The Provincial Exhibition.

THE Provincial Exhibition for 1894 was brought to a close on Friday. In many respects it was the most successful ever held in our Province. The weather throughout was fine, which in itself was a great element of success. In our last issue we made some allusion to the exhibits within the building. The outside show, horses, gattle, sheep pigs, etc., was not only very large but for the most part excellent in character. There was a very large exhibit of that noblest of animals the horse, and very many of them of such symmetry, life and action, that any Islander who loves horse must have felt proud of a land that can produce such beau tiful animals.

The progress that has been made in our dairying interests, in the manufacture of butter and cheese, is necessarily associate with improvements in the quality of the milch cow. And in this respect the exhibition was a good object lesson. The Jerseys, Guernband concert, as well as seys and Holsteins shown were superior on the whole to those of former years. The exhibits of choice piano music, while the magic lantern ministered to the sheep, pigs, poultry, etc., were large and fine. The exhibits of leasure of the visitors by throwing on the canvas the choicest of stereopticon views. The rink was agricultural implements were not, transformed into a great hive of we imagine, as large as we have seen at former Provincial exhibi- industry, where the numerous workers, as busy as bees, night tions.

Dated this 25th day of September, A.D. The Gloucester fishing schooner Carrie W. Babson, Captain Loiston, arrived at North Sydney C. B. on Saturday from a halibut fishing vovage in Baffin's Bay. The captain reports in three months had taken 100,000 lbs. There were six other vessels from Gloucester with him and they made an average catch of 100,000 lbs each being about the same as last year, but muchibelow "previous years. The very boisterous weather of the past two years interfered with the catch.
