DECLINED FOUR PER CENT. PROPOSITION.

Special Committee Asks an Early Answer And Street Railway People Promise One.

Wait to Hear From the Bondholders.

It is probable that before the end of the week the city will know whether it is going to get a new street railway system and extensions as a result of the negotiations now in progress. The aldermen have urged upon the company that they must have a definite answer, within a very short time, to the city's proposition to collect 8 per cent. on receipts up to \$316,000 and 5 per cent. above that amount for the balance of the contract term. The sub-committee had another conference yesterday afternoon with Hon. J. M. Gibson and General Manager Hawkins. The company officials urged that the city make the rate on the receipts above \$316,000, four instead of five per cent. The aldermen refused. The company argued that the city's estimate of the increased earnings for the remainder of the franchise period was much too high. Mr. Gibson said that before the company could give its answer it would be necessary to consult the bondholders. He promised to do this at once and give the city an answer by the end of the week.

There is likely to be a lively discussion at the meetings of the Cemetery Board to-night as a result of the execution taken by the Mayor and some of the aldermen to the proposed new by-law respecting the price of cemetery lots. The board declares that this is necessary to raise a fund for caring for the cemetery after it is filled, which it is estimated will be about fifteen years. Secretary Rutherford's statement for February shows receipts of \$1,270 of which \$636 goes to the perpetual care fund. The expenditure for the month amounted to \$883.

Engineer Sothman's account for \$400 for preparing specifications for the electric pumps at the Beach will probably cause a row at the next meeting of the Fire and Water Committee. Some of the members of the committee say that they knew nothing of this expenditure, that they were under the impression that Mr. Sothman was doing this work in connection with the Hydro-Electric scheme, and that as far as they are concerned the Council never authorized the committee to appoint an engineer.

The city officials say that there are more men around applying for work now than a month ago. If there is fine weather, by the end of the month a small army of the unemployed will be given work at street cleaning.

The Parks Board will meet at 4 o'clock to-morrow afternoon.

ROWDYISM ON CAP.

Dundas Man Fined For Bad Conduct Last Night.

Once in a while the conductors on the Dundas cars are annoyed, as are the passengers, by the conduct of men on the cars. A case occurred last evening on the 615 car from this city. Conductor Case found it necessary to re-monstrate soon after the car left the city, with R. Thompson, who lives on the York road, Dundas. This did not have the desired effect and at Ainslie Wood Case telephoned to Dundas and Chief Twiss was waiting when the car arrived at the Town Hall. Thompson was taken in charge, and this morning was fined \$2.

NEW ARMY SERVICE CORPS TO ATTEND TERCENTENARY.

Col. Langton Met Officers and Gave Out Much Information Yesterday.

Col. Langton, the commanding officer of the Army Service Corps of Canada, was in town yesterday afternoon, for the purpose of going ahead with the plans for perfecting the organization of a local corps. This corps has been dragged around for the past two years, and nothing definite has been accomplished until a few days ago. Col. Langton has inspired some enthusiasm in a number of the local officers, with the result that things are taking definite shape. Col. Langton last evening had a talk with Col. Legie, Thompson Lawson, J. A. McLennan and Sergt. Sloan at the Hamilton Club in an informal way. The corps will have a place in the old Army, and will be a distinct military unit. Col. Langton said that he expected it would be in shape to take part in the unveiling of the Queen Victoria statue on the 24th of May. As a result of the Quebec tercentenary, he said, camps

Arrest of School Officials.

Chicago, March 10.—The arrest and prosecution of one principal and the janitors and engineers of several public and private schools was demanded yesterday by Acting Building Commissioner Robert Knight in a letter to Geo. H. White, city prosecutor.

This demand followed a conference held by Commissioner Knight, Architect Perkins, of the Board of Education, and Fire Marshal Horan, at which reports as to the fire protection of Chicago schools made by 120 fire captains and 30 building inspectors were reviewed. The arrests asked are for those custodians of school buildings where doors have been found locked when pupils were in their classes and study rooms.

\$2,400 FOR ART SCHOOL.

FULL GRANT AND AN EXTRA \$400 THIS YEAR.

The School Has the Approval of Inspector Leake, and the Assurance of Government Protection.

Hamilton people generally will be glad to learn that the announcement made in a city paper last night, to the effect that the Ontario Government grant to the Hamilton Art School had been reduced from \$2,000 to \$400, is not true. On behalf of the Board, Mr. J. F. Leisner this morning called upon the Deputy Minister of Education, Mr. Colquhoun, who assured him that not only would the school receive the full \$2,000 grant, but that it would this year receive in addition \$400 on the basis of work done during the past year, making a total of \$2,400. This fact is the strongest evidence of the efficiency of the school.

If any further evidence were required it is furnished by Inspector Leake, who recently visited the school, and reported that the work it is doing is of a high class. The board has the assurance that whatever is done by the Government or by the Board of Education of Hamilton in regard to the establishment of a technical college or technical school is the Hamilton Art School's interests will be protected.

SPECIAL SERVICES.

Series Successfully Begun In First Methodist Church.

First Methodist Church began a series of special services last night, and met with success at the very start. The school-room was crowded, the young people especially being out in large numbers and taking an active interest in the proceedings. The Y. M. C. A. evangelistic band was in attendance and assisted in the services. The promptness and freshness of the testimonies given by the young folks was a surprise and inspiration to the older Christians. Rev. R. J. Treleven, the pastor, preached and gave an excellent address on Paul's question when he was converted, "Lord, what wilt thou have me to do?"

The services are to be continued every evening this week. The singing is hearty and an earnestness prevailed last night which speaks well for the series. All are invited.

DID BRITAIN PREVENT WAR?

Foreign Office Wanted to Know What Japan Intended Doing to China—Request Surprised the Japs.

Tokio, March 10.—According to a well authenticated report the centre of interest in the Tatsu Maru affair has been removed to London. When the British Government was informed of Japan's announcement that, in the event of a refusal by China to entertain her demands, Japan proposed to take "independent action" the British Foreign Office asked Count Komura, the Japanese ambassador in London, what steps Japan proposed to take, calling his attention to the clause in the treaty with Great Britain covering the question of war between Japan and any other nation. Ambassador Komura being unable to give a definite answer, asked the Foreign Office in Tokio for information, which found the attitude of the British Government an unexpected phase in the situation. It is stated here that the British Government is advising arbitration on the question of the restoration of the arms seized and has pointed out the advisability of Japan admitting the moral side of the question, while doubtless technically correct. This new turn of events has created a deadlock here and the Foreign Office is now awaiting advices from Ambassador Komura.

HANGED TO A TREE.

Young Married Man Implicated in Double Murder.

Bristol, Va., March 9.—Short, swift justice was meted out to Jackson Presler, a young married man, who was taken from his home near Swords Creek, Russell County, in spite of his wife's appeal last night, by a mob of 300 men and hanged to a tree.

Geo. Calland and John Mutter were murdered at a dance Saturday night, it was charged that Presler was implicated in the killing.

George Gross and Fred Dye, two young men, also charged with being implicated in the double killing, were arrested Sunday and hurried to the Lebanon jail, 20 miles away, in order to prevent lynching.

To Lynch Other Two.

Chattanooga, Tenn., March 10.—A despatch from Lebanon to-day stated that the two men had been lodged in jail there and that news had been received that the mob which lynched Presler was increasing and was on its way to Lebanon to lynch Gross and Dye.

The sheriff immediately increased the guard around the jail and a battle is anticipated if the mob goes to Lebanon. On account of the remoteness of Swords Creek, which is in the mountain district, it has been impossible to get details of the murder here.

Fireman Killed.

Grand Rapids, Mich., March 10.—A Pere Marquette passenger train, which left here at 11.30 last night for Chicago, collided with a freight train near Wyoming yards. Fireman John Chadduck, of the freight train, was killed, and Engineer Clarence A. Jones, of the freight train, was internally injured. One passenger and several other trainmen were less seriously hurt.

GOING TO VENICE.

J. A. McIntosh and Wife Visit Cleveland First.

Mr. J. A. McIntosh, of this city, already a well travelled man, left this morning for Cleveland, accompanied by his wife, to visit her parents and friends there before leaving for Europe. They will spend some time in the British Isles and then go to Venice. Mr. McIntosh was for many years on the road as an acrobatic specialist, starting when 12 years old, but he has been engaged in the real estate business for the past eight years. Before leaving he made arrangements for the completion of a new home, which will be ready by the time they return. The gloom of the Collinwood school disaster rested heavily on the home of Mrs. McIntosh's family there.

CHILD'S WELFARE.

Washington, March 10.—Delegates representing every State and territory in the Union and the leading countries of the world assembled here to-day to attend the international congress on the welfare of the child. Among the prominent speakers who will address the congress will be James Bryce, the British Ambassador to the United States, and Gen. Francois Joubert-Pienar, of Angola, Africa, and others.

THREW PIECE OF HUMAN LEG AT PROF.

Chicago, March 10.—Twenty-eight medical students of the University of Chicago are facing suspension because one of their number threw a piece of a human leg from the dissecting room at a divinity professor. The professor complained to President Judson, who asked for an investigation.

Dr. G. Gordon Wilson and Dr. Basil Harvey, who are in charge of a section in anatomy, questioned the class of twenty-eight students yesterday, but they were unable to obtain a confession from any one. The professors then informed them they were all liable to suspension. The class examinations begin to-day and the twenty-eight students will not be allowed to take them. No credit will be given them for the three months' course in anatomy.

The guilty student is declared to have been willing to confess and take the consequences, but the other members of the class refused to let him do so.

HANG TWO CHINESE.

Execution in Moyamensing Prison To-day—Baptized in Tub.

Philadelphia, March 10.—Two Chinese, Jung Jow and Mook Kung, will be hanged at Moyamensing prison to-day for the murder of two fellow-countrymen, who were shot during the outbreak in the Chinese quarter on the night of July 4th, 1906.

Since their conviction the two men have embraced Christianity, both becoming Baptists. They were baptized in a bath tub, which was brought into their cells.

The double hanging will be the first official execution of Chinese in Pennsylvania. The executions originally were set for May 10th last, but the men were granted two respites. An effort was made to secure another respite from Governor Stuart yesterday, but it was unsuccessful.

The condemned men were members of the Hip Sing Tong and the money for their defence was furnished by a levy on the membership of that organization.

THE MAN IN OVERALLS

This reported increase of I. O. F. dues makes other society men wonder what is going to happen to them.

Smallpox may not be fashionable, but it is certainly costly to the city.

Judging from the racket it raised over the Kaiser's letter to Lord Tweedmouth, it looks as if the London Times had a yellow streak in its new composition.

Is the Minister of Marine to hold some kind of a dedicatory ceremony over the revetment wall, or is there going to be another link or two added to it?

Now is the time to study up the seed catalogue or begin to build a chicken coop.

Then again the Cemetery Board might raise a little pocket money by charging visitors an admission fee.

If my City Hall acquaintances want their wages raised next year they had better see that there is not another overdraft this year.

Such is life. Here the Twentieth Century Club is holding fashionable functions and wrestling and boxing bouts, while the Con. Club is in a fight to a finish to keep the wolf from the door.

The Con. Club is still able to be around, thank you.

Times advertisements go into the homes of the people who have money to buy.

I wonder how much the celebrated Mulholland family has cost this city altogether. It must have spent thousands of dollars upon the crowd. And perhaps if Mr. Kelso had been put upon the job at the start there would have been an entirely different story to tell.

So Judge Maybee maybe Chairman of the Railway Commission. Maybe he will.

At 2.15 this afternoon Barrow was still on the job.

It may seem strange to say so, but there is no doubt if Sir Wilfrid Laurier goes to the country he will have the country with him.

Why should the Spectator run down the lunch counters and restaurants? These are filling a long-felt want in the city.

If you want to make the civil servants uncivil threaten to tax their incomes.

I wonder if High Commissioner Van Allen is travelling incognito, so as to fool the anarchists?

PRESIDENT GIBSON ON WITNESS STAND.

Swears He Is Favorable to Labor Unions.

Shot His Father.

Lisbon, March 10.—A tragic accident marred the recent carnival celebrations at the village of Salsas, in Braganca Province. A man and his two sons gave representations of the assassination of King Carlos. One of the sons, who was impersonating Buica, the assassin, shot and killed his father, who was made up as Franco, with a revolver which he believed was not loaded. The youth was grief-stricken over the tragedy, and with difficulty was prevented from killing himself.

FOR SAFETY OF THE CHILDREN.

SEPARATE SCHOOL BOARD WILL HAVE IMPROVEMENTS MADE.

Sacred Heart School Will Be Provided With New Fire Escape at Once—St. Thomas' School Furnace.

The Separate School Board will take every precaution to ensure the safety of the children attending the schools under its control in case of fire. Most of the Separate Schools are well equipped with exits, but the matter of making improvements to some of them was under consideration before the Collinwood disaster near Cleveland, and will be discussed again at the next meeting of the board.

The narrow stairway from the top floor of the Sacred Heart School on MacNab street has always been regarded as inadequate in case of fire, and this will be remedied at once by erecting a large fire escape on the Sheaffe street side. A large exit will be put in the wall leading to an iron platform, that will accommodate fifteen or twenty pupils at a time. The stairs to the ground will be wide and protected with a railing. Plans for this work have been prepared, and the board at its next meeting will likely authorize the work being gone on with at once.

It is possible that improvements will also be made to the heating apparatus at St. Thomas' School, in the east end. The furnace in this school is said to be too small for the building, and it is stated that in very cold weather it is necessary to keep an exceptionally hot fire going.

"The Separate Schools," said one of the trustees, "are not so crowded as the Public Schools, and there are no three-story buildings. Fire drill is conducted by the teachers, and as the exits are large, with broad stairways, there would be little danger in case of fire."

Roy McDowell, a conductor, was called, and said he had left the union because he did not consider that Theaker had used his right. It was understood, between him and Theaker, that in case witness did not receive his run back after the strike, Theaker was to look after him. Mr. Miller asked witness what his impression was of the meeting of the union regarding the change of schedule. Mr. Reeves objected to the witness telling what transpired at a secret meeting. The Board upheld his objection, but Judge Monk intimated that there was evidently a great deal of internal dissension.

H., G. & B. STOCK.

Minority Shareholders Will Receive S. P. & T. Preferred.

The four trustees for the minority stockholders of the H., G. & B. R. have approved the latest offer of the Dominion Power and Transmission Company, and it is expected that the various stockholders will accept the offer. The company agrees to give a share of preference stock of its company for each share in the H., G. & B. held by the minority. As 7 per cent. is guaranteed now in the preference stock, and after 1910 it is to bear 7 per cent., the minority receives about 122 for their stock, it is estimated.

HON. J. S. HENDRIE, CHAIRMAN OF THE RAILWAY COMMITTEE.

Makes Complaint Against the Dominion Government Railway Policy.

Toronto, March 10.—(Special).—Hon. J. S. Hendrie was elected once more to act as chairman of the Railway Committee of the Legislature at the first meeting for the session to-day. Col. Hendrie in returning thanks for the honor, said that the attitude of the Dominion Government toward roads which had obtained Provincial charters, had resulted in railways going away from the jurisdiction of the Ontario Government to that of the Dominion Board of Railway Commissioners. This had reduced the volume of railway legislation required from the Province. It was regrettable because the Dominion Government Commission had

no power over Ontario roads in regard to the enforcement of agreements between municipalities and railway companies. The committee considered the bill granting an extension of time for the completion of the south Western Traction Company, which is operating between London and Port Stanley.

The measure was reported, as was that giving an extension to the North Midland railway.

Mr. P. B. Bowyer's bill to prevent municipalities granting exclusive franchises to telephone companies, was reported. The chairman reported that there were a number of independent systems springing up in the west, and these might arise in which there would be difficulty in lining up with municipalities.

"HURRAH FOR UNIVERSAL SUFFRAGE!"

Berlin, March 10.—A minor court in Berlin has just decided that it is a gross misdemeanor to shout on the open streets, "Hurrah for universal suffrage."

The case in question came up for appeal from a police order of arrest on the part of three socialists who took part in street demonstrations on January 1. The offenders asked that Chancellor Von Buelow be called as a witness as to the harmlessness of street demonstrations, since the Chancellor had made speeches to noisy crowds on election night.

The court rejected the motion on the ground that "the great difference is whether fanatical masses on the streets give expression to dissatisfaction with the existing laws or whether a patriotic people bring joyful homage to statesmen."

Further, it was charged that the defendants were singing "The Workmen's Marseillaise."

The prosecuting attorney moved that the week's arrest, as appeared in the police order, be sustained and the court imposed fines ranging from \$5 to \$8.75.

Sweet Norine

She paused a moment, but no answer came from the two who were listening so breathlessly to every word that fell from her lips. Norine went on slowly: "It was quite by chance that I saw him the next afternoon as I was going to the shop to accompany you home, grandfather. I saw him the next afternoon, and the next, and every day since; and oh, grandma and grandpa, dear, those days have changed the whole course of your little Norine's life, and this love that has come to me has glorified my existence, and—"

old man in years compared to you, but Daniel Gordon will take an insult from no man! "And as I muttered the words out flew my strong right arm, and in less time than it takes to tell it, the handsome villain measured his full length at my feet. He picked himself up with alacrity, and wishing about, faced me squarely, and if ever a hundred devils looked out of a man's eyes, they looked out of his. But in that instant he seemed to think better of having a hand-to-hand conflict with me. "I cannot resent the insult just given me, because you are a man so many years older than myself," he said, "and therefore, and therefore, I am compelled to listen to what you have come here to say to me. But I warn you to be brief. Proceed!"

For nearly six years the author of "Le Capitaine Corcoran" has occupied a humble grave in the cemetery of Montmartre. But now his ashes are to be transferred with fitting ceremony to the Pantheon, the national Valhalla, where sleep so many of France's eminent dead.

INSULTING TO IRISH. Ancient Order of Hibernians Object to Caricatures on Postcards. Toronto, March 10.—At the recent county convention of the Ancient Order of Hibernians a resolution was adopted strongly protesting against the sale of certain picture post-cards, whereby the Irishman is depicted as a most vulgar and cruel specimen of humanity. Such pictures were considered to be insulting and libelous in their character. An appeal is, therefore, made by the society to lend their influence and assist in stamping out the practice.

PLUCKY ALFONSO.

IN SPIKE OF OBJECTIONS HE VISITS BARCELONA.

Got Warm Welcome from Inhabitants-- Salute From Warships--The City Decorated--Political Amnesty Will Be Granted if Nothing Happens.

Barcelona, Spain, March 10.--King Alfonso, who left Madrid last night, arrived in this city this morning. He has taken up his residence at the home of General Linarez, Captain-General of Catalonia, where he will stay during his visit here. He was given a warm welcome by the people of the city. There was no disturbance of any kind. The royal train drew into the station at 9 o'clock. It was warmly greeted. Sing- ing his acknowledgments to the plaudits of the people. His Majesty entered the royal carriage in waiting, and escorted by a squadron of cavalry, was driven rapidly to the Church of La Merced, where a Te Deum was celebrated.

Barcelona was gallily decorated in honor of the royal visit. The tiers of balconies along the route traversed by His Majesty were hung with bunting and flags and thronged with women wearing the black mantillas, for which the beauties of Spain are famous.

Political Amnesty. Madrid, March 10.--It is semi-officially intimated here to-day that if no un- derstood incident mars the visit of King Alfonso to Barcelona, the authorities will restore the annual guarantees recently withdrawn from that city, and issue a decree declaring political am- nesty.

Runs a Risk. Orleans, France, March 10.--M. Le- roux, chief of the Barcelona republicans, declared to-day that King Alfonso did not run the slightest risk in visiting Barcelona.

DISCUSS BILLS. Several Measures Before the Muni- cipal Committee.

Toronto, Ont., March 10 (Special).--No opposition met the bill proposed by Mr. Munro (North Oxford) to make trustees of police villages ineligible for election to township councils when it came before the Municipal Committee of the Legislature this morning. It was reported.

Mr. P. H. Bower (Ken.) explained his bill requiring engineers to notify farmers whose land a drain was to cross, of a time and place for the reception of suggestions from the landowner as to the character and size of the drains. The bill was allowed to stand for their consideration.

Mr. McCoig's bill to permit non-resident voters of a municipality to cast their ballots at the polling subdivision near- est their place of abode was defeated. It was pointed out that it would pave the way for a number of changes in other statutes.

ST. MATTHEW'S YOUNG MEN. An interesting meeting of the men's club of St. Matthew's Church, which was organized two weeks ago, was held last night. The attendance was large, and an enjoyable time was spent. Ar- rangements are being made for the expansion of the club, and as the finer weather approaches it is the intention to introduce athletics. A cordial invita- tion is extended to the men of the church to attend the meetings of the club, which are held every Monday even- ing.

BURNED TO COCO. Brockville, Ky., March 10.--Five or more night riders came into town early to-day in buggies and one on horseback, and before they left 15,000 pounds of tobacco belonging to Robert Stanton, one of the wealthiest planters in this section of the state, was burned. The men were heavily armed with shotguns and re- volvers.

You Should Own Your Home

In order that you may, why not make the necessary start by selecting a building lot. You should not lose sight of the fact that choice building lots within easy distance of the central district are advancing rapidly in value, and the choice of selection will be very much more limited the longer you delay. We are confident "Beulah Survey" building lots offer you an opportunity for choice of selection that you should take advantage of. This is a growing residential district. The price of \$12 to \$15 per foot is now within your reach. Terms of payment will be made to suit you. Prices will be advanced \$2 per foot May 1st.

W. D. FLATT H. H. DAVIS, Manager. Phone 685. Room 15, Fed. Life.

Tuesday, March 10--Central market was poorly supplied with farm produce this morning, and butter and eggs were very scarce. Pork was a little dearer, but live hogs were unchanged. TORONTO MARKETS. Live Stock. Receipts of live stock at the Union Stock Yards were 74 car loads, composed of 1579 cattle, 107 hogs, 130 sheep and lambs, 76 calves and over 100 horses.

The quality of fat cattle was not nearly so good as that of one week ago, the percentage of finished cattle was not nearly so good as that of one week ago, the percentage of finished cattle being small, while there were too many of the half fat and lean kind offered.

Trade was slow with prices lower than on Monday last, but about the same as at the city market on Thursday last.

Exporters--Exporters were quoted at \$4.00 to \$5.20 per cwt. the bulk going at about \$5. But it must be remembered that a lot of light cattle were bought for export; 84 cattle, weighing 1,200 to 1,270 lbs. each, were reported by J. L. Row- lins as being bought for export at prices ranging at \$4.00 to \$4.90.

Milkers and Springers--The bulk of the milkers and springers offered were of common to medium quality. Some of the cows offered looked to have good milking qualities, but they had little or no flesh on them, not having been fed properly. Prices ranged all the way from \$27 to \$60 each, the bulk of the best selling around \$40 to \$45 each.

Veal Calves--Veal calves sold at \$4 to \$6.50 per cwt. the bulk of them being of very poor quality.

Sheep and Lambs--Sheep sold at \$4.75 to \$5 per cwt.; lambs at \$6 to \$7.50 per cwt.

Hogs--Guns, limited, report selects at \$5.10 fed and watered, at the market, and \$4.80 to \$4.85, f.o.b., cars at country points, to drovers.

Farmers' Market. The offerings of grain on the street to-day was small. There was no wheat and prices in consequence are nominal. Barley quiet, 100 bushels selling at 70c. Oats unchanged, with sales of 500 bush- els at 56c per bushel.

Hay was in fair receipt to-day, and prices ruled steady. About 30 loads sold at \$20 to \$21 a ton. Straw, steer, two loads selling at \$15 to \$16 a ton.

Dressed hogs in limited offer, with prices steady. Light sold at \$7.25, and heavy at \$6.75. Wheat, white, bush., 0.96 to 0.98. Oats, red, bush., 0.52 to 0.53. Rye, bush., 0.75 to 0.80. Buckwheat, bush., 0.62 to 0.65.

Stocks and Bonds

Noon Stock Letter--New York, March 10.--The market during the morning encountered consider- able profit taking, but developed excel- lent buying at the moderate recess- ions from high prices reached. There is a good deal of satisfaction over the favorable outlook for the Hepburn stock- exchange bill, it being claimed that a canvass of the house shows slight change for the passage at this session. It is estimated that the annual report of the United States Steel due within a week or two will show working capital of \$240,000,000, a surplus of \$113,000,000 and cash \$75,000,000. It is pointed out that Read- ing has earned 5.5 per cent. on the com- mon in 7 months of the fiscal year, against 3.38 per cent. in the same pe- riod of 1907, and this when other rail- roads have been recording heavy losses. Atchison will probably earn its dividend this fiscal year, but by a small margin, unless there is a decided change for the better. A director looks for the regular dividend to be declared about April 1st.

While the market has advanced sharply and some stocks are entitled to a good reaction, we feel that purchases on fair concession constitute the logical proce- dure at this time.--Ennis & Stoppini.

Financial Items. Spot copper in London is £1 5s higher to-day. London settlement begins to-morrow. Officially admitted E. H. Harriman controls Georgia Cent., and will turn it over to Illinois Cent.

Boston & Maine asks its employees' consent to a 5 per cent. reduction in wages in order to avoid laying off men. Producers ridicule talk of a copper war. Steel wire firm prices for all kinds of showing of activity in steel trade.

John Pearson, the assistant superin- tendent, said that he had reprimanded Theaker several times for talking to his motorman on the front end of the car. He had never received any instructions to say anything about the union from the company. He had also spoken to Theaker about reading papers and of smoking while on duty.

John Ross was recalled to explain what the letters that were written to Mr. Miller by Smith and Nugent, who were discharged, contained. Witness swore that nothing was said in the let- ters regarding the union, but simply asking that they might have their job back.

George Gould, a trainer of new men, corroborated the evidence of Ross. Harry Smart was recalled and said that he had been with the company for five months, coming here from Detroit. He stated that he had dropped out of the union because he could not see where any benefit was being derived from it. He considered that the offi- cials of the company treated their men a good deal better than in other cities where he had worked.

The Board adjourned for the day at the conclusion of Smart's evidence. Col. Gibson, president of the Dominion Power Transmission Co., was called, and told of the conversation he had with Theaker. Witness said Theaker admitted he had passed a woman without taking the fare, and gave as his reason the fact that there were not many people on the car at the time. Col. Gibson asked if Theaker had been discriminated against by the company. Witness said that had there ever been any discrimina- tion it was without his knowledge and contrary to his advice. Col. Gibson said that the street railway was the trou- blesome part of the Dominion Power & Transmission Co., and as a result he had been kept well informed on the workings of the organization. He was extremely sorry that the trouble about Theaker had arisen as he had always thought Theaker was a faithful officer. Col. Gibson considered that the company had the right to discharge any man in its employ. He did not think this case was one that came under the conciliation act. Every man that is discriminated against by a man just as much right to have a hearing as Mr. Theaker. He could not but think that Mr. Reeves is the source of all this trouble. He thought that Mr. Reeves had taken a great responsibility in coming back to the city. He had been informed by Mr. C. K.

The recent local option campaigns, the threatened reduction of liquor licenses in Toronto, the interview of the temperance people with the Hon. Mr. Whitney...

increases as the number of drinking places increase. It will be seen that in 1906 the commitments rose to 394. That increase, no doubt, is attributable to the good times, and the number of aliens in the city.

UNPATRIOTIC EFFORTS.

Finding their effort to create difficulty between Canada—and perhaps Great Britain—and Japan, the McBride-Bowser Tories of British Columbia are trying a flank movement. Its significance was made clear at a meeting of the Asiatic Exclusion League in Vancouver...

The Ontario Government, in its eager hunt for money—expenditure increasing at about \$10,000,000 a year—now proposes to increase the taxes on electric railways by about 50 per cent.

Canadian politicians capable of planning to set mischief afoot in connection with such matters by deliberately arousing the spirit of mob violence are guilty of conduct which is reprehensible in the extreme...

The aldermen's determination not to act hastily in the matter of closing the negotiations regarding the Street Railway is a very wise one. There is not the slightest need for undue haste.

Such an appeal based on high patriotic and moral grounds, and addressed to men who are guided by fine principles, may have no effect on the McBrides, Bowers and their followers...

EDITORIAL NOTES.

The London Times' Kaiser letter sensation was a false alarm. Nothing in it on this date in 1863 King Edward and Princess Alexandra were married.

Evidently the Spectator knows very little about the doctrines of the Presbyterian Church.

As to hydro-electric power, it looks as if the municipalities were waiting on the Government to make the next move.

Is Borden to have his experience with a "nest of traitors"? Rumor has it that Foster is again on strike, and that the recent 57 hours' obstruction was but an indication of the rebellion which seethes in the party...

An Ohio man told the fruit growers at St. Catharines that the San Jose scale, which is abundant in his State, was "a blessing in disguise" because it "drove his slothful competitors out of business."

Manitoba's new License Act amendments provide that five convictions for drunkenness in a year render the culprit liable to a year's imprisonment.

A special report on Winnipeg's finances shows that the city has total liabilities of \$14,510,975, and total current

resources of \$1,417,310. Of the liabilities, \$5,125,312 is immediately due, and it is proposed to sell \$7,701,029 of debentures, nearly \$6,000,000 of which has already been authorized.

It is announced that Mayor Stewart thinks a way might be found out of the difficulty in which the Fire and Water Committee finds itself by diverting to waterworks construction purposes \$200,000 of the \$500,000 voted for electric pumps.

Hon. Mr. Graham has been able to report a surplus on operating account of the Intercolonial Railway amounting to nearly \$400,000. That is a great improvement over many past years.

The other day the Tory organs gave prominent place to a despatch, purporting to come from Boston, stating that most of the parts of the Ross rifle were made in the United States, being simply put together in Canada.

Mr. Brodeur was not one of the men who were to pass over items where more information was required and recur to them when the returns came down.

And in the early springtime, When the creek is deep and wide, Our father made his will, And bade us to be true to him.

And then he said to us, "My boys, I have a word to say to you. I want you to be true to me, and to the law, and to the rights of every man."

And when he was alone, And he was all alone, He would sit down and weep, And he would weep for me.

We gather from a Toronto paper that that city is applying for legislation to override its contract with the street railway, as construed by the courts, it being feared that "under that interpretation the company might attempt to lay tracks for the very purpose of providing loops with a view to getting more service out of their cars, and thus deferring the necessity of adding to their number, as the population of the city increases."

OUR EXCHANGES

A Four Pounder (Toronto News). "Mr. W. K. McNaught and the larger loaf" should make an effective campaign motto in North Toronto.

Don't dance. Don't get unless you love. Obey your husband, but obey God first. Don't wed the "splendid catch" just because he is a "catch."

The Provincial Auditor. (Toronto Star). When Clancy was M. P. P. he got a great reputation as a quizzier of public accounts. He was the fly in the Mowat Government's pot of honey.

Nailing an Active Lie. (Toronto Globe). It might just be said that the pretence that the recent protracted sessions were due to a refusal to bring down documents is an audacious falsehood.

Ottawa, March 9.—The report of the Royal Commission appointed last September to investigate the cause of the Quebec bridge disaster was presented to Parliament to-day by Hon. Geo. P. Graham.

The commissioners do not consider that the specifications for the work were satisfactory sufficient, the confession, in particular, being higher than any established by past practice.

The loss of life on August 29th, 1907, might have been prevented by the exercise of better judgment on the part of those in responsible charge of the work for the Quebec Bridge and Railway Company.

Negotiations are now under way with the Hydro-Electric Power Commission for the securing of power. The company was led to choose the Niagara River site because of the deep waterway.

THE SPECTRE OF REVOLUTION IN AMERICA.

Chancellor Day, of Syracuse University, in Leslie's Weekly. If you will stop the ravings of the demagogues, if you serve vigorous notices on the men who are defaming our trade by representing our products as the sum of all villainy in fraud and adulteration, if you will call to account the men who are depreciating our goods and stocks in foreign markets by comparing our great centre of brokerage and exchange with a den of thieves, if you will insist that our great railways shall have fair play in their efforts to make new adjustments, and to meet the demand of a fabulously developing country; if the whole people will rise out of suspicion, distrust and ignorance concerning economic conditions and insist that no man shall have their votes or their following who defames his country, sixty days will put an end to these hard times, and they will not return while we maintain our self-respect and insist that the rich and the poor shall live and work together in harmony under the guiding providence of that God who made them all.

There is complete tranquility in the country.

WANT CITY TO GET AN ORDER.

Otherwise Herkimer Street People Will Act.

Council Appoints Expert to Report on Electrolysis.

Will Get After Company If Evidence Is Secured.

Unless the City Council, notwithstanding the negotiations in progress now, makes application at once to the Ontario Railway and Municipal Board for an order compelling the Street Railway Company to improve its tracks at the Hess and Herkimer street crossing...

In a letter they state they have been waiting patiently for the city to take some action regarding the damage at Hess street, but that the noise has become unbearable.

The Council last night kept up the merry city with which it began the year, disposing of the business with commendable dispatch.

That was what Chairman Bailey, of the Finance Committee, objected to and, seconded by Ald. Farmer, he moved that the matter be referred back.

Accept Aitken's Offer. The Council last night kept up the merry city with which it began the year, disposing of the business with commendable dispatch.

Dear Sir: I have been a sufferer from Rheumatism for a long time—pains in my shoulder and joints practically all the time.

I tried various treatments without benefit and then I was recommended by a friend to try "Fruit-a-tives." I took several boxes of the tablets and now, for a long time, I have been entirely free from all rheumatism and rheumatic pains.

I wish to state, also, that I suffered from haemorrhoids, or piles, for years, I used all kinds of ointments and treatment and nothing did me any good, but after taking "Fruit-a-tives" for my rheumatism I am entirely cured of these dreadful piles. (Sgd) C. D. Graham.

"Fruit-a-tives"—or "Fruit Liver Tablets" are sold by dealers at 50c a box—6 for \$2.50—or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

WAR WITH VENEZUELA.

WILL UNITED STATES PUT UP WITH VENEZUELA'S ACTIONS?

Nothing But Discourtesy and Contempt From President Castro—Congress Will Have to Decide What is to be Done—Should the States Sincerely Submit or Use Force?

New York, March 10.—A Washington special to the Tribune says

That Venezuela has treated this country with grave discourtesy, not to say contempt, will be evident when the correspondence between that country and the United States is made public, as it will be when the Department of State forwards to the Senate the papers called for by the Lodge resolution.

In fact, it is probable that the Senators did not realize the extent to which they would be embarrassed by the publication of the facts when they passed the Lodge resolution. The Department of State has made every possible effort to obtain courtesy, to say nothing of justice, from the Castro regime, and the Secretary of State now admits that he has done all he can, and that the further disposition of the case rests with Congress.

According to the view taken at the State Department this country must deliver an ultimatum and follow it promptly, and not suppose to submit to treatment from Venezuela which would be the occasion of immediate reprisals were it offered to a European nation.

And yet there is a grave question if it would be wise or profitable for the United States to undertake to administer chastisement. It is a serious question if popular approval would greet the application of force. It is equally questionable if the United States could gracefully undertake the unpleasant task in view of the work this country, and especially this Administration, has been doing to promote international peace.

And yet, ask officials, is it the wish of the people or the judgment of Congress that the Government should submit to contumacy at the hands of a South American dictator? This is precisely the question that the Administration expects Congress to answer—the problem which it will soon be up to Congress to solve—and it was to that end that the Secretary of State suggested to Senator Lodge the advisability of introducing his resolution.

KILLED BY AUTO.

Buffalo, March 10.—Fred Longtin, an automobile repairer, living at No. 21 Edna Place, is being held on an open charge at the Pearl street police station, pending the result of the inquest into the death of Peter S. Williams, 65 years old, of No. 500 Elmwood avenue, who was run down at 1 o'clock yesterday afternoon at Main and Carlton streets by an automobile driven by the prisoner.

By his own admission Longtin was making at least twenty miles an hour in his machine. After the aged victim had been tossed aside by the big touring car Longtin increased the speed and escaped. He was traced by half a dozen police officers and arrested an hour after the collision.

Thirty-One Patients at San. During February.

The Ladies' Auxiliary Board of the Hamilton Health Association held its monthly meeting on March 9 to hear reports on the work done during the past month. In February there were 34 patients under the care of the city nurse, and 31 in residence on the mountain, 28 being from Hamilton, 2 from Dundas and 1 from outside the county.

And yet there is a grave question if it would be wise or profitable for the United States to undertake to administer chastisement. It is a serious question if popular approval would greet the application of force. It is equally questionable if the United States could gracefully undertake the unpleasant task in view of the work this country, and especially this Administration, has been doing to promote international peace.

And yet, ask officials, is it the wish of the people or the judgment of Congress that the Government should submit to contumacy at the hands of a South American dictator? This is precisely the question that the Administration expects Congress to answer—the problem which it will soon be up to Congress to solve—and it was to that end that the Secretary of State suggested to Senator Lodge the advisability of introducing his resolution.

MUSIC AND THE DRAMA

That distinguished little comedienne, Miss Hope Booth, made a pronounced hit at the opening performances at the Savoy Theatre yesterday. She appeared in the title role of one of George Cohan's latest playlets, "The Little Blonde Lady," and she filled it most acceptably.

As acrobats the Rianos are marvelously clever. They do a series of acrobatic and contortion stunts that are beyond description. Two of the four, made up as apes, are about the stage, climbing over the chairs and tables, swinging from the chandeliers and keeping everything in a most pleasing manner.

A very clever sketch, entitled "Love's Young Dream," was presented by Emil Hoch and Company. It was built on every day lines with a view of showing the weakness of aged fathers, and was presented in a most pleasing manner.

Another strong act in the bill is provided by Julian Caicedo, who is billed as the king of the wire. Caicedo gave the most daring performance seen on the tight wire at the theatre this season.

George H. Evers, programmed as the original "Pork Chop," sang some good songs and parodies, and told stories like a real burnt cork artist.

The rest of the bill was made up of fairly good acts, as follows: Kreisel's dogs and cats, the former introducing a novelty in the shape of a bag punching act; Dill and Ward, singing and dancing artists; Hallen and Hayes, eccentric dancing and talking comedians; Albertus and Altus, comedy jugglers, and new motion pictures.

In connection with Miss Hope Booth's engagement, the management has arranged for a blondes' matinee on Thursday. All native blondes, not over five feet three inches in height, will be welcomed at this performance as guests of Hope Booth.

LONDON TIMES YELLOW JOURNAL.

TIMES REBUKED OVER THE KAISER'S TWEEDMOUTH LETTER.

Lord Rosebery Thinks the Nation is Making Itself Ridiculous—Mr. Balfour Endorses Policy of the Cabinet—Sensational London Papers Lecture Times for its Sensationalism.

London, March 9.—The Government has decided to keep private the personal letter written by Emperor William to Lord Tweedmouth, First Lord of the Admiralty, in which it was charged by the London Times that His Majesty had attempted to influence legislation in the matter of the naval estimates of Great Britain.

The remark made by Lord Rosebery that the nation was making itself ridiculous over this affair finds much support. The discussion to-day was brief and dry. All the participants proceeded as if they were walking on eggs, for criticism of the ruler of another nation is a delicate business.

In the House of Lords, Lord Lansdowne twitted Lord Tweedmouth with not being able to keep his own secrets. He said that about as much privacy appeared to have been attached to this correspondence as usually was attached to the private view at the Royal Academy of each season, but he said he had no idea of pressing the First Lord of the Admiralty to depart from his decision not to make the letter public.

An amusing feature of the affair is that all the sensational newspapers of London are lecturing the Times for its sensationalism in exploiting the story. Times Seeking Notoriety.

Berlin, March 9.—The relations between Germany and Great Britain are absolutely undisturbed in consequence of the Tweedmouth affair. This was the assurance given the Associated Press at the German Foreign Office this afternoon, and the statement is borne out by despatches from Count Metternich, German Ambassador to Great Britain, to Chancellor von Buolow, and by other messages from Sir Frederick Lascelles, the British Ambassador in Berlin, to the Foreign Office at London.
