THE GARIBALDI MONUMENT.

ROME, March 18.—The corner stone of the Garibaldi monument was placed today in the presence of Ministers, Garibaldi's sons and the municipal authorities. The monument is intended to commemorate the defense of Rome in 1849. It will be unveiled with great pomp next September on the anniversary of the union of Rome with Italy. IRISH NATIONALISTS UNITED.

LONDON, March 18.-Justin McCarthy presided this evening at the annual Nationalist banquet in London. He said in his speech that there was neither division nor faction in the party—that all were pledged to secure Ireland's autonomy and to nothing else. John Dillon, T. P. O'Connor and others uttered similar sentiments.

EDITORS BREAK THE CABINET. LONDON, March 18.-A dispatch from Madrid to the Pall Mall Gazette says the resignation of the Cabinet arose from a difference of opinion among the ministers as to the method of proceed-ing against the newspapers which have attacked the army. Despite the decision of the Supreme Court in favor of the re under the press law, Gen. Lopez Dominguez, Minister of War, is sisted that the Cabinet should issue a decree requiring the offending editors to be tried by court-martial. This was opposed by all the civil ministers, and the differences becarre so pronounced that Premier Sagasta declared it impossible for the Cabinet to further exist in harmony. The Ministry therefore

IN THE BRITISH HOUSE.

LONDON. March 18.-In the House of Commons Mr. Thomas Maring (Constiautionalist and Imperial), member for county Down north, asked what truth here was in the report that two shiploads of cattle that had arrived at Antwerp from Canada had been found suffering from pleuro-pneumonia.

Sir Edward Gray replied that communications to that effect had been received by the Board of Agriculture. Sir Edward Grey announced that in consequence of the Government having secured information alleging that as the result of mock trials, or without trial at all, 2,500 Armenians had been sentenced to imprisonment, and were still confined, representations had been made to the Porte for the purpose of ascertaining the truth and the attending

comblications. THE TIMES APOLOGIZES

LONDON, March 18 .- "Ten Thousand a Year" produces such an archaic impresion on novel readers' minds that it is extraordinarily difficult to remember Sat its author died so late as 1877, and, if living, would only be two years Mr. Gladstone's senior. An odd instance of this universal tendency to think of Samuel Warren as an eighteenth century man occurred in yesterday's Times, where the obituary of Rev. Dr. Rust said that he married Warren's only daughter in 1837. This lady writes an amusing note today, protesting that the only marriage she was ever conscious of was with her present husband, Rev. Brownlow Maitland. in 1872, and that at the date she was said to have wede ad Rust she was not vet born. This seems conclusive, and the Times accordingly apologizes.

SADIE'S CON. ESSION.

Progress of the Montgomery Gibbs Murder Trial.

A Remarkable Letter From Sadie to

Clarence Robinson.

BUFFALO. March 18.-The trial of the Robinsons was resumed this morning. Police Superintendent Bull testified to the confession made by Sadie at police headquarters and swore positively that no threats or promises had been

used to cause her to confess. The confession was then read to the jury. It related with hideous detail the story of the murder, and during the reading Clarence's face became ghastly pale, while Sadie sank lower in her chair and riveted her eyes upon the judge. The confession states that Clarence fired all three shots while, he in his statement charges Sadie with firing the third and fatal shot.

Superintendent Bull was closely crosseramined, but all efforts to shake his

testimony were fruitless. A LETTER FROM SADIE. Mrs. Church, matron of the police headquarters, testified to incidents in the life of the prisoners at police headquarters here. Mrs. Sadie Robinson wrote to her husband on Oct. 16 and 17, and Mrs. Church gave the letter to the

superintendent of police. The letter was admitted and read as follows:

"Oct. 16, 1894.—My Dear Husband,— They allowed me to see the paper for the first time today. Oh. Clarence, how could you say I did the shooting? I am not afraid to die. If they would let me, would be willing to take your sentence

whatever it may be, for I love you and always thought more of your happiness

and comfort than myself.

"Now, Carence, the best thing for you to do is to tell everything and tell the truth. It will be much better for both of us. If I can take and serve your sentence I will do it, for I am not afraid to die, and you can take my sentence, which will probably be a few years at Auburn. "Don't think I told to get rid of you, because I didn't. If it happens that you get only a life sentence—and I fray to God constantly it will be so perhaps after a few years I can get you a pardon, and then we will be together

"I love you, Clarence, but I cannot perjure myself, not even for you, but I would gladly suffer on this earth for

you.

"I want you to become a good man and a Christian, for whatever happens, you can say with me, "Thy will, not

mine. be done.
"Trying to do right is the only life worth living. God is not only very just, but very merciful, and if we both do what is right I feel sure we will be happy again, if not for a long time. "I would never have told a word about it, but you gave it away your-s'elf. You made the mistake of your

life when you told Bert what happened in Buffalo, and worst of all, you did not tell the truth about it, either. "As I said before, I would and will take all the blame on myself. Your happiness is dearer to me than my own life, but tell the truth about it, Clar-

ence; and if you are sentenced to die I will soon join you in death, for remember our promises to each other. "But I will never cease to pray for you, and I feel sure my prayers will be answered, for He doeth all things

"Your loving wife,
"SADIE A. ROBINSON."

An All-Day Session of the Dominion Cabinet,

But the Premier Has Nothing to Give the Public.

Rousing Meeting of Center Wellington Liberals at Fergus.

THE CABINET MEETING.

OTTAWA, March 18.—The Cabinet sat all day excepting an hour and a half for luncheon, adjourning at 6 p.m. After the adjournment the Premier stated that he had nothing to give to the press.

An evening paper says in regard to he meeting: The general belief now is that there will be no peremptory remedial order made against Manitoba in the school case. This is said to be a result of the agitation in Western Ontario over the matter. What the Government is now likely to do is to review the whole judgment of the judicial committee of the Privy Council, and the recent hearing of the case before the Dominion Cabinet, and close the document with a request to the Province of Manitoba to do justice in the matter. In other words, the question is to be left to Premier Greenway to settle, without any direct order being made by the Dominion. At all events, such is the talk going on in official circles today."

The rumor is also current that it was decided to summon Parliament at once. The date given is still April 18.

CENTER WELLINGTON LIBERALS. FERGUS, Ont., March 18.-The Reformers of Center Wellington held a political meeting here tonight in the town hall, which was packed to the doors, in the interests of Mr. Semple, the present member. Mr. James Phillip, president of the local Reform association, occupied the chair. Addresses were delivered by A. Semple, M.P., John Charlton, M.P., and James Mc-Mullen, M.P. The addresses were well received. A large number of ladies were present.

A CABINET ROW. There is reported to be a small crisis the Ottawa Cabinet over Hon. N. Clarke Wallace's recent expressions at the Orange Grand Lodge on the Manitoba school question and Premier Bowell's objection thereto.

PROPOSED LIBERAL MEETING. PRESCOTT, Ont., March 18 .- Owing to the illness of the Hon. Wilfrid Laurier, the Liberal meeting which was to have been held in this town on Wednesday, March 20, has been postponed for the present.

WEST HURON LIST. Last week it was announced that all the voters' lists had arrived except the one for West Huron. Word has now been received that the delayed list was posted at Goderich on March 14, and, in all probability, is now in the hands of the printers.

NOTES. A convention of Kent Conservatives will be held in Chatham on March 27. Mr. J. D. Eisenhauer was nominated by the Liberals of Lunenburg, N.S., on

Saturday. Mr. Poulin, C.E., was nominated as the Conservative candidate for Labelle riding on Saturday.

East Huron Liberals meet in convention at Brussels today (Tuesday), and

will be addressed by Mr. John Charlton.

Sergt.-Major Smith, superintendent of military stores at Quebec, was informed Monday that his two sons David and Robert, aged respectivey 30 and 28 years, had perished in a snow storm on the prairies while on a pleasure excursion from Calgary, N. W. T., where they were employed. The news lacks confirmation.

Judge Taschereau condemned the Malleable Iron Works at Montreal to pay \$1,900 damages to young Aldrec Charron, who had his right arm amputated at the shoulder as a result of getting it caught in the cogwheels in the company's works about a year ago. It appeared that the company neglected provide the necessary protection in spite of the inspector's warning.

A MATTER OF TIME

Regulating the Hours for Retailing L'quers.

Where the Power Rests-W. C. T. U. Delegates Interview the Government—The Proposed Normal School in London-Game Regulations.

(Special to the "Advertiser.") PARLIAMENT BUILDINGS, TO-RONTO, March 18.—For a half hour's sitting with absolutely no debate, to-day's was rather an important meeting of the House, one or two matters of interest coming up after the usual routine had been product to the same of the coming the same of t routine had been pased through. Mr. Crawford the new member for Toronto, asked: "Have municipalities in this Province the power to regulate the hours for the retail trade of liquors by the license holders therein? What body has such power, if not the municipal-

ties have not the power to regulate the hours for the sale of liquor in taverns. They may have power in regard to the retail sale in shops. The commissioners, have power to regulate the sale of liquor in taverns. They may have power in regard to the retail sale in shops. The commissioners, have required to require the country of this fact the country to the sale of the sale o sioners have power to regulate the hours in both shops and taverns."

the Government intends to erect a normal school in London. Mr. Ross replied that the Government has not decided to establish such a school. This afternoon the Government was an aerial ladder and truck, but the

visited by a deputation representing council drew the line at the chemical . T. U., who asked legislation placing mercantile establishments under Provincial inspection with regard to toilet arrangements, etc., in the same way as are the factories under the Factories' Act, Mrs. May Thornley, of London, the president; Mrs. A. O. Rutherford, of Toronto, vice-president; Mrs. Macarthur, of Cornwall, treasurer; Miss Cosford, of London, corresponding, corretains, and London, corresponding secretary, and Mrs. Brownell, of Toronto, president of the Northern W. C. T. U., composed the deputation. Mrs. Thornley was the spokeswoman, making a businesslike speech in favor of the proposed amend-

ment Sir Oliver Mowat asked for and was promptly given some documents and data relating to the subject, and promised the Government's consideration

of the matter. The report of the game and fish commissioners shows that the Province is becoming restocked with game. Its chief recommendations are that two new wardens be appointed; that deputy wardens be made constables, and their number reduced so as to be an easier worked force; that the prohibition of the sale of partridge be continued; that the deer season be the first two weeks in November as formerly; that a bounty of 50 cents a head on foxes be paid; and that licensed foreign sportsmen, of whom there were 60 last year, be allowed to take their deer out of the

country with them.

The report of the master of titles shows that 1,493 registrations were made last year. The fees being \$3,401 25, only six applications for first registrations were made, the value of the land being \$68,652, and the expenses \$1,842 50.

THE UNIVERSITY COMISSION. The university commission was appointed this evening. It consists of T. W. Taylor, chief justice of Manitoba, chairman; J. J. Kingsmill, formerly county judge of the county of Bruce; J. E. Senkler, of St. Catharines, county judge of the county of Lincoln; M. B. Britton, B.A., Q.C., of Kingston; Prof. John Campbell, M.A., LL.D., Presbyterian College, Montreal. Four of these are graduates of Toronto or other universities. The commission is to meet in Toronto on April 8.

THE FEES COMMISSION. The report of the fees commission was received by the Government this evening. The net results of the investigation are concisely stated in the following summary:

1. No change should be made in appointing officers by handing over the choice to local authorities. 2. The fee system should be continued as to all ministerial officers, that is, registrars of deeds, clerks and regis-

trars of courts, sheriffs and bailiffs.

3. Salaries should be paid to all judicial or quasi-judicial officers; that is, local masters, county attorneys (for convenience), clerks of the peace (as a conjoint office).

4. The expenses connected with clerical and other assistance in the offices should be systematized so that uniformity and not diversity may characterize the service. 5. A limit should be placed upon the receipts of fee-paid officers, to be fixed

by the Legislature, having regard to the just mean between scanty and excessive compensation. 6. These results are responsive to all the matters with which the commission are directly charged. Incidental suggestions have been made on ger-

mane or collateral subjects in the course of the report. Women always prefer Dr. Price's Baking Powder. It's absolutely pure.

Ordinary prosaic work occupied the attention of the aldermen at the meeting of the City Council last night from the confirmation of the minutes until the session dwaldled out for want of a quorem at a quarter to 12 p.m It was a very interesting meeting from a contractor's standpoint, and the spectators' chairs were filled almost exclusively by these gentlemen. Electric railway matters were not mentioned. The most important work of the evening was the forwarding of a petition to the Ontario Government asking for permission to issue 40-year debentures for the building of the two necessary bridges over the L. and P. S. R. north and south of St. Thomas. By the terms of the lease of the road to the Walkers the company could at any time call on the city to erect these bridges, and guaranteed to Hon.Mr.Harcourt's answer in full was as follows: "According to a decision of Chief Justice Harrison the municipalities have not the power to regulate the bridges, and guaranteed to pay 4 per cent interest on the outlay. The company deem it necessary to erect the bridges this year. The sum of \$110,-000 was mentioned in the lease as the amount. In view of this fact the counhours in both shops and taverns."

In connection with this it may be remarked that Sir Oliver Mowat's bill regarding solar and standard time is a triumph for the temperance party, as by making standard time prevail it will materially shorten the hours during which liquor may be consumed.

Another matter which came up was Mr. Whitney's question as to whether the Government intends to erect a mount. In view of this fact the council has also asked the sanction of the Government to include the expenditure for a station and freight house at London and other needed additions in the debenture issue, and thus spread the payment over a term of 40 years instead of one. The school board sprung a surprise party on the aldermen by sending in an estimate amounting to \$92,890. The full amount was \$92,890 09, but in consideration of the harrowed aldermanic engine. There were present: Max Little, Ald. John Heaman, Pritchard, Brener, J. W. Jones, O'Meara, Powell, Carrothers, Heaman, Garratt, Arm-

strong, Callahan, Dreaney, Nutkins, Ardill, Parnell, Weld and McCallum. Ald. Skinner was still indisposed. The school board estimate of \$92,890 is given below. It is about \$20,000 in excess of that of last year, and no new buildings are asked for, either. COLLEC ATE INSTITUTE RECEIPTS.

LOCAL BREVITIES.

This sign of spring is a lovely thing;
The sun would make us glad,
If it didn't melt the snow and ice
And make the walking bad

-M. C. H. Bayley has gone east on a -Joseph Graham, city, and R. S. Oli-

ver, Sarnia, were registered in London, England, last week.

The theater-going public which desires to be artistically amused will be delighted with the "Amazons." which comes to the Grand Opera House on Thursday evening. According to all accounts this work of Pinero's is the best thing in the way of ideal comedy seen in years. For five months it drew large and fashionable audiences to the Lyceum Theater in New York. It is under the management of Charles Frohman. -Col. Leys and family left for Detroit

today owing to the death of a relative. -Miss E. Fortner, of Delaware, is on an extended visit to her cousin, Miss H. Duncan, 235 Talbot street.

-Tomorrow morning's session of the Women's Morning Music Club, in Duffield block, will be open to the public. The club has secured for the occasion the services of Mrs. McKelcan, Hamilton, and Mr. Harold Jarvis, Detroit—both noted singers.

-John Randall, the manager of Mrs. Moss, who was fined \$100 in this city recently for taking liberties with Mr. Sim Fax's head at a Queen's avenue seance, has turned up in Cleveland and is giving type-writer seances under spiritualistic auspices -All nominations for officers for the Lon-

don Bicycle Club for the next year must be made in writing to the secretary at least one week before the annual meeting, April 4. Nominations must be signed by two members. The election at the annual meeting for officers and committee members will be by ballot.

-Inspector McMichael, of H. M. customs, has been in the city and has ordered the following changes in the staff: James L. Williams, transferred from locker for warehouses to landing waiter at M. C. R.; John C. Brady, from C. P. R., to be locker in place of Williams, and P. F. Boyle, from M. C. R., to be landing waiter at C. P. R.

-The marital troubles of Frederick Genereaux and his wife have been happily settled out of court. On March 12 Mrs. Genereaux wanted her husband bound over to keep the peace and the case was adjourned for a couple of weeks to allow some-one to "make up." At the police court this morning Mr. McKillop stated that the trouble had been amicably settled and the charge was withdrawn. Three drunks

were discharged. -The Spring Assizes for Middlesex open before Chief Justice Rose, at the court house, on Tuesday, March 26. The criminal calendar will be very light, as up to the present only two persons—"Betsy" Baker and Nelson Blackwell, are charged with indictable offenses. Both are accused of housebreaking and theft. Baker is still in jail, but Blackwell is onbail. Very few civil cases are entered.

—When Mrs. Thornley, president of the Provincial W. C. T. U., waited on the Government of Ontario in reference to the appointment of a woman factory inspector, she was accompanied among others by Miss Cosford, of this city, the recording secretary.
Of Mrs. Thornley's address the Globe says:
"Mrs. Thornley, the able president, was the businesslike methods were an example to the deputationists of the other sex. The bill passed three years ago by which provision was made for the inspection of mercantile estab-lishments had had the fatal defect, she said, of leaving it to local inspection. She con cluded her clear, concise statement of the deputation's case by remarking with quiet irony that women did not often trouble the Legislature with requests, yet they were one-half the population, paid their share of taxation and were 'law-abiding citizens.' Sir Oliver asked for and received some doc-

sideration." THE LONDON PRESBYTERIAN COUNCIL. The annual meeting of the London Presbyterian Council. composed of the ministers and members of the sessions and boards of management, was held in St. Andrew's school room last night. Rev. W. J. Clark, president, occupied the chair, with Mr. H. Bapty as secre-tary. The election of officers for the ensuing year resulted as follows: President, Mr. A. S. McGregor; vice-president, Rev. M. P. Talling; secretary, Mr. H. Bapty (re-elected); treasurer, Mr. John Macpherson—the foregoing, with one to be chosen from each session, to constitute the executive committee. The principal general business was the striking of committees and the making of preliminary arrangements in connection with the forthcoming meeting of the General Assembly in this city in June. From the spirit in which this important matter is being taken up, it is certain that London will determine to make as favorable an impression as possible

upon this influential body who are to honor this fair city with their presence. ST. JAMES' MAY SELL. A meeting of the officials of the St. James' Presbyterian Church will be held this evening to ascertain definitely whether or not the site of the church is for sale. The congregation of the Queen's Avenue Methodist Church have cast admiring eyes in the direction of the beautiful corner overlooking the Park on one hand and fronting Richmond street on the other. As nearly as can be ascertained the St. James' Church

property is for sale, provided the price paid is high enough. "They will have to offer more than they have already," said a prominent official this

morning. "How much did they offer ?" "Sixteen thousand dollars."

"Of course it will not mean the closing up of St. James, even if the deal goes through, said the pastor, Rev. M. P. Talling, in discussing the matter. "We would simply seek another locality more suited to the wants of our congregation." HAS A BAD RECORD.

When the case against Charles Baker was

called at the Police Court this morning the

crown was not ready to proceed and an enlargement was granted for a week. Baker is the young rag peddler who was arrested yesterday on a charge of stealing harness. A claimant has appeared for the quarter-boots, found at the prisoner's lodgings, in the person of Hiram Shain, who missed them from the stable of his hotel at the corner of York and Talbot streets. The police court clerk has looked up Baker's record. There were four charges of stealing against his name in 1893 and the convictions placed him out of harm's way for the greater part of a year. He did not appear in police circles during 1894, but succeeded in attracting some attention by an attempt to shoot himself. In l'ebruary, 1891, Baker was found guilty of entering a house in broad daylight, and was sent to the Reformatory for a term not less than six months and not to exceed five years. H served less than two years. Early in 1893 he was allowed off on suspended sentence when convicted of stealing brass from Forristal's refinery. Later on he stole a pair of boots from Mara's and a suit of clothing street.

from Chapman's. In July of the same year he purloined a bicycle and a lawn mower from the residence of W. R. Hobbs and went to Buffalo on the proceeds of the sale. He was brought back and pleaded guilty to each charge and was sentenced to nine months in the Central on each count, terms to run concurrently. The police are still without an owner for an open bridle, mar-tingales and collar found with the other stolen articles.

WITHOUT CLEANS-ING THERE IS NO TRUE LIFE.

Pure Blood Means Health and Strength

Paine's Celery Compound the World's Best Spring Medicine "Makes People Well."

In springtime nature commences to don a new attire. She puts on new gar-ments, and decks herself with fresh beauties. She throws aside the dull and dead condition of winter, with its accumulated impurities, and is infused

with a new and vigorous life. In like manner, at this season, should all men and women banish the weights and burdens of impurities with which the system is filled. The blood is filled and clogged with the poison of disease; the nerves are weak; the muscles are flabby and relaxed. The whole system is like a disordered house. It requires cleansing and setting in order, that all the machinery may work safely and

harmoniously. Thousands have been cleansed and made strong by Paine's Celery Compoun willingly support the assertion that this medicine cleanses and rejuvenates the human system in spring time. in a way that no other medicine can do. It gives new life, fresh red blood, vigor and strength to the weak, nervous, rheumatic and dyspeptic, and makes the skin of those suffering from blood diseases as soft and clean as that

of a little child. Mr. D. McMahon, of Peterboro, Ont. thankful for new and fresh blood and renewed health, writes as follows: "I have great pleasure in testifying to the fact that Paine's Celery Compound has caused a remarkable change in my condition. I was troubled with a very bad type of Eczema on my and in patches over my body for four years; and was under treatment of three doctors at different periods. have also tried other remedies, but all proved useless. At last I bought a bot-tle of Paine's Celery Compound, and put in Iodide of Potassium, as recom-mended on the label. The one bottle did me so much good that I bought five

bottles more, and am now happy to say I am perfectly cured, and completely free from the troublesome disease." THE KENT CASE.

Many Inquiries as to Details Being Made from Distant Places. OTTAWA, March 19 .- So many inquiries have been received by parties residing here from people at a distance with regard to the details of the cure of Mr. S. H. Kent, of this city, from advanced Bright's disease by the use of uments and data relating to the subject of Dodd's Kidney Pills that it is evident inspection and promised the Cabinet's conthe fame of his recovery has penetrated to a considerable distance from the capital. In order that those residing in remote places may have no difficulty in obtaining full information, it might be well to state that Mr. Kent's address is 114 Cambridge street, and that full accounts of his wonderful recovery from death's door were published in

several issues of the leading Ottawa dailies, the press having taken a considerable interest in the case. A COKE COMBINE. PITTSBURG, Pa., March 19.-A combination of coke manufacturers will be formed within two weeks if possible. It is said that coke prices will be increased on April 1. The H. C. Trick Company has sent notices to its

customers that no new contract will be made

except that based on the wage scale. AN ARCHBISHOP'S FEE. NEW YORK, March 19.-It was learned last night from an ecclesiastical authority very near to Archbishop Corrigan that the latter received \$3,000 as his fee for performing the Gould-Castellane marriage ceremony. There was an understanding that \$2,000 of this sum was to go to the Catholic Orphan Asylum on Fifty-Second street and Fifth avenue.

THE POPE AND THE PYTHIANS. FALL RIVER, Mass., March 19.—At the instance of H. A. Dubugue and others of this city, and Judge Choquette, of Providence, Mgr. Satolli has issued a decree temporarily suspending the edict of Pope Leo relating to Catholic membership in the Knights of Pythias. These gentlemen returned today from a visit to Washington, whither they had been sent by Lafayette Lodge of this city to ask a hearing on the matter. They represented that one lodge of Pythians consisted of 250 French Canadians, and one lodge in Providence included 160. They said so far as they were able to observe they could see no conflict between Pythianism and Catholic doctrines and requested a suspension of the edict. His Grace seemed much surprised at the facts presented, and announced that he would suspend the edict temporarily and would issue a formal decree to that effect in a few days. He promised to bring the matter to the attention of the Vatican at the earliest possible moment, but would hold out no hope that his action would be indorsed as a permanent policy

to be followed. A Different Method.

"Many of our customers," said one of our druggists recently, "are surprisof our druggists recently, are surprised to know that they can rid themselves of a constipated or bilious condition without being subjected to the weakening effect of pills or purgatives. Eseljay's Liver Lozenges do not weaken, but tone up the digestive organs upon which they act. They are sold at 25 cents a box, or 5 boxes for \$1 by all druggists.

SONS OF ENGLAND.

The New Constitution—Sons of Englishwomen Eligible for Membership.

Woodstock, March 18.—The Sons of England Grand Lodge, which was in convention here during last week, decided by a straight vote that the order was not prepared to create a sovereign lodge with district grand lodges, but that the present Supreme Grand Lodge would answer all requirements for a time, if certain amendments were made to the constitution. The committee which had drafted the new constition, however, had incorporated

the machinery for creating district grand lodges; this was allowed to stand to a large extent, so that it will be on hand when needed, but certain clauses were cut out so as to make it impossible in the meantime to put the balance into operation or create the Provincial Grand Lodges. It is anticipated that in a year or two, when the subordinate lodges have familiarized themselves with the scheme, the present antagonism to the matter will die out, and the extended organization which the expansion of the order demands will be approved.

The most important modification made was in the qualification of membership. Hitherto a member must have been English born or the son of an English father, but this restriction has been now modified to allow the admission of the sons of English women as well, so that in future any candidate who has either parent English-born will be eligible. It is expected that this change will increase the membership of the

Young People's Night at Talbot Street Baptist Church.

Interesting Addresses by Dr. Buchan, Mrs. (Rev.) Ira Smith, Mrs. Doolittle and Rev. W. Hartley.

Last evening was the young people's night in the jubilee celebration of the Talbot Street Baptist Church. The gathering was a large and attentive one. Mr. E. B. McDermid presided, and incidental to the addresses a duet by the Misses Hartson and pleasing anthone with the Misses Hartson and pleasing and thems by the choir were rendered. Rev. E. M. Dadson, B.A., will address the meeting tomorrow evening on "Baptist Principles." The following is a synop-sis of the evening's addresses:

H. E. BUCHAN, M.A., M.D.
The subject was, "A young Christian's share in the development of an ideal church." He was not sure just what constituted an ideal church, but if we go back to the foundation of the first church at Jerusalem we will get a good idea of an ideal church. The members continued steadfastly in the Apos-tles' doctrines, teaching and fellowship. He thought this was the church of fellowship, and one which adhered strictly to the observance of the Lord's Supper and other doctrines In this ancient ideal church there was no separation between the rich and the poor; they lived together in love, and were also a very reverent people. All these people were young Christians. If young Christians of these days are going to aid in the development of such a church they must be consecrated to the Lord and be steadfast in his service. Both young and old Christians should hold fellowship with one another. No young Christian should neglect the prayer meeting. We should have a fear or rather a reverence of God. There must be love in all true Christians. All young Christians who will do these things will aid greatly in building up an ideal Shaded Crotchet Cotton, all

church. MRS. (REV.) IRA SMITH. To be young and be a Christian is a most desirable thing. When you are young is the time to form that inde-structible structure, character. Most people are looking for some impossibility to happen. Too many let the valuable hours of life slip away without improvement, like the grains of sand slipping through your fingers. Many people who would disdain to associate with vicious people delight to read of them in dime novels on the plea that they should know error and thus seek to avoid it. How can a person who reads such books not be contaminated by their influence? Too many young people form a taste for such "racy" reading, as it is called. Read biographies of great men and profit by their knowledge and success. Many people feel that they have no incentive to study. The heart and mind of the Saviour were engaged in a scheme of such magnitude that the angels have not yet found out its meaning, and it will be a study for all eternity. If the social and endeavor meetings are dull and spirit-less it for a lack of thought. If the young people would put their opinions in the best language at their command and speak at these meetings they would soon find it much easier and become al-

MRS. J. H. DOOLITTLE, SPARTA.

The subject was, "Who is the Greatest?" When Christ was on earth the disciples used to ask who was the great est in the kingdom of heaven. Every Christian has a higher ambition than merely to be saved. We chafe under the unequal division of talents, wealth and position, but if we have the true Spirit of Christ we will soon grow con-tented with our lot and bear up easily under our burdens. Jesus told his disciples that unless they came as little children they could not enter the kingdom of heaven, and so we have to humble ourselves to the will of God. Now that we see the Saviour's teaching in this matter, let us make a practical application of it. Let us do the work we are given each day without grumbling. Do not let us think that on account of limited opportunities the results of our lives must necessarily be small. In our anxiety to do we sometimes forget to be. It is sometimes easier to do than to be. The love of Christ will drive away evil and prevent many of the family jars. The Lord requires us to be humble ourselves and work faith-

fully REV. W. HARTLEY, GUELPH. The subject was "The Young Christian's Mastery of Self." It is indeed a very important topic. If you want to make much of yourself you have to start when young, and so it is important to learn to master self. In the first place there must be knowledge, and next there is the subjection of body to mind, or of the lower to the higher. If we want to do God's work we must not think it any trouble. No man or woman has ever fully mastered himself until they have given themselves fully into the service of Christ. The mastery of self will bring all forces into harmony.

This will also enable us to act on our own responsibility. Many people do not act for themselves, they are much like a flock of sheep. It will keep us from finding excuses for not doing things that we should do. Then having once determined the path we will follow, we will turn neither to the right or left. When we decide to do a thing, let us always press on until it is finished. Those who have the greatest influence are those who have complete mastery of themselves.

HANKERING AFTER HAWAII. BUTTE, Mont., March 18.-Judge Dixon has returned from Honolulu, whither he had been sent by Chairman McCreary, of the House Foreign Affairs Committee. He is of the opinion that annexation is inevitable, that the natives are growing enthusiastic for it, and that everybody in Hawaii favors it except the English residents.

OIL SPRINGS.

"Advertiser" Agent, Thomas Smith. March 18.-A painful accident happened here on Sunday morning last, by which the eldest son of Mr. Samuel Nevills lost the thumb and two fingers off the left hand. A dynamite cartridge which the boy had picked up in the yard was the cause of the accident. Placing it on the stove when he came in, the lad waited developments, which soon materialized with the disastrous effect above noted. The missile narrowly missed the boy's face. The injured hand was immediately dressed, and is now favorably progresive, but very painful. The boy is about 12 years

of age. The funeral of the late Mr. Gorsline, who died from blood poisoning last Thursday, was largely attended on Sunday afternoon. The deceased was a prominent Mason, and the members of that order turned out in full force to pay their last respects to the dead man. pay their last respects to the dead mail.

throughout this district and was rethroughout this district, and was regarded as one of Oil Springs most pushing business men. He leaves a widow and five children to mourn his lament-

able demise. Last Friday a very large audience assembled at the Masonic Hall to listen to the talented Canadian comicality, Mr. Sim Fax. About two weeks ago Mr. Fax was brought here by the Epworth League of the Methodist Church, and so delighted his hearers that the same organization had him appear again on the above night. His programme was fully up to the expectations of those who had come seeking jollity and laughter, for from start to finish his renditions were greeted with applause of no uncertain sound. Some numbers of the evening's programme were given by talent of the village, and aithough Mr. Fax was the one who evoked the greatest applause, the other renditions were highly appreciated and

· Ext ("Advertiser" Agent, D. B. McColl.) March 19.—Some days ago a young son of James Mark, of Middlemiss, was bitten on the back of both hands by a dog, now supposed to have been mad. The brute was not suspected to be mad at the time, and therefore nothing was done for a short time, but now the township council has been appealed to for funds, as his father is not able to send the patient to New York for treatment. The council had a special meeting Saturday evening to see what could be done, but the result cannot be given

THE LITTLE BOY WAS SAVED.

A Mother's Words.

A grateful and happy mother writes as follows: "Lactated Food saved our little boy. We had tried seven different kinds of prepared foods, besides the various ways of giving oatmeal, lime-water, and almost everything else. He was as thin as it was possible for a child to be, and we have since learned that the doctor expected that he would die. Another doctor recommended Lactated Food. We hesitated about making a change, as he was so low. We used Lactated Food, however, and it saved his life. He is now two years old, fat and perfectly well.' TORONTO, March 18.-It was rumored in Ottawa that on Saturday Chief Justice Strong had threatened to commit D'Alton McCarthy for contempt of court, owing to a dispute that arose in the hearing of a case. Mr. McCarthy, when interviewed, said: "The rumor that the chief justice threatened to commilt me is untrue. We did have an argument, however. I desired to read an authority in connection with the hearing of the case of Lewis vs. Alexander, and his Lordship said with much rancor that he would not permit it. I questioned his right to make such a decision, and a dispute ensued, but he did not go so far as to threaten a commit-With a younger barrister the effect of the incident might have been to break up his argument.'

MOUNET-SULLY.

The features of Mounet-Sully are familiar to Canadians, as the great actor, during his American tour, played to delighted au-diences in this country. Mounet-Sully mimics the passions to the life, and there is a subtlety, an intellectuality in his delineations which places him in the front rank of great players. Mounet-Sully is a patron of the famous "Vin Mariani," and it is thus that great actor speaks of it:—"When we drink it, we sing, are gay, we love, we dream of the future, of glory, of the infinite. In fact, nothing can be better for strength-ening than 'Vin Mariani.'" And this is the universal testimony, that this famous tonic coca wine nourishes and strengthens when all else fails, building up the nervous and debilitated system, driving away the blues and all despondency, and giving a new lease of life to those who were disposed to cultivate a morbid pessimism. If you desire to know something about the cele-brated persons who have spoken admiringly of "Vin Mariani," send your name to Lawrence A. Wilson & Co., Montreal, and they will send you an album containing their portraits, free.

In this ancient ideal church there was no separation between the rich and the poor; they lived together in love, and were also a very reverent people. All these people were young Christians. If young Christians of these days are going to aid in the development of such a church they must be consecrated to the Lord and be steadfast in his service. Both young and old Christians should hold fellowship with one another. No young Christian should neglect the prayer meeting. We should have a fear or rather a reverence of God. There must be love in all true Christians. All young Christians who will do these things will aid greatly in building up an ideal church.

MRS. (REV.) IRA SMITH. To be young and be a Christian is a most desirable thing. When you are young is the time to form that indestructible structure, character. Most people are looking for some impossi-bility to happen. Too many let the valuable hours of life slip away without improvement, like the grains of sand slipping through your fingers. Many people who would disdain to associate with vicious people delight to read of them in dime novels on the plea that they should know error and thus seek to avoid it. How can a person who reads such books not be contaminated by their influence? Too many young people form a taste for such "racy" reading, as it is called. Read biogra-phies of great men and profit by their knowledge and success. Many people feel that they have no incentive to study. The heart and mind of the Saviour were engaged in a scheme of such magnitude that the angels have not yet found out its meaning, and it will be a study for all eternity. If the social and endeavor meetings are dull and spirit-less it for a lack of thought. If the young people would put their opinions in the best language at their command and speak at these meetings they would soon find it much easier and become al-

most perfect.

MRS. J. H. DOOLITTLE, SPARTA.

The subject was, "Who is the Greatest?" When Christ was on earth the pink, blue and gray, 45 inches wide, worth 25c, Whiskard's price, disciples used to ask who was the greatest in the kingdom of heaven. Every Christian has a higher ambition than merely to be saved. We chafe under the unequal division of talents, wealth and position, but if we have the true Spirit of Christ we will soon grow contented with our lot and bear up easily under our burdens. Jesus told his disciples that unless they came as little children they could not enter the kingdom of heaven, and so we have to humble ourselves to the will of God. Now that we see the Saviour's teaching in this matter, let us make a practical application of it. Let us do the work we are given each day without grumbling. Do not let us think that on account of limited opportunities the results of our lives must necessarily be small. In our anxiety to do we sometimes forget to be. It is sometimes easier to do than to be. The love of Christ will drive away evil and prevent many of the family jars. The Lord requires us to be humble ourselves and work faith-

fully. REV. W. HARTLEY, GUELPH. The subject was "The Young Christian's Mastery of Self." It is indeed a very important topic. If you want to make much of yourself you have to start when young, and so it is important to learn to master self. In the first place there must be knowledge, and next there is the subjection of body to mind, or of the lower to the higher. If we want to do God's work we must not think it any trouble. No man or woman has ever fully mastered himself until they have given themselves fully into service of Christ. The mastery of self will bring all forces into harmony. This will also enable us to act on our own responsibility. Many people do not act for themselves, they are much like a flock of sheep. It will keep us from finding excuses for not doing things that we should do. Then having once determined the path we will follow, we will turn neither to the right or left. When we decide to do a thing, let us always press on until it is finished. Those who have the greatest influence are those who have complete mastery of themselves.

"Advertiser" Agent, Thomas Smith. March 18 .- A painful accident happened here on Sunday morning last, by which the eldest son of Mr. Samuel Nevills lost the thumb and two fingers off the left hand. A dynamite cartridge which the boy had picked up in the yard was the cause of the accident. Placing it on the stove when he came in, the lad waited developments, which soon materialized with the disastrous effect above noted. The missile narrowly missed the boy's face. The injured hand was immediately dressed, and is now favorably progresive, but very painful. The boy is about 12 years

The funeral of the rate Mr. Gorsline, who died from blood poisoning last Thursday, was largely attended on Sunday afternoon. The deceased was a prominent Mason, and the members of that order turned out in full force to pay their last respects to the dead man. A special train was run from Petrolea, which brought in a large number from that town, who joined in the obsequies, which were conducted by Mr. Wells, Methodist minister, of this place. About two weeks ago Mr. Fax was brought here by the Epworth League of the Methodist Church, and so delighted his hearers that the same organization had him appear again on the above night. His programme was fully up to the expectations of those who had come seeking jollity and laughter, for from start to finish his renditions were greeted with applause of no uncertain sound. Some numbers of the evening's programme were given by talent of the village, and although Mr. Fax was the one who evoked the greatest applause, the other renditions were highly appreciated and loudly encored. THE LITTLE BOY WAS SAVED.

A Mother's Words.

A grateful and happy mother writes as follows:

"Lactated Food saved our little boy, We had tried seven different kinds of prepared foods, besides the various ways of giving oatmeal, lime-water, and almost everything else. He was as thin as it was possible for a child to be, and we have since learned that the doctor expected that he would die. Another doctor recommended Lactated Food. We hesitated about making a change, as he was so low. We used Lactated Food, however, and it saved his life. He is now two years old, fat and perfectly well." A TIFF WITH THE JUDGE But D'Alton Denies That Any Threat to Commit Him for Contempt

Was Made. TORONTO, March 18 .- It was rumored in Ottawa that on Saturday Chief Justice Strong had threatened to commit D'Alton McCarthy for contempt of court, owing to a dispute that arose in the hearing of a case. Mr. McCarthy, when interviewed, said: "The rumor that the chief justice threatened to commit me is untrue. We did have an argument, however. I desired to read an authority in connection with the hearing of the case of Lewis vs. Alexander, and his Lordship said with much rancor that he would not permit it. I questioned his right to make such a decision, and a dispute ensued, but he did not go so far as to threaten a commitment. With a younger barrister the effect of the incident might have been to break up his argument."

> MOUNET-SULLY. The Celebrated French Actor.

The features of Mounet-Sully are familiar to Canadians, as the great actor, during his American tour, played to delighted au-diences in this country. Mounet-Sully mimics the passions to the life, and there is a subtlety, an intellectuality in his delinea-tions which places him in the front rank of great players. Mounet-Sully is a patron of the famous "Vin Mariani," and it is thus that great actor speaks of it:—"When we drink it, we sing, are gay, we love, we dream of the future, of glory, of the infinite. In fact, nothing can be better for strengthening than 'Vin Mariani.'" And this is the universal testimony, that this famous tonic coca wine nourishes and strengthens when all else fails, building up the nervous and debilitated system, driving away the blues and all despondency, and giving a new lease of life to those who were disposed to cultivate a morbid pessimism. If you desire to know something about the cele-brated persons who have spoken admiringly of "Vin Mariani," send your name to Lawrence A. -Prince Edward Island Railway is managed by the Dominion Government. It does seem absurd that the men employed on it should be compelled to ask those in power for a reduction of hours of labor to twelve hours a day. The men work on Sunday and often long hours at night, and are not given extra pay. It may be that on the eve of an election justice will be done. But why so long delayed? The highly-paid officers at Ottawa do not work eight hours a day. There will be an equalizing of opportunities and of remuneration for the employes of the country when the new Government comes into power at Ottawa. The masses, as well as the classes, will be considered.

You will have a permanent lobby, exercising its despicable trade in the halls of the Legislature, and though you may have banished corruption from the electorate, you will find you have only sent it a step further, and established a dangerous system of lobbying that will be ready to bribe members of the Legislature in order to obtain the benefits of protection for this or for that favored few. I ask whether it would not be enough to destroy the virtue of any Parliament?"-Sir Richard Cartwright

BOOMING CHEAP FOREIGN WINES In the Franco-Canadian treaty, which Bir Charles Tupper negotiated, the importation of cheap French wines into Canada was the principal object of the French Government, and it was attained. In the proposed agreement with the Cape, it is intended, according to the Canadian Gazette, of London, Eng., that Canada shall import Cape wines at a low rate of duty. From these arrangements to supply Canada with cheap. foreign wines, one would think that the one aim of the Dominion Government was to boom the consumption of these curred to the men at Ottawa that Canthat she can make far more wine than go out to look at it, no matter how busy I may be. I seem to see the world recreated then, and to share in the sense ada is a grape-growing country, and

UNCOURAGEOUS COURAGE.

How easily satisfied some people are! The men now in power at Ottawa, on the confession of so strong a Conservative journal as the Toronto World, look in vain for a Moses to lead them out of the labyrinth of difficulty in which they find themselves.

To meet this situation, another of the organs says that it is prepared to accept anything, so long as it comes from Premier Bowell and his associ-

If they say a session ought to be held, all right; our contemporary

If they say a session shall not be held, it is equally satisfactory to our

contemporary. If they say Parliament shall be dissolved, "How statesmanlike!" is the promised exclamation of this journalistic indorser-at-large.

If they say Parliament shall not be dissolved, "The very thing the country requires," will be its welcome of the decision.

If they say there is no deficit, no matter what the trade returns may indicate, then our contemporary will take the same ground.

If they say the deficit exists, and must be met, then the same newspaper point out with what care the new taxes are being imposed. It will even claim, if so desired, that the taxes are not paid by Canadians, but by wicked English and United States merchants, who foolishly lose money sending goods to us.

If the men in power at Ottawa say it is unwise to compel Manitoba to reestablish separate schools, their journalistic echo will assert that this is eminently proper, no matter what the agreement was by which Manitoba

joined Confederation. If these politicians take the ground that remedial legislation must be carried out, it will be equally decided that the Government is right.

Such are the declarations of the high tax contemporary as it exists and argues today. Such an utterly dependent attitude is sycophancy of the worst description.

A FAVORITE EVERYWHERE.

The Brantford Expositor has issued an illustrated supplement in honor of the Liberal nominee for South Brant. Our contemporary's enterprise is to be commended. It gives an interesting history of Mr. Wm. Paterson, M.P., from his early youth up. If every young man still worries because London has not in Canada could read it, and lay its lessons to heart, he would profit by it. Mr. Paterson was left an orphan in Hamilton at the early age of 10, both or for a chance to repeat its grievances? of his parents having been carried off by a malignant disease in less than 24 work for a living, but he did so with such faithfulness and intelligence that by the time he was 23 years of age he was able to venture into business for himself. There was no "N. P." in those days, with its demoralizing influences, and Mr. Paterson zealously set to work to build up a manufacturing business. In this he was eminently successful. In than ten years Mr. Paterelected as mayor of was Brantford, and in 1872 he defeated Sir Francis Hincks, then a member of the Dominion Government, and became the M. P. for South Brant, a position which he has since retained, despite the most unscrupulous gerrymander of the constituency. The more he is attacked the greater the efforts that are made to take away his majority by means of gerrymanders and other unmanly and despicable agencies, the more strongly do the people of South Brant indorse him. At one time his opponents thought they had his majority blotted out, but when next the electors were heard from it was over 500, and it is now anywhere from 300 to

> The secret of Mr. Paterson's success as a business man and as a representative of the people lies in his honesty, his straightforwardness, his geniality, his progressive, manly, independent career. Mr. Paterson is a supporter of the Liberal policy of a tariff for revenue only and free raw materials for manufacturers, because he believes that under such a fair and equitable arrangement manfacturers will hold their own and their customer will be fairly treated. When he was nominated the other day, he was surrounded by the most influential of his fellow manufacturers in Brantford, who agree with him, as do independent manufacturers everywhere. Indeed, in every campaign Mr. Paterson has had the large majority of the manufacturers of Brantford and their employes at his back, as he has in the present election. There seems to be no doubt that the member for South Brant will be re-elected by a handsome majority. He is a modest man, and he may demur from our estimate of his standing as a statesman but it need surprise no one if in the near future he is called upon to take a place in the Liberal Government.

LIBERALS FIGHT WITH ADVAN-

The Liberals will go into this battle with every advantage. They have the advantage of being the outside and having no clear to be set the control of the co ing no sins in office for which to answer. The Conservatives labor under the disadvantage of the fact that the dozen men who form a close corporation at Ottawa run the party instead of the party managing them, and they must fight with the burden of corruption and whitewash and extravagance weighing heavily upon them.—Toronto Star.

HEAD OF A BIG ORDER.

Bro. Edmund T. Perry, High Chief Ranger, Visits the Ancient **Foresters**

Of Middlesex District-Large Gathering in the Albion Block-The H. C. R.'s Impression of London's Foresters.

The Ancient Order of Foresters of the Middlesex district were favored with an official visit last night by the High Chief Ranger for Canada. Bro. Edmund T. Perry, of Montreal. The regular meeting of Court Pride of the Dominion was held in the Foresters' Hall. Richmond street, and it was at this that the noted official was present. The various lodges in the city were numerously represented, and the Knights of Sherwood Forest honored their superior officer by attending in uniform. Bro. Perry arrived at 8:30, accompanied by Bro. Harry Sutherland, and after entering the following address was read by Bro. Fred Rossiter, chief ranger:

"It is with more than ordinary pleasure that we extend to you a right royal and fraternal welcome to our Forest City, the metropolis of the west, and to Middlesex district, which stands second only to York district in the order. In this district we are enthusiastic Foresters, and anything that touches our order either in adding to or detracting from its luster, touches the hearts of some 1,300 members, who may differ on many points, but in matters pertaining to our noble order are a solid phalanx. You, most worthy brother, can realize our feelings when we received the notice of your intended visit, and athough the time was short in which to prepare for your reception, we trust that your visit has been such that you will never regret it, and that you will carry with you a oleasing remembrance of the fraternal

feelings existing in this district." The address was signed on behalf of Middlesex district by Fred Rossiter, D. C.R.; John Summers. C.R.. Court Pride of the Dominion, No. 5,660: S. T. S. Brighton, No. 6.507 The regular business was then promptly disposed of. Bro. Rossiter pened the speech-making with a few introductory remarks. Bro. Wilkins, a veteran warrior in Forestric ranks, was out of tune, he said, and could not favor with a song, but in a breezy address he pictured to the high chief ranger the condition of the order in London—numerically, financially and last, but not least, morally. Mr. Wilkins made some interesting comparisons between the order of today and twenty years

The high chief ranger was here introduced, and made a vigorous address. 'I hardly know how to express myself,' "I hardly know how to thank you for the enthusiastic manner in which I have been received here, and not only received, but for the care you have taken of me since coming to the city on Friday night. Very often I wonlered whether the municipal law governed the city or the Ancient Order of Foresters. (Applause.) It is necessary for me as high chief ranger to say a few words in reference to a number of subfects, and in the first place I must state that since I had the honor of becoming a Forester I always looked forward to the time when I could visit the hotbed of Forestry-the city of London. (Applause.) We are bound together for one common purpose—only one—and that is to assist each other through the journey of life. There are principles inculcated in our ritual which, if adhered to, wil make not only good fathers, but good neighbors and good citizens. There is no order in connection with the benefit association that has more privileges extended to it than the Foresters. Do all you can in the way of assistance. Let outsiders see that you are bound not only to look after interests of brothers, but suffering humanity at large. A Forester is not a Forester in the sense of the word, but the life of a Forester should spread comfort and relief to everyone in distress. As far as the order is concerned in London in this respect, I have seen for myself. I have visited the sick, and I have also been at the side of a brother this afternoon who had suffered a great affliction through the loss of his wife. It seems to me from what I have seen that I never knew of men who worked so har moniously together as the Ancient Foresters in London. You seem in this Middlesex district to have and to put into practice all the principles of the or-We have as a society grown considerably, but not as much as I would wish. Owing to the depression of trade throughout the Dominion our ranks have not been swelled to any great extent." Mr. Perry then devoted some time to the slight friction which has existed in times gone by and urged strongly upon the brethren to agree to disagree in matters where they differ, and let that be the end of it. Matters of importance to come before the Grand Lodge meeting in Guelph next summer and the possibility of instituting Forester lodges for women were also spoken

Speeches were also made by Bro. A. O Jeffery, the high sub-chief ranger, ex-Mayor Taylor, W. T. Duff. Harry Sutherland, Wm. Moore and many others. Refreshments were served and an enjoyable hour spent.

CRUEL WRONG INFLICTED ON

SAILORS. A sailor on a troopship informs me of a curious grievance from which he and his mates suffer. "The ship's company is limited," he writes, "to two parrots for each mess of about twelve men, and if these are not in uniform cages they are thrown overboard." Tastes, of course, differ, but I should myself have thought an allowance of one parrot to every six men on board a troopship was not an unreasonably small one. "A. B." evidently thinks otherwise, however, and this is not strange, perhaps, when it is remembered on the authority of Mr. F. C. Burnand's once popular lyric, that Jack's "heart is true to his Poll."-London Truth.

EDISON'S LATEST WONDER.

The Phonograph Combined With the Kinetoscope—Sound, Now, as Well as Action.

ORANGE, N. J., March 18.-The combination of the kinetoscope with the phonograph, upon the perfection of which Thomas A. Edison and his assistant, William K. L. Dickson, have been working for several years, has been made practical, and will be offered to the public within a short time in the shape of an instrument which will show action and give phonetic expression

synchronously. The combination, while new to the public, has been working in the Edison laboratory for some time. While perfecting the kinetoscope, experiments were carried on looking to the harnessing of the phonograph with the machine, and a plan was finally found by which it was accomplished. The kinetoscope was then put on the market singly, and at once caught the popular fancy. The additional attraction is now to be intro-

The new apparatus is almost the same in appearance as the kinetoscope. The addition consists of the rubber tubes and ear pieces of the phonograph, which are attached to the top of the kinetoscope. The synchronal action of the two instruments is attained by a simple device in the interior of the box, the connection being made by a belt from the drum of one to the drum of

With the offering of the new inven-tion a change will be made in the character of the objects and scenes photographed by the kinetoscope. While the kinetoscope was only optical the desire was to get scenes in which there was variety of action, sound, of course, being disregarded. Therefore, such subjects as prize fights, dancing, and scenes of violent action were in demand. With the new combination, however, the eye and the ear both being enlisted, the range of subjects will be largely isreased, and many things that could not be portrayed effectively will now become available. It will now be possible o reproduce an entire opera, with all the action and music, by the use of a number of instruments working in succession. The new field opened is, in fact, practically inexhaustible.

CURED OF ASTHMA.

How a Young Lady in Toronto Was Restored to Health.

She Suffered for Years from This Distressing Complaint, and On Occasions Was Confined to Her Room for Weeks -Her Father Tells How She Was

(From Brockville Recorder.) Mr. Reuben Barber, architect, of the ity of Toronto, at one time a resident f Merrickville, has been visiting old friends and relatives in and around the village recently. While chatting with the Recorder correspondent, the recent wonderful cures in the vicinity through the use of Dr. Williams' Pink Pills came up, when Mr. Barber said that some seven years ago while living in Mount Forest, his daughter took a severe cold which developed into asthma. At first she would be confined to her room for days and to see her struggling for breath one would think she could not possibly live an hour. As she grew older the asthmatic spasms became more frequent and of longer duration. Some-times she would be unable to leave her room for weeks, and then she would rally and be better for a short time. After we moved to Toronto she was put under the care of one of the best doctors in the city. At first his treatment seemed to help her, but after a few months she became as bad as ever, and the medicine did not appear to do her the slightest good. We had now fully made up our minds that the trouble was incurable. We had read so much of Dr. Williams' Pink Pills that we determined to give them a trial, really looking upon them as a sort of forlorn hope. My daughter began taking the pills and continued the treatment for about six months, when she found herself entirely free from the distressing disease Seven months have now passed since she took the last box, and he has never had the slightest spasm or return of the trouble. She is now the picture the health," says Mr. Barber, "and we give health," says Mr. Barber, "williams' Pink the entire credit to Dr. Williams' Pink Pills, and lose no opportunity of sounding the praises of this great medicine.' These pills are a positive cure for all troubles arising from a vitiated condition of the blood or a shattered nervous system. Sold by all dealers, or by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box or six boxes for \$2 50. The clause respecting supplies passed without discussion. "Do you consider that it is necessary

for an expert electrician to go over the system?" asked Ald. J. W. Jones.
"No, I do not," replied Chief Roe.
Ald. Jones went on to say that he thought the chief and Assistant Chief McMurchie, with their long experience, should be competent enough to give an opinion on the system.

opinion on the system. Ald. Powell said that the committee did not wish to discredit either the chief expert's opinion was altogether necessary, especially on boxes about to be

purchased. Ald. Parnell said that 40 experts would all differ in opinion. He pointed out that the fire alarm system of London was considered all O. K. until a certain injudicious speech was made in the council last year. Within a week afterwards they had received a letter for the said of the wards they had received a letter from underwriters and were still receiv ing them. There had been less fault to find lately since the men of the department placed the alarm wires on the tops of the poles. If the council would follow the advice of the chief they would not need an expert, and they would not have purchased an inferior alarm box as they did, not long ago, because they

were a little cheaper.

Ald. O'Meara spoke in a similar strain. If an expert recommended a uniform system and the council did not the Underwriters' Association would have more fault to find than ever. Ald. Powell reported that an expert

would come and make the inspection for \$50 Ald. Pritchard spoke favoring the idea of an expert.

The clause was lost on the following division: Yeas—Pritchard, Powell, Carrothers, Garratt, Dreaney, Ardill. Weld -7. Nays—John Heaman, Brener, O'Meara Jones, Wm. Heaman, Armstrong, Callahan, Nutkins, Parnell, Mc-Callum-10.

The question of the purchase of a chemical engine was then taken up. "Do you mean a strap-back engine or an engine on wheels?" asked Ald.

'Wheels," answered Ald. Powell. "Well, I don't think it is necessary," answered Ald. Jones. Ald. Powell read from the report of

the Underwriters' Association re London, in which it was suggested that a chemical engine should be puchased. "There is not a city anywhere," said he, "that would be so foolish as to defy the Fire Underwriters' Associaton. As an association they have it within their grasp to make our insurance light or

make our insurance heavy." "Ald. Powell speaks well from an in-Jones, "but I will speak from a business man's standpoint. I do not wish to defy the Insurance Underwriters' Association. But I don't wish to be bulldozed by the association. There is no comparison between London and Toronto as far as water pressure is concerned. We have a pressure of 80 pounds to the inch inch all the year round compared with one of 50 or 60 pounds, as in Toronto. The idea of the Fire Underwriters' Asian sociation dictating that in a small city like London there should be a salvage corps, while the salvage corps in large cities were maintained by the insurance companies themselves! Two five-gallon strap-back chemical engines would do very well."

Ald. Powell stated that if the council would agree to purchase an aerial truck he would not press the purchase of a chemical engine.

Then a hitch occurred on a discussion as to whether or not the building should be enlarged to house the new truck. The clause finally carried, with the portion out.

stricken out. In dealing with central fire hall repairs Ald. Parnell asked: "How is it that you are going to call for tenders for this work when the men were willing to do the work themselves if they were given

the lumber?" Ald. Powell replied that the multifar-ious duties of the men made it impos-sible to complete the work inside of six months-too long a time to keep the hall in disorder.

The report passed as amended. NO. 2 COMMITTEE. The report of the Board of Works

recommended the acceptance of tenders for supplies for the current year as printed in Friday's "Advertiser."

Ald. O'Meara moved in connection with the sweeping of the block pavement that the corporation do the first

sweeping.

Fox & Mulhall's tender at \$1 59 per block was recommended for acceptance.

But Ald. Carrothers said that it would not be fair to the other contractors to accept the tender and then the city to do the first sweeping.

The clause finally passed, and the contractors will have to do the first

sweeping themselves.

In connection with the gravel contracts, Ald. Garratt moved that the tender of C. Beckett be accepted in ward 6 instead of that of Henry Griffin. The

former tender was a few cents less than After a lengthy debate this motion carried.

Ald. Nutkins moved that the signs belonging to W. Eacrett, et al., which extend over the sidewalk on Dundas street east, be allowed to remain. This was ruled out of order, as it

This was ruled out of order, as it would be necessary to repeal a bylaw.

There was a lengthy and vigorous debate over the proposed City Hall alterations. Ald. Pritchard moved that no work be done this year other than the building of the proposed vaults. This would mean that the city clerk's and assessment commissioner's offices would remain where they are at present. Ald. Garratt moved in further amendment that the clause be referred back. ment that the clause be referred back. Both motions were lost.

The clause was adopted on the following division: Yeas—John Heaman, Brener, O'Meara, J. W. Jones, Wm. Heaman, Armstrong, Callahan, Nutkins, Parnell and McCallum—10. Nays—Pritchard, Powell. Carrothers. Garratt, Dreaney, Ardill and Weld—7.

Ald. Garratt, just before the final vote was taken on the matter, charged that the building of the vaults would close the south staircase and render the building unsafe in case of fire or panic.

The city engineer pointed out that the staircase was simply diverted to the market, and would in event of fire make

a safer exit than the present position.
"Yes, but you exchange a six-foot stairway for a three-foot one," said Ald. Garratt. "No," replied Mr. Graydon, "the stairway wil be of the same width as at

present." The proposed construction of a vitrifled brick or asphalt pavement on Dun-das street between Ridout and Wellington streets, and on Richmond street be-tween the G. T. R. Company's tracks and Fullarton street will be advertised under the provisions of the Local Im-provement Act. The city gravel pit will be advertised for sale.
FINANCE COMMITTEE.

Accounts were recommended for payment amounting to \$2,905. Mrs. Isabella Riddell's taxes will be charged against her property. The committee was empowered to sell by public auction or private sale lots 18, 19, 20, 21, 22, 23 and 24, north side of York street, lots 4 and 5 east side Water-loo street, Central school property, the Wheeley lot, and the Lorenty and the Lorenty the Wheeley lot. property, the Whealey lot, and the Lonion East waterworks property and the city gravel pit.

"If an accident took place there the C. P. R. should place a light in that place,' said Ald. O'Meara. He also pointed out that there was an electric light at the corner of Adelaide street and Central avenue, less than a third of a block away.

He asked that the number be reduced to 25, and that the bylaw be continued for the three years which com-plete the balance of the term.

Ald. J. W. Jones said that Mr. Watson got exemption on the representation that he was the only box manufacturer in the city. He had not been in the new premises one week before he was com-peting with other planing mills in the city, the proprietors of which are payng Mr. Watson's taxes.

"By a thorough knowlege of the naturla laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the indictious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. Made simply with boiling water or milk. ·THE NEW PRINTS

That we are showing have an element of freshness about them that is wanting in print stocks that have been in store shelves all winter. Probably this accounts in some measure for our large sales of Prints during the last two weeks. We would be pleased to have you come and see the lovely patterns and colorings that are

You can buy splendid Tweed for either boys' or men's wear, natty, stylish cloth, both in pattern and color, that will please you immensely. Nothing shown along the street like them for the money. In many stores 500 would not buy any better goods, and perhaps not half as nice patterns. True these are worth more money than we are getting for them, but we bought cheap and give you the benefit.

Buffalo Barley Market. Buffalo Barley Market.

Buffalo, N. Y., March 18.—The visible supply is now 1,004,000 bu, as compared with 791,000 bu at this date last year, and the statement shows a decrease of 214,000 bu during the week. The stock in store exceeds that of last year by 177,153 bu, but the amount of free barley is no greater, and of choice grades hardly any is offered. This fact and the decrease in stocks seems to warrant the action of nardly any is offiered. Instant the action of crease in stocks seems to warrant the action of the holders of Canada barley in sharply ad-vancing prices. There was a fair demand for Canada, too, but the advance shut it off. No. 1 Canada, 66c to 67c; No. 2 Canada, 64c to 65c.

The British Grain Trade. London, March 18.—The Mark Lane Express, in its weekly review of the British grain trade says: During the week English wheats have risen 3d to 6d. Foreign wheats have been strong for good reds, and weak for white.

American reds were 9d higher. Hed winter is quoted at 22s 6d, hard Duluth at 25s 3d and No.

quoted at 22s 6d, hard Duluth at 25s 3d and No. 1 Manitoba at 24s 9d. Round corn has advanced 6d; American is quoted at 21s. Barleys and beans are 6d higher. Oats are quiet.

Today the rise in prices was maintained. English and foreign wheats were 3d higher, with a good inquiry. London flour was 6d, and American 3d higher. Round corn was held for an advance of 5d; grinding barleys and ryes were 6d dearer. Oats were dull. Beans and peas were in sellers' favor.

STRONG OFFICERS

Elected at the Annual Meeting of the Irish Benevolent Society.

Mr. John M. Daly the New President-What the Society Did During the Year-The Annual Dinner-New Quarters.

St. Patrick's Day for 1895 has come and gone, and among the most notable events of the day was the eighteenth annual meeting of the Irish Benevolent Society. The meeting was held in the Albion block, Richmond street, last night, with a very large number in attendance. The reports showed the society to have done a most creditable amount of work during the past year. Relief had been distributed in a most generous manner. The reserve fund of the society amounted to over \$2,000, and the finances were otherwise in good shape.

The most important business was the election of officers. Dr. Mitchell, for two years president, declined re-elec-tion, but in his place the society had some very strong workers, and the prospects for the coming year are exeedingly bright.

The officers elected are as follows: President—Mr. John M, Daly. First Vice-President—Mr. J. L. Fitz-

gerald. Second Vice-President-Mr. W. D. Regan.

Third Vice-President-Mr. Jas. Grant Treasurer—Mr. P. Mulkern. Finance Secretary—Mr. P. F. Boyle. Recording Secretary-Mr. W. C. Fitzgerald. . Auditors-Messrs. W. G. Mullins and

A. D. Huff. Physicians-Drs. Mitchell and Niven. Executive Committee - Messrs. Dr. Mitchell, Mayor Little, James Magee, Q.C., Thomas H. Smallman, Hume Cronyn, Thomas Williams, John Labatt, J. W. Pocock, M. F. O'Meara, R. M. C. Toothe, D. Regan, John Denahy, John Lewis, John Keary and John Breen.

Votes of thanks were tendered the retiring officers and in reply neat speeches were made. A committee consisting of Messrs. J. M. Daly, J. W. Pocock and Dr. Mitchell was appointed to arrange for the annual dinner, which will probably be held about the last of April. A resolution was also passed, authorizing Messrs. Mitchell, Mulkern and W. C. Fitzgerald to secure new rooms for the society.

McCullock vs. Collegiate Institute Board of Stratford and the executors of Elizabeth McCulloch, deceased-Motion for judgment upon the pleadings. The action is to con-strue the wills of John Hamilton and Elizabeth McCulloch. The will of John Hamilton made in 1856 devised certain property in the city of Strat-ford to Elizabeth McCulloch, his daughter for life, and at her decease "to be given in parts to the most deserving of her children." Elizabeth McCulloch duly entered into possession of the said land. The land was, in 1878, expropriated by the Collegiate Institute School Board of Stratford and the value fixed at \$3,000, which sum of money is still in the hands of the school board. Elizabeth McCulloch died last year leaving a will which purported to execute the power of appointment given her by John Hamilton's will, and bequeathing the said money in certain proportions among certain of her children. The plaintiff in this action is a son of Elizabeth McCulloch, and contends that the will of his mother is inoperative upon the said money and that it is the property of and should be divided among the next of kin of Elizabeth McCulloch. Judgment reserved. Mabee (Strat-ford) for plaintiff, McPherson (Stratford) for executors of Elizabeth McCulloch, Gearing (Stratford) for collegiate institute board. Partridge vs. Connolly-Motion by plaintiff to continue an interim injunction granted by a local judge at Stratford restraining defendants from selling or disposing of certain goods and chattels which had been seized by the defendants under a distress warrant. Order made continuing the in-

son, Mitchell, for defendants. The gold medal was awarded Dr. Price's Baking Powder at the Midwinter Fair, because it's absolutely pure. Another Ocean Horror.

Spain's Crack Warship Reina Regente Went to the Bottom.

There Were 450 People On Board-All Lost.

Discovered by a Search Boat-Divers Going to the Scene.

CADIZ, March 19.—The Spanish cruiser Alfonso XII., which has been cruising in the Mediterranean in search of the missing warship Reina Regente, arrived here this morning. She found the Reina Regente at Bajo Accitunos, near Couil, where she had sunk. Only about eighteen inches of her masts were visible above the surface of the water. The Alfonso XII. has returned to the scene of the wreck with a company of divers. The news has created a pro-

found feeling of sorrow here.

From the best information obtainable, it is regarded as probable that all on board the Renia Regente were lost.
NOT A SINGLE SURVIVOR

has been reported as having arrived at any port. Nor has a single body been found that could be identified. The Alfonso XII. is taking divers and diving apparatus for the purpose of recovering the hedies from the surley ship. ering the bodies from the sunken ship and examining the condition of the vessel, with a view of ascertaining the possibilities of raising her. Until something further is heard from the Alfonso XII. nothing can definitely be known, but all hands were undoubtedly lost. There were nearly 450 souls on board.

AT SIXES AND SEVENS.

That's Where the Dominion Cabinet Are.

Wrestling With the Manitoba School Question - A House Divided.

(Special to the "Advertiser.") OTTAWA, March 19 .- Owing to the Government being at sixes and sevens, and not knowing themselves what to do, the general public cannot expect much light from the newspaper correspondents. The issue upon which dissolution depends is the Manitoba school question, and up to this afternoon no decision regarding it had been reached. If a remedial order satisfactory to Quebec can be passed, dissolution will follow, but if the two factions in the Cabinet cannot be reconciled sufficiently for that, then it is possible that the Premier way say it is just as well to meet Parliament and be defeated there as to split up here and gol to the country. A house divided against itself, etc.! The Cabinet are again in session today, wrestling

with the situation. The Ottawa correspondent of the Toronto World says: "Despite local talk in favor of a session, the knowing onesinsist that an election is more than

probable." The Ottawa correspondent of the Globe says: "All the signs point to the existence of a serious crisis in the Cabinet. If the opponents of a remedial order now prove so strong as to secure the adhesion of the Premier, all the had been settled with and there were no Quebec Ministers would be compelled took the Montreal train. Their mission must be important, and something, no doubt, depends upon its result. Senator Drummond, of Montreal, a man usually consulted in crises, will arrive tonight or tomorrow morning. The chances of a session of Parliament being used as a sword to cut the Gordian knot are few, because what chance would the Cabinet, at war within itself, have of controlling its followers in Parliament? There is no one in authority to drag things out of the position they are in. Dissolution is the only resort. All the Ministers were present today, except Mr. Costigan, who was in Kingston."

ROW AMONG OTTAWA CONSER-VATIVES.

OTTAWA, March 19.—There is a big ow among Conservatives over the selection of ward delegates last night to the convention to select candidates for the coming election. The Citizen (Con.) today says: "Meetings for the selection of delegates to the Conservative con-vention were held last evening in the different wards, and in so far as two of them are concerned they will go on re-cord as developing tactics unique in the history of Ottawa politics. It had been pretty well understood that the supporters of Mr. Taylor McVeity were organized to secure the choice of as many of their delegates as possible, but few were prepared for the manner in which it was attempted to carry out these plans in Central and Dalhousie wards That shady tactics should have sufficed in the former case is generally regarded as a strong reflection upon the chairman, whose position, professionally and socially, is such as to deprive him from excuses for his course which might be offered in extenuation of ex-Ald. Peterkin's partisan bungling in the manage-ment of the Dalhousie ward meeting. There was also some warmth of feeling over the conduct of the Wellington ward meeting. The result of the ward meetings is that in some cases two sets of delegates have been elected."

SPRING BEGINS.

The Sun Crosses the Line on March 20-A Scientific Explanation,

The sun in its northward journey crosses the line tomorrow, March 20, at 2:49 p.m., central standard time, when, astronomically speaking, spring begins, and equal day and night will prevail over the entire earth.

The first day of March is commonly

regarded as the beginning of spring, but according to the astronomers spring

begins with the vernal equinox, on March 20, when the sun "crosses the line," as may be seen by referring to any reliable almanac, opposite the day of the year. When, in the popular phrase, the "sun crosses the line," or "crosses the equator," it is meant that the sun seems to pass that part of the ecliptic, or the earth's orbit, cut by the equinoctial, which is an imaginary line across the heavens coinciding in direction with the earth's equator.

It is not generally known that two causes produce the change of seasons; first, the motion of the earth around the sun; and second, the inclination of its equator to the plane of its ecliptic. The earth's axis is not perpendicular to the plane of its orbit, but is tilted to a large extent, the inclination from a perpendicular amounting to about 32 1-2 degrees, which is the angle of the inclination of the equinoctial to the ecliptic, known to astronomers as the "obliquity of the ecliptic." Upon this inclination the seasons of the earth depend. If there were no inclination—that is, if the axis of the no inclination—that is, if the axis of the earth were perpendicular to the plane of its orbit—there would be no change of seasons, while if the axis were horizontal the vicissitudes of the seasons would be greater than they are now. When the sun arrives at the equinoxes, on March 20 and Sept. 22, the sun's rays reach from pole to pole, and the days and nights all over the earth are approximately of equal length. At the winter solstice there is less sunshine in that part of the earth north of the that part of the earth north of the

equator than there is south of the equa tor, while at the summer solstice the northern part of the earth receives more sunshine than the southern. It is win-ter in the north temperate zone when the earth is in the former position, and summer in the south temperate zone the date being Dec. 21. It is summer in the north temperate zone and winter in the south temperate zone when the earth is in the latter position, that date being June 21.

TELLING THE WHOLE TRUTH.

A preacher came to a newspaper man in this way: "You editors dare not tell the truth. If you did you could not live. Your newspaper must be a failure." The editor replied: "You are right; and the minister who will at all times and under all circumstances tell the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with whitewash brushes and pleasant words, magnifying little virtues into big ones. The pulpit, the pen and the gravestone are the great saint-making triumvirate. -The Poughkeepsie News-Press.

A Tale of Love

And Bliss, at Last.

But there was a dogged constancy of felling about Maurice which could not allow him to disburden himself of his love. When he was again at Mount Pleasant, among his sugar canes and hogsheads, he could not help thinking about Marian. It is true he always thought of her as flying round that ballroom in Ewing's arms, or looking up with rapt admiration into that parson's face; and so he got but little pleasure from his thoughts. But not the less was he in love thoughts. But not the less was he in love with her—not the less, though he would swear to himself three times in the day that for no earthly consideration would be marry Marian Leslie.

The early months of the year, from Jan-The early months of the year, from January to May, are the busiest with the Jamaica sugar grower, and in this year they were very busy months with Maurice Cumming. It seemed as though there were actually some truth in Miss Jack's prediction that prosperity would return to him if he attended to his country: for the prices of sugar had risen higher than they had ever been since the duty had been withdrawn, and there was more promise of a crop at and there was more promise of a crop at Mount Plensant than he had seen since his reign commenced. But then the question of labor? How he slaved in trying to get work from those free negroes, and alas, how often he slaved in vain! But it was not all in vain; for as things went on it became clear to I n that in this year he would, for the first time since he commenced, obtain something like a return from his land. What if the turning point had come, and things were

now about to run the other way?

But then the happiness which might have accrued to him from this source was dashed by his thoughts of Marian Leslie. Why had he thrown himself in the way of that siren? Why had he left Mount Pleasant at all? He knew that on his return to Spanish Town his first work would be to visit Shandy Hall and yet he felt that, of all places in the island, Shandy Hall was the last which he

And then about the beginning of May, when he was hard at work turning the last of his canes into sugar and rum, he received his annual visit from Miss Jack. And whom should Miss Jack bring with her but

"I tell you," said Mr. Jack; "I have spoken to Mr. Leslie about you and "Then you had no business to do any-

thing of the kind," said Maurice, blushing up to his ears. "Nonsense," replied!Miss Jack. "I understand what I am about. Of course Mr. Leslie will want to know something about

"Then he may go back as wise as he came, for he'll learn nothing from me. Not that I have anything to hide."

"So I told him. Now there is a large family of them, you see; and of course he can't give Marian much. "I don't care a straw if he doesn't give her a shilling. If she cared for me, or I for her, I shouldn't look after her for her

"But a little money is not a bad thing, Maurice," said Miss Jack, who had had a

good deal, and had managed to take care of "It is all one to me."

"But what I was going to say is this—hum—ha— I don't like to pledge myself for fear I should raise hopes which mayn't be fulfilled.

"Don't pledge yourself to anything, aunt, in which Marian Leslie and myself are con-"But what I was going to say is this; My money, what little I have, you know,

must go some day either to you or to the "You may give it all to them if you please.'

"Of course I may, and I dare say I shall," said Miss Jack, who was beginning to be irritated. "But at any rate you might have the civility to listen to me when I am endeavoring to put you on your legs. I am sure I think about nothing else, morning; noon and night, and yet I never get a decent word from you. Marian is too good for you; that's the truth."

But at length Miss Jack was allowed to open her budget and to make her proposi-tion, which amounted to this—that she had already told Mr. Leslie that she would settle the bulk of her property conjointly on Maurice and Marian if they would make a match of it. Now as Mr. Leslie had long been casting a hankering eye after Miss Jack's money, with a strong conviction, however, that Maurice Cumming was her favorite nephew and probable heir, this proposition was not unpalatable. So he agreed to go down to Mount Pleasant and look

"But you may live for the next thirty years, my dear Miss Jack," Mr. Leslie had

"Yes. I may," Miss Jack replied.
"And I'm sure I hope you will," continued Mr. Leslie. And then the subject was allowed to drop; for Mr. Leslie knew that it was not always and the literature." that it was not always easy to talk to Miss Jack on such matters.

Miss Jack was a person in whom I think we may say that the good predominated over the bad. She was often morose, crabbed, and self opinionated; but then she knew her own imperfections and forgave those she loved for evincing their dislike of them. Maurice Cumming was often inattentive to her, plainly showing that he was

worried by her importunities and ill at ease in her company. But she loved her nephew with all her heart; and though she dearly liked to tyrannize over him, never allowed herself to be really angry with him, though he so frequently refused to bow to her dictation. And she loved Marian Leslie also, though Marian was so sweet and lovely and she herself so harsh and ill-favored. She loved Marian though Marian would often and she herself so harsh and ill-favored. She loved Marian, though Marian would often be impertinent. She forgave the flirting, the light-heartedness, the love of amusement. Marian, she said to herself was young and pretty. She, Miss Jack, had never known Marian's temptation. And so she resolved in her own mind that Marian should be made a good and happy women should be made a good and happy women —but always as the wife of Maurice Cum-

But Maurice turned a deaf ear to al these good tidings-or rather he turned to them an ear that seemed to be deaf. He dearly, ardently loved that little flirt: but seeing that she was a flirt, that she had flirted so grossly when he was by, he would not confess his love to a human being. He would not have it known that he was vasting his heart for a worthless little chit to whom every man was the same-except that those were most eligible whose toes were the lightest and their outside trappings the brightest. That he did love her he could not help, but he would not disgrace himself by acknowledging it.

He was civil to Mr. Leslie, but he would

not speak a word that could be taken as a proposal for Marian. It had been part of Miss Jack's plan that the engagement should absolutely be made down there at Mount Pleasant, without any reference to the young lady; but Maurice could not be induced to break the ice. So he took Mr. Leslie through his mills and over his cane pieces, talked to him about the laziness of the niggers, while the niggers themselves stood by tittering; and rode with him away to the high ground where the coffee plantation had been in the good old days: but not a word was said between them about Marian. And yet Marian was never out of his heart.

And then came the day on which Mr. Leslie was to go back to Kingston. "And you won't have her, then?" said Miss Jack to her nephew early that morning. won't be said by me?" "Not in this matter, aunt."

"Then you will live and die a poor man; you mean that I suppose?" "It's likely enough that I shall. There's tihs comfort, at any rate, I'm used to it." And then Miss Jack was silent again for a

while.

"Very well, sir; that's enough," she said, angrily. And then she began again. "But, Maurice you wouldn't have to wait for my death you know." And she put out her hand and touched his arm, entreating him as it were to yield to her. "Oh, Maurice," she said. "I do so want to make you comshe said, "I do so want to make you com-fortable. Let us speak to Mr. Leslie." But Maurice would not. He took her

hand and thanked her, but said that on this matter he must be his own master. "Very well, sir," she exclaimed, "I have done. In future you may manage for yourself. As for me, I shall go back with Mr. Leslie to Kingston." And so she did. Mr. Leslie returned that day, taking her with him. When he took his leave his invitation to Maurice to come to Shandy Hall was not very pressing. "Mrs. Leslie and the children will always be glad to see you."

"Remember me very kindly to Mrs. Leslie and the children," said Maurice. And so they parted.
"You nave brought me down here on a

"It will all come right yet," replied Miss Jack. "Take my word for it, he loves

In spite of all that he had said thought to the contrary, Maurice did look forward during the remainder of the summer to his return to Spanish Town with something like impatience. It was very dull work, being there alone at Mount Pleasant and let him do what he would to prevent it, his very dreams took him to Shandy Hall. But at the slow time made itself away, and he found himself once more in his aunt's

A couple of days passed and no word was said about the Leslies. On the morning of the third day he determined to go to Shandy Hall. Hitherto he had never been there without staying for the night; but on this occasion he made up his mind to return the same day. "It would not be civil of me not to go," he said to his aunt.

Marriage Relation-The Real Remedy.

NEW YORK, March 17.-Rev. Dr. Talmage chose as the subject of his afternoon sermon in the Academy of Music today, "Wholesale Divorce." The text selected was Matthew, xix., 6: "What therefore God hath joined together let at the selected was matthew, and the selected was matthew, xix., 6: gether let not man put asunder."
That there are hundreds and thous-

ands of infelicitous homes in America no one will doubt. "Unhappily mar-ried" are two words descriptive of many a homestead. It needs no orthodox minister to prove to a badly mated pair that there is a hell; they are there now. Sometimes a grand and gracious Woman will be thus incarcerated and her man will be thus incarcerated and her life will be a crucifixion, as was the case with Mrs. Sigourney, the great poetess and the great soul. Sometimes a consecrated man will be united to a fury, as was John Wesley, or united to a vixen, as was John Milton. Sometimes, and generally, both parties are to blame, and Thomas Carlyle was an to blame, and Thomas Carlyle was an intolerable scold, and his wife smoked and swore. Some say that for the alleviation of all these domestic disorders divorce is a good prescription. God sometimes authorizes divorce as certainly as he authorizes married. tainly as he authorizes marriage. But you know and I know that wholesale

divorce is one of our national scourges.

Many influences have in this country
militated against the marriage relation
For a number of years the platforms of the country rang with talk about a free-love millennium. There were meetings of this kind held all over the land. some of this kind held all over the land. Some of the women who were most prominent in the movement have since been distinguished for great promiscuosity of affection. That campaign of about twenty years set more devils into the marriage relation than will be exorcised in the next fifty.

Another influence that has warred upon the marriage relation has been the

on the marriage relation has been the polygamy in Utah. That was a sterectyped caricature of the marriage relation, and has poisoned the whole land. You might as well think that you can have an arm in a state of mortification. and yet the whole body not be sickened, as to have those territories polygamized, and yet the body of the nation not feel the putrefaction. It was impossible to have such on awful sewer of iniquity sending up its miasma without the whole land being affected by it.

Another influence that has warred against the marriage relation in this country has been a pustulous literature, with its millions of sheets every week choked with stories of domestic wrongs, and infidelities and masacres, and out-rage, until it is a wonder to me that there are any decencies, or any common sense left on the subject of marriage. One half of the news stands of all our cities reeking with filth.

"Now," say some, "we admit all these evis, and the only way to clear them out or correct them is by easy divorce. Well, let us find out how easy it is now. I have looked over the laws of all the States, and in each one it is easy. In one county of the State of Illinois, in one year, there were \$53 divorces. In the city of San Francisco 333 divorces in one year, and in twenty years in New years and in the state of Illinois in the "You have brought me down here on a one year; and in twenty years in New regular fool's errand," said Mr. Leslie on their journey back to town.

"You have brought me down here on a one year; and in twenty years in New England 20,000. Is that not easy enough? Causes of divorce double in a few years -doubled in France, doubled in England, and doubled in the United States. To show how very easy it is, I have to tell you that in Western Reserve, Ohio, the proportion of divorces to marriages celebrated is one to eleven; in Rhode Island, is one to thirteen; in Vermont, one to fourteen. Is not that easy

enough? I want you to notice that frequency of divorce always goes along with the dissoluteness of society. Rome for 500 year had not one case of divorce. Those were her days of glory and virtue. Then the reign of vice began, and divorce became epidemic. If you want to know how rapidly the empire went down, ask

What we want in this country and in all lands is that divorce be made more and more and more difficult. Then people before they enter that relation will be persuaded that there will probably be no escape from it except through the door of the sepulchre. Then they will pause on the verge of that relation until they are fully satisfied that it is best, and that it is right, and that it is hapand that it is right, and that it is happiest. There are states in the Union which practically put a premium upon the disintegration of the marriage relation, while there are other states, like our own New York State, that had for a long time the pre-eminent idiocy of making marriage lawful at 12 and 14 years of age. The Congress of the United States needs to move for a change of the national constitution, prepare a good, honest, righteous, comprehensive good, honest, righteous, comprehensive, uniform law that will control every-thing from Sandy Hook to the Golden Horn. That will put an end to brokerages in marriages. That will send divorce lawyers into a decent business. More difficult divorce will put an estoppel to a great extent upon marriage as a financial speculation. There are men who go into the relation just as they go into Wall street to purchase shares. This masculine candidate for matrimonial orders, through the commercial agency or through the county records, agency or through the county records, finds out how much estate is to be inherited, and he calculates it. He thinks out how long it will be before the old man will die, and whether he can stand the refractory temper until he does die, and then he enters the relation; for he says: "If I cannot stand it, then through the divorce law I'll back out." That process is going on all the time, and men enter the relation without any moral principle, without any affection, and it is as much a matter of stock

and it is as much a matter of stock speculation as anything that transpired yesterday in Union Pacific, Illinois Central or Delaware and Lackawanna.

Rigorous divorce law will also hinder women from the fatal mistake of marrying men to reform them. If a young trans by 25 years of age or 30 years of man by 25 years of age or 30 years of age has the habit of strong drink fixed on him, he is as certainly bound for a drunkard's grave as a train starting out from Grand Central depot at 3 clock tomorrow morning is bound for Albany. The train may not reach Albany, for it may be thrown from the track. The young man may not reach a drunkard's grave, for something may throw him off the iron track of evil habit, but the probability is that the train that starts tomorrow morning for Albany at 8 o'clock will get there, and the probability is that the young man who has the habit of strong dring fixed who has the habit of strong dring fixed on him before 25 or 30 years of age will arrive at a drunkard's grave. She knows he drinks, although he tries to hide it by chewing cloves. Everybody knows he drinks. Parents warn, neighbors and friends warn. She will marry him, she will reform him. If she is unsuccessful in the experiment, why then the divorce law will emancipate her, because habitual drunkenness is a cause for divorce in nearly all the States. So the poor thing goes to the altar of sacrifice. If you will show me the povertystruck streets in any city, I will show you the homes of the women who mar-ried men to reform them. In one case out of 10,000 it may be a successful ex-

Dr. Talmage Deals with the Subject

Causes That Have Militated Against the

By the wreck of ten thousand homes, by the holocaust of ten thousand sacrificed men and women, by the hearthstone of the family, which is the corner stone of the state, and in the name of that God who hath set up the family institution and who hath made the ily institution, and who hath made the breaking of the marital oath the most appalling of all perjuries, I implore the Congress of the United States the most some righteous, uniform law for all the States and from ocean to ocean on this subject of marriage and divorce.

Let me say to the hundreds of young people in this house this afternoon, be-fore you give your heart and hand in holy alliance, use all caution; inquire outside as to the habits, explore the disposition, scrutinize the taste, question the ancestry and find out the ambi-tions. Do not put your lifetime happiness in the keeping of a man who has a reputation for being a little loose in morals, or in the keeping of a woman who dresses fast. Remember that while good looks are a kindly gift of God, wrinkles or accident may despoil them. The only foundations for happy marriage that has ever been or ever will be is good character. Ask God whom you shall marry, if you shall marry at all. A union formed in prayer will be a happy union, though sickness pale the cheek, and poverty empty the breadtray, and death open the small graves, and all the path of life be strewn with thorns, from the marriage altar, with thorns, from the marriage altar, with its wedding march and orange blos-soms clear on down to the last farewell at that gate where Isaac and Rebecca, Abraham and Sarah, Adam and Eve,

ed wretchedness; for if a man does not believe there is a God he is neither to

be trusted with a dollar nor with your lifelong happiness. Having read much about love in a cottage, people brought up in ease will go and starve in a hovel.

And let me say to you who are in this relation, if you make one man or woman happy you have not lived in vain. Christ says that he is to the church what you ought to be to each other; and if sometimes through difference of opinion or difference in disposition you make up your mind that your marriage was a mistake, patiently bear and forbear, remembering that life at the longest is short, and that for those who have been mated badly in this world death will give quick and immediate bill of divorcement written in letters of green grass on quiet graves. And perhaps, my brother, my sister-perhaps you may appreciate each other better in heaven than you have appreciated each other on earth

In the "Farm Ballads," Carleton puts into the lips of a repentant husband, after a life of married perturbation, these suggestive words: "And when she dies I wish that she

would be laid by me, And, lying together in silence, perhaps we will agree, And if ever we meet in Heaven, I would not think it queer
If we love each other better because

we quarreled here." And let me say to those of you who are in happy married union, avoid first quarrels; have no unexplained correspondence with former admirers; cultivate no suspicions; in a moment of bad temper do not rush out and tell the neighbors; do not let any of those gadabouts of society unload in your house their baggage of gab and tittle-tattle; do not stand on your rights; learn how to apologize; do not be so proud or so stubborn, or so devilish that you will not make up. Remember that the worst domestic misfortunes and most scandalous divorce cases started from little infelicities, little misunderstandings that were allowed to go on and go on intil home and respectability, and religion, and immortal soul went down in the crash, crash! An, fellow-citizens, as well as fellow-

Christians, let us have a divine rage against anything that wars on the marriage state. Blessed institution! Instead of two arms to fight the battle of life, four. Instead of two eyes to scrut-inize the path of life, four. Instead of two shoulders to lift the burden of life, four. Twice the energy, twice the courage, twice the holy ambition, twice the probability of worldly success, twice the prospects of heaven. Into the matri-montal hower God fetches two souls. Outside the bower room for all contentions, and all bickerings, and all controversies, but inside the bower there is room for only one guest-the angel of love. Let that angel stand at the floral doorway of this Edenic bower with drawn sword to hew down the worst foe of that bower-easy divorce. And for every Paradise lost let there be a Paradise regained. And after we quit in heaven, at the windows of which this moment are familiar faces watching for our arrival, and wondering why

THE EVANGELISTS CLOSE.

The evangelists, Messrs. Appel and Anderson, closed a week of most suc-cessful meetings at the Grosvenor Street Baptist Church on Sunday evening, when the seating capacity of the church was taxed to its utmost capachurch was taxed to its utmost capacity, and the meeting throughout proved in every way the crowning blessing of the series. Never in the history of the church have such crowds gathand the church have such crowds gathered night after night to listen to the simple Chorus, Mission Band; solo, Miss Griffith; night after night to listen to the simple proclamation of divine truth. The meetings have increased in interest and power from the first. Every night num-bers have expressed a desire for prayer, bers have expressed a desire for prayer, and definite conversions have also taken place at each meeting, some of which were direct answers to prayer, freshments were served. The social was in and many of them most striking in character. The church has been greatly blessed by the services, many of the members being stirred up to a more spiritual life, and a number of regular attendants in the congregation have decided for Christ. In almost every class in the Sunday school conversions have taken place, a fact which greatly re-joices the hearts of the teachers and officers. There has been an absence of anything like excitement or sensation-alism in the meetings. Mr. Appel's earnest and simple addresses, full of Gospel truth, and Mr. Anderson's sweet and effective singing have been accompanied by the power of the Holy Ghost, and as a natural result great blessing has followed. Many have cause to bless God for the visit of these devoted brethren, and the church will never forget the times of refreshing it has enjoyed during the past week.

175.... Job Department THE BELLS OF SHANDON.

With deep affection And recollection
I often think of
Those Shandon bells,
Whose sounds so wild would,
In the days of childhood, Fling round my cradle Their magic spells.

On this I ponder Un this I ponder.
Where'er I wander.
And thus grow fonder.
Sweet Cork, of thee—
With thy bells of Shandon.
That sound so grand on
The pleasant waters
Of the Piver Lea Of the River Lee.

I've heard bells chiming Full many a clime in, Tolling sublime in Cathedral shrine, While at a gilbe rate
Brass tongues would vibrate
But all their music
Spoke naught like thine.

For memory, dwelling On each proud swelling Of thy belfry, knelling Its bold notes free, Made the bells of Shandon Sound far more grand on The pleasant waters Of the River Lce.

I've heard bells tolling Old Adrian's Mole in, Their thunder rolling From the Vatican— Swinging uproarious In the gorgeous turrets Of Norte Dame: But the sounds were sweeter

Than the dome of Peter Fling o'er the Tiber, Pealing solemnly. Oh! the bells of Shandon Sound far more grand on The pleasant waters There's a bell in Moscow; While on tower and kiosk, O In St. Sorhia

And loud in air Calls men to prayer, From the tapering summit Of tall minarets. Such empty phantom But there's an anthem That sound so grand on

The Turkman gets,

Of the River Lee.

"CHARLIE'S AUNT." "Charlie's Aunt," the comedy which has made a great hit in two continents, was produced for the first time in London last night before an audience that almost filled the Opera House. The company was under Charles Frohman's management, and was very good, though not his best. "Charlie's Aunt" has not the slightest literary merit, but is uproariously funny nevertheless. Of course the whole skit revolves around the impersonation by a young nobleman of Charlie's Aunt, a widow worth millions, in the disguise of whom the aforesaid young nobleman chaperones two young ladies with altogether too much affection to please their lovers. The ardent wooing of the supposed aunt by two gray-haired gentlemen with an eye to business, occasions some highly ludicrous situations which are most cleverly contrived by the playwright. Willis Searle, as the bogus aunt, bore the burden of the piece, and it fell on capable shoulders. He displayed rare powers of mimicry and his byplay was admirable. Mr. Allen as Spettigue ranked next in merit, the other roles being comparatively subordinate. The audience enjoyed many hearty laughs, and "Charlie's Aunt" therefore fulfilled her sole
