New American Loan.

Terrible Earthquaké in Greece Loss of Life and Property.

London, Feb. 4.—The new United tates funded loan, which is to be placed on the market to-day, promises to be a great success. Large transactions have the opening of the books. The morning papers quote scrip at five-eights premium. The Daily News says the introduction of new American Loan is an event of great interest, and marks steady progress of the United States in European credit. Americans are now reaping the reward of their financial temerity.

Numerous wrecks are reported on English, Scotch and Irish coasts, but no American vessels are yet mentioned. The Standard says the eminent posi-

tion of introducers of loan will doubtless ensure large subscriptions.

Berlin, Feb. 3.—The Post, of this city, ntimates that in diplomatic circles at St. Petersburg, the assurances given the British Government by Count Schouvaloff are not sustained. The feeling is that

conditions to be imposed on the Khiva will depend on measures of her resistance and Russia's sacrifices. New York, Feb. 3.-Ida Greeley has written a note to Judge Hart, in which she says: "I am so much distressed by the report of yesterday's proceedings at White Plains, that I must withdraw from a contest which our opponents are determined shall be waged over my father's grave, for not even to carry out his last wishes can I permit a memory which is infinitely dear to me, to be so descrited." In a note attached, Gabraille Greeley says she joins her sister in the sentiments expressed. Stated value of Greeley's property is \$130,000.

Boston, Mass., Feb. 3.—The Cunard eamship Olympus, at this port, from Liverpool, encountered terrific gales on the passage; heavy seas repeatedly broke on board, staving in her bulworks and doing other damage. She lost four boats overboard. Mr. Hill, the chief of-ficer, was thrown by the sea from the saloon deck to the main deck, breaking his leg.

The annual meeting of the Guelph Gas

To the Shareholders of the Guelph Gas Company.

In presenting this their second annual report your Directors have again to congratulate the shareholders on another year's success.

Throughout the year now closed the amply of gas has been fully equal to the demand, of good quality and has given general satisfaction to the consumers.

Since last annual meeting, at urgent solicitations, your Directors have made considerable extensions in consequence of the rapid growth of the Town, which necessarily involved a large outlay. These extensions were made in directions where it is certain the Town will yet be thickly populated, and prove a source of profit.

Your Directors are enabled to report a

I have been instructed to call your attention to a resolution passed at a public meeting, of the representatives of the municipalities along the lines of the Wellington, Grey and Bruce Railway, and the Toronto, Grey and Bruce Railway, and the Toronto, Grey and Bruce Railway, held at Palmerston, on the 23rd all. The object of the meeting was to obtain united action in applying to Government to grant some special assistance in the shape of a per centage on the debt incurred, or otherwise, by those municipalities which have grented bonuses to works of such public benefit, before disposing of the revenue.

Besolved That the representatives of the following municipalities be invited to meet at the American Hotel, Toronto, on Wednesday evening next, the 5th day of February, there to draft a joint petition, and wait on the Government with the same, and that the various representatives bring with them full statistics with respect to these municipalities: Amaranth, Arthur, Bruce, Elma, Elora, Fergus, Grey, Guelph, Hoviek, Listowell, Maryborough, Minto, Mount Forest, Nichol, Orangeville, Peel, Turnberry, and Wallace.

Communications were read from Messrs Grott, J. T. Canningham, John Mayberry, and Richard Ainley, requesting the appointment to office of License Inspector.

The Lodge of the Order of Odd Fellows applied for the use of the hall on the 13th inst., to hold a ball, which, on motion of Mr. Elliott, seconded by Mr. Horsman, was granted.

Dr. Keating applied for the use of the town hall, on Tuesday evening next, the 6th inst., for a ball, which, on motion of Mr. Chadwick, seconded by Mr. Hogg, was granted.

The communication of Mr. Hemsworth was then brought up. Mr. Elliott thought that the town of Guelph was not interested in the matter referred to in the communication. Mr. Chadwick was of a different opinion. Mr. Massie thought that it could do no harm to co-operate with other municipalities in reference to the matter. Mr. Heffernan was in favor of sending a deputation down to Toroo to the matter. Nearly opposite the Old Stand,

NOW OPEN.

Mr. PETRIE takes this opportunity to thank the Public for their large and libe-ral support during the seven years he ha been in business in Guelph.

The New Store is the one formerly occupied by Mr. H. Berry, and lately by Mr. J. R. Porte, as a Confectionery Store. The store has been enlarged and refitted, making it a much more desirable place of business than the old stand.

Having secured the new store for a term of Ten Years, I hope, with the assistance of the Public, to prevent in the future as I have done during the past seven years, any monopoly in the Drug Trade in Guelph.

The old store will remain open for business until the first of May.

By conducting my business in the fu-ture in the same upright principle as in the past, I trust to receive a continuance of your generous support.

I am, yours very truly,

A. B. PETRIE.

THE STEANGER REMAINS IN MYSTERY, BUT PROVES A PRIEND.

It was difficult to recomcile Mrs Dobson to this view of the matter, but Annabel had great influence over her at all times, and at length succeeded in getting her to promise to observe silence on the subject. So a day or two meropassed away, marked by the same unremitting attention to the invalid and the gradual return of strength to his frame. The tender assiduity with which Annabel watched over him, anticipated his wants, sincothed his pallow, read to him, and in a thousand nameless ways cased his pain and promoted his confort, seemed to give him singular pleasure, But along with this manifest pleasure there was also a strange look of int rost in his face to he regarded her, which he did often in silence, and with a fixed questioning lock, which could not be integrated. Often would Annabel, as the moved about his couch, or sat sewing their ready to serve him, eatch his eye settled on her face, and, watching it with a troubled, almost a remorseful expression; then seeing she observed him, his clance would start away, a sigh escape him, and an agitation overpower him, as if her features called up some sad memory of the past, fall of bitter and sorrowful recollection.

Annabel took no notice of this peculiar manifestation, but it worked in her-hoson a silent pity and sympathy, which caused to increase—if that were indeed possible—the gentlements and to derness of her attentions. He was always pleased and patient when she was his nurse, and so obviously preferred her to Mrs. Dobson—who, though equally kind of heart, was not passessed of the same delicacy of nature—that Annabel left him only when necessity called her away, which it did at certain hours every day to fulfil her engagements as natusic teacher in several families in the town. Her patient uttered no complaint when she quitted him for this purpose, but his look was so regretful, and his pleasure of seeing line worn face light up with unfeigned satisfaction at her ent-ance.
