THE PUGSLEY-PENDER POLICY MEANS MORE BUSINESS FOR BUSINESS MEN, MORE WORK FOR WORKING MEN

DR. PUGSLEY AGAIN SHOWS HIS INTEREST

By Ordering the Dredge Fielding to Work at Sand Point

The Dredging Contract Which G. S. Mayes Failed to Complete Will be Finished by the Government and Sand Point Berths Put in Shape for the Winter.

The minister of public works has again given evidence that he is ready to do anything in his power to advance the interests of this port by acceding to the request of the common council to allow clearing up of the Sand Point berths, which work was a part of G. S. Mayes' contract and which he refused to complete.

Liberal Candidate Addressed a Great Meeting in Temperance Vale Last Night.

Fredericton, N. B., Oct. 24.—(Special).—Nelson W. Brown, Liberal candidate, addressed a great meeting last night in Temperance Vale, which is in his home parish of Southampton. People drove ten miles to hear him and he was accorded a most enthusiastic reception.

STREET CARS IN COLLISION

Frank McFarlane Injured in Street Car Accident at the Corner of Douglas Ave.

A collision of two street railway cars which might have been attended with loss of life or limb occurred at noon today at the corner of Douglas avenue and Main street. A trunk line car was rapidly progressing down Main street on the return trip from Indiantown. Frank McFarlane the motorman on the car failed to observe that the switch on the corner was open and before the controller could be used the car had turned into the avenue and crashed into a car that was standing there.

LEAGUE WILL NOT ACT Sussex, N. B., Oct. 24 (Special).—In accordance with the promise given to the public last night the executive party league placed the matter of the McAuley letter in the hands of its solicitor for his opinion. Counsel after examining the letter and the Dominion Election Act, gave it as his opinion that the league has no grounds on which to take action against Mr. McAuley.

LAST MINUTE REPORTS FROM ALL THE COUNTIES PREDICT LIBERAL SWEEP

Not One Seat in New Brunswick Which the Conservatives Can Regard as Safe.

Daniel, Ganong, Crocket, Wilmot and Fowler, Their Alleged Strong Men Will All Go Down to Defeat on Monday—Only a Question of Majority for the Liberal Candidates—New Brunswick Will Join the Rest of Canada in a Grand Testimonial to Laurier.

Judging from the last minute reports received from every constituency in New Brunswick, Hon. William Pugsley will go back to Ottawa with a solid following of 12 Liberal members. In every county the Liberal candidate has every chance of winning. The splendid work and organization of the Liberal party backed up by a good cause has won the fight and in many places the casting of the ballots will be simply a matter of form.

The feeling is general that the Laurier government will be sustained and reports indicate an increased majority for the Liberal chief in the next house. The people recognize that it is much better to have their representative in the government going to vote accordingly. With the election only a day ahead it is possible for the party managers to make fairly correct estimates of how the contest will go, and after eliminating the doubtful ones as well as the known opposites, it is shown that there is NOT ONE SAFE SEAT IN THE PROVINCE FOR THE CONSERVATIVES.

Those whose chances were figured on as good—Fowler in Kings-Albert, Crocket in York, Ganong in Charlotte, Wilmot in Queens-Sunbury and Daniel in St. John on Monday that Hon. William Pugsley and Mr. Pender will be its representatives at Ottawa in the next parliament. The indications all point to the Liberal candidates having a handsome majority in nearly every ward in the city. The excellent organization, affected by the Liberal party and the keen interest that has marked the work in all the wards is bound to show its effect at the polls.

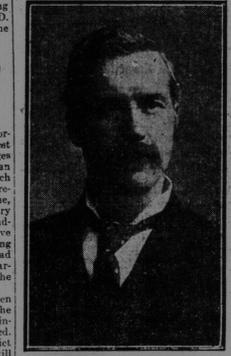

The Government Will be Sustained on Monday. Keep St. John in Line. Vote for Winter Port Development and a Greater St. John.

IN ST. JOHN CITY

Indications Are Dr. Pugsley and Mr. Pender Will Have Big Majority—Vote Will be Very Heavy

Liberal this time. In all the wards in the city proper—Wellington, Prince, Kings, Queen's, Dukes and Sydney—Hon. Mr. Pugsley and Mr. Pender will have a good lead and their total plurality in the city is placed at 400 at least, and there is no telling how much greater it will be. Thus Mr. Pender should have a good safe lead in the city, while the county will add many hundreds to Dr. Pugsley's vote.

not a little ahead. In Musquash the minister will receive at least 50 votes more than his opponent. Fairville will bury Dr. MacRae under a pile of ballots that will give Dr. Pugsley a lead of at least 150. In Simonds the sentiment in favor of the liberal candidate is stronger than in any previous election and the workers there figure on from 200 to 250 of a majority. ONE THING THAT WILL CONTRIBUTE TO DR. MACRAE'S DEFEAT HERE, IS HIS ACTION IN DELIVERING A POLITICAL SPEECH AT THE LOCH LOMOND FAIR IN DEFIANCE OF THE RE-

A TERRIBLE HURRICANE

Great Loss of Life Reported as Result of a Hurricane in Nicaragua.

New Orleans, Oct. 24.—A cable to the Picayune from Bluefields, Nicaragua, under date of Oct. 21, says: A disastrous hurricane swept the coast of Nicaragua last Friday to Sunday, destroying the towns of Rio Grande and Prinzapuka, and doing considerable damage in the interior. Only messengers and messengers have been brought here by Schooner, but it appears that the entire coast from Pearl Cays to Cape Gracias, was swept, and there was much loss of life. The fruit steamer Dictator is here safe and uninjured.

Royson knew not one word of Arabic. He was of a rudimentary type, based on some acquaintance with Latin, picked out by a few phrases gleaned from books of travel.

For Melai Hamed was a negro Arab, whose raffish aspect was rather enhanced by the swaggering way he carried a broad shoulder belt and brass badge of office. He interpreted his orders literally, being eager to display a certain skill in conducting an artistic flash any enterprise that savored of guile.

ST. JOHN, N. B., OCTOBER 23, 1908

The St. John Evening Times is published at 27 and 29, Canterbury street, every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES, THE DAILY TELEGRAPH. New Brunswick's independent newspapers. These newspapers advocate British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion.

A FINAL WORD Before the next issue of the Times has gone to its readers the majority of the ballots will have been cast in an election the result of which must very materially affect the interests of the city of St. John.

There has been much of party feeling, and even of personal bitterness, in the campaign which is now closing. Not for a generation has the city been so deeply roused. Charges and counter charges have been flung about with unusual vigor.

The minds of the electors will not be diverted, however, from the vital fact that the interests of the winter port are involved in this contest. That, beyond question, is the vital fact. In a contest where the two parties are not divided on any great question of policy, it would be a calamity to elect representatives who would not be in a position to guard and advance the interests of their own constituency, at a time when those interests are threatened by rival claims.

St. John was never in greater need of powerful influence at Ottawa than now, when the question of transportation is perhaps the greatest one that is before the country. If this city is to advance and grow, it must be as a terminus of transcontinental railways—as one of the great national ports of Canada.

"The Conservative campaign falters," says the Montreal Star. "It is preaching the sacredness of a public trust with Mr. Foster in the second place in the party and is denouncing land deals with Mr. Fowler and Mr. Lefurgy as prominent candidates."

MR. JAMES PENDER The election of Mr. James Pender, as the member for St. John city will give the constituency a representative in parliament who is eminently fitted to do valuable work in relation to all matters affecting industry and commerce.

Mr. Pender knows Canada, and knows also the needs of St. John. He has built up in this city an important industry, and has won the confidence and respect of his fellow citizens. He has always treated his employees with justice and kindly consideration, and their united support is the best answer to the gross falsehood uttered by his opponents that he is the enemy of working men.

St. John's growth must be as a terminus of transcontinental railways. Therefore, harbor improvement is the great local issue. Vote for Pugsley and Pender and winter port development.

Hon. Dr. Pugsley since he became minister secured \$730,000 for St. John harbor, in addition to the work of the dredge fielding. He plans to develop terminal facilities at Courtenay Bay. Strengthen his arm.

MR. FLEMING REPEATED LAST NIGHT CHARGES AGAINST HON. DR. PUGSLEY THAT THE MINISTER HAS FLATLY CONTRADICTED. MR. FLEMING HAS NOT YET ACCEPTED DR. PUGSLEY'S OFFER TO SUBMIT TO ARBITRATION THE MATTERS IN DISPUTE BETWEEN THEM.

THE CONSERVATIVE SPEAKERS LAST NIGHT AGAIN ATTEMPTED TO BELITTLE THE WORK DR. PUGSLEY IS DOING FOR ST. JOHN. GIVE THEM THEIR ANSWER ON MONDAY.

St. John is coming into her own. Stand by the government that is doing justice to her claims.

THE LIBERALS HAVE GIVEN CANADA TWELVE YEARS OF PROSPERITY AND UNPARALLELED PROGRESS. LET THEM CONTINUE THEIR WORK.

Make your vote on Monday tell for the good of St. John. Vote for Pugsley and Pender.

It is time for a change in the opposition policy.

REPORTS FROM ALL PARTS OF CANADA INDICATE A GREAT LIBERAL VICTORY. KEEP ST. JOHN IN LINE.

PREMIER HAZEN HAS NOT BEEN HEARD FROM IN ST. JOHN SINCE HE READ THE AFFIDAVIT. WHY?

Make your vote on Monday tell for the good of St. John. Vote for Pugsley and Pender.

THE WEST SIDE Carleton on Monday will do his part to elect Dr. Pugsley and Mr. Pender.

THE CONSERVATIVES boast that they will come out of Carleton with a large majority. That section of the city has in Sir Leonard Tilley's time Carleton was counted on to effect the Liberal vote on the east side.

But why should Carleton Conservatives esteem a party success of more value than the interests of the winter port, which are so notably their own interest?

It will require nothing less than a record of the votes to that effect to convince reasoning men that Carleton will on Monday blind itself to its own interests and vote for opposition candidates.

Dr. Pugsley, as minister of public works has prevailed upon the government to enter upon a policy of building wharves, as well as dredging, at St. John. This is what the people of the west side, in common with those of the rest of the city, have for years been urging the government to do.

Dr. Pugsley has introduced the policy. Why should he be rewarded by a slap in the face?

The city has more at stake in this election than in any former one, for the reason that as time passes the change of transportation are being fixed, and the port which has the most powerful and influential representation stands the best chance of having its just claims recognized.

The people of the west side are vitally interested in this matter of winter port development. Already, as a result of what has been done, property has greatly increased in value compared with the conditions of even five years ago.

It has actually doubled in value within a few years. The more rapid the growth of winter port trade the greater the general progress and prosperity on that side of the harbor. These are simple statements of fact which every resident of Carleton must admit.

Party feeling is strong, and always has been strong on that side of the harbor, but the Liberals are justified in their claim that in this election there will be large gains for the government because its policy is of such vital importance to the welfare of the west side people.

VERY DISAPPOINTING

Last night's Conservative meeting at the Queen's Rink was a disappointment. The crowd was there, but the speakers failed to deliver the goods. A new sensation, a new bombshell had been promised, and it was not produced.

Instead, the same singers sang the same old song. Mr. Fleming was kept till the last and the audience waited through two weary hours of Baxter, MacRae and Daniel in order to enjoy the set piece of political fireworks which Mr. Fleming has set off wherever he has appeared during this campaign.

Premier Hazen was not there. Mr. Powell was not there. Mr. Mayes was there, though not on the platform, and the chairman paid for him his letter, reiterating the statements in his affidavit, which has been so utterly discredited that the chairman should have refused to have anything more to do with it.

Not a word was said about the attempt made by changing a date to fasten upon Dr. Pugsley the crime of having while a minister of the crown, asked for and received a bribe from a contractor. Not a word was said in explanation of the fact that Mr. Mayes carried off his affidavit and has ever since refused to submit it to the inspection of Mr. McAvity's counsel, or file it with the attorney-general of the province.

Mr. Baxter hinted darkly at things he might reveal if an enquiry was ordered; Dr. MacRae alluded about an agreement between Mr. Mayes and Mr. McAvity which, he said, the minister knew was corrupt; and Mr. Fleming indulged in the usual transports of a man in the wrong who had the ring to himself, and is free to charge his opponent with cowardice and all sorts of bad qualities because the latter has not dropped everything else to accommodate him.

Mr. Fleming's speech was the speech the crowd waited for, and it was singularly ineffective, because though clever it contained nothing new, and made no charge that had not already been met by the minister of public works.

Last night's meeting was not even effective in stirring up party enthusiasm, such as might be expected on the eve of an election. The reading of long extracts from newspapers does not lend inspiration to a hot and perspiring crowd, which has been fed on sensations and is looking for more. A more sane and unimpassioned termination of a scandalous campaign could scarcely be imagined.

Of more importance to St. John people than many petty scandals hatched for election purposes are the improvements in Courtenay Bay and on the west side of the harbor. These are the things the people will vote for on Monday next.

HON. DR. PUGSLEY RECOMMENDS A SHAD HATCHERY FOR LORNEVILLE

Hon. William Pugsley and James Lowell, M.P.P., visited Lorneville early last evening and addressed a large and representative gathering of the electors. The minister of public works was given a great reception. Mr. Evans presided.

In the course of his speech, referring to the development and improvements which had resulted from Liberal rule, amid ringing cheers, Dr. Pugsley spoke of the new fishing regulations, and the break-water which the government is building at Lorneville. Another point which aroused

great enthusiasm was the announcement recommending the establishment of a shad hatchery there. The minister was cheered again and again as he left on his way to Charlottetown.

A rousing Liberal rally, largely attended, was held in the Temperance Hall, Fairville, last evening. Stirring addresses were delivered by J. A. Barry and J. D. P. Lewin. The hall was packed to the doors and the greatest enthusiasm prevailed. Dr. M. L. Macfarland occupied the chair.

Watch St. John Grow Under Liberal Rule

(Continued from page 1.)

QUEST OF THE OFFICERS OF THE AGRICULTURAL SOCIETY that no political speeches should be made. The farmers of Simonds intend to teach Mac Rae a lesson he will not soon forget. St. Martins will be usual roll up a good majority for the liberal standard-bearer and the estimate there is about 130 to 140.

Adding these figures together it will be seen that **THE MINISTER WILL HAVE FROM 550 TO 600 MAJORITY IN THE COUNTY ALONE** and it remains for the city to add its hundreds to these figures. It would seem that the estimate of 1,000 or 1,200 of a majority for Dr. Pugsley is a very conservative one.

IN YORK COUNTY

Nelson W. Brown Has Conducted a Most Successful Campaign and is a Sure Winner.

Fredericton, Oct. 24 (Special).—The last days of the campaign in this county find the Liberals full of hope and spirit and their opponents depressed to a corresponding degree. The change that has taken place during the past three weeks has been so great that it would not be believed if we had not the actual evidence of it. At that time the Tories were going around in so boastful a mood, that there was hardly an exaggeration which they were not ready to affirm. They declared that during the past three weeks there has been so great that it would not be believed if we had not the actual evidence of it. At that time the Tories were going around in so boastful a mood, that there was hardly an exaggeration which they were not ready to affirm. They declared that during the past three weeks there has been so great that it would not be believed if we had not the actual evidence of it.

Two causes have contributed to bring about this result. First, and foremost, the nomination of a most acceptable candidate, Nelson Brown, who is not an imported article, but a son of the soil, one of the people, a man who does not think it a cause of reproach that he should shovel dirt into a cart. Mr. Brown has conducted a whirlwind canvass. He is undoubtedly the best campaigner that has been seen in the county of York since confederation. He has been everywhere, received with the most hearty demonstrations of approval. He has made a house to house canvass and has received

that that paper has blackguarded and Laurier but it misrepresented the facts to so absurd an extent, that no one, whether liberal or conservative believes anything that appears in its columns. It is an old saying, "that you can fool some of the people, some of the time, but that you can't fool all the people all the time." When a Conservative who has attended a political meeting, sees everything that occurred there, grossly misrepresented he is not likely to believe anything else that he sees in the Gleaner. That paper has altogether over-reached itself and disgusted respectable conservatives by its mendacity. Another cause that will insure the defeat of Crockett on Monday next is the want of real men whom he thinks are his friends. It is well known that Crockett was put up in 1904 as a forlorn hope for the purpose of getting rid of him and his claims. He was to be killed in the breach and another man was to be brought forward on the next occasion to uphold the banner of the Tory party. Unluckily for this arrangement Crockett was elected, mainly by the liberal use of money and partly by the over confidence of the Liberal party. Probably the men who were the most disgusted at this result were those who had put Crockett forward. They have not got over their disappointment yet. Mr. Harry McLeod for instance, cannot feel much interest in the man whom he thinks is filling his shoes, neither can Mr. Pender or any of the other chiefs of the party. Nominally they have to support Crockett but in some cases their support will be very much lacking in strength.

QUEENSBURY

Col. McLean's Prospects of Victory on Monday, Could Not Be Brighter.

Gagetown, Oct. 24.—(Special).—The last working day before the election opens with every indication that Col. McLean will be the representative of the constituency of Queensbury after Monday.

The fight here has been a hard one, but Col. McLean has been untiring in his efforts and what at first looked like a hopeless contest, has now the promise of being a sure thing for McLean.

In every parish in the two counties (with the exception of one) Col. McLean will make a gain, and even in this parish the Liberals claim that they will gain ten votes over Hay's vote. This gain, of course, refers to the Dominion election of 1904. Wilnot's majority over Hay at that time was only 118 votes.

There are seventeen parishes in the two counties, and a change of four votes to a parish will give McLean a majority of 472. But McLEAN WILL GAIN MORE THAN FOUR IN EVERY PARISH—WITH THE POSSIBLE EXCEPTION OF ONE—AND IN TWO PARISHES

REASONS WHY MR. PENDER IS THE MAN ST. JOHN NEEDS AS ITS REPRESENTATIVE

To the Electors of St. John City, Ladies and Gentlemen:

Some reasons why the Liberal government should be continued.

Because under their administration of affairs the business of the country has grown to a total of \$5,160,000,000 in twelve years as against \$2,537,000,000 for a corresponding period under their predecessors.

Under the changes made in the tariff the revenue of the country has grown from \$38,000,000 in 1896 to \$96,000,000 in 1907, which has enabled extensive improvements to be made in deepening canals, extending railways, lighting the rivers and coast, which has had the effect of reducing the freight on grain from the west to such an extent as has enabled Montreal to do as much business in this line in the last few months as all the American seaports on the Atlantic seaboard from Boston to Philadelphia.

The postal business has been so administered as to produce a surplus of revenue of over \$1,000,000 after the reduction of postage from 3c to 2c and foreign postage from 5c to 2c.

The railway tonnage representing the domestic business has been increased from 24,000,000 to 64,000,000 and the railway mileage from 16,000 to 22,000 miles.

The surplus revenue during their term of administration has been over \$100,000,000 which has enabled extensive improvements to be made without increasing the bonded debt to any extent, the total increase during the twelve years being only \$19,000,000 as against \$18,000,000 by their predecessors in eighteen years, showing a decided improvement in this

ISLES HE WILL MAKE A GAIN OF 50 VOTES IN EACH.

Three or four weeks ago the Conservatives were offering two to one on Wilnot. Today Conservative money cannot be found to bet on Wilnot with heavy odds in their favor.

In reviewing the whole situation, apart from all party politics, it looks as if McLean will be elected by a substantial majority.

CHARLOTTE COUNTY.

It Will be a Hard Fight But Mr. Todd's Chances are Regarded as Good.

St. Stephen, N. B., Oct. 24 (Special).—Political affairs in this county are no more than it is next to impossible to tell just which way the battle of ballots will end on Monday next, but if straws indicate the direction of the wind THERE IS GOOD GROUND FOR THE BELIEF THAT CHARLOTTE COUNTY WILL BE REDEEMED and the candidate of the Liberal party, W. F. Todd, will be elected by a substantial majority.

It is as admitted on all sides that Mr. Todd is a much stronger candidate than was Senator Dan Gillmor who was defeated by Mr. Ganong four years ago, and the friends of the Conservative candidate, while putting up the biggest thing in the way of a bluff in the line of majority claims, are not really confident of winning out. From the amount of work that has been done in St. Stephen and Mill Charlotte county are as intelligent a class as can be found anywhere in this grand Dominion, and as well versed in politics as any business man in the Dominion.

St. Andrews will give an increased vote to Mr. Todd, and reports from the inland towns indicate a sentiment very favorable to the Liberal candidate. Conclude county has been so long in opposition that the voters are getting tired of the situation and take little stock in the claim of the Conservatives that the party of Sir Wilfrid Laurier is doomed to defeat on Monday next.

Mr. Todd has surprised even his friends by his ability as a canvasser and speech maker, and has made a most favorable impression wherever he appeared, while on the other hand his political opponents have lost ground by the campaign of abuse inaugurated at the very outset of the big political battle. The voters of Charlotte county are as intelligent a class as can be found anywhere in this grand Dominion, and as well versed in politics as any business man in the Dominion.

St. Andrews will give an increased vote to Mr. Todd, and reports from the inland towns indicate a sentiment very favorable to the Liberal candidate. CARLETON COUNTY

F. B. Carvell Will Have a Majority of at Least 300 Votes Over Smith.

Woodstock, N. B., Oct. 23 (Special).—The close of the campaign in Carleton county finds the Liberals supremely confident. The Conservatives are putting up a losing fight, and seem to realize it. They are making the most of their corruption fund but Frank B. Carvell is the hero of the hour in this constituency, and will come out with flying colors.

IN WESTMORLAND

Hon. H. R. Emmerson Will Beat Sumner all the Way From 1200 to 1500.

Moncton, N. B., Oct. 23.—Hon. H. R. Emmerson is conceded all the way from 1,200 to 1,500 majority. The great popularity of the Liberal candidate has been shown in the hearty reception he has met throughout the campaign and the people will send him back to Ottawa with more votes to his credit than were given him even in the last campaign.

Dalhousie, N. B., Oct. 23.—That the Liberal candidate will poll a majority in five parishes out of six in Restigouche county, is the conclusion arrived at by impartial observers. The meetings addressed this week by Messrs. LaBelle, Currie, McKeen, LeBlanc and others were largely attended and very enthusiastic. Mr. Reid in an active house to house canvass, finds that he has lost none of his old friends of 1904, and the country a great many Conservatives are going to support him.

seen since Sir Wilfrid Laurier visited here several years ago.

Westmorland was never in doubt from the Liberal standpoint. Sumner never had a chance of election and it has all along been only a question of how great a majority the Liberals would roll up for their popular candidate. It can be written, as already said, at 1,200 to 1,500.

in lands. Dr. D. H. McAlister has him beaten for the representation of the joint counties in the next parliament. The Liberal candidate has made a great campaign fight and has been aided by the discredit which has fallen upon the Conservative nominee.

Dr. McAlister's friends were many at the start but he has gone on steadily gaining, making a fine impression everywhere. He is equally popular now in Albert and Kings and will beat Fowler 200 votes in Albert and lead him by as many more in Kings. The Liberal victory in this constituency, it is known here, will be regarded as one of the best features of the campaign throughout Canada and the party is working to make it a decisive one. Fowler's exhibition in his debate with F. B. Carvell was the last straw. He was a beaten man before he went to the rink that night; when he came out any lingering hope he may have entertained had gone.

Vote for G.T. Terminals on Courtenay Bay

Resorting to all tactics in their efforts to re-elect Dr. Daniel in the city of St. John, the Conservatives have not hesitated to forget the truth and one of their attacks directed against Mr. Pender, the Liberal candidate, is that he is no friend of the laborer.

Much might be said in refutation of so untrue a statement but a definite, silencing answer is afforded in the letter prepared, unsolicited, by the men who work under Mr. Pender in the thriving pulp works of which he is the head. This was published in the Daily Telegraph on September 19 and is here reproduced:

To the Editor of the Telegraph:—

Sir,—The assertion has been made from the public platform that James Pender is not a friend of the working man. We, the undersigned, flatly deny that statement and would point out for the guidance of our fellow workers in this city the fact that during the past twenty years Mr. Pender has proven himself the friend of labor and the unswerving and outspoken advocate of everything pertaining to the welfare of our city. We might also state that during this period the wages of the employees have never been reduced but have been advanced, though it has occasionally been necessary on so short a time in order to keep stocks from accumulating.

With regard to his attitude re the Compensation Act he could have no objection to an equitable arrangement, and so far as the James Pender Company, Limited, is concerned, no matter how stringent in favor of the workmen it would not affect them, for the whole plant is installed in such a way that accident is almost impossible and could not occur through negligence of the company. Nevertheless, the company has always been willing to compensate any one who should meet with a serious accident, but such has not occurred during the twenty years or more of the company's existence.

Mr. Pender's personal attitude toward the working man is one which might well be copied by other manufacturers in our city, for he not only takes a personal interest in our welfare, but in times of trouble assists us financially and otherwise in spite of the fact that he pays a higher average wage than any other manufacturing concern in the province.

We do not address you on the political issues of the present campaign as over fifty per cent. of the employees are opposed to Mr. Pender politically, but we feel that this is a matter of great importance to us and one in which Mr. Pender is being slandered by his political opponents, and we, his employees, a majority of whom have been in his employ over 15 years, are always willing and anxious to fight the battles of our generous employer.

KENT COUNTY LeBlanc is a Sure Winner as the People Will Support the Party of Progress.

Richibucto, N. B., Oct. 23.—Many things have contributed to the Liberal victory which is assured in Kent county. Hon. O. J. FOWLER'S DEFEAT IN KINGS-ALBERT BY OVERWHELMING VOTE IS ASSURED

Sussex, N. B., Oct. 23.—The last day of the campaign finds the Liberals of Kings-Albert confident and as certain of victory as the calculations of a well organized committee can make them. Public opinion is in favor of Dr. McAlister and strongly against the Conservative candidate. This is shown in every parish by the defeat in the ranks of Fowler's supporters. There are many reasons why he will not and should not win his election. Chief among them is his record as representative where he has used the great honor in a representative of the people for his private interests. His connection with the trust funds of the Foresters has lost him the support of many of the intelligent members of that order in both counties. The splendid record of the Liberal government and the great popularity of Dr. McAlister will increase his vote tomorrow. Upper and lower and centre parties are united in saying that Dr. McAlister will win. He himself has no doubt of the result. Assurances of support given him from many influential Conservatives show that the revolution of popular feeling against Fowler. The signs are not wrong this time. McAlister will be elected. Quartermaster-serialist Herbert McKinnon, of the 74th, visited Sussex today on information of the Liberal committee. He was probably the most surprised man in the province to learn that he was accused of trying to induce men not to exercise their franchise at this election. Anyone who knows McKinnon will be surprised too, for he has not the inclination or disposition of a politician, and is a straightforward and manly young man, his many friends will resent the accusation framed against him by a Sussex laborer who never saw him, never heard of him and did not even know enough of the alleged facts to give information without being coached. McKinnon was before Judge Hornbrook today and was represented by his...

The following personal letter has been sent to individual voters by Hon. Wm. Pugsley: My Dear Sir: Owing to the fact that, as the minister representing New Brunswick in the cabinet, I feel it to be my duty to visit various sections of the province during the campaign, I shall not be able to call upon many of the electors, and I therefore take this opportunity of soliciting your vote and influence in my behalf and in support of the Liberal government and its leader—Sir Wilfrid Laurier. THE DEVELOPMENT OF OUR COUNTRY and for the prosperity and happiness of our people. If the government is returned to power, the same vigorous policy will be pursued; the same prudent and progressive administration of the affairs of the dominion will be carried on. I recognize the fact that the people of this constituency elected me to parliament by acclamation upwards of a year ago, because they thought that I might be able to ADVANCE THEIR INTERESTS and assist them in realizing their hopes of seeing ST. JOHN TAKE ITS PROPER PLACE AS ONE OF THE GREAT CANADIAN PORTS. My record of work done in this respect is before you. If I have, in your opinion, done my duty to the constituency, and I have earnestly striven to do, I feel sure that I can rely upon your expressing such opinion by your ballot. If I and my colleagues for the city portion of the constituency, Mr. Pender, are elected, and the government is SUSTAINED—AS SEEMS CERTAIN TO BE THE CASE, it will be our ambition and our pride to assist to the best of our ability in carrying out the Grand Canadian policy, which the Liberal government is devoting its energies, of diverting ALL CANADIAN TRADE FROM UNITED STATES PORTS INTO CANADIAN CHANNELS AND THROUGH CANADIAN PORTS. The carrying out of this policy, hastened as it will be, by the limiting of the British preference to goods coming direct to Canada ports, a policy to which we have already given effect in the recent treaty with France, and to which our government is by resolution of parliament committed as soon as the new Transatlantic Canadian and therefore independent of American bonding privileges, is completed, WILL MEAN MUCH FOR THIS CITY and other Canadian Atlantic ports. I think I need scarcely say to you that a vote for the government means a vote for Canada's progress and prosperity and for a GREATER ST. JOHN. Again soliciting your support for Mr. Pender and myself, I am, Yours faithfully, WILLIAM PUGSLEY.

RALLY DAY Main St. Baptist Sunday School Will Hold an Interesting Service Tomorrow. The Main street Baptist Sunday school will have its annual rally tomorrow. An excellent programme, in harmony with the spirit of such a meeting, will be carried out, and as the service is to be held in the main body of the church, a large attendance is expected. The school in itself has over 600 members, and the attendance for a number of Sundays has exceeded 400. The contributions for missions alone for the part of the year just closed have reached nearly \$500. The completed have reached nearly \$500. The completed have reached nearly \$500. The completed have reached nearly \$500. The completed have reached nearly \$500.

LIQUOR AND MONEY IN QUEENS-SUNBURY Conservatives are Using all Sorts of Tactics to Defeat Col. McLean. All tactics are being employed to stay the victorious march of Col. McLean in Queens-Sunbury. Reports received yesterday tell of quantities of liquor sent up from St. John for illegal purposes on the part of the Conservatives. A strange, definite instance of attempted bribery is also told. It happened on one of the river steamers a few days ago, when a well known Conservative worker approached some Liberals of the county and sought to secure their votes by offer of money. The matter is being followed up by Col. McLean's friends and more may be heard of it.

H. O. J. LeBLANC Liberal Candidate in Kent County. His candidate, but the doctor was content with his seat in the provincial legislature, and declined to plunge into waters which promised to be icy. So the opponents of progress and advancement finally had to be content with Robodow, who has proven no formidable opponent of the veteran Liberal candidate. LeBlanc will have a larger majority than in the last election; that can be confidently stated.

VICTORIA-MADAWASKA Pius Michaud Will Bury Dr. Kirkpatrick Under an Avalanche of Votes. Edmundston, N.B., Oct. 23.—(Special.)—Col. Jesse Baker saw no chance of election against Pius Michaud in Victoria-Madawaska, so he dropped out. The Liberals are not to be beaten in this constituency and he knew it, so he retired while he could yet do it gracefully. No one seriously considers that Dr. Kirkpatrick will be elected.

Do you want to build up St. John? If you do, vote for Pugsley and Pender. That is the short cut to prosperity. Hon. Mr. Pugsley: "Mr. Mayes in a letter which he wrote me on the 26th of December, 1907, states that he had received his first contract for dredging at 65 cents after tendering in the regular manner."

PROGRAMME "The Song of the Reapers," by the school. Responsive scripture reading. Chorus, "Now is the Time," by the school. Prayers, by the pastor. Chorus, "We're Enlisted in the Army," by the choir. CONTRIBUTION Solo, "Work On," by Miss May Thorne. "Sowers and Reapers," a harvest exercise, by Miss Hattie Vawter, assisted by Messrs. Harry Scott, Don Hayes, Rev. Vincent, Gordon McLean, Randolph Fish, Frank and Ken after attending the annual convention of the N. B. and P. E. Island Sunday School Association. Mr. Hayes, who was elected president, reports that the convention, which lasted three days, was probably the most successful yet held. Reports were submitted from the departments and were considered fairly satisfactory. There were not so many graduates from the teacher training class, however, as had been hoped. Excellent addresses were given by prominent workers during the sessions, which were very interesting. J. Edgar Edgett, of the wholesale buying staff of Manchester Robertson Allison Ltd., has arrived home from the European markets, reaching Boston Wednesday in the liner Republic of the White Star service. Mr. Edgett has been away several months, during which time he was accompanied by his wife. He reports a very stormy passage on the return trip, the large craft encountering a storm of five days' duration.

BIG MEETING IN ELGIN W. G. Pugsley and Frank Freeze Speak to Large Number. Elgin, N. B., Oct. 23.—The best meeting ever held here was addressed tonight by W. G. Pugsley, of St. John, and Frank Freeze, of Penobscot. Four hundred people crowded the hall in the interests of Dr. McAlister, some sitting ten or fifteen minutes. In the audience were a number of ladies, and the young ladies of Elgin had the hall prettily decorated with flags and plants. George Stiles presided. The speakers aroused great enthusiasm and were heartily applauded. Dr. McAlister was to be here tonight but was unable to come. He has carried on a great campaign and will be elected on Monday next.

ATHLETES REINSTATED Halifax, N.S., Oct. 23.—The committee of the M. P. A. A. A., considering applications, have granted the request of the athletes, Messrs. Stubbs, Clawson and Roberts, of St. John, about reinstatement. A. W. Robb, formerly representing the M. P. A. A. A. in St. John, and C. B. Union, is now in St. John, and President Lithgow has appointed him M. P. A. A. A. representative at St. John. He has suggested to him that the amateur clubs of that city become members and Mr. Robb has a committee of representatives to regulate matters in St. John and make recommendations. There was much favorable comment expressed yesterday when it was learned that the Marathons' manager had received a telegram from the M. P. A. A. A. president, J. C. Lithgow, reinstating Dr. Malcolm, John Malcolm, H. K. Clawson and Geo. A. Stubbs, who have been under suspension for the awful crime of playing against Tommy Howe.

A GREAT RALLY IN NEWCASTLE Loggie and Copp Delivered Splendid Addresses Last Night. Newcastle, N.B., Oct. 23.—W. S. Loggie and A. B. Copp spoke at a grand Liberal rally here tonight, a magnificent torchlight procession escorted the speakers to the hall. Mr. Loggie referred to Donald Morrison's statement that the government had outlived its usefulness. It had not, the country was never so prosperous. The Grand Trunk Pacific construction was not reckless expenditure, but just what the country needed. He showed that Mr. Morrison's platform of honest administration, efficient public service, civil service reform, public lands for settlers, independent railway control, improved postal facilities, and promotion of Canadian industries had already been carried out by the government. He hoped to see Newcastle soon a divisional point and have repair shops. The opening of the Indian town branch would bring Boistown and Doaktown business this way. The diversion of Canadian Eastern would give a station directly opposite Newcastle. Dan Littlejohn says he will gladly accept Wagner's challenge for a return bout next month in France. Littlejohn says it is in good form for his bout in Moncton on Tuesday next.

A COMMON SENSE VIEW required at present time in the councils of this great nation. Do we not require the ablest men to represent us at Ottawa and because of that thought and action, I love my native city and desire with all my heart to see her advance ALONG THE LINES OF PROGRESS AND PROSPERITY and feeling that our highest hopes and ambitions will be realized only by having as representatives at Ottawa the Liberal candidates, Dr. Pugsley and Mr. James Pender, I appeal to you to consider only the best interests of St. John. Remember, voters, you have the power by the use of the silent ballot on Monday next to make or mar the future development of the great old city of St. John. Yours for a greater Canada, for a greater city. D. McARTHUR

BENEDICTION R. T. Hayes returned from St. Stephen yesterday afternoon after attending the annual convention of the N. B. and P. E. Island Sunday School Association. Mr. Hayes, who was elected president, reports that the convention, which lasted three days, was probably the most successful yet held. Reports were submitted from the departments and were considered fairly satisfactory. There were not so many graduates from the teacher training class, however, as had been hoped. Excellent addresses were given by prominent workers during the sessions, which were very interesting. J. He reports a very stormy passage on the return trip, the large craft encountering a storm of five days' duration.

Hon. Mr. Pugsley: "These men stand at the bar of public opinion and I charge them with wilfully slandering me and the Liberal Party, and it is for you people to say on the 26th whether you approve of such tactics."

PIUS MICHAUD, Liberal Candidate in Victoria-Madawaska. Kirkpatrick, who came to stop the gap, has any thought of approaching within a mile of Mr. Michaud's vote. Last year Mr. Michaud went in by acclamation. The Conservatives would have saved expense by allowing it to go the same way this year—the result would have been the same.

A NEW ONTARIO TOWN IS WIPED OUT BY FIRE Matheron, Near North Bay Had a \$75,000 Fire Yesterday. North Bay, Ont., Oct. 23.—The new town of Matheron, on the T. & N. O. Railway, originally called McDougall's chutes, was visited by fire last night and the town is virtually wiped out. Flames were discovered about 10 o'clock last night in the Abitibi Hotel, and spreading rapidly, quickly leaped to the adjoining buildings, and without fire appliances of any kind, they quickly burned. The T. & N. O. Railway station escaped the flames. The loss will approximate \$75,000 with no insurance. Among the fire sufferers are Revillon Brothers, fur traders and general merchants; Rothchild Brothers, dry goods; Taylor's hardware store; John Clark, general store; R. A. Douglas, drug store; post office; Syrian colony and Chinese laundry. The origin of the fire is unknown.

SUE FOR SILVERWARE FOR STEAMER YALE Portland, Me., Oct. 24.—Two petitions asking permission to intervene in the suits against the Eastern Steamship Company and the Metropolitan Steamship Company in the United States Court were filed in behalf of the Reed and Burton Company of Tamton, Mass., and the Pike and Kiley Company of Eastport, Me. The Reed and Burton Company furnished silverware to the value of \$10,171 to the steamship Harvard, for which they were paid in full, and silverware to the same amount to the steamship Yale, for which they were paid in part and given a note for the balance, which they allege has not been paid. The Pike and Kiley Company claims to have furnished \$1,892 worth of supplies to the Eastern Steamship Company.

"LET LAURIER FINISH HIS WORK"

CARLETON WILL SUPPORT PUGSLEY AND PENDER; GRAND RALLY LAST NIGHT

Splendid Meeting in Carleton City Hall Shows that West Side Voters Will Support the Party of Progress—Carleton's Future Depends on the Growth of the Winter Port Trade and Pugsley and Pender Are the Men to Help it Grow.

Beyond any question Pugsley and Pender will be St. John's next representatives, and by splendid majorities.

Ringing cheers and unbounded enthusiasm marked the closing of the Liberal campaign in Carleton last evening and showed that the West Side has rallied under the Liberal flag and will give Hon. Mr. Pugsley and Mr. Pender a majority on Monday.

The mass meeting was held in the public hall and the electors of the West Side turned out in force to welcome Messrs. Pugsley and Pender as the principal speakers. At no time during the campaign has an audience given a more signal demonstration in favor of the Liberal candidates or by outbursts of applause shown its appreciation of the Liberal policy.

As never before the people of Carleton are realizing the vital importance of the work the Liberal government through the minister of public works is accomplishing in the harbor of St. John. It was evident from the large and representative meeting last night, apart from the enthusiasm which prevailed, that Liberals and Conservatives on the West Side are in this election standing shoulder to shoulder for the development of the port in which they are alike interested.

Mr. Pender, who spoke for an hour and a half, was greeted with rapturous applause. In his address, the best he has delivered during the campaign, he showed the development and progress of Canada under Liberal rule and by clear out reasoning, demonstrated the benefit to St. John by supporting the government which had given a preference to British goods coming through Canadian ports.

Dr. Pugsley, in an eloquent address on Dominion issues, also touched upon the great future of the port and the importance of ending both his colleagues, Mr. Pender, and himself, to Ottawa to push forward the work already in progress. Both speakers were applauded to the echo. Mr. Mahoney and Dr. G. B. Smith also delivered excellent addresses and were given a very hearty reception. William Hammond presided and briefly introduced the speakers.

W. J. Mahoney, the first speaker, announced that Hon. C. W. Robinson, who was to have been present, had wired that he had missed his train at Albert and could not be with them.

Mr. Mahoney was given a very hearty welcome. He spoke of the cry of the Conservatives in 1896 that the Liberals had no genius for government and went on to show the record of unprecedented prosperity which had resulted under Liberal rule. Not only has the value of the Liberal rule done more to unify the different sections of the community but he had formulated the great policy of Canada trade through Canadian ports (Cheers).

In St. John that policy could be fully appreciated and the Liberal candidates to give the Liberal candidates their hearty support. He referred to the Conservatives, if they had not been driven down to making rags and slandering ministers of the crown and pointed out that, notwithstanding the record of the Liberal government, they had not advanced a single charge in the house of commons. They

left it until the eve of the election and then sprung these charges and as every one knew now, with no results. (Cheers.) Mr. Mahoney then touched upon the development and progress of the port department under the Liberal government, contrasting the deficits under Sir Adolph Caron with the surplus of \$1,000,000 today and, in addition, the reduction of the postal rate. He emphasized the satisfactory results from the Liberal immigration policy which had peopled the West and sent millions of bushels of grain to the ports of the maritime provinces. The opposition were not able to deny that progress and prosperity had resulted under the Liberal administration and had, therefore, but one cry, "Turn the graters out." He felt sure no one wanted Dr. Maclean in place of the minister of public works and that record of the Liberal government would be given to both Liberal candidates. (Loud cheers.)

Mr. Pender Gets Big Reception. Mr. Pender, on coming forward to speak, was given a most enthusiastic reception. He was greeted with cheer after cheer and cries of "What's the matter with Pender? He's all right," resounded from all parts of the hall. They were now, he said, within two days of the election and it behooved every elector to give careful consideration to whom he would vote for, whether he would support the present government which had a record of success overhauling every government since Confederation or listen to the appeals of the men who had no other cry but that it was time for change because they were so anxious to succeed to power.

He went on to compare in detail the records of the Liberal and Conservative administrations quoting from statistics the enormous advances that the export trade, the revenue, manufactures and immigration had made during the last twelve years. There had been, he said, a businesslike administration of Canada affairs and the Liberal government in power it would continue.

A Master Stroke. Mr. Pender then went on to speak of the importance of the maritime provinces of the preference on British goods coming through Canadian ports which has now been made part of the government's tariff policy and will go into effect by proclamation after 1911. The tariff, he said, had already increased from \$3,000,000 to \$600,000,000 and during the last few months its benefits had been especially noticeable.

At the port of Montreal since July the four largest American ports on the Atlantic. He wanted to see that business extended to the maritime provinces and the preference which would be given to British goods coming through Canadian ports would go far in accomplishing it. The preference would equal ten per cent. of the value of the goods. The average on freight from Liverpool it equalled 5 per cent. of the value. That would mean that goods shipped through American ports would lose two per cent. How long, he asked, would that be kept up?

"I regard this preference regulation," Mr. Pender said much cheering, "as the strongest possible piece of legislation ever enacted by any government in the maritime provinces. If it were done away with there is nothing which could be as effective. The opposition have no friendship for the preference and have not shown that

they have changed. Some have gone so far as to say that the British would not support that they would abolish it. If this were done, away would go this means of diverting trade to Canadian ports.

Much for St. John. "We in St. John are to benefit more by that legislation than probably any other city. When it goes into force there is nothing can stop St. John getting that business. The province of Ontario through its boards of trade has shown that it is against this preference. It is to Ontario that Mr. Borden looks for his majority. He is not likely to change his mind. Mr. Borden would undoubtedly cancel this preference and we in the maritime provinces would be out in the cold." (Loud cheers.)

Mr. Pender then went on to point out that St. John was the port which, in its situation, could offer the strongest inducements to the G. T. P. and spoke of the development which would result from the completion of the road. He dealt convincingly with the contention of his opponents that he was the enemy of the working man and explained his attitude on the compensation act.

Aid a rear of laughter Mr. Pender told Dr. Maclean's speech. "I understood," he said, "that my opponent expected to be refused admission to the hall. He was a man of enormous amount of political capital out of it. We gave him the run of the establishment and told him he was welcome to whom he would vote for, whether he would support the present government which had a record of success overhauling every government since Confederation or listen to the appeals of the men who had no other cry but that it was time for change because they were so anxious to succeed to power."

expected me to do, have I not a right to ask you to send me back again?" (cries of yes, and great applause)

"Have you ever had a minister there who in fourteen months did as much for you as I have done? Do you not owe it to yourselves to send Mr. Pender and myself there to continue this work for St. John? Then support us and send us back. Our friends on the other side say 'put in and well do as much as Pugsley will, but it makes a difference whether a member has the power to do what is wanted or has to influence someone else. I have done my duty to all portions of Canada as well as St. John.

Dr. Pugsley told of recommending a few days ago that a contract be accepted for dredging a big turning basin at Mission River." When Dr. Daniel and Dr. Maclean and my good friend the editor of the Globe talk about my promises and say I had no authority to award a contract for dredging at Courtenay Bay, let me tell them that this work on the Mission River is within a million yards of the total work to be done in St. John harbor. I have a perfect right to award these contracts for continuing work in these places and as the appropriations are needed they will be forthcoming. We must be ready in St. John when the business comes.

"Our opposition friends say that if we are to have the work at Courtenay Bay and the other places, they will be stamped by the Tory bluffers, who are asserting that a landslide is in sight in favor of their party, and as against Sir Wilfrid Laurier and the Liberal party. There could be no greater distortion of the political situation than such a statement. Not only is there no indication that there will be a Tory landslide, but all the information, which reaches the Liberal headquarters is that if there is any material change in the composition of the next house of commons, it will be to the advantage of the Liberals, rather than of the Conservatives.

Every province except Ontario and perhaps Prince Edward Island, will give a majority for Laurier and Greater Canada. Sir Wilfrid Laurier and the Liberal party will have the support of the vast majority of the electors of the Dominion as well as the support of the provinces and the citizens in other parts of this country to roll up for Sir Wilfrid Laurier the greatest majority ever received. Let me tell you the government is going to be sustained.

As he closed the hall resounded with cheers for the Liberal chief and the candidates.

THE TRUTH ABOUT MAYES' CONTRACT

Mayes in his affidavit alleged that his tender was the only one received both times. On this point Hon. William Pugsley says:— "The records of the department, of which I have received a copy, show that on the 29th of July, 1908, the department called for tenders for dredging at Sand Point Slip, St. John, the advertisement calling for tenders providing that only dredges can be employed which are registered in Canada at the time of filing the tenders. In answer to this advertisement two tenders were received as follows:— "G. S. Mayes, St. John; Rock, boulders, etc., \$3.90 per cubic yard; other materials, 48c per cubic yard.

"M. J. Haney & Roger Miller, Toronto; Rock, boulders, etc., \$3.20 per cubic yard; other materials, \$1.25 per cubic yard.

"Mr. Mayes had no dredge registered in Canada but the tender of Mayes was so much below that of Haney & Miller as to allow material except rock and boulders, it was decided to reject both tenders and to call for new tenders, omitting the condition that the dredge must be registered in Canada at the time of tendering.

Accordingly, new tenders were called for by public advertisement published on the 21st of August, 1908. In response to this advertisement, tenders were received from the same parties as follows:— "G. S. Mayes, St. John; Silt, sand, etc., 55 cents; solid rock or boulders, etc., \$3.60.

"M. J. Haney & Roger Miller; Silt, sand, etc., \$1; solid rock and boulder, etc., \$3.25.

"While Mayes' tender was six cents higher than his previous tender for silt, sand, etc., it was thirty cents per cubic yard less for rock, boulders, etc., and the tender of Haney & Miller was twenty-five cents per cubic yard less than their previous tender for silt, sand, etc., and twenty-five cents less for rock and boulders.

"Owing to there being a very much greater estimated quantity of silt, sand, etc., than of rock and boulders, the tender of Mr. Haney, awarded the contract."

Hon. Mr. Pugsley:—"I have said before and repeat it, Mr. Mayes to the contrary, that Mr. Mayes told me the dredge might be purchased through an agent, and it might be so arranged that there could be \$20,000 for a campaign fund in this constituency. The position which I took was that as your representative and as a minister of the crown I could not be a party to such a transaction."

Have You Pains? Try This. Many have aches and pains that for years have defied all treatment. But one "Nervine" is used, doubt turns into belief that no aches, pains, or bruises exist that Nervine won't cure. Great limbs seem to stay on the outside—they can't penetrate—but Nervine sinks right in, gets where the nerves and muscles are sore, applies its healing, soothing properties and away goes neuralgia, rheumatism, lumbago—any ache or pain that needs curing.

Laurier's Majority in the Next Parliament Expected to Be Seventy

A Careful Estimate from All Sections Indicates a Big Liberal Majority—How the Provinces Will Stand—Quebec Will Not Give the Conservatives More Than Seven Seats.

Ottawa, Oct. 23.—The electors of Canada should not allow themselves to be stamped by the Tory bluffers, who are asserting that a landslide is in sight in favor of their party, and as against Sir Wilfrid Laurier and the Liberal party. There could be no greater distortion of the political situation than such a statement. Not only is there no indication that there will be a Tory landslide, but all the information, which reaches the Liberal headquarters is that if there is any material change in the composition of the next house of commons, it will be to the advantage of the Liberals, rather than of the Conservatives. Every province except Ontario and perhaps Prince Edward Island, will give a majority for Laurier and Greater Canada. Sir Wilfrid Laurier and the Liberal party will have the support of the vast majority of the electors of the Dominion as well as the support of the provinces and the citizens in other parts of this country to roll up for Sir Wilfrid Laurier the greatest majority ever received. Let me tell you the government is going to be sustained. As he closed the hall resounded with cheers for the Liberal chief and the candidates.

WHAT PRINCE RUPERT LOOKS LIKE TO THIS EASTERNER

The Baby City Has Already a Population of From 500 to 600. No Lots Have Yet Been Sold. (Montreal Herald.) Prince Rupert is situated about 615 miles to the north of the city of Vancouver and is at present reached by steamer from the latter place, the trip each way taking about 48 hours, and by the Grand Trunk Pacific. This duality of ownership may possibly account for the uncertainty prevailing as to the date of the intended sale of town lots.

NOT A LOT SOLD YET. One thing is however, certain and that is that no lots have yet been sold, nor has any one yet been authorized to sell same, and the town lots offered of places in the vicinity of Prince Rupert are pure fakes, as there is no land available for other townships in the vicinity, and indeed owing to the extreme ruggedness of the coast lines and precipitous nature of the shores in those regions it would be difficult to find a site for a small village in that neighborhood, let alone a townsite.

There are a number of islands near the entrance to the sound. Some of these are rocky and barren, but others have some good land and quite fit for cultivation. One of the nearest of these islands is about three-quarters of a mile from the water's edge. The whole surface of the site is a succession of rocky copies, with muck and the hollow, plentifully interspersed with present with stumps. The people, as a rule, are of a temporary nature, no lots have yet been sold, and the buildings are there on sufferance.

POPULATION IS GROWING. The population at present is about 500 or 600, made up largely of campers. These are the men who have come to the town to work on the railway, and the town is called Baconville and to the east about three-quarters of a mile distant, and only reached by a non-horse trail, is situated Vicsville, a collection of about 30 or 40 tents. The people, as a rule, are of a temporary nature, no lots have yet been sold, and the buildings are there on sufferance.

\$100 Reward, \$100. The readers of this paper will be pleased to hear that there is at least one dread disease that science has been able to cure by the use of a medical preparation called Carr's Cure. This is the only positive cure now known for the disease, and it is a constitutional disease, requires a constitutional treatment. Carr's Cure is a constitutional disease, requires a constitutional treatment. Carr's Cure is a constitutional disease, requires a constitutional treatment.

THE ELECTION RETURNS. A score card has been made up giving the complete returns of the Dominion elections for 1904, giving the majority of every constituency throughout Canada, with a space for filling in the returns next Monday night. It is neatly printed and is selling like hot cakes at all news stands and drug stores and by news boys through out the city.

THE MAN TO CHEER FOR. (From the Montreal Star, Conservative.) To the Editor of the Montreal Star:— Sir:—I shall vote for Sir Wilfrid Laurier, Canada's Grand Old Man, because— 1st. Since Sir John A. Macdonald died he has been the strongest leader in our politics, commanding the love of his followers and the obedience of his ministers. When wrong-doing is proven, or dissent shows itself, the offending minister must go. Had Mr. Borden turned down some of his "cabinet material" whose record is so unsavory and who are now reaching out for the treasury benches, his party would stand in a better position today. 2nd. He has striven to abolish racial strife, and to make the two great Canadian nationalities understand and respect each other. He is neither bigot nor demagogue. He would never stoop to sneer at immigrants from other lands. 3rd. By his speeches and personality he has brought Canada prominently before the Mother Countries on several great occasions, and by his tariff preference has brought Britain closer to us in trade and incidentally in gratitude and sympathy. 4th. He is never "stamped" by any crisis, great or small. The Japanese trouble was an instance. He handled it like a statesman. Mr. Borden did not. His individuality is an inspiration to higher things in politics, or any other walk of life. Sweet of temper, courteous in manner to friend and foe, calm, broad-minded, fearless, he is our political Bayard, "without fear and without reproach." YOUNG CANADIAN.

SOME LAURIERISMS

"I would willingly give up my position as Premier of Canada to any more become the student of old McGill I was forty years ago."

"Truly the country which would place its hope of political and moral reform on such an unstable support as Mr. Foster would find its confidence grievously misplaced."

"Talk of reformers! It is neither Mr. Bergeron, nor Mr. Monk, nor Mr. Foster, nor Mr. Borden who will act as reformers, but the Liberal Government, if reform is needed."

"I am a Liberal of the English school. My political ideas and ideals have been entirely from such men as Burke, Fox, Gladstone, Bright and David O'Connell."

"The mentality of the Opposition is so weak that they have been driven to seek inspiration in the gutter."

"All I ask is time to enable me to complete the work upon the fulfillment of which I have set my heart. Give me that time, and I ask no more of you, electors of Canada."

THE REBUKE OF A FRIEND

The Montreal Star has been in the past a tower of strength to the Conservative party, and its owner, Mr. Hugh Graham, has spent money like water to secure the triumph of the Conservative party. This is what the Star has to say of the Conservative leaders in the present campaign. It is part of an editorial published on Friday last:— "Before Mr. Borden led his party up on a platform of 'scandal' it would have been well if he had seen to it that they themselves could stand the rays of the searchlight; and if he found that some of them could not, he should have relegated them to the ranks and file of the rank-and-file of the party, or to him to 'clean house,' yet if he have the courage and the political wisdom. No man with a damaging record has a right to ask his party that it carry him shoulder high in the face of the country. If he thought half as much of his party as he usually professes to profess, he would have seen to it that he was a weakling. As a representative in the ranks, he might be a strength.

"LET THESE MEN WHOSE GREED HAS LED THEM TO DESTROY THEIR REPUTATION AS AVAILABLE PUBLIC MEN ARE USUALLY IN NO MIND TO MAKE SACRIFICES FOR THEIR PARTY—OR FOR ANYTHING ELSE. THEY TALK A LOT ABOUT 'PARTY LOYALTY' WHEN IT MEANS STICKING TO THEM THROUGH ALL THE TROUBLE WHERE THEY TRUDGE WITH THE PARTY COLORS; BUT THEY HAVE PREVIOUSLY LITTLE PARTY-LOYALTY IN THEIR OWN BOSOMS WHEN IT COMES TO ERASING THEMSELVES FOR THE PLAIN BENEFIT OF THAT PARTY.

"Now, we do not insist upon party loyalty as a virtue; it is far more often a public vice. But the deluded and faction-bound folk who are patiently enduring these burdens in the name of party loyalty may well consider how ridiculous they appear in view of the patent fact that the 'burdens' have not a shred of party loyalty themselves. They have, in some cases, traded on the party name to gain a private profit; and, in other cases, they have sought to fill their pockets with no regard whatever for the effect of their methods upon the fortunes of the party which has made them what they are.

"Mr. Borden would be doing no more than his duty to the party which has entrusted him with its leadership if he dropped the lot of them, bag and baggage, outside of the breastworks. They are tacit traitors, and they should be court-martialed. This is the purely party view of it; but the Conservative party being one of the great institutions of the State, it is really a national question as well. The State cannot afford to have either of its great parties entirely discredited, or to feel at any election that it does not possess an alternative to the party in power. When 'graters' rise in the Liberal party, be it in or out of office, the State suffers. When palterers with public trust get to the front of the Conservative party, be it in or out of office, the State is the poorer. We have government by the party system in this country; and we cannot permit either of our two great parties to be captured by selfish and unparliamentary forces. The State is thus concerned in demanding that Mr. Borden and Sir Wilfrid Laurier—keep his party in effective condition.

"Yet it is the simple truth that to-day the Conservative campaign falters, and its appeals fall upon ears that are not too open, because the public cannot forget that it is presenting the excessiveness of a public trust with Mr. Borden in the second place in the party, that it is denouncing bad deals with Mr. Fowler and Mr. Laurier as prominent candidates, that it is assailing the Militia Department and the Home Office policy, that Sir Hugh is the possible Minister of Militia, that it is calling down vengeance on the Dark Lantern Brigade with the champion obstructionist of 1891—Hon. T. M. Daly—resurrected to run in Brandon, that Hon. Mr. Haggart is still in the field, that it is finding other candidates in the bosoms of other scandals, that the big corporations have servants to the left as well as to the right of the Speaker, that it joined in the looking-conspiracy of the Indemnity Grab, and that it possesses a thriving branch of the Plum Tree Club, though the 'plums' are all grown on Government soil."

A Customer's Reasonable Wish is This Store's Pleasure

Dykeman's Attractive Coats

A lady and her husband from the United States visited this store the other day and purchased one of our best imported Coats. They had inspected the stocks in each of the other stores in the city and informed the clerk that we had the prettiest Coats that were shown in St. John. This did not give us a swell head, but we did feel as if we would like to have every lady in St. John just hear that remark made by these two admirers.

In all our higher priced Coats, from \$18.00 up, we have only imported one or two of a style, so that if you buy one of these Coats you get something exclusive. The Coats under that price are also not common, because they are not found in other stores and the styles are particularly striking and the values in harmony with the reputation of this store.

We are showing a line of

Black and Colored Beaver Coats
from 48 to 50 inches long at

A PLATE YOU CAN EAT WITH, HELD IN POSITION BY OUR NEWLY IMPROVED QUADRUPLE ATTACHMENT. People don't want artificial teeth to carry around in their pockets nor keep at home in their breast drawers so they will know where to find them when the door bell rings, they want teeth for service. If you have a plate that no dentist has been able to make fit, why not try us, we have satisfied thousands and why not you? Our teeth are so natural in size, shape, color and the expression they afford to the features as to defy detection EVEN BY A DENTIST unless closely examined. Our new attachment holds them as solid almost as though they were riveted in the mouth.

SUBSCRIPTIONS ACKNOWLEDGED

The directors of the New Brunswick School for the Deaf, wish to acknowledge new subscriptions in aid of the school as follows:
Hon. Wm. Pugsley\$125.00
James E. White 100.00
Three Friends 100.00
As a much larger sum is required to meet the obligations of the school and insure its future success, the directors hope there will be a generous response from the public to their appeal for assistance.

PERSONALS

W. H. Campbell, of the Winnipeg Telegram, is now in Brandon, connected with the editorial department of the Brandon Times, during the political campaign. Mr. Campbell was for a time a member of the Times and later of the Star editorial staff in this city.

Miss Hazel St. Clair Campbell has just returned home from a lengthy visit to Fredericton.

J. I. Macdonald and bride are in the city, at the Victoria, on their honeymoon. They will make their home in Bridge-water, N. S.

Mrs. J. T. McCormick left this morning on a visit to New York and Boston.

Captain and Mrs. J. B. Holmes have returned to the city, after spending the summer at their country residence, Fairy Dell, Penfield. Mrs. Holmes' health is very much improved.

WORKINGMEN CHEER PUGSLEY AND PENDER

Cheering that could be heard many blocks away, and the blowing of horns and whistles, between twelve and one o'clock today, told the people of the south end that the employees of the Pender Co., the St. John Iron Works and other industries in that locality were enthusiastic for Pugsley and Pender and were eagerly awaiting election day, to cast their ballots for a greater St. John.

About 400 men participated in the demonstration. They were on the roofs of the different factories. The men were armed with horns and megaphones, and with the screech of factory whistles an uninterrupted volume of noise and cheer for Pender and Pugsley filled the air.

Such a demonstration as this shows the actual feeling of the working men with regard to the Liberal candidates, and it is safe to predict that the workmen of the city will support them on Monday.

POLICE COURT

Lewis Carro, a French Canadian employe of the U. R. R. Machine Junction, confronted three charges at the police court this morning. He was ejected from the Boston train at half-past seven last night by the conductor, and later from the restaurant in the depot. After persisting in re-entering the depot, I. C. E. Policeman Smith arrested him, and in the struggle that ensued, Smith was struck twice in the face. Policeman Lucas assisted Smith to escort Carro to the Central police station, and en route the latter violently but vainly attempted to free himself. After he emerged from the station, Carro's right eye was decorated in a beautiful shade of dark blue with black trimmings, and court plaster was applied to accentuate the beauty of his countenance. He admitted the charges of intoxication, assaulting Smith and resisting Lucas and was remanded.

Robert Douglas, teacher, admitted backing his truck over the pavement on Waterloo street to remove two hogheads into a store. The magistrate considered that infringement on the by-law governing such matters were too frequent and insisted several incidents where teachers had backed horizontally over the sidewalk, thus impeding pedestrians and vehicles also. A nominal fine was imposed.

Four boys concerned in the trolley episode on the Courtney Bay tracks reported that the broken lock had been replaced. Charles Howard and Arthur Northrup, two lads summoned for trespassing on the roof of the depot, failed to make any more effective measures may be taken to ensure their appearance.

FUNERALS

The funerals of Mrs. Annie McCrackin and Oburn Oran took place this afternoon at their late residences. Interment were in the Church of England burying ground and Cedar Hill respectively.

EVERY DAY CLUB

Rev. Mr. Townshend will be the speaker at the Every Day Club temperance meeting at 8.30 o'clock tomorrow evening. Members of the Tabernacle church choir will sing.

ONCE RICH SOCIETY WOMAN STARVING

Washington, Oct. 21.—Mrs. Rebecca E. Mitchell, daughter of Dr. Richard S. Nathan, second president of Hobart College, and widow of a once wealthy merchant of this city, has been rescued by friends of her former days after being found starving and destitute in a vacant lot in Brightwood, a suburb of Washington.

Pride and sensitiveness came near to causing the death of Mrs. Mitchell. Her friends tried to find a home for her, but she rebelled. "I belong to one of the first families of Washington. I have gone in the best of social circles, and I will never enter an institution or home. All I want is a chance to work," she told them. They lost sight of her. For ten days she wandered the streets of Washington, seeking work. Last Wednesday she made her way to Brightwood, three miles from the city. There exhaustion overcame her. She crawled through an alley to a vacant lot and lay down to die.

Sergeant Murphy heard her moaning as he made his rounds at midnight. He found her half-dead lying on an ash heap, roused her, and she cried, "Help, I'm starving." The policeman bore the wasted form in his arms to the station house. There she was given warm food and comfortable bed, and the next morning her friends took her in charge. Mrs. Mitchell's husband was once a well-known merchant in Washington. One day his firm failed, and he, the head of the house, died a few months later. Mrs. Mitchell had a fortune to her own name, but she used her money to pay her husband's debts. She had had a position as scrub woman in the Patent Office, but ago was crossing on and she had to make way for younger and stronger women.
