He desired to assent entirely to the remarks made by the mover of the Address with reference to any Country with proposed to the confidence of the country with reference to the remarks made by the mover of the member for Lambton had referred to his Address with reference to our Governor and his lady. He then referred to the financial policy as being the cause of the ernment on their success in the matter.

He fully realized the value of money, and would hold the Government strictly responsible for the expenditure of the public money; but money was of no use unless it was used to develop the resources of the country. With reference to the canal improvement, he was glad that without burdening the people the Government found themselves in a positive.

He would ask if the hon. gentleman attributed States to the same cause. (Langhard Corporation Property— Hurd Peters

One cause was patent to all. The Government foor some time a large balance of money for the Intercolonial Railway, but as that railway had to be constructed, the money had to be withdrawn from the complementary concert tendered to that without burdening the people the Government found themselves in a position to propose such improvements in the canal system of the Dominion. He dwelt on the importance and necessity of the Bay Verte Caual. Provinces. He dwelt on the importance and necessity of the Bay Verte Caual, describing the hindrances to trade and commerce experienced from the want of this canal, and was sure that there was no public work of greater consequence. Mistakes, no doubt, had been made in public works of the past, but he would hope that every care would be taken in the future. There was one other subject to which he would desire to refer. The Speech seemed to have been framed in

CENTLEMEN,—At the request of a larged number of the Electors, I shall be a Candidate for the representation of your Ward at the Council Board, f r the ensuing year, as ALDERMAN. As it will be impossible for me to personally so icit your votes, I avail myself of this optorunity to do so.
