirty-six innings.

Control has been Alexander's long suit since the third year in the big show. show.

Alex. started out with the Phillies in 1911 as wild as the average pitcher—if not wilder. In 1911 and 1912 he allowed a total of 236 bases on balls while working 677 innings, an average of 3.14 bases on balls to a game. Jim

new baseball league arose strong and vigorous.

Representatives of the Watford, Strathroy and Parkhill clubs met in Parkhill on Monday evening, and, in a fine burst of enthusiasm, proceeded to organize a new league, to be known as the L. and M. Baseball League. Each club, promised to stay with the new organization right to the close of the playing season.

The following officers were appointed: President, P. J. Doods of Watford, vice-president, Malone of Strathrov; secretary, W. MacPherson of Parkhill; treasurer, G. N. Siddall of Watford; executive committee, the officers, together with the president and secretary of each club. of each club.

LAURENTIDE IS ACTIVE AT MONTREAL OPENING

Over 1,600 Shares Change Hands and Price Reaches New High.

Reported for The Advertiser by Johnston & Ward.

Montreal, May 30 .- The outstanding feature of trading on the Montreal stock Exchange in the first part of to-day's session was the activity and strength in Laurentide pulp and paper. Over 1,600 shares changed hands, and from an opening of 97½, the prices steadily advanced to 99, thus establish-ing a new high level for the year and duplicating 1922's high. Official news on a possible merger between pulp and paper companies operating in the St. on a possible merger between puip and paper companies operating in the St. Maurice Valley is still lacking, but the performance of Laurentide lends color to the story that this company maight be involved in a gigantic amagemation in that district. Experts are said to be making a thorough inspection of all the properties and limits in that region and developments are looked for incessantly.

STANDARD EXCHANGE

Special to The Advertiser.

Toronto, May 50.—At today's brief session of the Standard Mining Exchange, which concluded at the noon hour in view of the American market being closed for Memorial Day, trading was active, with West Dome Lake. Vipond, Wasapika and New Ray among the chief contributors to the two hours turnover of approximately 182,000 shares.

turnover of approximately 182,000 shares.

West Dome Lake, of which 53,500 shares changed hands, was down at a steady price of 27½c, while New Ray ranged from 40c to 41c to 39c, closing unchanged at the last-named price. Vipond broke 4c for a net loss of 3c, recession being ascribed to the fact that the mine, in common with other smaller properties, is now laboring against difficulties arising from power shortage. Hollinger at \$12.10 and McIntyre at \$18.75 closed unchanged, while Dome Mines at 38c was up 10c. Wright-Hargreaves was off 1c at \$2.15, while Teck-Hughes dropped 2c to \$1.34, off 1c.

Other issues showing net gains on the close included Argonaut, up 1c at 76c; Kirkland Lake, up ½c at 51½c; Preston, up ½c at 10½c; and Vickers, up ½c at 32c. Net losses included Baldwin, off ½c at 10½c; Goldale, off ½c at 48½c; keora, off ¼c at 18½c; and West Tree, of ¼c at \$1.87, with Peterson Lake up the fraction at 10½c. La Rose was down 2c at 3c, with Castle at 24c, McKinley at 18c, and Lorraine at 27c, off ½c. Temiskaming firmed up to an unchanged price.

postal facilities, may always runsmoothly and efficiently.

Working to this end the department issues every week a bulletin, copies of which are broadcasted to every corner of the country, and are accessible to every employee and citizen. In this bulletin is given other men's ideas of how a certain thing should be done, as well as the findings of the department heads regarding matters that directly affect the employees, routine work, and that all important subject extractions. New York, May 29.—The early raw sugar market was quiet and prices were unchanged, with Cubas held at 6½c. cost and freight, equal to 8.28c for centrifugal, while duty-free sugars were quoted ½c lower. No sales were employees, routine work, and that all important subject-efficient ser-

vice to the general public.

In furthering this scheme of cooperation between employer and employed the department decided about the first of the year to place the editing of the bulletin in the hands of a different employee each week. This plan has proved a decided success, and the equipment and supply branch that sends out the bulletins have noticed an increasing demand for the weekly sheets.

The knowledge and far-sightedness of the employees in every province who have voiced their opinions through the bulletin to their fellow-workers has surprised the department heads and their willingness to aid the department in solving its difficult tasks, has been the means, as the Ottawa officials report, of increasing the efficiency of the postal service.

The Postal Union.

As an example of how this plan is being executed the following extracts are given from the letter of J. B. Corley, assistant postmaster at Vancouver on "The World's Greatest Business Organization—the International Postal Union, is the most potent factor in promoting eventual world peace."

"The postal service as we know it, is the outgrowth of the foresight," It is the outgrowth of the foresight, in the outgrowth of the foresight, in the outgrowth of the foresight,

Your Advertised Farm's Location

In cases without number a Want advertiser, by "playing up" location, has quickly found a buyer for his farm, Of the several important things a prospective farm buyer considers, location is always one, and sometimes it is the foremost, This is so because location contributes in many ways to the farmer's prosperity and to the general happiness and welfare of his There are children in many farm families. This means

that an important consideration is school. Is your farm near a school? If it is, you should state the fact, and if the school is an unusually good one, say so. On the other hand, the drawback of distance from school is not nearly so serious as otherwise if the school district provides transportation. "School 'bus passes gate," will favorably interest parents, just-as "half mile from excellent school" will. Nearness to town is also an important fact, in two respects.

One is that the farm family thereby is close to church, stores, movies, the town's social life. The close in farm, further, may be in an unusually good position to make money for the owner. There is the short haul to market—a mighty favorable thing in these high-pressure times when transportation costs of all kinds are high.

Is your farm on a good highway, maybe a paved road? Readers will be interested to learn it, if it is.

One Want advertiser led off with, "Future club site or rich man's estate, but today a practical, highly improved farm, at farmer's price." Where location may promise enhancement of value, that is a big fact to put in the Want Ad.

Put into your Want Ad anything about the location of your farm which markedly increases value and attractiveness. You know these things thoroughly. It will take few words to state them, with certain increase in the effectiveness of your

London property to exchange on farms. We have many good farms near London the owners of which will exchange for London Real Estate.

\$2,000—\$1,000 down, south, white brick store and dwelling, now doing good business. 3 bedrooms, parlor, dining-room, kitchen, summer kitchen, new 3-piece bathroom, driveway. All in good shape.

\$3,200—\$800 down, Adelaide St., large frame cottage, 4 bedrooms, living-room, dining-room kitchen, 3-piece bathroom and furnace, 2 bedrooms up and 2 down. All nicely decorated, basement, hydro, gas, driveway.

READ CAREFULLY.

\$2,800—\$1,200 down, balance \$15 monthly, to include principal and interest at 6½ per cent. It is seidom we get terms such as this. Fine large frame cottage, 4 bedrooms and den, parlor, dining-room kitchen, summer kitchen, hydro, gas, water, basement, veranda, very attractive-looking house, lot 60x154. This is a real speculation.

\$2,900—\$500 down good brick cottage, east, near Hamilton road, 3 bedrooms, parior, dining-room, kitchenette, oak floors in parlor and 2 bedrooms. Wired for stove, base plugs, full basement in 3 parts, new 3-piece bathroom, 2 extra lots at \$300 each must be purchased with this house, but all can be had for \$500 down.

\$5,300—North, on paved street 1½-story red pressed brick, very attractive, 3 bedrooms, 3 clothes closets, hydro, gas, living-room, dining-room, kitchen, den, 3-piece bathroom and furnace, hot water full basement, driveway. Owner must sell immediately.

driveway. Owner must sell immediately.

SUITABLE FOR TEAMSTER.

\$2,500—East, frame cottage, 6 rooms with 2 large barns. Four-fifths of an acre of land that can be sold off in lots.

\$3,000—Adelaide St., fine large 2-story brick, hot water heated, 4 bedrooms, 4 living-rooms fully modern in every respect, sunroom and veranda.

MONEY TO LOAN.

\$5,500—Centrally located, fine large home of red pressed brick and stucco, square plan, 3 bedrooms and den, large living-room with fireplace, bright sunny dining-room, modern kitchen, full basement with combination furnace.

Individuality is surely the keynote of this enchanting eight-roomed home. Its spacious living-room with fireplace, oak floors and many large windows is notworthy. A spacious veranda with wide overhanging eaves adds much to the appearance.

Champ Is Cock-Sure-Is Favored To Win.

By FAIR PLAY.

New York, May 29:-With the Kilbane-Criqui featherweight championship battle due to take place on Saturday, the wise ones are wondering at Kilbane's attitude. The betting today runs 7 to 5 that the champion will defend his title successfully. Judging by Kil's manner and method of training, it ought to be eight to one in his favor, if you base the odds on his cocksureness.

Maybe he is too sure doing any hard work. Never has. He has worked out on an average of about on Fifty-Seventh street, and at that has done no hard sparring.

"Why should I?" he asks. all there is to know, at least all I can learn about boxing. I don't need prac-

ring on Saturday.

As to his statement that he knows all he can learn about boxing, and hence follow pugilistic affairs closely know that the average fighter does not work vith sparring partners to learn about oxing, but to toughen themselves for their prospective bouts under real fighting conditions. Save, of course, that the gloves are larger, they find sparring partners valuable, because a boxer's leves lose their nice judgment in a period of layoff, timing suffers, and it is through these practice bouts that adjustment between motor nerves and muscles is re-established.

It is hardly reasonable to expect that Kilbane or any other fighter, no matter.

It is hardly reasonable to expect that Kilbane or any other fighter. no matter how good, will enter a championship bout prepared to give his very best, unless he has worked himself up to an edge. Yet Kilbane thinks he can do this. He has not even done any road work. If he does not need it, all right, but he appears to be the only one who thinks so.

thinks so.

Criqui, on his part, is going through all the processes by which a fighter enters a ring fit and ready to put up the fight of his life. He works out in hard bouts and does his two or three or four miles of road work every day. Still Kilbane must hold him very cheaply. Or, if he does not, just what is the idea? The writer does not know.

SARNIA CITY LEAGUE OPENED LAST NIGHT

Special to The Advertiser.

Sarnia, May 29.— The Sarnia City Baseball League was ushered in for the 1923 season with appropriate ceremonies here tonight, and the Wanderers went out and grabbed off the first combat from the Centrals by a score of 13 to 6. They gained an early lead, and were never headed, although a Central rally brought the count up to 7 to 5. Aldridge went the route for the winners, and Moses, who started for the Centrals, was relieved by Percival in the fifth. Acting Mayor James C. Barr tossed the first ball, and W. S. Haney, local Conservative candidate, was on the receiving end, with Dr. C. C. Collins wielding the bat.

That feeling wore off, though, and within a week the incident-of which I told no one-had about been forgotten. On an afternoon some three weeks later, however, that same happening was brought to mind again in an unexpected manner.

In line with the trend of penology at that day, baseball teams had been organized in the prison, and on Saturdays and holidays the inmates played ball. There were at that time some four or five clubs, and in order to secure harmony among them, and to give each one a square deal, a regular schedule was made out. Moreover, a commission, consisting of a president, vice-president and secretary was established. All disputes or matters pertaining to the sale or exchange of players—and, in fact, many things too numerous to Glasgow, Scotland; Johanne Van de mention-were submitted to that Kamer and Sophia Van de Kamer

Is Your Boy Glad You Are His Dad?

S your son proud of you? Or does he wish Wally Lawson's father was his father?

Wally says his father is the best in the world. To prove it, he shows your boy the peach of a new C. C. M. Bicycle his dad bought him.

Sticks Up For You

Your boy stoutly sticks up for you. But deep down in his heart, he's wondering if Wally Lawson's father doesn't think more of Wally than you do of him. He can't even get you to talk about buying him a bicycle. You put him off from day to day. And he feels it, though he may not say much.

He's a Good Boy, Dad

He's doing well at school. You're proud of him, even though you don't tell him so.

Maybe he's joined the Boy Scouts. That means wonderful trips to the country, and all sorts of thrilling and boyish sports, if he has a bicycle. A Boy Scout and a bicycle are as inseparable as a cowboy and his pinto pony.

Isn't it up to you to make your boy glad by giving him a real bi-

C. C. M.'s are the favorite bicycles with Boy Scouts - and all other boys who want real bicycles.

Built to Stand the Gaff

C. C. M. Bicycles are made to stand the bumps, the wear and tear, that the joyous energy of youth puts upon them.

Frames of English seamless tubing, strongly reinforced. Bearings of hard, tough automobile steel. Nickelling done over copper so it won't rust. Glossy enamel baked over a coat of anti-rust so it will stand all kinds of weather.

C. C. M. Boys' Bicycles are equipped with the famous C. C. M. Triplex Hanger—the same as the adult models. This is the hanger that makes the C. C. M. ride so easy you feel as if you were coasting along. Very little pressure is needed on the pedals. The youngest boy can ride a C. C. M. without tiring himself out.

And the Hercules Coaster Brake gives him perfect control of his bicycle. He can stop it slowly or quickly by pressing back on the pedals. He can glide down any hill with safety.

The Kind He Won't Outgrow

Go with your boy to the C. C. M. dealer's and look over the snappy, glistening new models. There is a new 14-inch model for the very young boys. A 16-inch model for larger boys. And the special Curved Bar 18 and 20-inch models that will fit equally well the lad of nine or the youth of twenty. The Curved Bar is the bicycle the boy won't outgrow.

Prices of boys' and girls' models have been sharply reduced from the war-time peak prices. The quality is the best ever put into C. C. M. Bicycles.

There are also C. C. M. Joycycles for little folks too young to ride

Everything was quiet and peaceful there, and with Mother Bear right there there was nothing to be afraid of. They forgot their fright. One little bear got up and began to prowl around to see what he could find. In a few min-utes he was joined by his sisters.

Then they began to play.

They were full of life, were those little Bears, and such fun as they did have! One climbed to the top an old stump, and then tried to keep the others from getting up there. By and by one succeeded in getting up and pushing the first one off. Then that one tried to keep the others from getting up there.

of Edith's letter, he saw that his affluence was this thing about him to which she objected-or thought he saw. At any rate, he refused to be put off with a few words written on the latest style of notepaper. Warren demanded an interview with Edith, but she would not see him, and after several stormy scenes with her parents she was packed off to her great-aunt Cynthia, who had a country place in a retired corner of New Hampshire. When the rumor came treading so closely on the heels of its announcement, society fairly reveled in the consequent gossip. Edith Cranford and her wicked man-hunting old parents had got what they deserved After falling into a trap, Champlain had had his eyes opened and had jilted the designing creature. To have suggested that Edith herself had broken the engagement would have been to risk social ostracism. Warren Champlain had little difficulty in finding out the place of Edith's retreat, and one "all golden afternoon" he came strolling up the driveway that led to Miss Cynthia Van Busam quite proud of it. Your Home and You

TAKING CARE OF HERSELF.

BY HELEN KENDALL. Last week I spent a day or two with an old school friend, who now lives out in the suburbs with her charming family of boys and girls, not to mention the Man bimself. The countryside was lovely in its spring green and bloominess, and during the late afternoon we walked down by the banks of a narrow but swift little river, which ran near their home. As we reached the stream we heard voices around its hidden bend, and a moment later a canoe slipped into sight, in which sat my hostess' little girl and a boy from a neighboring

country place.

My natural bump of caution rose

up at once.
"Do you let her go canoeing in that rocky, swirly little river?" I inquired. "Isn't it dangerous? A canoe upsets so easily. I should think you'd be afraid to let her go out in that fragile affair, in water that is almost rapids."

"She has been taught to take care of herself in emergencies," replied the mother, quietly. "I made up my mind early in my parenthood that if I was going to be afraid for my children and hold them back from risky experiences, they would never acquire self-reliance and resourcefulness. So within reasonable limits they are given a free rein. Of course I don't let them go into actual, unmistak-able danger: but when the risk is slight, and they are taught what the danger is and how to avoid it, I let them do almost anything.
"Betsy has been taught how to

She knows that recklessness the water, right it, and get back into is not sportsmanlike, and that her it. Special to The Advertiser.

Brantford, May 29 .- "The Church' Program That Wins" was the subjec presented to the Lay Delegates Association at the Hamilton Methodis Conference in session this afternoon and was responded to by Norman Gilbert of Bronte, speaking for rural communities, Rev. H. B. Dellar of Port Dover for the town congrega-tions, and Rev. Dr. Hughson of Ham-

ilton for the city churches.

For a winning church program, Mc Gilbert advocated the introduction of athletics into the church's field, as-serting that new conditions surrounding modern churches demand attention to the physical development of the young people more than hith-erto. Rev. Mr. Dellar, after praising the work of the church today, stated that mental, physical and spiritual elements were bound hand in hand to producing the right type of men and women so essential in church leader-

The mattress that "breathes"

HE Marshall, with nearly a thousand small, sensitive springs, responds resiliently to every motion of the body.

Every movement causes the mattress to expel and draw in fresh, pure air through the eyeleted vents-preventing odors being retained. The Marshall is a marvel of sanitary cleanliness. It needs turning but one or two times a year.

As each little spring works independently in a cotton pocket, the mattress "breathes" with silence and without restriction, for the tapes go only part way through the mattress.

The nested springs cannot get out of place. The mattress cannot get lumpy, nor sag. Two persons occupying the same bed enjoy equal comfort, for each uses his own set of springs. Above and under the springs are two inches of curled hair or fine cotton, enclosed with ticking made exclusively for Marshall Mattresses.

For perfect body-building, natural sleep from now on, you need the Marshall Mattress. Guaranteed for five years. If your dealer does not sell it, write us direct.

It is these same Marshall springs that give supreme comfort in upholstered furniture having Marshall cushions. Look for the Marshall trademark.

An "X-Ray" of a Leishman Garment Reveals Clothing That Is "Good All Through"

Under the searching light of the X-Ray, nothing is left to the imagination-nothing can be hidden. The outer shell no longer deceives the eye. The X-Ray is the physician's detective force-it is also the patient's protective force.

So with a suit of clothes, or an overcoat. The real test is its ability to bear the scrutiny that "sees. through" the garment. Leishman Clothes "look" right-and they are right, all the way through.

Make the test as thorough as you like. An "X-Ray" of a Leishman garment would reveal more than "that look of distinction." The plate would be a picture of textile excellence. So you are protected there.

Note the cloth edges. The "X-Ray" would prove that the garment was hand-cut-a guarantee of accurate fit. The sleeves are fitted on to the coat so skilfully that they seem "welded." The lapels are rolled to a nicety. The canvas and haircloth are virtually molded into the suiting. Every stitch of thread would be visible under the "X-Ray." Inspec-

"snarls" or "misses". There would be an even "flow" of thread along every seam. The Wm. H. Leishman & Company tailors evidently take pride in their sewing. Study the plate further. There's
