SHOCK HURLS HYDRO MAN FROM POLE

WM. M'NULTY, BARKER STREET, SEVERELY HURT

Touches Live Wire In Work at Pond Street

DOCTORS HOPEFUL

Man Is Seriously Burned, Suffers From Shock; Ribs Perhaps Broken

Hurled from a hydro electric service pole in Pond street this morning as result of the shock from a highly charged wire, William McNulty, of 47 Barker street, an employee of the Civic Hydro Commission service is in the General Public Hospital, seriously burned, and bruised and possibly with several ribs broken. The doctors say, however, that there are hopes for his recovery.

Was Turning Switch.

McNulty climbed the pole about 15 feet to turn off a switch and while preparing to do so his hand came in contact with a live wire. Next moment he was lying in his back on the street in the ice and slush.

Hurried to Hospital.

Passers by went to his aid and when they realized that he was seriously injured they hurried to Traffic Policeman McNamee, who was stationed at the intersection of Mill and Pond streets. He hurried to the spot and lifted the unfortunate man placed face down on a sliver. His clothing was loosened and the policeman, who is well versed in first aid, started to bring about artificial respiration and to promote circulation. In the meanwhile he had ordered the ambulance and as soon as it arrived the injured man was rushed to the hospital. One of his hands and feet were badly burned, the current passing through the right hand and out his left foot.

Doctors Hopeful.

When he arrived at the hospital he had regained consciousness. An examination showed that in addition to the burns, he was suffering from shock, had bruises on the right side of his face and there were indications that some of the ribs on his right side were fractured.

A late report from the hospital this afternoon said that Mr. McNulty was suffering considerable pain. Up to that time an X-ray had not been taken to determine if his ribs were fractured. The doctors held out hopes for his recovery.

SAYS STOLEN MONEY PURCHASED LIQUOR

Witness Testifies Newfoundland Official Took \$100 Public Money a Week.

ST. JOHN'S, Nfld., Feb. 11.—Testimony that Alexander Rooney, former accountant of the Government Telegraph Bureau for a period of six months took from the cash drawer more than \$100 weekly to purchase liquor that was consumed in his office, was given yesterday in the opening of the trial of Rooney on the charge of larceny of nearly \$15,000 of public money.

Rooney is also charged with having destroyed various accounts of his office covering a period of three years.

Assistant Testifies.

Wm. Wylie, former assistant to Rooney, testified that for a period of six months before the probe of the bureau funds began, Rooney purchased from \$120 to \$180 worth of liquor weekly from the Liquor Control Department. Wylie stated that he generally purchased this liquor from Rooney with money which the latter took from the cash drawer.

CREW IS RESCUED

Large Liner, Reported Ashore on English Coast, Turns Out to Be Small Vessel.

LONDON, Feb. 11.—Considerable alarm was felt this morning, over dispatches to a London newspaper, that a big liner had gone ashore, on the Essex coast, and was sending up distress flares, near Walton-on-the-Naze. The vessel turned out, however, to be the 100-ton ketch Rossina, which was swamped and sank. A lifeboat from Clacton-on-Sea rescued her crew of four.

The Naze is the headland or cape forming the Eastern extremity of the County of Essex. Its tip curves northward to a point within five miles of the port of Harwich.

DIGGERS NEAR CAVE PRISONER

HOPE INCREASES AS 11TH DAY OF EFFORT DAWNS

Banana Oil Odor Rises In Newly Mined Shaft

EVIDENCE OF LIFE

Test of Electric Circuit Indicates That Collins is Still Breathing

BULLETIN

CAVE CITY, Ky., Feb. 11.—A definite connection between the rescue shaft and the tunnel in which Floyd Collins had been imprisoned for nearly twelve days, was expected to be reached very soon, it was declared this morning. "I am prepared at almost any time to find a definite connection between the shaft and the cavern," H. T. Carmichael said. "More crickets are being found, rocks are getting larger, sand has given way to gravel, and more cave crickets are reported."

CAVE CITY, Ky., Feb. 11.—Hopes for the rescue, soon, of Floyd Collins, the imprisoned cave explorer, ran high, early today, with the diggers in the rescue shaft working through a dry, sandy stratum, presumed by geologists to overlay the roof of Collins' cavern. The odor of the banana oil, sprayed down Collins' tunnel, Sunday night, and again Monday, rose through the floor of the shaft, last night, to hearten the tired diggers.

Shaft Nears Opening.

Extra precautions in timbering the shaft were made to protect the workmen should the roof of the tunnel or cavern suddenly be broken through. A small cleft in the side of the shaft toward the north or Sand Cave side was discovered at 38 1/2 feet, indicating that the underground honeycombed section was near at hand. The sandy layer at the bottom of the shaft was fairly dry, compared to the muck in which the diggers have been working.

Believed Still Alive.

The daily test to determine if Collins still lives, by means of an amplifying electric light, has been continued. The circuit leading down to his prison, has strengthened the belief of the physicians here that Collins is still alive. The faint motion of the electric light bulb around his neck, as it moves in its socket, with the rise and fall of his chest, in breathing, is so regular that they are convinced Collins is still alive. The last test yesterday evening showed a series of jerky, rasping noises, presumed to indicate coughing or other movement, followed by a fall in the respiration noises from 20 to about 12 per minute. This, the doctors believed, indicated he was falling asleep.

Doctors Are Ready.

Barring infection, or gangrene from his cramped 11-day imprisonment, the physicians' hopes are strong that they can save him, if he is reached soon. Every possible emergency need of the physicians has been prepared in the Red Cross tent operating room for transfusion, amputation, or whatever his condition indicates. A stretcher-like appliance to raise Collins through the shaft has been constructed.

LOCAL OPTION SUGGESTED BY WINDSOR M. P. P.

Wilson Gives Notice of Move Toward Public Control

PREMIER'S STAND

Ferguson Denies Breach of Faith in Sponsoring Stronger Beer Legislation

TORONTO, Ont., Feb. 11.—Concurrent with Premier Ferguson's new temperance law amendment, to permit the sale of 44 per cent. beer in Ontario, will come additional amendments, the effect of which will be to provide jail penalties, without the option of a fine, upon persons commonly known as bootleggers.

Denies Imputation. Premier Ferguson vigorously denied imputations, cast at him by "dry" leaders, of having committed a breach of faith in bringing down stronger beer legislation.

It is understood that the government has no intention of restricting the sale any more than that at present in force for the sale of two and a half per cent. beer. This means that hotels, restaurants and small stores may sell the higher strength beverage. However, the bill is not yet framed and the Conservative caucus, meeting today, may decide upon a restriction to standard hotels and perhaps some other agencies.

Local Option Suggested. Members representing "wet" ridings are quite free with their opinions, but members for "dry" ridings decline to talk. Some members representing "wet" ridings hold that the government should have gone further. The attitude of many of these members is clearly reflected in the notice of motion given today by F. W. Wilson (Cons.), Windsor, that the sale of beer, spirits and wines be allowed under a system of government control on the principal of local option.

Progressives Opposed. It is known that the Progressives will oppose the proposal practically as a body. W. E. Bancey, the new Progressive leader, he declined to comment, however, stating that he would have something to say in due course.

WHEN EAST MET WEST FIRST TIME

Japanese Account of "Barbarous" Customs in U. S. Translated.

SEATTLE, Wash., Feb. 4.—An account of events connected with the first Japanese embassy in the United States in 1860 has been translated into English by Dr. Herbert H. Goins, professor of Oriental languages in the University of Washington, with the assistance of a Japanese student.

How embarrassed the Japanese commissioners were when dining with women and how they nearly drank from finger bowls "in the way" of the country of America are related. The fact that Lewis Cass, secretary of state, failed to serve tea when first meeting them is mentioned as indicating lack of courtesy and refinement.

Mr. Gault replied that he had never suggested in any seriousness that the two provinces should be merged, and he was surprised at the attitude adopted.

Member's Speech Causes Comment

QUEBEC, Feb. 10.—The speech made by C. E. Gault, (Montreal), last week was the cause for comment in the Legislature today. Was it because the English people were so badly treated in Quebec that Mr. Gault wanted the merger, Hon. Mr. Moreau asked.

Mr. Gault replied that he had never suggested in any seriousness that the two provinces should be merged, and he was surprised at the attitude adopted.

Practically all the local members will attend while several of outside members will be there. Those from out-of-town points who have arrived for the reunion include James Pringle, Frederick H. H. Henderson, Campbell; W. R. Clarke, Frederick; R. E. Hyslop, St. Stephen; J. W. Oles, Moncton; H. G. Palmer, Dorchester; E. J. White, Bathurst; R. L. Eaton, Kentville, and others.

Lieut. Col. J. L. McAvity, the first commander of the battalion, is expected to attend. Lieut. Col. Alexander McMillan, D. S. O., commanding the battalion on its return, is confined to his home with a cold, and it is doubtful if he will be present.

A meeting of the District Scouts held at their headquarters, Prince William street, last evening conferred certificates upon several of the Scoutmasters. Stanley G. Olive was secretary, and Harold B. Wetmore was secretary.

The certificates were given for passing a course for the Canadian Girl Scout badge, part three (a), winter course. Those winning the badge were John Joseph L. Johnson, D. W. Colwell, Norman G. Smith, R. Keltie Jones, Norman Smith, Clarence Hoyt, Elmer G. Olive, B. E. Adams, Gerald Russell, John J. Legate and Fred Choppin.

Dr. G. B. Peat, district commissioner, and Dr. L. de V. Chipman, district officer, gave short talks to the fortunate winners and to the committee men who represented their troops.

VIRGINIA JUDGE TAKES OWN LIFE

Head of State Supreme Court Shoots Self in Wife's Absence.

RICHMOND, Va., Feb. 11.—Judge Frederick Wilmer Sims, 63 years old, president of the Virginia Supreme Court of Appeals, ended his life in his hotel apartment here, shooting himself in the head with a shotgun when Mrs. Sims went out to mail a letter.

Judge Sims had been suffering for several weeks from a nervous breakdown. It was said, and was contemplated a trip to Florida. Despondency over his health was the only cause suggested for his act at the inquest conducted by the City Coroner.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

TONIGHT'S EXTRA AT THE IMPERIAL. Scenic Tour of Great Britain in Addition to High-Class Feature and Concert.

Those who enjoy traveling by motion picture will get a rare opportunity at the Imperial today and Thursday. Two reels of the splendid programme will be devoted to a comprehensive tour of England, Scotland and Wales, showing the historic, scenic and poetic features of each country.

An especially delightful concert in this pictorial tour will be the fading in and out of historic figures on historic premises, such as Henry VIII. at Hampton Court, Queen Victoria and Edward VII. at Windsor; the unfortunate little princes in the Tower, and so on. The investiture of the Prince of Wales in his boyhood is brought before us in a charming picture throughout. The feature is "The Snob," a high-class Metro-Goldwyn production, and tonight Vera Terris will sing at the between-shows concert, tomorrow night, Estelle Fox.

LADY TAKES MILK BATH

Bathing in Milk Said to Beautify. Some time ago a Boston paper interviewed a famous beauty, in order to obtain a few tips to pass along to other ladies, and one tip was to take an occasional bath in milk.

This would seem to be rather an expensive idea to beauty, and only possible to a few. Especially if the price was fifteen cents per quart. Even at the twelve cent price established by Purity, a milk bath would still be an expensive luxury.

It is for ordinary drinking and feeding purposes, Purity has made milk the cheapest food possible to obtain.

In order to make it remain cheap, Purity must be supported by the milk consumers. Purity alone is keeping down the price. Milk would go up in price tomorrow if this

APPEAL IN PERTH POTATO CASE IS HEARD IN COURT

Action Arose From Judgment in Farmers' Co-operative, Limited, Trial

MERRITT—DOHERTY ARGUMENT FINISHED

John Black, of Fredericton, Applies For Readmission to N. B. Bar

FREDERICTON, Feb. 10.—Before the Appeal Division of the Supreme Court this afternoon argument was completed in the case of A. Stanley Merritt vs. Maurice L. Doherty, in which H. P. Raymond, K. C., supported an appeal from the St. John County Court. C. J. Melliday was heard on Court considerations.

The case of Demmings et al vs. Bevell, from the King's Bench Division, was begun. J. C. Hartley, K. C., for defendant Bevell and J. B. M. Baxter, K. C., for defendant Howlett, supported an appeal from a judgment of Chief Justice Barry.

This case was tried before Chief Justice Barry at Fredericton and arose out of the marketing of potatoes by the Farmers' Co-operative, Limited, at Perth.

OTTAWA, Feb. 11.—Hon. H. H. Stevens, Conservative, Vancouver, speaking in the Commons yesterday, discussed the transportation problem. The wheat growers of the prairies desired to be able to carry their wheat to the ocean ports en route to Europe at a cost commensurate with that paid by their competitors from Argentina, India and Egypt, whose fields were within a few hundred miles of their seaboard, as compared with one or two thousand miles in Canada.

Protection for Mines.
The development of the coal and iron industries in the Maritime Provinces and the Alberta coal fields was also at stake, he declared.

"Do you advocate increasing the duty on coal?" asked Mr. Robb. "Yes, as far as I am concerned," replied Mr. Stevens, "because the Maritime Provinces should be afforded protection."

SAYS WAR DEBTS SHOULD NOT EXIST
Italian Paper Comments on Question of Inter-Allied Obligations.

ROME, Feb. 11.—L'Idée Nazionale, a Roman newspaper in touch with the Italian government, gave the place of honor last night to the inter-allied war debts. It asserts that they do not exist.

Great Britain's conscience is not clean, says the paper. Every Britisher knows in his heart, it asserts, that he has no right to ask for payment of the so-called inter-allied debts.

Italy's human sacrifice during the war follows immediately after France's, says the paper, and is superior to Britain's. The United States must realize that no money is owed her, it declares.

Other press comments reflect similar viewpoints.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare. Write for recipe, free.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several regular elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup.

You can use more than you can buy ready-made for \$2.60. It is pure, good and pleasant—children like it.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less.

Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

READY BY FEBY 18 TO TAKE PATIENTS
Shriners' New Hospital For Crippled Children in Montreal to Open Sunday.

MONTREAL, Feb. 11.—It is announced by Henry J. Elliott, K. C., chairman of committee, that the Montreal Unit of the Shriners' Hospitals for Crippled Children at 25 Cedar avenue, is approaching completion so rapidly that it is expected it will be ready to accept patients on February 18 next, and thereafter assume full operations. This hospital is to provide 80 beds for crippled children, and will mean an ultimate cost of \$450,000.

The two men were arrested at the time an alleged plot to blow up British battleships and submarines was unearthed, and it was alleged the evidence indicated the defendants were Irish Republican "Army" intelligence officers.

In Ontario, the premier and president of the council and the chairman of the hydro-electric commission receive \$12,000 a year salary, or \$2,000 more than the lieutenant governor, the chief executive officer.

READY BY FEBY 18 TO TAKE PATIENTS
Shriners' New Hospital For Crippled Children in Montreal to Open Sunday.

MONTREAL, Feb. 11.—It is announced by Henry J. Elliott, K. C., chairman of committee, that the Montreal Unit of the Shriners' Hospitals for Crippled Children at 25 Cedar avenue, is approaching completion so rapidly that it is expected it will be ready to accept patients on February 18 next, and thereafter assume full operations. This hospital is to provide 80 beds for crippled children, and will mean an ultimate cost of \$450,000.

The two men were arrested at the time an alleged plot to blow up British battleships and submarines was unearthed, and it was alleged the evidence indicated the defendants were Irish Republican "Army" intelligence officers.

CHILDREN ATTEND FUNERAL OF FRIEND

One Session For Fairville Higher Grades as Hazel Rose is Buried.

The funeral of Miss Hazel Rose, young daughter of Mr. and Mrs. George Rose of Harding street, Fairville, was held yesterday afternoon from her parents' residence, and service was conducted by Rev. W. M. Townshend. The girl was much beloved by her associates in public school and in the Sunday school of St. Columba's Presbyterian Church, this being evidenced by the floral tributes and by the large number who marched in the procession to Greenwood cemetery, where interment was made. A one-session was allowed the higher grades of the Fairville Superior School, so the children could attend. The choir of the church sang "There's a Friend of Little Children," with its consoling message to the bereaved family and friends.

Floral tributes were received from many, among whom were: St. Columba's Sunday school, Girls' Branch and Juniors of the Church of the Good Shepherd, sprays; classes in Miss Carleton's room of Fairville Superior School, where Miss Rose was a scholar and classes in room of I. Newton Fanning, principal, wreaths; N. B. Telephone operators, wreath; Frank Olive, croquet; Mr. and Mrs. C. A. Mc-Masters, stars; Dr. L. M. Curran, Miss Ray Columbus, Mr. and Mrs. Thomas Pile, Miss Selena Ryan, Leo Collins and Miss Florence Thompson, sprays; Mr. and Mrs. Robert Rose and family, Mr. and Mrs. John Rose and family, Mr. and Mrs. Fred Chittick, Mr. and Mrs. Thomas Rose, sprays; family of Miss Rose, a pillow.

Weddings

Grant-Atward.

Last evening at the home of Mr. and Mrs. William Penny, 98 1/2 Main street, Miss Marion Atward of Columbia Bay and Alfred Grant of this city were married by Rev. J. W. Bates. The bride was supported by Miss Marion Penny and the groom by Percy Lockhart. They will reside in the city.

Carroll-Kerr.

CHATHAM, Feb. 10.—A marriage of much local interest took place at Alhambra, Calif., on Jan. 26, when Miss Sadie Kerr, daughter of Mr. and Mrs. James A. Kerr, became the bride of Mr. Noonan J. Carroll. The ceremony was performed by Rev. Leo L. Lambrock, formerly on the staff of St. Thomas College, Chatham, inasmuch as the bride, who was given away by her father, looked charming in a gown of blue canton crepe. She wore a hat to match and carried a bridal bouquet of white roses. The bridegroom was Miss Cecelia Chisholm, of Alhambra. They will reside in Alhambra. Both principals are former residents of Chatham and are well and favorably known here. The groom was for a number of years a valued member of the Chatham Gazette staff.

Carson-MacCallum.

At the Methodist parsonage, St. Stephen, with Rev. J. Heaney officiating, Miss Nina E. MacCallum, third daughter of Sarah and the late David MacCallum, and Edward W. Carson were married on Jan. 14. The happy pair were attended by Mrs. Edward McKay, sister of the bride, and Albert Carson, a brother of the groom. The bride looked charming in a tailored suit of log cabin brown pique tulle and brown velvet hat to match. The bride is well known throughout the province and was one of Charlotte county's most successful teachers. Mr. and Mrs. Carson left St. Stephen en route for Detroit, where they will reside. The bride received many gifts in silver, china and linen, also substantial checks from relatives and friends.

Palm Beach Gives Line On Spring Fashions For Women

By HEDDA HOYT, Fashion Editor of the United Press. NEW YORK, Feb. 11.—Palm Beach plants the styles that blossom up North in the summer months.

It is difficult to think in terms of summery frocks with snow piled high on our northern streets, but when one considers that manufacturers are already planning next fall's frocks and Palm Beach is wearing lingerie gowns and straw hats, one begins to get interested in the coming season. Styles that are sponsored by the smart women at Florida resorts during the winter months are those which we will be wearing within a few months up North. The types of frocks and gowns worn by the residents of Palm Beach can be described in a few words. The days when women dressed six times a day are long past, owing to the strenuous living and the lack of time for changes.

First, there is the sports frock which is worn for tennis, golf, etc., and which is permissible to be worn throughout the entire day, if one has no tea engagements. This season's sports frocks are numerous. There are flannel jumper suits, one-piece frocks with matching coats and silk knit dresses. Perhaps the most popular of the three are French flannels in solid colors, such as saffron, white, madonna blue, tan, etc., which are made into sport-ensembles. That is the dress is a one-piece affair, usually sleevesless or with long, tight sleeves and the coat is of three-quarter length and of the same material. Again the flannel frock may be made of plain materials with linings, scarfs and appliques of brilliant shades.

White is as popular for sportswear as it is for dress wear and one sees many white crepe frocks with red, or green scarfs, braiding or banding. Those who prefer mannish lines will favor the sports topsuits which are in variously in milder tones and trimmed about the collar or hem-border in natural colored furs. Yellowish furs are those most frequently seen on the highly-colored coats. The all-white coat is very popular also and is trimmed in

Evening wear. Resort evening frocks are a bit different than those seen wearing up north at present. First, there are few beaded gowns, since chiffons trimmed in ostrich or marabou flouncing prevail. Colors are milder than those seen up North. There are very few bright reds or greens which are always the winter favorites. White as usual prevails, with canary yellow, pink, pale blue and other pastel tones following in line. One sees a few new necklines, such as those which use the material of the frock only, the shoulders, with flesh colored tulle or net holding the frock up on the opposite side. Hems are invariably flaring and some of the newest fashions flare in circular movement from the hip.

Bathing suits are more brilliant than ever. Many are made of flowered French chintz which is guaranteed not to fade. White jersey suits embroidered in wool in colors are also popular.

Deaths

Mrs. Phoebe E. Belyea. To a wide circle of friends the death of Mrs. Phoebe E. Belyea, widow of Ezekiel Belyea, will bring deep sorrow. Mrs. Belyea passed away yesterday at the home of her son-in-law, Harry McCreel, 46 High street, after an illness of about three weeks but had been in failing health for the last five years. Mrs. Belyea was born at Oak Point and had lived there during her earlier years but following the death of her husband, about 30 years ago, she took up her residence in St. John and had made her home with her daughter, Mrs. Harry McCain. Mrs. Belyea was a woman of exemplary Christian character, a faithful member of the Portland Methodist church and ardent in good works. In her home she was a devoted and loving mother and her very many friends held her in high regard and affection. She was a member of the I. O. G. T. and staunchly upheld the cause of temperance. She will be very greatly missed. Those surviving are two sons, Leonard G. of Milks, N.B.; two daughters, Mrs. Stanley Williams and Mrs. Harry McCain, both of this city; two sons, Stephen Flewelling of Southampton, N.B. and Robinson Flewelling of Oak Point; two sisters, Mrs. George F. Mott, of Annapolis, U.S.A., and Mrs. W. Harvey, of Los Angeles, Calif., and two grandsons. The funeral will take place on Friday from 86 High street and the service will be at 2 o'clock.

Albert T. Carter. BATHURST, N. B., Feb. 10.—(Special)—Albert T. Carter, aged citizen of Bathurst, died at 2 o'clock this afternoon at his residence here after only two days' illness. Mr. Carter was more than 80 years of age and had lived all his life in Bathurst, being very highly esteemed throughout the community. His death was very sudden as he had been about town on Saturday, and his friends were greatly shocked when it was learned that he had passed away. He is survived by one daughter, Miss Jessie, with whom he made his home; two brothers, Hiram, of Millinocket, Me., and Samuel, of East Bathurst; and one sister, Mrs. Parker Reed, of Lexington, Mass. The funeral will take place on Thursday.

Mrs. M. Walton. Mrs. Marcella Walton, widow of Charles Walton, of Little Beach, St. John county, died on Jan. 14, aged 89 years. The funeral was conducted by Rev. F. A. Habley. The body was laid to rest in the little cemetery on Perry's Hill. She left to mourn two sons, William H. of Melville, Mass., and James, of Little Beach, also three daughters, Mrs. William Black, Great Salmon River; Mrs. Edward Hopey, Little Beach; and Mrs. Charles Cochrane, Parrsboro, N. S. There are 23 grandchildren and 87 great grandchildren.

Miss F. Humphreys. Many friends will regret to learn of the death of Miss Fay Humphreys, which occurred yesterday after an illness of several months. Miss Humphreys was the eldest daughter of Mrs. Elizabeth Humphreys, of 15 Peter street, and the late William Humphreys, and is survived by her mother, two brothers, William, of Texas, S. A., and Ronald, of this city, and two sisters, the Misses Margaret and Bessie, at home. The funeral will take place on Thursday from her mother's residence at 2 o'clock.

Miss Michael Hayes. The death of Mrs. Michael Hayes occurred at her residence, 46 Clarendon street, yesterday at an advanced age and many friends will regret to hear of her passing. She is survived by

four daughters, Mrs. P. W. Ward and Mrs. P. Graman, of this city, and the Misses Mary and Alice, at home, and one son, James, of this city, also five grandchildren and five great-grandchildren. Mrs. Hayes was very widely known and was held in highest esteem. She had lived in the north end of the city for the greater part of her life. The funeral will take place on Thursday morning at 8:45 o'clock from her late residence to St. Peter's church.

Afternoon at Palm Beach. After luncheon Milady changes into her afternoon tea frock, which is usually of pastel shade and made of crepe de chene,orgettes or chiffon with transparent flounces and scarfs. Sleeves are mere shoulder extensions, and skirts are extremely short. Lace forms the flaring flounces and finishes the scarf ends in most cases. Hosiery matches the frock, and shoes are extremely ornamental, being in black, bronze tan or green. Brightly colored shoes are not seen much this season.

Here again at bedtime one sees much white, there is one particularly lovely gown of white crepe embroidered on the upper skirt section in bright yellow moths with a wide fringe of yellow falling from below the hips to the hem. Another white frock is made in simple lines with a wide band of red roses embroidered about the hips, the green stems and leaves of the flowers extending gracefully into the folds of the circular flare which begins at the knees.

The ensemble suit for afternoon wear is popular. One of the most attractive ones being made of black silk crepe printed in red tulips with a long, slender coat of plain black silk lined with the printed material of the frock.

Evening wear. Resort evening frocks are a bit different than those seen wearing up north at present. First, there are few beaded gowns, since chiffons trimmed in ostrich or marabou flouncing prevail. Colors are milder than those seen up North. There are very few bright reds or greens which are always the winter favorites. White as usual prevails, with canary yellow, pink, pale blue and other pastel tones following in line. One sees a few new necklines, such as those which use the material of the frock only, the shoulders, with flesh colored tulle or net holding the frock up on the opposite side. Hems are invariably flaring and some of the newest fashions flare in circular movement from the hip.

Bathing suits are more brilliant than ever. Many are made of flowered French chintz which is guaranteed not to fade. White jersey suits embroidered in wool in colors are also popular.

HAVE FAITH IN U. S.

Older of Japanese People Believe in America's Ultimate Fairness.

MONTREAL, Feb. 10.—Although the feeling among the younger element in Japan had been embittered towards the United States by reason of the Japanese Exclusion Act, the older and more responsible sections of the community had not lost their faith in the ultimate fairness of the United States. Yasuoto Tsunami, prominent Japanese publicist, said in an address here today.

Mr. Tsunami described the exclusion act as "the greatest blow to Japanese national pride in half a century."

REV. G. D. MILBURY IS DEAD IN MAINE

Once Was Pastor in St. John—Tribute is Paid L. W. Simms.

The following items are from the Maritime Baptist: Word has reached us just in time to announce in this issue that Rev. G. Douglas Milbury passed away at South Brewer, Maine, on last Sunday. Mr. Milbury served as pastor of various churches within our convention, among them being the Tabernacle, St. John, Parrsboro and Gaspereaux, N. S. Rev. E. R. Evans, after spending three or four months in the South visiting his children, has returned to Lockport, N. S., and resumed work as pastor of the church there. Rev. E. S. Mason, superintendent of Home Missions, spent Sunday, Feb. 1, with the Brown's Flat group of churches in an effort to secure the settlement of a pastor there. He reports a favorable outlook. Rev. Emmerson L. Curry, house master of Acadia Academy, Wolfville, has accepted an invitation to the pastorate of the Tabernacle church, Halifax, in succession to Rev. E. E. Daley, D. D., who recently resigned to accept the pastorate of the church at Chester, N. S. During a pastorate of 12 years and a half with the First Baptist church in Denver, Colorado, Rev. A. H. C. Morse, D. D., has welcomed into the fellowship of the church 2,840 persons. There has been baptism on every Sunday but one since the first Sunday of last October. No special services are held in connection with the church work. The activities of the church go forward from week to week with the expectation of continuous accessions. Dr. Morse preaches for conversions and expects them in connection with the regular activities of the church. L. W. Simms is in demand for leadership in connection with many movements for the good of the community. He is serving this year as president of the St. John Board of Trade and was also recently elected as president of the Victorian Order of Nurses' Association for St. John in succession to Hon. J. G. Forbes, who retired at the recent annual meeting and in consideration of his long and valuable services to the order was made honorary president. Branch candlesticks have been manufactured in Warsaw and Vienna since 1850.

REPORT SOON TO BE SENT IN TO GOVERNMENT

J. L. Sugrue Tells C. W. L. About Mothers' Allowances.

COMPENSATION ACT EXPLAINED

League Business Matters Also Engage Attention of the Meeting.

The average amount expended annually in meeting death claims and in paying claims for disabilities occasioned by accidents in the course of employment by the New Brunswick Workmen's Compensation Board was approximately \$450,000, declared James L. Sugrue, commissioner of the board, in an address before the St. John sub-division of the Catholic Women's League in the Knights of Columbus hall last night, when he discussed the operation of the Act and also dealt briefly with the question of mothers' allowances.

Willful Negligence.
The only thing that excluded the workmen from enjoying the benefits of the Act was willful negligence. If only guilty of contributory negligence, he collected compensation just the same. Mr. Sugrue in this connection particularly stressed the difference between present conditions and those existing before the Act, when employers' liability was the vogue. At present the relief was immediate, while under employers' liability the relief was not forthcoming usually until after litigation in many cases and long delays in others and not infrequently not at all. Never in any case did the total li-

bility paid exceed 55 per cent of the late workman's wages. The widow received \$30 a month until death or remarriage and for each male child under 16 years and for each female child under 18 years \$15.00 a month, the whole not to exceed 55 per cent of the income of the deceased wage earner.

Mothers' Allowances.
Mothers' allowances picked up the thread where the workmen's compensation left off and took care of those mothers whose husbands had died from natural causes and outside the sphere of their employment. The object of mothers' allowances was to keep the home together. Institutions, into which the children might be enticed because of the inability of the surviving parent to provide for them, played a very important part in present day society and could not be done without, he said, but if the children could be kept at home under the care of their mother, the one person best fitted to look after them, then conditions would be very much better.

No Provision Yet.
There was no provision for mothers' allowances on the statute books of New Brunswick at the present time but a report had been prepared after a survey of conditions in the province and it was probable that this would be soon presented to the Government for its consideration.

Business Session.
A vote of thanks was tendered to Mr. Sugrue on the motion of Mrs. E. J. Henneberry, seconded by Mrs. F. J. Power.
Miss Sarah Brophy acted as secretary pro tem. A National news letter was read by Miss Ellen Lynch, corresponding secretary. Miss Annie Sharkey read the treasurer's report.
The following committee on nominations was elected: Mrs. F. J. Power, Mrs. Joseph Gleason, Mrs. D. P. Chisholm, Miss Elizabeth McInerney, Mrs. Louis Comeau, Mrs. M. P. Coholan and Mrs. J. H. Doody.
The membership report was presented by Mrs. F. J. Fitzgerald. Mrs. George Carvill reported for the educational committee, telling of the home nursing course. There had been three lectures by Dr. John B. Nugent, Dr. E. J. Lunney and Dr. H. A. Farris.
Miss Elizabeth McInerney, secretary of the immigration and travelers' aid committee, reported. Mrs. T. C. Cox reported for the social service committee. Miss Ellen O'Regan reported for the physical committee.

Social and Personal Notes

One of the most brilliant and enjoyable social events of the season was the "at home" given by Mrs. W. Edmond Raymond, yesterday afternoon at her residence, Germain street in honor of Mrs. C. E. MacPherson, of Winnipeg. Lovely spring flowers of red and yellow salutes to the valentine season, were used for decoration in the drawing room, where the hostess received her guests, numbering more than two hundred. Mrs. Raymond wore a handsome tunic gown of gold beads and sequins with a bandeau of gold leaves, and Mrs. MacPherson, who received with her, wore a lovely frock of brown art velvet with smart brown and gold hat and wore a corsage bouquet of red roses.

William McAvity, Mrs. W. B. Tennant, Mrs. Daniel Mullin and Mrs. W. F. Roberts ushered the guests to the dining room and living room where the tea tables were presided over by Mrs. H. A. Powell, Mrs. A. M. Peters, Mrs. Nell McLean and Mrs. Joseph Key. The tea tables were beautifully arranged with spring flowers in the saucers, valsalta colors, and silver candelabra. Mrs. J. Verner McLellan, Miss Maud Addy, Mrs. Douglas White and Mrs. Andrew West Murray received, and assisting were Mrs. Charles Burpee, Miss Kathleen Sturdee, Miss Ann Armstrong, Miss Beryl Mullin, Miss Doris DeVeber, Miss Elizabeth Foster, Miss Alice Tilley, Miss Elizabeth Armstrong, Miss Constance White, Miss Margaret Tilley, and Miss Margaret Henderson. During the afternoon delightful music and vocal solos by Mrs. Frank J. Hodgson, Mrs. Blake Ferris and Mrs. Lingley of Montreal, were greatly enjoyed. CARLETON G. W. V. A. GETS NEW MEMBERS

Maritime Trade Mission is endorsed at West Side Branch Meeting.

Several new members were added to the Carleton branch G. W. V. A. last evening, and the report of the benevolent committee showed much activity during the last month. The meeting of the association was held in the Curling Rink, with the president J. G. Hart in the chair. A resolution endorsing the Maritime Mission was passed by a unanimous vote, and members expressed their approval of the visit of Messrs. J. D. McKenna, M.L.A., and A. M. Beiding to Ontario and Western Canada.

A scroll from the Dominion Command for special work on the part of Alexander V. Wright was presented by the president.

Arrangements for the card party and social to be given the patients in the D. S. C. R. Hospital were advanced.

A communication of thanks from King George for greetings at Christmas was received. His Majesty expressed his appreciation of the sentiment shown in the message sent from the Carleton branch.

GIFTS WELCOMED

Presentations Are Made to The United Church in East St. John.

The United Church in East St. John has received two very welcome gifts, announcement of which was made at the services in the church on Sunday by Rev. J. W. Bevis, minister. The gifts are a handsome wooden hymn board and set of numerals which were the work of C. H. Flewelling, who has presented them to the church and a beautiful pupil Bible, presented by the Canadian Bible Society through the local secretary, Rev. J. M. Murchison. Both gifts have been greatly admired and the generosity and kindness of the donors has pleased all members of the congregation.

The United Church is becoming well established and has already a large and growing congregation. The hall where services are held is usually well filled each Sunday evening and the Sunday school enrollment has grown to 75. The outlook for the future of the church is very bright.

435 VISITS IN MONTH.

The regular meeting of the Anti-Tuberculosis Association was held yesterday afternoon in the Health Centre with A. M. Peters, president, in the chair. The nurses' report submitted by Miss Alice Hegan showed 435 visits to patients during the month. The Christmas seal committee gave a report on the sale of seals showing that the net balance for the association funds had been \$925. The thanks of the Association were extended to the Christmas seal committee, Mrs. A. K. Harvie, convener; Mrs. Campbell Mackay, Mrs. Daryl Peters and Miss Katherine Bell, and others who co-operated.

ATTORNEY-GENERAL STONE APPEARS BEFORE SENATE JUDICIARY COMMITTEE

IN THE WORLD OF ART

"I am Master of my fate, the Captain of my Soul." And it is these immortal lines that Alvin Pollock, the noted sculptor, has illustrated in this work, showing the determination of man to carve out himself, to train, to prepare and to survive in the continuous struggle for existence on earth.

Here is the U. S. Senate Judiciary Committee before which Atty. Gen. Stone appeared to make statements with regard to the controversy which has delayed the Senate's approval of his appointment to the Supreme Court. The members are: 1—Spencer of Missouri; 2—Mearns of Colorado; 3—Sterling of South Dakota; 4—Ernst of Kentucky; 5—Cummings of Iowa, chairman of the committee; 6—Overman of North Carolina; 7—Shortridge of California; 8—Reed of Missouri; 9—Ashurst of Arizona; 10—Stanley of Kentucky; 11—Shields of Tennessee; 12—Caraway of Arkansas. The inset shows Atty. Gen. Stone before the committee.

WHERE WILSON SLEEPS

The sarcophagus for the late President Wilson has just been placed in the Bethlehem Chapel of the Washington Cathedral. It is recessed in the south wall of the chapel. Three flags surmount the canopy, two of them being the "President's flags" presented by the government to each president, representing Mr. Wilson's two inaugurations. The third is the U. S. flag which was carried by the American troops when they marched through London. It is the first American flag ever saluted by an English king on English soil.

Robinson Impresses Maritime Claims on Canada's Senate

SAYS PORTS MUST BE USED TO FOSTER NATIONAL UNITY

Moncton Senator Declares Remedy Must Be Found to Remove Discontent in Seaboard Provinces

SEES RATE CONTROL AS SOLUTION

Believes Government Proposal to Cut Ocean Tariffs and Reduce Land Rates Bears Much Promise for East—Urges Federal Development of 200,000 Horse Power Petitcodiac Tidal Power

OTTAWA, Feb. 10—An eloquent and informing presentation of the now widely discussed Maritime problems was made this afternoon in the Senate by the latest appointee to the Upper House from the provinces "Down by the Sounding Sea," Senator C. W. Robinson, of Moncton, who, in moving the reply to the Speech from the Throne, outlined the main questions engaging the minds of his fellow countrymen.

He dealt with ocean ports, the need of having more freight taken to St. John and Halifax by the Canadian National Railways and the large possibilities for both Nova Scotia and New Brunswick of the proposed tidal power development at the confluence of the Petitcodiac and the Memramcook rivers in New Brunswick.

MUST USE HOME PORTS

Senator Jules Tessier, of Quebec, seconded the motion in the reply and he was followed by Senator Gideon D. Robertson, who will act as leader of the Conservatives in the Senate during the absence, through illness, of Sir James Loughheed.

"To properly round out our Dominion," said Senator Robinson, "and strengthen the bonds of union between the provinces, it seemed of the utmost importance that the Canadian ports on both sides of the Atlantic and the Pacific seaboard should handle our foreign trade outside of the United States."

ARE ALLOWED TO LANGUISH

"On the Atlantic seaboard we have a number of good ports and harbors, some only open in summer, others year round, and yet in spite of this fact we allow a very large part of our trade to contribute to the maintenance of our own ports of as far south as New Orleans. In the meantime our own ports of St. John and Halifax are allowed to languish. Is it any wonder, then, that we hear mutterings from the Maritime Provinces? There must be some remedy for this condition.

PORTS' WORK IN WAR TIME

"During the war period we would have been in a sorry plight without these winter ports. Is it fair to use these only as a convenience? While it is true that goods will travel where rates are cheapest, that to my mind points the way to the remedy, and the proposed legislation to control the ocean rates, as well as the land rates, opens up a land of promise to our people down by the sea. To make the rates such that the West may receive the very best results from the fruit of its toil will materially help that great part of our country, not to mention the benefits of improved transportation rates to the country as a whole, and to control shipments so that they must pass through our own ports, will bring relief and hope to the citizens of St. John and Halifax in common with the other Atlantic ports of Canada.

"OF VITAL NECESSITY," HE SAYS

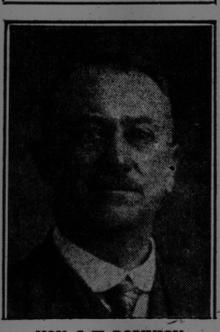

"I know nothing of the details of the proposed legislation beyond what has been foreshadowed in the newspapers, and I am merely pointing out the lines along which something may be done of vast importance to one of the oldest sections of our common country. It is a courageous step and invites criticism, but I trust the object sought may not be lost sight of. Something of that nature is of vital necessity if the people of the Maritimes are not to lose all confidence in the good faith of the rest of Canada."

LAND FREIGHT RATE REVISION

On the question of freight rates on land and the proposal of the Government to bring about this year some equalization of those rates Senator Robinson said "Down in the Maritime Provinces, that particular part of this Dominion where it is my good fortune to have my being, I sometimes think that we would be better off without such good transportation facilities between us and the rest of Canada.

LONDON, Feb. 11.—Poverty and a shattered love romance are believed to have been the driving forces leading to the suicide of Mrs. Minnie Rogers, a woman still amazingly beautiful despite the passing years, who at one time had the London music-hall public at her twinkling dainty feet.

The flat is situated over a garage. When the police arrived they raised a ladder against one of the windows, which they broke open. The body of Mrs. Rogers was composed gracefully upon some cushions, as though just about to take a few minutes' nap. But every gas tap in the place was turned on, and her head was in close proximity to a gas oven.

Canadian Press Despatch. OTTAWA, Feb. 10.—Robert Forke, Progressive leader, intimated in the House of Commons this afternoon that the Progressives would not give up pressing for further tariff reductions.

The speech of the Prime Minister last night had encouraged them for Mr. King explained that manufacturers had never been more prosperous "Canada's problems can best be solved by the intelligent and industrious efforts of the great mass of the people, rather than by government or legislation," Mr. Forke told the House of Commons at the opening of his speech on the debate on the address in reply to the speech from the throne.

Left to Government. Mr. Forke said that there was too great a tendency to leave to government the work that really belonged to the whole nation. It would require a man in the Government to carry out such tasks. "And they do not make such a man these days," Mr. Forke added.

He thought that through the development of private enterprise and public utilities rather than through the passage of legislation which met the mood of the moment and too often was forgotten as soon as it was on the statute books, would bring Canada "out of the land of bondage into the land of progress."

POTATOES JUMP TO \$1 A BARREL AT WAREHOUSE

Dealers Now Hope For Disposal of Whole of Season's Big Crop.

WARMER WEATHER AID IN SHIPMENTS

Improved Markets Are Reported in Cuba and Great Britain.

Prices of \$1 a barrel for potatoes, both Green Mountains and Cobblers, and some exceptional sales at \$1.10 a barrel for the former were reported last night by A. D. McCain, of Florenceville, one of the dealers of that district. Mr. McCain held out hopes for disposal of the entire record crop produced this year in New Brunswick and said that the market now was considerably firmer.

Earlier in the season potatoes were bringing only 70 cents a barrel to the farmers.

About Third Left.

He estimated that there was about 35 per cent of the yield still in the province but believed that it would be cleaned up before summer with very little difficulty. The markets were good and shipments were being made regularly, he said. His people would have a ship sailing from St. John near the end of this week and another probably following it next week.

Bying Heavily.

Guy Porter, of Andover, reported that his concern was buying between 8,000 and 9,000 barrels of potatoes daily at a price which had lately risen to 90 to 95 cents a barrel.

There was a good demand from Great Britain and Cuba, he said, and he believed that the rate of about two boats a week. There was about one boat a week for Cuba and the number for England brought the total up to nearly two a week from St. John. One had left last Friday and there would be another at the end of this week for the Old Country.

The advance in the American market had helped somewhat, he said, the price rising here in sympathy with the increase in the United States caused by the tying up of the Maine supply in light weather. He believed that the market price because of the heavy movements of the stock during the present warm spell.

Laud Efforts In Behalf of Maritimes

APPRECIATION of the objects of the Maritime mission was expressed by members of the Carleton Branch, G. W. V. A., at a meeting last evening when the following resolution was adopted:

RESOLVED, that the Carleton Branch of the Great War Veterans' Association of Canada records its deep appreciation of services rendered the Maritimes and particularly the Port of St. John by the Telegraph-Journal and Times-Star, in sending Messrs. A. M. Belding and James D. McKenna, M. L. A., to Upper and Western Canada in an endeavour to create a more sympathetic feeling towards the Maritimes, and in urging that Canadian trade be exported through Canadian Ports. During the war, Canadians from all over Canada responded to the call of duty, and those who returned handed together in one common body. The Branch therefore urges our Comrades in Upper and Western Canada, to use their influence in making the mission of Messrs. Belding and McKenna successful.

Further resolved that a copy of this resolution be forwarded to the Dominion Secretary Treasurer of the G. W. V. A. for transmission to the respective Provincial Commands, and

Resolved that the thanks of the Branch be extended to Messrs. Belding and McKenna.

VANCOUVER ONCE HAD TO FIGHT TO HOLD TRADE

Pacific Coast Citizens Appreciate Situation of Atlantic Compatriots.

WARMLY ENDORSE MARITIME MISSION

Something Should be Done For Dominion Outlets is General View.

BY A. M. BELDING Special Representative of the Telegraph-Journal and Times-Star now touring Western Canada in the interests of the Maritime reviews.

VANCOUVER, B. C., Feb. 10.—The people of Vancouver are keenly interested in the question of Canadian trade through Canadian ports. An effort was made to divert Canadian grain traffic from this port to Seattle and Portland and, therefore, the people know exactly what the situation is as between St. John and Halifax and American ports on the Atlantic. As one outspoken citizen put it: "If we cannot be independent of the United States why try to be a nation?"

F. J. Burd, managing director of the Province, said to me that I would find Vancouver in full sympathy with the plea for Canadian trade through Canadian channels.

Something Should be Done. I am to address the Board of Trade this evening. At the Rotary Club luncheon in the Vancouver today those who voiced their approval of my mission and of the need of a better understanding between the different sections of Canada.

With regard to the suggested export duty on wheat, public opinion here has not been crystallized, but that something should be done to protect our ports in the international arena. As usual, the Canadian Pacific was alert to be of service to the representative of the Maritimes. Trainmaster Merfin met me at the station. I had hardly reached my room when their press representative came up for an interview. Reporters from the Province and the Sun followed, and tonight our story is given not only in Vancouver papers but in this throughout the province.

Invited to Speak. The Rotary Club desired me to be next Tuesday's speaker if I remain that long. Today they entertained officers of the Japanese squadron now here and heard Lou Buckley, formerly of Halifax, speak on behalf of the boy. G. N. Harvey was one of the first to greet me and placed his car at my disposal to see the city and harbor.

"When you start your problems," said Secretary Payne, of the Board of Trade, "you are stating ours. Perhaps our largest problem is that of freight rates. After we've brought the rate federal authorities to reduce the rate on grain 10 per cent, our grain exports jumped to fifty-five million bushels a year, showing that the rate controlled the traffic. We hope to handle at least thirty millions this year of the smaller crop available. We now have seven and a half million bushels elevator capacity.

"One of our great needs is colonization just as it is yours. We also greatly desire a better trans-shipment service between Vancouver and Montreal in summer, and St. John and Halifax in winter.

"Another of our problems is that too much of our natural resources is exported in the raw state. Here, as in the Prairie Provinces, expression is given by some merchants to the feeling that this province pays overmuch tribute to the central provinces.

Maritime Newspapers Discuss Government Proposals Respecting Use and Equipment of Canadian Ports

Proposals Hold Out Helping Hand to Maritime Provinces

(TRURO NEWS) THE speech from the Throne, opening the fourth session of the 14th Parliament of Canada, holds out a helping hand to the Maritime Provinces in a definite announcement that the Government intends to equip the Atlantic ports of Canada to meet all requirements of modern navigation. Mr. Meighen, the leader of the Opposition, in a resolution that he has tabled in Parliament commits his party to the principle that all export and all national favors should, in export and import business, be conditional on the use of Canadian ports. Mr. Forke, the champion of the Progressive party in Parliament, has just stated that transportation will be the main topic for discussion at the present session of Parliament, and that

Would Aid in Solving More Than One of Our Problems

(The Sydney Record.) DISCUSSING editorially the possibility that the British preferential tariff may be restricted to importations made through Canadian ports, the Sydney Record says that the weakness shown by the Maritimes in the past has been that of failing to be energetic enough on their own behalf, and that they should exert themselves now "to obtain the further advantage that a change in the preference law would bring them." The Record points out that the preference is increased since 1921 in the case of British shipments brought into the Dominion through Canadian ports and says that "the course taken has already brought gain to Canadian ports, Maritime Province ports among them, and for that they may chiefly thank Rt. Hon. W. S. Fielding. But the restoration of the preference to goods brought to Canada directly through Canadian ports would add greatly to the volume of business done by these ports and to their prosperity and the prosperity of territory tributary to them, and add also to the business done by Canadian railway lines, thereby aiding in the solution of more than one of the country's problems." Though no announcement of Government tariff policy is to be expected until the budget speech, The Record goes on to say, there is some evidence that done by Canadian railway lines, thereby aiding in the solution of more than one of the country's problems. "Under these circumstances and in view of the fact that the Maritime Province ports would be great gainers from a change in the application of the preference," the paper says, "the Mar-

Maritime Ports Have Played Part of "Cinderella" Too Long

(Charlottetown Guardian.) THE pronouncement in the Government's speech and in Rt. Hon. Arthur Meighen's motion on the order of the House indicate that both the leading parties in the House of Commons realize the importance, if not the urgent necessity, of developing the Maritime ports in preference to that of Portland, Me. It has always appeared to us anomalous to continue the use of Portland at the expense of the general interests in Canada. We realize what that meant during times should immediately do all in their power to bring about the change and so add to the advantage they must gain from the announced federal policy of equipping Canadian ports to meet all the requirements of modern navigation.

Proposals Hold Out Helping Hand to Maritime Provinces

THE different sections of our confederation, irrespective of whether it pays or not. It would be good business for the country at large, in the extension of trade, even if there was loss to the railway system itself by a material reduction of freight rates. We want our increased volume of traffic, but if freight rates are kept high so as to make a railway system pay, this preventing the easy movement of our natural or manufactured products, these cannot be any trade expansion and no development of the country at large. We ask that our national railway be utilized to promote trade and traffic, irrespective of cost, between the different sections of the Dominion, that our Canadian ports be utilized for the export of our Canadian products and in Canadian bottoms if possible, that the Government, in the peculiar circumstances of the conditions of our Maritime coal mines, give us a bit more protection against foreign coal and that our preferential tariff be confined solely to goods entering Canada through Canadian ports.

general, was read. The letter said that if no effort at investigation was made by February 11 the correspondence in the matter would be handed to the newspapers for publication.

Laid Upon Table. Mayor Potts said he thought the best thing they could do was to publish this correspondence and he would take the same action again under the same circumstances.

The Commissioner of Finance and Public Affairs reported payments of \$136,662.28 for the month of January. A communication from Murray and Gregory, Ltd., offering to deed Prospect street, off Douglas avenue, to the city was referred to Commissioner Frink and Commissioner Wigmore for a report.

The secretary of No. 1 S. C. and F. P. wrote that Ralph M. Tennant had been elected a member of the corps and a warrant was ordered issued.

An application from O. S. Dykeman for permission to install three gasoline tanks in his premises, Rothery avenue, was referred to Commissioner Harding for a report.

Contract Awarded. Commissioner Frink reported that the tender for the city stables in Rothery avenue had been awarded to G. M. Lawson and he moved the cheques of the other bidders be returned to them. This was adopted.

Commissioner Bullock moved that harbor by-law governing rates for side and top wharfage, as amended and consolidated be adopted.

On motion of Commissioner Harding the bill of Manchester, Robertson, Allison, Ltd., for cloth, amounting to \$1,914.22, was ordered paid.

On motion of Commissioner Harding three months salary was ordered paid to the widow of Chief Blake.

Oil Tanks. A delegation of South End property owners, for whom K. J. MacRae acted as spokesman, presented a petition signed by about 300 residents of that section of the city protesting against the location and erection of oil tanks in the proposed location at the foot of Broadview avenue.

Mr. MacRae said they were protesting on the ground that there would be an increase in the fire hazard and in the insurance rates in the section where the tanks were located.

He read a letter from the New Brunswick Board of Fire Underwriters to Woodley and Lordy in which it was said that if the tanks were within 100 or 125 feet of a building the rates would go up considerably.

Other Dangers. He also contended that the erection of pile clusters in Courtenay Bay would hinder the development there of port facilities and there was the danger of breaking of the pipes and dumping of oil in the harbor.

He also pointed out that the land on which the wharf was to be constructed had been deeded to the Dominion Government for port development and should not be leased by the Government for any other purpose without the consent of the city.

His Worship then asked G. H. V. Belyea if he wished to say anything on behalf of the Imperial Oil Company and Mr. Belyea said the Imperial Oil

WINS SECOND PLACE IN INSURANCE RACE

New Brunswick Advertised at Convention—Maritime Mission is Praised.

The New Brunswick agency of the Mutual Life Assurance Company of Canada finished second in the yearly race for the cup presented by the company to the best agency, according to Hugh Cannell, provincial manager, who has returned after attending the annual convention of agency managers in Waterloo, Ont., last week.

Two Hundred There. While personally pleased over the success attained by his organization this year, Mr. Cannell said yesterday he was more pleased that New Brunswick secured such valuable publicity at a time when a big effort was being made to press the claims of the Maritime churches, he says, was attended by fully 200 from every part of Canada.

To be mentioned among the first six agencies, Mr. Cannell says, is an honor but the fact that New Brunswick finished second and almost won first place from the stronghold of the company gave this province much valuable advertising.

Endorse Maritime Mission. Mr. Cannell says he found the members of the convention keenly interested in the mission sponsored by The Telegraph-Journal and Times-Star in sending A. M. Belding and J. D. McKenna, M. L. A., to Upper Canada and the west to enlist the sympathy of other sections of Canada in the drive for fuller recognition of Canadian ports.

The Mutual men he talked to on the matter, he said, heartily endorsed the idea back of the campaign and said there was considerable justice in the claims of the Maritimes. Mr. Cannell was one of the speakers at the convention.

Company had been here for a number of years and as their business expanded were seeking accommodation to care for the increased business. They were not asking anything out of the way and in many cities there might be found oil tanks in the city limits.

The Mutual men he talked to on the matter, he said, heartily endorsed the idea back of the campaign and said there was considerable justice in the claims of the Maritimes. Mr. Cannell was one of the speakers at the convention.

Could Get Protection. The tanks were to be located so that no building would be within 100 feet and if the insurance companies of the city raised the rate it would be possible to secure protection outside the city at no greater rate than was now being paid.

The Imperial Oil Company only asked fair treatment. They could, if they so desired, move the stables to the lots recently purchased and place the tanks on the lots which they had under lease from the city, but they did not wish to do this.

Mayor Potts said the council had heard both sides of the case and would give the matter careful consideration before acting.

The Late Chief Blake. The City Council yesterday afternoon placed on record its appreciation of the 50 years of service rendered by George Blake as a member of the fire department and adopted the following resolution to be sent to the widow of Mr. Blake:

Resolved, That this council heard with sincere regret of the sudden death of George Blake, who for a period of half a century was a valued member of the fire department of this city and for the last 11 years filled the position of chief of the department; and further

Resolved, That this council does now place on record its deep regret at the loss of a valuable and efficient official, and as a token of respect for his memory records its appreciation of his conscientious and faithful discharge of his duties at all times; and further

Resolved, That a copy of these resolutions be engrossed and forwarded to the widow of the deceased under the common seal of the city.

VICE PRESIDENT GILLESPIE RESIGNS FROM MARITIME BRANCH

RESENTS ACTION OF OFFICIALS IN LOWERSON CASE

Considers Method of Carrying Out Rules Is a Farce

MONCTON, Feb. 11.—Charles C. Gillespie, second vice-president of the Maritime Province branch of the Amateur Athletic Union of Canada, has resigned from that post. Mr. Gillespie stated his reason for resigning was that he considered the A. A. U. of C. to be a farce in so far as consistency of the rules were concerned. In Upper Canada the branches break the rules right and left, and in the Maritime branch the first irregularity is immediately banned.

The Lowerson Case. One particular case is that of Carman Lowerson, who played in part of one professional baseball game here last summer. He is suspended and, according to Dr. Lamb, Dominion secretary, cannot be reinstated until next September, while Roy Prowse, of Charlottetown, P. E. I., is now playing amateur hockey with the Sons of Ireland team of Quebec, despite the fact that he was not a resident of Quebec one month previous to the opening of the league.

The Residence Clause. There is a residence clause in the A. A. U. of C. rules which calls for a man to be a resident of the town or city five months previous to his appearance on any team in league games. His asks why it is not enforced.

ST. PATS NOW SURE OF SECOND PLACE

Defeat Boston Bruins in Weird Game—Referee Was Given Razz.

BOSTON, Feb. 10.—St. Patrick's clinched second place in National Hockey League standing tonight by defeating the Boston Bruins in a weird game, 2 to 1. It was one of the most remarkable contests ever staged at the Arena, boasting, among other features, two forfeit goals, one for each team. Walter Small, of Montreal, as referee, failed to please supporters of either club. Bill Stuart fails, for the Bruins, Herberts played a game that added to his reputation as a first rate star. He was given miserable support by Stuart and Shay, each of whom missed many scoring chances. Stewart, in goal, saved the Bruins from a walkover score.

FREDERICTON TEAM WINS FINAL GAME

Took Early Lead Over St. Stephen and Win Out by Score of 10-3.

FREDERICTON, Feb. 10.—The schedule of the Western New Brunswick Hockey League closed here tonight with Fredericton beating St. Stephen 10 to 3. The game was a foregone conclusion after the first period when the home team took a four goal lead.

The teams were: St. Stephen—Goal, Eastman; left defence, Lowe; right defence, Lee; centre, Bonnell; left wing, Anderson; right wing, Riley; substitutes, Smith, Walker. Fredericton—Goal, Titus; left defence, Steen; right defence, Clark; centre, A. Sterling; left wing, Keen; right wing, Wade; substitutes, J. Sterling, Lynch. Referee, Fred MacLean.

Says St. John Skaters In Good Condition To Compete At Lake Placid

Along the Sport Trail

THE NEXT big skating classic of the year is to start at Lake Placid tomorrow and it is expected that St. John will again win recognition through the classy contingent of skaters who are to compete. Charlie Gorman is expected to be in better condition than when he entered the International championships and his friends are confident that he will make a strong bid for premier honors. In addition to Gorman, Bernard O'Connor and Mike Lawson will appear in senior events, Gorman skating among the select few in the Diamond meet, while the other two seniors will be in the silver trophy competition. O'Connor is very fast on short distances and is expected to make good. Mike did not place in any of the International events. Willie Logan will compete in the 18-year-old class. He is a strong favorite as a result of winning both the Canadian National and International titles. Ed Snodgrass and Clement O'Connor, who won honors in this class, will also compete. The others classes will be the strong representation that the other big meets had. Tommy Tebo, who was one of the largest point scorers in the 16-year-old class and who made such a strong bid for the International title, is home. George Fowler, the class 14-year-old skater, who made such a splendid showing arrived home unexpectedly Monday. His father, who alone had to finance his trip, planned on him taking part at Lake Placid and had forwarded money for that purpose, but before it arrived George realizing that his roll was getting pretty thin started for home. It is regrettable that such a wonderful junior skater is not carried by the circuit or else financed by this city. He is the 14-year-old International indoor champion, Canadian National outdoor champion and runner up for the International outdoor title. St. John should be proud of these sensational junior skaters and it should not be up to the father of any family to have to finance their trips. St. John is in an enviable position in the skating world and through the achievements of her boys has received a mint of valuable advertising. The city should stand behind the skaters and not leave all of the burden on individuals. The St. John Amateur Skating Association are financing two skaters on the big circuit, Charlie Gorman and Willie Logan. St. Peter's Y. M. A. are financing two, Clement O'Connor and Frankie Logan. The Y. M. C. I. is backing Bernard O'Connor, but Tommy Tebo and George Fowler were financed by their parents. Norman Buckley, Ed Snodgrass and Mike Lawson were also forced to find the necessary "where with all."

SHOULD an amateur athlete be paid for time lost from his occupation while competing in meets? This is not a new question, but it is sure to cause a stir in Simon Pure ranks when introduced by Baron De Coubertin, president of the International Olympic Association. Sweden approved of this suggestion in 1923 although at the time other nations strongly opposed any such innovation.

Even a suggestion of this kind is not welcomed by amateur officials, who undoubtedly have good grounds for fearing that there would be opening a door that would lead to the commercializing of sport and one that once opened would be hard to shut. However, there is an argument on the side of the athlete which is worthy of consideration. Many stellar performers who give promise of developing into champions are denied the right to seek honors in other centres because of responsibilities. The loss of time and wages would be because of responsibilities, and as a result they must curb their ambitions and allow others, sometimes not as efficient but with better backing to take their rightful place. If these athletes knew they were entitled to an amount equivalent to their wages they would be able to leave their work and participate.

On the other hand many amusing features would attend the payment of athletes. Every Tom, Dick and Harry, would consider participation in sport equally as lucrative and far more interesting than the ordinary every day humdrum of life, and there is one thing certain there would be hundreds seeking places on teams eager to enjoy trips, have a good time and get paid in the bargain. The big question which arises is, who would pay all these athletes? Baron De Coubertin may have some strong arguments to advance when he brings this proposition before the leading amateur officials of the world, but he will need them for every one advanced on behalf of an athlete will be met by a score showing the danger of any such innovation.

CONSIDERABLE interest will be manifested in the International amateur boxing tournament, which is to be held in Boston tomorrow night. Canada is sending four representatives: George Chabot, 135 pounds; J. L. Loughlin, 147 pounds; Don Marshall, 160 pounds, and Jean Latelle, 175 pounds. All of these are in charge of Mike Brousseau, a former Canadian champion, who lost his title to Mike McTigue, present light-heavyweight champion of the world. The British team is made up of Harry Mitchell, 25 years of age, the world's and British amateur light-heavyweight champion; Jack Elliot, 23 years of age, British middleweight champion and runner-up in this division at the Olympic last summer; Patrick O'Hanrahan, 30 years of age, British welterweight titleholder, and George Gogay, lightweight champion of England. The United States will be represented by Johnny De Angelis and Jack Twobig of Brockton, in the 135 pound class; Dan Morgan of Lawrence and Eddie Adonis of Boston, in the 147 pound class; Pat McAtteer of Dedham and Phil Flanagan of Revere, in the 160 pound class; Joe Monte of Brockton and Jimmy Madden of Roxbury in the 175 pound class. This should prove a wonderful meet and many local fans would give much to be able to witness the programme. However, the Y. M. C. I. officials, who are to stage the Maritime championships here next Monday and Tuesday, have arranged to have two of the best Montreal boys and two of the classiest amateur boxers in Boston appear in exhibitions. This should make the title meet here one of the most attractive ever staged in these parts.

Make Arrangements For Maritime Meet

AT A meeting of members of St. Peter's Y. M. A., which was held last evening, final arrangements were made for the Maritime skating championships, which are to be held under their auspices on March 2. It was decided to close the entry list on February 24. All senior and junior skaters desiring to take part should send their entries to W. E. Sterling. Beautiful prizes will be awarded to the winners.

TURF STEWARDS MEETING TODAY IN FREDERICTON

Expect St. John Will Be Admitted in Maine and N. B. Circuit.

FREDERICTON, N. B., Feb. 11.—Maine and New Brunswick Harness Racing Circuit stewards, are this afternoon winding up their business for the season of 1924, and considering applications for membership in the circuit for the 1925 season. The afternoon meeting is being followed by a banquet at which the Fredericton Driving Club are hosts to the visitors, and this will be followed by an informal smoker, when there will be an open forum for campaigning horsemen to express their views.

Will Elect Officers. Before the first annual meeting of the circuit closes tonight, the Board of Stewards for 1925 will elect their officers, and dates will be allotted for the season's racing, which will give horsemen who campaign down East no idle weeks from the end of June until early in October.

President Justin C. Rose, of the 1924 organization, was unable, because of public business engagements, to come here from Houlton, Me., and Arthur R. Fairbanks, of Presque Isle, Me., who has been secretary treasurer for several years, was prevented from coming to the circuit meeting, because of undergoing a minor operation.

St. John in Circuit. W. H. Gocher, of Hartford, Conn., secretary of the National Trotting Association, reached here this afternoon, and was given a rousing reception by the assembled horsemen.

Presque Isle, Caribou, Houlton, Woodstock, Edmundston, Fredericton, St. Stephen, St. John and Moncton tracks were all represented, and Chatham and Charlottetown, P. E. I., are expected to become members of the circuit.

Favor Win Race Record. Horsemen as they gathered were said to favor a continuance of classification of horses according to win race records, rather than by money winnings, as proposed by the Harness Horse Association at their Chicago convocation. While dash races and possibly claiming races may be tried on the circuit, it seemed that the majority of down East horsemen prefer the standard style of mile heats racing, but with a growing sentiment in favor of the three heat plan instead of the old-fashioned 3-in-5 battles with their killing effect upon campaigning horses.

EXPECT SLATTERY TO WIN. NEW YORK, Feb. 11.—Despite the recent success of Jack Delaney, the light heavyweight from Bridgeport, Conn., many boxing followers expect Jimmy Slattery, youthful Buffalo boxer, to win the six round contest in New York, Friday. Slattery already has secured a point victory over the Connecticut man.

CENTRAL TEAM WINS. In a very fast game of basketball on the Central floor, the Central Independents defeated the Portland church team last evening by a score 39-29.

ARE RESTED UP AND WILL SEEK NEW LAURELS

Fred Logan Writes About Great Work Of Local Boys

That the St. John boys had rested up after their hard fight in the international championship meet and are in good condition to seek new laurels in the Diamond Trophy competition at Lake Placid was the good news received from Fred Logan today. He said that the rest had done Gorman a lot of good and as a result all were confident that he would make a better showing in the races tomorrow, Friday and Saturday. Willie Logan is also in good shape to skate and will make a strong bid for the championship of his class.

Had Hard Fight. Speaking of his son's achievements at Toronto and Saranac Lake, he said fans have no idea how hard he had to skate. In both the Canadian National and International meets he was forced to skate off as he had tied with other skaters. Last Friday he made a remarkable showing in the 220 yards skating the distance over soft and rough ice in 20-1-5 seconds. On Wednesday in his heat he won in 19-5-5 seconds which is a record for junior skaters. In the final he was left standing on the mark, but went after the pack like a flash and in a sensational burst of speed passed them and breathed the tape a winner.

Will Withdraw Frankie. Mr. Logan said he will not let Frankie skate any more for a while as he realizes that such hard competition is taking too much out of him. He explains that he is so young that he might injure his health if he did not get a good rest. This little chap started in four races and won them all. In Toronto he skated the 220 yards in 22-3-5 seconds.

Regarding Clement O'Connor, he said he is getting better all the time and is developing into a good sprinter. He explains that he is not quite strong enough for the long races and, realizing this, sent him out after the lap race in the international meet, which he won, but was unable to place.

Invited to Skate. Mr. Logan has been asked to take his two sons, Frankie and Willie, to Boston, Toronto and Pittsburgh for exhibition races, but has not as yet decided what to do. He says he does not like keeping them away from school too long.

A new tennis racket with folding legs that becomes a seat for the player was invented recently.

British Consols Were a Good Investment Because the British People Were the British People German Consols Are a Good Investment Because the German People Are the German People

Many of these far-sighted investors have already reaped handsome profits. It is more than half a century since the investing public has been offered the opportunity that the facts set below, taken collectively, constitute. It may be another fifty years before the opportunity will occur again. They not only merit your careful consideration and judgment, but you owe it to yourself to decide and act at once.

The Precedents

England prior to, and during the Napoleonic Wars, British Consols (as England's Consolidated Annuities are best known) were steadily in vogue. Great Britain at the end of these protracted wars, found herself in the position of a victor who had piled up a huge debt. For a while, confidence was shaken in her ultimate financial recovery.

Reasons for a Part

Germany lost the War, but the inherent wealth of her mines and industries, the skill and inventive ability of her people still remained. In 1923, Frank Harris, one of America's foremost political writers, in his Travel Notes, wrote in part: "To talk of Germany as bankrupt is absolutely idiotic. This German people is very proud, no beggars here as in Russia and Poland. This people is disciplined. It will bear hardships in stoic silence as it did after the Thirty Years' War. A nation of 70,000,000 people of the character and ability of the Germans, could not be effited; their incalculable courage and their business ability could not be killed."

SONG LECTURE IS TREAT AT ART CLUB MEETING

James F. Browne, School Musical Superintendent, Is Speaker.

SONGS ARE SUNG TO MATCH WITH TEXT

Delightful Programme Made Evening One of Keen Enjoyment.

No more delightful programme has been given for the St. John Art Club than was presented last night when James F. Browne, superintendent of musical instruction in the city schools, gave a very instructive and interesting address on "Song, its origin and development as an art" and by way of illustration some of the city's most gifted artists sang the numbers which Mr. Browne had selected.

Mr. Browne traced the formation and growth of the musical scale, showing that different people and different races had developed scales entirely characteristic of their temperaments. He spoke of the Western system as having been founded on the ancient Greek and told of the introduction of the new system of tuning by Bach.

Speaking more particularly of songs, he said they had begun with the people, not with the composer, folk music being the earliest form of song, and he described a folk song as being a strongly racial popular song which had become a tradition. Such songs must be simple and direct in their appeal and they followed a simple rule in music, having first the subject, the repetition of the subject, a contrast, and then a return to the first subject.

First Written Song. The first written song known, Mr. Browne said, was the catch or round "Sumner is Coming" which was attributed to John of Reading and was dated about 1240. He then called upon Miss Jessie Jamieson, contralto, Miss Phyllis MacGowan, soprano, and Chester Bourne, tenor, to sing his own arrangements of three folk songs, "Drink to Me Only With Thine Eyes," the composer of which, he said, had been discovered to have been a medical doctor, Henry Harrington, who died in 1784; "All Through the Night" and "Old Black Joe." Then Miss Jamieson sang "MacGregor's Gathering," of which song Mr. Browne had given a very interesting historical sketch.

Art Songs. That concluded the folk song illustrations and Mr. Browne then passed to a description of the art song, which he betrayed definite ideas and feelings and was the conscious product of the artist. He spoke of Henry Purcell, 1658-1690, as the greatest of British composers. Miss Florence Warwick sang "I'll Sail Upon the Dog Star," from Purcell's "The Fool's Preference," and then by way of contrast Miss Jamieson sang another of the same composer's works, "Fairest Isle All Isles Excelling" from the opera King Arthur. Mr. Bourne sang "Passing-by," a lyric bit by Henry Purcell's son.

With Masters. The selections were all given in chronological order and the classic period was skipped, passing reference being made to the careers of Handel, Mozart and Beethoven. Then in the romantic period came Schubert, whose "Ode to Music" was sung by Miss Jessie Jamieson, and Miss Warwick sang Mendelssohn's "On Wings of Song." "A Beautiful Flower" by Liszt Mr. Browne described as being unequalled for musical grace and beauty of sentiment. It was sung by Miss MacGowan. Passing from Franz to Brahms Miss Jamieson sang a lullaby by Brahms and Miss Warwick followed in "A Little Witch" by Tschakowsky, whose versatility Mr. Browne spoke of as nothing short of amazing.

Coming to the modern composers, Mr. Bourne was heard in MacDowell's "To a Wild Rose," and Miss MacGowan and Miss Jamieson took part in a duet, "A Song of Love" by S. Nevin. The final number was "A Spirit Flower" by Campbell, sung by Miss Warwick.

Enthusiastic thanks was extended to lecturer and artists and some of the singers kindly consented to sing additional numbers.

Must Get Money or Children's Aid Society Will Close Doors

Overdraft Exceeds Legal Limit—Finance Committee Takes Up Case.

A special meeting of the finance committee of the Municipal Council has been called for tomorrow afternoon at 3 o'clock to consider ways and means of providing funds for the carrying on of the Children's Aid Home, Garden street. At the end of January there was an overdraft of more than \$3,300. This and bills of about \$400 to be evening bring the over-expenditure to date up to nearly \$4,000.

Overdraft Too Large. It was said this morning that there was at the office of the county treasurer a credit balance of \$695, and there was the grant of \$5,000, but this would not be available until the taxes had been collected. The treasurer said this morning that the overdraft at the bank was already greater than the law allowed unless some way of getting the necessary funds to carry on with was devised the institution would have to close its doors.

WORDS OF THANKS COME TO RED CROSS

Gratitude For Donations—Cases or Relief During Month 138.

A meeting of the local Red Cross in their rooms this morning was one of thankfulness, expressed from many sources, for donations sent out by the society during the cold weather. The meeting in turn moved votes of thanks for donations sent in and work done for them. Mrs. R. Rankine was especially mentioned and the secretary was asked to send her a letter of thanks for helpful work done during the last month.

Mrs. Alfred Morrisey, president, was in the chair. The members present were Mrs. Atkinson Morrison, Miss Frances Stetson, Mrs. James H. Doody, Mrs. Margaret Lawrence, Mrs. James L. McAvity, Miss Alice Walker, secretary, and Mrs. I. E. Longley. Miss Grace O. Robertson, secretary of the Associated Charities, sent a note of grateful appreciation for a donation of \$100 from the Red Cross for her work and Miss Hulola Dykeman superintendent of the St. John Health Centre, was heard from in relation to an acceptable gift of \$15 toward the maintenance of a nurse for the Mahanah quadrants. These letters were read by Miss Walker, who also told of donations to the Navy League, from which thanks was received. Miss S. Barrington reported for the home nursing department.

138 Cases. Cases applying for relief during the month numbered 138. These were referred to the Associated Charities, which supplied groceries and clothing. There were several sick cases cared for by the Red Cross and work found for several who applied to them.

MANY HAD TO HAVE NEW SETS OF PAPERS

Surprising The Number Who Made Out Income Statements at City Hall.

Last night at 9 o'clock the time for filing income and personal property statements for 1925 at City Hall, expired and there was one grand last minute rush to place the necessary returns in the custody of the Board of Assessors before they applied the penalty for not filing. A feature of yesterday was the very large number of citizens who came and had to fill out the papers after they got to the City Hall, having either forgotten or mislaid the copies of the forms which had been mailed to their homes. The number of these was surprising. This added to the work of the assessors.

No Statement Yet. The entire staff were busy this morning sorting out the papers and getting them ready for the chairman to tabulate. It was impossible this morning, Mr. Olive said, to say how many papers had been filed and how the number compared with last year.

EXPECT 562 CATTLE TO ARRIVE TONIGHT

Four Steamships to Take 1,850 Head From Here to Great Britain.

The biggest cattle shipment ever forwarded through this port to Great Britain is due here the latter part of this week from Montreal, where the animals have been concentrating from points as far west as Edmonton, Alta., during the last few days. The shipment consists of 1,850 head of cattle, and will be taken from here across the sea in four steamships, the West Madaket, the Concordia, the Manchester Corporation, and the Canadian Commander. All but the first-named are now in port, and the West Madaket is due this evening from Boston.

Some Here Tonight. According to advice this morning from Canadian Pacific headquarters, 31 cars, carrying 562 head, are due from Montreal this evening. This shipment is for the West Madaket. Twenty-two cars, carrying 480 head, for the Concordia, are due here Thursday evening, and also 14 cars of 255 head for the C. G. M. steamer, the Canadian Commander. The final movement will be 80 cars of 550 head for the Manchester Corporation, expected to arrive here on Friday evening.

ENTERTAIN WELL AT PLEASANT POINT

Performers Give Clever Presentation of Playlet and Swell Piano Fund.

A very successful playlet in three acts, entitled "Iron-Clad from Puxian Creek" under the auspices of the Golden Rule class of the Union Sunday school at Pleasant Point, was given last evening in the school room of the hall. Harvey Arto was managing director of the performance, which excelled in acting and created mirth from start to finish. The costumes were true to type and added not a little to the amusement of the audience. Miss Lucy Black sang a solo very effectively. Fudge and peanuts were sold. The sum of \$25 was realized towards the piano fund. Mrs. James Spiane was accompanist throughout the evening and greatly aided the success of the performance.

The Players. The cast was as follows: "Aaron Slick," Harvey Arto; "Mrs. Rosie Berry," widow, Mrs. Ernest Arto; "Wilbur Merryday," speculator, Walter Poley; "Gladys May," his niece, Inez Irvine; "Sis Riggs," the tomboy, Sylvia Hamm; "Clarence Green," smart young man, Kenneth Thorne; "Girl in Red," Cynthia Irvine.

GETTING IT AWAY. The heavy and Sewerage Department had the steam boilers out this morning thawing out some of the catch-basins which had become frozen and were falling to carry off the water running in the gutters.
