

THE VALUE OF SUNSHINE.

Whatever may be true with regard to the relation of food, it is perfectly certain that the combined heat, light, electricity, and magnetism which we derive from the sun, constitutes an important hygienic agency, and I am inclined to think that few persons sufficiently appreciate the value of sunshine as a productive, conservative or curative agent.

Nothing which is nutritive will grow well in the shade. Root crops, which grow partly or wholly under ground, such as turnips and potatoes, must have their top branches well sunned or they will develop imperfectly.

Some fruits and pods, as watermelons, corn, and wheat, can bear, and require a large amount of direct sunshine; squashes and pumpkins need less, but are protected by large succulent and waxy leaves against excess.

placior, he argues, was God's great- plough, and when the ice vanished from the face of the land, it left it prepared for the hand of the husbandman.

The hard surface of the rocks were ground to powder, the elements of the soil were mingled in fair proportions, granite was carried into lime regions, lime was mingled with the moss and reproductive germs, and a mass of vegetable life was created.

An export duty of fifty dollars each on the bodies of dead Chinamen sent home from British Columbia, is one of the bills proposed in the Local Legislature of this Province.

NORTH RIDING OF LANARK.

We have been requested to publish the following correspondence for the information of the Electors of North Lanark. It was intended for insertion last week, but did not come to hand in time.

Almonte, March 14, 1872. Hon. Wm. McDougall, C.B.

DEAR SIR,—I was invited to attend a meeting which was held in Lanark Village, on Tuesday last; the object of the meeting was to discuss the arrangements to be made for the election of the Electors of the Riding, at the coming Election for the Commons.

I remain, yours, DANIEL GARRATH.

Toronto, March 23, 1872. DEAR SIR,—I have your letter of the 14th inst., apprising me of your nomination as the candidate whom certain Electors assembled at Lanark Village to make arrangements to secure unity of action among the Electors of North Lanark at the coming election.

I am glad to meet you and any of the Electors who may do me the honor to attend a meeting, at Almonte, on Wednesday evening, the 10th of April, to discuss questions in which, as your representative, I am still bound to consult the wishes of my constituents.

I remain, Sir, Very faithfully yours, Wm. McDougall.

D. GARRATH, Esq., M.P.P., Almonte.

We would direct the attention of our readers to the correspondence in our paper to-day, between Mr. Garrath and Mr. McDougall, and to the public meeting called by Mr. McDougall to take place at Bell's Hall, in the village of Almonte, on the evening of the tenth of April at 7 o'clock.

NORTH LANARK.—We publish, to-day, a correspondence which has passed between the two parliamentary representatives of the North Riding of the County of Lanark. Mr. Garrath, member of the Ontario Legislature, and Mr. McDougall, member of the Dominion Parliament, and Mr. McDougall's reply thereto.

In this publishing this correspondence, and bringing the question prominently before the electors, most of whom are readers of our Herald, it will be expected that we should give our own opinion in the matter, and we shall do so in our usual plain and honest manner.

It is our candid opinion, and we believe it is the opinion of a large majority of the electors, that North Lanark has been very ably, truly and honestly represented in both the Local and Dominion parliaments by the present members; and some of the most intelligent and thinking men in the riding, express themselves to the effect that they can see no particular reason for a change.

It was, probably, on a call of this kind, that Mr. Rosmond felt it his duty to trust himself before the electors as a candidate, and in Mr. Garrath's letter to Mr. McDougall, reference is made to a meeting in Lanark Village, the object of which, he says, was "to make such arrangements as might be deemed necessary to secure unity of action among the electors of the riding."

We briefly mentioned in our last issue that the preliminary survey of the Ontario and Quebec Railway through Carleton Place had commenced Westward from this place. Mr. H. J. Hubert, and Mr. George Keefe, chief engineer of the line, have traced out the track in a straight line to Lanark without encountering any engineering difficulties.

At the meeting of the Lanark County Council, a deputation was appointed, consisting of Messrs. Gould, Byrne, Leck, Dolbe, Caldwell, and Haggart, to confer with the board of directors of the Kingston and Pembroke Railway.

Mr. Fraser has been elected for St. John's, by a majority of nine over Mr. Ellis. The Odele says:—"We rejoice all the more at this result, inasmuch as Mr. Fraser is not only an able man, but one of those Roman Catholics who, through many political changes, has never proved himself faithful in the cause of Reform and those liberal principles upon which he has now been elected."

HON. Wm. McDougall in HAMILTON.—We observe that the Member for North Lanark has been invited by the Burlington Literary Society of Hamilton, Ontario, to deliver a public lecture in that city, on the 5th inst.

From the full report of the debate on the English School Bill, which was by the last mail we learn that the Government has determined to propose a measure in the course of the next legislative session for forming a compulsory attendance upon school, universal and free.

Other position in which they may be disposed to place him. Would it not be well then, as we advised some weeks ago, for his friends to consider the position carefully, and to weigh the different points of the case in all their bearings, before dragging him from his present abode, which he has so satisfactorily filled, for the chance of obtaining one in the House of Commons?

Now that the Tichborne case has run its course, a new suit, involving even more startling and romantic incidents, has come up to attract the attention of the Londoners and supply food for gossip and speculation. A young Turk, about 25 years of age, who claims to be the son and heir of Mehmet Pasha, late Grand Viceroy and Sultan's Envoy, at the Court of St. James, is now in London, and has instituted measures for the recognition of his pretensions.

Persons who are in the habit of fishing in the spring when they are going to their spawning grounds should remember that it is contrary to law, and they may find themselves prosecuted for the offence, if they are detected in the marshes where they do not go to spawn.

Close seasons for bass, pike, pickerel, muskonge and other fish may be fixed by the Governor in Council to suit different localities.

EDUCATION IN ENGLAND.—The first battle on the Education Act has been fought in the House of Commons. The effort of the attacking party was made in the direction of establishing universal compulsion, and of doing away with the grant of rates to denominational schools in the case of pauper children.

At the examinations in the Faculty of Medicine in the University of McGill College held during the past week, the following gentlemen passed successfully: For the degree of M. D. C. M.—Peter McLaren, B. A., Lanark; Daniel C. Gram, Almonte.

CHURCH AND STATE IN PRUSSIA.—As was expected Count Bismarck has gained the victory in the Parliamentary contest with the ecclesiastical and clerical elements that have been arrayed against him.

BRITISH COLUMBIA.—From the Victoria, B. C. Standard we learn that spring has begun on the Pacific, and that the frogs have croaked this year a week earlier than last; that they are building shemps and leading timber to Victoria, but that a ship—the Onetaba—lying in the road, bound for England, cannot proceed for want of hands.

The Pall Mall Gazette announces that Col. Earl, for many years Military Secretary in Canada, has been appointed to the same office on the Staff of Lord Northbrook, the newly appointed Governor General of India.

We regret to hear that Mr. Wm. R. Sutherland, of Ramsay, died suddenly last week from the effects of a cold. He was much respected by a large circle of friends and acquaintances.

A batch of rumors are floating about the political horizon, Ottawa. First, it is said, that Mr. Nathan, of Victoria, will move the address in reply to the speech from the Throne at the opening of the approaching session. Next, it is heard, that Sir John A. Macdonald has been consulted by the Legislature of the Province of Ontario, with a view to the establishment of a Lunatic Asylum.

A FOUR DOLLAR.—Three Ontario Aldermen were lately convicted of receiving bribes, and were sentenced to various terms of imprisonment. A strong influence was brought to bear on the Governor of Illinois to induce him to grant a pardon to one of them, but the Governor refused to do so, and to say the least of the kind, holding that the very circumstances they urged in support of their petition, afforded the strongest argument for refusing to grant it.

An extraordinary item of news comes from the Cape. Sham diamonds, it is said, have been exported to the colony from Birmingham. This is worse than sending coals to Newcastle. The "black diamonds" can fetch a price anywhere, but what chance has "paste" in a country abounding with precious gems?

On Tuesday a group of young men and women might have been seen on the platform at the railway station, Nanaimo, whose sorrowful faces betokened a recent bereavement. When the express came from the west a large box was put off which the sorrowing ones surrounded, and which it was very evident contained the remains of a dear relative.

A few neighbors went to the house of Mr. Arnold, in Frederick county, Maryland, on Sunday evening, and were surprised that no one came to the door to admit them as usual. Conscious that the family had not left the house, they listened at the door, and a child was heard to say that something was wrong. They subsequently gained admittance by force, and they were horror-stricken on beholding the mother lying in the last agonies of death, and her five children speechless and insensible.

It is pleasant to note the heartiness with which the outrage on the boy O'Connor is repudiated in Ireland. The Amnest Committee in Dublin was immediately convened, and passed a resolution repudiating O'Connor's self chosen championship. The whole local press denounced the outrage, and the Irishman boasts that Ireland is free from the shame of personal violence or insult to the sovereign.

VACCINATION.—If fresh evidence of the benefits of vaccination were required, although now that it is surely unnecessary, it may be found in the latest returns regarding the small pox in New York. Last week there were 115 cases, an increase of 51 over the previous week.

SAD ACCIDENT.—A fortnight ago a man named Loney, formerly a resident of Osceola, was killed by a limb from a tree broken off by another tree falling against it. The accident happened in the shanty of one of Mr. Skead's laborers, and as there were two brothers-in-law of the deceased in an adjoining shanty, belonging to the same gentleman, they were provided by the men in charge with a team and as good a coffin as could be made under the circumstances.

IRON IN GREAT BRITAIN.—Great Britain is completely self-sufficient in iron, and her coal supply will last for a few years yet; but she is becoming troubled by the decrease in quality and in quantity of her iron. The only ores free from deleterious compounds are found in Lancashire and Cumberland, and in so great profusion in these places, that the extraction of the Bessemer patents for converting iron into steel has extended the use of the process and has created a vast increased demand for the raw material.

VACATIONS.—For the information of teachers and teachers-in-training, the following regulations of the Council of Public Instruction:—"There shall be three vacations in each year; the first, or spring vacation, shall begin on the Wednesday next before Easter, and end on the Wednesday after it; the second, or summer vacation, shall begin on the 15th of July, and end on the 15th of August inclusive; and the third, or Christmas vacation, shall commence on the 22nd day of December, and end on the 6th of January."

Queensland, March 27.—The war steamship Basilisk picked up a waterlogged schooner, whose deck, and found several dead in the hold. The vessel is supposed to be the Peri, which disappeared from the Fiji coast two months ago with a party of Wharfedale miners, and will probably all die.

FLIGHT OF RIEL AND LEPINE. A letter, from a gentleman in St. Paul, published yesterday gave the particulars of the departure of Riel and Lepine from Manitoba. His statements corroborate, and establish, the truth of information we lately received, that the Dominion Government have taken active measures to get these men out of the country for their own political purposes, and have actually gone so far as to bribe them to leave with Government money.

The fact of the Hon. James M. Kay, President of Governor Ashby's Cabinet, saying for the whole stage for the journey through and sending his brother, Angus McKay, to take them to St. Paul, seems to leave no doubt that the whole matter has been a Government scheme, partly to relieve the Administration of the political consequences of their further stay, but more particularly to prevent the reward offered by the Ontario government from falling into the hands of Riel and Lepine, both up to a few days ago poor men, now having plenty of funds, being well-dressed, living at a good hotel, and having champagne, and wine of other kinds, at their daily dinners, is a convincing proof that they have lately received more money than they ever had before, and that they could not have made it legitimately. This, coupled with the fact that Mr. Provancher, the special agent of the Dominion Government, joined the party at Pembina, and went down in the stage chartered by the President of the Council with the rebels and murderers, gives color to the allegation that a sum of money has been given Riel and Lepine as a recompense for leaving British territory, where they had made a British subject, and impudently braved the law.

It is a humiliating and painful position that the people of Ontario are placed in. Those who pay the barest share of the taxes of the Dominion are unfortunately through the treachery of a few of our own citizens made the laughing stock of the whole Dominion, and have even been invited to contribute towards the expenses of a party of our own countrymen, who have invaded our country, and are committing depredations on the property of our loyal youth in their comfortable rooms in St. Paul, hired with Canadian money, rating dinners and drinking champagne provided from the same source, while they talk over past villainy and plan fresh outrages.—Globe.

To the Editor of the C. P. Herald. Mr. Estlin, an elderly individual, had a regular cock-fight arranged and carried out at Montreal, in a public building, on the 10th inst. The cock-fight was a very fine one, and the prize was a very fine silver watch. The cock-fight was a very fine one, and the prize was a very fine silver watch.

THE USE OF OPIUM.—The returns as to the use of opium in various places show that its consumption is steadily increasing. In New York alone, the drugists sell each week 10,000 confirmed opium eaters constantly supplied, the consumption being chiefly among Americans. In Kentucky the effect of the use of the drug has become so alarming that a law has just been passed providing that, on the affidavit of two respectable citizens, the name of any person who is addicted to the use of opium, arsenic, hashish, or any drug, has become incompetent to manage himself or his estate with ordinary prudence and discretion, may be brought before a jury, and on proof of such a state of facts may be committed to the custody of a court, with power to confine such persons in any private asylum or in one of the lunatic asylums of the State.

San Francisco, March 27th.—Judge James Bashton has been convicted of the murder of John Hughes and sentenced to be hanged on the 17th of May.

Rome, March 27.—The Pope gave a long audience to the Prince and Princess of Wales. He desired them to convey to the Queen of England his thanks for her constant evidence of sympathy, and praised the people of Great Britain for their piety.

New York, March 28.—Prof. Samuel F. B. Morse is lying dangerously ill at his residence. His friends and physicians fear the worst. His disease is said to be paralysis of the brain.

The Lord Lieutenant of Ireland made an announcement recently which will be gratifying to Irishmen the world over. "Never during the past thirty years," he said, "had Ireland been so prosperous and happy as at the present time."

Lord Lisgar, with customary generosity, has presented fifty dollars towards the funds of the Irish Protestant Benevolent Society. Mr. Sheriff Powell returns thanks on behalf of the Society which has not only the good wishes but the good deeds of His Excellency.

SUBDEN DEATH.—On Wednesday morning last, a married woman named Cole, living near Newcomb's mill died very suddenly. She had been ailing for some time back, and on that morning she was sitting down for the purpose of washing the set down to rest, and in a few minutes she was lying still. She was found by her husband, who called for a doctor, but she was dead before he arrived.

Four American friends are so intensely republican as they pretend to be, will they tell us why they are so anxious just now to get hold of a lot of English sovereigns.

Last year about \$2,000,000 worth of opium was consumed in the United States the greater portion by women.

IMPORTANT TO PARTIES OWNING
OR USING MACHINERY.
STOCKS CELEBRATED EXTRA MA-
CHINE OIL.
THIS OIL has been in very general use
in Ontario for the past two years, and
with the greatest satisfaction, as may be
seen by testimonials from many of the lead-
ing Houses in Ontario. It will not thicken
in cold weather nor gum, and is without
question the cheapest and best Indicator in
the market. Sold in quantities to suit pur-
chasers. W. M. FULFORD,
Wholesale and Retail Dealer,
From the Joseph Hall Works, Ontario.
I consider Mr. Stock's Oil cheaper at \$1.00
per gallon, than Olive Oil at 20c.
Your Respectfully,
W. M. FULFORD, President.
