

NEWCASTLE TOWN COUNCIL ORGANIZES

Charles Sargeant Head of Police Committee—No Reduction of Poll Tax This Year

The newly-elected Town Council, after being duly sworn in held their first session on the 20th instant. Present, Dr. F. L. Pedolin, Mayor; and Aldermen T. W. Butler, John Clark, Charles M. Dickson, John G. Kethro, Samuel A. Russell, Charles Sargeant, George Stables and H. H. Stuart.

After declaration of Election proceedings and results by the Town Clerk, A. Butler, Clark and Kethro were named by the Mayor Committee and to recommend standing committees for ensuing year. Their report, which was adopted without change, was as follows:—

Finance—Ald. Clark, Stuart and Russell.

Public Works—Ald. Kethro, Sargeant and Stables.

Water and Light—Ald. Butler, Clark and Dickson.

Police and Appointment to Office—Ald. Sargeant, Butler and Kethro.

By Laws and Petitions—Ald. Stuart, Russell and Dickson.

Park and Fire—Ald. Stables, Dickson and Russell.

Ferries—Ald. Russell, Stuart and Kethro.

The first named in each above committee is chairman.

Ald. Butler reported that the two Bills he and Ex-Ald. Morrison had promoted for the Town had been passed by the Legislature. [These authorize the issuing of Bonds to cover floating debt and the taking of a plebi-cite on the question of granting \$500 subsidy to the Newcastle Steamboat Co.]

In answer to Ald. Stuart, who wanted to know if reduction of the Poll tax to \$5.00 a year had been passed, Ald. Butler said that the old Council had taken no steps to get the resolutions in favor of reducing poll tax to \$5.00, exempting incomes up to \$200 a year, etc. before the Legislature, and so nothing had been done. The Council having mutilated his resolution in favor of exemption of income of heads of families up to \$300, and killed his motion in favor of abolition of property qualification for office of alderman, he had taken no special interest in what was left of the proposed reforms, and no one else had bothered themselves.

Ald. Clark asked the members of the Finance Committee to meet soon to have the new Bonds issued as soon as possible.

Council adjourned till Thursday, April 27th, to give Committees time to get to work.

MIRAMICHI MEN IN THE WE

Two Brothers of Whitneyville Have Had Great Success in Superior, Wisconsin, Where One is Now President of Large Bank.

A recent issue of the Superior (Wisconsin) Telegram, in describing the United States National Bank of that place, of which institution Mr. W. A. Whitney, President of Whitney Bros., Dredge and Dock Contractors, and a former resident of Whitneyville, in this county, is a leading Director says, in part:—

"An institution that will have much to do with the upbuilding of Superior and that is already accomplishing great good along this line, and that is making itself felt in the financial circles of the northwest is the United States National bank—a Superior institution in every sense of the word.

"Although comparatively in its infancy the Superior United States National gives every sign of a remarkable growth. Three years ago when the present cashier, A. J. Wentzel, became connected with the bank, coming to it from the city comptroller's office, it had deposits of about \$100,000. In the short period of three years it has increased its business until at the present time it has deposits of approximately half a million.

But the factor in the condition of affairs at the United States National bank that means the most to Superior and in fact the whole of northern Wisconsin was the re-organization at

which the ownership passed into the hands of Superior business men.

"In giving a short sketch of this Superior bank it would not be complete without a word for the officers and directors that have taken charge to bring out forcibly what are presentative Superior concerns it is.

"W. A. Whitney was elected president at the induction of the new regime. Mr. Whitney has been a resident of Superior for over 20 years and has at all times been in the van of every effort to add to the prosperity and upbuilding of Superior. He has brought into many efforts that indomitable energy that has, with the aid of his brother, E. H. Whitney, made the firm of Whitney Bros., noted throughout this section of the country. The successes that have been gained through this effort have won for Mr. Whitney a place of high esteem in local business circles and disseminates the feeling that the United States National bank cannot do otherwise than forge rapidly forward under his guidance.

"Mr. Whitney will have the aid of some of the most astute financiers in this section in his effort to build a great bank—men whose past records have demonstrated their efficiency to this particular line of endeavor."

RECIPROCITY AGAIN PASSES U. S. HOUSE

Time the Vote Was 265 to 89 and Further Reductions Are Favored

Washington, April 21—President Taft's Canadian reciprocity agreement, supported by all but a handful of Democrats, and opposed by a majority of the Republicans, passed the house of representatives early this evening by a vote of 265 to 89.

With nearly 200 Democrats in control, and their action endorsed by a large body of the R-publicans, the bill to put the agreement in force was adopted with no amendments, and in almost identically the form as it passed the house in

the last session of the preceding congress.

The bill seeks to put into effect the formal agreement reached between President Taft and members of the Canadian cabinet for a reduction of tariff rates on many articles, and free trade in many others, across the Canadian border. Added to it by the Democratic leaders is a section which "authorizes and requests" President Taft to make further efforts to secure still freer trade relations with Canada, in the form of additional reciprocity relations.

BASE-BALL

A North Shore League is Proposed—Newcastle Has Good Material for a Fast Team.

The Gazette is advocating a North Shore League, now that they have been shut out of the New Brunswick League, and in a recent issue says:—

"The outlook for a semi-professional or out and out professional baseball league is rather bright at the present time, judging from a conversation the writer had with D. B. Donald of St. John, recently. Mr. Donald was manager of last year's St. Johns.

"Negotiations are going forward to form a league which would take in St. J. H., Fredericton, Woodstock, and St. Stephen. The promoters considered Chatham was too far off the circuit to include this town in the league, but perhaps they would rather not stack up against the team that took St. Peter's measure last year.

"This looks as though a North Shore league would be the best outlet for Chatham's baseball activity. A good three or four town league will probably take well and the winners could play a series of games with the champions in the southern league."

Well we know that Chatham did put it all over St. Peter's, but oh you 16-4 game with Newcastle on July 12th.

A North Shore League would sure make a hit, and Newcastle should be able to make them hustle for the pennant.

We still have Harry Graham, Percy Lindon for slab artists, also "Kelly" Murphy who stands behind the bat, Billy Durick, Al Mahoney, Havelock Ingram for infield and your choice between "Al" Troy, "Les" Miller, Charlie Keating and Bryan Hennessy for the outfield, besides lots of other promising youngsters who are all willing to repeat the 12th of July trick.

It is rumored that the ladies are willing to start the ball rolling by a concert.

Now it's up to you to help the boys get started. So citizens do

NEWCASTLE BATTERY MATTERS

Signal Sargeant Sheasgreen of 12th Field Battery will represent this district in the Artillery Contest to assist at the Coronation in June. The New Brunswick section will be commanded by Capt. Wm. McKee of Moncton. Bombardier George Miller of Newcastle will represent the battery in the great artillery competition at Shoeburyness, near London, in July. Mr. Sheasgreen sails from Quebec on June 4th. Quarter Master John W. Russell has won the Colonial Auxiliary Forces' long service medal which has previously been awarded to Ex-Sergt. Major Wm. Pouchie and Ex-Gunner John Kingston.

The different Artillery Corps of the province are protesting against the orders to go into camp on June 13th, they wish to have the date fixed at June 27th, when horses are more easily obtained. The infantry have been ordered to camp on the 27th and the artillery forces would like to have the dates reversed.

The name of G. Percy Burchill, of Nelson, is mentioned in connection with the lieutenantship of the Newcastle 12th Field Battery; this vacancy being caused by the sad death of Lieut. Charles Auslow.

BILLS PASSED AT FREDERICTON

The legislative session lasted for six weeks and one day, and during its course one hundred and thirty-nine bills were entered, nine of which were withdrawn, and one hundred and thirty passed. In many ways it has been one of the most important sessions of the Legislature in some years, the legislation passed including some important measures, including the bill to prohibit the exportation of pulpwood cut on crown lands of the province for manufacture outside the Dominion of Canada.

your share when the hat comes round. Help boom the national game in Newcastle and the boys will make you feel proud of them.

Here's luck to the North Shore League!

SEVEN YEARS' DISQUALIFICATION

To be the Penalty for Corrupt Practices in Provincial Elections.

In the House of Assembly this month the Bill respecting inquiries as to corrupt practices at elections was passed. By its provisions any twenty five electors, irrespective of party, after an election may, if they believe there has been corruption practiced on one or both sides, file a petition with the Chief Justice and he appoints two judges to try the case. These judges have full powers to summon witnesses and do anything else necessary for a complete investigation. After trial these judges can submit their report to the registrar of the Supreme Court in which they state who the guilty parties are. This report is sent to the clerk of the County Court where the corrupt practices occurred and he then takes action against the parties named. A deposit must be made by those filing the petition in order to insure bona fides. The penalty provided is the disqualification from voting for seven years.

THE NEWCASTLE ASSESSMENT

"Ratepayer" Pays His Respects to the Assessors and Discusses Civic Taxation.

[For the opinions of correspondents, THE UNION ADVOCATE does not hold itself responsible.]

To the Editor of the "Advocate."

Dear Sir:—

The Town Assessors, Preliminary List, now on exhibit at the Post Office, is a most astonishing production. As compiled, it is a matter of conjecture, as to whether personal animosity, incompetency, or return for favors bestowed, is the greatest factor in the digest. Take the assessors for example—one of them is set down at \$2250.00 with no income. He owns two new houses well worth \$3000.00—twelve to fourteen acres of land, within the town, worth \$1800.00, is reputed to have several dollars in cash—lives without work, and last year received as per the Federal local and town "blue books" over \$400.00, to which must be added rents and interest.

Another one—valuation \$7200.00, owns two fine residences, easily worth \$8000.00, one of them is rented at \$400.00 per annum. He owns a fifteen thousand dollar stock of goods, has large mining investments, and an income of fully \$3500.00 per year.

Still another, retired from business, and said to be worth \$50,000.00 all skillfully invested and yielding a large income, answers "here Sir" to \$4250 valuation. A clear loss of \$40,000.00 in valuation amongst the assessors alone.

Then again take the valuation of James Robinson and the Lounsbury Co. As the lists show they are down for the full value of their holdings. Why this discrimination?

In the case of the workingman with his little house and days work, actually taking 17 cents out of every dollar he earns to pay his taxes—no margin for him. He works five months in a mill gets in 100 days and earns \$175.00. He is taxed on \$150.00 while automobiles costing \$3000.00 are down at less than \$500.00.

A one third valuation is set down to the most favoured properties, while others are at 90 per cent of their utmost value. Its time for a change. A meeting should be called and an effort made to have a more equitable distribution of the valuation for taxation purposes.

RATEPAYER.

NERVOUS DISEASES IN THE SPRING

Can be Removed by Toning Up the Blood, Thus Strengthening the Nerves.

Nervous diseases are more common and more serious in the spring than at any other time of the year. This is the opinion of the best medical authorities after long observation. Vital changes in the system after long winter months may cause much more than "spring weakness," and the familiar weariness and aching. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and various forms of nerve disturbances are at their worst, especially among those who have not reached middle age.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening while purgatives make you weaker. Dr. Williams' Pink Pills have a special action on the blood and nerves, for they give strength and have cured not only many forms of nervous disorders, but also other spring troubles, such as headaches, weakness in the limbs, loss of appetite, trembling of the hands; as well as unsightly pimples and skin troubles. They do this because they actually make new, rich, red blood, which means a return to perfect health.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE "WALKING" CURE

Doctors are of one mind in advocating walking as one of the best means of keeping the human machine in good working order, and one of New York's foremost medical authorities went as far as to say, in a lecture to young men studying for the profession, that if every adult could be persuaded to make a conscientious habit of walking five miles every day, there would be such a prompt and general improvement in health that doctors would soon have to be looking for other ways of making a living.—From Physical Culture for May.

NEW MINING COMPANY

Messrs. Samuel Freeze, Doaktown; Isabella Freeze, his wife; Matthew G. Lodge, Matthew Lodge, Jr., and Arthur E. Williams, of Moncton, are seeking incorporation as The Acadia Tungsten Mines, Ltd., with capital of \$50,000, and head office at Moncton, to engage in the development of tungsten areas near Doaktown, discovered by Mr. Freeze.

OATMEAL PORRIDGE

First bring water to a boil and then gradually stir in oatmeal, after boiling a couple of minutes it is best to continue cooking a double boiler for a half hour or longer.—From Physical Culture for May.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its ingredients on its outside wrapper. There's no secrecy. It will bear examination. No habit-forming drugs are found in it. Some unscrupulous dealers may offer you a substitute. Don't take it. Don't trade with them. Write to World's Dispensary Medical Association, Dr. R. W. Pierce, 230 Madison, N. Y.—take the advice received and be well.

BAY CHALEUR MAN DROWNED AT QUEBEC

Robert Degrace Fell Into Water While Boarding the Steamer Canada.

Quebec, April 16—The first drowning accident of the season in this port occurred on last Saturday evening, when Robert Degrace, a native of Carleton, Baie Des Chaleurs, found a watery grave in the Louise Basin.

The unfortunate young man, who was only 23 years old, was an oiler on board the government steamer Princeps, moored in the inner basin, and about 7 o'clock on Saturday evening left his steamer to visit a friend on the steamer Canada, anchored outside the crosswall. He was going down the ladder which served as a gangway between the wharf and the Canada, when he fell over on the ice and dropped into the river.

Several planks were thrown out to the drowning man, who made an effort to seize them, but he was apparently injured in his fall, and could not catch any of them. His body was recovered about 9 o'clock this morning, near the Canada, his face being cut in two places.

MITES AND CEREMONIES

Many Chief Actors in Edward's Coronation Have Passed Away

As far as the mites and ceremonies of the coronation are concerned, the coronation of 1902 will be strictly followed. In that particular respect the duties of the Earl Marshal and the Lord Chamberlain have proved much lighter than they were eight years ago. The greatest changes that will be noted in the pageant that attends the coronation of King George and Queen Mary will be in the dramatic personae. Of the chief actors in the last great historic event of the crowning of a British King and then Prime and the then Archbishop of York are no more. Lord Salisbury and the Duke of Devonshire have been gathered to their fathers, and among others who figured largely in the brilliant spectacle of eight years ago, and who have gone over to the majority, are the late Lord Derby and the late Earl Spencer—two of the four Knights of the Garter who held the canopy for the King's anointing. Many others who played a prominent part in the public life of a decade ago will next June be found absent, and the exigencies of political life will have forced many others into the background.

QUALITY

in the flour means quality in the bread and the pastry you bake. Without quality behind your efforts, no knowledge or skill can bring good results. Better be without the skill than without the quality.

"BEAVER" FLOUR

is the highest development of blended wheats, embracing the rich health-giving properties of Manitoba Spring wheat and the carbohydrates of Ontario Fall wheat, which make delicate, white, light bread and pastry.

Remember, it is for bread and pastry, both. With BEAVER FLOUR in the house, you only need one kind to attain the best results in every form of baking.

BEAVER FLOUR means economy as well as efficiency. Ask your grocer for it to-day.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

An influential petition is being signed for presentation to Hon. G. P. Graham with relation to the importance of having the main line of the I. C. R. run through, Dalhousie. The main points in the memorial are that the cost of the right of way would be nominal, it would release the I. C. R. from the expense of the upkeep of the Branch line and add to the Commerce of the town thereby increasing the traffic and revenue the value of the port as a coal terminus for the distribution over the section of the road, and the advantages to the town in developing its facilities as a deep water port.

Burglars entered the house of Edwin Russell on Ouellette avenue Windsor, Ont., the family was absent last night and secured jewellery valued at \$350, together with \$50 in cash. When they returned, after midnight the occupants found the house brilliantly lighted up, but no trace of the purglars.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

Work was begun Monday on the plant of the Canadian Automatic Transportation Company, Welland, which will be built in the south part of the town.

HOW MEN ENDURE

The Out-Fed Man Can Outwork All the Rest

A concern which employs 2,000 woodcutters made scientific tests of food. The result has been to prove oatmeal the great endurance food. Those workers now all start the day on a diet of oats alone.

No other grain supplies the energy of oats. You know the effect on horses. It is just the same on man. Any man can increase his endurance, his vim and vitality by eating more oats.

That is why oatmeal is so immensely important. In this food above all foods one should insist on the utmost. It is not a wise thing to serve common oatmeal.

The rich, plump grains used in Quaker Oats are selected by 52 siftings. Only ten pounds can be obtained from a bushel. But those choice grains have richness and flavor, and the maximum value as food.

Quaker Oats is the cream of the oats made delicious. Yet, despite its quality, the cost to you is but one-half cent per dish. Made in Canada. (12)

KING GEORGE V.

CORONATION TRICKS

Abundant Frauds that are Being Practiced on the People.

Already many persons have hit upon a variety of tricks and devices for turning the Coronation to account for the personal profit.

One of the most impudent of these tricks is a device adopted by some shopkeepers of selling brooches, satins, lace, and embroideries as remnants of the materials from which the Coronation robes are being made. By making this absurd claim for their goods, shopkeepers, especially in country districts, have been able to trick a number of unwary people into paying for ordinary stuffs and materials considerably above the normal prices. As a matter of fact, not an inch of the stuff from which the King's or Queen's Coronation robes are made will ever be put on the market, for only sufficient will be manufactured to make the robes.

One enterprising manufacturer has put a specially cheap silk on the market which he calls "Coronation silk." and in several towns in the North the material has achieved quite a boom and is selling in enormous quantities; of course, the silk has no more real connection with the Coronation than last year's snow, nor, indeed, does the manufacturer or retailer of the ticks actually say that it has, but the fact remains that numbers of people are buying it as a result of a clever title!

Several downright swindles are being carried on by the more daringly dishonest "Coronation" exploiters. For example, a smartly dressed, handsome, well-mannered young man has been collecting funds in North London on behalf of public institutions, stating that the money was to purchase the tickets which the institutions in question intended to present to their Majesties on the occasion of the Coronation. The young lady has disappeared recently, and the institutions she pretended to represent have now for the first time heard of her and the Coronation gift from the people who subscribed to it.

There are also bogus Coronation seat syndicates and their agents a seat syndicate, the last Coronation, numbers of simple-minded people were induced to pay for seats by persons who called at their houses and ticketed. The holders of these tickets, it is scarcely necessary to say, did not find any seats awaiting them.

Sometimes the man who calls with tickets may be very smartly dressed and represent himself as an agent of a large syndicate which has bought up so many seats that they are in a position to offer them at very low prices. But, however, the device is worked, the results, so far as the purchaser of the faked tickets for seats is concerned, is the same—he is simply swindled out of his money.

The Coronation year is, of course, being actively exploited by vendors of cheap goods. All sorts of cheap china and metal ornaments are being put on the market in huge quantities, bearing pictures of their Majesties and this year's date. These goods are sometimes being sold at quite a hundred per cent. above the price normally obtained for them, though the crude figures of the King and Queen which they bear do not increase the cost of their production one fraction of a penny.

It may be noted that a number of people buy these cheap Coronation souvenirs under the foolish impression that they will become much more valuable later. They are produced in such numbers that it is inconceivable that they will ever be valuable to collectors.

Roses for the Coronation.

One firm in Hertfordshire planted 50,000 Coronation rose trees, all timed to bloom in June. They are being grown in all sorts of colors. One of these is a variety of the "Kens." consisting of about 10,000.

ELECTION IN CAMPBELLTON

John White and J. R. McKenzie Were Successful—New Council Expected to Improve Matters

What promised to be quite a stirring contest in the upper ward was spoiled by the heavy defaulters' list. Out of a total of 306 voters 139 were not qualified, all their taxes not being paid, hence it was a very slow and miserable business, the polling station lacking the spirit and fire which usually accompanies a council contest. Ninety-four of the electors voted the result being:

J. R. MacKenzie 63
John White 60
Alex. Elsiger 31

Messrs. MacKenzie and White were declared duly elected and will represent Ward III.

The new council is composed of the following gentlemen: Mayor A. McG. McDonald; Councilors, Ward I—H. L. Lam, M. D. and L. G. Pinault, M. D.; Ward II—Max M. Gowan and S. M. Mous; Ward III—J. R. MacKenzie and John White; At large—W. H. Miller and Chas. A. Alexander; John T. Reid, Town Clerk.

The council have a hard time in front of them and the requirements of the town are many and varied. We cannot get everything done at once but a little at a time always makes some showing. The new council are expected to DO SOMETHING FOR THE STREETS in the first place, organize the Fire Department, see that the Building By-laws are enforced, get all the routine work done in Committee and have the Council meetings once a month. All these things will be for the benefit of the town and the citizens are expecting them.

MT. ALLISON NOTES

The annual Banquet of the Mt. Allison Amateur Athletic Association was held in the residence, March 25th. Mr. F. Ferguson presided as toast master.

In their concert held March 31st, the Mt. Allison Conservatory Orchestra assisted by Miss Lusby and Mr. Spicer excelled themselves. The Orchestra in their fine selections presented to the audience some of the finest music ever heard in Sae'ville. Miss Ayer, the leader, and the members themselves are to be complimented on their excellent entertainment. Miss Lusby in her violin solo "Mazurka" held the audience spell bound throughout her whole selection and was enthusiastically endorsed. Mr. Spicer by his vocal solos added much to the evening's enjoyment.

The Athletic association held their Promenade concert in the residence Friday, March 7th. Although the attendance was not record breaking, everyone enjoyed themselves.

The Mt. A. basket ball team defeated Moncton in the Ladies' College gymnasium by a large score. The Moncton men put up a hard game and made the excitement run high. The inter-class league was begun by the Seniors v. Juniors and Sophomores v. Freshmen games. The Juniors and Freshmen were victorious.

THE GEORGES AND THE MARYS

"Man doth not live by bread alone" sentiment is a big thing in this world. Having said which, we express an opinion that the men or women who are responsible for the memorial fund of the Marys and Georges should be classed among the well meaning and harmless people whose activities are a bother to those they think they are helping and to everybody else. They will get a little prominence by being prime movers in the affair and to the Georges and Marys they hold out the bait of having their names inscribed among a million or so other Georges and Marys on a paper or parchment which will go to the furnace somewhat sooner than the present goes on the shelf. Why can't these foolish ones let King George and Queen Mary reign in peace and why must they annoy every other man, woman and child who, through no fault of their own, bear the name of George or Mary? Our council have courteously acknowledged the letter of the Lieut. Governor on the question and have sensibly left it open to any adult George or Mary to hand their contribution to the town clerk. So far so good, but when the authorities follow the example of Halifax, as set forth in the Governor's letter and ask school teachers to take up a collection from the school children, they deserve censure. They should remember that this is not Halifax where a Lieut. Governor wears a uniform and the people still have the memory of an army and navy society, (very much English, don't cher know) and a codfish aristocracy. Our children's nicks, if give them they must, would be given to better purpose to help their little brothers and sisters, many of whom need and deserve help.—From "Picton Advocate."

THE BOOSTING OF PRICES

(Campbellton Graphic.)

It seems as though we were to be faced with a calamity as dire as that already gone through last July, if the present conditions in building are to remain.

One is almost tempted to think that there is an organized combine among contractors to boost the price of all the tenders for building at this time. Owing to the high figures now being demanded by contractors many who had arranged to build will either leave it over to a more suitable time or arrange to have the work done by day labor.

It never pays to "Kill the goose that lays the golden eggs," and if this policy is to be pursued it means it will hurt the town and the contractor only, and the man about to build will hang up the job or quit.

One case in point, a building 50x30x20 high not including basement was approximately priced last fall at \$3500. Today this same wooden structure is priced to cost \$7000, just double the amount. The people here won't stand for such extortion, and many will follow the lead of the Methodist Church and postpone their rebuilding indefinitely.

We have been very easy-going for a long time now but we have come to the limit and the feeling now prevalent in the town is that if the contractors persist in their inflated tenders then there will be no building done, but what is absolutely necessary. Its a serious problem for us but we have got through worse ones and will manage this all right although we may be inconvenienced in a greater or less degree. The towns-people have the matter in their own hands. If they consider the prices demanded are beyond all reason, get the building done by day work there will be lots of labor here early in the summer and the shortage of contracts will soon bring the builders to their right senses.

A Prince Edward Island deputation has asked that the keeping of liquor in private houses for other than medicinal, mechanical, or sacramental purposes be made an offence, and that officers be given the right to search. The Legislature is not yet inclined to go that length.

CHURCH NOTES

While Rev. Mr. and Mrs. Hardy were making a visit at the home of Mr. and Mrs. Melvin Adams, Broadlands, the people of Kempt Road section of his congregation gave them a surprise party and came prepared to spend a pleasant evening with their pastor last Friday. Mr. and Mrs. Hardy received an address given by Mr. T. R. Busted and who presented the pastor with a purse of \$48. Other sections of the congregation have during the past season been doing similar deeds for their pastor though these have not been recorded. Several weeks ago a number of men decided to get the pastor wood for a year and the Pratt Bros. of Clark's Brook kindly gave them the opportunity to cut the same and loaded it on a car at Dawson's siding where the Pratt Bros. are doing a thriving business. The pastor is grateful to all who helped to buy the wood at the Manse. The pastor and his wife have received many gifts and kindnesses during the past winter.

TAX EXEMPTIONS AND TAX REFORM

A thoughtful and well-reasoned editorial from a recent issue of the St. John Daily Telegraph will show that in advocating a new system of taxation, Alderman H. H. Stuart and the UNION ADVOCATE, Ex-Aldermen W. H. Belyea and C. J. Morrissey and others of this town, and the Town Council of Campbellton are by no means alone in their contention even though the question of tax reform was so promptly and decisively thrown out of the Northumberland County Council in January last.

The Telegraph's Article will bear careful study, and applies as well to Newcastle as to St. John. It reads as follows:

"The need for tax reform has been emphasized recently in the number of interests that have approached the City Council for tax exemption in one form or another. Some contemplating improvements seek exemption and other concerns ask for the removal of the burden of taxation.

"Particular cases of this nature should never arise in the city and they would not arise if our present method of taxation did not discourage improvements. What is needed is not exemption of particular interests and the shifting of these taxes to those who are least able to bear them, but a change in the incidence of taxation. Let the taxation fall on the land values instead of on the buildings and improvements."

"The site value of the land constitutes the earnings of society and should be used by the community for public purposes. It can be so used by taking a part of the ground rental values only, for the municipal treasury. As a first step to this change, authority should be secured to put a higher rate of valuation on the land for purposes of taxation than on buildings and improvements. This would at once produce cheaper land and a complete revival of the building industry. This increase of buildings would mean a larger supply of housing accommodation and lower rents, while the building activity induced would mean more work and higher wages.

"The exemption or the partial exemption of improvements will take a heavy burden from the shoulders of capital and labor. The growth of manufacture will be encouraged, not at the expense of others, as we do at present, but by the removal of the fines imposed upon them, and land, which is now held unimproved and for higher rentals, will find its way into the market or pay the tax. For one particular industry to seek and obtain tax exemption is to impose a wholly unfair burden upon every other industry in the city as well as upon every workman who pays his tax. The fair method is not to grant exemption to one, but a large measure of exemption to all industries that are building up the city, by a change in the incidence of taxation.

"St. John, by reason of the fact that the land is held by a few corporations, and that it is almost impossible for a laboring man to secure a building site in any section of the city, is particularly adapted for the imposition of this tax. At present the land is held in price out of all proportion to the value of buildings and improvements. Untaxed land products and taxed land would secure a treasury always sufficient for public needs, steady employment of labor at good wages, and a boom in building operations.

"That it would produce these results has been abundantly proven in the experience of other communities. They have been the direct and easily traceable results in Vancouver and other cities that have adopted this method. The effect on urban and suburban land has been very marked. It has compelled owners of those to build or to sell to those who would build, and it has thus caused a great impetus in the building trade. An

owner of land occupied by buildings of little value finding that he has to pay the same rates and taxes of an adjoining owner whose land is occupied by a valuable lot of buildings; sees at once that his interests lie in putting his land to the best use. In some cities this has caused such an impetus to the building trade that the building material could not at times keep pace with the demand. Its tendency has not been to increase rent but to bring into use vacant sites that formerly were an eyesore to the community. On vacant sites the rates and taxes are increased and continue to increase as the adjoining sites which have been improved increase in value. It thus becomes unprofitable to continue to hold land unimproved."

CIVIL WAR OVER RECIPROCITY

The great manufacturing firms interested in compelling the people of Canada to buy from them at their prices set by the manufacturers are evidently becoming panic-stricken over the ultimate result of the discussion brought on by the debate on reciprocity with the United States. It seems that their dissatisfaction is not so much with the reciprocity agreement as it stands as with what it may lead to when the people of the towns and villages demand free trade in manufactured goods in order that they may receive the same benefits the present agreement is giving the Canadian farmers. In the city of Montreal—the same town in which in 1849 the English speaking mob stoned the Governor. General and burned the Parliament Buildings—Mr. W. H. Townend, addressing the workmen of the Angus shops on the 7th instant ended his speech (according to the Daily Star's report) with the following incendiary language: "There are thousands of Canadians who are willing to offer their lives in CIVIL WAR rather than see this measure pass, and I am willing to go on record as saying that I am one of them." Brave talk, but, we fancy, if Reciprocity passes even Mr. Townend will hesitate to take up the sword in defence of a few corporations.

THE HAREM SKIRT

I stand in the cold as this story is told, with naught but an old flannel shirt, and my legs are all frost for my trousers I've lost—my wife has a new harem skirt. When abroad she doth roam, I have to stay home, arrayed in her old linen dress, since this fashion from France, she's taken my pants and will wear them forever I guess.

She scratches her matches upon the rear patches, and smokes my Havana cigars, and soon I do think she'll be having a drink at Larry O'Flanagan's bar.

I'm telling no lies, she's exactly my size, and my clothes do fit her superb. Could I turn back my life, I'd marry a wife, who could never my peace so disturb. I'm short and I'm small I'd choose a wife tall, who never could do my new suits, for my trousers so short, would furnish rare sport—they wouldn't reach down to her boots.

So amorous young man, just think of my plan, and choose a sweet Rose, who can't wear your clothes, like my

HAVE WE THE SPIRIT OF FAIRNESS?

Is the Buyer of Mail Order Houses fair to himself and his neighbor?

A gentleman from a Saskatchewan town was recently on a business trip to Toronto, and in company with a Toronto friend, when out to make some small purchases of personal necessities, the Torontonian suggested that while in the city the Westerner should make larger and more elaborate purchases, in fact should supply his needs for some time to come. The Westerner refused emphatically to buy more than sufficient for his immediate needs. He said they had merchants in his home town who had been induced to invest capital by the prospect for local business; that he himself was holding a position there (in an educational institution) that was made possible only by the number of farmers, and that he would be unjust to the interests of his neighbors, his town and himself, unless he confined his purchases, as far as possible, to his own locality.

If that is the Western spirit, it is not difficult to understand the phenomenal growth of the country and the enthusiasm the Westerners feel for their towns. It is refreshing to hear one of them expatiate on the merits of his place of residence. Possibly we have not heard the name before, for they are making towns rapidly out that way just now; but we shall not be likely to forget it in the future, after listening to his rapid fire eloquence and seeing his infectious enthusiasm. You can smile at his volubility, but we can tell you friends that in the intense local patriotism of the Westerners lies the secret of the country's marvellous growth and prosperity.

What a change there would be in Northumberland County if all our citizens were imbued with a similar spirit. How the place would thrive if all the residents of Northumberland County would take as much interest in the welfare of our town as that Westerner does in his. But as a matter of fact what do we find? It is not only that many Northumberland People spend money when away from home for things they might have obtained here before leaving, but they deliberately defer supplying their wants until they go away. Some indeed send their money by mail and receive the goods by express, under the mistaken impression that they can save a few cents by so doing. How our Westerner would scorn such sordid parsimony.

Now, is it not possible for each one of us to emulate that spirit of solidarity—that wholesome loyalty to our own people, to our own town and to ourselves? Can we not see that in going so we will not only help our neighbors but will materially help ourselves? It would enlarge our business and our social life. It also increases our self respect. It is a mistake to think you save anything by acting in a contrary way. As a matter of fact you can supply your needs in Northumberland County just as economically as in any place in Canada, even in the large places. It costs more to do business, where taxes are greater and where the cost of living is higher, with consequent higher prices for labor and help of all kinds.

A GOOD MEDICINE FOR THE BABY

Baby's Own Tablets is the one medicine that can be given little ones with the firm knowledge that nothing but good will result. The Tablets are sold under the guarantee of a government analyst to contain no opiate nor any other drug which will harm the youngest child—they cannot possibly do harm; they always do good, and once a mother has used them she will never again give her little ones castor oil or the "soothing" stuffs which simply drug baby into temporary relief and in the end do harm. Mrs. Phyllis Paradia, Frampton, Que., writes: "Send me two more boxes of Baby's Own Tablets. I have used them for constipation and have always found them very good. My baby is certainly progressing under the Tablets." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A GREAT FEAST FOR CHILDREN

Preparations for the Coronation Entertainment to 100,000 Youngsters

The work of preparing for the Coronation entertainment which the King will give to 100,000 poor children of London at the Crystal Palace on June 30th, is well under way.

Sir William Carrington states that the committee entrusted to carry out the King's wishes, declares absolute impartiality is to be shown so that schoolchildren of every denomination should be properly represented.

Although not officially stated, there is every reason to believe that the King and Queen will be present in the course of the afternoon at the entertainment at the Crystal Palace. Most probably they will be accompanied by Princess Mary and one or two of her brothers.

It is assumed that the chosen 100,000 will be marshalled like an army and converge upon Sydenham by various routes. Probably the local railways for a certain time in the day will concentrate their energies on the transport of this army. Every child will bear his or her own name and white tie. Once within the gates of the Crystal Palace, there should be little difficulty. The staff there is accustomed to invasions of football enthusiasts for the Cup Final numbering from 100,000 to 140,000, and in the summer various organizations bring to Sydenham many thousands of children.

The King's guests will arrive between 11 and 12.30 and stay until between 6 and 7 o'clock. Dinner and tea will be served, if fine, at long tables outside the gates, but if wet the meals will be served in relays within the Palace. For dinner the children will have cold meats, pies, pastries, lemonade, and at tea bread and butter, jam and cakes.

Each of the favored children will be given from the King a specially designed Coronation beaker of Royal Doulton ware. They are to be of the same shape as those made for King Edward, and on the occasions of the Jubilees of Queen Victoria. His Majesty has supplied a special portrait of himself in the uniform of an Admiral of the fleet for reproduction on the beaker.

Apart from a generous programme of amusements and a monster tea, the children will be given probably their first glimpse of the greatness of the British Empire. The King's box is to be erected for Their Majesties.

Subsequently the children are to be taken in batches to a special train for the Empire on the "All-Red Route" Railway. This will enable them to see the Parliament buildings of Newfoundland, Britain's oldest colony, with its papermaking and whaling and other industries, together with the harbor of St. John's, the great wheat, cattle and cattle ranges of Canada, and the Parliament buildings at Ottawa; various Crown colonies, with a Malay village and a sugar plantation in Jamaica.

India will be visited, and Delhi, where the King is to be crowned in person Emperor of India. From India the young voyagers will travel to Australia and New Zealand, and finally to South Africa, where the gold and diamond mines will be shown in operation.

IS THERE A "SERVANT PROBLEM?"

It has recently been found that only about 18 per cent. of the United States employ "servants." There has been a great hue and cry about "solving the servant problem," and thousands of people came to the conclusion that the whole country was going to the dogs, because "enough servants were not to be had. We have been deceived. What about the 82 per cent. of households that have no servants? They have solved the servant problem." The mother, daughters, sisters—possibly the husbands or brothers—do the work, or perhaps all "lend a hand." Why all this rumpus and noise about less than one-fifth of the households? Is this one-fifth the important part? It is doubtless important, but by no means the most important. 82 per cent. of American women do their own work, and are not ashamed to do it—or at least the major part are not. They feel a joy in service. They are too intelligent, too wise, too womanly to think for one moment that the discharge of any duty that makes the home more homelike, more comfortable to the tired husband when the day's work is done more attractive to the children than the street or the questionable place of amusement, lowers their dignity or degrades them. True service comes as near to divinity as anything that imperfect man or woman ever does. Here, then, is the mental attitude which helps solve the servant question.—From Physical Culture.

WEDDING BELLS

BORTON—McAULEY

A very interesting and pretty wedding took place at nine o'clock last evening at the residence of the bride's parents, Mr. and Mrs. J. D. McAuley, at the Union Hotel, when Rev. S. J. MacArthur united in marriage Miss Annie Sophia McAuley, one of Newcastle's handsomest and most popular young ladies, to Mr. William Wilton Borton, late of Moncton, but now a prosperous plumber of Summerland, B. C. The ceremony took place in the parlor of the hotel and in the presence of a large number of guests. The decorations were ornate and white.

The happy couple were attended by Miss Jean Allen of Newcastle as bridesmaid and Mr. Arthur Metcalfe of Moncton, as best man. The bride was given away by her father. The wedding march was played by Miss Alice Morris. The bride looked more charming than ever in a gown of champagne brussels net over natural colored pongee. She wore a white veil with lilies of the valley and carried a large bouquet of white carnations and maidenhair fern. The bridesmaid was dressed in mauve and carried a bouquet of carnations.

A large number of lovely and valuable gifts were received. The groom's gift to the bride was a handsome pearl bracelet; to the bridesmaid a pretty amethyst brooch and to the groomsmen an amethyst stick pin. The bride also received a very substantial gift from her parents.

Immediately after the ceremony a bountiful supper was served in the spacious dining room of the hotel, and Mr. and Mrs. Borton, amid the blessings of many friends, left at midnight on the Maritime Express for their future home in Summerland.

The bride's going-away gown was of blue serge with helmet hat of blue. The UNION ADVOCATE extends congratulations.

WILLISTON—McKENZIE

The marriage of Mrs. Jane McKenzie (nee McCosh) widow of late Robert McKenzie of Pictou, N. S., to Amos Williston, took place at the residence of the bride's sister, Mrs. Robert Vanderbeck, Douglastown, Monday evening at 8.30. Rev. F. C. Simpson tying the nuptial knot in the presence of the immediate friends and relatives of the contracting parties.

The bride, who is a well-known and popular lady, and who returned from Boston about a month ago, was tastefully attired in wisteria broadcloth. She was unattended. After the ceremony a sumptuous supper was served. Many very beautiful gifts attested the good will of the friends of the bride and groom. Mr. and Mrs. Williston will reside in Douglastown. The UNION ADVOCATE tenders its congratulations.

TWO WEDDINGS AT NELSON

At Nelson Monday afternoon, Rev. Father Power united in marriage Miss Mary Dolan of Nelson to Mr. Henry English. Mr. and Mrs. English left that evening for their new home in the Western States.

Yesterday morning by Rev. Father Power, Miss Lena, daughter of Mr. and Mrs. John English of Nelson, was married to James McEachern of Nelson. The young couple will reside in Nelson. The UNION ADVOCATE wishes both couples a happy voyage through life.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department, at the office of E. T. P. Shewen, Esq., District Engineer, St. John, N. B.; Geoffrey Stead, Esq., District Engineer, Chatham, N. B., and on application to the Postmaster at Point Sapin, N. B.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Honourable the Minister of Public Works, amount to ten per cent. (10 p. c.) of the amount of the tender which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, April 10, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

DISTRESSING HEADACHES

Headaches are largely the result of disordered kidneys.

Mrs. Hall, 81 Flora Street, St. Flora St., St. Thomas, Ont., says "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to my house duties. My back was weak and ached, and I was much suffering through the night. I had ointments for ears, but all to no avail. Nothing benefited me and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Booth's Kidney Pills are sold by all druggists, 50c. box, under a guarantee to refund your money if they fail to relieve any disease having its origin in the kidneys or bladder. Postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by T. J. Durick.

HANGED HIMSELF

Jared Betts of Doaktown, hanged himself at that place at 6 o'clock Wednesday morning. He was in good spirits Tuesday and returned at night in good health. He arose about four o'clock next morning and went to the wagon house in the rear of the house. He was discovered a short time after dead. Coroner Wier, who was summoned, found that he had come to death by his own hand. He leaves a widow. The deceased hurt his head badly some years ago, and it is thought the deed was the result. He was forty-eight years of age.

THE CHINESE FAMINE

On realizing that something should be done by the town to help in relieving the terrible famine now raging among our fellow-beings in China a few friends have opened a subscription list for that purpose. The fund is non-denominational. All receipts will be faithfully reported in the local press. The need is very urgent. The time to act is now. One cent per day will save a sufferer from starvation. Contributions will be gladly received by the Rev. W. J. Dean.

EASTER OFFERING

The executive of the Auxiliary of the W. M. S. having found it necessary to postpone from time to time their annual Easter Offering meeting, have decided to hold the same on the evening of May 5th. The mite boxes opening will also take place at the same time. In order to compensate for the delay the members desire to make the occasion one of the happiest functions of the season. If you wish to help make it so, procure an Easter envelope to enclose your offerings and meet at the home of Mrs. E. A. McLean at 8 p.m. Envelopes may be procured from the following members of the auxiliary: Mesdames E. A. McLean, Leard; Follansbee, H. Price, Gough, L. McDonald, J. B. Kethro, J. Allison, Robt. Allison, Rev. W. J. Dean, Geo. Johnson, Petrie. All are heartily invited to attend, the only provision made, is that the offering, whether large or small, be given voluntarily and quietly. Thus the people rejoiced, and the offering was a willing one.

IN the pre-Semi-ready days, some 15 years ago, when a man was in a hurry, he bought a suit at the ready-made store, and he expressed himself about it afterwards. Nowadays, whether in leisure or in haste, he knows that its the suit he wants, and he's just as proud of the suit's parentage as are its makers. Classy, kingly and critical folk who are good judges of just what is correct in clothes, know now that Semi-ready is "better than the best tailor's best," even though it does cost less. The extravagant rich have no monopoly of taste and culture.

THE ACADIAN MEMBERS OF THE LEGISLATURE

An Appreciation of the Men Who Represent this Great Race--Mr. Labillois Fine Record

The Liberal Opposition in the House of Assembly is fortunate in numbering among its members four Acadian gentlemen, Hon. C. H. Labillois of Restigouche, Mr. C. M. Leger of Westmorland, Dr. A. Sormany and Mr. S. R. Leger of Gloucester. No members of the House are more highly respected than these representatives of a great race. They bear their share of the burden of the work of the house, and there are few men more valuable in the committees to which they are respectively attached. They enjoy the esteem of their fellow Liberals and are highly respected as well by the other members of the Assembly. Not only the Acadian people, but the Liberals of both nationalities have reason to be proud of these adherents of liberal policy.

Hon. Mr. Labillois is not only the senior Acadian representative in the Assembly, but he is also the Dean of the House. He was first elected in 1882, and since that time he has rendered splendid service to the province. He has sat in the House under seven premiers, Hon. Messrs. Hannington, Mitchell, Blair, Emmerson, Tweedie, Pugsley and Hazen. He was associated also with Premier Robinson, who never met the Legislature. The Restigouche Acadian was the first Commissioner of Agriculture in New Brunswick. Many policies which he initiated in that position have borne splendid fruit and the agricultural conditions of the province have been notably benefited in consequence. After some time spent as Commissioner of Agriculture Mr. Labillois became Chief Commissioner of Public Works, and New Brunswick has had no better. He held that position until the Robinson government went out of power, and the happenings of the last three years have shown conclusively that New Brunswick would be much better off if Mr. Labillois still occupied his old position.

However, as lieutenant to the Opposition leader, the Dean of the house has done effective service. He is a quiet-going, quiet speaking man, but one nevertheless keen of mind, and capable of presenting his views in a manner that compels attention and respect. The opposition is much the stronger because of Mr. Labillois' presence in the ranks.

Dr. Sormany comes to the Assembly from Shippegan. A native of that place he was educated at Caraquet College and St. Joseph's College, Memramcook. Subsequently, he went to Montreal and studied medicine at Laval University, from which institution he received his degree. He has since then been practicing his profession at Shippegan where he enjoys an excellent practice, coupled with general public esteem. He ran his first election in 1908, when with his colleague Mr. Leger and his English speaking colleague Mr. Byrne, he was elected by a forcible majority. In the Assembly he has been an eminently useful member of the opposition party. He is not a man who inflicts long speeches on the House, but what he does say is strictly

to the point and commands every attention. A session or two ago the medical Commissioner of Agriculture, Hon. Dr. Landry, of Kent undertook to have a fling at Dr. Sormany. He was sorry he spoke for after Dr. Sormany finished replying to the Kent county man, there was a somewhat wiser and very much sadder Commissioner of Agriculture about the House.

A man with the most fireworks is not always the most capable representative of the people. Dr. Sormany is not given to fire works, but he is given to serving the people to the best of his ability, and his ability is by no means meagre. As the other Acadian Liberals have done, he had proven himself a very successful representative of the people, and his re-election when the contest takes place may be confidently predicted.

The Gloucester county Mr. Leger is one of the quiet men of the House. He dislikes making speeches, but whenever he does take the floor, and he rises whenever it is advisable for members of the house to express their opinion on important questions, he speaks in a way that shows that he is capable of judging well in matters which are brought to his attention.

Mr. Leger belongs in Caraquet where he was educated. He is engaged in business in which he has met with a goodly measure of success. For some time he has been a member of the Gloucester County Council in which he still sits and in that body he has given his fellow citizens good service. He ran his first legislative election in 1908, and it is safe to say that he will be re-elected when the government risks an appeal to the people. Incidentally, it may be said, that Mr. Leger is the possessor of a splendid voice. More than once he had delighted the members of the House with his French songs, and in the opposition caucuses there are frequent calls for "A song from Seraphim."

Mr. Cement M. Leger is one of "The solid four", from Westmorland. Since 1903 he has been sitting in the House and judging from the reports which come from Westmorland he will be re-elected just as often as he enters the lists. Mr. Leger is a Westmorland man, educated in Westmorland, and doing business there. At one time when he was before the people for election the Conservatives sought to injure him by belittling references to the extent of the business he carried on. They were no more successful then they are now. Mr. Leger is not "a merchant prince," but he is a respectable citizen of the county in which he lives. In the House he has taken a keen interest in all matters pertaining to the welfare of the province, but he has perhaps done best service in the agricultural committee, where again and again he has insisted upon fuller recognition of the claims of the farmers. It was Mr. Leger who last session vigorously urged on the government that potato warehouses should be established by the province in Kent and Westmorland counties, and perhaps elsewhere as well. Such warehouses, he held, would be of material benefit to the smaller potato growers, and there will be few people who will not agree that the Westmorland man was right. The government, however, has not seen fit to follow his suggestion for reason which can be well conjectured even if they could not be established by proof. At all times Mr. Leger has been active in the interests of the farmers and no doubt in this fact lies one explanation of his strength in the county of Westmorland. In their desire to injure him politically conservative organs have lately been circulating a story insinuating that in the days of the old government Mr. Leger,

ELECTION IN CAMPBELLTON

John White and J. R. McKenzie Were Successful—New Council Expected to Improve Matters

What promised to be quite a stirring contest in the upper ward was spoiled by the heavy defection of the list. Out of a total of 396 voters 190 were not qualified, all their taxes not being paid, hence it was a very slow and miserable business, the polling station lacking the spirit and fire which usually accompanies a council contest. Ninety-four of the electors voted the result being:

J. R. MacKenzie	63
John White	60
Alex. Elsiger	31

Messrs. MacKenzie and White were declared duly elected and will represent Ward III.

The new council is composed of the following gentlemen: Mayor A. McGehee; Councilors, Ward I.—H. L. Lamm, M. D. and L. G. Pinaut, M. D.; Ward II.—Max M. Mowat and S. M. Moore; Ward III.—J. R. MacKenzie and John White; At large—W. H. Miller and Chas. A. Alexander; John T. Reid, Town Clerk.

The council have a hard time in front of them and the requirements of the town are many and varied. We cannot get everything done at once but a little at a time always makes some showing. The new council are expected to DO SOMETHING FOR THE STREETS in the first place, organize the Fire Department, see that the Building By-laws are enforced, get all the routine work done in Committee and have the Council meetings once a month. All these things will be for the benefit of the town and the citizens are expecting them.

THE GEORGES AND THE MARYS

"Man doth not live by bread alone," sentiment is a big thing in this world. Having said which, we express an opinion that the men or women who are responsible for the memorial fund of the Marys and Georges should be classed among the well meaning and harmless people whose activities are a bother to those they think they are helping and to everybody else. They will get a little prominence by being prime movers in the affair and to the Georges and Marys they hold out the bait of having their names inscribed among a million or so other Georges and Marys on a paper or parchment which will go to the furnace somewhat sooner than the present goes on the shelf. Why can't these foolish ones let King George and Queen Mary reign in peace and why must they annoy every other man, woman and child who, through no fault of their own, bear the name of George or Mary? Our council have courteously acknowledged the letter of the Lieut. Governor on the question and have sensibly left it open to any adult George or Mary to hand their contribution to the town clerk. So far so good, but when the authorities follow the example of Halifax, as set forth in the Governor's letter and ask school teachers to take up a collection from the school children, they deserve censure. They should remember that this is not Halifax where a Lieut. Governor wears a uniform and the people still have the memory of an army and navy society, (very much Henglish, don't cher know) and a codfish aristocracy. Our children's nickles, if give them they must, would be given to better purpose to help their little brothers and sisters, many of whom need and deserve help.—From "Picton Advocate."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer ONE HUNDRED DOLLARS for any case that it fails to cure. Send for list of testimonials. Address: F. J. MT. ALLISON NOTES

The annual Banquet of the Mt. Allison Amateur Athletic Association was held in the residence, March 25th. Mr. F. Ferguson presided as toast master.

In their concert held March 31st, the Mt. Allison Conservatory Orchestra assisted by Miss Lusby and Mr. Spicer excelled themselves. The Orchestra in their fine selections presented to the audience some of the finest music ever heard in Sackville. Miss Ayer, the leader, and the members themselves are to be complimented on their excellent entertainment. Miss Lusby in her violin solo "Mazurka" held the audience spell bound throughout her whole selection and was enthusiastically endorsed. Mr. Spicer by his vocal solos added much to the evening's enjoyment.

The Athletic association held their Promenade concert in the residence Friday, March 7th. Although the attendance was not record breaking, everyone enjoyed themselves.

The Mt. A. basket ball team defeated Moncton in the Ladies' College gymnasium by a large score. The Moncton men put up a hard game and made the excitement run high. The inter-class league was begun by the Seniors v. Juniors and Sophmours v. Freshmen games. The Juniors and Freshmen were victorious.

THE BOOSTING OF PRICES

(Campbellton Graphic)

It seems as though we were to be faced with a calamity as dire as that already gone through last July, if the present conditions in building are to remain.

One is almost tempted to think that there is an organized combine among contractors to boost the price of all the tenders for building at this time. Owing to the high figures now being demanded by contractors many who had arranged to build will either leave it over to a more suitable time or arrange to have the work done by day labor. It never pays to "Kill the goose that lays the golden eggs," and if this policy is to be pursued it means it will hurt the town and the contractor only, and the man about to build will hang up the job or quit.

One case in point, a building 50x30x20 high not including basement was approximately priced last fall at \$3500. Today this same wooden structure is priced to cost \$7000, just double the amount.

The people here want stand for such extortion, and many will follow the lead of the Methodist Church and postpone their rebuilding indefinitely.

We have been very easy-going for a long time now but we have come to the limit and the feeling now prevalent in the town is that if the contractors persist in their inflated tenders then there will be no building done, but what is absolutely necessary. Its a serious problem for us but we have got through worse ones and will manage this all right although we may be inconvenienced in a greater or less degree. The towns-people have the matter in their own hands. If they consider the prices demanded are beyond all reason, get the building done by day work there will be lots of labor here early in the summer and the shortage of contracts will soon bring the builders to their right senses.

A Prince Edward Island deputation has asked that the keeping of liquor in private houses for other than medicinal, mechanical, or sacramental purposes be made an offence, and that officers be given the right to search.

The Legislature is not yet inclined to go that length.

OBITUARY.

MR. JOSEPH SPLUDE.

Sunnyside, April 20. — Mr. Joseph Splude, one of the oldest residents of this place passed peacefully away to his eternal rest on Tuesday, April 18, at the advanced age of 84, after a illness of almost a year. He was born in Miquasha, P. Q., and came to this place about 36 years ago. He is survived by two brothers, Charles of Miquasha and William of this place, also by his wife and eight children, five sons, viz: John, Joseph, James, George and Wm., whom live in the U. S.; and three daughters, viz: Mrs. F. Pitre of Gardiner, Maine; Mrs. Nat. McNeil of River Louisol, and Mrs. M. Christen of this place, with whom the deceased lived until his death.

The funeral which took place this morning was largely attended considering the bad condition of the roads. The funeral service was sung by Rev. Father Fitzgerald, after which interment was made in the R. C. Cemetery at Jaquet River.

CHURCH NOTES

While Rev. Mr. and Mrs. Hardy were making a visit at the home of Mr. and Mrs. Melvin Adams, Broadlands, the people of Keimpt Road section of his congregation gave them a surprise party and came prepared to spend a pleasant evening with their pastor last Friday. Mr. and Mrs. Hardy received an address given by Mr. T. R. Busted and who presented the pastor with a purse of \$48. Other sections of the congregation have during the past season been doing similar deeds for their pastor though these have not been recorded. Several weeks ago a number of men decided to get the pastor wood for a year and the Pratt Bros. of Clark's Brook kindly gave them the opportunity to cut the same and loaded it on a car at Dawson's siding where the Pratt Bros. are doing a thriving business. The pastor is grateful to all who helped to buy the wood at the Manse. The pastor and his wife have received many gifts and kindnesses during the past winter.

The Stothart Mercantile Co., Ltd., have unloaded a car of nails and are prepared to name a close price either wholesale or retail.

TAX EXEMPTIONS AND TAX REFORM

A thoughtful and well-reasoned editorial from a recent issue of the St. John Daily Telegraph will show that in advocating a new system of taxation, Alderman H. H. Stuart and the UNION ADVOCATE, Ex-Aldermen W. H. Belyea and C. J. Morrissey and others of this town, and the Town Council of Campbellton are by no means alone in their contention even though the question of tax reform was so promptly and decisively thrown out of the Northumberland County Council in January last.

The Telegraph's Article will bear careful study, and applies as well to Newcastle as to St. John. It reads as follows:

"The need for tax reform has been emphasized recently in the number of interests that have approached the City Council for tax exemption in one form or another. Some contemplating improvements seek exemption and other concerns ask for the removal of the burden of taxation.

"Particular cases of this nature should never arise in the city and they would not arise if our present method of taxation did not discourage improvements. What is needed is not exemption of particular interests and the shifting of these taxes to those who are least able to bear them, but a change in the incidence of taxation. Let the taxation fall on the land values instead of on the buildings and improvements."

"The site value of the land constitutes the earnings of society and should be used by the community for public purposes. It can be so used by taking a part of the ground rental values only, for the municipal treasury. As a first step to this change, authority should be secured to put a higher rate of valuation on the land for purposes of taxation than on buildings and improvements. This would at once produce cheaper land and a complete revival of the building industry. This increase of building would mean a larger supply of housing accommodation and lower rents, while the building activity induced would mean more work and higher wages.

"The exemption or the partial exemption of improvements will take a heavy burden from the shoulders of capital and labor. The growth of manufacture will be encouraged, not at the expense of others, as we do at present, but by the removal of the fines imposed upon them, and land, which is now held unimproved and for higher rentals, will find its way into the market or pay the tax. For one particular industry to seek and obtain tax exemption is to impose a wholly unfair burden upon every other industry in the city as well as upon every workman who pays his tax. The fair method is not to grant exemption to one, but a large measure of exemption to all industries that are building up the city, by a change in the incidence of taxation.

"St. John, by reason of the fact that the land is held by a few corporations, and that it is almost impossible for a laboring man to secure a building site in any section of the city, is particularly adapted for the imposition of this tax. At present the land is held in price out of all proportion to the value of buildings and improvements. Unimproved land and taxed land would secure a treasury always sufficient for public needs, steady employment of labor at good wages, and a boom in building operations.

"That it would produce these results has been abundantly proven in the experience of other communities. They have been the direct and easily traceable results in Vancouver and other cities that have adopted this method. The effect on urban and suburban land has been very marked. It has compelled owners of these to build or to sell to those who would build; and it has thus caused a great impetus in the building trade. An

owner of land occupied by buildings of little value finding that he has to pay the same rates and taxes of an adjoining owner whose land is occupied by a valuable lot of buildings; sees at once that his interests lie in putting his land to the best use. In some cities this has caused such an impetus to the building trade that the building material could not at times keep pace with the demand. Its tendency has not been to increase rent but to bring into use vacant sites that formerly were an eyesore to the community. On vacant sites the rates and taxes are increased and continue to increase as the adjoining sites which have been improved increase in value. It thus becomes unprofitable to continue to hold land unimproved."

CIVIL WAR OVER RECIPROCITY?

The great manufacturing firms interested in compelling the people of Canada to buy from them at their prices set by the manufacturers are evidently becoming panic-stricken over the ultimate result of the discussion brought on by the debate on Reciprocity with the United States. It seems that their dissatisfaction is not so much with the reciprocity agreement as it stands as with what it may lead to when the people of the towns and villages demand free trade in manufactured goods in order that they may receive the same benefits the present agreement is giving the Canadian farmers. In the city of Montreal—the same turn in which in 1849 the English speaking mob stoned the Governor-General and burned the Parliament Buildings—Mr. W. H. Townend, addressing the workmen of the Angus shops on the 7th inst. ended his speech (according to the Daily Star's report) with the following incendiary language: "There are thousands of Canadians who are willing to offer their lives in CIVIL WAR rather than see this measure pass, and I am willing to go on record as saying that I am one of them." Brave talk, but, we fancy, if Reciprocity passes even Mr. Townend will hesitate to take up the sword in defence of a few corporations.

THE HAREM SKIRT

I stand in the cold as this story is told, with naught but an old flannel shirt, and my legs are all frost for my trousers I've lost—my wife has a new harem skirt. When abroad she doth roam, I have to stay home, arrayed in her old linen dress, since this fashion from France, she's taken my pants and will wear them forever I guess. She scratches her matches upon the rear patches, and smokes my Havana cigars, and soon I do think she'll be having a drink at Larry O'Flanagan's bar.

I'm telling no lies, she's exactly my size, and my clothes do fit her superb. Could I turn back my life, I'd marry a wife, who could never my peace so disturb. I'm short and I'm small I'd choose a wife tall, who never could do my new suits, for my trousers so short, would furnish rare sport—they wouldn't reach down to her boots. So amorous young man, just think of my plan, and choose a sweet Rose, who can't wear your clothes, like my

HAVE WE THE SPIRIT OF FAIRNESS?

Is the Buyer of Mail Order Houses fair to himself and His neighbor?

A gentleman from a Saskatchewan town was recently on a business trip to Toronto, and in company with a Toronto friend, when out to make some small purchases of personal necessities, the Torontonian suggested that while in the city the Westerner should make larger and more elaborate purchases, in fact should supply his needs for some time to come. The Westerner refused emphatically to buy more than sufficient for his immediate needs. He said they had merchants in his home town who had been induced to invest capital by the prospect for local business; that he himself was holding a position there (in an educational institution) that was made possible only by the settling in the immediate vicinity of a number of farmers, and that he would be unjust to the interests of his neighbors, his town and himself, unless he confined his purchases, as far as possible, to his own locality.

If that is the Western spirit, it is not difficult to understand the phenomenal growth of the country and the enthusiasm the Westerners feel for their towns. It is refreshing to hear one of them expatiate on the merits of his place of residence. Possibly we have not heard the name before, for they are making towns rapidly out that way just now; but we shall not be likely to forget it in the future, after listening to his rapid fire eloquence and seeing his infectious enthusiasm. You can smile at his volubility, but we can tell you friends that in the intense local patriotism of the Westerners lies the secret of the country's marvellous growth and prosperity.

What a change there would be in Northumberland County if all our citizens were imbued with a similar spirit. How the place would thrive if all the residents of Northumberland County would take as much interest in the welfare of their town as that Westerner does in his. But as a matter of fact what do we find? It is not only that many Northumberland People spend money when away from home for things they might have obtained here before leaving, but they deliberately defer supplying their wants until they go away. Some indeed send their money by mail and receive the goods by express, under the mistaken impression that they can save a few cents by so doing. How our Westerner would scorn such sordid parsimony.

Now, is it not possible for each one of us to emulate that spirit of solidarity—that wholesome loyalty to our own people, to our own town and to ourselves? Can we not see that in going so we will not only help our neighbors but will materially help ourselves? It would enlarge our business and our social life. It also increases our self respect. It is a mistake to think you save anything by acting in a contrary way. As a matter of fact you can supply your needs in Northumberland County in Canada, even in the large places. It costs more to do business, where taxes are greater and where the cost of living is higher, with consequent higher prices for labor and help of all kinds.

Let us get together and see if we cannot give Northumberland County a new expansion to our town if each individual member of the community would resolve to henceforth do all his or her shopping right here in Northumberland County.

A GOOD MEDICINE FOR THE BABY

Baby's Own Tablets is the one medicine that can be given little ones with the firm knowledge that nothing but good will result. The Tablets are sold under the guarantee of a government analyst to contain no opiate nor any other drug which will harm the youngest child—they cannot possibly do harm; they always do good, and once a mother has used them she will never again give her little ones castor oil or the "soothing" stuffs which simply drug baby into temporary relief and in the end do harm. Mrs. Phyllis Paradia, Frampton, Que., writes: "Send me two more boxes of Baby's Own Tablets. I have used them for constipation and have always found them very good. My baby is certainly progressing under the Tablets." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., 250 N. 2nd St., Quebec.

A GREAT FEAST FOR CHILDREN

Preparations for the Coronation Entertainment to 100,000 Youngsters

The work of preparing for the Coronation entertainment which the King will give to 100,000 poor children of London at the Crystal Palace on June 30th, is well under way. Sir William Carrington states that the committee entrusted to carry out the King's wishes, declares absolute impartiality is to be shown so that schoolchildren of every denomination should be properly represented.

Although not officially stated, there is every reason to believe that the King and Queen will be present in the course of the afternoon at the entertainment at the Crystal Palace. Most probably they will be accompanied by the Princess Mary and one or two of her brothers. It is assumed that the chosen 100,000 will be marshalled like an army and converge upon Sydenham by various routes. Probably the local railways for a certain time in the day will concentrate their energies on the transport of this army. Every child will bear his or her own name and address in writing, and will also carry a distinguishing ticket or rosette, indicating by color and by numerals the particular school and locality. It is hoped, also, that each girl will wear a white dress or sash and each boy a white tie. Once within the gates of the Crystal Palace, there should be little difficulty. The staff there is accustomed to invasions of football enthusiasts for the Cup Final numbering from 100,000 to 140,000, and in the summer various organizations bring to Sydenham many thousands of children.

The King's guests will arrive between 11 and 12:30 and stay until between 6 and 7 o'clock. Dinner and tea will be served, if fine, at long trestle tables on the grass, but if wet the meals will be served in relays within the Palace. For dinner the children will have cold meats, pastries, lemonade, and at tea bread and butter, jam and cakes.

Each of the favored children will be given a Coronation beaker of Royal Doulton ware. They are to be of the same shape as those made for King Edward, and on the occasions of the Jubilee of Queen Victoria. His Majesty has supplied a special portrait of himself in the uniform of an Admiral of the fleet for reproduction on the beaker.

Apart from a generous programme of amusements and a monster tea, the children will be given probably their first glimpse of the greatness of the British Empire. The King has chosen the Crystal Palace, with its Festival of Empire, as the venue for this reason—to impress on the juvenile mind some understanding of the vast community of English-speaking countries of which they form no inappreciable part.

Frank Lascelles will superintend the direction of a special performance of the Pageant of Empire, lasting half an hour, which is to be erected for Their Majesties. Subsequently the children are to be taken in batches for a trip round the Empire on the "All-Red Route" Railway. This will enable them to see the Parliament buildings of Newfoundland, British Columbia, the wheat prairies and cattle ranges of Canada, and the Parliament buildings at Ottawa; various Crown colonies with their prairies and a sugar plantation in Jamaica. India will be visited, and Delhi, where the King is to be crowned in person Emperor of India. From India the young voyagers will travel to Australia and New Zealand, finally to South Africa, where the gold and diamond mines will be shown in operation.

IS THERE A "SERVANT PROBLEM?"

It has recently been found that only about 18 per cent. of the United States employ "servants." There has been a great hue and cry about "solving the servant problem," and thousands of people came to the conclusion that the whole country was going to the dogs because enough servants were not to be had. We have been deceived. What about the 82 per cent. of households that have no servant? They have solved the servant problem. The mother, daughters, sisters—possibly the husbands or brothers—do the work, or perhaps all "lead a hand." Why all this rumpus and noise about less than one-fifth of the households? Is this one-fifth the important part? It is doubtless important, but by no means the most important. 82 per cent. of American women do their own work, and are not ashamed to do it—or at least the major part are not. They feel a joy in service. They are too intelligent, too wise, too womanly to think for one moment that the discharge of any duty that make the home more homelike, more comfortable to the tired husband when the day's work is done more attractive to the children than the street or the questionable place of amusement, lowers their dignity or degrades them. True service comes as near to divinity as anything that imperfect man or woman ever does. Here, then, is the mental attitude which helps solve the servant problem. It is the President's

WEDDING BELLS

BORTON—McAULEY

A very interesting and pretty wedding took place at nine o'clock last evening at the residence of the bride's parents, Mr. and Mrs. J. D. McAuley, at the Union Hotel, when Rev. S. J. Macarthur united in marriage Miss Annie Sophia McAuley, one of Newcastle's handsomest and most popular young ladies, to Mr. William Wilton Borton, late of Moncton, but now a prosperous plumber of Summerland, B. C. The ceremony took place in the parlor of the hotel and in the presence of a large number of guests. The decorations were oragne and white.

The happy couple were attended by Miss Jean Allen of Newcastle as bridesmaid and Mr. Arthur Metcalfe of Moncton, as best man. The bride was given away by her father. The wedding march was played by Miss Alice Morris. The bride looked more charming than ever in a gown of champagne brussels net over natural colored pongee. She wore a white veil with lilies of the valley and carried a large bouquet of white carnations and maidenhair fern. The bridesmaid was dressed in mauve and carried a bouquet of carnations. A large number of lovely and valuable gifts were received. The groom's gift to the bride was a handsome pearl bracelet; to the bridesmaid a pretty amethyst brooch and to the groomsmen an amethyst stick pin. The bride also received a very substantial gift from her parents.

Immediately after the ceremony a bountiful supper was served in the spacious dining room of the hotel, and Mr. and Mrs. Borton, amid the blessings of many friends, left at midnight on the Maritime Express for their future home in Summerland.

The bride's going-away gown was of blue serge with helmet hat of blue. The UNION ADVOCATE extends congratulations.

WILLISTON—McKENZIE

The marriage of Mrs. Jane McKenzie (nee McCosh) widow of late Robert McKenzie of Picou, N. S., to Amos Williston, took place at the residence of the bride's sister, Mrs. Robert Vanderbeck, Douglastown, Monday evening at 8:30. Rev. F. C. Simpson tying the nuptial knot in the presence of the immediate friends and relatives of the contracting parties. The bride, who is a well-known and popular lady, and who returned from Boston about a month ago, was tastefully attired in wisteria broadcloth. She was unattended. After the ceremony a sumptuous supper was served. Many very beautiful gifts attested the good will of the friends of the bride and groom. Mr. and Mrs. Williston will reside in Douglastown. The UNION ADVOCATE tenders its congratulations.

TWO WEDDINGS AT NELSON

At Nelson Monday afternoon, Rev. Father Power united in marriage Miss Mary Dolan of Nelson to Mr. Henry English. Mr. and Mrs. English left that evening for their new home in the Western States.

Yesterday morning by Rev. Father Power, Miss Lena, daughter of Mr. and Mrs. John English of Nelson, was married to James McEachern of Nelson. The young couple will reside in Nelson. The UNION ADVOCATE wishes both couples a happy voyage through life.

SMALLPOX

A serious epidemic of smallpox along the Painsic Road and at Fox Creek, Westmorland County, is reported. In Northumberland the disease has been stamped out except in a few houses in Alnwick where, however, the patients are all convalescent. Col. Maltby drove down to Alnwick yesterday to see about fumigation a number of houses.

DISTRESSING HEADACHES

Headaches are largely the result of disordered kidneys.

Mrs. Hall, 81 Flora Street, St. Flora St., St. Thomas, Ont., says: "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to my house duties. My back was weak and caused me much suffering through the night. I had located for years, but all to no avail. Nothing benefited me and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Booth's Kidney Pills are sold by all druggists, 50c. box, under a guarantee to refund your money if they fail to relieve any disease having its origin in the kidneys or bladder. Postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by T. J. Durick.

HANGED HIMSELF

Jared Betts of Doaktown, hanged himself at that place at 8 o'clock Wednesday morning. He was in good spirits Tuesday and returned at night in good health. He arose about four o'clock next morning and went to the wagon house in the rear of the house. He was discovered a short time after dead. Coroner Wier, who was summoned, found that he had come to death by his own hand. He leaves a widow. The deceased hurt his head badly some years ago, and it is thought the deed was the result. He was forty-eight years of age.

THE CHINESE FAMINE

On realizing that something should be done by the town to help in relieving the terrible famine now raging among our fellow-beings in China a few friends have organized a subscription list for that purpose. The fund is non-denominational. All receipts will be faithfully reported in the local press. The need is very urgent. The time to act is now. One cent per day will save a sufferer from starvation. Contributions will be gladly received by the Rev. W. J. Dean.

EASTER OFFERING

The executive of the Auxiliary of the W. M. S. having found it necessary to postpone from time to time their annual Easter Offering meeting, have decided to hold the same on the evening of May 5th. The mite boxes opening will also take place at the same time. In order to compensate for the delay the members desire to make the occasion one of the happiest functions of the season. If you wish to help make it so, procure an Easter envelope to enclose your offerings and meet at the home of Mrs. E. A. McLean at 8 p.m. Envelopes may be procured from the following members of the auxiliary. Mesdames E. A. McLean, Leard; Follansbee, H. Price, Gough, L. McDonald, J. B. Kethro, J. Allison, Robt. Allison, Rev. W. J. Dean, Geo. Johnson, Petrie.

All are heartily invited to attend, the only provision made, is that the offering, whether large or small be given voluntarily and gladly. Then the people rejoiced, for that they offered willingly.

THE ACADIAN MEMBERS OF THE LEGISLATURE

An Appreciation of the Men Who Represent this Great Race—Mr. Labilloy's Fine Record

The Liberal Opposition in the House of Assembly is fortunate in numbering among its members four Acadian gentlemen, Hon. C. H. Labilloy of Restigouche, Mr. C. M. Leger of Westmorland, Dr. A. Sormany and Mr. S. R. Leger of Gloucester. No members of the House are more highly respected than these representatives of a great race. They bear their share of the burden of the work of the house, and there are few men more valuable in the committees to which they are respectively attached. They enjoy the esteem of their fellow liberals and are highly respected as well by the other members of the Assembly. Not only the Acadian people but the liberals of both nationalities have reason to be proud of these adherents of liberal policy.

Hon. Mr. Labilloy is not only the senior Acadian representative in the Assembly, but he is also the Dean of the House. He was first elected in 1882, and since that time he has rendered splendid service to the province. He has sat in the House under seven premiers, Hon. Messrs. Hamington, Mitchell, Blair, Emmerson, Tweedie, Pugsley and Hazen. He was associated also with Premier Robinson, who never met the Legislature. The Restigouche Acadian was the first Commissioner of Agriculture in New Brunswick. Many policies which he initiated in that position have borne splendid fruit and the agricultural conditions of the province have been notably benefited in consequence. After some time spent as Commissioner of Agriculture Mr. Labilloy became Chief Commissioner of Public Works, and New Brunswick has had no better. He held that position until the Robinson government went out of power, and the happenings of the last three years have shown conclusively that New Brunswick would be much better off if Mr. Labilloy still occupied his old position.

However, as lieutenant to the Opposition leader, the Dean of the house has done effective service. He is a quiet-going, quiet speaking man, but one nevertheless keen of mind, and capable of presenting his views in a manner that compels attention and respect. The opposition is much the stronger because of Mr. Labilloy's presence in the ranks.

Dr. Sormany comes to the Assembly from Shippegan. A native of that place he was educated at Caraquet College and St. Joseph's College, Memramcook. Subsequently, he went to Montreal and studied medicine at Laval University, from which institution he received his degree. He has since then been practicing his profession at Shippegan where he enjoys an excellent practice, coupled with general public esteem. He ran his first election in 1908, when with his colleague Mr. Leger and his English speaking colleague Mr. Byrne, he was elected by a forcible majority. In the Assembly he has been an eminently useful member of the opposition party. He is not a man who inflicts long speeches on the House, but what he does say is strictly

to the point and commands every attention. A session or two ago the medical Commissioner of Agriculture, Hon. Dr. Landry, of Kent undertook to have a fling at Dr. Sormany. He was sorry he spoke for after Dr. Sormany finished replying to the Kent county man, there was a somewhat wiser and very much sadder Commissioner of Agriculture about the House.

A man with the most fireworks is not always the most capable representative of the people. Dr. Sormany is not given to fireworks, but he is given to serving the people to the best of his ability, and his ability is by no means meagre. As the other Acadian Liberals have done, he had proven himself a very successful representative of the people, and his re-election when the contest takes place may be confidently predicted.

The Gloucester county Mr Leger is one of the quiet men of the House. He dislikes making speeches, but whenever he does take the floor, and he rises whenever it is advisable for members of the house to express their opinion on important questions, he speaks in a way that shows that he is capable of judging well in matters which are brought to his attention. Mr. Leger belongs in Caraquet where he was educated. He is engaged in business in which he has met with a goodly measure of success. For some time he has been a member of the Gloucester County Council in which he sits and in that body he has given his fellow citizens good service. He ran his first legislative election in 1908, and it is safe to say that he will be re-elected when the government risks an appeal to the people. Incidentally, it may be said, that Mr. Leger is the possessor of a splendid voice. More than once he had delighted the members of the House with his French songs, and in the opposition caucuses there are frequent calls for "A song from Seraphin."

Mr. Cement M. Leger is one of "The solid four", from Westmorland. Since 1903 he has been sitting in the House and judging from the reports which come from Westmorland he will be re-elected just as often as he enters the lists. Mr. Leger is a Westmorland man, educated in Westmorland, and doing business there. At one time when he was before the people for election the Conservatives sought to injure him by belittling references to the extent of the business he carried on. They were no more successful then they are now. Mr. Leger is not "a merchant prince," but he is a respectable citizen of the county in which he lives. In the House he has taken a keen interest in all matters pertaining to the welfare of the province, but he has perhaps done best service in the agricultural committee, where again and again he has insisted upon fuller recognition of the claims of the farmers. It was Mr. Leger who last session vigorously urged on the government that potato warehouses should be established by the province in Kent and Westmorland counties, and perhaps elsewhere as well. Such warehouses, he held, would be of material benefit to the smaller potato growers, and there will be few people who will not agree that the Westmorland man was right. The government, however, has not seen fit to follow his suggestion for reason which can be well conjectured even if they could not be established by proof.

At all times Mr. Leger has been active in the interests of the farmers and no doubt in this fact lies one explanation of his strength in the county of Westmorland. In their desire to injure him politically conservative organs have lately been circulating a story insinuating that in the days of the old government Mr. Leger,

NO IRREGULARITIES IN ACCOUNTS

Messrs. Peat and Prender, of London, England, representing the trustees of the defunct Charing Cross Bank, and the bond holders and shareholders of the Atlantic, Quebec & Western Railway, the Gaspe line now under construction, in which the bank's funds were heavily invested, waited on Sir Wilfrid Laurier, Hon. G. P. Graham and Hon. Rodolphe Lemieux with a view to securing the government's co-operation in assisting the railway company to carry out its understanding.

The representative of the British investors in the railway and in the bank, whose collapse a year or so ago created a sensation in English financial circles, declared that so far as the railway was concerned there was no truth in the rumors that several hundred thousand dollars of the funds invested therein could not be properly accounted for. A careful investigation had shown no irregularities.

This statement sets at rest the rumors started some months ago in the opposition press to the effect that Hon. Mr. Lemieux, as member for Gaspe, might be found to be implicated in the alleged frauds. It is hoped that a satisfactory financial arrangement can be made to carry on the company's undertakings to complete and operate the road, and also to lease the 150 miles of the Baie des Chaleurs line connecting Matapedia in New Brunswick with the new main line through the Gaspe Peninsula.

DALHOUSIE MAN HONORED

Dalhousie, April 20—The new Council were elected by acclamation last Friday, the talked-of opposition backing down. The following constitute the council—Mayor, Mr. W. S. Montgomery, Aldermen, Messrs. John McNeill, John McLean, John Oakleaf, Dan McDonald, E. Elsliger, John Delaney, Joseph McIntyre and Dr. Doucette. It is not quite certain whether there will be a dance or not to celebrate the victory.

Mr. George Haddow has had a signal honor conferred on him being invested by command of the King of Norway with the Knighthood of St. Olaf. We rejoice at this reward for 46 years meritorious service as Norwegian Consul, and trust that our good friend will be long spared to wear his insignia. The decoration consists of a silver and enamel star surmounted by a crown of silver in filigree work with the inscription on enamel *Ret Og Sandhed*. As far as we know this is the first investiture of this order in Canada.

There will be an Anti-Reciprocity meeting in the Court House tonight. Diligent search failed to reveal the association promoting this.

YEARS OF STOMACH TORTURE

PAIN AFTER EVERY MEAL

"Fruit-a-lives" Gave Prompt Relief to Mr. Saunders

SHOAL LAKE, Man., June 11th, 1910.
"For years, I was bothered with persistent Dyspepsia and indigestion, having severe pain after meal-time. I tried everything I could get but the pain in my stomach was no better.

Last summer, Mr. Otway, a druggist of my town, recommended "Fruit-a-lives" to me and I tried them. While taking "Fruit-a-lives", I in no way gave up any foods that I was in the habit of eating, nor did I stop smoking. Yet in spite of this, "Fruit-a-lives" has done wonders for me and I strongly advise all my friends to use this wonderful fruit medicine." DANIEL SAUNDERS.

Stomach Trouble is caused directly by stomach weakness—and indirectly by Constipation. "Fruit-a-lives" will always cure Indigestion, Dyspepsia, Belching and Pain After Eating, because "Fruit-a-lives" acts on liver, bowels, kidneys and skin—makes these organs strong and active—keeps the blood pure—and builds up the whole system. 50c. a box, 6 for \$2.50, trial size, 25c. sitting as a member of the House, drew money from the provincial treasury as a bridge inspector. With its own record of mal-administration of bridge work it lies ill in the mouth of the government to make any statements about the manner in which their predecessors handled the bridge affairs of the province. But as a matter of fact the Tory yarn about Mr. Leger has been branded by him in the House as a malicious falsehood and he declared emphatically that if any member of House was to make a charge akin to the insinuation of these unscrupulous party newspapers, he would demand of Mr. Speaker that a complete investigation be held immediately.

Slander such as this will not effect the reputation of so popular and so excellent a man as Mr. Leger.

Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial. It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.
