**A NEAR VIEW OF GEN. CHRISTIAN DE WITT.**

(Thomas F. Millard, in Scribner's.)  
The figure of middle height, was stocky and well-set, conveying at a glance an impression of physical strength. There was nothing in the appearance of the dress of the man to cause one to steal him out from among any crowd of burghers. There was no attempt at uniform. A daisy, daisy-blue sweater concealed the shirt—there was one—and the trousers were an ordinary pair of brown overalls. Coat there was none. A bedraggled little cockade of strick feathers was stuck in one side of the hatband.

**but it had lost its freshness and drooped dispiritedly. Not the slightest indication of rank was visible. But for the light magazine sporting rifle slung across his shoulder and a bandolier filled with cartridges, he might easily have passed for a farmer who had just left his plough. As he faced us, with his back to the setting sun, his face was obscured in shadow. I could see that it was bearded, and belonged to a man well along in middle age, but little more. Still I recognized nothing when I saw that even at that moment I was conscious that it was not the face of a common place man. Perhaps it was his straight, secure seat in the saddle, perhaps his air of cool assurance and self-possession, perhaps the quiet, even tones of his voice; but, at any rate, the impression was instantaneous and permanent.**

**SENSATIONAL CASE.**

**Society Woman, a Bride of a Month, on Trial for Murder.**

KANSAS CITY, Mo., June 2.—Mrs. Lulu Prince-Kennedy, a bride of a month, who has been in the county jail since January 10 last, held under indictment for murder in the first degree, for deliberately killing her husband, Philip H. Kennedy, contracting agent of the Merchants Dispatch Transportation Company, was brought to trial in the criminal court here today. The woman's father, C. W. Prince, proprietor of a billiard hall, and her brothers, Albert Prince, a travelling musician, who has circled the globe on a concert tour, and William Prince, a young business man, will be tried later on a charge of conspiring with Mrs. Kennedy to kidnap her husband. The father and Albert Prince are out on bond, while William Prince is in jail. His relatives' canvass for bail having proven unsuccessful.

The case is one of the most unusual in local criminal history, and sensations are promised by the state. Both the Kennedy and the Prince families have lived in Kansas city for years, the Kennedys being prominent in social and business circles. Philip H. Kennedy was 28 years of age. He had known Lulu Prince for a year and in that time had paid her some attention. In December they were married at the court house by a local judge. Kennedy refused to live with his wife and a month later brought suit to have the marriage annulled, alleging duress. He charged that the woman's father and brother William compelled him at the point of revolvers to go before the judge and call him into the hall, that five times killing him instantly. Kennedy's brother tried to disarm the woman, and while doing so, was struck down by William Prince. The latter's presence in the building and the movements in the vicinity of the Prince, that day led to their arrest on charges of being accomplices in a conspiracy to kill Kennedy.

During her five months' confinement in jail Mrs. Kennedy, who is but 20 years of age, has suffered no remorse for her crime, and has frequently expressed her contempt for the law. She has been seen by her musician brother. Each side has worked up their case carefully, the state having summoned 12 witnesses to the defence nearly that number. Last night, for the first time since her daughter has been in jail, Mrs. Prince visited her and talked coolly of her coming trial.

**PORTO RICAN TRADE.**

NEW YORK, June 2.—W. H. Hunt, secretary of Porto Rico, arrived here today on the steamer Ponce from Porto Rico. Mr. Hunt said that conflicting reports of the decisions in the Porto Rican cases had led to some uncertainty as to what were the true results when he left Porto Rico. Under the decisions, however, he believed it would not be many months before free trade with Porto Rico would ensue. He said that when the new revenue law had gone into operation after July 1, the government of the island, with duties collected on foreign importations and with excise taxes, would have enough to maintain itself. Conditions in Porto Rico were improving and hopeful. The people, he said, were adapting themselves to the changed government and looking forward to gradual improvement.

**VON WALTERSEE LEAVES PEKIN.**

PEKIN, June 2.—The departure of Field Marshal Count Von Waldersee from Pekin today was marked by a great military display by the allied troops, the booming of artillery and the playing of bands. The entire diplomatic body escorted the field marshal to the depot. Von Waldersee, the aide-de-camp and nephew of Count Von Waldersee, will remain here to escort Prince Chun, the emperor's brother, to Berlin, where he will formally apologize in behalf of China for the murder of Baron von Kettler.

**MORGAN IS GENEROUS.**

NEW YORK, June 2.—J. Pierpont Morgan has presented to the museum for the arts of decoration of Cooper Union the Bodie collection of Barcelona, the Rivas collection of Madrid, and the Havas collection of Paris. These collections include examples of textile fabrics and designs from the middle ages to the present, and are said to be three of the most valuable collections in Europe.

**SUNDAY GOLF.**

NEW YORK, June 2.—The police of Tonkers, N. Y., have arrested Benjamin A. Adams, a member of the board of education of that place on the charge of playing golf on Sunday. The Sunday law crusade began several weeks ago and has been pushed by one side and opposed by another with fierce energy. It was started because of Sunday baseball playing.

**THE WEATHER.**

TORONTO, June 2.—Moderate to fresh southerly and southeasterly winds, cloudy and foggy, followed by showers, Tuesday southwesterly winds, showery.  
WASHINGTON, June 2.—Forecast—Eastern states and northern New York—Fair tonight, with lower temperature in east portions; Tuesday, fair, fresh northwesterly winds. Western New York—Partly cloudy tonight; Tuesday, fair; light westerly to southwesterly winds, becoming variable.

**SOUTH AFRICA.**

**Scout News From the Front—Zerust Was Besieged for Months.**

NEW YORK, June 2.—A special to the Tribune from London says the uncertainty with regard to recent operations in South Africa is causing a good deal of uneasiness in this country. It is believed that owing to a recent warning from General Kitchener as to giving news to the public, the home officials have suppressed almost all the news he has forwarded.

Meanwhile the daily lists of casualties are anxiously studied, but these lists do not fully denote the actual number of deaths of British soldiers caused by the war. At the present moment all the military hospitals in the United Kingdom are crowded with patients, a large number of whom are suffering from enteric fever, contracted in South Africa.

LONDON, June 2.—The war office is making no effort to allay the public uneasiness occasioned by the scantiness of the news from South Africa. Nothing has yet come through to illuminate the Vlakfontein affair, the only despatch on the subject since the first official announcement being a three line message from Lord Kitchener issued this morning, giving the names of three additional officers killed.

**YARMOUTH S. S. CO.**

Two Lines Said to be Competing for Their Property.

HALIFAX, June 2.—With reference to the reported sale of the Yarmouth S. S. Co.'s property to the D. A. R. it is stated on pretty good authority that unless the D. A. R. makes the purchase this week the Yarmouth company will sell out to another line that has made an offer to purchase at a good figure, and that this week will see the transfer to one or the other.

**THE NORTHWEST WILL EXHIBIT.**

BUFFALO, N. Y., June 2.—The northwest territories of Canada have decided to make a livestock exhibit at the Pan-American exposition. They will send from 50 to 100 range fed wethers to the sheep exhibit; also four carloads of range fed, four-year-old steers to the cattle show of the Canadian and Shorthorn breeds, not eligible for registration. It is proposed to make horses the leading feature of the exhibit. It will include a four-in-hand team of bronchos, a carload of range horses, selected teams of heavy draught, coach horses and hackneys, one or two thoroughbred, cavalry chargers and gentlemen's saddle horses. It is the intention to sell all these exhibits at public auction in Buffalo after the exhibition is over.

**A SERIOUS AFFRAY.**

TIEN TEIN, June 2.—There was a serious affray yesterday between international troops. Some British Fusiliers, who were acting as police here and preventing French soldiers from house breaking, were attacked with bayonets and bricks. The Fusiliers responded by firing into the air. This brought a number of Germans to the aid of the Frenchmen. They numbered together 200 men. Five Fusiliers fired again, this time killing a Frenchman and wounding three others. In subsequent fighting four Fusiliers, five Germans and one Japanese were wounded. The arrival of a German officer and a strong guard ended the fray.

**ANOTHER BIG COMBINE.**

PITTSBURG, Pa., June 2.—C. C. Loring, of Boston, who was one of the organizers of the American Steel & Wire Co., is in Pittsburgh to interest local shoveller manufacturers of Western Pennsylvania in a proposed combination of shovel plants of the United States. Eastern and western shovel manufacturers, it is said, have agreed to the consolidation and Mr. Loring expects to secure the signatures of the Pittsburgh manufacturers this week. The proposed combine is to be capitalized at about \$10,000,000, and will include sixteen of the largest shovel manufacturing concerns in the country.

**THE BUFFALO STRIKE.**

BUFFALO, N. Y., June 2.—Referring to published despatches from Toronto that the strike of the New York Central machinists in this city was unauthorized and illegal, agent Gillespie of the strikers union, said today: "I heard the report, but I think the strike is regular in every way. It is a local strike and was lawfully voted on before being declared. True, permission was not obtained from the international organization, but the strike is legal."

**A NINE HOUR DAY.**

WILMINGTON, Del., June 2.—The Batts Machine Co. and the Standard Machine Co., employing about 75 men, have granted the nine hour day with ten hours pay to the striking machinists. The men returned to work today.

**BOY'S AWFUL DEATH.**

**He Played Once too Often With Electric Wires.**

NEW YORK, June 2.—George Chandler, of Irvington, a boy of adventurous spirit, knew enough about electricity to know that when linemen work in mid-air and are insulated from the ground they can grasp a trolley wire without injury, providing they touch no other wire. So the boy often ascended the poles and grasped wires without harm, much to the surprise of his companions below.

Last night George had a wire in his hands, and with this he told his boy friends he would produce an electric light by connecting a trolley wire and a telegraph wire. He mounted the telegraph pole, which stood almost in front of his house. He had a wire in his hand, and this he threw over the trolley wire. Then, reaching out on the cross-arm of the pole, George swung the other end of his short wire over the heavy bare wire that supplies electric light for the town. Instantly there was a light, George was beheaded. The ends of the wires connecting the electric and trolley wires and the light came from his bare hands. The boys below shouted approval. The body of the boy aloft loosened from its place on the cross arm of the pole and swung out with the light coming from the hands. Then the body fell headlong, burned and smoking, with his hands fairly burned to carbon. A doctor said the boy had been killed instantly by the shock and what his companions mistook for a daring swing in mid air was only the convulsive movement of a body twisted and contorted by a powerful electric current.

**ROCKEFELLER'S GREAT GIFT.**

NEW YORK, June 2.—The Herald will say tomorrow: "Indications are that the \$200,000 which Mr. Rockefeller has given as the capital of the new institute of medical research is a trifling sum compared to what he contemplates giving ultimately to the same cause. The work will be done at Columbia university, Harvard university, the university of Chicago, the university of Michigan, the university of Pennsylvania, Johns Hopkins university, McGill university of Montreal and the headquarters of the New York health department. The directors of the new Rockefeller institute will have supervision over it, but it will be performed by physicians whom they will employ. The work may go on for a year or two before definite plans are made for a permanent institution. The investigation of the country's milk supply will be the first important problem of which the directors will take hold. Their work is to be chiefly bacteriological."

**A DEADLY EXPLOSIVE.**

NEW YORK, June 2.—The Press says Maximite, the new explosive invented by Hudson Maxim, has been adopted by this country after a series of successful tests at the Sandy Hook proving grounds. The secret of the explosive has been sold to the government by the inventor, and the explosive, it is thought, may revolutionize warfare. It is said to be more deadly in its character than lyddite, yet so safely can it be handled that the danger attaching to its use is less than that incurred in transporting ordinary black powder. The tests indicate that the explosive will place a 12 inch Harveyized nickel steel armor plate and explode on the other side with sufficient power to destroy everything with which it comes in contact. The inventor thinks the moral of these developments is that the ponderous battleship must go and be replaced by the small, swift torpedo boat or torpedo gun-boat and cruiser.

**CONGRESS MAY MEET IN JULY.**

NEW YORK, June 2.—A special to the Herald from Washington says: "The officials of the administration for the first time since the announcement of the decisions of the supreme court in the insular cases, admit that there is a possibility of an extra session of congress in July. If Attorney General Knox, after a careful review of the decisions, shall conclude that the president does not have power under the Spooner amendment to the army appropriation bill to impose duties on goods going into the Philippines from the United States or coming into the United States from the Philippines, the president will seriously consider the advisability of issuing an immediate call for an extra session of congress. This statement is made on the authority of a member of the cabinet."

**HIGH PRICED MEATS.**

NEW YORK, June 2.—The butchers of this city have announced an increase in the price of meats. The increase will go into effect this morning. The wholesalers have increased the price of carcasses to 82-4 and 9 cents a pound, an increase of about one cent over ruling prices. Retail prices will be advanced as follows: Sirloin steaks advanced from 16 and 18 to 18 and 20 cents a pound; porter house from 20 and 22 to 22 and 24 cents; round steak from 16 to 18 cents a pound, and roasts from 11-1-2 and 11-1-3 to 12 and 12 cents a pound. Veal prices remain the same, but lamb is scarce and higher.

**WHY NOT FROM CANADA?**

NEW YORK, June 2.—A special to the Tribune from Washington says H. A. Pearson, assistant chief of the dairy division of the department of agriculture, who has just returned from a three months tour of inspection in Cuba and Porto Rico, calls special attention to the demand for cheese in those countries, saying that at present most of this supply comes from Holland, Denmark, Italy and Switzerland.

STREET RAILWAY EXTENSION. With regard to what President Ross has said on the subject of street railway extension, the citizens expected no less than that he would say the company is kindly disposed toward St. John.

FOR NORTHERN ONTARIO. A good deal has been said in the press during the last year concerning what is called new Ontario.

An Ottawa despatch says that if Mr. Chamberlain's views prevail the reconstruction of the judicial committee will be a radical one, and will provide a snug berth for the Canadian who may be a member.

At Birmingham last week Hon. Joseph Chamberlain, addressing the annual meeting of the Oddfellows, referred to old age pensions, a subject to which he paid considerable attention.

Not long ago we published a statement showing that many cases of consumption in its early stages had been effected by a simple process of making the patient sleep in the open air.

The Montreal Witness is not pleased with Mr. Tarte. Concerning his conference with representatives of Montreal shipping and commercial interests last week, it says he "simply buried the question at issue under a mountain of generalities."

A large party of shanty men from the backwoods of Quebec, who are expected in Montreal daily, are to be quarantined by order of Dr. Bryce.

Some people do not seem to know when they are well off. It is the Montreal policemen who are now finding fault. They are complaining because their hours are too long.

The population of Saint, Ste. Marie is now 8,000, and there is considerable talk of its incorporation as a city before the end of the year.

CONSUMPTION

Reflections on the Recent American Congress of Tuberculosis.

Dr. Ulrich's Views—The Sun Cures Progress of the Sanitarium Idea.

(N. Y. Mail and Express.) To the American Congress of Tuberculosis—the assembly of doctors in this city who came recently to lift up their heads and their hands, as well as they could against the king of all diseases—there came a very old physician, who went quite against the ideas of the younger specialists.

Hardly, though it may be the view of common sense and the broadest humanity. If the case of tuberculosis really is confirmed and hopeless, there is certainly no use in trying to cure it.

Meantime, short of this sad line of the "confirmed and hopeless," the congress of tuberculosis has many encouraging things to tell the world. "Consumption," said Dr. Pryor, of Buffalo, is the only disease which causes a man to die simply because he is poor.

Not long ago we published a statement showing that many cases of consumption in its early stages had been effected by a simple process of making the patient sleep in the open air.

ANOTHER CRIMINAL ASSAULT.

Joseph Murrall was last evening arrested by Captain Jenkins and Captain Hastings of the police force on the serious charge of criminally assaulting a twelve-year-old girl by the name of Beulah B. Bradley in a field off Elm street on the 25th of May.

Murrall is a blacksmith by trade and has been working lately in Cushing's mill. He boards at the Eldon house. His conversations and actions seem suspicious to the police, for since being arrested he stated that he did not know where the new rifle range, near which the assault is said to have been committed, was situated, and afterwards admitted that he had once been out to it. He was yesterday afternoon seen with another young girl in the park, and in explanation of it stated that she had met him in the old burning ground some days ago and asked him to take her to the park to look for mayflowers.

The prisoner is a stout man of swarthy complexion, about forty-five years of age, and was last evening identified by the girl and her companion as the one who had assaulted her. He belongs to Chipman, Queens county, and before entering the Cushing employ worked with A. W. Gray. The police have been watching the

The Women's Art Association met Saturday afternoon in their studio, Palmer's building. The president, Miss M. Barry Smith, occupied the chair. The chief business transacted was the nomination of officers for the ensuing year.

Those nominated for president were Miss M. Barry Smith and Miss McGovern; those for vice-president Mrs. Silas Alward, Mrs. G. H. Flood, Mrs. F. J. Harding, Miss Carrie deForest, Mrs. Stevenson, Mrs. R. B. Emerson, Mrs. Geo. Murray and Mrs. H. A. Austin. The secretaryship nominees were Miss Perkins and Miss Alison Jones, and for treasurer, Miss Mary McKean. The election will take place at the next meeting of the association in September.

THE RING.

An excellent programme of boxing has been arranged for this evening at the Pastime club, Union street. There will be four or five good three round bouts as preliminaries, and the grand final will be a fifteen round bout between Johnnie Taylor, champion bantam weight boxer of New Brunswick, and Johnnie Cresson of the south end. Rev. Geo. Steel Last Night Commented on Those Stuck Up Around the City Last Week.

In the course of the scripture reading at the Portland Methodist church last night the pastor, Rev. Geo. Steel, commented on the indecent posters which were allowed to plaster the bill boards and streets of the city last week had been removed, when posted in Moncton, by the order of the mayor as an offense to decency. Mr. Steel said that nothing had occurred during the past winter in this city, to show that the Methodist church had made any mistake when it had requested its members, for their own good, to abstain from their going. Yet, he said, it is hard for the people to protect themselves, so long as they are compelled to look on bill boards covered with representations which, if seen in the homes of the people, would be considered indecent.

## A LIVELY FRACAS.

There was quite a roistering time Saturday night at one of the houses "out the road." Some city sports, who are rivals for the affections of one of the young women that frequent this particular abode, indulged in the unusual occupation of throwing piano stools at one another. It is even hinted that the fracas was indulged in. A prominent ball-player and some cheap sports took part in the fracas. The young lady in question did not seem to be interested in the mix-up. As a result of the trouble, a roadside hostelry was closed up for a time in order to make the necessary repairs. Some of the belligerents bear marks of having come in contact with something of a more solid nature than complexion powder.

## AT HAMPTON TODAY.

The case of Brown and Black, charged with arson and theft, came up at Hampton today before Judge Weston. As several other persons are alleged to have been implicated in the case, it is possible that the trial of these men will be postponed until further arrests have been made. The court opened this morning and adjourned till this afternoon, pending arrival of documents from the magistrate, Morrison, at Sussex. R. LeB. Tweedie and Ora P. King appear for the crown, and Geo. W. Fowler, M. P., for the defendants.

James A. Herne, the actor, died yesterday at his home in New York.

A cable from Formosa announces the death of Dr. Mackay, a great missionary. He was born in Oxford County, Ontario, in 1844.

## PERSONALS.

Miss Louise Beers returned home on Saturday.

Major James W. Sears is in the city visiting his brother, Edward Sears. Major Sears is on furlough after going through the South African campaign.

Mrs. M. L. Macfarland, of Fairville, leaves this afternoon for Boston, where she will be joined by her daughter Laura, and together they will visit the Pan-American exposition.

Among other things which the council will have to consider this afternoon is the question of the Canadian Old Home week, similar to that established in the eastern states. The scheme has been worked up in Evansville, and the city is asked to co-operate. The week will begin June 30th, 1902.

## YORK CO. SEAT VACANT.

In the York County election case at Fredericton today the seat was declared vacant. All charges of personal conduct practised by candidates were withdrawn. An agreement was signed by representatives of both parties that in future no corrupt practices will be resorted to in elections in the county.

## POLICE COURT.

The Magistrate Recommends the Whipping Post—Two Pugnacious Bakers.

On Saturday evening there was a gathering of bakers on Union street to discuss the respective merits of their bread and have a friendly argument as to which of them could do the most work. The meeting was being conducted in a spirit of the utmost respectability until one of the men happened to state that he had turned out six hundred loaves. Thinking this a slight exaggeration one of the others ventured the opinion that the speaker was a liar, which opinion did not meet with general approval. The first speaker then threatened to propel his pedal extremities violently against the abdominal region of the other, or, in long words to "kick the asses out of him." These mild expressions naturally led to stronger ones, and in a very short time one of the men happened to be accidentally struck on the head and the other received a kick. Harry Foster and James McKinley were the two engaged in the scuffle and were both arrested, charged with fighting. Several of their friends who were wanted as witnesses did not appear in court today, and the case was adjourned until tomorrow. One of the bakers left a deposit for his appearance tomorrow but the other could not "raise the dough" and went below.

Another drunk who was picked up on Portland street Saturday night was fined eight dollars or two months in jail.

Mary Ann Taylor, a maiden of eighty-seven years, was taken on a sloop to the police station for protection on Saturday night. She is very lame, almost unable to walk, and only came out of the almshouse two weeks ago. She was ordered to be sent back there.

The preliminary examination of Musgrave, charged with criminal assault on a little girl in a field off Elm street, was begun behind closed doors.

Rourke and Manson, each charged with a similar offence, were brought before the court and committed for trial. In Rourke's case the magistrate said that the last time the prisoner was before him he had been sent up for trial in the hope that the whipping and a longer term in the penitentiary as punishment would be imposed. As it happened Rourke had received a much shorter term than he himself would have given. In cases such as this, mothers, wives and daughters must be protected from such men, and although the fact that Rourke had previously been convicted of a similar offence does not show that he is guilty in the present case, whipping is the proper punishment for such conduct.

Neither of the prisoners had any statement to make.

Two mothers appeared to enter complaints against certain children for throwing stones on the street and striking other children.

The very large number of visitors who were in court today from a morbid curiosity were much disappointed at not being permitted to hear the evidence in all the cases.

## ATTEMPTED BURGLARY.

On Friday night last a most determined attempt was made to burglarize the store of J. Branscombe, grocer, of 389 Main street. About half-past ten o'clock Mrs. Ogier, who lives above the store, saw two men trying to gain an entrance through the back window. They had raised the sash and were working at the iron bars which cross the window on the inside. At her approach the men ran away, but after a short time returned and renewed their attempt. Mrs. Ogier's father notified the police, but when they appeared upon the scene the men had disappeared.

Driscoll called attention to the fact that his property at the corner of Charles and Garden streets is being injured, because there is no proper retaining wall. John O'Neill stated that the retaining wall in front of the property 54 Main street is pressing in. H. E. Huntley asked to be appointed a lumber surveyor. James S. McGivern asked for appointment as assistant to Mr. Gleason, collector of city rents. Mrs. W. J. Cox and C. A. Estey asked to be heard before the appeals committee. J. S. ## JEWISH IMMIGRATION SOCIETY.

The annual business meeting of the Jewish Immigration Society was held at ten o'clock yesterday forenoon in the school room of the synagogue.

The officers of the society are: A. Poyas, president; L. S. Komensky, vice-president; S. Rabinowitz, secretary; D. Komensky, treasurer, and I. Goldberg, manager.

It was shown by the secretary's report that during the business year, extending from September to April, the sum of \$205.75 had been received from all sources. Of this amount about \$115 was from regular subscriptions from the members of the society, and the balance made up of donations given by members of the congregation on the last Day of Atonement, Sept. 3rd, 1900.

The expenditure for the year was \$285.45, which was used in paying fares for immigrants to different points in Canada and the United States. A certain portion of it was also used in supporting in this city a number of intending settlers during the time spent in looking up their relatives.

The society have now on hand a balance of \$29.15, with which to continue the work. They do not confine their attentions to immigrants of their own nationality and religion alone, but have assisted many belonging to other nations and churches.

During the progress of the meeting Rabbi Rabinowitz delivered an able address on the work of the society for the past season.
