## REGULAR MEETING OF TOWN COUNCIL

The regular monthly meeting of the Town Council was held last Thursday evening at 8 o'clock. Present Mayor Doyle, Ald. Atkinson, Crocker, Dalton, Durick, Mackay and Wittzell.

A letter from the Town Clerk of Campbellton referring to the situation at St. Quentin, was read and on motion of Ald. Crocker, seconded by Ald. Atkinson was laid over for later consideration.

The Petition Committee recommended that the petition of the ratepayers on George Street be referred to the Water and Sewerage Committee for their favorable consideration especially if suitable arrangements can be made in connection with the proposed water and sewerage extension to the C. N. R. On motion of Ald. Mackay, seconded by Ald. Durick this report was received and adopted.

The Finance Com. recommended payment of the following bills.

Union Advocate	2.10
1920 Assessors	346.10
Cudahy Packing Co.	7.98
The Public Works Committee recommended payment of the following bills.	
Lounsbury Co. Ltd.	13.45
Maritime Produce Co.	19.94
John Maloney	91.73
G. Davidson	14.75
P. Hennessy	70.05
H. A. Russell	48.80
Stothart Mercantile Co. Ltd.	85.13

The Police Committee recommended the appointment of the following officers for the ensuing year.

Hogreeves—Geo. Wittzell, James Ryan.

Measures of Stone—C. E. Fish, John Williamson, Jas. T. Forest.

Surveyors of Lumber—J. G. Layton, J. E. T. Lindon, John Robinson Jr. Jeremiah Craig, Daniel Sullivan, Michael Craig, Chas. Cassidy, Thos. Bayle Jr. J. Robinson Allison, Wm. C. Leslie, Robt. McLaughlin, Wm. E. Craig, C. E. Fish, Finlay Sutherland, George Leslie, W. B. Russell, Jas. Sullivan Jr.

Inspectors of Butcher—D. W. Stothart, George Stables.

Fence Viewers—Joan Foran, Chas. Crammond.

Inspectors of Fish—T. W. Crocker, C. C. Hubbard.

Boom Masters—Jas. A. Murphy, James Beazley.

Inspectors of Shingles—H. B. Cassidy, E. E. Benson.

Constables—John H. Ashford, Wm. Gallah.

H. B. Cassidy, John Jardine, John J. Gallah, Arthur Petrie, W. L. Curtis, D. C. Smallwood, John Fallon, Robt. Beckwith, Jas. P. Murphy, Jas. Hachey, J. J. Staff, Dunn, M. Wedden, Andrew McCabe, Phillip Galloway, Wm. J. McCormack, John McAllister.

Weghers of Hay and Coal—Thos. M. Malby, G. G. Stothart, Henry Carter, John Russell, C. P. Stothart, Jas. Dutcher, Arthur Petrie, D. W. Stothart, E. E. Benson.

Revisors of Votes—O. Nicholson, P. J. McEvoy.

Auditor—J. W. Spurden at \$100.00 per year.

Building Inspector—Mont Jones at \$100.00 per year.

Auditors to School Accounts—J. H. Sargeant, P. J. McEvoy.

The chairman of the Police Committee mentioned the fact that there would be a convention of Police Chiefs in Moncton on June 29th and 30th and July 1st, and moved seconded by Ald. Wittzell that the Town send our Chief of Police to attend that convention. The motion was declared lost. The Police Committee preferred the request of the night policeman for an increase of salary and recommended that the salary be increased to \$120.00 per month. It was moved by Ald. Atkinson and seconded by Ald. Wittzell that this recommendation be adopted. It was moved as an amendment by Ald. Durick, seconded by Ald. Mackay that the night police officer's salary be increased to \$100.00 per month. The amendment was carried.

The Park and Fire Com. recommended the payment of the following bills.

Stothart Mercantile Co. Ltd.	13.25
H. A. Russell	5.00
The Light and Water Com. recommended payment of the following bills.	
John Maloney	717.75
I. C. Coal Mining Co. Ltd.	294.00
T. McCarthy & Sons Ltd.	75.45
Maritime Foundry Co. Ltd.	6.51
H. A. Russell	25.25
Stothart Mercantile Co. Ltd.	28.60
Canadian Gas Electric Co. Ltd.	108.25

The chairman of the Light and Water Committee reported that the committee was not yet in a position

## EDITORS RECEIVE WARM WELCOME

Visitors Enjoy an Auto Trip Through The Miramichi District, And Are Greatly Impressed With This Section of the Province.

Newcastle's welcome to the National Editorial Association on Wednesday of last week was a feature of the American editors visit to New Brunswick. Arrangements had previously been made with automobile owners to be at the depot on their arrival and take the members of the party to points of interest on the Miramichi River. A large number of citizens met the Million Dollar Train and about fifty automobiles were in readiness and at the disposal of the visiting journalists.

In a very short time the cars were laden with the visitors and were then conveyed through Newcastle, Nelson, Millerton, Chatham and surrounding districts. On their return to the train, one and all expressed their deep appreciation of the beautiful scenery of Newcastle and surrounding districts, and their gratitude to the citizens for their kindness in making their short stay such a delightful one.

### The Million Dollar Special

The train equipment furnished for the press party by the Canadian National Railways is the finest ever assembled for such a purpose, and it can be said without fear of contradiction that no finer assembly of the most modern type of steel sleeping and standard dining cars has been seen on any railway on the continent. Railway men estimate the cost with engine at one million dollars.

The special train consists of six standard sleeping cars, two diners, one of the most modern of tourist cars, and steel baggage car. The new steel sleepers are of the very latest type and of finest construction with all the latest devices that make for elegance and comfort while traveling. The diners are also of the most modern design and have the latest improvements that afford every facility for the most efficient service. Both diners are manned by a specially selected staff, and the excellence of the cuisine has impressed the American newspaper writers most favorably. Every possible arrangement for the comfort of the editors is being carried out by the efficient staff of railway men who are accompanying the train, so it will be seen that the delegates are being Canada under the very best and most pleasing influence.

As some of them expressed it: "We are journeying in a palace through a country of marvelous scenic beauty, a land of resources that cannot but impress us profoundly. We will certainly go from here with the finest of recollections of Canada and of her fine spirited and hospitable people." Officials accompanying the train on the tour are: Charles K. Howard, general agent, Boston; C. Price Green, commissioner industrial and resources department, Toronto; A. H. Lindsay, advertising agent, Moncton; H. C. MacFarlane, district passenger agent, Halifax; P. L. Coogan, traveling passenger agent, Moncton; J. Coleman, assistant superintendent sleeping and dining cars, Halifax; J. D. MacNutt, inspector of train despatching, Moncton. Other officials of the operating and mechanical departments are also looking after the train on route. Clifford F. Triton is along as official stenographer. W. R. Devenish, eastern superintendent of the C. N. R., and M. F. Tompkins, general freight agent, also accompanied the party from Moncton.

The party left here for Dalhousie at 2.30 p. m. where they would be the guests of the All-New Brunswick Tourist Association, after which they will proceed to Quebec. Among those who accompanied the party were Hon. W. E. Foster, premier of New Brunswick; E. H. Gilmond, secretary of the Federation, Board of Trade, and W. Harry Allen, president of the New Brunswick Guide's Association.

Ald. Wittzell spoke of the unsatisfactory condition of certain sections in Town and on motion of Ald. Durick, seconded by Ald. Dalton, Ald. Wittzell was authorized to take to the mayor of the situation in the Town with the Board of Health.

## We Invite You to Our Gift Giving

Twenty-seven years ago we started business in a small store. Now we have the largest Ready-to-Wear Establishment on the North Shore. We are not ungrateful. We appreciate the fact that it is your loyal patronage, your hearty support that has made this growth possible, and we wish to show that appreciation in a most emphatic manner. So we are celebrating this twenty-seventh birthday. Celebrating it for ten days

Beginning Thursday, June 24  
Ending Saturday, July 3

Every customer purchasing from \$1.00 up, during the next ten days, will receive the above Silver Plated Butter Knife.

### 300 Pairs Men's Oxfords

in tan and black, recede and box toe of dependable quality and fashionable lasts, regularly priced \$8.50. Sale price

## WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"I was going through Change of Life and suffered for two years with headache, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results, and I also find it a very helpful Spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends, and am willing you should publish this."—Mrs. MARTHA W. LINDSAY, 810 Robinson St., Regina, Sask.

If you have warning symptoms such as a sense of suffocation, hot flashes, headaches, backache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. Lindsay.

**A Right Choice**  
Nearly everyone arrives at a point where there is need for a tonic-restorative.

**Scott's Emulsion**  
is the choice of tens of thousands because it gives tone to the whole system and restores strength.

**MAKE SCOTT'S YOUR CHOICE!**  
Scott & Bowne, Toronto, Ont.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.

The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monocetate of Salicylic acid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

## Have YOU? Dyspepsia.

If your stomach is sour, and you have a "heavy" feeling after eating—if your food is not readily digested and assimilated—you are plainly in need of

### HAWKES' DYSPEPSIA REMEDY

It gives quick relief to stomach troubles and permits normal eating without painful effects. It also prevents constipation, and relieves kidney troubles. It is a reliable regulator which keeps the system in a clean, regular, vigorous condition, and makes the dyspeptic's life worth living.

It will give relief in your case. Try it! Sold at all drug and general stores.

"BUY AT HOME"

## Rounding Up The Dealers In Extracts

St. John, June 16—The denunciation of lemon extract by Police Magistrate Ritchie in the police court on Monday afternoon started one of the liquor inspectors to work yesterday afternoon His Honor in referring to lemon extract said, "It is worse than gin, rum, whiskey or any liquor. If everybody does his duty there will not be another ounce of lemon extract left in the town by midnight. I will give up my place here in order to make room to stock it all, if necessary." Inspector McAlnsh decided that he would do his duty according to the magistrate's interpretation, and although he has not stocked the court room with all the lemon extract in the city, he has summoned seven wholesale grocers and two wholesale druggists to court at 2 o'clock this afternoon.

Inspector McAlnsh made a round of the wholesale grocers yesterday and according to him, it was only because time would not allow, that he did not get to all the dealers who sell extracts in the city. From each place of business he visited, he took a bottle of lemon and vanilla extract as samples and he ordered each proprietor to appear at 2 o'clock this afternoon to answer to the charge of having intoxicating liquor in his private dwelling.

The nine firms visited were G. E. Barbour & Company, Limited; Jones & Schofield; Puddington, Wetmore, Morrison, Limited; Northrup & Company; Baird & Peters; Wilson Chemical Company; Brayley Drug Company Vanwart Brothers and F. J. Williams & Company, Limited.

### A BOOM IN SHEEPING

Compared with the product of other countries sheep breeding in Canada does not appear prolific. In Australia there are twenty-five times as many sheep as there are here. In the United States thirteen times as many and in Great Britain nine times as many. That this fact is becoming recognized, and that efforts are being made to improve the situation, is shown by a series of articles on sheep extension work in the different provinces that appear in The Agricultural Gazette of Canada for May. These articles show that the subject is being taken up in a very practical way by at least seven of the nine provinces. Presumably in the other two, British Columbia and Prince Edward Island, although not set forth, like measures are being taken. In short, there are prospects that sheep raising and mutton and wool producing are going to receive in the next few years very considerable impetus. The efforts put forth to bring this about consist mainly of the distribution of pure bred rams, the holding of competitions for which prizes of considerable value are given, for the best ewes and for the best flocks, of organized sheep sales, of obtaining the highest price for wool through the Canadian Wool Growers' Association of demonstrations in shearing and of other matters connected with sheep raising, and by placing flocks as in Ontario, on a share basis. In addition drastic legislation has been passed looking to the protection of sheep from dogs. It is noteworthy that in many instances credit has been arranged with the banks so that funds may be procured on fairly easy terms to be used in the purchase of pure-bred rams and high grade ewes.

### Corn Smut

The smut of corn is well known to farmers. The smut masses which usually appear, as swollen outgrowths are sometimes quite large and make the smut very conspicuous. They are at first covered by a thin membrane, which soon breaks away and exposes the black mass of spores. The mass soon becomes powdery and the myriads of spores which each mass contains are readily blown about by the wind. It is these spores that spread the disease during the growing season and carry the smut over the winter to the next crop.

In many of the smuts, as the smuts of oats and the stinking smut or bunt of wheat, the spores get on the seed and when the seed is planted begin growing with it and attack the young seedling. Treatment with a solution of formaldehyde is effective in killing the spores on the seed and preventing infection of the young plants. In the case of the loose smut of wheat and the loose smut of barley the spores are blown about at blossoming time and grow into the very young seed. The hot water treatment of the seed is used to kill the smut inside the seed. In the case of corn smut seed treatment of any kind has been found to be of no use, as the smut spores live even in the soil or in manure rather than in or on the seed. So the only way to control the corn smut is to prevent the smut spores from getting into the soil or the manure. Not only do the spores live in the manure pile for some time, but they may actually

increase rapidly in number if the conditions are favourable. Corn smut is found in all parts of Canada where corn is grown, but is more common in Eastern Canada. Generally it is not very prevalent and the losses are not great. Where it is common, measures should be taken to prevent its spread. The smut masses should be cut out during the growing season. They should be removed before they have broken open and spread their spores. They should not be left lying where they may reach manure or refuse and be carried back to the soil but they should be gathered and burned. Rotation of crops is also valuable in preventing corn smut. The smut does not live long in the soil and will not attack any other crop, so time should be given for the smut to die out in the soil before another crop of corn is planted. Seed treatment has not been found to be of any use in corn smut.

### Pure Air is as Necessary as Pure Food

THE ENTERPRISE BLAZER FURNACE heats your home in Nature's way. It draws in the sweet pure air from the big outdoors, moistens it thoroughly, turns it into heat and comfort and passes it on to every corner of your home.

The best that base burners and radiators can do is to heat the air that is already in the house—that has been breathed again and again. Stoves choke the air with dust and in real cold weather they fall short of their job. Another reason for the

## ENTERPRISE BLAZER FURNACE

is economy. For thirty-five years we have been learning how to take all the heat out of a piece of coal; and then how to make most use of it. The Enterprise Blazer is the result. And it costs a great deal less to install than a hot water boiler, pipes and radiators.

Health and Comfort

An Enterprise Blazer will wear for years and years. Every part is made a little better than it need be, and it carries the famous Enterprise guarantee of satisfaction. Get your dealer's advice and write us today for our free booklet "Warmth and Comfort".

### Going To The Root of Disease

Wide-extended usefulness in preventing disease on its human side is closely allied with the movement, just started, to control and eventually to up root disease in Canadian farm stock. Indeed, it may turn out to be the most beneficial part of the plan now under way to combat disease in livestock by the co-ordinated efforts of Dominion and Provincial Governments, farmers and packers.

The public has, within the last few years, been awakened to the enormous loss of human life, shown to be a greater mortality than that of war, resulting from tubercular disease. Yet the transmission of tuberculosis from farm products to humans has never received from the public a thousandth part of the attention it demands. Physicians have fought the disease in every thinkable way except one. (Hence, have been opened in large centres through out the world, expensive sanitoriums have been built; preventive instruction has been widely taught through nursing institutes and even the public schools. None of those, however, has struck so radically at the root cause of the human disease, the presence of tuberculosis in domestic livestock as the new movement to eradicate disease from among farm animals. If for this feature of national health and the preservation of human life alone the movement claims the wholehearted support of all who have a better, wider and more humanitarian hope for the mass of the Canadian people.

An encouraging beginning has been made. A definite plan of work has been framed to co-ordinate the effort to combat disease in animals. It will be plain to farmers and stockmen that better prices will follow the raising of better stock, better because healthier, more robust animals which will feed well and make heavier weights in return for the expenditure of feed and labor.

Much could be done through direct aid by farmers and stockmen themselves. Everyone knows that the "Government can't do it all. In South Dakota, where a similar campaign is under way, it was recognized that one health officer could not inspect a large number of animals in many townships. A committee was therefore appointed by stockmen and farmers from among themselves. Each committee man became a deputy health officer. Community meetings were held. People generally began to talk of better, disease-free cattle, and there was a spirit of general improvement. Good results are being reported and the work is going forward.

Our fight is especially against tuberculosis in cattle. A farmer often wonders why his steers and calves, in spite of their heavy feeding, do not thrive. Tubercular test would probably reveal the cause. The Dominion Minister of Agriculture, Dr. S. F. Tomlin, in the House of Commons on May 14th, stated that the intention was to establish small centres of accredited, disease-free herds. By this means, the Health of Animals Branch hoped to eliminate tuberculosis from Dominion pure-breds. But the work would not be confined to pure-breds. But the work would not be confined to pure-bred stock if present proposals are carried out.

Hog cholera seems to have been more effectively restricted here than in the United States. Latest returns show that only one half of one per cent of our hogs are touched with this disease. The cleansing of our live stock also includes the eradication of other diseases. Contagious abortion and sterility have to be overcome, matters of health in animals which will have reaching results. When it is remembered that over one billion dollars are invested in Dominion livestock, it will be plain that if a saving of only 1 per cent can be effected by prevention of disease, it represents a value of \$10,000,000 to our farmers.

The Committee, recently appointed, including representatives of the Government Departments, livestock producers and packing firms, is beginning to cope with the problem. Its members will need the sympathetic support of every enlightened farmer and producer of livestock. If real success is to be registered, it should not be impossible to have, throughout the Dominion, the self-same spirit shown as in South Dakota. Farmers and breeders especially by helping in this campaign would only be working directly for their own benefit.

### Sir Thomas Lipton Willing to Fly The Canadian Ensign

When Sir Thomas Lipton's "Shamrock IV" and the United States Defender meet to contest the America's Cup, the Canadian Ensign will fly from the masthead of Sir Thomas's steam yacht Victoria and its boat, and launch, according to advice received here today. Further if Sir Thomas succeeds in winning the Cup this year he will visit Canada and bring the Cup with him, save the despatch.

### Use More Beans

The ripe bean is a form of food very much neglected in Canada. Lack of variety is one of the serious faults in our national diet. Many people seem inclined to use a very limited number of foods and, as far as possible, to make each day's meals resemble those of the day before; while, in other cases, the dull routine of a fixed seven day cycle prevails. It is well-known that a varied diet is more wholesome than a restricted one, and, especially in these times when good food is scarce and high in price, it is really deplorable to note the neglect of some of the best Canadian-grown food materials such as beans, peas, Indian-corn and barley, while an imported product, rice, remains quite popular in spite of its inferior quality as food and the commercial objection that Canadian money must be sent to some foreign country to pay for it.

Of all the neglected foods, the bean is perhaps the most important. It contains a large percentage of protein (approximately double the amount found in cereals) and protein is the most expensive ingredient in the materials which we consume. The bean may fairly be said to rank first among the common foods of vegetable origin; peas are of almost equal value, but wheat and barley fall below. Oats also are distinctly inferior on the whole, though they contain much more fat than beans. While it is not true, as has sometimes been assumed, that vegetable protein, as found in beans, can entirely take the place of animal protein, as found in meats, eggs and milk, nevertheless the vegetable proteins have a high food value and the bean could, in many instances, be advantageously substituted for part of the meat ration. Considerable economy would be attained in this way, as beans are very cheap indeed in comparison with most animal products. It must be noted, however, that beans, cannot be eaten freely by everyone. There are a few individuals for whom they seem quite unsuitable; but the vast majority of people would have better, cheaper and more enjoyable meals if beans were used more often. Matters of diet are so often settled by customs of the country rather than by intelligent thought that it is very hard to bring about changes, however desirable. Yet there seems no good reason why the regular use of beans should be limited almost to Massachusetts and a few other favoured localities. In these days when, owing to the high cost of living, many individuals are inclined to break away from some of the older and more expensive customs, the introduction of the bean as a regular article of diet offers an opportunity for the display of a little originality and the exercise of judicious economy at the same time.

### Another Royal Suggestion

# DOUGHNUTS and CRULLERS

From the NEW ROYAL COOK BOOK

DOUGHNUTS made during the war and no wonder. There is nothing more wholesome and delightful than doughnuts or crullers rightly made. Their rich, golden color and appetizing aroma will create an appetite quicker than anything else in the world.

Here are the famous doughnut and cruller recipes from the New Royal Cook Book.

**Doughnuts**  
2 tablespoons shortening  
1 cup sugar  
1 egg  
1 cup milk  
1 teaspoon nutmeg  
1 teaspoon salt  
1 cup flour  
4 teaspoons Royal Baking Powder

Cream shortening; add sugar and well-beaten egg; stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/4 inch thick; cut out. Fry in deep fat hot enough to brown a piece of bread in 30 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

**Afternoon Tea Doughnuts**  
2 eggs  
1 tablespoon sugar  
1/2 teaspoon salt  
1/2 teaspoon grated nutmeg

**Crullers**  
4 tablespoons shortening  
1 cup sugar  
2 eggs  
2 cups flour  
1 teaspoon cinnamon  
1/2 teaspoon salt  
2 teaspoons Royal Baking Powder  
1/2 cup milk

Cream shortening; add sugar gradually and beaten eggs; sift together flour, cinnamon, salt and baking powder; add one-half and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4 inch thick and cut into strips about 4 inches long and 1/2 inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. Drain and roll in powdered sugar.

It is only a short time now until the circus will be here... the Hagenbeck-Wallace circus... will arrive in Newcastle early in the morning of Friday June 25, probably before many of us are out of our beds. The younger members of the family may be up and gone, for they have a habit of early rising on circus days, and it is not often that a chance is given them to see the Hagenbeck-Wallace animals... There is plenty to see, to be sure, even when the trains are empty of their strange occupants, and these will be something doing at almost any point between the railroad tracks and the circus... But it is only an animal show, and it is only an animal show, and it is only an animal show... The performance is to be like... And then the show itself... The Hagenbeck-Wallace show has always been the only one of its kind in the world, and this year it is not only bigger, but so much of the new and novel has been introduced that it is positively different from anything ever before attempted... The animal acts, among them the most thrilling performances imaginable are not only interesting, but have educational features about them... And there are so many of them it would be impossible to give any accurate idea of the variety and immensity of it all... The riding horse that barely shows its feet, comprise a sight which can never be forgotten... Two performances will be given one starting at 2 in the afternoon, the other at 8 o'clock at night... The doors will be open an hour before each show begins, and it will give everybody time to get the zoo and menagerie... For convenience of patrons who wish to avoid the crowd which is always to be found about ticket wagons, the management has arranged for a downtown office... Tickets will be located at Dickson & Tracy's Drug Store... Tickets may be obtained there at the same price as elsewhere, all proceeds wonderful and shared on the grounds.

At Miramichi Hospital June 21st to Mr. and Mrs. James McMurray a son.

SEARCH PARTY ORGANIZED

The Provincial Government have organized and equipped a search party of ten men, who left yesterday morning for the Seville, in search of Clarence Wright who mysteriously disappeared in April last, when on his way from the drive, on which he was working to his home in Newcastle. No tidings of the missing man have since been heard.

It is a matter of regret that some action in this matter has not been previously taken. On two occasions The Union Advocate urged the immediate necessity of a search party being formed, but the usual apathy, which is prevalent in this community was again manifested. Now at this late date, action such as this paper advocated, is being taken. "Better late than never", but we are firmly of the opinion that had something being done, instead of the apathy displayed when we first suggested the advisability of action, much better results would have been obtained.

Sir Lomer Gouin May Retire From Leadership

Quebec, June 4—The first semi-official announcement of the early withdrawal of Sir Lomer Gouin from the leadership of the government of the province of Quebec was made in an editorial published in the Quebec Telegraph, the official English organ of the Gouin government in the city of Quebec.

"Much as the fact will be deplored by all well-wishers of the province, it appears impossible to disbelieve any longer in the persistent rumors of Sir Lomer Gouin's very early retirement from the leadership of the government. It is pleasant to know, if public rumor is to be credited, for the Telegraph is not in the confidence of the premier, so far as his private affairs are concerned, that his future is not expected to be a thing altogether apart from the future welfare of his country. Report has it that he is to form part of the administration of a huge industry of imperial-wide importance now in course of amalgamation, and may also interest himself in a project destined to still further add to western Canada's development and means of transportation."

Road Tax Forms, at the ADVOCATE OFFICE.

WEDDINGS

CHAMBERS—McDONALD J. Allan Chambers, of Halcumb, and Deliah McDonald, of Shilliers, were united in marriage at the Baptist parsonage by Rev. E. A. Kinley, on Monday evening, June 14th.

McFARLANE—McFARLANE George Edward McFarlane and Jennie McFarlane, both of Chatham, were married, recently, in the parsonage of People's Baptist Church, 120 North street, Bath, Maine, by Rev. Samuel A. Evans. The groom is an iron worker at the Bath Iron Works and a son of Alexander and Mary McFarlane and his bride is the daughter of Thomas and Jennie McFarlane. The newly married couple left at once for a wedding trip and upon their return will live at 83 North street, Bath, Maine.

McMURDO—HINTON The marriage of Miss Ethel Hinton daughter of Mr. and Mrs. Thomas Hinton, to Mr. Leslie B. McMurdo, of Moncton, was solemnized at the Methodist Church, at one o'clock Wednesday in Summerside, P. E. I. Rev. H. C. Rice officiated. The bride and bridegroom were unattended. The church was well filled, a large number of friends of the bride being present. After the ceremony Mr. and Mrs. McMurdo left on the afternoon train for a wedding trip. They will reside at Moncton.

WELDON—PARKER A pretty wedding took place Wednesday afternoon in the Methodist church, Derby, when Miss Gladys Parker, daughter of Mr. and Mrs. E. J. Parker of Derby, and Charles E. Weldon of Chatham, were united in marriage by Rev. Ernest Rowlands. The church was tastefully decorated for the occasion, also the bride's home, where a luncheon was served immediately after the ceremony to relatives and immediate friends. The bride, who was unattended, was gowned in nut-brown broadcloth with a black picture hat. The bride received many useful and handsome gifts. Shortly after the luncheon the happy pair left by car on a wedding trip through Maine and New Brunswick. They will reside in Chatham.

DICKENS—BLACK

The marriage of Miss Annie Cecilia Black, daughter of Mr. and Mrs. William F. Black, and Richard William Dickens, son of Mr. and Mrs. W. M. Dickens of Chatham was solemnized at St. Mary's Catholic Church on Wednesday, June 16th with nuptial mass celebrated by Rev. P. W. Dixon. The bride looked charming in a dress of Copenhagen blue silk with hat to match. She was attended by Miss Margaret T. Dickens, who wore navy blue silk. The groom was supported by Hubert Black, brother of the bride. After the ceremony the bridal party drove to the home of the bride where a dainty wedding breakfast was served. Many useful and costly presents were received. Mr. and Mrs. Dickens left on a motor trip and on their return will reside in Newcastle.

**A Lesson In Modest Dressing**

NEW ORLEANS, June 17—A wedding ceremony in St. Louis Cathedral was postponed several hours yesterday because the officiating priest, Father Antoine, of the Order of Oblate Fathers of Mary Immaculate, declared the bride immodestly attired and violated a recent order of Archbishop Shaw of the diocese of New Orleans relative to wearing apparel.  
The priest declared the bride appeared to him "so shocking that he had the sexton put out the lights so that she might retire to her home and properly clothe herself."  
The marriage ceremony was then performed.

**NERVES ALL GONE TO PIECES**

**"Fruit-a-tives" Conquered Nervous Prostration**  
R. R. No. 4, GILBERT PLAINS, MAN.  
"In the year 1910, I had Nervous Prostration in its worst form; dropping from 170 to 115 pounds.  
The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-tives".  
I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. I am never without "Fruit-a-tives" in the house". JAS. S. DELGATY.  
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

**Changes In The Budget**

(Toronto Globe)  
Popular indignation against unjust measures is not always so quickly effective as in the case of the so-called luxury taxes. Having yielded to the all Canada chorus of protest, the modifications in the taxes announced by Sir Henry Drayton, Minister of Finance, should be adopted by parliament with the least possible delay: Every day lost will add to the confusion resultant upon a change from the schedules that became effective May 19. The hope of refunding the difference in the taxes collected under the May budget and what was practically a new one is held out by the Minister of Finance, who, however, says that his new proposals are not retroactive. He has set for thousands of people a problem whose solution is almost hopeless. It looks as if a lot of buyers would have to seek redress from merchants or philosophically reconcile themselves to the loss of the amounts paid under the misnomer of "luxury taxes." That would appear to be inevitable where receipts have been thrown away or lost.  
Nevertheless many of the prospective changes are welcome to the people. Here is an illustration of the relief provided. Under the original budget a tax of ten per cent. of the full retail price paid is collected on boots, shoes and all ordinary clothing costing more than certain specified amounts. It is now proposed to substitute a fifteen per cent. levy on the excess cost above the limiting prices. Thus, a pair of boots costing \$12 would be taxed fifteen per cent. on the three dollars' excess above the nine set out in the present schedule, the tax amounting to 45 cents, against \$1.20 collectable under the May budget. On a \$20 pair the present "luxury tax" would be \$2. As soon as the new schedule is adopted it will be \$1.65.  
The difference here works very much in favor of those who cannot afford high-priced boots and shoes made to follow frequently changing modes and fashions. These purchasers of what one might call standard shoes feel with increasing severity the tax on every dollar spent above the free limit of nine. The same principle applies to clothing, and there is also some relief in regard to cheap ribbons, velvets and velveteens. So far as wearing apparel is concerned, the modified schedules may be more truthfully designated luxury taxes than those now in force. It is the system adopted in the United States that is now brought forward in Canada. Since it is imperative that money must be raised if the Dominion is to meet expenses and pay its war costs, taxation efforts to that end should certainly begin at the point where luxurious tastes are gratified through the ability to pay high prices.  
Costly furniture and china will help to make up the revenue lost by the taxation changes. A levy of fifteen per cent. is proposed on these. There are a considerable number of changes in other directions. Those interested in the youth of Canada will be glad to note that the tax of ten per cent. on sporting goods costing above fifty cents on sporting goods reaching the retailer or who go. Instead limiting prices are set under which no tax is imposed. The playing fields of the country are full of lively illustrations of what taxes on lacrosse, baseball, football, and other outfits mean to the citizens of tomorrow and their family financiers of today.  
Having gone so far, the Finance Minister and his colleagues would do well to harken to the protests against the work-out of the sales tax. The Globe has given some striking examples of how that tax grows until it becomes three, four and even six per cent. instead of the one that it appeared to be on the surface when first introduced. Manufacturers, wholesalers and jobbers are beginning to have practical knowledge of the pyramiding process of this tax. A definite one per cent. sales tax on goods reaching the retailer or who ever else disposes of them direct to the consumer ought to suffice. The consumer pays the tax eventually, anyway. He should not have to pay it from one to six times over. There is need of change here, and it ought to be made with those in the luxury tax schedules and not at a later period, thus adding to the worries of manufacture, jobber, wholesaler, and retailer. A plan such as that suggested would do away also with the necessity for a great deal of machinery and many new officials that would be required if the present scheme is adhered to. Two budgets in less than a month is a stiff dose for any country. The Government should not lose an opportunity to make a third one within another month or so unnecessary.

**Sharps And Flats**

"Four years ago we bashfully introduced a classical number here and there on our program" said the leader of a moving picture theatre orchestra, "but the bulk of our music was of the promenade concert variety. Four years of serious effort has not been in vain. We are not afraid today to play the most difficult and modern compositions and the people like them."  
"Many times my pupils have come to me with some of their fingers so loaded down with rings that good playing was impossible" said a piano teacher recently. "No one can play really well with fingers weighted and encumbered with jingling tinkets. I have heard one teacher who formed such a prejudice against rings that he always insists upon their being removed before playing. Better leave the rings at home when you go for your lesson."  
"Your trouble with breaking strings probably comes from one or two causes" said a violin teacher the other day. "Either your strings are of poor quality or else the trouble comes from perspiration. A string which is being continually soaked with perspiration will naturally be short-lived. You might try rubbing the string with oil of sweet almonds just before you practice. Apply the oil about half or two-thirds of the string, commencing at the nut."

Mendelssohn was a human sort of man, a charming personality. At eighteen he had the grace, the courtesy and brilliancy of a cultivated man of the world. He loved outdoor life, rode horseback, was fond of swimming and indeed had a special passion for water as shown in three of his concert overtures; Fingal's Cave, Meeresstille und Die Schone Melusine, Mendelssohn declared once: "I think I love the sea better than the sky." He was also a skillful billiard player, danced exquisitely and everywhere he was admired and imitated.

"One day over in France when my regiment had been on the hike for several hours something happened, something very simple in itself yet very electric in its effect on the marching men" relates a returned Canadian soldier. "The leading unit in the column broke into song. Its air was immediately picked up by the succeeding units in the column. Some of the men sang the words; others hummed the air; still others whistled the rousing tune. The effect of that song was like that of recharging a worn out battery. Heads were thrown up and chests thrown forward. Snap and pep replaced a listless and disinterested swinging of arms and legs, and the latter synchronized perfectly with the tempo of the song."

Unquestionably, the most direct means of appeal to the pupil's attention is through pleasing music. Dry pedagogical music implies in every case forced attention, if any; bright attractive music secures immediate and vital attention. Hence music should be selected, not merely for its intrinsic value (which, of course should always be considered), but also for its power of appeal to the pupil's taste. In general, that taste demands primarily modern, up to date music rather than the classics, just as a young person prefers to read for his amusement a modern novel rather than Shakespeare or Milton. Let the classics be introduced judiciously, therefore, in small doses and as the pupil is prepared to appreciate them.

The first cigarette shop in England was opened in London some sixty years ago by a former officer of the Greek army.

Under the Smelter law it is a violation for a smelter to discharge into the atmosphere for twenty years, its so-called "ancient light" and no building may be erected which may obscure it.

**SUGAR JUMPS 2 CENTS A POUND**  
Montreal, June 16—Notices were  
sent out this afternoon by all the  
Montreal sugar refineries—that at 4  
p. m. today the price of granulated  
sugar would go up two cents per  
pound with proportionate increases  
in other parts of Canada according  
to the freight charges.  
No statement was issued by the re-  
finers as to the cause of the increase  
save that it was due to the high  
price of raw sugar and the increase  
in the cost of refining with high wag-  
es and higher cost of everything in-  
volved in the manufacture of sugar.

**Prohibition Only  
Cure For Bars**  
In certain quarters it is stated that  
in the event of the Prohibitory Law  
not being retained, there will be no  
return to bars. In answer to this it  
might be said that, if the sale is  
legalized, liquor will be procurable  
some place or places that will take  
the place of bar, whatever term may  
be applied to same. It is impossible  
to dodge the issue, and if the voters

take the responsibility of voting  
against the principle of prohibition  
it will mean a setback of many years.  
If one does not wish the temptation  
and misery of liquor to continue it  
is absolutely essential to vote July  
10th in favor of Prohibition.  
One hundred and fifty cowboys  
employed in motion picture work  
at Los Angeles are on strike for  
an increase in pay from \$7.50 to  
\$10 a day. The making of pictures  
by six companies is held up pending  
a settlement.

**Sale - THURSDAY, FRIDAY and SATURDAY - Sale**

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full size packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising.

We will only be permitted to run this sale occasionally. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We can not afford to charge or deliver goods during this sale. So please don't ask us to do it. These prices do not include the War Tax.

## And His Family Medicines

MOST people first know Dr.  
Chase through his Re-  
ceipt Book. Its reliability and  
effectiveness made him friends  
everywhere.

When he put his Nerve Food,  
Kidney-Liver Pills and other  
medicines on the market they  
received a hearty welcome, and  
their exceptional merit has  
kept them high in the public  
esteem.

Take Dr. Chase's Kidney-Liver  
Pills for example. There is no treat-  
ment to be compared to them as a  
means of regulating the liver, im-  
proving the blood and curing consti-  
pation, indigestion, kidney disease  
and indigestion.

See Dr. Chase's list of all dealers,  
in Birmingham, Hove & Co., Ltd., Toronto.

Pills**

## LOVE AND POETRY

Combination Long Prominent in  
Japanese Weaving.

Custom of Utagaki First Mentioned in  
Fifth Century. Though Believed  
to be Much Older—Devoted  
to Verse Making.

One of the prettiest customs of old  
Japan that has survived the new or-  
der is the Utagaki, or gathering of  
Japanese young men and women in  
flower season to compose odes to the  
blooms and to the moonbeams,  
forming friendships that often endure  
through life. It is first mentioned in  
the time of Emperor Yuryaku in the  
fifth century, although no doubt much  
older.

The Utagaki, or primitive form of  
weaving, according to which Utagaki  
was most fashionable, took place at  
Fusaki in the vicinity of Mount Utagaki. At these  
happy gatherings, if a man failed to  
win the heart of the lady he was bent  
on winning, the others made a laugh-  
ing-stock of him and jeered him to in-  
dignation. Consequently, suitors were  
persevering in order to escape ridic-  
cule.

As the meeting came to order, if  
there was order, each of the partici-  
pants selected a theme for the ode to  
be composed. After the competition  
was completed, the man recited his  
achievement to the company, and a  
lady was asked to recite hers; and so  
it went, men and women reciting in  
turn, until all had done.

Those whose verses pleased the au-  
dience most were then commended  
for their efforts. The man whose  
verse won most approval was to have  
the lady whose verse was deemed  
best. At least it was easier for the  
ladies to like the men who were most  
expert in these odes, which created  
jealousy among those not so expert.  
The upshot of it all usually was that  
all finally mated before the festival  
was over.

This custom of Utagaki continued  
popular for centuries. Competition in  
poetry and love was considered wor-  
thy of emulation. One does not won-  
der that it frequently led to war.

As a rule the higher classes did not  
allow their daughters to go from  
home unattended; but the Utagaki  
was always considered an exception to  
the rule. Nor is it remarkable that  
we often read in the literature of this  
period such expressions as "fell in love  
at first sight," and so on. It was only  
natural that in time, as civilization  
advanced, the custom of holding  
Utagaki should fall into disuse.

There is a belief in Japan that the  
custom of holding these poetic love-  
meetings is as old as the first emperor.  
It is said that an incident in the life  
of the imperial house gave rise to the  
custom of Utagaki. In those far-off  
days marriage, in the case of 100,  
took place by the exchanging of odes,  
which were expressions of love.—  
Japan Magazine.

### Make 2,000 Ukuleles a Month.

The ukulele, the Hawaiian musical  
instrument, which has attained con-  
siderable popularity in the United  
States the last year or two, was first  
produced by a Portuguese at Honolu-  
lu, and it at once made a hit with the  
natives. It is made chiefly from a na-  
tive wood known as koa wood. The pe-  
culiar tone is obtained only when well-  
seasoned wood is used, properly pre-  
pared and fitted. In the islands the  
instruments sell at from \$3.75 to \$20  
each, according to quality and decora-  
tion. In the past year the monthly  
production of instruments has tripled,  
that for September amounting to 1,800.  
A company was recently organized at  
Honolulu to manufacture 2,000 ukule-  
les a month; it is estimated that the  
total output in the coming year will  
be about 40,000.

### Will Develop Island Property.

Evidently there is one man in Eng-  
land who is not seriously disturbed by  
the idea that the ownership of large  
estates will progressively give way to  
the division of land into small hold-  
ings; at any rate Lord Leverhulme has  
not hesitated to purchase Lewis Island,  
which, next to Great Britain and Ire-  
land, is the largest of the British  
islands. Lewis Island covers some 770  
square miles, off the west coast of  
Scotland, and has a present population  
of about 30,000 people. This, however,  
it is said, the new owner regards as  
quite an inadequate population for his  
island, which he thinks should reason-  
ably support 500,000. His plan is to  
make his property the center of the  
British fishing business, and he has al-  
ready shown his ability on the Mersey.

### A Peer as a Corporal.

Lord Crawford, chancellor of the  
duchy of Lancaster, whose principal  
house is High-hill, Wigton, has ap-  
plied as "Corporal Crawford" for  
membership in the "Widow's branch of  
the Committee of the Great War." In  
the early days of the war he was se-  
lected as a private in the Royal Army  
Medical Corps, served in France as a pri-  
vate, and was later promoted to a  
corporal, which rank he still retains.

### Killing a Mercury Rhyme.

Mother—And are you learning any-  
thing in your lessons in natural his-  
tory in school, Ethel?  
Ethel—I think I am, mamma.  
Mother—What have you learned?  
Ethel—Well, it's taught me so thick  
that it wasn't a cow that jumped over  
the moon at all; that it was a kangaroo.

## Water Requirements Of Dairy Cattle

U. S. Dept. of Agriculture test dem-  
onstrates the erroneous concep-  
tion which many farmers and stock-  
men have regarding the watering of  
dairy cows. Some dairymen contend  
that the more water one can induce  
a cow to drink the more milk she  
will produce. The Federal experi-  
ments show that the difference in  
effect between watering at will and  
twice a day was not pronounced. The  
cows with water always available  
drank less and produced more. Per-  
haps the increased milk production  
was more or less a matter of tem-  
perament and individuality. The  
cow wants water when she wants it,  
and she will not do her best in the  
way of yielding milk unless her  
thirst is satisfied when it is most  
keen. There was no apparent differ-  
ence in the gains in body weights of  
the cows which were watered twice  
daily and those watered at will.  
These methods of watering were  
effective of greater milk yields, larger  
consumption of water and greater  
gains in live weight than occur-  
ing where the animals were watered  
only once a day. The experiments  
point to the tentative conclusion that  
the advantage of having water con-  
tinuously available lies mainly in the  
saving of labor rather than in a  
greater production of milk.  
It is worthy of mention that an  
average dairy cow normally will  
consume 75 to 100 pounds of water a  
day. Average producing cows even  
drink as much as 150 pounds of  
water daily, while exceptionally  
heavy yielding animals drink as  
high as 200 to 250 pounds of water  
every twenty-four hours. One official  
record is on the docket of a high  
producing cow which drank 300  
pounds of water a day without ill  
effects. As milk is more than 85  
per cent. water, it is not surprising  
that cows which yield 55 to 60 and  
more pounds of milk daily utilize  
large amounts of water.

## Foreign Railways and Rates

During December, 1919, and Janu-  
ary, 1920, the Italian railways ad-  
vanced their first-class passenger  
fares 50 per cent, their second-class  
fares 50 per cent, and their third-  
class fares 50 per cent. Both freight  
and passenger rates already during  
the war had been advanced 30 to 45  
per cent.  
The passenger rates of the French  
railways, two of which are operated  
by the government and all of which are  
being operated under government  
control, were advanced 40 per cent  
during the war and the freight rates  
30 to 35 per cent. Because of the  
deficits which have continued to be  
incurred proposals for further ad-  
vances have been under considera-  
tion.

The advances in rates on the Aus-  
trian railways since pre-war days  
have been enormous. The increase  
of 30 per cent made in February,  
1920, made the total increase about  
350 per cent.

In September, 1919, freight and  
passenger rates in Belgium had been  
increased 40 to 50 per cent since pre-  
war times. Further increases have  
been made since then.

In September, 1919, freight and  
passenger rates in the Netherlands  
were advanced 50 per cent.  
Very much the same advances  
reported in any country have been  
made in Germany, where, it is well  
known, practically all the railways  
are owned and operated by the gov-  
ernment. Repeated advances were  
made during the war and still fur-  
ther very great advances have been  
made since the signing of the armis-  
tice. The passenger rates now aver-  
age about 100 per cent higher than  
before the war, and the freight rates  
about 500 per cent higher.

Large advances in rates have also  
had to be made in many countries  
which were remote from the seat of  
hostilities. For example, in Decem-  
ber, 1919, all freight and passenger  
rates on the South African Govern-  
ment railways were advanced 25 per  
cent, while in August, 1919, a rate  
of 20 per cent in both freight and  
passenger rates was made in Brazil,  
and in October of the same year  
additional increases were proposed.  
Even in Australia, which was about  
as remote from the theatre of hostil-  
ties as any part of the world, all the  
government railways have suffered  
severely from the effects of the war  
and have had to make advances in  
their rates.

The railways of Great Britain were  
placed under government control at  
the beginning of the war and are still  
being thus operated. During the war  
the passenger rates were advanced  
50 per cent, while the freight rates  
were not advanced at all, and be-  
cause the increases in expenses  
greatly exceeded the increases in  
rates, the government incurred a  
large deficit. To reduce or wipe out  
this deficit advances in the freight  
rates of the British railways were  
made effective on January 15, 1920,  
and extra charges were added to  
rates which cover the cost of fuel and  
delivery of freight at stations as well  
as its transportation. In March, 1920,  
the demurrage charges imposed for  
holding a car one day beyond the  
period of free time were increased  
10 per cent, and the charges for  
shunting were 200 per cent.

NOT  
SOMETHING  
NEW  
— BUT  
SOMETHING  
GOOD

FOR almost fifty years Beaver Flour has  
been demonstrating to Canadian women  
that it is unrivalled as the best flour for  
general baking purposes.

The chief reason for this is that "Beaver" is a  
blended flour,—containing all the richness and  
goodness of the world-famed Ontario Winter  
Wheat combined with enough Western Hard  
Wheat to give it strength.

# BEAVER FLOUR

enables any cook to produce bakings that are real  
food treats.

Bread made with Beaver Flour has that delicious, nut-  
like, homemade flavor so much sought after by all who  
appreciate good things to eat; while pies, cake and  
pastries are noted for their lightness, crisp flakiness  
and even texture.

Beaver Flour has earned its enviable reputation for  
superiority. If you are not using it now—try it! Sold  
by your grocer.

## A Voice From Western Canada

- (1) Sheep grazing on uncul-  
tivated land in the Brooks Dis-  
trict.
- (2) A part of the Brooks  
Aqueduct showing one end of  
the syphon where it goes under  
the C. P. R. Main Line.
- (3) A first year's crop of  
wheat in the Brooks District.  
The house was erected under  
the C. P. R. Loan Policy.

At Cassia, Alberta, 73 miles  
west of Medicine Hat, and 103  
miles east of Calgary, on the  
coast-to-coast line of the Canadian  
Pacific Railway an area of land was  
taken up this year by a colony of  
Seventh Day Adventists from Wash-  
ington and Oregon. They certainly  
made up a splendid community. To  
my great surprise, most of them are  
taking up farming for the first time.  
There are professional men, business-  
men, clerks, teachers, music teach-  
ers, nurses, mechanics, carpenters,  
and representatives of several lines  
of work. A desire for healthful  
occupation, together with the neces-  
sary ambition to make money, has  
led them to settle in this country.  
The climate is delightful, the in-  
tense heat being usually tempered  
by cooling breezes. Though the  
summers are short, the long day-  
light hours with continuous sun-  
shine, force the crop to early ma-  
turity.

I have seen thousands of sheep  
grazing in the prairies, the huge  
herds of cattle and horses rang-  
ing everywhere and the golden  
harvests as far as the eye could  
reach. Huge tractors do all the  
heavy work.

On account of the drought this  
year, the crops on dry land in this  
section have been almost a total fail-  
ure. But on the irrigated land,  
they have surpassed all expectations.  
This particular community has just  
been holding its agricultural fair at  
Brooks, six miles east of here. The  
exhibit of cattle, horses, sheep,  
grains, alfalfa and vegetables was  
certainly far above the average. This  
is especially surprising, as it repre-  
sents the first attempt at farming in  
this section of the country.

The water supply for irrigating  
cattle here comes from the Brook-  
s about 120 miles west through  
the Bow River. At Cassia there  
is an immense dam, costing three  
and one-half millions. From this  
dam, the water is conveyed through  
large main canals to the smaller

Each quarter section has a  
headgate or weir where the water is  
measured to the farmer. Then the  
farmer has to build a main ditch  
with many laterals, to get the water  
spread over his land. The "ditch-  
riders" regulate the amount of water,  
that each farmer shall have. They  
oversee six miles of ditch. The  
farmer pays the Canadian Govern-  
ment \$1.25 an acre per year for the  
use of the water.

The flume at Brooks, a great piece  
of engineering work, is about half  
mile long and 200 feet high. It  
carries the water from one hill to  
the other, a distance of about four  
miles. The structure of re-enforced  
concrete cost over two million  
dollars. Great twenty millions have  
been spent on this irrigation system  
and as much again will be spent be-  
fore it is completed.

A short distance east of Cassia is  
the soldier colony; 50 ready-made  
farms, each with necessary build-  
ings, and 75 acres of land broken.  
These farms are sold to returned

soldiers on long term easy payments.  
To the south is Taylor's sheep ranch  
where they have over 25,000 head of  
sheep. This is only one of the  
many large sheep ranches in this  
section. Near Brooks (22 miles  
west of Brooks) is the Duke of Sutherland  
—a farm of 7,500 acres. This year  
they have 2,000 acres in wheat, and  
100 acres in alfalfa. Some of the  
land produced 2 1/2 tons of alfalfa to  
the acre. They have had three cut-  
tings this year. There is so little  
doubt here that there is no difficulty  
in caring for the hay. Twelve miles  
east of here is Lake Nowell, the  
fishing ground for everybody. Where-  
ver there is any water, there are  
thousands of ducks and geese. The  
duck hunting season has just open-  
ed and we have been well supplied.  
Flax is a good crop. The seed is  
used for linseed oil, the stalk,  
which is very strong, for linen fiber.  
It now brings \$4.25 a bushel. Wheat  
and oats are usually put in the  
best crop.

W. T. S. Cassia, Alberta.

### He Feels Better Now Than in Years

Although A Young Man Dumphy Felt Like an Old One. But Is Feeling Fine Since Taking Tanlac.

Few of the ills that flesh is heir to are so distressing or so unfit a man for his daily work as chronic indigestion. Among the many thousands of testimonials received which prove that Tanlac is particularly successful as a remedy for this complaint, is that of Charles Dumphy, who resides at 83 Simon's street, in St. John, N. B. Mr. Dumphy is a carpenter who has lived in St. John for many years and is well-known to a large circle of friends in his district. This is what he has to say concerning his own experience with Tanlac.

"Chronic indigestion has been my trouble. It started a little over three years ago. If ever I ate anything like fat meat or cake it used to upset me. Then I got worse all my food used to disagree with me and my stomach used to sour horribly after every meal. The gas would form so that my stomach would feel as tight as a drum and I used to gasp for breath. This feeling was very bad at night and I often woke with a feeling that I was being smothered. Then I would have to get up and take something like soda to try and get the gas off my chest. Often I sat up for hours unable to get relief. I got so at last that I was afraid to eat anything at all because of the way I used to suffer afterwards. I guess I tried every known treatment for indigestion, but none of them gave me more than temporary relief. I'm still a comparatively young man, but I tell you I was feeling like an old one.

"One day a paragraph in the papers caught my eye. It was the statement of a man who had suffered just as I had, and who got wonderful help from Tanlac. I went straight and bought a bottle. Well, sir, I'm here to say that Tanlac did more for me than anything else I ever tried. It seemed to settle my stomach right away. I soon found that my food agreed with me and that I could eat almost anything without having to suffer from it afterwards. I've taken four bottles in all and I am feeling better today than I have for years. Life is worth living now, and so long as I can obtain Tanlac I shall not fear the indigestion or any other trouble."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

### German Gun Excites Much Interest In Albert County

The captured German gun, won by Albert county in the last Victory Loan campaign, has been placed in the public square in front of the county buildings at Hopewell Cape the shiretown. The war trophy has excited considerable interest and many have visited Hopewell Cape to have a look at the captured weapon. The gun is a German field piece of 4.02 inch bore, and had evidently been constructed for hard service. The breech and firing mechanism had been removed before it was abandoned, but otherwise it is in good condition, though showing it has gone through hard usage. On the shield and other parts inscriptions read: "War trophy, No. 941, Canadian Second Division, captured and claimed by the 26th battalion."

### Big Political Developments are Expected

Ottawa, June 21—The coming week is expected to be productive of far-reaching political developments. For one thing, it is likely to be decided whether Sir Robert Borden is to remain as Premier, or whether he is to step down and relinquish the task of leading the Unionist party, to a younger man. A caucus of the Unionist parliamentary party is expected to meet toward the end of the week, when Sir Robert will probably make a statement regarding his intentions. What his decision is likely to be no one in the capital, not even the Premier's closest associates, is in a position to say. Since his return from the South, Sir Robert has kept his own counsel, maintaining a sort of Wilsonian aloofness from his cabinet colleagues and parliamentary followers, a fact which has not enhanced his popularity in the House. A decision, however, has to be made sooner or later, and while there are some who believe that it ought to be later, the great bulk of the party are firmly demanding that the Prime Minister lay his cards upon the table and end a period of dangerous uncertainty.

In regards to Sir Robert's health reports are conflicting. He is, so far as outward appearances are concerned, greatly improved, but there are many who believe that his vigor is more apparent than real, and that the orders which his physicians gave him six months ago, namely, that he must retire in order to have a fair chance for his life, hold equally good today.

### Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

### GENUINE CASTORIA ALWAYS

THE CENTAUR COMPANY, NEW YORK CITY

## EXTENDING C.P.R. WORKS

In order to speed up on the construction of equipment required for the rapidly expanding traffic on the Canadian Pacific Railway, large extensions are being made at the Angus Shops in Montreal, which are already the most elaborate and comprehensive of their kind on this Continent. These extensions will cover a quarter of a million square feet and are expected to cost approximately a million dollars. The largest addition will be made to the passenger car shops, amounting to 71,000 square feet, while over 55,000 square feet will be added to the locomotive shops, and 42,400 to the freight car shops. The following are the detailed particulars of the extensions:

**Locomotive Shop.**—The extensions to the Locomotive Shop will consist of an addition at each end of the present shop to give an additional floor area of 55,000 square feet. The construction will be steel frame, concrete foundation, brick walls. Mastic floor will be placed on the west end extension and wood block floor on concrete in the east end extension. The east shop extension is to be used as a running shed, and for this reason pits with mill type smoke jacks will be installed. All of the skylights will be constructed in wood as metal has been found to deteriorate very rapidly, and for the same reason mill type ventilators will be used throughout this shop.

**Freight Car Shop.**—Consists of an extension to the present building at the west end, 106 feet wide by 400 feet long, giving an additional floor area of 42,400 square feet. The construction will be steel frame, concrete foundation, brick wall, wood floor and roof similar to present building.

**Fuelers Storage.**—This shop will be extended at the west end 75 feet, and will be 50 feet in width, and is a three-story fireproof building. The construction will be steel frame, concrete foundation, brick walls, steel sash, concrete roof and floors.

**Passenger Car Shop.**—Consists of an extension of 168 feet by 151 feet between Shops 2 and 4, and 137 feet by 151 feet between Shops 1 and 3; and 117 by 233 feet east end extension of shop three, giving a total increased area of 71,000 square feet. The construction will be steel frame, concrete foundation, brick walls, mill type roof, concrete and mastic floors. These shops will be all served

(1) Some of the machinery in the Angus Shops.  
(2) Cars for passenger service turned out at Angus Shops.

from the present transfer table, the pit of which is being extended.

**Car Electrical Shop.**—This is a new building 62 feet wide by 363 feet long, giving a floor area of 22,000 square feet. The construction will be steel frame, concrete foundations, with brick walls and acid proof mastic floor.

**Fuelers Mill Shelter.**—A shelter 124 feet by 144 feet long will be built on the west end of the present plant for the purpose of keeping material under cover as a weather protection and will give an area of 17,856 square feet for this purpose.

**Big Mill.**—Your new mill will be added to the present west end mill, increasing the area by 7,600 square feet. The construction will be ap-

proach with ventilating ducts in walls built in brick and concrete foundation.

**Track Scale.**—A few heavy service tapered floor track scale will be installed at the west end, of a capacity large enough to weigh locomotives. The construction will be of the most modern type with self-aligning beam, scale shelter and concrete pit. The floor of the scale will be steel beams and stands, with a mastic scale platform.

**Tracks.**—A number of track changes and additions will be made. The bed of the yard will be provided with a new drainage system which will be installed as well as a new standpipe for the use of switching engines.

# Local and General News.

**PRESBYTERY MEETING**  
The Presbytery of Miramichi is meeting in St. John's Church, Dalnour this week.

**CLOSED FOR HOLIDAYS**  
St. Mary's Academy closed on Friday last for the summer holidays and Harkins' Academy, closes this Friday 26th.

**EXTENDS SYMPATHY**  
The L. L. A. wishes to extend their sympathy to Mr. Daniel MacDonald and family, in their recent sad bereavement.

**NEW CHURCH OPENING**  
The new Methodist Church at English Settlement will be opened on Saturday and Sunday June 26th and 27th. See Advt. in another column.

**MOOSE PLENTIFUL**  
Parties who spent the week-end in Tabusintac report that moose in that section are very plentiful. A number were seen on the highway between Neguac and Tabusintac.

**PROHIBITION SERMON**  
The Rev. L. H. MacLean delivered an able and effective Prohibition sermon at the morning service held in St. James' Presbyterian Church on Sunday June 20th.

**THE LONGEST DAY**  
Of the year is with us again, and as yet we have had very little summer weather. From now on we can make preparations for the coming winter, which will be with us almost before we are aware of it. Surely we possess a most beautiful climate.

**OCCUPIED PULPITS**  
Mr. Fraser of Welcome Hall Mission, Montreal, Quebec, occupied the pulpit of the Baptist Church during the morning service on Sunday, and the St. James' Presbyterian Church pulpit in the evening. Mr. Fraser has had a wide and varied experience and is a forcible and eloquent speaker. Both of his services were well attended and the messages delivered by him were of a practical nature and much appreciated by the congregations.

**BIG LABOR PARADE**  
The 1st of July, Dominion Day, has been selected by Labor as their big day of the year, and they purpose holding a big event this year in Chatham. They intend to make the event a gala one and during the morning a mammoth parade of organized labor will be held. In the afternoon a fine program of sports is being prepared and the committees in charge are hard at work arranging all the necessary details. It is the intention of the Union to make this event one of the largest turn-outs that has ever been held in the Province. The organized unions on the Miramichi River from Newcastle to Loggieville have a membership of over 2500, and with such a number of members who are all keen to make the day a success, there is no doubt but that their desires will fully be accomplished.

**SOME CONSTABLE?**  
Constable Harry Brobecker of Chatham was deputized to go to Blackville on the day that Howe's circus appeared there to look after the different fake devices which are usually carried along with circuses etc. He went there, and along with his daughter set up a Crown and Anchor Board, (which is another fake game) outside the enclosure where the circus was being held. While Harry was on the inside acting on behalf of the law to suppress fake games, his daughter Miss Brobecker was on the outside playing a fake game for all she was worth. These are also actions for one of our sworn constables to pursue. The same thing applied to the day when the Howe Circus appeared in Chatham.

He also was on his way to Roseville to carry on the same game during the day the circus performed there, but was met at Newcastle by Chief of Police Ashford, who politely told him that if he thought he was going to do the same thing in Roseville as he had done in Chatham and Blackville, that he was sadly mistaken. Brave Harry concluded that the game was up and he hastily beat his retreat home to Chatham. "Some Constable!"

**MAGIC BAKING POWDER**  
Contains no alum  
We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

**GARDEN PARTY IN CHATHAM**  
The Earl of Chatham I. O. D. E. will hold a garden party on the grounds of Mr. J. W. Brankley, Wednesday July 7th in aid of Hotel Dieu and Miramichi Hospital. Particulars later.

**MIRACULOUS ESCAPE FROM DEATH**  
Last Friday afternoon Mr. Chas. H. Gough, who was driving his own car and accompanied by Mrs. Gough and little child, Mrs. R. L. Maltby and Miss Dunnett had a miraculous escape from death on the James Goodfellow hill on the South Bank side of the Miramichi River. This is one of the steepest hills on this side of the river and is approached by a turn in the road which makes it impossible for cars to get a run at the hill before ascending it.

Mr. Gough attempted to go up the hill on high gear and soon after realized that it was impossible for him to do so, and endeavored to change gears when the engine stalled and began to back down the hill. The brakes were applied but they failed to hold the car with the result that the car kept crashing down the hill for a distance of about one hundred feet. At the bottom an old bridge was situated, and here the car upset and went over twice with all its occupants. Miss Dunnett, suffered a severe injury about the head and face, while Mrs. Gough and little child and Mrs. Maltby received a few slight bruises and a severe nervous shock. Mr. Gough was fortunate in not receiving any injuries. The rear portion of the car was considerably damaged, but was capable of bringing to town under its own power the injured party. It is a miracle that the occupants were not all seriously hurt or killed. At time of writing Miss Dunnett's condition is much improved.

## OBITUARY

**MRS DANIEL MACDONALD**  
The community was shocked last evening about 8.30 o'clock to hear of the sudden death of Mrs. Daniel MacDonald. The late Mrs. MacDonald left her home about 5.30 p. m. to visit her mother who lives on Lower King's Highway and when opposite Mr. David Ritchie's residence became weak and sat on the sidewalk. Mr. Howard Underhill who was passing with a team assisted Mrs. MacDonald on the seat and drove her home. While being driven to her home the deceased lady became unconscious and died shortly after her arrival at her home. Besides her husband, she leaves to mourn three sons, Clifford, Allan and Eric, all residing at home, and three grandchildren, Louise, Thelma and Flora. Deceased was born in P. E. Island and was in her fifty-third year and was a staunch adherent of St. James' Presbyterian Church. Particulars of funeral will be announced later.

**JAMES LANGIN**  
Millerton lost one of its most respected residents Wednesday morning June 18th in the death of Mr. James Langin. Deceased was seventy-seven years of age and leaves to mourn besides his wife, three daughters, Mrs. Albert Coldrick, Mrs. Abram Perry, Miss Vera and five sons, George, John, Frederick, Walter, and William, all at Millerton. The funeral took place Friday afternoon at 2 o'clock. Service was conducted by Rev. W. Matthews, interment was in the Derby Presbyterian cemetery. The local tributes were many and beautiful showing the high esteem in which deceased was held.

**CIRCUS DAY**  
Friday, June 25th is Circus Day in town, and a big crowd is expected to be in town.

**BAND CONCERT**  
The Newcastle Concert Band gave another of their delightful programs in the Band Stand on Thursday evening.

Job Compositors and Pressmen should read the advertisement of The News Publishing Co. Ltd., of Truro, N. S., in this issue. The News Office employ about 75 people.

**GARDENS DAMAGED BY FROST**  
Considerable damage was done by frost last Thursday night to gardens in the town. Beans and Tomatoes were the principal sufferers.

**PROPERTY TRANSFER**  
Dr. J. E. Park has sold his property on Pleasant Street to Mr. Angus Melvor who is now occupying same as a Blacksmith Shop. It is reported that Dr. Park has purchased Mrs. A. E. Shaw's residence on Pleasant St.

**UNFORTUNATE ACCIDENT**  
Mr. C. Hudson, who was to appear at the Opera House last Wednesday evening in the latest New York and English songs had the misfortune of falling down the hold of the steamer at D. J. Ritchie & Co's wharf Wednesday and fractured his jaw.

**MILL SAW BILLS**  
The Advocate Office has just finished printing a stock of the latest Mill Saw Bills, which was drafted up by the Mill owners on the Miramichi River. This Saw Bill is suitable for any mill on the river and we are now prepared to supply them to all desiring same.

**REPAIRING ROAD**  
The Public Works Committee have a number of men and teams hauling stone on a portion of the King's Highway. This section of the road has been in need of repair for a number of years, and when finished will be in a much better condition.

**CONGRATULATIONS**  
In the Montreal Star of June 14th, we notice in the results of the fourth and first year, (five years course, in medicine at McGill University, the following:  
"Honors in aggregate of all subjects of the year, R. H. Morriss; B.A. Newcastle, N.B."

**INDEPENDENT ORDER OF FORESTERS**  
The monthly or special meetings of the various Courts of the Order in this vicinity have been held to select delegates to represent them at the High Court session, in St. John, on July 6th and 7th. The representatives elected, to date, are as follows:  
Court Miramichi (Newcastle) — George Stables.  
Court Douglastown (Douglastown) — Joseph H. O'Brien.  
Court Brunswick (Chatham) — J. Y. Mersereau.

**A DISGRACEFUL SIDEWALK**  
We wish to draw the Public Works Committee's attention to the condition of the Castle Street sidewalk from the Town Hall to Mason's Corner. A look at it will convince the committee that it should be repaired. A number of large holes, which are very dangerous, make it almost unfit for pedestrians. The property owners on this street pay a large amount of taxes and they should at least be given a respectable sidewalk. This street is one of the most principal business streets in the town and the majority of the town's visitors live on this street at the Miramichi Hotel, and the condition of the present sidewalk does not give them a very good impression.

## Healthy Children Are Happy Children

The well child is always a happy child — it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well — they are in need of medicine — something that will set their bowels and stomach in order, for nine tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulates the bowels, sweetens the stomach, and thus drive out constipation, colic, indigestion, break up colds and simple fevers and make the baby happy and healthy. Concerning them Mrs. Albert Hamel, Pierreville, Que. writes: "Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when, nothing else would, and I can assure you she is now a happy child." The Tablets are sold by all drug dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## THUNDER STORM ON CIRCUS DAY

Friday was Circus Day in town. The Hagenbeck-Wallace Shows were held on Jane Street, near the C. G. Railway station and ideal summer weather prevailed.

There was the usual influx of visitors from neighboring towns and country districts, that such an occasion calls for. Business was practically suspended during the afternoon, many of the mills, stores and offices closing to permit young and old to see the show. The customary parade was held in the morning and the afternoon performance was well attended. The numerous other attractions in connection with the circus were also liberally patronized. Just as the Big Show was over in the afternoon a heavy thunder and lightning storm accompanied by rain set

## NEW METHODIST CHURCH OPENED

Opening and Dedication Held at English Settlement on Saturday and Sunday.

The opening and dedication of the new Methodist Church at English Settlement took place on Saturday and Sunday 28th and 27th inst.

On Saturday evening at 7.30 o'clock a public meeting was addressed by Rev. Dr. Heartz of Nova Scotia, and Rev. H. Harrison and J. A. Ives, former pastors of the congregation.

On Sunday morning at 11 o'clock, the dedication of the new church was held and the address was delivered by Rev. Dr. Steele, Superintendent of Missions.

At 2.30 p. m. Public Worship was held, the sermons being delivered by Rev. H. Harrison and J. A. Ives.

Public Worship was also held at 7.30 p. m. Sunday evening and an eloquent sermon was preached by Rev. Dr. Heartz.

Each service was largely attended.

The offerings at the above services are to be used for the clearing off of the balance of debt now on the new edifice. The perseverance of this congregation in building their new church is a most remarkable one, and worthy of imitation and adoption by many other congregations.

Last summer the congregation decided to build a new church, and two weeks after the decision to do so was arrived at, the basement was dug, foundation laid and work on the framework was begun. The co-operation of the part of the members was such that the work was made easy and the building was rushed to completion. The labor was all done by members of the congregation free of charge and the value of such would amount to about \$1500.00. The cost of the church irrespective of the labor amounted to \$3677.84, and the whole amount up to Saturday evening June 26th had been paid off with the exception of \$238.38. The collections received at the services on Sunday were as follows: Morning service \$145.47, afternoon service \$146.40, evening service \$36.86, making a grand total collection for the day of \$378.73, and reducing the debt now on the church to the insignificant amount of \$249.65. This represents the full indebtedness, as all accounts outstanding have been taken into consideration. The weather was ideal for a function of this nature and many visitors from Newcastle and surrounding districts motored to the settlement to take part in the proceedings. The church is built on a beautiful site, is modern in every respect and the congregation is to be congratulated on their grand achievement. Rev. Mr. Rowlands the pastor, at the evening service thanked the laborers for their work on the building, especially mentioning Mr. Allan Whitney and Mr. Ernest Tozer who were the chief builders, Mr. Alex. Hare the painter, Mr. Jackson Baisley who was the means of securing the bell, Mr. Kiah Copp, the Treasurer, Mr. Herbert Phair, the Secretary, Mrs. Wm. W. Waye, the Collector, the Ladies and the Trustees of the congregation. During the services the choir was ably assisted by members of the Newcastle church choir. At the close of the evening service the Sacrament of Baptism was administered to four children of Mr. and Mrs. Thomas Mullin. The Rev. Mr. Rowlands vacates this charge and his successor will be the Rev. Mr. Scott.

in and many of those who attended the afternoon show were obliged to remain in the tents for about two hours until the storm had passed. This heavy shower put a damper on the night's performance, as the management immediately ordered the tents to be struck and loaded on the train. Many who intended seeing the evening's performance were thus disappointed. At 9 o'clock everything was loaded and the first train left for Amherst at 9.30 p. m.

Good order was noticeable throughout the day, despite the crowds that thronged the streets and show grounds.

The show was one of the best and cleanest seen here for a number of years.

## HARKINS ACADEMY GRADING CLASSES

Promoted from Grade VI to Grade VII. (In order of merit—Margaret Stables, Margaret Clarke, Viola Dutcher, Elizabeth Jardine, Cora Weldon, Vera Geikie, Irene Hill, John Keating, Bertha Copp, Dickson Ashford, Hannah Muir, Sandy Sutherland, Elizabeth Hill, Maggie Whyte, Martha Hill, Hugh Wood, Helena Harris, Cora Whitney, Cora McCullum.

Prize for General Proficiency Grade VI, donated by Mrs. James Stables won by Margaret Stables.

Promoted from Grade IX to X. In order of merit—Reta Blackmore and Gordon Petrie, Jessie Harris, Adelaide Blackmore, Clare Russell, Charlotte Gillis, Dorothy Bell, Lottie Ulford, Cecil O'Donnell, Annie Ashford, Dick Corbett, Mildred Ross, Gladys Ronan.

Promoted conditionally—Fred McCormack and James Sargeant.

Mr. F. E. Kahn of New York City, with David Ogilvy of Oxbow as guide went up the Tobique River on a fishing trip last week, and crossed over from the Tobique River to the Little South West Miramichi Lake where they placed their canoe. At Upper Square Island their canoe upset by the force of the running water and were unfortunate enough to lose all their provisions, tents and cooking utensils. They were 25 miles from the nearest settlement and were obliged to walk this distance to Forans without food, arriving there on Sunday. They came to Newcastle by automobile on Monday morning and Mr. Kahn took the Ocean Limited for New York. Before leaving, Mr. Kahn made arrangements with Mr. Edward Menzies to come on or about September 10th for a fishing and hunting trip in the Tracadie section.

Drury Lane is also noted for its famous Christmas pantomimes, a form of entertainment seldom seen in this country. Until the advent of motion picture pantomime was sadly neglected in America. It was found in the Russian ballet, the Italian ballet, the Austrian ballet and the pantomimes at Drury Lane.

Some of the most famous of the Drury Lane melodramas have been brought to America and staged in the largest playhouses here. Great quantities of special mechanical and scenic effects were necessary to produce the race scenes and tallies filled with people driven onto the stage.

"The Sporting Duchess" created a furor in New York a score of years ago when Rose Coghlan appeared in the title role. It was so stupendous and such a costly production to transport that it was only seen in a few cities outside of New York.

It was not until the advent of motion pictures that this famous melodrama could be staged in a form suitable to show in every city and town through the country. The film version, in which Alice Joyce is starred, is even greater than the play.

SCARLET FEVER  
A case of Scarlet Fever has developed at the home of Mr. Andrew McKenzie. The house is quarantined and all necessary precautions are being taken by the authorities.

TEACHER'S INSTITUTE  
The New Brunswick Teachers' Institute is being held in Fredericton this week. Mr. Charles Stillman of Chicago, President of the American Teachers' Federation is to be the chief speaker.

### Hard To Realize She's Same Woman

#### Mrs. McClanahan Brimful Of New Life And Energy Since Taking Taniae

I have not only gotten rid of a severe stomach trouble of nine years standing since I started taking Taniae, but have gained ten pounds in weight and am still gaining," said Mrs. D. McClanahan, Green Bay, B. C. recently.

"Before I started taking 'Taniae,' Mrs. McClanahan continued, "I was so weak I could hardly get about and my appetite was so poor I had no relish for any kind of food and just had to force down every mouthful. When I did manage to eat a little something it began to ferment almost at once, I would have intense cramping pains in the pit of my stomach, and gas would form and press against my heart until it palpitated dreadfully. I suffered with such severe headaches nearly all the time they almost made me desperate, and at times I became so dizzy it was all I could do to stand on my feet. Then, too, I was extremely nervous so the least little noise would completely upset me. Why, I could not even stand the rustling of a newspaper and it was just impossible for me to get a good night's sleep, as I would toss about all night long, and I always felt worse on getting up than when I went to bed. I was also troubled a great deal with constipation and had to always be taking some sort of laxative.

"But things are altogether different now, for since taking Taniae I am completely rid of all my troubles. My appetite is simply wonderful and I can hardly eat enough to satisfy myself. I eat just anything I want without suffering any bad after effects whatever. I am never troubled with pains, gas or palpitation of the heart and have not had a headache or dizzy spell since I began taking Taniae. My nerves are in such good condition I can sleep all night long as peacefully as a child and always get up feeling greatly refreshed. I am not troubled with constipation any more and have regained my strength to such an extent, and feel so good and am so full of life I can hardly realize I am the same woman. My husband, whose stomach was in every bit as bad condition as mine was, has gotten the same results from Taniae that I have, and we both recommend it every chance we have."

Taniae is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

### Conserving Moisture In Orchard And Garden

There are some parts of Canada where the rainfall is so light that it is impossible to grow crops successfully without irrigation, whereas at the other extreme there are districts where the rainfall is so heavy that it is impossible to grow many kinds of crops because it is too wet; but in most places in Canada, while there is usually enough rainfall to grow a great variety of fruits and vegetables successfully, unless the moisture is prevented from evaporating from the soil the fruits and vegetables will suffer badly in some seasons.

In orchards, if there is a lack of moisture just after blooming, the set of fruit will be materially reduced as there will be heavy dropping, hence the importance of beginning cultivation as early as possible, and at this season of the year when there may be a severe drought, cultivation should be very thorough, the surface soil being kept loose by frequent stirring, and thus preventing to a large extent the evaporation of moisture. If moisture is conserved in the early part of the season it will be available for the crop when it is nearing maturity as, unless there is abundance of moisture at that time, the fruit will be small and the market value very much reduced. Hence, during the month of June much attention should be given to cultivation, as late in the month or at the beginning of July it will be necessary to stop cultivation in some places in order that seed for a cover crop be sown. In some parts it is necessary to cultivate until near the middle of July insure sufficient moisture for the full development of the apple crop.

There are districts in Canada where the rainfall is so light that if the orchards are in sod there will not be enough moisture for the trees, and there are soils in districts where there is a moderate rainfall where there will not be enough moisture if the orchards are in sod.

The thorough cultivation of vegetables is even more important than for fruits. The root system of some vegetables is very shallow, and the plants will soon be affected unless the ground is kept cultivated. After each rain the surface soil should be loosened so as to conserve the moisture and let the air into the ground. Some vegetables, such as celery, require more moisture than others, and these are likely to suffer badly in a dry time. In districts where the rainfall is light and there are usually poor results in the average vegetable garden, very fine crops of vegetables are obtained by good gardeners who keep the surface soil loose practically all the time.

### SAVED FROM LIFELONG MISERY

#### And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE, 2828 Union St., Vancouver, B.C. "I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

MRS. M. J. GORSE. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited Ottawa, Ont.

York. "Those whose business it is to give moving pictures to the public can no longer presuppose that they are dealing with children easily 'pacified' he stated. "They cannot say 'We give them a good picture—that is enough. The music is of no importance; as long as there is sound.' You say our audiences are composed mainly, of middle class people, foreigners, shop girls—a foreign shrug of the shoulders conveyed the breadth of those audiences—and that they do not know good music from bad or at least do not know it positively enough to demand the good. Ah! but that is where you are wrong.

"Frequently after I have spent hours over my programs, hours drilling my orchestra in tone shadings and in proper rhythms, after I have speculated and experimented with lighting effects—proof—I go to my stand and before I have directed past a third of the first page, I feel an indefinable something that means unpleasant reaction on the part of my public. They have been offended somehow by the music I selected, or disappointed. Perhaps I have made it too gay, too sad—how can I know—but that they are hostile to it I know quickly enough. I must work to change it.

"There is progress in everything. Progress in art, in letters, in music even in labor. We must keep abreast of the times. The public is no longer content to drift into some little, silly, darkened, close theatre to see a badly done picture, thrown jerkily on to a screen, one that is, perhaps, torn—it demands the satisfaction of its subtler senses. Its sense of beauty must be met, under stood, satisfied. It must feel that it is receiving something good, not something merely haphazard.

"I believe we have in New York the nucleus of a great work. We spend—oh, close to \$7,000 a week for our music in the two theatres, the Rivoli and the Rialto. You didn't realize that, did you? And we have not stopped. Now I am having a chorus trained, to work with my orchestra. The public is, but childish. The more one gives it, the more it wants. It is growing restless with the weekly cycle of solos, or an instrument now and then, it grows weary of my gondola or my sundial and garden. With my chorus I may now build—perhaps a cloister—who knows—and there will be temple music—there must be a change or my public will be bored."

### New Canadian Cent And Slot Machines

#### People Pleased With New Issue of Coin, But it Means Great Expenditure in Change of Slot Machines.

The new Canadian cent has made its appearance on the street, having been put into circulation in St. John last Thursday, and there has been no little demand for the new coin. Many people claim to have the first new coin that was issued here, while many others are sending the coins away to friends in the United States and the Old Country as souvenirs. The size of the coin, which is very little larger than the Canadian ten-cent piece, is felt to be much handier than the old coin, which was considered cumbersome, but one thing that it will have a bad effect on is the many thousands of slot machines throughout Canada which have been manufactured to handle the large coin. Gum, candy, weighing and many other sorts of slot machines will eventually have to be changed so that the new coin can be used, and this will mean an expenditure of a very large sum of money. This, however, is not looked on as a great hardship, as the greater majority of slot machines are good money-making devices and will soon pay for the cost of a change.

### Judge Wilson May Soon Retire

Rumor has it that an appointment is soon to be made to the Judgeship of the York Sunbury and Queens County Courts. It is said the present Judge, Hon. William Wilson will soon have reached the age of 75 years when the Statutes say a judge should step down and live in peace and happiness on the full salary enjoyed while in active service.

Many prominent names are mentioned from which to pick a successor to Judge Wilson when he retires. Among them are Col. McLeod, M. P. A. R. Slipp, K. C.; C. D. Richard, R. W. McLellan and H. G. Fenety, all of Fredericton.

### Tax-Collection Method Changed

As collection of luxury taxes under the present method is proving difficult, cumbersome and costly, it has been decided to abandon the whole procedure in favor of collection by means of revenue stamps. These revenue stamps will be ready by July 1, and as soon as they are available for purchase by merchants the sending of duplicates of every sales receipt covering goods which are taxable will cease. That will be a great relief to merchants throughout the country and it will be a great relief as well to George W. Taylor, assistant deputy minister of customs and inland revenue, as he will not have to provide the tremendous personnel which would otherwise have been necessary to deal with collections and accompanying vouchers.

### Weekly Agricultural Report

Seedling is reported to be practically completed in all parts of the Province, with the exception of the buckwheat and turnip crop. Weather conditions have been very favorable for putting the crop in and recent rains have given all crops a good start. The pastures have been slow in starting, owing to the cool, dry weather during May. For the same reason the hay crop has been held back and has not the growth that it often has at this time of the year. Provided that there is good growing weather during the next month, there may still be a fair crop. There is likely to be a considerable shortage of hay in some of the provinces this year. Ontario reports a crop away below the average while the same is true of some parts of Quebec.

Livestock is reported to be rapidly improving in condition since going on grass. The spring has been very favorable for raising lambs and reports indicate that there will be a large percentage raised with few losses. The largest quantity of wool ever assembled at one point in New Brunswick is now being graded at the Exhibition Buildings, Fredericton. There is still a considerable quantity of wool in the wool houses in various parts of the province. Buyers are busy, and the full market price when marketing cooperatively through this organization.

GLEASON (Seal) Notary Public Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Hall's Family Pills for constipation

### Will Movies Use Choral Singing to Supplement Their Orchestra?

Those responsible for the music at the movies have made wonderful strides in improving the musical programs. So much in fact that many people have been attending as much for the music as for the films. Recent developments make one wonder if choral singing at the moving picture theatres will not be utilized quite generally in the larger cities to supplement the work of the orchestra. This supposition arises from an interview recently given out by Hugo Riesenfeld who has done so much for the improvement of moving picture music in New

## Health and Happiness

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overdo. Nervousness, headaches, backaches and female troubles are the inevitable result.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORTHINGTON, 2843 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. Avoid them by taking in time

**Clover Harvesting And Seed Growing**

Clover seed may be grown in almost any part of Canada, and on almost any kind of soil. Although special machinery may be used in handling clover seed, it is not absolutely necessary.

The soil most suitable for clover seed are: Clay loam and Sandy loam. Clay loam, however, gives better results, as it gives a brighter and plumper seed.

Clover should follow a cultivated crop, such as corn, roots or potatoes or it should be sown on land which has been thoroughly prepared after harvesting the previous crop.

Clovers may be sown with barley, wheat or oats, barley being preferred, however, on account of its being an early ripener and less liable to lodge. The growing of clover will not lessen the yield of grain per acre and will be found a great benefit in smothering many weeds.

When seeding clover with barley 1 1/2 to 2 bushels of barley should be sown per acre, with wheat 1 1/2 to 1 3/4 bushels per acre and with oats 2 to 2 1/2 bushels per acre.

With the above quantities of grain should be sown, Common Red Clover at the rate of 8 pounds, Timothy 6 pounds, Orchard Grass .6 pounds and Alsike 2 pounds. If the soils are rich in plant food, the total may be cut to 4 pounds less.

**Harvesting**

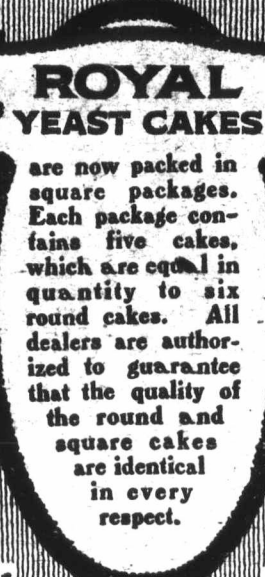

Harvesting is one of the most particular points in clover seed growing. The first crop of hay must be cut before July 1, to give second crop of the same year time to mature the seed. As to the time for harvesting the second crop for seed, no special date can be set, as so much depends on the season. As a rule clover should be cut when the majority of the heads are well browned. It is a good plan to go over the field and rub a head here and there. If the seed is soft and not properly filled, it should stand even at the loss of a few ripe heads.

In cutting, with the mower with a table, the self rake rasper and the self binder may be used, the binder has been found to be the best machine for this purpose. When cutting with the binder, the cord should be removed and the spring slackened as to follow the clover a free course to the ground. The clover, in dropping to the ground, will not coil and will be light, so that the wind and sun can easily dry it out, the windrow will be out of the way of the horses and machine and can easily be gathered with the barley fork.

The length of time which the clover should remain in the windrow depends on the weather, and on the condition in which the clover is cut. It sometimes should be allowed to remain two or three weeks. The fodder, however, should not be allowed to become black, as it would then be useless for feed. Just as soon as the forage will keep in the mow it should be gathered in. The seed can then be threshed almost anytime.

**ROYAL YEAST CAKES**

are now packed in square packages. Each package contains five cakes, which are equal in quantity to six round cakes. All dealers are authorized to guarantee that the quality of the round and square cakes are identical in every respect.

tion of our Legislature. If the result at the coming election satisfies them that the people actually want Prohibition—we are sure to get it!

**What Your Ballot Can Do in July—**

**FIRST**—Provide the way for necessary Amendments to the Act, that will make it really effective.

**SECOND**—Show the Government that the people demand Prohibition, and want the laws enforced.

**THIRD**—Hasten the election that can shut out the importation of liquor into the Province.

**SLEEP**

The other day a medical man, consulted by a patient who feared insomnia, instead of prescribing the expected drug, merely told his patient how to sleep. The threatened insomnia was banished.

One should lie on the right side—not because this affects the heart, but because it relieves pressure on the digestive organs. But the right side is not "a full right." There should be a slight tilt to the left, so that the right shoulder, and not just

**Millerton Women's Institute**

On Thursday evening, June 17th, W. I. met at the home of Mrs. L. W. Flett, the President in the chair. Roll was called and answered with the payment of yearly dues.

The President expressed her desire to be relieved from office. The Secretary read her report for the year which showed cash on hand amounting to \$83.70.

An election of officers took place which resulted as follows:—

President—Mrs. E. J. Parker.  
Secy-Treas.—Miss Jessie M. Lyon (re-elected)

1st Vice-Pres.—Mrs. M. Monahan.  
2nd Vice-Pres.—Mrs. W. McN. Matthews

3rd Vice-Pres.—Mrs. James Lyon  
Directors—Mrs. P. M. Henderson, Mrs. T. C. Miller, Mrs. L. W. Flett.  
Auditors—Miss Zella Parker and Audrey Simpson.

Delegates to Convention—M. S. M. Monahan.

The new President then took the chair and appointed as program committee—Mrs. Henderson, Misses Lyon and Flett.

11 members and 2 visitors present 1 new member received.

The July meeting will be held at the home of Mrs. Annie Cluston, Lower Derby.

**What's the Matter with Your Horse?**

Is a Splint, Curb, Cracked Hoof, Enlargement of Soft Bunch laming the animal?

Is a Cough, Cold, Distemper or Pink Eye keeping you from working him regular?

Is Colic, Kidney Trouble, Fever or a Cut or Sore making the horse thin, weak and practically useless?

Scott & Bowne, Toronto, Ont. 20-06

**Election Information**

**The Act in Brief—**

The present Prohibition Act legislates against the sale of intoxicating liquors for beverage purposes, and only allows it for manufacturing, sacramental, and medicinal uses.

The Act also provides for enforcement of the law and penalties for violation.

This Act was a war-time measure. Government now wish to know from the electors whether they still wish Prohibition continued or not.

**We know its Faults—**

Act is weak in that it allows too much latitude in the case of Doctors, Druggists and Vendors who have practically the dispensing of liquor within their own hands.

**Further Legislation Depends on You—**

Application has already been made by the Temperance people to have the Act amended in regard to recognized weaknesses and the Government is sympathetic.—But Note This—the Government put off the granting of these improvements to make the Act more effective, until the result of this election proves that the people want Prohibition, and by the majority of the vote the Government will know just how badly the Electors do want it. Your vote at this election may have every important influence on the future action of the Government.

**Are You Aware of This?—**

In 1919 an Act Passed, the House, providing that the Government shall take over the entire liquor business within the Province, for the three purposes contained in the Act, and also giving them more stringent control over the sale of extracts, essences, and tinctures.—But mark you, the Government has refused to take action on this amendment, until the voice of the people has been heard at the coming election.

**Stop Importation Our Next Move—**

Authority to Prevent the Importation of Liquor into the Province does not rest with the Province, but with the Dominion Government, which has already stated that a vote may be taken on the question in New Brunswick on the recommendation

**Another Royal Suggestion**

**BISCUITS, BUNS and ROLLS**

From the NEW ROYAL COOK BOOK

**BISCUIT!** What delicate light this word suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Royal Baking Powder and these unusual recipes.

**Biscuits**

3 cups flour  
4 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
2 tablespoons shortening  
1/2 cup milk or half milk and half water

Mix together flour, baking powder and salt; add shortening and rub in very lightly; add liquid slowly; roll or pat on floured board, to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

**Royal Cinnamon Buns**

2 1/2 cups flour  
1 1/2 teaspoons salt  
4 teaspoons Royal Baking Powder  
2 tablespoons shortening  
1 egg  
1/2 cup water  
1/2 cup sugar  
2 teaspoons cinnamon  
1 tablespoon seeded raisins

Mix 2 1/2 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/2 inch

thick on floured board; brush with melted butter, sprinkle with sugar, cinnamon and raisins. Roll as for jelly roll; cut into 1/2 inch pieces; place with cut edges up on well-greased pan; sprinkle with a little sugar and cinnamon. Bake in moderate oven 20 to 25 minutes; remove from pan at once.

**Parker House Rolls**

4 cups flour  
1 teaspoon salt  
6 teaspoons Royal Baking Powder  
2 tablespoons shortening  
1 1/2 cups milk

Mix flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients, stirring until smooth. Knead lightly on floured board and roll out 1/2 inch thick. Cut with biscuit cutter. Grease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

**VACATION TIME**  
This is the time of year for vacations or holidays. Now, vacation means an intermission of procedure, an interval in a round of duties or employment for rest and recreation. But, vacation has other meanings. It may mean an act of vacating, a making empty or leaving without an occupant, a making void or of no validity.  
It is evident that it requires some judgement to make a worthy and beneficial vacation. It should not mean a mere lapsing into indolence. A frequent question asked is "Where will you spend your vacation?" A much more important inquiry is "How will you spend your holiday?"  
A writer well says: "You can't have a happy day, a festive day without a dash of work in it. Avoiding work as the key to a happy vacation is the silliest and shallowest of subtleties. The truest rest is not doing nothing but doing something different earnestly." Holidays should have some sort of a serious effort which is necessary to stoke up the fires of character and to make a wholesomely balanced day.  
Just here is a word for many boys and girls, young men and women, who, during their school days, have been waited on by their fathers and mothers, or, if away from home, have had all kinds of sacrifices made for them. Now they are at home, and they have leisure. What a fine opportunity they will have to show their appreciation of all the kindness shown for them! They can not only wait on themselves, but they can do many things to help mother, and father.

**EDITORS MAIL**  
We are not responsible for opinions expressed by writers under this heading. Correspondents would oblige by writing legibly, and on one side of the paper only, name and address (not necessarily for publication) must always be sent. Correspondence should be as concise as possible.  
The following letters have been received from men who are well-known in this community.  
Fredericton, N. B.,  
June 18, 1920

Rev. W. D. Wilson,  
Dear Sir:  
Now that the date is fixed for holding a plebiscite in the Province on the liquor question, every effort should be put forth to retain the intoxicating liquor Act, 1916.  
Few people realize the benefits that we, as a people, have obtained by the Act. Only the heads of Police departments can fully appreciate these benefits, for with our noble brave boys coming home after the stress and strain of war, with relaxation of discipline on their part, what would have been the result had we open bars in place of prohibition? The doubling of our police force would not have enabled us to keep peace and quiet as we have. Just think, a police force of five men for the city of Fredericton. Prohibition made it possible for us to keep the peace.  
The usefulness of the Act is not past, for while our boys are doing splendidly in getting back into civilian life, there are many who need assistance to overcome the result of the nervous strain they have gone through.  
How many homes that we know are happy now, where before the Act came in was drunkenness and poverty?  
I trust that our fathers, mothers, brothers, and sisters will ask themselves what God would have them do with this question.  
I am satisfied that we need the prohibition law now as we never did before in all our lives, and before the judgment bar of God, we will be held accountable for our vote. We cannot afford to lose what we have gained and only when too late will we realize the loss, should the law be repealed. What will it be—PEACE, CONTENTMENT, and PROSPERITY with prohibition, or

**To Safeguard Your Digestion**  
The Blood Should Constantly be Kept Rich and Pure

If you suffer from any form of indigestion, your diet should be carefully chosen. Over-eating is always harmful, but at the same time one must take enough food to supply the needs of the blood. It must be remembered that the blood has to carry nourishment to every part of the body, find fuel for energy and defence against its enemies, as well as the requisite juices for indigestion. Hence, when the blood becomes weak and fails to do its work, indigestion arises; also when indigestion begins the blood still further suffers. Therefore to safeguard your digestion the blood should be kept rich and red, and this can best be done by taking a course of Dr. Williams' Pink Pills. These pills are a blood-building, nerve-restoring tonic and through their use your digestive system will respond naturally, your appetite will improve and your food will do you good. The value of Dr. Williams' Pink Pills in cases of stomach trouble is shown by the experience of Mrs. J. H. Alexander, Barrie, Ont., who says: "Some years ago I was in a terribly broken down condition. I had indigestion of a severe nature, and sharp pains of agony all through me. My stomach was so weak that it was difficult to retain food, and often after eating I would have vomiting spells. I was under medical treatment, but as I did not improve my nerves were in a terrible condition and I was always in much misery. One day I read of a woman who had been cured of similar trouble through the use of Dr. Williams' Pink Pills, and I decided to try them. The result can be summed up by saying that after using the pills for some weeks I was completely cured, could eat a hearty meal and was again enjoying life. If I feel run down at any time I take Dr. Williams' Pink Pills and always get benefit from them."  
You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

miserly and war with open bars.  
Respectfully yours,  
(Signed) W. H. FINLEY

One of the reasons why I will vote for Prohibition is because fourteen years ago, I resolved that I would do what I could to help the working men to get home to their wives and children with their wages. Since the sale of liquor or beverage purposes has been prohibited, workmen can travel anywhere with the minimum of temptation, and many illustrations could be given of how many benefits have accrued to the women and children.  
The railway trains are orderly also, public gatherings have changed for the better. These changes were brought about by the people who want votes for prohibition and against beer and wine on July 10th. The same forces opposed in 1916 and previous years as are opposing Prohibition today.  
My slogan is VOTE EARLY for PROHIBITION and against beer and wine, and work all day bringing other voters to the pole, and you will never do a greater days work for yourself and for future generations.  
DONALD FRASER

Monday's train departing from Moncton. This new sleeping car service give great accommodation to those desiring to reach North Shore points early in the morning and afford quick connection for those who want to go to points in Gaspe. Train No. 32 leaving Campbellton at 8.35 p.m. will arrive at Moncton at 2.25 a.m. and carry the through sleeper, connecting also with No. 10 for Halifax. The sleeper will not be attached to train leaving Campbellton Saturday evening.  
**Light Wines and Beers**  
To Vote For These July 10th Means to Defeat Prohibition—H.A. Powell's Unique Experience.  
H. A. Powell, K. C., who has returned recently from an eight thousand mile trip in the United States and part of Ontario made the interesting statement that during all that time he had never seen an intoxicated person, and while in association with his brother members of the Waterways Commission he had been entertained extensively he never in a single instance had the slightest indication of liquor come under his notice. Instead, Mr. Powell came in contact with the deep rooted impression that prohibition is the greatest uplifting movement of the century. By gradual process Mr. Powell expects to see similar Canadian conditions, and, in commenting upon local criticisms, the eminent lawyer referred to the fact that laws against drinking and murder had been on the statutes in England for over a thousand years, and, while crime still existed, its extent would be unthinkable without the law. Mr. Powell believes the prohibitory law is a parallel instance, and that even if deserving of criticism such facts should not discredit the law and voters should remember that a vote for light wines and beers will help to kill prohibition; also that victory July 10 means that we will ultimately have real prohibition similar to that now enjoyed in the United States.

**PRESENTATION TO REV. F. T. BERTRAM**  
The members of the congregation of the Methodist Church met at the home of Mrs. E. A. McLean on Thursday evening and presented their pastor Rev. F. T. Bertram with a purse of money, prior to his leaving, to take up further studies. Mr. Bertram replied in a very appropriate address thanking the congregation for their co-operation with him during his stay here and also the kindness shown both he and Mrs. Bertram. A very enjoyable evening was spent with games and music. After the presentation luncheon was served. The address was read by Miss Ethel Allison and Mr. Ashford made the presentation.  
The following is the address given to Mr. Bertram:  
Dear Mr. Bertram:—  
In the providence of God and the course of events the time is drawing near when our relations as pastor and people will be severed. We cannot allow the occasion to pass without an effort to express in a measure our appreciation of your labors during the period in which you have gone in and out among us as pastor. You have been ever on the alert for our betterment in a spiritual sense. From the pulpit you have never failed to deliver the whole truth and to preach the pure gospel as found in God's Holy Word. As a teacher you were most faithful, combining all the qualities which make the study of the word both attractive and helpful.  
We understand that it is your intention to pursue a further course of study and thereby fit yourself for greater usefulness in the cause of the Master whom you serve. We feel proud of the spirit which prompts your action along this line, and we assure you that our prayers and best wishes will follow you and Mrs. Bertram to your new sphere.  
Before parting we would ask you to accept this gift as a token of love and our appreciation of your faith and works.  
We trust that in the busy years to come you may occasionally draw from memory's storehouse a little thought of your friends in Newcastle. We know that if faithful it will be ours to be among the blessed when we shall "all gather home in the morning on the banks of the bright Jasper sea."  
Signed on behalf of The Congregation of the Methodist Church, Newcastle, N. B., June 24, 1920.

**Tablet Erected In Memory of Late Lt. Col. McKenzie**  
In the presence of the board of school trustees, the mayor and commissioners, Brig. Gen. A. H. MacDonnell, C. M. G., and the pupils of Albert school, West St. John, and others, the unveiling of the brass tablet to the memory of Lieut. Col. A. E. G. McKenzie, D. S. O., late commanding officer of the 26th battalion in France, and at one time principal of Albert school, took place at 3.30 Thursday afternoon. Lieut. Colonel Alexander McMillan, D. S. O., who succeeded to the command of the 26th battalion, performed the ceremony. The tablet, which is a beautiful one of brass, is eighteen by twenty inches and is mounted on an oak board from Dr. J. B. M. Baxter, K. C., in tribute to a long friendship with the gallant officer who gave his life on the battle-fields of France.

### INTERESTING LETTER FROM MR. KULINDER

The Following Letter Just Received Will Be Of Interest To Many Of Our Readers.

The following letter just received will be of interest to many of our readers.

Ursviken, Sweden,  
May 28, 1920

Dear Mr. Ferguson

Well, we are home at last! Arrived here a week ago last night, but I have not had time to write many letters.

Both myself and my wife are feeling fine, and we have had a very nice trip, and as I am going to tell you about it, I had better begin from the starting point.

I advised you by postcard from St. John that the steamer was delayed two days, and we did not, therefore, leave St. John before Monday April 26th. The trip over the ocean was uneventful except that a child died and was buried in mid-ocean. The weather was not bad, but could of course have been both worse and better.

Except for one day of sunshine, we had fog and rain most of the time. The sea was however not high for going on the ocean, and the "Metagama" is a good seaboat. Of course a lot of people were more or less seasick, but I kept myself like an old salt. In fact I never felt better in all my life. My wife stayed in bed for two days, but she was not very sick. Mr. Nilsson who accompanied us was O. K. right along.

We arrived at Liverpool at 10 o'clock a. m. on May 6th, and a peculiar coincidence was that exactly ten years had elapsed since I left Liverpool on my way to Canada. I left on May 1910 and returned on May 6, 1920.

We stopped in Liverpool over night only, and left the next morning for Newcastle-on Tyne where we embarked on a steamer for Bergen, Norway.

Before going any further in my narrative, I must mention that while crossing England one gets a fair idea of the immense industry carried on there. After leaving Liverpool the country almost as far as York, is almost covered with manufacturing towns and cities.

It does not matter where you look, you will see high chimneys and red roofs.

I may say that the journey on such a lovely day as the one we had, is worth what it cost, as the country was beautiful in its spring freshness with green fields and abundance of flowers.

We arrived at Newcastle-on Tyne 3 p. m. May 7th. Our tickets called for Gothenburg, but the steamers for said port were all booked full for two weeks so we had to go via Norway.

The steamer we went on, over the North Sea was "Haakon VII," a fine boat built for tourist traffic on the Norwegian fjords, but too small for the "angry waves of the North Sea." It did not blow very hard, but the sea was quite high and the boat rocked like a cradle. It was almost impossible to eat because nothing would keep still on the tables and lots of dishes upset. However it did not last more than one night and one day, and the second night we were under shelter of the Norwegian coast. We arrived at a town in Norway called Stavanger at 12 midnight, but I was in bed and did not see it. The following morning we steamed up the beautiful Bergansford, a trip so full of remarkable scenery, that it is hard to describe. This fjord is covered with hundreds, perhaps thousands of islands, some of which are a thousand feet or more high and snow-covered on the tops. On some of the islands you cannot discover any vegetation of any kind just a dead rock thrown there by some powerful force when the earth was created. Then again you may see an island with a little patch of green on it and a small red painted cottage probably the home of some fisherman. Occasionally an island will appear having a well built village to show passing travellers.

We arrived at Bergen 10 a. m. May 9th. This is a city of about 90,000 people, but it hardly covers more space than Newcastle and Chatham together. It is so closely built. In front of it is the fjord (bay) and behind a mountain having a snow-clad summit. A beautiful place indeed.

We stayed there over Sunday and left the following morning for Christiania, the capital of Norway. This particular part of the journey is the most interesting from a tourist standpoint. The railway is built across the mountains, and at the highest point reaches an altitude of about 6000 feet. In some places you need very good nerves because looking through the windows you will find that the railway is built right on the side of some mountain several hundred feet up in the air, and a run of would mean a sure death. Right along is snow-covered mountains. The higher up, the more snow. At the highest point—Finsko—the station was almost covered under the snow banks were the feet of more high and a number of smaller houses were covered with so much

snow that only the roof and chimneys could be seen. The thermometer registered many points below freezing.

The number of tunnels on this part of the railway are hundreds. The longest is over three miles and it takes seven minutes to pass through it. Besides the tunnels there are miles and miles of snow shields, of wood but covered like tunnels. I took some snapshots during the trip, but I have not developed the films yet.

At 10:45 p. m. we arrived at Kristiania, and as the train for Stockholm left at 6 p. m. we spent a whole day looking at this city. I took a snapshot of the royal palace among other "snaps." Christiania is lovely, very clean and well built. We left there 6 p. m. May 11th and arrived at Stockholm 8 p. m. May 12th. We stopped over in Stockholm one week with relatives. I had an opportunity of seeing the funeral of the Swedish Crown princess (daughter of the Duke of Connaught. Through unforeseen good luck we got a very favorable place and the funeral procession passed within a few feet from where we stood. I had a look at the Swedish King, the Norwegian King, the Danish King, the Swedish Crown prince and his children, Prince Arthur of Connaught and others of the royal blood whose names I don't know. The Crown Princess was very popular, perhaps the most popular princess Sweden ever had. During the years of hardship Sweden had to pass through on account of war conditions, she did more for the poor than any other woman in the country, and those who benefited by her work are thousands.

On May 19 at 6 p. m. we left Stockholm for my wife's home in the north of Sweden, and at 8:30 the following night we arrived there. We have done nothing since but gone back and forth among relatives and friends. After a few days we are going to see my people who live some 200 miles south of here.

Needless to say we are enjoying ourselves, but after ten years in Canada it seems like Canada "was home" after all.

Thanks for the Advocate. Received the first paper yesterday, May 4th issue. I tell you it was nice to see the paper. It really made me "homesick."

We were separated from Mr. Nilsson in Liverpool and as he had to take another boat he arrived in Stockholm four days later than we did. We met however a number of times while in Stockholm. He stopped with his brother who is chief engineer at a Technical High School.

Kindly remember me to all of my friends if my name happens to be mentioned.

With best regards to all.

Yours Sincerely  
A. KULINDER

**EXCESSIVE ACIDITY**  
is at the bottom of most digestive ills.

### WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

#### Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous trouble.

By improving the quality of the blood and building up the nervous system this food cure brings new energy and strength to the whole body.

50 cents a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

#### THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all. Insist on genuine "Bayer Tablets of Aspirin" plainly stamped with the safety "Bayer Cross"—Aspirin prescribed by physicians for nineteen years and proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally. Handy tin boxes of 12 tablets—also larger "Bayer" packages. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monocetateester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

#### Lift off Corns!

Doesn't hurt a bit and Freezes costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of foot. A few drops of "Freeze" will lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of foot. These corns are called "corns" and "corns" and all without one bit of pain or soreness. Try! Dr. H. H. H. H.

#### LOOK TO SARDINIA FOR CORK

World Turning to That Island for Production of Material So Much in Demand.

Cork has probably passed olive oil as the leading export of Sardinia, and Commercial Attache A. P. Dennis states that recent production has been so stimulated that a large factory at Tempio is quadrupling its capacity. The bark is stripped from the tree once in nine years. At the Tempio factory the dried bark is first thoroughly steamed and flattened out by hydraulic pressure; it then remains in piles about 30 days, when it is taken out covered with blue mold, and is carefully scraped on both sides and cut into widths varying according to the lengths of the cork stoppers desired. The strips are cut by hand into cubes, a process requiring highly skilled labor, with much care in picking out defective pieces. The corks have been rounded and tapered by high-speed cutting machines, but a new abrasive process is claimed to reduce the waste of this finishing from 20 to 30 per cent. Before the war the fine dust sold in Germany for unknown use for about \$90 a ton. At Terranova the cork is differently utilized, the best being baled in sheets for shipment, while the inferior is coarsely ground and used with a magnesium surface for walls and floor coverings. The war demand was for cork treach mattresses, which were both light and afforded protection from cold and moisture.

#### MOTOR CARS ON STAGE LINE

Old Four-in-Hand Vehicles on Nevada Roadways Succumb to March of Improvement.

Stage lines in Nevada have abandoned the time-honored four-in-hands of horses in favor of high-powered motor busses.

Daily, with clocklike precision, these big cars pound along the 100 miles of sun-bitten alkali roadway carrying passengers and mail. In much less time and far greater comfort the ranchers and business men of today speed over the same roads where once rattled the four-in-hand stage, slow, jolty and not at all certain of reaching its destination.

The cost of transportation by motor bus compares favorably with operating expenses of the horse stage. The proprietors of the lines are thorough business men and can tell to the penny the gasoline mileage of every car, the oil consumption and just how much service is obtained from tires.—San Francisco Bulletin.

#### Land Reclamation Scheme.

The British board of agriculture has inaugurated a scheme for the reclamation of land on the Lincolnshire shore of the Wash. A bank is being constructed from Wainfleet, a little below Skegness, to Freiston, near Boston (Lincolnshire), commencing at the Wainfleet end, and by this means it is hoped to recover about 12,000 acres. The work is in charge of a resident engineer in Wainfleet and will employ a large number of men, who will be selected from demobilized soldiers and sailors, and thus obviate the taking away of labor from agriculture. It is said that in the middle of the last century a reclamation scheme was started, and it was then estimated that a sufficiently large area would be redeemed from the Wash to form a new English county. The enterprise was abandoned, but experts have always maintained its practicability, which is now in the course of being tested.

#### Saw George Elliot's Ghost.

The death of Mrs. Katherine Macquoid, the veteran novelist, at the great age of ninety-three, severs another of the few remaining links with the Victorian past. A contemporary of George Elliot, Mrs. Macquoid used to tell how she once saw the famous writer in a vision.

When George Elliot went to live at Chelsea Mrs. Macquoid proposed to go and call on her. But before she could do so a remarkable and tragic thing happened.

One night Mrs. Macquoid awoke suddenly, and saw the figure of George Elliot standing between the bed and the wall. The apparition was distinct and unmistakable. On the following evening Mrs. Macquoid learned of George Elliot's death.

#### Things Looking Up in Serbia.

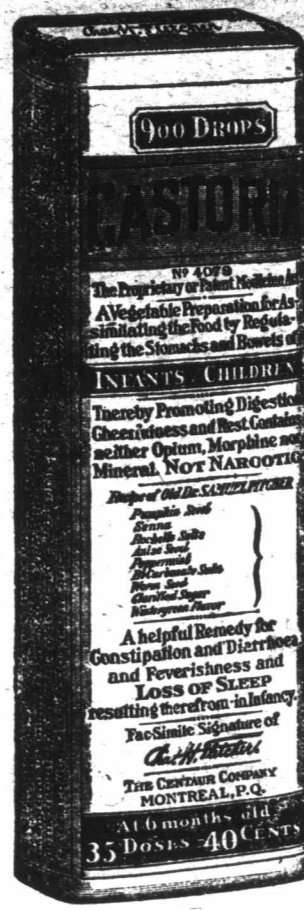

There are many evidences of bettering conditions in Belgrade, Serbia. Belgrade university opened a short-time ago. The American Red Cross is now erecting barracks to house the students during the summer.

In the spirit of the people there is a marked change for the better in the last few months. Social gatherings are more frequent, and a few moving picture theaters are in operation.

Shops in the city are gradually re-filling with stocks. Prices are high. Reports from the interior indicate a large grain harvest with a possible surplus for export to South Serbia. These reports have had encouraging effect on life in the capital.

#### China to Make Cement.

The cement requirements of North China will probably soon be supplied by domestic production. One large concern is said to control this industry in North China, and its plant is located at Tangshan, a small town about 100 miles inland from Peking, on the Peking-Tientsin railway. It is equipped with modern machinery, and secures its supply of limestone on the site of the works.

THE BORDEN COMPANY, LIMITED MONTREAL, P. Q.

## Local and General News.

**DOMINION DAY**  
Thursday July 1st is Dominion Day and the stores in Newcastle will be closed.

**DANCE TONIGHT**  
The Lord Beaverbrook Chapter I. O. D. E. are holding a Social Dance in the Town Hall tonight.

**NELSON GRADUATE**  
Gold Medal for highest standing in Hotel Dieu nurses' training school given by Archbishop Spratt, won by Miss Eva Power, Nelson, N. B.

**HORSE RACES AT MONCTON**  
Over thirty horses are now quartered at the Moncton Speedway for the races which are to be held there on Dominion Day. A large number of local enthusiasts intend to be present.

**LAWN SOCIAL**  
The Young Ladies Club of the Methodist Church will hold a Lawn Social at the home of Miss Ethel Allison, Friday evening July 2nd. Admission 25cts. Everybody is cordially invited to attend. 26-0 pd.

**GARDEN PARTY IN CHATHAM**  
The Earl of Chatham I. O. D. E. will hold a garden party on the grounds of Mr. J. W. Brankley, Wednesday July 7th in aid of Hotel Dieu and Miramichi Hospital. Admission 10 cents. Tea Tickets, 50 cents.

**TYPHOID FEVER AT BATHURST**  
About half a hundred cases of typhoid fever have appeared in the vicinity of Bathurst, mainly in West Bathurst, and several deaths have occurred. Dr. Desmond is advising inoculation and the provincial health authorities are taking all steps possible to eradicate the disease.

**NOMINATED FOR MODERATOR**  
At the quarterly meeting of Miramichi Presbytery in St. John's Church, Dalhousie on Tuesday, Prof. J. W. Falconer, D. D. of Halifax College, was nominated for the moderatorship of the Maritime Synod which meets in Pictou, N. S. in October.

**ST. JAMES' CHURCH**  
The pulpit of St. James' Church was occupied last Sunday morning by Rev. E. A. Kinley, who took as his text "Now is the Accepted time." The evening service was conducted by the pastor Rev. L. H. MacLean, who delivered a strong sermon on "True Citizenship."

**SMALLPOX**  
A case of a mild type of smallpox was developed at the home of John Kitchen, Bridgetown. All necessary precautions have been taken by the authorities and two guards have been stationed on the premises to enforce the quarantine regulations.

**MILL SAW BILLS**  
The Advocate Office has just finished printing a stock of the latest Mill Saw Bills, which was drafted up by the Mill owners on the Miramichi River. This Saw Bill is suitable for any mill on the river and we are now prepared to supply them to all desiring same. t.f.

**MADE A LIFE-MEMBER**  
On Wednesday evening, the 23rd inst. the W. M. S. held a public meeting in the vestry of the Methodist Church at which they took occasion to make Mrs. F. T. Bertram a life member of the Society.

Mrs. Bertram replied feelingly, expressing satisfaction with the work of the Society and her great pleasure in receiving such a token of the love and good-will of the members.

**TAG DAY**  
The Miramichi Hospital Aid held a Tag Day on Friday while the Haguenack-Wallace Circus was in town and the substantial amount of \$280.00 was realized for Hospital purposes. The Ladies of the Aid wish to thank all who so generously gave to the fund, and also those who were so kind in acting as collectors.

It has been decided by the Hospital Aid to make Tag Day for Hospital purposes an annual event, and by so doing an appreciable amount will be raised each and every year for this grand institution, which is doing such a good work, and at the same time the citizens will not feel the amount of their giving.

Write to-day for our big FREE CATALOGUE showing our full line of Bicycles for Men and Women, Boys and Girls.

**MOTOR CYCLES**  
**MOTOR ATTACHMENTS**  
Eagle Motor Cycles, Motor Attachments, Spare Parts, etc. Write for our free catalogue. E. W. Boyd & Son, 101 Main Street, Moncton, N. B.

C. M. Dickson, Optometrist and Optician will be at the Blackville Drug Store July 2 and 3rd.

**SCHOOLS CLOSED**  
The Public Schools closed on Friday June 25th for the summer vacation.

**FEED WHEAT FOR HENS**  
A limited quantity of Feed Wheat just arrived today.

**MARITIME PRODUCE CO.**

**DECIDED IMPROVEMENT**  
Mr. D. W. Stothart has had the front of his store painted recently, which improves in a marked degree the appearance of the street.

**BROKE HIS LEG**  
Mr. A. M. McLellan a well known insurance man of Moncton, and brother of Mrs. John Russell of this town, fell from a gasoline speeder near Hillstons on Wednesday and fractured his right leg.

**HOSPITAL AID GARDEN PARTY**  
The Hospital Aid Garden Party Committee wish to thank those who sent donations of money, food and work and helped to make it so successful. After the expenses of ice cream and printing are paid there will be a total of \$254.77.

**GOOD WORD FOR PROHIBITION**  
Sackville Post: Here is a boost for prohibition. A circus man called at this office Saturday morning, and after transacting his business entered into general conversation. In the course of his remarks he stated that while the circus was in Quebec Province, the men connected with it were drunk a good deal of the time. However, after they crossed over into New Brunswick there was no more trouble on that account.

**QUICK SALES**  
Mr. Thos. Russell is selling his Fancy Glassware and Crockery so fast that it is almost impossible for him to keep his stock of same full. However he is expecting another large shipment daily, and his many customers will find a complete stock of these goods always on hand. Mr. Russell is a firm believer in advertising, and realizes that it pays to advertise.

**POLICE COURT NEWS**  
Last Thursday night a young man was arrested by Policeman Galley in the Chinese Restaurant, for creating a disturbance there. He objected to being arrested and assaulted the policeman, making his escape. He was re-arrested the same night and brought before Police Magistrate J. R. Lawlor the following morning. His Honor fined him \$20.00 and costs for creating a disturbance and \$40.00 and costs with 6 months suspended sentence for assaulting and resisting the policeman.

**ACCIDENT ON SIDEWALK**  
In our last issue we drew attention to the disgraceful condition of the sidewalk from the Town Hall to Mascha's Corner, and requested the Public Works Committee to have the walk repaired immediately. At the time of writing same was unguaranteed that Mrs. John McCallum had received a fall on this sidewalk the previous Saturday, and sprained her hand so badly that she was obliged to have it treated by a doctor, who informed her that she would altogether likely be without the use of her hand for the balance of the summer. This, without a doubt proves our contention that the sidewalk is a dangerous one and should be repaired at once. Mrs. McCallum was most fortunate in not receiving more serious injuries, but if the sidewalk is not put in a safe condition, our town fathers may have a case for damages instituted against them by some one who may not be as fortunate as Mrs. McCallum.

**MRS. DANIEL McDONALD**  
The funeral of the late Mrs. Daniel McDonald was held Thursday afternoon, service at the house was conducted by Rev. L. N. McLean, pastor of St. James Presbyterian church of which the deceased was a devoted member. Interment was in the family lot in St. James' cemetery and the service at the grave was conducted by Rev. Mr. McLean. The floral tributes were beautiful and are as follows:—  
Pillow—The family.  
Wreath—Mother and sisters.  
Spray—Granddaughters Louise and Thelma McDonald.  
Wreath—Granddaughter, Floral McDonald.  
Wreath—Members L. O. L. 47 Lodge.

Wreath—Mrs. J. Morton and boarders, Moncton, N. B.  
Spray—Mr. and Mrs. E. H. Stuart, and family, Sunny Brae.  
Wreath—Mr. and Mrs. T. Hay.  
Spray—Mr. and Mrs. Aage Malmborg.  
Wreath—Clifford Cameron, Chatham, N. B.  
Spray—Mrs. J. W. Lawrence, Chatham, N. B.  
Cut flowers—Mr. and Mrs. G. McDonald, Chatham, N. B.  
Spray—Miss Fanny Alcock.  
Cut flowers—Mrs. George Robinson.  
Wreath—Mr. and Mrs. T. E. J. Martineau.

**LABOR PARADE**  
The Labor Unions of the Miramichi District will hold a gala day in Chatham on Thursday, July 1st.

**CARD OF THANKS**  
Mr. Daniel MacDonald and family wish to thank their many friends for kindness shown during their recent sad bereavement.

**GARDEN PARTY AND TEA**  
The Garden Party and Tea held last Tuesday afternoon by the Miramichi Hospital Aid on the grounds of Mr. W. A. Park was despite the wet weather most successful. A large attendance was present and in the vicinity of \$255.00 was cleared.

**TWENTY-FOUR YEARS IN PARLIAMENT**  
Ottawa, June 23—Sir Robert Borden took his seat in the House today to the accompaniment of general applause. It marked the twenty-fourth anniversary of Sir Robert's entry into parliament. His desk bore a huge bouquet of American beauty roses.

**PARTNERSHIP FORMED**  
Mr. R. V. McCabe who for several years has been the popular office manager of the Dominion Pulp Co. and who severed his connection with that firm shortly before it was taken over by the new owners, The Fraser Company Ltd. is starting out in business for himself and has formed a business partnership with Mr. John W. Bowes. They will engage in pulpwood brokerage.

**THIS INTERESTS YOU**  
Mrs. House-keeper That granite pot or pan is still of use, if that little hole was stopped, also that hot water bag. Send them to J. G. Kethro seventh house, Radio Street. If no means of sending the articles, send postal and I will send for them if not too far.

Yours,  
J. G. KETHRO,  
Newcastle, N. B.

**HUNDREDS OF WOMEN REGISTER**  
The women are taking wonderful interest in the coming referendum on prohibition. About one hundred persons whose names had been omitted from the voting list have been placed on the list. Hundreds of women have registered in various sections of the country, but their number will not be known until the several districts are heard from statistically. Registration closed at noon on Friday.

**NEW TRUST COMPANY**  
Moncton, N. B. June 22—At a general organization meeting of the Central Trust Company of Canada held here this afternoon and evening, H. M. Wood, of Sackville, was elected president, and Hon. C. W. Robinson, of Moncton, J. D. Palmer of Fredericton, and R. C. Tait, Shediac, vice-presidents. The following additional directors were elected: A. E. Trives, Sackville; C. W. Fawcett, Sackville; W. F. Ferguson, E. A. Kelly, F. R. Sumner, J. A. Marven, Reid McManus, A. C. Chapman, Moncton; Fred Hargre, Fort Elgin; Wm L. Carr, Woodstock; E. H. Sinclair, Newcastle; Angus McLean, Bathurst; William S. Richards, Campbellton; P. G. Mahoney, Melrose; Hon. D. J. E. Hetherington, Cady's.

**PLANS FOR CELEBRATION ON FIRST OF JULY**  
Plans for a monster celebration of the glorious First of July are being made by the I. L. A., which will be held in Chatham.

First and foremost there will be the big parade in the morning which will assemble at Elm Park, march the round of the town and finally break up at the exhibition building where the days fun will then begin. The parade ought to be the biggest of its kind as there are 2300 men ready to take part and if the various industries will put in floats etc., it will be a great treat to watch.

Then at an expense of over \$400 the big Perry band of Moncton is being brought here, along with the famous Estonian baseball team of the same city. While the ball game goes on in the afternoon there will be square dances in the exhibition building, and again at night when a band concert will be given and round dancing enjoyed to the strains of Perry's Peerless Players.

### Guard Baby's Health In The Summer

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. 50c a box. Dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
