## CAR-WORKERS STRUCK

Men Have no Union Behind Them and Places Will Probably be Filled.

AMHERST, N. S., Nov. 15 .- (Special.) -One hundred men in the erecting shop of the Canada Car Company went on a strike on account of a reduction in the wage schedule. The men are unorganized and have no union behind them, and, if they do not resume work this week, their places will be probably filled at once.

The company contends that the wages paid were unreasonably high. Only pieceworkers are involved in this strike

## LITTLE INTEREST SHOWN IN THE WORKS ENQUIRY

Jas. Pearson, Ewart Farquhar and Some Davenport Road Ratepayers Relate Some Experiences.

The enquiry into the civic works department was begun in earnest yesterday with the holding of an all-day session by Judge Winchester. The chief witnesses were James Pearson, president of the Construction and Paving Company, and ex-Ald. Ewart Farquhar, whose charges against the department have been frequently aired n the past. Mr. Pearson's main conentions were that it was unfair to subject other companies to the com-petition of a bituithic company with a patented material, and that the day labor system discriminated unjustry against asphalt contractors.

Several ratepayers of Davenport-rd.

Several ratepayers of Davenport-rd. charged that an asphalt paving had been laid there against their wishes and that, instead of the old macadam material being credited to their account, it appeared to have fallen into private hands, and some of it had since been sold to residents of the vi-Apparently the public are not vital-

Apparently the public are not vitally interested in the proceedings. Outside of those difectly concerned, there were only two or three listeners at any time. The examining was done by Corporation Counsel Drayton, and City Engineer Rust. Roadways Engineer Engineer Rust; Roadways Engineer Powell and City Solicitor Johnston were present. The enquiry will probably resumed next Monday.

Mr. Pearson, who stated clearly that he did not suspect any bribery and contractors, contended that the Warren Bituminous Company, which patent process, entered unfairly into competition. The city, in allowing petitions to go out with specifications for bitulithic pavement attached, ensured the company getting contracts. A Ratepayer's Rights.

Mr. Drayton asked whether a rate-payer has not the right to select what pavement he desired. Mr. Pearson, admitted this, but added that the remedy he had proposed was that the city should allow other bitumens as being equally good, so that other companies could have competed. The witness also contended that the

FOUND ASPHYXIATED.

Henry Petzel, a baker, was found dead in his bed at 26 East Richmond-street yesterday morning by his wife, who had been absent overnight. The room was full of gas from an open jet. The door and windows were tightly closed.

Petzel was 43 years of age. He was not at work Monday night, as he was slightly indisposed.

I have learned to put a lot of confidence in men, especially men who are weak, sickly and delicate, who have tried everything to restore their vitality and failed, who have lost their faith in themselves and humanity generally because they have been led to try so many remedies which were no more use than as much water. These are the men I wout to wear my Belt, and I will wait for my pay until they are cured. All I ask is that they give me reasonable security while the Belt is in their possession and use. If it doesn't cure you it costs you nothing. Is there anything more fair? Ever been turned down?

You've got to have a stout heart, cheerfulness and a steady nerve to win-You've got to have confidence in yourself before you can win the confidence of your fellow-men.

Study your faults-look them in the face-profit by your experience-over-come your weakness and resolve to be a Man. Stop worrying. Pull yourself together, hold up your head, look every man in the eye, strike out from the shoulder, and Dame Fortune will smile on you.

Cultivate cheerfulness; it pays, "Laugh and the world laughs with you." Pick your friends. Shun the "go-easy" fellows as you would the plague. Get next to the leaders. Be a man among men. Don't shut yourself up and brood over your past mistakes; keep a-going! Every man should understand that physical power, large muscles, strength

and endurance come from animal electricity. My treatment will pump every part of the body full of that, and perfection will result. It not only restores vigor and increases nerve power, but it cures rheumatism; pains in the back and kidneys, indigestion and constipation, and all troubles which result from weakness of any vital organs.

Dr. McLaughin;

Dear Sir.—I cannot say too much for your Belt. I consider it completely cared me of rheumatism, and I never felt so well for the last thirty years. I would recommend it to any railroad man suffering from weak back or kidney disease. I only wore my Belt for one month. Yours truly, WILLIAM HONAN. Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can

#### BRODEUR SILENT

MONTREAL, Nov. 15 .- (Special.)-Hon. L. P. Brodeur and the harbor commissioners visited the harbor works to-day, where some fifteen hundred men had been engaged all summer. Some four miles of permanent railway have been built along the river bank. The foundations of the proposed elevator are completed and 800,000 cubic yards of dirt have been removed from the dry dock site, but the minister of marine gave no sound that would in-dicate whether or no the government will make their subsidy fit a first or second-class dock.

The most ample provision has been made for financing the Hud-son Bay Railway thru its period of construction, and as one line is all that is necessary, it will be in the interest of all parties, including the people of Canada, to have only the one, which is to be constructed directly or indirectly by the government. That should be made a first-class road in every respect, capable of accommodating all the traf-fic brought to it by all the lines of railway that private parties choose to bring into connection with it. Obviously there should be among these tributary lines the most perfect equality, and just as obviously this cannot be secured by having one company build and own the road and giving the others running powers over it. Some way must be found to avoid the complication that will be sure to result from any

such arrangement. It may be, however, that Mackenzie and Mann will get the construction of the road. They have already undertaken the contract for the first bridge across the Saskatchewan.

The government will also undertake the construction of the docks, and it may be that the crop of 1912 will, some

At the Toronto Bowling Club last night Levack & Co. left the maiden class in the Business Men's League by winning the second game in their series with North American Life, the latter winning the rubber. Joe Gallow was again high man for the night with a 541 total, and gave the market men cold chills in his last game, when he stuck in six straight strikes from the first frame. This, however, was followed up with two straight splits, while "Joe" spared out for a-210 total. For Levack & Co. Joe Berney was high with 501, while George Everist of the same team was third high for the night with 476. Unlike Brother "Joe" Bill Gallows was an also ran and won the booby by putting in a century mark in his second game. Scores:

WEDNESDAY MORNING, NOV. 16, '10.

BUSINESS IS NOT BRUTALITY. Objections have been raised to what is called "the brutal method" of the city in dealing with the Toronto Electric Light Co. There are two good reasons for acting with the T. E. L. Light means cheap light and cheap in a business-like way, whether that light as long as the struggle is on. To way lead to brutality or not. In the first place it is the only way that the Company means dearer light. We can company, or any other corporation for afford to lose a little if we must if we the matter of that, can understand or appreciate. If the city dealt with the company in a reasonable, pacific manner, the company would at once begin to take advantage of the city's complacency and the citizens would be robbed of their rights. The company did this when it amalgamated with the Incandescent Light Co., under a solemn agreement not to do that very thing. The company has never repented of that act. It would repeat the act to-morrow, and declare it to be business. Let us agree to that. It

was business, and brutal business. And the second point is involved in brutally to the city. When the pro- his life to Immigration Inspector posal was first made to establish a city Prentice. Upon alighting from a car posal was first made to establish a tust at the foot of Simcoe-street. Prentice lighting plant, everybody said we must saw the man lying within a foot of give the company a fair show and a give the company a fair show and a square deal on the matter. The city sheer drop of over 150 feet to the rocks was willing to do what was right and was willing to do what was right and at the water's edge.

As Prenti ce watched the man, the pay more than the company's old plant was worth, so that the good name of the city for rectitude and justice would that runs along the river bank, Prennot suffer. And what did the comtice caught the man's coat in time to
pany do with those proposals? It save him from rolling to instant, horsimply ridiculed the city, and declared rible death that the idea of a civic plant was quarters, but was in a stupor, the absurd; that the company could un- police say, from drink, unable to der-cut the city prices; that it could drive the city out of business; and that identity was the return pertion of it would do all these things and bring ticket from this city to Hamilton. the grey hairs of the city fathers with sorrow to the grave. The city was reasonable and more than reasonable. It made all due allowance for corporaation of hysteria and dividenditis,an inflammatory disorder which attacks the

ompany, in the superior corporation manner, rejected. As late as up till the beginning of the construction of the city plant offers were made by the city. When the plant was put in hand, the sneers and jeers still continued, and the organized press was filled with matter calculated to scare the city taxpayer into fits. The taxpayer was immune thru the payment of Toronto Electric Light Company's bills, and the work proceedcompany's bills, and the work proceed.

The boy was crossing the street in record.

When the great transmission line front of the car when he fell. His of the Hydro-Electric Commission was mother saw the accident and was (Trento of the Hydro-Electric Commission was well under weigh, the company began to think that Hon. Adam Beck was not such a fool as they had been led to believe by their astute advisers, and that the chief engineer who had carried out the greatest electrical transmission scheme in the world was perhaps of this week is a recital to be given toworthy of some consideration. It was then that the temper of the company changed. The city was approached with several gold bricks and great astonishment and dismay was felt that the city did not accept them. The details are familiar to everybody and need not be repeated. But it may be said that the attempt to goldbrick the city is just as brutal in its inctioned by the company. This brulity of the company towards the city the second good reason for retaliating in kind.

Why should the city buy the company's plant which is old and worn and out-of date and expensive to run, when a new plant with all kinds of up-to-date appliances and inventions can be had at a cost which is insignificant compared with what the company asks, and when the expense of operation is very much lower than plant. Take a solitary instance. The transformer station of the company value as that of the city; and cannot take half the voltage of the city apparatus. Yet the city transformer stacity pay the company for their plant at rates which can only be accounted for by stupidity or graft?

The city can undersell the company. The engineers have no doubt on that head. The company is quite confident this meeting. that it is not afraid of competition. It has so declared on many occasions. HIS defenders have asserted as much discing the past week. If this be the wase, there is nothing to fear. The company can go ahead and run the city out of tell the tragic story of the Inca Indians business, or the city may run the com- of Peru, illustrated by beautiful colorpany out of business.

An offer was made to the widow and orphan holders of Electric Light Company stock two years ago of \$135 a share. Sir Henry Pellatt and the other directors turned down that offer. They will, of course, feel bound to see that the widow and orphan do not surier by that rejection. But the city will undertake to say, we believe, that the bona

The Toronto World fide widow and orphan need lose nothing by the city's action. The city ought to have power, and Sir James Whitney should see that the city gets power, to buy the stock of any unfortunate widow or orphan who may have suffered at the hands of Sir Henry Pellatt and his confreres. The city can well afford to recoup the widow and orphan for anything those feckless individuals may have paid for stock prior to the date at which Sir Henry decided to reject \$135 a share. The brok-

er's receipts would establish the facts. In the meantime Toronto is not wor rying over the electric light problem. The cheepest light and power that has ever been heard of in this vicinity is in sight, and the people will support the best and cheapest on that account, even if they take no pride in the system as being their own.

question of severing its ties with the Presbyterian Church will again come before the trustees of Queen's University to-morrow afternoon. It has been under discussion for ten years. The general assembly at Halifax last year referred the matter back to the trustees for further information. As opposition to the proposed constitutional changes has been so strong, it is doubtful if the assembly will adopt the recommendations of the trustees, who are bound to sever the church tie. It is stated that there will be no change in the attitude of the board.

"The British flag has a gloriosu past. It is yours to uphold the honor of that flag. Let us never digsrace it. Let it never be said of the British flag that is could not protect, or it would not protect, a man who had fled to its colors, who had committed no crime in the sight of God or man. I hope that such a disgrace will never be made of the British flag," said Mr. Wright, in conclusion.

Other speeches were delivered by Rev. Dr. Shearer. Edmund Bristol, M.P. William Glockling, Mrs. Shore and Dr. Margaret Gordon.

A collection was taken up to assist in securing legal talent to assist Fedorenke, which amounted to \$128. A finance committee was appointed, composed of Edmund Bristol, M.P., A. W. Wright, Mayor Geary, William Glockling and J. G. O'Donoghue.

humor, have asked themselves this question!
Through neglect or improper treatment,
some minor eruption has developed into a
distressing and unsightly affiction. Simple
treatments fail, and stronger ones are tried,
sometimes so harsh that the suffering is
ncreased rather than allayed. Even professional aid has proven useless, and the
fear is ever-present that the skin disease
will become chronic, turning the child's
future into a nightmare of physical and mental
misery. ling and J. G. O'Donoghue.

Father Minehan's View.

In a letter expressing sympathy with the object of the meeting. Father L. Minehan said that he would be untrue to all the traditions of his race if he did not enter a word of protest against giving Fedorenke up. He aded: "To show how far my repugnance to a surrender of this kind goes, I will take what I regard to be one of the worst political crimes of the last century, namely the Phoenix Park murders in Dublin, Ireland, in the year 1882. I can remember distinctly that occurrence and the horror it excited. But were the principals in that terrible crime to escape to a foreign land, I would oppose their extradition as vigorously as I could. Why? Not because I sympathize with crime, but because I hold that when a government by brutal coercion maddens men to crime, it should be let bear the consequences."

President Falconer, in explaining his non-attendance, wrote: "I believe that the cause of freedom, as we understand it, should be extended as widely as possible, and therefore that in any doubtful cases our authorities should be very sure as to the nature of the offence before extradition is granted."

OBITUARY.

Michael J. McSweeny.

There died yesterday, from pneumonia, Michael J. McSweeny, who will be weil remembered by the older residents of Ontario County. This century of peace along the international boundary is the pledge and the prelude of an enduring peace more vital, more helpful, more beneficial to both nations and to the world than as yet has been dreamed.

"The peace for which Canada stands"

and reciprocity are at present largely represented in university teachings. If this is so, surely an explanation is due from the university authorities. No state university across the line, nor would Queen's or McGill tolerate such rubbish as this 'nationalism.' Let the university rather teach of the lessons to be learned from the trouble-some times before confederation, or the various first and second university bills, the causes of the burning of the parliament buildings in Montreal, the

struggle for responsible government and the progress of confederation, and it will be found that there is no room for 'nationalism' in Ontario. "If there was any Canadlan spirit in the rank and file of the University Literary Society, as of old, they would arise and ask for the resignation of the entire executive who are responsible for the Lavergne invitation. They should recall what happened once here to Wm. O'Brien.'5

Rev. Dr. Boyle Delivers the Annual Sermon to the Students.

The annual convocation of Trinity College opened last night with a service in the chapel, which held a large gathering of the students of Trinity and St. Hilda Colleges, in their academic robes. In an eloquent address by Rev. II

S. Boyle, D.D., of the faculty of Trinity, he urged strongly upon hearers the need of a larger tolera tolerance of religious viewe, and for a sympa-thetic understanding of every different view and aspect of Christianity. The service was conducted by Right Rev. Bishop Reeve; Rev. Prof. Duck-worth, dean of the college; Provost Macklem, and Prof. Cosgrave. The business session will begin this afternoon, when the executive committee will report that the efforts to effect amalgamation with Wycliffe College

were unfruitful. "The report will contain an expression of regret and the hope that Wycliffe College may even yet be willing to co-operate," said the provost last night. He added that the business ?)

Number of Important Places Which Will Vote on Bylaws in January Next.

One of the busiest places in the city these days is the office of the Ontario branch of the Dominion Alliance. The workers are preparing for their local option campaign. The secretary of the alliance states that on Monday, Jan. 2, 1911, between 80 and 90 municipalities will vote upon the question of local

A feature of the campaign is the fewness of the attimpts to repeal local option. Last year there were 111 municipalities in which repeal contests were possible, but in only 12 was the matter brought to a vote, and only two bylaws were repealed. This year there are 137 municipalties in which repeal contests might be brought on, but repealing bylaws will be submitted in only about six. These are: Ancaster Township, Colborne Village, Howick Township, Beverley Township, Goulburn Township and McKellar

Not only are the temperance people busy with the campaign places that will vote in January next, but already organization is being effected for the inauguration of campaigns in places that will not vote till January, 1912.
This is being done by means of county conventions. Aiready half a dozen such conventions have been held, with the result that there is now a list of about 50 municipalities that are enter-

This year contests are on in both the extreme eastern and western parts of the province. The Town of Amherstof the province. The Town of Amherst-burg, in Essex County, and the Town of Lancaster, in Glengarry County, will both vote. Every municipality in the County of Glengarry is into the fight, including the Town of Alexan-dria, the Villages of Lancaster and Maxville, and the Townships of Ken-yon, Lochiel and Lancaster. Just over the border the Village of Vankleek Hill, in Prescott County, and the Township in Prescott County, and the Township of Roxboro, in Stormont County, are also voting. Other important eastern points in which the battle will be fought are the Towns of Arnprior, Perth, Smith's Falls, Napanee, Gananoque, and the Villages of Merrick-ville, Newburg and Newcastle.

In the northern part of the province, if the campaigns now on are successful, it will mean the entire cleaning up of large areas. Among the places voting are the Towns of Barrie, Bracebridge, Huntsville, Burk's Falls, Beaverton and Sutton. There will not be much doing in the northwestern part of the province, the only fights being in the Villages of Port Elgin and Paisley and the Township of Albemarie.

The City of Guelph is the centre of a hot fight. One of the strongest and

best organization in the province is that of the citizens committee in Guelph, and the campaign is being systematically carried on along prac-tical lines. Just near Guelph, voting will take place in Guelph and Puslinch Townships, Erin Village and Drayton Dufferin County These are all in the Village of Grand Valley, which place is looked upon by both parties as a strategic point, and will be the scene of a hard fought battle.

In Western Ontario the most Interesting group of contests is that of the Township of Aldboro, with the Vil-lages of Rodney, West Lorne, Wards-ville and the Town of Bothwell. If these places are successful, it will mean a big white spot in the map of Elgin County.

The hottest place in the province, however, is the County of Welland. Here a county convention was held last spring, at which it was decided to bring on a fight in every municipality in the county, as far as possible, with the result that ten municipalities will vote in January, including the Towns of Welland, Thorold, Port Colborne and Bridgeburg, with the Townships of Thorold, Crowland, Humberstone, Stamford, Willoughby and Ber-

#### Caught a Heavy Cold. It Left Him with a Hacking Cough.

Mr. J. H. Richards, 1852 Second Ave. East, Vancouver, B.C., writes:- "Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this backing cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used a lettle and a half my cough was gone. I am keeping the other half bottle in ease it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."

# THRUOUT THE PROVINCE OUR FIRST MISTAKE

We had no idea that there were so many people in Toronto waiting for a Really Good Coffee

We thought the thousands of Dalton's French Drip Coffee Pots we had on hand would last for a few weeks at least.

We must apologize First to the grocers who are clamoring at our doors for more Dalton's French Drip Coffee and pots to supply their customers, and secondly to the customers themselves who will be disappointed in not getting one of our French Drip Coffee Pots immediatedly.

The Coffee we can supply by working our roasters and mills overtime, but the pots are imported from Europe, and it will be two weeks or more before we can secure any more. There still must be some hundreds of the pots in the hands of Toronto's 1,200 grocery stores, but when these are exhausted we must ask our customers to wait for further shipments.

## We Have 10,000 More Dalton French Drip Coffee Pots on the Way

and these we have decided to distribute free with our first introductory offer. After these are exhausted the pots can only be obtained by purchasing two tins of Dalton's French Drip Coffee and paying an additional 50c. Even this will be a great bargain, as any similar pot will cost you \$1.50 at least retail.

But we want every person in Toronto to have a chance to obtain one of these pots Free so that they can properly try Dalton's French Drip Coffee and see how good it is.

# Dalton's French Drip Coffee

is the best Coffee at 40c per lb. on the Canadian market. It should be made in Dalton's French Drip Coffee pot to obtain best results but even made in the ordinary way it is better than anything you've ever tasted.

Dalton's French Drip Coffee contains no Chicory—it is roasted by a special process that retains its strength and flavor. Then again in the grinding the harsh outer shell or chaff which contains Tannin and other indigestible ingredients is removed, leaving only the pure Coffee-healthful and altogether delicious.

Dalton's French Drip Coffee is made in two strengths-MILD and STRONG. We know that one of these two delicious Coffees is just what you have been looking for. But neither you, nor we, know which you will prefer. We want you to try them both. So we will give you a Dalton's French Drip Coffee Pot (worth \$1.50) with your first order of one pound each of Dalton's MILD Blend and STRONG Blend Coffee at 40c a pound. They are worth at least \$1.50 but we present them free in order that you may see just how good our Coffees are and test them under proper conditions—they are never sold in bulk.

#### Special Introductory Offer

We feel so sure that you will find either Dalton's Mild Blend or Strong Blend French Drip Coffee just the Coffee which you have been looking for, that we have authorized your Grocer to give you one of these handsome pots (worth \$1.50) absolutely Free with your first purchase of a pound each of Mild and Strong Blend. You buy two pounds of our Coffee-one of each blend to give it a fair trial and we give you the means of testing it FREE, satisfied that you will use nothing but Dalton's French Drip Coffee thereafter.

Ask your Grocer for Dalton's French Drip Coffee. If he is out of the Special Coffee pots-purchase a tin of each blend anyway and inside each tin you will find a coupon. These coupons will entitle you to one of Dalton's French Drip Coffee pots, and your Grocer will take your order for it and deliver to you as soon as the new shipments come in. Order now, for the supply will not last long and the coupons will only be put in the tins until the number of pots on the way are provided for.

#### TAME AND HIGHLY PROFESSIONAL. World Office,

Tuesday Evening, Nov. 15. The Toronto Stock Market continues tame and highly professional. The public are neither buying nor selling to any extent, and the quotations are pretty much tentative and subject to change, according as actual orders appear. The absence of realizing or liquidation gives the market a strength which it would not otherwise have, and leaves an opening for an easy upward movement, should any new buying of consequence eventuate. The strength in Rio and Sao Paulo today was directly attributed to old country buying orders. From an investor's standpoint the market is thoroly satisfactory, not so, however, from the viewpoint of the speculator.

Erickson Perkins & Co. had the folwas firm and the close was substantially higher than yesterday, but the improvement was confined to a small group. The strength of a few stocks. while the remainder of the list moved but little, while some were really weak, looked significant. We suspect that a few were bid up to help sell the others. A theory was offered to-day that American Smelting Securities bond financing was one of the motives of the general advance, that it was desired to make an unqualified success of this issue, and to do so the general market was made strong. Still, Smelting did not do much to-day. It had an early rise, then remained quiet. Next Mon-day there will be one of the most important meetings of the year. It will be the final enquiry of the interstate commerce commission into the rate problem, and the shippers will be prepared to make a strong fight against the higher tariffs. We hear that new evidence against an increase will be resented. Stocks may carry a little

Charles Head & Co. to R. R. Bongard: London again came to the fore this morning, with quotations con-siderably higher than our closing. Apparently there has been good buying for foreign account for the past week But Undertone is Buoyant for foreign account for the past week or two. The opening was strong, with advances in all the active issues, and the tone of the market has continued strong thruout the day. It is said the bull pool in Steel has borrowed heavily abroad on this stock, and that their objective point is ten or twenty points higher for the stock. or twenty points higher for the stock.
The market is still narrow and professional, and we would confine operations to the active stocks, buying on all favorable opportunities and taking advantage of good rallies to realize

MEETINGS.

NOTICE is hereby given that the Annual General Meeting of the Shareholders of The Dominion Automobile Company, Limited, will be held at the Head Office of the Company, 145 Bay Street, Toronto, Ontario, on Monday, the 28th day of November, 1910, at four o'clock in the afternoon, for the purpose of receiving the Annual Report, Election of Directors for the ensuing year and transacting such other special and general business as may come before the meeting.

Dated at Toronto, this 15th day of November, 1910

ed no tendency to increase, and public interest was noticeably small. With the outlook for a larger crop than had been generally expected, and estimates pointing to heavy ginning returns, it is but natural that the bull speculators would attempt to reduce holdings, and we doubt the present level can be maintained. Continue to advise sales on all sharp bulges.

conjecture about the stock exchange to-day as to the source of the aggressive operations which were responsible for the principal price moves of the day. This conjecture took the place of the usual enquiry over underlying factors in the condition of affairs, and such substantial condition of affairs, and such substantial motives. The surmises found nothing authentic on which to go, but they pointed, in the most part, to foreign parties in the market, possibly countenanced by private banking interests of power and authority

banking interests of power and authority in New York.

Yesterday's rumors that the listing of Union Pacific in Parls was near to accomplishment were denied, but the speculations still centred largely in the block, and in United States Steel. The manner of execution of orders in Union Pacific was made the subject of criticism amongst brokers, owing to its appearance of manipulation. Contributory causes to the constraint in the upward movement were found in the poor earnings reported yesterday by the Great Northern for October. That stock, in consequence, was under pressure, and dragged other transcontinental railroad stocks downwards with it. The heaviness of stocks in London threw discredit on the alleged buying for London account in the local stock market.

market.

The foreign trade statement for October was received with gratification in financial quarters as an indication of the rectification of recent abnormal tendencies in that department. This showing confirmed the confidence that the period of greatest strain on the New York money market for the present season might be supposed to have passed. This confidence had more influence in sustaining prices than anything else in the day's news. Bonds were easy. Total sales, par value, \$2,088,000. United States fours, registered, declined one-quarter per cent. declined one-quarter per cent.

rent arrivals of spring wheat. The change in the foreign news to-day was the chief factor causing the upturn. Should conditions in the Argentine become critical during their harvest it would undoubtedly put wheat values to a higher level. We do not advise following the advance until some more defluite news comes to mand as there is nothing bullish in home conditions.

Corn—The market was dull and heavy early prices showing fractional declines from yesterday's closing figures. Country offerings of corn for near shipment were moderate, while the shipping demand was rather slow. A period of broken weather might give us a slightly higher market temporarily, but the crop has been gathered and under unusually un favorable circumstances and we do not believe that prices will hold after the movement sets in.

believe that prices will hold after the movement sets in.

Oats—The market ruled fractionally firmer, in sympathy with the advance in wheat. Cash domand showed some slight improvement with a moderate advance in prices ruling. As long as the movement keeps so moderate we are not likely to see any decline.

Quality Common to Medium, With a Few Good Butchers'-Trade Slow, Prices Easier.

The railways reported 175 carloads of live stock at the City Market, consisting of 3280 cattle, 807 hogs, 1856 sheep and

Manitoba and northwest cattle, of which there were over ninety carloads. Had it not been for the northwesters the run would have been about normal.

The quality of the bulk of these northwesters was not as good as has been coming, being of a class that did not as a rule commend themselves to the ordinary intelligent Ontario farmers, of which there were a goodly number who were waiting to get a supply for winter feeding.

displaying a much improved undertone and seiling in advance of the quotations of the previous day.

There was a more pronounced disposition to buy securities, and the floating supply of stocks being of lesser volume than ordinarily, purchasers found it necessary to raise their bids in order to find shares on offer.

In the lesser priced Cobalts, Little Nipissing was traded in on a more active scale than for some days. The

Stockers and Feeders.

Stockers and feeders were slow of sale compared with two weeks ago, and sold fully 25c to 30c per cwt. lower. Cattle that were seiling for \$5.30 and \$5.40 two weeks ago sold to-day at \$5 to \$5.10.

Stockers were quoted to-day as low as \$3.75 for the first time this season.

World Office,
Tuesday Evening, Nov. 15.
The Cobalt stocks developed a somewhat better tone on the local markets

inary intelligent Ontario farmers, of which there were a goodly number who were waiting to get a supply for winter feeding.

There has been few buyers' markets this year, but to-day the buyers had more of their own way than at any time this season thus far.

The stocker and feeder market, especially, was badly congested, and many of them were held over for Wednesday and Thursday's markets.

Trade was slow and draggy, both for butchers and feeders, as dealers reported that there was a scarcity of good butchers, notwithstanding the heavy receipts.

Prices for the good butchers, of which there were few, held about steady, but the common, rough classes were slow of sale and lower in price, as will be seen by the sales given below.

Maybee & Wilson sold the best load of Maybee & Wilson sold the best load of the sales given below.

No export steers were on sale, consevered to put reached on Monday; we wanted at the close 93 1-4 was bid for the security, with offerings fractionally above that figure.

The tooker and feeder market, especially sale than for some days. The Nipissing was traded in on a more active scale than for some days. The stock moved up over 2 points to 24 3-8 under the improved speculative demand, and was wanted at the close around the top figures. Recent developments at the property are understood to be highly favorable, and the finding of a new vein fich in silver values has served to put the stock more in favor with followers of the mining market.

Wetlauffer was another strong point in to-day's quotations, these shares touching par for a small lot of the stock, thus establishing a new high record for the present movement. The advance did not hold, however, and on the afternoon board a decline of two points from the ruing quotation of the morning occurred. At the close 93 1-4 was bid for the security, with offerings fractionally above that figure.

There was not much doing elsewhere in the market. Hargraves held around in the market. Hargraves held around in the market.

No export steers were on sale, consequently there were none sold at \$6.25 per cwt. Thomas Connor reported to The World that he got about half a load of export bulls, 1400 to 1900 lbs. each, at \$4 to \$5 per cwt.

Butchers.

Geo. Rowntree bought during the two days 690 cattle for the Harris Abattoir Company—butchers' steers and helfers.

\$4.85 to \$5.60; cows, \$1.50 to \$4.75; bulls, \$3.50 to \$4.70.

Stockers and Ecolomic to the same was not much doing elsewhere in the market. Hargraves held around 33, the high point reached on Monday; Rochester lost a point at 9 3-4 and was weak at the close. Other than these, price changes were purely nominal. There was no breadth to the trading in the recent high, selling back to \$7.75 and closing five points lower.

## To Brighten a Cityful of Homes

When a customer comes into our Rug Department to purchase a rug for a bedroom or nursery, or a spare room, her first request is to be shown our "Wool Rugs." Her reasons are that they are cleaner, have neater designs, are reversible, and are more easily handled and cleaned than any other rug for this particular purpose. The reasons are quite logical, and "Wool Rugs" are indeed very serviceable rugs. We emphasize particularly the "Goravan" quality, which we are showing in rose, green, tan, mauve, brown and blue. The designs are varied, and include chintz, lattice, floral, conventional, mission and plain French effects. The prices are very reasonable:

6.9 x 9, 9 x 9, 9 x 10.6, 9 x 12, 9.0 x 13.6, 10.6 x 12, \$12.00. \$15.00. \$17.00. \$19.50. \$22.00. \$22.00. \$3.50 TAPESTRY CURTAINS, SELLING AT \$2.98.
