TWO FIREMEN INJURED WHEN BROCKTON TRUCK WAS STRUCK BY A CAR

Lieutenant Harry Hamilton May Die, and Driver Charles Irwin is in a Serious Condition From Injuries Received at College and Dufferin Streets—Rumor That Motorman Has Disappeared

Colliding with terrific force, an east-bound College car, running at 20 miles an hour, crashed into a northbound hose wagon at Dufferin and College streets last night. Lieut. Harry Hamilton and Driver George Irwin of Brockton fire hall were seriously injured, and Hamilton is not expected to live many hours. Thrown several yards and landing on the pavement he sustained a fracture at the base of the skull, a broken nose and a deep gash above the left eye. Irwin has a compound fracture of the elbow and was badly bruised. Both were taken to the Parkdale Hospital, 71 Melbourne ave.

Motorman No. 1628, who operated the car, cannot be located by the police of No. 7 Division, in which the accident occurred. Following the collision his number was taken, but not his name. At midnight the police informed The World that the motorman had disappeared.

Boy Heard the Bell.

As the hose wagon with Hamilton and Irwin on the driver's seat and Wm. Swan on the rear standing board, was drawn by galloping horses north on Dufferin street en route to a fire in Wyckwood, the car was advancing at a rapid rate along College street east-bound. There was no slackening of the rate of the street car nor of the hose wagon. The going of a fire apparatus is the signal for all traffic to come to a standstill, but whether motorman 1628 heard the alarm is uncertain. It is said that a small boy named Freeman, hearing the gong, pulled the bell rope before Dufferin street was reached.

TRAINS COLLIDE FIREMAN KILLED

Several Passengers Slightly Injured in Grand Trunk Railway Wreck at Parkhill.

LONDON, Oct. 17.—(Can. Press).—Fireman H. R. Scott of Stratford was killed and several persons injured when two G. T. R. trains collided at Park Hill tonight. Mixed train No. 72, east-bound, had partly backed into the switch to allow a thru log train to pass, when the latter ran into her. Engineers Farr and Whitting were on the two engines hauling the mixed train, and escaped injury by jumping. The compound locomotive hauling the freight, was derailed and otherwise damaged.

Mrs. D. M. McLeod of Parkhill was slightly injured when thrown against a seat. A car of apples in the mixed train was smashed against the engine tender, and one animal in a car of cattle was killed.

Toronto trains Nos. 5 and 7, were sent around by way of London while the line was blocked.

HAS THE CANADIAN PACIFIC GOT THE GRAND TRUNK?

The World has seen a good many doings of late that go to prove that the Canadian Pacific has got some kind of control over the Grand Trunk.

IS A TERMINAL COMPANY IN SIGHT?

The Canadian Pacific and the Canadian Northern are working together on a North Toronto station and a joint section from Lambton to Donlands, a distance of ten miles across the whole of North Toronto.

Is the Grand Trunk also coming in, and is there to be a company controlled by the three systems that will own all the terminals, stations, tracks, switches, sidings, etc., in and about the city?

Parents, Not Teachers to Blame.

BRANTFORD, Oct. 17.—(Special).—Principal W. N. Bell of Paris, president of Brant Teachers' Association, at the annual convention here to-day declared that the average age 13-12 years, of successful entrance candidates, was too high, and that the fault was with the parents and not with the teachers.

He advocated home work and a stricter pervasion by parents over all the pupils, which would result in great economy in the present public school educational system.

Over 15 teachers were present at the annual meeting.

CRUSHED BY FREIGHT CARS

William Sowerby Was Fatally Injured While at Work in Union Station Yards.

William Sowerby, a trainman, living at 197 Sumach street, was fatally injured in the Union Station yards yesterday afternoon. While coupling two freight cars, he slipped and was thrown on the track, his head being crushed. He was rushed to Grace Hospital in the Ellis' motor ambulance, but died a few moments after admission. Coroner Dr. Cotton will open an inquest today.

RUSHING TROOPS TO CRUSH DIAZ

Insurgent Leader Said to Be Gaining Strength, But Madero is Contentious.

MEXICO CITY, Oct. 17.—(Can. Press).—A train load of troops from the State of Morelos reached the capital last night and will reinforce Gen. Beltrán in the campaign against Diaz. The day before the fall of Vera Cruz, the legislature of the State of Morelos formally protested to the central government against the weakness of the federal forces in that state, and requested reinforcements in view of the increased number of Zapatista bands operating there.

The government, however, has been determined to throw all its power against Diaz. Gen. Diaz is said to be gaining strength in the coast country, and it is believed will make an effort to occupy the port of Tampico, although early advice does not indicate a formal movement towards the interior.

President Madero and his ministers persist in minimizing the importance of the revolt and express the opinion that Gen. Diaz will never get out of the State of Vera Cruz.

"The Littlest Rebel."

ISSUE IN E. MIDDLESEX IS "ABOLISH THE BAR"

For This Reason, Temperance Forces of Riding Refuse to Endorse William Sutherland, Independent Candidate—Blue Ribbon Say Nominee is Not Real Cold-Water Advocate.

LONDON, Oct. 17.—(Canadian Press).—The temperance electors of Middlesex this afternoon declined to endorse William Sutherland, the independent candidate in the by-election, despite his acceptance of the "abolish the bar" platform. Neither candidate will be endorsed.

Frank Whitehall spoke of an interview with Mr. Sutherland regarding his attitude, and the candidate admitted he was not a teetotaler and refused to commit himself on the abolition of the bar.

"What do you make out of a promise that Mr. Sutherland has signed to

accept Mr. Rowell's policy?" asked A. C. Johnston.

"Neither in the principle nor practice is he a temperance man," replied D. A. Macdermid. "We know that in the Dorchester option fight he was one of the strongest opponents. Coming out as he does at this late hour does not change his character."

"They talk about hypocrisy in the church, but if that isn't hypocrisy outside the church," said Chas. Finch. "I won't support him. Neither will I support Mr. Rowell."

It was finally decided not to support any candidate, and a resolution to that effect was passed.

SERVIA AND BULGARIA DECLARE WAR ON TURKEY FIGHTING TO BE SHARP

GREECE DECLARES WAR.

ATHENS, Oct. 17.—(Can. Press).—2.30 a.m.—Greece, not wishing to detach herself from her allies, sent instructions early this morning to the minister at Constantinople to communicate a declaration of the war to the Porte. Greece at the same time sent a fraternal greeting to the allied states.

Servia and Bulgaria declared war last night.

Belgrade Scene of Wild Enthusiasm Following Formal Declaration in Answer to the Porte—Greeks Gain Naval Victory in Preveza Strait—Brief Campaign Likely.

WAR against Servia, Oct. 17.—(Can. Press).—War against Servia was formally declared tonight by the Servian Government. The declaration was transmitted to the Servian minister at Constantinople this afternoon with instructions to present it to the Porte tomorrow. The minister will then leave immediately for Belgrade.

The great powers will also receive notification tomorrow of Servia's declaration.

Immense crowds paraded the streets, singing and cheering, after the announcement of Servia's determination to fight. The crowds are increasing hourly and an enthusiastic war spirit prevails.

CAMPAIGN WILL BE BRIEF.

LONDON, Oct. 17.—(Can. Press).—While Turkey and the Balkan states are carrying out the last formalities connected with the declaration of war, interest has been transferred to the prospects of the campaign. Two influences are expected to make the war short and sharp. The first is the approach of winter; the second is financial pressure. None of the belligerent states is in a position to stand the strain of prolonged military operations.

Bulgaria was disappointed recently in her efforts to raise even a small loan in Paris, while Turkey has been endeavoring both in New York and Paris to borrow money, but up to the present without success. The financial resources of the other states concerned are very limited. Little is likely to be heard of the European conference until some decisive action has been fought, when doubtless the European concert will renew its efforts to bring about peace on broad lines.

On Land and Sea.

The war is expected to develop into a land campaign between Bulgaria and Turkey and a naval struggle between Turkey and Greece. It is believed that Turkey will concentrate her strength and attack the Bulgarians separately before the Servians can come to their aid. Much will depend upon whether Turkey gains command of the sea which will facilitate the transport of her Asiatic troops to the theatre of war.

Little is known as to how far the allied Balkan states have concerted their strategic plans. The independent

Bulgaria's Proclamation Today.

SOFIA, Bulgaria, Oct. 17.—(Can. Press).—King Ferdinand is on his way to the headquarters of the Bulgarian army near the Turkish frontier. The king's manifesto to the people, declaring war, will be published tomorrow. A special service will be held in the cathedral when the archbishop will invoke a blessing on the holy war on which the country is embarking. Similar services will be held throughout the country.

Premier Guechev issued a statement today on the attitude of Turkey, saying:

"With pride which it lacerates with the miserable role she plays in the European concert, Turkey has just declared that the identical note of the Balkan states does not merit an answer."

"MASSACRES IMMINENT."

CONSTANTINOPLE, Oct. 17.—(Can. Press).—The council of ministers were still engaged today in debating on the attitude of Turkey toward Greece. The Turkish troops on the Bulgarian and Servian frontiers received orders last night to take the offensive, and, according to official information, large numbers of Pomaks, fanatical tribes of Mussulman Bulgarians who in past times have massacred Christian Bulgarians wholesale, crossed the frontier at Kirodoli, about forty miles to the west of Mustafa Pacha, penetrating several miles into Bulgarian territory, the Bulgarians retreating.

All reports received here indicate that serious fighting is proceeding at various points, including the district north of Gusline.

Sir Edward Davidson to Be Governor of Newfoundland

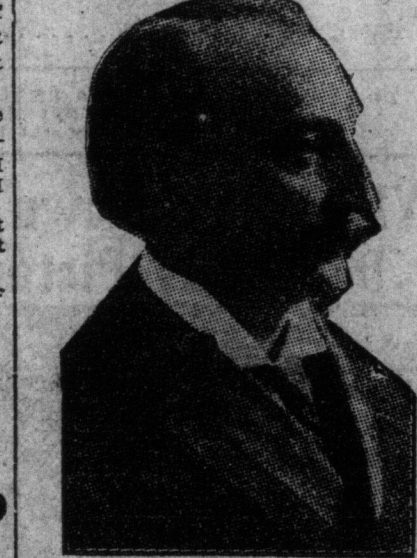

LONDON, Oct. 17.—(C. A. P.).—Edward Davidson, C.M.G., governor of the Seychelles since 1904, has been appointed governor and commander-in-chief of Newfoundland in succession to Ralph Williams, who is to retire on Feb. 3.

Walter Edward Davidson, before becoming governor of Seychelles a group of small islands, possessions of Britain in the Indian Ocean east of Zanzibar, was assistant colonial secretary of the Transvaal and was mayor of Colombo (Ceylon) in 1888. He is 53 years of age and received knighthood in 1902.

ROOSEVELT STILL IN THE ZONE OF DANGER

Anxious Family and Physicians Fear Blood Poisoning or Lockjaw May Yet Develop—John Mitchell and Lord Roberts Send Messages of Deep Concern.

CHICAGO, Oct. 17.—(Can. Press).—Through a day of unbroken calm, Col. Roosevelt lay in his bed in Mercy Hospital with virtually no variation of his condition. It was a day of waiting, with the ever present possibility of complications, but with lessened fears on the part of those who are watching over the wounded man. He seemed in his almost normal condition, but there was no relaxation in the strict regime, and his physicians said that he was by no means out of danger.

Col. Roosevelt's physicians were discussing tonight the length of time it will be necessary for the colonel to remain in the hospital. It was thought it might be safe for him to leave for Oyster Bay on Monday or Tuesday if all goes well, but not even a tentative decision was reached.

The clinical records were the most encouraging of any day since Col. Roosevelt entered the hospital. During the morning the variation in temperature was limited to two-tenths of a degree, and throughout the afternoon it was reported as normal. There was virtually no variation in the pulse.

Still Fear Lockjaw.

Possibility of tetanus or "lockjaw" always to be reckoned with in the case of bullet wounds, has still to be considered and as the period in which this might develop, the physicians said, is six or seven days, Col. Roosevelt will not be regarded as entirely out of danger even should the next day pass with no signs of blood poisoning. Dr. Scurry Terrell said that the colonel could not leave the hospital safely until the expiration of this period, and for that reason it was regarded as out of the question to consider the colonel's departure for Oyster Bay before early next week.

Two callers on Col. Roosevelt today were twins, Joseph and Francis Walshe, who were born just as Col. Roosevelt was being brought into the hospital Tuesday morning.

Mrs. D. F. Walshe of Chicago, their mother, sent them down to "interview" the colonel. Their method was to cry lustily as each was taken on his left arm.

"They are good bull moose timber," smiled Col. Roosevelt; to the nurses; "they ain't afraid to voice their protest against a situation or condition they believe unjust. Congratulate their mother for me."

Mrs. Roosevelt gave the babies a motherly pat as they were being taken back to their mother.

Rumor Is Bred.

OTTAWA, Oct. 17.—(Special).—Rumor with many tongues is busy in Ottawa tonight. She has much to say of Hon. F. D. Monk's resignation from the cabinet, and of his resignation from the government.

All agree that Mr. Borden did not ask for the resignation. Mr. Borden likes and respects Mr. Monk, and Mr. Monk, a gentleman by birth and education, has a personal loyalty to his chief. If Mr. Monk has resigned, it is

not to embarrass Mr. Borden, but to save him from embarrassment. Mr. Monk, if all reports are true, would sacrifice much for the prime minister, and the latter would go a long way to meet the wishes of his first lieutenant in Quebec. The difficulty is one between Mr. Monk and certain other members of the cabinet.

Monk is Worried.

The friction is not entirely due to the naval question. The details of the public works department worry Mr. Monk, and his administration does not please some politicians.

Mr. Monk will be succeeded in the public works department, according to gossip, by Hon. Robert Rogers. Dr. Roche, now secretary of state, will become minister of the interior, and L. T. Marchall will become secretary of state. The appointment of Louis Coderre, M.P. for Hochelaga, to the bench will open a seat for Mr. Marchall.

It is understood that the reason for Mr. Monk's resignation is because of his stand on the navy question. He is convinced that the situation which confronts the empire is grave, and even critical. But he is earnest and insistent in his opinion that no assistance should be given by Canada, even as an emergency contribution, without referring the question to the people. There is reason for the belief that this latter view is not held by his colleagues.

Will Retain Seat in the House.

It is thought that while Mr. Monk will resign from the cabinet he will retain his seat in the house and give the government independent support.

Strong pressure is being brought to bear upon Mr. Monk by influential friends in Montreal to continue his connection in the cabinet, and there is yet hope among his friends that he will change his views and stick with the government.

Emergency Contribution \$30,000,000.

The general impression here now is that Premier Borden's naval program will consist of an emergency contribution of \$30,000,000.

Mr. Nantel Retains His Place.

The authoritative announcement tonight of Mr. Monk's disagreement with his colleagues on the naval question and of his insistence upon a plebiscite as a condition precedent to the emergency contribution by Canada to the imperial navy, confirms the reports which have been persistent for some days past. It justifies the inference, however, that Mr. Nantel will retain his place in the government. There has never been any question as to Mr. Pelletier's position.

Mr. Marchall was here today, accompanied by Mr. Coderre, M.P. for Hochelaga, and there is little doubt but that Mr. Marchall is to enter parliament and the government at an early date.

Portfolio Not Congenial.

Altho Mr. Monk is retiring because of difference of opinion upon the naval issue, there is reason to believe that the public works portfolio has never been congenial to him. It is said that some of his recommendations were ignored by the cabinet and that some of his colleagues protested that the political end of the big department of public works was not being well handled. Mr. Monk is an able and conscientious man, of sensitive temperament and he would have retired from office some time ago had he consulted his personal inclination.

The Talk of Montreal.

The coming resignation of Hon. F. D. Monk is now the talk of the town, altho a strong sentiment against the action of the minister of public works has developed among the rank and file of the Conservative party. As a matter of fact, none of the old Conservatives wanted the minister to throw up the sponge. Mr. Bourassa alone being the one factor favoring a shirking of the responsibility which was forced upon the leader from this district.

Friendly Relations.

It is understood that Premier Borden accepted the minister's resignation this afternoon. The relations between these two gentlemen are friendly. Mr. Monk realizes the absolute necessity of an urgency vote, but after pledging himself to the people in a contrary sense, he did not care to face the responsibility. Thus the minister of public works is undone and he may blame Mr. Bourassa for it all. There is every probability that Mr. Thomas Chase Casgrain will be Mr. Monk's successor in the cabinet, running for Hochelaga to be vacated by the appointment of Mr. Louis Coderre to the bench.

RADICAL CHANGES IN LIQUOR LAWS PROPOSED BY A TORONTO LAWYER WHO WOULD LICENSE ALL DRINKERS

John Galbraith, Who is Offered Liberal Nomination in Muskoka, Would Compel All Drinkers to Take Out Licenses and Publish Their Names—Heavy Penalties Suggested for Infraction of Law—Claims His System is Better Than the Liberal or Conservative Proposals.

John Galbraith, a Toronto lawyer, now living at 170 Davenport road, has been practically offered the Liberal nomination in Muskoka, the constituency left vacant by the appointment of A. A. Mahaffy, ex-M.L.A., to the bench. Mr. Galbraith, in a letter to the Muskoka Reform Association, for its consideration before allowing his name to go before the convention, gives views on the liquor question which are somewhat out of the ordinary and in opposition to Mr. Rowell's banish the bar policy. He declares that the best solution of the liquor problem is the governing of it by licensing drinkers. His letter follows:

170 Davenport Road,
Toronto, Oct. 16, 1912.

Secretary Muskoka Reform Ass'n.,
Bracebridge, Ont.

Dear Sir: Your favor of the 11th inst., to hand, re holding of Liberal organization, but I regret to learn there is no local Liberal candidate in sight for the prospective by-election in Muskoka. Before allowing my name to go before your Liberal convention, as a candidate, permit me to submit my views thru you, to your association for their consideration.

At the last provincial election, I accepted as the last moment the Liberal candidature, that the electors of Muskoka might have a chance to declare themselves at the ballot box on certain party issues, one of which was a majority instead of three-fourths vote of the polled votes, to carry local option, a plank which I earnestly advocated. Since then, Mr. Rowell, leader of the Liberal party in Ontario, advised by his friends, has adopted it as leading plank in his platform of "abolishing the bar."

This plank was not brought out or ratified by a properly called provincial convention, and to my mind, this is not orthodox Liberalism.

I respectfully differ with Mr. Rowell's policy of abolishing the bar, as the best means of regulating liquor traffic in Ontario, and will give you my reasons for so doing:

My leisure reading has been social reform literature, where the "dramatists" suggest ideas for the betterment of humanity, and I became so imbued with these ideas that I wrote a social reform pamphlet entitled "In the New Capital," now out of print, principally dealing with municipal tax reform, shorter hours of labor, to counteract the productive power of new machinery, and government by progressive democracy.

The great problem which confronted me was how to best regulate the liquor traffic from our constitutional standpoint, and after observing the workings of the Dunkin, Scott, Crooke's Act, and local option, and the difficulty to enforce them, and also taking into consideration the comparative cost of Canada, as decided by the judicial committee of the privy council of England. The provinces have not the right to prohibit the importation of intoxicating liquors into the province, of the manufacture of intoxicating liquors within the province for exportation.

The Proper Scheme.

So after much reading and thinking, I evolved a scheme of dealing and regulating the liquor traffic in the province, which I conscientiously believe is the proper one, viz., to annually license the drinker and permit licensed bars and shops to remain, but knocking out all club licenses.

I hope that your association will pardon me if I go into detail as to the method.

I believe in the enactment of a provincial law to carry out and enforce fearlessly the penalties of such a plan.

The provinces to make the appointments of three eminently qualified men in every county and city in the province, who must use a wise discretion and have the power to issue annual licenses to drink.

Intoxicating liquors (except to all persons under twenty-one years, Indians, and persons

mentally defective), charging a nominal or graded fee from one to ten dollars per annum.

All applicants must fill out a form before the first day of December each year, stating full name, nationality, age, occupation, approximate income, and annual prospective expenditure in intoxicating liquors.

If the commissioners are satisfied, they may issue an annual license, and give to the applicant a class or tag, to be worn on the vest, with name, county and year upon it, so the hotel or shopkeeper or bartender may see it, and they may also demand to see his license. The licenses are only good for the county where issued, except on Dominion holidays, and the days before and after. Special licenses of six months' duration may be issued to commercial travelers, tourists, visitors to drink in any county or city.

May Cancel License.

Where any relative or interested person appears before the commissioners and proves satisfactorily that a licensee is abusing himself, or that his family is suffering thru his excessive drinking, the commissioners may cancel his license for the current and following year, and a notice of such cancellation to the county or city hotelkeepers. He must also return his class and license under a penalty.

The names and addresses of all licensees to be published in the newspapers having the largest circulation in each city or county, and a list sent to each hotel and shopkeeper, in each city or county.

Now as to fines and penalties:

A minimum fine of ten dollars and costs or in jail (except members of hotelkeeper's family, employees or legalized officers) for any person found in a licensed bar or shop without the annual license.

A minimum fine of four hundred dollars and costs or one year in prison for the first offence, for any hotel or shopkeeper or bartender to sell or give gratuitously to any person without the license, and for the second offence, two years in prison, without option of fine, and cancellation of his hotel or shop license.

A minimum fine of two hundred dollars and costs or six months in prison for any licensed or unlicensed person except druggists to treat, sell, give, any intoxicating liquors to any unlicensed person, or if he is a licensed drinker to lend his license or class, that unlicensed persons may obtain such liquor, and the cancellation of such drinker's license.

Sale by Druggists.

Druggists may only sell to licensed and unlicensed persons thru doctors' orders, and quantity sold to each person recorded, along with disease and name of prescribing physician.

A similar fine for any person using an unauthorized class or license.

In all trials before magistrates or in superior courts, the evidence of the jury must be taken down by the attorney-general's department, so that it is found that the magistrate has not dealt with the case according to evidence he may be dismissed.

No hotel or shopkeeper or bartender must sell under penalty to an intoxicated licensed person.

If this system was in operation let me point out its crowning features, compared with Liberal and Conservative policies.

1. Youth would be protected up to twenty-one years and parents would know when their children were taking out licenses and their influences would be used against them.

2. The province, thru its commissioners, would have control of the drinkers and prevent them from abusing

JOHN SCHIRANK.
The mentally-unbalanced crank, who attempted to take the life of Ex-President Roosevelt, while the colonel was making a speech in front of the Hotel Gilpatrick in Milwaukee.

themselves or families and cultivate self-control in the drinker to obtain his license.

3. It would not interfere with teetotalers.

4. Many persons now classed as churchgoers, who take their "little nip" on the sabbath, would refrain from taking out a license, for the finger of shame would be pointed at them, where they had not appeared as licensed drinkers. This is the class Mr. Rowell expects support from, but I fear he won't get.

5. Considerable increased provincial revenue.

Permit me to compare this with Conservative policy.

Sir James Whitney's policy of non-treating will considerably lessen the liquor consumption, but this does not protect the youth from the first glass.

Nor has the province control or supervision of the drinker or his family unlicensed and as may prove disastrous.

If the bars were abolished under Mr. Rowell's policy it would produce:

1. Great reduction in the value of hotel property and allied interests, without compensation.

2. A reduction of provincial revenue.

3. It would require a policeman in every bar, and possibly a man to watch the policeman, or a small army of officials to enforce it.

4. It would encourage the importation of liquors from other provinces and drinking in homes such as not exist, and the carrying of flasks, blind pigs and illicit whiskey resorts.

5. It would retard immigration to Ontario, for many coming from the United States and European countries, who use but don't abuse the social glass, would not come to "dry" Ontario but would go to other provinces.

6. It would create never-ending antagonism between the liquor and allied interests and the government.

7. Coercion of the minority by the majority in the legislature.

I am strongly in favor of the principle of licensing the drinker as the best means of dealing with the liquor traffic in Ontario.

Tax Reform.

I am fully in accord with all the other planks in Mr. Rowell's platform, and especially so in local option, in municipal taxation, which I advocated in my pamphlet sixteen years ago, for on page 108 the following sentence occurs:

"We recommend that the governments of the different provinces pass a local option taxation act, whereby the different municipalities may be enabled to abolish wholly, or partly, all taxes on buildings, machinery, income, improvements and other forms of wealth, and to substitute one tax on the value of land."

I may say that system of taxing the drinker appeals to many rational Conservatives as well as Liberals from letters I have received in the past.

I will not relax my principles for the sake of party, even if by so doing I should win a majority before party."

Now if the Liberal Association of Muskoka approves of my stand on the liquor question, I will be pleased to allow my name to go before the Liberal convention of Muskoka and be governed by the choice of the convention. If they do not I will be pleased to remain in humble life with the consolation that I have not forfeited my cherished principles.

Permit me thru your association to return my sincere thanks to all who voted for me in the last provincial election.

Wishing your association and the Liberal cause in Muskoka all success, I am, yours respectfully,
John Galbraith.

BIG CAMPAIGN WILL CLOSE TODAY

Board of Trade Membership Has Been Materially Increased, and Some Day the Board Must Have a Building of Its Own—More Returns at Today's Luncheon.

At the board of trade luncheon yesterday Secretary Morley was able to report that the membership campaign was within striking distance of 300, being a century for each of the three days that had elapsed. Today's luncheon will be the last, also the five-day campaign does not close until the evening, members having expressed the wish to be at liberty on Saturday.

Mr. Morley said that his mail that morning was three or four times larger than on any other day. It contained no fewer than 41 applications. On his own behalf, as representing the board, Mr. Morley said that he had six applications and as many promises.

Vice-President W. P. Gundy, having returned from his travels, occupied the seat to the right of the chairman, and being called upon for an address, spoke very encouragingly of the work in hand. He said that it was an occasion, however, not for talking but for rounding up. He noticed that they had reached a point in excess of the point reached on the third day of last year's campaign, also the total ultimately counted to upwards of one thousand. At the end of the third day they certainly had no such returns by mail as Mr. Morley had just reported. These returns showed that the city appreciated the board, and being called upon for an address, spoke very encouragingly of the work in hand.

REWARDS GIVEN FOR GARDENS IN WEST

Mayor Geary Makes Presentations at High Park Ratepayers' Association Last Night, and Commends Excellent Work Accomplished in Beautifying York Loan District.

"A person who takes pride in his city clearly indicates that he also takes a strong pride in himself and his character."

Thus spoke Mayor Geary last evening at the meeting of the High Park Ratepayers' Association in Howard School, on the occasion of the presentation of the prizes to the winners in the garden competition conducted under the auspices of the association with a view to beautifying the High Park district.

The mayor in his address highly commended the association and the residents of the district on the results of their efforts along this line. "I doubt if there is another section of our beautiful city, not excepting even Rosedale or Riverdale, which exceeds or even equals your district in beauty."

"I have in the course of my civic duties often been obliged to travel thru the High Park district and I must congratulate you on the general appearance, tidiness and beauty of the lawns, flower gardens and shrubbery," declared the mayor.

Wm. G. McKendrick, president of the Toronto Horticultural Society, who presided at the meeting, complimented the association on the high standard of the competition.

Mrs. William Mommern carried off the highest honors of the season for the best kept lawn and garden in the district. She was awarded the beautiful silver cup trophy, which is open for competition until next year in succession. The person accomplishing this feat then retains the trophy.

His worship warmly congratulated Mrs. Mommern, wishing her success in her efforts to win it outright.

The annual report of the association showed that during the past year the association had been successful in securing many improvements for the High Park district, such as playgrounds, street widening, good roads and sidewalks, etc.

The following are the prizewinners in their respective districts. The first three were presented with suitably engraved shields and the others with certificates of honor.

The Prize Winners.

Mustard weed to disappear

By the successful experiments of the Ontario Government, there is a probability that the deadly mustard weed, which causes so much anxiety among farmers, will be a thing of the past within a few years. Prof. Toad, provincial farm director, has found a way to kill the mustard seed. Last spring he had a 100-acre farm near Brockville, comprising fields of oats and barley, which were literally yellow with the mustard weed, sprayed with a solution of bluestone or sulphide of copper. This farm has produced very poor crops in the past, but this fall there was an excellent yield and no traces of mustard were found. The same method of killing the mustard will be tried on the same farm next spring in an effort to find out whether this solution should be used on all farms in the province.

URGES TAXATION OF THE LAND VALUES

Keir Hardie, M.P., Tells University Students Toronto is Suffering Because Taxes Are Not Properly Adjusted—Says Socialism is Only Cure for Industrial Unrest.

"I don't know a city in the world needing taxation of land values more than Toronto," said Keir Hardie, M.P., the British Labor leader, in addressing the students of Toronto University yesterday afternoon. At the conclusion of his address, when questions were invited, Mr. Hardie was asked if he believed single tax would mean a fairer distribution of real wealth.

"I am not in favor of the adoption of single tax," said he, "but I suppose taxation of land values is a good thing in itself."

The distinguished speaker's remarks had been directed toward the labor movement and a defence of Socialism, which he described as the only solution of the social unrest existing now in all the great industrial countries. He appealed to the students, at the commencement of their careers, to throw in their influence to gain the ideal for which the great working masses were struggling. At this point he took occasion to offer a criticism on the modern university curriculum.

Too Much Time.

"It seems to me our colleges are putting too much time upon the abstract studies and not sufficient on the concrete things of life, which will make men useful and potent citizens. Possibly, perhaps, I escaped that harmful tendency, for I never spent a day in a university, nor even an elementary school. What I know of men and life has been picked up in the hard school of experience."

Touching upon the progress of the social movement over the world, Mr. Hardie paid a high tribute to the value of women's work and influence. "I believe the men of this country will see to it that the injustice from which women are suffering in the denial of the franchise will be removed before very long. Women must have the right to reform, and they require the ballot to give their better thoughts exercise."

The labor leader, in referring to the Balkan crisis, declared that Europe could step in at any moment and demand peace, but that she was thinking only of protecting her own trade and commerce routes.

"War means murder on a wholesale scale," said he, "and militarism means the destruction of all that is pure and best in human nature."

A voter from the audience asked if the labor movement was accomplishing anything in the direction of abolishing war. Mr. Hardie gave an emphatic answer. He told of the international peace congress lately held by the Labor party and of the action taken there. The Labor party has been itself in favor of teaching principles of peace to the children in the schools instead of stimulating loyalty in them, which he declared was a form of militarism. If children were taught that Germans are human beings, almost identical to themselves, they would grow up to consider their brothers and not enemies. He stated that he recently outlined a plan of war prevention that is now being negotiated by the Labor party in England. It is this, that if two rulers came to the point of declaring war on each other, the workmen of each country would declare a general strike and thus frustrate their entire plans. This would require a standing army, but it would have to remain in the country to preserve order among the strikers.

In answer to a question as to whether Mr. Hardie said he had no use for royal families, but he would not be alive when Socialism reached its goal, he said it was to decide the form of government.

FRIDAY MORNING, OCT. 13, 1912.

BULLYING POLICEMEN.

Are Toronto policemen becoming un-
civil? For a long time the local force
has enjoyed the reputation of being
polite and considerate in its treatment
of the citizens. But as the city has in-
creased in size, this condition has
changed. Many officers have an idea
that it is part of their duty to shout,
threaten and bully. An incident which
was brought to our attention recently
illustrates this.

A small team block occurred on a
downtown street. It consisted of a
street car, a motor and two or three
trucks. An officer was summoned to
untangle the vehicles. He began by
ordering in a most offensive way the
motorist to turn out to one side of the
road, and when the latter politely
pointed out that one of the other vehi-
cles ought to move first, the officer
told him he had no time to listen to
him and threatened to "pull him out
of his car" if he did not move immedi-
ately. Now, this kind of thing may do
for police-ridden cities like New York
and Chicago, but it won't do in To-
ronto. The police are public servants,
paid by the citizens, and from them
even the humblest citizen has a right
to expect fair and civil treatment.
London, England, has admittedly the
best police force in the world and an
officer who shouted or grew abusive
while regulating traffic as some of the
local men do, or who spoke as the of-
ficer quoted above, would be severely
reprimanded.
Police tyranny is a most dangerous
and offensive thing, and must not be
allowed to gain a foothold in Canadian
cities.

TORONTO TO OTTAWA—A LONG, DEAR AND ONE HORSE SERVICE.

North Toronto to Glen Tay. 191.3 Miles.
Glen Tay to Smith's Falls. 157.3
Smith's Falls to Ottawa. 45.5
Total distance. 394.1

A passenger leaving North Toronto at
11:40 a.m. is booked to be in Ottawa
at 7:50 in the morning, a period of
eight hours ten minutes, rate of travel
about 22 miles an hour. This is a journey
unnecessarily long in distance, un-
necessarily long in time. It could be
reduced by 25 miles by short cuts, and
the trains could be run at 50 miles an
hour, inasmuch as all local business is
or could be done by local trains.

But the Canadian Pacific Railway
have for 25 years refused to either
shorten this line to Ottawa or improve
the service. They have had a mono-
poly. Competition now seems in sight,
and some little improvement may be
expected. For instance, they propose
to lay a double track as far east as
Agincourt (some 12 miles or so from
North Toronto), and at Agincourt, or
just beyond it, they are now building
their lake front line thru Cobourg and
Belleville to Glen Tay, where the main
line is joined. It is possible to build a
direct line from Glen Tay or from Perth
into Ottawa, and thereby reduce the
distance by 25 miles or so, bringing the
total mileage down to 230 miles; and
the time could be greatly accelerated.
But at the present moment there is no
prospect of the short line between Glen
Tay and Ottawa. It is at best a round-
about line. It was inferior in construction
until recently, as compared with
other portions of the system, and has
been run as a second-class branch line;
and, as a consequence, people average
from seven to eight hours in the un-
necessarily long journey between Toron-
to and Ottawa.

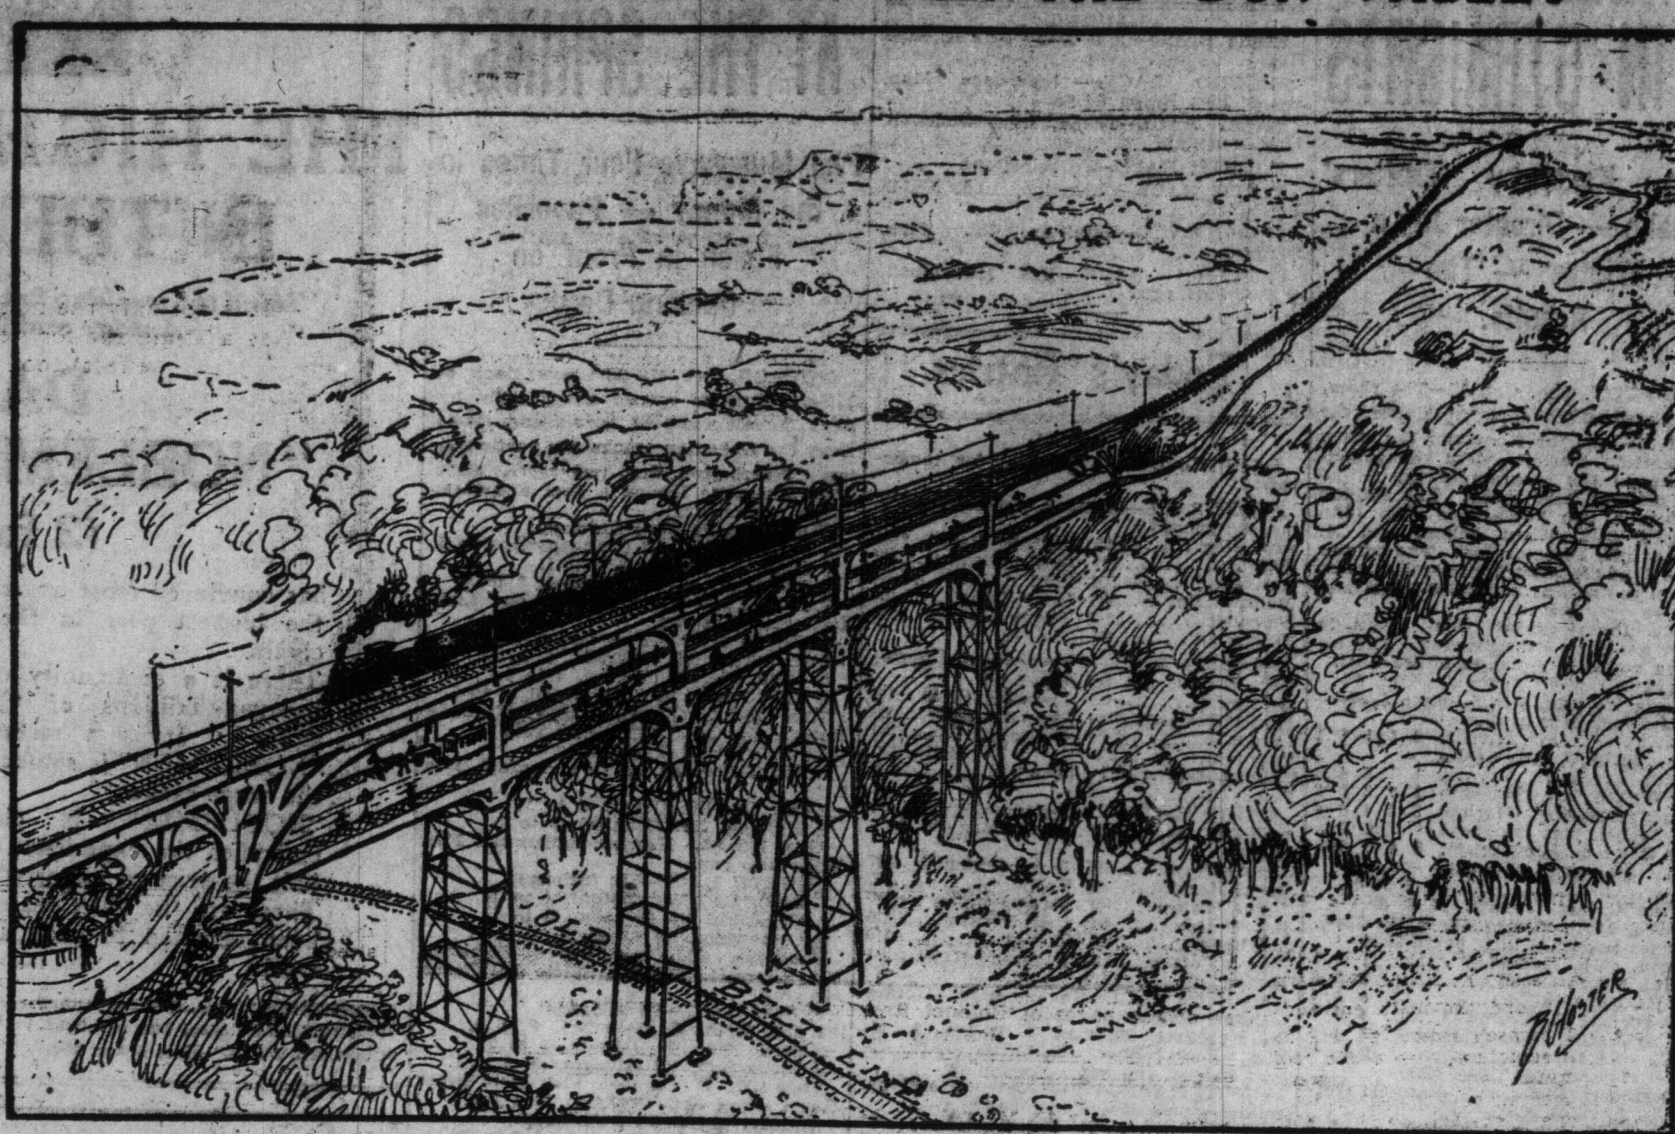

Furthermore, parliament has voted on
several occasions a subsidy toward a
line to shorten this route. There is also
a subsidy supposed to be awaiting the
Grand Trunk when it builds an air line
service between Kingston and Ottawa,
and in this way give the best possible
service between Ottawa and these two
cities.

The Canadian Pacific does not want
to see a quick thru line between Toron-
to and Montreal. It would prefer to
have a short line between Montreal and
Ottawa, and to have Montreal influ-
ence more predominant at Ottawa than
the influence of Toronto. "You go to
Ottawa from Montreal in three hours",
time, and in two hours when they want
to do it; but it takes eight hours from
Toronto, and often more, and in winter
the trains are frequently stalled.

Every passenger who goes this round-
about way pays unnecessarily 60 cents
to a dollar of unfair tolls. Not only is
unnecessary money taken from him,
but traveler's time is unnecessarily
used in making the journey, and for

THE EVENING TELEGRAM, WEDNESDAY, OCTOBER 16, 1912.

DOUBLE-DECKED BRIDGE FOR THE DON VALLEY

If a diagonal road is laid out, as W. F. Maclean proposes, the Laird of Donlands will try to have it carried across the Don ravine on a deck bridge of the future, with possible street cars running below the railway trains.

The World is indebted to The Telegram for the above illustration and comment on a letter sent by W. F. Maclean to York Township Council, suggesting to that body, that, inasmuch as the Canadian Pacific and the Canadian Northern Railway were now engaged in building a new joint section from Upper Yonge street to the crossing of the West Don, beyond Leaside, the council should ascertain from the railway whether it would not be possible to have side decks or under decks put on the three new bridges that are to be erected on the joint section so as to allow residents of the city and township and their vehicles to get over the Reservoir Park Ravine, the Belt Line Ravine and the crossing of the West Don, a mile beyond Leaside.

As a matter of fact, the present line of the Canadian Pacific from North Toronto northeasterly to where it crosses York and Scarborough townline at Westford is the one diagonal high-level grade that leads out of Toronto eastward, and if a driveway parallel with this were laid out, using the

same bridges, it would be Toronto's leading thoroughfare east and northeast. The township council decided to write to the railway, and it is be-
lieved that the Canadian Northern are working at the same proposition themselves from the point of view of giving a quick connection between their subdivision at Leaside and Rosedale.

It is likely that there will be new bridges at all these three crossings of the Don and ravines and that they will all carry four tracks. The great merit of the under-deck bridge is that it saves all vehicles from crossing the railway tracks once they are over. That is, if anyone crosses the Belt Line Ravine on an under-deck bridge would turn to the right or to the left without having to go over the railway tracks to go north or south.

Costs to the defendant only \$100. The case accordingly comes within sec-
tion 103 of the Ontario Judicature Act, and the jury notice must be set aside. The same result would have followed had it been necessary only to apply the new rule 1222.

tiff. An appeal from the judgment of the judgment of Meredith, C.J. of May 5, 1912. An action to recover \$1300, amount of three promissory notes given by defendant by plaintiff in payment of 18 shares in plaintiff company, which plaintiff thru its assignee now alleges to be ultra vires. At the trial judg-
ment was awarded plaintiff for \$1258.33 with costs.
Judgment v.v. Appeal dismissed with costs.
Rice v. Sackett—R. L. McKinnon (Guelpy) for plaintiff, C. L. Dunbar (Guelpy) for defendant. An appeal by plaintiff from the judgment of F. A. MacGee (Ottawa) for claimant. An appeal by defendant, Hinch & Co., from an order of the local master of Sept. 4, 1912. The order complained of decided that G. W. King was an unregistered lien holder and is entitled to the bene-
fit of the action as provided by sec-
tion 22 of the act, and the fund avail-
able not having been distributed, he
should be let in to prove his claim un-
der section 37 (6). Appeal partially ar-
gued but not concluded.

Improved Train Service.
Owing to the increased travel on day
trains Nos. 17 and 18, leaving Toronto
9 a.m. and Montreal 8:05 a.m., and in
order to offer every comfort to passen-
gers, the Canadian Pacific Railway has
inaugurated a parlor car service in ad-
dition to the standard first-class sleepers
between Toronto and Montreal, which
should prove popular with the travel-
ing public.

Roscoe v. McConnell—J. G. Smith for
defendant; J. P. MacGregor for plain-
tiff. Motion by defendant for an order
striking out jury notice.
Judgment: The defendant has a con-
tinue. It is obvious that to obtain any
kind of relief the plaintiff must have a

declaration that the defendant is trustee
or mortgagee. That kind of dec-
laration never could be had from a
common law court and it was neces-
sary to apply to the court of chancery.
The case accordingly comes within sec-
tion 103 of the Ontario Judicature Act,
and the jury notice must be set aside.
The same result would have fol-
lowed had it been necessary only to

there is no relief apparently except
the condensation of the railway mag-
nates in question. Perhaps parliament
will take the question up and force bet-
ter treatment being handed out to To-
ronto and Montreal than is at present.

And, lastly, let it be known that the
passenger traffic of the Canadian Pac-
ific between Toronto and Ottawa is
often much greater than traffic between
Toronto and Montreal. And this by-
traffic between Toronto and Ottawa is
often held up for the traffic from Bos-
ton and the east to Montreal. That is,
a hundred people going from Ottawa to
Toronto have often to wait at Smith's
Falls—as they did last Sunday—for over
an hour for a few passengers that had
come from Boston to Montreal and did
not reach there in time.

It is true that the Canadian Pacific
give now one direct service between To-
ronto and Ottawa, and the public feel
the benefit of it, but the whole service
should be direct between the two cities
over the shortest possible route, and
run at the fastest possible speed, and
therefore at the cheapest possible cost.
Travelers should be able to go to bed
at any time in the stations at either
end before 12 o'clock, and the train did
not leave till after midnight, and be at
the other end before 6 in the morning.
The boards of trade of the two cities
and parliament ought to demand an
immediate change in the long, expen-
sive and one-horse service.

HYDRO POWER'S CHEAP RATES.
Brantford seems likely to succeed in
its effort next Friday to obtain the ser-
vice of the hydro-electric system. The
Catawag Power Co. of Hamilton, under
one of its protean forms, has a con-
tract with the city to supply power at
ten per cent below the prices paid by
any other place using hydro power,
provided the power is not sold below
cost. This seems fair, but it does not
work out so, and Brantford can get no
reduction in rates.

The company declare that hydro
power is sold under cost, and that they
should not be asked to compete with
such rates so made. The company even
offered to pay the cost of an investiga-
tion but the city declined to fall into
any trap of the sort, knowing the jokers
and pitfalls prepared in all legal docu-
ments by corporation lawyers for the
undoing of the public.

The proof of the pudding is in the eat-
ing, and the people realize that power
and light can be had more cheaply
from the hydro than from the company,
whatever protests the company may
make. In Hamilton the Catawag Com-
pany declared it to be impossible to sell
power cheaper than the rates they of-
fered, but hydro competition brought
them down. In Toronto they were cut
in two. Elsewhere the experience has
been the same.

Newmarket has had a proposal from
a power company to supply electricity
at \$25. The hydro quotations were \$2.
The corporation supporters, of course,
howled for the \$25 rate, but on ex-
amination it turned out that the town

would not be allowed to sell power to
the manufacturers during the day, and
resell it again at night for light, as is
done with the hydro.
This double sale of power is one of
the reasons of the cheapness of the
hydro rates, but the Catawag people
would probably plead that power was
being sold under cost if it was quoted
at a rate lower than would be warrant-
ed in the absence of this possibility.
The corporations, of course, sell the
power twice over, and charge double
prices for it as well, and the people
pay. This is why hydro is popular
with the public, and so bitterly opposed
by the corporations.

LOANS TO FARMERS.
In a recent letter to the state govern-
ment, President Taft directed attention
to the need in the United States of agri-
cultural credit organizations enabling
farmers to borrow money they need at
the lowest possible rates. The subject
has been under discussion for some
considerable time and was mentioned
in the platforms adopted by the three
parties now contending for political
supremacy. President Taft, of course,
recognized that conditions in the Uni-
ted States differ widely from those of
European countries, but he indicated
his opinion that it should be possible
to adapt institutions like the German
Raiffeisen banks to the special cir-
cumstances of America. These banks
are on a co-operative basis and accept
deposits carrying interest while they
lend money to their members on per-
sonal credit for comparatively limited
periods. Behind them, as a rule, is a
co-operative central association con-
trolling the whole organization.
These banks have rendered valuable
assistance to German farmers as have
the corresponding institutions in
France, Austria and other European
countries. Their work is supplemented
and extended by mortgage credit in-
stitutions, such as the Credit Foncier
of France, which lend money on the se-
curity of farms, repayable in small
sums half yearly. This system com-
pares very favorably with that com-
pelling a farmer to grant a mortgage
for a specified period which may then
have either to be renewed or replaced
in Germany the Landschaft Banks give.

TRINITY AND WYCLIFFE AGAIN.
The progressive rector of this city
mentioned in the article on the first
page of this morning's World has al-
ready been "pulling the leg" of your reporter
or is exceedingly ignorant as to the
nature of which he speaks.
That neither Trinity nor Wycliffe
gives as good an education as Knox is
certainly untrue so far as Wycliffe is
concerned. It is extremely doubtful if
the superior of such as Dr. Coyle,
Dr. Griffith Thomas, Dr. O'Keefe, and
Professors Wrong, Dugan Hayes and
Hallam, in the subjects "which they
teach can be found on the staff of any
theological college in the world, in the
Anglican communion or any other.
It is probably not generally known
to your readers that Wycliffe is the
largest Anglican theological college in
the world, and one of the largest in any
communion. Trinity, on the other hand,
has a mere handful of theological stu-
dents. It is absolutely untrue that the
teaching of the two institutions is "actu-
ally identical," and that they are "di-
vided by some old-fashioned notion that

Improved Train Service.
Owing to the increased travel on day
trains Nos. 17 and 18, leaving Toronto
9 a.m. and Montreal 8:05 a.m., and in
order to offer every comfort to passen-
gers, the Canadian Pacific Railway has
inaugurated a parlor car service in ad-
dition to the standard first-class sleepers
between Toronto and Montreal, which
should prove popular with the travel-
ing public.

plaintiffs. Motion by plaintiffs for an
order (1) for amendment of style of
cause in writ, and (2) for the issue of
a concurrent writ and for service of
same by notice and of statement of
claim on defendant who is not a British
subject. Order made.

Judges Chambers.
Before Riddell, J.
Roscoe v. McConnell—J. G. Smith for
defendant; J. P. MacGregor for plain-
tiff. Motion by defendant for an order
striking out jury notice.
Judgment: The defendant has a con-
tinue. It is obvious that to obtain any
kind of relief the plaintiff must have a

declaration that the defendant is trustee
or mortgagee. That kind of dec-
laration never could be had from a
common law court and it was neces-
sary to apply to the court of chancery.
The case accordingly comes within sec-
tion 103 of the Ontario Judicature Act,
and the jury notice must be set aside.
The same result would have fol-
lowed had it been necessary only to
apply the new rule 1222.

Single Court.
Before Sutherland, J.
Percepsie Hecla Mining Co. v. W. A. G. S. Hodgson for plaintiff, H. E. Rose, K.C., for defendant. Motion by plaintiff for an order continuing in-
junction. Motion enlarged at counsel's request for two weeks. Injunction con-
tinued meantime.
McIntosh v. Shaw—W. H. Clapham for three hours. G. B. Burrows (St. Catharines) for executors. Motion by three of the heirs-at-law of Agnes Collins for an order continuing her will under C. R. 585. It appearing that three of the parties and the executor of another party have not been served, also that all the facts have not been set out in the affidavits, motion enlarged one week to supplement facts and allow of service of parties not already served.
Re Allen Estate—A. A. Miller for three executors. F. W. Harcourt, K.C., for infants. Motion by executors for an order under C. R. 288, construing will of Horace R. Allen. Enlarged one week.

Re Nancy Willy Estate—W. Proudfoot, K.C., for two executors, F. L. Button (Stouffville) for third executor. Motion by executors for an order relieving them of office and appointing the Toronto General Trusts Corporation in their place and stead. The trustees having passed their accounts, the pass-
ing of accounts dispensed with. Costs out of estate.
Divisional Court.
Before Falconbridge, C.J., Britton, J., Sutherland, J.
Bongard v. Keeler—H. Ferguson for defendant, A. C. McMaster for plain-
tiff. An appeal from the judgment of the judgment of Meredith, C.J. of May 5, 1912. An action to recover \$1300, amount of three promissory notes given by defendant by plaintiff in payment of 18 shares in plaintiff company, which plaintiff thru its assignee now alleges to be ultra vires. At the trial judg-
ment was awarded plaintiff for \$1258.33 with costs.
Judgment v.v. Appeal dismissed with costs.

Rice v. Sackett—R. L. McKinnon (Guelpy) for plaintiff, C. L. Dunbar (Guelpy) for defendant. An appeal by plaintiff from the judgment of F. A. MacGee (Ottawa) for claimant. An appeal by defendant, Hinch & Co., from an order of the local master of Sept. 4, 1912. The order complained of decided that G. W. King was an unregistered lien holder and is entitled to the bene-
fit of the action as provided by sec-

APPOINT CENSOR INDEPENDENT OF POLICE

Board of Control Agree to Ap-
point a Censor of Plays,
Who Will Have No Con-
nection With the Police De-
partment — To Place Value on
Scarboro Line.

Upon the request of the police commissioners the board of control yesterday decided that a censor of plays should not be chosen from the police department, but that the appointment should be made from the board itself. As Mayor Geary explained, the duties involved in the position of censor were such as to require a man who was independent of the force altogether.

Under the present system, said his worship, the censor must visit the theatres, judge the performance, and if he deems them improper, prosecute the managers. This system, he said, was unfair to both the censor and the theatre. If he decided to prosecute, the censor would determine whether there was anything illegal in the performance, and the police could act upon his recommendation and prosecute.

The mayor gave an example of the police commissioner's contention from the play of Julius Caesar, which was in Toronto last week. A woman who played the part of a page wore a dress that was objectionable. Under the present method of censoring, the officer would first have to decide the point as to whether the costume was objectionable. If he decided that it was, he would prosecute in his capacity as a constable. The board, however, deferred any action in the matter pending further consultation from the police commissioners.

Scarboro Radial Line.
As a result of the suggestion of the city solicitor, the board of control decided to instruct the commissioner of works to make a valuation of that portion of the Toronto and Scarboro radial line within the limits of the municipality. If the company and the city cannot come to terms, the railway board will have to determine the value, and when the price is fixed, a bylaw will have to be submitted to the ratepayers to raise the necessary money.

Wires Across Gap.
City Solicitor Johnston notified the board yesterday that he had received the formal license from the government to place the land necessary in order to place towers on the government property for the transmission of the cables. The license covers a strip of land 60 feet wide across the government property.

Cancel Dairy Licenses.
Dr. Hastings notified the board that the dairies owned by J. Fletcher at 671 East Gerrard street and at 1311 Danforth street were unsatisfactory, and he recommended that both licenses be canceled, to which the board agreed.

Mayoral Validity.
Mayor Geary sat for the last time with the board of control yesterday. Controller Church took advantage of the occasion to make a few remarks of a complimentary nature. His work, he said, had been both diligent and efficient, and he commended his colleagues and the public he had always extended the utmost courtesy. Controller Hocken, who had been both diligent and efficient, commended his colleagues and the public he had always extended the utmost courtesy.

Modern Train Service to New York.
via Canadian Pacific Railway, T. H. & B. Michigan Central-New York Central route. The following train leaves Toronto at 7:30 a. m. daily, connecting at Buffalo with the world-famous "Empire State Express," arriving New York 10:30 p. m. Daily, except Sunday and Sunday. Leaving New York 11:02 a. m. The "Beaver" leaves Toronto 8:30 p. m. daily, arriving in New York at 7:30 a. m. daily, except Sunday, arriving New York 8:30 a. m. carrying electric-lighted sleepers Toronto to New York and Pittsburg. These are the only through trains operated from Toronto to the Grand Central Terminal in the heart of New York City, affording the public every comfort, and passengers should insist on being ticketed via this route. Secure tickets and reservations, etc., at city ticket office, 1 East King street, 4d-7.

REV. JOHN MACNEIL'S CAREER.
LONDON, Oct. 17.—(C. A. P.)—Rev. John MacNeil, who has received an offer from the Presbyterian Church of Toronto, is one of the best known missionaries in the United Kingdom. He started life as a railway porter, and since entering the ministry has conducted crowded meetings in many English-speaking countries. The Canadian offer will be dealt with by the Liverpool Presbyterians in November.

CHANGES AT KING-YONGE

James Building Leases Being Renewed for Further Year Term—C.P.R. and Dominion Bank Structures

The sidewalk floor leases in the James Building are being renewed for another year, which means that they will not expire generally until the spring of 1915.

The Dominion Bank has assumed ownership of the property, which was bought by E. B. Oser, and this means that they do not intend to hold it for any great length of time, as under the law a bank's holding of property except for its banking purposes is prohibited. It can also be taken for granted that the James Building will not be pulled down for over a year, at least, although the bank is quite likely to sell it any time. The hearings on the C. P. R. time.

The hearings on the C. P. R. structure will not be down much before the end of the year—just when, Darling & Pearson, the architects, are unable to say—and not until they are down will the Dominion Bank be able to go ahead with its new structure at the southeast corner. By 1914, the Dominion Bank will be finished and then something may be done with the James Building.

Darling & Pearson are also architects for the Dominion Bank. They claim to be not yet in a position to talk about a commencement of the work.

NORTH YONGE LAND BOUGHT

Vacant Frontage Four Blocks Below the C.P.R. Crossing Brings About \$575 a Foot From Investor.

Gibson Brothers have purchased for a client, whose identity they will not disclose, the vacant plot between Gibson Avenue and Townley Avenue, on the west side of Yonge street, at a price close to \$50,000, or about \$575 a foot.

The land will not be improved, but held awaiting development of that part of Yonge street. It is four blocks below the crossing and Townley Avenue. The Yonge street frontage is 33 feet, and the frontage on Gibson and Townley avenues is 100 feet.

Walter E. Booth is the vendor.

BUY FRONT ST. LAND FROM CITY

Government Makes Offer of \$210,000 for 210 Feet as Site for Examining Warehouse.

As a site for the proposed examining warehouse in connection with the customs house, the Dominion Government has offered the city \$210,000 a foot for the 210 feet 10 inches frontage on the south side of Front street, near Bay street.

On the corner lot the government asks a year's option at \$100 a foot. This property has a frontage of 15 feet 8 inches and a depth of 155 feet 8 inches. For the property adjoining the corner lot at the east, which has a frontage of 75 feet 5 1/2 inches, the government desires a year's option at \$1200 a foot. The city can turn the property over free of lease.

The board of control yesterday approved of the sale of the property the government wants at once, and the giving of options on the two other parcels.

CAUSE OF LABOR UNREST

Mon. T. W. Crothers Says Employers Largely to Blame.

CHATHAM, Oct. 17.—(Special.)—Hon. Thomas Crothers, minister of labor, addressed the Canadian Club in this city tonight on the problems of labor that confront the people of Canada. Mr. Crothers showed how the condition of laborers has improved during the last few years, but he thought there was still room for great improvement.

Mr. Crothers spoke a word in favor of the trade unions. He, however, advocated a liberal share of tolerance and fairness in pressing forward the cause of the workmen.

"The cause of the labor unrest in this country today," said he, "is largely due to the failure of the employers to realize that man is not an adjunct of a machine. There is too much class distinction between employer and employee," he said.

BRAKEMAN'S INJURIES FATAL

GALT, Oct. 17.—(Special.)—John Goutzies, Grand Trunk brakeman, who was on Monday brought to the Galt hospital with crushed leg, sustained by jumping off the caboose as the train pulled into Brantford, died at the General Hospital today. He was a Holmwood, aged 22. An inquest will be held.

Justice MacLennan Leaves Queen's Board

Owing to ill-health He is Unable to Continue Duties as Chairman.

KINGSTON, Oct. 17.—(Special.)—Owing to ill-health Hon. Justice MacLennan, Toronto, has resigned as chairman of the board of trustees of Queen's University. He has held the position for many years. Principal Gordon was appointed to act temporarily.

The endowment fund and the question of how to increase it was discussed. Andrew Carnegie promised \$100,000 when the sum reached \$400,000. In six years the sum of \$200,000 has been subscribed. Mr. Carnegie offered to give \$30,000 when the fund reached \$400,000, or wait till a larger amount is realized. What to do is bothering the trustees, but they will probably wait for a larger amount.

GALT, Oct. 17.—(Special.)—Counterfeit \$1 and \$2 Dominion notes are in circulation here. One of the latter, passed on a municipal officer, was detected by the town treasurer today.

Westinghouse 68 Burroughs

The Westinghouse Electric & Mfg. Co. has all the facilities in the world for testing the merits of every kind of machine.

It means something for them to standardize on the Burroughs.

They use the Burroughs in six different sizes, and in a dozen different styles. The Burroughs long line includes adding and listing machines, listing and non-listing calculating machines, visible-printing machines—36 different models in 492 combinations of features—\$200 to \$1000, with easy payments is desired.

Can you afford to ignore the experience of many big concerns like the Westinghouse? Let us show you a machine that will fit your figure work like a tailored suit. No obligation or cost.

Girl Under Influence Of Pugilist Johnson

So Avers Mother of Lucile Cameron, Milwaukee—Police Accept Negro's Denial.

CHICAGO, Oct. 17.—(Can. Press.)—Jack Johnson, the negro heavyweight champion pugilist, appeared before Chief of Police McWeeny today to explain his reactions with Miss Lucile Cameron, a 19 year old white girl, the daughter of Mrs. F. Cameron-Falconet of Milwaukee. Mrs. Falconet told of her failure to get her daughter away from the influences of the negro. She described her anguish when she learned last Friday that her daughter was a frequent visitor to Johnson's cafe, her hurried trip here to rescue the girl, her interviews with the pugilist, who she declared, insulted her and flouted her plea that he give up the girl. Johnson, she said, told her he could "get" any woman he wanted.

"When I found Lucile, I pointed out the wrong she had done. I pleaded with her. I told her I would give up everything. I told her to get her to go back, and I would go any place with her and shield her from criticism back home. She refused to come, being apparently under Johnson's influence. Johnson made an absolute denial of unduly friendly relations with Miss Cameron and that his infatuation for the girl was one of the causes of the suicide recently of Mrs. Etta Duray Johnson, his white wife. He declared the girl left her position as cashier in his cafe for another position and that his wife had never seen Miss Cameron.

"Johnson denies the whole thing," said Chief McWeeny, adding, "but, if I find anything wrong at Johnson's place, I'll arrest him in a minute."

BURK'S FALLS' GALA DAY

New Bridge Across Magnetawan Was Formally Opened.

BURK'S FALLS, Oct. 17.—(Special.)—In the presence of a large gathering, the new steel bridge, built by the Ontario Government across the Magnetawan River, was formally opened today.

Speeches were made by Hon. Dr. Reame, minister of public works; Jas. Arthur, M.P., and J. Galt, M.L.A. Reeve Wilson presided, and the village council and board of trade were fully represented. The structure, which is to be known as the "Galt Bridge," was beautifully decorated.

Willie's Deal. Willie had a yellow dog that was a perfect nuisance, but so devoted was the boy to him that he could not be persuaded to have him killed. One day when his father had been unusually annoyed by the antics of the dog he called Willie in from play and said: "My boy, I'll give you a sovereign if you get rid of that dog."

Willie's face expressed great amercement at the thought of so to money belonging to him. He looked long at the dog, and finally told his father he would give him his decision the next day. The following day Willie brought his father and said: "I've got rid of Max, father."

"I'm more than glad, Willie," said the father. "Here's your money; you've

MOLASSINE MEAL

has raised more first prize livestock than any other food in Great Britain.

Also forty first prizes at the Canadian National Exhibition were won by livestock fed on MOLASSINE MEAL.

Now that you are feeding new oats it is very essential to use MOLASSINE MEAL with each feeding.

There is only one Canadian MOLASSINE MEAL, and that is made in England. Don't be confused by imitations with similar sounding names.

Try it this winter. It is as good as pasture. If your dealer does not handle it, write us direct.

WILSON PRAISES COLONEL'S GRIT

Can't Tear His Thoughts Away From "Gallant Gentleman" — Country Owes Roosevelt Debt.

WILMINGTON, Del., Oct. 17. (Can. Press.) "My thought is constantly of that gallant gentleman lying in the hospital at Chicago."

With this sentiment running thru his speeches, Gov. Woodrow Wilson turned the state of Delaware today, depicting the assault on Col. Roosevelt and deprecating the use of violence to interrupt the course of politics.

The Democratic nominee devoted his remarks mostly to state issues in Delaware. He omitted mention of the progressive party and when he discussed national questions he attacked the administration of President Taft, declaring that there was prosperity enough for those at the top but that it had not reached the people.

The governor made four speeches and closed the day with a street meeting at Wilmington to-night.

Urging Delaware to "join the procession of progress," Gov. Wilson declared in his speeches that the state was "dangerous to block the progress of reform in America."

DECKER EAGER TO TELL STORY

Exclusion of Evidence as to Graft Collections Puts Accused Man in Good Spirits.

NEW YORK, Oct. 17. (Can. Press.)—The state tested its case today in the trial of Police Lieutenant Charles Becker on the charge of instigating the murder of Herman Rosenthal, the gambler.

The case for the defence will begin tomorrow when John W. Hart of Becker's counsel will make his opening address to the jury. If Becker has his way, Hart said, he will go on the stand in his own defence. John W. McIntyre, his chief attorney, said "Becker is anxious to take the stand. We may allow him to, but this has not been determined yet."

The defence has indicated that it will endeavor to prove that a clique of gamblers inspired the state to prosecute Becker, and that Becker is the victim of a conspiracy.

Former District Attorney Jerome will be one of a dozen or more witnesses on the defence plans to call. Mr. Jerome is expected by Becker's counsel to break down a portion of the testimony of Jack Rose in connection with an alleged telephone conversation with Becker, introduced by the state to show that Becker had guilty knowledge of the crime. Sam Paul, whose gambling place was frequently raided by Becker, and other members of the

gambler's fraternity are also included in the list of Becker's witnesses.

Becker is Cherry.

The accused police lieutenant expressed himself tonight as confident of acquittal.

Becker was in a happy mood for his counsel had just won a victory over the prosecution. This was when Justice Goff granted a motion by Mr. McIntyre that there be excluded all testimony tending to show that Becker witnessed a fortune in graft obtained from gamblers.

District Attorney Whitman had thirteen bank tellers ready to swear that Becker had bank accounts totaling nearly \$50,000, but not one was allowed to testify. Justice Goff upheld Mr. McIntyre's argument that without proof that Rosenthal, the "squalor" knew that Becker's bank accounts represented the proceeds of graft, the evidence could not show that they constituted a motive for the killing of Rosenthal. To introduce such proof, the prosecution recalled to the stand Jack Becker, alleged collector of graft, but Justice Goff refused to let him be examined along this line.

Hollinger at New Record For Year—Crown Reserve Up

WHEAT MARKET DROPS TO STILL LOWER LEVEL

Domestic Situation Coupled With Improved Foreign Outlook Acts as Bear Argument—Export Demand Flat—Receipts Are Heavy.

CHICAGO, Oct. 12.—War news went out today as a market influence despite the fact that there was fighting between five countries. In wheat the outcome was a decline of 3-5c to 7-8c net. Corn finished 1-2c to 3-4c down, oats of 1-4c to 1-5c and provisions varying from the same as last night to 2c down.

Also the widening out of the struggle with Turkey led to some display of wheat strength, there was not enough buying to sustain the weight of negotiating sales due to spring crop receipts northwest. Moreover, European markets turned limp.

Arrivals of wheat at primary terminals mounted to the high total of 3,000,000 bushels, nearly doubling the record for the corresponding time a year ago. The market was also depressed by spreaders who were busy closing trades between here and Minneapolis, selling December in Chicago.

Corn sagged owing to fine weather and longer and heavier selling on hard spots. Argentine shipments promised to be 6,000,000 bushels for the week against none a year ago. Cash grains were in poor request.

Liberal receipts pulled down oats as there was no adequate shipping outlet.

Northwestern Receipts
Receipts of wheat at northwest points, with usual comparisons, follow:

	Today, ago.	Week ago.
Chicago	1,000,000	1,200,000
Minneapolis	1,200,000	1,400,000
Winnipeg	1,400,000	1,600,000
Duluth	1,600,000	1,800,000

The Liverpool market closed today 1/4 lower to 1/2 higher on wheat, and unchanged to 1/4 higher on corn. Antwerp wheat closed 1/4 lower. Berlin 1/4 lower and Buda-Pest 1/4 lower.

Minneapolis flour output increased 11,000 barrels, last week being 430,000. All mills are in operation again this week.

LIVERPOOL GRAIN MARKET.
LIVERPOOL, Oct. 12.—The market opened under pressure of late American and Canadian markets yesterday and initial prices were lower and following the opening there was a decline in wheat, oats and Russia continue to offer freely and spot market opened weak, 1/4 to 1/2 lower, with Manitoba weak, 1/4 to 1/2 lower, and crop news continue favorable and Buenos Ayres market closed steady and the favorable prospects in the southern hemisphere help to create bearish sentiment. Following the coming there was free offering of the foreign grain and an advance occurred with offers light. The weather in the United Kingdom has become unsettled with rain in parts and the fact that hostilities have commenced on Bulgaria and Serbia frontiers caused serious apprehension.

Corn—Opened unchanged and later advanced 1/4 to 1/2 on wheat, 1/4 to 1/2 lower, with Manitoba weak, 1/4 to 1/2 lower, and the forecast of liberal shipments from Argentina this week led to some profit taking.

SUGAR DOWN IN TORONTO
All grades of refined sugar were reduced 10 cents per cwt. by wholesalers yesterday, the lower price going into effect about noon. The decline follows similar action in the New York market a few days ago.

ST. LAWRENCE MARKET.
Receipts of farm produce were 200 bushels of grain and 30 loads of hay. Wheat—One hundred bushels sold at 90c. Oats—One hundred bushels sold at 70c. Hay—Thirty loads sold at 17 to 18 per ton for timothy, and \$5 to \$15 for mixed.

CHICAGO GOSSIP.
Nell, Beatty & Co. say at the close: Wheat—Indifferent cables, liberal receipts, together with light speculative trade were factors in a selling movement, values being 1/2 to 3/4 down from yesterday's close. Unless foreign political news becomes unfavorable we expect more decline, but advise caution in selling on breaks. On all good bulges sell the May future for moderate profits.

J. P. Bickell & Co. from Logan & Bryan at the close: Wheat—Early in the session wheat traders were badly mixed on the news. The Turkish war news was sufficiently alarming to give the market considerable support, at one time a good rally. There all morning, but it was needed to the heavy come the bearish feeling in the local trade. Late in the session the trade seemed to ignore the foreign news and forced a break of 1/2 to 3/4 down from best prices of the day. The market was over-extended market in view of the uncertain news from the other side.

Ericksen Perkins & Co. (J. G. Beatty) wired: Wheat—The export inquiry, as a rule, was reported as lagging, although on the export side, wheat was being bought in considerable quantities. The market was not very active, but the heavy movement in the northwest, but we advise caution regarding short sales on the weak spot.

Corn—The continued good weather and the weakness in the wheat market both influences in causing lower prices. Oats—A decidedly easier tendency was shown in prices, the market being further increased offerings from the country and a lessening of the cash demand, both for domestic and export purposes.

Winnipeg Grain Market.
WINNIPEG, Oct. 12.—Wheat prices were steady during the earlier hours, but later prices declined sharply on the close. The market opened unchanged to 1/4 higher and closed 1/4 to 1/2 lower.

The cash demand was good for all grades and prices were 1/4 to 1/2 lower, some heavy sales being made. Offerings were liberal and export trade active.

There was a big break in flour prices again, the factors being poor demand and heavy receipts. The drop today was 1/4 to 1/2 for October and November, and 1/4 to 1/2 for December. The decline on October was 1/4 to 1/2, and on November 1/4 to 1/2. The receipts continue heavy, 1200 cars having been inspected today. Wednesday and Thursday are expected to provide a 1100 in grain for today.

PUBLIC CONFIDENCE IS GRADUALLY RETURNING

Action of Mining Market Favorable to Upholding of Big Following—Hollinger Still Going Up—Dividend-Paying Cobalts Go Soaring.

The mining market during the last couple of days has been passing through one of those periods of gradual appreciation in stock prices which mean so much to the upbuilding of public confidence. Precedent will show that the outside following are not disposed to enter the market when values are on the down grade nor when they are soaring to higher levels. It is when quotations are making slow but steady progress with plenty of chances afforded to pick up securities that the list is made to look the most attractive. In consequence the establishment of the movement on that basis is to be expected as a happy satisfactory at this time.

If any criterion of the status of yesterday's market be desired, it is only necessary to turn to the course of Hollinger during the session. The price showed that the odds were rising steadily, yet very little stock came out, despite the fact that the price rose to an extent not equaled in many days. The top quotation reached was \$14.90, a net advance of 40 points for the day, and a new high record for the present year. The previous high-water mark was \$14.50, established during the rise at the end of the month of June.

Steady Improvement Shown.
The general list showed a firm undertone and in several instances made advances in price. The course of the higher levels which has been under way of late. Sentiment was quite naturally affected favorably by the continued buoyancy, and at the close was inclined to marked bullishness.

The continued strength of Pearl Lake was, in effect, the most outstanding feature of the session. The price reached \$14.90, a net advance of 40 points for the day, and a new high record for the present year. The previous high-water mark was \$14.50, established during the rise at the end of the month of June.

La Rose Makes Good Recovery.
There was excellent buying of the dividend-paying Cobalts before the demand was satisfied. The marked improvement in the trend of these issues stands out prominently in the present time, since of recent months the disposition has been toward lower values and new low record prices in years.

Goldfields Ltd. Mill Is Working
There are now 20 stamps dropping at the Goldfields Limited in Larder Lake and it is hoped to have 30 crushing ore before the end of the month. The plant is in running order and is supplying the motive power for the mill and the mine, while there is sufficient horsepower to provide an ample supply of power available for other properties in the district that resume operations.

Cart Lake Discovery Is Now Confirmed
There are now 20 stamps dropping at the Goldfields Limited in Larder Lake and it is hoped to have 30 crushing ore before the end of the month. The plant is in running order and is supplying the motive power for the mill and the mine, while there is sufficient horsepower to provide an ample supply of power available for other properties in the district that resume operations.

Beaver Has Ore At 600-Foot Level
COBALT, Oct. 12.—The wave of prosperity at the Beaver appears to be continuing. Following on the decision of the directors to double the capacity of the mill owing to the favorable developments in the district, the bottom level comes the announcement from the mine that a shot has been put into the face on the 600 ft. level, opening up a man's way to a point where it shows five inches of 2000 ounce ore. This is the level also where the new vein was discovered and off in a westerly direction from the main vein.

SWASTIKA STAMP MILL READY IN SIXTY DAYS
The building for the new mill at the Swastika is practically completed, the carpenters being employed now in putting in the galvanneal sheeting. The machinery is not yet delivered, but is expected inside 30 days, and the management expects that they will have the mill running within 30 days from the delivery of the machinery. The foundations and cement work for the mill has been paid a total of \$400 per cent. in eight equal dividends.

Hudson Bay Meeting Thanksgiving Day
The annual meeting of the Timiskaming and Hudson Bay Mining Co. will be held at their head office in New Larder Lake on the evening of Monday, Oct. 12, Thanksgiving Day. The election of officers for the ensuing year, as well as the presenting of the secretary's report for the year, will be the business transacted. During their fiscal year, which has just been completed, the mine has paid a total of \$400 per cent. in eight equal dividends.

Located at Last.
The attendant led the visitor into the violent war.
"For heaven's sake!" exclaimed the stranger, "what are those lunatics doing with the leaves, flowers, feathers and ribbons?"
"Our millinery department," exclaimed the attendant. "This is where the hat styles originate."

Firewater for Indians
Revels Near Merlin Are Causing Alarm to Residents.
CHATHAM, Oct. 12.—(Special.)—Several complaints have been received from residents of Merlin and the vicinity that the Indians who are engaged at bush clearing on different farms are being supplied with liquor in some mysterious manner. For about three months the red men have been holding midnight revels in the bush land back of Glenwood, and the persons who laid the complaint are of the opinion that the firewater is secured from Tilbury.

Lucky Dog.
"Doctor," fervently exclaimed a gentleman, "I have a medical man for the street, I have to thank you for the excellent medicine you gave me."
"Ah!" was the gratified rejoinder. "It has done you good. You have been much benefited, eh?"
"I have indeed."
"And how many bottles have you taken?"
"Oh, I didn't take it—my uncle took some. He has left me his share."

SPECULATIVE CHANCES

There are several low-priced Cobalts which can be bought without much risk. With the new Cobalt development some properties will undoubtedly come to the front as producers, and the shares of these may have upward values. There may not be many like Crown Reserve, which went begging for a share and later sold at \$6 a share, but there are certainly opportunities and the low-priced issues will bear close investigation. Our opinion only these can be had gratis.

LA ROSE ADVANCES
For months La Rose has been heavy, and the price has gradually advanced. The stock has now reached a stage at which the market value of the shares is represented by tangible assets. The reason for this is the fact that the shares are an excellent purchase. Peter Lake, Bailey, Gifford, Timiskaming and the low and moderate-priced issues are entitled to increase in value.

EXPLORING FOR VEINS AT THE PROVINCIAL
Crosscut Will Be Run From Shaft Right Across the Property.

COBALT, Oct. 12.—The men who are backing the Provincial mine deserve considerable credit for their efforts since no effort is being spared to prove up what there is in the mine regardless of cost. The scheme of exploration just started on now involves the running of a crosscut from the shaft across the property in a north-westerly direction. This crosscut will be continued until the boundary of the Provincial is reached unless important veins are located first.

The direction in which this work is being done is across the vein system of the area and if there are any veins on this portion of the mine, carrying paying ore, they will be cut in this crosscut. There are several veins located on the surface in this part of the property and these will be proved up at depth. The crosscut being made to a depth of 300 feet, in what is the deepest known conglomerate in the camp.

The situation of the Provincial, the trend of the veins in that area and the fact that such a deep bed of conglomerate covers the greater portion of the property are all facts that warrant the courageous policy of prospecting that is being carried out.

Mr. Kitson Buys Interest in Mine
Maple Leaf Cobalt Property to Be Reopened—White Reserve in Limelight.

COBALT, Oct. 12.—The revival of interest in Cobalt and other silver camps is steadily advancing. A large number of properties are being developed here and in other districts for want of money for development are being financed. The Maple Leaf, near the Timiskaming, is one of these. Mr. F. Kitson of the Ontario railway board having bought a half interest in the company.

The White Reserve at Maple Mountain, on which upwards of \$75,000 was spent, is also under consideration by three parties and a deal is expected to be announced very soon. The White Reserve was made a producer, but transportation difficulties and want of funds caused the property to be closed down over two years ago. Engineers are now examining the property for prospective purchasers.

GOULD SHAFT DOWN TO 150-FOOT LEVEL
Operations on the Gould property in Cobalt camp at Cart Lake are being confined to sinking. The shaft is now down for 150 feet and it is intended to continue it to a depth of 200 feet, which depth crosses the main vein to the veins that were picked up at the 100 foot level. At the upper level the values did not prove sufficient to warrant the carrying on of operations, but the present work is intended to prove up the values on these veins at a greater depth.

FIREWATER FOR INDIANS
Revels Near Merlin Are Causing Alarm to Residents.

CHATHAM, Oct. 12.—(Special.)—Several complaints have been received from residents of Merlin and the vicinity that the Indians who are engaged at bush clearing on different farms are being supplied with liquor in some mysterious manner. For about three months the red men have been holding midnight revels in the bush land back of Glenwood, and the persons who laid the complaint are of the opinion that the firewater is secured from Tilbury.

An Indian chief from this district came to Chatham yesterday and succeeded in obtaining of operations as while under the influence of liquor. The residents of Merlin are becoming alarmed.
