ROYAL WELCOME FOR PRINCE

Enthusiastically Received Upon Visit to Loyalist City—Many Veterans There.

St. John, Aug. 15.—The Prince of Wales arrived here at ten o'clock this morning on the warship Dragon and was warmly acclaimed. A drizzling rain failed to dampen the enthusiasm of the great concourse of people from all sections of the province.

The landing was made from a tender at historic Reid's Point and the Prince set foot on Canadian soil for the first time. He was cordially greeted by His Excellency the Duke of Devonshire, Lieut. Governor Pugsley, Sir Robert Borden, Premier Foster, Mayor Hayes and others. It was the greatest galaxy of notables that St. John has seen at one time in many years.

The landing of the Prince was marked by a salute of 21 guns fired by a detachment at West St. John and others at Queen Square. A guard of honor from the 26th Battalion was drawn up on the wharf and after the Prince had inspected it he listened to the doxology and patriotic Canadian songs rendered by one thousand children on a stand near the head of the wharf.

The Royal visitor then entered an auto and in company with the Governor General and Lieut. Governor Pugsley he was driven through the cheering crowds and gaily decorated streets to the armory where addresses were presented.

The Prince replied briefly to the addresses. He spoke very distinctly and with a strong English accent, and could be heard in all parts of the great hall. In the course of his remarks he expressed regret that time did not permit him to visit Fredericton, the seat of government, and asked that his regrets be conveyed to the people of that city.

His Royal Highness and party next repaired to Barracks Square, where colors were presented to the 26th Battalion and a number of war medals distributed.

On leaving the Barrack Square the Prince unveiled a tablet to fallen soldiers in the post office and afterwards visited the military hospital at Lancaster.

BIG ATTRACTION COMING.

A Melodrama of the smashing type is announced for the Opera House on Saturday, Aug. 30th, when "Seven Days' Leave" will open an engagement. This play enjoys the distinction of being played simultaneously by six companies in four continents. Essentially a melodrama, it was written by an English actor, Walter Howard, as a protest against the German spy system long before this country became embroiled in the war. It is in four acts and six scenes. After the United States entered the war the London play was brought to New York, "caught on" and remained for the rest of the theatrical year. "Seven Days' Leave" has all the traditional punch and spectacular features. There brighten the strenuous entertainment are numerous comedy features to brighten the strenuous entertainment in addition to the heart interest aroused the romance.

PROFESSIONAL.

Dr. A. Pierce Crocket, eye, ear, nose and throat specialist, of St. John, will be at the St. Louis Hotel, Campbellton Friday Aug. 29th, where he may be consulted professionally.—2-pd.

CHILD LOST IN THE WOODS

Eleven Year Old Girl Wandered Nearly Nine Days in Woods.

A week ago last Thursday evening two girls named Grant, the youngest aged eleven years, natives of Elm Tree Gloucester county went to hunt the cows. Later the eldest of the two returned but the little sister did not and she no doubt became seperated from her sister and strayed into the woods.

Friday neighbors searched the locality, but nothing but a torn piece of her dress was found and it was feared she had been devoured by bears, signs of which had been seen.

However Saturday, Sunday and for days the search was kept up without avail. On Sunday hundreds of searchers gathered and the woods for eight miles was thoroughly searched, but without avail. The parents had given up all hope of seeing their child alive.

Saturday about noon, a local hunter of Jacquet River was travelling through the woods when in the distance he saw a peculiar object setting on a log beside a hauling road. He could not make out just what it was, as the child's hair had become matted and hung about its face and neck. He approached it cautiously and was horror stricken to discover it was a little child, bare of foot, with its clothes in tatters. When the child saw him approaching it struggled to its feet and endeavored to run into the woods and hide, but was pursued and caught. He cared for it as tenderly as possible, and proceeded at once to the settlements where a physician was called and every attention given so that the little wanderer is rapidly recovering.

In her wanderings the little girl in the nine days and nights had traveled about twenty miles in a westerly direction from her home. She had subsided on berries and it is expected she will be little the worse of her trying experience.

OBITUARY.

Lloyd A. Targett.

Citizens of Campbellton learned with deep regret of the death of Lloyd Alexander Targett, eldest son of Mr. and Mrs. Alexander S. Targett, of Richardsville which occurred at the Hotel Dieu Hospital on July 29th after a short illness of pneumonia. Deceased was 21 years and 7 months of age. He was a Great War Veteran, first enlisting for garrison duty at Newcastle, in August 1914, afterward enlisting for overseas in August 1915 in the 64th Battalion, remaining in Halifax until April 1916. Thence to England on the S. S. Olympic, being anxious to get in the thick of the fight, he was transferred to the "Victoria Rifles" 24th Battalion in Belguim. He was in many of the heavy engagements, including the Sugar Refinery and Courcelette. He was gassed in February 1917 and as soon as he was able to travel he was sent back to Canada for treatment in the hospitals in St. John and Fredericton, but he never fully recovered from the effects of the gas. He was highly respected by all who knew him, and he was a devoted son and brother, he leave to mourn besides his father and mother, four brothers, Emerson, shortly returned from overseas and Everett, Melvin and Gordon at home, and two sisters, Mrs. R. W. L. Worrell of Campbellton and Beatrice at home.

LLOYD A. TARGETT
Died July 29th, 1919.

The funeral service was held at his home on Friday afternoon, which was largely attended, Rev. Mr. Rowley officiating.

The pall-bearers were all relatives: Duncan McDonald, Gilchrist McDonald, Edgar McDonald, Alonzo Fearon, Joseph Targett and James Adams.

The floral offerings were many and beautiful, showing the high esteem in which the deceased was held.

GREAT FUTURE IN STORE FOR CANADA

United States Today Only a Phototype of Canada at Close of Century.

(A. B. Cooper, C. A. P.)

London, Aug. 15—I met Sir Arthur Benn, and knowing that he is deeply interested in Imperial questions, and in Canada especially, I took the opportunity of asking him to talk to the subject.

"Now that Canada has made a great leap forward," said Sir Arthur, achieving in a decade what she might have achieved in half a century, what are we going to do to stabilize that new found position, to make it a platform from which this vast dominion, with its mighty promise of greatness in achievement, may go on to even higher prospects. This is destined to be Canada's century. I could easily prophesy, and if I did so venture I would say that the United States of today is only a phototype of what Canada will be at the close of the twentieth century, and what I prophesy of Canada I prophesy also of Australia, New Zealand and South Africa.

"Personally, I am inclined to think that the basis of trade relations, super-imposed, of course, upon the sense of natural kinship of which I have already spoken, is the most promising road to these great ends. I see that the Canadian Government has sent to London a trade mission which has already done very notable work in directing Canada's policy of trade. Surely this is a good precedent. What Canada has done why should not the other dominions do? Why, indeed, should not the Mother Country do likewise? If a trade mission comes from Ottawa, why should not a trade mission go there from London? Why do not Melbourne and Wellington and Cape Town send one? And why should we not have drawn from all of the missions and delegations a sort of Imperial trade union which should watch every trade route as the British Navy watches every coast, whose duty it should be to assist and further any enterprise which is for the well-being and prosperity of the Empire."

WILD CATS ARE KILLING GAME

Demand Made That Bounty be Increased. Guide Kills Cat and Kittens.

(Fredericton Gleaner.)

Wild cats are seriously harassing the deer in the woods of New Brunswick and will wipe out an exceedingly large number of game animals unless proper steps are taken immediately to combat the danger, according to reports which reached The Gleaner today.

Robert Lowe, of Allandale, the well known woodsman and guide, reports that in the Shogomoc where his hunting and trapping camps are located, that wild cats are more plentiful than ever and have done a great deal of harm. A number of young deer have been killed already and earlier in the season some of the farmers had lambs killed within a short distance of their barns.

A few days ago Mr. Lowe killed a large wild cat and three kitten while at Cork Lake in the Shogomoc country. They had started to swim from the mainland to an island and he started after them, thinking they were muskrats. He was surprised to find the four objects were a big wildcat with three kittens, but he quickly killed them all with a large pole which he had in his canoe. Mr. Lowe saw five other wildcats in the same vicinity about the same time and says that throughout his territory they are much more in evidence than usual.

The bounty now paid on wild cats in New Brunswick is $3 while in Maine it is $10, and there is a growing demand that the bounty here be increased so as to make it worth while killing the animals for the protection of the game.

MORE BOATS ON PULPWOOD ROUTE

Meigs Pulpwood Co., Planning for Increase in Sailings From Bay Chaleur.

(Oswego Daily Times.)

Mr. Meigs, president of the Pulpwood Company, Inc., owns of East Cove, and operators of the pulpwood terminal there, and the forwarding business installed in this port this summer, is in town today inspecting the company's property, where the steamer Morrow is now unloading the first consignment of 1,200 cords of pulpwood to come into this port in some years.

Mr. Meigs' company operates about twelve terminals and pulpwood propositions in Canada and this country, and if present plans work out satisfactorily, according to statements made today, Oswego will be kept busy for some years to come taking care of pulpwood. Mr. Meigs told local business men, who were interested in the proposition to get the concern located here, that at a conference between forwarders and shipping interests held in New York city yesterday an agreement was reached to put four additional steamers on the route carrying pulpwood to Oswego from lower Canada. These steamers are now on their way to Gaspe to be loaded for this port.

The Meigs interests are already working on a more extended proposition in lower Canada for next year, which will keep the terminal here busy all next season. In any event the plans call for utilization of the local plant to the fullest extent, and it may be that its capacity will have to be enlarged to care for increased business next season.

The unloading of the steamer Morrow has required several days longer than will be the case with steamers that follow. It is hoped to cut the round trip time down considerably and certain changes will be made to the conveyors and unloading devices at the plant in East Cove, which will speed up the trans-shipment time.

The officers of the Meigs' company are well pleased with the plant here, and the location, and impressed with the advantages that are offered here, and prediction is being made that the plant will soon be enlarged, if the plans of the Meigs company work out along lines that have been arranged. The next twelve months will be big business months for the paper manufacturers and consequently for the companies furnishing raw materials, and from now until the end of the season the company will do everything possible to stock up the local terminal which has a capacity of 60,000 cords. The average steamer cargo will range from 1,000 to 1,500 cords. Mr. Meigs told the longshoremen at work on the Morrow, that he believes they will have steady work from now on until the close of navigation and perhaps longer."

The Meigs Pulpwood Co., has its head office for this district at Campbellton with branches at Cascapedia, New Richmond and other points.

FORD BILLS HEAVY; LITTLE COSTS AWARD

Mount Clemens, Mich., Aug. 15.—The amount of costs that Henry Ford may receive from the Chicago Daily Tribune, in addition to the six cents damage awarded him by a jury which he answered his libel suit against the Chicago newspaper, will not exceed 50. Under a Michigan law where nominal damages are awarded not more than $50 costs can be assessed against the losing party.

FOREST FIRES WIPE OUT SETTLEMENT

Toronto, Aug. 16.—Forest fires which are now sweeping the Parry Sound district completely wiped out Deer Lake settlement, 23 miles from Parry Sound, on Wednesday, according to incomers from the north country. Travellers who alighted from trains last night said the settlers were preserving their lives only by moving about from one clearing to another as the fire swept onward.

The Canadian National Railway bridge between Deer Lake and Bulger has been destroyed according to the latest information, and C. N. R. trains are utilizing the C. P. R. tracks for through trains. Local service is at a standstill. No loss of life has been reported.

A serious situation is developing again in the district west of Elk Lake, in the Cobalt district, bush fires again making headway, according to reports received here.

A formal denial that the Rumanian Government favored the advent to power in Hungary of Archduke Joseph was issued today by the Rumanian press bureau.

GIRL SEES LOVER SHOT BY ANOTHER

Pittsfield, Aug. 15—Bruno Mazzotto, a laborer, shot James Desteto, a shoemaker, of Wahconah street, tonight at 74 Pearl street. Mazzotto fired three bullets into Desteto at short range. One entered the brain from behind the ear. Desteto died in a police ambulance on the way to a hospital.

Mazzotto fled. Both men were suitors of Anna Filomica of 74 Pear street and Desteto was the favorite suitor. He was leaving her house when Mazzotto appeared. The shooting was witnessed by Miles Filomica from a window.

Mazzotto is 30 and wore dark clothing and a cap. Police of surrounding cities were notified. He is believed to have gone eastward on a freight train.

TRAGEDY CAUSED BY HOME MADE LIQUOR

Home-made rum is blamed as the cause of the suicide of William Bourgoin, aged 50 years, a resident of Flemming, N. B., word of the tragedy reaching here today.

According to the report received here, the dead man placed the muzzle of a shotgun over his heart, with the butt resting against the bed, and pulled the trigger with almost immediate fatal results. He had been under the influence of a home-made brand of liquor, and it is said, and it was while in that condition that he committeed this rash act.

As near as can be learned, Bourgoin was in the habit of going on periodical debauches on the home-made liquor, and while in that state lived in a small shack adjoining his home, allowing nobody to see him. He had been on one of these debauches for several days, allowing no one to see him, when he finally committed suicide. Besides his wife, he is survived by five children.

CAN FLY 1,000 MILES IN 11 HOURS

Swiftest Bird of Prey is a Species of Falcon.

Doubtless the swiftest passage over a long distance ever made by man was that of the daring aviators who flew from Newfoundland to Ireland. They traversed a space of 1,932 miles in 972 minutes. That was at the rate of nearly two miles a minute. To be precise, it was a mile in 30.18 seconds, or a fraction less than 175 feet a second. For a much less distance a lightly higher speed was made by an army airplane between Boston and New York. The distance of 175 miles was made in 83 minutes. That was a mile in 28.45 seconds, or more than 185 feet a second.

That is rapid traveling. It is not, however, the swiftest aerial flight known. A swallow could literally fly round and round one of those airplanes when the latter was it top speed. Carefully conducted tests by a French scientist have demonstrated that the speed of a swallow in full flight sometimes goes as high as 290 feet a second, or at the rate of a mile in 18 seconds, while the ordinary flight of a swallow is 210 feet a second, or considerably faster than the airplane.

The eagle is a comparatively slow bird on the wing, making no more than 75 feet a second, or much less than half the speed of the airplane. Surprising as it may be to many readers, the great, heavy wild goose, which "honks high" when "everything is lovely," is a far swifter bird than the eagle, in fact, fully twice as swift, rushing through the air at the astonishing speed of 175 feet a second. The homing pigeon is also far swifter than the eagle, having been known to maintain an average speed of 132 feet a second for a distance of a hundred miles. Perhaps the swiftest bird of prey is a species of falcon, which has been known to fly about a thousand miles in eleven hours, or at the rate of 133 feet a second.

These speeds vastly exceed, of course, that of the fleetest land animals. The race horse running a mile in two minutes covers only forty-four feet a second. English foxhounds make sixty feet a second, and some dogs are said to have run ninety feet a second. Some smaller antelopes are said to be much more speedy than the larger deer. The huge giraffe, despite its long legs, is believed not to go more than fifty feet a second. One of the fleetest of all large land creatures is the ostrich, which can run at the rate of eighty feet a second.

Men can run about thirty-two feet a second, that being the world's best second for a hundred yard sprint. Contrary to common supposition, skaters are no swifter than runner, the world's records for both being precisely the same—9 2-5 seconds for a hundred yards. Runners on skis have, however, made as much as seventy-two feet a second and in leaping on skis more than 100 feet a second is attained.

Leaping on skis is therefore doubtless the swiftest method of locomotion yet practiced by man. But even that is slow when compared with the speed of some other creatures. It surpasses as we have seen the hare and the deer, and far outdistances the comparatively slow kangaroo. But there is a jumping mouse in the African deserts which is credibly said to make eighty leaps a second, of ten feet each. That means 800 feet a second, which is more than four times the speed of the airplane and three times that of a swallow. Nor is even this amazing creature the swiftest known, for the commonflea has in his leaping a velocity of 850 feet a second, which approximates ten miles a minute.

McClary's Kootenay

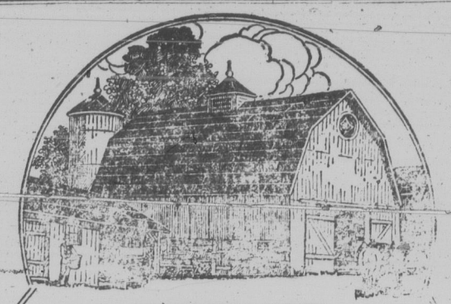

SURELY it is every woman's right to have a range like the Kootenay!—a range that she can depend on—a range that is a real joy to work with—a range easy to keep clean—a range that "keeps the oven hot" with a small fire.

The cooking-top is burnished brighter than steel; it never needs Blacklead. The oven wall of nickeled steel is easily cleaned. The duplex grates clean down the fire with a single swing of the lever. *See this famous range.*

100% SANITARY

Germs flourish in the seams and joints of ordinary milk-pails. No matter how carefully you scald and cleanse, you never can be quite *sure* that some crevice does not harbor a colony which will make trouble later on.

EDDY'S INDURATED FIBREWARE MILK PAILS

are 100 per cent sanitary, because there are no joints or seams to cleanse. They are made in one piece, from wood pulp, under tremendous hydraulic pressure. The hard, glazed surface is baked on at high temperature, and is absolutely impervious to liquids. Eddy's Milk Pails are practically indestructible. They cannot be dented and no cracks can develop on the surface. Rust cannot attack them and no ordinary accident will do them injury. They cost no more than ordinary milk pails. They will save you labor now, and in the long run they will save you money.

TWO MILLION WORKERS WORRIED

Over Latest Strike in New York.

New York, Aug. 18.—More than two million persons who ordinarily travel daily over the Interborough Rapid Transit Company's subway and elevated lines in Manhattan, the Bronx, Brooklyn and Queens to-day either took slow-moving surface cars and improvised conveyances or walked to their work as a result of the strike of the company' 14,000 employes for a fifty cent. increase in wages.

The stoppage of the main arteries of travel caused the worst traffic snarl in the history of the city. The narrow streets in down town New York were fairly congested during the early morning hours. Thousands of jitneys beyond capacity with workers, clogged the thoroughfares. Thousands fought in vain for standing room on each over-loaded trollery car. Trolleys and other vehicles moved at a snails pace. Residents on the outer fringe of the city were unable to reach their places of employment until many hours after their usual time, and industrial New York was crippled in consequence.

An effort to reach an agreement between the Interborough officials and the strike leaders will be made this afternoon at cnference with publico service officials.

EX-KAISER BUYS PROPERTY IN HOLLAND

Estate is Five Miles from Utrecht.

Utrecht, Holland, Aug. 17.—Former Emperor Wilhelm, who has been living at Amerongen since his arrival in Holland, has purchased the estate and house of Doorn, at the village of Doorn, near Utrecht, according to the Dagblad. The estate was bought from Broness de Beaufort. It is about five miles north of Amerongen, in the direction of Utrecht.

SAYS TITLES ARE NOT UNPOPULAR

But Should be Distributed More Judiciously.

London, Aug. 17.—The Spectator, discussing the prayer of the Canadian House of Commons regarding titles denies that they are unpopular and says the conclusion is pretty clear that they gratify some popular instinct, being some sort of pleasure to a far larger class than bear them or hope to bear them. They are certainly not undemocratic, for democracy seems to love them. The Spectator however, declares that the first condition for the continuance of them beneficially is to confer them more judiciouly and less plentifully.

NO ROYAL ROUTE.

No matter what panaceas empiricism may suggest to deliver us from the high cost of living and all the other ills to which flesh is heir, it is an indisputable fact that we cannot eat what isn't there. No amount of casuistry can possibly persuade us that the cupboard is full when it is empty, and the only way to obtain satisfaction is to set about replenishing the cupboard.

All real wealth comes by means of production and the only way to increase wealth is to increase production, points out an exchange. The machinery which man has already invented should enable him to produce, under conditions of labor agreeable and reasonably remunerative, all that he can possibly need and a good many of the luxuries that he considers himself entitled to. The idea, however, which seems widespread to day is that wages must and can be increased indefinitely even if production be pasmodic and restricted. Many are evidently under the delusion that production is an altogether secondary matter which can be gone on with or not at all, and seem to think that, provided wages be high enough, the increase of those things by which men live is not vital.

There is no royal route to prosperity either by means of higher wages or otherwise; prosperity can only be obtained by steady productoin and increased by greater effort in production. This would seem to be so axiomatic as to be apparent to the most casual observer, but it appears to be as much overlooked as that other fact which has so much bearing upon the question of unemployment, namely, that every man who works himself inevitably makes work for others.

A PROTECTIVE POLICY.

Premier Hughes of Australia has ever been an out and out Free Trader. His policies had the support, not only of a majority of the people, but of a large number more than a mere majority. There is yet confidence in Premier Hughes as a loyal and an able public man; but public opinion has undergone a great change on the trade question now that the Commonwealth is face to face with a grave economic situation. Australia, whose people number five millions, owes in the vicinity of $3,500,000,000. To pay interest on this vast sum, the people must produce more. They must enlarge their industries and expand their trade to find profitable employment for a growing population. The Australian Industries League, recently formed at Melbourne, has been sponsored by the acting Premier, Mr. Wall, who has pledged the Government to a policy of Protection. His action has caused some excitement in political circles in the Commonwealth, but Parliament will clearly sustain the Government in the decision to adopt the highest possible range of duties. The Australians are acting logically and moving onward cheerfully.

NO PRESCRIPTIONS ISSUED AT CHATHAM AND NEWCASTLE

Word has reached here that, because of friction between the members of the medical profession and inspectors operating under the Prohibition Act, certain places on the North Shore are without any legal methods of obtaining alcoholic liquors even for medicinal purposes.

The doctors of both Chatham and Newcastle have reached agreements among themselves not to issue any prescriptions for liquor, because they claim they have been "for long humiliated by the Prohibition inspectors," and it is forecasted that the provincial Government will have to intervene to break the deadlock that has been created.

The Gleaner's correspondent at Newcastle sent out the following despatch last week:

"Newcastle, Aug. 15.—The long expected has happened on the North Shore, and today it is impossible to secure in a legal way one drop of alcoholic liquor.

"The medical profession, long humiliated by the Prohibition Inspectors, have struck. On Monday the doctors of Chatham announced that they would issue no more prescriptions for alcholic liquors, and the Newcastle members of the profession have taken a like course.

Just what will be the outcome of the situation is very much in doubt, but one sure thing is that the medical men will not recant from their position, and it is likely that Government action will have to be taken to straighten out the matter."

ST. JOHN GREETS THE PRINCE.

St. John was en fete on Thursday in honor of the War Veterans, and on Friday in honor of the Prince of Wales. Arches spanned the streets, and buildings were elaborately decorated with streamers and bunting. The Prince landed at Reed's Point at 11 and received a most demonstrative popular reception. At the head of a long procession of automobiles His Royal Highness passed through the city to the Armory, where addresses were presented to him, and he presented colors to the 26th Batt., on Barrack Square. Then the royal procession proceeded to the military hospital in St. John West, and subsequently unveiled a tablet to the soldiers at the post-office. Even princes must eat, and the Prince was entertained at the Union Club at luncheon with the members of the Government, Senators and members of parliament, the members of the Legislature, and the Mayors of New Brunswick cities and towns, and then motored to Rothesay and attended Governor Pugsley's garden party and dance. He returned to his ship in the evening.—World.

SHORT CHANGE.

Courier, St. Stephen: Now that some Calais merchants find it necessary to discount Canadian money, exception is taken by customers, when they tender a United States bill, to having Canadian money handed them for change. One St. Stephen lady who traded in a Calais store on Saturday and paid in United States currency was victimized by having Canadian money given her for change, which was not noticed until she returned home. Not all Calais stores would practise this sharp trick, but "watch your change." On this side of the line Canadian money is worth its face value and is legal tender for the full amount.

Consolation.

A lady was exceedingly annoyed when a waiter spilled a large amount of soup over her dress.

"Look at that!" she exclaimed pettishly. "Now what's to be done?"

"Never mind," said the waiter, trying to pour oil on troubled waters. "There is plenty more where that came from, and I won't charge you for it either."

There has been established on the shores of an island off the West coast of Florida what is believed to be the first sponge farm in existance. More than 500,000 sponges are being cultivated.

CAMPBELLTON ASTONISHED BY MERCHANTS STORY

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-i-ka relieved me INSTANTLY." Because Adler-i-ka flushed the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. A. McG. McDONALD, Druggist, Campbellton, N. B.

The Tale of Perfect Time in a Watch. From Mainspring to Hairspring, between them lies the secret.

The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The fitting is most delicate; imagine a 100th part of a hair, (Impossible isn't it?) Yet it is enough to interfere in its performance, so wonderful is the adjustment. The friction from accumulating dirt; lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember my business is the care of watches, and my opinion costs nothing.

PROHIBITION ENFORCEMENT.

It has been gratifying to the editor of the Graphic to receive the commendation of all classes of citizens upon our remarks in reference to the enforcement of the Prohibition and Inland revenue laws. Many have called at our office and fully endorsed our statements and there are others who even make much stronger statements.

But all are agreed that it is up to the citizens of Restigouche to assist their rights and insist that the laws be properly enforced.

Great Future a a -... .er

STILL DRIFTING.

Our town fathers are still drifting along in the same old rut, doing business in the same old antiquated style.

Despite the fact that the bylaws have been amended so as to allow of systematizing the town business and the introducing of up-to-date methods of transacting municipal affairs, beyond the writing of a letter or two, nothing has been done.

The Graphic understands that a western Municipal expert has written the Town Council offering his services for a very modest sum, and from his references we understand he is an expert of a very high order, and one who would be very useful to Campbellton under present circumstances.

There is certainly nothing to be gained by delay, and very probably much could be saved and services improved by such a move. Let us have some evidence of life in this matter.

DR. TRAVIS GIVES INTERESTING LECTURE

The public meeting held last night in the Council room to hear an address from Dr. Travis Associated Editor of the Boston Forest and Stream. It was not largely attended but he had a thoroughly appreciative audience. Dr. Travis has been touring the province under the auspices of the Tourist Association, with a view to giving the readers of his Journal, a first hand account of the nature resources of New Brunswick.

He talked in glowing terms of the natural beauties of the country and its wonderful hunting and fishing grounds. The story of his travels through the streams and lakes of the province, all fully illustrated will certainy prove a great advertisement and draw many sportsmen in coming years.

He ran past part of the Upsalquitch on Tuesday in company with Mr. Max Mowat and yesterday Mr. Harry Smith, Secy. of the Board of Trade, showed him many interesting points about the town, including the fish hatchery and fox farms.

The first twenty minutes of his lecture was donated to his experience at the front, where he was much in company with the Canadian soldiers His strony praise of the Canadian soldiers and their heroic deeds was of great interest.

He hopes to come this way again in the near future where he will receive a hearty w...me.

LABOR DAY CELEBRATION.
The preparations for Labor Day celebration are under full swing, and the several committees are much encouraged by the offered support of the citizens.

The ferry boat has been engaged for the evening, and it is proposed that one of the bands will be on board while the boat will play up and down the river in front of the Town.

It is intended that the park grounds will be electrically lighted, and a band stand and dancing booth will be erected there.

The committee say that there will be over one hundred decarted cars in the procession.

FORMER PROHIBITION INSPECTOR IN TOWN
The many friends of Mr. Timothy Mann, are glad to see his smiling countenance again in our midst. He reports himself to be an out and out farmer, having sowed oats, planted potatoes and all the mill vegetables sufficient to warrant him being classed as an up-to-date farmer. The people of Campbellton very well know that whatever Mr. Mann lays his hand to will be done well, and we bespeak for him a long success as a farmer. If he makes good as a farmer as he had done as a police officer and liquor inspector as no doubt he will, there is nothing more to be desired. Mr. Mann is very uncommunicative when asked if he will not come back to service as an inspector. The public would heartily recommend his again taking a hand at enforcing the liquor law. There is a place for an energetic man to take hold of this work.

We wish Mr. Mann all success in whatever ddepertment of activities he may engage.

McDOUGALL—BROWN
A happy event took place at the home of Mr. and Mrs. J. W. Brown, Roland Manitoba, on Monday, June 16th, when their second daughter, Stella Minnie, became the wife of J. C. McDougall, Depot Master of Regina, son of Mr. and Mrs. Allan McDougall of Tide Head, N. B. Rev. R. E. McCoulloch of Roland officiated. The bride was given away by her father, she wore a becoming dress of pearl gray taffetta and georgette and carried a sheaf of roses and ferns. Miss Cora Brooks, cousin of the bride played softly through the ceremony. After a dainty dunch was served, the newly married couple left amid showers of confetti and good wishes for the coast. The bride travelled in a suit of blue serge with small becoming hat to match. On their return Mr. and Mrs. McDougall will reside in Regina, Sask.

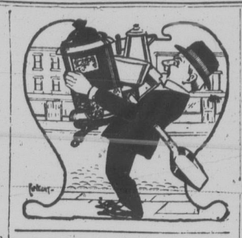

ARIZONA COWBOY BRANDS BROADWAY IN WESTERN STYLE
BOB SANDS is a puncher from the Southwest. He got into Manhatten a few days ago and was employed by Mr. Harrington, the millionaire railroad man, to undertake to tame young Larry Harrington, his son. The brightly lighted districts of the metropolis have known Larry for some time past as a spender who has no regard for his father's millions, and who can fight like a demon.

Boy started in by licking his charge and then tried to help him collect some letters foolishly written to a pretty little waitress. But Bob fell for the lady himself and then Harrington, Sr. called in a private detective to get the evidence. The latter got away with the papers, but Bob borrowed a mounted policeman's horse and followed the fleeing taxicab.

Overtaking it, he got the letters and returned with the young millionaire to the girl. Then he learned that she don't care a bit for Larry, but was strong for himself. Now they are going back to Arizona where Bob says he has room to yell when he wants to and where there is space to ride without bumping into cars and policemen every ten feet.

Above is the outline of William S. Hart's new Artcraft picture, "Branding Broadway," which will be presented at the Opera House, Friday and Saturday. C. Gardener Sullivan wrote it and Hart did the directing. They say it is a different Hart picture—and the public will agree when they see it. Seena Owen is Mr. Hart's leading woman in this production.

FLYING BICYCLE

LATEST AIR MODE

London, Aug. 15.—Flying bicycles are the latest word in aerial fashions.

Gabriel Poulain, noted French cyclist, has succeeded in perfecting an aerocycle which he is able to raise in the air and propel 12 yards, attaining a speed of 25 miles an hour. Poulain will demonstrate the aero machine before the French Aero Club soon.

French and British enthusiasts forecast the day when the aerocycle will be as common as the bicycle. Great muscular effort is necessary to lift the machine from the ground, but once in the air propulsion is easy.

MEXICO CALLED ON TO ACT PROMPTLY

In Securing Release of Aviators Seized by Bandits.

Washington, Aug. 18.—The United States embassy at Mexico City was instructed today by the state department to immediately call upon the Mexican government for quick action to effect the release of Lieuts. Paul Davis and Harold C. Peterson, American army aviators, who were captured by Mexican bandits near Candelania Texas, while patrolling the border and who are threatened with death unless $15,000 ransom is paid to-day. The state department's announcement said:

"The instructions pointed out the seriousness with which the United State government views the situtation, and called for immediate and adequate action."

The American consul at Juarez also was instructed to take all possible steps with the Mexican authorities there to secure release and protection of the officers.

State department officials said the ransom demanded would be paid as soon as information could be had as to where and to whom the money was to be delivered. It has not been decided whether the United States would furnish the sum and charge it against the Carranza government or call upon the Mexican government to pay it direct.

ARCHDUKE JOSEPH DECLARES NOT WORKING TO BRING HAPSBURGS BACK TO THRONE.

Budapest, Aug. 16.—Archduke Joseph, scion of the Hapsburg house and dictator of Hungary, emphasized in an interview today that he "was not working in the interest of royalism." Joseph declared his functions would end with the election of the National Assembly, which would decide the future form of government. Hungary's first task, he said, was to obtain recognition from the Allies. He was hopeful of realizing this aim. He said Hungary would not forget America's food relief, which had helped his country when "times were hard."

"In reply to the suggestion that I am the pacemaker for monarchism," Joseph said, "I declare emphatically I am not working in the interests of royalism, but upon requests from all sides I have taken over the leadership of the country until the elections for the National Assembly. My duty is to safeguard the expression of the nation's will, free from any outside influence. Thus the nation, through representatives elected on the basis of the widest general suffrage, will decide the future form of the state. As soon as the elections occur and the National Assembly meets, my functions will end, as the Assembly's decisions will be sacred to us all.

"By the reorganization of the cabinet we wish to give representation to the socialists, peasants and the bourgeoisie elements. The chief condition set by the socialists is that I clearly define my attitude toward monarchism. I have complied with this, not only in my statement here, but in widely published manifestos."

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softaner, whitener and beautifier.

Just try it? Get the three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

ONLY NATURE'S MANTLE FOR FAITHIST CHILDREN

New Religious Cult in Great Britain.

London, Aug. 18.—The remarkable story of a new religious cult has been revealed in the courts this week. The president of the Faithist Brothers and Sisters was charged at Crownhill, near Plymouth, for not registering children, and from the evidence given it appears that nulity is one of the doctrines of the new sect.

The brotherhood have bought a house and seven acres of land to house their flock, and when the school attendance officer and the police called there they found children between the ages of 3 and 15 years running naked about the grounds.

According to John Arthur Pratt, the President, the children had their baths in a trough outside the house and ran about in the sun and air.

A woman assistant stated that the object of this treatment was to teach the children to "subdue their nature."

The children were stated to be extremely healthy, clean and well fed. They were mostly orphans and foundlings and the brotherhood believed the sun's rays should be upon the children and that they should bathe every day.

The magistrate imposed a small fine for the omision to registar, and the chairman of the board stated that the institution was conducted in a straightforward manner, acording to the report of an investigating committee.

BOLSHEVIKS ON THE BLACK SEA COAST

Only About Fifty Miles Remain in Their Hands, the Volunteer Army Having Advanced

LONDON, August 12.—Only about fifty miles of the Black Sea coast remains in the hands of the Bolsheviki the volunteer army having advenced south and west of Kharkov and occupied Ochakov, forty-one miles east-northeast of Odessa, according to a War Office official statement last night.

"On the Asterakhan front the volunteers are advancing and regaining the ground lost a few weeks ago," the statement continues. "A thousand enemy deserters have joined the volunteer.

"On the Volga front the Urdah-Astrakhan railroad has been torn up, the defenses destroyed and many prisoners token. Three-quarters of the Kamishen-Baltashov railroads are in the hands of the volunteers but the Bolsheviki counter-attacks have been successful near Kloan.

NEW PROJECT OF BATHURST LUMBER CO.

Dr. C. D. Howe, Dean of the Toronto Forest School, recently visited New Brunswick where he visited some of the parties engaged on the New Brunswick Forest Survey. The Conservation Commission, through Dr. Howe, is co-operating with the New Brunswick Forestry Department, and a special party, employed by the New Brunswick Government, is devoting the entire season to the study of annual growth and regeneration, under Dr. Howe's immediate supervision. Also, the limits of the Bathurst Lumber Company and the Pejebscot Lumber Company were visited, and it is possible that through the co-operation of the Bathurst Lumber Company, the Conservation Commission and the New Brunswick Government, a 60 acre experimental plot may be established. The Bathurst Lumber Company are especially interested in experimental work of this kind with a view to perpetuating their timber lands.—Canadian Lumberman.

MAY TRY TO GET KRUGER'S GOLD

More Than $3,000,000 Sunk. With Bank—New Methods May Bring Success.

London, Aug. 2—To recover more than $3,000,000 in gold, part of the fortune of the late Oom Paul Kruger, once president of the Transvaal, which is believed to be cemented in the hold of the bark Dorothea, sunk off Tenedos reef, off the coast of Zululand, is one of the projects which may be revived as a result of improvement in the science of salvaging sunken ships. The Dorothea is named among the list of wrecks of eight treasure ships located off the African coast which are regarded by one prominent expert as most likely for salvage.

It is believed that Kruger's fortune still lies in the botton of the Dorothea among the jagged rocks of Tenedos reef. The gold is reported to have been shipped some time prior to 1904 by Kruger, who was credited with a fortune of $3,700,000. Some years ago a syndicate was orgarized to attempt its recovery, and a government steamer, the Alfred Noble, was sent to do the work of salvage, but failed.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco.

Take a small pinch, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it impart its strength thoroughly and quickly.

Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.

LIQUOR SEIZED ON TRAIN FOR TORONTO

Toronto, Aug. 16.—"I'd rather give $30,000 than to have to appear in court over this." The words were spoken to a provincial license inspector yesterday following the biggest haul of illicitly consigned liquor made by the Department. Certain well-to-do Toronto citizens grouped in a downtown hotel were placed under arrest today, and others are being sought by provincial license inspectors, who located a suspected box car on the railway tracks yesterday morning and seized 225 cases of whiskey, which were consigned to Toronto from Montreal. The names of those arrested have not been made available.

THE CONFERENCE TO BLAME.

There can be no concealing the fact that in one vitally important respect the Peace Conference has failed signally of its duty. When resistance by the Central Powers came to an end, the Allies found themselves with a chaotic world upon their hands. Since they alone possessed power sufficient to command respect and obedience, theirs was the task of maintaining order, of restoring peace and law.

The Conference, since taking up the task of reconstruction, has made no adequate provisions for ending confusion or for enforcing its commands. Inspired by President Wilson's unpractical ideas, they have trusted too much to moral pressure and too little to the arm of force. And their watchful waiting has proved as disastrous in Europe as was the President's in Mexico. While the Council of Five has contented itself with advice and admonitions, affairs in Central Europe have gone from bad to worse.

The Congress of Vienna, however numerous were its failings, at least had the moral courage to maintain peace while its deliberations were going on. But the accompaniment of the present Peace Conference has been bloodshed and anarchy throughout a large part of the world, a Polish-Ruthenian war, a Czech-Magyar war, new massacres in Asia Minor, chaos in the Caucasus.

And now we find Rumania, a State saved from slavery by the Allied victory and from starvation by American food, defying the orders of the Conference, upsetting all its plans for Central Europe, placing a Hapsburg at the head of the Hungarian government, paralyzing commerce, stripping the country of its industrial machinery. And the Conference contents itself with sending Mr. Hoover to Vienna, near enough to Budapest to warn the naughty Rumanians that unless they behave they will be sent to bed without supper.

History will not hold the Conference guiltless in these matters. However good may have been their intentions, however just their settlements, they must shoulder the blame for the many miscarriages which have resulted from their spineless policy. Europe has been through Armageddon; it was, and to a large extent still is, in a state of chaos; what it needs is a policeman, not a moral reformer.

CITY GETS CONCRETE MIXER.

City Engineer McDowell has at last received the concrete mixer which was ordered some time ago and already has it in operation on the rebuilding of York street. The machine has a capacity of half a cubic yard and can be used for mixing either cement or tarvia concrete. It cost $700 and has been enroute here for the past three or four weeks. It is proposed to use the machine for mixing tarvia concrete for the roads and cement concrete for sidewalks.—Gleaner.

AUTOS DISABLED.

A motor party from Campbellton met with a mishap on the road between Bathurst and Chatham on Wednesday, one of the cars breaking down when about ten miles out of Bathurst. Mr. Robt. McKenzie came on to Chatham in his car and the necessary assistance was sent out from the McLennan Garage. We understand it was some disarrangement of the machinery which caused the holdup.—Chatham World.

NURSE NEVER SAW ITS' EQUAL

Miss Murray After Twelve Years Professional Service, Praises Tanlac.

"I have been a trained nurse for twelve years, and have had a great deal to do with medicines, but when it comes to building a person up from a week, run-down condition, I have never seen anything to equal Tanlac," said Miss A. M. Murray who lives at 202 Warwick Block Winnipeg while talking to a Tanlac representative the order day.

Miss Murray successfully practiced her profession in New York for eight years before coming to Canada four years ago. She has been equally successful here and her services are greatly in demand by the most wealthy and influential people in the city.

"I nursed thirty five cases of influenza last winter," continued Miss Murray, "and I had to work night and day almost, and that was too much for me, and pulled me down something awful. Finally I had an attack of the "flu" myself, and after pulling through that, I was in an extremely weak, run-down condition. I was utterly exhausted all the time, I was very nervous, and for the first time in my life, I was unable to sleep well, and would very often lie in bed and read for hours, trying to get sleepy. Why, I was just so nervous and run-down that I was actually irritable, and the most trivial things would upset me. My appetite left me entirely, and there were many days when a cup of tea was all I could take at a meal time.

"One of my friends induced me to take Tanlac, and it certainly is wonderful the way it has built me up. Why, I have actually gained fifteen pounds already, and I have only taken two bottles so far. All that nervousness has left me, and I sleep just like a child every night, and that tired exhausted feeling has left me altogether. In fact, I feel just fine all the time, and I unhesitatingly recommend Tanlac to everybody. I never lose an opportunity to advise people who are weak and run-down, like I was, to take Tanlac for I believe it is the best medicine they can get to build them up. I am sure that anybody who gives Tanlac a fair trial will feel just as I do about it—that it is a real medicine and can be relied upon to do just what they say it will do."

Tanlac is sold in Campbellton by THOMAS WRAN, Druggist.

BOY ACCIDENTALLY SHOT BY MOTHER

Toronto, Aug. 16.—Clifford Wilde, aged 14, was accidentally shot and killed by his mother at their home at 995 Queen street east this morning, while the pair were packing their suit cases in preparation for a holiday trip. "There is more room in your suit case than in mine," said Clifford, and handed his mother his revolver, of which four chambers were loaded. As the mother stooped to place the weapon in her bag the trigger caught, there was a report, and a bullet entered the boy's side. He pitched forward and was dead before medical aid arrived.

CARRIED AWAY GATES OF CANAL

Cornwall, Ont., Aug. 16.—The steamer Aztec, of Buffalo, N. Y., laden with 1,007 tons of coal, carried away the four gates of Lock 17 of Cornwall canal yesterday afternoon, and as a result navigation will be tied up for at least twenty-four hours.

A number of boys were bathing at the lower end of the canal. Two of them were caught in the rush of water, and Wilfrid Godin, aged 7 years, was drowned. Omer Burrell, the other boy, clung to a telegraph pole until he was rescued.

PICKPOCKETS TO FOLLOW THE PRINCE

Montreal, Aug. 16.—Pickpocket gangs, with headquarters at Toledo and Philadelphia, have a thorough organization covering all the places to be visited by the Prince of Wales, and have planned to operate on a wide scale in the crowds that will gather to see the royal visitor," said Chief Detective Lepage today, "and parties of scouts from the bands have begun their survey of the largest centres. Numbers of them have arrived in Montreal and I do not expect that they will have a free hand in the place, as special measures have been taken.

COST OF LIVING SCORES ADVANCE

Ottawa, Aug. 16.—The cost of living scored another advance during the month of July, according to the current issue of the Labor Gazette. The average cost of a list of twenty-nine staple foods in some sixty cities at the middle of the month was slightly higher, being $13.77, as compared with $13.72 in June, $13.00 in July, 1918, and $7.42 in July, 1914. There was comparatively little change in fuel and rents.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

CANADIAN GUNS PRESENTED MONS

Mons, Belgium, Aug. 16.—Canadian cannon which fired the last shots at the Germans on armistice day, November 11th, were presented to the village of Mons this morning with elaborate ceremonies. Colonel Bovey, of the Canadian forces, said in presenting the guns that they would "be a souvenir of the kindness shown by the natives of the village to the soldiers." The mayor of Mons spoke of the self-sacrifice of the Canadians, who "without came to fight for the liberty of Belgium."

B. C. MINERS QUIT ONE BIG UNION

Fernie, B. C., Aug. 16.—At a mass meeting held here yesterday afternoon David Irvin, of Seattle, international organizer of the United Mine Workers of America, a resolution was passed by a large majority dissolving the One Big Union and reorganizing the Miners' Union, District 18, United Mine Workers of America.

ANXIETY OVER THE DELAYED AIRPLANE

Paris, Aug. 18—Anxiety is felt here over the lack of news of the arrival of the giant airplane Goliath at Dakar. The airplane was last reported Saturday morning at 3.40 o'clock passing over Port Etienne, 500 miles from Dakar. At the time the machine had accomplished the worst part of the journey from Magadar to Dakar, having crossed the Sahara.

TRADE WHISKEY FOR FOX SKINS

London, Aug. 15.—Three silver fox skins, for which $2,500 has been refused in London, were obtained in Archangel for six bottles of whiskey by a British officer who has just returned from northern Russia.

Another officer traded a case of champaign for a diamond necklace. Returning soldiers say any possession of a native may be obtained with intoxicants. The hunter who parted with his fox skins went at once to a room and drank all the whiskey.

He was found in a serious condition and required hospital treatment to save his life.

APPOINTMENT TO NEW AIR BOARD

London, Aug. 16.—Capt. R. E. Lott, formerly in charge of the technical section of the Canadian Air Force, has been appointed secretary to the new Canadian Air Board, and is now on his way to Canada to take over his duties. Capt. Lott was regarded as exceptionally well qualified on the technical side of aviation.

PREMIER BORDEN ORDERED TO BED

Halifax, N. S., Aug. 18.—Sir Joseph Pope announced today that Sir Robert Borden would be unable to participate in any functions arranged in honor of the Prince of Wales until Quebec is reached at least. The injury sustained by the Premier in the accident of last night, when he slipped and sprained his ankle while leaving the Halifax Club for the H. M. S. Renown, is more serious than was at first supposed. A ligament in the leg has been severely strained and Sir Robert has been ordered to keep to his bed for several days. He got up and attempted to dress this morning in time for the reception at the dockyard, but found it impossible to use his foot and went back to bed again.

7 DAYS 7 GRAVE

WAS DEPORTED AS TROUBLE MAKER

New York, Aug. 18—Emphatic denial of charges by the State Department that he was conspicuously active in connection with the Nationalist movement in Egypt was made yesterday by Dr. Wm. T. Ellis, correspondent of the New York Herald, who was detained for nearly a month in Cario by American and British officials. Dr. Ellis, whose detention has been the subject of investigation by both branches of Congress, has just arrived here on a warship, coming directly from Constantinople.

Not until he reached that city, he asserted, did he learn why he had been detained, and denies all knowledge of any charges and was refused permission even to "cable to the Secretary of State at my own expense."

73 CANADIAN STRIKES IN JULY

Ottawa, Aug. 16.—Seventy-three strikes, involving 35,696 workers and resulting in a loss of about 501,010 working days, occurred during July, according to the Labor Gazette. The time lost in June was considerably heavier, there bein geighty strikes, with 87,917 workers affected, and 1,445,021 working days lost. Thirty-two strikes were reported as having commenced in July and twenty-nine, effecting 17,350 people, were unsettled at the end of the month.
