BRITISH STRIKERS BACKED ON CONTINENT

WORKERS IN SEVERAL LANDS DECIDE IN FAVOR OF SUPPORT OF WALKOUT

Transportation, Paralyzed in Early Hours Today, Starts Slight Movement Towards Evening; Otherwise Industry Tied Up

CLASHES OCCUR AT INDIA DOCKS Picketers Turn Back Vehicles and Some Overturned; Food and Milk Trains Only Railway Vehicles Moving; Trades Council Visits House of Commons

LONDON, May 4 (2.30 p. m.)—Labor's first attempt to tie up all the industrial life of Great Britain has been mainly successful since the inception of the general strike at midnight. Up to this hour no disorders of moment had been reported. The government's emergency services for supplying the necessities of the population are working and volunteers are running a few trains, trams and buses, but beyond this scarcely a wheel is turning throughout the country.

FIRST VIOLENCE The first approach to violence in the general strike came this morning at the East and West India cargo docks, which are in the heart of the Communist district of London. Large bodies of men compelled innumerable vehicles to turn back, and some of the lighter vehicles were overturned. The attitude adopted toward those proceeding to work, even women and girls, was far from friendly. All work ceased on the docks.

TRADES CONGRESS MEETS The general council of the Trades Union Congress met during the morning in Euston Square and left shortly after one o'clock for the House of Commons. Former Premier Ramsay MacDonald, J. S. Thomas, secretary of the National Union of Railwaymen, Arthur Henderson, home secretary in the MacDonald Labor government; Herbert Smith, vice-president of the Miners' Federation, and A. J. Cook, his chief, participated in the conference. They declared no statement would be forthcoming before late this afternoon.

STRONG SUPPORT IN EUROPE The British general strike has had strong reverberations on the continent, where organized labor as a whole has shown indications to support the British strikers.

AMSTERDAM—The International Federation of Trade Unions, embracing the unions of 28 countries, has announced it will strongly support the British trade union congress.

BERLIN RAISING FUNDS BERLIN—The general federation of trade unions has summoned their executive board to meet tomorrow to decide what course they will follow. The International workers' relief, said to be the main object of the meeting, is collecting funds to aid British miners.

ROTTERDAM—The transport workers have distributed a manifesto to the dock workers asking them not to assist in loading coal for Great Britain.

ESSEN—The German miners' federation has issued a manifesto saying it will prevent transport of coal from Germany to Great Britain.

PARIS—A joint meeting of the leaders of the French mine workers, the railroad men and the dock workers has been called on to decide measures to defeat any attempt to ship coal to England.

BRUSSELS—The Belgian miners will meet Thursday to decide upon action.

BELFAST—There is no crisis in Northern Ireland, the only Ulster colliery being still in operation.

DUBLIN—Everything is normal in Southern Ireland except that shipping has been affected.

ROME—The newspapers are inclined to be ironical, in that Italy, under "Fascism," is making progress in smoothing the relations between capital and labor, while "free" England faces the worst tie-up in its history.

In Hull the strike was complete, affecting all the trains and docks. The authorities cancelled a rehearsal scheduled for this morning in connection with the projected visit there of the Prince of Wales.

In South Wales the stoppage of work was general, with none of the vital services functioning.

News of the general strike was received with enthusiasm in Aberystwyth, in the heart of the Welsh mining district, where hundreds of miners marched through the streets singing the "Red Flag."

In Glasgow and the Clyde-side, the workers came out en masse as soon as the strike was announced. No newspapers are being issued there, but the shipyards are continuing work.

The government's first news bulletin, issued on the wireless this morning was a notification from the railway information bureau that the transport service for the supply of milk was working according to schedule.

All the long distance milk and fish trains on the northern section of the Northeastern Railway, and also the Western Railway arrived on time. Fourteen trains have been arranged for in the southern area today.

Reports from the provinces were meagre, owing to the restricted news services, but conditions similar to those in London obtained there.

Edinburgh, with the aid of volunteers, maintained a skeleton service of the railroads.

Incidents of The Strike

PARIS, May 4—The Prince of Wales, who has been at Biarritz recovering from his recent operation, arrived in Paris this morning and went to Le Bourget flying field, where a special aeroplane was waiting to take him to London.

LONDON, May 4—Shapurji Saklatvala, the only Communist member of Parliament, was arrested today on a charge of making a seditious speech in Hyde Park on Sunday. He will be arraigned in the Bow Street Police Court.

LONDON, May 4—Scores of thousands of idlers lined the streets today watching traffic jams or gathered in groups to discuss the strike situation. Any sort of activity provided a show for them. One sight of special interest was soldiers parading at Wellington Barracks near Buckingham Palace. Long lines of people stood with their noses between the iron railings of the fence watching the manoeuvres. Strike pickets began to operate in various sections of London during the morning.

LONDON, May 4—As Big Ben boomed out 12 had the streets clinging to the railing of the House of Parliament yelled hoarse-ly: "Comrades, the hour has struck."

Then the great mass of people began to swerve and eddy into a procession which started toward the West End.

Nearing the treasury, the police seized a red flag and there was a brief unsuccessful struggle to recapture it. Then the marchers passed through Trafalgar Square to Regent street and Piccadilly to the Hyde Park corner.

Suddenly, in Eaton Square, the police escort turned and scattered the demonstrators. Some of the men fell in their tracks, others were chased by the Bobbies, and then the demonstration broke up.

BRUSSELS, May 4—(United Press)—The Belgian government today again authorized the exportation of German coal, due to the British coal mine strike.

BELFAST, May 4—Life in Ireland is proceeding normally despite the general strike called in London.

LONDON, May 4—Strike breakers are being hired by the Southern and Great Western Railways in order to maintain their service. The Southern Railway, which operates an extensive suburban service, expects to open a half hour service on some of its lines this evening.

Other railways announced that they are making every effort to increase their emergency service which is being operated by the few employees who refused to obey the general strike order.

LONDON, May 4—Tourists in England fled before the general strike today. Every available aeroplane was filled with passengers for Paris, and a number left in flotillas for the Channel ports, carrying tourists who were unable to leave England because of the inability of the railroads to provide trains.

Ex-Food Chief Says Cabinet Must Be Firm

TORONTO, Ont., May 4—The government must not yield. If it does the country will be driven to bankruptcy. This was the opinion of the present strike situation in England expressed here by Right Hon. George H. Roberts, food controller of Great Britain during the big transportation strike in 1919, who is in Toronto on private business. "What the miners are demanding," he said, "is the right permanently to have wages maintained out of the public exchequer. That means that every section of the working class is being taxed for the benefit of another section. Follow that up to its logical conclusion and the country will be driven to bankruptcy."

issued on the wireless this morning was a notification from the railway information bureau that the transport service for the supply of milk was working according to schedule.

All the long distance milk and fish trains on the northern section of the Northeastern Railway, and also the Western Railway arrived on time. Fourteen trains have been arranged for in the southern area today.

Edinburgh, with the aid of volunteers, maintained a skeleton service of the railroads.

British Strike Not To Affect Montreal Vessel Sailings

MONTREAL, May 4—Passenger inquiry here at the principal steamship headquarters here, in the unloading of cargo on the other side, but to what extent this will interfere with Canadian business could not be estimated today when the strike was only a few hours old.

NICARAGUA IN STATE OF WAR; REBELS ACTIVE

Congress Takes Action To Quell Liberal Insurgents

2 TOWNS SEIZED Washington Sends Destroyer To Protect United States Interests

MANAGUA, Nicaragua, May 4—The Nicaraguan congress today declared the country in a state of war. The President was authorized to levy assessments against the citizens for \$500,000 to cover the war expense.

The action of congress was taken to quell an uprising of Liberal revolutionaries who last Sunday seized the town of Bluefields and seized the National Bank there. They are also reported to have occupied the small town of Rama. Government troops are reported on the way to the scene.

U. S. CRUISER SENT The Washington Government has ordered a cruiser to Bluefields, Nicaragua, to safeguard United States interests in Nicaragua.

FATHER, 6 KIDDIES BURNED TO DEATH

Mother and Two Other Children Escape in Illinois Blaze

BELLEVILLE, Ill., May 4—John Haas, 46, and six of his children were burned to death in a fire which destroyed their home here early today. Mrs. Haas, another son, and a three months' old baby were burned to death in escaping from the building.

STRIKE THREATENS BIG TOURIST MOVE

Seamen and Stewards to Walk Out on Arrival of Ships in Britain

NEW YORK, May 4—Disruption of what promises to be a record trans-Atlantic tourist service may result if the general strike in England extends during the month of May, shipping line officials and representatives of British seamen said here today. Estimates of the number of tourists going to Europe this summer, based on the general strike in England, are as high as a half million persons. At a late hour today there had been no cancellation of bookings on the Canadian Aquitania, due to sail for England tonight.

The seamen and stewards, all of whom are members of the British Transport Workers' union, said that they would sail the Aquitania for home but that on reaching England, they would be compelled to walk out if the strike were on.

PAINFULLY BURNED

Woman Places Hair Curler in Mouth—Adheres to Tongue and Upper Gum

PORT COLBORNE, Ont., May 4—Thoughtlessly placing the tongue of a hair curling iron in her mouth to see if the iron was hot, Miss Stella Rigby, of Toronto, who is visiting relatives here, was painfully burned today. The iron adhered to her tongue and upper gum and a physician had to cut away part of her tongue to release the iron.

British War Vessels Seek Spanish Flier

HONG KONG, May 4—The British mine sweeper Marston and the submarine L-3 are cruising along the coast today searching for Capt. Loriga, one of the Spanish aviators flying from Madrid to Manila, who has been missing since he started from Hanoi to Macao.

A passenger arriving at Macao on a cargo vessel from Kwangchowwan reports seeing an aeroplane drop into the sea last Saturday 100 miles east of Kwangchowwan.

Auto Wrecks Train; Driver To Pay \$5,000

Usually it is the motorist who runs the railroad after an accident. But the motorist who drove on the Southern Pacific tracks near Lake Charles, La., and caused the wreck shown above, failed to stop before crossing the track, as the law provides. So the court held him at fault and gave the railroad a \$5,000 judgment against him.

London Traffic In Hopeless Jam As Motors Make Effort To Replace Trains and Trams

LONDON, May 4—Twelve hours after the great British general strike had gone into effect, traffic in London streets was in a hopeless jam. The narrow thoroughfares of the capital were incapable of accommodating the unexpectedly heavy motor traffic caused by the cessation of service on the tram-lines, railways, underground and regular bus lines, and many streets in the business centers were solidly packed.

Water Rising in Saint John River

Special to The Times-Star. FREDERICTON, May 4—The Saint John River here rose about six inches since last night and is still rising slowly. The cool weather is preventing very rapid melting of the snow and no heavy rain has fallen lately to cause a rapid rise. Rains are expected however. Reports from stream-driving operations are encouraging, the pitch of water remaining good, except where it is somewhat too high.

Canadian Bisley Team Is Selected

OTTAWA, May 4—The composition of the Bisley team for 1926 is announced by the Dominion of Canada Rifle Association as follows: Commandant, Major C. R. Crowe, Guichy adjutant, Major R. O. Wheatley, M. Deadlock Remains

VANCOUVER, B. C., May 4—The deadlock reached between the Vancouver Trades Unions and the General Contractors' Association over the five-day week issue remains unbroken, and the last round received from both sides in the dispute was to the effect that the fight would be to a finish.

Court Decides There's Limit To Brotherly Abuse

Recites Long List of Epithets Hurled At Relation and Quashes Verdict NEW YORK, May 4—The Appellate division has decided there are limits to which a man may go in abusing his brother without incurring danger of being discharged from his position with the company of which the abused brother is in control. It set aside a verdict for \$24,000 obtained by Marlon Spelden against the chemical firm of Innes, Spelden & Co., Inc., of which Clement C. Spelden was president, for alleged breach of contract.

Gregory Star of Visiting Cricketers

LEICESTER, Eng., May 4—Lively batting by the famous all-round Australian cricketer, J. M. Gregory, featured the first day's play in the match between the touring Antipodeans and Leicestershire, which was commenced yesterday in fine weather. When stumps were drawn, the visiting team had secured 305 runs for nine wickets, Gregory contributing 102 and being unbeaten at the close of play.

CASE FOR LOVING  
BIG SEIZURE OF  
LIQUOR BEGINS

Action Against Chas. T. Gallagher After Wet Goods Capture

Circuit Court resumed its sessions here this morning with Chief Justice Barry presiding, and the case of the King vs. Charles T. Gallagher was commenced. In this case the accused is charged with unlawfully and knowingly keeping and concealing liquor to the value of \$12,000 which it was declared had been unlawfully imported into Canada, the customs duties not having been paid.

This case grew out of a seizure of liquor at the Three-Mile House some time ago.

The entire morning's proceedings were occupied with the selection of a jury to try the case, and counsel were still engaged in this matter when court adjourned for lunch. J. Starr Tait is appearing for the Crown and E. J. Hemmery and W. R. Rogers for the accused. The matter is being continued this afternoon.

PLAN TO "BOTTLE"  
RETREATING ARMY

Alleged Bolshevik Leader in China Reported to Be in Trap

PEKING, May 3.—Plans to "bottle up" the retreating army of General Feng Yu-hsiang, an alleged Bolshevik leader in North China, have been perfected by General Li Chung-ling and Chang Hsueh-liang, the latter son of Mukden's war lord, General Chang Tso-lin.

The attacking armies of Chang and Li are gradually getting a pincher-like grip on the forces of Feng. When this is completed troops and armored cars will be used to force Feng's men out of their positions in the mountain fastnesses.

A report reaching Peking says that Feng's army had been trapped in the mountains and that a decisive battle is expected to take place in the near future. The fact that Feng has thus far held complete control of the approaches to all mountain districts. Every precaution has been taken by Chang and Li to prevent ammunition or food reaching the retreating army.

DR. IVES DIED SOON AFTER OPERATION

Montreal Paper's Tribute to Brother of Mrs. J. V. Anglin

In reporting the death of Dr. Arthur Scott Ives, brother of Mrs. J. V. Anglin of Saint John, the Montreal Gazette says he was a well known surgeon dentist of that city, and died in the Montreal General Hospital on Saturday evening. He was 43 years of age. Dr. Ives had not been in good health for the last year. He underwent an operation at noon Saturday and died at 7 o'clock.

Mrs. Ives, who was Miss Mabel Harris of Georgia, survives. There were no children. Mrs. J. V. Anglin of St. John, N. B., is a sister, and Judge Ives of Calgary, is a cousin. Dr. Ives was born in Castlereagh, Que., in 1871, son of Dr. Eli Ives and Melissa Hitchcock. He studied first at Castlereagh Academy, later at Pennsylvania University, where he was graduated as surgeon dentist.

Returning to his native province, Dr. Ives practised dentistry in Quebec and Montreal. In 1911, he married Mabel Harris of Georgia. He was the nephew of the Hon. W. B. Ives, a former Minister of the Interior.

An all round sportsman, Dr. Ives was a member of the Hunt Club, the Seaside Club, Thistle Curling Club, the Lakeview Fish and Game Club, and was a member of the Old French Hunt Club when the latter was in existence. He was a great lover of horses and fond of fishing.

Dr. Ives was a Conservative in politics, and an Anglican in religion.

Sons of Temperance To Convene June 3

MONCTON, May 4.—Moncton Division of the Sons of Temperance held their regular meeting last evening. Members of the order from Harville, Sunbyside and Golden Rule and Hope Hill were in attendance. A communication from the District Division gave notice of the quarterly session to be held on May 21 at Notre Dame, and another from the Grand Scribe gave notice that the annual session of the Grand Division will convene at Millstream, Kings county, on the 3rd day of June.

A very pleasing service was the presentation of a valuable pin, with engraved emblem of the order, duly executed. It was a token of kind regard for the recipient by the membership. Mr. Reid expressed gratitude in a few well chosen words.

MUCH HEAVY ICE IS RIBBING LOWER RIVER

Majestic at Gagetown, Sends Report—Water Rises at Indiantown

The steamer Majestic reached Gagetown about 2 o'clock this afternoon after encountering considerable heavy ice floating down stream. The captain reported that the lower end of the river from the foot of the reach to Hamstead was filled with heavy running ice and that the water was rising rapidly. The captain expected that all the heavy ice would have passed Gagetown by this evening, as conditions were improving already. The steamer spent last night at Palmer's wharf.

Reports from Fredericton were that practically all the ice has passed there and the freshet was rising fast. The water at Indiantown was reported to be rising at the rate of an inch an hour. The water had not yet covered the caps of the wharves.

STAYS AT GAGETOWN  
The captain of the Majestic said that he would stay at Gagetown all night as it was not safe to attempt the return trip owing to running ice. He said he could not leave tomorrow afternoon about 2 o'clock. The steamer will leave here on Thursday morning for Fredericton on her regular run.

The Hampton, which left here for Wickham on yesterday afternoon, was held up last night at Williams' wharf. No further word of the vessel had reached here early this afternoon.

BRITISH STRIKE GETS SUPPORT

MANCHESTER DEAD  
There was a remarkable response to the strike call in Manchester. All the tram cars stopped, no trains are running and except for the volunteer service the whole transport organization of the city is paralyzed.

The principal Manchester strikers were picketed shortly after midnight. The picketing was done by the Manchester Guardian and the people of the news in a small type-written leaflet.

RAILWAYS PARALYZED  
Apart from emergency trains, scarcely a wheel is turning on the great network of railways. The tramways, buses and other normal forms of transport have ceased to operate.

The largest government ammunition factory in Great Britain, Woolwich Arsenal, became involved in the strike when the workers failed to report for duty. Pickets were thrown about the Arsenal and a precautionary force of government troops inside it.

MANY AFFECTED  
Just how many workers are affected by the strike has not been definitely ascertained, but the estimates run from 2,000,000 upward to around 4,000,000. The latest available statistics show that last September the membership of the Trades Union Congress aggregated 4,342,982. The strike was called in sympathy with the coal miners, who were locked out at midnight last Friday. The miners number 1,120,000.

TO PRESERVE PEACE  
It is the announced purpose both of the government officials and the Labor leaders to do nothing of a provocative nature which would bring about untoward acts. In the coal mines, which have been deserted by the colliers, sufficient men will remain at the pumps to keep them from flooding. Skeleton service will be run on the railways. The big steamship companies have promised to maintain their sailings if this possibly can be done. On their side the Laborites have asserted that they will aid in transporting food supplies to the people that their fight is not against the people, but against the attitude of the government in siding with the mine owners against the miners in the wage dispute.

The trades immediately involved by the calling out of the men are the railway men, railway clerks, builders, transport workers, seamen, printers, tram workers and electricians.

Ferry Gains All Along The Line In April

The ferry returns for April show an increase in the number of passengers carried, the number of teams and a net increase of revenue, as compared with April of 1925. The figures for April, 1926, are: Passengers, 171,201; revenue, \$2,982.78; teams, 10,127; revenue, \$1,087.91; for April, 1925: Passengers, 177,001; revenue, \$3,006.61; teams, 10,206; revenue, \$1,088.44; increase in passengers, 5,800; increase in teams, 680; increase in revenue from passengers, \$74.35, from teams, \$30.50, net increase in revenue, \$104.88.

C. G. M. M. SHOWS IMPROVEMENT IN 1925 OPERATION

Working Loss Reduced By Nearly Half Million Dollars

WATCH EXPENSES

Betterment Set At 49.15 Per Cent. In Administration Over 1923

OTTAWA, Ont., May 4.—Considerable improvement in the operating position of the Canadian Government Merchant Marine, Limited, is shown by the annual report of the company for 1925 tabled in the House of Commons yesterday by Hon. Charles A. Dunning, Minister of Railways and Canals.

This improvement, which reduces the operating loss by \$490,859 or 49.15 per cent. as compared with 1924, has been accomplished, the report says, "despite serious depression in the shipping business during 1925." As compared with 1923 the betterment of the operating result is even more pronounced the improvement in 1925 being \$916,239 or 49.15 per cent.

Contributions to this result have been according to the report, "The careful watching of expenditures afloat and ashore and the effecting of economies wherever possible." "The report continues: "The ships have been maintained in the best state of efficiency and repair, in order to maintain the highest classification for the vessels."

CAREER DIAGNOSIS BY MACHINE BERLIN, May 4.—Dr. Zacharias Biesky, a Ukrainian scientist, living in Berlin, has invented a new psycho-electric apparatus known as the "Diagnoscope."

Extraordinary claims are made for this instrument. It is said to be able to register mental capacity and aptitude so accurately that parents need no longer be in doubt with regard to the career for which their children are best fitted.

"ROSE MARIE" RUNS YEAR IN LONDON

Play Establishes Record For 263 Years at Drury Lane Theatre

LONDON, May 4.—"Rose Marie," the first production which has ever run for a year at Drury Lane Theatre, recently celebrated its birthday.

The theatre was opened in 1663, so "Rose Marie" has established a record for 263 years.

Over a million people have seen the play in London and the provinces, and a wealthy Indian merchant, who has now returned to the East, bought a box for every Wednesday matinee of his six months' stay in London.

So far the members of the company have worn 1,400 costumes, 1,600 pairs of shoes and 2,000 pairs of stockings.

SURPRISE PICTURE IN ROYAL ACADEMY

At King's Request, Place Reserved For Portrait of Himself By Richard Jack

LONDON, May 4.—The King has provided the surprise for this year's Royal Academy.

It is a portrait of himself, painted by Richard Jack, R. A. Ordinarily it would not have been in time for inclusion in the exhibition, but the King obtained from the Secretary special permission for Mr. Jack to continue his task after the date fixed by the rules for the cessation of work, and a place has accordingly been reserved for it.

Behind this announcement is an interesting story. Commissioned by May or of Pallam for a portrait of the King for presentation to the Council Mr. Jack was not fortunate enough to obtain a sitting, and had to begin his work without. The King, however, lent him the necessary uniform and decorations.

Such favorable reports of the picture reached the King that he asked Mr. Jack to bring it to Buckingham Palace. This he did, and the King was so delighted with it that he offered to give it.

BOATS AND CANOES ARRIVE AT HUDSON

Many Prepare to Travel By Water to Red Lake Mining Fields

HUDSON, Ont., May 4.—Hudson has undergone a great change due to the preparations being made to open the summer trail to the Red Lake mining field. Only a few huskies remain in the town, the hundreds which drew men and supplies over the winter trail to the gold discovery having been shipped out. Instead there are car-loads of canoes and boats loaded on flat cars.

The larger boats are being assembled by the transportation companies who will make a business of transporting passengers and supplies.

Lake Burn Man Is Kicked By Horse

MONCTON, May 4.—Leo LeBlanc, of Lake Burn, was badly kicked by a horse in his father's barn last Saturday. He was going into the stall when the horse let go both feet, catching him in the side with one of his hoofs. He was carried home by his brothers, who were near at the time, and a doctor was sent for. He received a nasty blow, but it is hoped that it will result in no permanent injury.

Keeping Your Schoolgirl Complexion

By FRANCINE Nosed Beauty Adviser

Using an Unproved Soap On your face may prove a costly folly

That is why foremost beauty experts of the world advise this simple daily rule in gaining the charm of natural loveliness.

THE modern way to beauty is well charted. Leading skin authorities urge it. Thousands of beautiful women employ it. To endanger your complexion with untried ways is a folly.

Before Palmolive came, you were told "use no soap on your face." Because soaps then were judged too harsh.

Then came this famous creation. A soap made of rare beauty oils in expert blend. A soap made to be used lavishly on the skin. A soap that changed the beauty methods of the world.

Thus today the accepted beauty care is simply the balmy olive and palm lather of Palmolive used in this simple way. Beautiful complexions are too priceless for experiment.

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be

dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Get real Palmolive. Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain a cake today. Then note what an amazing difference one week makes. The Palmolive Company of Canada, Limited, Toronto, 3172c.

SEEK RUMRUNNERS!

Preventive Fleet Along the Maine Coast Near Canada to be Doubled

BANGOR, Me., May 3.—Rum-running along the eastern Maine coast adjacent to Canadian waters is to be made more difficult with the doubling of the patrol fleet of six boats which have been operating out of Rockland this winter. Five of the fleet, armed 75 footers and three picket boats will be added to the fleet at once and will watch for rum vessels coming along the coast from outside of Canada. Capt. R. Dunn, formerly of the Whitehead coast guard station, will be fleet captain.

The collier Watuka, Captain Bagnell, sailed from Halifax on Sunday for Louisa after overhauling here and will enter the St. Lawrence coal trade for the summer months.

### THE BRITISH STRIKE

"We are hoping for a short strike and a decisive victory."—A. J. Cook, Secretary of the British Miners' Federation.

"Hope deferred maketh the heart sick."

"This is no calamity. The British Government will win. I consider it of the utmost significance that the Unions' finances are depleted at this time and that they will, therefore, not be able to hold out for long. An early victory for the Government seems assured."—Sir Alfred Mond, M. P.

Mr. Cook, of course, is the man who has done more than any other to cause Labor to look horns with the State—which is to say, with the people of England, Scotland and Wales.

Sir Alfred Mond, a great figure in the world of politics, is that Liberal M. P. who recently crossed the floor of the House because, in his opinion, the Liberal party leaders were going a bit mad over the matter of land reform.

Neither Cook nor Mond speaks from a standpoint of entire detachment, but if we seek to measure the value of their statements by that standard, the scales are tipped sharply in favor of Sir Alfred. In Cook's case today's situation fairly represents a gambler's desperate throw. If we give him credit for the utmost sincerity of purpose—and we may do that, if only for the purposes of argument—it would be very difficult to give him credit for vision or sanity, having regard to the future of the Labor movement.

There can be only one end to the strike, even though it should assume larger proportions than those of this morning; even though the preliminary violence at the docks, recorded in the earlier cablegrams, should become general, as is quite within the possibilities, even the probabilities.

The Government has been preparing for months to meet this issue, and its very complete knowledge of the significance and the possibilities of coming events which cast their shadows long before.

Mr. Baldwin made every reasonable make any further concessions would have meant to surrender without fighting. To surrender without fighting would not only have been unworthy of his high office and its traditions, and of the record of the race he so well typifies, but it would have meant, taking the long view, black disaster for the nation, disaster far and away more serious than any form of civil war likely to grow out of today's crisis.

The Government will win—or rather the people of Great Britain will win against any class which seeks by a general strike or by any other device to cut away the very foundations of the State. Victory for the Government will mean victory for the real people of Britain over any minority, no matter how numerous that minority.

If any minority can convince a sufficient number of its fellow-citizens that its views are sound and its ends desirable, the ballot is an all-powerful weapon sufficient to produce the revolution its most violent leaders desire.

If any minority seeks more than can be won through the political methods open to democracy, if any minority takes England by the throat, then upon its head be it.

### GRAIN SHIPMENTS.

In considering the statistics in connection with the shipment of grain through the port of Saint John during the winter port season now closing, it is necessary to remember that the exportable surplus of wheat harvested last year was substantially double that of the year before.

Therefore, while the increase in the shipments makes pleasant and significant reading, the fact still remains that we should have had a great deal more export wheat going through our elevators since the close of inland navigation last year.

This whole issue, of course, is now being thrashed out by the Railway Commission, which not only has a mandate to investigate but which has been given authority to amend the situation in which export traffic which should be building up our own ports has been employed to an alarming extent to do not contribute to the upkeep of our numerous and costly agencies of transportation, but who nevertheless profit richly because we have been foolish enough to permit them to take advantage of our railways at our expense.

During the season now closing Saint John handled 17,255,000 bushels of export wheat, in comparison with 13,098,480 bushels during the previous season, a gain of 4,156,520 bushels. Of the total the C. P. R. was responsible for more than 15,000,000, while the 2,255,000 bushels carried to Saint John 2,632,077 bushels, an increase of some 200,000 bushels over its record of the year before.

Two things stand out prominently here. One is the fact that had the Canadian National Railway carried as much grain to Saint John as did

the Canadian Pacific Railway we should have shipped more than 30,000,000 bushels of wheat, even under the present transportation conditions, which we naturally expect will be substantially improved before another crop season, and these facts make it all the more clear that the Mackenzie King Government, unless it is to be false to the all-Canadian principle of transportation, to the national interest, and to the port of Saint John, must provide at this season sufficient money to enable the whole Courtenay Bay scheme of construction to be pushed through to conclusion with all possible speed, thus providing adequate independent terminals for the C. N. R. here. While we believe that the C. N. R., even under present conditions, could have, and should have, brought much more wheat to Saint John this year, and for many years past, it is but fair to say that delay with respect to the Courtenay Bay development has been a vital factor in the problem.

The second outstanding fact is that, notwithstanding the far from disinterested assertions of the transportation reactionaries, who yell about the impossibility of carrying wheat to Saint John, we did handle during the past season, under adverse conditions, more than 17,000,000 bushels. How much will we handle in an average crop year if we have the requisite terminal facilities on the East Side as well as on the West—and those on the West Side must be materially extended—if the Railway Commission meets the traffic situation resolutely, and if the Government of the day proves in the supplementary estimates that it is not only willing but determined to give Saint John the chance it should have by reason of its geographical location and its sterling value to Canada as the natural winter port, and also as a port of refuge, under decent circumstances, to build up a constantly expanding trade as well?

It is something for a man who has had his part in the battle of life to look back on ninety-two years and say all this. It helps those who are not half so old and who have not had half so much experience to avoid the pessimistic view. To be sure, Mr. Dewey's opinion may be affected somewhat by his own temperament and his personal circumstances. He says himself, "I have been on good terms with humankind." That means that humankind have been on good terms with him. He has had a sunny voyage—a good time. All very well; but many an impetuous chap could say the same thing. In order to look back and find good it is not necessary that one should have been born with a silver spoon in one's mouth. It depends a very great deal on whether one has been on "good terms with humankind." Mr. Dewey possessed the secret—and his ninety-second birthday he calls in the reporters and reveals it to them. He expects to live to be one hundred. Let us hope he will; but whether he does or not, he is going to leave the world a little more cheerful for his hundred years.

URGES DEFENSE OF HOMES BY WOMEN  
By Mrs. Robert E. Speer, President of the National Board of the Y. W. C. A. in a Recent Speech.

THE woman of today should do everything possible to keep her home together, to employ her wisdom, her love, and spiritual influence in the battle for her family against the speed of modern living, the telephone, the movies and all the disintegrating influences that human ingenuity has devised.

The changes in family life can be due to such little things. Proper lighting and proper lighting, a comfortable place for every member of the family may make a happy home. The constant interruption of the telephone, the other hand may bring about the complete disruption of the family.

The falling off of domestic service into apartments and small living quarters has resulted in the shifting of family interests outside the home. I believe that a woman should follow her children outside the home, if necessary, keep up with their interests, guide their activities.

The movies, for instance, have established an "eye-ate"—that is, they visualize everything for the spectator and rely not at all upon the other senses for reaction. Movies of today should study the movies, not condemn them, but learn how they must be directed to the greatest benefit.

Spiritual influence is more potent, too, than it may seem at first glance. This age with our modern tendencies to new values in religion.

## POEMS I LOVE

"Sudden Light," by D. G. Rossetti.  
I HAVE known people who told me they have never had the experience set down in this beautiful poem. But I confess that I have; and perhaps for that reason the lines have a special appeal for me. It is astonishing to say so much with such an economy of words; but someone once called poetry the shorthand of prose. Of other people are apt to think that, but the phrase is apt and true. Into one line a genius may pack what would take volumes for uninspired philosophers to say.

Read Rossetti's "The Blessed Damsel," one of the greatest poems in our language, too long to be given in its entirety here.

You have been mine before—  
How long ago I may not know:  
But just when at the swallow's soar  
Our neck turned so,  
Some veil did fall—I knew it all of yore.

Has this been thus before?  
And shall not thus time's eddying flight  
Still with our lives our loves restore?  
In deathly despite us in our aspirations  
And day and night yield one delight  
Once more?

THE BEST OF ADVICE  
By CLARY KINNAIRD

THE CONFLICT OF GENERATIONS.  
He admits that there is a "peculiarly strong and individualistic character among the young people, and a complete bewilderment on the part of the older generation."

There is a constant conflict going on between the rising generation and the one preceding it. Try as we may to understand one another the fathers were not rather the result of their coming into contact with the proper stimulus at the proper time, than of any tougher, grittier strain in their spiritual fibre.

According to him the younger generation is less concerned about individual goodness than about improving general conditions. "Stop talking about liberty and justice and love," he cries, "and show us institutions that shall be free or just or lovely."

He pleads for an effort on the part of the older generation to understand the younger. "Would it not be better in every way to help us in our aspirations and endeavors, or, failing that, at least to strive to understand just what these aspirations and endeavors are?"

Indeed an effort on the part of each generation to understand and appreciate the other without criticism would at least lessen the conflict, we aver.

There are 720,085 motor cars registered in Canada, according to a return made by the Dominion Bureau of Statistics, or one car to every 13 persons in the country. With improved seats on the mudguards for the children, it ought now to be possible to carry the whole nation on wheels at one time.

BOURNE admits that the rising generation is eager for pleasure but insists that former generations were usually less so but were more rigorous repressed. That the round of social gaiety in which even high school young people are plunged may well teach them social virtues and that after a few years the avidity for pleasure naturally subsides.

As to the instability of character and lack of responsibility, is it not true that with little or no training young people are apt to drift about in the business world until they find something to interest them and that then they throw themselves into their work and achieve success? Bourne thought so. He states:

BRITISH TRADE BURDENS  
(London Times).  
The price level in this country is still too high, and it is useless to shut our eyes to the fact that if there is to be any general revival of the export trade, it can only be on the business basis of attractive terms in price and quality. From that point of view the greatest need of the present time is diminution in the cost of production. The high wages in sheltered industries entail an enormous burden on trades which produce goods for competitive sale, the Czechs, the Austrians, the French—are suspicious and Jumpy. And in this state of things, even if we are not involved directly in any of his plans, British interests are most certainly affected. Signor Mussolini occasionally protests that Italy is not imperialistic; but he constantly holds out to this unimperialistic Italy the promise of an empire. Where is it to be? In the Mediterranean? How to be Happy Though Married Includes Not Nagging or Tagging Your Husband, Cultivating Outside Interests and a Sense of Humor, Learning to be a Chum, and, Above All, Babying Your Little-Boy-Husband, Who Never Grows Up.

HERE are a few tips for brides:

Don't live in your emotions. Get down to earth as a daily abiding place. You won't get so many bumps if you do.

DON'T sit with your finger on your pulse, counting your heart throbs. Don't narrow your interests down to one person, even if he is your husband, so that if he fails you your world will be left empty and desolate.

Don't think that because you would die for your husband it gives you a right to nag and deprive him of his personal liberty.

DON'T tag your husband and insist on going out with him every time he leaves home. A man has just as much need of masculine society as a woman has of feminine.

Don't believe that any woman is as necessary to a man's happiness as he may be to hers. Men aren't built with that kind of nature.

DON'T expect your husband to keep up the high-pressure love-making of his courtship days through forty years of dead-level matrimony. Never worry about your husband's affection as long as he tells like a gray horse to make you comfortable. A breakfast is just as much a token of undying devotion as a bunch of American Beauties.

Don't try to cut a man over after you marry him by your own paper pattern. His mother attended to that long before you ever saw him, and what he is, he is. You married him on that basis. Accept it with a good grace.

DON'T put your reform theories to work on your husband. Try them out on the Zulus or the Hottentots.

Give your husband an evening out, and no questions asked, every week. The poor, hard-worked domestic drudge deserves it. And take one yourself. There are no two persons such dull company as those who know exactly the same things, who have seen the same things and haven't even a new story to tell each other.

Don't argue. Argument never yet produced any results in the family circle, except raspered tempers.

DON'T burden your husband with all of your little worries. He has troubles enough of his own. Play fair with your husband. Be as nice to his family and friends as you expect him to be to yours.

Don't tell your husband everything you think you think, for sometimes you don't think it.

DON'T set up your own standard of taste and morals and expect your husband to accept them. He has just as much right to his opinion as you have to yours.

Don't be Madame Oracle. There is nothing else on earth so afflictive as to have to live with a perfect woman who knows it all.

DON'T be one of the I-told-you-so women. When your husband makes a mistake, let him down easy and forget the incident. He will remember it with tears of gratitude.

Learn how to yield gracefully. It's a great art, and great is its reward.

DON'T throw up to your husband what richer women have. If you are crazy to ride in automobiles you should have picked out a millionaire to begin with.

Never correct your husband before company, no matter how big an error he makes. It's bad form and will inevitably make him hate you. Cultivate a sense of humor. There are many things in married life at which we must laugh or weep, and the ability to see the funny side of domestic life will keep you out of the divorce court.

DON'T be a spoil-sport and raise a million objections to every plan your husband suggests for a little pleasure. The reason that most neglected wives are neglected is because they have first proved themselves wet blankets on every festive occasion.

Try to learn to be chummy with your husband, so that when the fires of passion die out you will have the steady glow and warmth of friendship and comradeship to fall back upon and you will not be left, as so many couples are, with nothing in common.

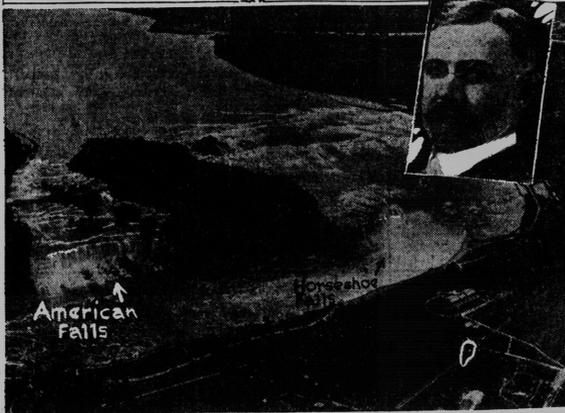

LEARN how to be a good cook and an economical and thrifty household manager. That's just as much your obligation in matrimony as it is a man's to make the money to run the house on.

Never forget that a man is as much bound to have flattery as a child is to have candy. Deny him sweets at home and he is mighty apt to go to the shop down the street.

DON'T bewail the fact that your husband is not all your girlish fancy painted him. What would a perfect man want with you?

Would Divert Waters of Niagara

AN AIRPLANE VIEW OF NIAGARA FALLS AND INSET OF HENRY L. DOHERTY.

By W. Y. FERROL. Geologists say when the glacier receded and uncovered Niagara Falls the cataract was at Lewiston, seven miles distant from its present location. Through the ages they have slowly eaten their way backward. In an outline of the plan of the Super-Power Corporation it is stated that the project at Niagara depends upon the success of negotiations for an amendment of the boundary waters treaty between the United States and Great Britain. The plan suggested for the reduction of the flow over Horseshoe Falls is the creation of many small islands in the rapids just ahead of the crest of the falls. It is said this could be accomplished at small expense by throwing cables across the building rock barriers back of the cables until surface is made. On top of the rocks a dirt surface would be formed and trees and shrubs formed. The Super-Power Corporation states that, in anticipation of treaty changes

IN NEW YORK SEE-SAWING up and down BROADWAY

I passed the Henry Miller Theatre, its doors closed. Its lobby bare and empty of people. A lone and laconic doorman kept vigil. "Yes, sir," he said, "Mr. Miller kept coming down, and he was a mighty sick man. Pluck—you said it, and then some. Pluck, indeed, and the fine old stage tradition that his play must go on, come what may. His fever mounted and the ravages of pneumonia clutched at his lungs. Then he fell in a swoon in his dressing room as he sat over his make-up box. There arose a woe such as this. One night that Miller's new play was to open the first night critics arrived, read the notice that an opening would be impossible and fled in taxis to the next most important production. "But what did the rest of the cast do?" I asked the doorman. "Oh, most of em ran right out to take in a show." Broadway is interested in life and not in death. Feverish life calls. The lights must burn until morning. It will not be long before they blaze out again before Miller's theatre, the doors will be open and the crowds will rush in. They will already have forgotten that a man risked his life for their entertainment—and lost it.

THERE is a vast amount of curiosity among actors to see what happens to their fellow actors in new productions. And because most of the better actors are employed in other productions, some amusing sights may be seen at many an opening night performance. Thus it is quite common to see an actor come rushing into a theatre, still in make-up and costume, stay for a few minutes and then rush back to his own theatre to take up his part. "Toward the end of a performance half a dozen mimics whose particular roles are finished in other shows will come dashing up to "catch" what they can of a rival play. The other night I saw Marc Connelly leave and enter a theatre no less than six times, each time with grease paint and costume untouched. I was told he had a special car outside that got him back to his own show just in time to go on the stage.

SAW Louis Caton, "the steel mill tenor," escorted by a small crowd of proud Pennsylvanians' headed for Town Hall for his New York debut. There's another Horatio Alger story for you. Caton comes from Bradford, Pa., a mill town, where he had been a steel worker. His foreman, George MacEwan, heard him sing at work and encouraged him. I am told that his grandfather, not long out of Ireland, was the first to "blow" Bessemer steel at Carnegie's famous Edgar Thomas works. Twelve members of his mother's family still work in the mills. Now he is heralded by Manhattan and may be headed for the grand opera stage. —GILBERT SWAN.

ADVENTURES of the TWINS by OLIVE ROBERTS BARTON

QUICK AND QUIET, SAYS SCOOTER LIZARD "We shall go to Scooter Lizard's house next," said Mister Tingsaling, the fairy hand, to the Twins. "Put it in here and I'll give you a receipt for it." "Where does he live?" asked Nick. "Don't you know?" said Mister Tingsaling in surprise. "He lives over in the meadow under a big gray stone." "Then he won't have to pay you any rent, will he?" said Nancy. "He just lives under a stone." "Why, of course he will," said Mister Tingsaling. "The stone is just his roof. When it's cold he wiggles down into the ground ever so far to keep warm. Besides it's a nice stone, I guess, so it is someone else would. Besides I—Oh, but here we are now, children. Right at Scooter's front door." "His front door?" cried Nick. "Why, it isn't big enough for a fly to crawl into. The big stone is lying flat on the ground." Mister Tingsaling scratched his head. "That's so," he nodded. "It does look pretty flat! And as I'm pretty round for a fairy, I don't believe I could get in. I'll just rap and have Scooter come out here."

So he went tap, tap, tap with his knuckles on the big stone and before a frog could catch a fly, there was Scooter Lizard looking at them with his tiny black beady eyes. "Hello, here, old fellow!" said Mister Tingsaling in surprise. "You don't make any more noise when you walk than a bunny that comes out of a silk hat in a trick show. You must wear rubber shoes!" Scooter smiled and blinked his black beady eyes. "I guess I'm getting pretty good," he said. "That's what Ma always tried to teach me. She said to be quick and quiet. All lizards learn that lesson first. But what can I do for you Mister Fairyman?" "Why, you see," said Mister Tingsaling, looking at Nick and Nancy, "it's the thirty-second day of the month, and it's rent day."

Nancy opened the big pocketbook and held it out. "It's for you, for your rent," she said. "Put it in here and I'll give you a receipt for it." "Why he's gone! You're just talking to the air, Nancy." "So he has. Where do you suppose he went to?" said Mister Tingsaling in a worried voice. But they did not have to guess very long, for they heard Scooter say: "And I'm getting pretty good, I think! How was that for 'quick and quiet'? You never saw me go even." "Where are you?" said Mister Tingsaling sharply. "Come here this minute, Mister Lizard, and pay me your rent. It is ten cents in fairy money." "Catch me if you can," called Scooter. "I'll bet you, you don't even know which stone I am under now." Mister Tingsaling and the Twins looked hard. There were five stones at all. "We'll find you!" shouted the fairyman. "We'll turn every stone over until we find you." But although they turned every stone over, there was no lizard to be found, and they had to leave without the rent.

How's that for 'quick and quiet'? called Scooter after them. They turned and looked and there he sat on the very stone where they had first seen him. "But they didn't go back. What was the use." "No! I don't know where he was either. He's too quick for me, too." To Be Continued.

Fashion Fancies

By Marie Belmont The vogue for polka dots is quite marked in frocks for the spring and summer seasons. The former are usually of light dots on a dark ground, while for the summer we see such light effects as the one above. Flat crepe is used for the entire costume. The white skirt exploits smart sloping seams to hold its inset plaits in place. The white blouse has large polka dots in navy blue, while a blue tie and belt carry out the color contrast.

Saint John Women's Council Deals With Matters Sent Down By National Executive

Mrs. E. A. Smith Named as a Vice-President; Mrs. Wilson as Convener on Films and Dr. Hanington Convener Mental Hygiene Committee

A SPECIAL MEETING of the executive of the Saint John Council of Women was held yesterday afternoon to deal with matters sent down by the executive of the National Council...

AGENDA FOR ANNUAL The agenda of the National Council annual meeting to be held in Vancouver in June was read and the hope...

Hanington, as convener of the standing committee on mental hygiene. Mrs. N. C. Simille was reported to have been made a life member of the International Council of Women by friends.

RESOLUTIONS. Resolutions, which are to come before the national meeting of the National Council, included those dealing with the re-introduction of oleomargarine into Canada, amendments to the criminal code, the sending of young criminals to reformatories rather than to the penitentiary, stricter tests for immigrants at the point of their departure for Canada, and the enforcement of "World Wide" as the official organ of the council as well as various matters concerning the internal affairs of the council.

THANKS LOCAL COUNCIL. Mrs. Smith thanked the Saint John Council for having nominated her as National president, but said she had declined that honor and that the National executive had chosen Mrs. J. A. Wilson, of Ottawa, as its candidate for that office.

PRESENTATIONS AT PYTHIAN MEETING Social Notes of Interest

Gold Wrist Watch to Mrs. Frank Greason is Among Number Mrs. William Murray entertained a party of young people on Saturday at the home of Mrs. Herbert Rouson, 24 City Line, West Saint John, in honor of the birthday of her little granddaughter, Frances Murray, daughter of Mr. and Mrs. Andrew Murray, of Black's Harbor. Yellow chrysanthemums were effectively used in the decoration of the drawing room, and in the dining room the table was centered with chrysanthemums and had also for decoration pink candles in silver candlesticks and dainty baskets of sweets, which marked the places of the guests. A birthday cake illuminated with six pink tapers, also occupied a prominent place on the tea table. Twenty-one little friends were present. Mrs. Murray was assisted in serving by Mrs. Robson, Mrs. William Seely, Mrs. Charles O'Dell and Mrs. Charles Clark. Many gifts were received by the honored guest. Games were enjoyed and after tea a program of songs and recitations was given by the children. Those present were the Misses Marjorie Smith, Marjorie Seely, Venus Steeves, Ida Steeves, Phyllis Cox, Marjorie Cox, Ester Robson, Bertha Shaw, Marjorie Bonnell, Phyllis Cunningham, Freda Cheyne, Sylvia Dell, Nola McAllister, Eileen Knodell, Elmer McAllister and Mildred Robson.

Former Organist Given Fine Gift Members of St. Jude's Choir Make Presentation to Miss Cochrane

Members of the choir of the congregation of St. Jude's church, made a parting presentation to Miss Lorna Cochrane on Sunday evening, as she is leaving shortly for St. Stephen to enter the Nurses' Training School of the Chipman Memorial Hospital. Miss Cochrane has been the organist of St. Jude's church for two years and is a musician of splendid attainments, who has assisted greatly in bringing the music in the church to a high standard of excellence. Rev. J. H. A. Holmes, the rector, on behalf of the choir and congregation, made the presentation of a lady's handsome traveling case and expressed hearty appreciation of Miss Cochrane's services as organist and every good wish for her success in her chosen profession. She replied suitably.

NONAGENARIAN AT SACKVILLE GREETED ON ANNIVERSARY

Mrs. Sarah Weldon Celebrates 90th Birthday on May 1

ENJOYS FACILITIES IN SPITE OF YEARS

Has Seven Children, 23 Grandchildren and Four Great Grandchildren

SACKVILLE, May 3.—Mrs. Sarah Weldon, celebrated her ninetieth birthday on Saturday, May 1, when a number of friends gathered at her home to extend congratulations. Despite her advanced years, Mrs. Weldon enjoys her full faculties, and took an active interest in the social chat, giving many interesting reminiscences of bygone days. Delicious refreshments were served and a very pleasant time was spent.

Mrs. Weldon, who is the widow of the late Ovid Weldon, is a native of Sackville, and is highly esteemed by a wide circle of friends. Her husband died about thirty years ago. She has three sons, Edgar, of Alcorn, Man.; John and Charles, Sackville, and two daughters, Mrs. H. S. Hallett and Mrs. C. V. Mesereau, Fredericton; Mrs. V. S. Broughton, Blanch Head, Nfld., and Mrs. V. E. Adams, Petit Riviere, N. S.; also 23 grandchildren and four great-grandchildren. Fred Harris, of New York, formerly of Sackville, is a brother, and Mrs. John Fawcett, Upper Sackville, and Mrs. Alfred Scott, Sackville, are sisters.

ALTER INSCRIPTION

Indian Government Ends Controversy Over Montgomery Lawrence Statue

LAHORE, India, May 4.—The controversy centering around the famous Lawrence statue, which more than once has led to a breach of the peace, apparently has been ended by the action of the government in altering the offending inscription. "Will you be governed by pen or sword?" "With pen or sword I serve you." The statue was erected in memory of Sir Henry Montgomery Lawrence, who was born in 1800 and died in 1857. Sir Henry, as a British soldier, took part in the Sikh wars in India and was prominent as a statesman in that country.

Easy to Gain With Yeast and Iron

New Combination of Yeast with Vegetable Iron Quick Way to Build Up Weight

This new combination of yeast with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance and supplies the system with the vitamins that build up weight. For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight. Vegetable "iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just as beneficial as ordinary yeast or cake yeast. Ironized Yeast tablets are composed of concentrated food elements, therefore, they are pleasant to take and free from drug-like effects. If you are under weight, do not enjoy good health, lacking in energy and force, "ironized yeast" tablets will pick you right up, and if they fail, you get your money back. Sold by druggists, at \$1.00 for a large 60-tablet package, Harold F. Ritchie & Co., Ltd., Toronto, Canada.

MONCTON RESIDENT HOME FROM CRUISE

H. F. Hamilton Tells of Seeing Friends in His Trip Abroad

Special to The Times-Star. MONCTON, May 4.—H. F. Hamilton, who accompanied Rev. Father Savage on the around-the-world cruise and stopped over in Boston to see his brother, John Hamilton, arrived in the city yesterday afternoon and was warmly welcomed home by his many friends. Mr. Hamilton described his trip as one of great pleasure and profit. He was particularly impressed with the reception the party received in South Africa. The hospitality of the people there, he said, was unbounded and they are wide awake to the possibilities of their country and the importance of taking advantage of advertising their many attractions. Mr. Hamilton spoke of Rees, Brasill, as one of the most interesting cities the party visited. At Naples, he said, they saw Miss Anna Malatesta, who is pursuing her vocal studies in the Italian city.

RELIGIOUS STRIFE IS INDIA'S BUGBEAR

Hindu Exporter, in Montreal, Declares no Trouble With British Rule

MONTREAL, May 4.—"Disaffection with British rule is not the primary cause of rioting in India; the trouble lies in religious differences between Mohammedans and Hindus," declared R. Rai Mahajan, prominent Hindu exporter, in an interview here. Mr. Mahajan is just winding up a world tour in search of new markets for the exports of his country. He believed the Canadian form of government would work satisfactorily in India. If the Prince of Wales were sent to India as Viceroy, Mr. Mahajan thought it would be one of the best moves the imperial government could make.

MONCTON, N. B., May 4.—After being in business in this city for thirty years, Charters Limited, better known as the East India Tea Store, closed their doors to the buying public last Saturday. H. C. Charters, who organized the firm will spend the summer here and leave in the fall for California, where he will reside in the future. His son, Percy, who has been associated with his father in the business for many years, is also going to make his home in the Golden State, and will leave here with his family whenever the business is wound up. The building has been already leased to the Paris Cafe Ltd., for a period of six years, and as soon as the necessary alterations have been made they expect to occupy the place about June 1.

DIES IN PRISON

J. W. Thompson, Sentenced For Defrauding Govt. Veterans' Bureau, Passes

ST. LOUIS, Mo., May 4.—John W. Thompson, wealthy contractor and a Canadian by birth, convicted with Col. Charles R. Forbes, of conspiracy to defraud the government through the Veterans' Bureau, died in prison here yesterday of heart trouble. Colonel Forbes is in the penitentiary. Thompson was interested in contracting work during the war and included in his operations at that time was a \$3,000,000 contract for the construction of a camp near Fort Worth, Texas, for Canadian aviators. The deceased came to St. Louis from Canada in the early nineties, after he had begun his career in Wisconsin as a telegraph operator. The steamer Torsham, consigned to Furness Withy Co., arrived in port late yesterday afternoon from the West Indies with a cargo of sugar and anchored in the stream. Previous to arriving in the West Indies the ship had been to Vancouver, Balboa, Panama Canal and Vera Cruz.

BARN DESTROYED BY FIRE AT DEVON

FREDERICTON, May 3.—A barn at Devon, the property of Sergeant William H. Hughes, of the Fredericton fire force and situated on the Hughes homestead was destroyed by fire tonight. The blaze was a spectacular one. The Devon firemen succeeded in confining the flames to the barn which was completely demolished. A pair of horses which were kept there, the property of Frank Hughes, were saved. The origin of the outbreak is unknown. The loss is covered by insurance.

Graduates Do As Well Here As Abroad

KENTVILLE, N. S., May 3.—"Opportunities for advancement outside of Canada have been greatly exaggerated. Half the graduates of Acadia University are in the United States, and the other half at home, and I want to say that those who have remained at home have done as well financially, on an average, as those who went abroad." In these words Dr. F. W. Patterson, president of Acadia University, Wolfville, N. S., opened his address given before the Rotary Club here today in connection with "Boys' Week."

RESIDENCE RAZED IN MONCTON FIRE

MONCTON, May 3.—The house occupied by Harry Attis on Westmorland street was badly gutted by fire which broke out about 8.30 this evening. The blaze started in the basement and spread to all parts of the building. One of the firemen was severely cut by flying glass during the progress of the fire. Attis had no insurance and the loss will amount to between \$1,500 and \$2,000.

The doctor said I was weak and would never be able to have a child, but I did, and from the time my baby came I suffered all the time and doctor and doctor to no purpose. Life became a burden, and doctors said an operation would help me, but my husband was opposed to that. I had seen Lydia E. Pinkham's medicine advertised, so I told my husband that I thought I would try it, that I might get some relief, if not a cure. I had not taken one bottle when I could feel it helping me. I took five bottles and had better health. Now I have three girls and a boy and have done my work up to confinement. I am now at the Change of Life and owe my good health to Lydia E. Pinkham's Vegetable Compound. I take a bottle when I think I need it." —Mrs. SUSAN DAYMAN, R. R. No. 6, Colborne, Ontario. Sold by druggists everywhere. C

DEALERS WAIT COAL RECALL BY BRITAIN

Return of Bituminous on Way to Canada Seen More Likely

MONTREAL, May 3.—Belief that any recall of coal on its way from Britain to Canada, as a result of the impending general strike, would apply only to bituminous coal and not to anthracite was expressed today by J. K. Gissett, representative of a large coal-importing firm in Montreal. Asked whether his company had been notified of the recall by wireless of any coal consigned to his firm Mr. Gissett said: "We have had no word of it at all. There are about 85,000 tons of Scotch anthracite on the way here for us now and we expect to get the consignment. We have received no word from the other side relating to the controversy and in any case I think it unlikely that any such restrictions would be placed on the export of anthracite already on its way to another country." On the question of what would be the object in differentiating between the two varieties of coal Mr. Gissett added that the British people could probably use bituminous coal in many cases where they would find no use for anthracite. Other dealers, seen here today, declared that they had no information on the subject and none of them anticipated failing to receive shipments now on the way to Canada.

### McKenna Calls For More Grain Exports Via Maritime Ports

Points Out in Montreal Speech That Canadian Goods, Instead of Going South, Should Be Routed East and West

MONTREAL, May 3.—An eloquent appeal for a sympathetic understanding of the rights of the Maritime Provinces was voiced by J. D. McKenna, of Saint John, N. B., at the annual meeting of the Montreal district, Canadian Manufacturers' Association, here today.

Mr. McKenna prefaced his address by the statement that "a million people from the Maritimes were now to be found in the New England states, an unfortunate situation which was also reflected in other parts of Canada at the present time."

Referring to the Canadian National Railways, Mr. McKenna declared that this road had not shipped as much through Maritime ports as was desired. He said three to five million bushels of wheat were shipped weekly through United States ports, such as Baltimore, Portland, and Newport News. Canadian goods, instead of going south should go east and west, he stated.

The speaker reminded his hearers that the people of the Maritime Provinces had been opposed to Confederation. But it had been urged on them that not only would it prove economically sound, but that it was desirable from an imperial point of view. Certain specific promises had been made by Sir John A. Macdonald and by Sir George Etienne Cartier.

### GIVE GOOD PROGRAM

King Edward Lodge, 'Prentice Boys, Entertain in West End

A very successful concert was held in Prentice Boys' Hall, West Saint John, last evening under the auspices of King Edward Lodge, No. 30, assisted by Carleton Cornet Band. There was a large audience and a satisfactory sum was realized for the fund for the heating plant of the hall. Gordon Smith was the chairman.

### CHARGE DISMISSED IN SADOVSKY CASE

Evidence Brings Out Incidents of Visit in Search of Liquor

A charge against Vincent Sadovsky of Main street, of obstructing a liquor inspector in the discharge of his duty was dismissed by the police magistrate yesterday afternoon. Considerable amusement was caused by a description given by Prohibition Inspector W. J. B. McGrath of a visit to the Sadovsky home in Main street in disguise and the events transpiring after he effected an entrance.

### ANNOUNCES PRESENCE

Witness said that he was an officer and the defendant grabbed him by the arm. Witness repeated that he was an officer and advised Sadovsky to let go. Witness caught Sadovsky by the chest and pushed him back. He entered the house and pulled away from the defendant.

### BLOWS WHISTLE

When he met with resistance he blew his whistle and the other inspectors came in. They searched the premises but found no liquor. Asked how he expected the defendant to know that he was an inspector, the witness replied that Sadovsky had seen him in court.

### MR. TAIT HEARD

J. Starr Tait, for the prosecution, said that a conviction had been registered in the same court against Sadovsky, and that the inspectors were therefore within their rights.

### Moncton Death Rate Remains Stationary

MONCTON, May 4.—The death rate of the city of Moncton in April, 1926, was the same as for the corresponding month last year. Of the 22 deaths recorded, six were from pneumonia. Marriages totalled 11 and births 13.

### FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

### BETTER THAN SODA

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

## COMMUNICATION

### The TWIN CITIES "connect" with the world

YEAR by year more towns and cities are being linked together in the friendly net of communication spread over Canada by the telephone. The first of May, Fort William and Port Arthur were put on speaking terms with Winnipeg. Long Distance Telephone connection was established between the Twin Cities at the head of the Lakes and Winnipeg—and thus with the great systems that include the leading cities on the Continent. Heretofore the Twin Cities had a range of long distance communication limited to towns and villages within a few miles radius. This important event serves to mark the progress in Canada of the great invention, the telephone. From the very start Canadians were quick to see the advantage in business and social affairs of rapid communication, with the result that Canada makes more use of the telephone than all other nations, save one. Over one million telephones are in use in Canada; and over one million Northern Electric telephone instruments, and the equipment required to operate them, have been made in Canada by Canadian workmen. Thus the progress of the telephone contributes not only to the greater convenience and efficiency of Canada's people, but also to her industrial growth.

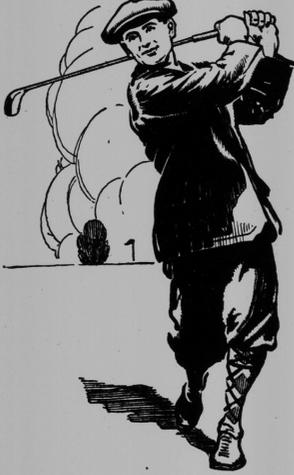

Information The simple telephone on your desk is made of 201 parts—all accurately made and inspected—many of them tested to the thickness of a hair.

BASEBALL PROSPECTS THROUGHOUT PROVINCE THIS YEAR BRIGHT

UNLIKELY THAT N.B. BASEBALL ASSOCIATION WILL BE FORMED TO HANDLE SPORT THIS YEAR

Moncton and Other Points Report Outlook Good For Amateur Baseball This Year—Railway City To Have Strong League

The suggestion has again been made that a New Brunswick amateur baseball association be formed, patterned after the one that functions in Nova Scotia, but the prospects that it will be organized this year are extremely dim.

There are many close followers of the game who believe, however, that such an organization would help baseball and tend to prevent such situations as at present exist in baseball in this city. The time was ripe for the formation of such an organization last fall, coming on the heels of the Water Department's win of the Maritime baseball championship but the opportunity was not seized then and in view of that it is gaining ground of a break-up of the M. P. B. with the three provinces controlling their own sport spheres, it is likely nothing will be done until next spring regarding this matter.

In the meantime, association or no association, prospects for baseball in New Brunswick are as good, if not better than last year. One of the surprises in the Water Department's juggernautlike march to the Maritime pennant was the resistance offered by the Moncton team with Young Harris Wall on the pitching mound. It was Charlie Gorman's bat that hustled up the game here in the last inning but by a narrow margin and there was some too much to spare. Moncton in the return game, reports from Moncton have it that the Y. M. C. A. and the C. N. E. will enter with the possibility of a team from Eston's.

The Y. M. C. A. have a good lineup. The MacFarlane brothers, Wick James, Bob Stewart, Bob Algie, Percy Duffy, Tom VanBorck, Walter MacWilliam, and McTee, have already affixed their signatures to a "V" contract, it is reported.

Harris Wall, of last year's M. A. A. team, will be with the C. N. E. outfit this season as well as other on Agave and a number of other good men.

It is reported that Percy Gould, probably the best man in Moncton to occupy the initial sack, will be with the "V" team. Expectations are this year for a number of newcomers to break into senior ranks and this being the case, competition ought to be much keener.

A meeting of the league will be held in the near future for organization purposes. It is reported that the New Brunswick and New South Wales, Nelson and Newcastle probably will have their league in operation this year while Bathurst will likely be going as strong as ever. Amateur baseball in St. Stephen this year may also be revived while there is talk in Fredericton, Maryville and Devon organizing a league and getting into the play-off.

Altogether, the prospects for baseball throughout the province are quite bright.

BOUITS LAST NIGHT NEW YORK—Babe Herman, California, outpointed George Balducci, Lewiston, Maine, 10. CINCINNATI—Joe Anderson, Cornington, Ky., beat Al Webster, Billings, Mont., 10. SIOUX CITY, Iowa—Billy Petrolle, Fargo, beat Joe Lawson, Milwaukee, 10. NEW ORLEANS—Martin Burke, New Orleans, defeated Tony Young Harlow, New Orleans, 15. TRENTON, N. J.—Young Jack Dempsey, Philadelphia, outpointed Henry Shaw, 10.

City League To Open Season With Two Games on May 24

Western League Hockey Players Are Being Rapidly Purchased For The East

MONTREAL, May 4—Frank Patrick, head of the Vancouver Hockey Club, who has been here for the last few days, negotiating for the sale of players on five western hockey clubs left last night en route to Detroit, Chicago, Minneapolis and other American cities on hockey business. Patrick confirmed that sale to the Brier-Norris Friedberg syndicate, Detroit, of practically all the Victoria Cougars, augmented by other talent in the Western Hockey League, also the sale of practically all the Portland Rosebuds and other western hockey players to Tack Hardwick, representing Chicago interests.

Actual arrangements have been completed for the sale to Detroit, Mr. Patrick said, while in the case of Chicago, Hardwick had made a substantial deposit, and the deal was practically as good as closed. In both instances the sum involved is in the neighborhood of \$100,000.

Frank Patrick said two splendid teams would be possible out of the material purchased by both Detroit and Chicago. He pointed out the value of purchasing a team intact which has been playing together. This has been done in both instances, and the cream of remaining players of the league obtained in the bargain.

Eugene Gary, who is associated with Tom Duggan in the New York Americans, holds an option on the Saskatoon Sheiks, whom Newy Lalonde directed in the Western League in past years. Lalonde is not included and is slated as bench manager of the Canadiens here next season.

Lester Patrick goes with the Cougars to Detroit as coach.

Boxers Collect In Advance, Then Skip

BUENOS AYRES, May 11—The police of Montevideo have been asked to intercept two well known Italian boxers, Domingo Bernasconi, Italian bantam-weight champion, and Bruno Fratini, former European welter-weight champion. After signing \$3,000 pesos \$1,500 advance money, unexpectedly, they are alleged to have boarded a ship for Europe.

The police were requested to persuade the two fighters in a most friendly manner to return to Buenos Ayres and fulfill their engagements.

JENKINS IS LEADER IN BOWLING LEAGUE

Secures High Individual Average For Season—Sparrows Win Premier Honors

The Y. M. C. A. Diamond Bowling League divided the season into three series but the Sparrows clearly displayed that they were the class by league by averaging all three. The high individual average for the season was won by Noel Jenkins with 90.19 while the veteran Thomas Cosgrove won the high three strings with 423. High single honors went to H. Freeze with 127.

The standing for each series with total pinfall of the teams and the averages of the individual bowlers follow:

SEVERAL LOCAL BOXERS TO TRY FOR OLYMPICS

"Dave" McNulty and Harper Two Best Bets Now

ONE of the brightest boxing prospects for the May 24 with two games, morning and afternoon, it was decided at a meeting of the league executive last evening with the president, A. W. Covey, in the chair. H. R. McLellan, donor of the handsome McLellan trophy and Mayor White will be asked to officiate.

The meeting discussed the matter of grounds again and re-consideration probably will be given to the matter of using the South End grounds. It will be recalled that at an earlier meeting the league decided not to use these grounds because the league was given to understand these grounds would not be available. A small committee also was formed to draw up a new constitution.

A. W. Covey presided and the following representatives were present: Vice president, James McCook; Treasurers, Walter Golding, A. N. MacGowan; Water Department, Charlie Gorman, A. P. Snowgrass; Saint John's, T. Campbell and V. Markham; St. John the Baptist's, E. Lowe, and P. Barrett.

PLAN RIFLE MATCH AT SUSSEX IN JUNE

The inter-maritime rifle match which is an annual team shoot for non-permanent militia men of Nova Scotia, P. E. Island and New Brunswick, with one team of eight men from each province will take place at Sussex on Thursday, June 10, this year. Last year the meet was held at Bedford, N. S. and was won by the Nova Scotia team.

Trials for places on the N. B. team will be held throughout May at the various ranges in the province. The final indoor shoot of the season here was held at the Army on Saturday evening and the spoon was won by C. Bradshaw with 97 plus three points allowed to B class members. This was due to a system of handicaps arranged at the start of the season.

BURKE AGAIN PICKED FOR THE BISLEY TEAM

OTTAWA, Ont., May 4—Two years ago Desmond S. Burke of Ottawa, aged only 19, startled marksmen the world over by winning the coveted King's gold medal at Bisley, emblem of the best shoot in the British Empire. Prize money he won at Bisley that year amounted to nearly \$2,500, which was brought up to \$5,000 by presentations made by his proud fellow citizens of Ottawa.

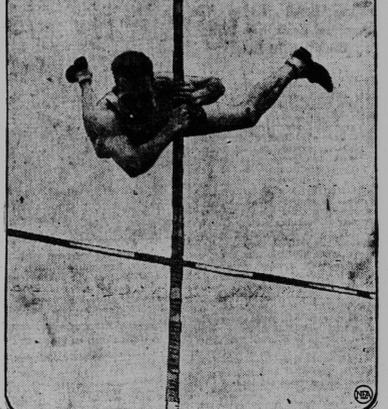

With this money he decided to put himself through Queens University. Yesterday he was awarded the Sir Sanford Fleming scholarship (first year) in science by the University. At the same time his name was announced as being one of the members of the 1926 Bisley team for the third consecutive year.

GIBSON WANTS VOTE

NEW YORK, May 4—Billy Gibson, manager of Gene Tunney, suggests that the boxing commissions of all states where the sport is legal, vote on the question as to who shall be named to oppose the heavyweight champion, Jack Dempsey. Gibson feels a majority vote would make the contender more of a national selection.

REPORT PREMATURE

The report that Arthur E. Finnermore, one of the upstarts in the City League last year, had been engaged to coach the Saint John's was described by Mr. Finnermore this morning as premature. He said he would meet members of the Saint John's evening to talk over the situation. Mr. Finnermore said this morning he was leaving for Yarmouth and Boston on Thursday and would be absent from the city until about May 20.

NEW YORK TRIBUNE Bldg. Sold To Sun

NEW YORK, May 4—Ogden Reid, publisher of The New York Herald Tribune, has announced that the old Tribune Building at 154 Nassau street, for many years the home of the Tribune, would be moved uptown, had been sold to the Frank A. Munsey Company, owners of The Sun.

WANTS ENGLISH TEAMS

BOSTON, May 4—Plans to bring to this city next fall some of the leading professional and amateur football teams of England, are announced by Howard C. Davis, organizer of a projected \$100,000 athletic plant for Boston. The English teams invited here would be exponents of both the rugby and soccer games.

## YPRES PICTURE AT IMPERIAL IS NOTABLE ONE

### Inspiring Re-Enactment of Greatest Fight in the Late War

"Ypres," the new war film, of which much has been written since its first appearance in England, where it was produced, and opened a three-day engagement at the Imperial yesterday to overflowing houses.

The film is a pictorial history of the various actions which took place to the north and east of the city of Ypres. It commences with the first Battle of Ypres, in which the Old Contemptibles succeeded in holding back Von Kluck's army. It proceeds through the second Battle of Ypres, in which Canadians, Imperials and French colored colonialists were concerned, and, omitting St. Eloi and the June, 1916, fighting, goes on through trench warfare to the summer and fall fighting of 1917 in the steps of Passchendaele, the recapture of the Salient by the Hunns, and the last final assault which swept the enemy away from the city's gates for the remainder of the war.

Most of the film was actually taken in wartime, such as the King's visit to the front. In many instances the cast includes leading characters who are acting the roles they once filled in reality. The thousands of soldiers taking part must have been there for their general conduct could not be more like it was in the old days. One scene of a crown and anchor page during an air raid is exactly true to life, as are many similar incidental sketches. The Canadians are by no means overplayed in the second Battle of Ypres, where the gas attack occurred.

but our veterans will be pleased rather than disappointed, that the Imperial regiments are at least given their fair share of credit for what they did. Several instances of the winning of the Victoria Cross on land and in the air are pictured.

## PICTURE AT QUEEN SQUARE EXCELLENT

There are two good reasons why "Too Much Money," which opened last night at the Queen Square, is an excellent picture. One is Anna Q. Nilsson and the other is Lewis Stone. A third is the superb direction of John Francis Dillon, who has made of the Israel Zangwill stage hit, a notable screen offering.

The theme is the burden of riches. Loaded down with excessive wealth, Lewis Stone, as the husband, is misled

MRS. JACK ROSSLEY is now prepared to give lessons to older boys and girls who would like to learn stage dancing. These dancing lessons are not for stage work, but to build up and make young bodies strong and graceful, unless parents wish their children to take up a stage career. The younger children already enrolled are learning quickly and just love the work, even the tiny tots, who think it is all play, take a great interest and on two lessons are shaping well. Only bright, intelligent children of good families enrolled. For further information call, write or phone MRS. JACK ROSSLEY, Phone 884-11, 237 Charlotte St.

removed from the company of his wife, whom he ardently loves. To win her back, he pretends to be ruined. Pauperism put Stone, who is rarely seen on the silver sheet sans dinner jacket, in the apron of a grocery clerk, and the motley of a janitor.

As for Miss Nilsson, who also enjoys a reputation for being able to wear beautiful garments, she spins expensive frocks and for the most part wears the simple raiment of a hardworking housewife.

Both score personal triumphs. The supporting cast includes Robert Cain, as the villain, and Ann Brody and Edward Elias in straight comedy.

WILL REGULATE TAXI SERVICE IN LANCASTER

Highway Board To Consult Atty.-Gen.—Conference Before Framing By-Law

The matter of regulation of taxi services in the Parish of Lancaster was the principal item of business before the Highway Board at its monthly meeting last evening.

The Highway Board has in mind particularly conditions on the Sand Cove Road during the summer months, when a number of taxis are plying for hire. They expect to pass a by-law calling for a license fee for operators of taxi-cabs and setting forth conditions under which they may operate.

PAVING SETTLEMENT. There was some discussion of the settlement made by the Government of the paving work and it was decided to write to the Minister of Public Works for full details of the settlement and also for instructions as to the completion of the paving of the highway bridge. This action was taken in view of the fact that as yet the board had no official notice of what action had been taken by the Government in the matter.

The meeting was presided over by Councillor William Golding and Councillor William McCour and Messrs. H. M. Stout and H. B. Crosse, secretary, were present.
