Arrival of the Steamship CANADA.

SEVEN DAYS LATER FROM EUROPE!

The Royal Mail steamer Canada arrived at Halifax on Tuesday evening, with 51 passengers. She left Liverpool on the 1st May, and experienced strong westerly winds, the greater part of the passage. She passed the Africa at midnight on the 1st, off the Skerries.

The Atlantic from New York arrived at Liverpool on Thursday 29th April. The steamship Great Britain sailed from Liverpool on the 1st for New York, with 160 passengers.

The Cotton market remained steady. Sales of the week, 69,910 bales. Broadstuffs were dull and rather lower: a favourable change in the weather and genial showers had tended to produce this.

Freights were lower and also rates of passage, chiefly attributable to the numerous arrivals from sea during the week.

The Money Market was steady throughout the week, and continued at 1 1/4 to 1 1/2 per cent. for Bankers' 60 day acceptances. Consols closed on Friday at 99 1/2 to 99 3/4 for account.

The House of Commons was occupied on Wednesday in discussing a measure proposing to abolish Religious Tests in the Scotch University. After a long debate, the measure was rejected by 15 majority.

The second reading of the Colonial Bishop's Bill was made the occasion of a speech by Mr. Gladstone in favour of appointing Bishops in connection with the Church of England to the Colonies. The debate was adjourned till the 29th May.

In the House of Lords on Thursday, Earl Granville took occasion to ask the Government whether the honours that were paid to Gen. Ross, on his landing at Plymouth, were by order of the Government. Lord Malmesbury gave an evasive reply, to the effect that he believed no orders went from his department, but one who showed great distinction and kindness to the British merchants who had traded with his country, and whatever his cruelties (unfortunately not exaggerated) had been in South America, the English Government could not mark them here by any stigma.

The Commons the same day had before them a motion to regulate the revenues of church. Leave was granted to bring in a bill on the subject.

Mr. Haywood's motion for a Committee to consider the propriety of preserving the Crystal Palace came up, and a long debate ensued which terminated in a division of 103 for Committee, to 321 against it—so the Palace will be pulled down. Its demolition commences to day, May 1st, the anniversary of its opening.

On Friday, according to announcement, the Chancellor of the Exchequer brought forward the Budget. It proposes to repeal none of the existing taxes; says nothing of imposing new ones, except the continuation of the income and property tax, for a limited time; estimates that the income of the coming year will be from present sources £51,625,000 and the expenditure £51,163,979, leaving a surplus of £461,021.

The estimate is looked on favourably, as far as opinion has had time to express itself.

The Halifax and Quebec Railway was also the subject of some conversation. Mr. Cobden asked the Colonial Secretary, Packington, if he would lay the correspondence relating to that Railway before the House.

Sir J. Packington demurred; and Mr. Cobden said he would place a motion for it on the notice Book. Secretary Packington replied, that nothing had taken place between the late Government and the parties who were anxious for the construction of the line, that could be construed into a qualified assent. The language of Earl Grey went no further than to say that the Government would be no parties to any such guarantee as that sought for, unless they were satisfied with the line. The subject, however, was now under the notice of the Government.

The London papers contain a sickening narrative of the sufferings and death by starvation of a Missionary party on the island of Fickion, off Cape Horn. The Mission was under the direction of Capt. Gardiner, a gentleman of some fortune, and Mr. Maslin, a catechist.

A line of Electric Telegraph is almost completed between Galway and Dublin, to connect with the submarine line to England.

CUBA
Where is the Island of Cuba, and how large is it? Let us take a map of North America, and look for it. We find it situated south of the United States, between 3° East and 8° West of the meridian of Washington, and 19 and 23° of North latitude—its length, in a curved line, is about 790 miles, and at its broadest part it is 117 miles wide. The periphery of the island, following a line the least tortuous, and cutting the bays, ports and coves at their mouth, is 1719 miles, of which 816 are on the north, and 903 on the south its area is about 55,000 square miles and taking into the estimate the adjacent islands or keys which belong to it, it is 63,000 square miles.

Examining the position of the island, we shall see its western part placed in the mouth of the Mexican Gulf, leaving two spacious entrances, the one at the north west 124 miles wide between point Hicacos the most northerly of the island, and Cape Sable the most southerly of East Florida,—the other entrance into the Gulf at the south west is 97 1/2 miles in its narrowest part, between Cape San Antonio of Cuba and Cape Catoche the north eastern extremity of the peninsula of Yucatan. We here see Cuba geographically—the key of the Gulf of Mexico and the Mississippi.

Shall we look a little longer and consider where and what Cuba may be in a military point of view? Well, let us look at her, at present quiescent and powerless, and what do we see? A SAMBON—(not blind like him of old—but wanting the growth of a good head of flaxen hair) reclining like a sleeping sentinel at the entrance of the Gulf of Mexico exactly in the path to the Pacific, whether by the Gulf or Isthmus, in the track of the golden current at the crossing point of all the great lines of an immense coasting trade, capable of being made a "Power upon Earth," to command both north and south, to cut in two the trade between the Gulf and Atlantic States, to break up the sea communication between the cities of the south west and those of the north, or, to overlook and intercept any unfriendly demonstration upon either of the new thoroughfares to California to overawe the adjacent islands, and to watch and defend all the outside approaches to the Isthmus routes to the Pacific, while it would guard and protect the portals of the vast inland sea, the reservoir of the gigantic traffic of the majestic Mississippi with its hundred tributaries, and the trade of Texas and Mexico.

What may Cuba be worth to the United States in a military point of view? will they part with some of California's gold to purchase it?

We will not attempt at this time to answer these questions; neither to ask or show what the United States would gain commercially by the purchase of Cuba; but we will ask what would humanity gain? we think, and for the present the thought is commended to the intelligent of New England, the gain to humanity would be not only freedom to the Creole, crushed and down-trodden by the iron heel of despotic Spain, but the destruction of the African slave trade by placing the best market remaining for its victims under the laws of the United States.—*Cor of the Traveller.*

FITTINGBURG, May 8.—FATAL CASE OF SHOOTING.—A lad fourteen years old, named Walter, son of John H. Richardson, residing at Lawrenceville, was yesterday killed by his stepmother, under the following circumstances:—He was uncommonly disobedient, and his father advised his stepmother that she should pretend to shoot him, for the purpose of intimidation. A gun had been loaded the previous evening, unknown to the stepmother and she in following the father's suggestion, shot the boy in the thigh, and abdomen, causing instant death. A coroner's inquest was held, and the mother committed to take her trial at the term of the United States Court.

Foreign Paupers in Massachusetts.—In the Senate, yesterday, the Joint Special Committee, to whom was referred so much of the address of his Excellency the Governor, as relates to the subject of Foreign Paupers, submitted a report accompanied by a bill, "in relation to paupers having no settlement in this Commonwealth." The bill is a long one, of some fourteen sections, and provides for the erection in different parts of the State of three asylums for the reception of foreign paupers, to be obtained at the public expense. Each asylum is to be large enough to contain five hundred inmates, and it is expected that by their labour they will in part pay the expenses of the institutions. It is estimated by Mr. Warren, the Chairman of the Committee, that this system will diminish the cost of supporting such paupers by at least one hundred thousand dollars per annum. The views of the Committee look to buildings of the humblest character, and to a system which, while it shall answer all the claims of humanity, shall effectually guard against idleness and improvidence.—*Boston Atlas, May 1.*

Taxes in Boston.—The amount to be raised by taxation for the support of the city government of Boston this year is \$1,170,000, which is less by \$183,000 than the expenditure of last year. Among the items are:—schools \$285,000, fire department \$365,000, streets \$100,000, city debt \$54,000, police \$43,000, and newspaper advertising \$2,700.

Capt. Floyd, of steamer Washington, from New York for Bremen, while putting into Milford Haven, England, tried to run the vessel on a ledge of rocks, but was prevented by the other officers. He was found to be insane, and is confined in a lunatic asylum.—*Boston Post.*

Her Majesty's Summer Cruise.—The Queen accompanied by the Prince Consort and a portion of the royal family, intends paying a summer visit to Bristol, Waterford, Dublin, and Holyhead en route to the Spanish annual retreat of Bilgual. The Court will remove to Osborne on the 22nd May; and her Majesty will embark from the lake of Wight some time after (not before) the parliament is dissolved, on board the Royal steam-yacht Victoria and Albert, (now in process of refit and embellishment for the royal service at Portsmouth dockyard.) for the summer cruise.—*Portsmouth Times and Naval Gazette, April 21.*

South Australia.—Intelligence has been received from Adelaide, South Australia, to the 10th January, being several days later than that already published. The discovery of gold in the colony had turned out to be a fabrication. The Government Commissioners had a second time proceeded with Mr. G. M. Stephen, the party by whom the reward had been claimed, to the spot indicated, and upon testing the soil were unable to procure the smallest portion of metal. Upon a previous trial every spadeful had been found to yield gold, and the commissioners, in their report, consequently assert that pieces must have been introduced on that occasion for the purpose of deception. With regard to the general state of the country, it appears that the disorganization caused by the departure of the inhabitants to Sydney and Perth Philip had been much exaggerated. Out of a population of 67,000, the total emigration was not more than 5000, and it is asserted that much of the prevailing commercial panic was to be attributed to the natural collapse of the worthless mining and building speculation which have been carried on for the past year or two.

The Rev. C. Moore, who lately, in full canonicals, cursed a magistrate of the county as he was getting into his carriage at the Florden station has been deprived of his license by the Bishop of Norwich.

Cardinal Wiseman next month visits the College of Maynooth, when all the Roman Catholic bishops of Ireland will meet him. News has reached Dublin that Thomas Francis Meagher, the Irish political convict, had escaped from Van Dieman's Land. The intelligence has reached his friends from a private source.

HORABLE.—The ship Futay Salam left Madras on December 3d, with 234 emigrant Coolies for the Mauritius. She fell in with a gale on the 23d, and the Coolies were placed under the hatches, which were battened down; before its termination all had died!

QUEBEC, May 8.—The weather has been warm and summer-like the whole week. Hardly a veinige of the snow remains. It is warm but gloomy this morning, has rained during the night, and will possibly rain again by and bye. There has been hardly a breath of wind all week and the effect upon the body has been enervating and laxative.—*Chronicle.*

Seamen instead of being in request are, at present, at a discount—a drug in the market. The crews of two or three shipwrecked vessels are in port looking for jobs, which we trust the new ships will afford them. "Jack" should apply early lest the rate of wages decline.—*Id.*

If any proof of Lord Elgin's personal popularity were wanting it would be found in the circumstance of so many vessels being named after him. Here, there have been several. Indeed in this very paper there is a notice of the launch of a fine ship which has been christened—"The Earl of Elgin."—*Id.*

Upwards of £100 has been subscribed towards the testimonial to be given to Colonel Higgins, of the Royal Artillery, the very popular Commandant of the garrison, who is about to leave Quebec.—*Id.*

We announce with deep regret the death of BENJAMIN L. PETERS, Esquire, Police Magistrate of this City, who departed this life at 8 o'clock last evening. His numerous family will mourn the loss of a kind and affectionate husband and parent, and the public will deeply feel the death of one who has long and ably filled many honourable and responsible situations in this community, with general satisfaction. In thus briefly noticing the departure of one so greatly respected by our Citizens, we can truly say, we feel deeply for those who have suffered a great loss, and are assured that the public will express a general feeling of sincere regret for the departed New Brunswick.

WOODSTOCK, May 11.—The weather for the last few days has been very warm and sultry, and the sudden melting of the snow in the woods has caused an unusual freshet in the river. The water is now nearly as high as it was last fall, and the probability is that it will be much higher. We learn from a man who was at Salmon River last Tuesday, that the hauling had not given out when he left, and that there was still three feet of snow in the woods. Timber and logs are now coming down the river in abundance, and should the present high water continue for a few days longer, they will be carried to market speedily and with but little expense.—*Sentinel.*

"SEIRIT" OF THE TIMES.—On Saturday night last some evil disposed person bored a hole through the side of a store house into a cask of Gin, the property of S. Cary & Co. of Houlton, and about sixty gallons were lost. If theft was the object, it was not attained, as the cask stood about four inches from the wall and the gin ran down through the floor.—*Id.*

THE STANDARD.

WEDNESDAY, MAY 19, 1852.

ST. ANDREWS & QUEBEC RAILROAD.

The CONTRACT for the completion of the entire line to Woodstock, received here from England.

It is with no ordinary feelings of pleasure, that we give publicity to the following official letter, from Julius Thompson, Esquire, Manager of the St. Andrews & Quebec Railroad, announcing the receipt of the Contract for the entire line to Woodstock:—

ST. ANDREWS & QUEBEC RAILROAD, St. Andrews, May 17th, 1852.

To the Editor of the "Standard":—Sir,—"In order to remove any doubts from the Public mind, if any such still exist, as to the Contract for the completion of the entire line to Woodstock having been finally settled and arranged; I shall be obliged if you will be good enough, by inserting this letter in your next issue, to give publicity to the fact, that the legal documents, signed, sealed and delivered, both by the Contractors and the London Board of Directors, were received here by the Mail on Saturday."

I am, Sir, Your obedt. Servt. JULIUS THOMPSON, Manager.

The above intelligence must indeed be truly gratifying to the inhabitants of St. Andrews, and the County of Charlotte generally. The Contractors are, we learn from reliable sources, gentlemen of means, and knowledge of railway construction, and will carry on the work with energy and spirit. One of the parties, it is reported, may be expected here in the course of a few days, to make preliminary arrangements for commencing operations.—We are also led to believe that the machinery, &c. required in construction will be here in due time.

Within a year we shall reasonably hope to see a great improvement: the produce of the forest will be brought here for shipment in large quantities; we may see half a dozen ships on the stocks at the Point, a place that nature seems to have made on purpose for ship-yards; and this will increase until the road shall have arrived at Woodstock, when a general traffic will grow up between the farmers and lumberers in Carleton, and the fishermen and foreign traders of the coast, the bulk of which must centre in this place.

But the advantage will not be confined to us; the settler in the woods, instead of burning his timber on the ground, will sell it for a good price, and the crop of wood which nature has placed upon it, and which is now useless, will be of far more value than any crop that can be raised upon it in any one year hereafter. The produce of the interior will be exchanged for the fish of the coast, to the great increase of the comfort of both parties. The daily trains will bring fresh meat and vegetables, and return fresh fish, and the increase of the means of comfortable subsistence thereby created, will cause settlement to advance at an exceedingly happy rate.

Hitherto our fisheries have been considered as merely furnishing an article of export in a salted state; the luxury of fresh fish is confined to a few towns on the sea coast, and in many of them the price is so great as to be beyond the reach of the poor. The mass of the people in the interior scarcely see fish in a fresh state, but the railroad will produce a different state of things. There is between Howard Settlement and Madawaska, a tract of excellent land, which will, in all probability, within a few years after being traversed by railroads, contain 300,000 inhabitants; this great population will require large supplies, and this is the quarter from which they must come. We have dwelt upon this subject, because it seems to be hardly thought of at present, the general views respecting the road refer almost wholly to foreign traffic, but the domestic traffic is that which in general is allowed by political economists the most serviceable to the community, and moreover it generally brings the most income to the railroad. We are obliged to defer further remarks upon the subject this week, and conclude by congratulating the friends of the Road upon the success of the English Board in concluding a contract with such an eminent firm, and the bright prospects of the work being carried on with vigour.

CALIFORNIA.—Letters received from California state, "that nine-tenths of those who have emigrated to that land of gold, have been bitterly disappointed—many of them have met with early graves. The great sacrifice of health, comfort, home and friends, is not, and will not be made up by the acquisition of gold." So writes one who has done well in California, but who might have done better by remaining at home.

DAILY MAIL.—By an official notice in this day's impression, it will be seen, that arrangements have been made for the conveyance of a Daily Mail between St. Andrews and St. Stephens, commencing on Monday next. A new contract has also been entered into for carrying the Mail between Fredericton and St. Stephens once a week.

ARRIVAL OF THE GREAT BRITAIN.—The steam ship Great Britain arrived at New York on Friday last in 13 days from Liverpool. She brings no later news. The Great Britain has a full cargo and 160 passengers.

The New Brunswick of Saturday contains the following gratifying intelligence:—

THE HALIFAX AND QUEBEC RAILROAD.—By the English mail yesterday, information was received from the Hon. Mr. Chandler, to the effect that on the 30th April, (the day the Mail closed) he and the Hon. Mr. Hincks had an interview with the Right Hon. the Earl Derby, the Premier, of a very satisfactory character.

His Lordship began by stating the advantages of the northern line for the proposed railway, as regards colonization and the fisheries, and also in a military point of view.—Mr. Chandler in reply said, that there was a very general objection in New Brunswick to that line, and alluded to the large majorities in the Legislature by which the route by the valley of the St. John had been sustained, and expressed his doubts whether a majority of the Assembly of this Province could be induced to aid any other line. He pressed upon Earl Derby the commercial superiority of a line passing through the City of St. John, a great shipping port; possessing a harbour which was never frozen, at the mouth of a great navigable river; and he and Mr. Hincks urged the importance of connecting these Colonies together.

No question was raised by the Earl of Derby as to the guarantee of funds for the Halifax and Quebec Railway, the only difficulty, on his Lordship's part, appearing to arise from the question of route; and at the close of the conference, Earl Derby said, he should wish to hear Mr. Howe on the subject, but in the mean time he desired it to be understood, that he did not consider his objection to any other than the northern route to be insuperable. His Lordship asked if a practicable route by the valley of the Saint John, on the eastern side of the river, could be found, would that be objected to; to which Mr. Chandler and Mr. Hincks replied, that if competent Engineers should decide that such a route was practicable, it might be done.

In addition to the above we may state, that private letters from London say Mr. Chandler has seen Mr. Hume on the subject of parliamentary aid, by guarantee or otherwise, to the Great Trunk Railway; and Mr. Hume has expressed himself favourably to the undertaking, and said that any vote in its aid will not be opposed by him.

We presume that with such favourable intelligence as the above, we may safely congratulate the people of New Brunswick generally, on the successful progress of the negotiations for the Halifax and Quebec railway, to which every inhabitant of the Province is more or less interested. There now seems very little doubt as to the funds being forthcoming for this great Colonial and National undertaking; and the sole matter of detail, the question of route, being satisfactorily settled, an early commencement may be reasonably expected.

LONGEVITY.—The New Bedford Mercury says that there is a strip of land bordering on the sea in South Dartmouth, known as "Smith's Neck," which is about one mile in width by one and a half miles in length. The inhabitants on this strip of land are mostly Quakers, who number 145, the ages of twenty of whom average 86 years, and make an aggregate of 1729 years. Twelve of this number have attained to from 80 to 95 years, making an aggregate of 1134 yrs. and eight others (the comparatively middle aged) are now from 70 to 78 years of age. This is an amount of longevity not often paralleled.

SWINDLING.—An extraordinary case of swindling is reported by the Belleville (Upper Canada) Chronicle to have occurred in that neighborhood. Two adventurers from the United States, purporting to be clairvoyants, had made up their minds some months ago to feign the discovery, through the medium of mesmerism, of a silver mine. One of the impostors, Bailey, was to indicate its locality. A company, called the Rochester and Brighton Mining Company, was organized, and money and notes to a large amount collected from various residents of the county of Hastings and other adjoining counties.—The notes were transferred by the payee to third parties, and the stockholders in the company who made these notes soon discovered, instead of silver mines, a batch of law suits. Williams, the head and front of the conspiracy, has as yet evaded the authorities.

The transparency of the fraud was more than apparent in the light which a Court of Justice brings to bear on such transactions. After a long and able charge to the jury from the chairman, in which all the facts and circumstances bearing on the case were marshalled and minutely contrasted, and the law relating to conspiracy fully explained, the prisoners were found guilty on all the counts of the indictment, and only escaped a long confinement in the penitentiary from the fact, as we understand, that the Court saw some reasons for supposing that they might possibly be the dupes of Williams. Both the

swindlers have been tried, convicted, and sentenced to pay a fine of £25, with costs, and undergo one month's imprisonment.

The Grand Division of the Sons of Temperance of Virginia, at its late session in Front Royal, unanimously resolved not to unite, as an organized body, in favor of the Maine law, but to leave the members to act individually as their judgments might dictate.

ROMAN CATHOLIC BISHOP OF NEW-BRUNSWICK.—We understand that letters were received yesterday from Halifax, announcing that the Very Rev. Dr. Connolly, of that city, has been appointed Catholic Bishop of this Province, and that he will shortly enter upon the duties of his Diocese.—[New Brunswick.]

FIRES IN THE UNITED STATES.—Destruction of French's Hotel at New York.—On Thursday last, French's Hotel, in New York took fire, and was nearly destroyed. One female was burnt to a crisp, and two others were missing. The damage is estimated at from \$30,000 to \$35,000, on which there is insurance to the amount of \$20,000.

Several of the passengers who left here in the Barque Venilia for California, which vessel was dismantled in the Gulf, and crew and passengers taken off the wreck and carried to the Azores, have arrived in this city in good health.—*Frontier Journal.*

ACCIDENT.—On Wednesday last, at Baring, a man named Abner Bailey had his arm badly broken above the elbow, while engaged in a lathe machine. The numerous accidents which occur to persons engaged in this department of milling employment, should lead those who are so engaged to the exercise of great carelessness.—*Id.*

FIRE IN THE WOODS.—A correspondent of the Woonsocket Patriot writes that 4000 acres of woodland in the vicinity of Pascoag, Rhode Island, was burned on Friday and Saturday of last week.

Charles Terry, said to be a citizen of Vermont, has been arrested at Jonesville, Vt., charged with advising several slaves to abscond.

In a recent bankruptcy trial in London, it was proved that the firm applying for a certificate had begun business thirteen months ago, without one penny of capital, and yet had purchased grain in that period to the value of a million of dollars.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT, FOR THE CURE OF Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

DO NOT NEGLECT IT.
CONSUMPTION
Can be and has been cured in thousands
of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
and no remedy has ever before been discov-
ered that will certainly

CURE CONSUMPTION.
The most strongly marked and develop-
ed cases of Pulmonary Consumption
where the lungs have become diseased and
ulcerated and the case so utterly hopeless,
as to have been pronounced by Physicians
and friends, to be past all possibility of re-
covery, and at times thought to be dying,
has been cured by this wonderful remedy,
and are now as well and hearty as ever.

It is a compound of medications which are
peculiarly adapted to and essentially neces-
sary for the cure of
COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it
loosens the phlegm which creates so much
difficulty, relieves the cough and assists
nature to expel from the system all diseased
matter by exhalation, producing a most de-
lightful change in the breathing and chest,
and this, after the prescriptions of the very
best medical men and the inventions of
kind-sorrowing friends and Nurses, have
failed to give the smallest relief to the Con-
sumptive sufferer.

THOUSANDS OF CONSUMPTIVE
persons have been deceived in buying medi-
cines which were said to be infallible
cures, but which have proved only pallia-
tives, but this medicine is not only a pallia-
tive but a cure for ulcerated lungs. It con-
tains no deleterious drugs and one trial will
prove its astonishing efficacy better than
any assertions or certificates in curing con-
sumption and all diseases of the Lungs,
such as Spitting of Blood, Coughs, pains
in the side and chest, night sweats, &c. &c.
About 1000 certificates of almost miracu-
lous cures, performed by this medicine,
from some of the first Doctors, Clergymen,
and Merchants, have been sent us for this
medicine, but the publication of them looks
too much like Quackery, [as it shows them
to be] to put person calling at our office. This
medicine will speak for itself and enough
in its own favour wherever it is tried.

Caution.—This medicine is put up in a
large bottle and you must find the name of
Comstock & Brother, Proprietors, New-
York, on the splendid Wrapper around the
bottle. All orders must be addressed to
Comstock & Brother, No. 2, John St.,
New York.

TO OWNERS OF AND DEALERS
IN HORSES.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoofs,
Horn bound Horses, and contracted and
Perverish Feet, Wounds, Bruises in the flesh,
Galled Backs, Cracked Heels, Scratches,
Cuts, Kicks, &c., on horses.

CARLTON'S RING BONE CURE.
For the cure of Ring Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splint—a
certain remedy.

CARLTON'S CONDITION POWDERS
FOR HORSES AND CATTLE.
The changes of weather and season, with
the change of feed and food, have a very
great effect upon the blood and sinuous
fluids of horses. It is at those changes they
require an assistant to nature to throw off
any disorder of the fluids of the body that
may have been imbibed, and which, if not
attended to, will result in the Yellow Water,
Heaver, Worms, Boils, &c. All of
which will be prevented by giving one of
these powders, and will at any time cure
when any symptoms of disease appears, if
used in time. They purify the blood, re-
move all inflammation and fever, loosen the
skin, cleanse the water, and invigorate the
whole body, enabling them to do more work
with the same feed. The action of these
powders is direct upon all the secretory
glands, and therefore have the same effect
upon the Horse, the Ox, the Ass, and all
Herbivorous animals—all diseases arising
from or produced by a bad state of the blood,
are speedily cured by them. Remember
and ask for CARLTON'S CONDITION
POWDERS, and take no others.

CARLTON'S NERVE AND BONE
LINIMENT FOR HORSES.
and for the cure of all diseases of man or
beast that require external application, and
for contracted cords and muscles, strength-
ens weak limbs, and is also used for sprains,
bruises, saddle &c. &c. &c. &c. &c. &c. &c. &c.
kinds on horses.

CARLTON'S articles for Horses and Cattle
are prepared from all the ingredients of the
best quality, and are sold at the lowest prices.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy
for Worms ever used; it effectually eradicates
Worms from both adults and children. It
cannot harm the most delicate infant, or
strongest adult, and never fails to complete,
it root out and destroy all kinds of Worms.
The cost, 25cts. per bottle, puts it within
the reach of all, and all persons who are
without it are wantonly exposing the lives of
their children to those fell destroyers of
youth, "Worms." Look for the name of
Comstock & Brother, proprietors, on the
wrapper of each bottle.

TOOTHACHE.

Comstock's Nerve and Bone Liniment, is war-
ranted to cure any case of Rheumatism, Gout,
contracted Cords, and Muscles, or stiff joints,
strengthen Weak Limbs, and enable those who
are crippled to walk again. Comstock & Broth-
ers, Proprietors, New York and none genuine
without their name on the wrapper.

Dr. Kline's Drops, for the cure of the Tooth-
ache. It is with confidence that we can recom-
mend it as an infallible cure in all cases. With-
out injury to the teeth of adults, or pain to
children, it cures the toothache. Price 25cts.
CARLTON'S LAXATIVE FOR CHILDREN &c.
It is now used in the principal hospitals, and as
the privation in our country by an im-
mense number of individuals and families, first
and most especially for the cure of the PILE, and
also extensively and successfully as to highly cred-
it unless where its effects are witnessed. Exter-
nally in the following complaints:—

For Drops, creating extraordinary absorption
at once. Seizings. Reducing them in a few
hours. Rheumatism. Acute Chronic, giving
immediate ease. Sore Throat. By Canals, Ul-
cers, or Colds. Croup and Whooping Cough. Ex-
ternally and over the chest. Asthma. Spasms,
and Burns. Creating a few hours. Sore and
Bleeding. Whether fresh or long standing, and
never fails.

In operation upon adults and children in re-
ducing the swellings, and loosening coughs,
and tightness of the chest by relaxation of the
parts, has been surprising beyond conception.

CAUTION.—All of the above named articles are
sold only in New York by Comstock & Brother, No.

ber, consisting of nearly Forty Thousand
Trees, are now offered for the inspection of the
Public and for sale. Persons planting these Trees
may be assured of success, as every possible pre-
caution has been used in the selection of varieties,
all that have not proved hardy, have been at once
discarded, and those which have not yet fruited
here have been propagated with the advice of the
most distinguished cultivators of New England
and Canada.

The Subscriber flatters himself that his as-
sortment is unrivalled for this climate, as it contains
nearly all the varieties of Apples and Plums which
have proved valuable in cold and extreme climates,
with many new and splendid sorts lately brought
from Russia, England, Germany, Canada, and the
Northern States.

Holloway's Pills.

CURE OF A DISORDERED LIVER AND
STOMACH, WHEN IN A MOST
HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of
Chapel Hill, Ayrshire, Scotland, dated the
15th of January, 1850.

Sir—Your valuable Pills have been the means
with God's blessing, restoring me to a state of
perfect health, and six times when I thought I was
on the brink of the grave. I had consulted several
 eminent doctors, who after doing what they could
for me, stated that they considered my case as hope-
less. I was a last resource got a Box of your Pills,
which I took after great trial and by persevering in their
use for some weeks, together with rubbing night
and morning your Ointment over my chest and
stomach, and right side, I have by their means
been completely cured, and to the astonish-
ment of myself and every body who knows me.

MATTHEW HARVEY.
CURE OF A CASE OF WEAKNESS AND
DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. Smith, of No. 3, of
Thomas Street, Dublin Street, London,
dated Dec. 12th, 1849.

To Professor Holloway.
Sir—I beg to inform you that for nearly five
years I have known what it was to have a disor-
dered liver, and stomach, and bowels, and a
depression of spirits, and I used to think that nothing
could be done for me. One day, being un-
der the influence of a friend, I saw your Pills
advertised, and resolved to give them a trial, more
perhaps from curiosity than with a hope of being
cured, however I soon found myself better by tak-
ing them, and so I went on persevering in their
use for six months, when I am happy to say they
effected a perfect cure.

(Signed) WILLIAM SMITH.
CURE OF ASTHMA, OF TWENTY YEARS
STANDING.

Extract of a Letter from Mr. J. K. Heydon, 78 King
Street, Sydney, dated 10th of November 1849.

To Professor Holloway.
Sir—I beg to inform you that I have been
suffering from Asthma for twenty years, and
many extraordinary cases of Asthma have been
effected here by means of your Pills. One of these
cases I am now writing you of. I am a man of
the name of "Razorback," who after having
been under the influence of Mr. V. for many years,
and who was so dreadfully bad that he was con-
fined entirely to his bed-room for six months, prior
to his commencing with your Pills, and attended
regularly by his medical man, who pronounced
him to be in a dying state, yet he, likewise, by
my knowledge, has been restored to perfect health
by the use of your Pills, and rubbing your Ointment
night and morning into his chest.

ANTONISHING CURE OF THE EARL
OF ALBENBROUGH.

By this Miraculous Medicine: after every other
means had failed.

Copy of a Letter from the Earl of Albenbrough
to the Editor of the "Edinburgh Gazette," dated
11th Feb. 1848.

To Professor Holloway.
Sir—Various circumstances prevented the pos-
sibility of my thanking you before this time for
your politeness in sending me your Pills as you
said I was in the opportunity of sending you
an order for the amount and at the same time, to
add that your Pills have effected a cure of a
disorder in my Liver and Stomach, which all
the most eminent of the Faculty at home, and
abroad, had been unable to cure.

And I am now in the water of Carlisle and
Marinehead. I wish to have another Box and a
Pot of Ointment in case any of my family should
ever require them, with much respect,
Your most obliged and obedient servant,
(Signed) ALBENBROUGH.

SURROGATE COURT.

COUNTY OF CHARLOTTE.
In the matter of the Estate of Daniel Cun-
ningham late of the Parish of Saint
David in the County of Charlotte, de-
ceased.

WHEREAS Lachlan Doon adminis-
trator of all and singular the
goods, Chattels, and credits, which were of
the said Daniel Cunningham deceased at the
time of his death, hath this day filed
his account with the said Estate, and hath
prayed that the Creditors and next of Kin
of the deceased, and all persons interested
in the said Estate, may appear and attend
the passing and allowance of the said
account.

NOTICE thereof is therefore hereby
given, to all the Creditors and next of Kin
of the said deceased, and to all persons inter-
ested in the said Estate, and they are here-
by cited to appear before me at a Court of
Probate, to be held at the Office of the Re-
gistrar of Probates in Saint Andrews, in
the said County of Charlotte, on Saturday
the Tenth day of APRIL, next, at the
hour of one in the afternoon, to attend the
passing and allowance of the Account of the
said Administrator.

Given under my hand and the Seal of
the said Court, this tenth day of
December A. D. 1851.

(Signed) H. HATCH.
Surr. Judge.

Geo. D. Street,
Registrar of Probates.

NEW BRUNSWICK.

HOUSE OF ASSEMBLY.

Tax following were adopted as S. and
Rules in the Session of 1851:—

37th.—That no Bill of a private nature
or petition for money or relief, shall be re-
ceived by the House after the fourteenth
day from the opening of the Session, both
inclusive; and that the Clerk of this House
do, one month previous to the meeting of
the Legislature, cause fifty printed copies
of this Rule to be sent to each of the
Clerks of the Peace in the several Counties
for distribution, and cause the same to be
inserted in the Royal Gazette, and two
Newspapers in such County where News-
papers are published.

38th.—That this House will obtain no
application for allowances to Teachers of
Common or Parish Schools, unless it shall
be certified by at least two Trustees of
Schools for the Parish where such School
has been taught, showing the time actually
taught.—The Teacher to be licensed—the
cause why such Teacher was not certified
to the Sessions in the ordinary way—and
that such Teacher was not compelled to
discontinue his or her School on account
of any improper conduct.
