POETRY

"THERE'S ROOM ENOUGH FOR ALL."

What need of all this fuss and strife,
Each warring with his brother?
Why should we, in the crowd of life
Keep trampling down each other?
Is there no goal that can be won,
Without a squeeze to gain it—
No other way of getting on,
But scrambling to obtain it?
Oh, fellow-men, hear wisdom then,
In friendly warning call,—
"Your claims divide—the world is wide—
There's room enough for all!"

What if the swarthy peasant find
No field for honest labour,
He need not idly stop behind,
To thrust aside his neighbour.
There is a land with sunny acres
Which gold for toil is giving
Where every brawny hand that tries
Its strength can grasp a living.
Oh, fellow-men, remember, then
Whatever chance befall,
The world is wide—where those abide,
There's room enough for all.

From poisoned air breath in courts,
And typhus-tainted alleys,
Go forth and dwell where health resorts,
In fertile hills and valleys;
Where every arm that clears a bough
Finds plenty in attendance,
And every furrow of the plough,
A step to independence.
Oh, hasten then, from fevered den,
And lodgings cramped and small;
The world is wide—in lands beside
There's room enough for all.

In this fair region, far away,
Will labour find employment—
A fair day's work, a fair day's pay,
And toil will earn enjoyment.
What need, then, of this daily strife,
Where each wars with his brother?
Why need we, through the crowd of life
Keep trampling down each other?
From rage and crime Australia's clime
Will free the pauper thrall;
Take fortune's tide—the world so wide,
Has room enough for all.

SLAVES CAPTURED.—Capt. Hammond, of ship Goodwin, arrived at Boston from Calcutta, touched at St. Helena Oct. 12, and states that a brig, with upwards of four hundred slaves, arrived at St. Helena a few days previous. She was captured by H. B. M. ship Britomart, on the East Coast of Africa, without colors or papers. She had been boarded several times by H. B. M. brig Dart, when she always represented herself as the American brig Frederica, with American colors and papers. She was taken at once, at which place, it appears, she was delivered to Brazilian purchasers. She was taken to St. Helena, for adjudication at the Vice-Admiralty Court. About forty of the negroes were lost on the passage. The remainder were put into the depot, and when fit to go, would, with their own free will and consent, be sent to one of the West India Islands.

The New-York Sun says, that there is little doing in the Ship Yards in that City, and not half as many hands employed as usual.

It appears that Scotch ministers, resident in England, are determined, if possible, to lay hold of the funds of Lady Howley's Charity, and that these defuncts have presented their petitions of appeal from the decision of the Vice-Chancellor of England, pronounced in June last. This contest has already occasioned, it is said, the enormous expenditure of £10,000.

European Intelligence.

FROM PAPERS BY THE NIAGARA.

Liverpool, Dec. 2.

IRELAND.

The arguments of counsel in the case in error of Mr. Smith O'Brien, have been brought to a close, but the Judges have reserved their judgment until the next term, the 11th of January. The Irish journals consequently possess less interest.

Several forgeries on the Bank of Ireland have recently been discovered in Ireland. One of the forgers was arrested a few days since in Limerick.

Father Matthew has commenced a second campaign against intemperance: a wide field of action presents itself, if we may credit the accounts in various journals throughout the kingdom, and the records of our metropolitan police courts.

COMMERCIAL.

Since our last publication trade has been gradually, but slowly improving; and, although there is not much activity in any department, still a greater amount of confidence prevails, and better times are expected with the return of the new year. The Produce markets are on the whole steady, and a moderate amount of business doing but the prices current are still very low. Cotton meets with an increased demand and holders not feeling inclined to press sales prices continue to advance.

Money remains cheap, but the demand is very slow, and the rates vary from 3½ to 4 per cent. lower than at this time last year.

The Cotton trade has continued the downward tendency noted in our last issue. Both here at London, Glasgow, Wakefield, Hull, and all the other leading markets, the demand for almost every article brought forward is very limited.

At Liverpool, United States Flour brought from 27. 9s. to 28s. per barrel. Indian Meal realised 16s. to 16s. 6d. per barrel.

LIVERPOOL MONTHLY TIMBER REPORT.—The arrivals from British America during the month consists of 35 vessels, 3,230 tons, against 35 vessels, 20,773 tons in same month last year. The falling gains around that prices have seen their lowest, and that, hereafter a steadier, if not more active trade, will result from the improving state of the manufacturing districts. The effect has been already felt in Spruce Deals in a moderate degree, and many cargoes are taken off the market and held at rates much beyond anything obtained at present.

Pine Timber.—On St. John, one parcel of 19 inches average sold at 17s.

Spurs.—Spruce Spurs have been sold at 12s. to 16d. per foot.

New-Brunswick &c. Fir Plank and Boards.—On St. John, five cargoes were sold, 46 to 46 12s. 6d. one Wallace at £62-6d., and one Shumack at same price. C1 Richbuck Yellow, one cargo was sold at 27s. and one Bathurst at £8 10s. per standard. Several parcels of Spruce Deals, in lots of 500, at £7 to £7 10s. and some Yellow Pine, in some way, at £8 15s. per standard.

Luthwood.—St. John and Quebec have been sold at 30s. per ton. Spruce Luths, with cargo, were sold at 10s. per M. and Pairing at 20s. per M.

Railway Sleepers.—St. John Hickmatuck, with cargo, have sold at 3s. each for 9x10x5, and Quebec, in like manner at 3s. 6d. each.

FRANCE.—The intelligence from France is unimportant. The explanations of Gen. Cavaignac before the National Assembly have terminated in a complete triumph, and a majority of 503 to 34, carried a vote of confidence that he deserved well of his country.

When the news of the insurrection in Rome reached Paris, Gen. Cavaignac dispatched four steam frigates, carrying a brigade of 3,500 men, to Rome, for the purpose securing the safety of the Pope.

The French funds have improved, no doubt

owing to the confidence which is being felt as to the election of Cavaignac.

INSURRECTION AT ROME.

Insurrection continues to travel over Europe. The Holy City has been the scene of a deplorable conflict. On the 16th ult., the people of Rome proceeded in a body to the Quirinal Palace, and demanded a new Ministry, the immediate declaration of war, &c. About one hundred Swiss guards resisted them. The Diplomatic body also entered the palace to protect the Pope by their moral influence. Some endeavour was made to set fire to the principal gates, but a few shots from the Swiss caused the mob to retire. Shortly afterwards, however, the civic guard, the gendarmerie, the line, the Roman legion, numbering some thousands, invested the palace in order of battle, and commenced a fusillade against the windows. The Swiss were overwhelmed. The Pope's secretary, Monsignor Palma, was shot in the breast. The besiegers, by their overwhelming force, compelled submission. Negotiations were opened, and a list of ministers, comprising the names of those who had got up the conspiracy, was submitted to the Pope, who, under the duress of arms and the fear of personal danger, was compelled to submit to any dictation. The authority of the Pope is, in fact, now a nullity. On the 19th ult. the ministry was formed, with Mazzarelli, President of the Upper Chamber, President of the Council, &c. Mamiani, Sterbini, Campello, Luvati, and Sereni. The Swiss were sent away, and the national guard occupied the posts of the castle.

The latest accounts from Rome state that the most perfect tranquility had succeeded the commotion. The Pope appeared to be satisfied with the new order of things, and was greatly pleased to find that the peace of his capital had been so speedily restored.

The Cholera in England and Scotland has almost entirely disappeared.

Mr. Barkly, the member for Leominster has been appointed to the Governorship of British Guiana.

DEATH OF VISCOUNT MELBOURNE.—Another great political leader has been removed from the scene since our last. The amiable accomplished and right well beloved Viscount Melbourne expired on the 24th ult. Since 1841 his lordship had virtually retired from public life; but during the preceding ten or eleven years his position in the Whig administration of Earl Grey, and his subsequent tenure of the office of Prime Minister, during nearly seven years, will confer upon him a lasting niche in the temple of the history of Great Britain.

A Finance Reform Association has been formed in Edinburgh, the new Lord Provost, Mr. Johnston, appearing at the head of the provisional committee. The movement originated with Mr. W. Chambers, and every effort will be made to keep clear of general politics.

Three Children Burnt to Death at Prince Edward Island.—The *Islander* of the 8th inst. says:—On Friday the 1st inst. a dwelling house on the Farm of Patrick Ruddy, at Fernoy, near Malpeque, was consumed by fire, and sad to relate, three of his children were burnt to death. The most melancholy part of the accident is, that the father, who it appears is a very cruel man, had driven his wife and eldest child out of the house that morning to assist him in stumping land about half a mile distant, and had locked the three unfortunate children in, the youngest of which was but a month old, and had taken the key with him in his pocket.

The Legislature of Newfoundland was summoned to meet on the 14th inst.

The case of McFadyen, now under sentence of death, in the jail at Pictou, has been submitted for decision, to Her Majesty's Government at home.

SUMMARY OF NEWS.

With reference to the general tenor of the continental news, a London correspondent of Charles Willmer's Mail says—The fear of a general outbreak on the continent, and therefore, of a general European war is by no means abated. Nothing but great firmness, combined with great produce, and carry France, Germany and Italy through the momentous crisis. Although parties circulating the rumor cannot have any actual authority, it is boldly affirmed that the King and Royal Family of Prussia are making provision for the chances of an exile in England. This may be as baseless as the rumored large investment of Louis Philippe in the English funds, and the whole thing may be a stock-jobbing contrivance; but it shows that there are grounds for uneasiness—not at all abated by the sanguinary assassination of M. Rossi at Rome; and the revolutionary intimation which has been exercised towards the Pope. Austria has accepted the offer made by the mediating powers to hold the conferences for the fortification of Italy at Brussels. This acceptance was the last act of the Wessenberg cabinet, and Prince Schwarzenberg, on accepting the government, immediately ratified it, and expressed at the same time to the representatives of the mediating power, the strongest desire to enter immediately on the negotiations. M. Bismarck, however, objected that it would be more advisable to wait until the President of the Republic was named. Lord Palmerston has acquiesced in this. The mediating powers have also agreed that the armistice should be prolonged throughout the winter, and in consequence Austria has engaged not to attack Venice by land or by sea. A report that Prince Windischgratz had been assassinated, was current at the Paris Bourse on Thursday, but was not credited. Intelligence has been received from Rome to the effect that a motion was made in the Chamber of Deputies for an address of fidelity to the Pope, which was rejected. Accounts from Bavaria, Dresden, and Baden, represent affairs as being in a very uneasy state. Apprehensions of an immediate insurrection throughout Central Germany are entertained.

IRELAND

Skibbereen once again figures in the annals of deep distress—eaten up by pauperism, and perishing of starvation—whilst, as if in mockery of such calamities, Government has thrown away no less than £11,700 on the Professors of Colleges, under Peel's Act, not yet built. The gentry are beginning to succumb to the pressure. The splendour of equipages, it is said, and the glory of gilded carriages and prancing horses, are passing away from many a proud family and historic name, to be speedily followed by the more willing sacrifice of comforts, and even the commonest necessities. This is appalling enough, but in these depths of distress the germs of social regeneration will probably quicken.

The loss to Ireland, arising from the failure of the Potato, and its consequent results, is estimated at £13,000,000.

Important intelligence has been received from Rome, where a horrible assassination of a prime minister, and an insurrection against the Pope, have taken place. At one time it was reported that the Pope had been compelled to fly, and was on his way to London; but subsequent accounts contradict this. The French Government have sent a force to Civita Vecchia, to support the Pope against his subjects, and there appears no reason to doubt but that the authorities will be successful in suppressing the revolt.

The great struggle at the election of President in France, will be between General Cavaignac and Prince Louis Napoleon. The prospects of the former have much improved, within the last few days; and if the report be true that Lamartine has withdrawn from the contest and promised the General his support with the understanding that, if elected, he will be Vice President, there seems good reason to believe that Prince Louis will be defeated.

The reports from Manchester continue to be of a favourable character, but an attempt to establish some further advance on Goods and Yarns would appear to have limited in some degree the extent of business, without, however, lessening the confidence in the im-

provements previously realised, whilst it is pretty generally admitted that spinners and manufacturers have sufficient orders on hand to keep them tolerably well employed for the next few weeks, and therefore less anxious to accept of orders, except at the advanced prices which are generally demanded.

COLONIAL RAILWAYS.

Last Monday evening M. H. Perley, Esq. delivered a lecture upon this highly interesting subject, at the Mechanics' Institute, which was crowded to overflowing by a highly respectable audience. We have rarely heard a lecture which comprised a greater number of facts within the same space or which was more happily illustrated by the Map and figures.

The lecturer after a brief review of the rise and progress of the railway system in England, Belgium, and the United States entered upon a description of the various railroads projected and already surveyed in British North America, and pointed out their several directions upon an immense diagram prepared expressly for the occasion by Mr. Geo. N. Smith. The Railroads from Boston, and Portland to Montreal were also shown, and their adverse bearing upon the interests of these Provinces was explained.

After describing the route of the Halifax and Quebec Railway, as approved by the Commissioners, the St. Andrews and Woodstock Railway was explained, and its advantages strongly insisted upon and advocated. The Shediac Railway came next, and the lecturer entered into some valuable calculations to prove the amount of traffic which would render this line remunerative, and justify its construction.

The crowded state of our columns this morning prevents our noticing the lecture more at length; but we the less regret this, as we understand a requisition will be made upon Mr. Perley to repeat that part of his lecture relating to the Shediac Railway, with other information relative to the line of which he is known to be in possession.

The lecture was delivered without note or manuscript, in that easy colloquial style which is most attractive, and which has rendered Mr. Perley's lectures so very popular.—*N. Brunswick.*

THE HALIFAX AND QUEBEC RAILWAY.

We are happy to state that M. H. Perley, Esq. was advised by the English Mail to Wednesday that the report of the Commissioners was favourable to the construction of this great national line and that the Commissioners Major Robinson and Capt. Henderson, R.E. had an interview with Earl Grey upon the subject a few days before the mail left. It is stated to be Earl Grey's intention to bring consideration of this great railway before the Legislatures of Canada, New Brunswick, and Nova Scotia, at the approaching session of each with a view to obtaining their expression of opinion and ascertaining the amount of assistance which they will respectively give toward the completion of an undertaking in which H. M. Government feels the deepest interest.—*Ibid.*

ROBBERY.

The shop of Mr. G. Chadwick near the County Market, Charlotte-street, was entered on Thursday night, through a back window, and robbed of a roll of home-spun plaid and one of flannel, a cheese, some pocket knives, and about 60s. in money, mostly copper coin. No doubt the robbers retreated in a hurry, under alarm, as they left goods in much confusion—several articles having been placed near the window. They left their tools, an old shagging hatchet and a new chisel, behind them.

The latest accounts from Washington state that the President having received such information from the gold region of California, as to warrant government action on the subject, has a message in readiness on the subject, which he will send to Congress on Monday.

Repeal of the Usury Law in Canada.

It is expected that the repeal of the Usury Law in Canada, will be proposed by the Government at the next session of the Provincial Parliament—a despatch from the Colonial Office having been recently received by the Governor General, in which, on the representation of the Trust and Loan Company of Upper Canada, his attention is called to the

subject, and he is instructed strongly to recommend to the Legislature the repeal of a law, which, Lord Grey believes to be very injurious to the progress of the Colony in wealth and prosperity.

A Gold Mining Company is organizing in Texas,

to cross the mountains early next spring. On their way out to California, they intended to examine the valley of the Rio Puercos, for the purpose of discovering the ruins of a Spanish city, where large quantities of gold were procured during the last century. This city, which was destroyed by hostile Indians, was visited by Col. Doniphan, in his late expedition to Chihuahua.

The New York and Montreal Railroad

line having been opened on Monday last, from Scranton to White Hall, travellers during the coming winter will be enabled to start from White Hall in the morning and arrive in New York, via Troy and the New Haven and New York Railroad, by ten o'clock, P. M., or by five.—*New York paper, 16th.*

The whole city of Mexico is governed by

the company of Police, composed of American, Irish and French deserters. Twenty-five of these men are sufficient to keep the city, containing not less than 180,000 souls, in perfect order.

GOVERNMENT NOTICE.

His Excellency the Lieutenant Governor has been pleased to approve of the appointment of Thomas Jones, Esq. to be Consular Agent of the United States at the Port of St. Andrews.

THE STANDARD.

ST. ANDREWS, WEDNESDAY DEC. 27, 1845

Arrival of the Steamship

Niagara.

The Steamship Niagara, arrived at Halifax on the 14th inst. in about 12 days, bringing dates to the 2d inst. The mail was received here on Saturday evening.

In our columns to-day will be found a summary of the most interesting news.

Commercial affairs are somewhat improved, and transactions in the various markets were on a larger scale than could have been anticipated.

PUBLIC MEETING.

Our readers will observe in our advertising columns, a notice calling a public meeting of the stockholders of the St. Andrews and Quebec Railroad, on Wednesday next, the 27th instant, at noon, in the Town Hall, "when the affairs of the company, and future prospects, will be fully explained and laid before the meeting." We trust that not only the stockholders, but the public generally will attend.

The constant repetition of the most improbable story, will gain for it some credence; and thus it is that some men obtain at a position for virtues they do not possess, because they are always blowing the trumpet of their own praise.—*Enuff said.*

IMPORTANT DISCOVERY.

Some of the talented and scientific gentlemen connected with the Royal Irish Fisheries Company, have discovered that "the celebrated fishing banks of Newfoundland actually extend across the Atlantic to within a hundred miles of Ireland!" and the quantity of fish on

the said banks is more than double the whole of the fish on the banks of the whole of the world.

How much longer

will we expect us to wait for the last four or five years that it must expect to receive

We have been favored of a Circular, which has Customs, which we published.

Sir,—I have it in my power, under a Regular operation on 1st Inst. been made in the following manner: Goods on the United Kingdom; I am at the same time such Cocks instead of Collectors and Controllers signed by one of those in the cases of British in the United Kingdom a Bounty or Drawback I am, &c.

POET

YOUTH A

Our youth is like the
When resting on the
We sleep secure in m
Though thunders r

From youth to age w
The oft sought is a
And to the verge of
The vision lures us

On in the dance of en
Which fools pursue
And by the glare of
We heedless play

Unlovely age comes
With hoary locks a
And when we've run
Our life seems then

Our youth is like the
When resting on the
We sleep secure in m
Though thunders

REFORM.—The following reaching modern reformers:
How well it is the su
Are played so very
That no presuming
To pluck them from
If there were not so, I do
That some reformer
Would soon attempt
To light the world

MELANCHOLY ACCIDENT.
an extract of a letter from the 9th inst.—

"A sad accident occurred Barn belonging to Peter Tidd and what is infinitely worse, ished in the fire. I have the particulars, but as far as I learn Mr. Tidd was thrashed, light, when some of the fire he went to the mow and thereby attempting to smother up so instantaneously that flame before he could make was very much respected. There were above fifteen death.—[Pictorial Chronicle]

A MERCANTILE

An old fellow living Maine, sent to a business Frankfort on the Oder of cotton stockings, and another correspondent equally large consignments, the produce of his wrote to each the price sell, but the sum designed too large, of which fact inform him. He yielded, but still there were bricks. Against the w letters from his correspondent smaller amount; but no sale. At length he pondant to make some manufactures; if they can at least to exchange the reasonable sacrifice, for these instructions, upon the night cap again each there in connection and names his views, a lot of superior cotton other goods; he is not as the transaction is for rous of closing his store can think of nothing to exchange for so large.
