NEW TRIUMPH BY MARGONI

The Wizard of Wireless Telegraphy Breaks All Past Records.

Complete Connected Message Travels Over 2,000 Miles—Possibilities on Atlantic.

New York, March 1.—William Marconi, who returned from England today on the SS. Philadelphia, broke all records of wireless telegraphy during the voyage from Southampton. A complete connected message of four words was received from the Marconi system at Poldhu (Cornwall), near the Lizard, when the ship was 1,551 1/2 miles from that point. Furthermore, signals were taken by the instrument on the Philadelphia, which were sent from the station at a distance of 2,000 miles. With a station on this side equal in transmitting force to that at Poldhu, he could have maintained constant, effective communication ashore during the entire voyage.

Mr. Marconi takes his triumph very philosophically. When asked if he did not consider it a triumphant vindication of his claims for his instrument, he said:

"Well, it was only what I had prepared to accomplish. We prepared the necessary apparatus to do the work, and then simply did it. I am in the same position as any other electrical engineer. If you have an engineer who is keeping fifty lights burning, and want him to keep twice as many going, you'd give him the necessary plant, wouldn't you? Well, that is all I've done in this instance. I put in the necessary plant to do the work."

Mr. Marconi was accompanied on the trip by H. S. Saunders, one of the directors of the Marconi Company, and two engineers, T. Vyvian and J. D. Taylor. The four men spent most of their time in the "Island house" of the ship, where the Marconi instruments are set up, and from the time they left the Lizard until the last faint signals were taken at a distance of more than two thousand miles, they were constantly talking back and forth with the Poldhu station, relative to the experiments they were making. To obviate any chance for the sceptical to dispute the genuineness of the result, every message was taken on tape, and four of these were received in the presence of the captain and chief officers of the ship, who certified to them in writing as soon as the instrument had ticked them off. In addition to this, the captain, A. R. Mills, marked off on a chart the several points on the trip at which six of these messages were received.

Mr. Saunders, the Marconi director, was enthusiastic over the success of their experiments on the trip. "It is a grand triumph for the Marconi system," he said. "The messages transmitted back and forth between the ship and the station at Poldhu were all of a private character, and dealt largely with the experiments we were making. After we lost the Poldhu station, practically in mid-ocean, we did no more talking until 11 o'clock last night. At that hour we spoke the Nantuxet station and sent several messages ashore. We go from here to Canada in a few days to arrange for the putting up of a permanent station at Cape Breton. There will be many a ride forward made in the next few months."

THE SITE

Citizens Discussing the Proposed Location—New Suggestion which finds Favor.

Considerable interest is naturally evidenced in the choice of a site for the new \$15,000 library building and several locations are under discussion by the citizens. The points most generally mentioned are at the corner of Wellington and Centre streets, the market square and a site on King street west.

The last named suggestion meets with much general favor. The Aberdeen bridge corner was first submitted, but an effort will be made to secure the point on Dr. Duncan's property, if it can be purchased.

This would make an ideal spot in many respects, and its suggestion has found many supporters. The location is central and yet comparatively quiet and it would certainly be a picturesque point for a fine library building.

The City Council will likely appoint a strong committee to deal with the question of location.

TWIN WILL RECOVER

Paris, March 2.—Rodica, the survivor of the operation which separated her from her sister, to whom she was joined in a manner similar to that of the Siamese twins, has so far recovered that she is now able to go driving. She is still ignorant of her sister's death, and often speaks of her.

CLEAN SWEEP

A Conservative Ex-M. P. Certain That George W. Ross Will Be Defeated.

Cobourg, March 1.—Geo. Goulet, ex-M. P., West Northumberland, claims to be a prophet. At the Tory convention at Cobourg he predicted that Whitney would carry the province at the next general elections. He named East Northumberland, East Peterboro, West Northumberland, North Waterloo, Parry Sound and Peel as constituencies that would drop out of the Grit ranks. Eastern Ontario would go solidly for Whitney.

At the Cobourg convention Frank M. Field, son of a late Liberal member, struck out boldly for Whitney and declared it was time the government in Ontario was changed. Ross had failed to adhere to his principles and ought to go.

BOTHA READY TO SURRENDER

Judging From Kitchener's Recent Work the War is Nearing an End.

Boers Completely Demoralized—Lack of Provisions is Telling on Them Severely.

London, March 1.—On the best informed opinion, the Pall Mall Gazette prophesies the end of all serious hostilities in South Africa by September and this is rather a pessimistic than an optimistic view. Judging from Lord Kitchener's progress this week and the well-founded rumors of Gen. Botha's personal inclination to surrender, the practical end of the struggle may considerably antedate September.

SCARCITY OF HORSES.
A despatch from Pretoria to the Times says that the supply of horses is still lamentably short of the demand, and severely a single column can place its full mounted strength in the field. The wastage is caused because many horses are hurried on the trek before fully acclimatized and by unnecessarily hard treatment. Many men who are now mounted went to Africa lacking experience of horses. A culpable indifference to the welfare of the most important factor in the efficiency of the army seems to have permeated the whole army.

BOERS DEMORALIZED.
The Times' correspondent says the Boers are thoroughly demoralized by constant hustling. The scarcity of provisions convinces the burghers of the hopelessness of the struggle. The British will lose a great opportunity if they fail to take advantage of the situation, but they must have an unlimited supply of horses or the present rate of progress will be arrested.

BIG FLOOD

Hundreds of Families Driven From Their Homes in Paterson, N. J.

Paterson, N. J., March 2.—The city, so recently swept by fire, is now overwhelmed by flood. Three weeks ago the greatest part of its business section was burned out, and to-day, the quarter occupied by the houses of the poorer classes is inundated. Hundreds of families have been made homeless by the overflow of the Passaic river, and the country for miles around the city is under water. So far but one death has been reported. The great peril now is that the Spruce street railway may overflow, in which event a great loss of property in the manufacturing districts is sure to ensue. The railway supplies water power for most of the mills along the water power front. At this point the city authorities have placed expert engineers, who are instructed to touch off a blast of dynamite, which will open a new channel for the immense volume of water held there, and by diverting it to the bed of the river in a new direction the authorities hope to save a great deal of valuable property. In a cliff about seventy feet below the Spruce street bridge the experts have placed mines of dynamite which, if it is found necessary, will be exploded.

At five o'clock this afternoon the water in the railway was within three inches of the point, but four hours later it was reported that there was a recession of from four to five inches.

350 WORDS A MINUTE

London, March 2.—The Indo-European Telegraph Co. states that owing to stress of work it will maintain the working of the Wheatstone system between London and Teheran. The results recently obtained from the system have been good, 350 words a minute having been received from Emden.

BOTHA MADE A PRISONER

Such is the Report, but he Subsequently Escaped Again.

Was Entrusted to Rear Guards Who Let Him Slip in Confusion.

London, March 2.—It is reported, but the story is not confirmed, that Gen. Louis Botha was recently made prisoner and got away again.

According to the report the affair happened after the capture of Botha's laager near Knapdaar, and the astounding details would not now be known had not a trick been played on the British censor. The tidings came in a private letter from an officer in the field, the letter having been mailed by an intermediary at a free port to avoid the censor's scrutiny and certain mutilation.

When Remington's troops made the night attack at Knapdaar they captured several prisoners and the camp equipment of the Boers. Among the men taken was Gen. Louis Botha, but the British did not recognize him, and the other prisoners took care to shield him in every possible manner.

After the pursuit of the fugitives had ended the captured men were divided into groups, and Botha—fortunately for him—was included in the number that was entrusted to the care of the rear guard.

Another force of Boers hearing of the disaster to the main body, and that their general had been captured, menaced the British command. In the confusion of the expected attack the body of British troops that held Botha as their prisoner permitted a few of the burghers to escape, and among the number was the redoubtable Botha.

SHIPWRECKED

Palm Beach, Fla., March 2.—A party of shipwrecked sailors were landed at Palm Beach this afternoon from the steamer El Cid, Capt. Baker, which picked them up yesterday morning about 300 miles east of Savannah. They were Capt. A. Brown, First Mate Sherman Martin and a crew of eight of the schooner B. R. Woodside, bound from Ferdinandina to San Juan, P. R., with a cargo of lumber. Last Wednesday a heavy gale from the north-east sprang up. The schooner was blown out of her course and labored in the heavy seas until she sprang a leak, settling and becoming water-logged. The officers and crew finally lashed themselves to the after deck house and remained there with many seas breaking over them, for three days, when their signals were seen by the El Cid. The schooner was going to pieces when the men were taken off. One has a broken leg, but the others all have recovered from their terrible experience. They are now at the Breakers, but will return to New York as soon as possible.

SAD CRIME

A Detroit Bartender Shoots His Employer and Himself.

Detroit, Mich., Mar. 2.—Disappointment, jealousy and love, accumulated in a beer befuddled brain, last night caused "Pete" Perry to shoot his former employer, Mrs. Sarah Tallman, whose love and liquor business he coveted, and then turn the revolver upon himself. Both died within a few minutes.

The shooting occurred in the saloon which has been run by the woman at Franklin and Antoine streets. Only her 15-year-old daughter, Irene, witnessed the struggle in the darkness of the up-stairs rooms, which resulted in the death of both parties. The murder and suicide occurred within a minute of each other, Perry turning to escape after shooting the woman only to find the doors locked against him. With the woman's brother-in-law almost upon him, and the only means of egress barred, he placed the muzzle of the smoking revolver to his own temple and pulled the trigger. Time and again Perry had threatened the woman's life. He vowed that he would never allow another to marry her or permanently occupy the saloon had been made so often that it was feared and expected he would attempt murder.

BRITISH DEPOT

New Orleans, March 2.—In view of renewed reports that an attack may be made by Boer sympathizers on the depot established here for horses and mules by the British Government, Secretary Hay has ordered that special precautions be taken to prevent any such attempt if it should be made.

GILL NETS

Many Men who are Anxious to Engage in the Fishing Industry.

Toronto, March 1.—A large number of applications for gill net licenses have been received by the Ontario fisheries department from men anxious to work the waters of Lake Erie west of Norfolk county. It is not likely that any of them will be granted, however. The gill net is a most destructive instrument. With it a number of men can rapidly deplete a school of fish. The main point being considered by the government is the fact that the district in which the applicants wish to drop their nets is a valuable and very important breeding ground. To allow gills to be used there would be to invite the annihilation of the better species of fish in Lake Erie.

SALISBURY IS NOT RETIRING

Rumors to that Effect on Eve of Coronation are Foundationless.

A Staunch Friend of the King and Would not Precipitate Political Crisis.

London, March 2.—Halfpenny journalism displays a lack of inventiveness in reviving the stories about the retirement of Lord Salisbury and the struggle over the succession. Lord Salisbury has always been a staunch friend of the King, and is the last man to bring on a political crisis on the eve of the coronation. The members of his family are bent upon keeping him where he is, and not allowing him leisure for brooding over the burdens of increasing age. It is, moreover, easier for Lord Salisbury to remain in office than to arrange an armistice between Mr. Chamberlain and Sir Michael Hicks-Beach. The duties of party and leadership are not oppressive when the faction-ridden Opposition is constantly scattering into fresh groups, and then influenza screens one Minister after another from harassing debate.

MONDAY, MARCH 3.

THE NEW LIBRARY BUILDING

In deciding to accept the offer of \$15,000 from Mr. Andrew Carnegie to erect a public library building in Chatham, the joint committee, representative of the City Council and Public Library Board, has evidently met the views of the majority of the citizens.

It was a question upon which much could be said—and was said—with considerable force on either side. The advantages undoubtedly to be derived from the acceptance of the offer have been weighed against the vigorous and unshaming sentiment, which extends to a greater or less extent, against the solicitation of assistance from one avowedly antagonistic to the aims of our Empire, disrespectful to our late revered Sovereign and whose successful chase after the Al-mighty Dollar is alleged to have been scarcely scrupulous. Much has been said in support of both sides and the pros and cons discussed with a genuine interest.

With neither decision could this great home journal have quarrelled. The Planet realized it was an open question for the citizens of Chatham and their representatives to deal with, one in which little mistake could be made; one in which arbitrary counsel or dictation might properly be resented. If the people preferred to take the defensible stand that the gift from such a source would not be palatable, no fault could be found. If, on the other hand, the business side of the proposition appealed with greater force and the ground was taken that, so long as our reception and handling of the money was clean and honorable, our responsibility was at an end, there would be no indisposition to acquiesce.

The decision of the committee was evidently guided—and rightly so—by the trend of public opinion. The matter now for consideration by the city is the selection of a site.

The proposal to build on King St. West meets with the hearty approval of this journal. It may be pointed out, quite naturally, that The Planet is self-interested in advancing the claims and advantages of this locality, because the home of this journal is in comparatively close proximity to the site in question. Yet we fancy those who give the matter their serious consideration will realize that The Planet's position is not taken from any such minor motive, but solely because the erection of an important public institution on the point suggested will assist materially in the building up and developing of the western portion of King St., which possesses such great and as yet unutilized possibilities. We believe that such a choice would be altogether in the best public interests of our city and this accounts for our earnest advocacy of it.

The main thoroughfare of a city is generally indicative of its material prosperity—it serves as a pulse upon its vitality. Chatham has nothing to be ashamed of in such a test. King St., with its splendid store fronts and business establishments, is something to be proud of. But, if there is a possibility to encourage and foster this development west of the Post Office, it should be eagerly availed of. Such an extension of the business headquarters would give our city a greater precedence than can be easily estimated.

All other things, then, being equal, we trust the first consideration will be given this site.

WHITNEY'S POLICY.

Here are a few points in Mr. Whitney's policy. They are well worth perusal by the electors of East and West Kent. If it is a policy to encourage, encourage it. Help it along by placing your next vote to the credit of John Davidson and John S. Fraser.

Develop New Ontario in the interest of the people of New and Old Ontario.

Develop Niagara power and the

power of the other water ways throughout the province and dispose of it to municipalities and individuals at cost, and thus hold securely for the people the key to the problem of industrial expansion.

Make the ballot absolutely secret, as it was intended to be, and as the liberty of every man to record his vote according to the dictates of his conscience without fear, favor or affection demands that it should be.

Encourage by legislation municipal ownership of public utilities.

Restore the public schools to the place which its founders intended it should occupy—no stepping stone or door mat to any other institution of learning, but an independent, self-sufficient school in itself, capable of imparting to the ninety-five children out of every hundred who begin and end their education in the public school the most practical training that their opportunities will afford.

Abolish the school book monopoly; establish a government printing bureau, and give the school books to the people at actual cost.

Secure as far as possible the refining of Canadian nickel by Canadian labor by establishing smelters convenient to our great nickel deposits.

No pulp wood concessions. The property of the people of the Province when disposed of should be sold in the open market to the highest bidder, and not given away by order in council.

Secure justice for the individual prospector by providing for a prompt, accurate and honest registration of mineral claims as convenient as possible to the mining fields.

Keep the expenditure of the Province within the revenue, and give the people a fair statement of the finances.

Place corporations on the same level as the private tax payer. No scrap iron assessment, and no attempts to put the people in the power of corporations, such as was made by Premier Ross when he introduced bill No. 175 to enable municipalities to grant exemptions to corporations without a voice of the people.

Endeavor to secure from the Dominion Government fair treatment for the farmers in freight rates.

Grapple with the question of law reform; improve the division courts, and so order things that there shall be only one appeal in the Province of Ontario after the trial judge has given his verdict.

Destroy forever the baneful system of rushing enormous railway grants through the Legislature in the last hours of the session, and without one individual member of the House on either side of the Speaker having an atom of evidence on which to form a judgment as to the desirability of these votes.

Secure for every voter the assurance that this ballot will be counted as he marked it by destroying the machine and inaugurating a vigorous campaign to detect and punish every perpetrator of fraud in elections, no matter in whose interests the crimes were committed.

THE WEE GERMAN LAIRDIE.

Toronto Telegram.
 About two-fifths of the United States' enthusiasm over Prince Henry represents the genuine good-will of German-Americans; one-fifth is accounted for by the mixture of flunk-eism and curiosity, which is a flaw in the United States' character. The remaining two-fifths of the enthusiasm is made up of ill-will for Great Britain exhibiting itself in the form of good-will to Germany.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alternative and tonic effect. M. J. McDonald, Trenton, Ont., writes: "I had catarrh, my system was weak, blood was bad, and my liver torpid and inactive. I tried many medicines without benefit until I began taking Hood's Sarsaparilla. This medicine has completely cured me and I highly recommend it to all sufferers."

WIRELESS TELEGRAPHY ON RAILWAYS.

New York Sun.
 The installation of wireless telegraphy on the Texas Midland railway, as proposed by the president of that road, should furnish a more thorough and practical test of the Marconi system, so far as communicating on land is concerned, than has yet been afforded. If it is shown to be adapted to the everyday exactions of railroad telegraphing, all doubt as to its practicability for other forms of business will cease.

A BREATHING SPELL.

If the consumptive could only keep from getting worse it would be some encouragement.

Scott's Emulsion at least gives tired nature a breathing spell. The nourishment and strength obtained from Scott's Emulsion are a great relief to the exhausted system.

This treatment alone often enables the consumptive to gather force enough to throw off the disease altogether.

Scott's Emulsion brings strength to the lungs and flesh to the body.

Why can Hamilton buy cement 66 cents cheaper than Chatham?

Those who said March would come in like a lion were lyin' themselves, I guess.

Father Thames is preparing to raise in his might and pour down angry torrents.

Lucky is the man who owns a tax sales deed on one of these lots belonging to Mrs. Mary Pleasance.

The prohibitionists and the hard drinkers are both in the same boat now. Each has a load—Hamilton Spectator.

Hamilton has King Ed's mortgage, but we have Mrs. Pleasance's deeds. Deeds speak louder than words or mortgages.

One farmer sold ten bags of apples on the market on Saturday at \$3.00 per bag. At that price we prefer to eat oranges.

If those nine lots belonging to Mrs. Pleasance are located, the present owners will feel that they have been done Brown.

I venture to predict that many people will quarantine themselves when the Board of Health collector of those quarantine accounts makes his calls.

We're not surprised at that Blenheim man losing consciousness. It would take much less than a weak heart to lose consciousness in Blenheim.

Now, that it has been decided to accept Carnegie's gift, how would it do to put the building on Tecumseh Park and call it a monument to Tecumseh.

A family has moved in between the office of Thrasher and Arnold and the tailoring establishment of James Gordon. S. B. Arnold says that he always likes to have something between himself and his tailor.

"I Advise

All women who suffer from chronic diseases to write to Dr. Pierce."

That advice is based upon practical experience. After suffering for months, and finding no benefit result from the treatment of the local physician, Miss Belle Hedrick wrote to Dr. Pierce for advice. She acted on the advice, regained her appetite, recovered her strength, and gained several pounds in weight.

"Write to Doctor Pierce" is good advice for every woman to follow. It costs nothing. Dr. Pierce invites sick women to consult him, by letter, free. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

In a little over thirty years, Dr. Pierce, assisted by his staff of nearly a score of physicians, has treated and cured over half a million women.

"I suffered from female weakness for five months," writes Miss Belle Hedrick, Nye, Putnam Co., W. Va. "I was treated by a good physician, but he never seemed to do me any good. I wrote to Dr. R. V. Pierce for advice, which I received, telling me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took thirteen bottles of 'Favorite Prescription' and eight of 'Golden Medical Discovery.' When I had used the medicine a month my health was much improved. It has continued to improve until now I can work at almost all kinds of housework. I had scarcely any appetite, but it is all right now. Have gained several pounds in weight. I advise all who suffer from chronic diseases to write to Dr. Pierce."

Theatrical

For the past three seasons the famous musical comedy, "A Runaway Girl," has been the theatrical triumph of the principal cities and towns of the union. It is duplicating its success this season in the same pronounced manner. After its remarkable run of six hundred nights in London, at the Gaiety Theatre, it was produced at Daly's in New York City and was an instantaneous success. It remained there three hundred nights and then made a tour of the larger cities of the country and met with an ovation everywhere. It will be presented in this city at the Grand, on Thursday evening. Our theatregoers never fail to fully appreciate and take advantage of the visit to this city of an attraction possessing the merit and reputation of "A Runaway Girl," and without doubt the result will be "standing room only" on the occasion of its appearance here. One can confidently look forward to an evening of pleasure in witnessing this production and the excellent company presenting it, and will not come away disappointed. The exceptionally clever comedian, Mr. Arthur Dunn, in conjunction with some fifty other artists, comprising the Augustin Daly Company will appear in this comedy. The advent here of this famous organization has already created considerable interest, which will only be intensified as the date of its arrival in the city approaches. Catchy songs and incidental music, laughable comedy, neat and artistic dances, elegant and picturesque scenery and an amusing and original story, all go towards making "A Runaway Girl" the ideal musical comedy of the age.

"The very poetry of motion!" "Rippling music!" "Exquisite dances!" "Beautiful costumes." "Pretty forms and faces." "Magnificent finales." "Bright and witty dialogue." "Sprightly and vivacious chorus." "A superb cast." "Magnificent scenery," such are some of the many phrases used in the press of New York City after seeing production of "A Runaway Girl," at Daly's Theatre.

That they have been well deserved has been evidenced by the continuous success of the play and the constant application of the above phrases, or others similar, by the press and public wherever the comedy is presented.

A Law Unto Himself.

Every Man Must be That, to Retain His Health and Digestion.

THE GREAT HUXLEY.

There are thousands of people in this world who eat no meat from one year's end to another, and certain savage tribes in Africa and Polynesia are almost exclusively meat eaters; while there are thousands of these there are millions who live upon a mixed diet of meat, vegetables and grains and if numbers is a criterion it would seem that a mixed diet is the best for the human family.

The fact that you will find many vegetarians who appear healthy and vigorous and meat eaters equally so, and any number of robust specimens who eat both meat and vegetables and anything else that comes their way all goes to show that the old saw is the true one, that every man must be a law to himself as to what he shall eat and drink.

To repair the waste of tissue in brain workers as well as to replace the muscle and sinew of the laborer, can only be done through the process of digestion.

Every nerve, muscle, sinew, every drop of blood is extracted from the food we eat and digest.

In these days of haste and worry, and artificial habits of life, scarcely one person in a thousand can lay claim to a perfect digestion; dyspepsia is a national affliction and Stuart's Dyspepsia Tablets a national blessing.

Most cases of poor digestion are caused by failure of the stomach to secrete sufficient gastric juice, or too little Hydrochloric acid and lack of peptones and all of these important essentials to perfect digestion are found in Stuart's Dyspepsia Tablets in convenient palatable form.

The great English Scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

One or two of these tablets taken after meals insure perfect digestion assimilation of the food.

Cathartic pills and laxative medicines have no effect whatever in digesting food and to call such remedies a cure for dyspepsia is far fetched and absurd.

Stuart's Dyspepsia Tablets contain pepsin from animal matter, digestive and other digestives, and not only digest all wholesome food but tend to increase the flow of gastric juices and by giving the weak stomach a much needed rest, bringing about a healthy condition of the digestive organs and a normal appetite.

ON FURLOUGH

Genuine Irish "Vet" Who O'hummed With Kitch and Bobe—
Quest of the 24th.

"Jim" was an Irishman. You could tell that by his brogue. He was a veteran. You could tell that by his walk. He was a veteran of the Zulu war because he said he was. He was in hard luck. You could tell that by his attire. He was fond of the cup that holds cheeriness and drunkenness. You could tell that by his breath and his nose.

"Jim" drifted into Colonel Rankin's office this morning, and when he learned that the colonel was out of the city presented such a disappointed appearance that the office staff was moved to question him. "Jim" apparently knew a lot about military matters. He said that Colonel Otter, when that army leader had returned from South Africa, had tapped the veteran on the shoulder, and said, "I tell you, Jimmie, my man, we missed you in South Africa."

At this time "Jimmie" was a soldier in the Halifax corps. He was also personally acquainted with Lord Kitchener and Lord Roberts, was one of "Jimmie's" bosom friends. The story that he was wounded in the knee elicited ten cents from the pocket of the listener, and the veteran was then guided to Major Scholfield. Jimmie was passed around among the officers of the 24th Regiment, and secured enough of the necessary to liquor up once or twice, anyway.

A STRONG CONSUMPTIVE.

Alfred Simmons, charged with assaulting Pete Browning with a rock, appeared before Judge Houston. The Judge released the young man on suspended sentence on condition of him paying the costs, amounting to \$9.50. Judge Houston couldn't place much reliance even on the prisoner's word as he had told that he had consumption and the jail physician after examination, had pronounced Simmons a particularly strong specimen of young manhood. It was not a good plan for a prisoner to try to deceive the court.

OUR HOUSE FURNISHING DEPARTMENT'S MISSION

To supply the World's Best Curtains and Carpetings
most broadly and Economically.

This is the time of test. March ushers in the spring with its new needs and soon shopping must be done for every house that is inhabited.

WHERE SHALL IT BE DONE

Where is the broadest collection of carpets and curtains from which to choose? Where has the utmost experience and skill been applied in discrimination over its selection?

Where is merchandise sold for just what it is, and guaranteed so absolutely that no risk at all remains?

Where are prices always safely the lowest possible to find on merchandise of this assured quality?

Austin's, is the inevitable reply to each question.

Let us prove this store through some of the following:

New Ingrain Carpets

Not only new in fabric, but new in design and colorings—25c, 35c, 40c, 50c, 65c, 75c, 85c and \$1 per yard.

New Morris Chairs

Top notch comfort at low notch price. The extremes of luxury and economy meet in Morris Chairs. The adjustable back of the chair caters accommodately to the laziness of the young or the rheumatics of the old. Prices \$6.50 to \$15.00.

Box Couches

Wardrobe or box couches are quite a necessary article where space is an important consideration. We make these couches to order for each individual customer. We show you models.

A hint of one, —\$6.50 box couch, 4 ft. long, 24 in. wide, 12 in. deep, lined, large arm at each end, covered with Lincolnton Tapestry, finished with fringe, making in all an article good enough for a princess' bedroom.

A New Idea

is always welcomed. The inevitable Oriental has enjoyed a long monopoly and will continue in much favor, but it has a strong rival in "Gibson" and will continue in much favor, but it has a strong rival in this new decorative thought. Our stock is such that we can supply most phases of it.

REMARKABLE STAPLE VALUES

We are practically settled in our New Department which is one of the largest and best equipped in the city. The light is better, the room is more spacious. What we are showing there is without exception one of the best assortments of Foreign and Domestic Staples, Wash Goods and Linens that money can buy. Think of the kinds you want, then come here for them. Precisely the right goods and heaped around just as you would have them—even to the prices.

Paxton, and Mrs. Ira Kirk, of this city; Mrs. John Noble, of Detroit; Mrs. Carter, Guelph; Mrs. John Hicklin, Calgary; Mrs. Elliott, Newwood; Mrs. Kael, Saginaw, and Andrew Best, Saginaw.

"How many people know," said ex-Ald. John Edmondson, "that there is living in North Chatham a first cousin of the Hon. Joseph Chamberlain, the English politician? Nevertheless there is such a lady who has that honor in the person of Mrs. Richard Sellars, Lowe street. Mr. Sellars is the father of the Hon. Joseph Chamberlain, which makes Mrs. Sellars and Joseph Chamberlain first cousins. There was another brother, uncle to Joseph and Mrs. Sellars, who went to Manchester and attained some prominence as a manufacturer."

TROUBLES OF THE SOLDIERS.

—Leytonstone, Eng.

Dear Sirs,—

With regard to Kelpion, I cannot speak too well of it. It was the only medical store we had with us, and I don't know how we should have got on without it.

The Regulars were always "rolled" up for a "rub of Kelpion" for different complaints, and I certainly think that all soldiers should be served with "one pot Kelpion" when going on active service.

I think it was owing to your ointment that so many of us were able to keep up and do the record march under Lord Kitchener.

The first time I saw it used was for a bad foot, which was badly jammed by a railway carriage door.

In three days he was able to wear his boots and in less than a week able to walk. At Orange River I used it for my throat which was swollen to Tomtitia, and by rubbing your Kelpion well in, I was soon cured. For bruises, veldt sores, etc., nothing can beat it.

(Signed) Reg. E. Coombe, No. 504, C. I. V.

P. S.—I shall certainly advise my friends to use Kelpion.

PROHIBITION

Rev. Mr. George was Much Impressed by the Big Convention at Toronto.

Rev. T. T. George has returned from Toronto, where he has been attending the convention of the Dominion Alliance to the Referendum. The convention decided to await further proceedings in a month, they see what the Government is going to do.

"The meeting," said Mr. George, "was unanimous in their decision. I never saw a body of men who were so broad-minded and liberal thinking."

The first motion made was to accept the referendum as given out by Hon. G. W. Ross and plead for better conditions as to the voting. An amendment was put, throwing out the whole question and having nothing to do with it whatever. The amendment was put and lost, about two-fifths of the people voting for it. The motion was then put and carried unanimously.

"There was a fairly good representation of all denominations present at the convention. The Methodists and Presbyterians seemed to be in the majority."

ANCIENT ORDER UNITED WORKMEN.

In order to keep pace with the live and interesting activity displayed at every meeting by the large attendance, the officers will suggest some-thing on Friday March 7, that will add to the interest of the meetings.

Every Workman should be on hand and try to bring in an application so as to encourage us in the noble work. Our meetings are increasing in interest and attendance.

Visiting brethren welcome.

FLYING BULLETS.

One Way by Which They May Be Seen After Leaving the Rifle.

"I don't believe the story that bullets can be seen when fired from a gun," said the old soldier. "You know in the army there is a theory that men have seen bullets, but they never lived to tell of it, because the bullets were going straight for them and hit them in the eye. The only men who have seen the ordinary rifle bullets in transit are dead."

"No, they aren't," said the old hunter. "I have seen many bullets flying. One way by which you can see them plainly is by dipping them in glycerin before firing."

"Yes, you might trace them by the smoke then caused by air friction," said the veteran, "but you can't see the bullets."

"Oh, yes, you can," retorted the hunter. "I have watched them often during target practice and any one can see the large caliber bullets, though I won't say as much for the tiny modern missiles. The way to see a flying bullet is to get a little to one side of the shooter, about five feet away from him, say. Then run an imaginary line from the muzzle of his gun to the target. Let your eyes rest on a space of light colored ground exactly on this line, and when he fires you will see something dark, like a bee, flit past the light colored space. That is the bullet. Of course by the time the eye tells the brain it sees the missile the bullet has struck the target, but you have seen it all right."

Death in Nightmare.

One of the late beliefs of the medical profession is that many people die each year while asleep from heart disease that is brought on by nightmares or bad dreams. A specialist on the heart said recently that in his opinion in nine cases out of ten of deaths in bed heart action was stopped by fear which injures the heart brought on.

"I have taken part in thousands of autopsies," said this expert, "and in many cases made a study of the habits of those who died. I found that the majority had been sufferers from nightmares or other nocturnal disturbances of dreamland and that frequently they woke up in the middle of the night completely exhausted and gravely alarmed through some particularly vivid dream. If people are frightened to death while awake when they have their full senses and hope for relief, why is it not doubly likely that they die from fright while asleep when their courage is dwarfed by faculties temporarily affected?"

China's Antiquity.

China's antiquity is a part of her colossal proportions. China's early writers record a mythological history covering tens of thousands of years, but this period ends with the establishment of the capital of the empire at Kaifungfu in the thirty-first century B. C. Her legendary history extends from this time to 2205 B. C., at which time, it may be said, China's real history begins. The ancient history of China extends from 2205 B. C. to 208 B. C. Her medieval history begins there and extends to the time of the Mongol conquests in 1215 A. D.

With the founding of the Mongol dynasty China's modern history begins. The Mongols were driven out by the Ming in 1368 A. D. The Ming were the last native dynasty that ruled over China, and their control lasted from 1368 to 1644. Under the title of the Ta Tsing (the Great Pure) dynasty the Manchus have ruled China since A. D. 1644.

Lincoln Told a Story.

At one time a friend complained to President Lincoln that a certain cabinet officer was administering his office with unusual energy with the hope of securing the presidential nomination. "That reminds me," said Mr. Lincoln, "that my brother and I were once plowing a field with a lazy horse, but at times he would cross the field so fast that I could hardly keep up with him. At last I found an enormous chin fly on him and knocked it off. Now I am not going to make that mistake a second time. If the secretary has a chin fly on him, I am not going to knock it off, if it will only make his department go."

Lynch Law.

Lynch law in its usual meaning is said to be traceable to a Galway worthy. In 1493 one James FitzStephen Lynch, a mayor of that city, sentenced his own son to death for murder and, having brought home and hanged before his own door. The tradition may be found alluded to in Thackeray's "Irish Sketch Book." There are critics, however, who say that the law was in its origin essentially American, and they date it back to Charles Lynch, a Virginian planter of the seventeenth century.

But He Weakened.

"My dear," said the poet sternly, "I've just said a love song, but—" "But what?" "Oh, nothing. I was just about to say that I wouldn't buy bacon or greens or self raising flour with the money, but you know best."

His Glass Eye.

ON CRUTCHES.

Even if you are obliged to use crutches Dr. Hall's Rheumatic Cure can fix you up. This was the experience of John J. Peters, Sharbot Lake, Ont. He suffered from rheumatism in his legs (sciatica) for a year and had to creep about on crutches all the time. Fortunately he tried Dr. Hall's remedy and it only took three bottles to cure him completely. This great blood purifier is put up in bottles, containing ten days treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

How is it that Methusalem was the oldest man when he died before his father? His father was translated.

"It is the little rift within the lute which ever widening, makes the music mute." It is just a little rift in the health of a woman often, which gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded question, the obnoxious examination, the local treatments, of the home physician. There is no need for this. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman suffering from what are called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth.

Free! Dr. Pierce's People's Common Sense Medical Adviser, 1,008 pages, is sent free on receipt of 31 one-cent stamps to pay expense of mailing and customs. Address Dr. R. V. Pierce, Buffalo, N. Y.

A LOOK AND A SMILE.

An Incident Which Explained Mrs. McKinley's Luck at Crutches.

When the late President McKinley and party went west not many months before he was shot, Mrs. McKinley went too. While talking with Mr. Scott one day, the man whose firm built the Oregon, Mrs. McKinley said, "Oh, do you play cribbage, Mr. Scott?"

"Yes," was the great shipbuilder's answer.

"Well, so do I," said Mrs. McKinley. "I wish you would play a game with me."

"I should be delighted to do so," was the reply.

Later, as President McKinley and Mr. Scott were looking over the latter's big plant, Mrs. McKinley not being present, the president said, "Oh, by the way, Mr. Scott, didn't I hear you and Mrs. McKinley arranging to play cribbage some time?"

"Yes," said Mr. Scott, "we are going to play."

"Well, what kind of a player are you?" asked the president.

"Oh, pretty fair, I guess. I play a pretty good game."

"Well, so do I," said Mr. McKinley. "But do you know, it may seem strange, but it is a fact, that I have never been able to play well enough to beat Mrs. McKinley." As he said this he looked at Mr. Scott with a significant smile. Their eyes met. It was enough. Mr. Scott understood, and it was safe to say that he did not beat Mrs. McKinley.

Braved the Chinese Lion.

"Li Hung Chang," says the Shanghai Mercury, "was very apt to revile in the lowest language if any one offended him. Once a district magistrate inquired his displeasure, whereupon Li cursed him in a loud voice, even going so far as to curse his ancestors. But the district magistrate, nothing daunted, spoke up sharply:

"I am an officer of the emperor, even though my rank is low. You may kill me, but you must not curse me. Besides, the emperor orders you to provide your good officials and degrade your bad ones. He did not order you to curse them. If you curse me, cannot I play at that game too?"

"The rejoinder so astonished Li that he ceased reviling and escorted the magistrate to the gate, saying, 'Great district magistrate! The next day he ordered the provincial treasurer to give the man a first class appointment, saying that a man of such courage would surely make a good official.'"

They Worship the Drum.

Among the Samolides and the tribes of northern Asiatic Russia the drum passes almost as an idol. They address it, erect it in their but, and the priests of the superstition by the aid of the drum perform a magical effect that magical "disappearance" which has puzzled all travelers from Sir Hugh Willoughby downward to account for and has given rise to as much guesswork at its elucidation as the feats of the Indian jugglers. The Samolide, after beating his drum and working up the senses of his spectators to a pitch of great excitement, mysteriously vanishes into thin air before the eyes of all. Civilized travelers naturally hold that it is a trick. The Samolides themselves declare that the power resides in the drum idol. The peculiar thing is that neither one party nor the other has been able to explain how the vanishing occurs.

Stage Makeup.

A noted comedian, who is noted for his skill in the art of makeup, says: "Lines will never help an actor to play a part if he has not made a study of the character itself. The true artist looks to his voice as much as to his lips. He wants a large box of voices as well as of makeup. It is absurd for a man to go into character business unless he can disguise his voice and speak several dialects to start with. Character work is no plum duff for any one. I've seen men who seemed to fancy that a Lancashire dialect would do first rate for a Scotchman and that any old thing was good enough for a heathen Chinese. A character actor must disguise face, walk, voice, mannerisms; in short, he must make his own personality and bury it deep."

A Way Ants Have.

Lord Avebury declares that ants that distinguish their sobriety make a great distinction in their treatment of the intoxicated stranger and the fellow citizen who has succumbed to his blandishments. He inebriated fifty ants, twenty-five from one nest and twenty-five from another, and put them all to the test from which one lot had been taken. The inebriated ants at once took the helpless strangers and threw them into the water, while those who were citizens of the nest were carried tenderly away into remote corners to recover from their festivity at leisure.

Bribed in Advance.

Briggs—So you are going to have your fortune told by the new astrologer down town. Let me give you a pointer. If you want him to predict that you will one day be rich, just give him a handsome tip.

Griggs—That's all right. I'll give him my note for a thousand or so, payable when I become a millionaire.

Costly Roses.

It is said that the first four roses of the beautiful variety known as Jacqueminot received by a New York flower dealer just before a long ago Christmas were sold for \$80-\$15 apiece—eight times their weight in gold.

Shop Talk.

The only time some employers raise their clerks is when they play poker together.

The Indian and the Northwest

A handsomely illustrated book just issued, and containing 115 pages of interesting historical data relating to the settlement of the great Northwest, with fine half-tone engravings of Black Hawk, Sitting Bull, Red Cloud and other noted chiefs; Custer's battle-ground and ten colored map plates showing location of the various tribes dating back to 1800. A careful review of the book impresses one that it is a valued contribution to the history of these early pioneers, and a copy should be in every library. Price 25 cents per copy. Mailed postage prepaid upon receipt of this amount by W. B. Knicker, 22 Fifth Avenue, Chicago, Ill.

VERY LOW RATES TO THE NORTHWEST.

March 1 to April 30, 1902, the Chicago, Milwaukee & St. Paul Railway will sell tickets to Montana, Idaho and North Pacific coast points at the following greatly reduced rates. From Chicago to Butte, Helena and Anaconda, \$30.00; Spokane, \$38.50; Portland, Tacoma, Seattle, Victoria and Vancouver, \$33.00. Choice of routes via Omaha or St. Paul to points in Montana, Oregon and Washington. For further information apply to any coupon ticket agent in the United States or Canada, or address A. J. Taylor, Canadian Passenger Agent, 8 King Street East, Toronto, Ont.

LONG AND FAVORABLY KNOWN.

The West Shore Railroad has been so long and favorably known, that any words of commendation would be superfluous, but new travelers are constantly cropping up and, lest they have not read as they ran, this is to tell them that when they choose the Wabash-West Shore they are wisely.

Our March Linen Sale

Judging from the past two days our March Sale of Linens promises to surpass last year's linen sale, and last year we sold more linens than any previous year in the history of this linen store. Some extra values—

10-4 and 12-4 Cloths

Slightly imperfect cloths, 20 per cent. off, the imperfections so slight that if we didn't tell you where they were you would never detect them.

10-4 Perfect Cloths at \$1.50

All pure linen cloths, assorted patterns, are worth a great deal more.

5-8 Napkins

Perfect Napkins, all pure linen, that are worth at per doz. \$2.25, and extra value at that, special at per doz. \$1.75

1/2 All Pure Linen Napkins, assorted patterns, at per dozen \$1.50

NOTE—We will have the use of our millinery Show rooms next week, when we will have plenty of room to show you our Linens properly.

NERVOUSNESS.

Melancholy or despondency caused by weak unhealthy nerves, are responsible for more sickness and suffering than any other cause. If you have a secret drain from early abuse, later excesses or exposure, the results are the same. You cannot expect healthy nerves while your vitality is being wasted. Do not see out a miserable existence on account of your youthful follies, you are not safe until cured—nature never excuses—no matter how young, old or innocent one may have been. If you are tired in the morning, grow weary and aching, if you are overworked, pain in the back, deposits in urine, irritable and easily excited, no ambition, memory poor, haggard expression, or other signs of weakness, call and see me. As I guarantee my treatment, I will refund your money if you are not cured. Read this sworn testimonial, none used without permission. \$5,000.00 for any I cannot show.

Some Startling Facts

That should be considered at this season of the year when coughs and colds are so prevalent causing Bronchial Catarrh which usually ends with consumption. From reports by eminent physicians there are ten million consumptives in America, and constantly being added to by neglected colds and influenza.

The Prussian Oil

Medicine will cure bronchial catarrh, in grippe pneumonia, coughs and colds very quickly and surely if used as directed internal and external. It is in universal use all over the Maritime Provinces and New England States, called there by Nemeyer's Wonderful Prussian Oil, being such a curative medicine, for so little money—25 cents. Use it and prove it. Sold by all druggists.

NEW CHIEF

He Addressed the Force Saturday Night—Men Warmly Congratulated him.

Chief of Police John Holmes met his officers Saturday evening at the Police Station and delivered the following address:

"Police Officers,—You are aware that I have been appointed Chief of Police for our city. I hope that our relations to each other will be pleasant and agreeable, for on that depends entirely whether we are an efficient force or not.

"We have a comparatively quiet city as far as crime is concerned. That, in a great measure, is due to the efficiency of the force in the past and the justice dealt out by the Police Magistrate. The head of this court allows me to give you the hand of friendship and may my actions as Chief be such that my appointment to a responsible position will prove to have been no mistake."

The men all expressed their pleasure at welcoming their new Chief and all acknowledged their intention of serving faithfully the interests of the city.

DISTRICT DOINGS.

TILBURY

Mar. 3.—Mrs. Scott, Detroit, is the guest of Mrs. W. J. Moffatt. Miss Fanny Stinson leaves to-day to attend the Detroit millinery openings. Miss Moran, of Detroit, is visiting Mrs. J. Lemire. Mrs. J. Balmer and daughter Marion, of Woodstock, spent Sunday here, the guests of the former's parents, Mr. and Mrs. James Stewart. Mrs. Scarff and Mrs. D. Smith spent Saturday in Detroit.

WALLACEBURG

March 3.—Mr. and Mrs. H. Campbell, of Brown City, Mich., spent the last few days with Mrs. Jas. Quinnell and Mrs. Anderson, being on their wedding tour.

Died in Wallaceburg, on Feb. 28th, Margaret Woods, aged 26 years, beloved wife of the late Alfred Woods. The funeral took place yesterday, service conducted by the Rev. Mr. Farr, St. James' church, thence to the Wallaceburg cemetery.

Mr. Dundas, of Ingersoll is visiting his son, Mr. T. B. Dundas, for a few days.

Miss Edith Deane, of Chatham, is visiting friends in town. Carrier boys are not authorized to collect subscriptions. MISSION BAND.

The Mission Band of the William St. Baptist Church held their mite box opening Friday afternoon and a very profitable time was spent. A good program was given consisting of choruses, recitations, instrumental and vocal solos.

Miss Margaret Houston's two little pupils, Misses May Milner and Ethel Leake, played their piano solos very sweetly.

Miss Gertrude Potter sang a solo, which was very much enjoyed.

Miss Gertrude Breen made the children very happy with her recitation, and kindly responded to the loud applause.

Mr. (Rev.) J. J. Ross addressed the Band, giving many good ideas for the work they were carrying on and encouraging the little ones in their useful labors.

The meeting closed by a chorus and a recitation by Miss Grace Oldershaw.

I. O. F.

Camp, Court Maple Leaf No. 521, I. O. F., gave their first Thursday evening, Feb. 27th, which was a grand success. About 200 were present.

The court room was nicely arranged with pictures of Orkney, S. C. R., King of England, and other leading Foresters. A banner was also displayed.

A banner was also displayed of membership in the I. O. F., and that the amount on hand to pay death claims had reached \$5,293.88. Geo. W. Wands, D. S. C. R., occupied the chair in his usual humorous and careful manner, and gave an excellent address on Forestry, directing his remarks chiefly to the good work being accomplished by the Camp Courts and the advantages of membership therein.

The following program was rendered:—
Mr. L. Courier,
Instrumental—Miss Rhoda Perry and Mrs. Brush.

Recitation—Sim Smith.
Instrumental—Star Oldershaw.
Song—Miss Simpson.

Pipers—Cameron Bros.
Song—Miss Gertrude Potter.
Recitation—Miss Edna Hicklin.

Song—Mr. Chrysler.
Song—Miss Annie Clements.
Recitation—Sim Smith.

Song—H. Horstead.
Song—Miss Daisy Colwell.

After which refreshments were served and the meeting brought to a close by singing the national anthem. The court has only been formed about three months and has already a membership of 30, with a large number of applicants still to be initiated, and is rapidly coming to the front as one of the best Companion Courts in Ontario.

New Clothing To Greet The Spring

March 1. Our side of the world turns its cheek to the sun. It's spring by the calendar, spring among myriads of rootlets under the snow, and time to get ready for spring in house and wardrobe.

Our part is already nearly done. Spring garments and nothing else have kept the wheels of our factory spinning for weeks past. Spring furnishings have been gathered from every source that's reckoned best in the business world, and keep coming day by day—gay little lots of this and that popping up like early crocuses. Fast as the new things come they go on the counters for prompt men to buy.

When we say our part is nearly done we do not mean that everything is here. Nearly every day throughout March will see this spring stock bigger and more various. But the arduous part is over; it's like ringing the dinner bell after the chef has finished his labors. Everything isn't here, but there's a bountiful first course—whatever early spring demands in Suits, Overcoats and Furnishings.

THE LOCAL BUDGET

J. R. Irwin, Harvey St., is seriously ill with pneumonia.

Miss Ora Grandbois is home on a visit with her parents.

Thos. Forhan, of Wallaceburg, was in the city Saturday.

John Lee, M. P. P., of Highgate, was in the city Saturday.

David Martin, brickmaker, Thamesville, spent Saturday in the Maple City.

D. A. Gordon, of the glass factory, spent Saturday as a Maple City visitor.

Mrs. Chas. Simmons, St. George St., who has been seriously ill, is convalescing.

Monthly meeting of Sergeants tonight at 8 o'clock, sharp. Important business.

Miss Ethel Baughmann has returned from Wallaceburg, after visiting friends there.

J. L. Wilson & Son are preparing plans for a new residence for Daniel Macdonald, Bondary, P. O.

Fielder & Blight have the contract for remodeling Peace's old stand for the new firm of Quinn & Patterson.

Arthur Kipp, of this city, has accepted a position as traveller for the E. D. Kelly wholesale fruits and confectionery company, of Saratoga.

Sulman's Bedding Removal Sale! Wallpaper 25 per cent discount! Remnants five cents per roll. Odd borders 10 cents per roll.

M. Wilson, K. C., and J. B. Rankin, K. C., are in Toronto to-day. They are appearing before the Legislature in regard to some amendments being made to the Drainage Act.

The regular meeting of Wellington Lodge, No. 46, A. F. & A. M., G. R. C., will be held this evening at 7:30. General business and conferring degrees is the bill for the evening. Visiting brethren are always welcome to the meetings of 46.

Humble Officer McGregor reports that he has had Jno. Turner (colored) subpoenaed for using a lame horse and that in future he will deal with all such cases. He also reports that a furniture dealer has been ordered not to use his horse.

One of the trustees of the Methodist church called at the police station this morning complaining of the bad conduct of some boys in the back gallery at last evening's service. An effort will be made by the church authorities to prevent occurrences of a similar nature.

The regular meeting of Typographical Union, No. 460, will be held this evening in the Oddfellows' Temple at 8 o'clock. It is earnestly hoped that every member will be present, as business of a nature affecting every union printer in the city will be brought up and discussed. Be there!

The team attached to one of J. L. Scott's coal wagons ran away on St. Clair street this morning. The road was so heavy that the horses did not go far before being stopped by the men at Calixte Bechard's barn. The only damage done was the breaking of an intake covering near Stark's grocery. The attention of the Engineer should be called to this.

In an account of a hockey match between Hefley school and Princeton, in Brooklyn, N. Y., there appears the name of Henry Garrett, an old Chatham boy. Henry was well known here in all sporting circles. He is still playing at the same place on the hockey team as he did here, namely, point. He was also a bicycle rider, having ridden a tandem in several races here with Will Colles.

MORLEY & CO.

The well known firm of Morley & Co. are already very busy engaged in their spring trade and Mr. Morley reports that the coming season promises to be one of the best he has ever had.

Mr. Morley has now been in business in Chatham for about 20 years and his store has always been known as the place to secure the latest and most up-to-date styles and materials in gents clothing. Since he has moved into his present commodious quarters his business has rapidly increased until he now has one of the best missing trades in the city.

The chief colorings this year in suits will be browns, greys, olives, and steel tones. Overlines and checks will be very popular and stripes will also be very predominant. In overcoats Chesterfields will also be largely worn.

In trousers checks will be extremely popular, but stripes somewhat wider than what was worn last year will be very predominant.

Any man who wishes to be well dressed should not fail to call upon Mr. Morley.

CALIFORNIA-OREGON EXCURSIONS

Every day in the year. The Chicago, Union Pacific and North-Western Line runs through first-class Pullman and Tourist Sleeping Cars to points in California and Oregon daily. Personally conducted excursions from Chatham go to San Francisco, Los Angeles and Portland, leaving Chatham on Tuesdays and Thursdays. Lowest rates. Shortest time on the road. Finest scenery. Inquire of your nearest ticket agent, or write B. H. Bennett, 2 East King St., Toronto.
